Dissensions Follow Victory of Left in French Elections

SEES SUGGESTION FOR DAVES PLAN

COALITION NECESSARY FOR CONTROL

Socialists are Refusing Compromise With Radicals; Communists Alone.

HERRIOT KEEPS OUT

Declines Announcing Course Till Matters Settle Down After Victory.

BY WEBB MILLER (United Press Staff Cor.)

Paris, May 15.—Dissension over the spoils of political victory is increasing daily in the ranks of the Left Wing. Many Socialists will have nothing of compromise with Radicals, and Communists disdain affiliation with any party.

For the purpose of government, a combination of parties of the Left is necessary. No one political group is within 100 seats of being able to control the chamber for a day. Politicians recognize this, and are quietly arranging the necessary compromise in the interval before Premier Poincare resigns.

Says Herriot Will Accept.

Edouard Herriot, Mayor of Lyons, who is spoken of as likeliest successor to the premiership, has been to the south of France. He has carefully refrained from revealing his attitude but the newspaper Quotidien announced today that Herriot would accept the task of forming a cabinet.

Leon Blum, one of the leaders of the Socialists, announced opposition to his party participating in a cabinet with Radicals or "any Bourgeois party." The Socialists have summoned a congress for June 1 to consider participation in the next government.

Paris, May 15.—The coalition of the Left seems less and less decided on what to do with the victory won in Sunday's elections. The Socialists, who claim the lion's share of the credit for defeating the National Bloc, are beginning to show uneasiness at the continued absence of such men as Herriot, Painleve and Briand, who, they logically say, should be at the helm of the new coalition ship but all of whom appear to be waiting for some one else to take command.

Paris, May 15.—M. Herriot, head of the Radical party is waiting for the political situation to clear before making a decision as to his future course. He is quoted as declaring to the Lions correspondent of Le Matin: "After the formidable tidal wave which has submerged French politics, the parties have need to get back their breath and the elected deputies to be classified in well-defined groups. Until then I shall observe strictest reserve, and take no attitude of decision, save in leaving today on a short trip."

SOME REDUCTIONS IN EXPORT RATES

St. John and Halifax on Same Basis as American Ports.

Montreal, May 15.—As a result of conferences with millers and the Board of Railway Commissioners, certain reductions in export rates on flour and grain products from milling plants in Ontario to Montreal, Quebec and other Atlantic seaboard ports will be made by the Canadian railways.

From lake ports to Montreal the rate will be 17 1/2c per 100 pounds, and to Quebec, St. John, Halifax, Portland, Boston and New London, 18 1/2c. To New York, Philadelphia and Baltimore, from Port Colborne, the rate will be 18 1/2c on flour and 19 1/2c on other grain products; from Goderich, 21c and 22c; from Collingwood, Midland and Tiffin, 22c and 23c; from Depot Harbor, 24 1/2c and 25 1/2c. These rates represent a reduction of 1/2c and 2c per 100 pounds. The new rates will permit milling at interior mills in Ontario under the usual transit arrangements.

TALK FUND OF \$500,000 FOR U. N. B.

One Member of the Alumni Reported Willing to Give \$50,000.

ENCAENIA TODAY

St. John People Attend—References Made to the Railway Situation.

(Special to The Times-Star)

Fredericton, May 15.—This is encaenia day at the U.N.B. and it is marked by several matters of interest. The one hundredth anniversary of the laying of the corner stone of the original arts building of the University of New Brunswick will be commemorated in 1925 by a grand reunion of university graduates, it was announced here this morning by W. J. S. Myles, of St. John, newly elected president of the Alumni Association. This decision was reached at the annual meeting last night and the following committee appointed to handle the details—John B. McNair, chairman; Dr. H. V. B. Bridges, C. McN. Steves, B. H. Hill, C. W. Hall, Dr. A. E. VanWay, Fredericton, and Lt. Col. E. C. Weyman and W. J. S. Myles of St. John.

Fund of \$500,000. The alumni also endorsed a proposal to establish a permanent endowment fund of \$500,000 for the university. Mr. Myles said that no effort would be made to campaign for this fund until the new Memorial Hall had been completed and paid for. He announced that a member of the association had pledged to contribute \$50,000 to this fund if it was realized inside of ten years. The bank interest on donations received for this fund would not be used for any other purpose than to achieve the mark aimed for, Mr. Myles added.

St. John Man Honored

When Professor William J. Cunningham of Cambridge, Mass., delivered the Alumni oration at the final encaenia exercises here today, the most interested person in the large audience, which included many distinguished citizens, was his mother, Mrs. W. A. Cunningham of West St. John. It was with a great deal of pride that Mrs. Cunningham listened to her son, as it is an honor to have this proud oration given by any other than an alumnus. Professor Cunningham's brilliant career fully justified his selection by the Alumni Association. Born in West St. John in 1875, the son of W. A. Cunningham, engineer on the Carleton ferry, Prof. Cunningham attended the public schools in West St. John, and at the age of fourteen he entered the employ of M. R. A. Ltd., with Harry Brodie, a St. John boy who has risen high in the C. P. R. Soon after leaving M. R. A., Professor Cunningham went to the United States, where his rise in the railway profession was rapid. Today he holds the James J. McLaughlin chair at Harvard University, which conferred an honorary M. A. on him last year. Professor Cunningham's address today was on "The Transportation Situation in the United States." He will return to Boston this evening.

In New Hall

The exercises today were held in the new Memorial Hall built by a St. John firm, B. Mooney and Sons, Ltd., while the occasion was unique for St. John in that for the first time in history law school graduates from St. John received the degree of Bachelor of the Civil Law formerly conferred by Kings.

Among the St. John people attending were: Daniel Mullin, K. C., Judge H. O. McInerney, Mrs. Thomas Gorman, Miss J. Gorman, Mrs. Margaret Corkery, Miss Muriel Corkery, Miss Gertrude O'Neill, Mrs. R. L. Grannan, Joseph Corkery, D. Gordon Willet, H. E. McLeod, Miss Maud Cunningham, E. W. Bowman, Col. A. B. Snow, W. J. S. Myles, Dr. W. W. White, Fred Brodie and others.

The programme today was: 2 p. m.—Academical procession formed in lower hall of main building. 2:30 p. m.—Chair taken by His Honor the Lieutenant-Governor. Address in praise of the founders by Professor Claridge.

3 p. m.—Distribution of medals, prizes and honor certificates, and conferring of degrees. 3:45 p. m.—Address to the graduating class by Charles E. Neill, Esq., Montreal. 4 p. m.—Alumni oration by Prof.

Gets His \$200,000 Seized Stock Back

Washington, May 15.—Joseph Magg of Zurich, Switzerland, has won his case in Equity court against Colonel Thomas W. Miller, alien property custodian. Chief Justice Walter J. McCoo ordered the return of 350 shares of stock of the Bearings Company of America, for which Mr. Magg said he paid \$200,000. The shares were surrendered by Knauth, Nachod Kubine, bankers, of New York, as owned by an alien enemy. The decree against Colonel Miller also requires him to turn over to Mr. Magg interest and income on the stock amounting to more than \$85,000. The stock was once in the name of George J. Ustensfeldt of Hanover, Germany, from whom Mr. Magg purchased it.

MIRAMICHI LOGS IN SAFE WATER

Every Stick is Expected to Come Out—Four Mills Are Running.

(Special to The Times-Star)

Newcastle, May 14.—Miramichi lumbermen are happy. Better driving conditions have been practically unknown on the river, and unless something altogether unusual happens practically every log will come into the boom. There is still upwards of a foot of snow on the banks, and a big freight on all branches of the Miramichi river. The first drive to reach safe water was that of William Sullivan on Little Seogville, in charge of Kiah Copp. It is now in the North West Boom. Melvin Murphy's drive for the Miramichi Lumber Company on Devil's Brook reached safe water last Thursday, while Frank Menzies' operations for the same company on Catamaran Brook ran into the main Little Seogville on Monday. Allison's drive for the Ritchie Company was in the river last night, while Dick O'Brien's drive for the same company on the Hungarvon will reach safe water today. David Mutch's drive for Sullivan was at Stoney Brook yesterday, and while the exact location of Wallace Johnson's crew for O'Brien, Limited, on the Tomogony was not ascertained, logs from this operation are running very thick at Way's bridge. Kingston's drive on the Seogville and Robinson's will be in operation in a few days. The drive on the Millstream had to be temporarily abandoned due to the boom being filled with logs. The drive on the Millstream is safe. Tuesday's heavy rain caused a rapid rise in the water and it was feared many logs would be carried into the water. The rise was only temporary as it fell over a foot again yesterday.

The mills of Fraser Companies and Burchill at Nelson, Sinclair's, Newcastle, and Miramichi Lumber Company, Douglastown, have already commenced the season's sawing, and it is expected that Ritchie's, Sullivan's and Robinson's will be in operation in about two weeks. Messrs. O'Brien, Limited, are rushing work on the new mill to replace the one destroyed by fire recently. It is expected that J. W. Maloney will operate the Creaghan mill at Millerton this season. Mr. Creaghan having been appointed manager of the new creosote plant now being erected here.

FOLEY IS CHIEF OF TAMMANY HALL

New York Judge Quits Bench to Lead Political Organization at \$15,000.

New York, May 15.—Surrogate Judge James A. Foley last night was elected successor to the late Charles F. Murphy, as leader of Tammany Hall. But two of the seventy members of Tammany's executive committee voted against him.

Surrogate Foley will resign from the bench within a few days to assume the leadership of New York's oldest and most powerful political organization. His present office carries a salary of \$15,000 a year.

William J. Cunningham, M. A., Harvard University, was the subject of a 480 p. m.—Valedictory address by A. E. Leslie Booth.

The Railway Situation. In the course of the Alumni address, Prof. William J. Cunningham, Professor of Transportation at Harvard, whose subject was "The Transportation Situation in the United States and Canada," spoke hopefully of Canada's railway problem, but issued a strong warning against undue or unbusinesslike competition between the government railways and the C. P. R. Both should be given a fair chance. He spoke highly of Sir Henry Thornton, in referring to the Canadian Pacific, he gave it strong praise as the best that there is under private management and likely to maintain its superiority among the great transportation systems of the world.

Address in Praise of the Founders. Professor Claridge, who delivered the address in praise of the founders, said:

STRING MAY SEND LESSER TO THE CHAIR

New York Sleuths Tracing Him to Scene of Other Crimes.

IS ARRESTED

Link Robbery of Mrs. Johnson With Other Jewel Thefts.

By FRANK GETTY (United Press Staff Correspondent)

New York, May 15.—A similarity between some bits of cord may send Harry Lesser to the electric chair, the police say. The smooth, young man, whose face is warped and crooked, but whose outward manner has the Broadway polish, used cord to strangle some of his victims. Other times they were merely bound. When he slipped a noose about the jewel-laden throat of Mrs. Howard Johnson, wife of the composer, and stripped her of her gems, he made the inevitable mistake and overlooked something. By such a little thing as an empty medicine bottle, neglected on a bathroom shelf, Lesser was traced and caught within 24 hours after his victim was found, half strangled, the familiar cord nearly buried in the white flesh of her neck.

Murder of Girl

In such a way Louise Lawson died. The little Texas musician, whose short, mad whirl on Broadway is still a byword, was strangled to death by one of two men who stole the jewels from her uptown apartment not far from the hotel in which Mrs. Johnson was robbed. Belief exists that this man of half a dozen aliases may indeed be leader of a gang of jewel robbers, whose methods of putting the women who are friends of the Charltons (often quite carelessly beyond life) revert to the strangulation by cord practiced by the thugs of India.

The police have found that the cord which nearly cost Mrs. Johnson her life was similar to that which bound the hands and feet of Herbert Bartlett, a silk merchant, robbed by a gang three weeks ago, and to that used in a robbery of the apartment of Mrs. Mildred Ford, who has identified Lesser as her assailant.

BAXTER'S PROTEST BRINGS RESULTS

Leads to Important Amendment of Branch Line Bills at Ottawa.

Ottawa, May 15.—(Canadian Press)—With practically no discussion the railway committee of the House this morning decided to incorporate the following clause in all the Canadian National branch line bills:

"Should it appear to the company upon making final surveys of the said line of railways that the expenditure involved in the completion thereof will exceed the limits of expenditure specified in the act, the company shall not commence nor proceed with the work upon the said line of railway without first obtaining the approval of Parliament."

When the committee met yesterday, Hon. J. B. M. Baxter raised the point that there was nothing in the bills to prevent the Canadian National Railway Company from building the eastern portions of a projected line from the appropriation and then coming back to Parliament for more money. He proposed an amendment to safeguard this.

Today, however, the new clause cited above was submitted with the approval of the Minister of Railways, and Mr. Baxter accepted it in substitution of his own proposed amendment. "I gladly accept it," said Mr. Baxter. "It is as far I think as the Government or the Canadian National can go."

Pooling of Fruit Sales Continues

Vancouver, B. C., May 15.—Pooling of fruit sales under the Associated Growers Limited of British Columbia will continue and 88 per cent of the tonnage in the Okanagan Valley actually has been signed up, according to a statement by the directors. The Association will be in a much better position to control the market during the coming season.

Offer Blood to Save Babe

Here is one of the hundreds of tests made at Long Island College Hospital, Brooklyn, N. Y., in the feverish efforts medical men have been making to save the life of tiny Mimi Gaglia. Hundreds volunteered for a transfusion, declared necessary to save the baby's life, but illness had caused a queer change in the child's blood and scientists believe none can be found to match it.

Shoots Himself When 12-Year-Old Daughter Accuses Him of Coaching Her in Thievery

New York, May 15.—An instant after he had overheard his twelve-year-old daughter, Emily, standing only a few feet away from him in the Hamilton Avenue Police Station, accuse him of having urged her to commit a series of small thefts, Albert Charlson, 41 years old, of Brooklyn, whipped out a revolver and sent a bullet through his right temple. He is dying at the Long Island College Hospital, where he was taken in a hurriedly summoned ambulance.

According to the police, Charlson, upon the death of his wife several years ago, committed two of his children to an orphan's asylum and the third one, Emily, his favorite, he entrusted to the care of Mr. and Mrs. Kristian Kristiansen, an aged childless couple, who had been life-long friends of the Charlsons. It was only last week that the Kristiansens, through the help of an intermediary, Albert Christiansen, an agent of the Children's Society, 125 Schermerhorn street, Brooklyn, legally adopted Emily.

The father of the girl, however, continued his visits to his daughter at the Kristiansen home, 72 Second Place, Brooklyn, and the couple noticed that for about a month and after each visit small sums of money were missing from the house. They began to suspect the father of inducing Emily to steal during his periodic visits and as Charlson was expected last night, Christiansen, the Children's Society agent, was requested to question him. When this was done, however, and the stolen money was still unexplained, Emily, her father, her foster parents and Christiansen went to the Hamilton Avenue Police Station to settle the difficulty in an official manner. It was here that Detective Vincent Giordano took Emily to one side and learned how the girl's father, destitute and out of work, had urged her to take the money, \$15 in all, to take the tram to school. Emily became hysterical after the shooting and Giordano hurried her from the scene for an automobile ride, hoping to make her forget the tragedy, in which she had just figured.

Walter Knox Says Canada Has Not Much Chance at Olympics.

Calgary, Alta., May 15.—Canada's chances for the 1924 Olympic Games are not very rosy, according to Walter Knox, well known Canadian athlete and former Olympic coach, who was in the city yesterday on his way east. According to Knox, the Dominion has only two athletes capable of securing points—Cyril Coakley, a sprinter and Murdoch, a hammer thrower of Vancouver.

PUT SOCIAL WORK IN CARE OF BIG MAN

Ontario's Premier Plans Reorganization Under a Competent Administrator.

Toronto, May 15.—Premier Ferguson is contemplating a reorganization of all the social departments of the Ontario Government under the administrative head. They are now scattered among the departments of several ministers.

"My idea," he said, "is to get a big man with administrative capacity, who can get out to the public and make an appeal, enlist the co-operation of the outside social organizations and the churches, and who is able to look after the general administration. He will have supervisory charge of all delinquents, feeble-minded, the underprivileged, and all classes of welfare work. Under him there should be men in charge of the various branches of social organizations who are sympathetic with the work and capable of handling it."

GLEAM OF HOPE FOR THE WORLD

Morgenthau Says European Restoration is Now in Sight.

WILL AFFECT U. S.

Billions Now Deposited in New York Will Flow Back Home.

BY CLARENCE DUBOSE (United Press Staff Cor.)

London, May 15.—"We are not out of it yet—but there is daylight ahead and I believe European restoration is in sight." So said Henry Morgenthau, American diplomat and financier, today, in an exclusive interview with the United Press.

General Charles G. Dawes' plan for settling the European muddle will, if successful, he said, result in removal of several billion dollars of ready money from United States. This may temporarily tighten the New York money market, but will have no serious financial effect, Morgenthau said. He added that it would be "a good buy" if America actually paid this sum and lost that much American money in order to effect European stability.

Billions of Dollars. Mr. Morgenthau explained that, during and since the war, individuals and organizations all over Europe had got as much gold as they could to New York and deposited it with bankers there.

"No man knows the exact total, but it is certainly hundreds of millions and most probably runs into billions of dollars," he said. "As soon as reparations are settled, the Franco-German impasse eased, and European tranquility in prospect—which I think the Dawes report will accomplish—the Europeans will draw out their New York deposits and bring their money back to their own countries. Ultimately this will be a very wholesome thing for the American money market as it will put our idle gold to work."

Exchange Rate on Freight Shipments. "Germans, I believe, have more money in New York than any others. There is supposed to be considerable Russian gold, and heavy deposits from France, Spain, Greece and Italy and some deposits from every central European country.

"America has been regarded as the stronghold of the world and the American dollar the only absolutely safe money, since the war. So our strong box is full of other people's money. As soon as Europe becomes safe it will bring its money back to its own strong boxes. The Dawes report is one of the world's greatest examples of constructive statesmanship. It is almost the first gleam of light and hope that a turmoil Europe and a frightened world have seen since the war. The world has gone through a dark, forbidding and perilous passage."

AFTER CANADIAN MARKET FOR COAL

British Producers Will Make Huge Shipments—Strike Averted.

(By H. N. MOORE (British United Press))

London, May 15.—The appointment of a court of inquiry into the dispute between the coal trimmers and the authorities at British shipping ports has averted a national strike, which threatened seriously to affect huge shipments of coal to Canada. British coal producers have inaugurated a campaign to capture the Canadian market, believing the Ruhr mines will soon be producing their utmost output. I understand that the ship owners are co-operating by giving low rates to prevent the ships from returning in ballast.

MAJORITY OF CITY COUNCIL COME OUT AGAINST LEASING OF HARBOR FRONTAGE

Bullock and Wigmore Advocate Putting Harbor Into Hands of Commission.

Four of the members of the City Council this morning placed themselves on record as being against leasing of any harbor frontage to any private corporation or person, and two of them expressed their conviction that harbor commission should be adopted if the port was to be developed. The matter arose over a discussion on an offer by the Consumers Coal Company, and a proposal to build a crib work along the face of Charlotte street, extension to join the C. N. R. wharf at the end of Broadway avenue.

Commissioner Bullock said he had received an offer from the Consumers Coal Company to give up their present lease and take a new lease if the city would construct an additional wharf structure 100 feet in length at the end of the present wharf, as they would then be in position to get a class of business which at present they were unable to handle, the distribution of coal to other points in the Maritime Provinces. Another proposition which he had in mind was the building of a crib work 20 feet out in the slip, which would act as a retaining wall for the street. The estimated cost of this work was \$25,000, which would have to be paid for by the council to express their opinion on both projects, and said that the harbor master was of the opinion that would come from the interest and sinking fund carry the interest and sinking fund charges.

Mayor Potts asked what the commissioner's opinion was on the harbor commission, and he replied that he believed the best interests of the city called for the harbor being placed under government control. He was in favor of leasing the premises to the Consumers Coal Co. Mayor Potts said he would not vote for a bond issue for a wharf for the C. N. R. pay some of the cost of the work, as they used it to run their tracks on.

Commissioner Harding said he felt the city should control the placing of tracks on any city street. Mayor Potts said before any building was done it should be ascertained what was the C. N. R. was paying for the use of the streets. He wanted further information before he would vote for a bond issue.

Commissioner Bullock said the city was not building at the request of the railway, but was protecting its street. If there was an additional track placed on this trestle the railway would pay a rental. The motion was not put to the meeting.

ALL IS SET FOR OLYMPIC TRIALS

A. W. Covey, Home From Moncton, Speaks of the Arrangements.

President A. W. Covey of the Maritime branch of the A. A. U. of C. returned home last evening from Moncton. He reported that everything is in readiness for the Olympic trials, which are to be held there on Saturday, June 7. In connection with these events he announced that athletes already selected by the Olympic committee in any open events and would have to confine their efforts to the program as mapped out by the officials, but any athlete in good standing may enter the Olympic events. By this it is hoped that some "dark horse" may be uncovered and additional talent added to that already selected to represent the Maritime Provinces in the Canadian Olympic trials in Montreal next month.

There will be 11 dash, 220 yards followed by 100 yards, 100 yards dash, quarter mile, half mile, one mile and five mile races; the shot put, broad jump, high jump, hop-step and jump and a pole vault.

Tomorrow aspirants for track and field events will assemble at Rothesay, where they will start a course of training for the Olympic trials at Moncton and in Montreal. J. R. Cornelius, Canadian Olympic coach, is expected to reach the city tomorrow and will proceed to Rothesay to look over the field events and to look over the training for them. He will also endeavor to rectify any faults, and do everything in his power to assist them so they will be in a position to give their best efforts at the trial meets.

Among those who will train at Rothesay is Zan Miller, Canadian high jump champion, who is reported to be in good condition and weight and in good condition for the trials. From reports received Zan should have no difficulty defending his title and becoming a member of the Canadian Olympic team.

Another athlete, who is going to train, is Andrew Malcolm, who is six feet two inches in height and weighs 215 pounds. He is only 23 years of age, but due to his participation in athletics is well developed and exceptionally strong. While working out yesterday he tossed a 12-pound shot over 47 feet. With proper coaching he is looked upon as a likely candidate for the event.

Since the revival of the Olympic games in 1896, the Maritime Provinces have had only one representative, Dr. Garfield McDonald. When the final trials were held in Montreal in 1920, not an athlete from the Maritime Provinces was able to make the team of the A. A. U. of C. decided to give special attention to all lines of sport in the province with proper coaching and encouragement there would be a different story this year. That their efforts have borne fruit is evidenced from the fact that already three men: Charles Gordon, Hilton Belyea and Victor McAnuly have been attached to the team.

WHEN 1,200 CHEATED DEATH

First photographs to reach the United States showing the abandoned steamer Frabenton, which caught fire in the Red Sea, with 1,200 pilgrims aboard. The British steamer Clan Maciver went to the rescue and took off the passengers, which included a number of Europeans. In lower right may be seen a section of the stern of the rescue ship.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

BIG TRIPLE WEEK-END SHOW, UNIQUE

A Startling Western Feature, New Ruth Roland Serial and "Our Gang" Comedy.

The week-end show at the Unique will bring out mid-season capacity audiences. Roy Stewart in one of the best of western thrillers, "Pure Grit," Ruth Roland in her newest serial, "Haunted Valley," and an "Our Gang" comedy are the inducements. Ruth Roland is probably the greatest of serial favorites, and "Haunted Valley" is said to be her most popular serial.

MYSTERY ABOUT BOOSTS GRANT FOR THIS CONVENTION

Mine Workers Meet and Do Not Invite District Officers. British Commons Adds Half Million to Appropriation For Wembley.

Sydney, N. S., May 15.—The U. M. W. convention which opens today at New Glasgow is fraught with important possibilities affecting the future of the coal mining industry in Nova Scotia. The real objects of the promoters are shrouded in secrecy, and with the miners in the present mood almost anything may happen. The convention has been called by the members of the rank and file and the provincial district officers have not been invited.

London, May 15.—(Canadian Press cable)—The House of Commons yesterday without a division agreed to increase the government guarantee in connection with the British Empire Exhibition from £100,000 to £200,000 after a motion to reduce the extended guarantee had been withdrawn.

PHOTOGRAPHY IS DISCUSSED Trade Board Council Expresses Appreciation to City and Province.

The Board of Trade Council this morning dealt with the matter of port photography. After hearing a report on what had been accomplished with respect to the port folders that had been forwarded to the British Empire Exhibition, a resolution was adopted in which the Council expressed its appreciation of the assistance rendered by the Mayor and City Council, by the Keena Agricultural and the C. P. Railway, in the furtherance and distribution of the British Empire Exhibition, and to Mr. W. R. Bowser, the New Brunswick representative at the Exhibition for the assistance that they have promised.

TYPHOID OUTBREAKS CURBED.
Dr. William Warwick, district medical health officer, who returned yesterday from Albert County, where he had been investigating the outbreak of typhoid fever, reported that all the cases originated in a lumber camp near Stony Creek and were caused by unsanitary conditions at the camp. The camp is now being cleaned up and made safe by Dr. Warwick, he believed that the outbreak had been stamped out.

ST. JOHN, N. B., MAY 15, 1924.

AT THE UNIVERSITY.

Unusual interest attaches to the closing exercises of the University of New Brunswick this afternoon.

The first time the ceremony takes place in the fine convocation hall in the Memorial Building which so fittingly commemorates the heroes of the United Great War.

Also today for the first time law degrees are conferred at the Fredericton institution. In arts, engineering, law and other branches of learning a large and promising class has been equipped at the college which has sent forth so many graduates who afterwards achieved distinction in life.

Today, too, honorary degrees are conferred upon two conspicuous sons of the University, Mr. C. E. Neill, General Manager of the Royal Bank of Canada, and Mr. H. H. Higginson of the Normal School.

The usefulness of the University of New Brunswick continues to expand and yearly it occupies a higher place in public esteem. The decision against amalgamation has been fully justified and it is a source of gratification, not only to the sons of the University but to the New Brunswick people at large, that the institution has maintained its identity and goes forward ably upholding the noble traditions surrounding it.

In the course of his thoughtful address to the graduating class, Mr. Neill gave much wise counsel which must have impressed them strongly and which is worthy of consideration not only by college graduates, but by all young men who are beginning to make their way in the world. He dwelt strongly upon character and courage as essential to real success, commending honest cheerfulness and unflinching industry as powerful aids in reaching the goal set by a well considered ambition.

He made it clear that without sound principles and the courage to live up to them there can be no real success, that there must be courage to bear disappointment cheerfully and the determination to turn every seeming failure to good account; for failure may be a blessing if it prevents one from sinking into self complacency.

"This is a personal world," he said, "and if you are to achieve your well considered ambition, you must depend upon yourself and on no one else. Many have the desire to succeed, but are not willing to make the effort required. They are not prepared to forego the pleasures of today for the rewards of tomorrow."

Another noteworthy address was that delivered by Professor W. J. Cunningham, Professor of Transportation at Harvard University, who spoke on the transportation situation in Canada and the United States, and delivered a strong warning against undue and injurious competition between the Canadian National Railways and the Canadian Pacific.

dwellings, protected and unprotected, but the loss in mercantile stores was also heavy. A lesson is to be found in the analysis of causes of fires given. Of 254 fires fifty-one are credited to chimneys, stoves and stoves, overheated and defective, and seventy-six to stoves, furnaces and boilers and their pipes. These latter caused led to an aggregate loss of more than \$250,000. In seven cases incendiarism is given as the cause. Matches account for ten fires, and careless smoking for eight. Sparks on roofs caused thirty-one of the fires.

It is obvious from reading the report that a very high proportion of the fires during these first three months were due to negligence of one kind or another, and the Fire Prevention Board is doing an excellent work in the line of investigation, analysis and classification in order to cut down the amount of preventable waste. The record in itself is an object lesson and a warning for the people throughout the province.

THE FORTUNE OF A BOSS.

Hungry Tammany Hall, and a multitude outside its ranks, were astonished to learn from the late "Boss" Murphy, that he had died worth only a paltry \$450,000. Most who knew of his sinister opportunities supposed he had feathered his nest to the tune of some millions, but after twenty-two years of power, a reign much longer than that of any of his rapacious predecessors, his estate yields less than half of one million—whichever, considering his power and his activities, sounds little like a Tammany chieftain. Besides, says the reviewers, he had about \$300,000 when he sold his saloon and became Tammany boss, and as of late years he did not spend more than \$50,000 a year, what could he have done with it? The answer appears to be that he held power above great wealth.

Not so Tweed. He was insatiable, and he rolled up a great fortune, only to dissipate it in trying to buy immunity from punishment, and to die, poor, in prison. And not so Croker, who was a freeman and became a millionaire, leaving great wealth for his heirs to squabble over—heirs who tried to prove him mad after he married an Indian "princess." To contrast Murphy's quiet methods and comparatively modest way of living with Croker's, it is related that when Croker was at his zenith he sometimes distributed lavish rewards among his henchmen. For example, it is told of him that he called in a promising lieutenant and rebuked him because his hat was shabby, gave him a banknote and told him to go get a better one. The youngster on looking at the bill saw that it was \$1,000. He returned it, saying with abashed humility, "You have made a mistake, sir." But the Chief said sternly: "I never make mistakes. How much do you think a hat costs?" And the young man knew that he was in favor. He had been picked for promotion, and thereafter rose rapidly in the secret circle of power.

Murphy, less pugnacious than Croker, won to power quite as absolute in the later years of his reign, and his opportunities to gain great wealth had few limits. Being who and what he was, his followers took it for granted that his fortune was immense. An optimist in viewing Tammany politics says of the dead boss: "Murphy's moderation is indicative of a better day for the organization. It supplies an example for the future bosses of his organization. He made it easier for his successor to regard politics as something better than a grab-bag." That comes about as near eulogy as Murphy has received. But alas, Murphy's successor, if he runs true to the Tammany machine, will think of Murphy chiefly as type, will think of Murphy chiefly as one who could have had millions but who threw away his chance. In money matters Murphy is a Tammany exception. The next boss is all too likely to emulate Tweed or Croker in regard to personal gain. Examples of moderation excite only scornful laughter in the Wigwam circle. Murphy ruled long and his power was great. But he leaves no monument. And Tammany will not change.

A GREAT WASTE.

A quarterly bulletin of the New Brunswick Fire Prevention Board, covering only January, February and March of this year, shows that the fire waste in New Brunswick for this period amounted to \$485,896, and it is to be noted in connection with these figures that of the total loss values in the extent of \$109,000 were not covered by insurance.

Let it be noted also that this has nothing to do with forest fires, which are excluded, but refers to the destruction of buildings and other property in cities, towns and villages. A complete analysis of these fires, their nature and their causes, shows that a very high percentage is due to neglect and carelessness of one type or another. Some districts escaped lightly, but Carleton County, Northumberland, Resignouche, St. John City and County, Westmorland and York contributed to the total. In one case it is noteworthy that \$41,000 loss there was a value of \$27,000 not insured. In another case a \$40,000 loss carried only \$10,000 insurance. There are other similar and striking instances. The greatest number of fires were those in

Press Comment

OLD AND YOUNG IN WAR.

(Ottawa Citizen.) There is this to be said for the next war, however: many elderly civilians at home will get a dose of it. When it comes according to all the recognized authorities, cities will be saturated with poison gas from enemy bombers. There may be no "front" like the last war, where lads had to live in rats in holes while profiteering went on, as usual, safely out of reach of enemy fire.

EXPORTING THE OLD BRANDS.

(Guelph Mercury.) Slowly but surely Britain is becoming more temperate. She is said to be consuming two million bottles less of whiskey each week than in 1922, according to the statistics. The quality must be getting poor there, with so much of the older brands being rushed to America.

A LONE MAN HUNT.

(New York Herald-Tribune.) Four years and a half ago in Texas a group of swindlers took \$45,000 from J. Frank Norfleet, a rancher, who, to use his own words, was "living close to nature and attending strictly to his own affairs." Thereupon followed a drastic and daring campaign which has only just ended.

When Norfleet realized that he had been swindled he strapped on a .45 and announced that he was going to kill the men who had violated his nose beneath his brim. He had a smile for everybody, he was going home to his wife and children, to the horses, cattle and sheep and the life of the range. In the four and one-half years he has wandered up and down the United States, been in the most prominent cities in Canada and visited Cuba in pursuit of his quarry. The original half dozen swindlers expanded into allied bands of confidence men and wire-tappers till the outfit numbered sixty-nine.

BIRD NESTS.

(Harold Vinal, in "Voyage.") Birds build their nests in every sort of tree. When the wood violets have started growing. Down the bright orchards, they wing suddenly. All in a gust, after the last bleak snowing. After the winter-crows have started going. I've had them pass in hundreds over me. A spatter against April sky, a sea of April wings, sudden as the cock's crowing.

TIME CHANGES ON MAY 18TH

Will Go Into Effect On C. N. R. Lines—Night Train to Halifax Daily Except Sunday—Changes on the Valley Railway.

Changes of time on C. N. R. Lines, effective May 18th, affect several of the trains in and out of St. John. No. 44, leaving at 7:05 a.m., will run as far as Moncton, connecting there with the Maritime Express for Halifax, and at Sackville with train No. 42, leaving there at 1:10 p.m. for Tormentine—making the P. E. I. first steamer connection.

No. 23, the Sussex train, will leave Sussex at 5:45 a.m. (Atlantic Time) and arrive in St. John at 7:45 a.m. No. 24 will leave for Sussex at 4:15 p.m. and reach Sussex at 6:15 p.m. Suburbans for Hampton will leave at 11:20 a.m. and 5:15 p.m. Suburbans will leave Hampton at 12:35 p.m. and 6:35 p.m. for St. John.

All trains, including suburbans, will operate on Atlantic Time, as per time table. No. 10 will leave at 10:25 p.m. for Halifax, daily except Sunday and will do the suburban work between St. John and Hampton, replacing No. 130 suburban. Under the new schedule No. 10 will arrive in Truro at 8:40 a.m., and will leave at 9:20 a.m. for Halifax, arriving at 11:50 a.m.

No. 3, night train from Halifax, will leave Halifax at 8 p.m., daily except Saturday for St. John, arriving here at 6:40 a.m., daily except Sunday. No. 9 will do the suburban work from Hampton to St. John, replacing suburban No. 131.

Afternoon connections for Prince Edward Island will be made by No. 14 train, which will leave St. John under new schedule at 12:55 p.m., connecting with No. 40 at Moncton for Cape Tormentine. Cafe parlor car will run between St. John and Tormentine, returning on No. 39 train from Tormentine, and connecting with No. 13 train between Moncton and St. John. There will be no cafe parlor car on No. 43, the evening train from Moncton to St. John.

Trains Nos. 19 and 20 will continue to run between St. John and Springhill. No. 29 will leave here at 6:10 p.m., and make the Maritime Express connection at Moncton for Quebec and Montreal.

On the Valley Railway train No. 45 will leave St. John Station at 2:0 p.m. (Atlantic Time) for Fredericton, arriving there at 5:25 p.m. This train will run through to Newcastle, Chatham and Newcastle in the morning, will arrive in Fredericton at 1 p.m., and connecting train will leave Fredericton at 1:30 p.m., arriving in St. John at 6:10 p.m. There is also connection from Centreville and Woodstock by this train, and with No. 52 at McGivney from Quebec and Ed-

mondston on Monday, Wednesday and Friday. It will thus be seen that St. John has direct and connecting services with all parts of the Province better than ever before.

Further particulars regarding all train services will be furnished on enquiry at City Ticket Office, 49 King street, or at Ticket Office, Union Station.

Sudden shocks and rough roads

CULVERTS, rough roads, ruts, loose gravel, sand and holes—your tires get all the shocks and wear first, last and all the time.

Shocks cause internal friction; friction develops heat and heat is the enemy of tire durability.

In Dominion Royal Cord and U-cord Tires, built exclusively in Canada by the Web Cord process, internal friction and heat caused by cross threads, are now eliminated.

Sprayed Rubber used in the walls and treads of Dominion Cord Tires gives the greatest elasticity, strength and resilience to the tire.

When you equip your car with Dominion Royal Cord or U-cord Tires you will have tires which will give greatest mileage under the punishment of rough roads.

These new, exclusive improvements in Dominion Cord Tires add nothing to your tire costs—they are added values for your money.

More than ever Dominion Cord Tires are the standard of tires and tire values in Canada.

A Bicycle Saved Tom \$15 A Month Rent. TOM Reid was sick of paying high rent for cramped quarters in the centre of the town. He only stayed on because he was close to his work. One Sunday he went to the outskirts to see a friend, and right next door was a snug, cosy home to rent, with a large garden, for \$15 a month less than Tom was paying. "I've wanted a place like this for years," said Tom, "But it's too far to walk from here to work, and I've never fancied hanging to a strap in a slow tiresome street car." "Why not ride a bicycle to work?" suggested his friend. "I do. And it's just nice cycling distance. The first three months' saving in rent will pretty nearly pay for a C.C.M. Bicycle, which will last you for years." "Good idea," said Tom. "I'll bring the wife out to see the place." A month later Tom moved out to the new home, rode a bicycle to work, and spent part of his spare time in the garden. At the end of the summer Tom felt like a new man. He was saving money on rent. He was living better and at less expense. And all made possible because a swift, easy-running C.C.M. Bicycle brought his suburban home within a few minutes of his down town job. There are scores of other men who could follow Tom's example with benefit to themselves and their families. The C.C.M. dealer will make it easy for you by selling you a bicycle on easy payments. You can pay him from the rent you save. Drop in and see the snappy new C.C.M. Models—Standard, Special, Sport, Curved Bar, Racer. All are equipped with the famous C.C.M. **BROOKLYN K. OF C.
RAISE LARGE LOAN**

Mortgage of \$750,000 Secured on \$1,250,000 New Club House.

New York, May 15.—One of the largest mortgage loans ever recorded in the Borough of Brooklyn on property owned by a fraternal organization has been made to Columbus Council 125, Knights of Columbus, when a \$750,000 first mortgage was executed by the Title Guarantee and Trust Company on the property constituting the site of the council's new \$1,250,000 clubhouse at Prospect Park Plaza, Union to President Street.

The mortgage was executed on behalf of the council by Maurice Breen, Joseph M. Collins and Joseph A. McNamara, acting as trustees, under the benevolent order law. The filing of this mortgage follows closely on the announcement several weeks ago of a bond issue by Columbus Council of \$250,000, for which the Title Guarantee and Trust Company is trustee, and that has been issued against the subscriptions to the building fund.

Contracts for the building were submitted for bids to a group of prominent contractors about two weeks ago. The estimates of these contractors are now before the council's Building Committee, and it is expected that an announcement will shortly be forthcoming as to the builder selected. The building and land will represent an investment of practically a million dollars, and a quarter of a million additional will be expended for furnishings and equipment.

It is planned to make the clubhouse a civic centre for the general use of Brooklymites, aside from members of the Knights of Columbus, and the

TRIBE STEW STARTS MUTINY
Two Negroes Arrested on a Schooner Off New York.

New York, May 15.—An American flag flying upside down on the mast of the American schooner Barnsdell, anchored off the West Bank Light in the lower bay, was taken as a sign of trouble aboard that ship by the observer at Sandy Hook. A Coast Guard officer and five men were sent in a motor launch to the schooner, which they boarded. They arrested two negroes on charges of mutiny. When the prisoners were taken to the barge office for arraignment before

a United States Commissioner, they said that the trouble started when they refused to work after having been made ill by stewed tripe.

MAKE \$30 AT TEA AND SALE.

The Girl Guides and Brownies of St. Paul's church held a successful tea and sale in the schoolroom of the church yesterday and realized about \$30 for uniforms, equipment and the general fund. Miss Irene Barber, captain, and Miss Althea Hazen lieutenant, with Miss Bessie DeVos, the leader of the Brownies, had charge of the entertainment. The tea table was presided over by Mrs. Fred Foster and Mrs. C. C. Kirby, and Mrs. William Hutt assisted with the refreshments. The Guides and Brownies proved capable hostesses.

The decorations of leafing boughs and yellow daffodils were attractively arranged and the room presented a pleasing appearance. The patrol leaders, Winnifred Woodley, Bessie Bewick, Kathleen Woodley, Ida Lyon and Myrtle Fowler were replenishers. The seconds, Jessie Edwards, Helen

THE STORE IN THE WOODS.

Over the door was a sign.

In the woods, and one day when Nancy and Nick were out hunting for wild flowers, they found it. They had their magic shoes on, that's why. Without the help of magic, they never would have found it in a hundred years. And even if they had found it, they never would have seen it, half hidden in the trunk of a big tree, with scarcely a sign of a door.

SLUGGISH LIVER DURING SPRING CAUSES POISON!

This is the time of year when your liver becomes sluggish and your intestines become clogged up with poisonous waste. Your liver does not properly purify blood that flows to your skin. The result is sallow complexion, dark circles and pimples, constipation, and bad taste in the morning. As these poisons continue to flood your system, your resistance is lowered, you feel drowsy and tired and sick. Make this test! Cleanse and tone your liver with Dr. Thatcher's Liver and Blood Syrup. Contains pure ingredients prescribed by Physicians. Helps nature strengthen your stomach, soothe tired, and overtaxed nerves, brace up system, and purify your blood. Notice quick difference in way you look, eat, sleep and feel. You, too, will be satisfied, as others have, or no cost. Dr. Thatcher's Liver and Blood Syrup is sold and recommended by J. Constant Headaches and Dizziness

It is hard to struggle along with a head that aches and pains all the time, and in nine cases out of ten the persistent headaches are due to some derangement of the stomach, liver or bowels. Undoubtedly the cause must be removed before permanent relief may be had. Burdock Blood Bitters removes the cause of the headaches, as it acts on every organ of the body and strengthens, purifies and regulates the whole system. Mrs. Peter Curran, 27 Morrison St., Sydney, N. S., writes:—"I have been troubled for the last five years with constant headaches and dizziness. After trying several remedies, which I found to be of no avail, Burdock Blood Bitters was recommended to me. B.B.B. did me a world of good, and I cannot praise this remedy enough." Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CLAIM IS BROUGHT FROM THE OLD LAND

Reparations Commissioner Pugsley Registers a Protest.

(Toronto Mail and Empire, Tuesday) "I certainly think the Canadian Government should make the strongest representations to the British authorities against the transferring of claims of this nature, where the claimant has not become a resident of Canada until after the war," declared Hon. William Pugsley, reparations commissioner, at the resumed Toronto hearings, opened in the King Edward Hotel yesterday, when Thomas as Bell, formerly of Leith, Scotland,

and now of 76 Drayton Avenue, Toronto, entered a claim. It was explained by Mr. Bell that he had submitted his claim in the Old Land, but that it had been turned over to the Canadian Government when he emigrated here in December, 1919. The claimant was a cook aboard the steamer Vienna, which was detained at Hamburg, Germany, on July 30,

Mrs. M. Chevalier, Belle River, Ont., writes: "For eight years I suffered from despondency and nervousness. Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to. FABLES ON HEALTH Watch Baby's Weight

Just before the Mann baby was born, Mr. Mann of Anytown appeared with a scales and a chart. "We're going to do this right," he announced. "Well, be sure that you go about it properly," Mrs. Mann admonished. "I've learned today that the best index to a baby's growth is his weight," Mr. Mann announced with the air of one who has made an important discovery. But Mrs. Mann already knew very well that the baby should be weighed regularly every week through the first year of life. The same hour should be used, and the child should wear the same clothing. Beam-balance scales should be used, and the quarter ounces should not be overlooked. Seven and a half pounds is considered a normal weight for a boy, with a half pound less reckoned as an average for a girl. It is likely that the baby will lose from six to ten ounces for several days after birth. The first month is not marked by any particular gain, but after that, six ounces a week is considered a normal gain. After six months, and up to the end of the first year, three or four ounces a week is considered a sufficient gain. Whatever the fluctuations, the child should double its weight within six months, and treble it within a year.

LORD'S DAY ACT'S LEGALLY DISPUTED

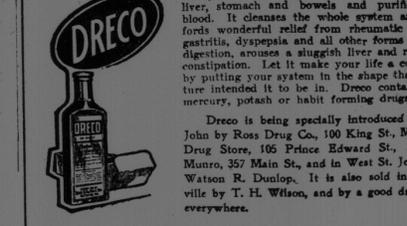

Halifax, May 14.—Warning the members of the Lord's Day Alliance of Halifax that a recent decision in the courts of Manitoba revealed a grave question as to the legality of the present Lord's Day Act in Canada and threatened to undermine the constancy and uniformity of present legislation preserving Sunday as a day of rest, Rev. Never Felt Better

Toronto Man Thanks Famous Herbal Remedy for Relief It Brought Him—General Health Much Improved and Much Suffering Relieved.

"At last, a Summer, spent without continual suffering," says Mr. H. Bowles, of 28 Pryor Ave., Toronto. "For the past two years I have been a constant sufferer from rheumatism, the pains shooting through my hips, ankles and shoulders so bad that I could hardly get around at times. Dizzy spells often came over me and everything would turn black before my eyes. "Pains through my whole body would often double me up when walking about, and it seemed that I could never straighten up with comfort. Sick headaches also caused me hours of suffering. Life was a continual misery to me, and nothing I took in the way of medicines or treatments gave me any noticeable benefit; that is, until I started taking DRECO, which proved to be just the remedy my system needed and readily responded to its corrective influence. "The rheumatic pains are rapidly disappearing, and my entire system is far stronger. I am able to get out and enjoy the Summer in comfort, free from suffering, and I gladly state that DRECO is the cause of my great improvement. Mr. and Mrs. Charles F. Owens arrived in the city yesterday to spend a few days with Mr. Owens' relatives. They are on their honeymoon. Mr. and Mrs. Owens were married in Dubuque, Iowa, May 5, the Rev. E. J. Dougherty, of St. Michael's cathedral

solemnizing the marriage at nuptial mass. The bride was formerly Miss Caroline M. Wiskirkin, R. N., of Dubuque, a popular nurse in her community. Mr. Owens left here 16 years ago for the west where he has followed his vocation as a railway man. He and his bride have been busy calling upon their many friends and were guests yesterday of Miss M. A. Boves, 98 Colong street, and of Mr. Owens' sister, Mrs. M. L. Barrett, East St. John. Mr. and Mrs. Owens may remain until tomorrow or return to their home in Dubuque this evening. They have been in Chicago and other cities en route here.

Mrs. H. W. Frink entertained very informally a party of ladies yesterday at her Rotheray home, Mrs. Allan G. McAvity, Mrs. Harold C. Schofield and Mrs. Arthur Bowman. Mrs. McAvity motored to St. Martins on Tuesday.

Mrs. Byron Cameron, Prospect street, Fairville, entertained this week in honor of her small son, Raymond Cameron, who was seven years old. Several little boys and girls were invited to celebrate the occasion.

Mrs. George Colwell, county president of the W. C. T. U., returned yesterday from St. Stephen where she was in attendance at the convention of the W. C. T. U. at Calais, Me. Mrs. W.

J. Linton, Manawagonish Road, provincial secretary, who was also in attendance, returned with her.

Mr. and Mrs. S. H. McLaughlin of 166 Sydney street, are welcoming their son, Mr. W. Morley McLaughlin, who is visiting his parents, coming from Detroit, Michigan. He was formerly in the Royal Bank of Canada, North End branch, and has been a year in Detroit.

Miss Alice Daley, who has been visiting her parents, Mr. and Mrs. D. W. Daley, left on Monday evening for Newburyport, Mass., where she will finish her training at the Anna Jacques Hospital.

Her Majesty Queen Mary has been making additions to her household this year, but she has not yet appointed another maid of honor. At the present time the Queen has only one maid of honor, Miss Ursula Lawley, but the prescribed number is four, and additional appointments to this office are expected to be made in the near future.

Fifteen women are in attendance on Queen Mary in addition to her maid of honor, including a mistress of the robes (the Duchess of Devonshire holds this post), four ladies of the bedchamber and six bedchamber women. Some of these positions, of course, merely are nominal, while others involve nothing more strenuous than accompanying the Queen on a shopping expedition, perhaps, or attending some public function with her.

A maid of honor, however, really does have some duties, though she does not, like others of the household, live at Buckingham Palace, but in her own town place, only inhabiting the same place as her royal mistress when the court is at Windsor Castle or Balmoral. A maid's duties begin just before luncheon, when one of the royal carriages, or autos, takes her to Buckingham Palace, where she remains probably for the rest of the day. In any case she does not leave the palace until the Queen has gone out. While she is in attendance on the Queen, Miss Lawley wears a badge, a miniature of the Queen set round with brilliants, which is tied or pinned to her left shoulder, and she is expected to dress quietly and not to wear bright colors.

In Queen Victoria's time a maid of honor was obliged to be clever with her needle, in addition to other attendants, to help her make clothes for various charities, but Queen Mary does not ask for this training. The principal qualifications for the post today are that she be the granddaughter of a peer, a good linguist, a good musician.

Queen Alexandra also has one maid of honor, in addition to other attendants, but the Duchess of York, Princess Louise, and other feminine members of the royal family are attended by a lady-in-waiting only.

HOLDS CLOSING MEETING.
The W. M. S. of St. Andrew's church held its closing meeting of the season yesterday afternoon with Miss Homer, president, in the chair. The funds were allocated as follows: To home missions, \$65, and to foreign missions, \$197.42. Included in the foreign mission allocation was the fee of a life membership which Miss Edith Magee had presented Mrs. R. M. Magee. The delegates appointed to attend the meeting of Presbyterial in Grand Falls in July were Miss Homer and Miss Edith Magee. Plans were made for a lecture by Rev. F. S. Dowling, when he is in St. John to preach the anniversary sermons in the church. An interesting letter was received from Miss Jean Sommerville, telling of missionary work in China.

ON MARINE RAILWAY.
The large four-masted schooner Susan Cameron, which arrived in port recently with a cargo of coal, finished discharging in Lower Cove slip yesterday, and last evening was towed to East St. John where she was hauled out on the Marine Railway of the St. John Dry Dock & Shipbuilding Co. The Cameron will have her bottom scraped and painted, as well as receiving some other necessary repairs. When floated she will load a general cargo for Barbados.

HORSERADISH.
Perhaps you want to serve horseradish with your roast beef for a company dinner and just plain everyday horseradish doesn't satisfy your sense of fitness.

One of these sauces or butters may be what you are looking for:
Horseradish Cream (Hot)
Two cups cream, 2 tablespoons butter, 3 tablespoons flour, 1-4 cup grated horseradish, 2 teaspoons vinegar, 1-2 teaspoon salt, 1-4 teaspoon pepper, 1 teaspoon sugar.

Melt butter, stir in flour and when perfectly blended slowly add cream, stirring constantly. Cook two or three minutes after all the cream is added. Add salt, pepper, sugar, vinegar and horseradish. Keep hot over hot water, but do not let boil again. Serve hot with roast beef or boiled fish.

Mothers
Do you know why Baby needs this finest of all Talcums

It is because no other talcum is so scientific in its composition. Baby's skin has to contend against the attacks of three unseen enemies—Moisture, Friction and Infection.—And also because Mennen's is compounded by a special medical formula to defeat the ravages of these three foes.

MOISTURE—
Special process makes Mennen Borated Talcum highly absorbent—like millions of tiny white sponges the fairy flecks draw hidden, poisonous moistures from the skin folds and allay inflammation and soreness.

FRICITION—
The scientific powder covers the skin with an invisible, protective film—so that clothes do not chafe.

INFECTION—
The scientific medication in Mennen's—its therapeutic and antiseptic qualities—helps keep Baby's skin in healthy condition.

Whatever Talcum Powder you are satisfied with for your personal use—remember Baby's skin needs a special powder—the original

Congoleum Week
Ends on Saturday!

No need for mother to worry about cleaning up after this party. Congoleum Art-Rugs are ideal for rooms where children romp and play.

This Gold Seal Guarantees Satisfaction.

WHEN the stores close next Saturday night, *Gold-Seal* Congoleum Week comes to an end. The special bargain prices now in force will be withdrawn. Your opportunity to buy Canada's most popular floor-covering at these remarkable reductions will be gone.

If you already have used *Gold-Seal* Congoleum Rugs in your home you know their beauty, their durability and wonderful money-saving and labor-saving features. If you do not yet have Congoleum Rugs in your home, you owe it to yourself to at least see what beautiful, sanitary, and practical floor-covering you can buy for amazingly little money.

Don't delay! Go to any of the stores listed below and select your *Gold-Seal* Congoleum Art-Rugs today if possible; for remember the Sale ends Saturday.

Beautiful Patterns for Every Room

Gold-Seal Congoleum Art-Rugs are famous for their beautiful patterns. You will find elaborate Oriental designs in warm, rich tones for living room and dining room—dainty flowered patterns that bring a fresh attractiveness to bedrooms—and a fine range of conventional patterns for kitchen, bathroom and pantry. Or, if you prefer to cover the entire floor, you will find attractive designs in *Gold-Seal* Congoleum By-the-Yard.

Waterproof and Easy to Clean

Gold-Seal Congoleum Rugs are made all in one piece on a durable fabric-felt base. They are waterproof, germ-proof, and accident-proof. Neither dust, dirt, nor spilled liquids can penetrate the smooth, seamless surface. Unlike woven rugs, they require no tiresome sweeping or beating. A quick going-over with a damp mop makes Congoleum as clean, fresh and spotless as when new.

Lies Flat Without Fastening

Here is another important feature of *Gold-Seal* Congoleum: no tacks, nails, or cement are ever required to hold it in place. It literally "hugs" the floor and never "kicks up" or curls at the edges or corners.

New, Genuine, Guaranteed Goods

All the *Gold-Seal* Congoleum offered in this sale is fresh, new goods, just received from the factory. All of it carries the famous Gold Seal pledge of "Satisfaction Guaranteed or Your Money Back." Look for the Gold Seal on the face of the goods. It protects you against inferior imitations of *Gold-Seal* Congoleum.

This is Your Last Chance

If you wait till the last minute something may prevent your taking advantage of this opportunity. And then you will have to pay more for your Congoleum. After Saturday the regular prices will again prevail.

Common Council Will Foot Bills of Ottawa Delegation

MATTER OF ST. JOHN PORT DISCUSSED

Seek Use of Canadian Ports for the Traffic of the Dominion.

SEE CABINET

Mayor Potts' Resolution at City Hall is Supported by Commissioners.

The city council yesterday afternoon decided to pay the expenses of a delegation to Ottawa if the committee now considering port matters deemed it advisable to have a similar committee interview the members of the Dominion Government.

This action was taken on the motion of Mayor Potts, who moved the following resolution: "Resolved, that in the event of a delegation going to Ottawa from the committee of citizens appointed to consider harbor trade and improvements in this port, His Worship the Mayor be authorized to arrange with the treasury department for the payment of the expenses in connection therewith."

His Worship said if a delegation was sent it was the hope to interview the members of the cabinet and find out whether they were prepared to carry out a declared agreement to carry Canadian trade through Canadian ports and if they were, then it was the intention of the committee to go ahead with plans for getting after the shippers and selling them the Maritime Province ports.

If the Government would not give this promise then he for one would oppose any further expenditure of money to try to bring trade here. Commissioner Bullock expressed his agreement with the resolution. He recalled the statement of Sir Henry Thornton that he would carry freight via Portland and because it was better for the railway, while Mr. Hayes had said that this argument applied only to the old Grand Trunk. Mr. Bullock believed the Government should step in and say that freight originating along the transcontinental lines should go through Canadian ports.

Commissioner Wignmore and Commissioner Harding also expressed themselves as in favor of the delegation going to Ottawa.

Commissioner Frink was somewhat sceptical of the good which would be accomplished by any delegation.

THEY'RE OLDEST PAIR IN ENGLAND

John Taylor is 100 and His Wife Will be That in August.

London, May 15.—Chesham, a little town in the southern county of Kent is in the limelight as Mr. and Mrs. John Edward Taylor, the oldest married couple in England, are living in a cottage in Greenstead Green. John Taylor, who is a century by birth, celebrated his 100th birthday last week, and his wife, "my Sophy," a Suffolk woman from Thurston, reaches her centenary in August. They are a healthy, happy couple, with no fads. He is fond of a good long walk, smoking and to use his own words, is "not afraid of a glass of good ale."

John Taylor, who spent the first forty years of his life in London (he did not marry until he was nearly forty), has some interesting things to say of the London of his boyhood. He left school before he was twelve, going to work as a greengrocer's boy. Incidentally, the greengrocer sold oysters, as well as vegetables, large ones, at four cents for three.

The London of 1830-40 was lit by smoky, stinky old lamps, the policemen, "peelers," as they were then called, after Sir Robert Peel, wore top hats and white trousers, and watchmen still cried the time of night and the state of the weather.

"At Camberwell (on the outskirts of London) I've seen men in the stocks," Taylor said, "and I've seen and hoisted with the rest. When King George's mother, then Princess Alexandra, came to England as a bride I walked across London Bridge to see the procession, and the lamps on both sides were burning sweet-smelling incense."

Dancing and the theatre were Taylor's two great joys in his youth, but he likes "The Comedy of Errors" best of all. "These were the days when the cheap seats at the theatres were really cheap, 12 cents upward."

WORDS OF HOPE AND ENCOURAGEMENT MARK CLOSING EXERCISES AT U. N. B.

Charles E. Neill, Noted Banker, Speaks to Graduates; Prof. Claridge Praises University of New Brunswick Founders.

(Continued from page 1.)

Each year at this time we dedicate a small part of the annual exercises to the memory of the founders of this institution. It is to do for those far-sighted men what Old Montserrat did for the Covenanters—to scrape away from their tomb-stones the moss that has overgrown with time the record for their deeds. It is a happy practice which from year to year renews our interest, not in the men alone who made the university possible, but also in the spirit and traditions which are the outgrowth of a long and honorable history.

Some time ago, I was fortunate enough to open a small pamphlet on "The Genesis of the University of New Brunswick," which had been suggested to me as a possible source of inspiration for this address. It was with a certain feeling of awe and reverence, however, with which I began to read, quickly disappeared as I followed the unfolding story in its rich record of annual struggles with adverse circumstances and perplexing problems—a struggle that was marked by constantly recurring set-backs, but the end of which was the progress, also in all the people of the province? As yet there would seem to be little realization of the place that such an institution ought to fill in public and private life. In common with most of the English-speaking peoples we have hardly begun to learn what has long been known in Europe—the value of the universities in the industrial and commercial life of any country. But we trust that criticism and antagonism will pass in time, and the province at large learn to understand that the university belongs to it, and that a thing to be useful must be used. Thus, and thus, only, can we hope to see it worthily carry on the traditions which have been inherited from those great men of the past, whose lives and work we honor at our entrance.

Addresses Graduates. C. E. Neill, general manager of the Royal Bank of Canada, who received the degree of Doctor of Laws, delivered the address at the graduating class. Mr. Neill said:

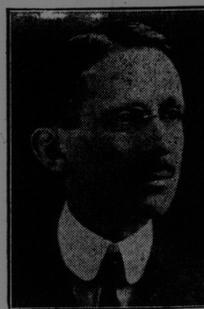

The Senate of this University have today conferred upon me an honor which I value more highly than any I have ever received. I am sure you expect that I can scarcely realize it is mine, and so undeserved that I can give no adequate words to express my thanks and appreciation. I am sure you all have great ambition; and having this, the important and practical point I should like to emphasize to you is that you should have a personal effort, if you wish to succeed. This is a personal world, and if you are to achieve your well-considered ambition, you must depend upon yourself, and not upon others. Many have the desire to succeed, but are not willing to make the effort required. They are not prepared to forego the pleasures of today for the rewards of tomorrow. This, above all, is the thought I should like you to take away with you today, that nothing worth while can be achieved without strong personal effort—strong, I mean the best that is in you. Emerson has put this thought into two short lines:

"When duty whispers low thou must The youth replies I can."

And now I come to the pleasant part of what I have to say, which is to congratulate the class of 1924 on its brilliant record in the University, and to wish its members every possible success. I have not had the honor of knowing intimately the members of the class, but those who do know them intimately, and I can quite believe it, that no better class than that of 1924 has ever passed through this university. No doubt during the four years you have spent here you have had many trials, and at times discouragements, nevertheless these are the years which will be remembered with the greatest delight. The friendships you have formed here will in all probability prove the most lasting and best friends of your life, and no matter what the future may have in store for you, you will always look back with pride and satisfaction on the time spent here. In the words of Sir Arthur

Kebo. "A new COLLAR that is full of comfort." Kebo, Peabody & Co. of Can. Limited

ARE HONORED BY THE U. N. B.

Currie, the eminent Principal of McGill, "let your work be such as will bring credit upon the name of your University, and let the parts you play be such as to make her proud of your career."

Character, Courage. "Character and courage are essential to real success."

"Have a well-considered ambition, a man or woman must have sound principles and the courage to live up to them; also the courage to face disappointment cheerfully, with the determination to turn to good account every seeming failure, for failure is a blessing if it saves us from sinking into self-complacency. High ideals are essential to success. High ideals are engendered by character and brought to realization through courage."

Get Honorary Degree. Harrison H. Hagerman, D. Sc., was born in Florenceville, Carleton Co. He received his education at the Florenceville Superior School, Fredericton Collegiate School, and University of New Brunswick. Already he had the following degrees: Diploma in Civil Engineering, U. N. B., 1893; B. A. graduation honors Natural Science and Mathematics in Physics, U. N. B., 1893; M. A., 1899.

He is a graduate of the Provincial Normal School, 1899, and was a teacher for 33 years. His experience is as follows: Common (Madras) School, Shediac Cape, West Co., Common School, Florenceville, East Co., Superior School, Petticoat, West Co., Intermediate City Schools, Fredericton, Fredericton High School.

In 1902 Mr. Hagerman succeeded the late Dr. John Brittain in the Provincial Normal School. He was a member of the University Senate 1904-1908 and vice-president of the Associated Alumni Society, 1923.

CONQUERS DEADLY CARBON MONOXIDE

Inventor Says He Has Compound to Kill Deadly Motor Fumes.

New York, May 15.—Dr. Miller Reese Hutchinson, inventor of the Klaxon automobile horn, the akouphone, which has enabled the deaf to hear, and of many other electro-mechanical and acoustic devices, has announced that he has discovered a chemical compound, the use of which in small and inexpensive quantities in combination with commercial gasoline virtually eliminates all danger from toxic discharges of the deadly carbon monoxide from the exhausts of automobiles.

Dr. Hutchinson was for nearly 20 years chief engineer of the Edison laboratories. He is a member of the Naval Advisory Board and of engineering and scientific societies in America and abroad. He is now the head of "Miller Reese Hutchinson, Inc.," whose laboratories and offices are located on the fifty-first floor of the Woolworth tower. Hutchinson's development of what he considers an important adjunct in the conservation of human life, came about through the use of an experiment which he made in 1917 when the introduction of a single ounce of the compound in five gallons of ordinary gasoline in the tank of his car some months ago he said he found that he was no longer annoyed by the accumulation of carbon deposits in the cylinders and the consequent "knocking" of the motor.

Result of Imperfect Combustion. "These carbon deposits, which are such a familiar annoyance to motorists," Dr. Hutchinson explained, "are of course the product of imperfect combustion. So also are the excessive discharges, through the exhaust, of the deadly fumes of carbon monoxide. Every newspaper reader, not to say every scientist, is familiar with the subtle and deadly properties of this gas."

"From day to day hundreds of cases have been reported in the newspapers of automobile owners running their motors in unventilated garages. Scores of them, including Nat. Willis, the comedian, have been found dead, and hundreds of others have been prostrated by inhaling these monoxide fumes. Carbon monoxide is peculiarly dangerous because, like hydrogen gas, it gives off no warning odor. It strikes before the victim knows he is menaced. It is a gas heavier than air, and, therefore, sinks into basements and to the floors of garages where linking owners and mechanics are likely to be at work under their cars."

"It is well known through actual experiments by Professor Henderson of Yale and others that samples of air taken from thoroughfares much frequented by motor vehicles, like Fifth Avenue and Riverside Drive, are found to be impregnated with monoxide to an extent that afflicts with headache and illness robust traffic policemen who are exposed to these fumes for long periods of the day, even though in the open air."

PREDICTS BIG YEAR FOR TOURISTS HERE

That New Brunswick citizens make every effort to make the tourist feel that he was welcome was one of the main suggestions contained in an address by C. C. Avar, president of the New Brunswick Tourist and Resources Association, broadcast from station 10 A. R. Mount Allison Ladies College, Sackville, last night. He predicted that this would be the biggest year for the tourists in the history of the province and urged that each community put up a welcome sign.

So far as known none of the local radio fans heard the speech though many who knew the speech was to be broadcast tried to tune in.

Those Thousands Of Searching Eyes

How much can be seen with one pair of eyes in one day? Think of what eighteen thousand pairs of eyes may see in a single day, from dawn till dark.

Remember those thousands of searching eyes when you lose anything of value.

Someone is practically certain to find what you have lost. Your advertisement in the Lost and Found Columns of The Times-Star is placed before those eighteen thousand pairs of eyes in a single day.

Times-Star want ads successfully handle hundreds and hundreds of separate propositions. These ads get results because more than eighteen thousand pairs of eyes read these Times-Star want ads daily.

SURE, SHE'LL DEFEND TITLE

Mrs. Laura Lanham of Bloomington, Ill., champion woman horse-shoe pitcher of the world by virtue of winning at Lake Worth, Fla. says she will welcome a chance to defend her title.

In addition to her sure-fire accuracy, Mrs. Lanham has unusual endurance, some days pitching horse-shoes for hours continuously and pitching often on the men's 40-foot court, instead of the regulation 30-foot women's court.

FINDER MAY KEEP IT, SAYS BERGDOLL

Draft Evader Says He Alone Knows Where \$270,000 is Buried.

Eberbach, Baden, May 15.—"Finder, keepers," says Grover Bergdoll, the American draft dodger, with reference to the gold he buried in 1917 when his game of hide and seek with the United States authorities began.

All told, says Bergdoll, he made his home here for the last four years, there was exactly \$270,000 in nice shiny ten-dollar gold pieces. Bergdoll declares the gold is buried in the United States, but that is about all he will say about it.

"If I should die," he remarked recently, "the gold will never be found. That's how securely it is hidden. No one was with me when I put it away, and no one will ever find it until I go for it myself."

He realized that he has lost much in interest, but he added, "its worth a great deal—especially to me—to have a lot of cash which I can put my hands on when I want to—if I ever get back to the States."

JAILED AT CANADIAN LINE

Federal Officials Hold New York Lacer Firm's Agent on Smuggling Charge.

Glens Falls, N. Y., May 15.—John Grima of the Artistic Fleet Lacer Company of New York was arrested by a deputy United States marshal just as he was boarding a train at Plattsburgh. He is in possession of \$2,500 worth of linen, said to have been smuggled over the Canadian border. The linen was placed in the custody of a customs inspector and searched on the suspicion that jewels were concealed in them.

Grima was arraigned before Commissioner Pattison and was held in bail of \$2,500, which he was unable to furnish.

SETTLEMENT OF CHURCH UNION DISPUTE IN VIEW

The possibility of a compromise in the church union dispute through a number of amendments to the present bill has been made public in Ottawa. These amendments have been drafted by George Gordon, deputy speaker of the House of Commons, and provide that should a church decide not to enter the union then all its property shall remain in its possession, that a non-concurring church shall have the right to use the name "Presbyterian Church of Canada."

The total number of people in the world has been doubled in the last century.

DAY'S WORK BY CITY IS ADVOCATED

City Council Receives Communication from Trades and Labor Body.

HYDRO MATTERS

Power Co. Notice—Mayor Speaks of a Daylight Plebiscite in 1925

A communication from the Trades and Labor Council asking that as far as possible all city work be done by day's work and the union rate of wages paid, and where work was let by contract the fair wage clause be inserted, was read at a meeting of the Common Council yesterday afternoon. The communication was received and filed, and the Common Clerk was instructed to notify the Trades and Labor Council that their recommendations would be carried out.

Street Lighting Matters

The following letter from the New Brunswick Power Company was referred to the engineers of the Civic Power Commission for a report: Barry Wilson, Esq., New Brunswick Electric Power Commission, 55 Prince William Street, City. Dear Sir,—We beg to advise you that as the result of a contact between the city service fire running to No. 73 Main street and the 260-volt power circuit and street lighting of this company, our Main street circuit was out of service for several days. Our men have provided temporary clearance by moving your service wires. We also advise that the city's secondary wires are dangerously near our railway feeder at Main and Elm streets and with our railway span wire at No. 811 Main street.

Trusting that these matters will receive your attention, we are, Yours very truly, NEW BRUNSWICK POWER COMPANY. M. A. Fuller, General Manager.

Daylight Time

Mayor Potts said he had received several complaints about daylight saving. He said he would refer the matter to the Board of Health to make an inspection of the premises. A report came around for it to go into effect in 1925 there should be another plebiscite held.

The council also considered a request from the Board of Health that no licenses to meat dealers be issued until the Board of Health had made an inspection of the premises. A report from the Civic Power Commission on the cost of extending the hydro system to Millville was received. A notice from the Free Public Library that the roof needed repairing was submitted, and a communication was sent in by the McLaughlin Motor Car Co. offering to allow a material account to go through their books at Ottawa, so far as they were concerned with the St. John business.

Millville Lighting

The Civic Power Commission reported that the cost of extending the line to Millville would be \$8,411.88, and the carrying charges on 30 street lights and 30 private customers would be \$1,248. The estimated revenue was \$1,058.60, leaving an estimated yearly deficit of \$194.40. This was referred to the committee of the board.

The communication from the Free Public Library was referred back to the Board of Health. A report from the Civic Power Commission on the cost of extending the hydro system to Millville was received. A notice from the Free Public Library that the roof needed repairing was submitted, and a communication was sent in by the McLaughlin Motor Car Co. offering to allow a material account to go through their books at Ottawa, so far as they were concerned with the St. John business.

Request from L. C. Thompson

for permission to install a 500-gallon gasoline tank and pump on his premises, 28 Thorne avenue, was referred to the Commissioner of Safety for a report.

The communication from the McLaughlin Motor Car Co. was referred to the Mayor and chairman of the Board of Assessors, with power to act.

STRAUS WILL GIVE ALL TO CHARITY

Philanthropist Tells Conference He Hopes to Die a Poor Man.

New York, May 15.—Nathan Straus for the last ten years has devoted all of his income and a sizeable part of the principal of his fortune to Zionism, milk pasteurization and other philanthropies. Mr. Straus made his first public commitment to this effect in an address before the United Synagogue of American Convention at the Hotel Astor.

man, for then I shall be rich in happiness and in good works." Little more than a clue to the scope and zeal with which he had put this into practice was given by Mr. Straus in his address at the Astor. There he merely said the appeal that public comfort, health and welfare exerted upon him had inspired him to "give every cent that I make." He added, too, that the principal of his fortune had been likewise dedicated in the same direction.

Later Mr. Straus was interviewed at his home in Mamaroneck, where, while enlarging the point in some detail, he nevertheless preferred to dwell upon the ends accomplished rather than the means he had furnished toward them. Mr. Straus said he could not decide whether his work in Palestine or his world crusade for pure milk was the greater of his interests. He had labored for thirty-two years for milk pasteurization, and now was advancing this movement on a broad scale in England and France.

The cause of Zionism, a more recent philanthropy in point of years, moved

him to enthusiasm as he recalled the strides he had found the Zionists making in Palestine. He had just returned from a several months' visit, having spent his seventy-sixth birthday in Jerusalem.

"No one who has not visited there recently," said Mr. Straus, "has the remotest idea of the wonderful improvement presented. It is inevitable. For one thing, I found absolutely no dissension among the Jews and the Arabs. The only trouble comes from a minority of 'hot air' people, agitators that one finds everywhere. They do not count. The Jews and the Arabs are in complete harmony, and the Arabs are profiting as much by the development of Palestine as the Jews."

"The most beautiful part about it is that the colonists are not the so-called moneyed men. The idea of money for itself does not exist. The spirit there evokes the strongest admiration."

Returning with some reluctance to a discussion of the extent of his beneficiaries, Mr. Straus said he could not

"When I give," Mr. Straus said, "I dismiss it from my mind. I forget it. I have kept no records of that sort of thing. I have no figures to give."

Reviews Welfare Work in Zion

He reviewed much of the social welfare work he had started in Palestine in 1912, and said the organization, for which he had set aside a trust fund, was providing meals for 1,700 persons daily. A Health Bureau with a Bacteriology Department and a Pasteur Institute were functioning importantly.

Mr. Straus said his latest provision was to eliminate begging in Jerusalem. Scores of beggars assembled at the Wailing Wall, and the Zionist authorities had asked funds to provide them with one meal a day. He had countered with an offer to provide two meals a day on condition that the begging was stopped and that this element was absorbed socially in some way. He said his proposal had just been accepted.

Mr. Straus said he was attempting to concentrate in Palestine for the present in helping the colonists until all living standards there had been developed to the full. In all this work, he emphasized, the spirit was exclusively nonsectarian. Race or creed was no bar to any deserving of the benefits provided.

The appearance of Mr. Straus at the Astor was a surprise to the delegates, and Rabbi Elias Solomon, President of the United Synagogue, invited him to speak as "the grand old man of American Jewry." During his attendance it was learned from Senator Nathan Straus Jr. that his father had recently been operated upon successfully for a small growth on his forehead. Dr. Joseph A. Blake was the surgeon.

WATERLOO STREET CHURCH ANNUAL

Officers are Elected—Several Mentioned for Pastorate Vacancy.

A successful year financially and satisfactory membership were reported at the annual meeting of the Waterloo street Baptist church last night. The church has been without a permanent pastor since the resignation of Rev. J. A. Sweetnam and several names were mentioned last night in connection with the vacancy. H. E. Hoyt was the chairman of the meeting and prayer was offered by Deacons W. B. Keirstead and Ernest Gibbs.

J. W. Mott submitted his report as clerk and the various organization reports were presented as follows: Fuel committee, W. B. Keirstead; Willing Workers, Mrs. Herbert Hoyt; adult Bible class, Miss Florence Keirstead; mission band, read by Mrs. Thomas Robinson in the absence of Miss Margaret Hamilton; music committee, Mrs.

MINSTRELS GO TO HOSPITAL

The St. John the Baptist minstrels last evening gave their splendid show, which had its initial appearance in their hall on Broad street 10 days ago, for the patients in the East St. John Hospital. J. B. Moore was in charge of the expedition and John M. Elmore was director of the programme, acting again as interlocutor for the comic end men, who excelled themselves in humorous sayings and local hits. All the patients who could be allowed the privilege were assembled on the second floor of the hospital to hear the company of forty. Dr. H. A. Farris thanked the men for their kindness and the patients showed their appreciation in hearty applause. Frank McGarrigle, head of the entertainment committee of the hospital, also added his word of praise.

More than 60 per cent. of the women tried in the Chicago morals court were drug addicts.

DEPOSITORS' CLAIM IN HOME BANK CASE

Ottawa, May 14.—The Royal Commission investigating the Home Bank entered upon the last stage of the first phase of its inquiry today. This phase is concerned entirely with the claims of the depositors against the Dominion Government, and R. J. McLaughlin, K.C., one of the depositors' counsel, occupied a part of the morning and the whole of the afternoon sitting, in submitting argument on their behalf. It is

now almost certain that the inquiry will go over until next week.

Today's sitting was featured by a statement from Royal Commissioner, Mr. Justice H. A. McKeown, that he did not think the idea of recompensing the depositors by taking over the wreck of the bank would recommend itself to the Government.

It was during Mr. McLaughlin's argument that the point arose. Mr. McLaughlin had pointed out the difficulty of ascribing the exact amount which would be necessary to pay the depositors, and W. T. J. Lee suggested that the Commissioner might recommend that the Government take over the bank, pay the depositors and reimburse itself out of the salvage.

"I would not think that the idea of recompensing the depositors by taking

over the wreck would recommend itself. I don't think so," remarked the Commissioner.

Mr. McLaughlin—"That is, of course, what we hope the Government will do." Commissioner McKeown—"Well, it may. I have no right to say that it will not."

RAIL PRESIDENT COMING

B. R. Pollock, president of the Boston & Maine Railway, is expected to arrive in Halifax tomorrow or Friday. His private car passed through St. John yesterday to meet him in Halifax. Mr. Pollock has been making an extended tour of European countries and may stop over in this city on his way home to Boston.

SEES MONTREAL AS GOOD COAL MARKET

President of Atlantic Coast Collieries Talks of Cape Breton Acquisitions.

Excellent prospects for Canadian coal mining are foreseen by Charles Fergie, president of the Atlantic Coast Collieries, Company, Ltd., who talked of the projects of his company yesterday, says the Montreal Gazette. His company has recently acquired 17 square miles of coal fields on the west coast of Cape Breton, and Mr. Fergie yesterday expressed himself as much satisfied with the prospects. He is himself a mining engineer of much experience.

Mr. Fergie believes that the Montreal market is still an excellent one, and bound to increase, and that with the conditions which will favor his company an excellent coal trade can be built up in eastern Canada generally. For example, said Mr. Fergie, there are in the area owned by his company four workable seams, with an aggregate thickness of between 84 and 88 feet, and the tests have proven both quality and thickness of veins. One of these seams is 8 feet thick, another 15 feet, one of 7 feet and another of 5 feet, and the estimate as to the total quantity is 400,000,000 tons. The estimate of coal within a reasonable working distance, said Mr. Fergie, is 280,000,000 tons.

What is specially to be noted, said Mr. Fergie, is the fact that the four seams start at the ground level, and consequently the cost of mining will be much less than if mining had to be commenced some distance out, as is the case with many of the bigger mines in Cape Breton and on the Nova Scotia mainland.

Start Operations in June.

In view of the fact that he looks for a good market this year, Mr. Fergie has arranged that operations shall commence June 1st, and does not anticipate any more than the ordinary Cape Breton difficulties in regard to labor, and even believes that the situation will be better than usual in this regard.

The mine in question is situated at Mabou, and Mr. Fergie pointed out that this means a shorter water haul to Montreal than from Sydney, since Fort Hastings, from which his coal will go is 12 hours nearer to Montreal than Louisbourg. With these advantages, Mr. Fergie yesterday said he believed that he could produce coal at 20 cents per ton less.

FOSTER AND MOORE UPHOLD LEAGUE
(Special to The Times-Star.)

Montreal, May 14—Whether Canada should continue to be a member of the League of Nations was discussed from various angles last night by the Rt. Hon. Sir George Foster, G.C.M.G., and Tom Moore, president of the Canadian Trades and Labor Congress, both speaking from the Canadian National Railways radio station CKCH, Ottawa. The addresses and the musical selections constituting the programme were relayed over the Bell telephone and telegraph wires to Montreal and were simultaneously broadcasted from Station CHYC of the Northern Electric Company.

Sir George explained that the league was inaugurated five years ago with 14 members, today 54 nations of the world are enrolled under its flag. Since its creation the council had held 28 sessions and had considered and decided no fewer than 1,200 measures. During its five years of activity the league had been the means of preventing five incipient wars, he declared.

Tom Moore said that whereas the World War added an annual charge of about \$160,000,000 to the country's debt, the five years' membership of the league has cost only about \$800,000.

The labor side is represented upon the League of Nations by the labor conference at which all member nations send Government delegates, workers' representatives and employers' representatives. Among the results attained were some 435 cases in connection with which some legislative action was taken while the 21 recommendations advanced at the five annual conferences had been adopted.

Tom Moore advanced a strong plea as to why Canada should continue to be a member of the league.

"The Finish That Endures"

Here Is a Paint That Saves Money as well as the Surface

What Determines Paint Value?

Paint value cannot be determined by the price per gallon.

It must be found in the extent to which it will cover and in the length of time which it will protect and preserve.

The real value of a paint is therefore arrived at on the value of service given annually per square foot or per thousand square feet. In other words, it is necessary to find the yearly cost of paint per thousand square feet.

Low-priced paint, covering 300-350 square feet, and lasting not more than two years, invariably gives the highest annual cost.

The highest priced paint, covering 500 square feet, and lasting at least four years, undoubtedly gives the greatest annual service value per thousand square feet.

From a decorative standpoint, the higher priced paint has more permanent colors, gives a better finish and retains a more lasting appearance.

The following is an extract from a letter that we will show on request:—
"Another old-time painter, Mr. H. Brawn, had a large house that he had already primed, and he figured that it would take seven gallons to put on the second coat. We persuaded him to try Floglaze Exterior, and we sent six gallons to do the job. After it was completed he had two gallons left, having finished the job with four gallons instead of seven."

Floglaze Exterior will cover 500 square feet, two coats, to the gallon ---a saving of 25% in material over any other kind of paint. It will give 25% greater wearing value---a saving in renewal and labor charges.

Buy Your Paint on the Basis of Annual Service Cost Per Thousand Square Feet

You would not buy lumber by the cord. You buy it by board measure. For maximum value buy your paint on the basis of the amount of surface it will cover and the number of years it will last. Paint covering 300 to 350 square feet, two coats, and selling at approximately \$4.35 per gallon, will cost \$12.40 per thousand square feet. If it lasts three years its annual service cost would be \$4.14.

Floglaze EXTERIOR will cover 500 square feet, two coats, to the gallon, and last at least four years. This gives a cost of \$12.40 per thousand square feet, and an annual service cost of \$3.10. FLOGLAZE gives a more enamel-like surface, holds its gloss longer and gives 25% better protection than lead and oil or any other paint.

WISS SCISSORS
NEWARK, N. J.

A Thought for the Bride—and a Hint For Her Friends

In the bride's new home, and in every home, there should be at least one pair of sharp, long-lasting, Wiss Scissors.

They cut easily and evenly, along the whole length of the blades, without spreading or allowing the cloth to slip between—and they are so well made that they outlast several pairs of the ordinary kind. Some thoughtful relative or friend should see that every bride is provided with at least one pair of these remarkable scissors!

It pays to buy by name, for even an expert finds it difficult to judge, merely by looking at them, whether scissors are good or not.

7 in. Sewing Shears. Combine the advantages of light, dainty scissors with the comfortable handles of a pair of shears. Unequaled for all light work. No. 337. \$2.65.

6 in. Ladies' Scissors. Ideal for a lady's sewing basket. They cut evenly and easily, and keep sharp a long time. No. 816. \$2.00.

8 in. Household Shears—Sturdy and serviceable—for every household use. Outlast several pairs of ordinary shears, and remain sharp a long time. No. 138. \$2.25.

4 in. Embroidery Scissors. Dainty little scissors with needle points, for picking up just the right thread. No. 774. \$1.60.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

MISS WILLS PLAYS IMPROVED TENNIS

Young National Champion Loses Practise Set to Clever Opponent.

The reports of the improvement in the playing of Miss Helen Wills, the national women's lawn tennis champion, were not exaggerated, according to the New York Times. Monday, on the courts of the West Side Tennis Club at Forest Hills, L. I., the eighteen-year-old University of California girl demonstrated in half an hour's play with J. F. McCloy, a men's star at the club, who has spent the nine months since she defeated Mrs. Molla Malory for the title to good advantage. The test was far from an ideal one, for the conditions could not have been worse. Playing on grass for the first time since last August, with the rain coming down hard, and using English balls which had little rise on the heavy turf, Miss Wills held McCloy on even terms for ten games, finally losing the set at 7-5. Both players were drenched by the end of the set and the match did not go any further. McCloy is not a familiar figure to followers of tournament tennis, but in an indoor tournament held at the Heights Casino he defeated Harold Trockmor-ton, former national junior champion, and Harry Brant, who is champion of the West Side Club. McCloy tied Mlle. Lenglen.

Will Sinclair Put This One Over, Too?

MAD PLAY, WITH ZEV SHOWN WINNING THE 1923 DERBY IN BACKGROUND.

Louisville, Ky.—Has Sam Hildreth, astute trainer of Harry F. Sinclair's Rancocas stable, another Zev up his sleeve? Many smart horsemen profess to believe that Harry Sinclair—possibly he heard his name mentioned in connection with Teapot Dome—has a splendid chance of winning his second consecutive Kentucky Derby. Mad Play is his 1924 hope, a chestnut colt by Fair Play out of Mad-cap. It will be remembered that in 1923 Sinclair's Zev was little thought of by the rank and file during the winter, but Sinclair bet quietly in the winter book and made a killing. Zev's chances were not shrouded from the horsepots, but in the Derby he shocked the turf world by taking to the front at the start of the historic race and winning with ease. Hildreth is pointing Mad Play for the Derby here on May 17 and the colt again will meet Wise Counselor in a match race at Belmont Park. Is Mad Play another Zev? Although he showed fair form last year it was not until the running of the Kentucky Jockey Club Stakes at Churchill Downs, Louisville, that he displayed Derby form. In this race Mad Play was defeated by an eyelash by Wise Counselor in 1:37.2-5, the fastest mile race ever run by a two-year-old in Kentucky. Hildreth is pointing Mad Play for the Derby here on May 17 and the colt again will meet Wise Counselor in this race.

Ball Problems By Billy Evans

QUESTIONS. 1. Can the pitcher get on the rubber without having the ball in his possession? 2. When a balk is called, what are the rights of a base runner? Can a runner score from third? 3. When a fielder is making a play on a batted ball, who has the right of way, fielder or base runner? ANSWERS. 1. The pitcher commits a balk when he gets on the rubber without having the ball in his possession. 2. All base runners have the right to advance one base when a balk is called. A runner on third most certainly has the right to score. 3. The fielder always has the right of way when making a play on a batted ball. The base runner must avoid a collision or be called out for so doing.

FANS REVERED ZEV WHEN HE LOST

Once King of the Turf was Humiliated in Recent Handicap.

(By Henry L. Farrell.) New York, May 15.—(United Press)—When the great fall, they usually make a great fall out of it. That venerable and ancient whet that bigger they are the harder they fall goes along picking up examples as convincing as they were when it was first observed that no matter how good you are, you'll fall if you stick at it long enough. The greats of sports fall with such reverberating music because there are so many waiting to see the crash and there are so many voices ready to shout in glee: "There he goes! He always was a hum!" Pete Wholis, an obscure rookie, can strike out with the winning run on third base without having it bulletined to the corners, but let Babe Ruth fail to deliver in a pinch and it is filled in the ninth inning of the last world's series game and the same fickleness that inspired the Dempsey rosters to roars against the British champion, Papsyus, and when he won he was acclaimed a national hero. He was still a hero and the toast and boss of the track when he paraded down the Jamaica track for the Pomona Handicap, the first important race of the metropolitan season. His backers couldn't get a bet down on him because he was such a tremendous favorite. It was the boast of the Zev fans that the animal didn't walk on hoofs that could beat him in a sprint. It was but a matter of a few seconds after the tape had sprung that it was shown that the animal did live that could best him in a sprint. Seventy yards from the start Zev found a three-year-old, St. James, at his shoulder and the three-year-old kept going. Zev not only was beaten but he was humiliated. His kingdom crashed at his feet and he heard the ovation given to a new king. He had been dethroned and another was in his place. That Zev, they said, "was always a four-fusher! He got one licking last summer and he won another phony decision! He wouldn't race My Own with the breaks all even and he only went when the spots were picked for him!" Some critics thought that Zev's defeat by St. James in his first start of the season would mean that Zev was removed as a possibility for the flag-bearer in the three big international races scheduled for the summer against Epinard, the champion of Europe. My Own or In Memoriam, they pointed out, had more in the favor for consideration and the chorus came in with a motion scolding: "It always were better than Zev." It is quite possible and probable that Zev's exile from post-race favor is only temporary and that his defeat by St. James will be glossed over in the manner of the boxing manager who says: "Yes, my boy did lose that one, but he was off. You know how it is!" Perhaps Zev will run himself back into a position where he will be the outstanding favorite in the international races this summer. On the other hand, the American money may go down on My Own. In Memoriam or on one of the promising three-year-olds that are out this year. To save the country. Wise horsemen laughed off this suggestion as being impossible, and Sam Riddle, his owner, could not see the

Man o' War has the name of being the greatest of all American horses and his owner certainly will see that he is not led into a Jim Jeffries trap and deluded into the idea that a great champion should try to do a comeback to save the illustrious name of his race. Epinard may come over to the United States and run the tonne out of every champion of the track, but it can always be said that Man o' War could have come out with a milk wagon tied onto him and stop to let the French horse catch up to him at the finish.

MODEL YACHT CLUB PLANS FOR SEASON

Will Open the Racing Season May 28—Trophies Donated.

A meeting of the St. John Model Yacht Club was held in the offices of H. S. Gregory & Sons, Prince William street, last evening and was largely attended. It was decided to open the racing season on Wednesday evening, May 28, on Lily Lake, at 7 o'clock daylight time. The heats to be raced will be for the 30-inch class yachts. The rules and regulations of the club, as drawn up by a committee, was received and adopted. J. C. Cheley, honorary president, donated a cup to be raced for during the season, and it was decided that this trophy should be known as the "Cheley Cup" and would be awarded to the model yacht owner winning the most points for the 1924 season. It was announced that others had signified their willingness to donate cups for the races to be held during the summer and a committee was appointed to wait on these donors and accept their kind offers. As there are six classes of yachts a cup will be awarded to the winner of each class at the close of the season. A. G. Gregory and Joseph Tove were unanimously elected honorary members of the club for the interest shown in the model yacht sport. Two seniors and three juniors were elected to membership. In reference to admitting of juniors, it was pointed out that boys under the age of 18 were taking an interest, were owners of yachts or intended building them, and accepting them as members under certain regulations, would be an encouragement to the youngster to design and build. A committee was appointed to make arrangements for a class race to be sailed near the R. K. Y. C. club house on some evening when the Millidgeville Summer Club assemble.

ST. JOHN BOY IS SOME WALKER

Harry Boyaner Covers Ten Miles Under Two Hours—Wins Wager.

Another St. John boy, Harry Boyaner, is winning fame in the west and has made quite a reputation for himself as a result of achievements in marathons and other long distance counts received by relatives in this city recently by some friends that he could walk 10 miles in two hours and when he was taken up he set out to back up his contention. He went to a race track at Brighouse and went the distance in 1 hour and 56 minutes. The contest was held as a result of an argument which started in a Vancouver hotel as to whether an average man could negotiate the distance in two hours. He did his first mile in 10 minutes and 20 seconds, his second in 11 m. 20 sec. and his third in 11 m. 40 sec. The performance was watched with interest by a large number of friends and it is said that side bets as to the outcome were in excess of \$1,000. He appeared on the track clad in a gym shirt, blue trunks and a pair of ordinary street shoes. He paced the entire distance and his time for every mile was announced as he passed the judges' stand. Details of the event were received by his brother Eli Boyaner of this city.

THREE FAVORITES Right now Bob Jones, Walter Hagen and Gene Sarazen are the three early favorites to set the pace in the national open golf championship at Detroit this summer.

COMMERCIAL TOURNAMENT. In the Commercial tournament on the Imperial alveys last evening the M. R. A. quitted a defeat, halting M. R. A. quitters 1239-1225 and the representatives from G. S. Harbour, Ltd., defeated the Postal Clerks 1223-1219.

MERRY WAR ON IN BIG LEAGUES

Struggle for the Lead and Other High Positions is Keen.

New York, N. Y., May 15.—A general war is on in the Big Leagues. Ruth and the Yankees are engaged in classic struggle with Sisler and the Browns for first place in the American League while five other clubs mix in battle royal for third position. The Giants and Cubs are fighting for second place in the National, with Cincinnati one leap ahead and trying to shake off a Boston bulldog. The Browns yesterday advanced to within a game and one half of the first place by batting Hoyt and Phipps hard, while Shocker held the champions hitless until the sixth after which he breezed in under an 11 to 1 score. Babe Ruth, in a spectacular commencement setting which included a parade of Marines and Sailors and the raising of the world's championship banner, received his baseball diploma and then faced the cold world of the grand struck out on three pitched balls and dropped a fly in the first inning but later lost his nervousness and was twice passed, hit safely and threw Sisler out at home. A single from the bat of Terry, a pinch hitter, in the eighth inning beat the hero in the last two innings 6 to 4, after Giants had lost six of the seven previous games to the Phillies and Cardinals. Cincinnati careened slightly in the first inning when Bohne missed a double play by throwing wild. The Braves drove Sheehan from the box before the inning was over and Greenville held the lead for an 8 to 2 victory. Brooklyn won from St. Louis, 4 to 3. In the general scramble for third place in the American League, Boston improved its position by swamping Chicago, 12 to 0. Cleveland moved into a tie with Detroit for fourth place, one game behind Boston, by driving Walter Johnson from the box in a 5 to 2 victory over Washington called by rain after seven innings. The Tigers last a hard 5 to 4 struggle to Philadelphia which broke its losing streak of 12 games.

MAKES COURT ON DECK FOR MISS HELEN WILLS

The Cunard liner Berengaria, which sailed from New York early yesterday morning had among her passengers Miss Helen Wills, 18 year old national women tennis champion, in order that she might have an opportunity for practice a backstop was constructed on the sun deck. The backstop is ten feet high, twelve feet wide, and the net is twenty feet long. Miss Wills, who is accompanied by her trainer, will have a team of matches for the Hazel Wightman Cup, and the women's international championship. She is a student of California University. She wrested the American championship from Mrs. Molla Malory last summer and hopes to take the world's championship from Suzanne Lenglen.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc. Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things. Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals. There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pepsin pills or artificial digestants. Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate and used in the bisurated form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

PROVINCIAL ROADS OPEN FOR TRAFFIC

Moncton, May 14.—As previously announced the trunk roads were opened today. These include the road from Moncton to the boundary of Nova Scotia; the road from Aulac to Cape Tormentine; from Fort Elgin to Shediac, via Cape Bauld; Moncton to Chatham, via Gilberts Corner, Buctouche and Richibouctou; from Moncton to St. John, via Boundary Creek, and from Moncton to Alma, via Hillsboro. The secondary and branch roads will be opened tomorrow.

CAN. CHAMPION SCORES KNOCKOUT

Providence, R. I., May 14.—Jack Reardon, Canadian heavyweight champion, scored a technical knockout victory over Joe White, of New York, in the seventh round of a scheduled 12-round bout at the National Athletic Club here tonight. Reardon tallied knockdowns in the second and third rounds and had White on the verge of a knockout when the referee stopped the fight.

WAGES AGREED TO BY LONGSHOREMEN

Montreal, May 14.—More than 2,000 longshoremen met here tonight and unanimously accepted the award of the arbitration board in the dispute between them and the Shipping Federation, according to C. E. Bujold, secretary of the Longshoremen's Association. This means they will accept hourly pay of 62 cents for day and 72 cents for night work on general cargo. On grain cargo they will receive 77 cents for day and 87 cents for night work. About 4,000 men are affected.

WILL DECIDE TITLE

The long drawn out dispute over this year's provincial intermediate basketball championship appears as if it will be finally settled in the near future of the M. P. B. A. U. of C. meeting in this city last Friday evening it was decided that the Moncton boys would have to come to St. John and play another game with the Trojans, the winners being declared provincial intermediate champions.

BODY FOUND IN ICE

The body of an unknown man was found on Sunday in the ice near Point St. Marks, Restigouche County, on Sunday last and by means of a baggage check in the pocket of the clothes was identified as that of George Perch of Campbellton, who disappeared late in November last. The body was buried at Dalhousie.

A Severe Attack Of Heart Trouble Was Relieved by MILBURN'S Heart and Nerve Pills

Mr. S. E. Barnes, Athens, Ont., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor, he treated me for some time, but I only seemed to be getting worse. I finally went to our drugist and purchased three boxes of Milburn's Heart and Nerve Pills and desired immediate relief from their use, and I can truthfully say they were a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel all right again." Milburn's Heart and Nerve Pills are sold at all dealers, or mailed direct on receipt of price by The M. Milburn Co., Limited, Toronto, Ont.

THE FINAL CURTAIN

It was a crowd with tear-dimmed eyes that witnessed the funeral services for the great Duse at the Church of St. Vincent Ferrer, New York. From all walks of life they came to pay their last respects before the body was placed aboard a liner and taken to Rome.

REALISTIC DRAMA AT QUEEN SQUARE

"Daytime Wives" Thrills Capacity Audiences—Many Fine Scenes.

Drama so realistic that you can almost hear the pulse-beat of the action—that one phrase more aptly than any other describes "Daytime Wives," the long expected F. B. O. offering which was revealed yesterday at the Queen Square Theatre to maximum crowds.

Films is injected into "Daytime Wives" by the collapse of a skyscraper in process of construction. That this effect is not faked is easily apparent. The premature release of a huge girder being hoisted to the upper reaches of the building results in the dislocation of beams being riveted into the huge framework. A crash follows in which the contractor's shack is buried and half the building reduced to wreckage.

ST. JOHN BOYS ARE PROMINENT AT ST. FRANCIS XAVIER COMMENCEMENT

Five From Here Get Degrees; Five are Prize Winners.

St. John was very much to the fore at the closing exercises of St. Francis Xavier University yesterday, there being no less than five young men from this city in the graduating class and five who were among the prize winners for the term. The graduating class of '24 was the largest in the history of the institution and perfect weather marked the closing day, all tending to make the event one long to be remembered by those present.

The St. John boys to graduate were Arthur Chaisson, Gerald Flaherty, Cyril Driscoll, William J. Maynes and Frank A. Murphy. The prize winners included James V. Nugent, Gerald Flaherty, Arthur Donovan, Arthur Chaisson and John D. Power, all of St. John.

Prizes were awarded to New Brunswick students as follows: Aggregate in sophomore year, James V. Nugent, St. John. Freshman Religion, William Campbell, Chatham. Sophomore Religion, equally merited by James Nugent, St. John; Patrick O'Neil, Moncton, and Harry Chisholm, Halifax. Senior Religion, equally merited by Gerald Flaherty, St. John, and Arthur Donovan, St. John. Senior Biology, Arthur Chaisson, St. John. Sophomore English, J. V. Nugent, St. John. Freshman Physics, John D. Power, St. John. Sophomore Chemistry, John Power, St. John, and Patrick O'Neil, Moncton. Sophomore French, equally merited by J. Nugent, St. John, and M. McKinnon, Broad Cove, N. S.

Besides being the largest ever graduated at St. Francis Xavier, the class of 1924 was one of the most active, and the New Brunswick representatives in this respect were leaders. One of the notable undertakings of the class was the inauguration of a St. F. X. Year Book, which is now on the press. It contains a record of all activities of the institution and is called the "Scelus." Such a work was badly needed and the announcement that it has been prepared is being commended by former students and friends of the institution on all sides.

St. John students have taken a prominent part in producing this record. William J. Maynes is editor-in-chief; Gerald Flaherty, associate editor; Cyril Driscoll, art editor, and Frank J. Murphy, business manager. Maynes also took a prominent part in athletics and twice won the Maritime quarter-mile championship for his Alma Mater. Flaherty was member of the football team and president of the class. Driscoll was an active member of the St. F. X. Dramatic Society and secretary of the class. Murphy managed the college track team.

Miss Marie Walsh, besides being a member of the staff of "The Memorabilia," the periodical of Mount St. Bernard's Ladies' College, was secretary of the Mount St. Bernard's Debating Society. Arthur Chaisson, leader of the Intercollegiate debating team, delivered the salutatory. It was a fine effort and marked the St. John man as an orator of ability and promise. William Maynes' essay "The Heritage of St. Francis," was a thoughtful well prepared and well delivered paper. An address to the graduates, replete with sound advice, was delivered by Dr. J. J. Corbett, Back Bay, Boston, a member of the graduating class of 1899.

President's Address. In his review of the year's work Rev. H. P. MacPherson, D.D., rector-president of the University, said the efforts of the professors were met with loyal co-operation from the students and that the results compared favorably with the work of former years. Despite the fact, as a general rule, institutions such as St. Francis, faced a deficit at the close of the year, he was proud to say that at the close of the year the University sources slightly exceeded expenditures. "Denominational institutions generally are agencies for carrying out the work of the churches to which they belong. St. Francis Xavier is a Catholic institution. It is an instrument employed by the Catholic Church in the great work of the sanctification of souls. So important a function gives it a value far surpassing any material consideration. The value of an institution depends upon the nature of the product it turns out. The value of a college depends upon the character and the philosophy of life, the view that its students acquire. Learning without a proper philosophy of life may do more harm to society than good. St. Francis Xavier and other Catholic colleges give to their students, and they in turn to society, a spirit that is infinitely more important at the present time than anything that can come from marble buildings and endowments and donations of the secular institutions. In the past certain friends immortalized themselves by their generous donations. It is too much to expect that now and in the future other friends will be equally generous." At the conclusion of the exercises

EQUITY SIGNS PEACE WITH SHUBERT BLOC

Strike Against Other N. Y. Theatre Managers Ordered for June 1.

New York, May 15.—Eleven hundred members of the Actors' Equity Association on Monday ratified all details of the peace compact drawn up between the Equity and the Managers' Protective Association, the new organization, the signing of the agreement. The settlement, which was adopted with only one dissenting voice, follows the plan originally worked out several months ago by Lee Shubert, John Emerson and Frank Gilmore.

The action of the Equity does not alter the situation so far as the so-called round-robbin group of managers is concerned. According to Equity the managers signing the peace compact control about 70 per cent. of the New York theatres, as well as many on the road. The first definite strike move against the managers outside this

group was also taken when the members of ten companies now playing in New York were instructed to notify their respective managers that their contracts with them will terminate on Saturday, May 31.

Successes Affected. The productions now in New York against which strikes will be called, according to the present plan, are "Rain" and "The Nervous Wreck," produced by Sam H. Harris; "Lollipop," produced by Henry W. Savage; "The Swan," produced by Charles Frohman, Inc.; "The Outsider," produced by William Harris, Jr.; "Beggars on Horseback," produced by Winthrop Ames; "The Changelings," produced by Henry Miller; "Seventh Heaven," produced by John Golden; "Stepping Stones," produced by Charles Dillingham, and "Kid Boots," produced by Florenz Ziegfeld, Jr.

In the contract drawn up between the Equity and the Managers' Protective Association covers a period of ten years, beginning with June 1. Its outstanding feature is the clause which provides that 80 per cent. of all casts shall be Equity members. Thus casts of four will be permitted no non-Equity members, casts of five to nine will be allowed one non-Equity, casts of nine to fourteen will be allowed two, and so on.

Of the non-Equity 20 per cent., it is stipulated that none may be Equity delinquents or players dropped by or expelled from Equity, and that prior to their first rehearsal these non-Equity members must pay to the Equity treasury a sum equal to the initiation fees and dues of Equity, and that they must continue to pay an amount equal to Equity's regular dues, which Equity may dispose of as it sees fit and which it is expected will go to some theatrical charity. Present members of the Actors' Fidelity League, however, are exempted from this rule of payment, but when included in mixed casts they must be counted as part of the 20 per cent.

Lets Equity Dominate. In placing the new agreement before the meeting John Emerson, president of Equity, pointed out that the 80-20 arrangements, in practical operation, will give the Equity a clear field in the theatre. Solemn Benediction was celebrated at St. Ninian's cathedral. The benediction sermon by Rt. Rev. Bishop Morrison was a masterly discourse.

WERE LOST. Two tots were found wandering about the North End yesterday and as they could not tell who they were they were taken under the fatherly protection of one of the stalwart vigilants of the law and escorted to the North End police station, where they were kept amused until their anxious mothers arrived to take them home.

RUNAWAY. Considerable excitement was occasioned in St. John street, West St. John, about 12 o'clock yesterday when a horse owned by James Kay and driven by his son Otty, ran away.

DIED TODAY. The death of Margaret, daughter of the late David and Mary Fleming, took place today. She is survived by one brother, David, of this city. The funeral will be held on Saturday morning from Fitzpatrick's undertaking parlors to St. John the Baptist church for high mass of requiem at 8.30.

THE HARBOR PICTURED. A fine picture of St. John harbor appears in Forbes Magazine of May 10. The picture was taken on Saturday morning from Fitzpatrick's undertaking parlors to St. John the Baptist church for high mass of requiem at 8.30.

BOOSTS ST. JOHN. The latest issue of the "Dock and Harbor," a shipping journal published in London, has a fine article on the port of St. John written by R. E. Armstrong, secretary of the Board of Trade, and two full pages of illustrations of the harbor and dry dock. One page has two pictures of the big dock and the other page has two pictures of the main harbor. A copy of the publication was received this morning by the Board of Trade.

PORT COMMITTEE MEETING. A meeting of the port committee will be held tomorrow morning at 10.30 in the office of Mayor Potts and one of the members of the committee, the sending of a delegation to Ottawa to take up with executive council direct the matter of having Canadian goods routed via Canadian ports. At yesterday's meeting of the council the Mayor was given authority to finance the trip if it is decided to send a delegation.

BOSTON BOAT NEXT WEEK. Next week will see the inauguration of the Eastern Steamship line sailing to and from Boston and St. John for the season. The steamer Governor Dingley has been generally overhauled and painted and is ready to start for port on next Monday coming via Eastport and Lunenburg, and is due to arrive on Tuesday morning. She will return to Boston on Wednesday morning. The re-establishment of this service will be welcomed as it will mean the opening of the tourist season.

HOLD RUMMAGE SALE. The members of the North End sub-division of the Catholic Women's League are holding a rummage sale today at 447 Main street. A large amount of clothing and household effects were collected and good patronage was reported this morning. The returns from the sale will be for the C. W. L. funds. Miss Sarah Lynch is general convener and is being assisted by Mrs. Joseph Kennedy, Mrs. J. P. Quinn, Mrs. Frank Fitzgerald, Mrs. J. G. Burke and Miss Margaret McCloskey.

BIRTHDAY PARTY. Mrs. Clayton Atkinson of 178 City road yesterday, from 4 to 8, entertained a few of the little playmates of her five-year-old daughter, Marion, it being the occasion of her birthday. There was a nicely-iced birthday cake with candles, which was a great attraction to the little tots as it contained souvenirs for each of them. Some of the older guests present assisted in the enjoyment of the little ones. Marion received many nice gifts. Mrs. Atkinson and Mrs. M. E. Paterson served refreshments. Those present were: Maudie Speedy, Billy Boyce, Betty Pickles, Garnet Sherwood, Marvin Bird, Eleanor Haymen, Leonard Atkinson and Mrs. T. Bird, Mrs. Bella Boyce, Mrs. James Atkinson and Mrs. M. Hayman.

ST. JOHN BOYS ARE FREED IN BUFFALO

Messrs. Turner and Humphrey are Entirely Cleared of Suspicion.

News of their complete exoneration of any connection with the bandit raids on bank messengers in Toronto last summer, for which they were being mistakenly held by the Buffalo police, and exoneration by the young men from anything else wrong, was received by relatives of Merrill A. Turner and Ronald M. Humphrey here yesterday. The two young men were held on May 7, but were able to establish a complete alibi showing that they were not in Toronto when the raids, during which \$180,000 was stolen, were staged.

Mr. Turner, who is 20 years of age, is a son of W. H. Turner, prominent Main street tailor. He left St. John last May for Buffalo and was employed with the Doner Steel Works there. He returned home in November and remained in St. John until March of this year, when he went back to Buffalo. He was followed a week later by Humphrey, who, up to that time, had been a member of the staff of the Charlotte street branch of the Bank in Montreal. The two boys were rooming together in Buffalo.

The despatch containing the news of their being held by the police stated that firearms were found in the rooms occupied by the two young men. An explanation of this is the fact that while employed in the bank here Humphrey was entrusted with the duty of carrying cash from the Charlotte street branch to the main office and always carried a revolver. It is believed that he took the revolver with him when he went to Buffalo and his presence in his room caused the landlady to become suspicious and action followed.

Mr. Turner received a wire yesterday from his son, in which he said that the whole matter had been straightened out, that the police had been convinced that the St. John boys had nothing whatever to do with the matter, and that both had been given their freedom. While their many friends in St. John were certain that the two boys were blameless, news of their being vindicated was received with satisfaction.

The Sisters and orphans at St. Patrick's Industrial school, Silver Falls, were given a fine entertainment treat last evening when an excellent program arranged by Charles F. Tiley, was presented by a large group of performers who came from the city and west side.

PAVING PLANS FOR LANCASTER. At a meeting of the Highway Board of the Parish of Lancaster last evening it was decided to have surveys made for sidewalks on several streets. These include west on the western side of Olive street; western side of Champlain street, from Duke to Prince streets; east side, from Duke to Winslow; south side of Winslow, from Champlain to Lancaster Heights. This work will all be done from current revenue.

The permanent paving will be commenced as soon as the profiles plans for the section from the C. P. R. crossing to Orange street have been prepared and contracts awarded for the job. The second section to be done will be that from the C. P. R. crossing to Tilton's Corner.

While the first section, Main street, Fairville, is being done there will not be any street car service through Fairville as it is the intention to take up the rails while the foundation is being put in.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "I've been readin' about them crows 'n' how they hev out in the west. I hev half a mind to start one myself. I put out a scare-crow the other day an' when I got up next mornin' they were two crows settin' onto it watchin' fer me while the rest o' the flock helped themselves. I got right close up to 'em—but if I'd hed a gun they wouldn't a been a crow within a mile o' the place in two minutes. Ever try to shoot a crow?"

"I never did," said the reporter. "Well," said Hiram, "don't take it up fer a pastime. They may be able to shoot 'em out west—but a reel old Noo Brun's'ck crow knows more'n half the folks in The Settlement—when it comes to keepin' 'em out o' trouble. The only satisfaction I ever git is when a king-bird gits after one o' the black thieves an' starts to beat him up. An' he kin do it, too—By Heav'n!"
