SPACE FOR RENT I We have a few very desirable offices left in the new Standard Bank Building, King and Jordan Streets, every known modern convenience, space arranged to suit tenant. H. H. WILLIAMS & CO., 28 King Street East. VOL. XXXI.—No. 11,234

TWO YOUNG WOMEN DROWNED Hazel Hicks and Olive Blain Victims THEIR ESCORTS RESCUED

Dinghy Was Upset Far Out in Humber Bay and Girls After Clinging to Craft Were Carried Away by Waves—Turbinia's Lifeboat Saved Harold Clark and C. J. Wolf.

THE PLACE

Lake Ontario, just off the Stanley Barracks, a mile and a half from shore and a mile west of the new western gap.

CAUSE

The upsetting of a 14-foot dinghy bearing 145 feet of canvas in a single sheet, about 100 yards from the shore, Sunday night, when they attempted to bring her about in a heavy western wind and sea.

RESCUE

A lifeboat from the steamer Turbinia returning from Hamilton at 12:45 yesterday afternoon.

THE DROWNED

HAZEL HICKS, 18 years, Shelburne, Ont., a student at the Toronto College of Music, boarding at 64 Pembroke-street, Toronto.

OLIVE BLAIN, 22 years, Barrie, Ont., is a teacher, at the same institution, and rooming with the other girl in the city.

THE RESCUED

Harold Clark, 25 years, a third year student in arts, living at Trinity University, residence, whose home is in the West End.

Once more a holiday sailing accident has claimed two lives and, once again, it is two young women taken sailing by two young men, and their bodies left in the waters of the lake.

The fatality occurred when a hired dinghy was upset in the lake a mile and half from shore and a mile west of the new western gap. The boat was upset while Clark, who was controlling the sheet and handling the tiller, was attempting to bring the little craft about in a heavy but shifting wind.

The story of the tragedy, as told by Wolf, is that the party left Dean's house at Sunnyside at noon and ran out freely to the point where the accident happened. This was about 12:30. Clark decided to bring the boat about and come up into the wind, hauling in his sheet. Wolf thinks that the girls did not shift as directed. He ducked his head to avoid the boom and a moment later felt the boat going over.

All Clung to Boat. He threw all his weight to windward to try and maintain the balance, but was thrown into the water. When he came up, the girls were clinging to the boat on either side of him. He was at the middle of the boat and Clark was at the stern. Each of them held one of the poles which were bent and one of them was holding on to Wolf. They seemed not to be very badly frightened and were calling for help and trying to attract attention.

Wolf says that the waves were very high and kept them changing positions constantly as the boat rolled beneath them. All were at the point where the boat was she lay half over in the waves. After they had been hanging to the boat for about seven or eight minutes, Clark was washed out and went under. When he came up the girls were gone. He had no idea that they were about to let go. Clark was very weak and his hair was just going to help him when help came. The Turbinia was seen approaching and Clark and Wolf waved madly.

The steamer was seen to stop shortly afterwards sounded three blasts of her whistle and a moment later lowered away a lifeboat, which took the men of the boat and the two girls to the Turbinia, and from the dock were removed in the police ambulance to a hospital, where Clark was put to bed in a state of collapse.

How Boat Was Sighted. First Officer W. H. Pickard of the Turbinia told The World yesterday that the vessel was on her way when they saw what appeared to be a bush floating in the water. It was later seen to be a capsized boat, and he ordered their course altered so as to approach it. Then he ordered E. Pickard, wheelman, to take charge of a lifeboat, which was lowered.

The boat went out and took off one of the men, the other was found under the stern in a greatly fatigued condition. They were asked if that was all there were, and replied in the affirmative. While on their way to the Turbinia they told that the girls had been with them, and when asked where they were, said that they let go about ten minutes before the rescue.

Purser S. Hewitt rendered first aid to Clark when he was got on board the steamer and it took 25 minutes to bring him to consciousness.

Hard to Recover Bodies. When word of the drowning was taken to the girls' boarding-house, messages were sent to Miss Hicks' parents at Shelburne, Ont., and to Miss Blain's brother at Sault Ste. Marie, Ont.

The bodies were lost in water too deep for dragging and it is likely that the friends will have to wait for the bodies to come to the surface. The spot where they were drowned is outside of the city limits and therefore comes under the jurisdiction of the county authorities.

One of the girls had been out with Clark sailing on Tuesday night. The other girl met both men for the first time yesterday. Wolf had met neither of the girls until yesterday. Both men could swim and Clark is said to be a Wolf to be an expert sailor, but Wolf says that he himself knows nothing of sailing.

Miss Blain wore a blue suit and Continued on Page 7, Column 3.

A VAIN APPEAL

OLIVE BLAIN Teacher at College of Music, one of Victims of Double Drowning on Victoria Day

SHOT HIS WIFE THEN HIMSELF

J. B. Phillips, Crazed by Liquor, Nearly Caused Tragedy in St. George St. Residence.

Crazed with drink, which he had been taking for some days, J. B. Phillips, 264 St. George-street, a mining engineer, 42 years of age, shot his wife in the right breast and then put a bullet thru his own shoulder at his home at 10:30 last night.

He was taken to the Yonge-street police station, after being overpowered by David Johnston, 266 St. George-st., who was summoned to the spot by the woman's screams. He was arrested by Chief Inspector David Archibald, who was called from his house at 278 St. George-street, and is charged with shooting with intent to kill.

Phillips and his wife had been at the races yesterday afternoon. Phillips had been drinking heavily all week, and when his wife went up to the servants' room, having put their two little girls to bed, she heard her husband coming upstairs. When he reached the doorway, he leveled an automatic pistol at her and fired. The bullet entered the right breast and came out over the right shoulder. The man then turned the pistol on himself and shot in his own left shoulder. He then went downstairs.

Mr. Johnston was just about to retire for the night when he heard the two shots. He paid no attention as there had been fireworks in the neighborhood all evening. A moment later his wife rushed into the room crying that she had heard Mrs. Phillips screaming for help. Mr. Johnston jumped into his house and rushed into the next house; there he found Phillips at the head of the stairs; he was bleeding from ragged wounds in his right temple and left shoulder. Johnston bore him down and held him, tho he begged to be released. The neighbor also took the revolver from him and then Inspector Archibald entered and held the man. Dr. D. V. McPherson, 556 Bathurst-street, was called and dressed his injuries.

When the patrol wagon came he was sent off in charge of Station Dutyman McGregor. At the station he was in a hysterical condition from drink and excitement and kept calling for his wife and children.

Dr. McPherson also attended Mrs. Phillips, who was taken into Mr. Johnston's residence. The children and the maid also spent the night there. Neither the wounds of Phillips nor of his wife are dangerous.

W. H. WHYTE AN OPTIMIST

West Promises Huge Grain Crop, Says C. P. R. Official.

The acreage under cultivation in the Northwest now reaches twenty million acres, according to figures supplied The World by W. H. Whyte, Winnipeg, vice-president of the C. P. R. Mr. Whyte was seen in the Queen's Hotel last evening, and to say the least, he is very optimistic about the crop results for this year. He states that the farmers entertain hopes for a greater harvest than ever before.

There is 25 per cent. more land under cultivation this year than last. This increase is mostly in Saskatchewan, said Mr. Whyte. "Manitoba has increased its acreage by three millions, Alberta has increased from one-half to one million acres and Saskatchewan is boasting of having six million acres more under cultivation."

MME. BERNHARDT COMING AGAIN Manager Sheppard announces that the celebrated French actress, Mme. Sarah Bernhardt, will, previous to her departure for Paris, give one performance at the Princess Theatre, on the night of Tuesday, June 6, when she will present a double bill, Matherlink's "Sister Beatrice," preceded by "Jean Matherlink." This will probably be Mme. Bernhardt's last appearance in Toronto.

TEACH SCIENCE OF GOVT. SAYS DUKE OF CONNAUGHT

Canada's New Governor-General Hopes Universities of Empire Will Make it Compulsory.

LONDON, May 24.—(C.A.P. Cable).—The Duke of Connaught, presiding at the Royal Colonial Institute dinner, said that the Imperial conference undoubtedly worked well, being a consolidation of a nation, welding the parts into an indissoluble whole. The solution of self-government by the dominions was the most important British contribution to the science of government. He earnestly hoped that the universities of the empire would give this a full, definite and compulsory place in their curriculum. He also congratulated Canada and Newfoundland on the fisheries award, which had been accepted loyally in the United States. In Canadian naval matters the closest connection with the British navy must and would be the aim of both governments.

Sir Wilfrid Laurier, in responding, said that if any doubted he could assure them that Canada intended to maintain a nation within the empire. There was a condition that might be compared with an adolescent, having been no account, and suddenly ripened into full vigor. The United States was the country of the nineteenth century. Canada of the twentieth, but Canada overshadowed every century.

By her neighbor there were on the soil of Canada to-day 500,000 who were American citizens and not loyal subjects of King George. If any one thought that therein lay danger to British connection he must have an idea of the value, force and strength of British institutions. So long as the latter spell freedom and prosperity, so long would Canada remain what it is. Sir Wilfrid assured the Duke of Connaught of a hearty welcome awaiting him, not least from Americans who had taken up their abode in Canada.

Premier Fisher, also responding, said that the best thing would be to happen to Australia would be to be along side such a population as was Canada. If Australia had sixty or seventy millions of people of similar ideas on borders, invasion would not be feared.

Sir Joseph Ward thought that the instructions issued by the colonial office to governors-general, thruout the whole of their terms should state that the ought not to remain in the bounds of the dominions, but from time to time make an exchange. Why should Connaught remain a whole term in Canada? Why should Fisher start at five dollars and New Zealand at twenty-five—all superior value in South American territory received two weeks ago from the tropics.

'T'WAS FAIR TO CLOUDY.

The "24th of May" was a good day for an outing. Old Sol was hampered somewhat in his summer's work by a cloudy sky, and the temperature was pleasant. It was a straw hat day, and the haters took the afternoon off. The Dineen Company registered one of the largest hat periods in its history, the sales on Saturday, Monday and Tuesday beating all records. Panama hats had the long call. Dineen's Panamas start at five dollars and are priced up to twenty-five—all superior value in South American territory received two weeks ago from the tropics.

Boy Scouts Chosen For the Coronation

Eight Finally Selected From 1700 Toronto Boys After Series of Severe Tests

The examination of the Toronto members of the boy scouts coronation contingent was completed Tuesday night. Seventeen hundred boys, all eager to take the trip, started in the competition, but when it came to taking up scout craft, only 36 qualified. When the scout craft examination was finished only 22 remained to take the final examination.

A written paper was prepared on the history, geography and resources of the British Empire, which resulted in the following eight scouts being chosen to represent Toronto on the contingent: H. C. Hughes, 23 Rushmore-road, 14th troop; E. H. Redman, Birchcleft, 6th troop; D. Husell, 54 Huntley, 2nd troop; F. Besser, Spout-avenue, 20th troop; C. H. Stalker, 11 Albany-avenue, 20th troop; E. Kihler, 15 Chitcra-avenue, 6th troop; W. Preston, 23 Gore-st., 2nd troop; Walter Moore, 11 Rowland-road, 11th troop.

All these must pass a medical examination by a duly appointed military medical officer. H. C. Hughes, who took first honors in the examination, was presented to Earl Grey, who commented upon the manly bearing and the serviceable uniform that has been provided for the contingent. The Canadian representatives will sail for Montreal on June 10, by the steamship Mesagantic.

QUEEN'S WEATHER AND A FRESH WIND

As you walked across the fields and thru the woods, or along the country roads yesterday, you were charmed with the surprising verdure of the scene, and you felt the clean, sweet wind that blew from the west—delightful Queen's weather—a freshness in nature even in a Canadian day of May that made you think of how near this country of Canada is to the fountains of life and delights that never cease to please. The old Queen is no more, but the charms of our springtime never die; they live on; they came yesterday, as ever, in all their glorious manifestations, imparting the spirit of hope, of freshness and of life.

Columbines were to be plucked in the woods; the little star flower was everywhere, and the grass and the dandelions of the open blew in waves across the view. A Canadian who was in the fields yesterday must have felt a glow of patriotism and a fire that burned in his heart that Canada was good enough for him, and that our institutions that centered round the name of Victoria were worth preserving and strengthening.

TO ROBERT JOHN.

If we were Robert John and had at heart the interests of Sir William in all their diversities, we would see that the Broadway car that crossed the Don bridge just after the Canadian Northern train from the north came down at about 7:50 every evening we'd have a car big enough to give the passengers who got off that train a seat, instead of a stand-up on the tail-board.

EVERYBODY WAS IN HOLIDAY MOOD

Nearly Ideal Weather Tempted Torontonians to Enjoy Themselves in All Forms of Out-Door Sports on Victoria Day—Thousands Left City by Boat and Rail.

Hundreds and thousands of anxious Toronto holiday-makers woke yesterday morning to find that there was every promise of Old Sol remaining brightly shining all day long, and they therefore filled up their baskets, or bought the boat tickets, or followed out other plans which had been entertained in their weary brains all spring.

Every amusement park was crowded with excitement-seekers, every picnic ground was packed with those of a quieter nature longing for a silent spot (few found them), and those with the sailor instinct were rejoiced in the fresh breezes of the lake. Both the baseball games at the island were well attended, a total of 20,000 turning out for the double-header. True, it was rather disheartening to see Toronto lose that afternoon game by so large a margin, but those who stayed for the exciting seventh inning didn't feel so badly after all.

The pari-mutuels had a huge following at the Woodbine and the crowd backed up the selections of the people generally. The 15,000 people packed all the available room, and there was a continual scramble to get near the betting machines. It would have been a great day for the bookies, but, alas! there were not any. The closeness of the weather promised heads for the horses, but all the houses were astonishingly well patronized.

Picnics galore provided a good opportunity for many thousands, both in the city and outside. Many Toronto people traveled to the fairs at Markham and Richmond Hill. The visit of the Boy Scouts coronation contingent to the fairs was a feature of the day. The boys in the scarlet tunics were the wonder of the countryside.

On all the available grounds at the island and in the city, many parties of the lunchers, both young and old being equally at home in this branch of holidaying.

Wearry porters and employes of the Union Station were kept busy handling the enormous crowd of 70,000 people that streamed in and out of the station all day long. But if the steam railways were well patronized, the street cars were much better. The nickies just rolled into the fare boxes of the R. V. men, for the vast majority of the crowd going and coming everywhere stood by the old reliable electric street cars. A few used their legs and their automobiles, but they were not many, comparatively speaking.

To Hamilton, to Niagara and to Port Dalhousie the crowd of fresh air friends turned with joy. The Hamilton boats used the new western gap without mishap and carried big crowds on every trip.

And besides the crowds at the bigger affairs, there were masses of people who watched amateur games or played them. Tennis and baseball in club and park, boating on the waters and many other forms of amusement were patronized by their followers, with only one accident recorded. That, the double drowning in Humber Bay, marred for many the pleasure of the day, but to those who saw the vast crowds everywhere, it was a marvel that more accidents did not occur. The fireworks were noticeably in the background, which gossend kept the British national holiday so much less sanguinary than that of Uncle Sam, called none the less patriotic. "Preserve us from reciprocity on national holidays," remarked a citizen.

Hamilton, as in to there have been few Victoria Days in recent years when the weather has been so gracious, altho the clouding up about 11 o'clock was a temporary annoyance. However, the sky soon cleared, and in the afternoon its blue serenity and the floods of sunshine made the holiday an ideal one.

In the morning the Veterans of '66, South African Veterans and Army and Navy Veterans, joined in decorating monuments in Queen's Park.

House of Providence Picnic. What Canada's National Exhibition is to the west end of the city in the fall, the House of Providence picnic on Victoria Day is to the east. For over twenty years the greatest charitable picnic in the Dominion has been held in the grounds of Providence grounds, Power-street, with ever-increasing success. Yesterday the grounds were the scene of all that could be imagined in the way of open-air amusements.

Who's Seen McGuigan? "Where's that great master in rushing construction work, McGuigan, to wit, that the new Queen-street over-head bridge at the Don is making no headway? Surely he isn't at the races or at the Long Sault!"

Every day's delay is a cost to the citizens. They remember that the former bridge was held back over a year, and at an unnecessary cost of two minutes a day to everyone who crossed it amounted up to a sum that would have paid for the bridge twice over. Page McGuigan, boy.

Feared by Friends of Reciprocity That Postponement of Operation of Pulp and Paper Clause Would Alienate Support of American Newspapers.

OTTAWA, May 24.—(Special).—Contention reigns in ministerial circles because of the Root amendment to the reciprocity bill in Washington. It is feared by friends of the agreement that an amendment such as Senator Root proposes, preventing the pulp and paper clause from being immediately operative, would result in killing the support which the American newspapers have given to President Taft and which alone has saved the pact up to date. The Root amendment is known here to be the result of strong pressure brought to bear upon the New York senator by paper manufacturers of his state, especially about Plattsburg. The prospect of free paper is believed here to be all that the American Newspaper Association saw in the reciprocity agreement, and its nullification, as proposed by Senator Root, would leave the newspaper interests no reason for fighting a battle in which they would be no longer interested. This would mean the defeat of the agreement in the United States and would cut the ground from under Sir Wilfrid Laurier and Hon. W. S. Fielding.

The pulp and paper clause which Root is attacking is but a part of the agreement proper, but was added to the bill at Washington to please the associated newspapers of the United States and earn their good-will.

Continued on Page 7, Column 3.

HAMILTON HAPPENINGS

SPORTS' CHIEF HOLIDAY EXCITEMENT IN HAMILTON

Both Local Regiments Went Out of Town—Police Had Easy Time.

HAMILTON, May 24.—(Special).—Hamiltonians observed the holiday in a very quiet manner. Sporting events occupied the centre of the stage, with two road races, and a baseball game being pulled off in the morning, while a baseball game in the afternoon provided the principal entertainment for the citizens. The 13th Royal Regiment, in practically full force, spent the day in St. Catharines, and returned to the city at 11 p.m., while the 81st enjoyed the Scotch hospitality of the inhabitants of Fergus for the day. Both railroads and the steamboats did a rushing business, every train and vessel leaving the city being crowded. The weather was more or less threatening all day, but a light shower at noon was the only rainfall. Mr. and Mrs. George H. Summers, supported by a very capable company, opened their summer season at the Mountain Theatre, and pleased two large audiences with a delightful comedy, "The Man from Ottawa." Mr. Summers appeared in the title role, and added to his popularity as a comedian. The Summers' company is a Hamilton organization, which is always welcome.

Yacht Race The Royal Hamilton Yacht Club held a race for 16-foot skiffs over the club course, starting at 10 o'clock. The victor finished at 12:03 p.m., and the Line at 12:16. The other two starters did not finish. The race scheduled for the afternoon was cancelled on account of the wind.

The police had a comparatively easy time to-day. The names of several drunks graced the station roster, and five cases of minor thefts are marked on the slate. In spite of the free use of fireworks, the fire department has had no work to do. In his address to the pupils of Stinson-street School yesterday afternoon, Trustee Charles G. Booker referred to the Jack Dodds case, and admonished the boys to take young Dodds' untimely death as a warning to refrain from unnecessary fighting. The boys accused of fatally injuring Dodds have been exonerated by an investigation conducted by Detective Cameron, Principal Richardson and Trustee Booker.

HIS SKULL CRUSHED

Young Lad Found in Lot Where Horse Was Pastured.

With his skull terribly crushed and with but a slight chance of recovery, Willie Stone, 8 years, 130 Jones, was picked up unconscious in a vacant lot in Curzon-street yesterday afternoon. He was taken to Dr. P. J. Brown at 50 East Avenue, where his injuries were dressed and he was then hurried to the General Hospital in the police ambulance. How he met with the injury is not fairly known, but it is thought that he was pastured in the lot where he was found and his injuries are such as might have been caused by a kick from a horse.

RESUME ARBITRATION TO-DAY

Dispute Between G. N. W. and Men is no Nearer Settlement

On the eve of the reopening of the adjourned conciliation board, which is investigating the difference of the Great Northwestern Telegraph and its operators, S. J. Mackay, president of the industrial union of the commercial telegraphers, arrived in the city last night to prepare for the important business of to-day's session. April 8 last, when Justice Keefer adjourned the session with instructions to both parties to try to come together in the interval, matters stood fairly even, and it was hoped that an amicable agreement might be made. Asked by The World last night as to what steps had been taken to bring this about, Mr. Mackay said: "There is absolutely no change in the situation since the adjournment." "Have the G. N. W. representatives made no effort to meet you?" he was asked. "I can only say that there is no change," was the reply.

Pamphlets Received at Reference Library

The chief librarian has just received from his agents in London a number of colonial reports for the East Africa Protectorate, British Honduras, Uganda, Southern Nigeria, Trinidad and Tobago, and British Guiana; also reports from the British parliament on trade unions, the royal commission and the land transfer acts, review of the trade of India, and for the prevention and cure of sickness and for insurance against unemployment, and for purposes incidental thereto. These pamphlets may be seen at the reference library.

At the Hotels

Mr. H. M. Allen of Montreal is visiting the Woodbine and is stopping at the Prince George Hotel. Mr. W. H. White, Winnipeg, vice-president of the C.P.R., is stopping at the Queen's Hotel.

THE POLICEMAN'S FRIEND.

Like the old "Candy" every man and woman who is kept constantly on the feet, and suffers from callouses and corns. The one painless remedy is Putnam's Corn and Wart Extractor. It acts in twenty-four hours, and never fails to uproot the corn, root and branch. Satisfaction guaranteed with a 25c. bottle of Putnam's Painless Corn and Wart Extractor.

HAMILTON BUSINESS DIRECTORY

HAMILTON HOTELS HOTEL ROYAL

EVERYBODY WAS IN HOLIDAY MOOD

Continued From Page 1. Air picnic amusements, and the large attendance indicated that over \$7000 would be realized for this important charity. Every Roman Catholic church in the city was well represented by a corps of volunteer workers to man the different booths, while the young ladies vied with each other in their zeal to add to the success of the event. The annual picnic program was voluminous with the different sections of amusements and scores of pages of advertising by keen-eyed business friends of the institution, who saw in it a means of aiding an estimable institution and adding to their own business patronage. The York Rangers' band and a long list of artists gave musical, acrobatic and other excellent turns on a brilliantly illuminated platform. The booths encircling the grounds were gay with bunting and presented a fairy-like picture at night. Hon. J. W. Mogan, as chairman of the committee of arrangements, and B. B. Hughes, secretary, did herculean work in making the picnic one of the best in the history of the institution. The general delight was expressed at the splendid entertainment enjoyed by all who had the opportunity of attending. Crowd at Scarborough Beach. There was a tremendous crowd at Scarborough Beach yesterday. At night the board walk and all the side shows in making carpets during 1907. \$3.00 and up per day. American Plan. ed7

York County and Suburbs

RICHMOND HILL FAIR BEST EVER HELD IN TOWN

Show of Horses Hard to Surpass in Ontario—Big Time in Markham—Suburban News.

RICHMOND HILL, May 24.—(Special).—The biggest and best fair in the history of the Richmond Hill Agricultural Society was brought to a successful close here to-night, with climatic conditions which left absolutely nothing to be desired. It was a delightful event, almost partaking of the nature of a big social function, with everybody knowing everybody and over all the undiminished stamp of good-fellowship and neighborly cheer. It was a prosperous looking crowd, too, and the thrifty, well-dressed crowd of farmers, with their handsome wives and sweethearts, all spoke of prosperity. And the order maintained throughout the day would have done infinite credit to an evangelical conference. Together with the local constabulary, officers Brown and McMillan went to look over the situation, but there was not enough doing to keep them in exercise. The grounds were in excellent shape and reflected credit on the directors and village in general. In the display of horses and cattle, especially in the show, was unquestionably the best ever held in Richmond Hill, and it is doubtful if, in point of individual merit, it has ever been surpassed in this section of the Canadian National. In the gentlemen's turnout alone there were 18 entries, all good animals, and nearly that many in the faro and domino, and every class had a big representation. In the aged stallion class A. G. Gormley of Unionville captured the handsome "Red and White" gelding, besides winning several firsts and in the 2-year-old Canadian draught class Robert Cox of Amber, with a magnificently developed animal, easily won the coveted red ticket. Mr. Cox also won another first with a 2-year-old Canadian draught gelding, which later in the day he sold for the handsome sum of \$1000.00. Barnett Bros. of Richmond Hill, as usual, were among the prize winners, as was Norton Breakey of Mibleken's Corners, taking first prize in the matched team and brood mare and two of her progeny as well as in several other meritorious classes. W. J. Howard scored first on a heavy draught stallion, and a yearling filly. The list of prizewinners was so large that only passing reference can be made. In the single drivers the winners were: Proctor, 1, Frank Boyle 2, and Robert-Matthewson 3. In the gentlemen's turnout, Al Proctor took the red ticket, and the handsome silver service, presented by A. J. H. Eckardt of Toronto, proving a great attraction. Miss Wilson of Scarborough took first prize in the trotting class, and Miss McLean of Richmond Hill 2, and Miss Edith Hood of Bartonville 3. In the draft teams, Walter Comsky took first prize in the heavy draught team, and the other members of the town council presented an address of welcome, which was replied to in felicitous terms by Col. Gooderham. The whole affair was most enjoyable and officers and men expressed themselves as delighted with the courteous treatment received.

MARKHAM VILLAGE. Grenadiers Had Right Glorious Day in Old Home Town.

MARKHAM VILLAGE, May 24.—(Special).—The regiment of the Royal Grenadiers, 400 strong, to this village to-day was an event which will long be remembered by the 4000 or 5000 villagers and "country" present. The regiment was in command of Colonel Gooderham, coming out on a special train, arriving at 11 o'clock, after which dinner was served on the fair grounds, the regiment having charge of the commissary department. An interesting feature in the afternoon was the trooping of the colors, and following this the regimental games, all of which were keenly contested. On arriving at the depot, Reeve Tefft and the other members of the town council presented an address of welcome, which was replied to in felicitous terms by Col. Gooderham. The whole affair was most enjoyable and officers and men expressed themselves as delighted with the courteous treatment received.

MOUNT DENNIS. Fine Garden Party—Want a Police Officer Out Here.

MOUNT DENNIS, May 24.—(Special).—Squire Bayliss gave a garden party yesterday afternoon. Refreshments were served in a marquee erected on the spacious lawn to the south of the house. A horse belonging to the Watt Milling Co., attached to a heavy lumber wagon, ran away down the Black Rock hill. During its mad run the horse smashed several rods of fencing surrounding Walter Ayling's house, doing damage to the extent of \$10. This is the third runaway since Sunday. The church has been secured to meet the temporary needs of the Bulgarians in Toronto. It is a converted dwelling, and cost \$14,000. The lower floor will serve as a church, and the upper as a club room. The walls are bare and the ceiling that of an ordinary dwelling. Hanging from the roof, however, is a magnificent chandelier of cut glass, and at the end is the sanctuary, richly furnished. In honor of the occasion the building was decorated with British, Russian and Bulgarian flags, while banners of fragrant yew were scattered every where.

BALMY BEACH. Anniversary Services Will be Especially Interesting

BALMY BEACH, May 24.—(Special).—The congregation of St. Aidan's, Balmy Beach, are to-day celebrating the first anniversary of the opening of their new building, which was held on Ascension Day last year. Holy Communion is celebrated at 7.30 and 11 a.m., and Archdeacon Cody of St. Paul's is the preacher at the evening service at 8 o'clock to-night. The festival is continued on Sunday, the Lord Bishop of Toronto administering Confirmation on Sunday evening.

AGINCOURT. E. C. Drury Will Talk in Agincourt on Friday Evening

AGINCOURT, May 24.—(Special).—On Friday evening E. C. Drury, organizer for the Dominion Grange will speak in the Temperance Hall on the desirability of forming a grange in this locality. Mr. Drury early in the spring announced his intention of speaking on the retrocity measure, but was prevented at that time from carrying out his intention. While this is not the chief motive for his visit on this occasion it is altogether likely that he will have something to say on the subject. Friday night's meeting will be an open one and everybody, ladies especially, are cordially invited to attend. As it is desirable that the time be lost the meeting will start at 8 o'clock sharp. Don't forget the date, Friday night.

SAWMILL BURNED

Cheese Box Factory and Lumber Also Destroyed. KEMPVILLE, May 24.—Early this morning the Village of Hallville was visited by a disastrous fire, which destroyed the sawmill and cheese box factory, owned by Messrs. Shaw & East, and also some 200 worth of lumber, owned by Robert J. Dougall, whose yards are just across the street. The general opinion seems to be that the mill was struck by lightning. A heavy rain was falling at the time, and but for this the entire village would have fallen a prey to the flames. There was no insurance.

Quality vs. Imitation. The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble Budweiser. The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever. Budweiser is bottled only (with corks or crown caps) at the Anheuser-Busch Brewery, St. Louis, Mo. R. H. Howard & Co. Distributors, Toronto, Ontario.

NEW SLAV CHURCH IS FORMALLY DEDICATED

Archbishop Platon in Pagoda Enhanced Picturesqueness of Ceremony. It was a very impressive sight to see hundreds of Bulgarians and Macedonians pass yesterday morning with banded heads beneath a pagoda in which was seated Archbishop Platon of New York, the primate of the Greek Church in America, to be sprinkled with holy water as they passed. The occasion was the dedication of the Slav church at the corner of Trinity-street and Eastern-avenue. Following this ceremony the assembly, numbering over a thousand, with the archbishop at the head, entered the church and chanted three times, sprinkling the walls with holy water. Then the candles were lighted before the icons and the archbishop consecrated the church for worship. On Tuesday evening the initial services were held. Amid a shower of blue sprays and other small flowers, Archbishop Platon drove thru the assembled crowd, and as he descended from the car, he paused for a moment, and lifted up his hands in a blessing on the people. He is a tall, dignified man, with flowing beard and locks, his high ecclesiastical hat adding to the impression of great height. He was met at the church entrance by Dean Kohanik and Deacon Vassiloff, who robed him in ecclesiastical vestments and carried the incense vial and cross, which were kissed by the archbishop. Standing at the door were four lads, two dressed in cloth of gold and the other two in blue and white, who held a club nover thru the doorway. Entering the church, Archbishop Platon conducted service. The church has been secured to meet the temporary needs of the Bulgarians in Toronto. It is a converted dwelling, and cost \$14,000. The lower floor will serve as a church, and the upper as a club room. The walls are bare and the ceiling that of an ordinary dwelling. Hanging from the roof, however, is a magnificent chandelier of cut glass, and at the end is the sanctuary, richly furnished. In honor of the occasion the building was decorated with British, Russian and Bulgarian flags, while banners of fragrant yew were scattered every where.

PRESENTATIONS AT BROADVIEW INSTITUTE

A reception was tendered Tuesday night by the boys of the Broadview Institute to E. D. Otter, assistant secretary, upon the occasion of his marriage, and to Mr. and Mrs. Percy Lee of Ottawa, the new physical director. Mr. and Mrs. Otter were the recipients of several tokens of esteem. The ladies' auxiliary presented the couple with a silver set. The boys' present was an easy chair. The Boy Scouts' token, a silver salad bowl, was presented by the boys' auxiliary. Mr. Lee was presented with a sweater coat with the Broadview emblem by the ladies' auxiliary. The speakers were C. M. Conneland, provincial secretary; G. A. Warburton, metropolitan secretary; Physical Director J. McLeod of Central Y.M.C.A. and Physical Director Scott of the West End Y.M.C.A. Mr. Deakin ably filled the chair.

AN EARLY APPREHENSION.

"The Grebe" has left an enormous hole in the wall, said one Trojan citizen. "Everybody is looking at him." "That's a bad sign," replied the other. "I never knew of a horse exhibition that didn't involve a risk of prolonged hostilities." — Washington Star.

LESSONS IN CITY PLANNING. W. S. B. Armstrong Reviews Subjects Under Discussion. The conference was by far the most important yet held in America. Its phenomenal success surprised even its promoters. There were from 150 to 200 delegates present, being at least five times as numerous as at the conference held the previous year at Rochester, and representing every important city of the United States, as well as cities in Canada and Europe. The leading feature of the convention was the attendance of three prominent British city planners, Raymond Unwin, the most prominent figure in the recent city garden and garden suburb movement; Thos. Adams, city planning expert to the local government board, and T. H. Mawson, lecturer in landscape design in the department of city planning of the University of Liverpool. The program was planned on the basis of one subject for each session, one or two papers on the subject, with a prepared discussion by some member, followed by a general discussion. Ground Covered. The practical nature of the work of the convention may be gathered from the subjects under discussion: "German municipal real estate policies," the height of buildings, width of streets, "taxes, assessments and condemnation," harbors and harbor front improvements, street surfaces and their treatment, housing problem and city planning progress. Listening to papers and discussions, it was gratifying to feel that the Toronto City Council had been wise in sending the heads of two of the principal city departments to the convention. Such expenditure is returned to the taxpayer.

Turf The Nigger Wins Toronto Cup

Note and Comment

There was over \$300,000 wagered in the mutuels yesterday at Woodbine Park, showing how kindly the public have taken to the new form of betting.

There are undoubtedly some with honest intentions who object to the new system, but the great majority of opponents are those with a grudge.

S. C. Hildreth's champion was beaten fair and square yesterday. Sure Mr. Hildreth is not altogether causing the small fields. There were plenty in the field, but he did not hold them down to four in the third, for he had nothing there.

The observers, too, are at the track, and it will be at a seven days' wonder if legislation does not come to make the mutuel the legal form of betting in this country.

King James came over for a day in 1890 and the same time last year, and on each occasion won the Toronto Cup, but the task was too tough for the entire Hildreth stable in 1911.

The old record for 154 furlongs of 1:08 1/2 was made by Seagrass's Purline, when 2-year-old, carrying 133 lbs. Novelty yesterday carried 119 and was never pressed.

LEAFS AND ORIOLES SPLIT THE SERIES

Win the Morning and Lose Afternoon Game—Kocher Injured—The Games.

The Leafs made it an even break on the series with Baltimore, by winning the morning and losing the afternoon game yesterday. It was Toronto all the way in the morning and just the reverse after dinner.

Catcher Bradley Kocher, who has been filling Eddie Phelps' shoes so well since the first catcher had his thumb broken, had his finger split in the fifth inning of the second game. He played the first and sixth, but he retired and Slattery replaced him.

Vickers quit in the seventh inning of the second game, when Toronto was getting to him, and Manager Dunn put Doc Adkins in for the rest of the game.

The Morning Game. Jack Dunn sent in Dygert, late of Conale Mack's Athletics, in the morning game to make it two in a row, but the Leafs took kindly to his slants and along with his wildness corralled four runs in two innings.

Bill O'Hara was very much in the limelight, with four hits and scoring a run in four times up, besides playing a perfect game in the field, according to six chances without a misplay, two of them hard running catches.

Baltimore started in by tallying one in the initial innings when Parent opened up with a single to center. Ted Cather was on the mound for Toronto and held the visitors safe in all stages, tho he weakened a trifle in the last session.

The Leafs came right back in their half, with two runners; Fitz was an infielder out of O'Hara's way, and the latter threw to Bradley, who made the putout. Corcoran struck out and Schmidt got a life when Bradley let his grounder go thru his legs.

The second was another two-run inning. Mullen walked, Vaughn struck the Mullin to hit on Dygert, who wild pitched. Cather dropped a Texas over first and Mullen scored. Fitz got a charity and O'Hara hit to short, who tried to reset Fitz, but everything safe.

Rich score was scored in the fifth on an error, a sacrifice and a hit. In the seventh, after Mullen was disposed of, Vaughn sent a single into left for one base and Cather got a life on Corcoran's high throw to first. Fitz was there with the needful and singled to left, scoring Vaughn and taking second on the return to the plate. O'Hara thumped a Texas leaguer to center when the infield were playing in and Cather trotted home.

The least said about the afternoon game the better. Ed Killian was sent in to work, and for five innings the Baltimore batters had a great row, slugging the ball over the lot for six runs. Dicky Rudolph relieved Killian in the sixth, and the birds still had their batting legs on, and he was treated just as bad, the final score being Baltimore 11, Toronto 6.

An error and a hit started it, and Rich scored in the first. Walsh opened up the second aspm with a triple to deep centre; Malsel fouled out. Egan was out, the Mullen to Jordan route. Vickers hit one that Mullen was lucky to knock down, let alone field, and Walsh scored. Parent ended this innings by giving an infield out. Two more were added by the Oystertown boys in the fifth on three hits in a row. Dick Rudolph took the mound in the sixth and after the smoke had cleared away two more were on the score-boards. Bobby Vaughn's struggle in the seventh let the first man on and when the Baltimore lads made up their minds to quit three runners had cross-

Baseball Toronto - 7-6 Baltimore 2-11 Lacrosse Tecumseh 12 Toronto - 4

ed the plate. This ended Baltimore's little lot. After getting the first two men out in Toronto's first Vickers passed Shaw and deliberately walked Jordan, but Bradley showed him his mistake by tripping to right, scoring Shaw and first. Kocher went out, pitcher to Jordan. The Leafs were unable to score again until the seventh, when, after Vaughn got to base on Malsel's boot and Rudolph had forced him at second, Fitz singled to left. O'Hara hit for two bases to right and Rudy scored. Shaw's two-sacker to the same place tallied Fitz and O'Hara. After Jordan was disposed of Bradley tripped to deep centre and Shaw came home. After this the Leafs were unable to get near a run.

THURSDAY MORNING, MAY 25, 1911.

SIR WILFRID AS DIOGENES

Sir Wilfrid Laurier's speech at the dinner of the Pilgrim's Society on Tuesday night inevitably recalls the French aphorism "Qui s'excuse s'accuse." It is certainly noteworthy as indicative of a certain unnessiness in the Canadian premier's mind that his first public appearance in Britain should be associated with an indirect and distinctly laudatory defence of his reciprocity departure.

Recognition of this possible consequence of the reciprocity pact prompted Sir Wilfrid's declaration that if the United States attempted to annex Canada it would not be by force of arms, but by seduction. That remark is a gloss on the president's warning that the rejection of reciprocity would strengthen the movement for a band of imperial states reaching round the world from England to England again.

ARS LONGA, VITA BREVIS.

That art is long and life brief is once more exemplified by Col. Mason's complaint over the unfinished South African memorial. Col. Mason has high praise for the work of the sculptor, but the delay has moved him to reprobation.

ONTARIO TELEPHONE SYSTEMS.

An excellent resume of the legislation affecting telephone systems has been issued by the Ontario Railway and Municipal Board, being an extract from the board's report for 1910. It contains the Local Municipal Telephone Act, 1906, and the Ontario Telephone Act, 1910, and the amendments thereto.

Attention is called to the enlargements of the powers of the board under the act of 1910. It is provided that all telephone systems within the jurisdiction of the legislature must file their charters with the board and have them approved. The board has power to order interchange of service between systems in adjacent territory, and this has been done in several instances.

The board has compiled a list of 105 local and rural telephone systems in Ontario, which come under the provisions of the act, but there may be others about which the board has still to secure information. It is desirable that all parties operating telephone service should obtain a certificate of registration from the board.

phone effects a saving of not less than \$50 a year on every farm.

PHYSICAL BRAVERY AND SPIRITUALITY.

"All the talk about physical bravery," says The Halifax Herald, "calling on little boys to be brave and fight, simply encourages the little boys to lie and brag, makes those that have actual spiritually feel guilty because they lack the quality of the bulldog or the wild boar."

We have not read anything so utterly wrong for a long time, or so far removed from the "actual spirituality" of the Herald mentions. The Herald article condemns boxing, the main qualifications for which are disregard of pain and a good temper. St. Paul knew the philosophy of fistfights, and the technique of the boxing ring as well.

No boys are less likely to lie and brag than those who know what real achievement means, and who have accomplished something by their own effort. It is the boys who have no record that usually brag. The Herald asks, "What has fist fighting to do with a decent human being?"

Our modern theories of puppy prudence are based on a misreading of the Sermon on the Mount, which has been badly assimilated by dyspeptics, but which is really a counsel of perfection for the very strong both in mind and body. "Resist not evil," it says, but the weaklings forget that this applies only to one's own case.

ARS LONGA, VITA BREVIS.

That art is long and life brief is once more exemplified by Col. Mason's complaint over the unfinished South African memorial. Col. Mason has high praise for the work of the sculptor, but the delay has moved him to reprobation.

Leave Toronto 5.00 p.m., daily except Sunday, arrive Palmerston 7.02 p.m., Palmerston 7.50 p.m., Harrison, 8.20 p.m., Walkerton, 8.45 p.m., Southampton 10.20 p.m., Listowel 8.15 p.m., Hanover 8.55 p.m., Owen Sound 10.35 p.m., and the morning train leaves Palmerston 6.00 a.m., Walkerton 7.10 a.m., Harrison 7.50 a.m., Palmerston 8.25 a.m., Perth 9.05 a.m., and Toronto 11.10 a.m.

DR. BARNARDO'S HOMES.

Editor World: The council of Dr. Barnardo's Homes find it necessary to ask the public to assist them in coming to a somewhat difficult decision. Since the death of Dr. Barnardo five years ago, the sympathy of the innumerable friends and admirers of his work has enabled us, not only to carry on his work, but even to extend it in accordance with his known desire.

AT OSGOOD HALL

ANNOUNCEMENTS. Wednesday, 24th (Victoria Day), a day non at Osgood Hall.

Motions set down for single court for Thursday, 25th inst. at 10 a.m.:

1. Richardson v. Becker.

2. Re Black and Scott.

3 and 4. Banfield v. Toronto Railway Company.

Master's Chambers.

Before Cameron, K.C. Master. Young v. Linden—T. Hyslop, for defendant. A. Singer, for plaintiff. Motion by defendant for an order setting aside statement of claim as irregular. Order made, allowing plaintiff to amend. Costs to defendant in any event fixed at \$1.

Black v. Seagram—Carter (Macdonald & Co.), for plaintiffs. Motion by plaintiffs for an order for the issue of a subpoena duces tecum to the registrar for the east and west ridings of the County of York. Order made.

Wilde v. Kemerer—M. P. van der Voort, for plaintiff. J. Parker, for defendant. Motion by plaintiff for an order dismissing action for want of prosecution. Reserved.

Mason v. Maunson—A. J. R. Snow, K.C., for plaintiff. No one contra. Motion by plaintiff for an order for interim alimony and disbursements. Order made for \$20 a week from date of writ, so long as plaintiff remains in the hospital. Interim disbursements fixed at \$40, payable forthwith.

Hand v. Hand—L. Davis, for purchaser. Motion by purchaser, on her vesting order. Order made.

Judge's Chambers.

Before Middleton, J. Sanderson v. F. W. Harcourt, K.C., for infants. Motion on behalf of infant for leave to pay infant's money into court. Order made.

Re John E. Moore, lunatic—S. Danison, K.C., for committee. Motion by committee for an order confirming report. Order made.

Re Arnold—D. C. Ross, for mother. F. W. Harcourt, K.C., for infants. Motion by mother for an order for maintenance. Stand over for further information.

Re Lutz—F. W. Harcourt, K.C., for infant. Motion on behalf of infant, aged twenty, for an order for payment out of share. Order made.

Re Servais—F. W. Harcourt, K.C., for infants. Motion on behalf of infants for an order extending the former order for maintenance for two years. Order made.

Divisional Court.

Before Meredith, C. J., Teetzel, J., and Middleton, J. Re Quigley and Township of Bastard—J. Hales for the township. J. Haverson, K.C., for Quigley. An appeal by the township from the order by Sutherland, J., of 19th April, 1911, quashing the local option bylaw of the township. By consent of counsel argument of appeal started on 19th September, with liberty to either party to apply to restore case to June sittings.

WAS TERRIBLY AFFLICTED WITH LAME BACK.

COULD NOT SWEEP FLOOR. Three Boxes of Doan's Kidney Pills Cured Her.

It is hard to do housework with a weak and aching back.

Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered they get out of order.

Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Mrs. M. Larroux Smith's Fall, Ont., writes: "I take pleasure in writing you, stating the benefit I have received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back and was so bad I could not even sweep my own floor. I was advised to try Doan's Kidney Pills, which I did, and with the greatest benefit. I only used three boxes and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

Price 50 cents per box, or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's"

CHILD LABOR REGULATIONS IN GERMANY.

The most stringent regulations passed by the German Government in 1908 affecting children and women, and it is in this respect that the state has clearly in view the interests of the community as represented by its workers.

The total number of children under 14 years employed for special reasons and exempt by law in the manufacturing industries in Germany is about 1830, writes W. H. Dooley in The Atlantic Monthly. These children are between 12 and 14, and the hours of employment are restricted to six, with half an hour interval for meals. Between 14 and 18 they may work not more than ten hours a week, and have an hour's pause at midday and half an hour both in the forenoon and afternoon, unless their working day is not more than eight hours; no continuous period exceeds four hours.

During the rest periods any participation in work is forbidden, even remaining in the room, and only when their own department of the work is brought to a complete standstill. When past 18, they cease to be youthful workers and are under no special regulations except that all under 21 must be provided with a "work book" or register, containing name, age, birthplace, date of employment, date of engagement, discharge and other particulars.

All boys under 18 are obliged to attend a continuation school for nine or ten hours during the week, where they receive instruction in the technical knowledge of their trade, and religious instruction from their own clergyman. This is taken out of the regular day-work without loss of pay. In a number of larger engineering and machine shops the writer saw no youthful workers.

GOVERNMENT'S GUESTS AT PANAMA.

A special invitation has been extended by Colonel Gueithals, chief engineer of the Panama Canal Commission, offering the hospitality of the government to all who wish to inspect the canal. Representatives of the government have been detailed to conduct tourists to all points of interest on the great waterway, to explain the most prominent features of the work. On Mondays, the locks at Pedro Miguel may be visited; on Tuesday mornings, the modern locks at Gatun and release maps will be shown during the visit to the famous Culebra Cut, and on Friday mornings, the locks and dam at Gatun. Anyone visiting the canal will be accompanied by an expert, who will communicate in English, with the secretary to the chairman at Culebra Canal Zone. Will be furnished with intelligent guides. An opportunity is offered, not only to see the canal in its most interesting state of development, but to profit by the guidance of an official, capable of giving authentic information and explaining fully and interestingly the principal features of the most wonderful piece of engineering ever attempted.

Savage Sense of Humor.

There are whole peoples who cannot laugh. The North American Indians, for example, are entirely devoid of the slightest glimmer of humorous perception, and when some of the Vedahs of Ceylon were asked why none of their people ever laugh they solemnly replied that they never see anything to laugh at. On the other hand, some savages seem to have a more robust sense of humor than their civilized brethren. Dr. Livingstone tells of an African tribe who, when dressed in clothes for the first time, "rolled about on the ground in uncontrollable fits of laughter, and spoiled their clothes. If they had but known what clothes would cost them!"—London Chronicle.

Turn About.

"Can I get off to go to the ball game?"

"You cannot," answered the boss. "Furthermore, you will have to work to-night. The office is scheduled for a double-header."—Pittsburg Post.

Fired. More Likely.

"What's become of the old-fashioned reporter who spoke of the 'pristine glory of the spring'?" asks The Buffalo News. Probably got snowed under. Elmsville Advertiser.

Little Surprises.

"You take that seat, I'd rather ride backward than forward."

"Thanks, no. I don't need any pencil. My fountain pen is always in good working order."

"John Smith is my real name. Your honor: I never use an alias when I'm in a run."

"You have taken your time about it, George, dear. I'd have said yes if you had asked me six months ago."

"I missed my train downtown this morning, Maria, on account of having stopped to mail that letter you handed me."

"Go ahead with your conversation, barber: I like to hear you talk!"—Chicago Tribune.

TECUMSEH'S FIRST GAME FOR CITY CHAMPIONSHIP

Final Score Was 12-4—Penalties Figured Materially in Scoring—Other Games.

Toronto and Tecumseh met at Scarborough Beach on the holiday for their annual city championship game, and on this occasion the Indians were returned victors by 12 to 4.

The game drew an excellent crowd, and those who witnessed the contest were at times treated to some very good lacrosse, but the rather one-sided score put somewhat of a damper to the proceedings.

Tecumseh lined up practically the same as last season, Jimmy Callahan, last year's captain, being the only new man in the manner in which he performed speaks well for Manager Querre's judgment in picking out new material.

Toronto's new material was composed of Holmes in goal, Parks at centre and Irwin at inside home. Holmes formerly played with Young Toronto and Toronto's penalties were well in the net, guarding off many shots that looked like certain scores.

Tecumseh, however, were on top of him most of the time, forcing him into a position where he did not appear to have sufficient speed to cope with the other Toronto fielders, but plays a strong game. Irwin, last season with Mattison, looks like a find. He has plenty of weight and on the day's play was best of Toronto's home. He also assisted the defence when they were short a couple of men at that end.

On the play of the day Tecumseh looked the better team, but they both served altogether too much time on the benches. Toronto's penalties totaled 90 minutes, while Tecumseh were off for 85 minutes. Toronto threw away quite a number of chances to win in the third quarter when, with Menary, Warwick and Stagg viewing the game from the penalty bench, Tecumseh slipped in three goals.

It was in their general organization of play that Tecumseh looked the best, and their defence also played much better together than did their opponents. McGregor and McDougall worked well together, and Collins fits in particularly well with this pair.

Individually the players are about even. In the centre of the field Toronto appears to have much the better fielders, Danderno, Warwick and Stagg all having a world of speed. No much plaudits could be made of the play of Harshaw, Braden and Powers, but the latter pair viewed the game rather too frequently, as also did Stagg, during the game, and were not of much assistance when a spectator.

Irwin played a great game at inside home, but Barnett and Kalls have not rounded to their best form, and will do much better in their next game. Dad Stewart worked hard on the defence, but is rather short on condition. Nearly every one of Tecumseh's goals were scored on combination play and by McGregor working behind the Toronto goal and then passing to the first man to be uncovered in front; this latter play was most successful in the scoring line.

While the penalties were numerous, the game was by no means as rough as have been other games by these two teams, no doubt because of the prompt manner in which the referee and judge of play kept the game in hand. Judge Tecumseh (12)—Goal, Kinsman; point, Green; cover, Yeaman; defence, Graydon, McKenzie, Rowntree; centre, Felker; home, Querin, Collins, Durkin; outside, McGregor; inside, McDougall.

BRANTFORD (4)—Goal, Holmes; point, Harshaw; cover, Powers; defence, Stewart, Braden, Stagg; centre, Parks; home, Harwick, Danderno, Barnett; outside, Kalls; inside, Irwin. Referee—Jim Kavanagh. Judge of play—Bobby Graham.

ANOTHER CENTURY FOR THE ROSEDALE CLUB

G. M. Barnes Hits Up 123, Not Out—Guelph Beaten By 250 Runs and Seven Wickets

Rosedale Cricket Club and Guelph played at Rosedale yesterday on a perfect day, scoring wickets. The game resulted in an easy victory for Rosedale by 250 runs and 7 wickets. For Rosedale G. M. Barnes played a grand innings of 123 runs, not out. H. E. Reid (68) and L. G. Black (40), not out, were also in fine form with the bat for the home team.

The Capitals appear to be weak in every department from goal to inside home. For the first few minutes of the game the Capitals failed to do anything that they liked with them, and might have scored many more goals if they did.

President Jimmie Murphy of the N.L.U. was present and faced the ball. He heard and was prepared to start the game made the footing bad at first, but the ground dried rapidly as the game proceeded.

The harrowing details of the massacre are told in the following summary. The teams: Montreal (18)—Goal, Brennan; point, Philby; cover, G. M. Barnes; defence, Hamilton, Kenna, Aspell, centre, Jarratt; home, P. Scott, E. Scott, Layden; outside, Roberts, Roberts. Capitals (13)—Goal, Lesueur; point, Larraquin; cover, Goodwin; defence, Curie, F. Scott, Roberts, Ashfield; home, Roberts, Buxterworth, Whelan; outside, Murphy, inside, Lavelle. Referee—Stagg. Judge of play—W. Cain.

Summary: First quarter—1, Montreal, Roberts, 1.55; 2, Montreal, Roberts, 4.10; 3, Capitals, Murphy, 1.35; 4, Montreal, Roberts, 1.30. Second quarter—5, Montreal, Hogan, 3.30; 6, Montreal, Roberts, H. Scott, 1.40; 7, Capitals, Buxterworth, 1.40; 8, Montreal, Hogan, 2.05; 9, Montreal, Hogan, 6.25; 10, Montreal, Roberts, 1.20; 11, Capitals, Lavelle, 4.5. Third quarter—12, Montreal, Layden, 4.10; 13, Montreal, Hogan, 4.00; 14, Montreal, Roberts, 1.5; 15, Montreal, Roberts, 4.5; 16, Montreal, H. Scott, 5.50; 17, Montreal, Roberts, 1.30; 18, Montreal, Roberts, 1.30; 19, Montreal, Roberts, 1.30. Fourth quarter—20, Montreal, Layden, 6.10; 21, Montreal, Roberts, 6.00.

CORNWALL'S GOOD PRACTICE GAME. CORNWALL, May 24.—The lacrosse season was opened here on "Victoria Day" when a good match was played between the Cornwall Seniors and a picked team who played under the name of the Grey and Blues. A hard hour was indulged in, and at the expiration of the hour the Blues were easily in the lead by 8 goals to 3. A feature of the game was the return of the Cornwall players who, a few years ago was considered the king of defence men. Jim Kervin and Cory were seen showing good form, and might not be surprising to see two or more of them on the Cornwall line-up.

Donald Smith was also out and worked hard. The players were changed about each quarter in order to give all a work-out. The teams lined up as under in the first quarter: Cornwall, Seniors, replaced Donald Smith; Laidlaw replaced Paul, and Penny exchanged nets. In the last quarter, Guy Smith took the place of Donald Cameron. The teams were as follows: Blues: goal, Cory; point, James Kervin; cover, Donald Cameron; defence, John White, E. Somerville; centre, A. E. Gray; home, Robert Smith; outside, Grey; goal, Penny; point, W. Broderick; cover, Paul; defence, Jarvo, Cyril Denny, A. E. Gray; home, Robert Smith; outside, Lapene, Mike, Cummins, L. DeGray; outside, Carpenter; inside, Kyer.

BRANTFORD (12)—Goal, Kinsman; point, Green; cover, Yeaman; defence, Graydon, McKenzie, Rowntree; centre, Felker; home, Querin, Collins, Durkin; outside, McGregor; inside, McDougall.

French Naval Strength. According to a recent statement by Delcasse in the French chamber, the French fleet will equal that of Germany in 1920, both in Dreadnoughts (23) and in armored cruisers, but with an advantage on the German side in the matter of ordnance. The Paris Journal des Debats, on the other hand, places the figures for 1920 at 22 Dreadnoughts for France, and 23 for Germany, and at 7 armored cruisers, as against 15 for the German. The Temps calculates that by that time the German navy will surpass that of the republic by one-third.

Present-Day Meanest Woman. The meanest woman in the world got even with her rival by stealing all her rats, puns, transformations, etc., that she had to stay in bed for a week. Woman's inhumanity to woman, remarks The Philadelphia Inquirer, is simply fierce.

A Garden Enthusiast. "You say you enjoy gardening?" "Immensely." "I never hear of your raising anything." "No, I get all my fun standing around and telling my neighbors what to do."—Washington Star.

The Paris Journal des Debats, on the other hand, places the figures for 1920 at 22 Dreadnoughts for France, and 23 for Germany, and at 7 armored cruisers, as against 15 for the German. The Temps calculates that by that time the German navy will surpass that of the republic by one-third.

Present-Day Meanest Woman. The meanest woman in the world got even with her rival by stealing all her rats, puns, transformations, etc., that she had to stay in bed for a week. Woman's inhumanity to woman, remarks The Philadelphia Inquirer, is simply fierce.

A Garden Enthusiast. "You say you enjoy gardening?" "Immensely." "I never hear of your raising anything." "No, I get all my fun standing around and telling my neighbors what to do."—Washington Star.

Buy an Organ at 50c a Week. You have the choice of some twenty-five organs at the warehouses of ye old firm of Heintzman & Co., 193-195 Yonge-st., and one of which you may purchase on agreement to pay fifty cents a week. The organs, though not absolutely new, are all in good condition, and marked at from \$15 to \$65 each, about half manufacturers' prices.

The importance of a freight elevator to a piano dealer

The variety of sizes and styles in pianos the dealer finds it advisable to stock, prohibits the keeping of all the instruments on the ground floor. It should be possible, however, to replace instruments from the stock upstairs after a sale, and at a moment's notice. Expedition combined with safety, can only be secured by means of a freight elevator. Pianos, more than any other article, require careful handling. To shift them from one floor to another by any other method than that provided by a smooth-running elevator, is sure to be more or less injurious to their delicate mechanism—besides scratching or marring their highly polished cases.

The installation of a suitable design from the complete series of

OTIS FENSON FREIGHT ELEVATORS. enables the dealer to handle his stock with the utmost despatch and safety and at small initial investment. Dividends on this investment will return to the dealer in actual time, labor and money saved, and by reason of the double floor space thus acquired.

The Otis-Fensom Elevator Company, Limited TORONTO. Send for our illustrated book, "Freight Elevators and Their Uses."

FOR SALE YONGE ST. LEASE. Three and one-half years to run at \$175 Per Month. Store suitable for automobile show rooms. Large floor space, partly concrete.

Whippet Races at Exhibition Park. The twentieth annual meeting of the committee having in charge the lawn bowling tournament for the presented to Messrs. Hiram Walker & Sons will be held at the Victoria Club on Wednesday, May 31, next, at 8 p.m.

HOFBRAU. The most invigorating preparation of its kind ever introduced to help and sustain the invalid or the athlete. W. E. LEE, Chemist, Toronto, Canadian Agent.

GIANT MELONS IN TURKEY. Both the water and musk melons of Diarbekir are the largest I have ever seen. Watermelons grow in Diarbekir each as large as a flour barrel and muskmelons only a little smaller, only the muskmelon is rounder, like a pumpkin. These melons are raised in the bed of the Tigris, as after the spring rains are over and the snows have all melted from the mountains the river shrinks to comparative insignificance and large tracts of the bottom land are thus exposed. This land is plowed, and in each hill where the seeds are planted a quantity of pigeon manure is mixed with the earth. There are people in Diarbekir engaged in breeding pigeons for no other purpose than to sell the manure to the melon growers.

WANTED TELEPHONE OPERATORS. EXPERIENCE NOT REQUIRED. PERMANENT EMPLOYMENT. PLEASANT SURROUNDINGS. GOOD SALARIES. APPLY.

Bell Telephone Co. 33 TEMPERANCE ST. TORONTO FIRE BRICK COMPANY. Manufacturers of HIGH GRADE RED PRESSED BRICKS. Rich Red Colors, and made of pure shale. Also Field Tile. Prompt shipments. Office and Works—Mimico. PHONE PARK 2856. NIGHTS—Park 2591.

PASTURE. PASTURE—Good water and shade. Apply to F. E. Earl, 4 Wellington-st. East, P.O. 477

Doctor Told Her She Did Not Have A Pint of Good Blood in Her Body. Mrs. Desithe P. Cormier, Middle Sackville, N.B., says: "In the spring of 1897 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different other kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept on using one bottle after another until I had taken six in all and then I was strong and well. I am positive that my being alive to-day is due to the use of Burdock Blood Bitters. One spring since then I was not feeling very well and had a lot of work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1906 I had Pneumonia, and it left me with a severe pain in the left side. Every morning when I would get out of bed I had to sit down for a while it was so painful. After using Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received so much benefit from Burdock Blood Bitters that you may publish this as it may help others as it has me." Manufactured only by The T. Millburn Co., Toronto, Ont.

Dr. Chase's Ointment. A guaranteed cure for itching, bleeding hemorrhoids, and all other ailments of the rectum. Sold by all druggists. Price 25c per tin. Dr. Chase's Ointment, 100 N. 3rd St., Philadelphia, Pa.

Dobie the Feature in Mining Shares on the Wall Street Curb

Holiday on Canadian Exchanges But Mining Shares Are Steady

Porcupine and Cobalt Stocks Left to Wall St. Curb—Trading Quiet With Advances Well Maintained.

World Office, Wednesday Evening, May 24. With the Canadian exchanges closed today the Porcupine and Cobalt stocks almost entirely in charge of the Wall Street curb. The dealings in New York were not large, and the price changes were not significant. Dobie was the only feature of strength with sales up to \$3.50, a rise of 25 cents since yesterday.

Holinger and Rea were steady and maintained most of Tuesday's rally. In the Cobalts the market was dull and there were no fluctuations worth noting. A private wire in Toronto today stated that the loss in buildings at the Earl Lake mines was small and that other nice finds had been made on the company's property.

NEW FORM OF DRILLING

Three to Seven Hundred a Day Made by the Wash Drill.

Porcupine City, May 20.—(From Our Man Up North.)—Wash drilling, which from 300 to 700 feet of depth in the earth may be attained, is the newest thing in the Porcupine camp. Yesterday a "wash drill" which is merely the insertion of a half-inch tube within a two-inch tube, and then the forcing of water into the half-inch one, which in turn forces the earth up thru the two-inch tubing, was started on the Babayan claim adjoining the Porcupine City mine. The wash drill is a simple device, consisting of a two-inch boundary line of the Porcupine City mine, to determine if the rise in the ground at that point carries the ridge down and out, or if it is on Bannerman Point, and also if the rock came up from underneath as indicated by the rise in the land. Several holes were put down, and in addition to moving the wash drill five feet, a depth of 350 aggregate feet was made. Each hole was put down to the rock. It is now known that 60 feet of clay covers the rock along the shores of Porcupine Lake on the north side. Chas. Fox.

New York Curb.

Chas. Head & Co. report the following prices on the New York curb: Double closed, 24 1/2; high 25, low 24 1/2; 800, Dome Ex., 30 to 31, high 31, low 30; 200, Hollister, 25 to 26, high 26, low 25; 400, Preston, 25 to 26, high 26, low 25; 500, West Dome, 25 to 26, high 26, low 25; 250, Pearl Lake, 25 to 26, high 26, low 25; 300, Swallow, 25 to 26, high 26, low 25; 400, Porcupine North, 25 to 26, high 26, low 25; 500, Cobalt Central, 4 to 5; Kerr Lake, 4 to 5; La. Rose, 4 to 5; 7-18, 4 to 5; 100, 4 to 5; May Oil, 3 to 4; Grand, 3 to 4; Nipissing, 10 to 12; high 12, low 10; 500, Yukon, 10 to 12; 5 to 6.

Scarpology, a New Science.

The very latest Index finger Intimating what sort of person our neighbor is as just pointed by Dr. Garre of Gland, Switzerland, his new science, "Scarpology." "Scarpology" is a word derived from the Italian and Greek, and signifies the science of shoes—in other words, "shoelogy." As a man of science, Dr. Garre starts scientifically thus: "Scarpology is the art of reading the character or weakness of men and women by the way they use their shoes. The eyes are the mirror of the soul, declare the poets, but show me one of your shoes after two months' wear, and I will tell you your character." According to Dr. Garre, the heel of the shoe worn evenly shows a man of energy, a good worker, and, in a woman, a good mother. If worn on the outside only, the wearer is a man of initiative; if the outside tread is excessive, it may perhaps denote a tendency to trusting to chance. If this part of the shoe is worn on the inside, it denotes a weak or irresolute man, but a weak disposition in a woman. Titts.

Odd Railway Difficulties.

In running railways in Brazil there are two difficulties to contend with which the European traveler does not know—cattle and locusts. The cattle are kept off the tracks. Miles and miles of wire are fenced in, and yet the cattle manage to force their way thru, and they cannot get out. The locusts are of the variety that do not sufficiently so, as the trains are often delayed by an ox being caught between the cowcatcher or engine and the rails, or even by a man, the locomotive and the truss of a bridge; but such accidents are hardly very serious. Locusts are less common, but occasionally travel along in clouds. When they come to earth they may pile up to a foot deep in the cuttings, and, of course, the locomotive will sink aome- selessly. This happens but infrequently.—Cassier's Magazine.

SPRING.

When Spring comes tripping gaily in, Adorned with blossoms bright, 'Tis thought the world kept holiday. From morning until night, 'Tis not so, my friends, you know The Nature's busiest time, And she's at work, and not at play, And all this April and May 'Tis thinking idleness a crime.

The Spring with dashing crystal shower, With shaft of golden sun, And halting her course for a hour, 'Till her course is run, She weaves the greenest forest roof of lovely shimmering leaves, And deep beneath the earth her roots are toiling to surpass themselves In the future Autumn sheaves.

When Spring takes up her urgent work she carries it, in a lecture in New York, condensed industrial or business morality. "It will wrong," he said, "but everyone thinks it is all right. It reminds me of the Can. Once in a Tin Can poker game a tenderfoot saw a player give himself four aces from the bottom of the pack. The tenderfoot said with indignation, 'He turned to a Tin Can native and whistled.' "Did you see that?" "See what?" "Why that bound devil himself four aces!" "Well," said the native, in a surprised tone, "wasn't it his deal?"

Ex-Sultan of Turkey a Hero.

No one is so great a hero or personage in the eyes of the Turkish people as the ex-Sultan of Turkey, who has always been remembered with covetousness on all the great anniversaries. The Arabian pony which the Sultan rode to the future emperor a year ago, is the boy's constant delight. He rides him daily and loves to race with the Sultan's old Arabian. The Sultan's pony is exceedingly fleet. Prince Frederick is usually the winner.

STORY OF A QUEEN'S RING

It Reached Elizabeth Too Late to Save Life of Earl of Essex

The sale at Christie's in London on May 19 of the gold ring which Queen Elizabeth is said to have given to Robert Devereux, Earl of Essex, when he was in favor, has revived the spurious story of the non-delivery of this ring to the Earl of Essex, which was the subject of a play by the Rev. Dr. Augustus Jessopp, in his sketch of Queen Elizabeth, published in the Dictionary of National Biography last year.

"The story of the ring, which Essex is said to have sent to the Queen after his condemnation, and which was delivered to her by the Countess of Nottingham is another of those idle and mischievous inventions, which have been very widely circulated among the credulous, and been repeated by historians." In 1680, or seventy-nine years after Essex's head was severed at three blows in the high court above Caesar's Tower, Louis Aubrey, Sieur du Mansler, issued at Paris a French history of Holland, and in the course of his account of Prince Maurice, alleged that Queen Elizabeth, English Ambassador to Holland, told the story to Prince Maurice as follows:

"In the height of my passion for him Queen Elizabeth gave the Earl of Essex a ring, ordering him to keep it, and stating that whatever he should command she would pardon him when he returned that pledge. Since that time the Earl's enemies, having prevailed with the Queen, caused him to be impeached, and she herself, in a fit of passion, ordered that she should send him the ring, which she had given to the Earl, and which she had ordered her attendant to deliver to him. She had, however, been deceived, and the Earl had been executed before she had time to do so. She had, however, been deceived, and the Earl had been executed before she had time to do so. She had, however, been deceived, and the Earl had been executed before she had time to do so."

There is a fracture zone some 200 feet in width extending, as far as can be seen, between 300 and 400 feet in length, with a general strike of northeast and southwest. Stringers and lenses of quartz appear irregularly throughout this zone. The quartz is somewhat mineralized with iron pyrite and free gold is seen in a few places. A small boiler and shot drill are being installed with a view to prospecting the ore body at depth for determining where to locate a shaft. Engineer Anderson has charge of the work.

GERMANY'S CHEMICAL INDUSTRIES.

The chemical is one of the great industries of Germany, embracing the manufacture of acids, alkalies, cattle foods, coal-tar products, pharmaceuticals, and many other articles. Many of these products, such as sulphate of quinine, salicylic acid, and many others, are produced in Germany. The four great plants are at Ludwigshafen, where synthetic indigo, alizarin, and other dyes are produced; at Hoechst, near Frankfurt; at Mannheim, also near Frankfurt; and at Mulheim, near Cologne. The latter is the largest plant. The concern at Hoechst manufactures series of Frankfurt house and is also entrusted with the preparation of salicylic acid, which is known as Aspirin. Chemists are continually engaged in research for new products in a hundred different directions. In 1909, the German chemical industry produced 2,000,000 tons of chemicals. The value of the output was 3,000,000,000 marks (\$8,000,000,000), and the dividends run from 10 to 20 per cent.

The Gentle Cynic.

About the only time a man objects to being overrated is when he pays his taxes. The great trouble with the men who get to the front is that they feel so big we can't see over their heads. The clothes may make the man, but they sometimes make a dangerous limitation. The only proof against disappointment is to expect the unexpected. The fellow who was born with a silver spoon in his mouth generally marries a girl who makes him look over. The friend who takes your part sometimes forgets to return it. Some people have such taking kava that they leave little to be desired. If lots of us made it a rule to pay as we go we wouldn't get very far. Philadelphia Public Ledger.

Queer Morality.

Upon Sinclair, in a lecture in New York, condensed industrial or business morality. "It will wrong," he said, "but everyone thinks it is all right. It reminds me of the Can. Once in a Tin Can poker game a tenderfoot saw a player give himself four aces from the bottom of the pack. The tenderfoot said with indignation, 'He turned to a Tin Can native and whistled.' "Did you see that?" "See what?" "Why that bound devil himself four aces!" "Well," said the native, in a surprised tone, "wasn't it his deal?"

His Maiden Name.

"What your name was," he asked a gentleman, "small boy he changed to meet on a deserted street. "Most folks call me Jimmie," he returned the small lad, "but my maiden name is really James," was the startling after thought.

Reports Exaggerated

Our special information from the Porcupine Camp enables us to state that many of the reports have been exaggerated.

Our special information from the Porcupine Camp enables us to state that many of the reports have been exaggerated. HOLLINGER will be the principal sufferer, but the management of this mine has already started in to replace the damage done. Scared holders of Hollinger and Rea sacrificed their stocks and will doubtless buy them back at higher prices. Work is now in progress at the Eldorado, and we expect to be able to announce further big finds as they are made. Withdrawal of the offerings of Eldorado at 10 cents a share is now under consideration, and those who want to get in on the ground floor of this valuable Porcupine property should buy subscriptions. EL DORADO owns three properties of 40 acres each, and is only capitalized at \$500,000. Orders for all mining stocks executed with the highest regard for our clients' interests.

Underized Geniuses.

There are people who contend that genius is generally situated in the persons of men of few inches. Some have gone so far as to say that a man of small stature and genius are incompatible. Lombroso was perhaps the chief exponent of these views. The Dietetic and Hygienic Gazette, but other men of note have been in accord with such opinions. In support of this argument, Napoleon the First, Alexander the Great, Edgar Allan Poe, and many others, were of small stature. Napoleon suffered from epilepsy. Alexander the Great and Edgar Allan Poe were epileptics. Poe was epileptically misshapen. "Fron, also about of average height, was congenitally lame. Nelson was a small man of frail health, and it would be possible to tabulate among men of genius the names of the Lapps, customs men who were under the average stature and afflicted with bodily defects.—Montreal Standard.

Paper Cookery.

"Paper cookery" is popularized in London by a German chef, according to a London newspaper. The flavor of the food is said to be improved by the simple process of cooking the food in a paper bag of a special kind. The bag is made of paper, and is made to fit directly, the hot air only coming into contact with the paper wrapper. For instance, in cooking a roast, the roast is placed in the bag and fastened in the oven. After about half an hour the steam is said to be done, and the while it has produced a rich gravy of its own, which can be poured out of the paper wrapper. Fruit cooked in the same way is said to retain not only its aroma but its shape.

Royal Trains.

The Railway Magazine of London contains an article on the royal trains of the British Isles. Precautions which are taken for the conveyance of royalty by rail are indicated, and it is explained that there is no foundation for the impression prevailing in some quarters that when the King travels by train he does not pay for the accommodation provided. Although every royal train would gladly convey his majesty and the queen free of charge, the British rulers pay exactly the same price as anybody else for a special train, in addition to the cost of the train, in addition to the cost of the train, in addition to the cost of the train.

Chinese Government.

About a year ago the viceroy of the province petitioned the central government in behalf of the people interested in the city asking that it may be made an open port and a free port, the design being to build it up on the basis of trade freedom like that enjoyed in Hong Kong. No action along this line has been taken, but the viceroy a short time ago memorialized the throne in the same sense. What action will be taken is uncertain. "The important fact about this enterprise is the desire of the Chinese business men to establish a city upon modern lines, with all modern improvements, for their own use and comfort. From the whole enterprise appears a disposition toward modern things which is of vast importance in the trade of the country in the near future. "In this enterprise, too, may be seen a purpose to build up a Chinese port to take the place of a trade center in this part of the world. There is strong Chinese sentiment in favor of establishing a port in the delta country of the Pearl River to become the port of Canton. A similar policy is to be observed in efforts which are being made to open up Kung-Chau as a commercial port, this city being situated about four miles west of San-Wul and near Kongmoon. The plan is to extend railway service to this point. "Similar efforts are being made in the north in the attempt to build up Newchwang as an all-the-year port and in the schemes to establish new ports at Nan-Lien Bay and elsewhere in that portion of China. "A 'Lady Judge.' We have noted several feminine justices of the peace, but there has been only one lady judge. This was a certain Berkeley, who complained to Henry VIII. of trespass that had been committed on her estate, with assaults

Underized Geniuses.

There are people who contend that genius is generally situated in the persons of men of few inches. Some have gone so far as to say that a man of small stature and genius are incompatible. Lombroso was perhaps the chief exponent of these views. The Dietetic and Hygienic Gazette, but other men of note have been in accord with such opinions. In support of this argument, Napoleon the First, Alexander the Great, Edgar Allan Poe, and many others, were of small stature. Napoleon suffered from epilepsy. Alexander the Great and Edgar Allan Poe were epileptics. Poe was epileptically misshapen. "Fron, also about of average height, was congenitally lame. Nelson was a small man of frail health, and it would be possible to tabulate among men of genius the names of the Lapps, customs men who were under the average stature and afflicted with bodily defects.—Montreal Standard.

Paper Cookery.

"Paper cookery" is popularized in London by a German chef, according to a London newspaper. The flavor of the food is said to be improved by the simple process of cooking the food in a paper bag of a special kind. The bag is made of paper, and is made to fit directly, the hot air only coming into contact with the paper wrapper. For instance, in cooking a roast, the roast is placed in the bag and fastened in the oven. After about half an hour the steam is said to be done, and the while it has produced a rich gravy of its own, which can be poured out of the paper wrapper. Fruit cooked in the same way is said to retain not only its aroma but its shape.

Royal Trains.

The Railway Magazine of London contains an article on the royal trains of the British Isles. Precautions which are taken for the conveyance of royalty by rail are indicated, and it is explained that there is no foundation for the impression prevailing in some quarters that when the King travels by train he does not pay for the accommodation provided. Although every royal train would gladly convey his majesty and the queen free of charge, the British rulers pay exactly the same price as anybody else for a special train, in addition to the cost of the train, in addition to the cost of the train.

Chinese Government.

About a year ago the viceroy of the province petitioned the central government in behalf of the people interested in the city asking that it may be made an open port and a free port, the design being to build it up on the basis of trade freedom like that enjoyed in Hong Kong. No action along this line has been taken, but the viceroy a short time ago memorialized the throne in the same sense. What action will be taken is uncertain. "The important fact about this enterprise is the desire of the Chinese business men to establish a city upon modern lines, with all modern improvements, for their own use and comfort. From the whole enterprise appears a disposition toward modern things which is of vast importance in the trade of the country in the near future. "In this enterprise, too, may be seen a purpose to build up a Chinese port to take the place of a trade center in this part of the world. There is strong Chinese sentiment in favor of establishing a port in the delta country of the Pearl River to become the port of Canton. A similar policy is to be observed in efforts which are being made to open up Kung-Chau as a commercial port, this city being situated about four miles west of San-Wul and near Kongmoon. The plan is to extend railway service to this point. "Similar efforts are being made in the north in the attempt to build up Newchwang as an all-the-year port and in the schemes to establish new ports at Nan-Lien Bay and elsewhere in that portion of China. "A 'Lady Judge.' We have noted several feminine justices of the peace, but there has been only one lady judge. This was a certain Berkeley, who complained to Henry VIII. of trespass that had been committed on her estate, with assaults

on her servants. The King very obligingly granted her a commission of assize, armed with which she apprehended and prosecuted the offenders, empanelled a jury, set as judges in her own cause, and passed exemplary sentences on the prisoners, and then bade farewell to the judicial bench forever.—London Chronicle.

Wouldn't Accept Warning.
The proprietor of a Munich beer house was sentenced to six weeks in jail and to pay a fine of 300 marks, and his waiters to imprisonment for terms ranging for one week or two months, for deceiving the patrons of the place by serving "infusions" of "filled mugs." There was too much froth and foam and not enough of the thing that made Milwaukee famous. A drawing showing a rubeed judge with a foaming mug in his hand, delivering the sentence, was delivered to the proprietor of a popular beer resort in New York by a regular customer, who wrote under the picture in German: "Be warned." The warning was evidently not taken seriously, for the picture, with the additional inscription, "We need no warning—those who find fault may go elsewhere," has been framed and hung up where every one who enters the place—half club and half saloon—may see it.

Steel Stocks Slump on Prospects of Cut in Price Quotations

Reports of an Open Steel Market Have Influence on Stock Prices

Decline in New York Securities Led by the Steel Shares and Market Ends Weak—Canadian Exchanges Closed.

World Office, Wednesday Evening, May 24. Canadian securities listed in New York were under the influence of the larger exchange to-day. Mackay common sold back to 90, a drop of 2 3/4 points from the best previous sale on Wall-street. The recent irregularity of this stock is mystifying to local traders and the fact that a meeting of the trustees is to be held to-morrow (Thursday) leads to the belief that a change in dividend is contemplated for the current quarter.

C.P.R. was inactive but easier and closed with a loss of nearly a point. Wall-street weakness is expected to injuriously affect Canadian markets for the balance of the week.

WALL STREET POINTERS.

Prices hardening in cotton goods trade.

The commerce court has enjoined the interstate commerce commission from enforcing its order in the Federal Sugar Refining Co. lighterage charges case.

June interest and dividend disbursements estimated at upward of \$34,000,000, an increase of over \$7,000,000.

Speyer & Co. will receive no further subscriptions for Missouri Pacific notes, the issue having been very largely oversubscribed.

Sub-treasury gained \$556,000 from the banks yesterday, and since Friday has gained net \$155,000 from the banks.

There is an impression in well-informed quarters that the reduction in steel rails is likely to be in the neighborhood of \$2 to \$3 per ton.

Joseph says: Give attention to the long side of National Railways. Reading around 151 is a cheap, excellent proposition. Specialties: Steel will sell at 90 and then go higher; hold B.R.T. and Beet Sugar.

Ball orders of U. S. Steel Corporation during last week amounted to 5100 tons, including to McKim, Marshall & Co., 600 to Buffalo, Rochester and Pittsburgh and 2000 to A. W. Davis, all sold by the Carnegie Steel Co. It is stated that negotiations are under way for some fairly large tonnage, which it is expected will be closed shortly.

Steel may be pounded further. On rallies Union Pacific, Reading and other highly active stocks will temporarily find back to normal. They should be bought on a scale down. We also recommend the purchase of low-priced rails on a scale. Great Northern preferred and Amalgamated may advance. Industrial specialties are being handled by pools.—Financial Bulletin.

OPEN MARKET FOR STEEL.

NEW YORK, May 24.—It is understood that the Republic Iron & Steel Co. has decided to declare itself independent of the Anaconda Copper Mining Co. to recover \$1,376,000, estimated to be the value of ores alleged to have been illegally extracted from veins owned by the Butte, Balachava Co. during the past few years. The suit includes four counts, covering different points, alleged illegal extraction of ore.

SUIT AGAINST ANACONDA.

BUTTE, May 24.—The Butte Balachava Copper Co. has brought an action against the Anaconda Copper Mining Co. to recover \$1,376,000, estimated to be the value of ores alleged to have been illegally extracted from veins owned by the Butte, Balachava Co. during the past few years. The suit includes four counts, covering different points, alleged illegal extraction of ore.

ON WALL STREET.

Erickson Perkins & Co. to J. G. Beatty. It is now apparent that the bill campaign, which was begun early last week, has not attracted public support to the extent which was hoped for, largely on this account that the professional element has been swerving to the bear side.

Some specialties showed pronounced strength. Both Western Union and Gen. Electric were established during the day at the highest figures reached in the last two years. American Beet Sugar was strong and Underwood Typewriter rose five points.

Some disbursements of interest and dividends by railway, industrial and traction are \$84,882,000, as compared with \$88,920,000 in June of 1910.

TRENTON (Ontario)

CANADA'S CHEAP ELECTRIC POWER CENTRE

MANUFACTURERS are invited to carefully consider the advantages offered by the centrally located Town of Trenton [Ontario] for the location of factories.

POWER.—The cheapest developed electric power (24-hour service) delivered at customers' terminals, is obtainable at \$15.00 per horse power. This rate is for 100 h.p. or over. Slightly higher rates are charged for smaller quantities, the highest price being \$18.00 for 20 h.p. lots. No other Ontario town has to-day such cheap power to offer.

TRANSPORTATION.—The main lines of the three large Canadian railways, viz.: Grand Trunk, Canadian National and Central Ontario, run directly through Trenton, and it is expected that the Canadian Pacific Railway will within two years also touch Trenton, the surveys being now on the route.

Large Passenger and Freight Steamers ply during navigation between Hamilton and Quebec, also to United States ports, calling regularly at Trenton.

The Trent Canal System, connecting Lake Huron with Lake Ontario, has its southern outlet at Trenton, and it is expected that it will be completed and in operation within two years.

Trenton will grant reasonable concessions to industries.

Full information gladly furnished by ARTHUR JONES, Secretary Board of Trade, TRENTON [Ontario], CANADA

THE DOMINION BANK

Notice is hereby given that a dividend of three per cent. has been declared upon the Capital Stock of this institution for the quarter ending 30th June, 1911, being at the rate of twelve per cent. per annum, and that the same will be payable at the Head Office of the Bank and its Branches on and after Monday, the 3rd day of July, 1911, to shareholders of record of 20th June, 1911.

By Order of the Board, C. A. BOGERT, General Manager.

Dec.	13.20	13.20	13.20	13.20

WALL-STREET TRADING.

NEW YORK, May 24.—Interest in stocks to-day converged around the industrial sector, by reason of the unsettled conditions in the steel and iron markets. Various reports of readjustment of prices disturbed speculative sentiment and the stock market was feverish and unsettled on the splendid new crop outlook.

At the reports, due June 2, are made up to May 25, it was thought that the showing would be improved by light showers over the Canadas, and pictures of the continued dry spell in the Eastern States, the crop has made good progress and a favorable outlook is generally believed. The acreage, it is generally believed, will be the largest on record. Two doubt, continue two-sided, but we favor sales on bulges.

Liverpool Cotton Exchanges. Cotton—Spot, quiet; prices unchanged. Liverpool, 100 bales, including 100 American, 1000 American, 1000 American. Futures opened steady and closed easy.

FEATURE FOR NEXT SUNDAY. Some of the features that go to make The Toronto Sunday World the favorite week-end publication are the high-class art section, replete with human interest pictures; a comic section, printed in four colors, that is humorous without being coarse; a page of fashion hints, illustrating and describing the latest modes by the greatest living fashion artist, Lady Duff Gordon; 'Lucille' of London, Eng. Lina Cavalieri, the noted beauty, writes an interesting page of pictures with hints on beauty culture. Another feature that attracts attention is the page in four colors by eminent artists depicting in a satirical way many phases of everyday fashionable life. Local events are treated in a special four-color page by our own artist, Lou Skuce, in a manner that has made this feature probably the most popular one to the local readers. Last week it was the Woodbine race meet; others were the baseball opening and the horse show.

A page of music, artistically colored and so arranged that it can be folded to fit the piano, has proved a most acceptable feature of the paper.

Other exclusive literary features that have proved so successful in attracting readers are music notes, by Frautilia Van; Literature, Science and Education, by Donald G. French; The Open Road Towards Democracy, by Flora MacD. Denison; a sermon by Bishop R. C. Evans; The Turf, by that veteran expert on horses, H. J. P. Goddard; and the latest in Air Travel Machines, by H. J. Maclean.

The Sunday World is for sale by all newsdealers and newsboys in Canada at five cents the copy.

An Unexpected Find. The executors of the late John Woodman, who was engaged as a tax collector at Cataraugus Bridge, found that some twenty-five years ago he deposited \$1000 in a local savings bank, and that this sum and interest had not been touched.

MISSIONS IN SOUTH AMERICA

Natives show keen interest in Gospel Meetings—Says Missionaries. The annual missionary conference of the Christian Workers was continued yesterday. Mrs. John Linton of the Argentine Republic gave an eloquent and thrilling address on the work among the Indian tribes of South America. Rev. James M. Taylor spoke, picturing still more strongly the needs of the neglected continent.

Rev. Mr. Taylor was formerly a prominent evangelist of the Southern States, but for the past two years has been traveling through the West Indies and South America, holding large tent meetings, which were well attended by the native element, with the result that hundreds of converts were made. He is now devoting himself entirely to the work of world evangelism.

At the evening session Rev. Mr. Taylor gave an interesting account of his travels during the past two years, and the many little incidents were much appreciated by the crowd, more so because of the personal element in them.

The meetings will continue until May 28.

EVERYBODY WILL WANT ONE. A galaxy of King's Plate pictures showing group union portraits, unpremeditated poses, by the cosmopolitan crowd that thronged Woodbine Park on opening day, including such well-known society people as Lady Sybil Grey and party, Lady Evelyn Grey and friends, Mrs. J. J. Dixon, Mrs. Lally McCarthy, Mrs. H. H. Swaydon and group of friends, Mrs. Frederick Hammond, Mrs. Jack McDonald, Dr. Sheppard, Mayor George, Miss Le Mesurier, Mrs. Ireland, Mrs. C. J. Burns, Mrs. Parkin and Mrs. Jack Murray, Lt.-Gov. Gibson and party, and many others will appear in the Art Section of this week's Sunday World.

FOUND DEAD IN BED. John Clancy, 45 years, a tailor living at 195 West Richmond-street, was found dead in his bed at 3 o'clock yesterday morning by his wife. The body was removed to the morgue. Coroner W. A. Graham is investigating. This is the family who moved out of West Adelaide-street, the wife was notified by Mrs. Clancy as an indigent to the magistrate, with a request that he overlook one of many lapses from sobriety.

Chicago.—The market opened steady at a shade higher; prices ruled very dull but firm during the early part of the session, with a weaker tone later. The early strength was due to a trading character, which stimulated the deferred futures. The Minneapolis market turned very weak after a trading character. Reports from the northwest were of a most gloomy character. The market turned weak during the latter part of the session, prices breaking a full ten per bushel from the high point. We look for a new trade in acting conservatively until the termination of the disturbing may cooperation.

Oats—There was a same nervous bull feeling in the wheat trade during the morning as noted yesterday and as a result prices showed some reaction in the afternoon. There was a slight recovery in the wheat crop from any quarter that was not most favorable until the trade in acting conservatively until the termination of the disturbing may cooperation.

Wheat—There was a same nervous bull feeling in the wheat trade during the morning as noted yesterday and as a result prices showed some reaction in the afternoon. There was a slight recovery in the wheat crop from any quarter that was not most favorable until the trade in acting conservatively until the termination of the disturbing may cooperation.

WOULD CLOSE 20 STREETS
Winnipeg Indignant Over Application of Grand Trunk Pacific.

Winnipeg, May 24.—The Grand Trunk Pacific Railway, which runs thru the fashionable residential district of the city, with the approval of the railway commission, has applied to the city council for permission to close twenty streets there. Nothing is said about a viaduct or overhead entrance or subway, but the inference is that the company intends to lay its line on the level. The application has aroused indignation at the city hall, and it will be stubbornly resisted by some of the controllers and aldermen.

Kingston Grocer Dead. KINGSTON, May 24.—(Special)—John S. Henderson, a member of the firm of Henderson Bros., grocers, died to-day, aged 56 years. He was a son of the late Peter Henderson, George P. Henderson, K.C., Ottawa; Lawrence J. Henderson, manager Montreal Transportation Company, Montreal; Dr. Norman Henderson, London, Ont.; James R. Kingston; Thomas J. S. Hendrie, Hamilton; Mrs. Thomas Alexander, London, Ont.

Madoc Cheese Board. MADOC, May 24.—Six hundred and ninety boxes of cheese boarded; all sold at 10-1-2 cents.

TORONTO LIVE STOCK. The railways reported 63 carloads of live stock consisting of 842 cattle, 1238 hogs, 82 sheep and lambs, 182 calves and horses. The quality of cattle was generally good.

Trade was fairly active in all the different classes of live stock at about the same prices as on Tuesday.

The quality of cattle was generally good. Trade was fairly active in all the different classes of live stock at about the same prices as on Tuesday.

NEW YORK CATTLE MARKET. NEW YORK, May 24.—Beef—Receipts, 220 head. Market steady; bulls, 14 to 15c; cows, 13 to 14c; steers, 14 to 15c; calves, 15 to 16c; hogs, 14 to 15c; sheep, 14 to 15c; lambs, 15 to 16c; spring lambs, 16 to 17c.

HOGS—Receipts, 4700 head; market, quiet. 10 to 11c.

OVERSEAS CLUB BANQUET. The Empire Day banquet of the Union Jack branch of the Overseas Club took place at the St. Charles Tuesday evening. The chair was occupied by the president, R. S. Moody, who was supported by the guests of the evening, Mr. R. E. Kingsford, police magistrate of Toronto, and W. J. McWhinney, K.C. After the toast of the King had been given, Mr. Kingsford rose to reply to the toast of the "Empire."

W. J. McWhinney, K.C., who spoke for the Dominion, emphasized the fact that Canada had come to be a manufacturing country and the railways in the Dominion were the means of uniting the empire together. The politics of the United States were scathed in graft and the policy of reciprocal obligation was so far the greatest graft they had undertaken to subsidize.

R. N. Jackson of the London Mail, and Albert Chamberlain of the British Welcome League, also spoke.

Chicago Cattle. ERICKSON PERKINS & CO. to J. G. Beatty, 14 West King-street received the following at the close:
