TROUBLE AGAIN IN CITY OF CORK

Disorder in Patrick Street; Constable Killed

Condition of Mayor MacSwiney—The Reprisals Question—Report on Effect of Troubles on Trade.

Cork, Oct. 4.—There were disorders here in Patrick street on Saturday night and early on Sunday morning in the course of which a constable was wounded. He died soon afterwards. A civilian also was shot and seriously wounded. The front of a shop was blown out by a bomb and the contents of it were destroyed.

The 53rd Day.

London, Oct. 4.—Terence MacSwiney, lord mayor of Cork, passed a fair night at Brixton prison, having had several hours of sleep, but it does not seem to have refreshed him much, said a bulletin issued this morning by the Irish Self-Determination League. It adds that doctors do not find much change in the condition of the lord mayor except that he is very weary. This is the third day of his hunger strike. A bulletin issued at the Home Office this forenoon stated that the lord mayor was not nearly so well yesterday, but after some sleep last night, appeared to be better this morning.

London, Oct. 4.—A despatch to the London Times from Dublin gives an official report that a member of the pension ministry named Collet and a commercial traveler named McLean were kidnapped from a hotel at Leixearva County Clare, on Sept. 20.

As to Reprisals.

London, Oct. 4.—A despatch to the London Times from Dublin says a circular issued by the Royal Irish Constabulary officers to the district commanders of police and county and district inspectors refers to press reports of reprisals against the Irish as "generally thoroughly misleading, because," it says, "the means often represent acts of the League of Self-Determination. It adds that doctors do not find much change in the condition of the lord mayor except that he is very weary. This is the third day of his hunger strike. A bulletin issued at the Home Office this forenoon stated that the lord mayor was not nearly so well yesterday, but after some sleep last night, appeared to be better this morning.

Ottawa, Oct. 4.—Writing from Belfast to the Weekly Bulletin of the Department of Trade and Commerce, Trade Commissioner Macdonnell, in a dispatch discusses the effect of the disturbances in Ireland upon trade. He states that after a fairly comprehensive tour of the chief commercial centres of Ireland, he finds that there is considerable temporary and local disturbance of trade. The logical centres for the distribution of goods, he states are Belfast, Dublin and Cork, but at the present time it is practically impossible for any one house in any particular city to distribute effectively throughout Ireland owing to the many boycotts and counter-boycotts which have been effected. He finds that there is a keen interest in Canadian goods in all parts of Ireland, and a definite desire that better trading relations may be established.

Dublin and Cork merchants are enthusiastically desirous of trading with Canada. Agricultural implements and garden tools have found a ready market. Belfast timber importers are interested in getting supplies from British Columbia at a reasonable price. He notes that the Germans are already sending small shipments to the Irish markets.

CARNIVAL IN HALIFAX IS WELL OPENED

Halifax, N. S., Oct. 4.—The Halifax carnival was opened here today with the largest parade in the history of the city. Ideal weather conditions prevailed and the streets of the retail district were thronged with spectators. The carnival will continue until Saturday. Today's events include two ball games, Crescents vs Amherst this morning and All-Halifax vs Amherst this afternoon, and a 15-round boxing bout tonight between Mike McTigue of New York and Johnny Alex of Philadelphia. Tomorrow morning the Herald and Mail's ten-mile amateur championship road race will be run and the afternoon will be devoted to a police and firemen's athletic tournament.

W. G. WELLS IN RUSSIA

London, Oct. 4.—H. G. Wells, English novelist, has arrived in Petrograd, according to a Moscow wireless message, greeted by a delegation of Russian authors, headed by Maxim Gorky.

Mr. Wells declared he did not doubt that Russia was on the eve of a noble future, but that the Russian and British characters were very different and that the two peoples could not achieve their purposes by the same methods.

"Your read," the Moscow despatch reports him as saying, "is towards communism; ours is toward socialism."

The Austrian national assembly, on October 1, adopted unanimously a motion to unite with Germany, and a plebiscite on the union of Austria with Germany.

Meanwhile, it is understood, no action will be taken with a view to preventing the holding of the plebiscite unless views are exchanged by France, Great Britain and Italy to determine whether or not such a plebiscite comes under the ban of the treaties.

CHECKING UP TAX EVADERS

Dominion-Wide Effort to Get Country's Due

Auditors Going Over Books Where There is Suspicion That Correct Statement of Income Has Not Been Turned In.

Ottawa, Oct. 4.—Recent prosecutions in Ottawa, Hamilton and other places of persons charged with making incorrect returns of incomes for the purpose of evading the tax, are the outcome of a dominion-wide effort to unlock the pockets of the tax evaders.

In the first year in which the dominion tax was imposed upon incomes, it was discovered that a large number of persons had failed to make the returns required under the law.

This year it is said returns have been made pretty generally, but in a considerable number of cases they have understated the incomes of taxpayers. The taxation branch of the finance department, consequently, has employed auditors in various parts of the country to examine the books of business and professional men suspected of incorrectly reporting their incomes. In some cases the auditors have been successful in investigations, and fines, some as large as \$1,000, have been imposed for one offence.

The lines leveled go into the dominion treasury and help to meet the cost of maintaining the taxation branch.

Higher rates of taxation on large incomes, and the steps being taken to ensure payment by all who are liable to taxation, are expected to increase the country's revenue from income taxation.

Special auditors are also being employed in various sections of the country to work in conjunction with inland revenue officers for the purpose of checking returns of collections of luxury and sales taxes.

ON AUTO RIDE WITH FIANCE, GIRL IS KILLED

Companion Wounded—Says Three Men Held Them Up and One Fired Shots.

Kansas City, Oct. 4.—Miss Florence Barton, twenty-four, daughter of K. L. Barton, president of a shoe manufacturing company, was shot and killed last night by an unknown person, while riding in a motor car with Howard R. Winter, her fiance, who was killed. Winter said the man leaped upon the running board of his car with a revolver in his hand and fired several shots, one of which struck the girl in the left arm and another wounded Miss Barton over the heart.

The assailants fled and Winter drove to a country residence nearby, summoned help and took the girl to a hospital where she died.

BANDITS ROB CAFE PATRONS OF \$5,000

New York, Oct. 4.—Six masked bandits entered a cafe in Lenox avenue early today, lined up forty-five persons against the wall and escorted with cash and jewelry valued at more than \$5,000. Four of the bandits covered the patrons with revolvers while the other two went through the pockets of their victims.

TAX EX-KAISER

The Hague, Oct. 4.—The Dutch government, after a long investigation of the former German Emperor's resources, has decided he must pay taxes on an income of 1,500,000 guilders a year.

Woman Who Fought in Ranks in the Civil War Dead

Raritan, N. J., Oct. 4.—Mrs. E. A. Miles, eighty-two, who with close clipped hair and a uniform concealed her sex and is said to have fought beside her husband through the Civil War, died here today.

The war call found them on their honeymoon. The husband, Martin Miles, joined the ranks of the fourth New Jersey Infantry, and when the regiment left, Elizabeth Miles marched beside him. She fought through many engagements, it is said, and was mustered out, undiscovered. The husband died several years after the war.

As Hiram Sees It

Hiram Hornbeam, "I like to get close to the people I am a born democrat. The people interest me. They are mine own people—my ain folk—as the Scotch say. They are the salt of the earth."

"Well," said Hiram, "if you want to get real close to the people in St. John you want to get on a street car in the rush hour."

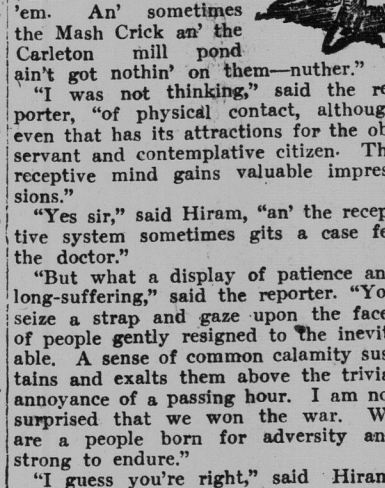

Then you kin see 'em, an' smell 'em—an' taste 'em. I'm sometimes in the Mash Crick an' the Carleton mill pond ain't got nothing on them—nuther."

"I was not thinking," said the reporter, "of physical contact, although even that has its attractions, as the servant and contemplative citizen. The receptive mind gains valuable impressions."

"Yes sir," said Hiram, "an' the receptive system sometimes gets a case fer the doctor."

"But what a display of patience and long-suffering," said the reporter. "You seize a strap and gaze upon the faces of the people, and you exult in the inevitable. A sense of common calamity sustains and exalts them above the trivial wrongs of the world."

"I guess you're right," said Hiram. "Yes sir—I guess that's so."

MAKE PROGRESS WITH PROBLEMS OF WORLD FINANCE

Brussels, Oct. 4.—After the financial conference took recess on Saturday, four delegates went earnestly to work, and it is hoped that at least two of them will be able to report when the conference reconvenes on Wednesday regarding public finances and currency.

It is understood that the currency committee has submitted to the affirmative two of the questions submitted to it—"Ought paper circulation be reduced in all countries by the same percentage?" and "Can it be done?"

The second question how it is to be done is being discussed by various groups, the countries being divided on the subject, according to the interior situation of the countries.

All sorts of projects have been presented to this committee, among them: international monetary unit to be called a "forin." Ten forins would have the value of eight grammes of gold, or approximately 18 cents in gold.

His adoption would reduce money everywhere to the decimal system.

MISS BAULD OF HALIFAX IS ONE OF THE PLAYERS

Play will start tomorrow morning. Mrs. F. Armstrong of Ottawa, Miss Edith Bauld of Halifax, and Miss Effie Nesbitt of Hamilton, are representing the Dominion.

This May Help Solve Wall Street Mystery

Man With Dynamite Is Arrested in Pittsburgh

Visit to Home in Brooklyn Reveals Facts Which Authorities Believe Important in Connection with September 16 Explosion.

Pittsburgh, Pa., Oct. 4.—Information obtained from Florence Zelenka, of Brooklyn, arrested here last night with a quantity of dynamite in his possession may lead to a solution of the Wall Street explosion, according to local police and government agents. The nature of the information was not divulged, but the police said it has been forwarded to Wm. J. Flynn, of the department of justice.

Questioning of Zelenka, who was taken to a hotel after a fight with the police, continued until early this morning. He had been en route from Cincinnati to New York, and his remarks on the train to an unidentified man, who called the police, brought about his arrest.

Authorities were reticent as to the result of their questioning, but it was said clues furnished may lead to scores of arrests in Brooklyn and New York.

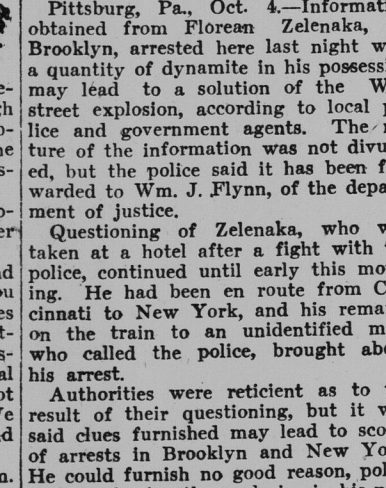

He could furnish no good reason, police said, for having the explosive in his possession, and is alleged to have remarked to a companion on the train. "Tell them I will have the stuff there tomorrow."

Another remark attributed to him as he was being placed in his cell was: "See what we did in Wall street. Next time it will be bigger and more terrible. The last was only a start."

Some Discoveries

New York, Oct. 4.—Renewed vigor was installed today in the investigation of the origin of the Wall Street explosion on Sept. 16, as a result of a report of the department of justice. Agents say they have secured additional information regarding the explosion.

That Zelenka left his little room at 470 Cleveland street, in the heart of the foreign section, an hour before the disaster occurred; that when he left he was carrying a package in a bag; that he had had one of the packages in his possession; that he left in his room a large quantity of Russian literature, said to be of a radical nature.

Representation of Anglo-American friendship as a force for world peace formed the subject of brief addresses before the tomb by Ambassador Geddes, Secretary Daniels, Lord Rathcreghan, Senator Raul Dandurand, head of the Canadian delegation, and Dr. J. B. Hubrecht, of the Dutch delegation.

Peace and War in Same House

Warsaw, Oct. 4.—War and peace plans progressed simultaneously yesterday under the same roof in recently reconquered Poland territory, where general Pilsudski, 64, head of the state, has established his temporary headquarters. In one room of the house where the general is domiciled, plans were laid for continuing in pursuit of the defeated Soviet troops on the southern front who are fleeing in a disorderly retreat. In another room, civilian representatives of the government were received by the chief for discussion of the next move to be made by the Poles at the High peace conference with the Russians.

On the Polish northern front it was announced that the cavalry pursuing the Russians had reached a point less than forty-five miles from Minsk. In various sectors of the front, where reported near the point of collapse, in one sector the account declares, an entire brigade was taken prisoner virtually without a fight.

In the Pripet region after some fighting, the Poles captured 1,600 Russians. In the south General Romer's cavalry was reported to be making some progress.

He contended that Mr. Meighen's "love-making to the Province of Quebec followed the motto that 'necessity knows no law' for the Premier felt that its only chance against 40 or 50 free traders who will be elected out west, could be found in this province."

BELGIUM NOW IN COMPETITION

Bids Against Dominion Steel in Great Britain

President Wolvin, in Sydney,
Speaks of Business Matters
—Fears Unemployment in
the Coming Winter.

(Canadian Press.)
Sydney, N. S., Oct. 4.—Roy M. Wolvin, president of the Dominion Steel Corporation arrived here yesterday from Montreal. He will confer with General Manager E. P. Merrill on matters relating to the corporation's plans, after which he will go to Wabana to make his first personal inspection of the extensive iron ore properties there.

With respect to the outlook for the steel trade for the near future, Mr. Wolvin did not appear to be over-enthusiastic. He said that most of the corporation's steel products during the last year had been marketed in Great Britain, where, until quite recently, no serious competition was encountered. Of late, however, the very remarkable progress in reconstruction made by Belgium was manifesting itself and that country was keenly competing in the markets of Great Britain for many lines of steel.

As a result of this competition, the market for the corporation's steel products has decreased and prices have very materially softened. A vital factor he said, was the cost of production in the several countries and he was quite apprehensive that any advance in costs here would result in excluding Sydney steel from the British market, instancing as one of the reasons for his apprehension, the fact that for several weeks no sales of steel products have been made.

Questioned as to his view on the matter of unemployment during the

coming winter, he referred to a statement issued by the Minister of Labor at Calgary a few days ago. That statement indicated fear of considerable unemployment during the coming winter, and his own investigations led him to believe that there is bound to be during the coming winter a surplus of labor in many lines of industrial activity.

Mr. Wolvin also referred to the housing clauses in the report of the Royal Commission and said that the Dominion Steel Company was taking active steps in the development work of this problem. Upwards of \$800,000 had already been expended, a direct loss as the rentals approximated but half this amount.

Speaking on the coal question, the leader of the British Steel Corporation declared that any increase in cost of coal would mean a direct raise of \$8 a ton in the cost of steel production.

MURDERED AT 97

Paris, France, Oct. 4.—Mme. Angier, who was 97 and was reputed to have amassed some wealth, was murdered in her villa in a suburb of Paris, where she lived alone. The old woman was found dead and gagged and bound in her bedroom. All the furniture had been ripped open in the search for her supposed wealth.

Bill Provides for Penitentiary Terms for Sport 'Fixers'

Washington, Oct. 3.—A sentence of from two to five years in the penitentiary for ball players and gamblers convicted of throwing games played in "interstate commerce," will be provided in a bill which Congress has passed. The bill will also cover games played in leagues which cover two or more states, and will also cover gamblers who travel from one state to another, or to the District of Columbia, or a territory, to play.

Football games played in "interstate commerce" will also be protected by the Mudd bill. Mudd believes that the Varsity football classes, offer temptations to professional gamblers, but believes few college players would succumb.

Mudd is an old ball player himself, having been one of the best catchers in collegiate baseball at the University of Georgetown University in 1905 and 1907. But 35 years old, he plays every summer with his home town team, Leblancs, in the Southern Maryland League.

Mudd has been very indignant since reading of the throwing of games in the 1919 world's series by White Sox players. When District Attorney Hoyne of Chicago expressed doubt as to the possibility of sending the crooked players to jail, Mudd decided to frame some federal legislation through which there would be no loophole.

URGЕ ALL TO VOTE.

His Lordship Bishop LeBlanc, at the 9:45 o'clock mass, and Rev. W. M. Duke, at the other mass, of the cathedral yesterday, spoke of the duty of electors in exercising their franchise in the coming elections. Particularly he stressed the importance of sending the crooked players to jail, Mudd decided to frame some federal legislation through which there would be no loophole.

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Porrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Generally the gums become spongy. They inflame, then shrink, thus exposing the uncleaned tooth-base to the ravages of decay. They swellings in the gums form gateways for disease germs to enter the system. Medical science has traced many illnesses to these infecting germs in the gums weakened by Porrhoea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Porrhoea (Riggs' Disease) if used in time and used consistently.

And in preventing Porrhoea—it guards against other troubles. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult dentist immediately for special treatment.

EVERETT SCOTT HAS GREAT RECORD

Red Sox Shortstop Plays in 678 Consecutive Games Cobb's Records Beaten.

New York, Oct. 5.—By playing in every game during the present season shortstop Everett Scott brought his record for consecutive games to 678. This exceeds the mark set by George Fennerty from 1887 to 1890 by one hundred and one games. During his long streak Scott hit 241 and fielded 966. He finished the present season by hitting safely in nine consecutive games.

Two records formerly held by "E" Cobb have gone into the discard. Cobb set the record with 248 hits, Cobb hit 169 singles, forty-seven two-baggers, twenty-four triples, and eight home runs, for a total of 367 bases. Against this, Slater hit 168 singles, forty-nine doubles, and two triples, for a total of 375 bases.

"Babe" Ruth pounded out fifty-four home runs to date this season, Laglitta, for all time unless Ruth betters it himself.

THE LEAGUE AND THE ELECTION

Washington, Oct. 4.—President Wilson, in his first campaign appeal last night, made directly to the people, urged the endorsement of the League of Nations issue at the election and declared "the whole world will wait for your verdict in November as it would wait for an intimation of what its future is to be."

The president characterized an absolute false assertion that Article 10 of the league covenant would make it possible for other nations to lease United States into war. "There was nothing in the covenant," he said, "which in the least interferes with or impairs the right of Congress to declare war or not to declare war, according to its own independent judgment, as our constitution provides."

NO REDUCTION IN DODGE PRICES

Official confirmation of press despatches from Detroit, announcing that there would be no reduction in the price of Dodge Brothers' motor cars, has been received by The Victory Garage & Supply Co., Ltd., 92-94 Duke Street, St. John, N. B., the Dodge Brothers' dealers in the city.

"Dodge Brothers' policy has ever been to give full value for the price asked. There will be no reduction in the present prices of Dodge Brothers' motor cars. Newspaper reports to the contrary are absolutely untrue."

"Dodge Brothers' announcement was no surprise to us," said J. Royden Thomson, manager of the Victory Garage & Supply Co., Ltd. "In fact it is only a substantiation of Dodge Brothers' business principles. At no time have they ever demanded an excess amount for their product. As in the past, they will continue in the future to demand a fair return for their efforts."

"The net fact that the demand for Dodge Brothers' motor cars is still greatly in excess of the supply, despite the great expansion programme at the factory, has absolutely nothing to do with the decision to continue the present prices. In marketing their car Dodge Brothers have never made a point of price and will never sacrifice the quality of their product to enter price competition."

KENILWORTH IS NEW TRACK. Great Crowd Expected for Man-of-War —Sir Burton Race.

Windsor, Ont., Oct. 3.—Kenilworth Park, the course over which Sir Barton and Man of War will race Oct. 12, for a purse of \$75,000, a \$5,000 gold cup and the thoroughbred championship of America, is one of the new Canadian tracks. Kenilworth Park racing, like the racing of Detroit, now a city counting its suburbs, of something more than 1,000,000 inhabitants. The Kenilworth Park Jockey Club has A. M. Orpen of Toronto, who has long been known to racing folk on both sides of the border as the promoter of first rate sport at Dufferin Park, the most popular and best patronized of Canada's half mile tracks, for president. It was Mr. Orpen's enterprise for the match was \$50,000, but when Mr. Orpen heard that Colonel Matt Winn, general manager of the Kentucky Jockey Club, as well as the directors of the Maryland courses at Laurel and Pimlico were going to raise his offer he invited Commander J. K. L. Ross and Samuel D. Riddle, respectively, the owners of Sir Barton and Man of War, to a conference at the Havre de Grace race track last Thursday. These sportsmen met Mr. Orpen in the directors room of the club house at three o'clock, and before anything else had been said Mr. Orpen announced that he was prepared to raise his own bid for the match to a \$75,000 purse and \$5,000 gold cup, the two horses to meet under weight for age and to gallop one mile and a quarter. Two articles of agreement were being signed between the contracting parties. Colonel Winn's offer of \$75,000 and a \$5,000 gold cup came over both the telephone and telegraph wires. Colonel Winn's highest previous offer for this race was \$25,000. It was made at Saratoga. About the same time the Maryland State Fair Corporation, which races at Laurel Park, made an offer of \$30,000 through Spalding L. Jenkins, its president, and the Maryland Jockey Club made an offer of \$25,000.

No more central location for the staging of the Sir Barton and Man of War match than Kenilworth Park could have been found. Detroit and Windsor, the centres of a veritable mass of trunk railway lines, are readily accessible to the most populous parts of the Middle West and Canada. They are only a few hours' ride from Boston, New York, Philadelphia, Baltimore and Washington on the east and Milwaukee, Chicago, St. Paul, Minneapolis, St. Louis, Cincinnati and Louisville on the west and south. They are a great deal more accessible to persons living in the far south and the far

RECENT DEATHS

Ernest McFarlane.
The community at Snoon Island was shocked yesterday at the drowning of Ernest McFarlane, who belongs to Fairville.

Mr. McFarlane, who had been boarding with Miss Walton at Snoon Island, left the house between 4 and 5 o'clock with some friends to go for a swim. While in swimming, the other men warned McFarlane not to go so far out. He was quite a distance from the shore when he was seen to sink. He rose to the surface but quickly sank again before help could reach him, and it is thought he was taken with a cramp. Efforts were made to recover the body but darkness coming on operations had to be suspended. Renewed efforts will be made this morning. Ernest McFarlane, who was well known as "Beasey," lived at Paddy's Flats, in Fairville, and had been working at Mooney's quarry at Snoon Island for the last six or seven weeks, where he had been employed in loading granite paving blocks. He leaves one brother. He was a veteran of the great war and was known locally as a ball player.

The death occurred Saturday afternoon of Mrs. Rachel Nelson, widow of John L. Nelson, at her residence, 45 Brussels street. Mrs. Nelson died suddenly from a stroke of paralysis. She leaves no family. The burial took place from the mortuary rooms of W. Brennan & Son this afternoon at 2:30 o'clock.

Word has been received here of the sudden death in Boston of John P. Zebley, who years ago was well known in this city. Mr. Zebley was the banker who financed the construction of the first street railway system in St. John. He was a native of New Hampshire.

Friends of Mr. and Mrs. Alexander Gauthier, of 1 Carleton street, will sympathize with them in the loss of their little son, Albert, who died on Saturday night, aged nine months. Burial will take place this afternoon.

The death of Chipman Estabrooks of Sackville occurred last week. He is survived by his wife and the following family: Mrs. Gilbert Stokes, Coles Island; Mrs. Chas. O'Brien, Dorchester; Edgar, Henry, Chester, Chappell, all of Sackville and Hester at home.

The death of Mrs. Eliza McLellan, mother of Mrs. Grey, wife of the manager of the Provincial Bank in Sackville occurred there on last Thursday. The body was taken to Halifax.

FUNERALS

The funeral of Joseph McMurray took place yesterday afternoon from the home of his parents, 101 Lancaster Heights, to the Church of the Assumption. The services were conducted by Rev. Father Ryan. Burial was made in the Holy Cross cemetery. There were a great number of floral offerings.

Philadelphia, Oct. 4.—The famous old Hotel Bingham is to house a dime museum. The hotel was given up several months ago, as prohibition and other reforms had cut into its patronage. HAVE THE POLICE GOT TO CONVICT?

Is it the mission of the police to convict in every case? Should a police force adhere rigidly to a method which calls for the prosecution and punishment of those whom they trap and prove guilty? Or should a police force strive to reform the criminals whom they seize? This question arises in the evolution of the tremendously thrilling plot of "Partners of the Night," written by Leroy Scott, directed by Paul Scardon, and presented by Samuel Goldwyn and Rex Beach, at the Imperial theatre Monday of next week.

For the Piano—and all fine Furniture

THE care of a costly instrument involves the use of a polish so dependable as to be absolutely "above reproach". The fact that O-Cedar Polish is used for piano polishing in preference to all other preparations, by thousands of women, is as strong a recommendation as you could have for its use on less costly articles of furniture and on woodwork.

It is preferred in most homes, because it cleans as it polishes, producing a high, dry, lasting lustre and bringing out the beauty of the grain.

Corner Stone of Victoria Street Church Is Laid

NEW VICTORIA STREET BAPTIST CHURCH.

With perfect autumn weather prevailing and the sun shining brightly, the corner stone of the new Victoria street Baptist church was laid on Saturday afternoon. The official ceremony was performed by Sir George E. Foster, minister of trade and commerce, in the presence of a throng which filled the interior of the four walls of the building and crowded the thoroughfare on either side of the church. Mayor E. A. Schofield acted as chairman, and seated with him on the platform were Sir George E. Foster, Rev. G. D. Hudson, pastor of the church; Rev. R. J. Colpitts, Hon. Dr. W. F. Roberts, L. P. D. Tilley, Rev. Isaac Brindley, Rev. H. L. Blesser, Rev. Dr. David Hutchinson, F. B. Gray, Rev. H. B. Clarke and other city ministers. The hymn "All Hail the Power of Jesus' Name" was sung, after which Mr. Colpitts read the eighty-fourth Psalm and offered prayer. Mr. Hudson then introduced Mayor Schofield, who made a brief address. Hon. W. E. Foster and Hon. J. B. M. Baxter both sent their regrets at being unable to be present, and expressed heartfelt good wishes to the pastor and congregation. L. P. D. Tilley announced that Dr. Baxter had deputed him to come in his place. He spoke

George H. Hudson, Mrs. Joseph Christie and Mrs. Edward Linton. Over 500 guests were served. The financial results of the day were particularly gratifying to the congregation.

YESTERDAY IN THE CHURCHES

There was an exchange of pulpits in the Exmouth street and Centenary Methodist churches yesterday, Rev. H. A. Goodwin officiating at the morning service in the Exmouth street edifice and Rev. G. F. Dawson, pastor of Exmouth

street, conducting the morning service in Centenary. At the evening service in Exmouth street church the pastor began a series of sermons on Christian warfare. Last night he spoke on the subject of "Invisible Enemies," taking his text from the letter of Paul to the Ephesians and speaking of the evil forces which are aligned with the powers of darkness in the fight against human morality. There was an excellent attendance at the evening service in Centenary church and many remained to participate in the Sacrament of the Lord's Supper. The congregation of Carlton Methodist church was addressed yesterday morning by Rev. H. B. Clarke, pastor of the Portland Methodist church, whose pulpit was occupied by Rev. Jacob Henney, pastor of the west side con-

gregation. In the absence of Rev. A. S. Bishop, pastor of the Fairville Baptist church, who is attending the Boys' Work Conference at Grand Falls, the morning service in his church was conducted by Rev. P. B. Gray of the Waterloo street Baptist church and the evening service by Rev. Mr. Purdy, financial agent of the Maritime Home for Girls. Taylor McEwen, Boys' Work secretary of the Y. M. C. A., conducted the morning service in the Waterloo street Baptist church and gave a striking address under the title "A Commendation and a Challenge."

In Knox church the evening service was especially choral, marking the introduction of the new hymnal, which will be in general use in the Presbyterian churches in the future. A new weekly leaflet announcing the coming events in church organization also made its first appearance at the service in Knox church yesterday. Rev. Moorhead Legate, the minister, took for the subject of his sermon in the evening "Songs of the Sanctuary" and gave a very interesting account of the history of music in the church. He regretted the fact that the tendency had been for the people to join less and less in the singing and he spoke of the great uplift to be found in whole-hearted congregational singing. Flung conventionalities to the winds and speaking boldly of things as he has seen them, Dr. F. W. Schofield, bacteriologist of the Severance Medical College, Seoul, Korea, and missionary under the Presbyterian Mission Board of Canada, denounced the commercialism of so-called Christian peoples and declares that it is increasingly difficult for the Eastern people to be evangelized as they learn of the lives of the people of European and American Christian nations. Dr. Schofield addressed the congregations of St. Andrews and St. David's churches at the morning and evening services yesterday and in the afternoon he spoke to the Sunday school of St. Andrew's church.

The first of a series of sermons based on Biblical prophecies and present-day situations, was delivered in St. Luke's church last night by the pastor, Rev. R. P. McKim. His subject was "The Bible and the Newspapers." The newspapers in their published reports were showing, he said, that the prophecies contained in the Bible were being fulfilled one by one. At a special service for the men of the Brotherhood class in the Ludlow street Baptist church last evening, Rev.

W. R. Robinson, pastor of the church, was appointed a delegate to attend the world's meeting of the Brotherhood at Washington, D. C. from Oct. 9 to 18. Rev. Mr. Robinson addressed the meeting and at the close of the service George T. Ring presented to him a check covering all expenses connected with the trip.

War Widows as Brides. London, Eng., Oct. 4.—War widows are remarrying in large numbers. Official figures show that they are marrying at the rate of 2,000 a month, and of the 285,000 widows all are expected to be remarried by the end of 1927, the same ratio is maintained.

The Lost Kitchener

THERE was a despatch from the Front. It had gone to the War Office—to Kitchener, and Kitchener was nowhere to be found.

Britain's Premier awaited irritably for news of his whereabouts. His Cabinet gathered around him supplying various suggestions as to his whereabouts, while the Premier muttered something about "D—d cheek." This is one of the illuminating incidents, told in Mrs. Asquith's story that leave a vivid impression of the breathlessness and uncertainty and crucifying suspense of those first grim days of war.

There are other stories of the rough wooden crosses taken out on her first visit to the front, to be planted under gunfire. Other stories and incidents, too, that could only be told by one who lived, as she did, in 10 Downing Street in the crucial days of the Empire and of the world.

Interesting as all Mrs. Asquith's recollections have been, this instalment has the added interest of being a cross-section of history from the inside.

Many Other Articles of Moment

There are many other articles and stories of unusual interest in this number that can only be outlined briefly here, any one of them being worthy of serious consideration.

"A Straight Talk on Courts," by Magistrate Emily F. Murphy, is a challenging article questioning whether our police courts, in their ideals or practice, are really serving the community, or are doing anything for the criminal other than inflict punishment.

"From Dominie to Dominance," by J. L. Rutledge. Some record of Canadian public men who have climbed to prominence, partially at

least by reason of the training received as teachers. The list itself is a matter of unusual interest.

People, Personalities and Peculiarities," by Colonel George H. Ham. A further record of the people Colonel Ham has met and known in his long service with the C.P.R. told in the Colonel's own inimitable style.

Stories of Unusual Interest

"The Pig in the Parlor," by Nan Moulton. "The Skipper's Business Affairs," Henry P. Holt. "The Piano and The Patent Washer," a Jeff Crane Story, by C. W. Stephens. "The Little Warrior" (serial), Pelham Grenville Wodehouse. "The Parts Men Play" (serial), Arthur Beverley Baxter.

Sound Teeth Promote Good Health

Doctors claim that many diseases of the stomach are due to bad teeth. Dentists say that bad teeth are due to coating. Coating forms constantly, breeds germs. Those germs attack the enamel, penetrate to the sensitive interior, and undermine the whole tooth structure. They enter the system and cause other ills. Sound teeth and good health demand that you remove that coating and prevent it from accumulating.

Minty's Tooth Paste Promotes Good Teeth

Minty's absolutely destroys and removes harmful germ life. It provides a powerful antiseptic treatment to the teeth, mouth and gums. It turns a messy operation into a pleasant habit. It has a most delightful flavor. It leaves a remarkable sensation of wholesome cleanliness long after using. It's necessary to good teeth, just as good teeth are necessary to good health. Insist on Minty's—there's NO "just as good," because it means:

A dealer said today that chocolates with nut centres had taken a slight drop, but very slight. CHEAP FRUIT

St. Catherine's Growers Letting Peaches Go at Eleven Quarts for Quarter.

Toronto, Oct. 4.—The Globe this morning publishes the following special dispatch from St. Catherine's, dated yesterday:—
Today, in answer to the advertised invitation of fruit farmers, people went with their baskets to the peach orchards and got eleven quarts of the best fruit for twenty-five cents. Growers declare they are money in pocket this way, as by shipping peaches to Toronto and other cities they don't clear a quarter dollar a basket. Baskets cost them twenty cents each, they say. If the public would only use reasonable care and not break down the trees, they might have all in my crop that way, said one grower today.
Another grower said that he figured the cost of picking, packing, transportation and baskets on a consignment of peaches he sent to Toronto recently and found he was just \$10 out.
"I would have been money in pocket," he said, "had I left the peaches right on the trees and let them rot."

POLICE COURT

"No one give it to me Yo' Honor, I jes' took it! I was nursin' a sick lady in Carleton and she had some there and I took one drink," was the reply given to Sitting Magistrate Henderson in the police court this morning by a colored woman charged with drunkenness when he asked her where she got the "stuff" that made her drunk.
A sad feature this morning was the appearance of five juveniles in court on various charges, their ages ranging from nine to fifteen years, and some of them having police court records. Each juvenile case was held behind closed doors and all were remanded so that their characters might be looked into with a view to reforming them. One of the lads, aged fifteen, was charged with carrying a concealed weapon and also threatening to cut Donald Patterson with a knife. Patterson said he was walking along St. Patrick street when the accused accosted him and tried to start a fight asking him to come into an alley, but the complainant said he would not do that and the accused then said he would cut him with a knife.
The complainant's mother, Mrs. Lillian Peterson gave evidence. Detective Saunders, who made the arrest, said that when he found the lad to the police station he found a large bread knife concealed in his trousers. The detective said the accused smelled as if day had been drinking lemon extract. The lad has a police court record.
Two juveniles, aged eight and nine years, respectively, charged with wandering about in Rodney street, West St. John, early this morning and not being able to give satisfactory accounts of themselves, were also remanded for consideration. These lads are also well known to the police.
Two other juveniles aged eleven and thirteen, were charged with acting together in breaking and entering the store of T. McAvity and Sons, Limited, King street, and stealing two flashlights and two rifles valued at \$26.50. They were arrested last night by C. N. R. Inspector James Ryan and on appearing in court this morning pleaded guilty. They were remanded on charge by George McVane, given in charge by his father on charge of assaulting his brother, 304 Union street, Sunday night and was fined \$20. At the request of his father, the fine was allowed to stand on condition that the man leave the city. It is understood he is going to New York tomorrow evening.
Louis Daley, pleaded guilty to the charge of being drunk and fighting in Haymarket square and fines of \$20 or two months for fighting and \$8 or two months for being drunk were imposed. Four persons charged with drunkenness were arrested over the week end. One of the number was sent to the hospital as a result of injuries received when he fell off a team, while the other three one of whom was a colored woman, was fined \$8 each or two months in jail.

CITY TO SEND

ULTIMATUM TO LOT OWNERS

Matter of Water and Sewerage Connections in Douglas Avenue Disposed Of
Owners Must Do the Work or City Will at Their Expense—Repairs to No. 7 Fire Station Authorized—Sidewalk on Private Property.

Definite action towards the installation of water and sewerage services to the vacant lots in Douglas avenue was taken by the common council in committee this morning, when Commissioner Jones was authorized to notify the owners that unless they proceed within fifteen days to do this work the city will proceed to make the connections at the expense of the owner. He was also authorized to have the city engineer prepare plans and specifications of the work to be done.
Mr. Jones said that he took the matter up with the city solicitor, who referred him to the act, which provides that the commissioner shall have power to require any owner of lands fronting upon or adjoining any street, highway, or other place in the city of St. John, in which any common sewer has been laid down to construct a sufficient drain from his house, yard or lot, to and in such common sewer, whenever in the opinion of said commissioner, the same is in writing to such owner, his agent or tenant, of the time within which said drain shall be completed, and in case the said owner, his agent or tenant shall neglect to construct the same within the time specified in such notice, the said commissioner shall cause the said to be done, and shall recover from him in so doing, as also the charge for entering a main sewer, with cost of distress and sale of any goods or chattels found in or upon such house, yard or lot, or by any other method or proceeding prescribed in and by this act for the collection of any rates assessments or arrears thereon (1885, c. 28, s. 4).
He said that notice had already been sent out to the owners, which notice had expired on Sept. 20, but as the notice was under the conditions of the old act and provided for a penalty of \$10 a day instead of authorizing the city to proceed with the work at the owner's expense, the order for the new notice was passed.
Commissioner Thornton was given authority to call for tenders for the painting of the exterior of No. 7 fire station in St. John, and also to proceed with the work of repairs to the same building by day work.
A wire was read from the Standard Chemical Co. of Montreal regarding their application for the rental of the old C. P. shed at No. 1 berth, West St. John, in which they asked for a lease of the property for six months with the privilege of two months' notice to vacate and the option of renewing the lease for a year.
As Commissioner Bullock was absent from the city it was decided to hold the matter over for his return and advise the applicants accordingly.
Commissioner Frink advised the council that he had received an application from the Willett Fruit Co. asking the city to lay an asphalt surface on a private fire-proof alley on their property in Nelson street the work to be done at the company's expense. The commissioner was authorized to have the work done, satisfying himself that there were no private concerns in the city which might be injured by the work. The cost of the pavement was in the vicinity of \$500.

PRINCE SAILS FOR HOME

Hamilton, Bermuda, Oct. 4.—The Prince of Wales sailed at 4 o'clock this evening after a three days' visit to Bermuda. During his stay here the Prince was enthusiastically received.

Portrait of Mr. Walter E. Whitte, of 27, Brompton, London, England, who writes—

"Some three years ago I had a swelling in the knee cap. One night I knocked my knee which caused a little ulcer which in time, no matter what I did, developed across the whole knee. I had one large gaping wound, and with all the care and attention that was given was open for 15 months. Being an all-around athlete, holder of many cups and prizes, I began to give up all hope and ever taking my place again among the athletes. One day one of my fellow workmen inquired how my leg was and told me it was 'Clarke's Blood Mixture' I wanted. That day I bought a bottle, and when I had finished it, I was not only surprised myself, but all my workmates could see improvement. I could bend my knee a little and that gave me encouragement, so I persevered with it and am glad to say seven bottles completely cured me. I am now as well as ever, and am still holding my own as an athlete."

Sufferers from Bad Legs, Abscesses, Ulcers, Cancer, Blisters, Eruptions, Eczema, Itch, should realize that lotions and ointments can but give temporary relief. The cure must be complete and lasting benefit, the blood must be thoroughly cleansed of the impurities which are the cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

Of all Dealers—see that you get Clarke's Blood Mixture "Everybody's Blood Purifier."

HONOR THEIR DEAD HEROES

Impressive Ceremony at Tablet Unveiling at St. David's Yesterday.

In a memorial service of deep solemnity and great inspiration the congregation of St. David's church yesterday morning unveiled and dedicated a tablet to the glory of God and in memory of the fourteen hero members who had made the supreme sacrifice during the great war. There were but few empty seats in the large church and the congregation was greatly moved by the impressive service. The music was exceptionally beautiful and most fittingly rendered.

The act of unveiling was performed by Major J. T. McGowan and the prayer of dedication was offered by the minister, Rev. J. A. MacKeigan, who conducted the service and delivered a sermon of eloquent appeal for emulation of the spirit of self-sacrifice of the men whose heroism was being commemorated.

At the Rally Day service in the Sunday school in the afternoon another tablet was unveiled to the memory of the members of the school who laid down their lives in the war. It was a memorable occasion in the history of the church.

Scarlet Now Color Rage

London, Oct. 4.—Women are going "red" in England with a vengeance, according to fashion authorities. Scarlet is to be the fashionable color for the coming season. Not only must the actual dress and hat be of the brightest hue, but all the accessories must match. Red leather handbags are being sold in large quantities and red-handled umbrellas are bringing high prices. Red gloves, red shoes and red silk stockings are in great demand.

In it he ascribed sentiments to the British prime minister which seemed incredible. Bayonne, N. J., Oct. 4.—Seventy-five women had their waist measures taken here at an apron social. Some of them paid 19 cents, while others paid as high as 60 cents. These People Buy Fewer Shoes They Save Money

Neolin Soles have brought down the cost of shoes by making shoes wear longer.

If all Canadians would wear them a tremendous sum of money would be saved—

Enough in one year to build and furnish the new Parliament Buildings in Ottawa or to develop over one million horse-power of electricity for industry or to supply Canadian farmers with 4,000,000 bushels of highest grade wheat seed.

Many Canadians have written to us about Neolin Sole economy.

These letters are mighty important to you. They point the way to a real downward movement in the H. C. of L. Read them.

And remember that these people who are saving money, are also experiencing a new shoe-comfort. Their new shoes need no breaking-in. The soles are flexible and light—from the start. Their feet are protected from dampness.

Why not ask your shoe merchant to show you the many styles of shoes on Neolin Soles for men, women and children?

You can be sure of Neolin Sole quality only when you see the trade mark "Neolin" on the bottom of the sole.

**LAST WEEK OF GOVERNMENT'S
CAMPAIGN OPENS WITH SWING**

Several Big Meetings to Be Held in St. John—Fine Gatherings at St. Martins and Salmon River Addressed By Premier Foster and St. John County Candidates.

The government campaign in St. John city and county is being waged by a host of enthusiastic workers. This evening the two mass meetings for women will hold the centre of attention with all the candidates speaking at both the North End and city meetings, assisted by Mrs. E. Atherton Smith and Mrs. Richard Hooper. The city meeting is to be held at St. Vincent's Auditorium and the North End meeting at the Palace Theatre after the first show.

Tomorrow evening is to be devoted to a whirlwind tour of the wards when the four candidates will speak to the workers on the progress of the campaign. A mass meeting for men and women will be held in the Imperial Theatre on Wednesday evening, at which the four city candidates will again be speakers. Big general meetings will also be held on Thursday evening both in the north and west ends. Premier Foster will be in Albert county that evening and the remaining candidates will probably be assisted by another member of the government or another outside speaker.

The county campaign is going most favorably for Messrs. Bentley and Curran. The two candidates will have meetings Tuesday evening at East St. John and at the Manor House, and possibly at Lunenburg, on Wednesday.

A Fine Meeting.

Hon. W. E. Foster and Messrs. Bentley and Curran, the good government candidates in St. John county, were accorded a triumphant reception when they went to St. Martins on Saturday evening and addressed one of the largest political meetings ever held in that parish. Premier Foster is a native of Salmon River, in the parish, and at another meeting there he was honored by the people of his old home. The premier and the candidates were ably assisted at both meetings by William M. Ryan, of this city, who spoke for the province and outlined the growth of the western provinces during recent years.

The war had been fought to eliminate war. He was opposed to anything that would tend to perpetuate the war habit. The high cost of living was a world-wide question and was a natural result of the war's aftermath economy and increased production.

KILLED AN EAGLE

The dogs ran for refuge into a shed and the eagle, circling the building saw a day old calf that stood on wobbly legs in the lee of a barn. The eagle shot upward to get a better chance to make a savage strike at the terrified young animal.

But just then Dewey Duggan came out of the Purdy house with a 20-bore choke gun, containing No. 6 duck shot, for which he went when the eagle sighted the dogs. The huge bird volplaned around and settled on the fence instead of attacking the calf.

Duggan aimed at the head and neck of the eagle, a long shot, nearly 100 yards. But it was effective. The big bird tumbled off the fence and began to tear up earth in its struggles. When Duggan came to it the eagle essayed to strike with beak and wings. Duggan kept outside its reach and struck at it with the gun barrel, dealing it full force blows on the neck and head. He soon had the best of the fight and the eagle succumbed.

The eagle measured seven feet from wing tip to wing tip.

The eagle was tri-colored, brown, black and white. It has been sent to Truro to be mounted.

Last year a somewhat smaller eagle was shot at East Wentworth by Wason L. Embree. This one was attracted by the face of Mr. Embree's child at the window of his home and alighted on the verandah railing, whence it flew to a tree, where it was shot dead.

THE BUSINESS COLUMN

EDITED BY MANSFIELD F. HOUSE

Women's Hardware Dept. Is a Big Success

It pays to cater to the women in virtually every line of retail merchandising—even in the selling of hardware. The Wayne Hardware Co. of Wayne, Ind., has found for several years that the women's trade is a big factor in its business—so big a factor, in fact, that the establishment by the store some years ago of a distinct and interesting "ladies department" has been a substantial and unqualified success.

Two Women Who Cash in by Knowing What a Bride Needs. The announcement of a wedding now-adays is something to conjure with. With present living costs, added interest is usually demonstrated in the arrangements made for celebrating the nuptials all the way from the stationary engraver down through the furniture dealer, the florist and the caterer—to say nothing of the clergyman. But perhaps the most interesting and important of all is the bride's trousseau.

THE STEEL MARKET. Among steel products, billets, plates, and sheets have furnished the chief tests on prices in the past week, and all have yielded. An Ohio mill has offered billets at \$20, Pittsburgh and another independent seller has named \$22.

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health. Perth Amboy, N. J. - "For three years I am suffering from a severe female trouble, had backache and a pain in my side most of the time. I had dizzy spells and was often faint. I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and I tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound—that is what makes me so well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills."—Mrs. MARTHA STANISLAWSKI, 624 Penn St., Perth Amboy, N. J.

**ROTARIAN DRIVE
NETTED \$27,000**

Wanted \$20,000 for Boys Home in Montreal

Kiwanis Club Already Has More Than \$16,000 of the \$20,000 It Set Out to Get for Boys' Farm Hospital.

(Montreal Gazette.)
That more than \$27,000 has been realized by the Rotary Club's campaign in aid of the Boys' Home was announced by Henry Phillips, president of the Rotary Club of Montreal, at a meeting held last evening in the Boys' Home, 119 Mountain street, for the purpose of making a final report of the campaign and formally presenting the fund to the board of directors. Those present at the meeting included the boys and the directors and officials of the Home, a representative gathering of Rotarians and their wives, and many others who subscribed to the fund.
Robert Neilson, president of the board of directors of the Boys' Home, introduced the principal speaker of the evening, Mr. Phillips, who spoke as follows:
"When Rotarian W. R. Allen, chairman of the Boys' Work committee, submitted to the directors a proposal that the Rotary Club should initiate a campaign to raise \$20,000 for the Mountain street Home, it required no persuasion but immediately received their unanimous approval, as well as that of the entire membership of the club.
"In the realization of the ideals of Rotary nothing has appealed more to the imagination of its members than the assistance and aid they can exert for the boys who are making their fight single-handed and alone, so to speak, for their existence and a better life.
"To Give a Lift.
"Its great inspiration exists in the fact that it is an opportunity to give a lift and lighten the load for the boys, some of whom are not blessed with good health and strength, and most of whom have not the encouragement of home influences. It was for the purpose of creating these influences, insofar as it was possible, that this institution was originally founded, and in assisting to perpetuate and extend the work the Rotary Club of Montreal has founded its greatest field of activity.
"In the organization of the campaign it was concluded that the executive or board of directors should form the nucleus, members of the club, each member of each team, including the captains, under their leadership, and on behalf of these who carried out the work and in the name of the Rotary Club of Montreal, I desire to thank each and every one who contributed for their generous and cordial response. The objective was placed at \$20,000, which was sufficient only to discharge a long standing debt on the Home, and the amount of more than \$27,000 which had been realized has exceeded our most sanguine expectations. It is therefore all the more appreciated, as it will enable some greatly needed repairs to be made, which will amount to about \$1,200, and the remaining very substantial sum of not less than \$26,000 will be added to the endowment fund.
"On more than one occasion we have had the opportunity of sitting down alongside our smaller brothers of the Boys' Home, and I am sure we will always remember the good time we had one evening last winter at Freeman's Hotel, and again not long ago here on Mountain street. We want very much to have other good times together, and the enthusiasm and interest the campaign has awakened in the Rotary Club will cause the members to be more frequent visitors in the future.
"The campaign week was one of intense pleasure and interest to all of us. The boys are not the only beneficiaries for we of the Rotary Club found our greatest happiness in giving up some time from our busy days to help others and realize in a measure the significance of our motto, 'Not Self but Service.' As the president of the Rotary Club of Montreal, therefore, the honor has been delegated to me and I now have great pleasure in handing to you, Mr. Phillips, a check for the amount that has been subscribed, and in doing so I beg to assure you that it is a moment of supreme pleasure and happiness in the annals of the Rotary Club of Montreal."
Asked No Pledge.
Mr. Neilson, on receiving the check, expressed the gratitude of the board of directors and the Boys' Home to the Rotary Club, and especially to Rotarian W. R. Allen, to whom the initiation of

where the members made reports on their progress.

A FIREPROOF AIRPLANE.
Demonstrated at Hazelhurst Field by the Inventor, Parker H. Bradley.

Minneapolis, L. I., Oct. 2.—Heat so intense that it melted eight-inch aluminum and yet failed even to blister the cloth and wood of an airplane flying at a height of 3,000 feet satisfied Glenn Curtiss and other aeronautical engineers who witnessed a private test here yesterday afternoon that with the adoption of fireproofing methods invented by Parker H. Bradley, air pilots would be assured of safety from fire when flying. Mr. Curtiss expressed his enthusiasm over the demonstration and congratulated Mr. Bradley.

The test, which took place at Hazelhurst Field, consisted of a flight of a Curtiss airplane which had been built according to Mr. Bradley's methods. The demonstration was witnessed by Air Service officials. The machine carried a display of fireworks, and on the axle of the landing gear a number of magnesium sprays which illuminated the field. During the flight the fireworks lighted up the sky and the machine seemingly fell in flames of much greater brightness and intensity than if a gasoline tank had exploded.

After landing an inspection by the aeronautics experts disclosed no marks of fire on the machine with the exception of a two-inch hole burned in the aluminum

the campaign was due. Mr. Lansing Lewis, of the board of directors, said that there was no greater happiness to be obtained in this world than by doing something for others, and he believed the Rotary Club to be the essence of religion, of service and of happiness—in short, of practical Christianity. The result of the campaign was especially pleasing in view of the many demands on the public brought about by the war and the consequent diversion of subscriptions to other purposes. Speaking to the boys, he reminded them that the Rotary Club, in giving the money, asked for no pledge, but that nevertheless, something was due them in return, and the boys could give this by determining to "play the game" through life and make good.

V. F. McAdam, superintendent of the Home thanked the club on behalf of the boys.
The campaign, which commenced on September 18th and closed last night, was conducted by eight teams of Rotarians.
Kiwanis Club Also.
That \$16,000 of the \$20,000 objective aimed at by the Kiwanis Club in its campaign to help provide hospital facilities for the Boys' Farm at Shawbridge had already been subscribed and that the balance would be more than accounted for by Thursday of this week, was the announcement made last evening at a meeting of the club at the Queen's Hotel.
