LAW RESPECTING NEWSPAPERS
Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions. If subscribers order the discontinuance of their papers, the publisher may continue to send them till after payment is made. If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their Bill, and ordered their papers to be discontinued. If subscribers remove to other places without informing the publisher, and the paper is sent to the former direction, they are held responsible.

Arrival of the America.

ONE WEEK LATER FROM EUROPE.

The steamship America arrived at Halifax on the 4th instant, with Liverpool dates to the 28th of June. The despatch which we publish below is not favourable to the Allies, they having, owing to untoward circumstances, not been successful in their attack on the Russian batteries; but we think that the details of the news will give us more satisfactory accounts.

perpetrated by French and Turks at capture of Kerch.
A Boat expedition is reported to be preparing to enter the River Danube. Russians have entrenchments defended by twenty seven gun boats.
General Andreyanov vice Heiman of the Don issues addresses for their general enrollment as militia.

ASIA.

The Russian forces have advanced and encamped near Kedoat Kale. Turks have evacuated Batoum and Choukuk.
Sh Nassif Pasha has advanced with his staff to Kara. Dispatch from Varua, June 18th, which was retarded on way, says the Russians had made unsuccessful attack on Khirs; was reported they had taken Asoopa. Both reports doubtful.

PRINCIPALITIES.

Austrian commander has proclaimed martial law in Moldavia, but Moldavian authorities refuse to promulgate the order unless authorized by the Sultan.
Balsho, stepson of the reigning Prince has been killed at Jassy by Austrian Major Stiberg. Has caused sensation in Principality.

BALTIC.

Admiral Baines Squadron of 17 Steamers has left Kiel for the Baltic. Regard to the Fleet of Sanker Islands. Recent attack on English boats crew at Haogow under flag of truce causes much excitement in England, evidence rests on the authority of a negro, the sole survivor, who asserts he heard the Russian officer say "I don't care a damn for a flag of truce." Unjustified suspicion is that Russians supposed the boat was taking soundings as recently at Kerch.

RUSSIA.

Admiral Dundas has communicated with Russian authorities, and British Government through Danish Minister at St. Petersburg demands redress. Russian account in "Lancet" says six were killed and remainder are prisoners.
Dispatch from Danzig confirms that the officers of the English frigate, Dr. Estlin, Mr. Rutherford and all of crew except 6 are prisoners.
Infernal Machine exploded under English Steamers Meolin and Five Fly off Cronstadt 9th, damaged, but not seriously.

RUSSIA.

Prince Gortschakoff is appointed Resident Russian Minister at Vienna, Mr. Tioff to Wurtemberg and M. Fonton to Hanover. Russian influence is very active even in the smallest German Courts.
The Journal of St. Petersburg publishes semi official discussion on Count Walewski's French Circular of May 23d, Walewski's having been itself a reply to the Russian circular of April 28th.
The Journal semi officially says peace is possible if France and England will, inasmuch as the 4th point is morally though not formally settled and other points, namely, Navigation of Danube and evacuation of Principalities, leaving only the Vienna 3d point to be arranged.
Camp healthy, excepting Balacava, where cholera prevails.
BUTAIN.—The Hermit brought intelligence of presentation to Parliament of Roebuck's Committee Report merely admits that sufferings of army have been aggravated by incompetency at home. Since then there has been excitement from Roebuck's report, whose report was somewhat overruled by some other members of Committee having given notice of a vote of Censure on Government, so worded as to embrace the grievance of all sections of the opposition, namely, that Parliament, deeply lamenting the sufferings of the army during the winter campaign in the Crimea, and concluding with the report of the Sebastopol Committee, that the conduct of the administration was the chief cause of the calamities, hereby visits with its severest reprehension every member of the Cabinet which led to such disastrous results.

AMERICA.

Alfred Tennesson, DeLacy Evans, Monckton Miles, &c.
Admiralty have awarded sixteen thousand pounds to the survivors of ship James Chester.
France.—Senate and Legislature are convoked for July 21, to negotiate a new loan of a hundred or a hundred and fifty millions.
Napoleon had been ill two days, but recovered.
French funds fell two per cent. on announcement of his illness.
Countess DeLavalgite died in Paris on the 18th.
Nineteen hussars were court-martialed at Rouen lately for mutiny, and two were sentenced to be shot.

SPAIN.—Disturbances at Santiago have been suppressed. We have no reliable statement respecting the progress of Carlist insurrection. Russia is suspected as the instigator. Mr. Dodge had his first interview with Minister of Foreign Affairs on the 13th, and friendly remarks exchanged. Lord Howden left Madrid 21st. HOLLAND.—Extra estimates are voted for the re-organization of the Navy. SWITZERLAND.—Opening of Federal Assembly is fixed for July 21st. ITALY.—Marquis of Azeglio is sent on special mission from Sardinia to London. GERMANY.—An Austrian despatch dated 12th, proposes to Prussia that Prussia and Austria should come to an understanding as to a common course of conduct to be adopted by the two Powers in their communications with the Diet of Frankfurt.

GERMANY.

Danzig.—Danzig Diet is dissolved. Dispute forbids enlistments for foreign service under penalty of 8 years imprisonment.
Austria.—The Austrian army is being disbanded; reduction is great and rapid.
Sardinia.—The Sardinian and General Marmora the younger is dead.
Haiti.—Pasha remains in office.
National Monument is to be erected to the English at Scutari.

MARKETS.

Wheat is declining at Marseille.
Liverpool Breadstuffs.—A circular says a continuance of fine weather has kept the Corn market very quiet, without however, producing any further noticeable decline, except in Indian Corn, which is 18d. lower.

Sectionalism in Canada.

The New York Commercial Advertiser has a very wide awake and intelligent correspondent in the city of Toronto, whose letters always contain matters of interest. In his last communication he gives the following account of a question which is exciting much attention in the Canada:
"The settlement of one exciting question only seems to have made room for the agitation of another among us. The discussion on the clergy reserve question, postponed as it was for upward of twenty years, has now to be revived by the discussion and settlement of the claims of the Roman Catholic clergy to dwarf and destroy our common school system. This question has been growing in importance during the last five years, and from the time which the discussion has recently taken it seems destined to be one of the most exciting questions which has yet agitated the Provinces, resulting as it doubtless will to the final disruption of the legislative union between Upper and Lower Canada. It is even now felt by politicians to be the hinge upon which the united question will ultimately turn, should a Lower Canada Roman Catholic majority again force upon Upper Canada so important and so obnoxious a measure, and one so purely sectarian in its character.
It is a singular fact that out of the sixty-five parliamentary representatives from Upper Canada, but one is a Roman Catholic, while on the other hand, but few Protestant members are returned from Lower Canada. The contest, therefore, will naturally be sectional in its character; and anything which tends to promote this feeling, must, in the same ratio, tend to weaken the influences by which the union of the Provinces are maintained. These influences were never very strong; and a national and religious contest will inevitably destroy them. Even independently of these untoward events many influential politicians and others in Upper and Lower Canada are strongly in favor of a repeal of the union. The French nationalists and "reds" of Lower Canada claim as a right that Province without the interference of the Anglo-Saxon race; while Upper Canada more active and enterprising, beside being Protestant, can ill brook the restraints of a

non-progressive race zealous only for their religion, their language and their laws.
It is stated that the monster steamship of 25,000 tons and 10,000 horse power, building on the Thames, is expected to make a trip from England to the United States and back, early next spring, in a fortnight. She will be a sight worth seeing when she comes.
THE HARVEST BRAG.—The St. Louis Republican says "the harvesting of early wheat has commenced in Randolph county, Illinois, and it promises a most abundant yield. In a few days we shall have new flour from new wheat. The later wheat, in the same section, looks remarkably well."

THE SCHUYLER FRAUD.—An important Decision.

We publish this morning the decision of the Judges delivered on Saturday, in general term, in the case of the Mechanics Bank against the New Haven Railroad Company. It was an action originally brought to recover the market value of a certain amount of the stock of this railroad, issued by Robert Schuyler, and received by the Mechanics Bank of this city, in good faith, as a hypothecation from Alexander Kyle. The case was heard in special term by Judge Beasworth, and a decision rendered in favor of the plaintiffs for 94 per cent, being the market value of the stock at the time of its passing into their hands. From this decision an appeal was taken to the general term, and the Court gave judgment on Saturday affirming it.

This decision of the general term applies, we presume, to all the fraudulent stock so issued. In accordance therewith, the stockholders of the New Haven Railroad Company find themselves saddled with the enormous debt of some \$2,000,000. The capital representing only \$3,000,000, the capital is thus diminished nearly one-half in value. This will be a terrible blow to the thousands of individuals in New York and the Eastern States, who had invested much, or all, of their means in that concern. [New York Herald.]

Newspapers.

If the civilization of a city may be measured by the number of newspapers which are printed in it, in proportion to the number of inhabitants, Boston is by far the most enlightened city in the world. It publishes 113 papers, with an annual circulation of 54,000,000; while New York with four times the number of inhabitants, publishes but 104 papers, having a circulation of 73,000,000; and Philadelphia 51 papers, with a circulation of 48,000,000.

Sixty Feet of Daughters.

In the Half Century Sermon of Rev. Dr. Brace, of Newington, Ct., we find a fact respecting the Edwards family, which we do not remember to have seen elsewhere stated. Speaking of Mr. Backus, one of his predecessors, he says: "His wife was one of ten daughters, every one of whom has been said to be six feet tall—making sixty feet of daughters, and all of them strong in mind—children of Rev. Timothy Edwards, of East Windsor." That man who had sixty feet of daughters, and besides them one son who had sixty feet of intellect, must, according to the Psalmist's view of things, have been a happy man.

Remains of a Mastodon.

In excavating the earth for a street in St. Louis, a week or two ago, the diggers came to the remains of a mastodon of extraordinary size. One of the teeth in good preservation weighed three and a half pounds. The skeleton was found fifteen feet below the surface of the earth.

Holloway's Ointment and Pills.

the best Remedies in the world for Diseases of the Skin.—The youngest son of Mr. Edward Wright, of Windsor, Nova Scotia, had the misfortune to be afflicted with a most malignant disease of the Skin, which rendered the child's life one of misery and suffering. As the mother had tried every remedy likely to benefit him without receiving the desired result, she became ultimately worn out with trouble and anxiety in the matter, and was lamenting the case to a friend, who recommended Holloway's Ointment and Pills, which the mother commenced using, and by persevering with the same for six weeks, the child was completely cured.

St. John's Day in Montreal.

A letter from Montreal states, that Sunday was a grand day for the Catholics of that city. This day is the day of the Virgin Mary, and is played in its latest powers to the delight of the whole, and the building itself was thronged with people from morning to night. A grand procession was presented by the fairies.

A Boy named Wray.

18 years of age, killed a school teacher by the name of Brown, at Danville, Miss. 10th ult., because he had chastised his brother. The clinch of Brown on his way from school, and stabbed him in the abdomen, so that he died in a few minutes. It is spoken of by the papers as more cold blooded than the Matt Ward affair. Young Wray was immediately arrested.

On Marriage.

We must judge of character of temper of abilities: the certain of the energy and endurance of a man's mind, before we promise to obey its dictates.
We must be sure that we are loved, not only as a useless ornament to his home, but as a friend—the companion whose love must last when time steals on.
We must feel that our opinion is sought, our judgment appreciated, that confidence, the brightest ray in the diadem of married life, is ours; that not only are we loved in the sunshine, but trusted in the storm.—Then, oh, then only may we safely climb life's hill together.

The Dear Wife.

The dear hand that laid upon your bosom, rests in the still dark bed upon a pillow of clay. The hands that have nurtured you as tenderly, are folded, white, and cold beneath the gloomy sheets. The heart whose every beat measured the certainty of love, lies under your feet. The flowers the bent over with love, bend now above her in tears, shaking the dew from their petals, that the verdure around her may be kept green and beautiful.

Good Wishes.

An American paper thus addresses its readers on the commencement of the new year: "We tender our patrons the usual compliments of the season, wishing them good fires without smoky chimneys; sleigh rides without overfitting; warm garments without empty pockets; arguments without anger; and plenty of good cheer and vital good memories which will enable them to keep in mind the bill of fare that shows sentiments (particularly with the printer), make long friends. And to the ladies we wish more Chinchilla than Leghorn, more fluff than feathers, more plain than cheap, more piety than modesty, more patience than patience, more red cheeks than naked elbows; and, lastly, a complete victory over old bachelors."

THE INFALLIBLE REMEDY

Holloway's Ointment.

ERYSIPELAS of eight years cured! Copy of a Letter from Geo. Sinclair, Esq., of Paris, Canada, dated the 18th July, 1854.

To Professor Holloway. Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your invaluable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which afflicted me both night and day, rendering me a misery to me, as well as to all around me, so severe was the attack. I used several reputed remedies without deriving the least relief to my misery. At last I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I felt considerably better;—in three months, by continuing with your medicines, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully, (Signed) GEO. SINCLAIR

ULCERS in the Leg.—Remarkable Cure! Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor Holloway. Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a sore leg which these were several deep, and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length she had recourse to your Ointment and Pills, and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obt. Servt (Signed) EDWD. TOMKINSON.

A BAD BREAST CURED WHEN AT DEATH'S DOOR!!

Copy of a Letter from Mr. Henry Malden of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway. Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it, one as large as a hand; all the devices and stragatems I tried would not heal them, but assumed an aspect more frightful than before, and horrible to behold. As a last resource I tried your ointment and pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effected.

I am, Sir, yours truly, (Signed) HENRY MALDEN

The Pills should be used conjointly with the Ointment in most of the following cases:

- Bad Legs, Bad Breasts, Burns, Bunions, Bite of Mosquitoes, and Sand Flies, Cooch-day, Elephantiasis, Gout, Itch, Sore Throat, Sore Nipples, Yaws.

AYER'S PILLS,

A new and singularly successful remedy for the cure of all Bilious diseases, Constipation, Indigestion, Jaundice, Dropsy, Rheumatism, Fever, Gout, Humors, Nervousness, Irritability, Indigestion, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is more liberally required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a cordial habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and fatal distempers which lead the horses all over the land. Hence a reliable family physic is of the first importance to the public health, and this has been perfected with consummate skill to meet that demand. Nothing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by reports of such excellent position and character as to forbid the suspicion of fraud.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are Doct. VALENTINE MORT, the distinguished Surgeon of New York City.

Doct. A. A. LAYTON, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Dr. L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

Dr. C. S. WATSON, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Charlestown, Mass.

Dr. J. C. WATSON, Esq., one of the first merchants in New York City.

Dr. J. C. WATSON, Esq., one of the first merchants in New York City.

THE CHEST

Sir Astley Cooper, Bart., M. D.

THE ENTIRETY OF HIS PRACTICE, HAS LEFT A VALUABLE LEGACY TO THE WORLD IN HIS Great Preventative of Consumption, AND

PROTECTOR

FOR THE CURE FOR ALL BRONCHITIS, WITHOUT THE USE OF MEDICINES. A. S. Skillen, Inventor and Proprietor of the use of the MEDICATED FUR CHEST. To all persons of all ages and conditions, as a certain and a safe shield against those fearful diseases, Consumption, Bronchitis, Asthma, Coughs, Colds, and other affections of the Lungs, which arise from the exposed state of the chest, according to fashion, and the continual changes of our climate. The Protector is simply a chemically prepared fur, lined with silk and padded, which, suspended from the neck, covers the chest, in so agreeable a manner, that, once worn, it becomes a necessity and a comfort.

"The Protector," although but recently introduced into America, is making rapid progress through the United States of the Canada, South America, and the West Indies. It has for a long time been a staple article in England and on the Continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts enquire of any English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector, without recourse to doctoring of any kind. The cost of wearing these articles is a mere trifle, and one will last many years. No one who values the health of himself or his family will be without them. The Hospital in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co. of London, and Manchester, England, were originally entrusted with the manufacture of the Protector, by the late Dr. Cooper, and continue to manufacture according to his original instructions, and therefore recommend those who would wear "The Protector," to see to their being genuine.

RETAIL PRICES. Gent's Size, \$1.50 each. Ladies' do, 1.00 do. Boys' & Misses do, 75 do.

HARCOURT, BRADLEY & Co., 38 Abn Street & 102 Nassau St. NEW-YORK, U.S.

FRIEND OF THE CANADIAN! HOLLOWAY'S PILLS.

Extraordinary Cure of Asthma of an old Lady, seventy-five years of age. Copy of a Letter from Mr. Thomas Weston, son, (Book Store,) Toronto, dated the 9th October, 1854.

To Professor Holloway. Sir,—Gratitude compels me to make known to you the extraordinary benefit an aged parent has derived from the use of your Pills. My mother was afflicted for upwards of four and twenty years with asthma and spitting of blood, it was quite agony to see her suffer and hear her cough; I have often declared that I would give all I possessed to have cured her, but although I paid a large sum for medicine and advice, it was all to no purpose. About three months ago, I thought perhaps your Pills might benefit her, at all events I resolved to give them a trial, which I did, the result was marvellous; by slow degrees my mother became better, and after persevering with your remedies for nine weeks, she was perfectly cured, and now enjoys the best of health, although seventy-five years old. I remain, Sir, your obliged, (Signed) THOMAS WESTON.

Remarkable Cure of Dropsy after being tapped three times. Copy of a Letter from Anthony Smith, Esq. Halifax Nova Scotia, dated the 25th August, 1854.

To Professor Holloway. Sir,—I desire to add my testimony to the value of your Pills, in cases of dropsy. For nine months I suffered the greatest torture with this distressing complaint; I was tapped three times, and finally given up by the doctors; having become appearance as a skeleton, and with no more strength in me than a child just born. It was then that I thought of trying your Pills, and immediately sent for a quantity, and commenced using them. The result I was scarcely credit even now, although true it is. After using them for four weeks, I felt much better, and by persevering with them, at the expiration of two months, I was completely cured. I have since enjoyed the best of health. I am, Sir, yours, sincerely, (Signed) ANTHONY SMITH.

Astonishing Cure of General Debility and Liver Complaint!!! Copy of a Letter from William Reeve, of Charlottetown, Prince Edward's Island, dated 17th Nov. 1854.

To Professor Holloway. Sir,—I am happy to say that your Pills have restored me to health after suffering for nine years from the most intense general debility and languor, my liver and bowels were also much deranged for the whole of that time. I tried many medicines, but they were of no good to me, until I had recourse to your Pills, by taking which, and following the printed directions for seven weeks I was cured, after every other means failed, to the astonishment of my neighbours, acquaintances, and friends. I shall ever feel grateful to you for this astonishing restoration to health, and will recommend your Pills to all sufferers, feeling it my duty to do so.

I remain, Sir, your humble servant, (Signed) WILLIAM REEVE.
