Montdidier Has been Captured By Allied Forces

GROUND IS LITTERED WITH GERMAN DEAD

Number of Bodies Shows How Enemy Suffered ALLIED LOSSES LIGHT

Trenches in Captured Territory Poorly Constructed; Not Because of Lack of Material, Vast Quantity of Which Has Fallen Into British Hands; Correspondent Depicts Grim Scene

With the British Army in France, Aug. 9.—(By the Associated Press)—The scene at Bayonville today is typical of the rest of the battle area. Broad fields of crops or brown grass fringe the town and spread for miles over the flat surrounding country. Abandoned German field guns are here with little piles of empty shell cases and the bodies of German soldiers lying here and there, telling the story of what happened. Lying off on the side of the road are enemy motor trucks, one of them with a trailer filled with artillery maps, some the headquarters staff could not save.

Former Foreign Minister of Greece Warns Allies of Danger—Attempt to Gain Territory by Double-Faced Negotiations

Athens, Aug. 9.—Bulgaria is engaged in a peace offensive synchronizing with the German movement in the same direction, according to Alexander Karapanos, former minister of foreign affairs. She is playing particularly upon the friendly sentiment existent at least in the past, in Great Britain and the United States, he asserts.

ONE KILLED IN STREET CAR RIOTS

Montevideo, Aug. 9.—A declaration of martial law seems imminent as a result of a strike of street car men which has been in progress for more than a week. Daily there has been fighting between the police and the strikers. The crisis apparently was reached today when one man was killed and several persons were wounded in battles in the street.

THE SUGAR QUESTION

A story reached the Times today that a retail grocer was called up by a jobber and told that sugar would advance and this would be a good time to buy. The retailer, according to the story, asked for a large order of white sugar. Being told that he would also have to take an order of brown sugar, he replied that another jobber would do the trick. As a result he got the white sugar he asked for. Later the other jobber, on being assured that his competitor was ready to fill the order, consented to add another lot of white sugar. Thus, according to the story, the retailer got a large stock of white sugar without buying any brown. The Times informant wants to know why he has to buy brown sugar if the rule is not to be universal.

SWEDES HAVE MONEY BUT LITTLE TO BUY

Neutral Nation Stripped of Resources Through Sales at Profitable Prices to Warring Neighbors

A clipping from an English paper recently in London says that the people of Sweden are now so well supplied with money by reason of the war and their neutral marketing that even the most meagre workers are spending it with proportionate lavishness. The Times had an interesting chat on this subject with Charles Magnusson, the Dock street merchant, who knows his Sweden like a book, although a native of the Azores Islands. Mr. Magnusson says he thinks the English paper rather overstates the case and furthermore does not present the situation in the proper light. It is true Sweden has profited greatly by the war, in fact she has sold everything she could lay her hands on while the selling price was good. Now the shortage of goods, a shortage in the commonest necessities, so naturally enormous prices are being asked for everything. Having converted her money into goods, she is unable to pay the high prices. It is like the miser who had heaps of gold but no food. Mr. Magnusson's correspondence with home has been most irregular during the war but once in a while he gets a glut of conditions there.

NEW 'PHONE CABLE TO PRINCE EDWARD ISLAND

A new telephone service has been inaugurated between this province and Prince Edward Island which should prove valuable for both commercial and military purposes. A new cable nine miles long has been laid between Cape Tormentine and Borden, the remains of the car ferry service, and connections were completed this morning. The former line, via Pictou, proved unsatisfactory for New Brunswick connections, and business men in this city will be pleased to learn that a new service has been installed. When the connections were completed this morning, Premier Foster of New Brunswick, and Premier Arsenault of Prince Edward Island held a conversation over the phone, after which Mayor R. T. Hayes and Mayor Wright of Charlottetown spoke to each other. Representatives of the press also had an opportunity of paying their respects to members of their profession on the Island.

VICTIMS OF SUBMARINE

Seven or eight members of the Japanese crew of the Japanese steamer which recently fell a victim of a German submarine off the Nova Scotia coast, will arrive in the city on the Empress today. They are en route to the United States.

New York, Aug. 9.—Behind the arrest here today of six officers of the steamship Yadkin, a former North German Lloyd liner taken over by the United States shipping board, lies the story of a strange "joy ride" which the vessel is said to have taken through the Mediterranean after having recently landed a cargo of supplies for the Allied armies.

ST. JOHN MEN IN CASUALTY LIST

Ottawa, Aug. 10.—Today's list of sixty-nine casualties includes five killed in action, five died of wounds, six died, two reported dead by Germans, one missing, one died of wounds, one missing, one reported dead by Germans, five ill and two prisoners of war. The names of the maritime provinces men follow:

CAPTAIN WHO SANK THE LUSITANIA MEETS APPROPRIATE DEATH

London, Aug. 10.—Lieut. Commander Schweiger, who commanded the submarine which sank the Lusitania, is dead. His death occurred in September, 1917, but has only been admitted by the German admiralty, according to reports received here.

FAMOUS MOVIE STAR IN THE CITY TODAY

To see their favorite on the screen and then be given a chance to see her in person is an opportunity afforded motion picture fans of this city today when Miss Doris Kenyon, a famous actress, will arrive in the city on the Empress.

U. S. LIFTS BAN ON USE OF MEATS

Washington, Aug. 9.—Restrictions on the use of meats were lifted today from the food administration. While the American public will be asked to use lighter beef, so that the heavier cattle may be exported, the regulation forbidding hotels and other public eating places to serve beef more than once a week is now rescinded, and the ration of one and one-half pound a week to hotel holders is abolished. The food administration believes that the danger of a shortage has now been averted, and that there are sufficient supplies in prospect for the United States and the allied nations. It asks, however, that economy be practised in the consumption of beef, as well as of other foodstuffs and that wasteful practices be carefully eliminated.

ARRANGED MARITIME PREMIERS CONFERENCE

In his telephone conversation with Premier Arsenault of Prince Edward Island over the new line this morning, Premier Foster arranged for a conference of the three maritime province premiers in Halifax on August 27, to discuss matters of mutual interest.

London, Aug. 9.—(Canadian Associated Press)—The war cabinet, with Sir Robert Borden attending, was sitting yesterday while the battle was in progress. Sir Robert and his colleagues received hourly bulletins on the progress of the battle, especially with reference to the progress made by the Canadians. Earlier Premier Borden and General McMurtry visited the offices and depots of the Canadian Red Cross, and afterwards declared: "In no business establishments are administrative details more thoroughly and efficiently carried out."

WESTERN UNION MEN THREATEN TO TALK

Atlanta, Ga., Aug. 9.—The executive committee of the Southeast District of the Commercial Telegraphers Union of America, it was announced today, have voted to call a strike of telegraphers employed by the Western Union Telegraph Company in the southeast at noon, August 12, unless operators discharged by the W. U. because of union membership are reinstated. Copies of the resolution were sent to President Wilson, Postmaster General Murison and S. J. Koenigsmann, according to A. J. Joyner, chairman of the southeastern district.

SIX DEATHS

Six deaths were reported to the board of health this week, as follows: Senility two, cholera infantum two, myocarditis and carcinoma of breast, one each.

BRITAIN'S GREAT WORK IN REPAIRS ON THE VESSELS

Dreadnaughts, Submarines and All Other Kinds of Craft in Docks—12,000 Workers Are Busy

London, July 20.—(Correspondence)—Certainly the largest ship repairing centre in Great Britain, possibly in the world, Cammell Laird's yards are one of the wonders of the war.

No repair is too great, none too small for these great shipyards. Early in the war a British dreadnaught—one of the finest units of the line—steamed in at 24 hours' notice.

Working night and day the repairs were effected within 14 days. Then she steamed away with what was almost a brand new hull.

They claim also, what is almost an international privilege, the fitting of mother ship of the Seven Seas.

ARE STILL WINNING.

Today's reports tell of the severe losses inflicted on the Germans by the rapid advance of the Allied troops, who went forward thirteen miles in two days, and captured at least 24,000 prisoners, several hundred guns and much other war material.

A bulletin this morning announces that the German army of Gen. Von Hutier is retreating from the Montdidier Noyon line. The Anglo-French troops are still pressing on. The situation as the week ends is most encouraging for the Allies.

A VITAL MESSAGE.

No address delivered in St. John since the war began has gripped an audience more closely than did that of Capt. Frank Dixon at the Chateaux last evening. Few public speakers have such a command of epigram and of striking phraseology.

Capt. Dixon has unbounded faith in what his country and the British Empire can do together, but he would have no half-measures. He would have a universal selective draft, that would ensure real service from every man and woman from eighteen to eighty.

We have had no finer picture of the United States stripping for war than is drawn by this great speaker, but he frankly admits that his country must raise fifteen million troops before she equals the colossal work of the British Empire.

Chautauqua brought to St. John a group of American speakers of note and of exceptional ability, who delivered vital messages in relation to the great war. In that it has done a real service to these provinces, cementing the bond of international friendship and giving Canadians thrilling glimpses of what our neighbors are doing in their pursuit of the common task.

AFTER THE WAR.

The Times quoted a few days ago a portion of an address by Sir John Willison, touching conditions after the war. In the same address Sir John referred especially to Canada and the need of preparation so that this country may enter upon an era of successful national expansion and prosperity.

U. S. ARMY'S MORALS AND RECREATIONS

Raymond B. Fosdick, Just Back From France, Says it is up To Nation to Be Worthy of Its Troops

When the American army proved itself better than the Germans and the equal of the best troops on the Marne and the Quatre, "there was a reason," and more than one reason. Raymond B. Fosdick, chairman of the Commission of Training Camp Activities of the War Department, who recently returned after a 14-months' investigation of the non-military organizations engaged in recreational work with the American troops, in response to questions, gives an illuminating side light on a few of these excellent "treasures."

"I have eaten with Tommy' and 'Paul' and 'Johnny'—to use the nickname that I am afraid will stick, in spite of its unpopularity with our fellows—and I can guarantee that our men get the best of the army life. I have seen the hospitals in France, and these in which the Americans are cared for are the best equipped. When it comes to recreation and amusement the American army is distinguished from the British and the French by the attention given to these matters. Indeed, the French are inclined to think that in giving our men three square meals a day, and perhaps a moving picture show at night, if the unit is out of the line, we are perhaps in danger of pampering them, although they do not begrudge our boys the attention they are receiving."

"Four organizations have been re-organized by the American Expeditionary Forces for work with the troops. The Red Cross, Young Men's Christian Association, Knights of Columbus, and the Young Women's Christian Association. The Young Women's Christian Association will operate the facilities for women employed by the army, and is carrying on recreation work for nurses in the hospitals get their complete amusement. The American army is distinguished from the British and the French as a sub-division of the Young Men's Christian Association. These four organizations above mentioned head up the American Section of the General Staff in France."

"General Pershing and his staff are emphatically of the opinion that no more organizations than the four above mentioned should be admitted for service with the troops. I saw the work of the organizations both in the zone of the armies and in the rear with the service of supply. I followed it from the sea-point bases up to the dugouts in the front line trenches. SHORTAGE OF TEACHERS IN SASKATCHEWAN

Extra Normal Sessions Being Held to Meet Demand.

With a view to meeting the great demand for teachers in the province of Saskatchewan, the department of education is arranging to hold sessions of the provincial normal school for the training of teachers for first and second-class certificates at Regina and Saskatoon from Tuesday, August 20, 1918, until Friday, December 20. Further sessions will be held at the same points from Friday, January 8, 1919, until April 30.

To be admitted to the first class session, applicants from the province of Saskatchewan must have completed the XII academic standing, and for the second-class session at least grade XI academic standing. Male applicants must be at least nineteen years of age, and female applicants at least eighteen years of age.

After July 1, 1919, first and second-class sessions of the normal school will extend over a period of approximately eight months.

Blank forms for making application may be obtained from the Registrar, Department of Education, Regina (Sask.).

people back home who fret about the morals of our army. For in a big sense, our fellows are living on a plane such as men seldom attain. In point of devotion, unselfishness, cheer under hardship, a sense of honor, and a spirit of fortitude and courage, they make the people who piously condemn their moral back home look small and mean.

"Even in the narrowest interpretation of the word, we have little cause to worry about the morals of our men. The official statistics show that the venereal disease rate in the American Expeditionary Forces is less than one per cent. This is better than the conditions here in the camps at home, and it is infinitely smaller than the prevailing disease rate in the civilian population of the United States. As far as drunkenness is concerned, I saw thousands of American troops under all conditions, both at the front and in the rear, and I did not see a single man intoxicated.

We swing the good old sword; It shines in morning light, It flashes forth in battle And won't be sheathed again, Though you sweat blood and water, It cleaves unto the bone.

Here we have a sentimental exaltation of war brought about by the use of the word "sword" and "battle" that cluster around it, poetic ideas of clashing combat and romantic heroism...

Only hopeless sentimentalists could prattle about bright swords and glory in war for the sake of war; sentimentalists even when they scientifically assert the biological necessity for war...

PROCLAMATION

GEORGE the FIFTH, by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India. To all to whom these presents shall come or whom the same may in any wise concern, GREETING: A Proclamation of conditional amnesty respecting men belonging to Class 1 under the Military Service Act, 1917, who have disobeyed our Proclamation of 13th October, 1917, or their orders to report for duty, or are deserters or absent without leave from the Canadian Expeditionary Force.

AND WE DO HEREBY STRICTLY WARN AND SOLEMNLY IMPRESS UPON ALL SUCH MEN, and as well those who employ, harbour, conceal or assist them in their disobedience, that, if they persist in their failure to report, absence or desertion until the expiry of the last mentioned day, they will be pursued and punished with all the rigour and severity of the law, SUBJECT TO THE JUDGMENT OF OUR COURTS MARIAL WHICH WILL BE CONVENED TO TRY SUCH CASES or other competent tribunals: and also that those who employ, harbour, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf by law provided for their said offence.

AND WHEREAS We desire, if possible, to avoid the infliction of the heavy penalties which the law imposes for the offences of which these soldiers have been guilty, and to afford them an opportunity within a limited time to report and make their services available in our Canadian Expeditionary Force as is by law their bounden duty, and as is necessary for the defence of Our Dominion of Canada.

NOW KNOW YE that we in the exercise of Our powers, and of Our good will and pleasure in that behalf, do hereby proclaim and declare and cause to be published and made known THAT THE PENALTIES OF THE LAW WILL NOT BE IMPOSED OR EXACTED as against the men who belong to Class 1 under Our Military Service Act, 1917, and who have disobeyed Our Proclamation aforesaid; or who have received notice from any of Our registrars or deputy registrars to report for duty on a day now past and have failed so to report; or who, having reported and obtained leave of absence, have failed to report at the expiry of their leave, or have become deserters from Our Expeditionary Force, PROVIDED THEY REPORT FOR DUTY ON OR BEFORE THE TWENTY FOURTH DAY OF AUGUST 1918.

FAMOUS TRAPPIST MONASTERY

Famous Trappist monastery on Mont des Cats, near Mont Kemmel in Flanders, which the German Emperor asked his artillery commanders to spare because the aged prior of the monastery was the only surviving person who knew where the Emperor's relative, Prince Max of Hesse, had been buried in the monastery in October, 1914. Despite this command the monastery has been heavily shelled.

Morning Reports Show Still Greater Gains Along Entire Western Front

Over a curving front of more than twenty miles the British and French troops are continuing to sweep back the Germans across the plains of Picardy from the region north of the Somme east of Morlancourt and south of the eastern bank of the Avre northwest of Mont Didier.

Behind the lines the Germans are destroying ammunition dumps as they quit their positions. With the new turn of events Mont Didier is an uncomfortable position, with the Allies hammering away cross-fire at the Germans holding it and with the only railroad leading into the town also under their guns.

On the north the British captured Morlancourt and pressed on eastward, while on the south, northwest of Mont Didier, Pierrepont, Contoire and Arvillers were taken by the French, who drove in their wedge to a distance of more than eight and a half miles.

With the new turn of events Mont Didier is an uncomfortable position, with the Allies hammering away cross-fire at the Germans holding it and with the only railroad leading into the town also under their guns.

There has been little fighting of great moment on the Vesle River, except in the nature of reciprocal artillery duels. The Americans, however, have made another crossing of the Vesle and captured the village of Fismette, northwest of Fismes.

The One Shall Be Taken And The Other Left

A Question of The Relative Value To The Warring World of Butlers and Bartenders

(Boston Monitor.) If the king in "Hamlet" had happened to live in the twentieth century, in the days of Chinese revolutions and Russian republics, he might have altered his opinion that:

There's such divinity doth hedge a king, That treason can but peep to what it would, Acts little of his will.

But if the person of the king is no longer inviolable, the person of the bartender, apparently, is. If a man is a bartender, and spends much of his time in dispensing tea and coffee, he must go to war. Not so the bartender. All the war, the bartender has to do is to attend to un-fitting people for helping on the war.

By his own, for it is perfectly certain that the efficiency of the workers of the country would be considerably increased, since, according to the public charities' report, there are 100,000 drunkards in the country, whilst it is a conservative and common estimate that a minimum of 100,000 men are engaged in the war.

But, in the words of a great French writer, "Reverens a nos moutons," to return to the coal question, Dr. Garfield and the Fuel Administration have had it put fairly and squarely up to them by the National Coal Association.

Congress to make a clean-cut choice between bonuses for the mining communities and coal for the public. The public is awaiting the decision of Congress, and when the winter comes, the country will know exactly whom to blame.

CHICAGO JOINS IN COMMUNITY SUNDAY SINGS

Sunday and Week-Night Crowds in All Parts of the City Enjoy Music in which All Take Part in the City Parks

(Special to The Christian Science Monitor from its Western Bureau.) Chicago, Aug. 6.—Community singing has been taken up by Chicago with a fervor never shown here before, according to Herbert E. Hyde, superintendent of the Civic Music Association of Chicago, and sings are being held on the Municipal Pier each Sunday evening, and at the West Chicago, South Chicago and Lincoln parks during week-day nights.

Just why the people are singing with more enthusiasm than heretofore, it is somewhat difficult to determine. Mr. Hyde said to a representative of the Christian Science Monitor, "He thought it due, in part, to the fact that the people have been trained to sing during the four years that the community sings have been held in Chicago."

The spirit of patriotism that has been aroused by the war has something to do with the enthusiasm displayed, Mr. Hyde thought. The songs this year are the nation's folk songs, patriotic songs, and songs that the boys are singing over in France.

What the influence of community singing on the city may be, it is difficult to tell. It is a fact, however, that the crowds are as large as can be accommodated, and at the parks the number of people is estimated to be 1,000 to 2,000.

Will be interested in our newly opened line of Imitation Platinum Jewelry, which is composed of Pins, Brooches, Rings, Pendants, Ear-Rings, Tie Pins, Etc. Etc.

As you probably know, the manufacture of Platinum Jewelry is prohibited both in this country and in the United States for the duration of the war.

This new substitute for Platinum has been successfully sold in the States for the last few months, and is the very latest thing with the smart set.

Our stock is one of the first, if not the first, to be shown in St. John, and the line is exceptionally complete.

Come in and let us show you the line. You will be impressed with the successful way in which Platinum has been imitated, and it will really practically deceive experts.

New York, Aug. 9.—The resignation of John K. Tener, former governor of Pennsylvania, as president of the National Baseball League, was accepted tonight by a special committee of club residents authorized to take such action. A letter to Mr. Tener, signed by H. J. Hepstead, of New York; Wm. F. Baker, of Philadelphia, and C. H. Eberts, of Brooklyn, members of the committee, wished the retiring league leader success in his venture in the highly speculative construction business and termed his withdrawal "a heavy loss" to the National organization.

THE TURF. Single G. True to Form. Cleveland, Aug. 9.—Single G., driven by Pop Geers, won the free-for-all race at North Randall today, the feature of the get-away card of the second grand circuit summer meeting here in straight heats. The time for the race 2:01 1/2 and 8:02 was considered remarkable, considering the heavy track. The second half of the final mile was paced in 89 1/2 seconds and the last quarter in 29 1/2. Single G. was the only favorite to win.

I realize that I may be sacrificing much in taking this stand, but I feel positive that the theatregoers of the few cities to which I am sending "EVERYWOMAN" will appreciate the excellence of this company. Many of you have no doubt witnessed a performance of "EVERYWOMAN," and will be gratified to know that Paula Shay, Natalia Lynn, Winifred Baldwin, Percy Parsons, Norman Lane, J. K. Hutchison, Frank Kilday, F. J. McCarthy, and Fred Hampton still head the cast and will appear in your city in the same roles with which they have been identified. Feeling that you will appreciate this effort to give you the best in my power, I beg to remain, Faithfully yours, F. J. McCarthy

**BODY TAKEN UP RIEVER.**

The funeral services of Mrs. Blanche Holden, wife of S. J. Holden, 38 Cedar street, Indian town, are being held this afternoon at 1 o'clock, so that the body may be taken by boat to the burying ground at White's Methodist church, Long Reach, near the Cedars, where the young lady's father is interred. On Sunday at 11 o'clock the interment services will be conducted up river.

**RANSACKING HOUSES.**

The police are working on several cases of petty burglary and ransacking in city houses vacated by suburbanites and people on vacation. In one instance the flat was thoroughly searched, even trunks and valises opened and contents scattered about. Strange enough, however, was stolen, but a bed had been slept in and a lunch prepared.

**PRIZE WINNING HOLSTEINS.**

Harding Brothers of Welsford will leave on Wednesday with their famous herd of Holstein cattle to enter live stock competitions at the Quebec province fall fair, also at Ottawa, and the big Toronto show. They are sanguine of success and are somewhat justified in this hope as they have cleaned up over 90 per cent of the money in the Holstein classes for several years at all the shows they have entered. At one big show there was a field of twenty-six Holstein entries against the Welsford cattle but the New Brunswick heifers especially made a clean sweep of the prizes, winning first, second, third, fourth and fifth ribbons and money.

**PROVINCE AS DRY AS LAW CAN MAKE IT**

Few Licensed Vendors Only Legitimate Channel Through Which Liquor Can Be Secured—Regulations Are Strict

Less than one year and a half ago it was possible for any one to secure as much liquor in St. John as they wished, providing they had the necessary cash. Today the story is a different one, caused by the enforcement of the New Brunswick prohibitory act. The purchase of a case of the "Oh be joyful" is at present practically impossible and daily the purchase of quarts is becoming harder. The difficulty of purchasing liquor at present comes to those who do not really need it, for the legitimate user of alcohol in any form can purchase it by securing a prescription duly signed by a medical practitioner which, on presentation to either one of St. John's vendors, will be speedily filled. The business of these vendors is supervised by the chief inspector, Rev. W. D. Wilson, to whom the vendors are required to send their prescriptions every month to be checked. Every time a vendor makes a sale the transaction is marked down in a record book. This book is sent to the chief inspector every three months to be audited.

Inspector Wilson said yesterday that the largest sales recorded by the vendors for any one month so far was \$300. The average is much below this figure. Such a business might appear to the observer to be a lucrative one and so it would had not the inspector opened channels by which the vendors have competition. Since prohibition the distillers' prices have advanced considerably and with high freights and breakage the profits are somewhat reduced. The local vendors, explained Mr. Wilson, are doing everything in their power to prevent themselves from being duped in the presentation of false orders. There have been some vendors in the province filling prescriptions somewhat freely but only for a short period, for so soon as the inspector became acquainted with conditions he at once took the matter up with both doctors and vendors. Since several of the doctors in the province have been before the court there have been fewer prescriptions taken to vendors. Inspector Wilson left this morning for Fredericton and will return to the city during the middle of the coming week.

**BROTHERS AND FRIENDS MEET AT THE FRONT**

That her two sons, Private Clement and Gunner Joseph Jeffrey, had met on the battlefields of France recently was the news contained in a letter received by Mrs. Mary Jeffrey of Somerset street. The two brothers are members of Canadian units, Private Clement Jeffrey having crossed overseas with the first Canadian contingent and Gunner Joseph Jeffrey with a draft from No. 9 Siege Battery. While they were enjoying a chat, narrating experiences they went through since they had parted, Walter Devaney and William Driscoll, two other boys from Fort Howe, came along and joined them. It was the first time that any of the four had met in many months.

**SCHOONER CAPTAINS ON THE SUBMARINES**

The rumor that the captain of the submarine that sank the Dornfontein and other sailing craft in these waters is a former schooner skipper familiar with Bay of Fundy traffic, suggests the fact that in pre-war times numerous schooners well known here had Teutonic masters. In fact, German captains were quite familiar to local shipping circles and to men before the mast. Some were pretty decent sort of chaps and others were sullen and secretive. It was a strange thing that several of these German skippers persisted in calling themselves Swedes, though their conversations and sympathies always reverted to the Fatherland. One of the "Dutchmen"—as the sailors designate all Germans—married a Fredericton woman. It is therefore not beyond possibility that our eastern Canadian and American waters are now being secured by U-boat commanders who know as much about us as we do ourselves.

General Survey of Conditions in New Brunswick

LABOR IS SCARCE

Two Hundred Per Cent Increase in Wheat Acreage—Oats Promise Well—Potato Crop Good—Delay Affects Hay Prospects

Fredericton, N. B., Aug. 10.—A general survey of crop conditions in New Brunswick shows that, with few exceptions, agricultural products are making a good showing and excellent yields are promised. The labor situation is the only disquieting feature. No estimates of yields can be made yet, but it is probable that the federal department of agriculture will issue a statement containing figures, at an early date. Information has been gathered by the New Brunswick agricultural department, on which a general crop report is based. In wheat there has been a greatly increased acreage. Last year the acreage sown to wheat was about 16,000 acres. This year the estimated acreage is about 32,000, an increase in the neighborhood of two hundred per cent. In all sections of the province wheat is looking well. Disease has shown itself in certain districts, but not to an alarming degree. Disease is not peculiar to New Brunswick, as all other provinces report its occurrence in their wheat fields. Oats, which always have formed an important crop in this province, promise pretty well, except in districts where there is very heavy clay soil in the low lands. There the crop will be light. There was a considerable increase in the acreage in 1918.

The potato crop everywhere in New Brunswick is reported to be exceptionally good. Blight has made a slight showing in districts where spraying was not followed up properly. The yield in all parts promises to be high. The acreage of this important crop is not known exactly. In Carleton county, usually the most important potato growing section of the province, there was a reduction in acreage, but in other sections more land was planted to potatoes, so that it is possible that there will not be a reduction in the total. There is a good average hay crop in all parts of the province, some, however, is getting too ripe before being cut. In the gathering of this important crop, the scarcity of labor is felt keenly. The acreage of barley is increasing slowly. This year the crop looks well. Business years ago was considered a very important crop in New Brunswick, it is not very heavy, but is fairly good in quality. Frost did much damage to the buckwheat. By a little grown in this province. What is being raised is looking well.

Fan Questions Right of West Side Teams to Import City Players—Manager Has Prompt Reply For His Critic

The following letter was received by the sporting editor of the Times from West St. John baseball fan, protesting against the Blue Rock Giants securing players from sections of the city other than the west side:

St. John, West, N. B., August 10, 1918.

Dear Mr. Editor:—Referring to the game played Thursday night at the west side diamond, between the Blue Rock Giants and the Courtenays, let me state emphatically that the Blue Rock Giants did not beat the Courtenays, their team being composed chiefly of professionals from North End and the Y.M.C.I. league. Is this giving the young boys a fair chance? If it is necessary for the Blue Rock Giants to bring in outside help, have we not a few honorable citizens in West St. John who would be glad to help?

Should any player from North End or the city like to play the Courtenays, I am sure that they are sports enough to play them, even if they are composed of boy amateurs; and since they have organized have never made any changes in their team, and if defeated always take it manly.

Thanking you, Mr. Editor for your valuable space,

I remain, FAIR PLAY.

Interviewed by the sporting editor of the Times, John White, president of the West St. John League and manager of the Blue Rock Giants, said that he was surprised to hear any such criticism made against his team. He pointed out that the fans should look over the personnel of all four teams before protesting against any one, and thus avoid discrimination. He said that the Courtenays have Eddie Ramsey, "Butt" Riley and Jack Callaghan, all professional ball players, in addition to others who do not all reside in West St. John. He pointed out that the object in procuring outside talent was in order to give the west side fans the best brand of baseball in the city, and wants to know if they desire an exciting and keenly contested game or a poor exhibition, replete with errors, high scoring, etc.

With reference to the Y.M.C.I. league, he said, there was no such organization. He had two players who were playing on the Y.M.C.I. team in the St. John Patriotic Baseball league, but they were no more professionals than any of the players in the Courtenays.

When the Courtenays won, he said, there was no protest, but the criticism was heard only after they had been defeated. He asks if that is sportsmanship?
