CANADA LUMBERMAN

PUBLISHED BY

The G. H. Morimer Publishing Co.'s
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly, a 2-page journal, discusses fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and banner sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber machinery.

AUCTION SALE OF VALUABLE TIMBER LIMITS AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of
February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable du Fond, Province of Ontario. The limits are in one block containing 1200 square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Beauclair station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

Ottawa, 4th Dec., 1901.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do millwright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle" care this paper for further particulars.

CURRENT TRADE CONDITIONS. ONTARIO.

It is difficult to give a statement of the lumber market that will show the true situation, but it may be said with certainty that the tendency of white pine prices is upwards. Very few manufacturers are now issuing price lists, for the reason that they have not sufficient stock to offer. Almost every grade is well sold out, the heaviest stocks, perhaps, being in mill culls and common pine plank. Prices of the higher grades have shown a wide fluctuation during the past two weeks, as some manufacturers are apparently more impressed than others with the scarcity of these grades, and are asking correspondingly higher prices. This is also true in respect to lath and shingles, as is demonstrated by the fact that an Ottawa valley manufacturer is asking \$3.50 for No. 1 lath at the mill. This figure, however, does not represent the average market quotation. There is considerable inquiry for stock for future delivery, and the trade are inclined to

the opinion that prices next season will be fully as high as in 1901.

In hardwoods there has been some improvement. Carload shipments of elm, birch and maple to the United States are being regularly made by manufacturers in the Warton district, and it is said that the inspection has not been as severe as last year, thus indicating a stronger market. It is now certain that fewer hardwood logs will be taken out this season than last winter, as millmen are beginning to realize that it is more profitable to leave the timber on the stump than it is to sell it as lumber when prices are low and inspection hard.

QUEBEC AND NEW BRUNSWICK.

Late report from the eastern provinces seem to show that conditions are quite favorable for spruce lumber. Stocks in most districts are below what they were one year ago, while enquiries for next year's cut are quite numerous. South American specifications are much in favor, and if the demand should continue large shipments will be made to that country next season. Full prices are being asked and will no doubt be obtained, as the log supply is likely to be small and insufficient to keep the mills at work throughout the season. Cedar shingles continue strong, on the basis of \$3.30 for extras, Boston delivery. Ocean freights have fallen and are dull, while rail freights to the United States rule high.

MANITOBA AND BRITISH COLUMBIA.

The lumber movement at the present time is confined largely to finishing material. This is comparatively large, as building operations in Winnipeg during the past year were on an extensive scale. There is a good outlook for next spring, as retail dealers are not heavily stocked. British Columbia mills continue busy. Several vessels are loading at Chemainus for Australia. The freight market has strengthened considerably, the rate being fully three shillings higher than six weeks ago. There is an exceptionally strong demand for cedar logs. More camps than usual are at work, and a scarcity of men is reported. It is feared that there will be a break in the shingle market owing to the increased production resulting from the several new mills about to be put into operation.

UNITED STATES.

The holiday season has curtailed the lumber demand, but the market has lost none of its strength. On the other hand,

the year closes with high prices and the outlook favorable for a continuation of a firm and advancing market. This applies to almost every class of lumber, with white pine occupying the first position. The upper grades are so scarce that it is impossible to find a sufficient quantity to meet the requirements of the market, while the lower grades are gradually becoming stronger. It is reported that in Toronto prices of the lower qualities have recently been advanced quite sharply, and dealers are predicting a further advance on some items within the next month. It is estimated that Chicago dealers who heretofore bought most of their stock at Duluth and Ashland have purchased at least one hundred million feet of white pine lumber at interior mills to be shipped to their yards next season. In Cleveland dealers are asking an advance of from \$1 to \$2 a thousand on select, fine common and No. 1 and No. 2 shop. Numerous enquiries are in the market for hemlock lumber. The base price in New York is now established at \$15, while during the last week prices have advanced in North Tonawanda until some items are selling at the base price of \$16 and as high as \$17 in a few instances. The hardwood market continues to show a fair degree of activity. There is a good demand for basswood, elm, and black ash. At a meeting of the Chicago Hardwood Lumber Exchange held last week, discussion revealed the fact that firsts and seconds basswood, birch and ash were extremely scarce, also that many of the dealers were selling some varieties of lumber at less than they could be replaced. Accordingly, advances were decided upon.

GREAT BRITAIN.

As usual at this period of the year, the business doing in lumber is of a quiet character, yet the British market seems to be breaking away from the weakness and uncertainty which characterized it through the greater part of the past year. Some shippers have not yet submitted

their price lists for next season. The question now seems to be how much higher prices will go for the first open-water stocks. This is particularly the case in respect to Canadian lumber, which is showing marked strength. Considerable quantities of spruce deals are said to have been bought for next year at high figures, but even if freights can be obtained at the present rates, which are extremely low, the opening prices are not likely to be below those now ruling. The stock of spruce in all the United Kingdom ports is abnormally low, especially in Liverpool and the Bristol Channel. A very light stock of 11 x 3 and 9 x 3 is held. While pine deals are in heavier stock than spruce, they are rapidly going into consumption. The stock of waxy pine is very small and the prices asked for next season's production are said to be the highest ever known. The Importers Section of the Timber Trade Federation took no action at their meeting last week regarding prices, on the ground that it was not practicable to pass a resolution defining any particular course.

SOCKS AND PRICES.

John Jamieson expects to have half a million feet of lumber to ship from Bloomfield, N.B., in the spring.

The city of Winnipeg is asking for tenders up to January 9th for the supply of from 500 to 1,000 cords of cedar.

John Whalen, of Sussex, N.B., who is lumbering for Mr. Mooney, of St. John, expects to get out 2,000,000 feet of logs this winter.

The Saginaw Lumber & Salt Company are announced to have sold to Quebec shippers 200,000 cubic feet of waxy board pine to be taken out this winter in the Georgian Bay district.

The Dominion Government is asking for tenders up to January 13th for a permit to cut timber on berths No 995 and 996, in the Province of Manitoba, and until January 20th for a permit to cut on berth No. 998. The two first berths contain an area of 9 square miles each, and the last berth an area of 160 acres.

LAKE OF THE WOODS DISTRICT.
A correspondent writes THE CANADA LUMBERMAN regarding lumbering operations in the Lake of the Woods district as follows:

Lumbering operations in this district are much greater this season than heretofore. The large crop in Manitoba has stimulated the lumber business, and I am looking forward to next season being the most active in our history. There will be cut about 35 million feet, board measure, of saw logs. Labor is in good demand and very fair wages are being paid. The Canadian Pacific Railway Company has let contracts for one and one-quarter million ties and about 10,000 piles and one-quarter million fence posts. This is much in excess of former contracts and points to railway construction in the west. The Northern Railway Company has let contracts for one-quarter million ties and a large quantity of telegraph poles and fence posts. The Northern Railway, or what is known as the Rainy River Railway, is going to open up a large territory, well covered with all kinds of timber. There is a large portion of the territory on which no pine timber has been cut, and I have no doubt that the time is approaching when it will be sold, as the danger from fire is so great along the line of the railway that it necessitates the disposal of the timber in close proximity to the line.

There is a demand for timber of less value than heretofore, by reason of connection with Winnipeg. Cord wood along the valley of the Rainy River is now worth \$2.50, with a large demand.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)
Available stocks are scarce and prices firm in the local lumber market. Business is dull, a dullness attributable to the scarcity of supply and the cessation in manufacturing operations. The principal planing mills have closed down, to resume business about Jan. 5th. At present all hands are engaged stock-taking, reviewing the year's business and planning for the future.

Shingles are not to be had in any considerable quantities, and lath is very

scarce. Good strips and shorts are also about sold out, and the same may be said of 1 1/4, 1 1/2 and 2 inch sidings. Nearly all this stock has passed into third hands, albeit the builder and other consumers.

Circulars sent from a leading mill on Monday quoted prices suggestive of the Klondyke. The prices at the mill ran as follows: No. 1 white pine lath, \$3.50; No. 2 ditto, \$3.25; No. 1 red pine lath, \$3.25; No. 2 ditto, \$3.00. It is a question whether these prices can be obtained. Prices already quoted rule in other lines. Everything points to an upward movement, however, as the available stocks are small.

Reports from the limits go to show that the weather conditions are now more favorable than they were earlier in the season. All the larger lakes are fit for traffic and recent thaws have improved the roads.

Mr. T. C. Elmitt, of the firm of Hurdman & Elmitt, left last Monday on a business trip to Alabama and Tennessee. He will be away until the middle of January.

Notice has been given that an appeal will be entered by Mr. Alexander Fraser, defendant in the celebrated suit of De-zouche vs. Fraser. Judge Leavergue gave an order calling for defendant a statement of proceeds of sale of limits owned by the firm of Frazer & McCoshan; the latter was Mrs. De-zouche's first husband. The limits were sold after his death. Proceedings were instituted by the widow to determine what share if any her children, the minor heirs of McCoshan; were entitled to. About \$500 is involved.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

FOR SALE.

It is rumored that King Bros., of Quebec, have sold their timber limits, mill properties and railways in the province of Quebec to a Glasgow syndicate, who will further develop the properties and put on a special line of steamers to South America.

The Cutler and Savidge Lumber Company are reported to have sold their saw mill located at Cutler, Algoma district, to the Wright Lumber Company, of Bay City, Mich. It is understood that the deal does not carry with it the timber limits in Ontario owned by the company.

New Mill Erected 1901. Capacity 100 Million a Year.
Spicer Shingle Mill Co., Limited

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you promptly and in large quantities with a high-grade shingle would not only be a fish and a bear story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business, but we are nice people too, and as we have been in the trade as long as any of them, and a great deal longer than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to our knowledge.

Our old mill was burned down in May last, and in its place we have built what is at the present time the Largest Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about 100 Million a year.

Competent judges who have seen our new mill, tell us that it is one of the most substantial, carefully constructed, and best planned mills in this province. We ourselves think it is the very best shingle mill in B. C.; and we know that it is equipped with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closes at the end of this year. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have prompt attention.

We want our share of your shingle business, and can guarantee your satisfaction in every particular.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.

We make a fine 18-inch Shingle.

We make a fine 24-inch Shingle.

We make all thicknesses from 6-2 inch to 6-3/8 inch.

They are going out of our different mills at the rate of 300,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

THE BOSTON MARKET.

Spruce lumber Boston is in the steady, quiet demand that is almost always incident to this particular season.

Western pine increases in firmness, under the supply steadily growing less. Business is seasonably quiet.

mon, 1 inch, \$48; 1 1-4 to 1 1-2 inch, \$54; 2 inch \$55, 2 1-2 to 3 inch, \$63 to \$65; 4 inch, \$70; barn boards, \$23 to \$32; coffin boards, \$25 to \$28.

Hardwood lumber is steady in prices, with the demand steady, of moderate proportions: One inch, whitewood, \$38 to \$40; thicker, \$39 to \$42; 3/4 inch, \$30 to \$35; saps, inch, \$25 to \$30; common, \$23 to \$25; quartered oak, \$56 to \$65; fancy, \$70 to \$75; plain oak, \$40 to \$47; black ash, \$40 to \$50; white ash, \$45 to \$55; cherry, \$90 to \$130; maple, \$32 to \$40.

Shingles continue scarce, with the market firm, though the demand is small: Extra cedar, \$3.25 to \$3.30; clear, \$2.85 to \$2.95; second clear, \$2.30 to \$2.35; sap, \$2.15 to \$2.25; extra No. 1, \$1.75 to \$1.85; Washington and British Columbia, 16 in, five butts to 2 ins, \$3.40 to \$3.50.

Clapboards are still scarce and firm, but the demand is small: Extra spruce, \$32 to \$33; clear, \$30 to \$31; second clear, \$27 to \$28; extra No. 1, \$18 to \$20; pine extra, \$48 to \$50; clear, \$43 to \$45; second clear \$38 to \$40.

Laths are quiet and unchanged: One and five-eighth inch, \$3.15; 1 1-2 in, \$3.10.
