PLANS FOR FAIR WELL ADVANCED

If Plans All Work Out Will be
Bigger and Better Than
Ever.

The ladies in charge of "The Fair"
are all hard at work in their several
departments making and perfecting
plans for the big attraction which will
be staged in the Skating Rink Sept.
27th, 28th and 29th.

Already matters have progressed so
far that the ladies are sure they can
promise a bigger and better Fair than
ever before. Profiting by past ex-
perience new departments are being
added, as well as new amusement fea-
tures.

The Baby Show is bound to be in-
teresting and many babies will be
entered.

While few exhibits have yet been
received, many have been pledged, and
as this has been an exceptionally good
year for crops, it is expected some re-
cord breaking exhibits will be shown.
Farmers and others interested
should plan to have their exhibits
picked out and shipped in plenty of
time so that the committee in charge
can have them properly displayed up-
on the opening day.

And let us remember that the entire
proceeds are for a good cause, the up-
keep of the Soldiers' Memorial Hospi-
tal.

SERIOUS FIRE AT MARIA

New Barn, Crops and Auto Own-
ed by John LeBlanc,
Destroyed Tuesday.

Fire which broke out in a new barn
owned by John LeBlanc at Maria East
late in the afternoon on Tuesday, com-
pletely destroyed the building and its
contents.

Mr. LeBlanc who operates one of
the best farms in that vicinity also
carries on a butler business along that
part of the coast. He was away on
business when the fire started and ar-
rived home to find the building burned
to the ground. The barn was a new
one having been completed only this
summer. Moreover it was an ex-
pensive building having stable floors of
concrete and other modern improve-
ments. The contents of the building
consisting of the season's crop of hay
and grain and a new automobile, was
also destroyed and the loss is a heavy
one as there was no insurance on any
of the property.

The cause of the fire is unknown but
it is believed that some children must
have been playing about the place and
thoughtlessly ignited some in-
flammable material about the car as it
is reported a slight explosion occur-
red, likely caused by the bursting of
the gasoline tank.

ARE PAYING HEALTH MONEY

Assessments Made for Health
Purposes Are Being Paid
Over.

St. John, Sept. 9.—Of the six recalc-
trant counties, which refused to pay
over the sub-district boards the mon-
ies asked for in connection with the
public health assessment, two counties
have recently made the necessary pay-
ment, and a third is negotiating for
payment. The provincial depart-
ment of health, in view of the fact
that certain counties were holding out
in this matter, have taken action in
the courts, and on Tuesday of this
week, are making application before
the Supreme Court of New Brunswick
in connection with attachment, pro-
ceedings, Hon. Dr. W. F. Roberts,
minister of health, received, at the
latter part of last week, a cheque
from Queens County for an amount in
the vicinity of \$15,000, covering the
amount of its assessment. Albert
has already paid, and Northumber-
land has communicated with the de-
partment making arrangements to
pay a portion of the assessment now,
and the balance at a later date. Con-
sequently, there are only three of the
six counties, which are still holding
out in the matter, and legal action has
been begun in connection with these.

A meeting of the Curling Club will
be held in the rink to-night at 8
o'clock. Important business.

MASONS GATHER AT NEWCASTLE

Masonic Convention in Session
Yesterday and To-Day—
Many Present.

Newcastle, Sept. 13.—One of the
largest gatherings of Masons, outside
meetings of Grand Lodge, is being
held here to-day and to-morrow, Wed-
nesday and Thursday. Delegates are
present from Campbellton, Dalhousie,
Bathurst, Richibucto, Blackville and
Chatham lodges, all of which will ex-
emplify degrees before the gathering.

Fram Lodge, Fredericton; Alex-
andria Lodge, Devon; Keith and Log-
gie lodges, Moncton have also sent
large numbers of members. Grand
Master LeBaron Wilson, St. John; J.
F. Edgett, Deputy Grand Master,
Moncton; J. Twining Hartt, Grand
Secretary; George D. Ellis, Grand
Treasurer; J. D. B. F. MacKenzie,
Past Grand Master, represent the
Grand Lodge at the meetings.

The convention opened a ten o'clock
in the morning with degree work in
the hall. In the afternoon the vis-
itors were entertained to a drive to
points of interest on the Miramichi re-
turning to the hall, where more de-
gree work was exemplified. In the
evening an entertainment will be held.

On Thursday the entire day will be
given to the work of the lodges and
at seven o'clock a banquet will be held
in St. James Hall after which Rev. C.
Gordon Lawrence, past Grand Chap-
lain, Hampton, will deliver a lecture
on Masonic Principles.
About twenty-five members of
Campbellton Lodge are attending
these meetings.

NEW EX-RAY MACHINES IN

Were Installed Recently At Both
Local Hospitals And Doing
Good Work.

The two X-Ray machines donated to
the local hospitals by Division No. 3
of the Canadian Brotherhood of Rail-
road Employees are now installed and
are proving an invaluable aid to these
institutions in the discharge of the
good work they are carrying on here.
Both machines are Victor X-Rays
of latest design being the same as
those used in various large hospitals
throughout the country. Both hospi-
tals are fitted with spacious X-Ray
rooms where provision is made for all
essential equipment including a de-
veloping room and a cabinet for the
filing of photographs. Since the in-
stallation of these machines many
cases in both hospitals have been
found to require their use and gratify-
ing results have invariably been ob-
tained.

This estimable gift of the C. B. of
R. E. was donated to the memory of
their fellow workmen who lost their
lives in the great war and it is indeed
fitting that this memorial is one which
is designated to relieve suffering and
preserve human life since those whose
memory it commemorates consecrated
their lives to an equally noble and
similar purpose.

FALL SESSION OF THE QUEBEC HOUSE

Maintenance of Highways to
be Wholly in Hands of the
Government.

Quebec, Sept. 13.—At a cabinet
meeting held today it was decided to
convene the next session of the Que-
bec Legislature for Oct. 24.

After the meeting, Hon. L. A. Tas-
chereau declared:—
"The care of the highway built by
the government is the most serious
problem and the most urgent it has
to study."

"In order to prevent these highways
from deteriorating, and not lose the
benefit of the \$40,000,000 spent to
build them, it is important that re-
pairs should be made immediately."
"So as to lessen the financial obli-
gations of the municipalities and in
order to help as much as possible the
agricultural class, the government has
decided to take full charge of the
maintenance of these great high-
ways," said the premier.

"By holding the session this fall
we are in a position to adopt
measures to remedy the coal situa-
tion, which places our province in such
a serious position."

SEIZED HOOTCH MAKING PLANT

Inspectors Visit Woods at
North Tatagouche, Glouc-
ester Co.

About daylight Monday morning
Inspectors Stewart of Chatham and
Garmon of Bathurst discovered a dis-
tilling apparatus in the woods at
North Tatagouche Gloucester Co. The
outfit consisted of a stove, barrels of
corn mash, boilers, tunnels, strainer,
pails, casks, etc. The party on whose
property the goods were found was
convicted about a month ago on in-
formation of Officer Stewart and at
that time paid \$230 for violating the
Inland Revenue Act. This offence is
liable to cost him \$500 and a term in
jail.

LUMBER HOLD.

Chatham World: It is currently re-
ported that several of the up river
lumber merchants have disposed of
their stocks of lumber to a St. John
firm. Up to the present time lumber
operators have not decided what op-
eration will be carried on this winter,
as they claim stumpage rates will
have to be reduced before they can
conduct business at a profit.

There is a good demand for laths.
The price we understand, is \$6 per
thousand and large quantities are be-
ing contracted for.

NEW C.N.R. HEAD IS APPOINTED

But Name Will Not be Given
Out For Some Days
Yet.

Ottawa, Ont., Sept. 12.—It was stat-
ed in official circles tonight that al-
though the appointment to the chair-
manship of the new board of manage-
ment of the Canadian National Rail-
ways had been made that C. R. Gray,
president of the Union Pacific Railway
was not the official chosen. It was
stated that official announcement con-
cerning the new personnel could be
expected in a few days but no intima-
tion as to its composition was given.
It is thought probable that because
the officials whose presence on the
board with the new chairman, the
government desired had not definitely
signified their willingness to accept
appointment that the government has
refrained from making public their
choice.

MINING COMPANY TO PUSH WORK

Federal Lead and Zinc Co. Push-
ing Work in Mine on Gaspe
Coast.

(Quebec Telegraph).

The Telegraph has been favored
with reliable information regarding
the latest developments in the mining
operations of the Federal Zinc and
Lead Company, Limited, which are of
a much more encouraging nature than
were the indications at the time of the
publication of the 1921 mining report
of the Quebec Government. Absolu-
tely reliable facts regarding the op-
erations of the Federal Zinc and Lead
Company, Limited, are that the com-
pany has now sunk 237' in its shaft,
and has a vertical depth of 600' by
cutting ore in veins on its road, be-
low the collar of the shaft. The com-
pany has also drilled a total of sev-
eral thousand feet—a fact which no
doubt led to the recently published
statement of digging down to a depth
of two to three thousand feet. One
encouraging feature of the situation is
that the prices of zinc and lead are
exceedingly high at the present moment,
and it is gratifying to learn that the
company is to push forward its
operations as rapidly as possible, both
upon mining work and also upon the
means of communication. The Tele-
graph is delighted to be able to give
publicity to these facts and wishes the
company every success in its work of
development in the heart of the great
and promising region of Gaspé.

DIED SUDDENLY AT PERTH, N. B.

J. W. MacPhail, Perth, Presi-
dent of Maritime Board of
Trade Dead.

Word was received here yesterday
afternoon that J. W. MacPhail, War-
den of Victoria Co., and recently el-
ected President of the Maritime Board
of Trade, at the meeting at Edmund-
son had died suddenly at his home.

MILL CLOSING.

We understand that Champoux's
mill is ceasing operations today hav-
ing finished the season's cut. This
will no doubt throw many men out
of work but this will only be temporary
as lumber operations are beginning
in earnest now. A party who will job
for the W. H. Miller Co. left this
morning with horses and supplies.

CONVENTION HELD HERE YESTERDAY

Religious Educational
Leaders Confer—New
Officers Elected.

Under the direction of Miss Alice
M. Harrison, Secretary of Elementary
Work for the Maritime Religious Edu-
cation Council, a convention was held
here yesterday. At the first session
at 3 o'clock in the afternoon a cam-
paign was outlined for the raising of
funds to carry on this very important
work. A staff of new officers for the
local District Branch of the organiza-
tion was also suggested.

The evening session opened in the
Baptist Church at 7.30 and a good re-
presentation of S. S. officials and
teachers was on hand to join in the
conference as well as ministers and
others interested in the work. A com-
mittee was appointed to attend to the
monetary requirements of the work in
this district and new officers appoint-
ed for the coming term. Mr. B. O.
Bates was elected president while the
local ministers and Sunday School
superintendents were appointed as an
Advisory Council. Miss Lillian Nor-
man was chosen to act in the capacity
of Sec-Treas.

There are six district branches of
this organization in Be-tigouche Co.,
and, as all those familiar with it
know, they are carrying on a most
important work. Undoubtedly this
movement is worthy liberal assistance.

RESCUE PARTIES RESUMED EFFORTS

Only a Handful of Experienced
Miners May Now Be
Alive.

Jackson, Cal., Sept. 13.—As rescue
parties resumed to-day their frantic
efforts to reach the 47 men entombed
for fourteen days in the Argonaut
gold mine, it was the prediction of
officials that the barriers would be
broken through within 36 hours.

Some of those in touch with the sit-
uation, including Clarence E. Jarvis,
a member of the State Board of Con-
trol, expressed the belief that at least
a few of the miners would be found
alive. The general opinion, however,
is that if any of the victims survive,
they were only a handful of the stronger
and more experienced miners.

Rescue gangs are at work on two
levels, those 3,600 and 3,900 feet be-
low the surface. The imprisoned
men, or most of them, are believed to
be at a depth of about 4,000 feet.

SACKVILLE, N.B.

Sold by leading dealers everywhere and in Campbellton by A. H. ENGLISH

**More than
just materials**

When you let us supply your building needs you get a great deal more than just a mass of lumber—bundles of shingles—pounds of nails—or pounds of Beaver Board. You get the benefit of our building material knowledge and experience in service that helps you get the results you want at the right price. Service first in planning the work—more service in selecting proper materials—speedy service in delivering the goods.

You pay for the materials. The service pays for itself in the larger volume of business it brings through satisfied customers.

It will pay you to be one of them.

Service**

HAMILTON & COLLIER

THE MARITIME BOARD OF TRADE

Hon. P. J. Veniot Talks Inter-
estedly on Immigration
Methods in N. B.

St. John, N. B., Oct. 8.—Decision to employ the services of a permanent secretary with the assistance of the provincial Governments of the Maritime Provinces, was reached at the 1922 convention of the Maritime Board of Trade yesterday afternoon at the local Board of Trade rooms. A new capital arrangement will also be made on the various boards throughout the provinces to maintain this office.

Captain J. E. Masters, of Moncton, a former president of the Maritime Board, was elected president for the coming year with G. Fred Pearson, of Halifax, and Wallace L. Higgins, of Charlottetown, as vice-presidents. A considerable action was taken on resolutions dealing with the establishment of a research bureau, and the situation of Canadian seaports for trading trade. The board will exert its influence with the Department of Railways to change the system of handling automobiles on the car ferry to Prince Edward Island and also with the express companies to secure a rate for the island fishermen as low as that granted from Halifax and Sydney to points west of Moncton.

During the discussion on immigration, Hon. P. J. Veniot told of a conference among provincial authorities on the matter of getting people to remain on the land. The idea then was that it would be better to keep natives in the land rather than bring in more settlers.

The colonization of the Maritime Provinces was left to the Federal authorities, but these provinces were neglected. He thought the Dominion should supply the finance for immigration. Nova Scotia had tried it, but it had not been a great success. "Why should this province bring in workers when this province sends 3,000 men to help harvest the crops of the west?" he asked. "We are not bringing in men to help gather our crops. We should advocate that the Dominion Government should not discriminate between east and west in the matter of immigration."

The provincial Government had been opening up new lands, but men from Scotland, Ireland or England could not make a success of it. The province was losing its people. A million and a half of New Brunswickers had gone to the United States. The people in the English sections of New Brunswick were losing ground, as the census returns showed the increase in population here had been among the French people.

Other speakers endorsed the remarks of Hon. Mr. Veniot.

NEW POLICY IS ANNOUNCED

Government Sets Forth Propo-
sed Immigration Policy for
Coming Winter.

Ottawa, Sept. 11.—Canada has vast virgin lands calling for men of brawn to help them yield their wealth. Canada has also large cities with their spectral bread lines which are each succeeding winter calling for work to give them relief. These two calls have been keenly heard by the federal government and a vigorous campaign will be launched almost immediately to people those lands and to abolish the bread lines which spell congested over-populated cities.

The immigration policy of the King government is announced. After hearing the well-considered views expressed by earnest members last session and after a careful personal investigation of conditions to western Canada, Hon. Charles Stewart, minister of the interior, immigration and colonization, has made public his plan of campaign.

Careful selection of agricultural workers in the country of origin and wise and considerate direction of those after their arrival in Canada and until they get firmly established on the land are the main points. With this done the great objective—substantial citizens of the Dominion, to use the words of the prime minister—can be readily achieved.

There will be close co-operation between the federal and the provincial governments at every turn. Generous encouragement will also be given to the Canadian Colonization Association, an organization backed by private capital whose purpose is to settle annually a large acreage of lands adjacent to Canadian railways.

Another feature of the policy is the plan of bringing to Canada carefully selected boys and girls of the 'teen age from Great Britain and placing them in the rural homes of Canada. Repatriation of many Canadian people, who in recent years have gone to the New England states, will also be exploited to the fullest extent.

WILL ANSWER ANY WOMAN WHO WRITES

Montreal Woman Finds
Health by Taking Lydia
E. Pinkham's Vege-
table Compound

Montreal, Quebec.—"I was a sufferer for three years, not able to do my housework. My husband was discouraged, for I was no better and had had the doctor all this time and nothing helped me. I was always sleepy, had no appetite and suffered with my left side. My mother in England recommended Lydia E. Pinkham's Vegetable Compound because it had helped my sister, so I have been taking it. I am now able to do my housework and I can not praise your medicine too highly as I have great hopes for the future. I will tell anyone who writes to me what good it has done me."—Mrs. E. Manson, St. Henry P. O., Montreal.

For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been helping women just as it helped Mrs. Manson; often times after doctors and other medicines failed.

If you are suffering from disagreeable symptoms caused by some female weakness, try this splendid medicine. It is a woman's medicine for women's ailments, and can be taken in safety by any woman.

D. G. LINGLEY ELECTED
HIGH CHIEF RANGER L.O.F.

St. John, N. B., Sept. 11.—The high standing committee of New Brunswick Independent Order of Foresters, has elected Duncan G. Lingley, to the office of high chief ranger, the office having become vacant through the death of Colonel G. W. Mesereau of Doaktown.

The new high chief ranger is the Chamberlain of the City of St. John.

Cigar Clerk—"For 300 leagues of that brand they give you a gramophone."

Customer (puffing hard): "If I smoked three hundred of these I wouldn't want a gramophone, I'd want a harp."

CAR TAXES HIGH IN TOKIO

Twenty Horse-Power Autos
Taxed Over \$400 in
Japan.

Automobile owners in Tokio, Japan, know what it is to pay taxes, for one passenger cars rating more than twenty horsepower they must pay a local tax of \$422 a year. Between fifteen and twenty horsepower the tax is \$229 and between ten and fifteen horsepower \$189 a year.

In Osaka the tax on an automobile seating six persons or more is \$160; three or more, \$120, and two persons, \$80. In Kobe a car seating six or more is taxed \$50; three or more, \$40, and two persons, \$25. In Yokohama cars rated over thirty horsepower are taxed \$80 a year, and between fifteen and twenty horsepower, \$45, with other rates proportional.

There is no national automobile tax in Japan, and a few prefectures of Japan have no local taxes. The contrast is most marked between Tokio and Yokohama, which are only forty-five minutes apart by train.

Single-passenger electric automobiles are operated in Berlin, Germany, and can haul two-wheel trailers to carry another person.

Twenty thousand tires is the production of one of the largest rubber factories in this country.

Lost Car.
"Where is the car?" demanded Mrs. Diggs.

"Dear me!" ejaculated Professor Diggs. "Did I take the car out?"

"How odd; I remembered now that after I got out I turned around to thank the gentleman who gave me the lift and wondered where he had gone."

Customer (puffing hard): "If I smoked three hundred of these I wouldn't want a gramophone, I'd want a harp."

An Improved Gasoline
such as you have
been Looking for,

As the result of exhaustive research and experiment in our Imperial Refinery, Imperial Oil Limited is now able to offer to gasoline users in the Maritime Provinces a new improved gasoline which is obtainable wherever the Imperial Premier Red Ball Sign is displayed.

The new Imperial Premier Gasoline possesses all the qualities of a perfect motor fuel. It starts even more quickly than Queen Gasoline (which has been used by some motorists in spite of the fact that it was primarily a lighting fuel and not intended for power purposes).

The new Imperial Premier also has the "pep" and power which you demand from gasoline. It vaporizes completely and burns clean to the last drop. Every gallon you buy will give you the big mileage which you have a right to expect.

Every factor which contributes to the efficiency of a motor fuel has been carefully considered in the manufacture of this new Imperial Premier Gasoline. Its superior quality has been proven not only by laboratory tests but by practical tests in all types of automobile carburetors and motors.

So confident are we of your approval of this gasoline that we no longer make any other grade for engine use.

We invite comparison with other grades of gasoline at higher prices. We believe a test will convince you that no gasoline made in any country can give you better satisfaction or greater mileage for your gasoline money—and remember, the new Imperial Premier Gasoline is strictly a home product, made for the Maritime Provinces at our Imperial refinery.

How to make a test—After your tank has been filled with the new Imperial Premier Gasoline have your carburetor set to properly use this fuel. By doing this you will find you can run your car on a lean, powerful mixture and keep engine trouble and operating expenses down to the minimum.

Ask for the new Imperial Premier Gasoline the next time you fill.

ANOTHER FINE BUILDING GOING UP

Gray's Wholesale Erecting Ad-
ditional Warehouse Rooms
Cold Storage Plant, Etc.

A notable addition which will
house a section cold storage plant is
being made to Gray's Wholesale house.
The new building, which will be a
brick structure of three stories, is now in the
course of construction and will be sit-
uated to the rear of the present ware-
house. It will be used as an ex-
tension to that building.

The other half of the building will
house the ice cream plant and a ten-
tion cold storage system which will
contain the latest and best equipment
in this line.

A new feature of the establishment
will be the manufacture of butter.
This will not be produced on a large
scale, but for the purpose of convert-
ing surplus cream into a market-
able commodity. By this means all
these contributing cream to the ice-
cream plant will be assured a steady
market regardless of any fluctuation
in the cream market.

The erection of this new building
marks the steady growth of this pro-
gressive wholesale which has become,
in a comparatively short time, one of
the largest businesses of its kind on
the north shore.

OUTLAW HAS BEEN ARRESTED

Joe J. Corrier of Nash's Creek
Arrested Back of Nouvelle,
Que.

Joseph J. Corrier, of Nash's Creek,
known as the ringleader of the gang
which terrorized the citizens of Jac-
quet River and Nash's Creek last
year, was captured at a house back
of Nouvelle, Que., by constables Geo.
Ross, H. Eagles and Harvie recently.
Corrier is a real wild west outlaw.
He has threatened to shoot any person
who attempts to arrest him and when
taken was fully armed, but was taken
unaware and had no chance to use
his gun.

The particular charges against him
are for robbing the post office at
Nash's Creek, stealing a bicycle from
McAllister, New Mills, and break-
ing and entering the store of Peter
Hamilton & Sons, River Charles.

Corrier was taken from Magis-
trate McAllister at Jacquet River and
remanded for trial. He is now in
the Detention Jail.

The constables in capturing him
put up the bluff that they were hiring
men for the woods, and thus were able
to come to close quarters and prevent
him from using his gun.

Many Cars On Side of Roads
For Repairs Between Here
And New Mills.

Sunday being a fine warm day there
were many cars on the roads, and ap-
parently more than the usual number
of mishaps. A party who motored to
New Mills Sunday afternoon stated
that never in his experience did he see
so many cars pulled off at the road-
side for repairs. Fortunately there
were no really bad mishaps.

The roads were exceedingly hard
and dry, and the number of broken
bottles was evidence of gross care-
lessness upon the part of parties who
should know better than to throw
empty beer bottles upon the highway.
These circumstances may have been
responsible for the large number of
mishaps.

Mr. and Mrs. H. B. Anslow and
three friends met with a severe ac-
cident Sunday afternoon while motoring
to their summer cottage at Upper
Charlottetown. While coasting down the
long hill to the portage at Enl River
bar one of the rear tires became de-
flated, and in turning the sharp corner
at the foot of the hill, the rear of the
car skidded across the road and be-
fore the car was straightened out it
was into the ditch, and overturned.
Mrs. Anslow's right arm was broken,
but none of the other occupants of the
car were injured. The car was not
seriously damaged and was run to
town under its own power.

sires, in the capacity of a designer.

NEW BRUNSWICK'S LUMBER HARVEST

*Very Few People Realize the Magnitude of Lumber In-
dustry in this Province and How Much it Means
to the Prosperity of it's People.*

1 MILLION LOGS A YEAR

In normal seasons 15 million logs
are cut during the winter months af-
ter the ground becomes frozen and be-
fore the snow becomes too deep.
Thousands of men and horses are re-
quired to cut, yard and later haul
these logs to the banks of nearby
streams. The woods, ring with the
merry tune of axe and saw while the
back settlements, appear deserted.
Then as winter gives way to spring
and the ice runs out, these 15 million
logs must be rolled into the swollen
rivers and driven to the booms below.
Again thousands of men are required
on these river drives. Then, during
the long season from early spring un-
til late autumn 400 sawmills are
working night and day converting

there will always be 15 million logs
forthcoming every year. For after
all the life of a manufacturing indus-
try depends on the amount of raw
material available. The forest is an
exhaustible resource, but restorable
through growth. Then to perpetuate
the industry, new forests must replace
those cut down and the growing trees
must be protected from destruction by
fire. Although it takes 80 to 120
years for a tree to grow from seed to
log, there has always been an avail-
able supply of 15 million logs ready to cut
each season. What would the annual
supply have been had there been no
destructive forest fires in the past? Probably the annual output of our
mills would have required a string of

the forests, therefore, is absolutely
vital to the solvency of any railway
system in this Dominion.

"The destruction of forests by fire
this year was not the work of the
railways, as Government reports will
prove, but of fishermen, campers, set-
tlers, and woods travellers generally.
It is the careless citizen, himself a
shareholder in the Canadian National,
who can wreck or maintain these for-
est resources so essential to our na-
tional prosperity and the successful
operation of the public-owned rail-
way system."

tion supporting the vatican, the other
Sturzo.

BIG LUMBER CUT ON NORTH SHORE

Chief Scaler A. T. Murchie Says
Cut This Season Will Be
Double Last Year.

Fredericton, Sept. 7.—Reports which
have been received by A. T. Murchie,
chief scaler of the Department of
Lands and Mines, from Crown Land
scalers indicate at present a lumber
cut for the coming season in the prov-
ince, double that of last year.

Mr. Murchie made this information
public on his return from a visit to
North Shore districts including New-
castle and along the Bathurst high-
way.

In discussing the preparations
which are being made in the North
Shore counties, he expressed himself
as being favorably impressed with the
activity demonstrated by the opera-
tors and predicted better wages for
men who will be employed this win-
ter. Preparations are being made for
the hiring of crews while the large
amount of shipping from North Shore
points this season has improved the
general situation considerably.

Among the larger companies who
are participating in the general activ-
ity is the Snowball Lumber Company
of Chatham, Richards Manufacturing
Company of Campbellton, and the
Loulson Lumber Company at Benja-
min River.

MAY BUCK WITH INTER. UNION

Dissatisfied With Action of In-
ternational Offices Regarding
Recent Reductions.

Fredericton, Sept. 11.—That Main-
tenance of Way Employees of the
Canadian railways are definitely con-
sidering breaking away from the in-
ternational unions and disavowing
the present organization has been of-
ficially revealed by a joint meeting
which was held here yesterday by up-
wards of one hundred and fifty mem-
bers of three locals of the Interna-
tional Brotherhood of Maintenance of
Way Employees and Railway Shop
Laborers.

The meeting, it was said by the of-
ficers in charge, considered two sug-
gestions: one was to affiliate with the
Canadian Brotherhood of Railway
Employees and the other was to form
a new national organization confined
to Canada. In support of the first
plan M. G. Lockhart, general organ-
izer of the Canadian Brotherhood of
Railway Employees, was here from
Moncton to speak. No definite action
was taken, but another joint meeting
will be held in October following the
return of the delegates who attend the
convention of the I. B. of M. W. E. &
R. S. L. at Detroit in October.

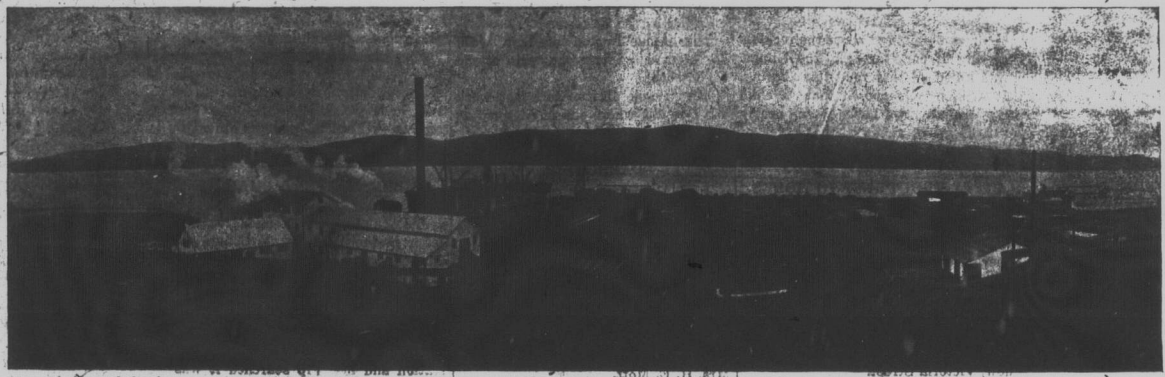

The locals represented at yester-
day's meeting were: No. 181, Fred-
erick Junction; No. 184, Fairville,
and No. 174, McAdam. Simon Burns,
secretary of the Frederick Junction
local, was chairman, and W. Co-
oper, secretary of the Fairville local,
was secretary of the meeting; they
are the delegates from their locals to
the Detroit convention and Ed. Esta-
brook, who was also present yester-
day, will represent the McAdam local
at Detroit, and upon their report fu-
ture action will depend.

The movement in favor of a seces-
sion from the international organiza-
tion was said by leaders in yesterday's
meeting to be the result of dissatis-
faction over having the United States
Railway Labor Board's orders as to
wages made practically automatically
effective on the railways in Canada.
"There is a growing feeling that the
cases of Canadian awards are not
fully considered upon their merits,
but that conditions pertaining in the
United States are being permitted to
affect awards in Canada.

NEW RINK FOR TRURO.

Truro, N. S., is to construct a new
skating rink 217 feet by 94 feet and
10 feet high. The frame will be of
steel, and will resemble when com-
pleted, the St. P. X. rink at Ant-
igonish, N. S. William Fanning is
to erect the rink to replace one de-
stroyed by fire six years ago. He is
asking the Truro council to give him
concessions in taxes and water rates.

made it very difficult to give any de-
finite prediction of what the immediate
future might hold. He concluded by
assuring the Journal that British lum-
ber buyers would much prefer to do
so advantageously.

BIG SAW MILL OF SHEP-HARD & MORSE, NEAR GASPE.
This mill is one of the largest in this territory and will give some idea of the magnitude of the lumber business.

WIERS-FARRAR.
A very pretty wedding took place
at the home of Mr. and Mrs. David
Ferguson, Flatlands, on the afternoon
of Wednesday, Sept. 6th, when Har-
vey James, son of Mr. and Mrs.
David Wiers of Wiers Brook was
united in marriage to Marion Chris-
tine, daughter of Mr. and Mrs. Isaac
Farrar of Kedgewick by Rev. Wellin-
ton Camp, B. D., of Campbellton. The
ceremony took place under an arch of
golden glow and ever greens. The
bride, who was given in marriage by
her brother, Rayford, looked charming
in a gown of white tulle lace over
blue-satin with veil and orange
bouquet and carried an arm bouquet
of carnations and roses. The bride-
maid, who acted as bridesmaid, was be-
comingly gowned in peach organdie, wear-
ing a hat of black panne velvet and
carried a bouquet of roses and carna-
tions. The groom was supported by
Thos. W. Clarke of Campbellton.

After the ceremony a reception was
held and a dainty luncheon served to
about forty guests.

The happy couple left on the Limit-
ed for Montreal and other Canadian
cities. The bride's going away cos-
tume was of navy tricot with hat
to match.

The large number of beautiful pre-
sents received, testified to the popu-
larity of the young people.

The Difference.
Last year old Slick was paying
court to Miss Smarty.
And this year he is paying her at-
tention.

these 15 million logs into various
kinds of lumber for each kind of log
has its particular use. The lumber
is piled up in huge piles to season, to
be shipped later by water to Europe
or South America, the Indies or Uni-
ted States, or by rail to United States
and other parts of Canada. Winter
comes and again the lumbermen go
back for 15 million more logs.

15 million logs manufactured into
millions of pieces of lumber. If piled
all in one place, this annual har-
vest converted into lumber would cov-
er over one square mile, an area as
large as any of our smaller towns.
Piled into cars to be shipped over the
railroad it would take a string of
cars over 200 miles long. Just im-
agine an unbroken string of cars all
loaded with lumber reaching from
Campbellton on the northern border
to Moncton in the south, or from Ed-
mundston to Moncton, and one may
realize what the annual output of the
mills aggregate. It would require a
squadron of at least 250 vessels of
ordinary capacity to move all the tim-
ber by water. Some feel that some
industry, too, that annually takes 15
million logs from the forest to mills
away and converts into sawn timber
which requires 25,000 railroad cars
or 250 large vessels to move it to mar-
kets, hundreds of leagues distant.
One may then realize why the lum-
bering industry ranks next to agri-
culture in this province.

No Railway Can Long Withstand Loss of Forests

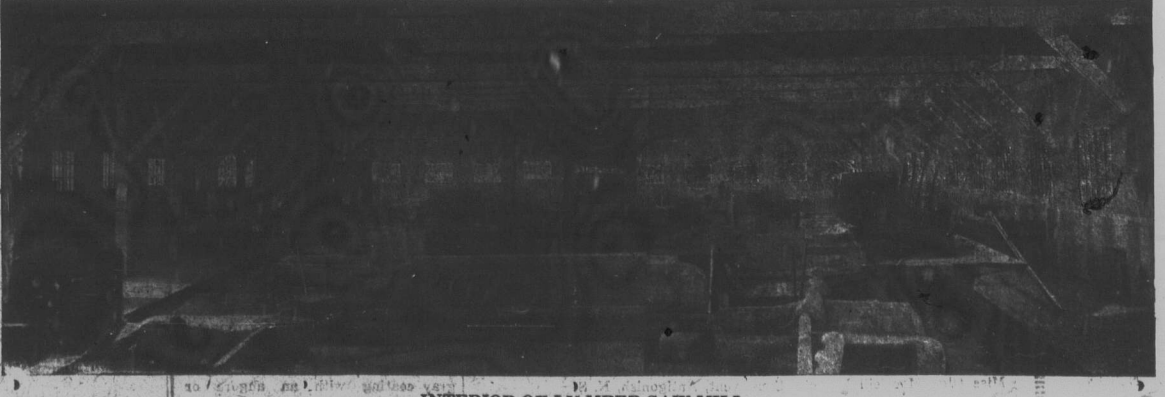

Ottawa, Sept. 11.—"Every forest
fire that broke out within fifty miles
of the Canadian National lines this
summer stole away some of the im-
mediate or potential traffic and delay-
ed to that degree the financial buoy-
ancy of the public-owned system,"
stated C. Price Green, Chief Commis-
sioner of Industries and Resources of
the Canadian National Railways in an
interview today.

"A large mileage of the Canadian
National runs through natural timber
growing lands which can never pro-
duce any other marketable crop than
timber. At the same time, these
wooded regions are generators of
tourist traffic and account for the rapidly
expanding number of visitors
from the United States travelling on
our lines, as well as for the great
volume of recreational travel on the
part of Canadians. The security of

in sending to Great Britain lum-
ber which is not cut to the required
and specified length, just so long will
Great Britain buy the most of her
lumber from the Baltic and other
sources from which she can get it as
she wants it. This was the gist of
what a Journal representative gather-
ed as the opinion of an agent of one
of the biggest lumber buyers in Great
Britain, who is at present in St. John.
J. H. Lane is private secretary and
chief executive of Montague Meyer
who is credited to control more lum-
ber than any other man in the British
Isles.

Mr. Meyer, himself, is almost a help-
less cripple. He is only 35 years of
age but due to the war he was chief
of the lumber purchasing department
of the British Government and Mr.
Lane was his secretary. Following
the war he went into the lumber busi-
ness privately again and now has of-
fices all over Europe, in South Amer-
ica, Montreal and Vancouver. Mr.
Lane only recently returned from a
trip to the Baltic where the largest
operations of his principal are carried
out and he is on his way to Vancou-
ver, then to China and Japan.

The Journal representative endeav-
ored to draw him out but Mr. Lane
insisted that he was in this country
in a private capacity and he did not
wish to air his views. It was pointed
out of what great interest an inter-
view with him would be especially in
this province which is so vitally inter-
ested in the lumber business and his
competency to speak on the condition
of the lumber market from a world-
wide angle and to give some idea of
the future of that industry could not
be questioned, but he remained ob-
durate maintaining that he was not a

"FRUIT-A-TIVES" SAVED HER LIFE

This Fruit Medicine Always Gives Relief

917 DUNDAS ST., MONTREAL.
I suffered terribly with Dyspepsia. I had it for years and all the medicine I took did not do me any good. I read something about "Fruit-A-Tives" being good for all Stomach Troubles and Disorders of Digestion, so I tried them.

After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-A-Tives".

Mrs. ANTOINETTE ROUCHER.
806 a box, 6 for \$2.50, trial size 25c. At dealers or sent post-paid by Fruit-A-Tives Limited, Ottawa.

NOTICE OF SALE.
To Alexander Diotte, of the Parish of Bonaventure, in the County of Restigouche, Farmer, Laura Diotte his wife, and Gertrude Diotte his mother, and to all whom it may concern.

NOTICE is hereby given that under and by virtue of the power of sale contained in a certain mortgage of Mortgage bearing date the 15th day of September, A. D. 1918, and made between the said Alexander Diotte and Gertrude Diotte his mother of the one part, and the said Gertrude Diotte his mother of the other part, which mortgage was duly registered in the office of the Registrar of Deeds in and for the County of Restigouche on the 15th day of September, A. D. 1918, as Number 1532 on pages 5, 7, 8, and 9 of Book "M" of the records of the said County of Restigouche, there will be sold by public auction, in front of the Post Office in the Town of Campbellton, in the County of Restigouche, on Friday the 27th day of October, A. D. 1922, at the hour of two o'clock in the afternoon, ALL and singular that certain lot or parcel of land and premises situate, lying and being in the Parish of Bonaventure (Dahabie) in the County of Restigouche, and bounded as follows: Beginning at the South East angle of Lot number Sixty-six (66) to Block Fifty, thence running North and East, thence East twelve chains and fifty links, thence South Eighty chains thence West twelve chains and fifty links to the place of beginning, containing fifty acres more or less being the West half of Lot Number Sixty seven, originally granted to one John McMillan, together with the house, buildings, and improvements thereon, belonging to, in, and use appertaining, default having been made by the Mortgagee, payment of the principal sum and the interest by the said Indenture of Mortgage secured.

Dated at the Town of Campbellton, in the County of Restigouche, this Ninth day of June, A. D. 1922.

EDITOR'S MAIL

EDITORS MAIL
The Editor of "The Graphic"
Campbellton.

Dear Sir,

I noticed in your issue of 21 Aug. a report of proceedings of the Union of Municipalities. The article in question covers the remarks of Mr. J. King Kelly, K. C. upon our Provincial University. It is given some prominence and as I fear Mr. Kelly has not full information on the matter, some false impressions may be given to the reader. There are some points on which one can agree with Mr. Kelly; there is much that he says that is quite otherwise. I would like to discuss the article in detail.

Mr. Kelly says: "The air is not quite clear as to what course the University should pursue, but it does appeal to many that it should not be duplicating a staff on subjects covered fully by the other Universities of the province. It might rather be said if it is not quite clear what the University can do to extend the services she has always loyally rendered and which may well be considered great in view of the obstacles she has encountered. And is the province to rely upon the generosity of 'other universities' to supply the deficiencies of its own educational system? There is Mr. Allison and St. Joseph's; the first has to a large extent and the latter altogether a denominational or religious appeal and make no attempt to supply science facilities like U. N. B's. They are a valuable supplement to the work of the province; but because both give commercial courses, is that a good reason why the Campbellton High School should not 'duplicate their staff' on business training as has lately been done? Although the Faculty of Arts at U. N. B. may duplicate that of Mt. Allison I am sure that 'many'—many indeed, who are in the best position to judge, see no good reason to do away with U. N. B's Arts Course on that account. Mr. Kelly proceeds to pronounce the 'dogma' a government endowment should not compete with a similar institution maintained by voluntary contributions." It would seem to the writer that this remarkable statement would sound better the other way round. And as far as for the cost of the salary of a "professor of Greek,"—can anyone imagine that the study of Greek is the chief activity of the undergraduates? Even were this so, the Hon. Sir George Foster is a U. N. B. Classical scholar and was at one time "professor of Greek" there. Is there nothing "utilitarian" in the culture which has enabled him to perform the services he has rendered to the Province, the Dominion, and the Empire? Possibly he succeeded in spite of his scholarship. It might be recalled, too, that English and Scottish "public schools" have for centuries been severely classical and it cannot be denied that men thus educated have had a lot to do with the development of the British Empire. Coming nearer home, our lawyers need some cultural training, even if they do not require Greek. And the taxes of "the ordinary citizen" are by no means squandered on classical departments to the neglect of subjects of more utility. The faculties of engineering and applied science have far more students than that of Arts. Again professors of academic subjects are required for much of the work that an engineer must study.

Therefore when they are available it would be poor economy or "efficiency" to use them for theological courses if course it is proposed to "abolish."

Mr. Kelly suggests a "department of forestry." Does he know U. N. B. already offers a very excellent course in forestry and graduates are meeting with highest success all over the continent? Our provincial forestry system is studied by all the provinces and many states that have problems similar to ours; the highest praise is heard from all sides. (Reference last issue of "Canadian Lumberman.") Our provincial chief, to whom so much credit for this forestry work is due, is a U. N. B. graduate.

Those who have taken the courses in other technical subjects have been uniformly successful. The writer must confess he himself has found it necessary to leave New Brunswick to make a living in his profession, but what with the development of our water powers and industrial resources, this condition cannot persist.

As for mining—the present development, and the money available, do not permit anything being done except what is included in civil engineering courses.

With regard to agriculture, to say nothing of fisheries, many other trades the province has lately forfeited \$50,000 federal aid for vocational education for the only reason that those engaged in these trades did not

ALUMNUS.

PRIESTS GOING TO
NEW PARISHES

Rev. Fr. Allard of Val d'Amour Goes to St. Mary's, East Bathurst.

Announcement has been made by the appointment of several well known priests of the Chatham diocese to new fields of labor. Rev. J. P. Levesque, the energetic curate at Bathurst for the past two years, has been appointed parish priest at Val d'Amour, Rest. Co. Rev. Auguste Allard is given the post of parish priest in the newly formed parish of St. Mary's, East Bathurst. Rev. Cletus Ellerton is appointed parish priest at Barnaby River. Rev. Wilfred Cyr, who has been at Rogersville will succeed Fr. Levesque as curate at Bathurst.

During his residence at Val d'Amour, Rest. Co. Rev. Auguste Allard has given the parish property, and the general property of the parish. His transfer will be generally regretted, but all his friends congratulate him as his new parish is a much larger one.

MAGIC BAKING POWDER

Magic Baking Powder has been known and used all over Canada for more than 25 years. It has set and maintained the standard for goods of its class. Its use is increasing daily because of its strength, purity and universal satisfaction. Pure food insures good health. Magic Baking Powder insures pure food. CANADIAN MADE. BRISTOL COMPANY LIMITED, TORONTO, CANADA.

do their part in establishing in their schools courses in "utilitarian" subjects. The Director of Vocational Training at Fredericton will supply facts on this.

A movement to Moncton would give the college many advantages, especially if the United Maritime University were to be established there with the support of the Carnegie Foundation. Moncton can strongly challenge Halifax's claims as a site. Mayor Edgely and the Moncton Board of Trade will gladly furnish anyone applying with interesting information in reference to this. On the other hand a move from Fredericton would entail many sacrifices, and if the proposed united university were established at Halifax it is doubtful if New Brunswick could profitably do away with her own institution in Fredericton. The reasons are not all sentimental. U. N. B. has, right at its door, a big piece of timberland that has proved of greatest value in practical forestry work. Fredericton is centrally a very pleasant place to live, and living comparatively cheap.

I must strongly take issue with Mr. Kelly's closing remarks. Indeed the good old college "should receive more money," but its present position as a "public school" have for centuries been severely classical and it cannot be denied that men thus educated have had a lot to do with the development of the British Empire. Coming nearer home, our lawyers need some cultural training, even if they do not require Greek. And the taxes of "the ordinary citizen" are by no means squandered on classical departments to the neglect of subjects of more utility. The faculties of engineering and applied science have far more students than that of Arts. Again professors of academic subjects are required for much of the work that an engineer must study.

Therefore when they are available it would be poor economy or "efficiency" to use them for theological courses if course it is proposed to "abolish."

NEW BRUNSWICK PICTURES POPULAR

Chief Game Warden Home from International Convention in Wisconsin.

Fredericton, Sept. 11.—L. A. Gagnon, Chief Game Warden of the Crown Land Department, who has been representing the province of New Brunswick at the International Convention of Game and Fish Commissioners at Madison, Wisconsin, has returned home.

The convention was attended by forty-three delegates eight of whom were from Canada including the President, Hon. Honore Mercier, Minister of Lands and Forests of the province of Quebec. The gathering was one of the most interesting of its kind, the greater portion of the conversation being devoted to discussions on migratory bird regulations. Movies of bird life taken in the Louisiana bird sanctuary were shown in this connection.

Movies of big game and sport along the Mississippi were shown in connection with a paper on the big game of this province which was read at the convention by Mr. Gagnon, which was highly appreciated. The pictures were some of those procured through Guide Harry Allen.

The new president of the association elected at the convention is William C. Adams, of Boston, State Commissioner of Game and Fish for Massachusetts. St. Louis was chosen as the next place of meeting. The only Canadian provinces represented at the convention were Quebec, Ontario and New Brunswick.

Mr. Gagnon has been away for a period of 9 days, having been incidentally held up for a few days owing to the railway strike conditions in the United States.

Strike A Light!

Every one of Eddy's Safety Matches does strike a light. There are no headless sticks or broken pieces in a box of Eddy's Safety Matches.

Nor is there any danger of the heads flying off or fizzling out before the wood ignites. Eddy's Safety Matches light when you strike them on the box and every box is a good box—all matches, safe matches. There is no dangerous after glow.

Say Eddy's and

1,800 SHOPMEN IN NEW BRUNSWICK

Will Quit Work If Strike Order
is Issued—Some At
Campbellton.

If the threatened strike of the railway shopmen's crafts in Canada takes place, approximately 1,800 men will be affected in New Brunswick, railway officials estimated today.

Of the 1,800 men in the shopmen's employ on railways in this province about 1,400 are engaged with the Canadian National Railways and mostly at Moncton; of the 300 shopmen employed in New Brunswick by the Canadian Pacific Railway between 200 and 250 are engaged in the shops at McAdam Junction.

Both C.P.R. and C.N.R. officials today expressed opinions that the shopmen of Canada would not carry out their strike threats in view of the failure of the strike in the United States, and predicted that even if a strike is called the operation of trains will not be affected.

BORN.

At Hotel Dixie Hospital on September 9th, to Mr. and Mrs. Thomas G. Adams, a son.

ARE WILLING TO MEET SHOPMEN

Have Notified Officials of Union
to That Effect—Conference
Likely Soon.

Montreal, Sept. 12.—Hon. James Murdock, minister of labor, was officially notified by the Canadian Railway Association that the companies were willing to open direct negotiations with the railway shopmen on as a result of an appeal by the minister asking that such negotiations be opened. The telegram sent tonight reads:

"In reply to your night letter of the 10th instant, I have been directed by the railways concerned to state that their acceptance of the majority report of the board of conciliation in shopmen's case was without reservation, and in accordance with recommendation contained therein, they are prepared to join in direct negotiations as to definite rates of pay promptly upon advice of the shopmen's representatives of their desire to do so, in compliance with your expressed wish, copy of this message is being mailed to secretary, division No. 4, Railway Employees' Department, American Federation of Labor."

Officials of the shopmen have expressed their readiness to re-open negotiations.

W.C.T.U. WORKER TO VANCOUVER

Mrs. David Hipwell Leaving
Province for the West Next
Month.

The announcement that Mrs. David Hipwell and her family would be moving to Vancouver next month to make their home was received with keen regret at the meeting of the W.C.T.U. yesterday afternoon and saddened the whole tenor of the proceedings. Mrs. Hipwell has been one of the most prominent workers for the temperance cause and in missionary endeavor in the city and her fellow workers in the W.C.T.U. have relied upon her judgment and received great inspiration from her devotion. Mr. and Mrs. Hipwell and their daughter, Miss Annie Hipwell expect to leave for Vancouver next month as Mr. Hipwell has been transferred to that section of the country as the agent of the Canada Life Insurance Company, which he has represented in this district for some years. A son and daughter are at present residing in British Columbia. Mr. Hipwell has been identified with many philanthropic, patriotic and benevolent interests in the city and province, was a tireless worker for the Protestant Orphanage and a leader in the Orange Order in the province. Miss Annie Hipwell has been prominent in the Girls' branch of the W. A. of St. John's Stone church and has done splendid work for the church, patriotic and welfare organization. Their departure from the city will be a great loss to the community and will be keenly regretted.

NOTE AND COMMENT

The seizure of British ships in Russian ports by the Bolsheviks has aroused the anger of the civilized world. There is no hope for Russia so long as Trotsky and Lenin are permitted to carry on their nefarious work.

"Western United States farmers who demand a sky high tariff on farm products object to duties on shoes and shingles," says the Toronto Globe. "It is a case of putting the boot on the wrong foot and the roof on the wrong barn."

The per capita expenditure of the Province of Quebec in 1921 was \$6.19 the smallest of any province of the Dominion. Prince Edward Island was second on the list with \$7.76 and New Brunswick third with \$8.69. In the other provinces the per capita expenditure was as follows: Nova Scotia, \$8.88; Ontario, \$9.71; Saskatchewan, \$16.84; Manitoba \$16.49; Alberta, \$22.28; British Columbia, \$29.05. The average for all the provinces was \$11.68.

BIG MOVEMENT OF LATHS TO THE U.S.

Demand for This Product is
Very Heavy and Many Are
Being Shipped.

St. John, N. B., Sept. 13.—There is a heavy demand at present in the eastern states for laths and several large consignments have been sent or are enroute there from New Brunswick at the present time. The steamer Manchester Port will arrive here today or tomorrow from Manchester to take a consignment of 11,000,000 laths to Philadelphia. The larger portion of this huge shipment is now stored in warehouses along Pettingill wharf and some of the bundles of laths are even piled between the warehouses, as storage space is completely taken up. These laths, which are shipped by several concerns, arrived at the wharf in scows, schooners, automobile trucks and even slovens.

The shipment of laths to the states is not confined to this section of the province but several large shipments have been sent from along the north shore. The demand in the United States is expected to continue heavy for some time and it is probable that further consignments will leave the province this fall.

PUBLISHERS MAY VISIT FREDERICTON

The Canadian Weekly News-
paper Association to Include
City in Itinerary.

A. R. Brennan of Summerside, P. E. I., publisher of the Summerside Journal and the P. E. Island Agriculturalist, and now president of the Canadian Weekly Newspaper Association, and E. Roy Sayles, manager of the association which comprises the publishers of five hundred and forty-four weekly newspapers in Canada. Were here yesterday and discussed with Mayor Reid and others the possibility of the Canadian Weekly Newspaper Association members visiting Fredericton next June.

The annual meeting of the organization is to be held in Halifax, N. S., next June, and between four and five hundred people are expected to be in the party which will make the trip to Halifax in special composite trains to be provided by the C.P.R. and C.N.R. The route is now being made up, and it is likely that Fredericton will be included in the western publishers' tour, especially anxious to have an opportunity of enjoying the scenic beauties of the St. John River Valley.

Mayor Reid told President Brennan and Manager Sayles that the city of Fredericton would be glad to co-operate in entering the publishers, and it is expected that the provincial Government will take part in their entertainment while in New Brunswick and that the formal welcome to the province will be a feature of a reception at the capital city. The form of entertainment will probably be similar to that provided for other parties from editorial and publishing associations in the past few years, but will depend largely upon the time of arrival here as provided in the itinerary and the length of the stay in Fredericton.—Fredericton Mail.

SALES AND STAMP TAXES YIELD WELL

The Officials Expect the Sales
Tax to Bring in \$90,000,000
for Year.

Ottawa, Sept. 13.—There have already been heavy returns from the increases in the sales and stamp taxes imposed by the Fielding budget of last session. Stamp tax returns are not easy to compute exactly, as inland revenue or postage stamps may be used.

For the fiscal year ending last March, the total sales tax revenue from the sales tax averaged about \$5,000,000 a month. Since the increased tax has been levied, the returns have averaged \$6,000,000 a month. The increase in revenue is about proportional to the percentage of increase in the tax. During the past three months the increase in returns has been unusually heavy, being over \$22,000,000 or over one-third of the total collections during the whole of last year. If it should continue at this rate for the remainder of the year, the total would be over \$90,000,000.

Inland revenue stamps on cheques, playing cards and matches brought the revenue of over \$2,250,000 last year. The tax on cheques was increased by the April budget, and the returns in the five months since that time have been \$1,617,229. The August receipts have been double those of July and four times those of April. The total for the year from stamp taxes should be about \$7,000,000.

MANY FIRES IN QUEBEC FORESTS

Continued Dry Spell Has Been
Bad For Spread of Forest
Fires.

Quebec, Sept. 12.—Considerable alarm is felt here by officials of the forestry branch of the Crown Lands Department owing to the recurrence of forest fires at many places. It is estimated that from Montreal eastward throughout the province there are at least 100 forest fires burning at present and only a heavy downpour of rain can now save the situation.

The fires are said to be raging chiefly in the St. Maurice, the Saguenay and the Rimouski districts.

OUTLOOK IS FAR FROM HOPEFUL

Railway Situation Still Far
From Settled Says Labor
Leader.

Montreal, Sept. 13.—The optimism expressed by the Minister of Labor last evening that direct negotiation between the railway companies and the railway shopmen in Canada would result in a complete understanding was not shared by J. A. McClelland, vice-president of the Association of Machinists. Mr. Murdock's optimism follows on the receipt of the telegram from the railway association were ready in accordance with the board of conciliation's recommendation to negotiate should the shopmen express a desire to do so.

"I would be very glad indeed if I could feel any of this optimism expressed by the minister," said Mr. McClelland, "in view of the fact that the shopmen have not accepted the award of the majority report of the board of conciliation which provides for the direct negotiations he refers to, and also inasmuch as some of the companies had posted notices in their shops in line with the majority report before the Minister of Labor had even seen a copy of it."

"In fact," declared Mr. McClelland, "my information is that those notices were posted before it had been finally decided that there would even be a majority and minority report. The notices were posted up in these cases in conformity with what the report would be before the report had reached the Minister of Labor."

"In view of this," he reiterated, "I cannot enter into Mr. Murdock's optimism. It was noted at the shopmen's headquarters to-day that the intimation of the Minister of Labor of the railway companies' readiness to join in direct negotiations with the shopmen was based upon and consequently upon the complete acceptance of the majority report which was summarily rejected by the shopmen. This intimation, a copy of which reached the men late this morning, will be replied to in due course by the men."

MEETING OF MARITIME SYNOD

Annual Meeting Being Held
at Halifax This Week—
Officers Elected.

Halifax, Sept. 12.—The annual meeting of the maritime branch of the Presbyterian synod of Canada assembled here today with thirty-five delegates attending. The most important work of the day was the election of officers, resulting as follows: President, Rev. Robert Johnston, Halifax; vice-president, Colonel John Stewart, C.B.E., Halifax; Dr. Murray McLaren, C.N.G., M.P., St. John (N. B.); and Hon. John Agnew, Charlottetown (P. E. I.); secretary, J. H. Cavanaugh, New Glasgow; treasurer, John McKee, Halifax; executive, Rev. Frank Baird, Bedford; Colonel Thomas Cantley, New Glasgow; Rev. Dr. Scott McKenzie, and M. Cumming, Truro; Ronald McVicar, Sydney; G. B. Clark, Tatamagouche; George McElae, Baddeck; G. McG. Mitchell, Halifax; Hon. R. M. MacGregor, New Glasgow; William Duff, Lunenburg; Rev. G. C. Taylor, Charlottetown; Rev. R. H. Staver, Hunter River (P. E. I.); Col. T. G. Loggie, Fredericton; Rev. William Orr Mulligan, Charlottetown.

Rev. Mr. King, Matapedia, Rev. Mr. King, Esquimaux, Rev. Mr. McCurdy, New Carlisle, Rev. Mr. McKay, New Richmond, Messrs. A. G. Adams, of Campbellton and Floriole of Kempt Road are delegates from this district.

Ambiguous.

Two delegates from the district of many beautiful paintings, and the president of the little college was called upon to respond to a toast. Desiring to pay a compliment to the ladies present, he designated the paintings with an eloquent gesture and said:

"What need is there of those painted beauties when we have so many with us at the table?"

Newin wish through the Graphic to
thank the many friends for expres-
sions of sympathy during their recent
bereavement.

ARE NOW ON A

VISIT TO FRANCE

Sir George and Lady Foster are at
present the guests of the Countess
deCaillieres at her chateau near Fon-
tainbleau, France. Recently they were
in Berlin with the British Ambassador
and have also been at Budapest as the
guests of the Hungarian Government.
They spent a short time also at Pra-

gue as the guest of President Benes
of Czechoslovakia. In Vienna, Sir
George attended the Interparliamen-
tary Union Conference.

DEATH OF CHINESE CHILD.

Mr. and Mrs. Fong Since, prop-
rietary of the Canada Cafe have the
sympathy of all in the death of their
seven and a half months old son,
Wing Sam, which sad event occurred
Tuesday morning at 11.30. The fun-
eral of the little one was held Wednes-
day afternoon at 2.30, interment being
made in the Rural cemetery, Rev. H.
Miller conducted the services at the
house and grave.

PRESENTATION TO

MRS. H. MILLER
On Monday evening last at the reg-
ular monthly meeting of the Young
People's Missionary Society, Mrs.
Miller, president of the organization
was presented by the members with a
beautiful string of pearls as a token
of appreciation of her estimable ser-
vices in directing the work of the
branch. The presentation was made
by Miss Gertrude Adams whose re-
marks in verse were very appropriate.
Mrs. Miller returned her thanks in a
fitting response.

POLICE COURT.

The police have as a guest this
week a man named Doucette who, it
is alleged, attempted to beat up a
pair of youngsters the other day for
no particular reason, except that he
chose this means of giving vent to a
rather violent fit of wrath. After be-
ing taken into custody he was sub-
jected to a medical examination and
was pronounced a mental defective
and not fit to be at large. His re-
latives object to his removal to an
asylum, but the authorities may see
fit to push the case.

NEW PULP COMPANY.

Although the price of pulpwood
gives no evidence of returning to its
former level that industry is, how-
ever, growing to considerable pro-
portions in this part of the country.
A new firm, that of R. H. Reid of
Twin Mountains, New Hampshire, is
now making negotiations to carry on
a pulp business on both sides of the
Bay Chaleur. Mr. T. W. Way, local
manager of the new business, is here
at present completing arrangements.
Campbellton being a central and con-
venient point will likely serve as head-
quarters.

MOTHER STILL LIVING.

Mrs. Adelaide Fournier who was re-
ported dead as a result of injuries re-
ceived in the recent accident at Pad-
one Station, Quebec, is still alive and
although in a very critical condition,
hopes are maintained for her recovery.
When the Maritime Express struck
the wagon in which Mrs. Fournier,
her husband and little boy were rid-
ing on Monday the 4th inst, Mrs.
Fournier sustained severe internal in-
juries and a fractured hip bone and,
although rendered unconscious for
several days survive. The experience.
She was removed to the Hotel Dieu
hospital on Friday morning last. She
is about thirty-five years of age and
is the mother of five small children
besides her little son who is also con-
fined to the hospital with a broken
leg received in the accident. The
boy is reported as improving favor-
ably.

OF INTEREST TO COOKS.

In future when buying peas ask for
the variety that are "cleft in twain"
and avoid the possibility of spoiling
the soup. Mars may not be inhab-
ited, but some vegetables are.

A few days ago a local gentleman
purchased a few pounds of peas and
upon noticing a shady spot on one
side of one of the little spheres he
opened it with a pen knife. His in-
vestigation proved interesting for a
little black bug jumped out. The in-
sect was also equipped with wings
which he immediately put to use and
hid away to another part of the
building. Upon further examining
the peas, their owner discovered that
about two thirds of them were in-
habited. Under a magnifying glass
the little insects proved an interesting
study as the glass showed them to be
formidable looking little creatures.

SILVER STRIKE IN

NORTHERN ONTARIO

MAY RIVAL COBALT

A strike of silver has been made at
Red Lake, just over the Manitoba
boundary in New Ontario, which
promises to be second only in im-
portance to Cobalt. Indications are
that the field is even bigger than Cob-
alt and the samples, although they do
not assay quite so much as did the
first brought out from Cobalt, run
from 500 to 1,500 ounces in silver per
ton, and, in the opinion of W. G.
Trethewey, the well known engineer,
the best veins are yet to be discovered.
"Already the news of the find has
leaked out and many prospectors are
heading from Winnipeg, Cobalt and
other centres from Grand Trunk
points just over the boundary up the
English River and the Hudson to
stake claims.

SPORTING NEWS OF THE WEEK

A QUIET WEEK

Although the baseball season here is not quite over, a decided lull has settled over local sport circles after the excitement of the Labor Day events for nothing of note has happened since the victorious double-header with Montreal on Monday the 4th.

Speaking of the holiday it might be in order to say that the day was a modest one for the baseball club, financially as well as otherwise, and the players have repeatedly expressed their thanks to all those who contributed to its success.

There are however, at least two more games to be played before the local league series is completed and the final standing of the teams ascertained.

The C. F. D. must meet the Colts in a postponed game and later play a tie-game with the rail nine who are now holding the coveted position. The dates for these contests have not been definitely set, but it is expected that they will come off within the next week or so.

HOCKEY.

Apparently Amherst is out for independent hockey this winter, according to the Amherst News which under recent date has the following:

"With Brownell, MacLellan, Chisholm, Allie MacKinnon, Walsh, Forbes, Bent, Chapman, and a number of other amateurs playing independent ball this summer, the Independents will have considerable new material to draw upon. Fred Chapman, Hec Crimley, Stanton Jackson, Lester Lowther, Will Chisholm, Les Bickerton, and Irvine Bickerton will be out with the team. Actually the outfit should be stronger than last year.

MILITOWN WINS

FROM ST. STEPHEN
St. Stephen, Sept. 10.—St. Stephen and Milltown played an exhibition game on the latter's diamond on Saturday which resulted in a victory for Milltown by a score of 7 to 4.

Clark, a local pitcher in the Industrial League, was used for five innings when Milltown obtained seven runs and nine hits, after which Shields was put in and pitched a no run, no hit game for the last four innings. Hall's

batting was a feature, as out of four times at bat he obtained three three-base hits. Vanstone batted a home run. Dolan also hit well for Milltown. Policy pitched a good game, allowing only seven hits. The following is the summary and score by innings:

Milltown 23100000—7
St. Stephen 01000000—4
Two-base hits—Dolan, Policy.
Three-base hits—Hall, S. McKay, Home run—Vanstone.
Stolen bases—Libby, McIntosh.
Sacrifice hits—Truck and McIntosh.
Base on balls—Off Policy 1.
Struck out—By Policy 8, by Clark 5, by Shields 6.
Hits—Off Clark 9 in 5 innings.
Hit by pitched ball—By Clark 1.
Umpire—Carver.

Neponset Beat St. Peter's.

St. John, N. B., Sept. 11.—The St. Peter's again went down in defeat before Neponset's All-Stars on Saturday afternoon, this time to the tune of 3 to 2, after a hotly contested battle. Ray Hansen, who was on the mound for the locals, was not as effective as usual. Melanson pitched for Neponset.

Three Rivers Won Title.

Three Rivers, Que., Sept. 11.—By taking two straight games from Cap De Madeleine on Sunday the Three Rivers team won the Eastern Canadian Baseball League title. Ottawa finished second.

Yarmouth Wins.

Yarmouth, N. S., Sept. 10.—Yarmouth defeated Middleton 12 to 1 in the semi-final play for the Nova Scotia baseball championship here yesterday. Their victory gave the Yarmouth team two games out of the three game series and the right to play off with Springhill for the Championship.

U. S. TENNIS TITLE

Philadelphia, Sept. 11.—Tilden, Wood, Washburn, Snidman, Anderson and R. Norris Williams leading contenders for the United States singles

tennis title won their matches on Saturday.

NEW MARITIME

ATHLETIC RECORDS
Halifax, N. S., Sept. 12.—Maritime records in the pole vault and hammer throw were made at yesterday's maritime provinces track and field meet held on the Wanderers' Amateur Athletic Club's grounds here. W. Halpenny, Abegweit, Charlottetown, shattered the former vault mark of 11 feet 4 inch when he cleared the bar at 11 feet 4 1/2 inches, and Stephen Kennedy, Halifax Wanderers, threw the hammer 136 feet 5 inches, breaking the old mark of 133 feet 4 inches. The Abegweits, Charlottetown, led in club puts with 36, Crescenta, of Halifax, had 34 points and Wanderers, Halifax, 14 points. Fredericton was fourth with 8 points; Commercial Club, St. John, sixth with 7 points; Moncton A. A. A. seventh with 6 points; Sussex Athletic Association was ninth with 5 points; Rothesay, N. B., was twelfth with 3 points.

CHRISTY MATHEWSON

RECOVERING
Factoryville, Pa., Sept. 10.—While visiting at the home of his parents here recently, Christy Mathewson, whose mighty right arm turned back team after team in the National League, and who is slowly recovering from a lung affection, lived his boyhood days all over again.

Factoryville, where "Big Six" was born, is a rural village nestling between green hills and surrounded by farms and fields of wild flowers. During his visit "Matty" recalled the days of his youth and took delight in roaming the hills and fields with men who, as boys, were his playmates. The once famous pitcher is a lover of wild flowers and while here added 35 varieties to his already large collection. When moving picture men came to Factoryville to "get" Christy, they found him in a field with a diergman gathering flowers.

20,000 FANS WITNESS

CHARITY GAME
Boston, Mass., Sept. 12.—Twenty thousand fans saw an All-Star Ameri-

can League team of old timers defeat a similar team recruited from old National League stars, 28 to 7 at Braves Field yesterday afternoon. The game was sponsored by the Boston Post and the net receipts are to go to the Children's Hospital.

Jimmy Collins, one time brilliant third baseman for the Red Sox, was captain of the American League team, and Fred Tenney, Boston National first sealer of fifteen years back, was director of the other team.

Cy Young pitched the first two innings for the Collins team against Charley "Kid" Nicholas, and honors were with Young. The play and the hitting of Freddy Parent, shortstop for the winners, was a feature, as was the infelding of Captain Collins, Bill Bradley and Larry LaJolie.

Comedy was supplied by Nick Altrock, who played first base and pitched.

BABE RUTH GETS

NEW YORK, Sept. 12.—With Babe Ruth hitting two homers and two doubles yesterday, the Yankees had no difficulty in defeating the Athletics 9 to 4, the Babe's clouts accounting for six of the tallies. St. Louis maintained its position one and one-half games in the rear of the Yankees by winning from Detroit, 5 to 4.

The Giants increased their lead over the Pirates by defeating them 12 to 3 at Pittsburgh to five and one-half games by taking a double header yesterday from Boston. The score in each game was 7 to 6. These were the only contests in the National League. Washington defeated Boston 12 to 3 in the only other major league contest.

Ruth's two homers brought his total for the season to 31, just one behind Ken Williams, the 1922 leader for home run honors.

CANADA'S DEBT DECREASES

ARE VERY GRATIFYING
Ottawa, Sept. 11.—A further decrease in the net debt of Canada amounting to almost \$5,000,000, is shown in the statement for August issued today by the financial department. The net debt on Aug. 31 was \$2,387,676,295, as compared with \$2,392,542,228 at the end of July, a decrease of \$4,866,932 during the month. The debt on Aug. 31, this year, was approximately \$43,000,000 greater than on the same date a year ago, when it amounted to \$2,344,949,055.

GRAY IS GAINING

FAVOR FOR FALL

By ELOISE.
Gray, although rather trying to many complexions, is gaining favor for fall wear. It will not be the leading color, by any means, nor will it be strong late in the season, but for the last summer days and the first fall ones gray will be very smart. Hats are appearing in all shades of gray in both velvet, and duvety and they are trimmed with silver ribbons and ornaments. Gray hose are also smart and naturally the gray frock will be popular with those who can wear it.

Here is a pretty gray dress made of silk crepe. It features the long skirt and long waisted blouse. Panels of velvet or plush, tops of the same material form the only trimming. These are placed on the front and sides of the skirt and over the shoulders forming an odd sleeve line. A large buckle effect is made of silver thread embroidery at the front of the belt. It is a smart finishing touch.

THE ROY CASE.

So far as can be learned nothing of importance has emanated from the recent investigation in the mysterious shooting of Joseph Roy. Whether or not the witnesses who gave evidence at the two sessions of the investigation here were withholding any important information cannot be said. At least we do not wish to be the author of such a statement—at present. Nevertheless the fact remains that an obvious restraint and a certain guarded reticence characterized some of the answers at the recent inquest. It appeared to us that a few of these questioned were afraid of telling more than they were supposed to know.

In addition to this we have heard on the street various stories about the tragedy which seemed to point to a possible solution of the mystery. Strange to say, none of the witnesses heard any of these rumors. To our knowledge rumor has always been circulated more or less indiscriminately. Apparently the rule does not apply in this case. It therefore looks as though in the fact alone there is a due which might be worth following up. It is time something was being done for with evidence such as been established by the recent investigation.

there is little reason why this case should be listed with the unsolved mysteries.

THE LUMBER BUSINESS.

Perhaps at no time in recent years has there been as much uncertainty as at the present time in regard to the prospect of early price movements. It is true that there has been some movement of local stocks during the present season, and the beneficial effects of last winter's restricted production in the woods are so much to the good. In view of the universal housing shortage and of the return of building operations of a moderate scale, some of those who have been consistent pessimists for some years past are now inclined to believe that bottom prices have been reached and passed. It is felt however that there must be an adjustment of international financial relations before many of the great projects both in the United States and in England, which have been held up by the European situation, are likely to be undertaken. Consideration in Canada is also due to the fact that there is still, it is estimated, 65,000,000 feet of old lumber, the property of the Imperial government, lying in the yards of the Maritime provinces. This is the big fly in the ointment. Not knowing when or how the Imperial Government may dump this stock on the market, British dealers are loath to give big orders, preferring to play safe by working on a hand to mouth basis. Wages in many cases, have also reached rock bottom; in fact, some operators say they are too low. But many firms having incurred heavy losses, the prospects of any material advances in wages during the coming winter are not bright. The operators will want to recoup their losses before making material additions to labor costs.—Quebec Telegraph.

NOTE AND COMMENT.

The sixth death attributed to wood alcohol poisoning in one section of Brooklyn was reported a few days ago. The ranks of these who do not believe in prohibition are being steadily reduced although devotion to "Bootleg" whiskey is not a very lofty principle for which to die. They don't make the supreme sacrifice in Belliguerie but many of its defenders are "on duty" half the night. —Yes—to say nothing of a few of the temperance cranks.

HORSES FOR SALE.

A choice lot of good western horses are for sale at W. H. Miller's barn, suitable for lumbering or farm work. Anyone needing any, will do well to see horses in the next few days.

C. J. WALLIS.

Every time Babe Ruth swings his club he puts all he has behind it. Babe is worth while as a business example.

In Germany the number of unemployed persons who are receiving relief is slightly less than twenty thousand, a level that was seldom attained even in the prosperous days before the war.

Standing on your dignity is like walking on a tight rope; impressive if you can do it well—ridiculous if you can't.

EDITOR'S MAIL

Campbellton, N. B., Sept. 11th, 1922

Editor Graphic,
Campbellton, N. B.
Dear Sir:

Is there any way of keeping our sidewalks from being congested by loiterers, who stand and hold conversations whilst the passer-by has to see these gatherings in front of the Post Office at mail time and hear remarks passed of those who go by in every common. I would suggest that some one start a school and give instructions on the subject of "When and where to stand."

Thanking you Mr. Editor for space.

CITIZEN.

Destroyer Smoke Screens Fail to Deceive Planes in War Game

When Uncle Sam's destroyers set out to lay down a smoke screen they usually fill about 99 per cent of the surrounding space with a dense, black smoke. Then they can't be observed from other ships. But they can't throw the aviators off the track as easily. The pilots, flying high, keep just ahead of the leading destroyer and are able to observe everything that goes on. In the recent maneuvers off the Pacific off San Diego the pilots co-operated with the destroyers in their little war game. At that Uncle Sam might call the smoke screen stuff while the coal strike continues. It is a lot of coal to make all that smoke.

air sea. destroyers in war game in Pacific off Diego.

Montreal Board of Trade Perpetuates Maisonneuve

There is a fitting monument in Montreal to Maisonneuve, founder of Canada's Metropolis. As in his life time, his memory is kept alive in the city of the West. The sculptor has caught the spirit of the great explorer in the pose of the body and the head.

Vision, courage, determination are plain in the observant eyes and understanding mind. Maisonneuve and the host of gallant men and noble women who laid the foundation of Canada of today, long ago embarked upon the greatest and last quest. But their faith in the new land is a living faith in the hearts of their successors. They are their country's fathers by geography and nature, a link between East and West, and extending almost 4,000 miles from ocean to ocean. They know that it is endowed with a richness of natural resources beyond the power of man to calculate. Above all they are in its attainment to a place and a voice in the councils of the nations.

Retrospect is often pleasant. The true Canadian has little time for that. His heart and mind are on the present and the future. He knows that if his country is to come to full fruition as a nation it must be by still worthy efforts on the part of its people individually and collectively. No single province within the Dominion's far-flung boundaries can afford to disregard another. Each must be in sympathy with all the rest. The East must share in the problems as well as in the joys and prosperity of the West. The West must have faith in the East. Bound by an invisible but unbreakable chain of mutual affection and goodwill they can and will put and keep Canada in the very vanguard of the world's great nations.

The development of the national spirit has been fostered as many an hour of peril, difficulty, and struggle. It is beginning to bloom in beauty and strength. Its progress has been greatly advanced of late years by the action of important organizations in sending delegations to many sections of the country, so that their members may add to their first-hand knowledge of their home land. Such an organization is the Montreal Board of Trade which will celebrate the one hundredth anniversary of its founding by beginning on September 1, a thirty days' tour of the Dominion. The members will not only see the country in all the glory of its most beautiful scenic settings, but the journey will be so arranged as to give them a new perspective of its wealth of soil, forests, mines and waters, and impressions of its industrial and commercial growth that would be impossible of visualizing in any other way.

From Montreal the party will travel westward via Toronto and the Great Lakes; thence from Port Arthur to Winnipeg, the greatest primary grain centre on the continent, across the vast prairie lands and through the Rockies to Vancouver and Victoria.

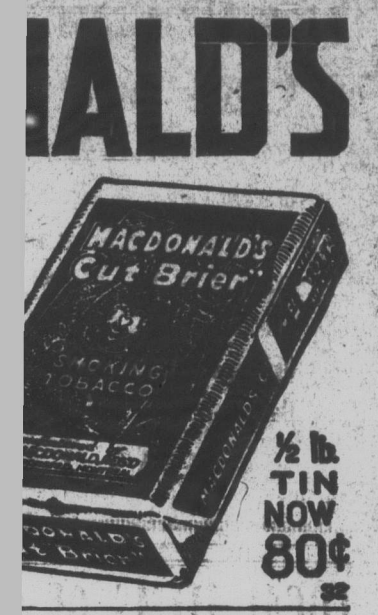

On the return journey they will make the 550-mile cruise up the north Pacific Coast from Vancouver to Prince Rupert, on one of the palatial Canadian National Railway steamers. This part of the journey will give the party a splendid idea of the development in the mining, lumbering and pulp and paper industries of British Columbia, with all their future possibilities. At Prince Rupert, Canada's most northerly Pacific port, leaves out of the solid rock of

Kain Island, there will be every opportunity to gain an insight into the enormity of the halibut and salmon industry of the province. From Prince Rupert the party will become acquainted with the Skeena River, with its historic and romantic traditions, its arresting grandeur, and its fame for the most prolific salmon streams in the world. They will see too, some of the Bulkley and Nechako River Valley country, one of the most fertile fields of settlement in the west. Unknown to the vast majority of Canadians, the luxurious valleys that lay between the mountain ranges in this area are suitable for farming, dairying, fruit growing and cattle raising. In the years to come their productivity, now a matter of knowledge to comparatively few, will offer means of livelihood and competence to thousands of new people.

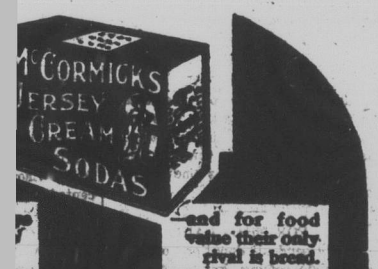

Shortly after leaving Prince George, the party will pass through Mount Robson Park. This is a veritable wonderland of mountain scenery, some 650 square miles in extent and set aside by the government of British Columbia as a national playground and wild life sanctuary. Here will be obtained an excellent view of Mount Robson, with an altitude of 13,068 feet. It towers above the surrounding peaks, sublime, majestic, with green glistening glaciers and pure white snow adding to its beauty. Sometimes its ever summit is lost amid the mists and clouds; quite often that summit is the centre of raging storms. But on Mount Robson they best in vain.

Next Jasper Park, another mountain kingdom, but of greater extent, embracing 4,000 square miles of sublime mountain scenery, is entered. Here the party will spend a day at Jasper Lodge, the new Alpine chalet built on the shore of Lac Beauvert by Canadian National Railway, and the first of a series to be built throughout these Northern Canadian Rockies. At night they will leave for Edmonton.

From Edmonton the homeward route will be through the rich farm lands of the northern part of the prairie provinces to Winnipeg following the trans-continental line of Canadian National Railway through the rich pulp forests and new farm lands of Northern Ontario to Godfray, down through the famous Cobalt mining districts over the Temiskaming and Northern Ontario Railway to North Bay, thence to Ottawa, and back to Montreal.

SOMETHING NEW

THE MORTGAGE REDEMPTION POLICY is something
decidedly new in Life Insurance contracts. Besides having
all the benefits of the ordinary policy, it has several new
features.

One of these is that the premium decreases automatically
while the mortgage is being paid off.

CHAPTER I—John Stuart Webster, a young engineer, after cleaning up a
mess in Utah Valley, Calif., took
train for the East. He befriended a
youth named Neddy Jerome, there-
by treading the "past."

CHAPTER II.

Webster's dreams of bliss had, a
very slight variations, come true
per schedule. In Salt Lake City
abandoned the breakfast on his d-
aged eye for two businesslike look-
which quickly reduced the nocte
effect around his orb, enabling
the third day, to snivel forth an
his fellowmen. By the end of
week he was a being reincarnated,
so he packed a huge new war-
trunk with his latest purchases.
Journeyed on to Denver. Coinc-
with his arrival there, we again
up the thread of our story.

One hour after his trunk arrived
gentleman from Death Valley in
have been observed standing be-
a cheval glass looking long
earnestly at the reflection of his
die-aged person, the while he ma-
the fit of his new raiment.
Stuart Webster was all dressed up
the first time in three long, labor-
den years, and was tremendously
of it. He lighted a cigar and set
forth into Seventeenth street, a
which he strolled until he came
certain building into the eleventh
which he entered and was whisked
the twelfth floor, where he alig-
and found himself before a wide p-
which bore in gold letters the w-
"Engineers' Club."

The Engineers' club was the el-
approach to a home that John S-
Webster had known for twenty y-
and save for the slight job of
seemingly which Father Time had
on the edges of the close-cropped
sterian mustache, the returned p-
gal might have stepped out of the
but yesterday. He would not
taken the short end of a modes-
that even a fresh log had been p-
on the fire or that the criminal-
over against the wall had won a
a drink or two and then resumed
ing—although perchance there w-
few more gray hairs in the b-
thatched head of old Neddy Jer-
sitting in his favorite seat by
window and turning the cards i-
eternal game of solitaire, in h-
ignorance that John Stuart We-
stood within the portals of home
awaited the fatted calf.

Webster struck the upholstery
adjacent chair a terrific blow w-
stick—the effect of which was to
everybody in the room to start
to conceal Mr. Webster momen-
in a cloud of dust, the while in
loving harpings he sang:

"His father was a hard-rock in
He comes from my home town
"Jack Webster! The devil's
kin!" shouted Neddy Jerome
swept the cards into a heap and
died across the room to meet
latest assailant of the peace an-
nity of the Engineers' club. "Ye
worthless, ornery, ne-good son
I heard! I've never been so glad
a man that didn't owe me money
been coming the whole of
world for you, for a month, as
Where the devil have you been
John Stuart Webster becom-
ply upon his friend. "Well, I
you old stocking-knitter," he i-
quintessentially, "since that is the ca-
not surprised at your failure t-
me. You've known me long e-
to have remembered to confide
search to the unutilized reach-
"Well, you're here, at any ra-
I'm happy. Now you settle dow-
"Hardly, Neddy," "Tis you
you know—only forty. Still a r-
man and not quite ready to deg-
into a card-playing, eat-drink-
merry, die-of-dissipation, sink-too-
and go-to-h—fireplace spirit
he prodded Jerome in the sho-
with a tentative thumb that
the old man, to wince. He po-
his friend to drag him downst-
the deserted lounge, where
paused in the middle of the re-
renewed his query:

"Where have you been, I ask
"Out in Death valley, Californ-
ing to pry loose a fortune."
"Did you pry it?"
John Stuart Webster arched
brows in mock reproach. "A
can see my new suit, Neddy,
teen-dollar, made-to-order sho-
my lorry looks encased in silk
—and ask that question?
shaved and trimmed and almost
to sit down and get wrinkles
trousers! Small that?" He
cloud of cigar smoke into J-
smiling face. The latter said
smells expensive," he replied.
"Yes, and you can bet it is
pensive, too," Webster an-
sounding his cigar-case to his
spot decisively. "How much is
made?" he demanded bluntly.
"It's none of your business,
self you because I love you. No
made one hundred thousand -
"Chicken-feed," Jerome
"Johnny, I've been coming i-
real belt of North and South
for you for a month."
"Why this modest belated
a net?"

"I have a fine job for you,
"King's X" Webster in-
tended to say.

WEBSTER -MAN'S MAN

Peter B. Kyme
Author of "Cappy
Ricks," "The Valley
of the Giants," Etc.

CHAPTER II.
Webster's dream of bliss had, with very slight variations, come true as per schedule. In Salt Lake City he abandoned the breakfast on his damaged eye for two businesslike leeches, which quickly reduced the nocturnal effect around his orb, enabling him, the third day, to saunter forth among his fellowmen. By the end of the week he was a belated, latecomer, and so he packed a huge new wardrobe-trunk with his latest purchases and journeyed on to Denver. Coincidentally with his arrival there, we again take up the thread of our story.

One hour after his trunk arrived the gentleman from Death Valley, who had been observed standing before a cheval glass looking long and earnestly at the reflection of his mid-aged person, the while he marked the fit of his new raincoat. John Stuart Webster was all dressed up for the first time in three long, laborious years, and was tremendously glad of it. He lighted a cigar and stepped forth into Seventeenth street, along which he strolled until he came to a certain building into the elevator of which he entered and was whisked to the twelfth floor, where he alighted and found himself before a wide portal which bore in gold letters the words: "Engineers' Club."

The Engineers' club was the closest approach to a home that John Stuart Webster had known since his youth, and save for the slight joy of halsomizing which Father Time had done on the edges of the close-cropped Websterian moustache, the returned prodigal might have stepped out of the club but yesterday. He would not have taken the short end of a modest bed that even a fresh log had been placed on the fire or that the domino-players ever against the wall had won or lost a drink or two and then resumed playing—although perchance there were a few more gray hairs in the thickly thatched head of old Neddy Jerome, sitting in his favorite seat by the window and turning the cards in his eternal game of solitaire, in his ignorance that John Stuart Webster stood within the portals of home and adorned the faded calf.

Webster struck the upholstery of an adjacent chair a terrific blow with his stick—the effect of which was to cause everybody in the room to start up to conceal Mr. Webster momentarily in a cloud of dust, the while in a belatedly bawled bang:

"This father was a hard-rock miner. He comes from my home town—"
"Jack Webster! The devil's own kin!" shouted Neddy Jerome. He swept the cards into a heap and rushed across the room to meet this latest assailant of the peace and dignity of the Engineers' club. "You old, worthless, ornery, ne-groed son of a liard! I've never been so glad to see a man that didn't owe me money. I've been coming the whole civilized world for you, for a month, at least. Where the devil have you been?"

John Stuart Webster beamed happily upon his friend. "Well, Neddy, old stocking-knitter," he replied quizzically, "since that is the case, I'm not surprised at your failure to find me. You've known me long enough to have remembered to confine your search to the uncivilized reaches."

"Well, you're here, at any rate and I'm happy. Now you settle down."
"Hardly, Neddy," the young yet, you know—only forty. Still a real live man and not quite ready to degenerate into a card-playing, eat-drink-and-be-berried, dis-oluntation, sink-to-oblivion and go-to-bed—replace spirit!" And he greeted Jerome in the short ribs with a tentative thumb that caused the old man to wince. He permitted his friend to drag him downstairs to the deserted lounge, where Jerome paused in the middle of the room and renewed his query:

"Where have you been, I ask?"
"Out in Death valley, California, trying to pry loose a fortune."
"Did you pry it?"
John Stuart Webster arched his eyebrows in mock reproach. "And you can see my new suit, Neddy, my sixteen-dollar, modest, white ones and my herry boots encased in silken hose—and ask that question? Freshly shaved and tanned and almost afraid to sit down and get wrinkles in my trousers! Smell that!" He blew a cloud of cigar smoke into Jerome's smiling face. The latter smiled. "It smells expensive," he replied.

"Yes, and you can bet it tastes expensive, too," Webster answered, handing his cigar-case to his friend. "I have a fine job for you, John—"
"King's X," Webster interrupted.

"Give it your own way. Nevertheless, it's a little my-ty-did. I've last new of you two, you had testified against him in the high-grade trials at Cripple Creek, and he had pulled out under a cloud, even after his acquittal."
"Give a dog a bad name, and it will stick to him," Webster retorted. "Of course I testified against him. As engineer for the Mine Owners' association, I had to. The high-grade ore was found in his assay office, and the circumstantial evidence was complete, and I admit Billy was acquitted merely because I and others could not swear positively that the ore came from any certain mine. It was the same old story, Neddy. You can be morally certain that high-grade ore has been stolen from my mine, but unless you catch the ore thief in the act, how can you prove it? I suppose you read the newspaper reports and believed them, just as everybody else does."

"Well, forget it, Jack. It's all over long ago, and forgotten."
"It wasn't all over so long ago as you seem to think. I suppose you knew the Holman gang was after—"
"I sent you the penitentiary for those same high-grade operations! Billy Geary's acquittal didn't and my interest in the case—not by a jugful! I fought the case against the friends of the Holman crew among the mine owners themselves; and it cost me my good job, my prestige as a mining engineer, and thirty thousand dollars of money that I'd saved to get together. Of course you never knew this, Neddy, and for that matter, neither does Geary. I wish he did. We were good friends once. I certainly was mighty fond of that boy."

He drew the letter from the envelope and slowly opened it.
"And you never heard what became of Geary?"

"Not a word. I was too busy wondering what was to become of me. I couldn't find a job anywhere in Colorado, and I moved to Nevada. I made a million in Goldfield, dropped it in the panic of 1907, and had to start again."

"What have you been doing lately?"
"Borax. Staked a group of claims down in Death valley. Billy groused, Neddy, and I was busted when I located them. Had to borrow money to pay the filing fees and the incorporation, and did my own assessment work. Look!" Webster held up his hands, still somewhat grimy and calloused. "The Borax trust knew I was busted, but they never could quite get over the fear that I'd dig up some backing and give them a run—so they bought me out."

"Somebody told me Geary had gone to Rhodesia," Jerome continued, much to Webster's surprise. "I know he was somewhere in South Africa."
"He left the Creek immediately after the conclusion of his trial. Poor boy! That dirty business destroyed the lad and made a tramp of him. I guess, I tell you, Neddy, no two men ever lived who came nearer to loving each other than Billy Geary and his old Jackardner. We worked the same mine and went to sleep together hungry many a time during our five-year partnership. Why, Billy, I'll be damned if I ever struck him. I'd look I took that boy out from underdog and put him in the assay office to learn his business. How could I know that the Holman gang had cashed the stuff in his shack?"

"Well, it's too bad," Jerome answered sadly. "He was quite willing that the subject of conversation should be changed to the play safe. I do not know whether you have, or can raise, sixty cents, but at any rate I am going to put the buck up to you and you can take a look."

"This is a pretty fair country, Jack—if you survive long enough to get rid of it. At first you think it's a hell-hole; then you grow to hate it and know it for hell with the lid off; and finally all your early love for it returns and you become what I am now—a tropical tramp! There is only one social stratum lower than mine, and that's the tropical beachcomber. I am not that yet—and will not be if my landlady will continue to listen to my blatherings." She is a sweet soul, with a divine disposition, and I am duly grateful.

"I would tell you all about the geography, topography, flora and fauna of Sobrante, but you can ascertain that in detail by consulting any standard encyclopedia. Governmentally it's the sweetest without I ever struck, and we stand the finest show in the world of starving to death if we tackle without sufficient capital to go through. It will take at least thirty thousand dollars, and we ought to be charged to go to play safe. I do not know whether you have, or can raise, sixty cents, but at any rate I am going to put the buck up to you and you can take a look."

"This is a pretty fair country, Jack—if you survive long enough to get rid of it. At first you think it's a hell-hole; then you grow to hate it and know it for hell with the lid off; and finally all your early love for it returns and you become what I am now—a tropical tramp! There is only one social stratum lower than mine, and that's the tropical beachcomber. I am not that yet—and will not be if my landlady will continue to listen to my blatherings." She is a sweet soul, with a divine disposition, and I am duly grateful.

"William H. Geary, Calle de Concordia, No. 19, Buenaventura, Sobrante, C. A."
"Salute, you young jackass! Just received your letter. Cabling thought for emergency roll first thing tomorrow. Will order machinery. Leaving for New Orleans tomorrow night, to arrive Buenaventura first steamer. Your letter caught me with a hundred thousand. We cut it two ways and take our chances. Keep a light in the window for your old."

"That's a windy cablegram, Neddy. Jerome remarked as the servant bore it away. "Why all this garrulity? A cablegram anywhere generally costs at least a dollar a word."
"That's my delight of a shiny sight, in the season of the year," quipped John Stuart Webster, "and needs cheering up!"

discovery of your old pal, I'll tell you what I'll do. I'll O. K. your voucher for the expense of bringing young Geary back to the U. S. A., and when we get him here, it will be up to you to find a snug berth for him with Colorado Consolidated."

"Neddy," said John Stuart Webster, "my haidion, I love thee. You're a thoughtful, kindly old stick-in-the-mud—"

"No it's not but's. I'm your boss," Jerome interrupted, and, waddled away to telephone the head waiter at his favorite restaurant to reserve a table for two.

Mr. Webster sighed. He disliked exceedingly to disappoint old Neddy, but— He shrank from seeming to think of himself by declining a twenty-five-thousand-dollar-a-year job with the biggest mining company in Colorado, but—

"Rotten luck," he soliloquized, "it runs that way for a while, and then it changes, and gets worse." When Jerome returned to his seat, the serious look in Webster's hitherto laughing eyes challenged his immediate attention.

"Neddy," said John Stuart Webster, "do you remember my crossing my fingers and saying 'God X' when you came at me with that proposition of yours? It just breaks my heart to have to decline it, but the fact of the matter is I think you'd better give that job to your brother after all. At any rate, I'm not going to take it."

"Why?" the amazed Jerome demanded. "Johnny, you're crazy in the head. Of course you'll take it. For answer Webster handed his friend the letter he had just received. "Read that, old horse, and see if you can't work up a circulation," he suggested.

Jerome adjusted his spectacles and read:

"Calle de Concordia 19, Buenaventura, Sobrante, C. A."
"Dear John: I would address you 'God X' but I don't possess sufficient courage. In my heart of hearts you are still that, but after three years of silence due to my stupidity and hardness of heart, it is, perhaps, better to make haste slowly."

"To begin, I should like to be forgiven, the broad general grounds of what I want and done! Am I forgiven? I mean to know your friendly face and hear you answer 'Aye,' and with this load off my chest at last I believe I feel better already."

"Jack, you poor, deluded old piece of white meat, do you think for a moment that I held against you your testimony for the operators in Cripple Creek? I thought you believed the charges and that you testified in a firm belief that I was the guilty man, as all of the circumstantial evidence seemed to indicate. I thought this for three long, meagre years, old friend, and I'm sorry. After that, I suppose the least I need for me to do more, except that you are an old fool for not saying you were going to spend your money and your time and reputation trying to put my halo back on straight! I doubt if I was worth it, and you knew that; but let it pass, for we have other fish to fry."

"The nubbin of the matter is this: There is only one good gold mine left in this weary world—and I have it. It's the sweetest without I ever struck, and we stand the finest show in the world of starving to death if we tackle without sufficient capital to go through. It will take at least thirty thousand dollars, and we ought to be charged to go to play safe. I do not know whether you have, or can raise, sixty cents, but at any rate I am going to put the buck up to you and you can take a look."

"This is a pretty fair country, Jack—if you survive long enough to get rid of it. At first you think it's a hell-hole; then you grow to hate it and know it for hell with the lid off; and finally all your early love for it returns and you become what I am now—a tropical tramp! There is only one social stratum lower than mine, and that's the tropical beachcomber. I am not that yet—and will not be if my landlady will continue to listen to my blatherings." She is a sweet soul, with a divine disposition, and I am duly grateful.

FOREIGN INDUSTRY FOR SMALL TOWNS

Ontario Ass'n to Secure Interests in England and United States.

Toronto, Sept. 8.—A meeting of representatives of the smaller towns of Ontario was held here yesterday with the object of forming an organization for the purpose of securing interests in industries which are coming into Canada at the present time from both England and the United States.

Another point discussed was that, from the standpoint of the health of the community it is in every way more desirable that the towns should be built up rather than our cities become too large.

In order to work up interest in the proposition, the province was organized by districts and accordingly the following appointments were made:

For the Ottawa Valley district, W. West of Almonte and A. E. Bradwin of Arnprior. They will call a meeting, which will be held in Ottawa, of the representatives of such towns as Pembroke, Smith's Falls, Perth, Carleton Place, Renfrew and other towns. In this vicinity, for the Niagara Peninsula district, William Scott of Port Colborne, Thomas Marshall of Dunville and F. W. Warren of Dundas, who will call a meeting either in St. Catharines or Hamilton and invite representatives from the towns in their district.

It is proposed eventually to form a provincial organization, when a permanent managing section will be engaged.

Buy at Home MOVEMENT

RECENTLY we met several experienced printers from Ontario, and in talking "shop" showed them a line of samples of general printing turned out by the GRAPHIC plant. They were unanimous in the opinion that the workmanship was equal to any turned out in their shops, or in the large city offices.

SOME OF OUR TWO-COLOR WORK, they claimed, could only be duplicated in the large city plants.

SAMPLES OF OUR TWO-COLOR LETTER HEADS, sent to the Inland Printer of Chicago, the leading printers' technical journal in the United States, were highly spoken of and one of them reproduced as an example of good printing.

If practical printers speak so highly of our work, surely we can serve you better than the printers a thousand miles away. Let us submit samples and prices.

were recaptured, half a dozen pheasants had been slaughtered and the remainder of the terror-stricken birds were perched upon the upper boughs of the limb planted in their enclosure, while the mink were dashing around trying to discover some way of killing more victims.

FEAR SCARCITY OF LUMBERJACKS

Demand for Men for Lumber Business Are Increasing Every Day.

Quebec, Sept. 12.—Hopes of a renewal of activity in the lumber business is entertained here by officials of the Provincial Employment Bureau, who claim that the demand for lumberjacks is becoming more and more urgent and with the need of men for public work and general construction fear is entertained that there might be a shortage. As a result wages offered are going up, but until now have not shown any extraordinary boost, although they have increased nearly \$10 monthly, as compared to last year's rates.

Construction is reported as very active in the city and district and conditions are generally improving. On the other hand a striking feature of cases before the courts in the last few weeks has been that a number of commercial firms, which have never previously entered actions before the courts have apparently found it necessary to do so in view of the difficulties of collecting from some of the rural merchants. The latter are said to be selling on credit, based on the prospects of the coming crop. As a result there have been many actions entered for non-payment, but even in the rural districts there seems to be an improvement in conditions now.

EXHIBITION MINK GET AMONG BIRDS

world of animal life, shown in the present building at the Canadian National Exhibition, took on a real and tragic aspect during the early hours yesterday when seven mink from the game and fisheries exhibit escaped and ran riot in the cages, in the pheasant cages. Before they

EXPORTS TO U. S. UP TEN MILLION

Washington, Sept. 12.—Canadian exports to the United States amounted to \$84,000,000 during the month of July, an increase of \$10,000,000 in value over exports in the same month of last year.

IRRITATION IS SHOWN OVER POSTAGE RATES

Ottawa, Sept. 12.—Announcement is made by the Post Office Department that considerable irritation has been caused to Newfoundland addresses of letters which are arriving from Canada insufficiently stamped inasmuch as they were bearing three cent stamps while the Imperial rate of four cents for an ounce letter with three cents additional for each extra ounce, applies on postage to Newfoundland.
