Another Mighty Blow  
By British Expected

Signs Point to German Preparations For Further Withdrawal

Haig Pressing Them on Almost Entire Front in Hope of Delivering Shattering Attack—Italians Resuming Offensive—Russians Livelier—Is Alfonso to Lose Crown?

British troops are striking along almost the entire line they held in Northern France, not with the terrific force which marked the victories of Arras and Messines, but in a more or less tentative manner, giving weight to the belief that Field Marshal Haig is preparing to launch a mighty blow on a hitherto unprecedented scale.

The features of the fighting stand out with sharp significance; the first is the feebleness with which the Germans are reacting and the second is the surprising promptness with which Berlin admits retirements in various sectors.

The whole situation is entirely similar to that existing prior to the great "strategic retreat" of the Germans from the Somme. There is considerable evidence that Von Hindenburg is planning another great withdrawal and that Haig is pressing him at all points in the hope of delivering a shattering blow if such a second "retreat to victory" materializes.

The Italians, having successfully maintained their advance in the face of the most formidable Austrian counter attacks, are apparently preparing for a resumption of their offensive.

Vienna reports that the Italian guns have opened with the greatest violence in Carinthia, indicating that General Cadorna has chosen a new sector in which to deliver his next blow. The scene of the bombardment is some thirty miles north of Gorizia and an offensive in this region would support the reports that the Italian commander has far more ambitious plans than even the conquest of Trieste.

SPAIN'S CROWN IN DANGER

The upheaval caused by the great war, which has already dethroned two monarchs, now seems to menace the ancient crown of Spain. The utmost exertions of the Spanish censor have failed completely to suppress the reports of grave happenings in the peninsular kingdom. From what little is known the Spanish army is taking the lead in the revolutionary movement which is further accelerated by the food scarcity and industrial unrest. Rumors of revolt have been current for several months and at the end of May it was announced that the constitutional guarantees would be suspended while the government prohibited all public manifestations in respect to international questions. This was followed by an outbreak at Barcelona on June 1, the seriousness of which was indicated by the fact that the soldiers sided with the revolution and imprisoned some of their officers.

The exact part which the issues of the war play in the Spanish crisis is difficult to determine. The masses of the people have been generally credited with being strongly pro-ally in sentiment, while the aristocracy leaned toward the side of Germany.

Vienna, via London, June 16—Increased fighting on the Russian front in east Galicia and Volhynia is reported in the official statement issued by the war office on Friday. The statement follows: "In east Galicia and Volhynia there is increased Russian fighting and activities continued at several points.

"Italian theatre.—There is nothing important to report from the Isonzo army. In Carinthia the enemy artillery fire has increased in the Ploeken sector with the greatest violence. An attack upon our position at Monte Romben was repulsed. Artillery fighting on the Sette Comuni plateau has increased in violence."

French Report.

Paris, June 16.—The French repulsed several raids in the region of Hill 804 on the heights of the Meuse, last night, according to an official statement from the war office this morning.

Petrograd, June 16, via London.—The newspapers report that Admiral Madzinskii, commander of the Black Sea fleet, has left his post and returned to the Rear-Admiral Yevdjevskii, General Yudevich, commander in chief in the Caucasus, and Rear-Admiral Yevdjevskii, General Yudevich, commander in chief in the Caucasus, has been replaced by General Prjvaly. Two officers and two men of the Austrian espionage bureau have been arrested while visiting Russian lines in the guise of parliamentarians.

THREE A WEEK

British Captures of Submarines Equal Construction by Germans

New York, June 16.—Arthur H. Pollen, an English expert on naval gunnery, whose articles on Land and Water, are credited with having helped to force the re-organization of the British Admiralty, has arrived in New York to give a series of lectures on the war.

In an interview, Mr. Pollen said that the Admiralty was using every means to overcome the submarine, but whether the danger was diminishing or not would make no material difference in the final outcome.

"From what I have been told by those in a position to know," Mr. Pollen continued, "the British Admiralty has captured or sunk three German submarines a week since the beginning of February, and in one week it believes the average was one a day. The Germans are putting out three new submarines a week, which equals the destruction of the craft the British."

REMOVING THE RUINS

Edward O. Leahy, who was engaged by the city to clear away the ruins of the collapsed warehouse at West St. John, started work yesterday. He estimates that a few days will be sufficient to get the debris out of the way so that a survey of the piling supports may be made. Until this is done and the investigation shows the conditions at the bottom it will be impossible to make further progress with the preparations for rebuilding the warehouse.

GERMAN AGENTS PURCHASE CONDENSED MILK IN STATES

Washington, June 16.—That large quantities of condensed or evaporated milk have been bought by German agents and shipped to Germany through neutral ports, the Department of Commerce was informed yesterday by the war committee of the condensed milk industry.

Fearing detection if they purchased from manufacturers or jobbers, the German agents have canvassed retail stores and paid retail prices. Shipments were made to Norwegian and Danish ports, where ordinarily little American milk is bought. The milk manufacturers' war committee will seek to aid the government in preventing future shipments.

THREE MILLION PEOPLE GIVE THREE BILLION DOLLARS FOR U. S. LIBERTY LOAN BONDS

According to a report from Washington last night it was estimated that 3,000,000 people had invested in Liberty loan bonds and that the subscription might reach a total of \$2,800,000,000. New York alone gave \$1,000,000,000 of that enormous sum.

GERMAN TROOPS HEARTILY SICK OF THE FIGHTING

Admission in Anxious Statement by Major Morath

JUST HOME FROM FRONT

Noted Military Critic Makes Rather Wobbling Statement—Says it is Either Extension or Extinction for Germany

London, June 16.—The German troops in the trenches are heartily sick of the war, but believe that the military caste must continue to rule the fatherland or the empire will collapse.

This, effect, represents the opinion of Major Morath, a noted military critic who, according to a Berlin despatch, had just returned from the front and expressed his conclusions in the Deutsche Tageszeitung.

"We can only get rid of war," he writes, "if we learn from history the true lessons of this war, that is, if we develop the army which is the empire's strength. This is only possible on the tried foundations of our military foundations."

"In the view of our most intelligent leaders the great structure of our army will be extended. The army may be altered in spots but the structure must have no weak joints.

Every German soldier, he says, will be pleased at the end of this war, but he rejoices at present that there is no enemy on German soil and he demands that we must secure ourselves against such surprise attacks as was made by our enemies in 1914. Major Morath indicates that extension or extinction are the alternatives before Germany. While he predicts that the soldiers are hopeful of extension, there is an undercurrent of anxiety in his remonstrances against the liberal demands. This undercurrent tends to shed doubt upon his own assurances.

BLAMES PUBLIC FOR HIGH PRICE OF FUEL

National Defence Council Member Also Says U. S. Faces Oil Famine

Washington, June 16.—Francis S. Peabody, chairman of the coal committee of the council of national defence, told the senate public lands committee that the country was not producing oil enough to meet the requirements of the war.

"The public has gone crazy," he said, "because it is afraid it won't get coal. Everybody is bidding the other person up. If the public would leave us alone it wouldn't be long until everybody had been taken care of and there would be a drop in prices over night. But if the panic continues there will be no relief."

Mr. Peabody appeared in connection with a bill to permit the government to lease coal and oil lands.

LONDON HEARS OF UNREST IN SPAIN

Rumors of Serious Revolutionary Movement But Information Not Definite

London, June 16.—Rumors of a serious revolutionary movement in Spain are given prominence in a section of the press. There has been an almost complete absence of news from the peninsula since the appointment of the new ministry.

Rumors of something abnormal in the Spanish situation have been given prominence in the last two or three days in a small section of the press, and today several papers print articles declaring that something important is happening. One suggestion is that a movement to bring Spain into the war is materializing, but the little information available is to the effect that the crisis is purely a domestic one and largely due to the demand for reforms by the rank and file of the army.

PERSONALS

Herbert McLean, of St. George, Charlotte county, was in the city yesterday, after a visit to Digby. He returned to his home this morning.

The condition of William McConnell, who fell off the Ballast wharf on Thursday morning, is reported to be unchanged in the General Public Hospital today. Physicians say that he will recover.

The wedding of Miss Florence Collins, formerly of Lubec, Maine, but now a nurse in the Provincial Hospital, West St. John, to Pte. James W. Jordan of Minneapolis, Minn., will take place in the near future.

Mrs. I. J. D. Landry is to spend a short time at Wayside Inn, Hampton. Her daughter, Mrs. Edmund Brees, left yesterday to visit friends in Gloversville, New York.

Mrs. R. P. Sweetman arrived from Toronto yesterday on a visit to her mother, Mrs. A. Phillips, Main street.

Ottawa society news in Montreal Gazette.—Mr. and Mrs. L. V. DeBary, of Montreal, are spending a few days in town.

Me. C. B. Lockhart, Mrs. Lockhart and Miss Alice Lockhart, West St. John, left here on Wednesday on a trip to the Pacific Coast.

MILITARY NOTES

It is understood in military circles that the machine gun draft under Lieutenant J. K. Scammell will be moving long. The recruiting is about finished.

A rear party, consisting of about thirty men of the 26thth Kiltie Battalion has remained in Fredericton under Captain D. Black. There were about twenty other men left behind owing to illness.

SOMETHING TO REMEMBER AFTER THE WAR

German Blockade Of Cadiz And Huelva?

Paris Believes Germans Have Sent Fleet of Submarines There—French Transport Torpedoed

Paris, June 16.—A semi-official note says that the German submarine U-82, which was towed into Cadiz, Spain, on June 11, was operating outside that port.

On June 12, a Norwegian steamer was torpedoed off Huelva, and a Russian sailing vessel "Shchegolev" and another "Kuznetsov" were sunk in the Bay of Biscay. There were no casualties. The Annam was a vessel of 8,076 tons. She was built in 1899 in Copenhagen, and was owned in Marseilles.

transport Annam was torpedoed in the Ionian sea on June 11, while proceeding under escort. Bombs were at once thrown in the track of the submarines, which did not re-appear.

The Annam was taken in tow by one of the convoying ships, but sank in a few hours. There were no casualties. The Annam was a vessel of 8,076 tons. She was built in 1899 in Copenhagen, and was owned in Marseilles.

GERMANY NOT GETTING ALL ROUMANIAN OIL YET

Copenhagen, June 16, via London.—In contrast to the recent semi-official statement that Roumanian oil production had been resumed on a normal basis, the Berlin Voessische Zeitung says that while production has been resumed it will be some time before peace conditions are reached in the oil fields.

The question is one of high importance to Germany on account of the role which gasoline, lubricants and fuel oil play in the operations of the navy and in railroad transportation. Difficulties in both these directions have been due in no small measure to the lack of lubricants.

REPLIES FROM VON TIRPITZ AND THE FIELD MARSHALL

Copenhagen, June 16, via London.—Admiral von Tirpitz and Field Marshal Von Hindenburg have replied approvingly to telegrams of greeting from the pan-German committee for a German peace, at Esen.

Von Tirpitz replied: "The submarines will reach their goal if we at home retain our nerve."

Von Hindenburg, who misses no opportunity of answering telegrams from meetings arranged by the Junker committee, although it is openly in opposition to Chancellor Von Bethmann-Hollweg, responded with assurances that a complete victory and "a peace worthy of Germany's sacrifices and assuring the prosperity and growth of the country are within reach if the struggle is continued manfully."

The Tages Zeitung emphasizes the significance of these repeated Hindenburg responses to the manifestations of the anti-Bethmann committee by effusively thanking the field marshal for his willingness to "strengthen the will to victory of the nation by his stirring replies."

TROUBLE IN NEW YORK

Clash Follows Arrest of 25 Men Suspected of Not Having Registered

New York, June 16.—National guardsmen tried vainly for nearly two hours last night to disperse a riotous crowd which had assembled around a hall in the heart of the east side in which an anti-conscription meeting had been held earlier in the evening.

The anger of the crowd was roused because guardsmen and police had seized twenty-five men who were suspected for not having registered. A crowd of men and women surged around the hall, and troops who tried to disperse them were almost overwhelmed. The police took little part in the attempt to quell the disorders, evidently not caring to interfere with the soldiers.

Loss Of The Bremen At Last Is Admitted

Commerce Submarine Not Heard From Since Last August—Carried Valuable American Securities

London, June 16.—(New York World).—The Neuste Nachrichten of Kiel, according to the Hague correspondent of the Daily Mail at last admit the loss of the commercial submarine Bremen with its valuable cargo. The newspaper says:

"The commercial submarine Bremen left Hamburg in last August and since then unfortunately has not been heard of. She carried a large parcel of American securities. The owners of part of the shares have applied to the railways in question and have asked for duplicate shares on the ground that the Bremen had been lost with her whole cargo."

"The railway companies have made out fresh papers after the deposit of suitable guarantees by the share owners."

COBB LEAPS INTO LEAD

Georgian In Front Place As Batman For First Time Since Last August

Chicago, June 16.—For the first time since August, 1916, Ty Cobb is leading the American league in batting. Coming from behind with a rush, the Detroit star disposed Tris Speaker of Cleveland to whom he surrendered championship batting honors last season.

The Georgian's average is .388, according to unofficial figures which include games of Wednesday. Speaker is three points behind him. Cobb has driven out safe hits in forty-seven games including twelve doubles, nine triples and leading base stealer with seventeen.

Chapman, Cleveland, holds the lead in runs scored with thirty-six. Boston is showing the way in team batting with an average of .268.

Leading batters who have participated in half of their club's games are Cobb, Detroit, .388; Speaker, Cleveland, .385; Krumler, St. Louis, .383.

A single point separates Burns of New York and Roush of Cincinnati, tied a week ago for the lead in the National League. The New Yorker also is leading in runs scored, with thirty-five, and is pressing Zeider for stolen base honors, being only one behind the Chicagoan, who has twelve. Wheat of Brooklyn and Doyle of Chicago are tied for sacrifice hitting with twelve each. Hornsby of St. Louis is giving Cawath a race for home run honors. Hornsby having five and the Philadelphia star six. Philadelphia is leading in team batting with .264.

Leading batters who have participated in half of their clubs games are Burns, New York, .348; Roush, Cincinnati, .345; Jack Smith, St. Louis, .339; Cruise, St. Louis, .338.

Summer may not be coming, but the tax bills are on the way.

Of course Commodore Stewart's reference to the down of the opposition party at Fredericton was not intended as a reflection on any of the St. John members. No?

Revelations of the late government's methods of finance need not be taken as an example to be followed by private citizens. The ordinary individual would be liable to go to jail if he tried to emulate their way of doing business.

Confirmation in Cathedral; 174 RECEIVE SACRAMENT

The Sacrament of Confirmation was administered in the Cathedral this morning at seven o'clock to 174 candidates—seventy-eight boys, sixty-five girls and twenty-one adults. His Lordship Bishop LeBlanc celebrated mass, assisted by Rev. Miles P. Howland and Rev. H. L. Coughlan, after which Rev. William M. Duke, rector, gave some short instructions to the candidates. His Lordship then administered the sacrament, assisted by the priests of the Cathedral staff.

Bishop LeBlanc delivered an address to the children and adults and gave the total abstinence pledge to all those under twenty-one years.

Last evening a novena which has been proceeding in the Cathedral in honor of the Feast of the Sacred Heart, was brought to a close. Yesterday was the Feast of the Sacred Heart. Benediction was given by Rev. Miles P. Howland.

At Parker's Ridge, recently, Mrs. Susan Calhoun, widow of Joseph Calhoun, died, aged sixty-five years. She is survived by two sons and five daughters.

THE FRUIT CROP

Ottawa, June 12.—Speaking in a general way the Niagara fruit crop will not be above average, and the Ontario apple crop is certain to be light, and quite possibly of poor quality. The spring weather has been very favorable to the development of apple scab, and unless orchards have been well sprayed, the fruit will be seriously affected.

A CANADIAN GIANT.

A giant who holds the British height record for the last 120 years, is at present a patient in the National Hospital for the paralysed and Epileptic, London, where he has been accommodated in a bed improvised from two ordinary beds. His name is Frederick Kempster, and he is eight feet two inches in height and twenty-five years old, and he is suffering from giant's disease, known officially as acromegaly, or inaction of the nervous centre which controls growth. Kempster is a Canadian. He says that three of his brothers are serving with the Canadian contingent.

This is the Buckle PRESIDENT That Signifies Quality in Suspenders REFUSE IMITATIONS.

CLEVELAND EDITOR, A GERMAN, INTERNED

Von Nostitz Makes Best of Loyalty to Kaiser—Indorsed Lusitania Sinking

Cleveland, Ohio, June 16.—Walde-mar Nostitz, sixty-five years old, former editor and editorial writer of the Star and Anzeiger, and accredited by federal agents with being the personal representative of Kauffman of Dresden, Germany, principal stockholder in the paper, was arrested here and ordered interned for the remainder of the war.

The internment was brought about by the orders of President Wilson. Von Nostitz is held on the charge of being an enemy alien, but the real cause of the action is publication of articles held to be seditious. To this charge Von Nostitz added fuel when, under interrogation, he said: "I am a subject of the Kaiser. I have refused to be a subject of the United States. My allegiance is with Germany and I have written many editorials expressing my approval of the sinking of the Lusitania."

Von Nostitz resigned his post as editorial writer early in April and in May rejoined the staff as translator and proofreader. At the same time department of justice reports show a new and bitter policy of pro-Germanism began to manifest itself in the Waechter crowd upon the grass plot and tramp street. Investigations tended to prove he was really editorial head of the paper.

A MARKET SQUARE MATTER A complaint has been made to the Times that when auction sales are being conducted on Market square people crowd upon the grass plot and tramp over it to such an extent as to retard the growth and tear up the sods. A suggestion has been made that the policeman stationed at the foot of King street be instructed to keep people from destroying this property, which helps beautify this section.

SOUTHERN LEAGUE IS PROSPERING; SAYS PRESIDENT

New York, June 15.—The Southern League, the strongest of the class A minor leagues, is going to weather the storm of war taxes, bad weather and other things which have conspired to punch the minors in the nose.

In a statement today to the United Press, R. H. Baugh, president of the league, declared that, while many minor leagues are in a shaky condition, the Southern is having not only one of the most popular seasons in its history, but is playing in exceptionally fine weather.

"The minor leagues of the country," Baugh said, "which have been most affected by war conditions are those which started the season in a shaky condition. Many of these have either disbanded or have allowed some of the weaker clubs to fall out, thereby reducing the number of clubs. Such leagues have been materially affected by the season's progress. As to the Southern Association—the clubs are owned and have at their heads men of ability and high standing and started the season on a sound basis. For this season I cannot see why the success of the league should be materially affected at least this year.

"As present the race is close and interest runs high, which has kept the attendance so far above that of last year. Instead of the interest waning, it looks just at this time that it might increase. We have better players and faster ball than in previous years. This league promises to continue through the season successfully unless the war draft takes too many of our players and the war tax does not hit us too severe on the gate receipts.

FEATURE AT EMPRESS

"Crime and Punishment," Motion Picture Version of Dostoevsky's Book

The feature at the Empress Theatre is the motion picture version of Fedor Dostoevsky's celebrated book "Crime and Punishment." It is a Pathe Gold Roster play produced by the Arrow Film Corporation. The star is Derwent Hall Caine, son of Hall Caine, English author. The supporting cast includes such well known players as Marguerite Courtot, Cherryl Coleman and Sidney Bracy.

Manager Smith is justified in his statement that "Crime and Punishment" is one of the most remarkable pictures of the year. Dostoevsky's book has been translated into every language and has created a sensation in every civilized country of the globe. Chas. A. Taylor, dramatist, author and producer of "Yosemite," and others of the most successful melodramas, made the scenario. He learned what the public wanted by managing the famous Third Avenue Theatre in Seattle. There he wrote and produced many of his own plays and others, such as "Way Out West," "The Two Orphans," "Arizona."

"He said in his heart there is no God!" That is the theme of "Crime and Punishment," which made it one of the most widely discussed plays ever produced when it was presented on the stage by Richard Mansfield. So runs Rodolphe's creed in the book which was responsible for his expulsion from the university.

He kills a pawnbroker who mercilessly squeezes the penniless widows who fall into his clutches. He takes money from the safe and uses it for the needy and manages to keep the guilt from himself, but the crime is fastened on an innocent man, who, to escape further torture of a relentless third degree, confesses. Then comes Rodolphe's struggle between his conscience and his creed, and through the guidance of a girl of the streets, he rejects the faith he started, acknowledges his guilt and goes to pay the penalty.

"Crime and Punishment" will be shown tonight for the last time.

SAYS PLENTY OF COAL FOR WESTERN CANADA SOON AND CHEAPER THAN ANTHRACITE

The important announcement was made by Dr. Rutman, of the Government's Research Council to the Manufacturers' Association, meeting in Winnipeg, this week, the Western Canada will have abundance of coal within a very short time at a price about two-thirds the price of anthracite. This will be secured by a process for the treatment of lignite coal lying in such vast quantities in Western Canada, and according to figures given by Dr. Rutman, there can be turned out from Winnipeg from 100,000 to 200,000 tons daily. The whole scheme for this undertaking is necessary for a project that would provide such a boon to Western Canada, he had no uneasiness of mind, for in Winnipeg, this week, the Western Canada will have abundance of coal within a very short time at a price about two-thirds the price of anthracite. When Dees appeared at the Knapp Memorial Hospital to ask that his eyes be treated, physicians doubted the story that he had spilled a disinfectant into them accidentally. They notified the police of the West Forty-seventh street station, who began an investigation. Mrs. Allen was taken to the station to charge Dees with a felony for attempting to maim himself. Dees was removed to Bellevue Hospital, where it was said he would not lose his sight. He is 30 years old, and a shipbuilder.

### TO SAVE TROUBLE

When the housewife is preparing home made dishes with cold meat which has been left over, she tries to give a new relish to the dish by adding various kinds of spices and flavorings. How frequently the result is a failure. Just a little too much pepper and the dish is too hot, or a slight error in the mixing, and one particular flavor drowns all the others.

The wise home-cook has recently made up her mind that the ideal way of flavoring all made-up dishes, soups, etc., is to have a bottle of the real H. P. Sauce at hand, for the express purpose of enriching soups and gravies.

In each bottle there is delicious blending of the choicest Oriental fruits and spices, and pure malt vinegar; it is not beyond the mark to say that a bottle of H. P. is a crust in itself.

On a handy—that's all, and the address of the dish is assured. What trouble it saves! No wonder the best housewives always keep a bottle of H. P. Sauce handy; it is useful in so many ways. Just a few drops in the soup, or with hot or cold meat, fish or even bread and cheese, it is delicious and gives quite a new enjoyment to the meal. 4.

WOMAN SUFFRAGE

The woman suffrage bill in the legislature goes over until next week. This bill should pass. New Brunswick should not wait and be the last to grant this measure of justice to the womanhood of the province.

NEW ZEALAND CONSCRIPTION

There is a special interest just now in the compulsory service law of New Zealand, which works well and has lived down the opposition which was at first encountered. The New Zealand act is only enforced after the men have given one month in which to volunteer.

HOW TO GUARD AGAINST THIS TROUBLE

The anti-conscriptionists were encouraged by the result of the referendum in Australia to attempt organized opposition to the law, but it failed.

LIGHTER VEIN

Holdsworth Perrin, poet and critic, tossed aside with a disgusted snort, at the Players' in New York, a resume of Austria's position on the submarine question.

Barber Cured of Eczema

An ambitious colored man had quit his job and was being granted a new one with another concern, when his employer asked him if he could be ready to commence work in two weeks.

FOR "FOOD HOGS"
Some people (writes Marie Blanche in Good Health) would be a lot better for reducing their diet. Unfortunately those very people who would benefit most by restricting themselves in food are the ones who are least likely to do it. They systematically and habitually over-eat themselves. They approach food like vultures, the sort of people who like to go into a restaurant and have a rousing big "feed" and come away feeling as big as a bear. They have eaten the dining-room carpet. Devoicing all before them, they are happy only when filled to repletion. To them the overshadowing prospect of being put on rations must be a perfectly stunning calamity. Life bereft of the joys of stuffing would seem quite insup-portable. And yet rationing, whether voluntary or on compulsion, will prove their physical salvation. Luckily these ravenous people, "food hogs" as somebody has nicknamed them, are strictly in the minority, they are in fact few and far between, and there are others who act on entirely opposite lines. And why, after all, should we not be eating the bread of carefreeness? We must expect to be a little bit inconvenienced; just a trifle severe with ourselves and surely in a very real sense unselfish if we are to prove by our actions, not only by words, that we are willing to do our duty, one "bit" in this history-making year.

Young Men's Suits Ready Tailored

It takes expert tailoring and cutting to mold suits to fit young men as they want to be fitted nowadays. There must be lots of snappy style, and the fit must be perfection.

All this the makers of our young men's suits, overcoats and trousers have accomplished.

We recommend the \$20, \$22.10 and \$25 lines, though we have them priced as low as \$12.60 and as high as \$32.

Yours for fit or no sale.

HIGH-COST-OF-LIVING TALK

NO. 3. SUGGESTIONS IN BUYING CHILDREN'S SHOES:

- 1. Save all the children's shoes for outdoor wear while shoe prices are so high. 2. Let them wear moccasins or felt-slippers in the house while shoe prices are so high. 3. While tan shoes are so very expensive, buy black instead--better still. BUY CLOTH-TOP BOOTS and help keep the cost of leather down. 4. Instead of white buckskin, buy white canvas if you want to get around the high cost of shoes. 5. White canvas is as dressy, even more hygienic, and costs less. 6. When warm weather comes, buy Ankle Ties, Strap Pumps, Barfoot Sandals and Sneakers. Thus save money by not using Boots in the summer months. 7. Buy our Crosby Solid Leather Boots for everyday wear.

SUGGESTIONS IN GENERAL

Be Moderate in Your Demands If a great number of customers want any one style, that style will become higher in cost. And the more people want them, the higher they will cost. This applies particularly to fancy colored leathers, very high cut boots, buckskins and shoes with covered heels.

High-Cost-of-Living Talk, No. 4, will appear in this space next Saturday.

How to Look Years Less Than Your Age

The most aged face will look years younger after the use of ordinary mercurochrome wax for from ten days to two weeks. This remarkable substance, because of its peculiarly absorbent power, actually moves the thin veil of faded or withered outer skin, a little at a time. Gradually the fresher, more youthful skin underneath is revealed. This absorption process being a purely hygienic one, an entirely natural complexion is acquired--quite different from the artificial complexion, which appears anything but girlish, though often bearing painful evidence of disfigurement.

THE EVENING TIMES AND STAK, ST. JOHN, N. B. SATURDAY, JUNE 16, 1917

**HOW TO STOP MUCH OF THE \$700,000,000 FOOD WASTE**

Garbage Pails, Careless Handling, and Improper Cooking Waste Most of it—Rats, Mice and Insects Ruin Large Quantities

Good food is wasted. If it gets into the garbage pail. If allowed to spoil in the home. If ruined by careless cooking. By careless paring and trimming. When too much is served at a meal.

Good food heedlessly thrown into garbage pails, food allowed to spoil in the household, food ruined by improper cooking, and food destroyed by rats, mice and insects constitute the heavy items in the \$700,000,000 annual waste of food in homes in the United States, cited recently by the secretary of agriculture. Seven hundred millions dollars is considered to be a conservative figure. In household waste, of course, are not included the vast losses of food allowed under improper handling or inefficient marketing methods to spoil in transit or in the hands of producers or dealers.

Much of this \$700,000,000 household waste of food, the dietary specialists of the U. S. department of agriculture declare, is easily preventable. This preventable waste consists in large part of the following items:

**Thrown Away**  
1. Edible food thrown in the garbage pail or into the kitchen sink. That vast amount of nourishing material are

thrown out from American kitchens and so made useless for human consumption, is well established by the returns from garbage and fertilizer showing the amount of fats and nitrogenous material recovered from city garbage.

Much of the food is thrown out, the specialists say, because so many people do not know how to utilize leftovers or will not take the trouble to keep and prepare them. The specialists point out that left-over cereals can be reheated or combined with fruits, meats or vegetables into appetizing side dishes; that as a thickener of soups, gravies and sauces. Stale bread can be utilized in a variety of ways, in combination with vegetables and meats and in preparing hot breads and puddings. Slim milk, too widely looked down upon as a food although it contains practically all the nourishing elements of whole milk, can be used as a beverage, in cooking cereals, or as a base for milk soups or sauces. Even sour milk, so largely thrown away, can be used in making hot breads or in the home manufacture of cottage cheese.

Every scrap of meat or fish can be combined with cereals or other foods lacking in pronounced flavor, both to give flavor and to add nourishment to made-over dishes. Every bit of fat or suet trimmed from meat before cooking or tried out in boiling, roasting, or broiling can be made useful in cooking. Many butchers, after they have weighed out meat and named the price for it, trim off valuable suet and fat. This fat which the housewife pays for, if taken home and used, would reduce expenditures for prepared cooking fats.

Water used in cooking rice and many of the vegetables contains nutrients and desirable flavoring materials valuable in soups or sauces. Too often fats and much water are poured into the sink.

Many persons regard the saving of small amounts of leftover food as unimportant. If they kept accurate account, however, for any period, the specialists say, many families would be astounded by the amount of good food they are throwing out and by the sums that they are paying to the grocer, the butcher, and milkman merely to replace good food being absolutely wasted.

**Carelessness**  
2. Spoilage of food due to careless handling and storing in the home. Important amounts of perishable foods are made dangerous or inedible in households because they are exposed unnecessarily to heat, germs, dust, dirt, or to flies and other insects.

Much milk spoils quickly because it is kept uncovered in warm kitchens. Close observance of the doctrine—"Keep

**Old Dutch**

Makes scrubbing quick and easy. Don't wear out your back and your temper. Just let Old Dutch clean your

Tile, Oil Cloth, Linoleum, Wood Floors

use when fruits and vegetables are scarce and high in price. Much food is ruined by being stored where flies or other insects or rats and mice can get at it. Much cereal food is ruined because it is not protected against weevils or other insects.

**Poor Cooking**  
3. Food spoiled by careless cooking. Many housewives who complain that children and adults will not eat breakfast cereals fail to realize that the cereals they serve are undercooked, scorched, or improperly seasoned and thus made unpalatable. Most of the cheaper foods require careful seasoning and preparation to be fully appetizing. In many households, the specialists believe, proper attention to the cooking of these cheap and desirable foods will increase greatly their consumption and thus reduce considerably the use of more expensive foods eaten instead of cereals.

Vegetables properly prepared tempt the appetite. When they are served in soggy form or in watery or poorly flavored dishes, much of them will be left on the table. The nutritive value and flavor of meat or fish can be lessened by over-cooking or improper cooking. If fish are allowed to burn even a little, they develop unpleasant flavors and usually cause people to refuse gravies and sauces made with them or foods fried in them; burned meat is also disagreeable as are burned vegetables.

4. Waste in preparation. Much useful food gets into the garbage pail because the housewife in preparing potatoes or other vegetables and fruits such as apples, cuts off with the skin a considerable percentage of edible material. Careless paring of potatoes may consign as much as 20 per cent. of the edible portion including outer layers containing valuable mineral substances to the garbage pail. Many persons are unaware that the green and tender tops of many vegetables which contain valuable mineral and other food substances, are excellent cooked as greens, or even as additions to salads.

5. Overgenerous serving of food. Many families take pride in serving lavish and overabundant meals. Such meals lead inevitably to waste of food on the table and to overeating, which often impairs health and efficiency. The same standard, "Eat enough food and no more," rigidly followed, would reduce greatly food bills in many homes and, at the same time, tend to improve the physical condition of all members of the household.

Housewives, interested in economy, who wish to be certain that their families are getting proper food and not too much, should ask the U. S. department of agriculture to send Farmers' Bulletin 508, "How to Select Foods—What the Body Needs." This bulletin classifies foods into simple household groups and shows the housewife how to plan meals that will provide for the growth and repair of the body and supply the energy the various members of the household need for their special tasks.

That form of prescription would constitute a just and adequate war policy. Let all pay in the coin they possess. That spells equality of sacrifice so far as such is practicable.

**When You Market Consider Your Less Fortunate Neighbor.**

"Every citizen who uses more in his household than his household actually needs is increasing the cost of living for those less fortunate, and he is hindering the prosecution of the war."  
—St. Thomas White, Minister of Finance.

**T**HE well-to-do woman who sits at her phone and orders provisions lavishly, regardless of price, is abusing the power of money as a bully abuses brute strength!

No longer can we help ourselves as we see fit from an unlimited food supply—we are either limiting our buying to our own real needs or "hogging" someone else's share.

Extravagant buying by those who can afford it, with waste in some kitchens, and excess at some tables, will inevitably bring still greater hardships to those who cannot afford the prices, and hunger to those who must live on less.

Buy for your household as carefully and economically as your husband buys for his factory, store or office. Study food values as well as prices—make it a point to know just what you are getting—eliminate waste—and you'll find that you can feed your family well on far less than you spend now.

Invest the saving in Canadian War Savings Certificates and you will be doubling your service to the nation.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post Offices and Banks, thus yielding over 5% interest.

**The Studebaker Car**  
What You Get for Your Money

**W**HEN you buy a Studebaker SIX, you get the best work of one of the largest automobile manufacturers in the Dominion.

You get a Canadian built car which has been perfected by four years' experience with the same basic design. Each year improvements and refinements have made it a still better car.

These improvements and refinements are based on the experience of 800,000 Studebaker cars in the hands of owners in all parts of the world.

The Studebaker SIX is not an experiment—it is an evolution.

The Studebaker SIX is made of carefully selected materials developed, perfected and tested in the great Studebaker laboratories.

The workmanship in Studebaker cars is experienced, painstaking and carefully supervised. The inspections are rigid and exacting in the extreme.

What is true of the Studebaker SIX is also true of the Studebaker FOUR. Both cars are of the same basic design. Many of their parts are interchangeable—that is why it is possible for Studebaker to offer so good a car at so low a price.

The quality of Studebaker cars is evident in their finish and equipment.

Studebaker bodies are obviously substantial in construction. The crowned fenders are of heavy gauge steel.

The paint and varnish work is excellent. The upholstery is not only genuine leather, but high grade genuine leather. The cushions are soft and comfortable. The auxiliary seats are folding armchairs. The front seats are adjustable, and the right hand one reversible.

But the real proof of quality is durability. Studebaker cars stand up and give long, continuous service under the hardest usage.

Studebaker cars are guaranteed by the manufacturer for one year against defective workmanship and material. When you buy a Studebaker you get proved quality, proved economy and the guarantee of a great Canadian manufacturer.

Let us demonstrate to you the many points of Studebaker quality and economy.

### Was Forced to Admit Charges

Former Premier Murray Had to Face Evidence

In The Legislature

No Explanation for Farm Board Transactions—Old Government Paid Interest on Overdue Accounts

Fredericton, N. B., June 15.—The budget debate is over. By arrangement between the leaders many speeches were cut off after the opposition leader finished this afternoon and moved his amendment, Hon. Mr. Robinson, in a brief, concise and masterly speech, would not the more than week's debate. The amendment was voted down by a vote of twenty-two to fifteen (several members were paired), and the motion to go into supply was carried by the vote reversed. The opposition asked in their amendment that the government explain how they proposed to raise the

extra revenue necessary and Hon. Mr. Robinson, in his remarks, told them that the government proposed to take care of part of the deficit from the old government's over-expenditure by funding it. The amount to be so funded will not include all of the deficit reported by Price, Waterhouse & Co. The premier and his colleagues are averse to adding any more to the bonded debt than can possibly be avoided because of floating indebtedness, and will keep the amount down to the lowest limit. There will be extra sources of revenue that will probably be announced early next week, and the bills brought down in the house to give the necessary authority to impose the taxes. The government strongly objects to bonding the Valley railway interest and aims to provide for it in some way that

will not place any strenuous burden upon the people. Hon. Mr. Murray was upon the defensive. He made a speech full of explanations that failed to explain. It must have been a difficult thing to acknowledge that the famous Albert county farm was only half an acre and had a mortgage on it, as E. S. Carter charged, and which Murray denied again and again, on the platform and in the Standard.

The opposition was badly shattered by Hon. Mr. Robinson when the latter read some correspondence between the late government and the Dominion Bridge Company showing that that important concern offered to give the province credit for two years, provided six per cent, was paid upon the overdue accounts. First, the province wanted the bridge company to take bonds and they were refused, and the company offered to take promissory notes. The correspondence which appears in the official report as read by Hon. Mr. Robinson, gives some idea of what kind of a business government went out of power Feb. 24.

Provincial Secretary Landry clinched the negotiations Nov. 24, 1914, when he wrote the Dominion Bridge Company: "In answer I must say that the matter of that account was considered at our last meeting on the 19th instant, and there and then we, as reported to you by the Hon. John Morrison, decided to leave the account of the province with your company open for two years, if necessary. At the same time we agreed to pay interest on that open account at the rate of six per cent, per annum." This correspondence was a bomb shell in the ranks of the opposition, many of whom could not understand how Murray and Baxter could boast so of the financial transactions of the province when they were paying six per cent, interest on overdue accounts and keeping the transactions from the public.

Hon. Mr. Murray was anxious as to what advances had been made to Valley railway officials, and in return two government men asked what advances had been made Hon. Mr. Murray in November, 1916, and what advances had been made to former Secretary Dagget from 1912 up to the time of his resignation.

**THE PROVINCIAL HOSPITAL.**

In his report to the government, for the year ending Oct. 31, 1916, Dr. J. V. Anglin, superintendent of the Provincial Hospital, says the number of patients actually in the hospital at the close of the year, that is, not taking those on leave of absence during the year was 822, the highest on record. The daily average number in residence was 641. On one day of the year under review 653 patients were under the hospital roof. The proportion of insane in confinement to the general population of the province is one in 420.

**McLEOD-TELLIER COMMISSION.**  
Montreal, June 15.—The McLeod-Tellier commission, which is investigating the complaint of Hon. Robert Rogers regarding the finding of the Galt commission in the Manitoba agricultural inquiry, have begun their sittings at the Ritz-Carlton Hotel. Chief Justice Sir Ezekiel Meleod, of New Brunswick, and Mr. Justice Louis Tellier, comprise the commission.

It is expected that for some time the commission will confine themselves to the reading of the evidence taken at the Winnipeg enquiry, with the object of finding out whether the evidence there justified the report of Mr. Justice Galt or not.

### RECENT DEATHS

**Robert Smith.**  
The death took place at Cambridge (Mass.), on Monday, of Robert Smith, a former resident of St. John. He was a son of James Smith, builder of the famous ship Marco Polo, and went to the United States many years ago and was engaged in the hardware business at

Cambridge until a short time ago. He was about eighty years of age, and his last visit to St. John was made five or six years ago. He leaves to mourn his wife, daughter of the late Colonel Tupper, of Woodstock; two sons, three daughters, Bessie, Annie and Dorothy; also two sisters, Mrs. J. L. Dunn, St. John, and Mrs. J. A. Vennig, of Sheffield.

**Mrs. William Hodd.**

The death of Mrs. Mary E. wife of William Hodd, occurred yesterday afternoon at her home, 20 Merritt street, following a long illness. She was fifty-eight years of age. Besides her husband she leaves one son, William, overseas with the 140th Battalion, and three daughters, Mrs. James Ferguson, of Fairville; Mrs. Frank Roland, of Montreal; and Mrs. John Nickerson, of this city. One brother, James Giespie, of Boston, and two sisters, Mrs. Lawrence Hieffernan and Mrs. John Buckley, both of Boston, also survive.

Frederick W. Sands of Stanley died in Victoria Public Hospital, Fredericton, on Wednesday, aged nineteen years. He was a son of Francis Sands of Stanley. Two brothers, George and Ernest, and three sisters, Elizabeth, Florence and Gertrude, survive.

At Zealand Station on last Tuesday Whitman Burt died. He is survived by two sons, Frank at home and Huddy of Bath, Me. One brother, Tyder, and one sister, Mrs. Lawson, also survive.

In Marysville on Thursday Mrs. Eliza E. Hazlewood, widow of John T. Hazlewood, died, aged eighty-seven years. She is survived by four sons, L. D. Hazlewood, of Augusta, Me.; R. B. Hazlewood, of Grafton, Me.; Joseph J. and John Hazlewood of Marysville, and two daughters, Mrs. Norman Buchanan, Auburn, Me., and Mrs. John Dougan, Portland, Me. One sister, Mrs. John Cunningham, also survives.

Mrs. H. W. Chapman of Moncton is dead aged seventy-eight years. She is survived by her husband and children, two brothers and one sister. The brothers are Howard and George Brundage, and the sister is Mrs. Thos. McSweeney, of Winnipeg. Her surviving children are Mrs. Sydney Lockhart, of Westville, N. S.; Miss Etta Chapman, Maiden Mass.; Mrs. John E. Crowe, Portland, Oregon; Mrs. I. J. Gidding and Mrs. Harry Tuttle, Moncton. One son, Harry W. Chapman, is resident at Calgary.

**WILL WORK WITH NORTHCLIFFE.**

Ottawa, June 16.—C. B. Gordon, deputy chairman of the imperial munitions board, has been selected by the British minister of munitions to act as the representative of the minister in the United States. Mr. Gordon will be attached to Lord Northcliffe's mission to the United States. This will make it necessary for Mr. Gordon to resign his present position on the munitions board, as he will have to take up his temporary residence in New York.

Mr. Gordon has rendered valuable service to the munitions board and his appointment as the representative of the British minister of munitions is regarded as an evidence of appreciation of the services he has rendered to the imperial government.

Nursing Sister Beatrice J. Wier of Doaktown, has safely arrived in England. A cablegram has been received by her parents, Dr. and Mrs. Wier.

## The Peril of the Moderate Drinker

Like the contemptible German Spy who lived upon our friendship while all the while he was stabbing in the dark, Alcohol in moderate doses is **poison**. Of course you know that the lining of your stomach is just as sensitive as the ball of your eye. Just try putting a drop of whiskey in your eyeball—keep on doing it off and on for years—think of the result!

If you want to know what is going on in the system of the moderate drinker, look at a man who is dead drunk. Scientists say the only difference is that the drunkard reaches the climax quicker than the tippler. The effects are alike; the first thing Alcohol destroys is the mental power of defence against the appetite for drink. All drunkards begin as moderate drinkers.

Above the falls of Niagara there is a point in the current where each man's strength can yet take him back to safety. Beyond that invisible point he is lost. No man knows where lies that invisible line in his make-up, where ends his ability to say, "I can't" or "I can't" stop drinking liquor.

After seventy-four years of investigation—economic, sociological, medical, ethical—the Insurance Companies ought to know. They declare that Alcohol, even in the smallest quantities, is a destructive **poison**. They turn away hundreds of thousands of dollars' worth of business on the strength of their knowledge. Taking two million policy-holders as a test they know that the teetotaler lives much longer than the moderate drinker; "the man who occasionally gets tight suffers a death rate just one-half greater than strictly temperance men. Other men who drink more than that, but still not enough to bar them from insurance, show an appalling mortality of almost double that of men who were never introduced to John Barleycorn."

Every man and woman in this province shares the responsibility for the proper enforcement of Prohibition—not the officers of the law alone. **Your duty is clear.**

LINGERING WEAKNESS FOLLOWING DISEASE

Banished by the Wonderful Tonic Powers of Dr. Williams' Pink Pills.

How often victims of disease such as grippe, fevers, or contagious troubles are left weak, ailing and despondent after the disease itself has disappeared. They do not pick up strength as they ought; remain listless tired and discouraged. The reason for this is that the blood has been impoverished by the ravage of the disease through which the victim has passed. Strength will not return until the blood has been enriched. The blood can be purified and enriched by no other medicine as quickly and as surely as by Dr. Williams' Pink Pills—to enrich the blood and strengthen the nerves is the whole mission of these pills. Thousands have found them beneficial in bringing strength and energy after disease had left them weak and run down. Miss Hannah Hamilton, Everett, Ont., says: "After an attack of la grippe I was so run down and anemic that I could scarcely walk. I had no color, no appetite, and constant headaches. The medicine I was taking was doing me no good and I had almost lost hope of getting better. I was asked to try Dr. Williams' Pink Pills, and it was not long until I could feel that they were helping me, and after taking them for a couple of months I was completely cured. I now never fail to recommend these pills to anyone needing a blood builder. You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

BATHE INTERNALLY

Over 500,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature. During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of their users, been steadily growing in favor. Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths. If you try the "J. B. L. Cascade" you will find yourself always bright, contented and capable—the poisonous waste makes us bluish, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her. Call and see it at E. Clinton Brown, Druggist, corner Union and Waterloo streets; also F. W. Munro, Dispensing Chemist, 337 Main street, St. John, or ask there for "Why Man of Today is Only 50 Per Cent. Efficient," a booklet of great interest, which is given free on request. If you prefer, write for booklet to Dr. Chas. A. Tyrrell, 163 College street, Toronto.

considered the fairest exponent of walking in the world. RING. Decisive For Flemming.

Fighting in form that he has not reached in many of his previous bouts Frankie Flemming scored a decisive victory over Eddie Wallace in a ten round bout in Montreal on Wednesday night before the members of the Canadian Hockey Club at the Gayety Theatre. Flemming assumed a comfortable lead after the fifth round and left little doubt as to the outcome of the meeting with his old time rival. Flemming showed a more finished style than Wallace and outpointed him at all styles of fighting. The fight was replete with science and thrilling rallies by Wallace, who, when he looked to be all in, would come back again and fight toe to toe with the Canadian. There was no advantage in the weight and no excuse to offer for defeat as both were trained to the minute and ready to go over even a longer route than ten rounds. For the first four rounds Wallace held his own, and the bout was an even one up to the finish of that round. In the early stages of the fifth Flemming jolted his opponent on several occasions which slowed him down and for a time took the snap out of him. The pace cut out by the fighters was an almost killing one and many looked for one or the other to crack and slow down before the limited number of rounds. They carried it through, Flemming showing the way and Wallace keeping up with him. The second round was the best of the ten and in it the fighters exchanged punches frequently until Flemming rallied and won the honors. The next two were fast but were more even. In the fourth, if there was any advantage it could have been claimed by Wallace. In the closing rounds Flemming had Wallace badly marked, while he himself had hardly a sign on him. This settles all argument as to which is the better fighter, and the Gazette says that Flemming with Kilbane out of the show would be the title-holder on his showing of Wednesday night. The semi-windup, a bout between Kid Thomas and Patsy Dillon, resulted in a draw, both boys doing the leading at times, while both were good on the defensive. In the preliminary Braton and Giroux fought a six round draw. The bouts were witnessed by one of the largest crowds that has ever attended a ring contest in Montreal.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. The city council of Peterboro, Ont., passed a resolution deciding to buy 4,000 tons each of stove and nut coal from Toronto firm that telephoned an offer to the mayor. The price will be about \$10 a ton.

was played for the benefit of the Red Cross Society. Evans' medal score for the eighteen holes was 70. Par for the course is 72, and bogey 88. Swift's score was 87. Clark made it in 76, and Sawyer had 87. The amateur record is 73, and the professional record is 78.

AT HLETIC. Goulding's Record Holds. New York, June 14.—George Bonhag, whose sensational victory in the one mile walk in the New York A. C. games ten days ago started a discussion which threatened to split amateur athletics from top to bottom, was declared last night by the registration committee of the Metropolitan Association of the A. A. U. to have competed illegally, and he was ordered to be disqualified. The prize he won awarded to H. Von Bagen, who automatically became the winner. Though it has been contended that Bonhag's performance was unfair in that, according to experts present at the meet, he did not walk in accordance with the rules, the specific charge on which he was disqualified was based on the fact that he entered the contest as a member of the New York A. C. without authority. The action of the committee in disqualifying Bonhag leaves the record for the mile walk in possession of George Goulding, of Toronto.

through an afternoon without a run. Only one club—the Browns—in the American League has surpassed this figure and they are the possessors of a record of seven shut-outs so far. The Yankees and Athletics are tied with the White Sox.

The Cleveland Indians lead in the matter of avoiding shut outs, having been led to the whitewash dip only once. In the National League the Phillies have so far escaped the brush completely.

There must be something in the Chicago air. Comiskey Park, or the way the Chicago fans cheer for Eddie Collins and Joe Jackson, American League famous sluggers, are far behind their wanted

### STAR PLAYERS WHO WANT TO ENLIST

New York, June 14—Eddie Collins, star second baseman of the Chicago White Sox, and "Chick" Gandil, first baseman of the same club, have called upon Manager Rowland to learn what their status would be if they decided to quit the game and don the army uniform. Both men expressed the keenest eagerness to go to the front, but neither wishes to cripple the Comiskey aggregation now that their prospects for a pennant look so bright.

Rowland in a talk with Collins pointed to the fact that every member of the team had waived exemption, and that Comiskey and himself were in perfect accord in the belief that every man on the White Sox payroll should be free to do his duty to his country.

It was pointed out, however, that the military authorities believe that for the present the star ball player is more valuable as a soldier, inasmuch as the desire of

marks, and were behind them when the season rasped to a close last fall. Their presence in the rut of light hitters is mainly responsible for the fact that the White Sox are not farther ahead of the procession.

In the National League the favorites in the race—the Giants—have fallen victim to r.-run heavers just once. The Braves, Dodgers and Cubs have fallen thrice each. The Cardinals have had a horse collar score on six separate occasions.

The master bakers' committee of Dublin has raised the price of bread to six-pence for a two-pound loaf.

**KILLED AT GRAND LAKE**  
A young Austrian met death at Minto on last Wednesday by shooting. He and two others went duck hunting on Grand Lake. When the other two were ashore he picked up a rifle, made towards him, the trigger struck some obstacle and the gun was discharged. The lad was only seventeen, and was killed instantly.

**NATIVE OF ST. JOHN**  
Mrs. A. E. Mathewson of Fredericton has received word of the death of her uncle, Thomas Brady, in St. Paul, Minn. He was eighty years of age and is survived by three daughters and one son. He was a native of St. John, but had lived in St. Paul for more than half a century. His wife was a sister of the late Edward Higgins of Fredericton.

**COMING TO THIS CITY**  
A Calais letter says--Frank Belyea, who has been the popular manager of the box shop connected with Ganong's candy factory in St. Stephen, will leave at an early date for St. John to take charge of a box shop to be established in connection with the Corona candy factory in that city, a branch of the St. Stephen business. The employees of the box shop as a slight token of their friendship and esteem, presented to Mr. Belyea a handsome traveling bag. Mr. and Mrs. Belyea made many friends on the border during their residence in St. Stephen, and will be followed to their new home by the best wishes of all.

**W. J. CRAWFORD'S SUMMER HOUSE IS DESTROYED; FIREBUG SUSPECTED**

The summer home of W. J. Crawford, Union street plumber, at Loch Lomond, was totally destroyed by fire last evening, with all the furniture. Mr. Crawford was notified about midnight and hurried out in a car, to find only the chimney standing. From tracks seen about the place he believes the fire was incendiary and he said this morning he would give a liberal reward for information on the subject. His loss is about \$1,400, with \$800 insurance.

**FROM KILTIES' COMMANDER**

Mrs. E. A. Young, president of the First West Side St. John's Circle, has received the following letter from the Kilties' commander:

Fredericton, N.B., June 5th, 1917.  
From O.C. 286th O.S. Battn., C.E.F.

Dear Friends:

I wish to thank you on behalf of the officers, N.C.O.'s and men of the 286th Overseas Battalion (the New Brunswick Kilties--Sir Sam's Own), C. E. F., for your thoughtfulness and kindness in contributing recent shipment of socks, which has come through through the medium of the Soldiers' Club of St. John.

We soldiers deeply appreciate any kindness of this kind, and we will carry away to France (when we go) fond recollections of those who have always had our interests at heart, and who have spent so many tedious hours contributing to our comfort.

Yours faithfully,  
P. A. GUTHRIE.

**APPOINTMENTS OF PRIESTS**

The following changes in the Diocese of St. John are announced by the New Freeman--

Rev. A. V. Landry, Middle Sackville, is appointed pastor at Cape Bauld, successor to the late Rev. F. X. Collette. He was formerly, for a time, assistant at Cape Bauld.

Rev. N. P. Landry, assistant at Buctouche, becomes parish priest at Middle Sackville.

Rev. W. Cormier, acting pastor at Cape Bauld, goes to Fox Creek, as assistant to Father Robichaud.

The changes are in effect this week.

**MONTREAL FAMILY DRUGGED; HOUSE ROBBED AS THEY SLEPT**

Montreal, June 16--A family of six persons were victims of the most desperate attempt at burglary ever perpetrated in the city and one that if carried out on a large scale, the police declare will spread terror to the inhabitants. The practice of raising windows at night time and leaving a clear way for marauders, has resulted in no fewer than ten burglaries during the last six days.

The boldness of the last attack on six persons is without parallel in the underworld of Montreal. Six people at 2202 Waverley street, consisting of Mr. and Mrs. Frank Speiglitz and their children were chloroformed by burglars, who roamed through the house at will once the drug had overcome the family. They took every article of value to be found and all the cash in a purse. The amount was placed at \$25. After tossing articles around the room the burglars threw the empty purse to the floor.

In the morning the husband and father detected a strong odor of chloroform or some other drug which he believes was used on the sleeping family. The detective department was notified. An open window off the gallery of the house was the way the night prowlers secured entrance.

**PRESENTS STARS AND STRIPES TO 236TH BATTALION**

Rousing Farewell to Kilties in Boston

EVERYBODY ENTHUSIASTIC

Will Carry American Flag in France Side By Side With the Union Jack -- Five Thousand People at Boston Meeting

Boston, Mass., June 16--Five thousand men, women and children cheered, shouted and sang farewell and God Speed to the Kilties Battalion at Mechanics Hall last night. The great hall was filled to the last chair and to the last inch of standing room. Speeches were glibly and usually not more than five minutes in length, and the speakers included Mayor Curley, General E. Leroy Sweetser, Major T. L. Hunt of the regulars, Mrs. P. F. Godenrath, "mother of the battalion," Col. Walter Scott and Lieut. Col. Percy A. Guthrie, commanding the Kilties, known in the service as the 236th Overseas Regiment.

Pipe bands skirted their way around the auditorium raising Scotch and Canadian enthusiasm. If there was anything needed to mark a climax it came when Col. Scott "chief of all the Scottish clans in America," presented to Col. Guthrie a silk American flag, the 236th will march into France flying the Stars and Stripes beside the Union Jack.

Colonel Guthrie expressed his gratitude to Boston. He said his battalion now lacked only fifty men.

**PHILIPPE HEBERT A NOTED SCULPTOR**

Sketch of Designer of Tilley Monument--He Died in Montreal This Week

A noted Canadian is dead in Montreal in the person of Philippe Hebert, sculptor.

Mr. Hebert died after an illness extending back almost to last fall, but serious only during the last two months. He was sixty-eight years of age.

He was best known in Montreal as the artist who designed the famous Maisonneuve Monument at Place d'Armes and the King Edward statue of St. Philippe. He had been awarded many titles during his distinguished career. He was a C. M. G. and a member of the R. C. A. He was a Knight of the Legion of Honor and a Knight of St. Gregoire Le Grand. He was born in Ste. Sophie d'Halifax, Megantic, and was brought up in the rude life of pioneer farming. From an early age he took great delight in following his father to the woods, especially on his hunting trips, and his childish mind toiled to the poetry of solitude, so that at the age when most boys look for companionship, he would often pass hours by himself in the forest, fascinated by the numerous churches, museums and grand monuments, which fired his imagination, and of which he took himself away to return to Canada and farming for three more years.

**His First Work**

In the autumn of 1878 he went to Montreal and exhibited a small wooden bust of the French poet Beranger, at the provincial exhibition. This piece of work attracted the attention of Napoleon Bourassa, himself an artist, who engaged young Hebert to remain with him. This was the beginning of his artistic career. He worked four years in collaboration with Mr. Bourassa at the stately and decorating of the Church of Notre Dame de Lourdes, St. Catherine street. His spare time he devoted to drawing, wood-carving, modelling and sculpture, following the courses at the "Arts and Manufactures" two evenings a week. He read extensively, going through piles of literature dealing with art in all its branches, and with the history of art, in 1880 he received his first order. This was for the carving of wooden statues for the Cathedral in Ottawa, then followed in 1882 those for the Church of Notre Dame in Montreal.

His first commission for a large monument was for the one erected to de Selabery at Chambly. Some of his other principal orders were those of Sir George Etienne Cartier, erected in parliament buildings at Ottawa; to Sir John Macdonald, Queen Victoria and Alexander Mackenzie in Parliament Square, Ottawa; Howe at Halifax to Sir Leonard Tilley in St. John, N. B.; and in Quebec, "Abenakis Indian Family," and the historical statues decorating the parliament buildings; also the Laval monument. In Montreal his works are those to Mgr. Bourget, Cremazie, Young and the well known monument in Place d'Armes Square, erected to Maisonneuve, the founder of Montreal.

The monument erected to the Canadian heroine, Madeleine de Vercheres, at the south shore of the St. Lawrence, is the spot where her heroic deed was enacted, is also the work of Hebert.

In 1879, Mr. Hebert married Miss Marie Roy, daughter of the late Thomas Roy, of Montreal, and niece of the late Victor Roy. She survives him with two daughters: Henri Hebert, A. R. C. A., a Montreal sculptor, and instructor of free-hand drawing and modelling in the Architecture Department of McGill University; and Adrien Hebert, painter, who likewise is a regular exhibitor at the Art Exhibition spring shows and the R. C. A. exhibitions. The two daughters are Miss Yvonne and Miss Pauline Hebert.

**PRESENTATION TO FREE KINDERGARTEN WORKERS**

At a committee meeting of the Free Kindergarten Association held at the home of Mrs. Forester Branscombe in Renforth last night an address was read and a presentation made to Mrs. W. C. Mathews, president of the association, who is leaving the city for Winnipeg, where she will take a position there in connection with the Methodist church. Mrs. Branscombe, who is leaving for Montreal in the near future, was also made the recipient of a present from the members of the association in which she was a zealous worker.
