We will build weirs; we will till the soil and we will raise sheep, and the surplus we will be able to sell.

La MARQUISE de FONTENOY

Lady Somerset's Sister Woman of Wealth and Philanthropic Tastes—Daughter of Eccentric Nobleman to Wed at 33—Lord Kitchener's Rule in Egypt

(Copyright, 1911, by the Brentwood Company.) Adeline, Duchess of Bedford, who has been spending a few days in New York, at the Holland House, with her adopted daughter, Lady Dudley, on her way home from Australia, where Lord Dudley has been filling the office of governor-general of the commonwealth, is the only sister of Lady Henry Somerset, so well known in America, in connection with the role which she has played in the temperance and woman's emancipation movements.

Like Lady Henry, she is a daughter of the late Earl Somerset, and noted for her beauty, married in 1876, the tenth Duke of Bedford. Exceedingly stout in his later years, he was a victim to heart disease and succumbed to a sudden death in 1893, as to give rise to rumors of suicide, for which there was no foundation, however. He was succeeded by his younger brother, Herbrand, the present duke, who is a man of abundant wealth with this world's goods, since she has not only the property which he left her, but also that inherited from her father, Lord Somerset.

Much of the duchess's income she devotes to philanthropy, and has done so much good work among the female inmates of prisons, and in providing for their welfare after their liberation, that the government felt impelled to show its recognition, by creating for her the office of lady visitor to the female convict establishments of the United Kingdom. Mrs. Maybrick owed much to Adeline, Duchess of Bedford, and it was largely owing to the latter's advocacy of her cause, that the unfortunate woman was eventually set at liberty, instead of being compelled to spend the remainder of her days behind prison walls, as the convicted murderer of her husband.

Catherine Cowell-Stepney, whose impending marriage to Sir Stafford Howard, of Thornbury Castle, Gloucestershire, has just been announced, is the thirty-three year old daughter and sole heiress of the late Sir Arthur Cowell-Stepney, who died about this time two years ago, was found dead in a village railroad station in Arizona, she inherited from her father all his property including about 10,000 acres of land in Wales, and some 15,000 acres of land in California. Sir Arthur was an eccentric. Indeed, it was on the strength of affidavits of the late Mr. Gladstone, of Lord Currie, of Sir Robert Meade, Under secretary of state for the colonial department, and of Sir Percy Sanderson, of the foreign office, with which Sir Arthur had been connected for a number of years, regarding his delinquent conduct, that a charge was made in 1891, of the custody of his daughter, then a minor, and was declared a lunatic, and placed under the treatment of the late Sir William Gull, of Dr. Bordenley, and other eminent physicians and specialists for mental ailments, besides being in the custody of an alienist for more than a year. Subsequently, the case was tried, and gave vent to his anger for the persecution to which he considered himself to have been subjected, and securing letters of naturalization as a citizen of the United States.

Sir Arthur was very proud of his American citizenship, and in writing to his fellow members of the "The Travellers and Brooks, two of the most important clubs in London, to which he belonged up to the time of his death, he begged that they should address him as "Mr. Arthur Stepney," since on becoming an American citizen he had "dropped the harness for good and all." While over here he was reported to have obtained a decree of divorce in the State of Idaho, on the objection of his daughter. But this divorce was never recognized by the English tribunals and was declared by Sir Eddon Gore, but I want you to try Royal Orderlies on my guarantee. The Evening Chit-Chat

By RUTH CAMERON

"WHAT would you do if you were going with a young man and were in love with him and he wasn't anxious to show his love for you? This young man is very nice, always treats me very courteously and tells the young men in town that he loves me. But I had my girl friend go with him to a show recently and she asked him if he ever intended to get married. He told her 'yes,' some day when he got so old that he would have to feed himself with a spoon."

I quote the above letter because it describes a certain kind of ad which, I think, decidedly needs to be put into the millinery of public scorn. And that is the man who never wants to admit to one girl that he is in love with another.

This creature with a disagreeable kind of cunning, evidently realizes what is, to a certain extent, true—that the knowledge that he is in love with one woman will make him less interesting to the other members of the opposite sex. And so, whenever he goes among other women, he either keeps still about his love or openly belittles it as this one does.

But, I hope I should be strong enough to give him up and wait for a man more worth loving. I don't know. I hope I should be strong enough to give him up and wait for a man more worth loving. I don't know. I hope I should be strong enough to give him up and wait for a man more worth loving. I don't know.

HOW TO SECURE BEAUTY Beautiful hair does not come by chance. This is a law of nature. Man has ever had to devote care and study to secure and maintain the beautiful. This is demonstrated in the hair of the ancients, and in the hair of the moderns.

Why Hesitate? I am so positive my remedy will completely relieve constipation, no matter how chronic it may be, that I offer to furnish it free of all cost if it fails.

HE COULD ADD ANWAY The railway ticket-collector put his head in at the carriage door and addressed the jolly-looking individual.

Whether a would-be joker has been at work, or whether the message found on a faded piece of paper in a sealed bottle was actually genuine, is hard to determine, but it may be said that if appearances are to be taken as a criterion, the faded scrap of wrapping paper on which the terse message is scrawled has been floating about for many months in the corked bottle, exposed to the caprices of Jupiter Pluvius.

The Evening Times and Star

ST. JOHN, N. B., AUGUST 9, 1911. The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES THE DAILY TELEGRAPH New Brunswick's Independent newspapers. These papers advocate British connection Honesty in public life Measures for the material progress and moral advancement of our great Dominion. No graft! No deals! "The Shamrock, Thistle, Rose entwine The Maple Leaf forever."

BUILDING UP ST. JOHN The minister of public works, in an interview which is printed in this issue of the Times, tells of the nature of the work at West St. John, for which tenders will be called as soon as the city has completed the transfer of the shore lots to the C. P. R. The work will include both wharves and seawall, the latter to protect the filling which the railway company will have there to build up its property.

But this work, involving a large outlay, is only the beginning of the series of wharves to be constructed later, and the site for which is now being dredged. The complete plans provide for a series of steamship berths extending down toward the breakwater, and to be constructed rapidly enough to take care of the increasing winter port trade from year to year. When the whole plan has been carried out, St. John will have on the west side a most extensive system of steamship and railway terminals, making even the present excellent accommodation appear small by comparison.

Monday's vote on Mr. Balfour's motion of censure in the British commons gave the government a majority of 119. That should suffice. This is not a good year for Toryism, either in Britain or in Canada. The Standard says today in large type: "The members of the 74th will go to Chipman on Tuesday next—Politics and lemonade." The 74th band was at Chipman yesterday. There was politics—quite too much for the Standard's party—and there may have been lemonade. The Tories got the lemon.

So far as the province of New Brunswick is concerned, the Conservatives are so badly beaten before the campaign is fairly begun that the noise and shouting deceives nobody. As one member of the party said this week: "Borden can't win."

The Standard wildly demands: "Do Canadians want to lose the greatest market in the world? Do Canadians want to sever their connection with the Empire? Do Canadians want to sacrifice their Canadian nationality? Do the people of New Brunswick and the citizens of St. John want to see the winter port of Canada sidetracked for Boston and Portland?" One important question appears to have been omitted from this fearsome list. "Why is a hen?"

Colorado Springs, Col., Aug. 8.—Enclosed in the most costly coffin ever sent out of this city, the body of Esther Duff ("Queen Esther"), eight years old, who was the richest Indian child in the world, was taken today to Muskogee, Okla., for burial. She died here of pellagra.

The child was brought here four months ago from Tennessee in the hope that the change of climate would benefit her health. Chief Henry Duff, the child's father, is several times a millionaire as the result of rich oil strikes made on the land his family obtained from the government.

assistance has been given by the federal government for the construction of the line and its bridges, and for its operation as a part of the Intercolonial system. The project has now reached a stage where the next move is up to the provincial government. Dr. Pugsley and the federal government have done their part. The city of St. John is interested also in what the minister says about the new post-office. It is to be a building large enough to serve a larger than the present city, for he recognizes that St. John will increase in population, and is now on the eve of substantial growth in numbers and prosperity. The new structure will be of handsome design, and with the splendid armory which is now in course of construction will be a great addition to the public buildings of the city.

Hon. Dr. Pugsley comes before his constituents at this time, not as an apologist who has done nothing as a representative, but as one who can present a splendid record of important works accomplished and in progress, with comprehensive plans prepared for further development of St. John as a national port. Indeed there is still ground for hope that this port may be chosen as the site for the construction of the vessels for the Canadian navy. Its adaptability is admitted, and one great British firm has declared its preference for St. John as the site for a great ship-building plant. The citizens, looking back to the year 1908, cannot but be impressed with a deep sense of the progress that has been made by St. John as a national port, and the splendid contribution to that progress made by the man who has been their representative in parliament and in the government.

Reciprocity will bring the boys and girls back to the old home. The winning candidate in Kings-Albert will be nominated at Sussex today. The Grand Trunk Pacific will build machine shops and bring forty or fifty families of work people to Moncton.

How many of the provincial premiers will quit provincial politics to share in Mr. Borden's victory? None. Their enthusiasm has subsided.

The Standard has a burlesque account of the Liberal meeting at Chipman yesterday. Each meeting concerning which it does not tell the truth will swell the number of those who put no faith in anything they see in the Standard.

The retirement of Sir Alan Aylesworth from active public life is much to be regretted. He has served his country with great distinction. Despite his determination to retire, however, Sir Alan will take an active part in the Ontario campaign for reciprocity.

Monday's vote on Mr. Balfour's motion of censure in the British commons gave the government a majority of 119. That should suffice. This is not a good year for Toryism, either in Britain or in Canada.

The Standard says today in large type: "The members of the 74th will go to Chipman on Tuesday next—Politics and lemonade." The 74th band was at Chipman yesterday. There was politics—quite too much for the Standard's party—and there may have been lemonade. The Tories got the lemon. So far as the province of New Brunswick is concerned, the Conservatives are so badly beaten before the campaign is fairly begun that the noise and shouting deceives nobody. As one member of the party said this week: "Borden can't win."

The Standard wildly demands: "Do Canadians want to lose the greatest market in the world? Do Canadians want to sever their connection with the Empire? Do Canadians want to sacrifice their Canadian nationality? Do the people of New Brunswick and the citizens of St. John want to see the winter port of Canada sidetracked for Boston and Portland?" One important question appears to have been omitted from this fearsome list. "Why is a hen?"

Colorado Springs, Col., Aug. 8.—Enclosed in the most costly coffin ever sent out of this city, the body of Esther Duff ("Queen Esther"), eight years old, who was the richest Indian child in the world, was taken today to Muskogee, Okla., for burial. She died here of pellagra. The child was brought here four months ago from Tennessee in the hope that the change of climate would benefit her health. Chief Henry Duff, the child's father, is several times a millionaire as the result of rich oil strikes made on the land his family obtained from the government.

I can do all the hard work and care of my family, but I tell them my good friend, your Vegetable Compound, is that there will be no sickness and no aching down pain for me. I will take it as I have, I can't get without it in the house. "I will say to you that there is no better medicine to be found for young girls to build them up and make them strong and well. My oldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her. JOHNSON, Scottville, Mich., R.F.D. 3. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases.

The government dredge New Brunswick is now at work dredging in Kingston Creek.

Roy Crossland, a sailor on the government steamer Stanley, was taken to the General Public Hospital yesterday afternoon suffering from a painful cut in his right arm, the result of an injury received while working on board the steamer.

A meeting of the H. M. S. Polymorphian Club is called for tonight in R. J. Armstrong's office at 8 o'clock. Those having authorized bills against the club are to send them to the secretary, E. N. Stockford, to be dealt with at this meeting.

Jeff Callan, of Keith's New York offices, who has for the last ten weeks been spending his vacation as acting manager of the Nickel Theatre, will leave on Saturday for Lynn (Mass.), to take the management of a new vaudeville house in that city. Andrew Phillips, treasurer of the Nickel Company, has been appointed acting manager to succeed Mr. Callan here.

The Women's Baptist Mission Convention will be held in this city on Aug. 15, when it is expected that about 250 ladies will be present. This convention will last about two days, after which those who take part in it will proceed to Bridgetown (N. S.), where the Maritime Baptist Convention will open on Aug. 18, and is expected to continue for four days.

The monthly meeting of the Board of Health was held yesterday afternoon, and the reports of ten inspectors were received. The reports were extensive, covering visits to thousands of business places and homes. Col. J. R. Armstrong, counsel for the board, was requested to prepare for cases of prosecution, and he will confer with other members of the committee. Twelve milk dealers selling in the city have not taken out licenses, and they will be prosecuted. The resignation of Mrs. Webber as nurse was accepted but no appointment made.

DR. PUGSLEY TELLS OF GREAT HARBOR WORK

Great Development on West Side Ready for Tenders as Soon as Transfer is Completed—New Post Office a Handsome Building

Additional information in reference to the great works under way or to be carried out by the Dominion government on the western side of St. John harbor was given in an interview with Hon. Mr. Pugsley, minister of public works, last evening.

"The specifications for the work to be first done on the west side," said Hon. Mr. Pugsley, "have been prepared and the department is ready to call for tenders, but before doing so I think it proper that the transfer agreed upon should be completed. I do not know of anything standing in the way of this, and am expecting every day to learn that the necessary documents have been signed."

"The first work will consist of the building of a wharf from the harbor line to the southward of Sand Point inshore and up upon the 400-foot strip, to a distance of about 800 feet, then extending southward on the 400-foot strip a distance of about 800 feet.

"This will form a part of the system of wharves to be constructed, and will, as soon as completed, form a protection for the filling in to be done by the C. P. R. on its property and by the government on the other portion of the 400-foot strip which is to be transferred to the crown."

"The dredging for this work will be done to a depth of forty feet in order that accommodation may be afforded in future for the largest vessels which may come to the port, when further dredging may be done without interfering with the wharves. At present the dredging for the ship berths is being done to a depth of thirty-two feet at low tide."

"An immense deal of work has been done in dredging for the wharves and ship berths, and the requisite depth has now practically been obtained for the first series of new wharves."

"I conferred with the resident engineer, Mr. Sheehan, who is in charge of the work, on Monday, and am greatly pleased with the splendid progress which has been made by the dredging. It will also with the work recently done by the Stonelighter in removing large boulders, which were encountered during the progress of the dredging work."

"The channel entrance will soon be of sufficient depth to enable the largest steamers, such as the Empresses, to enter and leave the port at all stages of tide. This is very important because it will prevent delay to the vessels which has hitherto taken place and which has been regarded by steamship companies as a serious drawback."

"In this connection I might mention that, in addition to the building of the west side wharves, there is still another great work of improvement to be done upon the west side of the harbor, and that is the extension of Negro Point breakwater to the island. This will not only be a very considerable larger than the present building, but will meet not only the present requirements but will be suitable for many years to come, and will, in fact, be a permanent improvement to the harbor at the present time."

"St. John has a very good harbor, and a much greater population than that of St. John at the present time. We have hope that St. John will continue on a career of prosperity and that the population will increase with considerable rapidity."

"In making the plans for the new post office, this will be kept in view. I am having the plans prepared by the architect of the department and the building will be a handsome one, very similar in design to the new post office in Winnipeg, which is a very beautiful building. As to the site, this will be determined on the report of an official survey which has been made of the city and has looked over several available sites. As soon as his report is received the plans of a few days, the matter will be dealt with."

LIBERALS IN LINE FOR THE CAMPAIGN

Kings-Albert Convention This Afternoon and St. John and Westmorland Tomorrow—Col. McLean's Meeting Successful—A. E. Wall in Digby

A large attendance is assured at the meeting to be held this afternoon at 4 o'clock in Sussex to select a candidate for the constituency of Kings-Albert. A feature of the meeting will be Hon. Dr. Pugsley's address.

The candidates for St. John city and county will be chosen tomorrow night at a meeting of the delegates in the Queen's Hotel. After the meeting a ratification conference will take place. The Liberals of Westmorland will also make their choice tomorrow at Moncton. That both the farmers and fishermen of

Charlotte county were awake to the advantages of reciprocity and to the benefits to be derived from the treaty, was the statement made by W. F. Todd, M. P., of St. Stephen who arrived in the city yesterday. He felt that the Liberal majority not only in New Brunswick but throughout the whole Dominion would be increased.

The opening meeting of the campaign in Queens county held yesterday afternoon at Chipman was a rousing triumph for the Liberal party. Col. McLean, M. P., and reciprocity. A hearty reception was given the popular member for Queens, as well as Hon. C. W. Robinson, M. P., and A. B. Cogg, M. P., who delivered addresses. Senator King presided and some musical selections were given by members of the 74th band of Moncton. All the speakers laid stress on the importance and advantages of reciprocity, and their remarks were heartily applauded. Hearty cheers for Sir Wilfrid Laurier and Col. McLean closed the meeting.

A. E. Wall, M. P., of Digby N. S., was yesterday chosen as the Liberal candidate for that place. The convention which selected him was the largest political meeting ever held in Digby county, every polling district being represented.

DIED IN CELL

Thomas Shea, a sailor, was found dead in a cell in the police station at Lunenburg yesterday. He had been arrested one hour before for creating a disturbance in the house of Cornelius Veniot. The coroner's jury returned a verdict that the probable cause of death was from methylened alcohol poisoning and no blame could be attached to anyone.

G. T. P. WILL SPEND \$400,000 AT MONCTON

Moncton, Aug. 8—Mayor Reilly, at a meeting of the city council tonight, made an announcement of considerable importance to Moncton. He stated that considerable correspondence has been passing to and from G. T. Pacific Railway Company in regard to locating here.

The company has decided to construct large division yards, a roundhouse, machine shops and other necessary buildings here and to that end already part of their right of way, near the new I. C. R. shops, had been secured.

Arrangements are about concluded to commence work at once. In fact, Mayor Reilly said work has commenced now. The immediate expenditure will be in the vicinity of \$600,000 and the company will bring into Moncton in the beginning between forty and fifty families besides trainmen.

The mayor said the company is desirous of constructing these works and with that in view they wish certain arrangements with the city of Moncton and they are willing to pay for what they receive from the city.

The company, he said, has carefully considered the different divisional points along the G. T. P. and found Moncton one of the most acceptable. They are strongly impressed with Moncton's future on account of natural gas, as it is their intention to use the gas in connection with the shops. They have already about completed arrangements with the gas company for a supply of gas.

About ten miles of track will be laid in connection with the yards. The mayor said the company were desirous of negotiating with the city in regard to the following propositions: The acquiring of a portion of the city's property west of the new shops; supplying water at a fixed rate; fixed valuation for taxes; closing of certain streets in the west end of the city through the Jones property.

In connection with the Grand Trunk's Pacific terminal facilities it may be said quite a lot of land for yards has already been acquired and the company's engineer will be here in a day or two to complete the final arrangements for rousing the work.

The city council decided to confer with the G. T. P. engineer in the body and arrange matters referred to in the communication.

One way to face difficulties is to turn your back on them.

A Richibucto School Teacher Once a Dyspeptic—Now Well, Thanks to Father Morrissey's No. 11

Richibucto, N. B., Nov. 17th 1909. Father Morrissey Med. Co., Ltd., I have been teaching school for upwards of thirty years, during the last twenty-five of which I have suffered seriously with stomach trouble, indigestion and dyspepsia.

I would get temporary relief from some of them, yet the old trouble would return, and with it the sufferings only known to the chronic dyspeptic.

Last year I had made up my mind to abandon my profession, feeling that in my condition I could neither do justice to myself or to the many pupils under my charge. A friend suggested to me that I try Father Morrissey's No. 11 Stomach Tablets; I did so, and have continued to use them with the result that my stomach troubles are cured—my indigestion and dyspepsia gone and I feel as well as ever.

I have, thanks to the tablets, been able to continue my profession, and feel that I am now enjoying my work and am able to give justice to the fifty-four pupils under my charge.

Yours Gratefully
(Signed) MARY CHRISTAL.

Are you one of the many thousands who, like Miss Gray, are prevented from doing their best work, or really enjoying life, by stomach trouble? If you are you cannot do better than she did—take Father Morrissey's No. 11 Tablets. No. 11 Tablets, when dissolved in the stomach, will digest 1 1/2 pounds of food—a good, hearty meal—so that no matter how weak your stomach may be No. 11 Tablets will enable you to get the nourishment out of your food and build up your strength, while the stomach, thus relieved, recovers its vigor.

PLAYS AND PLAYERS

Budget of News Concerning Stage Favorites Known to St. John Audiences.

It will be of interest to the friends of the late Lewis Morrison, who so often appeared in this city, as well as of his wife, Florence Roberts, who was his support, to know that their daughter, Mabel Morrison, is making a fine name for herself in the west as an actress. She is now appearing with Richard Bennett in Arsenic and Lupine, Pierce of the Plains, and other plays, and has scored a gratifying triumph. Her mother, Florence Roberts, has just closed a lengthy engagement at the Alcazar Theatre in San Francisco, Cal., where Miss Morrison is now playing.

Calais Beat the Marathons.
St. Stephen, Aug. 8.—(Special)—With Ryan in the box and Watt catcher, Calais defeated the Marathons this afternoon on the Calais diamond by a score of 12 to 3. The game was a close one and in the early stages it looked as if St. Stephen would win. The "blow up" in the sixth inning, when Fredericton, two runs behind, scored five runs and established a lead of three.

COX DID SOME GREAT WORK AT GRAND RAPIDS

The race in which Branham Baughman defeated Vernon McKinney was the feature racing event of the Grand Rapids meeting, says an exchange. What sort of a task it was for the Boston-owned stud was shown by the fact that it went five heats and only one other race of equal length has been paced in faster time than won by Minor Her from the Eel early in the campaign of 1908.

AMUSEMENTS IN ST. JOHN; WHAT THE PLAYHOUSES OFFER

GERTRUDE MANN, EXCELLENT SINGER AND PLEASING NOVELTY AT LYRIC.
Something new under the sun is what the Lyric Theatre is offering in Miss Gertrude Mann, the novelty illustrated songstress, who opens an engagement Monday which bids fair to be a most profitable one. The "Hymns of the Old Church" was Miss Mann's selection for her first appearance, and she hardly had made a better offer. Her voice is clear and sweet, and her pleasing feature is her enunciation which is perfect. The songs to be used by Miss Mann will be told through the medium of simple and exclusive illustrations that will give the audience a clear view of the singer and accompanying pianist. This is the most novel feature in today's attraction. The Lyric Theatre is presenting a "War Time Wowing" which deals with the late unpleasantness in Cuba and telling of the story of a young girl, a young lieutenant and a fair senora. Bobby, sauntering's famous comic gentleman and his partner, a comedian in the comedy, "Bobby in Love" and with "Out of His Element," another funny story, comedy program presenting a drama entitled "The American Company" which will make a rather unusual western drama.

Everyone is familiar with bricks--you see them everywhere--in your homes, in churches and public buildings. Bricks are used everywhere, all over the world. They are so common that people never notice them in looking at buildings. But did you ever stop to consider that the people who make brick must be making profits. Perhaps you know of someone who is interested in the manufacture of brick. Do they look poor or do they appear to have plenty of money? Stop and think. The use of brick can be traced back hundreds of years before the time of Christ. Brick is the only perfect building material. You now have an opportunity to become a partner in a brick manufacturing enterprise. Will you avail yourself of this opportunity or will you let someone else? Do not put this off. Send in your subscription today before it is too late. We believe this stock will be attractive to a great number of people who are not interested in other forms of investments, which have to do with mining propositions, no matter how alluring they may be presented. G. C. CUTLER TALKS AT BOSTON ON EFFECT OF PIKE LAW REPEAL

Stetson, Cutler & Co. Out \$50,000 As Result of Provision in Fane Tariff Act—The Value of Lumber Shipped—Reciprocity the Remedy

(Special to Times) Boston, Mass., Aug. 9.—A serious blow to the lumber companies operating in Northern Maine, according to a member of the largest of these companies, is struck by a provision of the Payne tariff act repealing the so-called Pike law, which has just gone into effect. G. C. Cutler of this city, member of Stetson, Cutler & Co., says that under the Pike law his firm has had saved at St. John and shipped to the United States no less than 40,000,000 feet of lumber a year. The duty on this would now be \$20,000, and there are other firms which will be similarly affected. "It seems very unjust to me," said Mr. Cutler, "that at a time when a movement is under way to take off all lumber duties, this practice which has continued for half a century, should be brought to an end, and duty assessed on lumber made from American logs because it was saved in the most convenient and economical way, that is, at St. John."

Figures obtained at the U. S. consular office by the Times show that the total export of the product of American logs in 1910 amounted to \$605,462.89, divided as follows: Laths 67,482.35 Shingles 6,018.67 Lumber 477,961.87 Total \$605,462.89

Under reciprocity the had effect of this law, the working of which will materially result in thousands of dollars being taken out of the pockets of workmen of St. John, will be greatly relieved. The laths and shingles will go in at a much reduced rate, while the lumber in other forms goes in free.

FERRY STEAMER MAY BE USED TO MAKE HISTORICAL TRIP

Members of N. B. Historical Society Ask for "Governor Carleton" To Make Journey to Caton's Island for Unveiling Monument

It is possible that the trial trip of the new ferry steamer, "Governor Carleton" may not be taken down the bay, but on the contrary she may go through the falls and up river on an historical expedition, having on board not only the members of the common council and civic officials, but also the members of the New Brunswick Historical Society and their guests who have among others prominent representatives of the Natural History Society. A communication was received this morning by Mayor Fink in which His Worship was asked as to whether or not such an outing would be possible and he replied that there might be an opportunity to bring the matter before the council at the special meeting to be held on Monday next.

It is planned by the N. B. Historical Society to go to Caton's Island on August 19 for the purpose of unveiling a monument to the memory of those pioneers who made the first white settlement on the St. John river dwelling at what was known as Emenetic Isle by the Indians, but what was termed Caton's Island by the white settlers. This is the three hundredth anniversary of the event, and the members of the Historical Society are preparing to commemorate it. No definite programme has yet been prepared, but it is expected that several well known speakers will be heard among them prominent representatives of the Acadians. The island is situated in the river not far from Oak Point and it is felt that the ferry steamer on her trial trip might be used to convey the historians there to take part in the festivities.

MRS. MAJOR LOST HOME AND HUSBAND WITHIN ONE YEAR

Suffers From Monday's Fire, Widowed by Loss of Schooner Thetis With all Hands at Sea During Last Winter

Insurance to the extent of \$600 with the Atlas Assurance Co. was carried by Mrs. Ellen Major, of Woodside Road, West End who was burned out on Monday. Fate has dealt harshly with Mrs. Major as the burning of her home is her second misfortune of magnitude in less than a year. Her husband, Albert Major, was steward on the ill-fated schooner Thetis which left Dorchester, N. B., for Philadelphia last winter, and has never been heard of since. The big, three-masted vessel was owned by P. W. Sumner, of Moncton, and had a cargo of plaster and lumber. It is presumed that she was caught in one of the series of terrific storms that raged during last winter and foundered with all on board.

The Great Sale Still Gaining in Force And Favor as The Bargains Are Becoming Better Known

This is truly the banner bargain event of all our previous special efforts. But there is every reason evident for the great success of this mighty movement.

Never in our history were we compelled to dispose of such an enormous stock of fine seasonable goods at the end of any season, hence to protect our own interests for the future, and take no chances of carrying over any goods, we inaugurated this great clearance sale.

Before we attempted to offer this stock to the public, we realized what we were "up against." The volume of goods was so enormous that our only chance for clearance was at a tremendous sacrifice.

For good, sound business reasons, losses are sometimes advisable.

When this sale was announced, we stated that neither cost nor profit would be considered—we proved our statements by the crowds that are here continually.

And remember this sale is booked for 10 days only, therefore Saturday of this week will be the last day.

There are still hundreds of splendid bargains all through the store, but the earlier you take advantage, the stronger the variety—as stocks are rapidly moving out.
