With parcel post system was in augurated.

An Advertiser reporter was on hand at midnight last night with the two packages, but in accordance with instructions contained in a telegram received late yesterday afternoon, all parcels post packages were refused until 8 o'clock this morning. Precisely on the stroke of this hour the parcels mailed by The Advertiser were weighed and received by the postoffice clerks. Soon aftrwards a considerable number of parcels were received from other Londoners and the local parcels post delivery system was commenced with two wagons a few minutes after 9 o'clock.

Delivery Starts.

There were only a few parcels to be delivered, those mailed at the postoffice and addressed to other parts of the city, but the parcels post wagons started out just, the same to insure the prompt delivery wagon has already been started to deliver packages to the business section. As the system grows it is anticipated that additional wagons will be required.

Swears That Common Garden Variety of Equine Did Mile in Two Minutes.

Some discoveries have been made by the London police force. They have been chronicled in police gazettes and criminal records. This morning, however, it re-mained for Officer Arthur Dickinson to break into the sporting world. He found a real common, garden variety of every-day roadster that did a mile in two minutes on the ice pavement of Richmond street. At least this is what his evidence amounted to.

when James McCartney appeared in police court, charged with furious driving, Dickinson, who laid the complaint, said that the defendant had been going faster that the defendant had been going faster than 30 miles an hour.
When this surprising information was furnished, the defendant, smiling, opined that the track record for a mile was only two minutes, or the same rate that his oadster went.

When the latter explained to the magistrate first he had been hurrying an indisposed friend to the traction depot, the case was dismissed. The defendant hurried out to try his "30-mile-an-hour beauty" on the Queen's Park track.

Appeal of Strength.

Rev. W. J. Knox, M. A., pastor of the First Presbyterian Church, delivered an interesting lecture on the subject, "Browning"s Message to Youth," in the lecture hall of the church last evening. Mr. Knox's delineation of the message was exceedingly well thought out and given in his usual interesting way. E. E. Reid presided and Alex.Riach

The affair was under the auspices of the guild.

In his address, Mr. Knox claimed that Browning was a poet who appealed very strongly to youth—not to children whether young or old, who had not yet felt the thrill of the larger buoyant life which looks forward with interest and hope to the coming years. He said that youth was not so much a thing of years as of mental and spiritual attitude. The spirit of youth was the spirit which believed in spiritual attitude. a golden age in the future, which believed in a coming kingdom in which his large hopes would be fulfilled, to such a spirit Browning appealed with

A striking feature of Browning's poems was their buoyant optimism. He had had implicit faith in the future. # KEPHALDOL

COMES TO CANADA. Originated by Dr. Stohr, a famous physician of Vienna, Austria, Kephadol is known and used throughout Europe

and Great Britain. Now backed by the indorsement of hundreds of physicians and hospitals, it comes to Canada to relieve pain and cure rheumatism, Sciatica, Lumbago,

Neuralgia, Fevers and similar troubles. Kephaldol has received the highest commendation from the medical profession because of its direct strengthening action on the nerves, without injury to the heart, and its last regulative and curative effects upon the whole system.

Unlike other pain-killing remedies, Kephaldol is absolutely harmless. It causes no intestinal irritation, and has no depressing effects.

Kephaldol will now bring to painwracked Canadians the untold blessngs which it has already conferred in the Old Country-joy of perfect life again to those who, perhaps for many years, have dragged through a tormented existence. Get a 50c. tube of Kephaldol tablets

Stamina In Men and How to Possess It. (From "Man's Maladies.")

A prominent physician being asked the question, "What are the things in life a man needs most?" answered: "Physical health, strong nerves, mental efficiency, money and social success." Any man possessing these five attributes is a success. Any man possessing the first three can be a success and have the other two. Possession of a sound body, with strong nerves, is really the requirement Men need stammen need most. men need flost. Men flost seniora, courage, staying qualities, endurance and perseverance, but in order to have these qualities the nerves must be strong and keenly sensitive to every emotion. When a man has foreboding, sensations of fear, timidity, accompanied with such symptoms as trembling hands and limbs, weak voice, nervousness, sleeplessness, numbness, dizziness, heart replication restlessness, for heart palpitation, restlessness, forgetfulness, melancholia, weariness without cause, and many others of a similar nature, it cannot be expected that he will be a success financially, socially or otherwise.

Strong, virile magnetism comes only to those whose nerves are properly nourished in a sound body. Nature in her wisdom has supplied certain extracts, essences, etc., which, if properly blended, will restore a normal keenness to the nerves, so that any man can feel the rich red blood surging through his body, supplying all the elements necessary to derive the most out of life in all its various phases. For the benefit of those tempor-arily deficient in nerve strength, following ingredients can be ob-

tained of any good druggist and prepared in the privacy of home. Purchase three ounces of syrup sarsaparila compound in a six-ounce bottle. Add one ounce of compound fluid balmwort, shake and let stand two hours. Then add one ounce tincture cadomene compound one ounce tincture cadomene compound (not cardamom), and one compound essence cardiol. compound essential shake a teaspoonful after each meal, and one when retiring. All distressing symptoms tiring. All distressing a restoration to normal follows .-

#### THE BOY SCOUTS.

resolution was submitted the other Aday to a convention of mine workers in the United States, condemning the militia and the Boy Scouts as "harmful to the best interests of the working people." The combination of these two organizations in a common censure shows a lack of information as to the character of one of them. The idea doubtless was to condemn them both as military institutions, and, we presume, the fear underlying is that in cases of a strike the militia might be called out to enforce order, and might prove prejudicial to the strikers. Whether that is a sound position to take is a matter on both sides of which something might be said. And so also as to the general principle of the encouragement of militarism there is ample room for debate.

But the Boy Scout movement is not affected by one's opinions as to the militia, for the simple reason that there is nothing military about it. Some people have that idea, probably because it was inaugurated by a military leader, Gen. Baden-Powell. But there is not a single military feature about it, beyond the physical exercise and habits of discipline. Rather is it the reverse of military, in that it is intended to be helpful to the individual and to the community, instead of being even indirectly harmful. It is not to take life, but to save It, not to injure the body, but to preserve it in health.

The Boy Scout is taught obedience to his superiors, respect for his elders and those in authority over him, courtesy towards men and especially towards women. He is not only taught how to help himself in emergencies, and conduct himself under difficulties, but to be of assistance to others in case of accidents and injuries. Helpfulness towards man, and kindness towards animals are among his regular lessons. If he is a faithful scout. lessons. If he is a faithful scout, he must allow no day to pass without doing a service toward some person, or showing a kindness towards some

People may with justice condemn the encouragement of the spirit of militarism. They may even object to some of the uses to which, on occasion, our citizen soldiery may be put, or some duty which may be imposed upon them. But no one who understands what the Boy Scout organization is intended for, the lessons it teaches, and the work which it does, can possibly raise any objection to it. On the other hand, all who desire the welfare of the community, all who would develop the intellect and improve the character of the rising generation should give their hearty support to the Boy Scout movement.

the greatest.
5. Bread and water or milk and bread

6. Pretty piece of neckwear, hair or-nament, book, snapshot album, hand-made underwalst, or little book of tested and tried candy recipes.

7. Try this way: Cover the spot with magnesia or French chalk, place blotting paper above and beneath and press.

Afterwards sponge the spot over with a line black and white.

Jewish Festivals.

Dear Miss Grey,-Will you kindly insert in your columns a list of the Jewish fasts and festivals and date of occurrence and oblige a constant reader, M.E.B., Coldstream. Ans .- The principal feasts and fasts are: The festival of the Passover

which occurs in the first month of the Jewish ecclesiastical year, a time corresponding much to portions of March and April of the Christian year. This feast is also known as the feast eight days when nothing containing leaven enters the house of the Jew. A second feast of importance is that of Pentecost, occurring on the sixth and seventh days of Sivan, which corresponds to parts of May and June. This commemorates the giving of the law to Moses on Mount Sinal, fifty

A second fast is held on the 9th day of Av, the fifth month, in recognition of the completion of

this desolation. The seventh month (Tishrl) of the Jewish ecclesiastical year is the first month of their civil year, and known to us as part of September and October. On the first and second day the festival of the new year is ob-served. On the 15th day of Tishri, the feast of Tabernacles, an important festival in the Jewish year, is celebrated; this continues nine days, the last day being the day of solemn assembly. On the last day of this month, the day

of atonement occurs. In the 12th month of the Jewish year, the festival of Purim is kept.
The month is known as Adar, a period corresponding to February and March of our year.

There are, of course, other feasts and fasts, but these are the mere important ones, I think.

When I Saw Sweet Nellie Home In the sky the bright stars glittered, On the grass the moonlight fell, Hushed the sound of daylight bustle. Closed the pink-eyed pimpernel; As a-down the moss-grown woodpath, Where the cattle love to roam, From Aunt Dinah's quilting party I was seeing Nellie home.

In the sky the bright stars glitter, On the 1 ath the moonlight shone; From aunt Dinah's quilting party, I was seeing Nellie home.

When the autumn tinged the greenwood, Turning all it leaves to gold, In the lawn, by the elders shaded,

I my love to Nellie told, As we stood together gazing On the star-bespangled dome; How I blessed the August evening When I saw sweet Nellie home.

White hairs mingle with my tresses

Furrows steal upon my brow, But a love smile cheers and blesses Life's declining moments now; Matron in the snowy kerchief! Closer to my bosom come. Tell me, dost thou still remember When I saw sweet Nellie home?

Veteran London Driver Leads All Other Winners by Big Amount-His Horses Set New World's Records -Eel Direct the Biggest Winner.

Dan. A. McEwen arrived back in London late Saturday night from the most successful campaign on the ice he has ever experienced, or, for that matter, any one driver ever experienced during a winter's ice racing. It is like pulling teeth to get the veteran to talk about his wins, but he admits a fair winter's work.

While away, Dan started in 25 races, finishing in the money in every one of them, and setting new world's records with some of his horses.

We admit that that poetry is pretty bad, but so was that defeat at Sarnis.

That loud noise in the offing during half time was the wailing whimper of Jimmy Grannary, who with bowed head was weeping in sympathy for the team that once claimed him. "Ho, Ho, ha, ha, har, har," he sobbed.

### ARTHURS, ONCE OF LONDON, DID STAR WORK--SOME CONSOLATION

Davy Reid's absence may have made some difference to the playing of the and handed the Indians their first defeat of the season here tonight in what was one of the biggest surprises of the O. H. A. season. The Tunnel Town septette won by the score of 7 to 0, and accumulated a

> score just about indicates the difference between the two teams. WAS SARNIA KIDDING US? The surprise comes from the fact that the local team was not conceded a chance against the London aggregation. Judging from the exhibition Sarnia

lead that will be hard to cut down in the second game of the round. The

put up in London against Alvinston, London was figured to easily double the score on the Tunnelites here.

The Lendon players were so confident they would win that they treated the game merely as a workout. Play had not been going five minutes before they found it was a different story. From the drop of the puck the locals went at it like seven demons.

CAUSED A LAUGH. They outchecked, outskated and outscored the Londoners so badly that Sarnia fans howled with laughter. They had been led to believe London had a bunch of world-beaters, and when they saw what their "dub" team was dong it was extremely humorous. All over the rink could be heard the cry, "What would our real team do to them?" London fans sat back and gazed on in silence. It was too painful to them. They couldn't understand it.

THE "COME-BACK" DIDN'T COME.

The score at half-time was 3 to 0. It was thought that London would come back strong in the second half and outplay the locals, and Sarnia fans were looking for some sort of come-back on the part of the Londoners. It came. Instead the Sarnia aggregation played even harder, and with a spirit that knows not defeat. They were out to win, and the fact that London had a team with a reputation did not bother the Sarnians a bit.

SAPPED THEM OF SPIRIT. They worked like a machine at times. They body-checked like a bunch of rugby players, and simply covered the Londoners until the visitors had no spirit left. The Sarnians no more looked like the team that Alvinston nearly beat in London than the world's champion Athletics look like an average sandlot aggregation. The border town aggregation looked like a real hockey team, better than Paris, Woodstock or Ingersoll, or any of the other teams London has beaten, and the defeat they handed out to London tonight will live long

# COMISKEY TAKEN ILL ON HIS WAY TO ROME

President of Chicago-Americans Suf-fering From Acute Indigestion.

[Canadian Press.]

Rome, Feb. 9.—Charles A. Comisky, president of the Chicago Americans, was taken seriously ill today on the train on which the members of the Chicago and New York baseball teams were traveling from Naples to Rome. Mr. Comisky was indisposed before leaving Naples for Rome, and shortly after the train passed Caserta he was seized with a chill, and grew worse so rapidly that his wife, son and daughter-in-law were greatly alarmed.

Returned Unanimously.

Officers of the London Canadian League baseball club have all been re-elected for 1914. At a gathering of the magnates at the Tecumseh House Monday afternoon a short formal session was held to elect the officers. Same Stevely was again chosen to pilot the club, by the unanimous vote of the directors. Secretary F. C. Buzzell and Trasurer Thomas Gillean were unanimously re-elected also.

It happened that Dr. John Edward Jones, the American consul-general at Genoa, was returning on the same train from an inspection of the consulate at Naples. He hurried to Mr. Comisky's compartment, and found that he was suffering from an acute attack of indigestion with marked cardiac symptoms. Dr. Jones gave what assistance he was able, and remained beside the Chicago magnate until Rome was reached, and Mr. Comisky was removed to a hotel.

Flowers—the real hand-picked, 18-carat, winter-luxury, florists' window variety—constitute the St. Valentine's vary gift par excellence this year. Of course, the almost-funny bits of brightly-daubed paper, and the artistic cards bearing pictures of more or less pretty girls along with sweet messages of love, will have their following, but flowers will be taboo in the best circles on St Valentine's Day, which falls next Saturday. If you are a man, send your girl a handful of posies, or you'll wake up the morning after to find that she's somebodys else's best girl. And if you're a girl you'd better telephone your favorite florist to ship "him" around a nice buttonhole bouquet, or else some other girl will get ahead of you.

Local florists are making big preparations for the day, and there is every prospect that the sale of flowers will be extraordinary.

# Insurance Company Show Best Year in All Departments

New Business Written, Gain in Business in Force and Increase in Surplus Largest in Company's History. Increase in Rate of Interest Earned, Decrease in Rate of Mortality, Expense and Lapse. Profits of Policyholders One-third Greater Than Estimates.

The thirty-ninth annual meeting of the Shareholders and Policyhelders of the London Life Incurance Company was held at the Company's Head Office, London, Canada, February 9, 1914.

The President, M. John McClary, occupied the chair,

and there ere present a number of Shareholders and Policyholders.

The notice ca ng the meeting was read by the Manager and Secretary, J. G. Richter, F. A. S., after which the following port and mancial statement were submitted.

### Thirty-Ninth Annual Report

The Directors of the London Life Insurance Compary submit herewith the Audited Financial Statement of the Company for the year ending December 31st,

During the year 41,190 Applications for Insurance, amounting to \$8,828,189.50 were accepted and Policies issued therefor.

The net Premium and Interest Receipts of the year were respectively \$1,034,816.77 and \$261,023.88, a total of \$1,295,84°.65. The increase over the previous year is \$163,072.80.

The payments to policyholders or heirs, for Cash Profits, Surrender Values, Annuities, Matured Endowments and Death Claims, aggregated \$321,250.62, an increase over the previous year of \$21,332.24.

The insurance in force on the Company's books at the close of the year, after deducting all re-insurance, aggregated \$27,118,375.02, under 14,548 Ordinary and 109,594 Industria' Policies, an increase of 2,164 Ordinary and '9,487 Industrial Policies, for insurance of \$3,853,554.19 for the year.

The Company's Assets, consisting of first mortgages on Real Estate and other approved securities, amount to \$4,645,695.19, an increase of \$586,319.06 over the previous year. The interest and other payments falling due during the year were well met and no losses were incurred in this connection.

The liabilities of the Company under outstanding policies, and in all other respects, have been provided for in a most ample manner, the whole amounting to \$4,419,584.50. The surplus on Policyholders' Account, exclusive of Subscribed but uncalled Capital, is \$226,-110.69, and after deducting Paid-up Capital, the net surplus over all Liabilities and Capital is \$176,110.69. JOHN McCLARY, JOHN G. RICHTER, F. A. S., President. Manager and Secretary.

London, Jan. 28, 1914. London, Jan. 28, 1914.

#### Actuary's Report

The basis of valuation of the liability under the Company's policies as at the 31st December, 1913, was as follows:

Ordinary Business-Issued prior to 1st January, 1910, Hm. Table of Mortality, 3½% interest.

Issued since 1st January, 1910. Om (5) Table of Mortality,

Industrial Business-Issued prior to 1st of January, 1900, Combined Experience Table, 31/2% interest. Issued since 1st January, 1900, Farr's English Table No. 3, 3% interest.

The total Reserves so computed, less the Reserve on policies re-insured in other Companies, amount to \$4,226,152.00. Of the total business of the Company 72% has been valued on a 3% basis. The policies of the Company being largely of an Endowment nature, appeal most strongly to the best class of lives. This, in conjunction with the careful selection of risks submitted, has resulted in the maintenance of a low ratio of actual to expected

claims. This ratio for 1913, in the Ordinary Department, was 32.8%

-a remarkably favorable experience. The profit distributions to participating policyholders are being continued on the very liberal scale adopted for 1913. On account of the increasing interest rate earned on the Company's funds and the lower mortality and expense rate experienced, the actual profit payments under present rates of premiums are, on the average, one-third in excess of the estimates originally quoted.

The Surplus on the Government standard amounts to \$608,-556.31, notwithstanding the very conservative valuation of the Company's Assets. Of this sum, \$238,436.00 has been used to bring the Policy Reserves to the Company's standard, as above outlined; \$77,011.00 has been set aside to cover accrued profit earnings, up to date of statement, on participating policies and \$67,000,00 has been provided for funds of various kinds not required by the Insurance Act. After making these deductions the net Surplus amounts to \$226.110.69.

#### Report of the Executive Committee:

As has been the practice of the Executive Committee of the Directors, we went very carefully over all the securities of the Company as at 31st December, 1913, and satisfied ourselves as to the standing of such securities; and have much pleasure in certifying that all were found in order and unquestionable as to values at which same were taken into account at the close of the year.

The interest and other payments falling due during the year were exceptionally well met, and no losses

were, or are likely to be, incurred in this connection. On a very conser ative estimate of market values of securities, in excess of values at which they are being carried in the books of the Company, there is a margin to the good of \$36,887.50.

President John McClary, in moving the adoption of the Report, said: President John McCiary, in moving the adoption of the Report, said:

The report of the Directors, and accompanying Financial Statement for year ending December 31st, 1913, afford such ample information regarding the Company's position as not to require much more to be said in this connection.

For a good many years past it has been my privilege, as President of the Company, to call attention to the substantial progress For a good many year, and I am pleased to tell you the past year has been one of the best years the Company has yet experienced.

The new insurance written, the total insurance in force at the close of the year, and the premium and interest income of the year, all show a marked increase over the last previous year. all show a marked increase over in: last previous year.

and all claims upon the Company under outstanding and maturing contracts have been met in the Company's usual prompt manner, out of the income of the year, and considerably over half a million dollars has been added to the net invested Assets.

Referring to the Company's investments, it will be noted that a very large proportion (over 85%) consists of mortgages on real estate. It is the practice of the Executive Committee of the Director's to go very carefully over these securities at the close of each year, in order to satisfy themselves that all are being looked after in a proper manner. You have before you the report of the Executive in this in order to satisfy themselves that all are being looked after in a proper manner. in order to satisfy themselves that an are being located after in a problem manner. Tou have before you the report of the Executive in this connection, and have their assurance that every security in the whole range of investments is not only unquestionable in character, but the connection, and have then assured in character, but the aggregate market values of same, on a conservative valuation, exceed the amount at which they are being carried in the books of the

The same care has been exercised in ascertaining the liabilities of the Company. Not only have all the requirements of the Government been fully complied with, but as is pointed out in the Actuary's report, provisions have been made far in excess of the technical ernment been runy complied with, but as is pointed by the substantial surplus of \$176,110.69 requirements in this connection. That on such a very stringent basis the Company is able to show the substantial surplus of \$176,110.69 over all liabilities of every nature and Paid-up Capital, is, I think, good reason for congratulation.

I have very great pleasure in moving the adoption of the report.

The Vice-President, Dr. A. O. Jeffery, K. C., in seconding the adoption of the Report, said: In a statement of such general excellence as that we have before us, it is difficult to select any particular point which calls for special comment. In considering, however, the conditions that existed during 1913, perhaps the most notable feature of the operations of the Company was that the surrender and lapse rate was lower than ever before. This is exceedingly gratifying inasmuch as it indicates an the Company was that the surrender and lapse rate was lower than ever before. improving selection of risks on the part of our representatives in the field, and a greater confidence in the Company on the part of Policy-

The bulk of the Company's business continues to be of an Endowment nature. Of the total new business for the year, 81.4% is Endowment, and of the total business in force at the end of the year, Endowment Policies form 76.7%. This fact, in conjunction with the careful selection of applications presented, has, in the past, as is pointed out in the Actuary's Report, resulted in a very favorable rate of mortality. In 1913, notwithstanding the proportionately large increase in business in force, the net mortality loss was actually less than in the previous year, and the ratio of actual to expected loss was only 32.8%, which indicates an eminently satisfactory condition of affairs in a matter of vital import to the interests of the Company and its Policyholders.

The business of the Company has increased over 120% in the past five years. During the same period the basis of policy valuations

has been still further strengthened, the surplus and other funds greatly increased, and the scale of profit distributions to Policyholders has been raised in keeping with the improved earnings of the Company. Such a record forms a solid foundation for even greater progress in the future, and will undoubtedly prove an inspiration to still better effort on the part of our excellent staff of field representatives.

I have pleasure in seconding the adoption of the Report.

The Report was adopted unanimously.

The Auditor, Mr. James McMillan, certified to the care exercised by the Head Office staff, the excellent manner in which the records were kept, and the absolute freedom in the transactions of the business from anything of a questionable nature.

A hearty vote of thanks was tendered the agents and other employees of the Company for the very efficient manner in which their A hearty vote of thanks was tendered the agents and other employees of the Company for the very emight in their duties during the year had been discharged. The vote of thanks was briefly acknowledged on behalf of the agents by George McBroom, Inspector "Ordinary" Branch; J. F. Maine, Supervisor "Industrial" Branch, and J. W. Attwood, of Winnipeg.

The following Directors were re-elected for the current year: John McClary, President; Dr. A. O. Jeffery, K. C., Vice-President; W. F. Bullen, Sir George Gibbons, Thos. H. Smallman, T. W. Baker, W. M. Spencer, Judge Bell (Chatham), W. J. Christie (Winnipeg).

Foreign Diplomatic Corps Are Present in House of Lords to Witness Ceremony.

[Canadian Press.] London, Feb. 10.-King George, to with picturesque ceremony opened the fourth session of the present British Parliament-a session that promises to be a historic one, owing to the important constitutional questions to be decided, including that of the granting of home rule to Ireland. Accompanied by Queen Mary, who.

as well as the King, wore her crown and brilliant royal robes, his majesty drove in the state coach of gold, drawn by eight Hanoverian cream-colored horses, from Buckingham Palace through the Mall, over the Horse Guards' parade and then along White hall to the King's entrance to the House of Lords. Great crowds as-sembled along the route to witness the procession, which was carried out in

In the House of Lords the scene was a picturesque one, as their majesties, surrounded by other members of the royal family, and by peers and peeresses in their state robes and wearing rich jewels, ascended the throne from which the King read his speech outlining the Government's

program for the session. Only a few privileged strangers were admitted to the House, and those included, beside members of the House of Commons, most of the foreign dip-

Market Is the Place. "I'll certainly vote to have the shows placed on the market," said Ald. Henry Winder, "that's what I said before and I'll stand by it. My opinion is that if we are to have the shows at all, the market is the place for them. I wonder what the ministers were doing when the Sunday car question was Nobody said a word about that, and that was the time for them to have declared their principles. Oh, I'm going to vote to have the shows on the market all right.'

Foolish Plan. Ald. Joseph Leah stated that he had not given the matter a great deal of thought, but said that it looked like a foolish plan to try and knock out the resolution of the board of control. "If there is to be evil anywhere, I think there will be as much in one place as another," said he, "but it would seem that there would be less opportunity downtown than at the fair grounds.

Buy Parnell's Bread, Dr. Bruce-Smith Tells of Uplift of Outdoor Life.

NO LONGER EXPERIMENT

In Some Instances Prisoners Are Loath to Leave Because They Are Free From Temptation.

Dr. W. R. Bruce-Smith, provincial inspector of prisons, is in the city today, and will pay a visit of inspection to the London Hospital for the Insane. In conversation with The Advertiser, Dr. Bruce-Smith stated that there was no particular object in his visit it being

particular object in his visit, it being erely routine inspection. He evinced much satisfaction when informed that the proposal to establi h a prison farm in Middlesex was arousing interest locally.

An Undeveloped Tract.
"The thing has gone beyond the experimental stage," he said. "It has proved a big success in other places, and think it should in Middlesex. The thing think it should in Middlesex. The thing is to get a large tract of land which will require development, such as clearing and draining, the object being to provide pienty of useful outdoor labor for the prisoners. At present the prisoners in our county jails waste a good deal of their time. Of course, care must be taken to see that the land is there—that is, that it is fitted for agricultural purposes, so that the labor of the prisoners will not be in vain."

Asked as to the effect committment to Asked as to the effect committment to the prison farms had upon the prisoners, Dr. Bruce-Smith stated that it had been

found to be productive of much good.
