BOYS GAVE PURSUERS HOT CHASE WITH BUGGY

Took it From Front of Canada Life Building in Hamilton and Made For Dundas.

HAMILTON, Oct. 24.—(Special).—Two boys jumped into a buggy which was standing in front of the Canada Life Building to-night and drove in the direction of Dundas. The outfit belonged to Field's livery, and the man in charge of it reported the theft to the police. A hot chase resulted, and the boys got back to the city by a roundabout way. They deserted the horse and carriage in the north end of the city, and so far have not been captured.

Gregory Sullivan, 330 East Cannon-street, was arrested to-night on a charge of assaulting his wife. At a meeting of the local assembly of the Brotherhood of St. Andrew, in All Saints' Church, on Saturday, reports were received from the delegates to the convention held in Montreal a few weeks ago. Among those who spoke were Bishop Dumoulin, Archbishop Forneris, Canon Howitt, A. G. Alexander, John Egan, William Locke, Fred Henderson, W. McGillivray, A. S. Mitchell, Brantford, and W. G. Davis of St. Mary's.

PANAMA CANAL PURCHASE

Final Effort to Sustain Libel Indictment Against New York Press.

WASHINGTON, Oct. 24.—The final effort by the federal government to uphold the validity of the indictment in the New York federal court of the Press Publishing Company, on a charge of libel, growing out of the publication of an article in The New York World, on the purchase of the Panama Canal, was made to-day in oral argument before the supreme court of the United States.

Pope Not Ill

ROME, Oct. 24.—A report was current to-day that the Pope was cured from an attack of the gout. This is declared to be unfounded. His holiness held his usual receptions to-day.

Piles Cured Quick

Send for a Free Trial Package and You Will Be Overjoyed at the Astonishing Relief and Cure. Anyone who has piles wants quick relief. If you can't wait for the next drug store and get a 50c package of Pyramid Pile Cure. You will find relief right away. The cure comes quick and is a complete, permanent cure. Old, chronic cases, that itch all the time, bleed, protrude and are sore, become gangrenous and are the very essence of utter misery, should write to the Pyramid Drug Co., 271 Pyramid Building, Marshall, Mich., for a free trial package by mail in plain wrapper of Pyramid Pile Cure. Such cases have tried a dozen remedies, they believe in nothing, expect to be operated on, are sick, weary and discouraged. They need this free trial. It will be a revelation. The relief will bring back their hopes of a cure, the remedy will turn that hope into realization. A man in Indiana past 70 had suffered over 30 years with bleeding piles. The free trial of Pyramid Pile Cure was his first real comfort. He was thoroughly cured and has lived his remaining years in peaceful enjoyment, doing such odd work as would occupy his mind, and going about with none of the restraint and hardships that always accompany piles. Don't neglect to send for this free trial, and remember you can always obtain the regular 50c package in any drug store, and be sure you get what you ask for.

A DEMAND FOR LIGHT

Publishers Want to Know Who the Bribers Are. The Printer and Publisher says editorially: "Another month has passed without an announcement from the Secretary of State as to the identity of the manufacturers and dealers who are implicated in the scandal in connection with the Government Printing Bureau at Ottawa. Further dismissal of employees have taken place, but the public is still kept in the dark as to the source from whence the bribery or other corrupt practices emanated. It is such a condition of affairs in accordance with the established principles of British equality and fair play to all parties? We do not doubt but that in the end the government will make public the desired information, but we do claim that the proper time for its publication is simultaneous with the announcement of the dismissal of the employees forming a party to the dishonest practices. "Every now and then vague suggestions come to the ears of master printers of the United States and Canada that certain firms make a practice of using questionable means in the securing of business. It is very difficult, nay, almost impossible, in such cases to secure conclusive evidence that such is the case. The Dominion Government has in its possession evidence sufficient to warrant the dismissal of members of the bureau as recipients of take-offs and therefore sufficient to stigmatize certain firms as guilty of bribery. Occasional flashes of light, such as have been already given are not sufficient, the light must be turned on full and kept on until the printers and publishers of Canada know where the money came from."

STEAMER BURNED

Anchors Caught and It Was Impossible to Beach the Ship.

DULUTH, Oct. 24.—The steamer Langham, 300 feet long, owned by the John I. Adams Co. of Detroit, and with a grain carrying record, burned to the water's edge off Keweenaw Point Sunday afternoon. She was bound up the lakes for Port Arthur with a cargo of coal, and passed the Soo last Tuesday, but had not been reported since then.

SECULARIZE THE SCHOOLS

Portugal Will Substitute Instruction in Individual and Civic Morality.

LISBON, Oct. 24.—The secularization of the schools involves the replacement of religious instruction therein by systematic teaching of individual and civic morality. This is strongly favored by the reformers heading the government, who argue that the greatest peril to the young republic would be passed, if they succeeded in educating the children so that they would apply the same honesty to political as to private life. It has been decided to suppress the faculty of theology at the University of Coimbra, and abolish the taking of oaths by professors and students. The Portuguese embassy to the Vatican has been reduced to a legation.

OBITUARY

Well-Known Lawyer Dead. ST. JOHN, N. B., Oct. 24.—Dr. Allan Earle, perhaps the ablest lawyer in Canada, in the letter of the law, died here to-day, aged 60. He leaves two sisters here, one brother, Dr. Thomas Earle, in the province, and a brother, W. Z., a resident engineer of the public works department, Winnipeg.

An Old Resident.

HUNTSVILLE, Oct. 24.—With the passing of John R. Reece at the General Hospital in Toronto yesterday, Huntsville loses one of her oldest and best known citizens. He came here thirty-five years ago. He transmitted to H. P. Dwight the first telegraphic message ever sent out from the town when the line was in course of construction northward. He was born in Lipton, Staffordshire, in 1848, and served with the Prince Consort's Own Rifles Brigade at Malta for some years.

MAINLY ABOUT PEOPLE.

Inspector James L. Hughes will address the employees of the Toronto Electric Light Company, Limited, at 12 East Adelaide-st. on Wednesday evening. His subject will be "Technical Education." Clive Phillips-Wolley, orator, poet, ranchman, enthusiastic imperialist, naval expert, sportsman, will address the Empire Club to-morrow. Mr. Phillips-Wolley is president of the Navy League at Victoria, B.C., and has recently organized half a dozen branches of the league in British Columbia. He is the most sought-for speaker on the Pacific coast. Meetings will be addressed by him also at Montreal, Hamilton, Ottawa, &c. "Hear Down on Hell," Tabernacle Church, Bloor and Markham, to-night, at 8 o'clock. Henry Richardson, 50 Bright-street, saved his thumb in a machine, necessitating amputation.

NINETEEN MEN OF THE CREW WERE DROWNED

Steamer Regulus From Belle Island to Sydney Wrecked on the Cape Breton Coast.

ST. JOHN'S, Nfld., Oct. 24.—News of the wreck of the steamer Regulus, bound from Belle Island to Sydney, with the loss of 19 men of the crew, was received here to-day. The wreck occurred at Shoal Bay, nine miles from this port.

The Regulus has been running between Newfoundland ports, Sydney, C. B., and New York and Philadelphia. She broke her tail shaft off the Bay of Bulls, 26 miles from here, during a heavy storm yesterday, while bound from Belle Island to Sydney. The accident was reported here, and a tugboat went to her assistance and picked her up. The storm increased and four hawseers parted, and the Regulus was lost in the fog and darkness. The tug found her at daylight a total wreck at the entrance of Shoal Bay. The tug led the 19 of the crew were swept into the sea and drowned in attempting to reach shore. When the tug left the steamer she appeared to be heaving up.

Fears for Safety of Vessels.

KINGSTON, Jamaica, Oct. 24.—Fears are entertained for the safety of several schooners that left American ports weeks ago with cargoes of lumber, consigned to Kingston.

Fishing Schooner Sunk?

BOSTON, Oct. 24.—An unconfirmed rumor says that the Louisiana, a fishing schooner owned by Sylvanus Smith & Co. of Gloucester, has gone down at sea, with her crew of 24 men.

COPYRIGHT LEGISLATION

The Kidneys Wear Out

But many people of advanced years have ignored how to keep these organs healthy by using DR. CHASE'S KIDNEY-LIVER PILLS

The kidneys are often the first organs of the body to cause trouble. Their work of filtering the blood is greatly increased by excessive eating or by the use of highly seasoned foods and alcoholic drinks. As advanced age comes on most people suffer more or less from derangements of the kidneys. With some there are years of pains and aches, with others Bright's disease is soon developed, and the end comes quickly.

Fortunately a great many have learned about Dr. Chase's Kidney and Liver Pills, and are enabled by their use to keep the kidneys healthy and active. This medicine is entirely different from ordinary kidney treatments, and investigates the action of the liver and bowels. To this combined action is attributed its remarkable success.

Mr. Richard Preston, Osborne, Lambton County, Ont., writes: "I want to testify to the wonderful curative properties of Dr. A. W. Chase's Kidney and Liver Pills. Seventeen years ago I began the use of this medicine, when my back was so bad that to stoop or to rise was a torture to me. The kidneys were in bad condition, but these pills entirely freed me of back pains. I have used them ever since, whenever the kidneys would get out of order, and now, at eighty years, am well and hearty, thanks to this grand medicine." Dr. A. W. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

COSTS AND RATES OF CITY ELECTRIC LIGHT

Services to Be Charged for on Room Basis and Will Be Much Cheaper Than the Present Charges.

W. Randolph Sweeny, business manager for the city electrical department, has prepared the following statement: The citizens of Toronto who are users of electricity have been so accustomed to paying a straight rate per kilowatt hour that a differential rate of any description would call for an explanation of the introduction of those interested and others who will doubtless become interested in the use of electricity in the home, the Toronto Hydro-Electric System publishes the following facts that explain the reason for this style of rate, and further, shows the underlying principle of rate making, which, if not adhered to, must result in unfair discrimination.

The city's rate for domestic or residence service, embracing lighting, use of small motors, irons, stoves and heaters, etc., will be 10 cents per room per month inclusive of all services charge, and 3 cents per unit (1000 watt hours) delivered. Please note here that the number of rooms in the service charge does not include unfinished basements, storerooms, halls, cellars and outbuildings, and that no meter charge is made.

Now as to the equity of this rate—let us first analyze the cost of supplying service. This cost is made up of two separate and distinct parts—investment cost and running cost. The latter—the cost per unit—is the same for each residence consumer, while the investment cost differs in almost every instance.

The Cost of Supply. Let us take up the investment necessary to be ready to supply the residence consumer. We will say for the sake of argument that the investment is \$100 per kilowatt of capacity (capable of supplying about 20 sixteen candle-power standard carbon filament lamps). Note here that the figures are not to be taken as representing actual values, but just to illustrate. Take 15 per cent. of this as our annual fixed charge, which covers interest, insurance, depreciation, etc. We therefore have to charge anyone requiring this demand \$15 per annum.

This is not for supply, but just being ready to supply. Now, if we show, our running cost for residence service is 3 cents per unit. Now, in order to show the whole cost of a unit, let us take for example the case of a user of each having a maximum demand of 20 fifty-watt (16 candle-power) lamps. Both require this maximum during the period of the city's peak demand. The investment cost in this case is \$15 per annum. At the end of one year a meter has recorded 200 units while 100 meter registers 500 units. Now, it is obvious, using the above figures, that it has cost the city \$15 per annum for the investment charge plus a running cost of \$3, making the total annual cost of \$18, or 9 cents per unit.

It is also \$15, while the running charge for 500 units at 3 cents per unit is \$4.50, or 9 cents per unit—just one-half of what it costs to serve A on the unit basis.

Proving the Equity. Now attempt to apply a straight rate in both cases and note the result: 200 units have been delivered at a total cost of \$40, or 8 cents per unit. If we charged a consumer instead of 8 cents he would be getting his service for \$15 (37 1/2 per cent.) less than it cost the city to serve him. If we charged 4 cents he would be getting instead of 4 cents he would be getting \$9 (25 per cent.) more than it cost to serve him, therefore, any straight rate must necessarily carry with it the same principle of fixed charge plus a running cost.

An equitable rate is one which will collect from each consumer the cost of his service. As no two consumers have identically the same requirements it is impossible to arrive at a general investment charge. There are several methods in use by public service corporations whose rates are based on the amount of service rendered, or on a fixed expense. We give here a short description and analysis of these in order to justify the city's charge of 10 cents per room per month.

To determine the annual investment necessary to serve the consumers some companies install, in addition to the regular recording meter, a demand indicator, which instrument indicates the highest load turned on at any period. Our objection to this method is that it not only increases the investment itself, but the indication recorded does not bear a true relation to the investment necessary to serve each consumer.

The Maximum Demand. The investment in the residence class of business is determined by the total maximum demand, which, which experience proves comes at the hour of the evening meal, whereas the individual maximum demand is generally caused by entertainments, morning and evening tea, and lights are turned on. As these functions generally fall at a later hour than regular evening meal time, it seems that they do not come at the same time as the total peak, therefore, the demand indicator record would not serve as an equitable method of determining fixed charges.

Another means used to estimate the investment necessary to serve the consumer is to distribute the cost pro rata to the connected load. This tends to discourage the installation of lights in the parts of the house that have little to do with increasing the station demand, as they use falls at other times; also it penalizes intelligent use and favors only those using the minimum number of lamps, and further, to keep correct records of the number, size and style of lamps and the number of consumers, would require constant inspection, which would add to the expense, and even then accuracy would be practically impossible.

It has been demonstrated from experience that the amount of current used during the period of the station's maximum residence demand is proportionate to the number of living rooms used by the consumers. As a result of this the Toronto Hydro-Electric System adopted the room charge as the most equitable, and, at the same time, the most simple method of calculating the prorata investment charge.

Some Difficulties. The investment charge based on the square foot area of the living rooms has numerous advocates. But it is doubtful if this gives any closer relation to the actual investment; at the same time it presents many commercial objections. Here again closer inspection is necessary, this being objectionable as it annoys the consumers, and further, owing to the allowances made for halls, baths, unfinished attics, etc., it is very difficult to have the consumers' figures agree with the inspectors'. Then again, where a prospective consumer calls at the office and before entering his order insists on knowing how much the service is going to cost him, when we are unable to answer satisfactorily until we inspect the premises, he is apt to depart without getting what he called for and we are in danger of losing his business.

A Schedule of Savings. The average sized house is one rated at eight rooms and the average number of units consumed for this sized house, under such a favorable rate, should be about 40 units per month, or 5 cents per unit hour.

Table with columns: House Rating, Monthly consumption at total the same amount, Saving in per cent. on unit basis by using city's rate.

Below is given a comparison between the city's residence rate and a rate of 8 cents per kilowatt hour plus 25 cents monthly meter charge. It is meant to show for houses rated from five to fifteen rooms, inclusive, at what point the city rate starts to become cheaper. Bear in mind that all additional units consumed are charged for at 3 cents, not 5 cents, which means a reduction of 60 per cent. quite an item. This permits of the entire family ironing being economically done with electric irons, to say nothing of the use of electric toasters, heaters, fans, etc.

T. G. TREANOR AND B. ELLIS

Lead at Batting and Bowling in St. James C. C. Awards.

In the season just finished the St. James' Cathedral C.C. played 18 matches and four were won, six lost and four were drawn. T. G. Treanor leads in the batting with an average of 16, and Ben Ellis leads in the bowling with an average of 6.3. Through the transferring of Mr. T. G. (Tom) Treanor to the Chicago branch of the Bank of Montreal, St. James loses a most valuable player. During his four years' connection with the club he has proved himself a most consistent batter and bowler and his loss will be most keenly felt. He intends following up the game in Chicago and will prove a splendid acquisition to the team he will identify himself with.

Chatham Race Program.

CHATHAM, Oct. 24.—Chatham usually starts and closes the racing season in this part of the country, and Secretary Massey announces the annual fall meeting for Monday and Tuesday, Oct. 24 and 25. The program is as follows:

Monday, Oct. 24.—Free-for-all mile heats, 2:30; 2 1/2 mile heats, 3:00; 2:30 trot, mile heats, 2:30.
Tuesday, Nov. 1.—Free-for-all mile heats, 2:30; 2 1/2 mile heats, 3:00; 2:30 trot, mile heats, 2:30.
All races will be run in three five heats, and for either gait, excepting the 2:30 event.

Boxing at Varsity.

Prof. Williams' boxing class at Varsity is in full swing (all kind of swings, in fact). There is a bumper class this year, and a lot of promising material to be developed. A fine tournament is assured for this winter. Owing to the heavy work of the men are not entering the city tournament.

Motor Boat Club Smoker.

The big smoker of the Toronto Motor Boat Club is scheduled for to-night. Every club member will be on hand at the cozy club house, accompanied by as many motor boat enthusiasts as possible. The program includes P. Redfern Hollinshead, tenor; J. Coates Lockhart, tenor; Bob Wilson, humorist; Arthur Blight, baritone; H. Ruthven McDonald, base baritone; Charles Stephens, violinist, and with Charlie Musgrave at the piano, featuring by the pick of the Y.M.C.A. Fencing Club, some live boxing and wrestling bouts and more, too, a great night is assured.

WHAT DO YOU KNOW

—really and truly know—about the cigars you smoke? Do you know where the tobacco is grown—how it is cured and packed and shipped—how the cigars are made?

Unless you do know yourself, you had better buy cigars made by those who do know.

DAVIS' "PERFECTION"

you get a guaranteed cigar, made by a famous Montreal firm. You don't have to be an expert to find out the quality of "Perfection." The first delightful whiff tells that it is mild, yet exquisitely fragrant—a blend of fine Havana tobacco that you can smoke all day without the slightest ill-effects. Get them at your dealer's or use the coupon.

If you cannot obtain "Perfection" Cigars from your regular cigarman, cut out this coupon and mail to us:

SAISFACTORY SALE AT MAHER'S EXCHANGE.

The management were well pleased with the result of the sale at Maher's Horse Exchange yesterday, fully two-thirds of the horses offered were sold and brought good prices. The attendance was extra good, the sale ring being fairly well crowded and there was not the chance to show some of the horses that would be desired, but a good many of the buyers seemed hungry for horses and that is what makes a good sale.

A nice stylish chestnut mare, which showed a good deal of class, perfectly city bred and an extra good roaster, was sold for \$300 to E. H. Cleaver of Burlington. F. Gosdon got the trotting mare, 3 years old, broken, single and double, also to saddle, and which has been ridden and driven by a lady, was a pretty cheap pair for the quality shown. They were fairly well broken, one of them a little nervous, but only for the want of work. Mr. Townsend got a cheap pair, price \$322.50.

The Ontario Railway and Municipal Board did a wise thing yesterday in putting over any action in regard to the double tracking of the Metropolitan Railway on Yonge-street in North Toronto until next February, a month before which date the property owners of the town will have voted on the by-law calling for annexation to the city.

WHEAT ON BUSHES.

Yet another scientific process for the improvement of grain crops has been tried in England. At Burnham-on-Crouch a field was sown with wheat on July 19, and caught up with the ordinary wheat sown in spring. In the ordinary case in England, eighteen weeks elapse from the time of planting till the crop is ready for reaping.

SET HER DRESS ON FIRE

Three-Year-Old Girl Looked Up in a Tentement, Played With Matches. NEW YORK, Oct. 24.—A three-year-old girl, looked up in a Mott-street tenement with her baby sister, set her dress afire while playing with matches to-day. The screams of the children alarmed the women neighbors, but they were not strong enough to force the door, and the children could not open it. One woman finally crawled out along the fire escape and entered thru a window. She found the little girl ablaze, and she died before help reached her. The baby was not burned.

Wanted—A National Nickel Policy

The World has always taken a deep interest in the nickel resources of Canada. As these exist in Ontario territory, the province is deeply concerned in the use and development of this ore. Hon. Frank Cochrane stated at the Soo banquet last Friday that Ontario has 75 per cent. of the nickel of the world.

At the present time the United States is getting nearly all the benefit of this vast wealth.

Nickel is entering more and more into the manufacture of high-grade steel. Nickelized steel will drive every other form out of the market eventually where endurance and economy are regarded as essentials.

The great steel works of the Lake Superior Corporation, at Sault Ste. Marie, are said to be the most perfect and most modern in existence. Both the provincial and the federal governments have done much to assist the corporation to establish itself and to arrive at the success it has now evidently attained.

There remains but one thing to bring the nations of the world to Canadian markets for nickelized steel, and that is the control of the nickel resources.

What should be done?

Should the federal government impose an export duty on nickel?

Should the government take up all remaining nickel

deposits and develop them, giving all native steel industries their nickel at cost?

Should the present nickel mine owners be required to supply nickel to those who require it at reasonable rates?

What would Germany—what would France—what would Russia or Japan do if they controlled the chief nickel deposits of the world as Canada does? If the mines were in Germany, would German nickelized steel not dominate the markets of the world? Canada has iron ore of the best, and can make steel as good as any. Why can Canada's nickelized steel not dominate the markets of the world?

These questions were submitted to Hon. W. L. Mackenzie King at the Soo the other day, and he was impressed by the magnitude of the interests involved.

"The governments cannot go too fully into the importance as a national asset of the steel and nickel industry," he observed.

Nickel is unquestionably necessary to the completeness and perfection of a steel industry. Are the provincial and federal governments likely to get together on this national issue?

If they do so, and formulate a national nickel policy, Canada could easily dominate the world in this respect.

AT THE THEATRES

At the Royal Alexandra

Blanche Ring in "The Yankee Girl"

Some seasons have passed since Miss Blanche Ring visited Toronto, and her popularity acquired in larger fields would be sufficient of itself to attract popular support. But this faith was more than sustained before the large audience that welcomed Miss Ring at the Royal Alexandra last night. From her first appearance till she left the stage, or rather, until the curtain rang down for the last time, Miss Ring dominated the crowded house and the frequent recalls testified not so much to the artistic excellence of the production as to the charm and vivacity of the leading artist.

"The Yankee Girl," which Miss Ring brought to Toronto is a musical play of accustomed features, and these are set in a mould that successfully blends the new and old. It had a remarkably successful run in New York, and this was repeated in many places before the play reached this city. But it needs no herald of victories to commend it to a Toronto audience. The production made its mark from the rising of the curtain and the whole performance was accompanied with every mark of appreciation and recognition.

The book by George V. Hobart has a more intelligent plot than is usually the case with musical comedies. This of itself is an advantage, but with the accompaniments provided by Miss Ring and the able company assisting her it becomes a thoroughly popular production in its every feature. The music is bright and taking and the numerous interspersed numbers are all alluring and fetching. These were both old and new, but it testifies to the attractive quality of Miss Ring's renderings that the older and even hackneyed airs as rendered by Miss Ring showed their vitality and that they had lost nothing of their fascination. To all appearance the audience would have listened with ample recognition to a great many more recalls than their vitality and that they had lost nothing of their fascination. To all appearance the audience would have listened with ample recognition to a great many more recalls than their vitality and that they had lost nothing of their fascination.

At Shea's

Varied Vaudeville Bill.

Charles and Henry Risoletto, twin brothers, show the most wonderful versatility in an act which combines instrumental music, juggling, Chinese conjuring, illusions, artistic posing, acrobatics and even at the former variety of these varied branches of entertainment they display wonderful skill and each division, the short, is a finished number in itself.

Adelle Elitch sings a varied list of taking songs to an able piano accompaniment. Her costumes are attractive and her voice has the same pleasant quality which has made her popular in the musical comedy as well as the vaudeville stage.

Julius Steger and company are back with a new musical playlet of the sentimental order, which pleased at the performance, and which pleased at the performance, and which pleased at the performance.

At the Gayety.

All who saw "Madame X" when it was given here will hardly see Ben Jansen's travesty of the famous courtroom scene, which is being presented at the Gayety this week as one of the features of the Bowery Burlesques. Those who do, will notice the difference, but they'll come away in a jollier mood. Certainly, the fun that "Madame X" can create is a wonderful tribute to the presiding genius on the bench.

The opening burlesque is entitled "Too-Much Issues," and introduces a large and capable organization, in which, of course, the young ladies predominate. There are eight especially who are seen in some AI dancing.

The musical numbers are plentiful and well rendered, and most of them are of the catchy kind.

Specialties are given by Brown, Lee and Green, entertainers generally, and the Alpine Quartet, who can sing, and Large audiences saw and loudly approved of yesterday's performance.

Arthur Blight at Metropolitan.

Arthur Blight has resigned his position as soloist in Bloor-street Presbyterian Church, to accept a similar one in the Metropolitan Church.

At the Princess.

"The Arcadians"

The Princess Theatre this week in "The Arcadians." There were no vacant seats last night and the big audience lay back and roared nearly all the time. Most of the rest they spent in encoring the songs and dances. As many as ten encores were insisted on for one number and others varied from three to six. It is in fact the brightest, breeziest, most uproariously funny musical play that has been seen here for some years. The company is of the all star quality, the choruses most tuneful and young and pretty as well. The scenery is gorgeous and beautiful. The dresses are lovely in color, in design, and in grouping; the dances are charmingly gay and sprightly, the music is tuneful and the orchestration dainty and clever. There are ten extra

At the Majestic

An excellent variety entertainment is that which the Majestic offers four times daily at nominal prices of admission. Half a dozen first rate "turns" are on the program.

The headline act is provided by Mackintosh, Jacob & Co. in a rollicking sketch, "Happy Youngsters' School," Raymond and Scranon sing and dance nicely. Hummel and Brown call themselves the "Lotte entertainers," and live up to their claim: rice and Rice, two young ladies, sing acceptably. Havel and Barlow make a satisfactory and pleasing team of monologues, and McCarty's monologues are presented, and in both the comedy work of Harry Sargent, Harry Hearn, Charlie Collins and Earnshaw could not be excelled. Eminentlly satisfactory as prima donna and sourette are Sadie Husted and Julia Seymore, and the latter interpolates some really fine character sketches.

One scene, in which the chorus appear clad each in a different uniform, representing the great nations of the world, is quite spectacular. The olio is well up to the general level of the bill, five excellent and diversified turns being included.

At the Star

An unusually good and original show is the "Yankee Doodle Circus Co." which opened at the Star Theatre last night. Two snappy burlesques, entitled "An Irish Devil" and "On the Road," are presented, and in both the comedy work of Harry Sargent, Harry Hearn, Charlie Collins and Earnshaw could not be excelled. Eminentlly satisfactory as prima donna and sourette are Sadie Husted and Julia Seymore, and the latter interpolates some really fine character sketches.

NEW THEATRE CO. OPEN TO BRILLIANT AUDIENCE

Montreal Hears Great Revival of "Merry Wives of Windsor"

Coming to Toronto.

MONTREAL, Oct. 24.—The New Theatre Company of New York opened its short Canadian tour of two weeks at the Princess Theatre before a brilliant and enthusiastic audience, which crowded the theatre to the doors. "The Merry Wives of Windsor" was given its first presentation in America for many years by the full strength of the company, and added interest was aroused by the fact that it was probably the most complete and brilliant of its kind ever given here. The theatre-goers unanimously declare it to be the most complete and brilliant of its kind ever given here.

FREDERICK VILLIERS HERE

Famous War Correspondent a Visitor in Toronto.

Frederick Villiers, the famous war correspondent of "The Illustrated London News," is stopping at the Queen's, where he arrived yesterday from Ottawa. Mr. Villiers' present visit to Canada began about a fortnight ago, and on Thursday last he lectured in Montreal, and on Saturday in Toronto, after which he will probably re-west as far as Winnipeg, returning by the principal cities of the Eastern States.

The lecture Mr. Villiers is giving, and of which he gave a series in Western Canada last spring, is purely a dramatic talk without notes, in which he tells of the horrors of war, as seen in the fourteen campaigns he has seen, including the late King Edward's war, and a large collection of lantern pictures made from his own sketches and photographs.

Mr. Villiers is convinced that a radical change in the relations of Britain and Germany is imminent; either there will be a disastrous and bloody war, or the two nations will come to a realization of their positions, lay their arms on the table, and settle matters for all time by an alliance.

Mr. and Mrs. Fulford Arnold announce the engagement of their daughter, Minnie Beatrice Campbell, to Mr. John Archibald McInnis, M.D. The wedding will take place early in the spring.

The post-nuptial reception of Mrs. William E. Apter (Miss Murrie V. German) will be held at the residence of her parents, Mr. John F. German and Mrs. German, 60 Lindsay-avenue, on Friday afternoon and evening, Oct. 28.

VESEVIUS CLAIMS TEN VICTIMS.

ROME, Oct. 24.—At least ten persons were killed today by being buried in mud streams that were thrown from Vesuvius, whose activity was occasioned by the eruption of the mountain. Families were buried at Torre Del Greco, and several victims are reported from Cetara.

M'CURDY A WINNER

Comes First in Speed Contest at Belmont Park.

BELMONT PARK, New York, Oct. 24.—The second international aviation tournament of the air may end in a fiasco. A flight of the foreign aviators against holding the race for the International Cup, the feature of the meet, developed today. Alfred Lehning of the French team withdrew from the race, declaring the course was a death trap and the meet had managed all round, and Chas. K. Hamilton and A. Drexel of the United States announced that they would possibly withdraw from the race.

J. Armstrong Drexel broke the American record for altitude to-day, going up more than 7000 feet.

J. A. D. McCurdy, Curtiss biplane, won the grand speed contest of the day. He did 25 kilometers in 13 minutes 48 seconds.

You Can Feel Your Eczema Heal

(From The American Drug Reporter.)

"Eczema on the head and scalp is a common occurrence of a most common disease, and it is to be regretted that the sales of quinine are rapidly increasing, and it is probably the most popular 'home treatment' known. All that is necessary is to dissolve two ounces in a half pint of water, and let it cool. For eczema on the head rub quinine lotion well into the scalp with the finger tips. For eczema elsewhere a cloth saturated with quinine lotion is applied for half hour twice a day to the affected surface. Quinine stops the itching at once."

It is in fact the brightest, breeziest, most uproariously funny musical play that has been seen here for some years. The company is of the all star quality, the choruses most tuneful and young and pretty as well. The scenery is gorgeous and beautiful. The dresses are lovely in color, in design, and in grouping; the dances are charmingly gay and sprightly, the music is tuneful and the orchestration dainty and clever. There are ten extra

N. TORONTO WINS OUT ON WADDINGTON APPEAL

Railway Commission Hold Off Until Annexation Vote—Islington Man is Fined.

It did not take Chairman Leitch of the Ontario Railway and Municipal Board, long to arrive at a decision as to what course to adopt, even among the multiplicity of suggestions thrown out at the meeting of the board on Monday morning, attended as it was by a big group of lawyers and North Toronto citizens, all intensely interested in the outcome of the session.

"No matter how desirous all are to give the public a better service, we think it expedient that the matter should stand until the vote on annexation is taken," said the chairman, and after hearing the arguments of counsel, pro and con, the chairman adjourned the conference till Feb. 1, and in the meantime the whole question will be in a fair way to being settled by reason of the annexation vote, which it is now generally conceded will carry by an overwhelming majority.

It was not a very long conference, but strenuous while it lasted, and the half score of lawyers present, on behalf of the several interests concerned, had little opportunity to indulge in long-winded dissertations on the rights of corporations or municipalities.

The city was represented by Corporation Counsel Drayton, North Toronto by T. A. Gibson, York Township by J. R. L. Starr, K.C., the applicants by J. B. McKay, and the Rosedale Golf Club by J. B. Beaumont. For the railway company, J. Wright and Chas. Moss were also present.

During the session, J. R. L. Starr, K.C., threw a bombshell in the railway camp, in the suggestion that before the case came up again, the railway company should consider the question of getting their own private right-of-way, as a general proposition. Why should the city consider the matter of getting a right-of-way for anybody?

"We have a right-of-way now," said Mr. Moss and Mr. Wright, simultaneously, and as the matter was to stand over in response to Mr. Gibson's request, they wanted some guarantee that the indictment against the railway at the instance of the municipalities should not be proceeded with.

"It is not the intention to send anybody to jail," said Mr. Starr, but further than that would not go.

For the city, H. L. Drayton said he knew nothing of the railway company and any indictment must take the usual course. The Metropolitan in places was a menace, and the putting down of another track would only intensify the trouble.

For the Town of North Toronto, Solicitor T. A. Gibson made an able argument, pleading for adjournment, and it was primarily due to the request of Chairman Leitch deferred judgment.

"No good purpose will be served by taking the evidence in the application," said Mr. Gibson, and applicants represented nobody but themselves, while the municipalities were unanimous in their opposition to the double tracking of the road. If there was any objection to a delay, he would go on, but no guarantee could be given the railways, as suggested by Mr. Wright, in connection with the indictment. The company had been encroaching year by year on the privileges which the municipalities had a right to hold, but the matter must be settled, and he strongly urged the postponement of the case, in view of the vote on annexation to be taken on Jan. 2. The company has never carried out their obligation to the town," said Mr. Gibson at the conclusion of his speech, and the financial aspect of the case, and the injury that would accrue to North Toronto.

For the Golf Club, R. B. Beaumont suggested a switch halfway between Glen Grove and York Mills, but this was not for a moment considered.

H. L. Drayton urged the board to look at the matter from a policy view, with a broad underlying principle, having in view the fact that the conditions were vastly different now from what they were when the franchise was first granted. If foreseen at that time, they never would have been granted.

Summing up briefly, Chairman Leitch then announced the intention of the board to postpone the further hearing, pending the annexation vote, and the big crowd filed out, the North Toronto men for the most part, delighted with the decision.

Seen later, Mayor Brown of North

West Toronto North Toronto East Toronto

Toronto, was jubilant over the throw down given the Waddington and Winters application, and regarded the action of the commission as a strong step toward the full recognition of the rights of the town. "Whether we fight the railway company as a separate municipality or as part of the city," said the mayor, "we know now where we stand." He was gratified, too, at the presentation of the case for the town by Solicitor Gibson, and indeed the solicitor was complimented on all sides for the manner in which the strong points of the town's contentions were emphasized.

And the mayor was not alone in his view of the situation, four out of the six members of the town council, Messrs. Pears, Howe, Muston and Reid, taking strong ground against the attempt of Messrs. Waddington, Winters and others to rush the town into the enormous expense and violation of every principle of right in the application of yesterday.

North Toronto generally, last night, there was genuine satisfaction expressed at the defeat of the subterfuge adopted to foist on the double track under the guise of better accommodation. "The people of North Toronto want better transportation, and we do it badly, but they do not want it at the cost of their rights on the street," was the way an old resident expressed the situation, a complex one, can be better handled with the advice and co-operation of the big municipality to the south," was the way an old resident man figured it out.

Reeve Henry, too, of York Township, who was present, and other county representatives, were pleased at the refusal of the commission to be hurried into giving the double track concession, and the same feeling is shared by the northern municipalities, as Markham, Vaughan, Whitby and King, who have long labored under great disadvantages in the already congested condition of Yonge-street south.

but when everything is finished they will be fine and comfortable.

J. H. Beamish, the local manager of the Conger Coal Co. for the past seven years, has severed his connection with the company, and on Saturday he was presented by the head office staff with an oak armband and by the men in the yards with a gold-mounted umbrella. Mr. Beamish intends engaging in business in West Toronto after taking a holiday.

MAGISTRATE IMPOSES FINE.
The Famous Islington Church Case is Advanced a Stage.

Magistrate Ramsden, in the county court yesterday, imposed upon Mr. Cooper, the now famous Islington church disturber, a nominal fine of \$5 and costs, making in all \$15.70, or in default of payment five days in the common jail, because of his failure to pay the costs imposed upon him at a former church trial some months ago.

On April 27 Mr. Cooper was tried by Magistrate Ramsden, on a charge of disturbing religious worship. He was at that time found guilty and sentence was suspended, but he was ordered to pay some costs in connection, which has never been done. Mr. Cooper has until to-day refused to pay the money, stating which he will spend the next five days over the Don.

Rev. Mr. McGonigle, before he told his story, was not sworn, and to this Mr. Cooper, the now famous Islington church disturber, the nominal fine of \$5 and costs, making in all \$15.70, or in default of payment five days in the common jail, because of his failure to pay the costs imposed upon him at a former church trial some months ago.

WEST TORONTO.
WEST TORONTO, Oct. 24.—(Special.)—In the city police court to-day Edward License, a hardware merchant, was fined \$10 and costs for selling two air rifles to boys under age.

The old town hall on Keele-street is being made over into an up-to-date police station. Just now the police have only one room in the building.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in Japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an automatic locking flame spreader, which prevents the wick from being burned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body of gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily uncrowded in an instant for reworking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

FOREST RESERVES.
Likely to Be Considerably Enlarged Soon.

In the report of the superintendent of forestry, which forms part of the annual report of the department of the interior, recently published, are given many interesting details as to the administration and working of the forest reserves. In the report, the superintendent states that the forest reserves in regard to the forest reserves is, of course, the setting aside of the Rocky Mountain forest reserve, a tract of country situated in the north-western part of the province, which is already reserved as national park (i.e., the Rocky Mountain Park, Kootenay Lakes Park, and Jasper Park). The great importance of this reserve is due to the opportunity it affords for the preservation and conservation of the waters of the rivers which rise in the Rockies and traverse the prairie country, and whose waters play so important a part in the fertility of the soil of this one of the richest farming countries of the world. The forest on the tract consists mainly of lodge-pole (or black) pine, Engelmann spruce and Douglas fir. Very serious fires have occurred throughout the interior, over the greater part of the reserve at any rate, is abundant.

Further extensions of the reserves are contemplated, in fact some of the lands have already been reserved from settlement, but not formally set aside as reserves. Among the proposed extensions are:

- To the Sprucewoods reserve, 70,000 acres.
- To the Duck Mountain reserve, 126,000 acres.
- To the Cypress Hills reserve, 80,000 acres.
- To the Beaver Hills reserve, 20,000 acres.

Similar action has been taken in regard to a tract of 200 acres near Spirit Lake, Sask. The foregoing extensions total 206,000 acres, or over 43 square miles.

A tract of land, which includes Mount Ida and the Fly Hills (near Salmon Arm, B.C.), was also inspected in the fall of 1909, with a view to its being set aside as a reserve.

Much other interesting information in regard to the reserves and the other work of the forestry branch is given in the annual report of the superintendent of forestry, above mentioned. Copies may be obtained on application to R. H. Campbell, superintendent of forestry, Ottawa.

superintendent of forestry (included in the annual report of the department of the interior, lately issued) is shown to be still on the increase.

For some years past the number of trees distributed each spring has been in the neighborhood of two and a half millions. The nursery station at Indian Head, Sask., has reached almost its capacity, and if the distribution is to be correspondingly increased.

In the spring of 1909, 2,570,000 trees were sent to 2010 applicants. In the spring of 1910 about the same number of trees were sent to 2115 applicants.

The increase in the number of applicants is also strikingly shown by the fact that in 1909 the average number sent to each applicant was 1400, while in 1910 the number had had to be reduced to 1200, practically the same. The number who received trees, however, increased from 1424 in 1909 to 2115 in 1910. In 1909, too, the number of new applications for trees was 2225, in 1910 this number had increased to 2822.

Farmers are urged to grow their own trees and shrubs from seed. Caution should, however, be exercised as to where the seed is procured, and, if possible, native seed procured. In the summer of 1905 many Manitoba maples were found to have been killed back, either wholly or partially, during the preceding winter. These had been raised from seed obtained from Dakota, and to this fact their inability to resist the weather seems due. The forestry branch has previously had similar experiences with seed obtained from Minnesota and from Eastern Canada. Failure of the local supply of seed, however, occasionally makes it necessary to resort to imported seed.

Conference Ends With Decision to Put in Writing Counter Offers That Will Hardly Be Accepted.

A conference between representatives of the Toronto Electric Light Company and city officials yesterday did not go far towards solving the problem of what could be done to arrange a satisfactory basis for negotiating a settlement of existing differences.

Mr. Blackstock made the definite proposition that the city buy the company as a going concern, with compensation additional for the nine years of the franchise yet to run.

"If you do not intend to meet us on this plan, we would like to offer from our status in the streets of this city," said the counsel.

"Then we wish to know what is our status in the newly annexed districts. We have been told that we have no rights in those districts and we wish to know if, while the city is in the process of annexing them, we are to be closed out from districts in which the city is to operate."

"We also would like to know what position the city will be in to handle the street lighting when our contract expires on the 31st of December. We ask that merely for the purpose of convenience. It is our desire to facilitate your department in handling this street lighting."

"I may say frankly that from our point of view the situation is absolutely intolerable. It is reasonable to expect that all these overtures should emanate from us? Is it not reasonable to expect that the city should make some effort to overcome the difficulties which confront us?"

"If the city can come to no agreement with us we will have to (lay it in no spirit of defiance, but we will have to take what steps seem necessary to us to defend ourselves."

Mayor Geary intimated that the company could not enter the annexed districts, and that the tenure of the streets depended on the agreement.

Mr. Blackstock hoped the company's offer in June, to come to an understanding whereby the city abandon all claims to the streets, would be considered, but the mayor said it could not be entertained.

Control Foster, asked that the company submit its offer in writing to the city, and Mr. Blackstock said that if the city's proposal to arbitrate was put in writing the company would be ready to consider it.

The conference broke up after Mr. Blackstock had remarked: "Our views are so diametrically opposed there seems to be no possibility of reaching an agreement, and the nature of the securities (if any) held by them."

When acquainted with the result of the conference, Sir James Whitney said to The World: "I am not surprised; still I am sorry they could not come to an agreement."

SOUTH AFRICAN HERO BURIED Major Bruce Carruthers Laid to Rest in Cataract Cemetery, Kingston.

KINGSTON, Oct. 24.—(Special.)—With full military honors, attended by various branches of the military service and prominent citizens, the remains of the late Major Bruce Carruthers, who died in the Boer war, were laid to rest in Cataract cemetery.

Rev. Dr. MacGillivray of Chalmers Presbyterian Church conducted the ceremony. The streets were lined with citizens as the cortege passed along, and business was suspended. The pall bearers were: Major Robertson and Wolfe, R.M.C.; Major Paton, R.C.I.M.; Major Macdonald, district surgeon; Captains Dawson and Mowat, 14th Regiment, P.W.O.R.; Major Ross, army medical corps, and Capt. A. De M. Bell, C.P.A.S. corps.

There is Only One Way to Montreal via a double track line—that is over the smooth roadbed of the Grand Trunk Railway System. Four trains leave Toronto daily.

7.15 a.m., carries parlor-library-buffet car. 9 a.m., carries dining car and parlor-library car. 8.30 and 10.30 p.m. trains carry modern Pullman sleepers, and you can enjoy a comfortable night's rest.

A PATHETIC CASE

Released From Asylum, Sight of Old Friends Drove Him Insane Again.

KINGSTON, Oct. 24.—(Special.)—A pathetic case is reported of an insane patient released from Rockwood Hospital a few days ago. He returned to his old home in Tweed, but at the sight of old friends and scenes went insane again and was taken back to the asylum to-day.

William Magher escaped from the asylum a week ago and cannot be located. The authorities believe that his friends in Kingston are hiding him.

THROWN FROM STREET CAR.

LONDON, Oct. 24.—(Special.)—High Purvis, 169 Oxford-st., tried to board a northbound car at the corner of Richmond and King-streets, and as the car started before he was on the platform, he was thrown to the ground, rendered unconscious, and is now suffering from concussion of the brain. His neck was grazed, and late to-night the man is still alive. He was taken to Victoria hospital.

To Be Tried for Attacking Instructor. KINGSTON, Oct. 24.—(Special.)—John Cochran, the penitentiary convict, sentenced at Ottawa for theft, will be tried for attacking Inspector Beaupre, Cochran was with Murderer Troy at Napanea a few years ago, when the house of the late Angus McLeod was burglarized.

Granted Free Site and Exemption. HARRISTON, Oct. 24.—The Town of Harriston voted to-day on a bylaw to grant a free site and factory building to the Canada New Shoe Company, Limited, also for exemption from taxes. The bylaw carried by 62 in favor, and only four votes against it.

President Falconer at Queen's. KINGSTON, Oct. 24.—(Special.)—President Falconer of Toronto University gave the address at the opening of the theological faculty of Queen's to-night.

Sifton Speaks at Brockville. BROCKVILLE, Oct. 24.—(Special.)—In an after-dinner speech at the Canadian Club to-night, Hon. Clifford Sifton spoke on the conservation of Canada's national resources, covering much the same ground that he has done at other centres in Ontario recently. He was given a flattering reception.

Dropped Dead. KINGSTON, Oct. 24.—(Special.)—Mrs. Kelly, wife of William Kelly, ex-chairman of the board of education, dropped dead here to-day.

THE PINE BEACH CITIZEN

Vol. I, No. 6. PINE BEACH, OCT. 25, 1910. PRICE, 5 MINUTES' ATTENTION.

A New Beauty Spot to Visit. Have You Seen Pine Beach?

Some young folks were preparing for a fresh-air outing on Saturday. They debated on where they should go. "Have you seen Pine Beach?" inquired one young man. They had not. They went. Now one of them has a substantial interest in the property. This is an illustration of how the lots are going. To see Pine Beach is to own some of the property. Homesites have been selling rapidly, but there yet remain some good sites for those who have not yet seen this beautiful home spot.

Have you seen Pine Beach? If not, phone Robins Limited, Main 7171, any time and arrange to be taken out to the property; or, when you feel like having a breath of fresh air, take a car at Sunnyside out to the property, south of Stop 28, Lake Shore Road.

Any day this week would be a good day to see Pine Beach—but TODAY is the best day to choose a homesite, while you have the widest choice. There is a Robins representative at the Pine Beach branch office every day. After Tuesday there will be a Robins representative in the branch office at Sunnyside.

The services of Robins Limited in securing a beautiful homesite are as near to you as your telephone. Call up Robins Limited, Main 7171.

Ladies who are interested in beautiful homesites are invited to communicate with the lady manager of our ladies' department. Call write or phone for information or appointment. A special trip to Pine Beach, or any other of our properties, may be arranged at any time.

CATTLE SUPPLY WAS LARGE AND DEMAND VERY GOOD

Sheep and Lambs Easier—Calves Firm—Hogs Lower at \$7.60.

Receipts of live stock at the Union Stock Yards yesterday were 157 carloads, consisting of 2600 cattle, 1080 sheep and lambs, 100 calves...

Trade was good in every department, and, notwithstanding the heavy receipts, which were the largest in many weeks, all offerings were practically cleaned up by 11 a.m.

Prices for cattle, both butchers and exporters, were about steady at last week's quotations.

The market closed strong, and one of the buyers for a leading export firm stated that more cattle could have been disposed of.

The demand was very good for beef cattle to-day, in spite of the fact that receipts were very heavy.

The export trade was extensive, and the buyers for the best load on the market, a lot of number one loads were sold at \$6 to \$6.25...

Common to medium exporters sold at \$5.50 to \$5.75.

Exporters. Eugene Tamblin bought for Swift & Co. 200 steers for London, 1200 lbs. each, at an average of \$6.05...

Butchers. Choice picked butchers sold at \$5.50 to \$5.75; good, \$5.25 to \$5.50; medium, \$5.15 to \$5.40...

Stockers and Feeders. Stockers, 100 to 200 lbs. each, sold at \$4.25 to \$4.50; feeders, 100 to 100 lbs. each, sold at \$3.75 to \$4.00...

Moderate receipts of milkers and springers sold at from \$5.00 to \$5.50 each.

Sheep and Lambs. Only few calves were on sale, at prices ranging from \$2.50 to \$3.00, and one or two sold at \$3 and \$3.50 per cwt.

The lamb and sheep market was slightly better than yesterday. Lambs sold at from \$3 to \$3.25, with a couple of selected lots of ewes and wethers at \$3.25 to \$3.50...

Hogs. Prices are again quoted lower. W. J. Johnston, buyers for Swift, sold at \$7.00 at the market, and \$7.25 to drovers for hogs f.o.b. cars at country points.

Representative Sales. Maybee & Wilson, 20 exporters, 1200 lbs., at \$5.20; 19 exporters, 1200 lbs., at \$5.15; 19 exporters, 1200 lbs., at \$5.10...

Rice & Whaley sold the following 10-day: Exporters—21, 1246 lbs., at \$4.40; 17, 1246 lbs., at \$4.35; 15, 1246 lbs., at \$4.30...

A Disposal of Oriental RUGS

That Puts These Luxuries Within the Reach of Everybody

Did you ever hear of Genuine Oriental Rugs, antique ones, too, selling for Six Dollars and Forty-five Cents? Rug experts will tell you that they're worth two, three and four times this price. But they came to us at a very low figure, through the misfortune of a consignee. We're treating them purely on a merchandising basis, and focussing our energies on a quick turn-over with them.

We are safe in saying that the proportion of savings has never been equaled by any Oriental Rug Sale in Toronto. Look carefully through this detailed list:

Regular \$12.00 to \$18.00, for \$6.45—Kazaks, Shirvans, Cashmeres and Mosouls.

Regular \$18.00 to \$25.00, for \$11.45—Shirvans, Mosouls, Kazaks and Daghestans.

Regular \$25.00 to \$35.00, for \$16.45—Antique Persians, Mosouls, Kabristans and Kazaks.

Regular \$35.00 to \$45.00, for \$21.45—Bokharas, Mosouls, Kazaks and Shirazes.

Regular \$40.00 to \$50.00, for \$26.45—Kazaks, Bokharas, Mosouls, Shirvans and Kabristans.

Regular \$50.00 to \$60.00, for \$31.45—Shirazes, Bokharas, Shirvans and Antique Persian Stripe.

Regular \$60.00 to \$75.00, for \$36.45—Daghestan, Shirazes and Bokharas.

Bijars—Regular \$250.00, for \$167.50.

Muskabads—Regular \$125.00, for \$69.50.

Afghans—Regular \$150.00, for \$89.50.

Fall and Winter

1910-11

WHAT style of overcoat would be awarded the blue ribbon of merit by well-dressed men this season? College Ulsters, Chesterfields, Convertible Collars---these are undoubtedly the three leaders. There has been a variety of attractive styles this season, made of sturdy Scotch and English fabrics, and you'll find most of them represented in a remarkable collection of sample coats that we secured for to-morrow's selling.

The choice of most men will undoubtedly fall on the College ulster and we're glad to say that the majority of this worthy lot of samples are made up in this popular style.

Samples, just 150 Coats in the lot, overmakes and sample garments, representing lines for special orders, all fine imported materials, black and grey chevots and meltons; made in single-breasted Chesterfield style; fancy English and Scotch ulsterings, made up in the popular college ulster style; single-breasted, button through; double-breasted, with convertible collars, which can be worn turn-down, in lapel style, or turned up, fastening close to the neck; all are tailored in the very best manner, and perfect fitting. Sizes 34 to 44. Regular \$14.00, \$15.00, \$16.50, \$18.00. Wednesday at \$9.95.

A Blouse Exhibition of Unusual Interest

We invite the women of Toronto to a wonderful display of artistic Blouses which we are showing this week. From the new elevators on Queen-street we have formed a broad avenue, leading right through to the French Department, bordered by tables, on which are displayed for the first time in Canada over one hundred distinctive styles in imported Blouses, showing the styles at present in vogue in Paris, Vienna, London and New York. They are on an entirely different plane from anything you can see elsewhere, as every garment is confined to us, therefore cannot be duplicated. Prices from \$5.00 to \$50.00. Colors anything you desire. Styles eminently artistic. We describe four more numbers out of the hundred odd:

\$7.50—A fine Malines Net, in ivory only. The front is entirely covered with linen Cluny lace, with broad panel over each shoulder, running down to elbow; yoke back and double panel of Cluny lace, with collar and cuffs of same; all sizes in stock. Very interesting at \$7.50.

\$10.50—French model of fine ivory ninon de soie, with chiffon lining; the front is of fine pin tucking, with broad panel of fine lace, bordered with delicate Persian banding; sleeves are lovely, with vertical pin tucking, Val. and Cluny lace; lace collars and cuffs. Clearing at \$10.50.

\$12.50—Imported Model Blouse, of fine Paisley ninon de soie, in glorious dark colorings; this is lined with black dew-drop net, round yoke and sleeves of net, with black satin piping; all sizes. Price \$12.50.

\$15.00—French Model Blouse, of fine chiffon, lined chiffon; this comes in black, ivory and six new colors; this is a perfect sample of fine needlework, being pin tucked all over; tucks of graduated size; collar and cuffs of Puritan style, finished with long chiffon balls; all sizes, at, Wednesday, \$15.00.
