Governor Sulzer in Recommending Annulment of Long Sault Power Scheme Backed by Private Capital, Declares Unreservedly for Public Control of Great Asset.

ALBANY, N. Y., Jan. 18 .- (Can. Press.)—In a special message to the legislature tonight, Gov. Sulzer reommends that the charter granted to the Long Sault Development Co. by the legislature of 1907, be immediately repealed. Attorney-General Carmody reported to the senate recently that in his opinion the legislature exceeded its authority in granting the charter, the act being unconstitutional, and in Ambassadors Interview Heads this opinion, the governor concurs. The Greeks Still Fighting.

The Greeks, unhampered by the armistice which binds the other allies, are continuing the fighting in Epirus, where even today sharp encounters took place with the Turks. According to several despatches to Premier Venizelos, the Greek forces are toing their utmost to surround Janina. Their efforts are now being directed to the north, where the Turks thus far have kept communications open and have thus been able to secure supplies. It has been difficult therefore to take the city by starving it out.

ies; Hilda Pagett, agsd about 20, was taken to her home at 74 Markham street in a cab, and is believed to have been internally injured; Roy Han Hancock, aged 17, had also to be taken to the General Hospital with one of his legs lacerated and sprained.

The others who were hurt were able to go home without any assistance, but refused to give their names. Hancock took a party out from the neighborhood, in which he lived, to the slides. They had a nice set of sleighs and there was no difficulty in getting spectators to fill the extra space on the bobs. Hancock was steering the sleighs by ropes and was on the front of the bobs. This fact saved him from having his head crushed against the pole when the sleigh struck it.

The sleighs had gone partly down the hill. The boy either lost his head or the sleigh turned out of the path cut for it, struck one or two people standing nearby and smashed to pieces against the cement pole.

OFTAWA, Jan, 13.—(Special).—
Tonight, after the hearing had been concluded, it was stated by a prominent official of the Canadian ractife Railway Company that a tentative offer of a compromise had been made by the railways, by which the viaduct would be constructed without delay, provided ertain modifications were agreed to, which would enable the viaduct to be built in such a manner as not o interfere with traffic, and engineers to be appointed. This arrangement by the city and companies, it is hoped, will enable them is reach a satisfactory basis of sections.

If all were to devote themselves along these lines the industrial pursuits would be soon overcrowded. "It is to be hoped," said the principal of Harbord, "that there will always be a number who will seek literary and cultural pursuits." Literature trains the mind in the use of English, and gives opportunity for studying language, and even dead language. On the question of the entrance examination, Mr. Hagarty expressed in a few terse words. "The entrance examination is necessary as a safeguard to lower work and a stimulus to higher. Until the millennium arrives, unfortunately we must have examinations." In the matter of things generally placed under the heading of manners, Mr. Hagarty finds room for improvement and asserts that in a large number of the schools sufficient attention is not given to deportment. ## STRIPPED OF OFFICE Dramatic Scene in United States Senate When He

Was Convicted of Malfeasance. WASHINGTON, Jan. 18 .- (Can. Press.) -Robert W. Archbald of Scranton, Pa., that an immediate start is to be made for 29 years an occupant of judicial positions upon the Pennsylvania state bench, the federal district bench and the U.S. Commerce Court, was today adjudged

guilty by the U S. Senate of "high crimes

and misdemeanors," was stripped of his office and forever disqualified from hold-ing positions of public honor or public The conviction and judgment came as the conclusion of the impeachment trial that has been pending in the senate since last summer on charges that Judge Archbald had been guilty of misconduct and misbehavior as a judge, and that he had corruptly used his judicial power to further the private interests of himself and

his friends in the acquisition of coal land properties in Pennsylvania.

Upon five of the thirteen separate charges brought against him by the house of representatives, Judge Archbald was found guilty. Upon the other eight the senate voted him not guilty, the majority in some cases being against him, but failing of two-thirds majority necessary for conviction. Any one of the five verdicts of guilty was enough to bring about the punishment imposed upon him.

A Dramatic Scene.

The end of the long fought strug-le in the senate came early in the afternoon when the vote was taken on the first article of impeachment. With gallery doors locked to prevent the movement of spectators, and an unaccustomed hush prevailing thruout the chamber, senators rose in their places as their names were called and pronounced the word "guilty" in almost inaudible tones. The vote on the first charge, that Judge Archbald had corruptly influenced officials of the Erie Railroad to sell him the Katydid culm dump at Scranton, resulted in his conviction by a vote of 68 to 5.

## SPECIAL NOTICE Proverb Contestants

When the first instalment of correct answers to the Proverb pictures was published on Wednesday, Jan. 8, a slight typographical

error occurred. It was the use of quotation marks, which count neither for nor against contestants. Quotation marks, it should be understood by all, are not a form of punctuation, and do not enter into the construction of the

Proverb answers. No contestant need fear his answers will be penalized or marked wrong where the correct answers are included. So far several thousand sets of answers have been checked, and the average of correct answers is very

In comparing the correct answers, contestants should be fair when they discover that they have missed the wording of some of the extremely easy problems. Every contestant who followed the contest closely was duly informed, from time to time, through the announcements that appeared in the Daily and Sunday World, re the privilege to use five answers to each and every Proverb if they so desired.

Liberal allowance was also made in allowing contestants to incorporate the slightly different wordings of Proverbs of the same meaning upon one and the same coupon, and where the correct wording is included in contestants' sets of answers they are beng given full credit.

Because contestants did not take advantage of these privileges, or because they failed to ollow the instructions closely, is no fault of the Contest Depart-ment, and contestants should blame no one but themselves.

The examining and checking of the answers is progressing rapidly, and it is hoped that The World will be able to publish the list of winners very soon.

The York Township Council was duly sworn in and organized yesterday. There were lots of quiestions up, and on the term of the period o were presented by the secretary and treasurer and were accepted.

Miss Norah K. Holman, head worker, described in an able address the nature of the service being rendered. She told that the object was to give aid and advice outside the hospital, so that the actual inside work might in many cases be obviated, while in other cases it was aimed to see that patients should not go out into conditions which practically necessitated their speedy re-

the original road allowance above mentioned.

"We find that all the township records have been destroyed, and after a lengthy search in the offic of the county clerk we discovered that bylaws were passed on June 3. 1864, and Feb. 6, 1869, closing the road between concessions 2 and 3 [St. Clair avenue], and the extension of Leslie street from the new road to the north limit of lot 6, and granting the properties representing W. A. Morse and Taylor Bros., and conveyances were subsequently executed to these partis.

"The result is that the original road allowances in this vicinity are closed to the north limit of lot No. 6. in concession 3, but from the records we do not find, that any application was made by the owners of lots 7, 8 and 9 to close Leslie street opposite these lots, and for a conveyance to the owner, who had provided a substitute road across the east nd of his lots. As a matter of fact this part of the road allowance has always been included with lots 7,8 and 9, and is fenced and cultivated by the owner of this farm, and it was only recently that he discovers

# Cold Weather Won't Increase Dineen's Fur Prices

OLD weather always brings an increased demand for Dineen's Furs. The crispness in the air reminds people of the necessity for fur garments, and the name "Dineen" recalls to their memory the reputation of the firm as manufacturing furriers. Therefore the arrival of cold weather is invariably sufficient in itself to bring increased business to Dineen's.

But in spite of the improvement in the weather condition that is stimulating the retail fur business, Dineen's are continuing their "backward season sale" at the same reductions that went into effect when the weather was

turn out a real senior team, but that was in the days of long ago. The Classic City senior squad made their first trip of the season to the Queen City last night, and it was pitiful what Parkasie did to them. A trouncing of the worst kind was the lot of poor Stratlord, and when the smoke had cleared away it stood 13 to 4 for P.C.C.

P arkdale were masters of Stratford in everything. Not a poor junior team could have made a worse showing, and it was just a canter for the Paddlers. They piled up the scores at will, and by half-time had smothered the Preston Colts, 11 to 1. Barlett, Ridpath and Ellis carried the play to Stratford's end every half-minute, and they poured a fusilade of shots at Wick. He was lucky to clear the half of them.

Ellis replaced Edwards on the left side for Parkdale, and he was one of the life for Parkdale, and he was one of the life in the fitting into any piece of combination was noticeable, and he drew liberal applause from the crowd.

It would take columns to describe just how much superior Parkdale were in the first half, and the score will bear this out.

Parkdale eased up in the second half and let Stratford have the puck occasionally. Three times did the Classic City boys get the rubber past Moag, while Parkdale were satisfied to tally twice.

Crane, Lowe, Boles and Thompson were the best Stratford men, while every Parkdale man had a hand in the doings. The teams:

Parkdale (13)—Goal, Moag; point, Lawson; cover, Code; rover, Reid; centre, Barlett; right, Ellis; left, Ridpath.

## Hockey Gossip

Gerhard Heintzman's employes will play a game of hockey, married men against single. The game will be played under N.H.A. rules at Leslie Grove, Saturday at 2 p.m.

The Blue and White can stand a lot of changing and Randall, McGregor and Longfellow should be able to fill some of the regulars shoes. At least they won't booze when trying to get into condition. Roy McGiffin of the Torontos is at St. Michael's Hespital and will be out of the game for a month. McGiffin is suffering with blood poisoning in his foot.

A meeting of the Toronto Hockey
League will be held in West End Y.M.C.
A. on Tuesday. Jan. 14, 1913, at 8 p.m.
sharp, to draw up remaining schedules.
The following clubs require representatives: High Park, Wanderers, Riverdales,
Crescents, Lambton, Athletics, North Toronto, Maitlands and any other senior
or Juvenile clubs wishing to enter.

The Eaton A.A. House Hockey League open their season tonight with two games and a skating party at Victoria College Rink. The first game is in the junior series at 8 o'clock between the general office and main floor, while the printing and the mail order will battle it out, commencing at 9 o'clock. Fred C. Waghorne will handle the whistle in both games.

Hamilton is all buoyed up over the St.
Michael-Preston exhibition game, which is to be played there on Wednesday at 2 o'clock.

Coxwells defeated the Don Rowing Club seniors last night in a practice game at Kew Gardens to the tune of 6—2. The Coxwells are a junior team and their victory was all the more credit to them. The winners lined-up as follows: Goal, Ellis point, Shrubsole: cover, Clay; rover, Smith: centre, Hardy; right wing, Buckner; left wing, Solman.

Another Alert case has cropped up, but this time Collingwood are the offenders. Collingwood sent down a scrub team to Midland the other night and were beaten 26—1. The reason was that they wish to drop back and play intermediate after the Toronto Canoe game and so they made a farce of the Midland game. This is exactly what the Alerts did and you know the result.

## ST. ANDREWS BEAT **UPPER CANADA BOYS**

Red and White Squad Had the Edge on Opponents and Doubled Score-Play Very Strenuous.

St. Andrews defeated Upper Canada, yesterday in a slap-bang exhibition by the score of 4—2. This was the first time that these teams have met this year and, as on former occasions, a large gathering of supporters made themselves heard by rooting nearly all the time. The Scotchmen were the favorites and, altho the U. C.C. boys put up a grand battle, their opponents had the edge on them and drew away to a nice victory. Hard checking and two and three men combinations were the outstanding features that secured them the victory. The line-up:

St. Andrews (4): Goal, Travis; point, McQueen; cover, Ross; rover, Munn; centre, McGill; right wing, Cantley; left wing, Hatch.

U.C.C. (2): Goal, Pepler; point, Pipon; cover, DeGruchy; rover, Agar; centre.

The first half was a very furious affair and both teams were banging away, using every effort to notch a score. Burwash went thru for U.C.C and beat Travis. Henderson broke a skate and Munn went off to even up. Burwash bumped Ross to the boards and he was put on the fence while Ross had to retire with a disabled knee. With five men to four McGill scored in four minutes, tying the score. Ross came back and the teams were again at full strength, when McGill smashed one in from a mix-up in front of goal. Score at half time was St. Andrews 2, U.C.C 1.

The second half opened up with some end-to-end rushes. Heintzman and Agar, on some nice combination work, notched the second goal for U.C.C. Ross was rulled off, but even with that U.C.C. could not stop them and McQueen netted the final tally from the side. In the last eight minutes no scoring was done. St. Andrews 4, U.C.C. 2.

Junior Fixture a Tie at Full Time-T. C. C. Win by One Goal-Fast at All Times.

The tidiest little battle of the season was furnished by T.C.C. and Parkdale Juniors at the Arena last night. At full time it was a tie, 5 all. T.C.C. netted twice and Parkdale only once in the overtime play, the final reckoning being 7 to 6 for last year's champions.

It was the fastest junior game of the year right from the drop of the hat and the checking was not of the gentle order. A few of the players will carry marks for sime few days to come. Meeking, the Toronto rover, got a nasty cut over the eye that needed five stitches to close and Stroud laid off long enough to let the doctor close a four-inch cut in his head. After coming back Stroud got another rap on the chin and this also needed medical aid to patch it up.

T.C.C. were much the best for the first half, working a nice three-man combination that netted them goals. The Parkdale defence failed to close up at the right time and the Paddlers' forwards went right in on top of Smith. Shot after shot was rained at him from right in front and he did excellent work to keep the score down for those first 30 minutes. When rest time came it stood T.C.C. 4. P.C.C. I.

The rest did Parkdale a world of good and they were a different team when the last half was started. They checked T.C. C. to a standstill and had much the better of the play. Team play was what they lacked in the first half, but it was different in this session. Laird was the busiest little fellow in town for a half hour. Skinner and Applegath got thru right on top of him a dozen times and every shot was true and hard. Parkdale netted two and this put new life into them and they played like Indians Strond stole the puck at centre ice and went up all alone and batted one in, putting T.C.C. two to the good.

Parkdale sot their combination going again and after several rushes they found the net for two goals and tied it up just before full time was blown. Two periods of five minutes were played to break the tie and Murray and McKeller had each netted before three minutes of the first period was up

Laird and the game went to Toronto by one goal.

Skinner. Applegath and Wedd were the best for Parkdale, while Murray. Stroud, McKellar and Warwick were bright lights on the T.C.C. (7): Goal. Laird: point, Burkart; Cover, McKellar: rover, Meeking: centre, Stroud: right, Murray; left. Warwick.

P.C.C. (6): Goal, Smith: point, Adare; cover, Ferriman: rover, Applegath: centre, Wedd; right, Fkinner; left, McLaren.

Some of the best team rolling for this season was put up by the Aberdeens in the Athenaeum League last night, when they took the Eatons into camp for two games, and incidentally clouted the wood for the big total of 2312, their best game being the first, for a 1021 count, altho their second was only 11 pins short of the thousand-mark.

The big individual pin-spillers for the night were Jim Nelson, with 645, and Billy McMillan, with 612.

In the B League, the Yolles won three from C.C.U., and College did likewise from Nationals. Don Gray, with 567, was high man.

MAYOR HOCKEN'S MESSAGE. Mayor Hocken has refrained from pyrotechnics in his inaugural address. It is a business-like utterance, with a siness man's experience behind it. It emphasizes what is immediately neceasary and it notes in due course what necessary for Toronto, but what is, yet expedient.

The success of Mayor Hocken's term in office will determine the problem of its further duration. If he is able to co-ordinate enough of the present

present tariff on velvets, ribbons and other things. "Silks are a luxurythat is, most silks," commented Chairman Underwood of the committee.

Tax on Luxuries. Mr. Underwood outlined his view, in which he represents the Democratic majority of the committee that will frame the new schedule.

"We want to get a large amount of revenue on luxuries," said Mr. Underwood, "so that we can put a less tax on the necessities of life. Where there is a large percentage of imports we do not want to cut the rates. We are desirous, however, of cutting the rates where there is no competition and no

Samuel Kridel and F. E. Keip of Bridgeport, Conn., who said he was agent of the largest manufacturer in his line in the world, disagreed as to

European trust machinations. "I have bought velvets supposed to have come from one of the members of the so-called syndicate and have never received any rebate," said Mr. Kridel, who added that he did not know the real existence of such a trust that

gave rebates to importers.

Velvet Syndicate. Mr. Keip testified that he knew there was a syndicate of velvet manufacturers in France that impose contracts binding buyers from them for a threeyear period and allowing rebates of ten per cent., denied where a buyer deals with anyone outside of the trusts and that this combination stretches out so as to comprise ninety per cent. of the silk velvet manufacturers of France, Germany and England. Representative Palmer of Pennsyl-vania, Democrat, asked if the duty on

cheaper silks did not acutally go to the manufacturer. 'No," replied Mr. Cheney, "it goes to the workmen. For every dollar you might get by reducing the tariff you would take two dollars away from the workmen thru decreased wages." Mr. Cheney agreed that if the com-mittee should rewrite the silk schedule t would be practicable to make some changes to equalize points of minor importance. Mr. Palmer observed that the present rates on the cheaper silk goods were practically prohibitive. Mr. Cheney agreed that some articles are

very nearly prohibitive. "The cheapest velvets and plushes," insisted Mr. Palmer, "do not come in at all." "Not to any large extent," replied the witness.

### POLITICAL ACTIVITY

AND WALL STREET Political activity is now beginning to increase. We are having the hearings of various interests on revision of the chemical schedule before the ways and means committee; the hearways and means committee; the hearings on views as to changes in the banking and currency system before the currency reform committee; and the hearings endeavoring to prove that there is a money trust. All these political activities are not disturbing business undertakings thus far. The ease in meney, both here and, quite unexpended. ness undertakings thus far. The east in money, both here and, quite unex-pectediy, abroad, is helping stock ex-change prices and sentiment all round. children bring home stories nearly every day about school, their school-mates and the teacher. Let them speak freely, for in this way you have a splendid chance to understand your children and the views they take of certain things. The stories generally make the teacher appear partial, unjust or careless. And the question is, How shall the parent treat such stories? The best thing to do is just to ries? The best thing to do is just to suspend judgment. You are pretty suspend judgment. ### **EDMONTON PLANT** TO MEET EMERGENCY

EDMONTON, Alb., Jan. 13.—(Can. Press.)—It is said here on semi-official authority that the local packing plant of P. Burns Company, which is practically completed, will be rushed into service to handle the business of the Calgary establishment, which was destroyed by fire resterday. Nothing remains to be done at the local plant save the installation of machinery, which is on the ground. As the capacity is practically the same as that of the Calgary plant, the Edmonton plant will be able to prevent any threat-uned meat famine.

PETTERS INQUEST

Little light was thrown on Death of Five-Year-old Wilfrid Petters, when the inquest was resumed at the morgus last night. The boy died in convulsions, and it is alleged that these were caused by beer given to him by his father. Much of the evidence was contradictory, and the jury have very little more information than they had before the resumption of the inquest. However, it was quite clearly shown that the baby had had some beer, that the father was not very fond of, the child, and that the witnesses knew more than they told. The inquest was adjourned till Jan. 20.

Arrangements are being made for a big provincial prohibition convention in Toronto next month. Owing to the adoption of the banish the bar plants the convention will face an entirely the Ontario Liberal party caucus, the convention will face an entirely the Ontario Liberal party caucus, the convention will face an entirely new situation as contrasted with last year. The last convention of the Ontario drys sent a deputation to Sir James Whitney and to Leader Rowell.

The Ontario premier bluntly refused to either abolish tavern licenses or repeal the three-fifths clause. Leader Rowell was jockeying to get his little band of followers in the legislature to make the plunge into cold water politics. He was not then such that he would succeed in carrying his caucus and was non-committed.

Up in the Air.

The convention was up in the air when the deputation reported. Some were mad at Premier Whitney, and others dubious about Leader Rowell.

The alliance executive advised the convention to leave the situation in the hands of the new officers and general committee, and to again concentrate their efforts on local option. Controller McCarthy and J. A. Austin led an insurgent movement and secured the appointment of a committee on political action, which was to organize the constituencies on behalf of "dry" candidates.

Shuffed the Proposal.

The political action committee tried to get a political organizer appointed, but the alliance executive snuffed out the proposition, taking the ground that regular staff of alliance organized the proposition, taking the ground that regular staff of alliance organized the proposition, taking the ground that regular staff of alliance organized.

The controller will devote a lot of time to the appointment of a traffic commissioner.

Alderman Anderson then wanted to facilitate the transaction of the day's business by taking the many motions as read. This Alderman Hubbard objected to; he thought that the new members should be given a chance to orally submit their motions. At this juncture it looked as the a hitch was going to occur, precipitated by the alderman from Ward 1. Alderman Anderson's motion was successful, and the motions were not read.

Ald. Sam McBride submitted a bylaw asking that two members from law asking that two members from each ward be appointed on each committee. This was vigorously opposed by Controller Church. brought about a rally, however, and the final transaction was at 96 1-4, leaving a net loss of only 3-8 of a point. To-ronto Railway was off a full point at 143, and at the close was even lower, the shares being on offer at 142 1-2, with no bids in evidence. Mackay sold down to 85 1-2, off 1 1-2 for the

Recent Upturn Premature. The recessions in these leaders, while of unduly extensive in view of the sharp slump in Wall street, acted as a depressor on sentiment here, particularly on account of the fact that our market has been on the downgrade for two consecutive sessions without a decent rally. It was therefore argued that the bidding up of prices last week was premature, and that only the punishment administered to the shorts in out of short lines on the present move The rest of the list moved along pret

ty much in concert with the leaders with Canners and Spanish River about the only exceptions to the genera trend. Canners was up to a new high trend. Canners was up to a new high level at 87, the buying being inspired by the large yield afforded at present prices. This issue is ruling considerably below other stocks carrying the same dividend rate, and therefore is expected to improve its position as soon as the situation clears. C.P.R. was decidedly weak, losing nearly four points in New York at 260 1-2 and Steel Company, Sawyer-Massey and B. C. Packers common were all lower here. Rogers and Sawyer-Massey pre-ferred both improved their position.

C. P. R. Led in Decline and Closed at Low Point-Losses Thruout List.

MONTREAL, Jan. 13.—Unsettlement abroad and a break in the New York market were responsible for a weaker feeling in the local stock market today, and with few exceptions declines ranging from small fractions to 3½ were shown thru the list. The weakness promoted a moderate amount of liquidation, partly evidently coming from holders who preferred to take profits on the recent advance and gotiout of the market pending a cleaning up of the New York as well as the foreign situation.

C. P. R. displayed the most promounced weakness, declining 3½ points, a break of 6 points since the middle of last week, and closing at the low. Montreal Power declined 1 3-4 to 237, also closing at the low. Dominion Steel continued its downward trend. At the low point of the day and the lowest in over nine months, the stock showed a loss of 1 1-4. The close was slightly better at 55 1-4 in the last transaction and 55 1-8 bid, 56 1-4 asked, at the close.

This Company has been formed to obtain maximum returns at a minimized
cost, by combining individual interests, and to afford the small investor the same
advantage of the same equipment and management available to the owners of
large orchards.

The Citrus Fruit crop of California has now reached a total of nearly \$50.

large orchards.

The Citrus Fruit crop of California has now reached a total of nearly \$50.00,000 year.y, and is practically owned by a few thousand people, most of them owning ten, twenty and twenty-five-acre groves, it is the best protected farm industry in the world, the snipping, advertising and marketing methods of Citrus Fruit industry are ahead of anything else in the whole country, and the demand for the fruits is increasing at a tremendous rate; also the DEPEND-ABLE CITRUS GROWING AREA is forever limited to a small section in California, because of frost, elevation, soil, water and certain crimatic conditions.

During the past year many people now occupied in almost every line of business have purchased interests in Citrus Fruit groves.

The WOODLAKE Citrus Fruit Company's groves are situated midway between Los Angeles and San Francisco, in the famous San Joaquin Valley, in a pocket or cove in the beautiful Sierra Nevada Mountains, and connected directly by railroad. The property has every facility for the economical raising of its fruits.

## THE COMING SILVER CAMP

shipping mines.

The future of this camp was assured by eminent engineers before the government consented to build the railroad.

Elk Lake is producing ore equal to anything found in the Cobait Camp. Ore from the Donaldson, purchased by the Beaver Consolidated, will run from four to eight thousand ounces per ton.

Working under extreme disadvantages, 30 miles from a railroad, a number of pioneer companies, on the verge of success, were compelled to suspend operations owing to lack of funds. With a railroad at their door, pay ore in eight, these properties should quickly develop into paying mines.

I have for sale several properties adjoining and surrounding the Donaldson, with machinery and plants complete, which can now be purchased on very reasonable terms. These prices will be advanced after the entrance of the railroad.
