Mr. Mackenzie King (Prince Albert), by leave of the House, introduced a Bill No. 1, An Act respecting the Administration of Oaths of Office, which was read the first time.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy which he read to the House as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

It affords me much pleasure to greet you at the commencement of another session of parliament, and to be able to congratulate you upon the continued prosperity of the country. The year 1929 was the most productive year in the history of Canada. In industries, other than agriculture, employment reached the highest point on record; new construction was the largest known. Mining production was of unequalled value. Manufacturing production surpassed all previous records. There was vast increase in the development of hydro-electric power. The products of our fields and our herds reached higher standards of excellence and quality than at any previous time. The Dominion is already recovering from the seasonal slackness evident at the end of the year, and it is not to be forgotten that the bulk of the 1929 wheat crop still remains in Canadian hands for final disposition.

Our trade with foreign countries has shown marked increase. During the year additional Trade Commissioners' offices have been opened in several countries, and additional steamship services inaugurated to Australia and South America. Tenders have been called for proposed extensions of steamship

services to India and British East Africa.

Our two railway systems have carried out extensive construction and development plans, and are contemplating further construction and developments. The final section of the Hudson Bay Railway has been completed. The construction of the Welland Ship Canal is now nearing completion. On the opening of the new canal the Upper Lake grain carriers will be able to reach Lake Ontario and Upper St. Lawrence ports. The work of providing suitable terminals is proceeding.

Legislation will be introduced respecting the several railway properties formerly privately owned and now embraced in the Canadian National Railway

system

For some time past my Ministers have been giving special attention to those problems which for many years have been a source of controversy between the provinces of Canada and the Dominion. Among matters of concern have been certain economic and financial readjustments deemed by the provinces essential to their being placed in a position of equality one with the other. To a greater or lesser extent, problems have arisen with respect to all the provinces of Canada. Those of the Maritime provinces were investigated by the Royal Commission on Maritime Claims and have been in large part solved by the effect given to the recommendations of that body. Consideration is at present being given to the final revision of the financial arrangements contemplated by the Commission's report.

The provinces of Manitoba, Saskatchewan and Alberta have negotiated for many years with the Government of Canada for the return of their natural resources. The province of British Columbia has sought the restoration to the province of lands comprising what is known as the railway belt and Peace River block. With the provinces of Manitoba and Alberta and with the province of British Columbia agreements have been reached, which will be submitted to you for approval. An offer similar in character and terms to that accepted by Alberta has been made to Saskatchewan with respect to the transfer to that

province of its natural resources.

The provinces of Ontario and Quebec have been concerned over the question of water powers in their relation to navigation. It having become apparent, through a reference to the Supreme Court, that this question cannot readily be settled by judicial determination, a solution has been sought by conference which it is hoped will lead to a satisfactory settlement of this highly controver-

sial problem.

My Ministers have also been making careful inquiry into the workings of the provisions and administration of the Pensions Act with a view to ascertaining what, in the light of past and present experiences, may be necessary to ensure full effect being given to the purpose of Parliament in that enactment. As a result your attention will be invited to legislation to make more adequate provision for the needs of the veterans of the Great War and their dependents.

The report of the Royal Commission appointed to inquire into the existing situation with respect to radio broadcasting in Canada will be presented for

your consideration.

The report of the Royal Commission appointed to inquire into the classification and remuneration of technical and professional officials of the Civil

Service of Canada will also be presented for your consideration.

During the year a complete reorganization was effected in the personnel of the Board of Grain Commissioners. Men of outstanding business, agricultural and scientific experience have been appointed to administer the Canada

Grain Act. A Bill will be presented for the consolidation of the Canada Grain Act, in accordance with the recommendation of the Standing Committee of the

House of Commons on Agriculture at the last session.

At the September meeting of the Assembly of the League of Nations, the Optional Clause of the Statute of the Permanent Court, providing for the submission of justiciable disputes to arbitration, was signed on behalf of Canada and all the other nations of the British Commonwealth. It will be submitted for your approval.

In accordance with the recommendations of the Imperial Conference of 1926, a conference was held in London during the past autumn to consider and report on certain phases of the operation of Dominion legislation and merchant

shipping. The report of this conference will be submitted.

In the summer of last year, an invitation was extended by His Majesty's Government in Canada to all His Majesty's other Governments to participate in an Imperial Economic Conference in Canada at the earliest possible date. It was found that the convenience of the majority of the Governments could best be met by an arrangement to hold the Imperial Economic Conference along with the Imperial Conference in London in the early autumn of the present year. This has accordingly been arranged.

Canada, in common with the other members of the British Commonwealth of Nations, is participating in the Conference on the Limitation of Naval Armament, which was opened in London by His Majesty on January 21st. It is confidently hoped that the discussions so auspiciously begun will result in a marked lessening of international rivalries and the growth of security and

good-will.

The eligibility of women for appointment to the Senate of Canada has been declared by the Judicial Committee of the Privy Council, and I have been pleased, on the advice of my Ministers, to avail myself of the earliest opportunity to summon a woman to the Senate. For the first time in Canadian history, women have been accorded an equal right with men to representation in both Houses of Parliament.

Among other measures to which your attention will be invited are amendments to the Elections Act, the Bankruptcy Act, the Companies Act, and the

Criminal Code.

Members of the House of Commons:

The Public Accounts of the last fiscal year and the Estimates for the coming year will be submitted for your consideration.

Honourable Members of the Senate:

Members of the House of Commons:

In again inviting your careful consideration to the important matters which will engage your attention, I pray that Divine Providence may continue to guide and bless your deliberations.

On motion of Mr. Mackenzie King (Prince Albert), it was ordered, That the Speech of His Excellency the Governor General to both Houses of Parliament, be taken into consideration on Monday next, and that this order have precedence over all other business except the introduction of bills, until disposed of.

On motion of Mr. Mackenzie King (Prince Albert), a Special Committee was appointed to prepare and report with all convenient speed, Lists of Members to compose the Select Standing Committees of this House under Standing Order 63, said Committee to be composed of Messrs.: King (Kootenay East), Stewart (Edmonton West), Casgrain, Hanson and Stewart (Leeds).

Mr. Mackenzie King (Prince Albert), delivered a message from His Excellency the Governor General, which was read by Mr. Speaker, as follows:—Willington.

The Governor General transmits to the House of Commons a certified copy of an approved Minute of Council appointing the Honourable W. R. Motherwell, Minister of Agriculture, the Honourable J. H. King, Minister of Pensions and National Health, the Honourable J. C. Elliott, Minister of Public Works, and the Honourable Fernand Rinfret, Secretary of State, to act with the Speaker of the House of Commons as Commissioners for the purposes and under the provisions of Chapter 145 of the Revised Statutes of Canada, 1927, intituled: "An Act respecting the House of Commons."

Government House, Ottawa, 20th February, 1930.

Mr. Speaker laid before the House the Report of the Chief Electoral Officer, in conformity with Section 75 of the Dominion Elections Act.

Also his Report of the By-Elections held during the year 1929, pursuant to Subsection 6 of Section 73 of the Dominion Elections Act.

And also,—Report of the Joint Librarians of Parliament, which is as follows:—

REPORT OF THE LIBRARIANS FOR 1929

To the Honourable the Speaker of the House of Commons.

The Joint Librarians of Parliament have the honour to submit their Report for the year 1929.

The Supplementary Catalogue of books donated to, and purchased by the

Library is in the hands of the printers and will shortly be available.

The Librarians desire to note the death, during the past year, of Colonel A. H. Todd, who retired from the Library in January, 1926. Son of Dr. Alpheus Todd, the well-known constitutional authority and former Librarian, Colonel Todd rendered faithful and important services to the Library of Parliament for a period of more than 56 years.

The Carnegie Endowment for International Peace, as in former years, has presented many valuable works to the Library. Amongst welcome gifts received from other sources are the documents of the League of Nations, and the publications of the International Court of Justice. A complete set, also, of the

publications of the International Labour Bureau has been received.

The more strictly Parliamentary section of the Library, including books on economics, has been reinforced by the acquisition of new editions of standard works and the purchase of important new books. The recently-published four-teenth edition of the Encyclopaedia Britannica has been purchased. Three volumes of the new Dictionary of American Biography have been received. This work when finished will comprise twenty volumes, and will constitute the most important attempt to cover this large field.

Correspondence with the Provincial governments and with the various Harbour Commissions has resulted in the Library being supplied with practically all their latest reports and documents, and the Librarians desire to acknowledge the courteous manner in which their requests have been met.

The Parliamentary Librarian visited a number of the important libraries in Great Britain during the past summer. As in the case of all libraries at the present time, not excluding the Library of Parliament, the vast modern output of printed matter makes the question of shelf-room a difficult problem to deal

with. In some cases, such as that of the British Museum, it has been found advisable to remove to another building, some distance away, the whole of the

immense mass of bound newspapers.

After discussion with the London Agents of the Library of Parliament, and by the courtesy of the Controller of H.M. Stationery Office and of the Keeper of the Records, arrangements have been made by which the Library of Parliament will be continually supplied with copies of all those Record Office publications that are of special value to the Library, such as the Calendars of State Papers which include the Domestic, Foreign and Colonial Series.

The Parliamentary Librarian desires here to express his appreciation of the courtesies extended to him by Mr. R. Farquharson Sharp, keeper of the Printed Books at the British Museum, by Dr. Hagberg Wright of the London Library, by the Librarian of the National Library of Scotland and by Mr. Harlow of

the Rhodes Foundation Library at Oxford.

The General Librarian begs to observe that the large number of volumes purchased, in the usual course, during the year, has increased to a serious extent

the congestion of his division.

The Dominion Archives, invited to take part in a retrospective Exhibition concerning the French colonies and North America, borrowed from the Library a small collection of coins and medals of historical interest. M. G. Lanctot, who represented his department at Paris on this occasion, on returning the borrowed specimens, presented the Library with a copy of the special illustrated General Catalogue of this Exhibition. This publication constitutes a notable contribution to the history of North America and Canada before 1760.

The Gerald E. Hart catalogue of a collection of coins and medals, bought from this gentleman in 1882, and the printing of which has been authorized by the Joint Committee of the Library, has been copied, and will be handed to the

printers at an early date.

Respectfully submitted,

MARTIN BURRELL, J. DE L. TACHÉ Joint Librarians.

Library of Parliament, Ottawa, February 20, 1930.

The House then adjourned at 4.37 o'clock p.m., until Monday next, at 3 o'clock p.m.

And a Debate arising thereon;

Mr. Neill raised a Point of Order on the ground that he had on the Order Paper a Notice of Motion with regard to the same question.

Mr. Speaker ruled the Point of Order not well taken because the rule governing anticipation of debate was one that should be interpreted in the strictest manner possible and also because the said amendment differed from the Notice of Motion standing in Mr. Neill's name on the Order Paper.

From this decision Mr. Neill appealed to the House.

And the question being put by Mr. Speaker: Shall the ruling of the Chair be sustained; it was decided in the affirmative on the following division:—

2421-18

The House resumed the adjourned Debate on the proposed motion of Mr. Dunning: That Mr. Speaker do now leave the Chair for the House to resolve itself again into Committee of Ways and Means.

And the Debate continuing;

Mr. Bennett, seconded by Mr. Stevens, moved in amendment thereto,—That all the words after the word "That" be struck out, and the following substituted therefor:—

"while this House welcomes and approves of every measure that will afford to Canadian agriculture, industry and labour an equal opportunity and fair competition in the development of the rich and varied natural resources of the Dominion, and provide for the extension of inter-Empire trade by mutually advantageous preferences and agreements, with due regard, in either case, to the interests of consumers, it is of opinion that the proposals which were submitted by the Minister of Finance on May 1st, are in several important respects so completely at variance with the policies of this government, as heretofore declared by its official leaders in parliament and elsewhere, that this administration having lost the confidence of the country, cannot safely be entrusted with the direction of the fiscal policy of Canada nor the carrying into effect of proposals to which it has heretofore been opposed and which constitute a breach of its solemn pledges to the electorate, and which are deceptive, fail to estimate the financial results of their operations and which create distrust of and contempt for representative institutions."

And a Debate arising thereon, and continuing;

At six o'clock, p.m., Mr. Speaker left the Chair, to resume the same at eight o'clock, p.m.

8 P.M.

OTTAWA, THURSDAY, 8th MAY, 1930

Prayers.

Mr. Euler, a Member of the King's Privy Council, laid before the House,—Copy of regulations made by the Department of National Revenue respecting the valuation of importations of furniture from the Southern States.

Mr. Rinfret, a Member of the King's Privy Council, presented,—Return to an Order of the House of the 24th March, 1930, for a Return showing: The names, occupations and salaries of persons employed in the different departments of the Government, including the House of Commons, the Senate, the Royal Canadian Mounted Police, and the Canadian Legations abroad, since the coming into force of the Civil Service Act, who, at the time they entered the Civil Service, had not a previous residence of three years in Canada, and for what reasons, in each case, an exception was made to the provisions of the Civil Service Act respecting previous residence in Canada of applicants for positions in the Civil Service.

The House resumed the adjourned Debate on the proposed motion of Mr. Dunning: That Mr. Speaker do now leave the Chair for the House to resolve itself into Committee of Ways and Means, and the proposed motion of Mr. Bennett in amendment thereto:—

That all the words after the word "That" be struck out, and the following substituted therefor:—

"while this House welcomes and approves of every measure that will afford to Canadian agriculture, industry and labour an equal opportunity and fair competition in the development of the rich and varied natural resources of the Dominion, and provide for the extension of inter-Empire trade by mutually advantageous preferences and agreements, with due regard, in either case, to the interests of consumers, it is of opinion that the proposals which were submitted by the Minister of Finance on May 1st, are in several important respects so completely at variance with the policies of this government, as heretofore declared by its official leaders in parliament and elsewhere, that

this administration having lost the confidence of the country, cannot safely be entrusted with the direction of the fiscal policy of Canada nor the carrying into effect of proposals to which it has heretofore been opposed and which constitute a breach of its solemn pledges to the electorate, and which are deceptive, fail to estimate the financial results of their operations and which create distrust of and contempt for representative institutions."

And the Debate continuing;

Mr. Fansher (Last Mountain), seconded by Mr. Spencer, moved in amendment to the said amendment:-

That all the words after "it is of opinion that" in the amendment in the 6th line thereof, be struck out and the following substituted therefor:-

"the Government having definitely adopted the principle of increased Protection, modified only by certain extensions of the British Preference, it is to be regretted that more effective consideration has not been given to the position of Agriculture and Labour, but that, on the contrary, the changes made in the Iron and Steel Schedules will result in an increased cost in respect of all Structural work and the machinery of production, and further, that the best interests of Canada would be served by a more substantial increase in the British Preference, particularly as affecting Textiles and other articles of a similar character, together with a modification or abandonment of the regulations requiring a 50 per cent Empire Content which have largely nullified the effect of any preference given;

"That a much larger proportion of our revenues should be provided for

through direct taxation, more especially through the Income Tax;
"We further wish to state our conviction that these and other changes in our Fiscal Policies are not of themselves a solution of our modern economic problems but that effective encouragement should be given to the development of co-operative principles, having regard to production, distribution and the utilization and control of credit."

And a Debate arising thereon, and continuing, the said Debate was, on motion of Mr. Prévost, adjourned.

The House then adjourned at 10.45 o'clock, p.m., until to-morrow at 3 o'clock, p.m.

By leave of the House,—Mr. Power moved, That the House do now return to Routine Proceedings; which was agreed to.

Mr. Power, from the Special Committee on Pensions and Returned Soldiers' Problems, presented the following as its Fifth Report:—

The Committee was appointed on March 3rd, 1930, and consisted of nineteen members. It held twenty meetings and has examined, chiefly on the subject of this report, thirty-five witnesses, of whom twenty-four were officers of or interested in service organizations and nine were departmental officers.

Honourable Members of the Senate Committee appointed to consider analogous problems attended many of the meetings of the Committee, although not specifically experiented to act in the theory.

not specifically appointed to act jointly therewith.

The principal point with respect to the operation of the Pension Act which has impressed the Committee has been the number of applications for benefit under it which are made and require to be considered, even after an interval of nearly twelve years from the conclusion of the war. At present there is not, and cannot be, anything in the nature of public hearings at which the considerations for and against the granting of applications can be canvassed in the presence of those interested, with the result that, however carefully the written records, in many cases admittedly incomplete, may be examined and considered by the Board of Pension Commissioners, many applicants for pension are, rightly or wrongly, disinclined to believe that their cases have received the comprehensive and detailed consideration which they think they deserve.

This attitude of mind on the part of the applicants is intensified by the fact that the whole burden of critically examining the grounds upon which claims are put forward must, under the present system, be assumed by the

members of the Pension Commission and its staff.

Naturally, applicants whose applications have been refused have regarded the Commission's adverse conclusions as having been due to its having too zealously discharged its duty as guardian of the public treasury, and have consequently denied its impartiality. Since many applications must necessarily be refused, the result has been widespread dissatisfaction among the very class of persons who claim to be those for whose benefit the Pension Act was passed.

The main recommendations of the Committee which are submitted herewith in the form of a Bill to amend the Pension Act are therefore directed to meeting the fundamental difficulties above indicated. Their chief purpose is

to provide machinery whereby (1) every applicant for pension will be afforded full opportunity to be heard, that is, that he will have his "day in court," and (2) that the body charged with adjudicating on applications will have imposed upon it no function except that ordinarily imposed upon judicial tribunals, namely, the function of hearing the representations made to it on both sides and

coming to a conclusion on evidence openly adduced in court.

It is proposed to leave the Pension Board to perform, in the first instance, a duty identical with that with which it is now charged, that is, the duty of considering all applications made and of granting those which, upon the material available, it appears proper to grant. In addition to the Pension Board, however, it is proposed to set up a Pension Tribunal consisting of nine members whose functions will be exclusively judicial. A quorum of this court will ordinarily be two, eight of the members being assigned in pairs to specific territorial areas into which the country will be divided and in which they will hold public hearings at which will be heard all representations that may be made on behalf of any applicant whose application the Pension Board has, for any reason, considered that it cannot grant. The territorial areas are not specified in the Statute, their definition and the assignment of members of the court to each being left to the Chairman of the Tribunal, who will himself reside at Ottawa.

To ensure the proper presentation of cases before the Tribunal and, so far as possible, to shorten its proceedings, it is considered desirable to provide for the representation before the Tribunal not only of the applicant, but also of the public which provides the funds of which the Tribunal is empowered to dispose. The Committee accordingly, suggests that authority should be given for the organization of a Veterans' Bureau staffed with pension advocates, and also for the appointment by the Pension Commission of a staff of counsel. It will be the duty of the pension advocates to prepare on behalf of the applicant the material which should be submitted to the Tribunal in support of the application, and of the commission counsel to examine the material with a view of conceding before the Tribunal all those points which may properly be conceded in the applicant's favour, and at the same time of directing the Tribunal's attention to any matters which appear to require its special consideration in order that it may arrive at a proper decision.

Finally, in addition to the Pension Tribunal, the Committee proposes the establishment of a Pension Appeal Court to which an appeal will lie in cases falling within certain categories so defined as to include the more important cases affecting individuals only and all cases of general interest with which the Tribunal will be called upon to deal. This court will, according to the Committee's proposal, consist of three members who will sit together at Ottawa and hear appeals on the record and material submitted to the Pension Tribunal without hearing further evidence, but will be empowered in any case in which the record is for any reason unsatisfactory to remit the case to the Tribunal for re-hearing. In unappealed cases the decision of the Tribunal will, of course, be final and binding, and this will also be true of the decision of the Pension

Appeal Court in any case in which an appeal is taken.

In addition to the foregoing questions of organization and procedure the Committee proposes the enactment of a general rule governing the Commission, the Pension Tribunal and the Appeal Court, whereby all reasonable inferences are to be drawn in favour of the applicant, who is to be given the benefit of the doubt, the rules stating that the applicant is to be relieved from the obligation of giving conclusive evidence in favour of his right, an obligation which it is in many cases quite impossible for him to discharge.

The remaining amendments proposed deal with particular points in respect of which the operation of the Pension Act as it stands has been found unsatisfactory. The Committee proposes that the Chairman of the Pension Commission should be given power to regulate the meetings of the Commission, that the provisions of the present Act requiring application for pension in respect of death to be made within three years after the death complained of or within three years after dependency arises be repealed, that members of the forces who have accepted final payments in lieu of pension should be entitled to be restored a pension, notwithstanding that their disabilities have not increased, and that the present provisions designed to prevent marriage being entered into for the sake of the widow's pension should be modified by providing that a widow who has married a pensioner should be entitled to a pension upon his death from an injury or disease attributable to service if the marriage took place either before the pension was granted of before January 1st last. The other changes proposed by the Committee relate only to matters of detail in respect of which minor amendments are necessary by reason of the principal changes recommended.

The Committee has had under consideration a number of further suggestions, but has limited its recommendations for the amendment of the Act to those to which reference has already been made, since it considers that the remaining suggestions may advantageously be allowed to stand over for further consideration until experience has been obtained as to the working out of the new organization now proposed.

The Committee desires to acknowledge the great assistance which it has received from officers of the service organizations and others who have spared no

pains to give the Committee every possible assistance.

The Committee begs to recommend that of this report there be printed 2,500 copies in English and 300 copies in French, these to be distributed in the same manner as its day-to-day proceedings. It further recommends that the Order of Reference, Reports, Proceedings and the evidence, together with a suitable index to be prepared by the Clerk of the Committee, be printed and appear both as an appendix to the Journals of the House and in separate blue book form, 500 copies in the latter form being printed in English and 200 copies in French. For the purpose of the foregoing it recommends that Standing Order 64 be suspended.

The House resumed the adjourned Debate on the proposed motion of Mr. Dunning: That Mr. Speaker do now leave the Chair for the House to resolve itself into Committee of Ways and Means, and the proposed motion of Mr. Bennett in amendment thereto:

That all the words after the word "That" be struck out, and the following substituted therefor:-

"while this House welcomes and approves of every measure that will afford to Canadian agriculture, industry and labour an equal opportunity and fair competition in the development of the rich and varied natural resources of the Dominion, and provide for the extension of inter-Empire trade by mutually advantageous preferences and agreements, with due regard, in either case, to the interests of consumers, it is of opinion that the proposals which were submitted by the Minister of Finance on May 1st are in several important respects so completely at variance with the policies of this government, as heretofore declared by its official leaders in parliament and elsewhere, that this administration having lost the confidence of the country, cannot safely be entrusted with the direction of the fiscal policy of Canada nor the carrying into effect of proposals to which it has heretofore been opposed and which constitute a breach of its solemn pledges to the electorate, and which are deceptive, fail to estimate the financial results of their operations and which create distrust of and contempt for representative institutions."

And the proposed motion of Mr. Fansher (Last Mountain) in amendment to the said amendment:-

That all the words after "it is of opinion that" in the amendment in the 6th line thereof, be struck out and the following substituted therefor:

"the Government having definitely adopted the principle of increased Protection, modified only by certain extensions of the British Preference, it is to be regretted that more effective consideration has not been given to the position of Agriculture and Labour, but that, on the contrary, the changes made in the Iron and Steel Schedules will result in an increased cost in respect of all Structural work and the machinery of production, and further, that the best interests of Canada would be served by a more substantial increase in the British Preference, particularly as affecting Textiles and other articles of a similar character, together with a modification or abandonment of the regulations requiring a 50 per cent Empire Content which have largely nullified the effect of any preference given;

"That a much larger proportion of our revenues should be provided for

through direct taxation, more especially through the Income Tax;

"We further wish to state our conviction that these and other changes in our Fiscal Policies are not of themselves a solution of our modern economic problems but that effective encouragement should be given to the development of co-operative principles, having regard to production, distribution and the utilization and control of credit."

After further Debate thereon, the question being put on the amendment to the amendment; it was negatived, on the following division:—

Your Committee have considered the suspension of Standing Orders 92 and 95 in connection with the application of E. H. Muir of Portage la Prairie, Manitoba, and others, for a private bill to incorporate The Portage la Prairie Mutual Insurance Company.

Mr. McPherson, the sponsor, was heard in explanation. He stated that the application had not been proceeded with at an earlier date on account of the absence of the solicitor, who was retained before the Provincial Legislature.

The Clerk of the House laid on the Table the following Private Bill:—

On motion of Mr. Morin, the Second Report of the Select Standing Committee on Standing Orders was concurred in.

Mr. Mackenzie King (Prince Albert), a Member of the King's Privy Council, laid before the House the following Order in Council:—

P.C. 1053

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 16th May, 1930.

The Committee of the Privy Council have had before them a Report, dated

15th May, 1930, from the Secretary of State, submitting:-

1. That by Order in Council P.C. 664, dated 15th April, 1929, a Royal Commission composed of: Edward W. Beatty, Esq., President of the Canadian Pacific Railway; Sir George Garneau, Quebec, and Dr. Walter C. Murray, LL.D., Saskatoon, was appointed to enquire into rates of salaries, pensions, etc., of

Technical and Professional Officials of the Civil Service of Canada.

2. That by Order in Council P.C. 1195, dated 2nd July, 1929, the said Royal Commission was authorized to include within the scope of its enquiry the salaries of Civil Service Commissioners, Board of Pension Commissioners, Railway Commissioners and all officers having the rank of Deputy Ministers and also all such employees of the Government whether subject to the Civil Service Act or not.

3. That the said Royal Commissioners have submitted their report containing certain recommendations and suggestions among which is the follow-

ing:-

"27. Suggested further investigation of the Civil Service generally.

During the course of our inquiry, we were impressed with the fact that those engaged in technical, scientific and professional work for the Government, though they formed a very important branch of the Civil Service, were still in numbers only a moderate proportion of the total engaged in Government service. The cost of government, measured by salaries or wages alone, is substantial, and the number of employees very great. Having in mind the obvious desire of the Government, as indicated by the reference to us, to improve the status of its technical officers with a view to increasing the efficiency of that branch of the service, it has occurred to us that an investigation of the Civil Service generally, i.e., as to numbers, nature of work and rates of pay, might conceivably result in some economy and greater efficiency. We are sensible of the fact that such a work is of considerable magnitude and would involve careful scrutiny of the personnel in each department, and that it would take a considerable time, but we believe the results would more than justify

the expense of such an investigation. We appreciate, of course, that this is not a subject which has been referred to us, and that our observations are not strictly pertinent under the terms of the Order in Council, but the information adduced during the course of the inquiry has pointed so strongly to the possibility of an effective and valuable work being done in this way, in a further effort to improve the personnel and increase the efficiency in Government service, that we felt we might, without impropriety, suggest for the consideration of the Government that at the appropriate time it might profitably be undertaken."

The Minister further submits that in his opinion it is advisable that such investigation should be undertaken without delay; also that the advisability of fixing a minimum salary for employees in the Civil Service should be con-

sidered.

The Committee, therefore, on the recommendation of the Secretary of State, advise that a Supplementary Commission be issued to the said Commissioners extending the scope of the enquiry to include such investigation, and also the advisability of fixing a minimum salary for employees in the Civil Service.

(Sgd.) E. J. LEMAIRE, Clerk of the Privy Council.

The House resolved itself again into Committee of Supply.

(In the Committee)

At six o'clock, p.m., Mr. Speaker took the Chair.

By leave of the House, Sir Eugène Fiset presented the Third and Final Report of the Select Standing Committee on Railways and Shipping owned, operated and controlled by the Government, which is as follows:—

Your Committee, to whom was referred for consideration and for report to the House the estimates on the Canadian National Railways, the Canadian Government Merchant Marine, the Canadian National (West Indies) Services, and the Maritime Freight Rates Act requirements, held five meetings in the course of which it examined sundry witnesses, including:—

Sir Henry Thornton, K.B.E., Chairman of the Board and President, C.N.R.;

CANADIAN NATIONAL RAILWAYS

Your Committee has had under consideration Item 321 of the supplementary estimates, which provides for loans or guarantees of \$6,010,639.89 to the Canadian National Railway Company, being supplemental to Item 336 of the estimates of 1929-30. Your Committee is of the opinion that this amount is necessary for the purposes of the Company and should be voted by this House.

Your Committee has also had under consideration Item 323 of the estimates, which provides for loans or guarantees of \$51,600,000 to the Canadian National Railway Company for the year ending December 31st, 1930. These estimates have, in accordance with the practice of the last two years, been prepared on the basis of the full calendar year to coincide with the railway fiscal year and avoids overlapping and the tendency to confusion which existed when the annual report of the railway was on the basis of the calendar year and the estimates on the basis of the federal fiscal year.

The annual report itself was divided into three sections as follows:—

- 1. That containing the result of operations of the Canadian National Railways exclusive of the Eastern Lines.
- 2. That containing the result of operations of the Eastern Lines as defined by the Maritime Freight Rates Act.
- 3. A summary showing the income account of the system as a whole including Eastern Lines.

Your Committee notes that the operating results for the year 1929 were not as favourable as those of the previous year, due almost entirely to the reduced crop in the Prairie Provinces and to marketing conditions. Another disturbing feature was the depreciation of values on the stock market and the resulting lethargy in business during the latter part of the year.

Your Committee was given a full explanation of the reorganization of the Central Vermont Railway, Incorporated, and of the consolidation of the properties formerly known as the Grand Trunk Western Lines. In view of the explanations given, your Committee is of the opinion that this amount is necessary for the purposes of the Company for the coming year and should be voted by this House.

CANADIAN GOVERNMENT MERCHANT MARINE

Your Committee has had under consideration Item 324 of the estimates,loan to the Canadian National Steamships (Canadian Government Merchant Marine, Limited)—to be applied in payment of deficits in operation of the Company and of the vessels under the Company's control during the year ending December 31st, 1930, and capital requirements, amounting in all to \$400,000.

Your Committee examined the report of operations for the year ending December 31st, 1929, and notes that the results have been more favourable than those of the previous year, due to the discontinuance of certain unprofitable routes.

Your Committee also reviewed the balance sheet of the Company and is of the opinion that the amount of \$400,000, included under Item 324 of the estimates, is required for the purposes of the Company and should be granted by this House.

CANADIAN NATIONAL (WEST INDIES) SERVICES

Your Committee had under consideration Item 325, loan to the Canadian National (West Indies) Steamships, Limited, whose steamships provide the services called for by the West Indies Trade Agreement.

Your Committee notes that the operations for the year ending December 31st, 1929, resulted in an operating loss of \$447,841.28, which being the first year's operations are as satisfactory as could be anticipated.

Your Committee is of the opinion that the amount asked—\$870,000—is necessary for the requirements of this service in accordance with treaty obligations and should be voted.

MARITIME FREIGHT RATES ACT

Your Committee has had under consideration Item 322 of the further supplementary estimates 1929-30—\$627,390.34—being supplemental to Item 340 of the estimates of 1929-30. Your Committee is of the opinion that this amount is necessary and should be voted by this House.

Your Committee has also had under consideration Item 327 of the estimates, to provide for the payment to the Canadian National Railway Company, as required by the Maritime Freight Rates Act, of the deficit in receipts and revenues, incurred during 1930, on Eastern Lines, the amount of the estimated deficit being \$4,750,000, and in addition a sum of \$2,450,000, representing the estimated amount by which the revenues of the Eastern Lines will be lessened during the coming year by the reduced rates granted under the Maritime Freight Rates Act in accordance with the recommendations of the Duncan Commission. By reason of the special considerations involved in the Maritime Railway situation, with which the House is familiar, your Committee is of the opinion that these amounts are necessary to give effect to the Maritime Freight Rates Act in the operation of the Eastern Lines, and should be granted by this House.

Your Committee has also had under consideration Item 326, to provide the sum of \$1,000,000 from which privately owned railways operating in territory covered by the Maritime Freight Rates Act shall be reimbursed the difference between normal tolls and the special tolls provided by that Act. Your Committee is of the opinion that this amount is necessary to implement the provisions of the Act in that regard and should be granted by this House.

BILL 130

Your Committee to whom was referred Bill 130, "An Act respecting the Canadian National Railways, and to provide for the refunding of certain maturing financial obligations," have taken the said Bill under consideration and have agreed to report the same without amendment.

BILL 131

Your Committee to whom was referred Bill 131, "An Act respecting the Canadian National Railways, and to provide for certain financing in connection with certain lines of railway located principally in the State of Vermont," have taken the said Bill under consideration and have agreed to report the same without amendment.

A copy of the evidence taken by your Committee is appended.

(For Minutes of Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 2)

8 P.M.

(The Order for Private and Public Bills was called under Standing Order 15)

(Private Bills)

Mr. Simpson moved, That Mr. Speaker do now leave the Chair for the House to go into Committee of the Whole on Private Bills (pursuant to Standing Order 110); which was agreed to.

2421-23

The following Bills were severally considered in Committee of the Whole, reported without amendment, read the third time and passed, on division, viz:—

2. Your Committee recommends that Bill No. 39 be not further proceeded

A Message was received from the Senate informing this House that the Senate had passed the following Bills, without any amendment:-

Bill No. 54, An Act to incorporate Pine Hill Divinity Hall.

Bill No. 34, An Act to amend An Act to incorporate the Canadian Bible Society auxiliary to the British and Foreign Bible Society.

Bill No. 44, An Act respecting a certain patent of Edgar D. Crump. Bill No. 24, An Act respecting a certain patent of George Yates.

And also,—A Message informing this House that the Senate have passed the following Bill, to which the concurrence of this House was desired:—

Bill No. 300 (Letter H6 of the Senate), intituled: "An Act respecting a

certain patent of Stauntons Limited."-Mr. Geary.

On motion of Mr. Johnston (Long Lake), the Bill No. 300 (Letter H6 of the Senate), intituled: "An Act respecting a certain patent of Stauntons Limited," was read a first and a second time and referred to the Select Standing Committee on Miscellaneous Private Bills, pursuant to the Special Order made the 9th May, instant.

On motion of Mr. Mackenzie King (Prince Albert), it was resolved,—That on and after Saturday, the 24th of May, instant, and every day thereafter, except Sundays, until the end of the present session, the House shall meet at eleven o'clock, a.m. That in addition to the usual intermission at six o'clock, p.m., there shall also be an intermission every day from one to three o'clock, p.m., and that the order of business and procedure shall be the same on Saturdays as on Fridays.

Mr. Rinfret, a Member of the King's Privy Council, laid before the House, by command of His Excellency the Governor General,—Twenty-first Annual Report of the Civil Service Commission of Canada, for the year 1929.

Mr. Gardiner, from his place in the House, asked leave under Standing Order 39, to move the adjournment of the House for the purpose of discussing a definite matter of urgent public importance, namely, the hydro-electric development of the Soulanges section of the St. Lawrence river between lake St. Francis and lake St. Louis by the Beauharnois Power Corporation Limited and its various subsidiary companies including the Beauharnois Light, Heat and Power Company.

The government has approved of the above development by passing Order in Council, P.C. 422, March 8, 1929, and in so doing the government has not accepted the plan for this undertaking recommended by the joint board of

engineers, dated November 16, 1926.

Further, apparently the Beauharnois Light, Heat and Power Company and Beauharnois Power Corporation Limited, have violated and exceeded the terms and conditions imposed on them by the said Order in Council, and in so doing have committed acts which justify a demand for an explanation by the government as to whether or not there is an agreement between the government and R. O. Sweezey and his associates who own and control the said company or corporation whereby the whole of the unallocated portion of this section of the St. Lawrence river will be turned over to them for exploitation.

The government should disclose to parliament the reasons for its non-acceptance of the said recommendation of the joint board of engineers, and the government should further disclose to parliament whether or not there is an agreement as above indicated between it and R. O. Sweezey and his associates, and if there is no such agreement the government should take such action as in the premises is proper and requisite.

He then handed a written statement of the matter proposed to be discussed to Mr. Speaker, who having read it to the House, requested those members who

supported the motion to rise in their places;

And more than twenty members having risen to support the motion, Mr. Speaker accordingly called upon the member to propose his motion.

Mr. Gardiner, seconded by Mr. Garland (Bow River), then moved,—That the House do now adjourn.

After Debate thereon, the said motion was, by leave of the House, with-

drawn.

A Message was received from the Senate informing this House that the Senate had passed the Bill No. 49, An Act respecting Fair Wages and an Eight Hour Day for Labour employed on Public Works of the Dominion of Canada, with an amendment, which is as follows:—

Page 2, line 33.—For subclause (2) of clause 5, substitute the following:—
"(2) All regulations made under this Act shall fifteen days after the date
of the first publication thereof in the *Canada Gazette* have the same force and
effect as if they had been included herein."

Also,—A Message informing this House that the Senate had passed the Bill No. 50, An Act respecting a certain patent application of Thomas Bernard Bourke and George Percival Setter, with an amendment, which is as follows:—

Page 1, line 30.—After clause 1, add the following as clause 2:—

"2. If, during the period when the application was forfeited and before the date of publication of the notice of the petitioner's intention to apply to Parliament for the passing of this Act, any person has acquired any right in respect of the inventions to which that application had reference, then, in the event of the Commissioner of Patents making, as provided for by section one of this Act, an order restoring and reviving that application, every such right shall be deemed to have had and to have the same force and effect as if this Act had not been passed; but nothing in this section shall be deemed to derogate from the provisions contained in sections seven and eight of *The Patent Act* or to deprive the applicant of any benefit therefrom."

And also,—A Message informing this House that the Senate had passed the Bill No. 51, An Act respecting a certain patent application of Harry Barrington Bonney, with an amendment, which is as follows:—

Page 1, line 27.—After clause 1, add the following as clause 2:—

"2. If, during the period when the application was forfeited and before the date of publication of the notice of the petitioner's intention to apply to Parliament for the passing of this Act, any person has acquired any right in respect of the inventions to which that application had reference, then, in the event of the Commissioner of Patents making, as provided for by section one of this Act, an order restoring and reviving that application, every such right shall be deemed to have had and to have the same force and effect as if this Act had not been passed; but nothing in this section shall be deemed to derogate from the provisions contained in sections seven and eight of *The Patent Act* or to deprive the applicant of any benefit therefrom."

The House resolved itself again into Committee of Ways and Means, and further progress having been made and reported, the Committee obtained leave to sit again at the next sitting of the House.

At eleven o'clock, p.m., Mr. Speaker adjourned the House without question put, pursuant to Standing Order 7, until to-morrow, at three o'clock, p.m.

After Debate thereon, the question being put on the said motion; it was

agreed to.

The House resolved itself again into Committee of Ways and Means.

And the House continuing in Committee;

At six o'clock, p.m., Mr. Speaker took the Chair.

By leave of the House, Mr. Speaker informed the House that a Message had been received from the Senate informing this House that the Senate had passed the Bill No. 139, An Act to incorporate The Hamilton Life Insurance Company, with an amendment, which is as follows:--

Page 1, lines 26 and 27.—Strike out the words "divided into forty thousand shares of the par value of twenty-five dollars each."

By leave of the House, Mr. McPhee, for Mr. Hay, from the Select Standing Committee on Banking and Commerce, presented the Eighth Report of the said Committee, which is as follows:—

Consideration has been given to a Resolution of the House of Commons

dated March 5th, 1930, and referred to this Committee, viz:-

That, in the opinion of this House, consideration should be given to the setting up of a system of intermediate credits for agriculture.

Two sessions of the Committee were held, during which this reference was

under discussion.

As directed in the Order of Reference, the Committee conducted a study of intermediate credits for agriculture, but owing to pressure of other work they have not been able to give it the attention so important a subject deserves.

Mr. C. S. Tompkins, the Inspector of Banks, was examined and requested

to obtain sundry information.

It is recognized by the Committee that the basic industry of agriculture is handicapped for want of such credit facilities as are called for by the Resolution.

It is true that Short Term Loans are taken care of by the banking system, and those covering Long Terms more or less by the Long Term Loan Act, and mortgage companies; but that with the slow turnover of the farmers' business, the third type of credits as mentioned above is essential to his success.

Your Committee, therefore, recommend that the subject is of sufficient importance that the matter be given attention by the Department of Finance,

and if possible, bring it to the attention of a future Parliament.

By leave of the House, Mr. McPhee, for Mr. Hay, from the Select Standing Committee on Banking and Commerce, presented the Ninth Report of the said Committee, which is as follows:—

Your Committee have considered the following Bills and have agreed to

report them without amendment, viz:-

Bill No. 263 (Letter V4 of the Senate), An Act respecting the capital stock

of Prudential Trust Company, Limited.

Bill No. 306 (Letter U4 of the Senate), An Act to incorporate Industrial Loan and Finance Corporation.

By leave of the House, Mr. Morin, from the Select Standing Committee on Standing Orders, presented the Third Report of the said Committee, which is as follows:—

Your Committee have considered the suspension of Standing Order 92 in connection with the divorce application of Marjorie Mary Gwendolyn Dempsey Davis. Mr. Crankshaw of Montreal, solicitor for the petitioner, appeared before your Committee and explained that owing to difficulties which occurred in securing positive evidence to present before the Divorce Committee the case could not be proceeded with until late in the session. The evidence in question being finally secured the case was proceeded with; petition to the Senate was filed on May 15th. This date being after the time for receiving petitions for Private Bills in the House of Commons it was thought advisable to await the result in the Senate before requesting a suspension of the Standing Order in relation thereto. The Senate having passed the Bill, your Committee recommend that Standing Order 92 be suspended in reference to the above named application, and that the petition be now read and received.

On motion of Mr. Morin, the said Report was concurred in.

Mr. Speaker then left the Chair to resume the same at eight o'clock, p.m. 2421-25

The said Order was discharged and the Bill withdrawn.

The Order for Private and Public Bills having been disposed of;

The House resumed in Committee of Ways and Means, and further progress having been made and reported, the Committee obtained leave to sit again at the next sitting of the House.

And it being eleven o'clock, p.m.;

By leave of the House, Mr. Power, from the Special Committee on Pensions and Returned Soldiers' Problems, presented the following as its Seventh Report:—

Your Committee, in the course of its inquiry into the various matters relating to soldiers' problems, resolved to institute a thorough investigation upon the complex problem of the soldier settler on land. A sub-Committee composed of Mr. Speakman as Chairman and of certain members of your Committee with whom were associated two members of the House for deliberative purposes was appointed by resolution. Valued assistance was given by the two members. The sub-Committee submitted its findings in the form of a report centaining recommendations which your Committee has considered at its regular sitting. The said report and recommendations were unanimously agreed to. The sub-Committee's proceedings and the evidence taken by them will be found in Nos. 15 and 16 of the Committee's Proceedings which have already been distributed for the information of the House. Hereunder follows the sub-Committee's report, which is also submitted to the House to be considered and concurred in.

Report of Sub-Committee on Soldier Land Settlement

Your sub-Committee, to whom was entrusted the task of investigating and reporting upon the conditions of our soldier settlers, and the problems with which they are faced, together with the duty of suggesting such legislative amendments as might solve these problems, beg leave to report as follows:—

A considerable number of meetings have been held, and we have had with us such witnesses, representatives of the soldier bodies, and members of the Soldier Settlement Board, as might assist in the performance of this difficult and important task. We have also considered the reports of the Committee of the Legion which had carefully investigated this matter, and the suggestions therein contained, and have had full access to all the information in the possession of the Soldier Settlement Board.

As a result of our enquiries and discussions we are of the opinion that a large number of the soldier settlers who are still upon the land cannot hope to succeed unless their burden of indebtedness is reduced in a substantial manner. It is not our purpose at this time to enlarge upon the present position of the soldier settler, the details of which will be found in the printed evidence, but rather to present the conclusions to which we have arrived as to the legislative action we believe to be wise and necessary, and which are as follows:—

(1) That the time limit within which any soldier settler who has not already appealed and who is dissatisfied with his award on revaluation may lodge an appeal before the Exchequer Court, be revived and extended to January 1, 1931.

- (2) That no contract as between a soldier settler and the Soldier Settlement Board as to which a dispute may arise, shall be rescinded, save by order of a District or County Judge, before whom both parties may appear after due notice has been given.
- (3) That we approve, and recommend the continuance of, the practice of advancing small loans for breaking land to settlers upon brush farms who have cleared a reasonable acreage of such land.
- (4) That the total outstanding indebtedness of all soldier settlers who are still in active occupancy of their farms should be reduced by the amount of 30% (thirty per cent), to take effect upon the last Standard Day, 1929, or, in the case of settlers whose applications for revaluation have not yet been finally dealt with, immediately after the final award has been given. Provided that in no case the amount of reduction granted shall exceed the total of the debt still owing by the settler to the Board.
- (5) That all live stock liens held by the Board shall be released, the said live stock to become the absolute property of the settler.

In addition to the problem of the soldier settler proper, we have had under advisement memoranda received from the employees of the Soldier Settlement Board, in which they ask to be placed under the jurisdiction of the Civil Service Commission as permanent employees. Your sub-Committee quite recognize the difficulties of their position, but must also recognize the further fact that the number of these employees may be materially reduced in the near future, owing to the transfer to the Western Provinces of their Natural Resources, and the cessation of many of our colonization activities. We can only suggest, therefore, that the position of these men, most of whom have seen active service, and who have given faithful service while engaged in this work for many years, should be carefully and sympathetically considered by the Government, in the light of the situation which may develop.

Your Committee also recommends that there be printed 2,500 copies in English and 300 copies in French of this report and that they be distributed in the same manner as its day-to-day proceedings. It further recommends that this report be printed as an appendix to the Journals of the House, and in separate blue-book form, 500 copies in the latter form to be printed in English and 200 copies in French, and that Standing Order 64 in relation thereto be suspended.

(For Minutes of Evidence, etc., accompanying said Report, see Appendix to the Journals, No. 4)

By leave of the House, Mr. Power, from the Special Committee appointed to consider the Dominion Elections Act and the Corrupt Practices Inquiries Act, presented the following as their Third Report:—

The Committee has confined its discussions to amendments of the Dominion Elections Act which it considers should be brought into force forthwith, and has not, in the circumstances, dealt with those of the amendments proposed last year which could not, without undue administrative difficulty, be brought into force at once or are not of immediate practical importance. Its recommendations have been unanimously agreed to in the form of the statute appended.

The chief change proposed relates to the appointment in urban areas of two enumerators to each polling division instead of only one, provision being made that one of each pair of enumerators shall represent one of the two principal opposed political interests in the electoral district. Provision is also proposed to be made for the holding of such bye-elections as follow a general

election within six months upon the same lists as those prepared for the general election; for the marking of the ballot of a blind person by a friend whom he brings with him to the polling station; for defining further the provision adopted last year with respect to summer residents; and for the appointment of a legal adviser to the Chief Electoral Officer for the purpose of the next general election.

With respect to the appointment of enumerators, special provision is made to cover the case of the present Parliament being dissolved within one month from assent to the proposed Act, since, if this Parliament were so soon dissolved, the proposed permanent provisions on this subject could not be brought into operation, and no provision which could be applied to a general election following such an early dissolution would be permanently satisfactory.

BILL No.

AN ACT TO AMEND THE DOMINION ELECTIONS ACT

- 1. Subsection five of section twenty-nine A of the said Act is repealed and the following substituted therefor:
- (5) No person shall, for the purpose of this Act, be deemed to be resident at the date of the issue of the writ in quarters or premises which are ordinarily occupied only during some or all of the months of May to October inclusive and ordinarily remain unoccupied during some or all of the months of November to April inclusive, unless
- (a) he is occupying such quarters in the course of and in the pursuit of his ordinary gainful occupation, or
- (b) he has no quarters in any other electoral district to which, at the date of the issue of the writ, he might at will remove.
- 2. Rules one to five inclusive, of Schedule A to Section thirty-two of the said Act, as amended by section fourteen of chapter forty of the statutes of 1929, are repealed and the following rules substituted therefor:—
- Rule (1) Forthwith after the receipt by him of notice from the Chief Electoral Officer that a writ of election has been issued for his electoral district, the returning officer shall appoint in writing in form No. 4A in Schedule One to this Act, two persons in each polling division or part thereof to enumerate the voters therein, and shall require each of such persons to take an oath in Form No. 4B in said schedule that he will act faithfully in the capacity of enumerator without partiality, fear, favour or affection and in every respect according to law.
- Rule (1A) At least ten days before he proposes to select the persons who are to act as enumerators as aforesaid, the returning officer shall give notice accordingly to the candidate or the representative of the candidate who, at the next preceding election in the electoral district, received the highest number of votes, and also to the candidate or the representative of the candidate at such election representing a different and opposed political interest, who received the next highest number of votes, and, except as hereinafter provided, shall, if any such candidate within the ten days aforesaid recommends an enumerator for appointment on his behalf in any polling division or part of any polling division, select for appointment, and in due course appoint, the person so recommended.
- Rule (1B) If in the opinion of the returning officer there is good cause for his refusing to select or appoint any enumerator recommended as aforesaid, he shall give notice accordingly to the person by whom the recommendation was made, and unless a substitute recommendation is made within forty-eight hours

after such notice, the returning officer may, subject as hereinafter provided, select, and in due course nominate, such substitute for the person recommended as he sees fit.

- Rule (1C) If at the next preceding election, there was opposed to the candidate who received the highest number of votes, no candidate representing a different and opposed political interest, or if either of the persons notified as aforesaid fails to make a recommendation for any polling division or any part of any polling division for which enumerators are to be appointed, the returning officer shall so select the enumerators, that, so far as possible, each pair of enumerators represents two different and opposed political interests.
- Rule (2) Each pair of enumerators shall forthwith, after taking their oaths as such, proceed jointly to ascertain the names, addresses and occupations of every person qualified to vote in the polling division or part thereof for which they have been appointed, obtaining the information they may require by a joint house-to-house visitation and from such other sources as may be available to them, and leaving at the residence of every voter who appears to be qualified, a memorandum in Form No. 13 in Schedule One to this Act, indicating that such voter will be included in the list to be prepared by them.
- Rule (2A) When both enumerators are in agreement as to the qualification of any voter, they shall both sign or initial the notice aforesaid, and when they are in disagreement, that one of the enumerators who considers the voter to be qualified shall initial or sign the notice and the other of them shall make a memorandum thereon indicating that he does not concur therein; every such signature or initial and memorandum shall appear on every contemporaneously made record of the name and address of the voter.
- Rule (3) On a day to be fixed by the Chief Electoral Officer and notified by the returning officer to the enumerators, each pair of the latter shall, from the information then secured by them, prepare and certify in Form No 15 in Schedule One to this Act a complete list in exact alphabetical order of all the persons who are resident in the polling division or part thereof for which they have been appointed, and, in the opinion of either of them, are qualified to vote at the election, and shall also prepare and certify in like form at least four copies of such list.
- Rule (4) In such list the enumerators shall, after the name of every female voter whose name appears therein, write the letter W in brackets thus (W), and the name of a married woman or widow shall be entered in such list in the alphabetical order determined by the first letter of the name of her husband or deceased husband, as the case may be.
- Rule (5) Such list and the copies thereof, together with the original field or other notes upon which the same has been based, shall forthwith be delivered or transmitted by the enumerators to the returning officer, who shall thereupon deliver one copy of such list to the representative of each candidate or prospective candidate as hereinafter defined; the returning officer shall retain the original list in his office, where it shall be available for public inspection, and shall furnish one copy thereof to the registrars within whose registration district, as hereafter provided, the polling division lies.
- 3. Section thirty-three of the said Act is repealed and the following substituted therefor:—
- 33. When a writ of election in any electoral district is issued within six months after the day fixed for the poll at the next preceding general election under this Act in that electoral district, it shall not be necessary to prepare lists

of voters for such election as in the next preceding section provided, if there are on file in the Chief Electoral Officer's office copies of the lists of voters prepared for such preceding election, but it shall be the duty of the Chief Electoral Officer to forward to the returning officer as soon as possible after the issue of such writ of election at least twelve copies of the lists so on record for each polling division.

- (2) Such lists shall be used at such election in the same way, in all respects, as if they had been prepared therefor; at least two sets thereof shall be furnished by the returning officer to each candidate formally nominated.
- 4. Subsection ten of section sixty-three of the said Act is repealed and the following substituted therefor:—
- 63. (10) The deputy returning officer on the application of any voter who is unable to read, or is incapacitated, from any physical cause other than blindness, from voting in the manner prescribed by this Act, shall require the voter making such application to make oath in Form No. 38 of his incapacity to vote without assistance, and shall thereafter assist such voter by marking his ballot paper in the manner directed by such voter in the presence of the sworn agents of the candidates or of the sworn electors representing the candidates in the polling station and of no other person, and place such ballot in the ballot box.
- (10a) The deputy returning officer shall either deal with a blind voter in the same manner as with an illiterate or otherwise incapacitated voter, or, at the request of any blind voter who has taken the oath in Form No. 38, and is accompanied by a friend, shall permit such friend to accompany the blind voter into the voting compartment and mark the voter's ballot for him.
- (10b) Any friend who is permitted to mark the ballot of a blind voter as aforesaid shall first be required to make an oath that he will keep secret the name or names of the candidate or candidates for whom the ballot of such blind voter is marked by him, and no person shall at any polling station be allowed to act as the friend of more than one blind voter.
- 5. Schedule three of the said Act is amended by including therein the name of the electoral district of Regina in the Province of Saskatchewan.

"MAY IT PLEASE YOUR EXCELLENCY:

"The Commons of Canada have voted Supplies required to enable the Government to defray certain expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency the following Bills:—

"An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively the 31st March, 1930, and the 31st March, 1931."

"An Act for granting to His Majesty certain sums of money for the public service of the financial year ending the 31st March, 1931."

"To which Bills I humbly request Your Excellency's Assent."

To these Bills the Clerk of the Senate, by command of His Excellency the Governor General, did thereupon say:—

"In His Majesty's name His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to these Bills."

After which His Excellency the Governor General was pleased to close the Fourth Session of the Sixteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

In bringing the present session to a close, I desire to congratulate you upon the expedition with which Parliament has conducted its proceedings, and upon the extent and importance of the legislative enactments of the session. Matters which have been the subject of long-standing controversy have been successfully adjusted. In several other directions legislation of far-reaching significance has been enacted.

It is a source of particular satisfaction that the public accounts of the fiscal year recently ended again disclose a large surplus and that it has again been possible to effect further material reductions in taxation, as well as a further reduction in the national debt.

Especially gratifying is the fact that, in continuance of the policy of endeavouring to remove all substantial difficulties in the relations between the Dominion and the Provinces, a settlement of the long-standing controversies respecting the Natural Resources of the Provinces of Manitoba, Saskatchewan, and Alberta has been effected. The several agreements have received your approval, as well as the approval of the Provincial Legislatures. Approval has also been given to the agreement reached with the Province of British Columbia concerning the restoration to the province of the lands comprising what is known as the railway belt and Peace River block.

The recommendations of the Royal Commission on Maritime Claims have been further implemented by the legislation which has been enacted with respect to the coal and iron and steel industries.

Extensive and comprehensive revisions have been made in the Customs Tariff with a view to bringing certain schedules more into line with modern business requirements, and existing economic conditions. Material and broad extensions have been made in the British Preferential Tariff schedules, as well as other adjustments which it is believed will serve to promote a larger measure of reciprocal trade between the component parts of the British Empire and with other countries.

The interest which has been evinced during the session in all matters affecting ex-service men demonstrates once more that Canada stands in the forefront in continued appreciation of her soldier-citizens and their dependents. The legislation providing allowances for veterans who may be unemployable as a

result of non-pensionable disabilities, the amended procedure and methods of administration under the Pensions Act, the extension of time to applicants under the Returned Soldiers' Insurance Act, and the more liberal treatment accorded soldier settlers, will bring a much sought for relief to numerous

individuals and homes.

The Fair Wages and Eight-Hour Day Act gives statutory effect to the fair wages policy which, for some years past, has been observed on construction work under public contract. It provides also for the observance on such work of an eight-hour day. The benefits of this legislation, both as to wages and hours, have been extended, under government policy, to workmen employed on construction work by the government itself. The principle of the eight-hour working day has also been made applicable by the Government to employees in the public service.

To aid in the solution of the problem of seasonal unemployment, provision has been made for holding at an early date a conference of Dominion and Provincial governments, of representatives of municipalities, of transportation companies, and of industrial and labour associations, to consider methods of co-operation in furthering continuous employment throughout Canada during

the winter months.

A Federal-Provincial Conference for the purpose of furthering co-operation between the Dominion Government and the governments of the several Provinces of Canada on matters pertaining to immigration has also been arranged.

The consolidation of the Canada Grain Act in accordance with the recommendations of the Standing Committee of the House of Commons on Agriculture, the provision made for increased storage facilities for grain, as well as the inquiry into the promotion of the live stock industry of Canada for which provision has also been made, should prove of substantial benefit to the agricultural industry.

To ensure the development of the fisheries resources of the Dominion and of the industries based thereon, provision has been made for the appointment of a Minister of the Crown to preside over a separate Department of Fisheries.

Conventions with the United States for the protection and extension of the sockeye salmon fisheries and of the preservation of the halibut fisheries

of the Pacific Coast have received approval.

Forward steps in the field of international relations have been taken by the signature of the Treaty for Reduction of Naval Armament, by the extension of arbitration through the acceptance of the Optional Clause, and by the revision of the Statute of the Permanent Court of International Justice, all of which measures have received your approval.

Amendments to the Dominion Elections Act have been made which should further ensure fairness and the avoidance of partizanship in the administration

of our electoral system.

Among other enactments of the session have been important amendments to The Companies Act, the Export Act, and the Criminal Code.

Members of the House of Commons:

I thank you for the supplies granted for the carrying on of the public services of the Dominion.

Honourable Members of the Senate:

Members of the House of Commons:

In the opinion of my Ministers, it is desirable that the judgment of the people upon the questions which now engage public attention should be obtained during the course of the present year. In order to permit of Canada being

represented at the Imperial Conference and the Imperial Economic Conference, which open their proceedings in London, on September 30th, and to afford to Ministers of the Crown as ample an opportunity as may be possible to prepare for the important work of these Conferences, it has been deemed advisable that the present Parliament should be dissolved without delay, and the day of the polling fixed for the earliest date possible after dissolution. I have, accordingly, to announce my intention of causing Parliament to be dissolved immediately following prorogation.

In taking leave of you at this time and under these circumstances, I desire to express the unqualified pleasure which I have derived from my association with you throughout the four sessions of this the Sixteenth Parliament of Canada. I pray that upon your labours the blessing of Divine Providence may be abund-

antly bestowed.

His Honour the Speaker of the Senate then said:

Honourable Members of the Senate:

Members of the House of Commons:

It is His Excellency the Governor General's will and pleasure that this Parliament be prorogued until Wednesday, the 9th day of July next, to be here holden, and this Parliament is accordingly prorogued until Wednesday, the 9th day of July next.

RODOLPHE LEMIEUX,

Speaker.
