### GERMAN FROM U.S. DYNAMITES SPAN OF BRIDGE

C. P. R. Property Over St. Croix River to Maine Slightly Damaged.

### ARREST PERPETRATOR

Prisoner Claimed Deed Act of War and Protested Against Being Held.

Canadian Press Despatch.

VANCEBORO, Me., Feb. 3.—Another international problem incident to the war was thrust upon the United States today by the action of Werner Van Horn, who, operating on the Canadian side of the border, dynamited the railway bridge over the St. Croix River and then escaped into this state. A few hours later in a room at a hotel here, Van Horn quietly submitted to arrest, but immediately proclaimed himself an officer of the German army and set up the claim that he had committed an act of war and, having fled to a neutral country, could not be legally surrendered to an enemy of the fatherland.

The Canadian authorities took a different view of the matter and at once instituted proceedings to obtain the extradition of the prisoner on a charge of destruction of railroad property. Pending the outcome of these efforts, Van Horn is held at the immigration

### ENEMY'S HEAVY ATTACKS FAILED TO BREAK LINES

Allies Quickly Regained Trenches Lost on the Western Front.

### HOT FIGHTING IN EAST

Russians Drove Germans Back After Being Forced to Give Way.

Canadian Press Despatch.

LONDON, Feb. 2.—10:45 p.m.—During the last few days the Germans have been making desperate efforts to break the deadlock which has existed for so long on both the eastern and western fronts. They have delivered a series of attacks always preceded by artillery activity, on the allied lines in Flanders and France, and while in almost every case they have thus won a preliminary advantage, before the fighting was concluded the French, British or Belgians have been able to regain the trenches temporarily lost, and in some cases to occupy the German positions.

In these attacks, according to the reports of the British and French general staffs, the Germans have suffered severe losses.

The German artillery has been subjected to the Belgian positions in Flanders to a severe bombardment, which

General view of two houses in Bentinck street, King's Lynn, after the bombardment by German air raiders.

### GERMANS LOST MANY MEN IN FUTILE ATTACK

Two Hundred Dead Were Piled in Front of British Lines.

### RECKLESSLY SACRIFICED

Not One German Survived After Temporary Capture of Trenches.

(BRITISH OFFICIAL)

Canadian Press Despatch.

LONDON, Feb. 2, 9:35 p.m.—That terrible loss of life was suffered by the Germans in attempting to take British entrenchments is reported in the account of the British official eye-witness of two German attacks between the La Bassee Canal and the Bethune road Jan. 29.

"In the centre," says the report of the eye-witness, "our men, firmly established in the brick fields, gave the Germans a very warm reception, and the latter fell back, leaving fifty dead in front of this point alone.

"To the south of it they temporarily gained possession of a small portion of one of our trenches, but were immediately counter-attacked with the bayonet and every man in the trench was killed. The same thing occurred near the Bethune road, where the Germans gained another of our trenches, only to be bayoneted to a man.

British Losses Light.

"After the fighting was over, the enemy's dead, to the estimated number of two hundred, lay thick all along our line. Our casualties were slight.

"This attack, like those delivered at Givenchy and at Zonnebeke on the 25th, was a costly failure, resulting only in a great waste of life. It was made by some 300 men in the first line and 300 more in support occupying the trenches vacated by the first line when it moved forward.

"Prisoners say that there were one hundred dead lying in this trench before the Germans advanced, and that none of the troops making the assault had attacked before."

### RUSSIANS SINK GERMAN GUNBOAT

Submarine Caught the Enemy's Ship Off the German Coast.

### CRUISER IS DAMAGED

Possibly the Gazelle, Which is of Five Hundred Tons.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Feb. 3.—The Morning Post's Petrograd correspondent says a Russian submarine sank a German gunboat off the German coast; also hit and seriously damaged a small cruiser of the Gascelle type, possibly the Gazelle herself. Exclusive of the Black Sea fleet Russia has 21 submarines, all built between 1903 and 1908. None of them is bigger than 500 tons. The fastest makes 13 knots and carries four torpedo tubes, the others carrying fewer.

The German cruiser, Gazelle's displacement is 260 tons; length, 325 feet; beam, 33 feet; crew, 636 men; speed, 18 knots. She was launched in 1908.

Popular Price Matinee at Princess. Special scale of prices from 25 cents to \$1, has been arranged for the "Quaker Girl" matinee at the Princess Theatre this afternoon, and in this connection it may be mentioned that Miss Helen Hoyt, the noted grand opera contralto, will sing "Your King and Country Needs You," by request.

Wear a Coon Coat for the Cold. The prevailing rough and bitter weather makes the need of a coon-skin coat imperative for men who have occasion to be much outdoors, and there has been an exceptionally heavy business done at Dineen's 140 Yonge street. All furs in this popular house are priced at figures that are not duplicated anywhere, and it's up to you to investigate if in any way you possess a fur in this class of garment. One line is proving highly popular is a coon coat worth \$110, now selling for \$75. There are others of fur-lined coats, priced as low as \$27.50, originally worth \$45. Come in and look them over.

### French Airmen's Bombs Destroyed Noted Castle

Daring Attack Made on Famous Homberg Castle in Alsace Which Sheltered Leading German Staff Officers--Edifice Burned to Ground.

BERNE, Switzerland, Feb. 2.—(Via Paris).—French airmen today dropped bombs on the famous Homberg Castle, in Alsace, where a group of important German staff officers were residing. The building was set on fire and burned to the ground.

After encircling the castle, the aviators suddenly dropped several bombs. Some of the missiles took effect, causing heavy destruction. Fire broke out in the large castle and spread to a number of farm buildings adjoining it. Soon nothing was left but a smoking heap of ruins.

Homberg Castle was the summer residence of the French Countess Maupéou. It contained some celebrated ancient furniture. The damage is estimated at several million francs.

### Germany Has Seized 3,000,000 Tons of Grain

None of Huge Supply of Foodstuffs Confiscated Will Be Available to Public Before Summer--Police Ready To Suppress Riots in Berlin.

ROTTERDAM, Feb. 2.—(Via London).—The Courant learns that the German War Grain Company, an organization, the purpose of which is to acquire all the available grain in Germany and store it until next May, has seized over 3,000,000 tons of grain. The paper says that none of this foodstuff would be at the disposal of the public before next summer.

### POLICE GUARD BAKESHOPS.

AMSTERDAM, Feb. 2.—The Berlin Tageblatt, in an issue which has reached here, declares that the council of Greater Berlin has appointed 12,000 special constables to guard the bakershops of the city against any irregularities on the part of the public.

### ADMIRALTY REGULATIONS FORBADE HIM TALKING

Vice Admiral Sturdee, Who Won South Atlantic Victory, Arrives Home.

PLYMOUTH, Feb. 2, via London. Feb. 2, 2:20 a.m.—Vice-Admiral Sir Frederick Sturdee, who commanded the British squadron which sank the German ships off the Falkland Islands last December, arrived here today. He was a passenger on the liner India. Admiral Sturdee declined to discuss the South Atlantic victory, on the plea that the admiralty regulations forbid his talking.

DAMAGE DONE TO A HOUSE IN ST. PETER'S PLAIN, YARMOUTH

### CANADIAN MOUNTED MEN IN KING EDWARD HORSE

SALISBURY, Eng. Feb. 2.—The Royal Canadian Dragoons and the Strathcona horse have been gaged with the King Edward's Horse, under the command of Col. Seely. Eight Y.M.C.A. workers were at-

tached to the force today as honorary captains and will go to the front with the Canadians. They include H. A. Pearson and A. W. Forgie of Toronto.

The Canadian division is now completing its training in England, with manoeuvres in which all units are participating.

### NEUTRAL SHIPS WARNED.

LONDON, Feb. 2.—The Germans have issued a warning that an attempt will be made to sink British transports and advise neutral shipping to keep away from the north and west coasts of France.

### BRITAIN TAKES STAND AGAINST SHIP TRANSFER

United States Given Clear Indication of Hostility to Measure.

### BRYAN STILL RETICENT

President Wilson Believes Measure, When Modified, Will Pass.

Special to The Toronto World.

WASHINGTON, Feb. 2.—Great Britain's position with regard to the transfer of interned German ships to the American registry has undergone a change since the early days of the war, according to official information obtained in Washington today. At the outset of European hostilities the British Government, as related in a London despatch published today, expressed the view that transfers of German vessels to American registry for exclusive use outside the lanes of transatlantic commerce was not altogether objectionable and it might be excused. Transatlantic commerce, with the direct intention for Germany to be the consignee of merchandise and foodstuffs, or, failing the direct intention, with the ultimate probability of Germany becoming a beneficiary, could not be engaged in without incurring such reprisal as the British naval authorities might effect and the British judiciary perfect in the prize courts.

### Britain Flatly Opposed.

Latterly, the British position has changed, according to official information here, from one of tolerance of the idea of a transfer of interned ships to the American flag provided they kept to the South American trade to diametrical opposition to any sort of transfers. In the case of the Dacia, soon to be adjudicated in a British prize court, except in the almost unbelievable event that she evades capture, the principal point which will come to issue will be the allegation which the British crown will advance that the sale of the Dacia from the Hamburg-American Line to Edward N. Breitung and his colleagues was for the purpose of avoiding the consequences of war and that, therefore, it is illegal.

Upon this principal contention will hang the case of Great Britain against

## BRAKEMAN IS CRUSHED TO DEATH BY ENGINE

### H. P. Beattie of Windsor Fell Under Wheels While Clearing Away Wreck.

Special to The Toronto World. ST. THOMAS, Feb. 2.—H. P. Beattie, 25, a Washburn Railway brakeman of Windsor, was killed at Jarvis by being crushed to death beneath the wheels of a locomotive attached to the auxiliary, which was clearing away a wreck of 15 cars that had been derailed earlier in the day. The train, which was clearing away a wreck of 15 cars that had been derailed earlier in the day, was clearing away a wreck of 15 cars that had been derailed earlier in the day.

stombed in a farm house between here and Fort Stanley. William D. Angell, 60, a resident of St. Thomas, while walking down town this morning became faint, fell into the office of S. Spencer, collapsed and died of acute heart failure. He carried on a picture framing business in St. Thomas and came here from Grand Rapids a few years ago. He was born in Port Huron, and is the widow and two brothers, residing in Brooklyn, N. Y.

### AGRICULTURAL CONFERENCE.

CORNWALL, Feb. 2.—An agricultural conference, under the auspices of the Dominion Department of Agriculture, in co-operation with the Ontario Department of Agriculture, will be held in the Music Hall, Cornwall, on Thursday, Feb. 13.

### KING'S CAFE, 14 KING ST. EAST.

The high-class place for ladies and gentlemen to dine at a reasonable price. Our popular midday lunch at 35c has not an equal in Toronto. Open till 12 p.m. Famous Italian Orchestra will play daily.

### FIRE CHIEF CAMPBELL DEAD.

Special to The Toronto World. WILLOWVILLE, Ont., Feb. 2.—William H. Campbell, 76, for 25 years chief of the Belleville Fire Department, is dead, after a brief illness. On Wednesday last the chief was on duty at a fire on Front street. He had lived here for upwards of sixty years. He was a Methodist, and belonged to the L.O.O.F. In early life he was a member of the town council, wife, two sons and one married daughter, all of this city, survive him.

## Only Three Days After Today-- Then CLOSING

A Five-Volume Set Valued at \$12.00 for the Triple Coupon and \$1.98.

### For the Balance of This Week Only After Saturday, February 6th

It will be too late. See the triple coupon in another column of this paper, and read how you can obtain this magnificent History Set in five volumes, recounting the story of the world for the past seventy centuries. Seven thousand years of progress intelligently described by that master word artist, Jos. R. Larned. The triple coupon will also entitle you to obtain "Heart Throbs," a collection of verse and prose dear to every Canadian, in two volumes. Distribution of this unique set will cease on Saturday, February 6th. Do not delay until the last day, as we cannot undertake to supply either Larned's History of the World or Heart Throbs when the present limited supply is exhausted. The distribution will positively cease on Saturday, February 6th, or sooner, if the supply is exhausted. Many thousand World readers have availed themselves of the opportunity to obtain these books. Do not be one of those who apply too late. Clip the coupon today from another page and send or bring it in at once to

Two beautiful volumes, richly bound in seal grain limp binding, superb cardinal covers, stamped in gold. Red edges, round corners; an edition de luxe for this paper's readers.

## STRONGLY OBJECT TO REDUCED GRANT

### Vigorous Protest Made at Ontario Association Fairs Convention.

### WILL MEET THE PREMIER

### Claim Discouragement Will Follow if Government Makes Cut.

Vigorous protests were meted out at the fifteenth annual convention of the Ontario Association of Fairs and Exhibitions, both against the government for intimating a 50 per cent. reduction in the agricultural grant, abolishing the departmental judges, and against the railroads for increased rates. Delegates contended that since the present grant had stood unaltered for the past 25 years, that instead of being reduced it should be increased. President Dr. W. A. Crow in his address remarked: "I contend that the hands of the clock have been turned back when the minister of agriculture cut off the several hundred departmental judges and forced the selection of local men to judge the exhibits. The grants to the agricultural societies for 1914 are to be reduced 50 per cent. Here again is a master stroke of false economy, but I question the legality of this act, for our fairs are the final examination of the men of Ontario who produce our live stock and other farm products."

### Farmers' Preparations.

G. C. McClean of Brockville stated that the Ontario farmer is now enjoying the greatest prosperity of history, and the slogan of the farmers should be "Business as Usual, and Better."

### Secretary's Report.

Reporting to the convention J. Lockie Wilson, secretary, summarized the movements of the association for the past year as follows: "We have been able to get a grant of 50 per cent. on an average over the previous years, if the weather during fair time is wet. A short course for judges at Guelph and Ottawa was arranged for 1914. The 400 judges nearly 300 attended at both places, 150 grants are held out for field crops, but we are not lacking advantage in the understanding the fact that in 1913 the acreage was 35,000, and in 1914, 60,000."

### Small Fairs Useful.

At the evening session Prof. Geo. C. Day, of Guelph, in an address said: "Many people have been asking me all the small fairs has outlived its usefulness, and I have answered that it has not. Many of these small fairs carry the highest educational value than the larger ones."

### School Teacher "Live Wire"

"One of the best members of a fair board is the local school teacher, and if you want a 'live wire' on the executive try this plan at the next meeting."

### Dr. G. C. Creelman, principal of the Ontario Agricultural College, in a patriotic vein outlined the position of the farmer in respect to the war. He played during the present time of war. He said: "Loyalty of empire demands that you and I give the very best we have. Great Britain has borne the heavy burden of taxation for us, so we must not let them suffer for want of food stuffs, so let us as farmers do our part. Great Britain is on the verge of the greatest development in history, and we must go forward with faith that Canada and especially our Ontario are to become greater factors."

### Canadians A Big People.

"After my wide travelling I come home to find that we are a big people. Canadians are essentially energetic, prudent, and get-down-to-business people. At present war is our first business, but when the smoke of battle is cleared then we will need capital, immigration and enterprise. A great trade will result when we harness the Pacific as we have done the Atlantic. There has to be a change in the homelife of the farmer. Sons and daughters are asking for more than they are getting on the farm. We must meet the competition of the city conveniences."

### More of Us.

"Let us put more ginger into our work. A live secretary with a live board is what makes a good exhibition or fair, and the Agricultural College at Guelph is there to help you."

### Frank Yeigh, gave a patriotic address with colored lantern slides.

### ATTENDED BY TORPEDO BRITISH HOSPITAL SHIP

### French Ministry of Marine Points to Another Violation of Hague Convention.

Canadian Press Despatch. PARIS, Feb. 2.—A German submarine yesterday made an unsuccessful attempt to torpedo the British hospital ship "Aurora" according to a communication given out today by the ministry of marine, which is violating the formal clause of the Hague convention of 1907 regarding the attacking of hospital vessels. The Asturias, the ministry explained was fifteen miles north northeast of the Hazeo, which ship when the attack was made.

## SELECT CITIZENS FOR NEW CAMPAIGN

### Committee of Fifty to Be Chosen for Relief Proposition.

### LOANS OFFERED LOWER

### Several Offers Made and Bids to Be Called For.

The special committee on unemployment yesterday adopted a part of the report of a sub-committee composed of Aldermen Wickert and Robbins and Mayor Church, to appoint a committee of fifty citizens to conduct a "give-a-man-a-job" campaign. The mayor announced that the committee would be appointed tomorrow afternoon and that it would go to work immediately. A letter was brought to the attention of the committee, pointing out that there is plenty of work in the old country to which they could go, but that they would not go back if they had the money to pay their fare. The question of paying the fare of these men will be dealt with by the board of control.

### Prepared to Co-Operate.

A letter from Rev. R. L. Brydges, chairman of a special committee on unemployment of the Rural Deputies of Toronto, in which he states that the Anglican clergy is prepared to co-operate with the city in doing all that is in its power in the present situation.

### The committee appointed to deal with Toronto's rapid transit problems will meet its first meeting on Thursday.

### The trustees of the city yesterday decided to advertise for competitive bids for \$2,000,000 worth of local improvement serial debentures.

### On the decision of the committee on part yesterday the library board will be asked to find a site for the Beaches library outside of King Gardens. The committee is against the erection of public buildings in the city's parks.

### Mayor Church has signed a petition to the legislature asking for the grant of the municipal franchise to married women on the same basis as widows and spinsters.

### Parliamentary Commissioner believes that the old Trinity College building on Queen street will have to be torn down. The college will use it for three years yet. The controllers will go to Ottawa on Thursday to attend the annual meeting of the Union of Canadian Municipalities. The board of control yesterday refused to vote funds for the cleaning out of Cattle Pond. Toronto will insure 4000 men who are going to the front.

## ACTION ARISES THRU WOODBINE HOTEL FIRE

### Relatives of Frank Levenson Seek Damages to Extent of Ten Thousand Dollars.

Another action arising out of the fatal fire at the Woodbine Hotel, on March 17, 1914, has been entered at Osgoode Hall, on behalf of the relatives of Frank Levenson, by Morris L. and Fannie Levenson of New York. The writ claiming \$10,000 damages is directed against J. P. Langley, liquidator of the hotel company. Recently a similar writ was issued to recover damages for the death of Max Cohen of New York.

### Judgment by default was granted yesterday by Justice G. R. S. in favor of F. and E. Courtneymore, on a mortgage claim.

### Mr. Justice Sutherland refused the order asked in the London Weekly Court by the administrator of the estate of Edwin Frank Matler, permitting the motor car to be registered after a statutory period had expired.

### PAYS FOR 'GELLO.

### Cliffor Kerwan was awarded \$16 damages against Harold Cole, a professional motorcycle rider, at the first division court yesterday. The action arose out of an accident which occurred a few weeks ago, when Cole ran into a "coble" carried by plaintiff.

### CANON GOULD AT ST. EDMUNDS.

A missionary service will be held at 8 p.m. on Thursday at St. Edmund's Church under the auspices of the A. Y. P. A. The Rev. Canon Gould will be the special preacher.

### SNOW STORMS INVITE ROGERS' ANTHRACITE

THE ELIAS ROGERS CO., LIMITED  
ALFRED ROGERS, PRESIDENT  
PHONE MAIN 4155

## JURY RECOMMENDS MERCY FOR GRAHAM

### Entered Plea of Guilty of Shooting at Wife With Intent to Harm.

Pleading guilty to the charge of shooting at his wife with intent to do bodily harm, Norman Graham, a member of the city police attached to the second contingent, was recommended to mercy by the jury and will come up before Chief Justice Mulock on Friday for sentence.

Mrs. Laurena Graham, the wife, stated that her husband had been drinking heavily during the three and a half years they had been married. On Dec. 26 last he returned home at about 3 o'clock after having been drinking, and after supper went upstairs to their bedroom. Witness followed him and he took two revolvers out of a drawer and commenced to load one with three cartridges, stating that he intended to do for her, the kid, and himself. He fired, and the bullet missed, but her neck and face were burned.

On hearing the finding of the jury his lordship expressed his pleasure at their recommendation and said that he would see that their wishes were carried out.

### CHESTERSTON'S EXPERIENCE.

Cecil Chesterston, who will appear at Massey Hall on Friday night and spread the "Great European War," had an interesting experience in New York when he upheld the British side in a debate with G. S. Vierock, editor of the German paper The Fatherland. The New York Times said: "Mr. Chesterston was in good form and handled his side of the question without gloves."

### DISPUTE OVER STORES.

Judgment was rendered by Mr. Justice Middleton yesterday in the action in which the City of Toronto is seeking a declaration that the three brick stores, Nos. 161 to 171 Simcoe street, are encroaching on the streets. The defendants are the Pilkington Bros. Ltd., and Harry Weber.

## IN STRENGTH as well as size

### It is a characteristic of the CANADA LIFE ASSURANCE COMPANY that while its growth in size has been continuous and satisfactory, its increase in strength and earning power has been even more marked. This indicates that the welfare of the permanent policyholder is a primary consideration with the management.

	1910	1913	1914	Increase % since 1910
Business in force	\$128,274,973.	\$144,677,970.	\$157,407,171.	22.7%
Assets	40,820,857.	48,301,523.	56,103,842.	37.4%
Income	6,945,534.	7,392,280.	8,436,071.	21.5%

While there has been a marked growth in business in force and income, the assets have relatively grown nearly twice as fast. The earning power of these great assets has enabled the Company to increase the dividend scale materially at each distribution since 1900. The Canada Life is this year distributing to policyholders—

### Dividends of over \$2,800,000.

### HERBERT C. COX, President and General Manager.

The full detailed report will shortly be published and will gladly be sent to those desiring it.

### Hamilton Hotels

#### HOTEL ROYAL

Five rooms furnished with new beds, new carpets and thoroughly redecorated during 1914. BEST SAMPLE ROOMS IN CANADA. \$3.00 and up—American Plan. 67

#### E. PULLAN

BUYS ALL GRADES OF WASTE PAPER

#### WAR CONDITIONS AID SEVERAL FACTORIES

Many Concerns Putting in New Equipment and Expanding Their Staffs.

In spite of the general impression that war conditions have cut down all factory staffs and decreased employment, this retrenchment is not being experienced in all Ontario quarters. In some manufacturing towns factory staffs have not only been increased and kept working overtime, but new and expensive equipment has been installed. In some cases which have come to the attention of provincial Factory Inspector Burke as much as \$40,000 has been put into extension work, and the securing of government orders has resulted in the forming of night shifts.

One of the results has been that many persons have appealed against the law restraining children from working in factories. The fact that the sergeants of the 14th Battalion have come to the attention of provincial Factory Inspector Burke as much as \$40,000 has been put into extension work, and the securing of government orders has resulted in the forming of night shifts.

The receiving of large war orders is not well calculated to aid the unemployed. Although work is carried on it must be performed in a hurry and only skilled staffs are required. This means that those now employed will work longer hours and fare better, whereas those without jobs cannot be engaged on these special tasks.

### TROOPS SETTLE DOWN IN GUELPH QUARTERS

Battalion and Battery Begin Training—Big Dividends Paid by Junction Railway.

Special to The Toronto World. GUELPH, Feb. 2.—The 16th Battalion of the second Canadian overseas contingent and the 34th Battalion of the third expeditionary force have settled down here and are undergoing training. Forty more men arrived in the camp from Woodstock this afternoon and more are expected tomorrow. These will bring the strength of the 24th up to nearly 300. The sergeants of the 14th Battalion have organized and have started their mess.

The annual meeting of the Guelph Junction Railway Company was held this afternoon. The annual report showed that the city had received in dividends \$100,000 in the past year, 2 1/2 per cent, which amounted to \$25,000.

As a result of the stormy weather the street car service has practically been out of commission since Saturday night. Train service was greatly interfered with today.

Roads are blocked up and traffic is practically at a standstill. With one exception all the long distance telephone lines out of Guelph are out of commission.

### SERVICE OF PRAYER FOR WOMEN.

The prayer service, which this week is in charge of the Dominion Council of the Young Women's Christian Association, will be held today from 12 to 12:45 in room 42 of the Wesley building, 25 West Richmond street.

### BRITISH CASUALTIES.

LONDON, Feb. 2.—The following British casualties were reported tonight: Died of wounds—Lieut. Matthews, Royal Fusiliers; Lieut. Davies, Royal North Lancashire; Wounded—Lieut. Barker, Royal Lancashire; Lieut. Cull and Capt. Windy, Royal Rifle Corps. Casualties in the Cameroons: Wounded—Lieut. Col. Kingston, Northamptonshire, and Capt. Atwood, Garrison Artillery.

### TURKS MARCHED FROM JERUSALEM TO SUEZ

Canadian Press Despatch. CAIRO, Feb. 2.—Although there has been no further fighting in the Suez Canal district, a considerable number of Turkish deserters have surrendered. They have given graphic descriptions of the march from Jerusalem to the way of Beersheba (Bir-el-Saba), and of the (near) the boundary of Egypt and Palestine.

### NO MORE Valuable Fish

"No one need be a prominent Fry receiver here. A pound of the whitefish, containing a large amount of both salt and lead, has been found growing out of water off the shore of the district for some time. The hydro-electric plant in the district was the average. W. E. Dineen, Toronto Heights, is to be present at a meeting of the club at an early date."

NEWS OF SPECIAL INTEREST TO WOMEN

OPPOSITE STYLES MAKE APPEARANCE

Decided Change From Last Year's Models Comes for Spring.

COLOR TO BE USED

Pretty Shades in Red and Blue May Be Expected.

New spring suits are making their appearance, and because last season loose shoulders and baggy sleeves were worn, preparation is naturally being made for narrow shoulders, the tight neck set in, and flaring at the bottom.

The fine shouette, again, equally to the opera cloak, the dainty afternoon wrap and the street costume.

The spring costume is truly alluring. The gaiter topped boots are very high to rise up for the short length of the extraordinary full or circular flare skirt.

As for color, Dame Fashion is giving a decidedly generous scope. Until very recently black or black and white were leaders almost alone, but the military influences have been encouraged.

Some pretty shades of red and blue may step in.

Silks, satens, moires and taffes are shown as correct materials for the new models, but there is also a strong preference for corvet cloth, gabardine and English serges for the more practical street costumes.

LEAGUE WILL RECEIVE PERCENTAGE OF INCOME

Patriotic Women's Organization to Be Helped by Proceeds From Opera.

The Toronto Women's Patriotic League is trying to raise a sum of \$5,000 for the opera, "The Golden Age" for Thursday night. The league is in need of funds owing to the amount of relief work it is doing, and will receive a percentage of the receipts.

The patronesses for Thursday evening are: Mrs. Willoughby Cunningham, Mrs. A. M. Huetter, Mrs. J. B. F. Cherrishnaugh, Mrs. J. W. Daniel, Mrs. H. C. Rae, Mrs. Mackenzie Alexander, Mrs. H. D. Wainwright, Mrs. A. A. Hamilton, Mrs. Hamilton Burns, Mrs. John Bruce, Mrs. Boddy, Mrs. C. E. Burden, Mrs. Plumpire, Mrs. Eaton, Mrs. J. C. Eaton.

She Was in Bed For Seven Weeks

Then Dodd's Kidney Pills Cured Madam Berube.

Montreal Lady Tells How, After Four Years' Illness, She Found a Complete Cure for All Her Troubles.

MONTREAL, Que., Feb. 3.—(Special.)—Madame J. Baptiste Berube, residing at 1328 Logan avenue, this city, asserts that after four years' suffering from kidney disease, she has been completely restored to health by Dodd's Kidney Pills.

"I had a pain in my left side around the heart," Madame Berube says in her statement. "I suffered constantly with headache and backache, and for seven weeks I was in bed with kidney disease and footaches. The doctor could not help me, so I decided to try Dodd's Kidney Pills.

FURTHER TRIUMPH FOR FAMOUS CHOIR

Second Program Confirms Impressions Gained at Previous Concerts.

TRIBUTE TO CONDUCTOR

Critics Go Back Generation to Find Mendelssohn Choir's Equal.

Last night's Mendelssohn Choir concert in the Massey Hall served to confirm the impression left on the previous evening of a perfection in vocal art which could not humanly be bettered. There are some who have not heard many choirs who think that such a view is strained, but it should be remembered that the Mendelssohn Choir has sung in New York; in Boston, a still more critical city; and in Chicago, the most critical of all, and the musical experts in all these places capitulated absolutely before the merits of Dr. Vogt's singers.

This year's choir is a better choir than the Mendelssohn conductor has ever before assembled, better balanced, richer in tone, more homogeneous in the bass, with a flawless soprano rank, and altogether such discipline as to be matched, critic go back to a past generation in Brussels to find an equal. The war has deprived the choir and Europe of the opportunity of coming together, but with this voice that have sung in Massey Hall for the past two evenings there need have been no fear of the result or doubt about the honor which will have been brought to Toronto. The war also interfered with the orchestral arrangements, and to this fact is owing the capella performance which have delighted the audiences of last week.

There was not a vacant seat last night, and there was quite as much enthusiasm as the program made way for. It is not sufficiently recognized that the Mendelssohn Choir there is a distinctly spiritual quality, and in the three wonderful Cherubim songs given in the two programs, the music is not of a quality to merit and to such a high appeal to the deepest sentiments of the heart. The Russian church liturgies which embody such music are of different character, as the valuable notes contributed to the program by T. A. Reed pointed out to those of the Roman or the Anglican. The churches in Russia have no instrumental music. The choirs in the evening of the Mendelssohn Choir produced must have an aspect to impress those to whom the "Life-giving Trinity" means nothing. The program which opened the concert was distinct with this devotional spirit, and the same had the same quality as in the "Requiem" of the previous night. The rich organ tone and the sweet voices in the "Agnus Dei" and the magnificent bass in the "Agnus Dei" were full of the same spirit. The "Agnus Dei" was particularly fine. Later in the evening the "Ave Maria" by Healey Willan, was charmingly done, and Edgar's "Lullaby" aroused such applause that the "Ave Maria" was repeated. Dr. Vogt's own "Indian Lullaby" showed the choir's amateur quality. The choir in the evening of the Mendelssohn Choir was a marvel of vocal power. A five-part chorus by the local composer, Healey Willan, was charmingly done, and Edgar's "Lullaby" aroused such applause that the "Ave Maria" was repeated.

Excitement is becoming intense in the University College Ltd. election campaign. Although only three working days have elapsed since the vote on the budget, both the Liberals and Conservatives have made extensive canvasses, and each of the three parties has a well-organized executive.

The Progressive and Conservative are standing shoulder to shoulder, and the vote of the two parties is being massed in the endeavor to defeat the Liberal. The Liberals are standing for their old platform, the budget they were defeated on, and their accomplishment since the last election.

CONTEST BECOMES WARMER EACH DAY

Progressives and Conservatives Against Liberals in College Campaign.

Excitement is becoming intense in the University College Ltd. election campaign. Although only three working days have elapsed since the vote on the budget, both the Liberals and Conservatives have made extensive canvasses, and each of the three parties has a well-organized executive.

AN EASY WAY TO INCREASE WEIGHT

Good Advice for Thin Folks.

The trouble with most thin folks who wish to gain weight is that they insist on dragging their stomachs up the stairs, or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest discovery of the century. It is a simple, natural, and perfectly safe preparation to coat the stomach and intestines to literally soak up the fat-laden elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result: healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. Leading druggists of Toronto and vicinity have it, and will refund your money if you are not satisfied, as per the guarantee found in every package.

February Stock Clearing WITH MAYBE ONE OR TWO EXCEPTIONS We Show Greater Stocks of Fine Furs To-day Than the Combined Stocks of All Other Furriers in the Dominion. ARMY SERVICE CORPS

Col. Cowan Tells of Valuable Work Done by This Branch.

At the regular meeting of the Women's Auxiliary of the Canadian Army Service Corps, held in the armories yesterday afternoon, the program of business was followed by a talk on the work of the corps by Col. Cowan.

OWES HER LIFE TO "FRUIT-A-TIVES"

Cured Both Stomach Trouble and Headaches.

PALMERSTON, Ont., June 30th, 1912.—"I really believe that I owe my life to 'Fruit-a-tives.' Ever since childhood I have been under the care of physicians and have been paying doctor's bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old Stomach Trouble and distressing Headaches nearly drove me wild. Some time ago I got a box of 'Fruit-a-tives' and the first box did me good. My husband was delighted and advised a continuation of their use.

"Today I am feeling fine, and a physician, meeting me on the street, noticed my improved appearance and asked the reason. I replied, 'I eat 'Fruit-a-tives.' He said, 'Well, if 'Fruit-a-tives' are making you look so well, go ahead and take them. They are doing more for you than anything else.'"

"Fruit-a-tives" are sold by all dealers at 50c a box, 4 for \$2.00 trial size for 25c, or sent post-paid on receipt of name by Fruit-a-tives, Limited, Ottawa.

FIRST HEARING ON WATER POLLUTION

International Joint Commission on Waterways Assembles in Queen's Park This Morning.

The pollution of international boundary waters will this morning receive the first official attention since the report compiled last year by American and Canadian engineers. The government commission, acting in co-operation with that appointed by the United States authorities, will hold its first Canadian sitting at the parliament buildings today, and engineers will be called to give evidence. The hearing is intended to be purely advisory, and will take the form of a preliminary to general recommendations to both governments.

HYMN BOOK REPORT UNDER DISCUSSION

Presbytery Decides to Consider Question Further and Makes No Decision.

For two and a half hours yesterday afternoon the presbytery discussed the report of the hymn book revision committee, which suggests the omission of 117 old hymns from the proposed new Book of Psalms. It was decided to consider the matter for a second time at another meeting two weeks from today, no decision being reached at yesterday's conference.

INQUEST AT WHITBY DID NOT TAKE PLACE

Should Have Started Yesterday Regarding Death of William Stone, But Was Postponed.

WHITBY, Ont., Feb. 2.—The inquest into the death of William Stone, the young Grand Trunk telegraph operator who was shot and killed at Whitby Junction on a month ago, has again been postponed indefinitely. Yesterday was the day set for its conclusion, but Crown Attorney Farwell decided that there was insufficient evidence on which to bring in a verdict. "We don't want to close up the inquest until we have every possible piece of evidence before the jury," said the crown attorney to The World yesterday.

PROFESSOR IN HOSPITAL

Prof. St. Elmo de Champ of the French Department of the University of Toronto is in a hospital in a French town, following an attack of rheumatic fever. Previous to being stricken he was with French forces guarding a railway between Lyons and Switzerland. Prof. de Champ wrote to Toronto friends telling them of his illness.

START AVIATION SCHOOL

The members of the Royal Canadian Yacht Club are being canvassed to obtain the consensus of opinion as to the feasibility of establishing an aviation school in connection with the club. So far about 150 men have signed their approval of the scheme.

SMALLPOX IN RESERVE

A report has been received at the Methodist Mission Rooms that a serious outbreak of smallpox has been experienced among the Indians at Selkirk and St. Peter's reserve, a district between Winnipeg and the mouth of the Red River.

WAS LOST WITH EMPRESS

On behalf of the relatives of Miss Krantz Haverinen, who was a victim of the Empress of Ireland disaster, John W. Ahlquist made application yesterday for the administration of the estate. No will was left and the estate comprises \$30 in postoffice accounts, promissory note for \$150 and \$30 due from the Toronto Finnish Society.

NEW JARVIS COLLEGIATE

The cost of the new Jarvis Collegiate will be \$200,000, and when completed it will have accommodation for more than one thousand students. It is to be the finest high school building in the Dominion. Efforts are now being made to have the plans ready and approved in time for a commencement on the work of building in the spring.

TO HAVE SCHOOL

Clinton Street School will hold a concert in the schoolhouse Thursday evening, the proceeds of which will go to the Red Cross Fund. A literary and musical program has been arranged, and will be given by some of Toronto's best-known talent.

MADE IN CANADA

Visit the millinery factory at 298 Yonge street and see the process and manufacture of Shredded Wheat and Triscuit. Samples free.

Rheumatism

A Home Cure Given by One Who Had It. In the spring of 1909 I was attacked by Rheumatism. I suffered an only those who have it know, for over six weeks. My doctor gave me medicine, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were formerly afflicted and it effected a cure in every case.

Beauty Hints How to Treat Your Hair in Cold Weather

By LUCREZIA BORI... You have often noticed that in extremely cold days it is almost impossible to arrange the hair as easily and become as fresh as in warmer weather.

Do You Fear Your Own Imagination? By WINIFRED BLACK

AND SO," read the Little Girl in a terrible voice, "the Black Witch turned the little boy into a toad, and he sat under a toadstool in the wet garden and cracked and was very sad. And nobody—not even his poor mother—had the slightest idea where he was, or why he didn't come home for tea."

And later we had tea before the fire, and there were cookies with raisins in them, and it was very nice and comfy, but the Little Boy was not satisfied.

The Good-Night Story MISS GREEDY WOODPECKER By Vernon Merry

HAVE you ever heard a woodpecker tapping on the bark of a tree trying to find a dinner? This is the reason she has to work so hard for every morsel she eats.

ADVICE TO GIRLS By Annie Laurie

DEAR ANNIE LAURIE: I am thinking of taking a trip to the very far west. It is not very far from here, and as I don't want to go alone, I want to have my gentleman friend go with me.

Secrets of Health and Happiness

You're Taller and Lighter After a Good, Sound Sleep

By DR. LEONARD KEENE HIRSHBERG

MEDICAL volumes, physiologists, poetry and philosophy are thronged with similes and analogies to prove death a blood cousin of sleep.

The proof lies in the fact that after a good round of sleep a man is taller and lighter and filled with more vigor—the sap of life. Sleep recoups the muscles, casts out the prolonged drowsiness of fatigue, fills the reservoirs of motion and the coal bins of ambition.

Prof. Paul Haupt, the great scholar of Johns Hopkins, has always considered sleep in himself to sleep more than three or four hours in the day and night. My Gus Lieblit, another enemy of Morphine, has not slept over one or two hours in the 24 for more than 25 years.

Diary of a Well-Dressed Girl By SYLVIA GERARD

THE "UGLY DUCKLING" FROCK BECOMES A SWAN

WHILE Aunt Anne was at the lawyer's this morning I wandered up and down the side streets until I stumbled across an antique shop.

I ordered it boxed and sent home, and was about to leave the shop when I caught a glimpse of a large oval Shag field tray. Mother's been longing for one ever since Aunt Katherine gave her one last year.

It will prevent delay if letters containing "subscriptions," orders for advertising, or notices, are addressed to the Circulation Department.

The World promises a before 7 o'clock a.m. delivery in any part of the city or suburbs. We also have a special department in case of irregular delivery. Telephone M. 5302.

WEDNESDAY MORNING, FEB. 3

#### The Gospel of Force

Germany has already broken so many of the rules of international law that further infractions must be regarded as inevitable whenever these appear advantageous to the war lords. They have openly adopted the principle that might makes right and evidence of respect treaties, agreements and conventions of all kinds as absolutely negligible quantities in the conduct of war. Indeed, all civilized nations are today confronted with an organized attempt to bring back to the twentieth century the unmentionable horrors of the dark ages, when the rights and liberties of men were dependent on the whims and caprices of the lawless commander of a troop of freebooters.

But the menace today is infinitely greater, because it is accompanied by all the resources of modern science and equipment. It is not an uncertain quantity, but a force deliberately formed and used for a definite and constant purpose. This system of terrorism that holds Belgium and the occupied districts of northern France in its iron grasp is no occasional or transient exhibition on the part of individuals. It has been deliberately conceived and is being deliberately carried out by believers in the gospel of force, who admit no moral obligations and accept no moral restraints.

Apologists for German cruelties against moral and international laws advance the specious plea that the teaching of men like Bernhardi has never been accepted by the German people. But in the conduct of this war Germans have put the precepts of Bernhardi in force and are being justified by other professors and writers who are of his ilk. Take, for example, one of the most recent exponents, Karl Schottler, a well-known German writer, who states in no many words that "all international laws are agreements which at once become illusory in war time." In his view the higher morality is "the ethics of force and of national expansion." In waging war against this doctrine the allies are fighting for the basic principles of Christian civilization.

#### Automaton and Free Man

What throws an instructive light on the character of Prussian militarism is the fact vouched for by many observers, that while infinite pains are taken over the German soldier as a fighting entity, little care is taken of him when he ceases to be of value in the firing line. Disregard of life is also shown in the readiness to sacrifice any number of lives in order to gain an objective irrespective of whether its value, when it is achieved, is comparable to the loss sustained. The moral is that the German soldier is considered only in relation to his place in a huge war machine fabricated for the one purpose of crushing resistance whatever the cost. Whole hordes of lives are sacrificed merely because the men behind the machine so ordain. The German soldier obeys and dies heroically without the slightest notion of the why or wherefore of the orders he receives.

In a sense that is true of all the operations of war, Tennyson, in his famous poem on the futile charge of the six hundred at Balaclava, penned the lines: "Their not to reason why, theirs but to do or die." The first and basic rule in all armies is obedience to orders, whether these be right or wrong, good or bad. Yet, as between the role of a soldier who knows nothing but obedience and the duty of a soldier who obeys, even the he knows "someone has blundered" we take it a vast difference can be found. The latter demands a higher type of courage than the merely physical, and one that will outlast the other. It preserves for the soldier, too, his power of initiative and independent action when he is left to his own resources. The automaton must in the end yield to the free man.

**German Menace in South Africa**  
While it is the boast of the English-speaking peoples of this continent that for a hundred years peace conditions have prevailed along an undefended and unfortified frontier of four thou-

sand miles, our German enemies, since they succeeded in establishing themselves in Africa, have been assiduously preparing a very different fate for that continent. More especially in their southwestern territory, with its 223,248 square miles, bordering on Cape Colony and British Bechuanaland, did they at once become busy in preparing for a war of aggression. This action of their part loses none of its significance by reason of the fact that the other European nations, among whom Africa is partitioned and actively engaged in opening up the country long before the Germans appeared in that field, have never found it necessary either to meditate or fear attack on or from their neighbors.

In view of the approaching campaign to be conducted by General Botha and the South African forces in German Southwest Africa, a little book has been published at Capetown, giving the impressions of Mr. J.K. O'Connor, who spent six months in the German colony before the outbreak of war. He estimates that the Germans can place in the field 15,000 well-equipped, trained men, with plenty of artillery and machine guns. Small fortified posts are scattered over the inhospitable area, and communication by telegraph, telephone and other means is particularly good. Sufficient supplies have also been collected to support the troops for a long time. Even aircraft have been provided and the railways, of which there are several, have been constructed with an eye to strategic quite as much as to trade purposes. Germany's military stations were all established within striking distance of the British border, ready for the moment when German secret agents would announce that the hour was ripe for a general Boer uprising.

Germans are decidedly untrustworthy neighbors, so very undesirable, indeed, as to make it evident that the peace of Africa depends on their expulsion from the continent. They have carried into Africa the same reckless disregard of international rights that has characterized their conduct in Europe and wherever their activities have carried them. The Union government has, therefore, had to recognize that if this southwest territory remains in German hands it cannot be other than a constant menace. Its continuance will complicate the position, as the Rand Daily Mail editorially observes, to maintain a standing army and to waste its resources upon armaments, fortifications and strategic railways. Not only this, but the Union government has also learned that there is no end to the German spy system and to its insidious plotting and scheming against the peace and prosperity of neighboring nations.

#### Britain's Voluntary Armies

Nothing is known of the actual number of men who are now undergoing training in the United Kingdom under voluntary enlistment. The government no doubt rightly holds that the disclosure of the figures would be of material advantage to the enemy, just as knowledge of the number and character of the reinforcements Germany is preparing would benefit the allies. Judging from statements made in Berlin newspapers they seem to be widely at ease regarding Britain's new armies, one of them going so far as to profess to have learned from authoritative sources that British recruiting efforts had the result of having 100,000 men trained and ready for the field up to the end of January, that many of these are without equipment and that they include boys and men of sixty all mixed up together. But the German authorities are probably better informed.

With a movement on foot in Britain in support of the introduction of universal military training an effort will certainly be made in parliament to obtain more definite information from the government. The proposal, however, is meeting with strong opposition and the military experts are by no means a unit on the subject. Some, and these not the least influential, hold that better and keener men are obtained under a system of voluntary enlistment and assert that the enrolments in the new forces are on an equality with the French armies enrolled under the most stringent law that exists on the continent of Europe. One thing all these authorities do agree upon, and it is that the new voluntary soldiers of the United Kingdom will compare favorably, not only with the men of the European armies, but with the men of the regular British troops.

### "NOW, BOYS, WHAT IS THE ANSWER?"

#### CIVIC CARS ON LANDSOWNE AND DOVERCOURT.

Editor World: I notice that Mr. Harris has reported on the civic car lines on Lansdowne and Dovercourt. He said that the Dovercourt and Springmount lines would cost more and would be moreover, a longer route. If Mr. Harris will carefully go over his figures he will find that the Lansdowne line will cost \$50,000 more than that on Dovercourt and Springmount. There are two curves on the Lansdowne route, one at the top of the hill and also one at the bottom, both of which are comparatively sharp. Further, the Dovercourt car line must be crossed, and also the C.N.R., which lies close to it, and is in parallel to it. There are five tracks to cross at the C.P.R., with a train of about 40 cars every half hour. This last fact shows just how dangerous that point would be. Further, it is difficult to see how that would thus be done to the Canada Foundry property would cost more than the whole Dovercourt line. The Dovercourt and Springmount lines, on the contrary, could be built much more cheaply as there is already a subway and a 42-foot track which the people are paying for with the understanding that a car line to Dovercourt and Springmount would be built. This road would be built from Dovercourt, up Springmount with an easy grade to St. Clair and Glenholm. We would then have a direct route to King street by civic car line and a 42-foot connecting east and west on Bloor, College, Dundas, Queen and King streets.

If the Township of York would build a line up Glenholm to Rodgers road, thence east to Oakwood, and from there north on Oakwood to Eglington, the city could save at least ten running powers over this line. The rental would pay the interest on the debentures and the improvement and increase of taxes on the value of the property would support the weight of the sinking fund. By building this line you will give the people employment and furthermore, a substantial improvement with respect to the value of their property. It is a generally admitted fact that the people of the suburbs are the citizens who do the largest part in the upbuilding of any city, and the downtown citizen has to do with the more immediate taxing of cash which the former produce.

Wm. Foster,  
13 Somerset avenue.

#### A WORD FOR THE HORSE DEALER.

Editor World: Having read your article referring to the purchase of government horses for use in the army, I was pleased indeed to know that there was one paper in the City of Toronto which would say a word in favor of us poor dealers.

We have been called thieves and everything that is bad thru the columns of some of the leading papers. In fact, in reading some of the articles printed, I would stop and think what constituted a dealer, or what qualifications did a man require to make him an expert judge of a horse, or what constitutes an amateur?

To my way of thinking a dealer is a man who buys a horse for \$150 and sells him for \$500, showing his superior judgment. An amateur is a man who wants to be a horseman but lacks the natural ability, but has lots of money, made easy, or left to him, who buys a horse for \$1000 and sells him for \$50. An expert judge is a man who thoroughly understands a horse's disposition, habits, ailments, etc., and capable of handling and educating the horse.

With your permission I will ask, on behalf of the dealers in Toronto, who are making an honest living by importing, buying and selling horses, if it was not for you that last year the league had expended \$6000 while engaged in purely educational work, this year the league is to branch out and pay some attention to industrial conditions. Engineer Wise, connected with the body, will investigate the matter and make suggestions as to improvement. It then rests with employers to say whether they will set on them or not. No coercion can be applied in any sense.

The expense this year will be much heavier, as the province in general will be taken care of, and not alone Toronto. The league depends on the financial support of large corporations, and is endeavoring to avoid dependence on individual sources.

**AUTO WAS DAMAGED.**  
Dr. Frank Thompson lost his action in the division court yesterday. He was suing Thomas Leeming for \$80 damages done to his automobile in August last. No order for costs was made.

### CANADIANS TO MOVE SHORTLY TO FRONT

General Alderson Expects Men Will Soon Be in France.

#### TROOPS BRIGHTEN UP

New Syllabus of Three Weeks' Special Training Under-Taken by Men.

By John A. MacLaren, one of The World's Staff Correspondents with the Canadian Expeditionary Force.  
SALISBURY, Eng., Jan. 17.—After repeated rumors about the date of the Canadians' departure there at last appears to be something definite. Practically a year since the Canadians arrived at Plymouth there had been numerous "wishes" more or less of the question, "When are we to go to the front?" All these were incorrect. But Gen. Alderson and all the brigadiers have now spoken.

The commandant of the force dropped in to the sergeants' mess of the 15th Battalion (48th Highlanders of Toronto). Even a man jumped to his feet and stood as straight as a ramrod. "Sit down, men," said the general. "I have to say a few words to you to compliment you on your splendid work and the manner in which you have endured the mud and rain. The move is now in sight. I expect that within a month from today you will all be eating your dinner in France." The general then withdrew, followed by cheers which lasted fully a minute. Many other battalions were visited and the cheerful news spread over the camp. The brigadiers also announced to their officers that a move was in sight.

Men Ready for Front.  
The last syllabus of training called for three weeks' more work in Salisbury, each week set aside for certain drilling. This period expires Feb. 6. The general impression now is that the division will begin to move on the 15th inst. In December it was generally supposed that the movement would take place on Jan. 15. It might have occurred on this date had not an epidemic of spinal meningitis broken out, from which about 30 deaths resulted. The war office was greatly concerned about the outbreak, and a professor from the Lister Institute was sent to the camp. It was understood that as soon as the disease was checked it was recommended by the specialist, as well as the Canadian doctors that the force should be moved to Egypt or southern France as speedily as possible. Warm weather was essential to put the men in proper physical condition as there has been a great deal of sickness, such as severe colds, influenza, pneumonia, capped by spinal meningitis in its most malignant form. Over ten days have elapsed since the last sufferer from meningitis entered Belfort hospital, so it is now thought that the camp is free of it. The Canadian doctors are bound for France, where they were to join the hospital there, were stopped in London because of left most of the time, but there has been comparatively little grumbling. The "grin and bear motto" has been adhered to fairly well, but of course there are a number who have grumbled incessantly.

Everyone Frightened.  
"I think that every man in camp was scared" said a doctor connected with Belfort hospital. "Many thought they had the symptoms. The men figured a stiff neck was the first sign, and of course, every man was constantly twisting his neck to find out whether the muscles had stiffened up. The outbreak was extremely serious and we were very worried. You may be sure that we took every precaution. Huts were quarantined, and several outbreaks of a patient was found isolated. Several thousand throats were swabbed daily, as the germ was believed to settle in them."

Plantation Condemned.  
The disease originated in the 17th Battalion (Nova Scotia Highlanders), who sailed for France with the Fifth Battalion, consisting of westerners, also a few men. Two men not connected with any battalion contracted it and died within a few days. They were Col. Frank Strange of Kingston, whose work was principally in the ordnance store in the City of Salisbury, and Capt. Lester Ince of Toronto, who was acting as chaplain at the Belfort hospital. Sling plantation, where the epidemic started, was condemned the other day, and the Fourth Brigade has been moved into barracks at Belfort, one of the many towns on the outskirts of the plain.

Owing to the effect of the wet weather on the horses, which were constantly exposed, the cavalry and artillery were billeted in farms and houses and in the surrounding villages of Shrewton and Devizes. At present there is only one brigade uncommanded by Lt.-Col. Mercer of Toronto, who contended that tents were healthier than the huts. As a matter of fact, there has been comparatively little sickness in this brigade. The men are well hardened.

Buy direct from the miners. We mine, ship and retail our own product.  
THE CONNELL ANTHRACITE MINING COMPANY, LIMITED  
Head Office, Corner Queen and Spadina Avenue

present there is only one brigade uncommanded by Lt.-Col. Mercer of Toronto, who contended that tents were healthier than the huts. As a matter of fact, there has been comparatively little sickness in this brigade. The men are well hardened.

"Halt! Who goes there?" he called at the first man. "This story has gone the rounds, but it does not tally the way a Canadian answers the sentry. He is just a regimental as the men of King's chert's army or any other volunteers. Canadian officers state that the private has only one weakness—the overdays he leaves frequently. But considering the hardships on the plain he could hardly be blamed. Nevertheless, a Canadian goes and London more attractive than Salisbury and stays longer than he pass allows. He is stiffly penalized. "The Canadians will show that they are good soldiers when they get under fire," is a common statement. "Just take them out of the mud and give them a chance."

See the Beautiful Scenery at Niagara Falls.  
The Toronto Evening Club is running an excursion to Niagara Falls, Ont., and Buffalo, on Saturday, Feb. 6, via Grand Trunk Railway. Tickets are good leaving Toronto via the a.m. fast express, and valid to return on regular trains until Monday, Feb. 8, 1915. Return fare to Niagara Falls, Ont., \$2.25, and Buffalo \$2.75. Tickets now on sale at city ticket office, northwest corner King and Yonge streets, phone Main 4299, hours 10 to 6.

#### TRIALS HELD OVER.

T. C. Robbette, K.C., made application yesterday before Chief Justice Mallock, to have the trial of Dr. E. Roy Tyrer, charged with murder, and Alex. McCordule, charged with conspiring to commit an abortion, held over until the next assizes. The application was made on account of the wife of Tyrer, who is a material witness, being unable to attend the court. The application was granted.

### SAFETY LEAGUE ASKS GOVERNMENT BACKING

Expansion of Year's Program Demands Increased Financial Assistance.

The Ontario Safety League, having extended the scope of its efforts for the coming year, is seeking the backing of the Ontario Government. A deputation, including President Oil-Herzwood, M. A. Kennedy and Secretary Frank Morley, approached Premier Hearst yesterday and laid the aims of the organization before him. They came away confident of receiving support.

It was pointed out that last year the league had expended \$6000 while engaged in purely educational work. This year the league is to branch out and pay some attention to industrial conditions. Engineer Wise, connected with the body, will investigate the matter and make suggestions as to improvement. It then rests with employers to say whether they will set on them or not. No coercion can be applied in any sense.

**O'Keefe's PILSENER LAGER**

How can anyone doubt the concentrated strength, the mental and physical refreshment, in a bottle of O'Keefe's "PILSENER" Lager, when Prof. Gaertner—in his famous book—"Manual of Hygiene"—states that "one quart of beer is equal in food value to three and one-tenth pounds of bread, and one ounce of meat."

Of all pure foods  
**O'KEEFE'S PILSENER LAGER**  
can be said to be absolutely pure.

Scientifically brewed in the O'Keefe way from only the finest Hops, choicest Barley Malt and filtered Water it is absolutely pure and healthful, rich in food values and mildly stimulating.

Order a case to-day at your dealer's.  
If your dealer will not supply you, phone us Main 4282, and we will see that you are supplied at once.

**ANIMATED DISCUSSIONS ON SOCCER QUESTIONS**

T. and D. Directors Will Handle International and Cup Games—Officers Elected.

The annual meeting of the Toronto and District Football Association was held on Monday night. Considerable discussion took place over a proposition for the delegates to fix dates for the international and charity games. It was finally decided that the directors handle these games, and with a recommendation to fix the Charity Cup games and half of the international to be played in mid-week, another proposition that created an animated discussion was that the clubs should take all the gate in the Toronto series of the Connaught Cup, as this was not a competition proper, and the association was not entitled to any percentage of the receipts. The difficulty was overcome by Secretary Spenser offering to donate a cup for this series. The meeting was adjourned last Monday night at 8 p.m. All clubs will please forward to the secretary the names and addresses of their secretaries and league delegates. The following clubs were admitted to the association: Red, White, Blue, British Imperial, Polon Iron Works and City Dairy. The following were admitted to the association: Red, White, Blue, British Imperial, Polon Iron Works and City Dairy. The following were admitted to the association: Red, White, Blue, British Imperial, Polon Iron Works and City Dairy.

**TRAWLERS FORM MOSQUITO FLEET**

Fishing Boats Are Doing Great Service in Varied Lines.

Canadian Press Despatch  
TARMOUTH, England, Feb. 2.—The nickname of "mosquito fleet," applied to the navy's torpedo flotillas, should properly be given to the steam trawlers, of which the government is gathering together a swarm for the three-fold purpose of mine-sweeping, protecting battleships from submarines, and operating in the shoals of the Belgian coast against the Germans. Over 200 of these boats were requisitioned the past week, and thousands are already out. They are found to be useful that the government will not have to buy too many, and they are found to be useful that the government will not have to buy too many, and they are found to be useful that the government will not have to buy too many.

**ENGLAND CAN BOAST THAT SEA IS FREE**

Churchill Says Present Situation is Without Parallel in History.

Canadian Press Despatch  
PARIS, Feb. 2.—"For the first time in history England can say, 'The sea is free,'" declared Winston Churchill, Great Britain's first lord of the admiralty, in an interview with Hughes Lereux, editor of The Month. "In the days when you and we fought, each other," he continued, "our most important victories never brought us security comparable with that which we enjoy today. Even after Antwerp we knew nothing like it."

STOCKS STRONG IN WALL STREET

C. P. R. Broke Early, But Later Recovered Part of Loss.

MONEY CONTINUES EASY

Chicago Quotes Same Rates for Commercial Paper as New York.

Canadian Press Despatch. New York, Feb. 3.—Stocks were contently strong for the better part of today's session on the exchange, regarding another speculative rise in wheat and adverse weather conditions, which were partly responsible for the relatively light dealings. Best prices were registered in the later opening, but recessions were general towards the end, when it became known that the British Government had declared its intention to regard all food-stuffs shipped to its enemies as contraband.

There was some early selling of C. P. R. and other international shares, which seemed to proceed from London, where their securities again manifested an uncertain tone. Latest developments in the war were reflected in the uncertain attitude of the British and French markets. Selling of gold-edged securities was a feature of both centres, with very heavy effect, however, on our markets for foreign exchange.

Less than the usual number of specialists participated in today's movement, but among these Sears-Robuck was prominent for sharp decline from its recent rise. American Can. sold off on publication of the annual report, showing a decrease in net earnings.

An indication of the widespread ease of money in found in the fact that Chicago is quoting the same rate for commercial paper as prevail in this market. Northern Pacific was the only important railway system to submit its statement of December earnings. It showed a net loss of \$41,000. Numerous minor lines also showed decreases in net for the month, with reduced operating expenses.

Bonds were firm, the changes being confined to the 4 1/2's, which touched a record figure.

Another dull day in the mining market. Brokers still disinclined to trade under the open rule.

Brokers opposed to the new rules on the Standard Exchange again refrained from trading in diamonds and other securities, which was another very dull day on the floor, but the proceedings were again enlivened when the Standard Exchange announced its intention to drop the diamond and other securities from its list of securities.

Only \$1,837 shares were dealt in during the day, and of this total Peterson & Co. accounted for 6700 shares. The stock was well supported in the earlier dealings, selling to 33 but later receding to 32 1/2, and closing at 32. Beaver sold at 27 1/2, and Timmings was steady at 31 1/2.

Wheat market. A very strong feeling continues to prevail in the flour market, and prices for spring wheat grades were advanced another 3/8 per barrel, and winter wheat grades 4/8 to 5/8, while rolled oats were marked up 7/8 per barrel. There was demand from foreign buyers for spring wheat, but exporters would not accept the price bid. Demand for milled is good. Butter fairly active. Cheese quiet. Eggs steady.

Wheat market. Wheat market. A very strong feeling continues to prevail in the flour market, and prices for spring wheat grades were advanced another 3/8 per barrel, and winter wheat grades 4/8 to 5/8, while rolled oats were marked up 7/8 per barrel. There was demand from foreign buyers for spring wheat, but exporters would not accept the price bid. Demand for milled is good. Butter fairly active. Cheese quiet. Eggs steady.

WILD DANCE IN THE WHEAT PIT

May Wheat Was Advanced Nearly Nine Cents Per Bushel

CLOSED ABOVE THE TOP

Large Order From Italy and Submarine Attacks Controlling Factors

Canadian Press Despatch. LONDON, Feb. 3.—Every modern high price goal for wheat was left behind today except for a bushel, but the wild dance in the wheat pit was not over yet.

May wheat today rose 5 1/2 here to 116.5—more than double the cost of wheat for most of last July, before European hostilities commenced. It was simply a question today of getting the wheat buyers appeared to regard the subject of price as merely a detail, excited purchasing, but the opening was a virtual bar of the market.

Alarm at Liverpool, where a startling upturn in prices of wheat resulted from submarine attacks by Germans on British merchant vessels in the Irish Sea, was chiefly influential trading here. Assertions, however, of a strenuous defence of 1,000,000 bushels having been taken by the Italian Government, which were believed to produce the over-whelming bullish sentiment that made the market through the series of extraordinary upward whips.

No Market Reactions. Among the most striking features of the wheat trade was the absence of violent reactions. It seemed in particular that the market was not so much short as it was in Chicago, where delivery on pit contracts for May appeared to have been almost exhausted. It is believed that the market is not so much short as it was in Chicago, where delivery on pit contracts for May appeared to have been almost exhausted.

Provisions were in active demand. Jefferies figures regarding warehouse stocks. Buying was attributed mainly to the higher prices for hogs and grain.

SUGARS. Sugar continues very firm, with dealers looking forward to a possible rise in the price of sugar. The price of sugar has increased from 55.00 to 56.00 per 100 lb. in the last few days.

Weather risk. It is predicted that the wheat market will be rather slow until next April.

WOUNDED OFFICER REACHES HOSPITAL

Lieut. Stanley Jones, Calgary, of Patricia, Hit in Hand—Canada Thanked for Aid.

Canadian Associated Press Cable. LONDON, Feb. 3.—Lieut. Stanley Jones of Calgary, one of the officers of the Patricia, who was wounded in the engagement on Friday last, arrived in London today. He is in a serious condition.

Secretary Griffiths of the high commission in London, who is in charge of the local authorities of Great Britain and Ireland have passed a resolution, jointly thanking the Canadian Government for the magnificent aid which has been made to the old country on behalf of the Canadian people. Local committees have been formed in every part of the country to place it on record that these gifts have proved of incalculable value, enabling them to meet the needs of the people in the most dignified fashion.

Further orders have been given by the Secretary of State for Canada and the Secretary of State for the Colonies to the effect that the aggregate value of trade placed by Great Britain with the Canadian houses is to be maintained at the level of 1914. It is believed that these orders will result in a temporary stagnation in Canadian industry, but in the event of goods being up to the standard, there is every reason to believe permanent connections will be the outcome.
