FRIDAY MORNING JULY 18 1919

MANITOBA ISSUES VERY OPTIMISTIC GRAIN CROP REPORT

Splendid Crop of Wheat—Start Cutting This Month—Alberta Getting Rain.

Winnipeg, July 17.—Hon. V. Winkler, minister of agriculture, issued a very optimistic crop report today, which states that Manitoba farmers will soon be cutting a splendid crop of wheat, hay and other grains.

Practically all sections of Manitoba will have an excellent crop. In the Red Deer valley, the rains of the past month have drowned a small portion of the potatoes, and have flooded a small percentage of the low lands.

No place outside the Red River valley has received too much rain, and prospects are that some wheat cutting will start the latter part of July, and a general movement during the first week in August. A little rain appears here and there, but not enough to cause anxiety.

Hay prospects were never better, and the abundant pasturage is ideal for dairying and live stock raising.

Rain Aids in Alberta. Edmonton, July 17.—Pretty nearly all Alberta is getting a moistening, according to the weather reports. Rains that began in the Edmonton district in the early hours of this morning have since extended to a large area of the province and are giving a substantial improvement in the grain and green feed crops as the anticipated result.

The railway officials report good showers over most of the lines in central Alberta and in parts of the south country. The rain has apparently not yet reached the extreme east of the province, and is considerably lighter in the southern district, but is fairly general notwithstanding.

Fires in the Noddygus country west of Red Deer have practically been extinguished by a heavy four hours' rain.

HAIG APPRECIATES EFFORTS OF ALLIES

London, July 17.—Speaking in London today, on the accomplishments of the British Empire in the war, Field Marshal Haig said: "Nothing could be further from my thoughts and desires than to attempt to minimize the efforts of our allies. I have so often expressed admiration for their deeds that I trust I can say a word or two in praise of my own people without giving offense to others."

PREMIER LEAVES ON SHORT HOLIDAY

Cruising Down the Gulf—Mention Robson as Board of Commerce Chairman.

Ottawa, July 17.—Sir Robert Borden leaves Ottawa this afternoon for a couple of weeks' holiday. He will proceed to Montreal where he will take a boat this evening for a cruise down the Gulf of St. Lawrence.

It is understood that the prime minister made energetic efforts to arrange the appointments to the board of commerce before his departure, but that he was obliged to await completion of the list of members of the board.

ORDER CARS AND RAILS OFF STREETS OF TOLEDO

Railway Company Raised Fares and Put on Cent for Transfers.

Toledo, O., July 17.—Members of the city council today announced that they have ordered the removal of the Toledo railway and light company tracks and street cars from the city streets.

WHEAT FROM ARGENTINA ARRIVES IN GERMANY

Berlin, July 17.—The first cargo of Argentine wheat contracted for by the German government thru Dutch sources, has arrived at Bremen.

CANADA'S WHEAT MARKET ON EUROPEAN CONTINENT SERIOUSLY ENDANGERED

Possible American Embargo on Grain May Be Effective in Shutting Canadian Product Out of Its Natural Overseas Market.

In the question of marketing the coming wheat crop, Canada is face to face with the most serious problem of the year. In a special Ottawa article today present prospects are that Canada will have for export at least 175,000,000 bushels which should be worth \$350,000,000.

RAYNHAM'S MACHINE COMPLETELY WRECKED IN ATTEMPTING FLIGHT

Martinsyde Plane Rises Only 30 Feet Before Dashed to Earth.

St. John's Nfld., July 17.—Frederick P. Raynham failed again today to get away on an attempted transatlantic flight in his Martinsyde plane. The machine rose only thirty feet and then crashed to the ground. It was completely wrecked but neither Raynham nor his navigator, Lieut. Conrad R. Biddlecombe, was injured.

After experiencing considerable difficulty in finding a satisfactory navigator, Lieut. Biddlecombe was finally selected and came here to prepare for a second attempt. The rebuilding of the machine was completed some time ago, but adverse weather conditions repeatedly delayed the start of the proposed flight.

Plunged to Ground. In today's disastrous attempt to "hop off" the rebuilt machine made a good run of 800 yards along the ground and then flew about fifty yards at a height of about 30 feet. It then plunged to the earth and was completely buried deep in the turf.

TORONTO POLICE FORM NEW UNION

Temporary Association, Without Labor Affiliation, Pending Parliament Ruling.

Toronto's police have formed a new organization to take the place of the Toronto Policemen's Association without any outside affiliation with the Trades and Labor Congress or any other body.

Some three hundred men attended the first meeting held in the Sons of England Hall yesterday and the new association was brought about without any dissenting voices.

The acceptance of the \$1,000 offered by S. R. Parsons, one of the members of the royal commission, was deferred by the union till the next meeting. The money was his work on the commission, and he stipulated when he presented it that it was to be used for the formation of an association.

Delegates Regarding Tariff**

St. Stephen, N.B., July 17.—The Liberal convention called by Hon. W. F. Foster to elect delegates to the national convention yesterday chose Hugh M. Balkam, George M. Byron and Daniel P. Gilmour. The delegates were not instructed by the convention other than on the high cost of living and the tariff. A resolution was adopted urging the vital necessity of the immediate removal of the tariff on all necessities of life, the immediate reduction or entire removal of the tariff on all agricultural implements.

### COURT-MARTIAL FREES MOSSMAN

**Finds Him Not Guilty of  
Belgian Charge—Will  
Pay His Expenses.**

Kingston, Ont., July 17.—Ex-Gunner Mossman of Belleville, who was tried at Barriefield this morning by court-martial, was found "not guilty" of the charge of committing an assault on an officer in Belgium in November, 1913. The accused was defended by Commandant Evans of the Army and Navy Veterans; the prosecution was conducted by Major Newcombe of the headquarters staff. Lieut.-Col. Crocker was president of the court, and Lieut.-Col. Boggs acted as judge-advocate. Gunner Mossman was released and returned to his home in Belleville. He will be paid for the entire time he has been under arrest. Mossman served in France from February, 1915, until December, 1918, and was a good soldier throughout his service.

### MEN ASKED CLOSED SHOP; SO BUSINESS IS SHUT UP

Chicago, July 17.—Ten thousand employees of the McCormick reaper works of the International Harvester Company are locked out today as a result of the closing of the plant for an indefinite period due to a strike which began last Tuesday. The men, who they have not presented their demands, are said to want \$1 an hour pay, a 44-hour week and a closed shop.

"If the men want a closed shop they have it now," said Ralph G. Brooks, superintendent of the McCormick works. "They will have all the closed shop they want, for the plant is closed and is going to remain closed until the men come to work under the conditions they have just left."

### HEAVY PENALTIES FOR FOOD SPECULATORS

**French Measure Provides for  
Reduction of the Cost of  
Living.**

Paris, July 17.—The minister of justice has introduced in the chamber of deputies, the government's bill intended to reduce the cost of living, demanding its immediate adoption. The previous law against speculation included a clause by which it was to expire three months after the cessation of hostilities. In the bill this clause is now prolonged to three years and the penalties increased.

Specimens from two months to two years and a fine of from 500 to 50,000 francs. If it affects food, drinks, heat, clothes or shoes, the prison term is raised to three years and the fine to 100,000 francs.

The penalties may be further raised to five years imprisonment and 200,000 francs fine if the merchandise is not such as the accused person regularly deals in.

The posting of prices which are entered for restaurants is extended to hotels and also to rooms, heating materials, shoes and clothes. Measures will be taken to prevent the increasing of rates unduly, especially by the concealment of the fact that apartments are empty.

### THOUSAND CHILDREN TASTE SCARBORO JOYS

More than 1,000 children from the orphanages of the city enjoyed the annual outing arranged for them by the Ontario Motor League, who inaugurated the annual bright spot in the lives of the children some 13 years ago. The children were picked up in Queen's Park by 150 decorated motor cars belonging to members of the league and taken to Scarborough Beach, where the amusements were all thrown open to the children.

Over sixty gallons of milk were sent to the beach in order that the boys and girls might have plenty to drink, and after lunch the children were given ice cream cones and other dainties. The children came from the following institutions: The Protestant Orphan's Home, the West End Orphan, the Central Neighborhood House, the Jewish Mission, the Victoria Street Orphan, the East End Orphan, the Danforth Day Nursery, the Carmelite Sisters, and the Sacred Heart Orphanage.

### INDIANS ANXIOUS TO SEE PRINCE OF WALES

Indians throughout the country are generally disturbed at the rumor that the Prince of Wales will not pay a visit to their reserves and encampments, according to Omoozyok Loit, a Six Nations chief and a former lieutenant in the Forestry Corps.

The Indians wanted the prince to attend a council of chiefs where he would smoke the pipe, and where other native entertainments would be offered him.

### GOVERNMENT ALLOWS EARLY CONSTRUCTION ON HYDRO-RADIAL

#### Mayor Explains What Happened at Board of Control Tuesday.

#### GUARANTEE BONDS

#### Municipalities Concerned to Give Nothing Except Their Financial Security.

The Hydro radial agreement of 1914, carried by the ratepayers, was made by me long ago and has been amended by legislation. The agreement which I was authorized by the board of control on Tuesday to sign, is for the construction work to proceed and was asked for by the professional commission. This explanation was made yesterday by Mayor Church in reference to the meeting between the board of control and Sir Adam Beck which was held in private, and which was marked by some strong incidents.

#### No Money Spent.

The new agreement provides for a slightly increased guarantee to cover the municipalities that failed to pass bylaws and this is to be spread over the municipalities that did, including Toronto, so that the work of building the road may commence immediately. As soon as the bylaws can be re-submitted and carried in the places that failed to pass the other municipalities will be relieved of the additional guarantee. No money is spent by any of the municipalities in any event, they simply guaranteeing the bonds.

#### Authorized Construction.

The letter to the board of control from W. W. Pope, secretary of the Hydro-Electric Commission, says: "At the last session of the legislature the Hydro-Electric railway act was amended, authorizing the commission on approval by order-in-council to proceed with the construction, equipment and operation of electric railways covered by bylaws and agreements voted upon by the electors in any district, notwithstanding the failure of one or more municipalities to pass the bylaw approving of the said agreement upon the remaining municipalities included in the agreement. The passing resolutions expressing their desire to proceed with the work."

"In order that the commission may obtain authority to proceed with the work this summer, pending re-submission of bylaws to the municipalities named in the resolution, it is necessary that your municipality forthwith execute the enclosed agreement and adopt the resolution attached thereto."

#### New Agreement.

The new agreement states: "And whereas certain municipal corporations, viz. the Township of South Easthope, the Township of Etobicoke, the Township of Brampton, the Township of Nelson, the Township of Etobicoke, the Township of Waterloo, the Township of North Easthope, the Township of East Zorra, named as parties of the said agreement, have this day passed a bylaw approving of the said agreement, but the amounts for which the said municipal corporation would be liable under the said agreement do not exceed ten per cent. (10 per cent.) of the estimated cost of the construction and equipment of the railway, and it is nevertheless desirable to proceed with the undertaking."

#### Bylaw Passed.

"And whereas a bylaw to provide for the construction, equipment and operation of the railway was duly submitted to and has received the approval of the electors of the corporation, and the council of the corporation has finally passed the said bylaw, now therefore, be it resolved by the council of this municipal corporation that the said agreement be signed and affixed with the seal of the corporation in accordance with the provisions of the Hydro-Electric railway act, and that the commission be requested to proceed with the undertaking, notwithstanding any failure on the part of the municipal corporations above mentioned to pass a bylaw approving of the said agreement."

#### Declaration of Policy.

"The resolution is merely a declaration of policy as to our faith in the Hydro-Electric Commission and will enable the Hydro-Electric Commission to begin construction at once. The city cannot purchase the Metropolitan without the consent of the Hydro-Electric Power Commission of Ontario, owing to the contract we have with the commission. It is in the interest of Toronto that Sir Adam Beck give us advice, as it is largely a power matter."

#### Dewart First Real Leader, Says Ontario Legislator

Ottawa, July 17.—At a meeting of the Liberal Association here last night to appoint delegates to the national Liberal convention, A. D. Pinard, M.L.A., presided at the meeting, which was well attended, that it was after a national convention that the Liberal party came into power in 1893, a fact which he stressed as a good omen. He qualified Dewart as the first real Liberal leader that Ontario had for some time. "Rowell," he said, "played into the hands of the Tories and Proudfoot was second fiddle to Rowell."

### IN SECOND STAGE FOR KING'S PRIZE

#### Eighteen Canadians Compete —Lieut. Vincent, Hamilton, Close Up for Bronze Medal.

London, July 17.—The bronze medal for the king's prize, first stage, was won by Captain Marriott, school of musketry, after shooting off with Lieut. Vincent, Hamilton, Canada. The scores were: Marriott 4, 4; Vincent, 2, 2, 3.

Marriott has been shooting at Blisley for 20 years and took thirty-eighth place in the king's prize competition in 1901. He trained over fifty thousand recruits during the war as brigade musketry officer at Blisley. Eighteen Canadians enter the king's second stage. Alexander, Balfour, Francis, Goring, Hutchinson, Martin, Mortimer, W. Morris, Richardson, Frank Spalding, Utton, Vincent, Faulkner, Goodhouse, Hatch, McInnes, Newman and Daunt.

Excellent weather prevailed today for the second stage of the king's prize, ten shots each at 200, 300 and 600 yards. Hatch made the top Canadian score, 122, making 39 at the 200 and 600 yards and 44 at 500 yards. Mortimer made 44 at 200 and 500 and 33 at 600 yards. Vincent fell off, making 40, 32 and 33, an aggregate of 105. Francis, 33, 34 and 44—111; Goring, 37, 36, 35—111; Alexander, 40, 32, 32—105; Hutchinson, 38, 33, 37—108; Martin, 39, 34, 39—112; W. Morris, 41, 41, 34—116; Richardson, 37, 35, 31—103; F. Spalding, 40, 37, 40—117; Utton, 30, 40, 41—111; Faulkner, 31, 32, 31—94; Goodhouse, 30, 32, 34—96; Hatch, 38, 34, 43—115; McInnes, 37, 37, 44—118; Newman, 41, 39, 30—110; Daunt, 39, 42, 32—113.

### RECRUITING GOOD FOR REGULAR BRITISH ARMY

London, July 17.—Winston Churchill, in a memorandum on the strength of the army, says recruiting for the regular army is proceeding satisfactorily, 200,000 voluntary recruits having already been obtained. If the present rate of enlistment is maintained the probability is that all men who actually fought in the war will be re-enlisted before April 30 next.

Since the armistice nearly three millions have been demobilized, the aggregate remaining on the strength, including volunteer regulars, being 1,200,000. By the end of the year this figure will be reduced by about one-half, leaving approximately 600,000 men under arms.

For the present no reduction can be made in the strength of the armistice in the middle east, including Egypt and India. It is hoped, however, that all demobilized men in India will be replaced by regulars by the end of the year. In the case of the middle east it will be necessary to effect relief by sending drafts released from the armies of occupation. These drafts will in turn be relieved by regular troops as soon as they are available.

WON ROYAL RED CROSS Special to The Toronto World. Belleville, July 17.—Nursing Sister Stella Jenkins of this city has arrived home from overseas. For acts of heroism she was presented with the Royal Red Cross at Buckingham Palace by the King, and also mentioned in despatches by Sir Douglas Haig.

### TO USE MANY TITLES IN ADDRESSING PRINCE

Ottawa, July 17.—It is officially announced that addresses for presentation to his royal highness the Prince of Wales during his visit to Canada should begin as follows: "To his royal highness Edward Albert Christian George Andrew Patrick David, Prince of Wales and Earl of Chester in the Peerage of the United Kingdom; Duke of Cornwall in the Peerage of England; Duke of Rothesay, Earl of Carrick and Baron of Renfrew in the Peerage of Scotland; Lord of the Isles and Great Steward of Scotland, K.G., G.S.M.G., M.C., etc., etc."

"May it please your royal highness." Addresses should end as follows: "We have the honor to be, sir, Your royal highness' most obedient servants."

Drafts of addresses which should not ordinarily exceed four paragraphs in length, should be sent in not later than the first of August to the governor-general's secretary, Ottawa.

Premier Borden to Consider Call for Lumber-Price Probe Calgary, July 17.—The local contractors' association has received word from Premier Borden that he will give immediate consideration to their demand for investigation of the price of lumber. They also demand a probe of the price of linseed oil and paint.

### INDUSTRIAL CONFERENCE WILL OPEN ON SEPT. 11

Ottawa, July 17.—Although the official announcement in regard to the holding of the national conference and the matters which will be discussed at this important gathering is not yet forthcoming, it can today be definitely stated that the cabinet council has accepted the recommendation that the conference should convene on Thursday, Sept. 11.

The conference will last for several days and it is made plain that it will be attended by all the provincial premiers or their representatives. The official announcement, which will be made shortly, will cover the plan of representation at the conference, and suggestions as to the matters to be deliberated upon.

# PEACE THE WORD OF THE HOUR

The Last Chapter in the world's most gigantic tragedy has been brought to a close. Humanity and right have been once more triumphant.

How would you like to hand down to your children's children "something" to perpetuate Canada's part in the gigantic struggle for liberty—"something" in fitting commemoration of those who fought and fell—"Something" in honor of those who risked their all—"something" both beautiful and instructive—"something" which will be worth owning to-day—"something" which will be priceless when a half century shall have passed.

Such a "something" is being prepared by the United Cigar Stores, Limited, in appreciation of their customers—in honor of those who helped make possible the signing of the now famous Peace Treaty.

Don't ask what this "something" is (you will be informed later), but rest assured it will command both your admiration and respect, and you will treasure it to hand down to your posterity that they may remember you as having lived in the days when the fate of democracy hung in the balance.

IN ORDER THAT ALL OUR EMPLOYEES MAY REST AND REJOICE, EVERY "UNITED" STORE WILL BE CLOSED ALL DAY, SATURDAY, JULY 19th

#### Our Wheat Crop and Its Price.

Notwithstanding the drought in part of Alberta and Saskatchewan, we will have an average wheat crop. We will have a good crop in Ontario. We will have a lot to sell after we've provided for our own bread.

What will we get for it?

The government of the United States have fixed the price at \$2.26 a bushel at Chicago. They will have to pay that for all their farmers raise. The government is bound to make the people pay that price, plus charges, for all their own bread; and they hope to make Europe pay that price for whatever they buy in American ports.

They are, therefore, bound in self defence to keep Canadian wheat out of the States unless still higher prices prevail. They may not even want to let us export our wheat to Europe by way of American ports. They have given full power to the wheat administrator to regulate all import, and export of wheat.

The most our government will do so far is to fix a minimum price. If our government makes it \$1.75 at Port Arthur our farmers will get that figure. If there is a scarcity in Europe, especially in Britain the open market price may rise up to \$2.26 or even higher. But if we sell it to Britain we may have to sell it to them on credit, our government in the meantime finding the money to pay the farmers.

Our farmers want the government to fix the price the same as in the States. Our western grain growers are especially urgent on this point. But when they say that government should fix the price they are talking for wheat looks like protection.

But all this aside, our farmers will anxiously await the announcement from Ottawa fixing the minimum price; also any arrangement our government may make with Britain to buy our surplus wheat, which they will be disposed to do, especially if we finance it for them. And Britain will have to find the ships. Nevertheless the government of the United States may be disposed to make quite a close bargain with Britain that may not be to our advantage.

The price of wheat is therefore of some account to those of us who have wheat to sell or bread to buy.

#### Royal City Must Be Loyal.

Under the glamor of the promoter's arguments, the proposal to save Guelph a slight deficit on the civic cash lines for the few months that may elapse before the Hydro-Electric radial system is in operation, at the cost of fifty years of corporation domination of the city's development, looked gorgeous. But sober consideration by the citizens is beginning to take the sparkle out of it. Work on the Hydro radial system is to begin immediately and the Guelph lines can come under the new system on far more favorable terms than any corporation can offer, and without any risk of tying up the city for two generations to come. The Hydro system leaves control with the city. It serves service at cost, and all surpluses go to the reduction of rates. No corporation can approach such terms and the citizens know it.

The Guelph Herald writes at some length on the matter and has this to say:

It must not be forgotten that if we conclude the agreement Guelph yields control of the streets for the next twenty-five years. No matter how desirable, we cannot admit any other railway into the city, and this phase of the matter should not be lightly dismissed at a period when railway development is at the turning point in Canada. We ought to know before voting takes place what the Hydro has in mind in regard to development here, while it is true that Hydro hasn't done much for Guelph, it is also true that under public ownership we obtain some rights of control that are relinquished if the agreement now before the ratepayers of Guelph carries.

The Herald goes on to say that the matter must be considered in all its bearings, "especially as it concerns our opposition to the Hydro or public ownership."

Here, undoubtedly, is the crux of the question. The C.P.R. is in mortal antagonism to the Hydro project of networking Ontario with municipally-owned and operated radials. In that opposition it has chosen, as the C.N.R. did in the case of Hamilton, a vital spot to strike a blow which would end the Hydro radial system at the start. Guelph has pledged her word to a partnership with the other municipalities that she will see the thing through to success. That success would be impossible should Guelph prove traitor to the cause.

Ottawa has denied that the nationalization of the Grand Trunk has been abandoned, as was implied by the

speech of Mr. Guthrie. If the implication is wrong, perhaps the premises were wrong also. We can scarcely believe that such a change of front can have occurred at Ottawa since the recent promises of co-operation and assistance were given the Hydro. A similar test was imposed on the people of Hamilton, and they gave no uncertain sound of their attitude. Guelph should be equally emphatic and loyal to her own policies and interests by informing the government that public ownership under the Hydro system is the only policy that Ontario will countenance for her electrical development.

#### At the Danger Point.

To many minds the situation in Europe is much graver than at any time during the war. The relaxation of discipline, the tendency to run loose, the discrediting of so many former dignities and authorities, the discovery to the democracy of the real source of power and wealth, have all led to a situation of national and international ferment, not unlike the condition of a hive of bees when the queen has lost her life. A new leadership must be sought or developed, meanwhile all the evil ambitions of human nature are rampant.

Great strikes are pending in France and Italy. Great Britain is far from calm. Prodigious efforts are being made to acquaint the democracy with the real facts and to give the people some true knowledge of the laws of life. But for the vast mass this is vain. They do not care to know. When they know they cannot see any use in their knowledge. They live for their desires. It is the penalty for having kept the people in darkness for so long.

If this darkened element gains dominance elsewhere as it has in Russia a similar ruin may be looked for in the nations subject to such an over-throw. The hope of civilization is that the same element in every nation not yet disorganized may be able to retain its authority and guide the world into ways of peace.

It must not be forgotten that there is always enough of the rash and blinded material in any community should it gain headway to overthrow all constituted authority. Napoleon's remedy for such a condition was a "whiff of grapeshot." Such anarchy invariably leads to military despotism, and it is the radical and "progressive" forces know their business they will be satisfied with moderate measures of reform, avoid anarchical disturbances and give no cause for the restoration of autocratic rule.

#### Judge Boyd Once More.

No mere outsider knows or can understand by what influence Judge Boyd has been able to retain his position in the juvenile court. Yesterday another case of the innumerable cases that have turned up came to light. Any one of them should have been sufficient to convince Hon. I. B. Lucas that Judge Boyd was the last man in the world to handle children, but Mr. Lucas appears to be an unreliable authority in this case.

Yesterday's revelation ought to be final for Judge Boyd and the attorney-general. A policeman found a little boy wandering and weeping at midnight on the street. He explained that his father would not take him in. His father explained that he had taken him in before, and Judge Boyd fined him \$5 for doing so, and threatened him if he took him in again.

The boy had been sent to some place of correction and was away to his father. Instead of relying on the filial affection which brought him home as the redeeming trait in the boy's disposition, Judge Boyd treats it as a crime, both in the father for encouraging it and in the boy for indulging it. Mr. Squeers had many friends to stand up for him and declare that he was misunderstood, so we can understand how Judge Boyd may have his defenders, but the attorney-general of Ontario should not be among them.

#### Fixing Prices.

It will not escape notice by those suffering in Canada from the high cost of living that the British government has decided to fix prices for another year and place the population on rations. We are still laboring under the delusion here that such a course is quite impossible. At any rate the authorities tell us this, and we have not elected representatives here as they do in England who see that the interests of the people are cared for.

With the check on high prices which the British government provides there is not the same temptation to hoard away food in cold storage, which is the besetting sin of the food jobber in Canada. When prices are settled they cannot be raised higher. Consequently the food goes on the market.

To this the profiteer objects that without the stimulus of high prices the farmer will not produce. But the stimulus of high prices already exists.

#### If in Doubt, Blame the Mayor

BY IDA L. WEBSTER.

Did you ever think what a wonderful thing it would be to be the mayor of a city of half a million souls? All that is required of one is to be on the job from sunrise until sunrise; to always be on the winning horse; and to vote so that every man, woman and child in the municipality will be pleased.

Another thing, if one is to be a successful mayor, one must not dare to express one's own private opinion. Not only that, but one must be willing to allow the meetings that are attended and presided at to be as the other persons present happen to wish.

For instance, if you were the mayor and you took it unto yourself to remind the members of the board of control that they were called together ever so many days to discuss and further the interests of the citizens, and that on no account should they use that time for personal battles and differences of opinion, you would immediately become unpopular, and would undoubtedly be accused of having some other streak to try. In other words, there would be those who would claim that you were speaking out of your turn.

If all transportation questions and difficult ones are referred to the satisfaction of hundreds of people in all parts of the city you would get the blame. Any gnomes which you might have made at any time, to the effect that you would do what you could to rectify the damage, would be cast back in your face, and you might even be called a stumbling block to advancement.

Thomas L. Church, being a human, has a million faults; in election campaigns he has a million. He works early and late. He extends the glad hand to everyone who even looks as if he or she might be interested in a visit to the city of Toronto. He does favors for anyone and everyone who goes to him. In short, he would run his legs off to the knees if he thought that by doing so he could do you a good turn.

He attends more meetings than any other member of the city council, and perhaps he makes more promises than any other member. However, it must be borne in mind that Thomas is but one of many. His vote means really nothing, and it is the majority which rules.

The residents of North Toronto do his worship an injustice when they say the city has failed or worked against them. Thomas Langton Church personally would not hurt the least thing that breathes. In his private life he is more like a big, wide-hearted boy than anything else. As mayor of the city of Toronto he very naturally does not jibe with the laws of everybody, but as any man ever been able to?

Whether you consider that he is the right man for the job, or whether he is to be blamed for what he offers himself for public office, but so far as his making himself an instrument to hold back the advancement of any portion of the city it is quite ridiculous.

There is justice in all things, and in all things the devil should be given his due. Therefore, before anyone rushes to the public platform to state that Mayor Church has been a hindrance, they should think out in their own minds just how he could be such. He has but one vote, but he has a thousand "knockers."

#### WEST FAVORS PARDEE.

Editor World: Visiting in the West for a month or six weeks, and as a reader of The World when at home, I write you in order that I may give you a little information in connection with a successor to Laurier. In Regina, Winnipeg, and here, as well as in Vancouver, I found a strong feeling in favor of Frederick F. Pardee, M.P., chief whip of the Liberals in the house of commons. They are of the opinion that Pardee would unite east and west, and that his general policy would be progressive and energetic. This is given you in order that The World, as always, may be in the lead in the matter of news.

Yours sincerely,

representatives from the three provinces, also passed on the question. They do not recommend a fixed price, but are anxious to have their pound of wheat. They would have a grain board formed to market Canada's crop and such federal government financial assistance as would guarantee the full market value to the farmer.

Must Find Money. Money is the solution of the problem. Europe wants wheat, but outside a few countries wants it on credit. The United States has the wheat, the money and much shipping, but their price is fixed at \$2.25. Canada cannot give further credit in Europe, nor is it possible to borrow money in the United States to place Canada's crop in Europe when the United States wants the same market.

Clark for purchase. Clark for purchase under and one week for dissolving.

European Market in Danger. The Gazette goes on to say: The government's remedy to prevent a slump in wheat values is a minimum price. This is not a remedy but a desperate experiment. The tendency will be to make the minimum price the basis for financing, and what will inevitably follow will be that the minimum price will be the basis of the market.

Finance Seed Buying. The Alberta government will finance the purchase of fall rye seed for farmers in the drought districts and will in this way give relief under the terms and provisions of the seed grant act. This is the first definite action to be taken as a result of the cabinet conference on Wednesday and will, it is believed, contribute materially to a solution of the present difficulty.

Full rye is strongly recommended by Hon. Duncan Marshall, minister of agriculture, as means of providing a fall and spring pasture and still ensuring a crop a year later. It is well adapted to conditions such as prevail this year, and the minister considers that Alberta farmers who have lost their wheat crops, will be well advised to sow rye and thus secure a supply of green feed for their stock.

There is said to be between 10,000 and 15,000 bushels of rye in the province, which would be available for seeding purposes and the government has decided to finance purchases from that stock or from such other sources as may be found necessary, for farmers unable to make their own arrangements.

The work will be done thru the municipalities, where organized, and directly by the department of agriculture in organized districts, on substantially the same terms and conditions as the purchase of seed grain supplied last year.

Representatives of both the cartage companies and the Teamsters' Union will meet this afternoon at the office of the fair wage officer relative to the grievances of the strikers, and there is every indication that the teamsters' strike will become past history before tomorrow afternoon, after ten days' duration. REPRODUCTIONS READY OF I.O.D.E. PAINTINGS

One of the most interesting features of the Canadian National Exhibition will be a splendid collection of the war memorial paintings. These paintings, some 400 in number, have been already exhibited at the Royal Academy and also at the Anderson Galleries in New York, where they have taken the art world by storm.

It might be interesting and also timely to point out the great patriotic and educational work which is being undertaken by the I.O.D.E. in connection with the "L.O.D.E. Proctor" and the crest of the order will be stamped, on every picture.

GIRL MINOR MUST PAY FOR HER COAT

On the ground that the law does not entitle an infant to repudiate a contract which has been partly fulfilled by payments, Judge Morson in the division court yesterday gave judgment in favor of the defendant.

Dorothy Proctor, a young girl, was the plaintiff. She entered in a contract with A. J. Levitt to buy a fur coat for \$250, and after making two

payments of \$25 each, sued to recover her \$50.

When the judge learned that the girl was only earning \$87.50 a month he was astonished and remarked that girls of 15 know more nowadays than woman of 50 used to know.

ANTI-GERMAN LEAGUE APPEALS TO TRADERS

"We are going to protect Canada and Canadian industries at all costs," said J. Enoch Thompson of the British Empire Union of Canada Anti-German Trade League.

The slogan of the organization since its inception in the early part of 1915 has been "No trading or industrial relations with the Germans or Germany," and so far as the league is concerned that is still the watchword. The general policy adopted by the association has in view the protection of Canadian industries against German competition, and also aims to make an end to Teuton influence in finance, commerce and politics. Results to date show a strong anti-Hun feeling rampant among Toronto business men.

Where cases of merchants dealing in German goods are reported to the league a circular letter is sent to the merchant recommending and offering proper consideration to a denial. It is understood that a persistent offender will be boycotted by the members of the league.

Unfortunately, owing to the Canadian scheme of demobilization, all organized units have already been repatriated. Canadian soldiers still remain in this country, but while they individually represent a number of fighting units, the circumstances of their departure prevent their being given ceremonial formation.

## ANDERSON'S HITS BEAT THE SKEETERS

Single Tied Count in Ninth—  
Triple Won It in  
Twelfth.

The Leafs have reached the half-way mark. The players score twenty games to the limit to their winning streak, and yesterday was no exception. The Leafs sailed along with a one-run lead for five innings, with Herche holding the Sheets three times. He struck out like a summer star and nicked the funny man for three runs in the sixth. The Leafs got one in the ninth, tied it in the tenth, and then brought home the pork in the twelfth. It is getting rather hard on the nerves but the winning streak must go on and the game be won any old time the opportunity crops up.

At that, the Leafs only gathered in seven hits during the twelve rounds, and outside of that one hit, they had no success in clustering them. Justin twirled the last four innings, and managed to get thru the business without a couple of times, but good support was there, and nothing was dropped. Anderson and Whitman divided the swatting honors. Andy's name must come first, for he tied the score and then won the game. His lot was a triple and two singles. Whitman kicked in with a couple of doublers and a single. Eddie Onslow drove one run over and scored himself as the result of his second hit.

The game might not have gone overtime, if the Leafs had not dropped a grand opportunity in the third. Anderson opened the proceedings with a triple off one of Zellars' fast ones, but he was left stranded when nobody could produce a hit. It might be mentioned here that this same Zellars was serving up a nice assortment of souped-up slants, and he lasted for nine rounds.

Whitney opened the fourth with a pretty double, and Onslow slapped a pretty hit to centre to score him. Things went along this way until the sixth, and then the Skeeters nearly broke Herche's heart with an avalanche of hits. Whitman opened the proceedings with a sharp single and Cobb sacrificed. Herche struck a double to right, then Moore's cranked a double to right for two runs. Kane dropped a single in the same direction. The ninth saw the Leafs win, as the score stood 4 to 3.

The Skeeters tried hard, and the Leafs had to throw in a double-play in the twelfth to keep the score tied. Holden was the Leafs' first swatter in the twelfth, and Schacht, who was then tossing them up for the second time, was Anderson's first victim. He struck the first ball, and Holden crossed with the winning run, making it 4 to 3.

At Rochester (International)—Rochester made it three straight by defeating Reading 11 to 10 here yesterday in 13 innings. The locals tied the score in the ninth when they drove in five runs. Eight pitchers took part in the game. Reading using the home boys, R. H. E. Reading . . . 0 2 0 0 0 0 0 0 0 10 15 8

Batteries—Brown, Weiner, Barnhart, Kesse, Barless and Dooin; Acosta, Atchison, Clifford and O'Neill.

## GAIN HALF A GAME WHEN BIRDS DIVIDE

At Buffalo—After Wednesday's beating, Rommel asked for another chance at the Blues, setting it yesterday afternoon. The Blues winning 8 to 5. Buffalo did not get started until the game was nearly over. Newark had too good a lead to lose. Score: R. H. E. Newark . . . 2 2 0 3 0 0 1 0—3 10 1  
Buffalo . . . 0 0 1 0 0 1 2 0—5 10 1  
Batteries—Rommel, Brusy and Madden; Jordan, Ryan and Bengough.

At Binghamton—Binghamton and Baltimore battled to a draw in yesterday's double-header, the Orioles winning the first game by the score of 5 to 4, after a spirited ninth inning rally which netted the Birds five runs, while the Orioles won the second game by the score of 13 to 4. Manager Dunn occupied the mound for the Birds during the eighth inning and he was hammered for five runs.

Donovan pitched air-tight ball during the second game, while Harper weakened in the first. He pitched the Birds to walk away with the game in the eighth and ninth innings. The Birds used 13 players during the second game. Score: R. H. E. Binghamton . . . 0 0 0 0 0 1 0 0—4 11 0  
Baltimore . . . 0 0 0 0 0 0 0 0—5 11 0

### London Only Canadian To Win in Mint League

At Flint (Mint League)—Both Flint and London were stopped in the ninth double-plays, but London got over the winning run in her half. Brown doubled for Flint in the ninth, but was the victim of a double-play thru poor baserunning. The score: R. H. E. London . . . 0 0 0 1 0 0 1 0—3 10 1  
Flint . . . 1 0 1 0 0 0 0 0—5 10 1  
Batteries—Riley and Gilligan; Vass and Nichols.

At Battle Creek—One had inning was enough to defeat Hamilton, 7 to 3. Four hits, including doubles by Kaylor and Maltby, was the hero of the day. Hamilton was the hero of the day, with as much as four errors. Prior to this, Hamilton's Ocker from the box in the third inning, when doubles by O'Rourke and Zinn and a single by Donnelly let in three runs. Score: R. H. E. Hamilton . . . 0 1 2 0 0 0 0 0—7 9 0  
Battle Creek . . . 0 0 1 0 0 0 0 0—3 9 0  
Batteries—Ocker and Wittry; Ocker, Black and Heving.

At Saginaw—Owing to sloppy fielding, Saginaw needed twelve innings to bat out a victory over the Kitchener team yesterday, 6 to 5. Saginaw tied the count and drove Chant to cover in the ninth. Hits by Lipps and Allen, which went into unsanctified, accounted for the winning run. Winner pitched a five game, fanning eleven men and not allowing a earned run. Score: R. H. E. Saginaw . . . 0 2 0 0 0 0 0 0—5 10 1  
Kitchener . . . 0 0 0 0 0 0 0 0—5 10 1  
Batteries—Chaput, Sharpe and Angus; Wisner and McDaniel.

At Bay City—Bay City took both games from Brantford, by the same score, 4 to 1, neither pitcher, Walker or Gokey, being able to keep down the slugging. Outfielder Bill Whaley of the West End Y. team easily won the day, driving in three runs with his two bingles in the first game, and scoring one other himself. Score: R. H. E. Brantford . . . 0 0 0 0 0 0 0 0—1 5 1  
Bay City . . . 0 0 0 0 0 0 0 0—4 10 1  
Batteries—Walker and Carroll; Barand and Briger.

## Central Nine Points Ahead of West End In Twilight Handicap Athletic Meet

From 7 to 8:30 o'clock last night Varsity Stadium was one regular beehive of activity as far as athletic events were concerned. Some very close and exciting contests were pulled off, and the A. U. handicapper, F. Hurley, had it worked down to a fine point. The 100-metre race brought out the would-be Olympians, and it proved an exciting race. Four heats, with 37 entrants, each of whom were trying to demonstrate that the shortest distance between any two points is a straight line, and that line had to be covered in 11 seconds. How near he came to it is illustrated in Kettlewell, who did it from the 3rd yard mark in 11 seconds, while Ponton and Scholze were separated by a hair's breadth for third place, were only a foot back. The 150-metre race brought Jack Wardrop to the front, who had a 50-yard handicap on A. Scholze. The latter ran a great race and is the best 150-metre man around these parts, but he could do last night in a finish second to Wardrop, but that does not reflect on his ability, and Scholze was knocking at the door when the 100-metre race was over, and he followed Wardrop. The 400 metres was a pretty tight race. Twenty runners took the start, and the race was separated by a hair's breadth for third place, were only a foot back. St. Louis Beat New York In Seventeen Innings

At St. Louis (American)—St. Louis bunted a 7-to-6 victory over New York yesterday, after battling for 17 innings. In the seventeenth, Robertson singled, and took second when Bodie fumbled the ball. He went to third on Gallia's bunt hit, and scored on a sacrifice bunt by Mayer. New York took the lead by hitting Sothoron hard in the sixth, seventh and eighth. The Browns scored four runs off Quinn in the eighth, and Sider's home run in the ninth tied the score. From then on it was a pitchers' battle between Gallia and Thorman, both of whom started in the ninth. Score: R.H.E. St. Louis, 6; New York, 0. Gallia, 7; Thorman, 1. Gallia, 100; Thorman, 100. STREET SEES SIGNALS OF STORM

Stocks Break Violently on Rumors of Measures to Check Speculation. New York, July 17.—Stocks were strong at the opening of today's trading, making further valuable gains during the relatively dull session, but broke with considerable violence towards the close, when sharp substantial gains were recorded by net losses.

POUND STERLING RALLIES SHARPLY

Vigorous Upturn Follows Early Break to Lowest Price on Record. New York, July 17.—The exchange rate on the British sovereign after a long period of depression, today rallied sharply, reaching a level of 145 1/2, after a decline to 143 1/2.

CREDIT IN NEW YORK SOUGHT BY GERMANY

New York, July 17.—Officials of the Deutsche Bank of Berlin have started negotiations with New York banks for the establishment of credits for the benefit of German interests here. It is understood that the Deutsche Bank officials are not acting for themselves alone, but are the spokesmen for the German government and the proposed German banking "kartel" which it has suggested be formed by the various private German banks and the Reichsbank to refinance Germany.

HEALTHY SHOW IN LOCAL MARKET

Steel Stocks and Brazilian Are Easier—Contraction in Trading.

Some hesitancy was displayed in the Toronto market yesterday, and in addition to the somewhat irregular appearance given by the mixture of losses and gains, trading contracted rather sharply to slightly less than 1500 shares. New York stocks had a sinking spell in the afternoon as a result of intimations that fresh measures will be taken to curb undue speculation, and the reversal of form there naturally acted as somewhat of a damper locally.

PAPERS AND COTTONS STRONG IN MONTREAL

Trading Broadens Out Materially, and Numerous Gains Are Made. Montreal, July 17.—Dealings in Montreal stocks today broadened by upwards of 2000 shares, the aggregate of 21,400 on Wednesday. Interest was well shown throughout the list, and 58 listed securities appearing in the sales record, eleven of which either reached their best levels of the year or broke into fresh price-grounds.

BANK CLEARANCES

Toronto bank clearances this week were more than \$23,000,000 in excess of the corresponding period in 1918 and nearly \$24,000,000 over 1917. This week's clearances amounted to \$23,822,518. Two years ago they were \$22,000,000. Clearances of other cities include the following: Hamilton \$10,726,115; Toronto \$6,787,568; Windsor \$2,466,425; Bradford \$1,141,517.

ATLAS LOWER IN QUIET MARKET

Differences Within Syndicate Cause Temporary Weakness in Newly-Listed Issue.

Atlas, which began its career on the Standard Exchange under seemingly auspicious circumstances, on Wednesday, had an abrupt reversal of form yesterday. The stock, the issue price of which was 25, had closed at 27 on Wednesday, and was steady at yesterday's opening, but it soon became evident that support was lacking, and there was a decline to 25 on offerings of 100,000 shares.

IMPORTANT FIND MADE ON HOLDING

Strike in Third Enrichment in Shear Zone Shows Much Free Gold.

Special to The Toronto World. West Tree, July 16.—One of the most important strikes in the West Shining Tree gold camp was made last Monday on the now celebrated Holding property, in a round of shots between the 44 and 46-foot levels in the shaft. The ore carries all the characteristics of that of the ore body from the surface down, but the gold values run much higher, and on the hanging wall an inch of vein matter can be seen, very largely made up of free gold, besides many other showings. The entire vein runs to about a width of 12 feet, and the recent strike is in entire conformity with the independent reports of Mining Engineers Loring and Still, that at depth values would show the result of the third enrichment in the Holding. Those who are following the development at the Holding predict that the property will ultimately turn out to be one of the biggest gold mines in Canada.

SHINING TREE AREA FULL OF PROMISE

Editor of Canadian Mining Journal Gives Impressions of Visit to District. "After a second visit to Wasapika I still regard the area as one of great promise. In these words Reginald E. Hore, editor of the Canadian Mining Journal, concludes an article on the Wasapika section of West Shining Tree. Training as well as experience has fully qualified Mr. Hore to express an opinion on the merits of the camp. He describes the bodies as promising and says that the formation is favorable, and that the results so far obtained are very encouraging. Speaking of the Wasapika gold mine, Mr. Hore says: "It seems not improbable that the ore deposit will prove to be very much wider than the Ribbidge vein, and that the vein as a whole may be a line of major fracturing. This is a very good omen in several places. The Miller-Adair and Elie-Polay are spoken of as promising prospects, and there is a good chance that the G.N.O. cdfs., 4934 50, 4934 49, 4934 48, 4934 47, 4934 46, 4934 45, 4934 44, 4934 43, 4934 42, 4934 41, 4934 40, 4934 39, 4934 38, 4934 37, 4934 36, 4934 35, 4934 34, 4934 33, 4934 32, 4934 31, 4934 30, 4934 29, 4934 28, 4934 27, 4934 26, 4934 25, 4934 24, 4934 23, 4934 22, 4934 21, 4934 20, 4934 19, 4934 18, 4934 17, 4934 16, 4934 15, 4934 14, 4934 13, 4934 12, 4934 11, 4934 10, 4934 9, 4934 8, 4934 7, 4934 6, 4934 5, 4934 4, 4934 3, 4934 2, 4934 1, 4934 0.

PRICE OF SILVER

London, July 17.—Bar silver, 54 1/2 per ounce. New York, July 17.—Bar silver, 103 1/2 c.

GRANBY LABOR TROUBLES

Boston, July 17.—Continued unsettled labor conditions made it appear impossible for the management of Granby Consolidated Mining, Smelting and Power Company to pass dividends due at this time. Not only has mining labor been scarce in western Canada, but that available has not been altogether efficient.

CANADIAN KIRKLAND OPTION

Cobalt, July 17.—In connection with the Canadian Kirkland mine in the Kirkland Lake district, which property is under option to the Crown Reserve Company of Cobalt, it is learned that the option agreement contains a strike clause which has the effect of suspending the terms for the duration of the strike.

AT OXFORD-COBALT

Cobalt, July 17.—Arrangements are being made to conduct an aggressive exploration campaign on the property of the Oxford-Cobalt Company, consisting of block A-100 and 1,000, situated in the Gillies Hill.

VEINS ON WICKSTEAD

Bourke's Siding, July 17.—The force of men which B. G. Killoran has engaged in the exploration of the Wickstead property, near Bourke's Siding has succeeded in uncovering several promising veins, ranging from two to four feet in width and containing visible gold in some places.

VISIT SKEAD PROPERTY

Boston, July 17.—A number of those interested in the Crawford Stead Gold Syndicate of Chatham have just concluded a visit to their property, situated in the township of Swatara, the vice-president of the company, Harry Whitford and William Burns and his son, all of Chatham. The party included C. S. Stead. The visitors declared themselves to be well pleased with their property.
