DEATH OF THE DUKE OF BEDFORD .-The Etna brings us intelligence of the death of Francis Russell, the seventh Duke of Bedford since the revival and bestowal of the title upon the Russell family in 1864. The late Duke was one of the most distinguished of his illustrious family. He was born in 1790, and married, in 1817, Elizabeth Anne, only daughter of the honorable Theophilous Rawdon. He succeeded to the title on the death of his father, October 20, 1839. Lord John Russell is a unger brother of the late Duke.

TROOPS FIRING UPON A MOR—TWO MEN

KILLED AND FOUR WOUNDED.

St. John (Newfoundland) prpers of the 14th inst., report the occurrence of a bloody riot in that city. On Monday, May 13th, on the occasion of the meeting of the Legislature at St. John's, advantage was taken by the crowd of the absence of the troops at the Colonial Building, to perpetrate wanton outrages on the premises of respectable citizens, whose only fault would appear to be their relationship to the candidates who opposed the so-called liberal nominees in the Harbor Main district.—the same of the late encounter, resulting in the death of two and the wounding of a dozen persons. The arrival of a detachment of troops on the ground put a stop to the sacking of premises which had previously engaged the attention of the mob, though it did not cause its dispersion. On the contrary, towards dark the mob increased to such an extent that it was feared further riotous demonstrations would be made, under cover of the dark-name to many others who dispise such shredwork notions of the past as more preposterous, applied to the men of our time, than the unintelligible jargon of heraldry—he appears as a British champion and considering whom and how much he has to defend, a champion undoubtedly he list a man in the seventy seventh year of his age should be able not only to cope in the House of Commons with the master intellects of the age, but on the public hustings to confound and put to silence the very Shimei of the democracy—pelting the discomfited Radical with his own missiles, and stoning him back, amid the cheers of a delighted audience, to his noisome and poluted. Efforts were made to induce them to disperse without avail when the riot act was read and the demand again made to disperse by the commander of the troops, Colouel Grant, with similar success. Col. Grant made another attempt to induce the mob to retire, informing them that it was the last time he would do so, as if the call was not obeyed he should feel it his duty to order the soldiers to fire. The usual time being allowed to eleane the order to fire was given. allowed to elapse, the order to fire was given when two men fell dead, and four persons were wounded, one of whom was a Roman Catholic priest, Rev. Some circumstances connected with the plot broken off last winter at Pine Level, a place situated a few miles from Montgomery, Ala., have not, I think, been made public. In the latter part of December it was discovered that there was a plot on foot extending so far as could be learned over several counts. In outrage of the most aggregated and surgery as could be learned over several counts. far as could be learned, over several counties and involving many hundred negroes having for its object a general uprising of the slaves on the evening before Christmas. Not knowing the extent of the movement the whole white population was struck with a vague and terrible fear. None knew whom to trust. Planters called together their slaves, and speaking of the plot, appealed to their feelings, and informed them of the consequences to themselves if found implicated. At the same time the most extraordinary precautionary measures were adopted. In Montgomery, the military companies were ordered out, and for weeks companies were ordered out, sur versed all the outskirts of the city. In the lovestigation which followed, some facts Bride came to light which, at the time, served only to quicken the general sense of insecurity which are still of importance, as illustration stigators of the insurrection were found to be the low-down, or poor whites of the coun-try. The only motive was the hope of plun-der. The slaves were proposed. The slaves were prepared for every planters were already apportioned, to-her with the mules and horses, among negroes; and so great had grown th their plans, that rights of ownership to this prospective property were bartered among them and were staked in games of chance.

All confidence grounded on the stupidity, or intelligence, or previous fidelity of slaves, was found without foundation. THE REBELS AT PERSACOLA: the troops of Lincoln marched to it.

"One trait of true heroism has signalized this unhappy affair. A citizen of Alexandria, named Jackson, lacked the prudence to haul down the flag of his country, which seemed over his dwelling. That band of execrable cut-throats and jail-birds, known as the "Zouaves of New-York," under the chief of all secondards, called Colonel Ellsworth, surrounded the house of this Virginian and all secondrels, called Colonel Ellsworth, surrounded the house of this Virginian, and broke open the door to tear down the flag of the South. As a matter of course the magnanimous soldiery surrounded him and hacked him to pieces with sword-bayonets, on the spot, in his own violated home. But he died the death which emperors might envy, and his memory will live in history, and in the hearts of his superors might envy, and his memory will live in history, and in the hearts of his countrymen, through endless generations.—Here, indeed, was courage! The true countage that would not yield or swerve before millions. He stood by his flag, he fell alone in defence of his hearth, and taught the invader what soil he trod on.

THE DANGERS OF SERVILE INSURRECTION.

A Washington correspondent says:

"It will be remembered doubtless, that several weeks since a slave insurrection in the vicinity of Baton Rouge caused such serious alarm among the white population, that many families left the city, some going to Havana, and others to Europe. From reliable sources I learn that a similar insurrection has broken out in the same vicinity.

rienced workmen. We are happy to say that, after some five months of hard labor, in preparing tools especially for the business, we are now able to offer a Machine that, for durability, becuty, and workmanstep, has not been surpassed in the United States.

We are fully confident that no Machine has been produced in the States or Canada that can excel those of our manufacture in Sitching, Scansing, Hemming, Curling, Marking, Felling, Gathering, Tucking, Curling, Bindsing, de. It has been our great object to manufacture a Machine that will merit the patronage of those that have not as yet purchased one for their family or manufacturing purposes. It is important to the purchaser to know that all the corresponding parts of these Machines are alike, and manufactured on the premises, so that if any part should be broken or deranged, it can be supplied or remedied with the least possible delay.

TERMS LIBERAL.

ALL MACHINES WARRANTED, and kept in order for one year, free of charge, when properly used. Every purchasser will be instructed in the use of the Machine at our office, or by our authorized agent. We will deliver them at any point on the line of the Earlipeads in the Provinces of Canada, free of charge.

ALL OLEEGYMEN who wish a machine for their way use, will be allowed the liberal discount of one-third from the retail price; any poor or midgeant widow in the front parish will be allowed the same discount

The New Bedford Standard publishes a letter from a lady in Washington, in which she speaks at length of the respect and esteem felt for each other by the New York Seventh and the Massachusetts Kighth Regiment.—She relates the following interest-

incident:-"There is a story told by one of the Seventh that no one can listen to without tears, and a glow of pride in our New England soldiers. He says: "When encamped in Maryland, I wondered off one day, and came to a farm house, where I saw a party of those Massachusetts fellows—well no, they were Rhode Island boys, but it is all the same—talking with a woman who was the same—talking with a woman who was greatly frightened. They tried in vain to quiet her apprehensions. They asked for food, and she cried, "O, take all I have, take everything, but spare my sick husband."
"O, darn it," said one of the men, "we ain't going to hurt you; we want something to eat." Rut the women persisted in being frightened in spite of all efforts to reassure her and hurried whatever food she had on the table. "But," said the Lieutenant, "when she saw this company stand about the table with bared heads, and a tail gaunt man raised his hand and invoke God's blessing on the bounteous spread before them, the poor woman broke down with a fit of sobbing and crying. She had no longer any fears, but bid them wait, and in a few moments had made them hot coffee, in abundance. She then emptied their canteens of the muddy water they contained and filled them with coffee. Her astonishment increased when they insisted upon paying her. The Lieutenant tells this with great expression —Said she, "Their asking a blessing took me by surprise, and when I saw this I felt that our country was safe with such men to fight for it."

THE BODY OF THE WOMAN FOUND IN THE RIVER AT LACHINE .- Our readers our readers may remember the circumstances of the body of a woman being found about ten days ago, floating in the St. Lawrence, at the upper end of Lachine, nearly opposite the residence of Mr. Ogilvy. The Brockville Recorder of Thursday last believes there is no doubt of this body being that of Mrs. McGill, who, with her husband was drowned in the river, a short distance was drowned in the river a short distance above Brockville, in March last. Mr. Jor dan, of Brockville was at Brier Hill, New York, when the bargain was made respectin the patent right, the assignment of which was found on the body, and it was at his house Mr. and Mrs. McGill lodged on the evening before they were drowned. The body must have your entangled in the ice. body must have got entangled in the ice, and thus being carried down the river to Lachine, a distance of upwards 100 miles. The accident took place on the 26th of March, and the body was found on the 14th of May, making 49 days, during which it has been carried on an average over two miles a day. Mrs. McGill's maiden name was Clerke, corresponding with the intitials C. M. C. on the ring found on the

water and one of them named Michael Mc-Garahan sank, and it is supposed he was struck dead, as he never rose to the surface of the water. The other man who fell into the river, was rescued by his comrades. Four of the men were not seriously affected. -Ottana Union,

GOLD.-The Halifax Journal says tha favorable reports continue to reach us from the Tangier Gold Mines. At present but 150 miners were on the ground, but this number will soon be largely increased. A gentleman recently from there brought some £30 worth of pure gold, as it was taken from the quartz rock, which he procured from the miners.

It is perhaps not generally known that the finest, mealiest, and most nutritious potatoes are always denser and heavier than those which are soft and waxy. A English inventor has taken advantage of this to select the best by what he calls a "Patent Gravity Potato Selector." In order to classify potatoes into three qualities he used two sotatoes into three qualities he used two so lutions, one of a specific gravity of 1.100. Only the best potatoes will sink in the first; the medium potatoes in the second, while the poor ones will float on the surface.

The Southern Commissioners in London are not hiding their light under a bushel.—Besides dancing attendance on Downing street, with a view to recognition they are said to be making arrangements for the establishment of a newspaper in London, to represent and speak for Southern interests in the British metropolis. Dudley Mann is spoken of as editor, at first. The declared purpose of the enterprise is to dissemminate information regarding the border and cotton States, and to make common cause with England for the extension of the policy of free trade. Its name is to be 'The Confederate Union.

CHURNS! CHURNS!

Labor Saved is Money Gained. MESSRS. TAYLOR & TWEEDY of Smith's Falls, have at counderable ex-pense and trouble obtained from the inventor the Patent for the

Best Churn Power ever offered to the public; it is worked by a Crank and Rotary Lever, with the greatest case, and is adapted to the use of the Old Dash Churn, which notwithstanding all the new inventions, has proved to be the best for making butter.

If you wish to afford your children amuse-ment, and at the same time make them highly useful, buy one of the

New Churning Machines, As their power is such they may be works by a mere child, and will make Butter i by a mere child, and will make Butter in much less time than the ordinary way.

Their simplicity, convenience and cleanliness elicits the praise of all. They work slow or fast, or with as sbort or long a stroke of the Dash as required. It occupies little space and may be removed at pleasure.

In fact it only requires to be shown to be appreciated, and should be in the possession of every Butter maker at once:

Farmers! you can spare your families labor, save your time, and thus save your money, by buying one of the cheapest and best of Churning Machines. They are different sizes, and sold on terms to suit purchasers.
