[CONTINUED.] The concentrated gall and wormwood of all umanity was in his voice as he answered; "She is my wife!"

Then a fearful silence followed. He broke it, "Well, Shirley, you don't congratulate me on my wedded bliss?"
She gave him a terrible look. "You have deceived me," she said.

"I have. It is true I saved your life a moment ago, but that is nothing. I have let you believe a falsehood. And my name is not George Morrison. It is Philip Dumoray. The dare devil of his reckless youth was uppermost in him again now. He strode across and stopped beside her with his white, blood streaked face and wounded hand. He stood so close to her that the blood from his hand dropped and stained the sleeve of her ma white dress. She shrank from him with and you deceived me."

PEDIGREE:

Rysdyk's Hambletonia Seely's American Sta Laura Keens. Farmer's Beauty. Celia C.

ANCHESTER not only possesses a fashionable combination of blood lines, but what is of equal importance, those lines are inherited from producing stock through both sire and dam. The Star Hambletonian cross is regarded the best in the world for producing fast game trotters. Dexter, the first trotter to get a mark of 2.17\frac{1}{2}, was by Rysdyk's Hambletonian, from a daughter of Seely's American Star. Nettie, 2.18, and Orange Girl, 2.20, were bred in precisely the same lines, as were also Jay Gould, 2.21\frac{1}{2}, and Artillery,

2.21½, the two fastest stallions got by Rysdyk's Hambletonian. Dictator, by Rysdyk's Hambletonian, dam by Seely's American Star got Jay-Eye-See, 2.10, the fastest gelding by the records that ever lived. Sadie D., the first yearling trotter to get a record of 2.35½, was by Sherman's Hambletonian, and he too was by Rysdyk's Hambletonian out of a daughter of Jack Sheppard, the sire of Manchester, is brother in blood to Dexter, 2.174; tie, 2.18; Orange Girl, 2.20; Jay Gould, 2.214; Artillery, 2.214, and a large Nettle, 2.18; Orange Girl, 2.20; Jay Gould, 2.214; Artillery, 2.214, and a large number of other successful turf performers as well as noted trotting sires. Jack Sheppard does not rely upon relationship to noted ancestors for fame, however. He has proved himself a worthy representative of the Star Hambletonian cross, by producing such fast game turf performers as Minnie C., 2.254; Clara M., 2.294; Jack Sheppard, jr., 2.294; and Abrogast, 2.294; all of which might undoubtedly have got faster records, as they could trot quarters close to 35 seconds, a 2.20 gait. The fastest of these, Minnie C., was also out of a daughter of Taggart's Abdallah, making Manchester brother-in-blood to this speedy mare. Ball's Coiled Wire Corsets,

All the produce of Celia C., the dam of Manchester, were fast. One of her sons, Beachmont, got a record of 2.314, and could show much faster. Her sire, Taggart's Abdallah, got the stallion All Right, sire of George E. Lee, 2.234, and other fast ones. St. Lawrence, whose son got the dam of Celia C., was himself a noted trotter. His son, Kinkend's St. Lawrence, got the dam of the famous brood mare Waterwitch, which brought Viking, 2.194, Mambrino Gift, 2.20, and Scotland, 2.212. From the fact that the old saying, "Blood will tell" has proved true in the past it is confidently expected that Manchester will get fast trotters that will have speed and courage enough to enable them to stay the route. His form and gait are fully up to his choice breeding, and he is in every respect a worthy descendant of the popular Star Hambletonian cross, which has produced, not only some of the fastest, but the very best gaited trotters that ever appeared upon a trotting course.

Manchester in looks and conformation is first-class. He stands 15½ hands high; has broad, flat, cordy legs; good length of neck; strong back; best of quarters, with sloping shoulders. He is finely gaited and a trotter of no mean ability now. He will be allowed to cover fifteen approved mares at \$15.00 each, for the season. Than you or I can know.

We little dream of the conflict Fought in every human soul, And Earth knows not of her heroes Upon God's honor roll.

One of earth's little heroes Right proud am I to know; His name for me is Mother, My name for him is Joe. At thought of a 10-year-old hero Perhaps many have smiled, But a battle-field's a battle-field In the heart of a man or child.

There were plans of mischief brewing, I saw, but gave no sign, For I wanted to test the mettle Of this little knight of mine. Of course you must come and For we all depend on Joe,'

For his answer—yes or no.

He stood and thought for a moment, I read his heart like a book, For the battle that he was fighting Was told in his earnest look. Then to his waiting playmates
Outspoke my loyal knight:—
'No, boys; I cannot go with you,
For I know it wouldn't be right.

How proud was I of my hero
As I knelt by his little bed
And gave him the bedtime kisses, And the good-night words were said. True to his Lord and manhood May he stand in the world's And shun each unworthy action, Because it 'wouldn't be right.

OLD PEOPLE WHO ARE YOUNG IN THEIR WAYS, AND THOSE WHO ARE NOT. Dickens says: 'If all had hearts like those which beat so lightly in the bosom of the young and beautiful, what a heaven this earth would be ! If, while our bodies grow old and wither, our hearts could but retain their youth and freshness, of what avail would be our sorrows and sufferings? But the faint image of Eden, which is stamped upon them in childhood, chafes and rubs in our struggle with the world and soon wears away; too often to leave nothing but a mournful blank remaining. How true and beautiful this sentiment is; but is it always the contact with the rough side of the world that leaves the heart hard and blank? Is it not often the indulgence of bitter feelings of envy and econtent that sour and turn to wormwood and gall many of the sweets of life? Because we do not prosper as well as our neighbor, we fret and imagine our lot harder than any one else, and look upon it as 'luck,' and are therefore bitter in feeling against those who are more fortunate than ourselves. It is the yielding to evil passions and tempers that make the heart grow old; the inclination to look on the dark and gloomy side of everything, or to use a familiar adage, 'crossing the bridge The Summer School of Science was for- before we get to it.'
