QUEBEC VILLAGE PRACTICALLY WIPED OUT

\$100,000 LOSS BY BLAZE AT SAINT GAMILLE

Church, Bank, 6 Shops And 6 Houses Are Destroyed

STARTS IN GARAGE

High Wind Hampers Fire Fighters In Night Battle With Flames

Quebec, Que., Sept. 23.—The village of St. Gamille, Bellechasse County, was nearly wiped out by fire last night. The parish church, the offices of La Banque Canadienne Nationale, six stores and six private residences fell prey to the flames.

PROPERTIES BURNED

The properties affected are the church, Hotel Georges Couture, and stores owned by the following: Audet Et Fils, Phillips Poulin, Jules Rheume, Theodore Morin, Alime Lapointe, E. Bovin and the residences of Dr. Labrecque, Leo Dube, Arthur Lacroix, Richard Drouin, Ernest Blais and Wilfred Lafamme.

Smoke and flames were first seen issuing from a garage in the rear of the store owned by Audet Et Fils. An alarm was sounded on the bells of the parish church, and in a few moments, the volunteer fire fighting force of the village met at a conference.

Streams of water were directed to the flames, but a high wind which blew throughout the fire, made it necessary for the fighters to keep some distance from the burning building.

None of the occupants of the houses were in danger.

CURATE DIRECTS FIGHT

Throughout the fire Abbe Z. Raymond, curate of the parish, worked strenuously to direct the firemen at their task, and to cheer the villagers on to greater efforts.

The sacred vessels were saved and the fire was prevented from reaching the Presbytery and convent, which stands near the church.

Losses due to the fire are said to be \$100,000.

APPROVE STAND ON SECURITY POLICY

German Nationalists Indicate Intentions Not to Oppose Parley With Allies.

BERLIN, Sept. 23.—The German Nationalists have adopted a resolution of approval of the attitude of their representatives in the cabinet on the government's security pact policy.

The government's deliberations are believed now to be concluded and after a cabinet meeting today, a session with the President will be held Thursday.

The premiers of the federated states have been invited to a conference in Berlin on Friday, and a meeting of the committee on foreign affairs has been convened for that day.

ON FISHING TOUR

Fredericton Party to Explore Pools Between Woodstock and Capital.

Special to The Times-Star.

WOODSTOCK, N. B., Sept. 23.—A fishing party composed of Raymond Currie, Roland Wheeler, R. P. Allen and Edgar C. MacDonald of Fredericton arrived here last night to explore the salmon pools for fly fishing between Woodstock and Fredericton.

They started fishing at the Grafton shore, and in less than half an hour Mr. Currie hooked a salmon. The party left this afternoon.

Vermont Bans Cotton Products and Livestock

Montpelier, Vermont, Sept. 23.—An embargo against the shipment into this state from Texas, of livestock, hides, pelts, cotton, or cotton products, or any article which might convey the hoof and mouth disease, was ordered yesterday by the State Department of Agriculture.

The embargo was placed because of a recent court decision in Texas, where the hoof and mouth disease now prevails.

CAILLAUX CONFIDENT OF DEBT SETTLEMENT

Shipments by Maritime Ports Are Gaining in Favor

BY A. M. BELDING

Start representative of The Telegraph-Journal and The Evening Times-Star, who is now on an active canvass of Canadian importers and exporters in behalf of the more general use of Canadian ports.

MONTREAL, Sept. 22.—Mr. Fraser, of the great drygoods firm of Green-shields & Co., and also a director of the Bank of Montreal and the Canadian Pacific Railway, said this morning:

"I am all for Canadian ports and the C. P. R."

Mr. Fraser recalled the time when Montreal wholesalers thought it useless to send travelers to the Maritimes, and how they discovered their error. "We have no finer customers," he added, "than those in your provinces." Mr. Fraser said more in the same vein, but also added that he thought our people should be more vigorous in developing our rich resources.

Mr. Fraser, speaking for Witting Bros., Ltd., who import iron, steel and glass, said they use Canadian ports only, and he wished me all success in my work. The like was true of Lammer, Masse, Ltd., both members of the firm assuring me that they used only Canadian ports, and believed in that policy for Canada. Mr. Sutherland, of Debenham's Limited said the same regarding that great house; as did Mr. Parker for Canadian Explorers, Ltd., who added that he believed the business done through American ports was in some measure due to thoughtlessness in the matter of ordering shipments via Canadian ports, and therefore my mission should do good.

REMINDED me that he has many relatives and friends in Saint John, Fred. McBride, of The John T. McBride Co., Ltd., showed me letters of credit which stipulated shipment of goods "via Canadian ports." This included Spanish and Mediterranean goods; but he pointed out that exports from Java came via New York because of the lack of a Canadian route which would be advisable, but there is a very large trade between New York and Java.

Mr. Mason, speaking for B. & S. H. Thompson, said they used Canadian ports except for imports of cream-of-tartar from France and castor oil from Hull. These come via New York, and he added that he disliked the port because of the charges and delay. The goods are bought at C. I. F. and are routed by the shippers. It might be possible to divert this traffic to Canadian ports, via London, and a request will be made. J. J. Gately, of the C. P. R. foreign freight department, who was with me, will take the matter up with their London office.

Mr. Davies, for the Armstrong Cork & Insulator Co., Ltd., said their importations of cork from Spain come via New York. They had tried to get delivery through Canadian ports but it had not been satisfactory because of a lack of direct service. They have a center of distribution at Philadelphia for their several plants, and while for the Canadian trade they would prefer to use Canadian ports it is not at present practicable.

"I can assist you in any way, let me know," said Mr. Lamoreux, of Lamoreux, Kelly, Limited. He added that all their ocean business is done through Canadian ports. Geo. D. Ross & Co., have but a small import trade but use only Canadian ports. "We share your views," said Mr. Rinfret, of Munderloh & Co., and he paid a compliment to the service through Saint John as compared with Portland. All the firm's ocean trade is done through Canadian ports.

Readers of these letters will perceive that in Montreal the principle of Canadian trade through Canadian ports finds universal acceptance, although in some cases it has not been given as serious attention as its merits deserve. As one business man put the case: "A shipper or importer might think his small business would not count for much, but the aggregate of all the small shipments means a great deal, and our own ports should get the benefit."

LOBSTER HATCHERY IN P. E. I. DISCUSSED

Canners Section of Manufacturers' Association Meets in Charlottetown.

CHARLOTTETOWN, P. E. I., Sept. 23.—A meeting of the Canners' Section of the Canadian Manufacturers' Association was held here yesterday with Hon. Fred Massey, of Port Eln, presiding. Dr. A. G. Huntman, director of the Atlantic Station, Biological Board of Canada, spoke. The possibilities of securing for lobster hatchery purposes an area on the north shore of Prince Edward Island was discussed. The evening session opened with an informal dinner addressed by W. F. Tidmarsh, who suggested the formation of different sections of Maritime Provinces into zones to overcome local difficulties, each zone to have an executive board with the object of protecting and advancing the industry.

This suggestion was approved.

BOMB HUNT FAILS

Radio Warning From New York Causes Scare on S. S. Berengaria.

LONDON, Sept. 23.—The Daily Mail says a radio warning from the New York office of the Cunard Line caused a hasty search for a bomb on the Berengaria when the giant liner was 1,200 miles out from New York, on her way to Southampton.

All the passengers, the paper says, were ordered out for boat drill at the time the internal machine was supposed to explode. During their absence their cabins were searched, but no trace of a bomb was found.

Life Loss Believed In Prison Farm Fire

BRIDGEWATER, Mass., Sept. 23.—Fire broke at the state farm today and rapidly swept through buildings where hundreds of prisoners from all over the state are confined. Early reports indicate that there may be some loss of life. Aid was summoned from Brockton, Middleboro, Taunton and Bridgewater.

FRENCH PARTY ARRIVES AT NEW YORK TODAY

Conference at Washington Will Open Tomorrow

SPOKE IN ENGLISH

Finance Minister Refuses Answer as to His Conviction By French Court

NEW YORK, Sept. 23.—Expressing confidence that the French debt to the United States can be settled upon "the basis of peace and righteousness," Joseph Caillaux, French Finance Minister, arrived on the steamship Paris today, as the head of the French government's mission which will open negotiations with the United States debt commission in Washington tomorrow.

"I have come accompanied by eminent members of all political parties in the French parliament," he said in a prepared statement, handed to newspapermen. "To bring a settlement of all our debts. There is no instance in history in which France has failed to do so."

SEES SOLUTION

"The United States and France which have twice fought side by side on the battlefield, cannot but attain a close understanding upon the basis of peace and righteousness."

Minister Caillaux spoke excellent English and used expressive gestures in a brief talk he held with the newspapermen. When they began to bombard him with questions, however, he said:

"Don't talk so fast, and don't swallow your words. That is the trouble with many Americans, and it makes it hard for them to be understood."

REFUSES ANSWER

The minister was visibly perturbed by the first question put to him, which was as follows:

"We know you were not convicted of treason, but will you tell us just what you were convicted of?"

Caillaux threw up his hands in apparent disgust.

"I am the finance minister of my country," he declared, "and I refuse to answer such a question."

LANCASTER WORK

Highway Board Confirmed and Statement Is Made Regarding Operations

THE appointment of Hon. E. A. Reilly, K. C., minister without portfolio in the New Brunswick government, as chairman of the New Brunswick Electric Power Commission was announced this morning by Premier Baxter, following a meeting of the government here. Mr. Reilly will take up his duties at once.

The voluntary resignation of Hon. W. E. Foster as a member of the commission was received and accepted by the government at this morning's session.

Hon. P. J. Veniot and Hon. J. E. Michaud ceased to be members when the former government resigned from office and Elwood Burt resigned some days ago.

NUMBER UNDETERMINED.

Dr. Baxter said this morning that the government had not yet reached any determination as to the number of members to be on the Commission of the personnel, although the matter had been discussed informally by the executive.

The government met this morning as Commissioners of the Provincial Hospital and discussed matters of administration with the superintendent, Dr. J. V. Anglin. As a result of the conference tenders will be called for the supply of coal and bread.

The Premier said no action had been taken yet in the matter of the appointment of a chief inspector under the Prohibitory Act, but this was one of the matters which would be given early consideration by the government.

WALTER AXTELL IS FOUND NOT GUILTY

Falls Baby Case This Afternoon—True Bill Against Max Lampert.

A verdict of "not guilty" was returned this morning in the Circuit Court in the case of the King vs. Walter Axtell, charged with a statutory offence.

The evidence was concluded yesterday afternoon and the morning's proceedings were occupied with the defence, by counsel, J. Starr Tait for the Crown and William A. Ross for the defence, and Mr. Justice Byrne. The jury were out an hour and a half before bringing in their finding.

YESTERDAY AFTERNOON. The prisoner pleaded not guilty and asked for counsel. The court appointed Mr. Ross. J. Starr Tait, crown prosecutor, appeared for the prosecution.

The petit jury chosen to hear the case included John H. V. Balmain, John H. Cullinan, James K. Allison, J. Mortimer Robertson, Frederick E. Pawcett, Edward Tait, Percy E. Spear, Ralph H. Pales, Walter T. Earl, William McAllister, Alexander G. Gregory and Bernard Walker.

The witnesses heard yesterday included Mrs. Eliza Axtell, mother of the accused; Miss Annie Axtell, his sister; Joseph Axtell, brother; Mrs. Elizabeth Robichaud; the accused; Dr. C. B. Emerson.

Petit jurors not answering to their names were John B. Jones, Jr., Joseph B. Hamlin, Charles W. Earl and A. Ernest Fleming.

FALLS BABY CASE. Mr. Tait submitted an amendment to the indictment in the case of the King vs. Margaret Colpitta, charged with attempted murder, and the grand jury, after considering the new indictment and hearing the evidence, found a true bill. The new charge is the same as the former with a technical qualification. This case was to begin this afternoon.

TRUE BILL. A true bill was also found this morning in the case of the King vs. Max Lampert, charged with forgery. Mr. Justice Byrne thanked the grand jurors for their services and discharged them from further service at this court.

Predicts Calamity

SIR ARTHUR CONAN DOYLE. He is predicting a calamity which is to come upon the world shortly and last for three years. He claims to have repeated warnings from the spirit world which he is ordered to pass on. Great Britain, he says, will escape more lightly from the scourge than any other nation.

Other Engagements. Right Hon. Mr. Meighen said this morning that he planned on leaving Saint John early on Thursday for Napanea, Ont., where he is billed to speak on Friday night. He will then return to Ottawa and leave there on Saturday night on a swing throughout the western provinces that will carry him to the Pacific coast.

Speaking of his Maritime tour, which concludes with tonight's meeting, the Opposition leader said he had greatly enjoyed his stay. All told, he had addressed twelve meetings since coming east, speaking at Halifax, Chatham, Amherst, Moncton, Miramichi, New Glasgow, Reston, Chatham, Amherst, Moncton and Sussex. Hon. Mr. Meighen's voice, which was subjected to great strain at two open air meetings in Saint John, was almost fully recovered from the effects of this.

PRaises Mission. "In sending Mr. Beiding on his tour, the Telegraph-Journal is doing a great work for the extension of trade throughout Canada, and I believe a campaign being carried on by your papers will have a bearing on the results," Hon. Mr. Meighen said.

40 P. C. DUTY URGED ON FOREIGN SHIPS

Would Apply to Coasting Trade, Under Catholic Labor Body Scheme.

THREE RIVERS, P.Q., Sept. 22.—A tariff of 40 per cent. on the Canadian foreign built plying in the Canadian coastal trade, with a reduction to 20 per cent. for such vessels that are of English construction, was urged in a resolution passed unanimously by the Catholic Labor Confederation, now being here in its fourth annual congress.

The underlying principle was that such a tariff would have an effect in decreasing the unemployment in Canadian shipyards.

Old age pensions, the 48-hour week in the textile industry and the Workmen's Compensation Act were all discussed by the delegates, although in the first named, no recommendation was made, the feeling of the Congress being that the rest of the provinces were not ready to undertake the matter. Father Max Fortin estimated that at least \$28,000,000 would be required annually to liquidate the payments to persons who had attained the age of 65, as suggested in the resolution.

The 48-hour week in the textile and cotton spinning industries was unanimously recommended, its application to be directed chiefly to women and young people.

Funerals

Charles W. Marshall. The funeral of little Charles W. Marshall, son of Mr. and Mrs. James A. Marshall, of 168 Hawthorne avenue, was held last evening at the rooms of William Lawson conducting service at the home. Interment took place in Fernhill. Many pretty flowers were presented.

Mrs. Harry Knox. The body of Mrs. Harry Knox was taken to Lepreau this morning. Service was held last evening at the rooms of N. W. Brean, and Sons, with Rev. George B. MacDonald, of Victoria street Baptist church, officiating. Many lovely flowers and floral tributes were contributed.

James Brown. James N. Brown died this morning at the Home for Incurables and the services will be conducted this evening at the home by Rev. Hugh Miller, of St. David's church, the former home of Mr. Brown, where interment will take place tomorrow, with service to be conducted by Rev. Mr. Pickering of Mac's Bay. Mr. Brown had been in the Home for Incurables for five years and had been a great sufferer for several months. He leaves, besides his wife, two daughters, Mrs. Philip Anderson, of California, and Mrs. Axel Anderson, of Stockholm, Sweden, and one son, Stewart, in western Canada.

MEIGHEN WARNS NO MONEY IN INDIES PACT

Gets Copy of Treaty From Prime Minister's Train at Sussex

BAXTER SEES NEED OF HIGHER TARIFF

Senator Robertson Says Protection Would Have Kept Canadians Home

SUSSEX, Sept. 23.—Having obtained a copy of the West Indies treaty from the Prime Minister's train, which passed through here this afternoon, Right Hon. Arthur Meighen, Conservative leader, subsequently warned the Right Hon. the Maritimes Provinces not to be too optimistic about the new trade pact.

TOLD NO PROFIT IN IT

He had been informed by those who were familiar with the West Indies trade that there "was not a dollar in it" for the Maritime Provinces, he said. The Conservative leader was decided in his contention that the Government was adding to the debt of the country.

ON EFFECT OF TARIFF

He asked why, if the Government felt that the Intercolonial Railway should not be in the Canadian National system, it had not removed it during the last four years. Also he queried why had it not stopped the routing of Canadian commodities through Portland, Me., if it was opposed to this practice.

"These Maritime Provinces show the blight of the hand of this Government everywhere you look," Mr. Meighen said in discussing the effect of the tariff policy which he said had been followed by the King Government.

LEAVE FOR SAINT JOHN

Again he emphasized his belief that the adoption of a consistently protective policy would be the means of saving Canada and that a continuation of the present policy would mean industrial stagnation. He cited the prosperity which, he said, had resulted from the adoption of a protective tariff in Australia.

Other speakers were Hon. Dr. J. B. M. Baxter, Premier of New Brunswick, Senator G. D. Robertson, former Minister of Labor, and George B. Jones, nominated today as Conservative candidate in Royal.

Following his meeting here, Mr. Meighen and Senator Robertson left for Saint John where the final meeting of the Conservative leaders' Maritime campaign takes place tomorrow night.

"NOT MUCH LEFT"

Dr. Baxter was the first speaker. He said that two weeks ago "I was carrying on a campaign to get inside the Parliament building to find out how much was left of this province. Since that time, he said, he had succeeded in getting into the buildings and found that "there isn't much left."

Dr. Baxter said that he was first and foremost an advocate of rights and interests of the Maritime Provinces. If the policy of Mr. Meighen had been one which was valuable to the Maritimes or would result in injury to them, Dr. Baxter said, he would not hesitate to oppose the Conservative leader. This was not necessary, however. Mr. Meighen, in contrast to the Prime Minister, knew what Maritime rights were and was prepared to grant them.

BAXTER'S WARNING

"We may not be particularly anxious for a protective tariff down here," said Mr. Baxter, "but we realize that the great provinces of Ontario and Quebec have to bear the major portion of the load and that they need a protective barrier to assist them."

"I have come from the Fredericton treasury where holes have been bored in the floor and they have not got enough stoppers to fill them up," Dr. Baxter said. He warned his listeners that when governments, whether federal or provincial, poured out money with a reckless hand the people must pay in high taxation at some time or another.

ROBERTSON SPEAKS

Senator Robertson declared that if the Government in 1922 had increased the protection of the Dominion, Canada would have held her population. But the Government had failed to do this and the result was a great decrease in Canada's foreign trade, a falling off in immigration and an exodus of Canada's sons from their own country. Australia and New Zealand were obtaining plenty of immigrants, Senator Robertson said, but Canada was not.

COST TO CANADIANS

Senator Robertson said that the Dominion Government had become frightened some time ago at the exodus of Canadians to the United States. A couple of Government officials had been sent down to Washington to try and stop this. The result was that, effective July 1, 1924, Canadian-born citizens were required to show a passport issued by the nearest American consul. For signing his name and stamping the passport the consul charged \$10, so that the 140,000 Canadians who had crossed the line since the order went into effect contributed \$1,400,000 to United States revenue.

TRIBUTE TO BAXTER

Mr. Meighen paid a tribute to Premier Baxter as one of the most valuable men who had been on the Conservative side in Parliament. It was with reluctance that the Conservatives had released Dr. Baxter from the fed-

Sapiro Label Suit Quashed at Regina

REGINA, Sept. 23.—The libel action of Aaron Sapiro, United States co-operative marketing expert, against the Star and Phoenix, of Saskatoon, and the Leader of Regina was withdrawn from the jury by Mr. Justice MacDonald here today. The judge upheld the argument of H. J. Symington, K. C., for the defendants, that the comment in the newspaper was fair comment upon a matter of extreme public importance, and the plaintiff had failed to prove malice.

RAILWAY RATES

Mr. King was now saying that he would direct the Railway Commission to pay particular attention to railway rates in the Maritime Provinces, Mr. Meighen said. "Such an original idea might have entered his head four years ago," said Mr. Meighen.

"These Maritime Provinces show the blight of the hand of this Government everywhere you look," Mr. Meighen said in discussing the tariff. The Government was linked up with the Progressives and hoped to continue in power by this alliance. "I would like to ask Mr. King if he would dare to put up a Liberal candidate in Portage la Prairie," Mr. Meighen remarked.

ROADS POLICY BRINGS U.S. CARS

2,000,000 Autos Entered Canada in 1924, Says Convention Speaker.

\$140,000,000 to \$150,000,000 Left in Country by Visiting Tourists.

QUEBEC, Sept. 22.—Hon. P. J. Veniot, ex-Premier of New Brunswick, and President of the Canadian Good Roads Association, now holding their twelfth annual convention here, announced tonight that His Excellency, Lord Byng of Vimy, Governor-General of Canada, would attend the annual dinner here Wednesday night.

A. W. Campbell, Federal Commissioner of Highways, said that Canada's roads were not inferior to those of the United States. Touching on traffic problems, he declared that modern practice was tending to the abolition of specific speed limits, making caution and consideration of conditions the guiding rules for drivers.

Mr. Campbell's address was one of the principal features of the afternoon, his subject being "the success of federal aid to date." He said that of the \$20,000,000 grant originally provided by the Dominion government to supplement provincial expenditures on highways, about \$18,000,000 has been expended on the construction of more than 6,000 miles of a projected mileage of 8,145.

U. S. CARS INDUCED TO COME

As a result of Canada's enlightened roads policy, said Mr. Campbell, about 2,000,000 of the 17,000,000 motor cars in the United States had

entered Canada last year leaving \$140,000,000 to \$150,000,000 in the country.

S. L. Squire, deputy Minister of Highways for Ontario, explained that while more than \$300,000,000 had been spent on roads in Canada in ten years, the road systems were

Nearly all the provinces were represented at the opening session. Hon. H. Perreault, Lieutenant-Governor of Quebec, welcomed the delegates and emphasized the growing importance of roads as a factor in national development.

SPEAKS FOR P. E. I.

H. P. Shaw, Provincial Engineer of Prince Edward Island, reminded his hearers that while Quebec was the birthplace of Canada, the idea of Confederation was conceived in his own province, and he thought that the Canadians should make themselves acquainted with the "Garden of the Gulf."

entrance to the shaft, intending to jump into the elevator and stop it.

As he swung toward the opening he lost his grip on the bottom of the car and fell to the bottom of the shaft. His skull was fractured and he died before the arrival of an ambulance surgeon.

The car stopped automatically at the fifth floor and the little girl inside stepped out unhurt, unaware that the janitor had given his life in an attempt to save her.

NEW YORK, Sept. 23.—In a desperate attempt to save a nine-year-old child, daughter of a tenant in the apartment house where he was employed as a janitor, George Hall lost his life in the elevator shaft of an apartment house.

Hall was fixing the elevator, lying on the floor of the well while the car was stationary at the first floor entrance. While he was working there, Marie Mangus, who lives with her parents in apartment 42, was playing with other children in the lobby. The little girl walked into the open elevator and turned the lever that sent the car upward.

CLINGS TO CAR. Hall, thinking he could stop it, clung desperately to the underneath part of the car and was carried up four flights.

At the fourth floor he noticed the door of the elevator was open as was the door leading to the elevator shaft. He swung himself round evidently in an attempt to get a footing on the fourth floor as soon as there was sufficient space beneath the elevator floor and the

HARVARD TO TEST STUDENT WAITERS

If 35 This Year Are Successful All Dining Halls Will Follow Plan.

CAMBRIDGE, Mass., Sept. 23.—Enlargement of the opportunity for students to help pay their way through Harvard is expected to result from the plan announced to employ as an experiment this year 30 to 35 student waiters in Gore Hall, one of the freshman dormitories.

The waiters will be hired by Superintendent R. L. Westcott from candidates selected by W. W. Daly, who is in charge of student employment. The men will be paid \$8 in cash for working three days a week from 6.30 to 8.55, 11.80 to 1.30 and 5 to 7.50. They will receive their meals on the working days.

Punctuality, efficiency and willingness to "play the game" as well as general character, will be the determining factors in the choice of waiters. The new system, it is believed, should strengthen materially the spirit of companionship which is fostered by having all new men eat together in the freshman hall.

It is believed that under this plan the men can receive practically their entire board. They will also be able

to do this without hurting either their chances for satisfactory or high academic work, and at the same time will have some free time to devote to outside activities.

EYE WITNESSES TELL OF FATAL CRASH OF AUTOS

Inquest Into Death of Mrs. Harry Knox is Begun

HEARING ADJOURNS TO FRIDAY NIGHT

F. Chipman Schofield, Motorman Doucette and Others Give Evidence.

Several witnesses were heard last evening in the inquest into the death of Mrs. Lillian A. Knox, wife of Harry Knox, 81 Sewell street, who was killed on Sunday evening when she was thrown a long distance through the air in the car in which she was driving...

DIGGING FOR BOY BURIED BY LANDSLIDE

The steam shovel used to dig for the body of Thomas Zysil, 14-year-old boy of Chicago, who was buried under tons of earth, when playing in a brick clay pit. The arrow points to the spot where the body is believed to be entombed under the sticky clay. A companion similarly caught was rescued by the fire department.

The sedan passed the street car it was close to it. He believed the street car was going slowly as it was approaching the curve. DETECTIVE POWER. Sergeant Detective John E. Power told of going to the scene of the accident with Mr. Knox, Mr. Schofield, Coroner Porter and Detective Biddiscombe. They made several measurements, the results of which were as follows: From the rear of the Knox car to the front of the Schofield car, 79 feet; width of the roadway from track to ditch, 32 feet; width of macadam, 30 feet; from macadam to ditch, seven feet; track of right wheel of Schofield car to track, two feet.

In the accident was Mr. Schofield. He told them that there had been two cars, one close to the street car, and that he had tried to pass between them, the witness said. SAW CARS STRIKE. William V. Doucette, motorman on the Glen Falls car, said he had been going about 12 miles an hour. He had seen the sedan coming from the city. It was going pretty fast as it passed the door of the street car. As he turned his head he saw the two cars strike and saw Mrs. Knox thrown through the air onto the roadway. There had been a scratch made on the rear of the street car. He thought it was the Knox car that struck it. He saw only two cars.

COPP TO QUIT CABINET; DECLINES TO RUN

DR. FOSTER'S MENTIONED TO SUCCEED HIM

Question if State Secretary to Go to Senate Will be Settled Soon.

TO HOLD OFFICE UNTIL AFTER ELECTIONS

Former N. B. Premier Likely to Run in Saint John-Albert

HON. A. B. COPP yesterday announced his intention to resign as Secretary of State in the federal cabinet and declined the unanimous nomination tendered him by the Liberals of Westmorland county to contest that constituency in the election of Oct. 29.

Whether Mr. Copp will go to the Senate or remain in private practice or whether he will assume some other position within the gift of the Government will be settled within a few days.

DR. FOSTER'S STATEMENT.

When Hon. Dr. Foster returned from Ottawa two weeks ago he issued a statement regarding the reports then abroad as to his being taken into the cabinet.

Informed last evening that Mr. Copp had retired and asked whether he would assume a cabinet position, Hon. Dr. Foster replied: "As soon as there is any announcement to make I will let you know."

Mr. Foster, according to the report already referred to, is to become Secretary of State for the time being and afterwards Minister of Marine and Fisheries.

WILL BE SETTLED SOON.

"All that will be settled within the next few days," Mr. Copp continued. When asked whether Hon. Dr. W. E. Foster, of Saint John, has been selected as his successor, Mr. Copp stated that so far he had not been. He declared that he did not know whether Dr. Foster would be taken into the cabinet as a minister from New Brunswick.

RETIREMENT ANNOUNCED.

Mr. Copp announced his retirement as a candidate and his intention to retire from the Government, after he had been unanimously nominated to contest Westmorland county again in the Liberal interest at the convention in Moncton yesterday afternoon.

Declines To Run

HON. A. B. COPP. Who yesterday announced his intention of retiring as Secretary of State Mr. Copp declined Liberal nomination to run again in Westmorland.

PRESENTATION TO MINISTER

PRESENTATIONS of a purse of gold to Rev. J. W. Britton and a handsome leather purse to Mrs. Britton were made last night at a gathering of the congregation of St. Matthew's church held at the home of Mrs. W. P. Colwell, 366 Main street, when the congregation regrettably said good-bye to their minister, who is leaving on Friday for Nova Scotia to take up his duties in his new charge at Oxford, Wallace and Piquash.

The presentations were made on behalf of the congregation by Rev. R. Moorhead Legate, interim moderator, who spoke in the highest terms of the splendid service which Mr. Britton had rendered and expressed regret at his departure. Mr. Britton replied suitably. The evening was pleasantly spent, music was enjoyed and refreshments served. Rev. W. M. Townsend, of Fairville, was a special guest.

Blames Conservatives for Raising Again Conscription Issue in Quebec.

MONTEAL, Que., Sept. 23—Hon. P. J. Cardin, Minister of Marine and Fisheries, last evening gave the awaited answer of the Quebec Liberal party to the pronouncement of Hon. E. L. Patenaude at St. Laurent, on Sunday. The occasion was an address at Salisbury school, in the Liberal interests. The minister spoke for two hours and a half, and his time was chiefly occupied in replying to the statements of policy propounded by Mr. Patenaude under the sections into which the latter had divided them.

CHARGES THEFT OF TEN MILLION DOLLARS

Says This Amount Taken From Treasury for Mackenzie and Mann Road.

Mr. Cardin ridiculed the circumstances of Mr. Patenaude's re-entry to the Federal arena, characterizing him as the "new Messiah," who was to save his country from desolation. He argued that Mr. Patenaude's declaration of his independence from either Mr. Meighen or Mr. King could not be accepted, nor could it be made to agree with his statement that he was a follower of both Cartier and Macdonald, for both of these great men were Conservatives," said Mr. Cardin.

CONSCRIPTION ISSUE

Mr. Cardin blamed the Conservative party for having introduced the matter of the Conscription Act of 1917 into the present campaign and added that Mr. Patenaude's attitude at that time had shown him to be not desirous of impeding conscription.

AGAINST PULP EMBARGO.

Mr. Cardin was not in favor of an embargo on pulpwood since that would place the colonists at the mercy of Canadian industrialists by eliminating United States competition for price. He blamed the Conservatives for having "stolen from the public treasury" the sum of ten million dollars, to pay for shares and interest in a Mackenzie and Mann railroad, which was bankrupt, and said that the railways built by the Liberal administrations had been constructed when there was reason to believe that Canada was on the eve of an era of great prosperity.

Regulations For Bands Playing National Anthem Amended

Recent militia orders from Ottawa amend the former regulations regarding the playing of the national anthem, as previously authorized by the King's Regulations, and are as follows: "Whichever arrangement is used, when both arrangements are used in combination, the national anthem will invariably be rendered in the following style: The first six bars will be played pianissimo, using the full reeds, horns and basses, the whole phrase of six bars being drummed over in all parts.

On the first beat of the seventh bar, when the full band is to be employed. "The last eight bars will be played in a broad, strongly marked style, each note marcato, except in the second last bar, where there is more than one note to a syllable; these notes will be slurred. "The correct time of the first six bars is equal to M. M. 84, and that of the last eight bars is equal to M. M. 75, a slight rallentando being made in the second last bar, and also in the second last bar.

ATTACK MOTIVES BARRED

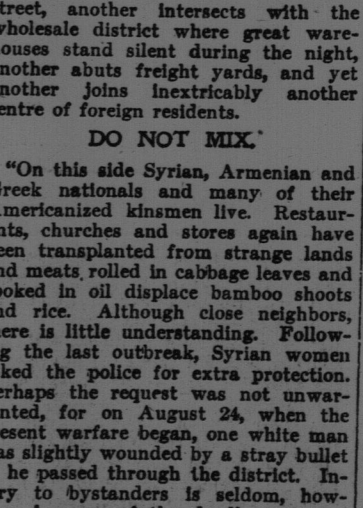

Lord Beaverbrook's attack seems to be purely personal and a vendetta against the move, while Lord Rothermere is merely backing up his own Sydney Commission which has been set up into Iraq. Their stand, however, is believed to be responsible for a good deal of Turkey's bluff, because Ankara thinks that Britain will split, whereas all sensible people realize that the future of Iraq, particularly the future of Baghdad as the great air station on the India route makes retention of the mandate a necessity.

IRAK PEOPLE FEAR TURKS

Added to this is the desire which the people of Iraq themselves have expressed that Britain should retain her mandate in the present, since they realize that if Britain will split, whereas the Turks will take the first opportunity to massacre more Christians.

Nurse Stacey's Suggestions to Middle Aged Women

A MOST trying period of a woman's life is that of middle age, fraught with danger to some extent, and invariably with most annoying symptoms, such as hot flashes, smothering spells, nervous troubles, irregularities and fainting spells.

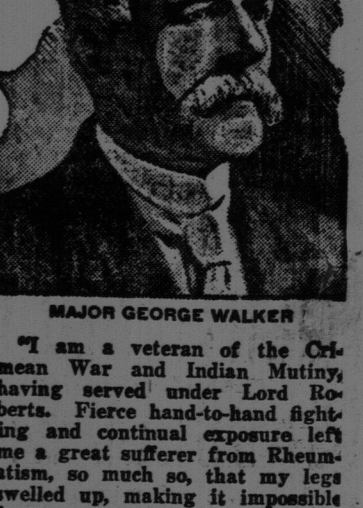

Nurse Stacey's Letter Follows:

Collingville, Illinois.—"I could almost write a book in praise of Lydia E. Pinkham's Vegetable Compound. In the first place my husband induced me to try it and I have continued taking it off and on for years. I have become a well woman from its use and am now taking it through the Change of Life just to be on the safe side. I first took it for backache and a weak condition of the whole system and I think it saved my life as my baby, she is now a mother and takes it herself and I think I can count as high as a hundred women I have way you see it for I will stand by what I write."—Mrs. H. Stacey, Collingville, Ill.

Another Woman's Similar Experience. Ingomar, N.S.—"I took your medicine for a run-down condition and inward troubles. I had pains in my right side so bad at times that I could not walk any distance. I saw about Lydia E. Pinkham's Vegetable Compound in the newspapers and have taken five bottles of it. I am better in every way and you can use my letter to help other women."—Mrs. A. M. Nurse Stacey's Suggestions to Middle Aged Women

A MOST trying period of a woman's life is that of middle age, fraught with danger to some extent, and invariably with most annoying symptoms, such as hot flashes, smothering spells, nervous troubles, irregularities and fainting spells.

Nurse Stacey's Letter Follows:

Collingville, Illinois.—"I could almost write a book in praise of Lydia E. Pinkham's Vegetable Compound. In the first place my husband induced me to try it and I have continued taking it off and on for years. I have become a well woman from its use and am now taking it through the Change of Life just to be on the safe side. I first took it for backache and a weak condition of the whole system and I think it saved my life as my baby, she is now a mother and takes it herself and I think I can count as high as a hundred women I have way you see it for I will stand by what I write."—Mrs. H. Stacey, Collingville, Ill.

Another Woman's Similar Experience. Ingomar, N.S.—"I took your medicine for a run-down condition and inward troubles. I had pains in my right side so bad at times that I could not walk any distance. I saw about Lydia E. Pinkham's Vegetable Compound in the newspapers and have taken five bottles of it. I am better in every way and you can use my letter to help other women."—Mrs. A. M. CHARGES OPPOSITION PREACHING UNTRUTH; OFFERS TO BACK IT UP

Prime Minister Speaks on Maritime Rights and Railway Situation at Moncton—Would Join Meighen in Representations Looking to Extension of Atlantic Region

MONCTON, Sept. 22—Two crowded halls greeted Premier King tonight for the last meeting of his Maritime campaign. In the last week he has rapidly traversed the three provinces by the sea.

"I have only one regret," the Prime Minister observed, "and it is that this is the last of the meetings I am to address in the Maritimes. But I go away feeling that this part of the country, which gave us such splendid support four years ago, will be again with the Government on Oct. 29."

He charged that in preaching "blue rinds" Conservatives were proceeding on the theory that "if you state an untruth often enough, people will believe it."

"That may seem strong," Mr. King pursued, "but I am prepared to back up what I say."

CHARGES UNTRUTHS. He then classified as "untrue" statements reported to have been made at Mr. Meighen's Moncton meeting yesterday.

1—That 2,000 factories had been closed in Canada since the present Government took office.

2—That we are becoming annexed to the United States by reason of the migration of Canadians south.

Mr. King quoted Dunn and Bradstreet in support of his challenge of the first statement. In reply to the second statement, he quoted American figures to support his contention that the migration of Canadians to the United States had dropped 50 per cent in the last 12 months.

The Prime Minister continued: "Mr. Meighen tells you that Moncton has been treated abominably, that the

She doctored a headache—but a Corn was to blame

A corn isn't just a local pain. The tiny nerves beneath it are on the "main trunk line," linked with all the nerve centers of the system. . . . Doctors know that a tiny lump of callus on the toe—no bigger than a match-head—may make one feel mean all over. Indigestion, a headache, depressed spirits generally, are often corn-related. . . . And Blue-jay makes a corn so needless! A cushiony pad—

as cool as velvet—fits over the corn, stopping the pain in five seconds. You wear this two days in blissful comfort. When you take it off, the corn retreats too, gently uprooted by the little brown disc of magnesia medication without a match-head—may make one feel mean all over. Indigestion, a headache, depressed spirits generally, are often corn-related. . . . And Blue-jay makes a corn so needless! A cushiony pad—

pensions restored to the strikers in accordance with the strike settlement. He told the meeting that when the Grand Trunk purchase agreement was before the House of Commons he sought to have a clause inserted which would have required the Grand Trunk to restore the pensions. "My resolution," he said, "was voted down by Mr. Meighen and his friends."

PENSIONS PAID, HE SAYS. "When we came into office," the Premier went on, "I sent word to the Grand Trunk and the Canadian National that unless we could get a settlement voluntarily, legislation would be brought down in a hurry. The result was that before we had been in office a few months every dollar owing to these men was paid."

He challenged Mr. Meighen to say that in placing the National Railways under an independent board of directors, "free from political control," the Government had been wrong.

"I don't think," Mr. King exclaimed, "that any Government in the world can itself run 21,000 miles of railway."

OFFER TO MEIGHEN. With respect to enlarging that Atlantic Region of the C. N. R. from Riviere du Loup to Montreal, Mr. King said he would be glad to submit any representations to the C. N. R. board and would be glad to have Mr. Meighen join with him in such representations. "But," he added, "I should be unfair if I did not say that it is the board in charge of the system which must in the last analysis determine whether the change is to be made or not."

DENIES STATEMENT. Mr. King denied a statement reported to have been made by Mr. Meighen that the Government had established the Crow's Nest rates.

"Mr. Meighen won't tell them that story in the West," Mr. King asserted. "But," he added, "I should be unfair if I did not say that it is the board in charge of the system which must in the last analysis determine whether the change is to be made or not."

Mr. Meighen has been in the Maritimes now for ten days discussing this treaty. Yet he says that he has never read it. But now that he has the treaty he will denounce it just the same. He will denounce it whether he has read it or not.

Premier King said further that at the Conservative meeting in Moncton yesterday effort had been made to hold Mr. Copp responsible for conditions which arose largely out of the way.

"I consider such conduct anything but chivalrous," added the Prime Minister, "anything but honest, anything but fair."

CLAIMS TRADE INCREASE. "Mr. Meighen," the Prime Minister proceeded, "asks you for his support. Yet the Government, of which he is a member, borrowed every single dollar of the cost of the war. That is the way they carried on. Yet they say taxation is high and that conditions are hard."

He contended that under the present Government trade has actually increased, quoting the following figures to show the growth of Canada's total trade: 1922-23, \$776,000,000; 1923-24, \$1,001,000,000; 1924-25, \$1,000,000,000; twelve months to the end of August, 1925, \$1,130,000,000.

Hon. Dr. Bland urged that the tariff changes effected by the Government had been beneficial to farmers and fishermen alike.

Hon. A. B. Copp said that he hoped to be able to announce within 48 hours the erection of a public building in Moncton.

Woman And 2 Girls In Canoe Missing. TORONTO, Sept. 22—Lake Ontario's waters and North Shore are being combed today in an effort to find a canoe containing a woman and two girls, who are thought to have gone paddling on the lake yesterday afternoon and have not been seen since.

Mrs. W. E. Work, aged 25, her two-year-old daughter, Phyllis, and 12-year-old Kathleen Conroy are those missing.

TIMBER PROBE ORDERED. QUEBEC, Sept. 22—The Department of Justice at Ottawa has ordered an investigation to be made by the Royal Mounted Police on the north shore of the St. Lawrence, where it has been reported that certain parties have illegally taken possession of privately owned timber limits and have stolen large quantities of pulpwood.

EMPTY BOAT SEEN AT SEA. HALIFAX, N. S., Sept. 22—An intercepted wireless message from Cape Race received here this afternoon by the Department of Marine and Fisheries, states that on September 18, an empty fishing boat was seen in latitude 42.41 north and longitude 49.18 west.

U. S. Move In Arms Meet Up To House. WASHINGTON, Sept. 22—Participation of the United States in disarmament conference plans of the League of Nations should only be undertaken if Congress authorizes it, in the judgment of President Coolidge.

WELLESLEY, Mass., Sept. 22—Attacked upon and defenses of the "dollar down and dollar a week" system of buying were heard today at the twelfth annual business conference at Babson Park, a suburb.

"If the present rate of increase of installment sales continues it will be only a short time before a housewife will order a steak on the agreement that she is to pay 10 cents a week for it," said William Nelson Taft, editor of the Retail Ledger.

"Installment purchasing is a form of saving—one is accumulating by buying on time instead of spending the cash," S. G. Rosson, vice-president of the Commercial Credit Company, assembly never see the phenomenal record.

WELLESLEY, Mass., Sept. 22—The endorsement of Hon. Vincent Massey by the Progressives of Durham, Ont., has a party significance whatever, said Robert Forke, Progressive leader, today.

Mr. Forke said the principle of the Progressive party were most closely on the subject of local autonomy, and that any unit of the party organization might take such steps as had been taken by the Progressives in Durham in supporting Mr. Massey as a Liberal, without committing the party in any way. Mr. Forke declined to comment further on the subject.

EXAM. DATES ARE SET. MONTREAL, Sept. 22—The board of directors of the General Accountants' Association have decided to hold the intermediate and final examinations on June 1 and 2. The examinations will be held concurrently in Halifax, Quebec, Montreal, Ottawa, Toronto, Hamilton, Winnipeg and other cities.

Liquor-Soaked Grain Fails To Oust Pigeons

Canadian Press Despatch. WINNIPEG, Sept. 22—Driven to desperation by the constant coming of a growing flock of pigeons, residents of the troubled neighborhood tried a novel method of getting rid of this nuisance.

They conceived the scheme of soaking wheat in alcohol and feeding the grain to the unsuspecting birds. The birds had a "glorious fling" on the roofs of the pestered houses—then lay down in the eaves and slept it off. Today they are billing and cooing again.

Now the residents have sought permission to shoot the soups.

FUSILIERS TO SPEND NIGHT AT RED HEAD

Regiment to March There on Saturday Afternoon and Remain Till Sunday.

The Saint John Fusiliers on Saturday will march to Red Head and bivouac for the night returning to the city on Sunday. It will be real campaigning experience and something of an innovation for late out door training for the local unit.

The Fusiliers, under command of Lt.-Col. George Keefe, have been carrying on their annual training at the Armoury and orders have been issued for the battalion, accompanied by the brass band to leave the Armoury at 3 p. m. on Saturday and march to Red Head to bivouac at the camp and grounds of Lt.-Col. J. L. McAuliffe, a field kitchen being provided by local military headquarters and every arrangement is being made for the comfort of the troops who will remain in camp until the following evening.

ALL DETAILS EXPECTED. All details, including the band and signallers will parade and the regiment is expected to march out up to full strength permitted to train this year.

An advance party under Major J. R. Miller, V. D., quartermaster, will leave the Armoury on Saturday morning to prepare for the arrival of the main body.

The training has progressed well this year but there is still room for a few more recruits in the battalion.

Four other children were saved as they managed to get out of the building.

WRECK IS PRECEDED BY GAS EXPANSION

FINE EXAMPLE OF ENTERPRISE

Montreal Company Sees Saint John Opportunity and Grasps It.

Milk Situation Produces Rush Ad From Montreal and Snappy Newspaper Service.

There has been many a fortune lost and many a career wrecked through failure to take quick advantage of opportunity. That is history. Reverse the statement and it is equally true that many a round sum in dollars has been accumulated and many a position in life acquired through readiness to see and enterprising to take advantage of the chances that fate thrusts before us. These introductory words lead to a story that attaches to one of the advertisements in last evening's Times-Star. There came announcement on Monday of the probability of a shortage in the Saint John milk supply. This news was sent out on the press wire and became known in Montreal as well as in other parts of the Dominion. By many it was awakened by the pressure of a gas cell on his face and likewise by the unusual angle at which the ship was riding.

SEES A CHANCE. Some one on the staff of the Nestlé's Food Co. of Canada, Ltd., saw in the despatch a business opportunity. If Saint John was to go short on milk why not place on the housewife's shelves their evaporated or condensed milk? The product was already well known through the medium of newspaper advertising. But a reminder would be timely.

At noon yesterday there came to the Times-Star a query as to the milk situation here. An answer was wired back disclosing the first morning conditions under the difficulties that had arisen between producers and distributors.

At 2:30 p. m. just as The Times-Star was being given the final touches before publication, arrived an advertisement by wire.

SERVICE IS GIVEN. It looked like a poor chance for insertion in that issue, with the minutes few before the stop order would sound, but The Times-Star composing room staff added their quota of enterprise and the ad was quickly put into type and soon after was telling the people what this company had to offer in case the milk supply from the dairies failed.

So newspaper enterprise dovetailed with that of the Montreal business house to the mutual satisfaction of company and paper. There's a lesson in this incident of a day in newspaper production. Hardly necessary to point more particularly to it, is it?

GIRL BABY-SLAYER GIVEN SEVEN YEARS

Admits Guilt in Ontario Court; Death Car Driver is Released.

CHATAM, Ont., Sept. 22—Edna Grace Brown, aged 19, was today sentenced to Portsmouth Penitentiary for seven years on a manslaughter charge to which she pleaded guilty, by Justice Mowat, presiding over the Supreme Court sessions here. James Rutherford also pleaded guilty to a manslaughter charge and was released on suspended sentence, but was ordered not to drive a motor car for five years.

The charge against the Brown girl was preferred following the finding the body of her one-year-old baby hidden underneath a culvert near Ridgetown last April.

The charge against Rutherford arose out of an accident on April 19 when the automobile he was driving crashed into a milk wagon, driven by Reginald Glover, the injuries received resulting in the latter's death a few days afterwards.

CUSTOMS REVENUE CONTINUES TO GAIN

Day - and - Night Officers on Border Curb Smuggling, Says Report.

OTTAWA, Sept. 22—A continued increase in the amount of customs duty collected at the various "ports" of Canada is held by officials of the Department of Customs and Excise to indicate the growing effectiveness of the new drive against all kinds of smuggling along the border. For the first three weeks of September this year the actual collections amounted to \$9,209,691, as compared with \$8,821,672 in the first three weeks of August this year and with \$6,949,597 in the first three weeks of September last year.

It was stated that the maintenance of day and night officers on the International Border, especially in Quebec and Ontario, has already effected a considerable reduction in the amount of smuggling done. It is also stated that a large increase in the staff along the Niagara River has made the way of the smuggler there difficult.

Two Foresters Drown When Canoe Upsets

TORONTO, Sept. 22—In a message received from Moon Beam, Ont., today, the Ontario Forestry Department was informed of the drowning of two members of its staff, Harry Rix, of Toronto, and Douglas Webster, of Whitby, Ont., both about 21 years of age, in Rent Lake, west of Cochrane.

The fatality occurred when their canoe upset while they were paddling across the lake. The young men were engaged in temporary work with the department.

MONTREAL FIRM. MONTREAL, Sept. 23.—With the exception of the Asbestos issues the local stock market was generally firm at the opening this morning. Asbestos preferred opened 1 1/2 down at 106, while the common suffered a similar loss at 85 1/2. Neither, however, was very active. The most active issue was once more Brazilian, which was off 2-8 at 72 3/8. Mackay preferred, the second most active stock, was up 1/4 to 77, while B. C. Fish advanced 1-4 to 46.

GAINS RECORDED. The strong spot was Canadian Cottons, which was up 1-2 to 123. Other leaders to record gains were Canada Steamships preferred, up 1-4 at 82 3/4; Montreal Power in a small transaction, up 3-4 at 210 3/4; Penmans up 1 at 108, and General Electric preferred up 1-2 at 97. Canadian Industrial Alcohol, Spanish River preferred and Shawinigan sold unchanged at 15, 118 and 156 respectively. A few shares of Dominion Glass changed hands at 105 1/2, up the fraction. The balance of the list was neglected.

Morning Stock Letter

NEW YORK, Sept. 23.—With money showing a tendency to ease, the market rallied early yesterday afternoon. There does not seem to have been enough distribution yet to permit stocks to react to any considerable extent. We look for more big markets. G. M. O. still shows a very good tone and we expect it to sell higher, also Fisher Body. May Stores has been hanging around the same price for some time. We believe there are developments coming that will put this issue higher. So, it was the feature in the rails yesterday. We believe that C. & Q. will be another and that it can be bought here. The number placed recently indicate equipments. Particularly the Loco. issues are likely to do better. We remain bullish on Calif. Packing, A. C. R. Pfd., Indian Motor Cycle, Republic Steel.

TWELVE TEAMS LINED UP FOR BIG CAMPAIGN

Nashwaak Pulp Quintette to Replace C. P. R. King Street

THE merry click and crash of candlepins that resounds nightly on the various bowling alleys throughout the city during the fall and winter months will soon be in full swing when the various leagues throughout the city open their schedules.

Probably, the first league to open the activities for the year will be the Commercial League, one of the strongest in the city. It will open on Black's alleys on Monday night, Oct. 5, according to a decision reached at a well-attended meeting of representatives of the various clubs held last week. Another meeting will be held this week when final details will be attended to.

There will be one new team in the league this year, the Nashwaak Pulp & Paper Co. Ltd. team taking the place of the quintette from the C. P. R. office, King street. Other teams in the league include James Pender's, 1923 and 1924 champions, the Electrics, T. McAvity & Sons Ltd., J. & A. McMillan, the Opticians, the Post Office, Pacific Dairies, C. P. R. Mill street, the C. N. R., the N. B. Power Co. Ltd., and Yassie & Co. Ltd.—twelve all told.

The magnificent cup donated by former Mayor H. R. McLellan, who is honorary president of the league, will be up for competition this year. Other officers of the league are E. W. Gaines, president, A. C. Rockwell, vice president, and A. Luck, secretary-treasurer. The Commercial League looks forward to a very prosperous and successful season. Other leagues in the city, including the City League and the various House Leagues, will get under way shortly.

HORNSBY FAR SHORT OF HIS 1924 RECORD

NEW BRUNSWICK IS REALIZING TOURIST WORTH

Association Secretary and Party Return After Tour Of Province.

ROADS ALL GOOD; HOTELS IMPROVED

Some Suggestions Made as Result of Observations On Trip.

"We certainly have a province to which we need not be ashamed to invite visitors and our people are waking up to the fact that there is money in the tourist trade," remarked C. B. Allan, secretary of the New Brunswick Tourist and Resources Association, yesterday on his return after a motor trip which had taken him through every county of the province except two.

Mr. and Mrs. Allan and Mr. and Mrs. E. A. Schofield made the trip together and their road led through Fredericton, Woodstock, Grand Falls, St. Leonard, Edmundston, Riviere du Loup, Rimouski, Campbellton, Dalhousie, Jacques River, Bathurst, Chatham, Moncton and Sussex. They covered nearly 1,000 miles in comfort without accident or trouble of any kind. Speaking of his trip Mr. Allan said:

ROADS GOOD. "The roads of New Brunswick were good all the way and we did not have to drive over five miles of bad road in this province. In Quebec the Highway Board has made a splendid job of the road from the New Brunswick border to Riviere du Loup. For the whole of the way it is like a boulevard and the potholes and bridge and culvert ruts on either side are painted white, giving the road a most attractive appearance, especially at the present time when the trees have their autumn dress and are very beautiful. There are lots of sign posts on the route, pointing the way and giving the distances from place to place. Between Riviere du Loup and Metepedia there is a good deal of bad road, but they are working hard to improve it and have several construction crews at work."

HOTELS IMPROVED. With reference to hotel accommodations, Mr. Allan said, "We found a great improvement in the hotel service. Several of the hotels have been renovated and improved and a couple of new ones have been opened recently on the North Shore. Other hotels have been enlarged and improved and all are now giving a good service to the public with profit to themselves."

In answer to an article which appeared in The Telegraph-Journal of Sept. 17, attributing certain statements to one of the Tourist Association visitors, Mr. Allan said: "I want to say for our party that in all the places we visited we did not have one poor meal. In fact the surprise was the general excellence of the food, particularly in New Brunswick. Good food, well cooked and excellently served was the general verdict of the visitors at the hotels in these localities and there are many other places in New Brunswick not traveled on this trip where the same conditions prevail."

Mr. Allan said, however, that the party had taken all their meals at the regular hotel hours and that the difficulty for hotels catering for the motor trade was that there was a great uncertainty as to how many must be provided for.

One curious fact was remarked by

On Commission

MRS. MARY ELLEN SMITH, Canada's first woman cabinet minister, has been appointed to the Federal Tariff Commission.

the party. At none of hotels at which they stopped did the menu provide baked apples or corn on the cob. Oranges and grapefruits never failed to appear, but the native baked apple, which would have been preferred, was not forthcoming. Corn on the cob was another reasonable native food which would have been appreciated by the motorists but was overlooked by the hotel chefs. The members of the party were inclined to think that in the matter of food tourists as well as residents of the province would appreciate home-grown products more than the imported foods which are everyday city fare.

They also wondered whether the farmers were not overlooking the opportunity of roadside sales of country produce to passing motorists. In Maine the farmer's roadside stall of fruits and vegetables or his invitation to enter the farmhouse to purchase these country products had proved very lucrative for the farmer and given an added interest to many a motor party's trip.

ADVISES OTHERS. With reference to the round trip which he had just taken, Mr. Allan considered it would be a good thing if more New Brunswick people would make that tour of the province. He said of it: "It gives one a new outlook and a renewed confidence in our province. The splendid scenery, the fine agricultural tracts, potato and fruit-growing sections and the wood-working features of the west side of the province, the magnificent scenic effects and sporting attractions of the Metepedia valley and the North Shore, together with the lumbering and fishing interests of the north and east sides of the province, and the manufacturing, commercial and dairying interests of the southern part of the province, clearly bear out the claim of our Board of Trade Commissioners that New Brunswick, instead of importing butter and eggs, ham and bacon and apples, should be supplied by our farmers."

Mr. Allan felt that the people were waking up to the fact that there was money in the tourist trade, and he found that all over the province they were making preparations to receive and welcome visitors from other parts. He believed that with a little more optimism on the part of the people and a little greater application and industry prosperity would shine on the province.

ROYAL HOUSES OF ITALY AND HESSE UNITED

Princess Mafalda Becomes Bride of German Prince Philip.

GROOM RENOUNCES RIGHT OF SUCCESSION

Promises Not to Interfere With Catholic Faith of Wife and Children.

RACCONIGI, Italy, Sept. 23.—With time-hallowed ritual, that was beautifully simple, Princess Mafalda, the third daughter of the ruling house of Italy, today became the bride of Philip, Prince of Hesse.

Members of the royal families of Italy, Germany, Denmark, Greece, Rumania, Serbia, Belgium, Austria and Montenegro, and representatives of the dynasties of Great Britain and Spain, witnessed the ceremony. The function of this morning in the great hall and chapel of the ancient Savoy Castle of Racconigi, was unusual not only in the assembling of a remarkable gathering of princes and princesses "of the blood," but in transcending the wounds of the war and uniting the daughter of the Catholic Italian royal family with the son of a Protestant German house famed for its early welcoming of Lutheran reforms.

POPE LIFTS BAN. Because of the differences in religion of the bride and groom, Pope Pius granted a special dispensation for the marriage. Philip renounced all rights to his succession to the head of the House of Hesse, which fact makes it certain that Mafalda always will remain a Catholic and her children ever become the reigning Prince of Hesse, it would be necessary for his wife and children to adhere to the Lutheran faith.

The spacious marble paved billiard room of the castle had been especially transformed into a bower of flowers. The walls were covered with paintings and heraldic tapestries of rich red and golden hues, interwoven with black. It was here that the civil ceremony was performed.

CIVIL CEREMONY. The bridal procession was headed by King Victor Emmanuel, with Princess Mafalda on his arm, and Prince Philip accompanying Queen Helena. They were followed into the bridal hall by the guests. The King, the Queen and Queen Mother Marguerita, took seats in arm chairs on one side of a red velvet covered table, and Princess Mafalda, Prince Philip, Premier Mussolini and former Premier Tittoni sat on the other side. Signor Tittoni read the marriage articles of the civil code, after which the marriage contract was signed with a gold pen by the bride and groom, and by the King and Queen, as witnesses.

When the civil ceremony had ended, the wedding party formed into procession again, and marched through the halls of the castle to the chapel on the ground floor, where the extremely brief but solemn ceremony of the Roman Catholic church was performed by Monsignor Beccaria, chaplain of the court of Italy. Because of the difference of religion of the bride and groom, the nuptial mass was omitted, but otherwise the ceremony conformed to the Catholic ritual.

The gifts to the bridal couple were

numerous and beautiful. Among them a massive silver statue of the Tyrrhenian Neptune, the ancient god of the Adriatic, which is the work of the Sculptor Giambologna. It was sent with the compliments of the Italian government. The senate sent a beautiful example renaissance furniture; Premier Mussolini, two silver vases; the city of Rome an antique vase mounted on a column; the city of Turin a painting by Grosso, and the employes of the royal household, a silver table centre. Most of the gifts are objects of art, such as paintings, statues and tapestries.

PITY THE CHILDREN FED ON GHOST CEREALS

Feed your children upon ghost cereals—if you will, but a farmer would laugh at you if you told him to feed them to his live stock, for he would know that live stock will soon die if fed upon them exclusively. Yet your children have not half the resistance of horses and cows. Then why feed them foods that will kill horses and cows?

Ghost cereals is the name science applies to certain unwholesome cereal foods whose chief claim for your attention is flavor and ease of serving. Now would you not rather buy real foods, especially for your children, than to buy these fancy packages which, without milk, are hardly foods at all. Certainly you would.

Well, Dr. Jackson's Roman Meal is precisely such a real food. Science proves that it is the darker, rougher parts of the grains that nourish and build sound and vital health. Roman Meal has the dark parts of three whole grains with bran, used in proportions to make a balanced human food. Beef contains 62 food units to the pound; Roman Meal contains over 1,600 food units to the pound. Prevents indigestion, positively relieves constipation. A truly wonderful food. You ought to try Roman Meal. At grocers.

"MR. ZERO" FIGHTS HUNGER AT SOURCE

Learn to Fast, He Tells Followers, Exhibiting 40-Day Fasting.

NEW YORK, Sept. 23.—Urban J. Ledoux, the "Mr. Zero" who offered homeless men the auction block three years ago and quartered them in a certain church last winter, has started out to attack the evil of hunger at its source by urging his followers to train their stomachs to do without food. He unfolded the new plan of campaign to a group of disciples who gathered in his newly opened Hobo University.

As a model for the imitation of his faithful adherents, Zero presented Edmund Wuensch, woolen weaver, of Hoboken, who has just completed a forty-day fast. Wuensch was so hungry looking a few days ago that his employer tried to send him home, but the faster seized a bar and chinned himself seven times to show that he had plenty of strength left. Zero, who is as stout and rosy as the healthiest of the two Cheerybe brothers, proposed three cheers for Wuensch, which were given somewhat perfunctorily.

"Look at him!" exclaimed Zero, enthusiastically. "He has baffled Old Man Hunger. The capitalist system can't get a grip on a man that doesn't have to eat."

ROBBERY IS SPOILED. INDIANAPOLIS, Sept. 22.—A burglar crawled through a window here into an automobile repair shop. From the window to the floor was a 10-foot drop, and right under the window was a barrel of transmission grease. Plumb into the barrel he fell, up to his neck. He made his way out of the building without stealing a thing.

WANT NEW FUN PLANS. PARIS, Sept. 23.—Competition between hotels of the Riviera towns is so keen that they are offering rewards to any one who will invent a new kind of fun for tourists. Fetes, carnivals and battles of flowers need to be strengthened by some new pastime. The more expensive and bizarre the new fun the better, it is said, and the competition is open to all nationalities.

BEEB RAID JAIL. A swarm of bees raided the county jail in Chardon, Ohio, creating a furore in the prison cells, and general excitement about the courthouse yard. They settled in a barrel, containing a small amount of liquor mash, and became so woozy that a bee man scooped them up with his hand and imprisoned them in three hives.

BATS NOT BLIND. To be blind as a bat is to be blind not at all, for the bat has a very acute sense of sight, according to recent experiments in Washington. The bat's eyes are bead-like, and are almost hidden with the soft fur with which its body is clothed. Its sense of hearing, smell and taste also are very acute.

MODEL YACHT CLUB Members Expect to Close Season on Saturday or Next Week.

The Saint John Model Yacht Club program of races for the season is drawing to a close and it is expected that all classes will be finished on Saturday or early next week. Many events have been held on Lily Lake during the past few months, and the entering of a number of new yachts this year has added interest in the sport and the competition among the members has been keen.

Last evening there were races for the 36-inch and 60-inch classes. In the former the "Lillias Maud," owned by F. Silliphant, finished first; "Helen B.," owned by Roy Belyea, was second, and "Wishang," owned by G. L. Mofford, was third.

In the 60-inch class the "Edna May," owned by George Silliphant, crossed the line first but was disqualified by the judges on the grounds that the owner towed his yacht round a buoy instead of sailing her. The race was accordingly awarded to the "Will," owned by C. Hampton; "Donald," owned by F. Silliphant was second, and "Challenger," owned by Roy Belyea, third.

There is only one more race in this class to finish the series and the standing of the yachts follows: "Will," C. Hampton 170 "Edna May," G. Silliphant 120 "Challenger," Roy Belyea 70 "Donald," F. Silliphant 60

There are two more races in the 36-inch class, three for the 40 class, one for the 60 class and four for "C" class yachts, the latter race to be concluded this evening.

Heels were first put on shoes to prevent a horseman's foot from slipping in the stirrup.

NEW YORK, Sept. 23.—Sol Trencher, the waiter who was thrown from the ninth floor of the Hotel Flanders, 135 West Forty-seventh street, on the night of Aug. 11 to the roof of the Cort Theatre, a drop of six stories, left Bellevue Hospital in time to spend food for Dr. Joseph R. Paulins, of the Jewish New Year with his family.

When Trencher was taken to Bellevue surgeons thought that he would live but a few hours. He had both legs broken and a fractured skull. Yesterday he was able to leave his home in 334 East Houston street for a short walk. Although he clung to his wife's arm and leaned heavily on a cane, Trencher was very happy to be able to walk at all. He expects to be able in a few days to return to his work as a waiter.

On the night he was injured, Trencher was sent to a room on the ninth floor of the Hotel Flanders from a near-by restaurant with a tray of food for Dr. Joseph R. Paulins, a vaudeville hypnotist. Following the delivery of the order, according to Trencher, Pauline and two companions, Harry Cass and Jack Phillips, quarreled with him about the payment and hurled him from the window.

The three men were arrested. They have been held pending Trencher's death or recovery. Next Wednesday, provided he continues to improve, Trencher expects to confront them in court.

Bon Ami makes windows crystal-clear!

Cleaning windows loses its drudgery when you use Bon Ami! Just apply a thin lather of Bon Ami with a damp cloth. Wait until the white film dries. Then whisk it off with a dry cloth. Not a streak, smear or fingerprint remains! The window is so clear you have to poke it to make sure it's still there! A window a minute is an average record with Bon Ami.

And this housewife's "good friend" is just as wonderful a cleaner for a host of other things. And no matter how much you use Bon Ami, it never roughens your hands.

Crack-Shots Say

Get the High-Flyers with Western Long Range Loads

Imagine a Shotgun Load that, in addition to giving from 15 to 20 yards greater range, gets the "high-flyers" at 60, 65 and even 70 yards. Experienced sportsmen have called the Western Super-X the greatest development in shotgun ammunition since the invention of smokeless powder. Through the use of a new type progressive burning powder—developed especially for this purpose—Western Super-X adds 15 to 20 yards to the shotgun's effective range, at the same time giving higher velocity, more concentrated shot column, and better patterns at all ranges, as the entire shot charge of Super-X leaves the gun as a compact group, the string of the load is about one-half of any other type of load thus far tested by the "Western" people. Super-X is your ideal load for difficult long-range shooting.

POWER COMPANY MATTERS COME UP NEXT MONTH

Utilities Board Postpones "Loop" Line and Water Claim Cases.

TWO CONTRACTS ARE GIVEN APPROVAL.

Up River Services—Work On Interferences Here About Done.

The hearing in the case of the New Brunswick Power Company on the petition of residents of West Saint John that the "loop" line be operated and the West Side street car be held until the arrival of the ferry from Saint John was adjourned this morning by the New Brunswick Public Utilities Commission until the October meeting of the Board. The hearing on the application of the Power Company for a return of money paid the city for water rates was also set over until the October meeting.

The Board approved on contracts between the Town of McAdam and the Canadian Pacific Railway and between the Canadian Cottons, Ltd., and the Maritime Electric Co., and deferred action on the request for approval of the contract between the Town of St. Stephen and the Maritime Electric Co.

J. M. Trueman, chairman of the Board, president, and Commissioners T. C. Burpee and F. X. LeBlanc were in attendance. Dr. F. R. Taylor, K. C., appeared for the New Brunswick Power Company, G. H. Waring, superintendent of ferries, was present.

WEST END CARS.

In the matter of the petition of residents of West Saint John asking the "loop" line, Dr. F. R. Taylor said he had not had time to prepare the case. M. A. Pooler, manager of the company, was at present out of the city and he would like to have an adjournment. It was decided to take the matter up at the October meeting.

In the matter of the New Brunswick Power Co. vs. the City of Saint John in which it was alleged that the city was discriminating against the company in the rate charged for water, and a request made for an order for the return of \$11,000 overpaid by the company, hearing was set for the October meeting at the counsel for the city, Hon. J. B. M. Baxter, K. C., was engaged at a Government meeting.

McADAM SERVICE.

S. H. Mildram, expert of the board, reported that after a conference between the chairman of the board and himself with representatives of C. P. R. and the Town of McAdam it had been decided to recommend the approval of the contract. This provided for a wholesale price of \$1.40 a k. w. h. and the retail price would probably be about 10 cents a k. w. h. Mr. Trueman said he was of the same opinion as Mr. Mildram and the contract was approved. It is for ten years but may be terminated by either party at the end of eight years.

Mr. Mildram also recommended that the contract between the Canadian Cottons, Ltd., and the Maritime Electric Company be approved.

At a conference it had been brought out that the Canadian Cottons had expended more than \$100,000 in providing a steam stand-by and he was of the opinion that the rate of 11-2 cents a k. w. h. for 600 horse-power and 2 cents a k. w. h. for all over that amount was a low one. The higher price was justified because of the fact that it cost more to develop power from coal than from hydro. He also thought that in view of the investment made by the Canadian Cottons, Ltd., the period of twenty years was justified. The contract was approved.

ST. STEPHEN LIGHTING.

With regard to the contract between the Maritime Electric Co. and the Town of St. Stephen for street lighting, Mr. Mildram suggested that the consideration be given. He said the price for lights was, he thought, too high. These are 250 w. lamps, \$54 a year; 100 watt lamps, \$21.50 a year; and 80 watt lamps, \$17.50 a year. This made the price for the larger lights in excess of the domestic lighting rate. The chairman said this matter would be taken up at a meeting in St. Stephen, probably in November.

N. R. Nutter, expert engaged by the board to act in the matter of inter-connection between the distribution systems of the New Brunswick Power Company and the Civic Power Commission, reported that the work was about completed.

TWO PRESENTATIONS

Mr. and Mrs. T. Callaghan Honored by Little River Community Club.

Mr. and Mrs. Timothy Callaghan of 288 City road were given a farewell party at the Little River Hall last evening before their departure for the city. They have resided in Little River for many years and the community regrets their leaving to reside in Saint John. This was expressed in an address made by Frank Godwin, president of the Little River Community Club, under whose auspices the party was held. On behalf of the club, Mrs. Callaghan was made recipient of a set of stainless steel knives and Mr. Callaghan a handsome pipe. Refreshments were served and music and dancing enjoyed until a late hour. "For they are jolly good fellows" was sung before the guests departed. Mr. and Mrs. Callaghan made gracious addresses, thanking the people for their kindness.

SEWING CIRCLE MEETS.

The ladies of Fairview Baptist church sewing circle met yesterday and discussed plans for a tea and sale. Mrs. A. E. Kierstead, president, was in the chair. Mrs. Harry McLaughlin was the hostess for the meeting, which was held at her home, Prospect street.

ADDRESSES CLUB

Rev. C. V. Pilcher, D. D., was the speaker at the Canadian Club luncheon today at 1 o'clock. His subject was "Impressions of Recent visits to Germany" and the speaker charged his audience with his interesting description of conditions in that country as they are today.

POLITICAL RUMORS.

Among the political rumors in the street this morning was one to the effect that Hon. F. D. Tilly, president of the executive council, might be a Conservative candidate here in the coming election.

Among the names mentioned as possible Liberal candidates for Saint John are those of Hon. W. E. Foster, Dr. W. P. Broderick and F. M. Thompson, of Hillsboro.

PROMISING MUSICIAN.

Miss Willa McCallum, daughter of Mr. and Mrs. W. H. McCallum, of West Saint John, has concluded her contract with St. Paul's Anglican church at Roxbury as organist, and returned to her studies in organ and piano in the city. She won golden opinions when playing during the last season for Douglas Baker, for whom she supplied while he was on a vacation trip to England. Being only 17 years old, Miss McCallum's performance was considered remarkable. She is also an excellent pianist and accompanist. She made her debut in public at the closing of the Saint John High School.

ACTIVITIES RESUMED.

The Ladies' Aid of the Fairville United church resumed its activities yesterday afternoon and evening with a large attendance of members at the home of Mrs. Alexander Scott. Those present were Mrs. Samuel A. Worrell, president; Miss Ella Lowery, Mrs. George Clark, Mrs. O. D. Hanson, Mrs. S. H. Shaw, Mrs. T. L. Burgess, Mrs. S. T. Cougle, Mrs. J. J. Flukerton, Mrs. J. Stout, Mrs. Edward Kirkpatrick, Mrs. Harry W. Doherty of Boston, Mrs. Wellington Lester, Mrs. J. Chesness, Mrs. A. Taylor, Mrs. A. Hohart, Mrs. Dane Crosby and Mrs. George Morrison. Mrs. Morrison, sister of the hostess, assisted her in serving the tea hour. The next meeting is to be held at the home of Mrs. Lester, Prospect street.

STILL NO WORD OF MISSING MAN

Inquiry Broadcast For News of Clifford P. Wood, Halifax

Member of Prominent Firm Lost Since September 8 and Information Sought

Up to today there has been no clue as to the whereabouts of Clifford P. Wood, of the prominent wholesale grocers' firm of R. E. Sifton & Co., Ltd., Halifax, who has been missing since Tuesday, September 8, as has been reported in despatches. Various rumors that he had been seen at different places in Nova Scotia have been proven to be without foundation. It was reported that he had been seen in Truro, and several days later in Amherst, but when the reports were followed through there was no accurate information available.

MYSTERY GROWS.

The mystery of his disappearance grows as the days pass, and as no clue as to his whereabouts is uncovered, the anxiety of his friends increases. Ill-health brought about by the recent death of his wife is believed to be the cause of his disappearance. His business is in fine condition and there has not been any reason whatever other than ill-health to cause him to disappear. His friends believe that he may have quietly retired to some point in an effort to improve his health, and inquiries are being made everywhere along this line.

Anyone having any information regarding his whereabouts is requested to communicate with Messrs. R. E. Sifton & Company, Limited, at Halifax, or his friend, G. E. Barbour, Saint John; telephone Main 216.

CHIEF IS BUSY WITH SCHOOL MEETINGS

Dr. W. S. Carter Here on Way to Charlotte County Institute Sessions.

Dr. W. S. Carter, Chief Superintendent for Education for New Brunswick, was in the city today on his way to St. Stephen to attend the Teachers' Institute of Charlotte County there on Thursday and Friday of this week. He will make the trip to the border town by auto and will be accompanied by S. A. Worrel, acting superintendent of city schools, who was a former inspector of the Charlotte County schools. On the way down, Dr. Carter will inspect a few of the schools in the western half of Charlotte County. The Charlotte County convention is being held early this year in order to give the teachers a better opportunity to attend. Dr. Carter is attending a Teachers' Institute in various parts of the province right up to the middle of November.

Sale of Dresses

At Prices Far Less Than the Cost of Materials Alone

\$5 \$8.75 \$13.90

YOU'LL WONDER HOW we can mark these Dresses so ridiculously low. It means a big loss to us. Here is why we are doing it:

Candidly, these Dresses were brought forward from last season when they were priced all the way from \$15 to \$40, but we must move them out now, so as to have the racks for the New Dresses coming along. This is our big season for such exceedingly low prices. Every Dress is of good fabric and fine needlework; but they simply must be sold quickly to make room for new arrivals; and we have remarked them at prices that will certainly clear them within 24 hours.

Because of these enormous reductions, every sale must be final—which means NO APPROVAL, NO EXCHANGES, NO REFUNDS, NO RETURNS. We suggest, therefore, that you look about carefully and be perfectly satisfied with your selection at the time.
