FOOD THINGS COMING TO THEATRES OF ST. JOHN

POPULAR NOVELIST'S BEST STORY TONIGHT

'Victory,' By Joseph Conrad, Now at the Imperial.

Admirers of Maurice Tourneur productions include practically every motive in the country. Readers of Joseph Conrad's books number into the hundreds of thousands and they are so enthusiastic over the works of the master of fiction that literary critics call them Conrad fans. This rich source of patronage is waiting for the enterprising exhibitor who shows "Victory." Conrad's greatest story and a Maurice Tourneur production. But you don't have to be a "Conrad fan" to enjoy this picture. People who have never heard of the literary sensation of the age are going to be enthusiastic over "Victory." It gave Maurice Tourneur just the opportunity he has been waiting for—a chance to extend himself to the limit. Like Conrad, he lives the sea. His smashing sea scenes captured "The White Heather" and "The Life Line," greater ones feature "Victory." Fights to the death, adventure on the sea in calm and raging storm, brave and black-hearted men and lovely women, and a tender love story, all ranged against the luxurious, fascinating background of the tropical South Seas and reduced in true Tourneur style—it's a picture in a thousand.

COLONEL SAMUEL PARKER, "KING OF HAWAII," DIES

Sugar Planter, Once Queen Liliuokalani's Prime Minister, Left \$6,000,000 to Great Grandchild.

San Francisco, Cal., March 29.—News of the death in Honolulu of Colonel Samuel Parker, former prime minister of Queen Liliuokalani, has been received by cable here.

Colonel Parker, born vibrant and courtier of the old Hawaiian monarchy, was widely known throughout the United States, having spent much time in Washington, and having attended several Republican national conventions as delegate from Hawaii.

Four years ago in Washington he was stricken with heart trouble, from which he had suffered since.

Colonel Parker's grandfather was one of the Boston Parkers, for whom the Parker House in that city was named. He went to Hawaii many years ago and engaged in ranching and sugar planting. He was twice married, first to a princess of the royal family of Hawaii. He was often referred to as the "King of Hawaii."

The principal heir of the Parker estate is Richard Smart, a six-year-old great-grandchild, now being educated in San Francisco, for whom the \$6,000,000 Parker ranch of the Hawaiian Islands is being held in trust.

The residue of the estate, valued at millions, will go to five children of Colonel Parker now living in Honolulu.

EXPORTING OUR BRAIN POWER

(Canadian Finance)

The departure of R. D. Waugh from Winnipeg, for the purpose of taking up his new position on the Sear Valley Commission, prompts the thought that Canada is in sore need of another emigrant. Mr. Waugh has served his city and his country well. He has been conscientious and persistent in his efforts to build up the community in which he has spent so many years. His works have been noted abroad and now we see him chosen for a position which will call for all of those fine qualities as a man and as an administrator which have characterized his career as a servant of the people. His departure is a distinct loss to Winnipeg and to western Canada, but in bidding him "au revoir" we feel that there is consolation in the fact that through him western Canada is making one more contribution to the allied cause.

It is really surprising to know the extent to which Canadians have assisted in guiding the affairs of other nations. Our genial cousins to the south are particularly indebted to Canada in this respect. The Hon. Franklin Lane, who recently had occasion to differ with Woodrow Wilson, is of Canadian birth—this may account for his decision to get on with the business despite the absence of the president from the cabinet meetings. Another Canadian who is serving Uncle Sam and who has received considerable attention of late, is Admiral Sims. The admiral has also been getting into hot water because he persists in agreeing with Bishop Butler's statement that "things and actions are what they are, and the consequences of them will be what they will be; why then should we desire to be deceived?" Admiral Sims has been severely censured because he has ventured the opinion that the British navy may have had

something to do with the winning of the war.

Even in the educational field Uncle Sam has secured assistance from Jack Canuck. Dr. Schurman, for many years president of Cornell University, is a Prince Edward Islander. In every walk of life we find these Canadian ambassadors. Take Minneapolis for instance, the president of one of the largest banks there is a Canadian. Chicago, New York and other large centres are full of these men whose energy and ability has placed them in the front ranks of the business world. We trust that the time is not far distant when we may be able to keep Canadian brains for the development of Canada. We can ill afford to continue this exportation of brain power.

NEW USE FOR ICE

(New York Evening Post)

Up to the present it has been possible only to make small cavities in concrete, but under a new German patent much larger ones can be made. Pieces of ice, corresponding to the measurements of the cavity required, are embedded in the concrete mass, and small channels are introduced to allow the melted ice to be drawn off rapidly.

In this way not only small concrete construction, such as pillars, stairs and beams can be supplied with a hollow space, but large blocks with several chambers, such as those required for walls of houses or ships.

We run across so many people who consistently refuse chewing gum—unless it is Adams Black Jack Gum.

They like to have throat-huskiness removed on damp, raw days.

They have found that the frenzied strain of business eases considerably under the influence of Adams Black Jack Gum.

For these, and other, reasons, men and women, who have never before been suited with a chewing gum, have welcomed Adams Black Jack Gum.

You, too, should try it. Sold everywhere in the blue package, 5c.

GOING OVER TO THE ENEMY.

Leaders of the Standard rubbed their eyes this morning when they read a leading article in that newspaper under the heading: "Prohibition an incentive to vice and immorality."

Reading down the article they were further informed that "from facts that are beginning to come in evidence, it is not unlikely that prohibition may in time become almost as great an evil itself as the evil it was designed to check."

Still further along they are told that "it is a waste of time to talk to the prohibitionists, for they cannot be reasoned with," and that "it is rapidly becoming apparent that there are greater evils than moderate drinking, and that the prohibition of such drinking is one of the principal contributing causes to some of these evils."

Hon. James A. Murray and the other members of the government which adopted prohibition, with the full and complete approval of the Standard, which also expressed great fear that the Foster government would not be in sympathy with this great reform, will feel that they have been wounded in the house of their friends.

Among the things that men and women should talk about, and talk to some purpose, therefore, during the next few weeks, is the selection of the three best citizens available to become members of the city council. It is not to be expected that the voters will differ as to qualifications of different candidates, but if everybody displays a personal interest, seeks information and balances qualifications as between one candidate and another, the net result will doubtless be good.

St. John at the present moment has large ambitions. The next two years should be marked by greater progress than the city has enjoyed since long before the war. It should have a city council composed of men of vision and energy, capable of dealing promptly and ably with every matter coming up for decision.

The joint stock company which is composed of all the taxpayers should have its affairs administered by men at least as able as those of any great business establishment or industry.

These considerations are presented in the hope that they may influence the readers of this paper to take a personal interest in the coming elections, so that the full vote may be polled and a wise choice made.

For why should a man elected be too much concerned about the city's welfare if he people themselves are utterly indifferent? Nothing will tend so much to quicken his interest in his work as the knowledge that the people are taking a keen personal interest and looking for results.

Elgin, the western outskirts of Chicago and North Shore and western suburbs were in the path of the storm which destroyed hundreds of buildings, uprooted trees, and demoralized railroad traffic and telegraphic and telephone communication before dying out on the shore of Lake Michigan just north of Chicago.

The fury of the tornado was felt chiefly at Elgin and Melrose Park, a Chicago suburb. Eight were killed and more than 100 injured at the former city, thirty-six miles west of Chicago, and the property loss there was estimated at \$4,000,000.

In Chicago proper two persons were killed and a score injured, while at Dunning, a north western suburb, four deaths were reported, more than a hundred were injured and 1,000 made homeless.

Prince of Wales' Horses May Be Raced in Canada Regina, Sask., March 29.—The Prince of Wales' thoroughbred race horses from the Windsor stud, England, which are being sent to the western Canadian race tracks during the coming summer months, will be raced in Canada.

HALIFAX WELFARE BUREAU. The Halifax Welfare Bureau is seeking incorporation. The objects of the bureau are to be as follows: To form a centre of intercommunication between the various churches and charitable organizations of the city and foster harmonious co-operation between them and check overlapping relief, investigate and report on applicants for relief referred to the bureau, provide visitors to attend cases needing counsel, and obtain adequate relief, procure work for persons capable of being wholly or partially self-supporting, repress mendacity by those means and prosecution of impostors, work at plans to help families to help themselves, promote the general welfare of the poor by social and sanitary reform, medical instruction, and inculcation of habits of providence and self-dependence, etc.

The bureau is to be composed of members of the board of directors and committees of the bureau and all volunteer assistants in the work and who contribute \$1 or more a year.

DAYLIGHT TIME. London, March 28.—The clocks were pushed in London one hour at 2 o'clock this morning in keeping with the daylight saving scheme.

THE CIVIC ELECTIONS.

Once in two years the people of St. John have a decisive voice in civic affairs. They have then an opportunity to choose a majority of the city council for the succeeding two years.

From time to time in the street and in letters to the press there is criticism of the city council, which in some cases extends also to the form of city government. Under no form of city government, however, will the city get any better service than it chooses for itself.

The date of the civic election draws near. It is not a matter which concerns a few people, but all the citizens. It touches them more closely than does a provincial or federal election, for the city council levies taxes and deals with the immediate concerns of the taxpayers.

The citizen who takes no interest in the civic elections has no cause for complaint if the city should be badly governed. It is his affair, and if he displays no interest he deserves no sympathy.

Among the things that men and women should talk about, and talk to some purpose, therefore, during the next few weeks, is the selection of the three best citizens available to become members of the city council. It is not to be expected that the voters will differ as to qualifications of different candidates, but if everybody displays a personal interest, seeks information and balances qualifications as between one candidate and another, the net result will doubtless be good.

BACK TO NORMAL.

We won't get back to normal ways until we've had some rainy days. So long as roubles grow on trees, and greenbacks wave in every breeze, we'll hit high places and repeat, and scorch the length of Easy street. We can't be prudent while the rest are showing money galley west. It's epidemic, like the flu, this gorgeous spendthrift howdoy.

Some day a panic, large and pale, with four white feet and braided tail, will land us while we spend, and to our orgy put an end. Then you will see men out of jobs and will hear the howling sobes; and then we'll quit blowing useful coin for canvasback and tenderfoot, and thank our gods if we've the price of wholesome beer off the ice. And we'll cut out the silk attire, the princely tips, the chauffeur's hire, and all the costly pomp and vain, and demonstrate that we are sane. Then every state and chastened spirit will ponder ere he spends a cent, and figure for a weary time before he cuts loose from a dime.

SPAIN QUITS THE WEST.

On March 28, 1920, in the presence of British and Spanish officers the flag of England was hoisted over Fort Nootka, from which the Spanish flag had been hauled down. Without a shot fired in anger the empire had come into possession of the great Pacific coast after several years of conflict with the Don.

The agreement reached was that officers of the two nations were to repair as soon as possible to Fort Nootka and Monterey to Pacific coast after several years of conflict with the Don. They had contended when the British explored the coast that all the coast was theirs by right of first discovery, and the buildings at Fort Nootka had been burned down by the Spanish on one occasion.

A convention was called by the two nations, meeting in Madrid on Jan. 11, 1920, to consider the Nootka troubles. The agreement reached was that officers of the two countries were to repair as soon as possible to Fort Nootka and Monterey to Pacific coast after several years of conflict with the Don.

Boxed Two Rounds With Major A. J. Drexel Biddle in Hotel Commodore.

New York, March 28.—For the first time on American soil Georges Carpentier, heavyweight boxing champion of Europe, has entered the pugilistic arena, and needless to say, has captured a trophy of greater price than all the diamond studded belts in creation. In two rounds, fought last night, with Major Anthony J. Drexel Biddle of Philadelphia, in the grand ballroom of the Hotel Commodore, where the International Sporting Club gave a banquet to celebrate its register of 1,000 members, the conqueror of Joe Beckett won the hearts of the guests, and he asked neither purse nor forfeit.

DEATH OF REV. ANDREW J. O'NEIL

Many Mourn Loss of Well Known and Beloved Priest and Scholar — Funeral Tomorrow.

The Catholic diocese of St. John was deeply grieved on Saturday evening to learn of the death of one of the most beloved of her priests, Rev. Andrew J. O'Neil, pastor of the Church of the Assumption, West St. John. After about two weeks illness with pneumonia, Father O'Neil passed away about seven o'clock on Saturday evening. Words of keen regret at his passing were expressed from the Catholic pulpits in the city yesterday.

His Lordship Bishop LeBlanc referred feelingly to Father O'Neil at the 9:15 o'clock mass in the Cathedral, at a priest of sterling quality, a brilliant English scholar and of high standing in the community. The diocese, he said, had lost much in the death of this well known and much beloved priest.

Rev. Dr. A. W. Meahan, speaking of Father O'Neil's death during the services in St. John the Baptist church yesterday, said that he was a true Christian gentleman, a most pious and devout priest and always a devoted, devoted friend to all who knew him.

Rev. Simon Oram, who conducted the services in the Church of the Assumption yesterday, delivered a fine sermon in which he spoke of the congregation's loss in the death of their beloved pastor. Father O'Neil was fifty-two years of age and had been quite active in the discharge of his many duties until prostrated by his last illness. He was an earnest, zealous and devoted priest and was ever faithful to his sacred duties until he could no longer fulfill them. Although he only took over the pastorate in West St. John about two years ago—

THE LATE REV. A. J. O'NEIL.

upon the death of Rev. Father Donovan, the former pastor—during that short time he had earned the love and respect of his parishioners, to everyone of whom he was a true friend and a devoted spiritual adviser. He will be greatly missed, not only by his relatives, parishioners and many friends, but by the whole community, for the welfare of which he took such an active part.

The immediate relatives who survive him are one brother, John O'Neil, day deskman at police headquarters; a sister, Sister Perpetua, of St. Vincent's Convent; a nephew, Rev. Joseph McLaughlin, C. S. B., of Turton, and three nieces, Misses Mary, Agnes and Sadie McLaughlin, of this city.

Father O'Neil was a native of this city and well known as a speaker and writer. Many contributions from his pen have appeared in literary journals. He was one of the best known and most popular priests in the diocese. He delivered an eloquent eulogy at the funeral of Rev. Father O'Donovan and at that occasion, it may be said, was introduced to the members of the congregation as the next pastor.

Because of Father O'Neil's ability as a speaker he has been sought by many of the churches of the diocese on special occasions. While in the priesthood he always displayed marked zeal, and his efforts had met with success. He took a classical course at the University of St. Joseph's College, Memramcook, N. B., and pursued his theological studies at the Grand Seminary in Quebec. He was ordained to the priesthood in 1892 by the late Bishop Sweeney. He remained attached to the cathedral of the Cathedral for ten years and was then transferred to St. Joseph's church, succeeding Rev. Father Cormier of Moncton. For sixteen years he was the beloved pastor of that church and during that time endeared himself not only to the members of his flock but to all with whom his priestly duties brought him in contact.

Upon his appointment to St. Joseph's church he became chaplain of St. Patrick's Industrial School and his work also included the Municipal Home and the Boys' Industrial Home. His labors in these institutions had borne fruit. At his silver jubilee as a priest the members of his congregation as well as people in the institutions showed how much they appreciated his kindly ministrations; no tribute was too great for their pastor and chaplain.

This evening the body will be taken by a guard of priests of the diocese acting as pallbearers—from his late residence to the church where a guard will be placed over it during the night. The men of the congregation met yesterday afternoon to make arrangements and to choose the guard of honor. A pontifical high mass of requiem will be celebrated at 10 o'clock on Tuesday morning by His Lordship, Bishop LeBlanc, in the Church of the Assumption, and the funeral eulogy will be preached by Rev. A. W. Meahan, D. D., pastor of St. John the Baptist church. After the funeral service, the funeral procession will proceed to Silver Falls where interment will take place.

Robinson was in good health until a month ago and her mental condition was unimpaired.

Albert Charlton died at his home in Greer after a brief illness of pneumonia, at the age of forty-six years. He leaves one sister and three brothers.

After a lengthy illness suffering from consumption, Mr. Allan Boyle, of West Bathurst, died at his home there on Tuesday last. Mr. Boyle, who was about fifty-five years old, is survived by his wife, three sons, the eldest only sixteen, and one daughter.

The death of Miss Sarah Hunter, daughter of John Hunter, Erb Settlement, took place recently as a result of blood poisoning caused by her hand being scratched by a tick.

A wide circle of friends will learn with regret of the death last evening of Miss Emma Heams, at her home, 85 Paradise row. She is survived by three brothers—Frederick, William and Charles, and three sisters—Miss Laura, Mrs. W. H. Willis and Mrs. George L. P. Swetka, all of St. John.

The death of Hubert E. Pelipas, ledger keeper of the Canadian Bank of Commerce at Antigonish, N. S., took place Wednesday at the Halifax hospital after a severe attack of influenza. He enlisted with the 165th Battalion and was afterwards transferred to the Royal Air Force.

The death of Miss Ella Belyon, formerly of Hartland, took place at Beloville Falls, Vt., after an illness of pneumonia, at the age of eighteen years. She

FUNERALS

The funeral of Frank Nice took place yesterday afternoon at 2:30 from his late residence, 129 Union street. The services were conducted by Rev. J. H. Jenner and interment was made in Greenwood cemetery.

The funeral of A. Wesley Baker took place on Sunday afternoon at 8:30 from his late residence, 188 Winlow street. The service was conducted by Rev. J. Heaney, assisted by Rev. J. H. Jenner. Interment was made in Cedar Hill cemetery.

The funeral of Mrs. Catherine Lorene Foster took place from the residence of her uncle, Michael Caples, 49 Paddock street, to the Cathedral on Sunday afternoon at 2:30 o'clock. Rev. William Duke officiated. Interment was made in the New Catholic cemetery. Relatives acted as pallbearers.

The funeral of George Murray Miles took place yesterday from the residence of his mother, Mrs. Ida M. Miles, in Main street at 8:30 p.m. The service was conducted by Rev. Dr. D. Hutchingson and interment was made in Fernhill cemetery.

The funeral of Captain Andrew Robertson took place on Sunday from his late residence, 118 Bridge street, at 8:30. The service was conducted by the Rev. S. S. Poole and interment was in Fernhill cemetery.

The funeral of the late Henry Kenney took place yesterday afternoon from his late residence, 298 Main street, to St. Peter's church where the funeral service was performed by Rev. Edward Scully. Many floral wreaths were laid upon the casket as tokens of the respect in which the late Mr. Kenney was held. Among these was a broken wheel of roses and carnations given by the conductors and motormen of the New Brunswick Power Co., as Mr. Kenney was a motorman in the employ of the street railway. As many motormen and conductors as could be spared from their duties marched in the funeral procession and preceded the hearse to the New Catholic cemetery where interment took place. He leaves his mother, five sisters and two brothers.

RECENT DEATHS

Mrs. Mahala Perry, widow of Joseph C. Perry, died at her home at Killam's Mills on Saturday, March 13. She had been in failing health for two years. She was eighty-two years of age. She leaves to mourn two sons and two daughters, Eben, at home, and Howard B., of St. John. The daughters are Mrs. R. W. Keith, of St. John, and Mrs. J. Wesley Richardson, of Antinole. There are nine grandchildren and six great grandchildren.

An old and respected resident of St. John died on Saturday in the person of Miss Ellen Robinson, 55 Union street, daughter of the late James and Elizabeth Robinson, aged eighty-one years. Miss

Seven Days Till Easter

Really a very short time to decide upon all the details of the Easter Costume, isn't it?

Do you seek in your Easter Apparel distinction in line and design? Do you want the Suit, Coat and Frock to have the irreproachable "designed and made-for-you" air? If you would have all of these combined in one you have only to choose from our wonderful collection of Spring Fashions. The wide range of Frocks that have distinct individuality; of Suits unique and original in design; of Coats smart and swagger, cannot fail to influence the choice of your Easter wardrobe.

Captivating Suits for Easter

Many individual models. A trim and trig new suit is the first essential to the Easter wardrobe. It is as necessary in spring as Furs are in winter.

One just cannot be suitably dressed in Springtime unless there is a smart tailor-made in one's wardrobe.

Suits of exceeding style and beauty have been selected with great care for our spring shows.

Each model individualized by some special touch of smartness, braid bound or braid trimmed, novel cuts or clever emphasis of seams on hips, or pockets, narrow belts of leather, silk lined and with every nicety of finish to ensure shapeliness and real style; developed in Tricotines, Point Twills, Gabardine, Serges or Tweeds.

\$40 to \$150.

THE NEW DRESSES FOR EASTER SHOW MANY NOVEL STYLE FEATURES

There are sprightly Frocks of Taffeta—graceful Gowns of Georgette and Satin—Spring-like models of flowered Georgette—Smart tailored Dresses of Tricotine or Serges, braid, beads, rich embroidery are effectively employed as adornment.

Some are of tailored persuasion, others are buoyant with bouffants, ruffles and sashes.

\$25 to \$87.50.

WHAT YOUR EASTER COAT WILL BE

That depends. For you may have a fondness for the soft Silvertone and Gabardine or your personality may demand Serge, trim looking Tricotine or beautiful Polo cloth. But whatever your choice of material or design may be if selected in our "Apparel Shop," it will assure you of securing something truly stylish and quite out of the ordinary. For the greatest care has been exercised to include only the new, the smart and the becoming.

DELEGATES ARE HOME AFTER THE G.W.V.A. MEETING

Resume of Proceedings at Convention in Montreal
The Matter of Re-Establishment Warmly Debated—Important Resolutions of the Closing Day—Visitors Well Entertained.

Local and provincial delegates to the annual convention of the Great War Veterans' Association, held in the Windsor Hotel, Montreal, last week, closing on Saturday, returned to their homes today. The St. John delegates were N. P. McLeod, W. J. Brown and J. B. Dever, while others in attendance from New Brunswick were Vernon Grimmer of St. Stephen, J. H. Priestman, McArthur, A. E. Barton, Moncton; W. D. Richards, Fredericton; and J. E. Rice, Edmundston. A. E. Frame, provincial secretary, was in attendance, but went to Ottawa last night with a delegation appointed to interview the government regarding re-establishment.

and west. While the convention went on record as in favor of a full measure of re-establishment, different views were held as to how it should be applied, especially with regard to the problem of re-establishment and the question of opening wider the door to membership. On both these questions there was a distinct difference of opinion between east

The majority opinion from the maritime provinces was in favor of a policy of re-establishment for the returned soldier as outlined by the special committee of the G. W. V. A., which had dealt with parliament last year and which had deliberated the question studiously and from a dominion wide viewpoint for some months. Their argument was that this policy, which had been the subject of such careful consideration,

should be adopted rather than the Calgary resolution which they regarded as a "quit claim" upon the government "for services rendered," and which it was held had not been so seriously studied.

The convention were united against entrance into politics as a body, but voted to permit political discussion within the various branches so long as it pertained to the well being of the association. There was unanimity also in a resolve not to permit of any religious discussion at any meeting. Various other questions were considered, including the housing situation, immigration, education, development of natural resources and the high cost of living.

Well Entertained.

The visiting delegates were royally entertained during their stay. The hospitality of Montreal and the Province of Quebec was appreciated by all. The corporation of Montreal rendered a banquet in the Windsor Hotel, the Knights of Columbus, Lafontaine council, gave a banquet in their handsomely equipped quarters under the auspices of the G. W. V. A., Ville Marie branch. Among the outstanding figures of the convention were Lieut. Col. J. L. Bailston, M. P., Halifax; Major Andrews, M. P., Winnipeg; Brig-General Kirkcaldie, Vancouver; Colonel Greenham, alderman of Montreal; Rev. Canon Scott, Montreal; Major Cyrus MacMillan, professor at McGill University; Col. MacKenzie Forbes, Montreal; Lieut. Col. Hunter, Toronto; and Leonce Plante, a former officer with the 22nd French Canadian battalion, who was unopposed for the office of second vice-president, and who received an ovation. There was one lady delegate, Mrs. Garland Foster, returned nurse of Nelson, B. C., formerly of Fredericton, and she took a keen and active interest in the meetings. Invitations for the convention next year were extended from Winnipeg, Peterborough, Port Arthur, Charlottetown and St. John, and on a vote being taken the delegates favored Port Arthur because of its central location.

Montreal, March 28.—(Canadian Press)—At the closing session of the G. W. V. A., yesterday, several important res-

solutions were passed, among them being:

That, as the present allowances are barely adequate to meet the demands of living, the dominion government be urged to make a special death benefit grant of \$100; that the association encourage in every way co-operative movements among veterans and consider the formation of a centralized buying federation; that the formation of women's auxiliaries be encouraged; that the militia department be asked to make known its policy on a permanent force, which should be up to date and efficient and offered by returned men; that the navy badge issued be cancelled and one bearing the inscription "For Service on the High Seas," replace it; and that a trunk road from the Great Lakes to Winnipeg be built to colonize the north-western part of Ontario and that soldiers be given preference in the selection of labor employed on it; that the convention adopt a resolution renouncing anti-British publications, notably the Hearst papers.

Canteen Profits.
The veterans resolved to petition the government to devote the money received through canteen funds among the units of the Canadian forces, to educational purposes. They asked that the money, which is reported to be about \$2,000,000, be used to establish a scholarship fund for children of former members of the C. E. F., and that after twenty-five years this fund be thrown open to the same purpose for all Canadian children. Another resolution called for preserving the natural resources of Canada for her people and not for exploitation for private wealth, a greater measure of assistance to student soldiers whose studies had been interrupted was urged.

MERGER OF LINES.

New York, March 28.—A merger of several large Italian steamship lines with a capitalization of approximately \$100,000,000, has been effected for further development of Italian trade, according to Captain Angelo Kushani, a prominent Italian steamship operator, who arrived on the steamer Duca D'Aosta.

SALVATION ARMY CONVENTION HERE

A young people's convention was held in this city on Saturday and Sunday by the Salvation Army. About seventy-five delegates between the ages of thirteen and twenty-five were present from Amherst, Fredericton, Woodstock, Moncton, Sussex and Campbellton. The meetings were conducted by Commissioner Richards, assisted by Colonels Mowbray and Chandler, Brigadier Barr, Adjutant Hodgson and Campbell, all from Toronto. Other officers from outside the city were Adjutant and Mrs. Miller, Adjutant Ellsworth and Mrs. Adjutant Hurd. The division staff was also present, consisting of Brigadier and Mrs. Moore and Adjutant and Mrs. Best. The meeting on Saturday evening was devoted to welcoming the delegates, speeches of welcome being made by the division staff and other local officers. A musical programme was also carried out. Yesterday morning and afternoon Commissioner Richards spoke to the convention, his subject being "The Seven Lamps." Seven young ladies were dressed to represent the lamps.

STRIKE LEADERS ARE CONVICTED

Winnipeg, March 28.—Alderman John Queen, William Ivens, W. A. Fritchard, R. J. Johns, and George Armstrong, leaders in Winnipeg's general strike of last summer, Saturday afternoon, were convicted by the assize court jury of seditious conspiracy on account of their actions in connection with the strike.

They also were convicted of having committed a common nuisance. R. E. Bray, was found not guilty of conspiracy but guilty of committing a nuisance. Alderman A. A. Heaps was found not guilty on all counts. There were scenes of disorder among the crowd in the court room. Through a mistake it went from mouth to mouth that the accused were not guilty. A wild cheer arose. Mr. Justice Metcalfe, in the court, annoyed by the noise, promptly ordered the court to be cleared. A squad of constables with Deputy Sheriff

THE BUSINESS COLUMN

EDITED BY MANSFIELD F. HOUSE

Employees' Hour

Proves Big Success.

The manager of the Sacramento Store, in Sacramento, Cal., wanted his employees to feel that he was not "the boss" or "the old man" but a fellow worker and a friend. He wanted them to make suggestions or ideas and to come to him with any complaints they might have. He told his department heads that he would like to have them tell all the employees that the manager would be glad to consider any suggestions. But no suggestions resulted.

He wouldn't admit what many executives had been forced to say after trying the same plan—that getting a suggestion from an employee was very nearly impossible. So he posted this bulletin:

THE HOUR WHEN YOU'RE BOSS.
To You—Hereafter, from 10 a. m. to 11 a. m. you are to be the boss. I want you to come to my office and tell me how you think we could attract new customers, or where I am pursuing my "wrong policies"—or tell me anything that may be tormenting you as a good idea. If you have any kick coming, come and kick your damndest. Don't be afraid to say what's on your mind. Remember that that hour is when you're boss, and act accordingly.

For the first two weeks," said the manager, "not a single employee came to see me about any suggestion. I almost began to give up the idea, when a sales-lady came in and told me that she thought some special effort should be made to move the stock of laces which she had at her counter. I looked into it and found that we were, indeed, very much overstocked with those particular laces and immediately instructed our advertising department to feature the laces in an effort to move them. The

stock was soon down to a reasonable size. If the saleswoman had not made the suggestion, we would have sold all the laces in a special sale, at cost.

"During the third week there were three suggestions made. During the fourth, there were five. Then the word began to spread around that the boss was a pretty good fellow, after all; every employee who came in and talked to me went away feeling that he knew me—and if you can make every employee feel that you know him and are watching him, you have taken a big step forward. Instead of looking upon me as some sort of slave-driving grocer, they began to like me. And they worked with more interest and enthusiasm.

"Many of the suggestions that have been made, when tried out, proved to be worth hundreds of dollars in the new trade they could bring us or the saving they could make.

Now I would never think of changing this Employees' hour plan. Almost every week at least twenty or thirty employees come in to see me at that time, to consult with me on everything from store policies to a new name for the baby. It has done a great deal to develop the feeling that we're all just one big family, working together.

If Music Helps Cows, Why Not Figs and Hens?

When the Bell company was despatched to ever doing any soda business, a traveler for a fountain manufacturer happened into the store and was told

by the owner that he would appreciate some assistance in selling rid of the soda fountain, as there wasn't enough business to justify its expense.

The traveling man looked around the store and noticed, back of the prescription case, a large vacant room. He persuaded the pharmacist to move the prescription case to the far end of this room. The result was a fair-sized space in the center of the store. Then a phonograph and some dance records were brought in. Following an invitation to customers and the public generally to enter and partake of a dance without charge or obligation, the store was soon crowded.

Of course, the increase in soda fountain business which resulted was substantially reflected in every other department of the store, and the Bell company has forgotten any intention it ever had of selling its fountain.

One More Shirt and We'll All Go Home!

Manhattan shirts are selling over the bar in the old Forum saloon at Oakland, Cal., in place of Manhattan cocktails.

Pajamas are in the ice chest, collars on the bar and the pickle bowls on the free lunch counter are filled with garters and collar buttons—dry goods instead of food.

When prohibition scored a knockout in the contest with John Barleycorn in January, the former owners of the Forum emptied the cash register and departed. Lyne Stanley, who was wearing over the expiration of the lease of his haberdashery nearby, saw a great light, secured a lease on the premises and moved his stock.

Outside of the addition of a little shelving but few changes have been made in the interior of the place, whose fixtures cost in the neighborhood of \$40,000. The old bar, with its brass rail, the mirrors, refrigerator and free lunch counter are still in place and Stanley, attired in the white garb of a bartender, is serving shirts in place of whisky punches and collars instead of lager beer. Some of the old customers of the place refuse to be appeased unless the ivory cubes are produced and the proprietor occasionally takes them on, the issue being whether they shall pay double price for a silk shirt, or nothing at all.

How Schneider Sold 2 Carloads of Phonographs.

In 1908 H. E. Schneider, president of the Schneider Athletic Goods Co., St. Joseph, Mo., opened his first store of shop in Warrensburg, Mo. His capital stock was some bicycle supplies costing \$8.10 and an old bicycle worth \$8.20.

Last year, with a number of hand-cups and the stiffest of competition, he

sold two carloads of phonographs. He had the courage to tell them that out of town he was going to sell them. Not only that, but when the two cars came to town he looked the bunch on one of trucks and delivery wagons, hired a brass band and paraded through the business district with a clear conscience.

"The parade was worth a \$1,000 to us in advertising," says Schneider, "and it cost only \$100."

"There are quite a few people," he continued, "who have the wrong idea about sporting goods stores being for men only. I see no reason why the up-to-date sporting goods store should be a man's store, though ten years ago we did have a very hard time getting women to come into our store."

"Our sporting goods line does keep some women away, of course, as there has been some opposition to the usual condition of trade, but because he has cultivated an idea to such an extent that people look forward to rainy and slushy days in order to take advantage of the pharmacist's bargain offerings, as they have come to know them.

"Through consistently advertising 'rain-day offerings' for several years, this drugstore's customers have learned to watch for his announcement whenever rain threatens and to buy up his specialties. These are usually broken lines of goods of various kinds and left-overs from holiday trade, but Huggins also directs attention to his stationery, household utilities, dyestuffs, home remedies cleaning compounds by advertising directly to the housewife topical merchandise that fits in with housekeeping activities when an epidemic happens to be on hand, etc.

He also makes it a point to render excellent service, telling his customers that if they have a cold to consult a physician and he will send a boy for the prescription, and if they call on him promptly. "That the public knows and appreciates this policy is evidence by the fact that a recent stormy day several patrons telephoned and asked virtually the same question: 'What's your leader going to do tonight, Mr. Huggins? Since I am calling for something I thought that I'd better get it today. I might as well get it if it appeals to me.'

"Ad Critics" Proved Helpful to Betts.

"How closely will women read newspaper and how carefully will they check them up for accuracy when coming in to see the actual goods that were described in the store's advertisements? Two rather interesting questions for any retailer to have answered. In payment of their services Robert J. Betts, advertising manager for Oster Bros. Furniture Co. of Birmingham, Ala., thought so, and adopted a novel plan of action with a view to at least getting a line on the proper answers to these questions already stated, as well as driving home the point which he had made from time to time that the advertiser's ads don't pay per cent truth."

First of all, he called up a dozen women who he knew frequented the store with whom he was well acquainted and appointed them his official "ad critics." He asked them to watch Oster's ads and see if they could catch him in a misstatement or advise him in any way how the style of the ads could be improved so as to make them more interesting and appealing to women. In payment of their services he offered to give them a \$3 "discount check" for every helpful suggestion they made in or for any misstatement they caught in any ad. All criticisms, however, had to be written and mailed in while this naturally was an inducement to these particular women to look for things to criticize in Oster's ads. Betts knew human nature well enough to be pretty well satisfied that the twelve critics would locate and point out about the same errors that any other twelve or 1,000 of the same sex would be apt to locate. Later events proved that he was right.

So successful was the contest in demonstrating to the twelve women that Oster's ads told the truth, and were interesting reading always, that Betts extended the circle of critics by advertising the contest open to any woman to give worth-while suggestions or to show where Oster's ads weren't 100 per cent true. The big contest was scheduled to last one month, and instead of giving a \$3 discount check, some small piece of newly furniture was given to each successful critic as a prize.

Betts says: "It was the most successful stunt we ever put on. Critics poured in from small towns and country districts in never even dreamed we reached with our advertising. We not only got many tips of genuine value, but we accumulated a fine mailing list and what is more, we became convinced that women do read newspaper advertisements, that they like to know they are reading the truth, and will spread your name and fame if you stick to the absolute truth."

"Poor Dodge"

Another pailer for monthly statements was used by a local drug store. In the days before the war the store used to accumulate a large quantity and variety of small sample of various products for distribution. Instead of spending newspaper space this time the proprietor saved the samples until the end of the month. Then at the bottom of his statement forms he had this notice imprinted in imitation typewriter type to match his billing machine:

"When you call will you ask for the little bag of assorted pills we have for you? They are free."

That seemed to please the women. Returns from the statements were prompt and very nearly complete, a supply of bags being made by judicious grouping of the samples. A dry goods store offers a bargain at the bottom of its statement.

PORTLAND ROLLING MILLS TO OPERATE

Ask for Continuation of Fixed Valuation—The Corona Co. Assessment—City Workmen Claim Discrimination in Wages.

The matter of legislation with regard to fixed valuation for taxation for two local industries was taken up by the common council in committee this morning. W. K. Ganong and C. F. Sanford brought up the matter and the Corona Co., Ltd., in connection with which legislation had already been prepared by the council fixing the valuation at \$40,000 for a period of twenty years, but the term had been reduced to ten years by the committee of the legislature last week. The delegation asked the council support the bill for the full term.

When the matter came before the committee of the legislature, the mayor said, the term of years was cut in two. Mr. Sanford said that when the fixed rate had been asked for for twenty years, the company had been offered better terms by a western city but declined to remain here and spent a large sum of money—in the vicinity of \$100,000—in improvements and extensions. The company was to double the number of hands, making the average payroll 1000. Mr. Ganong said they had now 235 employees on the roll. Mr. Sanford asked that the city back up the bill.

Dr. J. B. M. Baker said that he did not take the stand for which he was commended by one of the local newspapers. The bill fixed the valuation at \$40,000.

The council promised consideration and the delegation withdrew.

Harry Garson, Frank Garson and George W. Day appeared to ask that legislation be sought providing a continuance of the matter of fixed valuation for the property of the Portland Rolling Mills, which they proposed to put into operation in the near future.

The mayor said that a bill had been prepared providing for a valuation of \$8,000 for a period of five years for this industry, but when it was learned that the mill had caused hands to be discharged. The bill had already been introduced.

Mr. Day said that Mr. Garson was proposing to operate the mill and employ a few more hands. The valuation might be increased to about 100 later. It was planned to run the spike shop as a twelfth month operation night and day. He expected to start about the first of next week. Mr. Garson said he had also purchased the land on which the mill is situated.

The matter was recommended to council tomorrow, the city solicitor advising that if the new purchasers had obtained the charter of the original company the bill already prepared would cover the matter. Otherwise the addition of a clause taking in the purchasers of the plant would be necessary, but the advertising already carried out would be all that was necessary.

Matter of Wages.
A delegation from the City Public Service Employees' Union consisting of F. A. Campbell, A. C. Davidson and George A. King, asked with regard to the wages of some employees of the water and sewerage department which had not been increased in accordance with the schedule submitted by the union some time ago. It was argued that the other city departments had carried out the schedule, but Messrs. Sproul and Barnes and others had not received the increase.

Mr. Jones asked that the delegation give him a report in writing of the cases in question and he would report to the council meeting tomorrow.

Mr. Campbell said that the amount in question ran all the way from 25 cents to \$1 a day in increases which had not been paid since the last time he was asked to look into the matter as an exemption for personal reasons.

Mr. Jones said that he was sorry to have to say that there were employees in his department who, he thought, were not entitled to be would take the committee's written statement and report to council tomorrow.

The matter of daylight saving was brought up but it was decided to leave the matter over until tomorrow.

A special meeting will be held this afternoon to discuss several matters, including that of the paving tenders.

ONE CANDIDATE OUT OF RUNNING

Matter of Taxes About Which Appeal Had Been Made Disqualifies J. F. Belyea.

On account of the fact that the matter of his taxes, about which he appeared before the council some time ago, not being adjusted, J. Fred Belyea, one of the prospective candidates for the office of commissioner in the coming civic elections has been compelled to withdraw from the contest.

Mr. Belyea came before the council again this morning and said that he had applied to the common clerk for nomination papers and was advised by him that he was not qualified. He explained that it was in connection with the payment of income tax about which he came before the council some time ago and since that time has heard nothing.

"You see," Mr. Belyea remarked, "the inactivity of the council in regard to giving me some information in reply to my request, has put me in a very embarrassing position." He asked if the council could not do something so that the payment of his real estate tax would qualify him to run.

Recorder Baxter was present and asked Mr. Belyea if he had paid the real estate tax, to which Mr. Belyea replied that he had. He said that the whole tax was involved in the one bill on which he was seeking adjustment. The recorder said that Mr. Belyea had the real estate tax on account, it might have helped matters at present, but under the circumstances he did not see that the council could do anything.

Mr. Belyea thanked the council for the hearing and withdrew, remarking as he went that "the next best thing is to get another man to take up the call and continue the fight which I have already commenced."

POLICE COURT

(Continued from page 1)
where the bag of flour was, so they went to that part of the wharf and found C. P. R. Policeman Winters with the accused. The witness said that he heard the accused tell Policeman Winters he was not guilty of stealing the bag. He was walking along the wharf and saw it and kicked it as it might have been a drunken man.

C. P. R. Policeman Winter said that on Saturday night about 11.40 he was walking towards Long wharf when he saw two men standing near the edge of the wharf where a bag of flour was lying. When the men saw the policeman arrested him. The bag of flour was lying at the edge of the wharf with a rope around it and there was a row boat moored beneath. The accused said the man who went towards Mill street was the mate of the steamship Canadian Trooper, to the accused and the policeman went on board the steamer and went to the mate's room, where they found the mate asleep. The policeman asked the mate if there had been anybody leave the ship, but he said not to his knowledge; so they went to where the bag was and the mate said it was the same brand that was on board the ship, but it would have been impossible to get it out of the hold of the ship. The policeman told of asking the accused if he was a longshoreman, but he said no, it was too hard work, but he had been selling "hoop" for the last three years.

On cross-examination by B. L. Gerow, counsel for the accused, the witness said when he was taking the accused to the lock-up he noticed some flour on his cap.

C. N. R. Checker Hutton told of checking 500 bags of flour off the steamer Canadian Trooper last Thursday, and on checking them up yesterday there were only 240. The case was postponed until tomorrow afternoon. C. F. Inches conducted the prosecution, and Mr. Gerow appeared for the defence.

Edward Landry, who was arrested last night on a warrant alleging assault, was arraigned and pleaded not guilty but said that his wife assaulted him. His wife gave evidence and the accused was remanded.

James Savage and Pearl Smith, arrested last night on a warrant charged with vagrancy and not having any visible means of support. He was sent below. Eleven men charged with drunkenness were remanded to jail.

MEDICAL OFFICER NOT GUILTY ON FRAUD CHARGE

Toronto, March 28—After deliberating forty minutes the jury returned a verdict of "not guilty" in the case of Dr. Russell Parr, former C. E. F. medical officer, who was jointly charged with Daniel T. Booth, paymaster, with conspiring with others to defraud the Dominion government of \$2,500. Both were on the staff of the department of soldiers' civil re-establishment. Booth, who made a confession, had already been sentenced to six months' imprisonment. In the witness box he swore that Parr and one Roy Wilson, who was in control of the central registry department, in the same unit branch, had shared in the wrong doings.

MINISTERS AGAIN EXCHANGE PULPITS

The usual monthly exchange of pulpits was made by the Methodist ministers in the city yesterday morning. Rev. G. F. Dawson of the Exmouth street church exchanged with Rev. J. Heaney of the Carleton church; Rev. Neil MacLaughlin of the Portland church with Rev. George Morris of Queen Square church and Rev. H. A. Goodwin of Centenary church with Rev. Thomas Marshall of Fairville. In Zion church no exchange was made as Rev. M. E. Conroy conducted a special service for the children in the morning. In the Carnarvon street church the morning service was conducted by Mr. Brindle of the Seaman's Mission and the evening service by Rev. Dr. Steele. Rev. Henry Penna, pastor of Carnarvon street church, is progressing slowly in his recovery from his recent operation and is still a patient in the St. John Infirmary.

The morning service in St. David's church was conducted by Rev. Dr. J. A. Morton and the evening service by Rev. William Farquharson, D.D. In the Central Baptist church Rev. E. G. Dakin, formerly pastor of the Waterloo street church and now pastor elect of the Springhill (N.S.) Baptist church, was the preacher both morning and evening.

SUNDAY TRAINS GO ON IN MAY

Beginning May 8 an express train will leave St. John for Halifax seven nights a week and one will arrive here every morning. THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhea's infecting germs cause many ills. Medical science has proven this. Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection. Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection. An early visit to your dentist. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base. Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-chronic has set in, use Forhan's according to directions and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U. S. NOTORIOUS ROBBER REPORTED DEAD

Ossining, March 29—A message to Sing Sing officials from the United States penitentiary at Atlanta, Ga., says that "Soapbox" Hardy, notorious bank robber and jailbreaker, is dead. The message said Hardy, whose right name was Charles O'Connell, was sent to the federal prison on Jan. 31, 1919, for twelve years for passing a forged money order. Death, some time ago, was due to a gangrenous infection of the leg.

One day in 1888 O'Connell walked into the Sixth National Bank in New York city in daylight, snatched several thousand dollars and escaped. The same afternoon he thrust his arm through the window of the cashing window in the Commercial National Bank and made another big haul. The police captured him next day, but he broke away from them. He was recaptured and sentenced to thirty years. He escaped from the Tombs, but was recaptured and taken to Dannemora, but was there only four days when he escaped. He was shot in the leg in a revolver battle with the Flatburgh police and recaptured. Once more he escaped Dannemora and was gone fifteen years when State Detective James Jackson of Sing Sing located him in Germany and brought him back. Former Warden Thomas Mott Osborne returned him to Sing Sing in 1919 to try to reform him. Soon after Warden W. H. Moyer took charge Hardy was trapped in blackmailing a wealthy woman in Manhattan in letters he smuggled out of prison. Moyer sent him to Dannemora. He was released two years ago, but ran foul of the postal authorities in Baltimore, Md., and was sent to Atlanta.

DUNLOP CORD TIRES

The Super-Test

- BEFORE you are asked to buy or try Dunlop Cord Tires, they must undergo a test such as you would never give them.
 - Tires just like your garagemen and dealers now sell are put on our own test cars, and away speed the drivers.
 - A Test that is kept up day and night.
 - A Test that takes in some of the worst roads in the country and the generality of bumps, bad turns, and all the sudden stops that go with them.
 - A Test that specifies the number of miles which must be made by the drivers each day and night.
 - The results of this crucial test, naturally, have an important bearing on our manufacturing policy.
 - Tested-in-Advance Service aptly applies to **Dunlop Cord Tires—"Traction," "Ribbed,"** Can you ask for a greater guarantee than the story the road tells—a story which in the case of Dunlop Cord Tires proves that our manufacturing methods are not only Right but **Dead Right?**

ALBERT B. STEINER, of St. Paul, Minn., who declares he is now able to do twice the work he could before taking Tanlac and that his sister has gained sixteen pounds.

"Talking about things that help people, I have just received a letter from my sister in Waterloo, Iowa, telling me she has gained sixteen pounds in weight by taking Tanlac," said A. B. Steiner, 460 East Page street, St. Paul, Minn., recently.

"My sister was on a visit to me a short while ago, and as she was suffering from stomach trouble some one advised her to try Tanlac, which she did, and as I saw the great benefit she was getting from it, I decided to try it myself, for I had been troubled with my stomach for the past two years. I was a very poor appetite, and the little I did manage to eat seemed to lodge in my stomach, and at times I had such attacks of heartburn I would nearly go wild. My back gave me a lot of trouble, and I had such intense pains in the small of my back I could hardly bend over. To add to all other troubles, about two months ago I began to suffer with rheumatism in my shoulder blades and arms, which got so bad I could hardly do my work and could not even put on my coat without assistance. I was so nervous I could get but little sleep and would get up in the morning all tired out. I would badly run along and had lost so much weight I was so weak I could hardly get about at all.

"Well, while I have only taken five bottles of Tanlac in all my improvement simply as sound as a log every night and good appetite I am hungry all the time, and my stomach is in such a splendid condition I can eat anything and without suffering the least bit from it afterward. The pains have all gone out of my back and I never feel the least sign of the rheumatism. In fact, I never have an ache or pain of any kind, and I can do twice as much work as I could before I began taking Tanlac. Yes, sir, I can recommend Tanlac after what it has done for me, and I know it will do the same for others if they will only give it a fair trial."

Tanlac is sold in St. John by the Ross Drug Company and by the leading druggist in every town.—(Adv.)

FOR EFFICIENT SCHOOLS

Halifax Chronicle: But small sections, with their school houses within a mile or two of one another, are a nuisance which should be promptly abated. This will never be done by local commissioners, subject to local finances and fears. The task demands fearless outsiders, with the interests of the whole province at heart.

Public interests, and the best interests of those immediately concerned, require that, except in special cases, school houses should be at least five miles apart. If such a reform were instituted, many sections would be able to support large and really effective schools, with competent and well-paid teachers, where now, only a short distance apart, mere handfuls of uninterested children are being precociously and wastefully taught by first year high school boys or girls—mostly girls.

FUR SALE ENDED

Montreal, March 28.—The Canadian Fur Auction Sales Company, Limited, concluded its first sale on Saturday afternoon when a grand total of \$5,098,129 was reached for the week. Beaver was the feature of the last day, 16,175 skins in 228 lots bringing \$272,785, a record high price of \$169 per skin being paid by Harry Silbert of New York.

The Plague of Pimples

Body Covered With Them

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but particularly on the forehead, nose and chin, and although they are not dangerous trouble they are very unsightly. What you need when pimples or boils break out is a real good purifying medicine such as Burdock Blood Bitters. This preparation has been used for over 40 years and is the most reliable remedy for all troubles arising from a bad condition of the blood. It removes all the impurities from the system, and will leave a clear, healthy skin.

Pressing Need For Extension of Health Work In The Province

Second Annual Report of Chief Medical Health Officer, Tabled in Legislature, Shows What Has Been Accomplished and the Opportunities for Wider Activity in Interests of the Public Health.

(Special to Times.) Fredericton, March 28.—The second annual report of the chief medical officer of the province, Dr. George G. Melvin, which has been tabled in the legislature by the minister of health, Hon. Dr. W. F. Roberts, will afford many a new vista of the need for such a thoroughly organized health department as that which the present government has undertaken to establish. The opportunity for further extension of the work are given almost as much emphasis as the amount of valuable work which has been accomplished. The report, in part is as follows:—

The Public Health Act was proclaimed in force throughout the province on and after the first day of October, 1918, the term under present review is the first complete year of administration of the act after it became effective.

The advent of the world-wide epidemic of influenza in the province, almost exactly synchronous with the introduction of the act, has been a most unfortunate event for the province and of the people, generally, that little or nothing could be done in the way of organization until its course had run its course and its ravages, to some extent, had been brought under control.

In my first report, written in December, 1918, I anticipated this report to the extent of including the month of November of that year in some remarks relative to the incidence of that disease. Up to that time there had been 26,096 cases of influenza reported with 1,940 deaths. As the large majority of the sub-district boards were not organized until late in January, or after, very little additional light can be thrown upon the question of the total number of cases during the complete course of the epidemic, or the total number of deaths therefrom.

If, as seems reasonable, it be reckoned that the epidemic of influenza, which came in November added twenty-five per cent to its cases and deaths after that month, we have a total of 33,621 cases and 2,695 deaths as a result of the visitation. The organization of the sub-district boards took place, mostly in January, 1919, though some of them, did not, in a formal way, take over the work until after the county of Kent was completely organized under the act, and at the time of writing, still remains without a sub-district board, and the other services, generally, contemplated and prescribed by the act.

In three instances, namely, in Renouveau, Northumberland and Queens, no funds were provided by the municipal council, consequently, the work of the several boards for the year under review, but arrangements have since been made by your government to obviate the difficulty in accordance with the amendment to the Public Health Act passed by the legislature in April, 1919.

Very promptly after complete organization of the sub-district boards, the first general review under the act, that of public health, proper, and sanitation, was initiated. Regulative supplies of books, forms and instructions were sent out from this office to each board, through its secretary, and regulations, ordered by you, in accordance with the act, have been furnished to them. Many classes of the public, with respect to (a) the duties of the board officers, (b) the division of the province into sub-districts of health, (c) diseases, (d) sanitary conditions, (e) slaughter houses, (f) dairies and milk, (g) slaughter houses, (h) dairies and milk, (i) slaughter houses, (j) dairies and milk, (k) slaughter houses, (l) dairies and milk, (m) slaughter houses, (n) dairies and milk, (o) slaughter houses, (p) dairies and milk, (q) slaughter houses, (r) dairies and milk, (s) slaughter houses, (t) dairies and milk, (u) slaughter houses, (v) dairies and milk, (w) slaughter houses, (x) dairies and milk, (y) slaughter houses, (z) dairies and milk.

As far as can be ascertained at the moment of writing, this service has been well received, and is being carried out in a fairly efficient way, everywhere. As was to be expected, and as is, invariably, the case with any essentially novel governmental proceeding, some little time will be required to ensure its smooth and wholly efficient working. It may be confidently stated, however, that no more important nor useful step could have been taken by you than the initiation of this most necessary service. So far as I am aware, it is the only such service in Canada that includes in its scope the entire area of provincial jurisdiction, extending its benefits not only to the more closely settled communities, but to the remotest and most isolated school districts of the province.

OVERWORKED RUN-DOWN MEN

Vinol Will Enrich Your Blood and Restore Your Strength, Vitality, Energy and Vim

Recommended by Physicians, and Guaranteed by Druggists.

Men who are over-worked, run-down, nervous, lack energy and working capacity. The reason VINOL is so successful is because it is a combination of the oldest and most successful tonics known. From Beef and Cod Liver Oils, Phosphates, etc., and what VINOL did for Mr. Joseph J. McDougall, of Cape Breton, N. S., is what it will do for you. Mr. McDougall says: "I am an over-worked, run-down and weak. My druggist recommended VINOL. It built me up and made me strong. I also gained my health. Other members of my family have also used it, with splendid results."

Deaths From Tuberculosis in Cities.

The death-rate of this disease per 100,000 population again shows Montreal in the most favorable position and Fredericton the least so. All rates for this disease continue much higher than in any other city in the province. In this case was 74 in St. John, 19 in Montreal and 11 in Fredericton.

Infantile Mortality in Cities.

No single statistical compilation is of so much significance as respects the sanitary conditions of a community, as its records of deaths of infants under one year, and no part of the service of public health administration can complete in importance with the conservation of infant life. Indeed, it is along such lines in a very large proportion, that the sum total of the duration of human life has been so decidedly improved during the past half century or more. Deaths in middle or advanced age formerly, the great saving having been accomplished in the conservation of young children, the rates per 1,000 births per year are estimated as follows: Fredericton 187.5, St. John 201.5, and Montreal 215.5.

Deaths Per Age-Groups in Cities.

Table VI strikingly exhibits the influence of age upon death. It will be observed that, as is common in the case of all ages, the greatest mortality takes place at the two extremes of life, infancy and advanced age. The rates per 1,000 live births per year, nearly 21 per cent of the total number, took place at the age of 75 or upwards is a noticeable feature.

This disease continues to attract more attention and to absorb far more energy of the health authorities than should be necessary. Of course, the more that is most readily and certainly controllable notwithstanding the fact that it is probably the most readily controllable. Positive immunity, however, can be easily attained by the simple process of vaccination, an immunity extending, in some cases, for life.

Sanitation.

The financial statement will exhibit the receipts and expenditures of this division, both for the year under review, and for the year ending March 31, 1919. The receipts have been in payment by the sub-district boards, or supplies, in part, for the carrying out of the various services under the act. It will be noted that the telegraph and telephone expenses are considerable.

Receipts for the year were \$598.96.

been necessarily engrossed with small-pox, thus limiting their services for other and most pressing needs. One other point is equally evident that the eastern and western districts are much too large in area for efficient supervision and work.

Appendix No. III, contains, in extension, the annual reports of the various sub-district boards. It will be found to be, perhaps, the most interesting portion of this publication. In exhibits the work of the department at close range and in intimate touch with the public, especially so when the novelty of the work for the most part to those chiefly concerned (the secretaries of the boards) is taken into consideration. At present only two such positions obtain, that in St. John city and county, and in the sub-district of Westmorland. These posts are filled by two gentlemen of long experience in public health work, T. M. Burns and C. E. Northrup, respectively.

The Departmental Office. You are so familiar with the work of the central office that it is hardly necessary to refer to it. It is, however, perhaps, permissible to say that the work of the chief of the departmental staff partakes in no way of the character of a mere office routine. It is, on the contrary, its very nature, largely a series of emergencies. Daylight possesses no strong affinity for it, nor are Sundays and legal holidays divorced from it. In it to delay is to fail, and to postpone is to invite disaster. As may perhaps be deduced from this report, the writer's activities have been very largely concerned with organization and direction. Hundreds of regulations, books and forms have been compiled at your direction in this office during the year, and hundreds of thousands in bulk have been distributed from it to the various sub-divisions of the province and classes of people.

It is also fitting that I mention with what cheerful alacrity the district medical health officers have carried out the directions of this office and their unwearied assiduity in the work of the department.

Recommendations.

I respectfully beg to make the following recommendations: (a) That chapter 51 of the acts of the legislature of 1919, in amendment of the Public Health Act of 1918, be amended as follows in order to correct a clerical error in the said amendment, viz: the words "And who was not required to present to such certificate as set forth above, by said employer or employer's representative," be inserted in the first section of said chapter 51, immediately following the word "sickness" in the nineteenth line from the top of the page.

PASSOVER

Celebration of Jewish Festival to Begin on Friday — Its Meaning.

The Jewish festival of liberty, known as Pesach, or Passover, will begin this year on Friday evening, April 2. It will end on Saturday, April 10, among Jewry families, adhering strictly to tradition, while more liberal Jews conclude the feast on April 9.

Passover was originally an agricultural festival, and has been identified with what from its original nature worship and identified with an historical event and a spiritual meaning. Falling in the spring of the year, it lent itself to the spirit of joy and gladness incident to the awakening of nature from the frigid subjugation of winter. This converted into a symbol of liberty and freedom, it signifies escape from tyranny and bondage.

It is the chief element in its importance and significance. The Exodus of the ancient Hebrews from Egypt is connected with the Passover. In Exodus XII: 14-28, the Children of Israel are enjoined to observe the feast of unleavened bread throughout every generation on account of the hasty flight of their ancestors from the slavery of such a task-master and oppressor. This martyrdom escape from the bondage which birthright of freedom and self-determination is commemorated in the Passover celebration.

Sickly Women Given Strength, Vigor, Spirits

Many of the woes of womanhood, are due to kidney weakness. At first the back aches. Then pains gather around the hips and lodge right in the small of the back. To stoop or bend seems impossible. Headaches are constant. Unhappy existence. No pleasure in life when the body is overladen with poisons that the sick kidneys can't filter out.

Bright's disease is the next stage, but it can be prevented by using Dr. Hamilton's Pills of Mandrake and Butternut. When the sick kidneys and cure tissue blood is formed. This means nourishment and strength for the whole body. Back-aches and dragging pains are forgotten. Irregularities disappear, vital energy is restored, and happy, robust health is once more established.

For the sake of your kidneys, for the sake of your liver, for the advancement of your general well-being, you can't improve on Dr. Hamilton's Pills 25c per box.

ance of the Hebrews from the tyranny of old and from oppression at all times. During the darkest era of oppression, Passover restored confidence in the Jew and a firm belief in the final triumph of liberty over persecution, oppression, and bigotry.

During the Passover, several Jewish families came to the city of Matzoth, which is one of several symbols employed in the celebration of the festival to emphasize its lesson. The Matzoth is also known as the "bread of affliction" and is a memorial of the hasty flight of the Hebrews from Egypt. The Passover is inaugurated with a service in which the members of the family participate. This home service is called the "Seder." The Hagadah, especially prepared for the celebration of Seder, is used by Jewish families in the home. The ritual recites the events of the Exodus and by means of quaint songs and stories awakens within the soul of old and young a love of liberty, and strengthens faith through recognition of the wonderful power of rejuvenation, manifested by Israel throughout its long career. The ceremony includes a meal at which the "four cups" of wine are drunk and by means of quiet songs and stories awakens within the soul of old and young a love of liberty, and strengthens faith through recognition of the wonderful power of rejuvenation, manifested by Israel throughout its long career.

A KIDNEY REMEDY

Kidney troubles are frequently caused by badly digested food which overtaxes these organs & stimulates the irritant acid formation. Help your stomach to properly digest the food by taking 15 drops of Extract of Roots, 25c at Mother Selig's Curative Dispensary, 150 St. John street. It will promptly disappear. Get the genuine.

BITRO-PHOSPHATE

IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE Frederick S. Kelle, M.D., Editor of New York Physicians' "Who's Who," says that weak, nervous people who want increased weight, strength and nerve force, should take a 5-grain tablet of Bitro-Phosphate just before or during each meal. This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals. If you do not feel well; if you tire easily; do not sleep well, or are too thin; go to any good druggist and get enough Bitro-Phosphate for a two week supply—it costs only fifty cents a week. Less than your food thoroughly, and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing. It is sold by the Ross Drug Co., in St. John and all good druggists.

ONLY TABLETS MARKED

"BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nine years and now made in Canada. "Always buy an unbroken package of Bayer Tablets of Aspirin" which a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monocrotinoid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacturers, to assist the public against imitations, the Tablets of Bayer Aspirin will be stamped with their general trade mark, the "Bayer Cross."

Salts Fine For Aching Kidneys

Faint and Dizzy Spells Weakness And Shortness of Breath

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking all-gone feeling, choking sensation, etc.

Most folks forget that the kidneys, in the bowels, get sluggish and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys clean and clear. And the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. Well-known local druggist says he sells lots of Jad Salts to folks who believe in overhauling kidney trouble while it is only trouble.

CORBETT HAS GLOVES ON WITH CARPENTIER

Dempsey Will Not Have It All His Own Way

Throng at British Football Games - Ottawas, Sure of Beating Seattle, Had Banquet Ready and Then Were Defeated.

New York, March 28 - James J. Corbett has the contemplated fight between Dempsey and Carpenter will not be a one-sided affair.

This was the opinion expressed by the former heavyweight champion after sparring for a few minutes yesterday at the gymnasium of the home of Jack Curley at Great Neck, L. I., where the French champion fought his last fight.

Corbett had ever seen the pugilist sensation of Europe.

Fletcher Bendish.

New Orleans, March 28 - The ousting of Arthur Fletcher from the game by Dick Nallen, American League umpire, furnished some hot lining excitement in the victory which the Giants scored over the Red Sox in a ten-inning affair by the score of 6 to 4.

The Giants' captain, who criticized Nallen's judgment of strikes and balls, was ordered from the field at the close of the ninth inning, but refused to go. He attempted to go to bat, but Nallen held up the game until Christy Mathewson, in charge of the Giants, became angry. Grew had made an early start for the hotel, sent Eddie Egan up to hit for the shortstop.

London, March 28 - (Canadian Press) - There were about 37,000 spectators at the first semi-final of the world championship boxing series which will be played tonight between the second and third rounds of the world championship.

Toronto, March 28 - The second game of the Allan Cup final series will be played tonight between the second and third rounds of the world championship.

Winnipeg, March 28 - The collection of the five goals in the first round of their 8 to 3 defeat in the initial contest on Saturday night, face an almost hopeless task.

Were Too Sure.

Ottawa, March 28 - (Canadian Press) - The Stanley Cup proved a veritable tantalizing cup for the Senators when they were soundly beaten by the Seattle Metts, 3 to 1, in the most brilliant of the world title series to date. So confident were the Ottawas of victory that they had arranged for a world championship banquet at the Chateau Laurier.

The Seattle aggregation, which had been outplayed on two occasions, showed a remarkable reversal of form and this, coupled with the fact that Ottawas showed the strain of the two previous games, enabled the visitors to stay the course of the N. H. L. champions. The confidence of the Ottawas was also shared by Frank Calder, president of the N. H. L. He had the players' share of the three games done up in an attached to which point the division will now have to await the result in Toronto to which point the teams will move for a game on Tuesday, with Thursday night fixed for the fifth game if one should be necessary. The next game will be played under western rules with seven man hockey and with fast ice available the westerners should have a good chance of tying the score with some hope of coming out on the winners' end. The winning players' share of the gates of the three opening games will be \$30.97 each and \$10.33 \$28.38 each.

Do not suffer another day with your eyes. See Dr. Chas. H. O'Brien, 115 St. John's street, St. John, N. B. Sample box free if you mention this paper and enclose 10c stamp to pay postage.

HONOR ROLLS AT ST. PAUL'S ARE UNVEILED

Impressive Ceremony When Memorial Tablets Are Dedicated.

The unveiling of the memorial tablet to the memory of those from St. Paul's church who laid down their lives in the great war and the honor roll as a record of the names of those from the church who served their king and country during the war, took place yesterday morning. Senator W. H. Thorne, who donated the tablets, unveiled them and delivered them to the pastor, Rev. Archdeacon A. H. Crowfoot. Senator Thorne made an appropriate address, after which he took the flag from the tablet and read the names of those who sacri-

ficed their lives: Nelson McCain, Gilbert Seeley, John Thornton, James Murray Hazen, Percy Clayton Till, Norman Leavett Bourne, Charles Percy Bourne, Frederick Albert Buckley, Edwin LeRoy Arnold. After the unveiling of the honor roll Archdeacon Crowfoot preached an eloquent sermon, taking as his text the twenty-fourth verse of the twentieth chapter of Acts. The rector regretted the enforced absence of Rev. Major E. B. Hooper, who was to have preached at the dedication service, but his military duties required his attendance elsewhere. Archdeacon Crowfoot spoke of the significance of the design of the honor roll. It is an oak and walnut tablet worked out in a Gothic design of the same period as the architecture of the church and decorated with heraldic shields and emblazoned with the arms of St. George and St. Paul. The woodwork was done by the late James Christie, being the last piece of work he did before his death. The lettering was done by P. N. Woodley of the Art Craft Studios. The names on the honor roll are as follows:

Eric Barber, Frederick Barker, Harry C. Barker, Louis W. Barker, John Bradbury, Arthur Buckley, George Buckley, Lewis Buckley, John Campbell, Lloyd Campbell, Frederick Carman, John Chandler, Carroll Cudlip, Edward Day, Richard Day, Thomas Dean, Herbert DeVetter, Arthur Dick, Oliver Duncan, Frank Dunham, Frederick Edwards, Alder Evans, Walter A. Evans, Henry Evans, Walter F. Evans, V. Arthur Gandy, Rowland L. Gandy, Alfred Garnett, James A. Gaulton, Donald Grimmer, Ernest Gunn, Harry Gunn, Frank Hamm, Matthias Hamm, Ernest Hammond, D. Report Sale of Red Sox—Later Denied.
Chicago, March 28—The Boston Red Sox will be sold to a syndicate of Boston and New York men, according to a report coming from inside American League circles in this city. The infor- mants state that the report is well vouched for.
It is also stated that Clarence Rowland, former manager of the White Sox, will be the pilot for the Red Sox under the new deal.

Back the Giants.
New York, March 28—Sporting men on Broadway are backing the Giants heavily to beat the champion Reds out of the National League pennant. They seem to think that the Reds will be overconfident and that McGraw's re-constructed infield will deliver the goods. For American League honors the Clevelanders are in much favor among betting men, who predict that the run- ners up will be the Tigers and Yankees.

Football.
Inter-provincial Rugby.
Montreal, March 28—At the annual meeting of the Inter-provincial Rugby Union on Saturday changing the play- ing rules was the most important busi- ness. A copy of the amended rules will be gone through by the inter-provincial executive for final decision. The great- est change in the college game is the rule governing offside play.

Newcastle May Come.
Toronto, March 28—Newcastle United may tour Canada this coming summer, despite contradictory reports, according to Secretary Edward Spencer of the Division of Canada Football Association. He said on Saturday that he had re- ceived a communication from Con Jones, who is in England, to the effect that the Newcastle United football team would accept the Dominion Football Association's invitation if the Canadian tour could be managed in six weeks. He had been empowered by the D. F. A. council, on a telegraphic vote, he said, to arrange such a schedule and cable to Newcastle. He said he had done this.

British Games.
London, March 28—(Canadian Associated Press)—Northern League rugby cup semi-finals results Saturday were: Hull 5, Wigan 12; Oldham 0, Hudders- field 11.
The York vs. Bradford match was abandoned with score York 10, Bradford 12.
Rugby Union results: Blackheath 9, Air Force 3; Leicester 10, London Welsh 0; Lincoln 1, Newport 26; Car- diff 14, Swansea 2; Richmond 6, Man- chester 12; Birkenshead Park 13, Glou- cester 16.

BILLIARDS.
Shoemaker Wins Again.
New York, March 28—J. Howard Shoemaker of the New York Athletic Club, successfully defended his title of national amateur pocket billiards cham- pion yesterday for the sixth successive time by defeating H. Gardner of New York in the final match of the tourna- ment. The score was 125 to 69. Shoemaker won seven straight games.

HOCKEY.
Championship Receipts.
Ottawa, March 28—With the playing of the third game of the world's hockey series here on Saturday night, the mem- bers of the team cease to participate in the results. President Frank Calder, of the N. H. L., announced yesterday that the winners would receive \$300.00 each and the losers \$225.00 each. Thirty per cent. of the receipts went to the Arena management for rental, and ten per cent. to the two leagues. There were 15,300 admissions.

Allan Cup Game.
Toronto, March 28—The Falcons, of Winnipeg, inflicted a defeat on the Uni- versity of Toronto by a score of 8 to 5, here, Saturday night in the first of the two final games for the Allan Cup and the hockey cham- pionship of Canada.

A KINGDOM BUT WITHOUT A KING
That Is Virtually Position of Hungary—Division as to Choice of Monarch.
Budapest, March 28—Hungary is virtually a kingdom without a king but there is tacit observance of the former monarchical constitution. All parties are agreed on the question of a monarchy, but they show divergence as to who should be king. In order to avoid serious trouble, therefore, the parties are disposed to postpone the election until conditions are more settled.
The farmers' party, which is against the return of the Hapsburgs, has adopted a resolution for a motion in the national assembly that propaganda in favor of any candidate at the present time will be declared an act of conspiracy and punished accordingly.
