## WON HONORS FROM LONDON

Principal and Staff of Central School Receive Royal Greeting

Banquet in Their Honor—Many Compliments Paid—Exhibit of Work in Chatham

On Saturday evening the teachers of the Central school, who were the guests of the London Board of Education for the previous two days, returned home voting the Forest City educationists the most royal of entertainers.

The visit was a recognition of the premier provincial position held by this great Maple City Model school and a tribute to the progressive spirit of our Public School Board and the worth and ability of the teaching staff.

On the arrival of the Chatham teachers on Friday afternoon they were met at the depot by a reception committee, consisting of Wm. Yeates, chairman of the London Board of Education, Inspector Edwards, Messrs. Dr. English, Fitzgerald and Dr. Tillman.

A trip to the School Fair in the City Hall was then made and a busy hour was spent inspecting the large and excellent display of work.

At six p. m. the banquet hall at the Palace Cafe was filled with a party of sixty, composing the Central staff, members of Board of Education, inspectors and principals of all the London schools, Provost James of Western University, Profs. Merchant and Dr. English, of the Normal school, Misses Powell and Laidlaw, art and kindergarten supervisors.

After a most excellent menu had been disposed of, the toast list was announced.

Miss Ida Hillman and Principal J. W. Plewes responded to the toast of "Our Guests." Miss Hillman made a most remarkable speech and was warmly applauded. Mr. Plewes was received with a great demonstration, as London is his old home. He spoke of his personal gratification at such a reception, and of the good feeling and mutual interests of Chatham and London. He praised the splendid exhibition of work and congratulated the London school thereon. Miss Hollinrake, Brantford's art supervisor, also spoke briefly.

Dr. P. W. Merchant, M. A., D. Paed., principal Western Normal school, responded to the toast of Educational Interests. He spoke most eulogistically of the benefit of the exhibition and praised the energy and progressive spirit of the Chatham Model school, which he declared was the pioneer in advanced educational ideas. Provost James, of Western University, said that as one of the old school of educationists he had been opposed to the "fads and frills." He was forced to admit now that the new educational program was best and had come to stay. He was most eulogistic in his comments on the Chatham Principal.

Principal Radcliffe, of the Collegiate Institute, raised a storm of applause as he related his experiences when Mr. Plewes was his pupil. His address proved most interesting to the Chatham teachers, as they felt that they were being let into some secrets. He congratulated Mr. Plewes on his recent appointment to the Educational Council and bespoke for him a brilliant future. He also extolled Mr. Plewes as the originator of the School Fair idea.

A further visit was made to the Fair and some of the best work was secured to show the boys and girls in Chatham next week.

Saturday morning the Chathamites were entertained at the Normal school by Vice-Principal Dearness and his staff, where the Domestic Science and Manual Training departments were in operation for the benefit of the visitors.

Principal Plewes secured the loan of many samples of the work shown for exhibition in Chatham. The brush and ink work, which was exceptionally good, is now on exhibition at the Central school for the benefit of the pupils, Model students and all others interested. Next week the water color work will be exhibited.

The Relation of These Figures in a Long-Drawn Out Drainage Case

With six lawyers it took eight days to hear the drainage case of ten Somerville farmers vs. the Township of Chatham and Somerville, at Sarnia, before his honor Referee Rankin. The case was closed on Saturday, and judgment reserved to enable the township to get together to provide relief for the plaintiffs.

The action was brought for \$5,000 damages, for a mandamus to compel the township to remove a drain and to give and for an injunction restraining their operation.

O. L. Lewis and M. Wilson, K. C., appeared for the plaintiffs, J. W. Hanna, Weir and Price for Somerville, and J. S. Fraser for Chatham Tp.

## SERMON FOR YOUNG MEN

Rev. Mr. Rutledge Gives Excellent Advice to the Rising Generation

Services Attended by Very Large Congregation—Music Furnished by a Male Choir

The young men's service in the Park street Methodist church last night was a notable success. The congregation crowded the spacious church and the singing of the young men's choir was enthusiastic. The sermon of the pastor, the Rev. W. L. Rutledge was also appropriate to the occasion. The text was I. John ii, 14, "I write unto you young men because ye are strong, etc." "I bring you to-night," said the preacher, "a message from a centenarian. The apostle John was an hundred years old when he wrote this letter. Let the multitude of years show wisdom."

"Like all truly great men," continued the preacher, "the heart of the aged evangelist there was a warm place for the young. A wise German once said that the future of a community at any given time depended on the tastes and character of its young men under twenty-five. How important then that the tastes and character of our young men should be the very best."

What did the apostle mean when he said, "Ye are strong." In young manhood there is a three-fold nature. He is the body man, with full bodily powers. He is the mind man with will and feeling and thought-life. He is the spirit man with the power of receiving the communications of God and of communicating with God in his turn. And the young man who is strong as God meant him to be, has a strength expressing itself, as far as possible, in the completeness of physical life, as far as possible in the completeness of mental and emotional life, and as far as possible in the completeness of spiritual life. In the physical nature the young man's strength reveals itself in the love of exercise and contests that test nerve and muscle, and in the reverent preservation of health. I confess, said the preacher, to an entire sympathy with the athletic sports of our time. The contests on the football and baseball field, on the ice, etc., and the training of the eye, the muscle and the self reliance acquired by those engaging in these contests should help to fit men for the more serious battles of life. But the men physically strong man, or the men mentally strong man, was not exactly what the apostle meant when he said "I write unto you young men because ye are strong." It was the morally strong man, the man strong in character. There are men in Canada to-day with but little physical strength, who because of the strength of their character are like Roderick Dhu, the stamp of whose foot was worth a thousand men.

This strength comes from the word of God. The strongest man in the world is the Bible Christian, he who most sincerely believes the book, and most consistently lives up to it. And this strength the aged apostle tells us is to be used to overcome the wicked one. There is not an iniquity to-day that would not disappear in a generation, if the young men said they must. Will the young men of to-day fulfill the hopes of their generation? Everything belongs to them. All paths to power converge at their feet. All doors of opportunity fly open at their approach. The world grows weary of many things, but it shows an increasing fondness for young men. Let the rising generation assume the obligation of their position, and they can purchase deliverance from every social, industrial and political evil if they will. Can we depend upon you said the preacher. I write unto you young men because ye are strong and have overcome the wicked one. Have you? Will you? Here in our own city we are grievously tormented and vexed with many agencies of the wicked one. They need not be named. But what are you going to do about it? King Charles of Sweden, father of Gustavus Adolphus, used to say of his son, with reference to reformatory movements which he the King could not accomplish. "He will do it," and we know how heroically Gustavus strove to fulfill his father's prophecy. Will you do your part in like fashion? The Son of God goes forth to war. Who follows in his train?

The music for the evening was furnished by a choir of 50 young men, who sang very sweetly the famous "Glory Song" and later in the evening "God Goeth Forth to War." James Trotter sang a solo. A male quartet gave a very pleasing rendition of "The Wayside Cross."

## QUESTIONS PEOPLE ASK

Rev. Mr. Hoyt Preaches the Second of a Special Series of Sermons

Large Congregations Attend the Special Services—Excellent Music by the Choir

"What is Sin?" was the subject of Rev. Mr. Hoyt's discourse in the William St. Baptist Church last night. This was the second sermon of the series which Mr. Hoyt is preaching on Questions the People are Asking, and it was listened to by a large congregation.

The preacher took his text from Rom. 7, 13—"But sin that it might appear sin, working death in me by that which is good; that sin by the commandment might become exceeding sinful." One of the proofs that sin exists in the world is that mankind is seen to act on the assumption that wrong is done or is likely to be done in the world. In the family, in society, in the state, everything is set upon a footing that anticipates wrong. If a man is wrong in his conception of sin, he is apt to be wrong in his views of the atonement, of heaven and of hell. If sin were nothing more than a fault, which can and ought to be excused, we have no need of a sacrifice. God never did a greater kindness to man than when He revealed to him the guilt of sin. The Word of God gives us six definitions of sin, and these are found in I. John, 3, 4, and 5, 17, etc., and from these texts we find that sin may be physical, mental, moral and spiritual. If we want to know what sin is, we must see what sin does. Adam and Eve were driven from the garden because of sin. Sodom was destroyed because of sin. Judas sold his Lord because of sin. Sin is the only thing God abhors. It brought Christ to the cross, it damns the soul, it shuts heaven, it laid the foundations of hell.

Why men and women fondle this heinous thing is more than I can tell. Would anyone lay up as a treasure the knife stained with his father's blood? Sin took Jesus and nailed Him to the cross, and yet men and women treasure sin, and refuse to give it up.

The sermon was aptly illustrated and made a deep impression upon the audience.

The anniversary music was repeated at the service yesterday, the choir rendering a fine anthem in the morning. In the evening Miss Richards and Mrs. J. E. Oldershaw sang a duet, "Consider the Lilies," which was much enjoyed. Rev. Mr. Hoyt also sang a solo, "A Clean Heart," most acceptably.

## INNOCENT INDIAN

Before Judge Houston, at County Court To-day, Randolph Parker, of Bothwell, was charged by County Constable Marcus with selling liquor to an Indian, David Hill. Crown Attorney Smith prosecuted and W. G. Richards appeared for the defence. The constable claimed he saw the whiskey disposed of, but the Indian, with admirable innocence, claimed he found the liquor on the railroad track. The case is still in progress.

## NEWSPAPERS IN OUR SCHOOLS.

A professor in a university in the United States evidently believes in the newspaper as an adjunct to the study of history. He refers to newspapers as the latest edition of history, and says that "accurate knowledge of current events as chronicled each day in the newspaper is fully as important as the daily lesson assigned from text books."

The professor had college students in mind when he stated the value of newspapers, but the pupils of public schools also could profit much from keeping in constant touch with the daily press. It is quite possible that at no distant date a practice which exists in a few schools in regard to newspapers may be generally followed. That practice is to take a few minutes of each day for a talk between teacher and pupils about the events of the day.

The possibilities of such a course are far greater than many persons imagine. The real knowledge gained is important, but the great benefit is in training children to glean news from the printed page, to learn the habit of exact thinking, and to form a habit and desire for comparing past with present events. Too much of the present training of children gives them only rules and uninteresting facts. They learn that "Columbus discovered America in 1492" and many other facts which stand out in some respects isolated and uninteresting. With a short discussion each day of current events as told in the daily papers, the school children would find both present and past more interesting.

Many teachers find difficulty in impressing upon their scholars even such important events as the signing of Magna Charta. Seven hundred years take the child so far back and King John is, therefore, such a shadowy figure that the great event lacks interest. How different would be the attitude of the child who had read or been told of the Czar's troubles and surrender. The opportunity to compare the Czar's troubles and attitude with those of King John gives an interest and balance to both events, and makes both stay longer in the memory of the child.

Some may object that there is news which children are better without, children, however, are in the habit of reading, whenever possible, about suicides and murders. Many young minds are getting what ever harm can come to them by reading newspapers, and they are not getting the benefit of the stories of events which are making history.

Others, again, may object to newspapers on the score of inaccuracy of news. That a certain inaccuracy exists none will deny, but it is the result of haste with which news must be gathered and not usually of the desire to mislead. When one considers the speed with which the news of the whole world's events is gathered and placed before the eyes of the people, a certain amount of inaccuracy must be expected. Its harm is very small when compared to the benefit given by a quick news service.

## THE CHATHAM LOAN AND SAVINGS CO.

At a meeting of the directors of The Chatham Loan & Savings Co. on Saturday, the 18th inst, a dividend was declared at the rate of six per cent. per annum for the current half year ending Dec. 31, 1905.

The Company has had a very successful year and after paying the above dividend a substantial sum will be carried to the rest account.

An expression of regret for the death of the late James Gardiner, who was a director of the Company from its inception, was recorded and a resolution of condolence for his family was passed by the Board and the Solicitor directed to forward a copy.

Manson Campbell, Esq., manager of the Manson Campbell Company, Limited, was appointed a director to fill the vacancy caused by the death of Mr. James Gardiner and took his seat at the Board.

## STRANGE METHOD OF IDENTIFICATION.

A Boston woman, after selecting some embroidery in one of the big department stores, discovered that she had not money enough with her to pay for it, says the Youth's Companion. She had never opened an account with this particular shop, and it was therefore agreed that the clerk should put the goods aside until next day, when the purchaser should come for it with cash in hand.

When the woman returned the day following to get her embroidery she could not remember which of the saleswomen had waited upon her. After puzzling over the matter for a moment, however, she approached one who looked vaguely familiar and asked: "Am I the woman who bought some embroidery here yesterday?" "Yes'm," replied the girl, stolidly, and turned to get it.

## Sin's Consequences

## Innocent Indulgence Often Brings Trouble—Simple Means of Escape

The consequences of violating physical law are often as unpleasant as the breaking of a moral rule. The innocent indulgence of over-eating brings consequences that amount to real suffering. Indigestion is not natural; it is not right; it should not be. We offer a means of escape in Mi-o-na tablets that is simple and practical.

These simple tablets are composed of such valuable medicinal agents as bismuth subgallate, which is superior to all other remedies for stomach troubles, cerium oxalate, and tonics and correctives which promote the action of the digestive organs,

strengthen the whole digestive tract, and make it possible to eat what you like and when you like.

If you suffer with headaches, indigestion, flatulency, heart burn, dizziness, sleeplessness, backache, or debility and weakness, begin the use of Mi-o-na at once. Just one tablet out of a 50 cent box before each meal, and you will regain perfect health and strength.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, post-paid, on receipt of price. Write for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

## THE LETTER BOX

## INDIAN CREEK DIFFICULTY.

To the Editor of The Planet:

Dear Sir,—The Township of Harwich drops in for supplying all the water that does all the damage around Indian Creek and McGregor's Creek outlet. I notice, at a meeting of the Council of Chatham that a deputation of Harwich and Raleigh waited on them in the matter. I notice that a Mr. Payne claims if the scheme is carried through there will be no more high water at Indian Creek, and a Mr. Sykes, of Raleigh, says the water taken off high lands of Harwich is taken out of its natural course and dumped into Indian Creek.

Now, I have been travelling along the line between Harwich and Raleigh for over half a century and have failed to see any water carried out of its natural course except in two cases, and that was done by Raleigh itself in constructing the Lawrence drain, and a ten inch sewer pipe would carry one of them and a twenty-four inch sewer pipe the other. Now, that is a small amount of water carried out of its natural course to cause so much flooding at Indian Creek. I understand Mr. Payne's farm is somewhere in the neighborhood of Indian and Mud Creek junction, and where, I claim, a drain could be started and carried to the river about the Dr. Barr farm, it could be made large enough to carry the water coming down there from the Gregory drain, and should alleviate the situation without interfering with the present outlet into the river. I have seen the water as high on Mr. Huff's farm before he purchased it as I have ever seen it since. He lived in the vicinity of Chatham some time previous to purchasing that farm, and must have known how the water drained on it, and yet he bought it; and I should judge by the price asked for it to-day that it must be something else than a duck pond. I would like to have a few questions answered.

First, if the scheme is carried through will it relieve Harwich from damages? I throw out. Only shift it on to someone else, which would make a far clearer case for damages than they have at Chatham.

Second, did any of those who waited on the Council ever see Indian Creek flooded when the river was not above its normal height. I have seen Indian Creek flooded when the Township of Harwich needed rain and its ditches were very nearly empty.

Third, Has none of the land between Chatham and London along the river been drained in the last fifty years to add to the water in the River Thames and help to overflow its banks, or is Harwich alone guilty of putting its water into the river? By carrying the scheme through, Raleigh would certainly get Harwich into the trap, so it would be in for damages caused by diverting water from its natural course, which is hard to do by our law.

The scheme is one that should be

carefully looked into and everyone interested should be notified and given a fair chance to be for or against the scheme. The meeting held at Blenheim must have been a picked party, as only a few knew of it.

Not wishing to trespass on your valuable space, yet feeling that the scheme should be made public, I have taken this way of bringing it into notice.

## WHY CURZON RESIGNED.

Believes Military Should Be Subordinate to Civil Authority.

Bombay, Nov. 18.—At a banquet given in his honor here last night, Lord Curzon of Kedleston, the retiring Viceroy of India, made a frank avowal of the reasons for his resignation.

Beginning with the declaration that he considered the office of Viceroy the noblest in the gift of the British nation, and that it ought to be looked upon as a prize to be awarded only to its greatest statesmen, he said it could not be supposed that he would without the strongest reasons resign a position which had been the dream of his childhood and the ambition of his manhood.

He resigned, he said, on no personal ground, but in defence of two great principles—first, that there should be an indisputable subordination of the military to the civil authority, and second, the necessity of paying becoming regard to the Indian authority in determining the needs of India.

Lord Curzon contended that in sacrificing himself in defence of these principles he had the great preponderance of Indian opinion behind him, and predicted that should the day ever come when the Viceroy would be treated as the mere puppet of the Home Government the justification for the post would cease to exist. He said he did not believe that the administrative wisdom of his countrymen would ever tolerate such a blunder.

Lord Minto in India.  
Bombay, Nov. 18.—The Earl of Minto, the new Viceroy of India, formerly Governor-General of Canada, arrived here last evening. The retiring Viceroy, Lord Curzon, will leave Bombay to-day for England.

## Thought He Was a Moose.

## O. B. C. L. SOCIETY

The first meeting of the Literary Society took place last Friday evening and was a great success. As this was the meeting when each candidate elected was given an opportunity to show the students what he could do when he had the reins in his own hands, and by the manner in which each officer conducted himself, the students were convinced that they had the right person in the right place, especially the new president, Mr. Max Thom, who spoke so fluently, that there is no doubt but Mr. Thom will secure the position some day, as speaker in the Provincial House, Toronto.

Then came the reading of the journal by Miss Galloway, and the numerous jokes aroused roars of laughter in the audience. Last but not least was a duet by Messrs. McHardy and McFadyen, which carried a great many back to the time when they used to sway to and fro across the floor, and swing their pretty one around and round, as the fiddler filled the air with strains of lively music.

As the evening was getting late the program was then closed by the "National Anthem."

### District Doings

#### MURKIRK.

The Methodist church of this place has undergone a thorough course of repairs and will be re-opened on Sunday, Nov. 19. On the following Wednesday evening a grand concert will be held.

Misses Elizabeth and Evelyn Collins have returned from their visit to Sombra.

Our new barber is doing a rushing business.

We are sorry to learn that Mrs. Wm. Desmond is in a very critical condition.

Mr. Ewen McCauley is spending his holidays in this neighborhood.

Miss Cameron, of Dutton, was the guest of Mesdames Reycraft last week.

Wedding bells will soon be heard. Reycraft & Son shipped three carloads of beans last week.

Mr. and Mrs. John Routledge have moved to their new farm near London.

#### JEANNETTE'S CREEK.

Wilfred Garbutt, youngest son of A. Garbutt, has diphtheria. The

house has been quarantined. Dr. McColl, of Tilbury, has charge of the case.

Farmers are still busy with their sugar beets.

R. Venning is having the inside of his store fitted up.

W. Fullerton and party started out Monday morning in their naphtha launch to shoot duck on the American side, but after being nearly swamped and thoroughly drenched they spent the night at Martin's and

gladly returned home Tuesday morning.

There is no prospect of the new bridge over Jeannette's Creek being finished this winter. The centre support is tottering over so the work is at a standstill, and Reeve Hickey says they can't afford to pay for a ferry much longer.

#### HADN'T YET.

I'm afraid you won't do, remarked the football coach to the beefy candidate.

Why? Well, you are too sluggish in your movements.

Sluggish! Why, I haven't slugged anybody yet that I know of.

Some men are willing to remain away from work if only told they look ill.

## Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and faded of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair grower, a perfect hair restorer. It keeps the scalp clean and healthy. Sold for 60 years. J. C. Ayer & Co., Lowell, Mass.

## Oxford Chancellor Range

One of the troubles with most wood-burning ranges is the lack of hot water. The usual reservoir is of small capacity and not placed near enough the fire to raise the water to a sufficiently high temperature, and it takes considerable time and fuel to heat the water at all.

The Oxford Chancellor wood-burning range is fitted with a large reservoir of planished copper, which is easily kept clean. This reservoir is placed next the fire-box, and therefore the water heats very quickly and to a high temperature. The reservoir may be detached or attached to the range in five minutes by anyone.

Write us for booklets about the Oxford Chancellor Range, and the address of the nearest dealer who can show it to you. A post card will do.

Wm. O. Jenkins, Spring Lake, Mich., writes: "I had a very bad cold on my lungs. I bought two bottles of Dr. Wood's Norway Pine Syrup but it required three to cure me. I have never met with any other medicine as good."

Price 25 Cts., at all dealers.

### THE COUNTY FAIR.

Were You Ever a Principal in an Incident Like This?

A face in the crowd will, as it were, sting your memory. "I ought to know that man," says you to yourself. "Now, who the mischief is he? Barker? No, 'tisn't Barker. Barkdull? No. Funny I can't think of his name. Begins with 'B', I'm pretty certain." And you trail along after him, as if you were a detective, sort of keeping out of sight, and yet every once in awhile getting a good look at him. "Mmmmmmm!" says you. "What is that fellow's name? Why, sure, McConica," and you walk up to him and stick out your hand while he's gassing with somebody and there's that smile on your face that says, "I know you, but you don't know me," and he takes it in a limp sort of fashion and starts to say, "You have the advantage of"—when, all of a sudden, he grabs your hand as if he were going to jerk your arm out of its socket and beat you over the head with the bloody end, and shouts out: "Why, hello, Billy! Well, suffering Cyrus, and all hands around! Hold still a second and let me look at you. Gosh darn your hide, where you been for so long? I thought you'd clean evaporated off the face of the earth. Why, how air you?" How's everything? That's good. Let me make you acquainted with my wife, Molly, this is Mr.——— but she says: "Now don't you tell me what his name is. Let me think. Why, Willie Smith! Well, of all things! Why, how you've changed!" Eugene Wood in McClure's.

Carry your burdens as cheerfully as you can if you would have them lightened.

### A BRIGHT COMEDY.

One of the brightest plays in dialogue and characters true to nature, on the stage to-day, is Daniel L. Hart's "Parish Priest," in which Dan Sully has made the success of his life. Mr. Hart is a young jour-

native state, called "Slaves of the Mine," the plot of which turns upon a law peculiar to mining sections, under which a conveyance of land passes only title to the surface, and not to underlying ores. The characters in "Slaves of the Mine" are borrowed from real life in the locality where the tale is laid, near Wilkes-Barre, and together with the dialogue which gives them being, are like those in "The Parish Priest," brilliant and natural. The new play is full of stirring incidents, and contains one very sensational scene effect, depicting the destruction of a coal mine by a tremendous explosion of fire damp. "Slaves of the

nalist of Wilkes-Barre. In conjunction with C. E. Cullinan, who is the author of "Fog's Ferry" and "A Romance of Coon Hollow," Mr. Hart has written a dramatic story of his

Mine will be given at the Grand Opera House one night only, commencing next Saturday, Nov. 25th, with an entire equipment of special new scenery.

### JAPANESE ART.

The Japanese are a wonderful people. Their arts and crafts have long been the admiration of the world. Not only do they produce the most exquisite creations in metal and porcelain, but they also take living animals and plants and by sheer persistence cause them to alter their natural shape and growth. Any effort to paint the petals of the lily or the fragrance to the rose can only be as futile as the attempts so often made to imitate the glow of health on the human skin by the use of paints and cosmetics. The color of the complexion is due to a pigment on the inside of the skin and its glow of bloom is due to the pure red blood which fills its vessels. Any attempt to imitate this color by applications on the outside simply give a dull dead surface, and their continued use produces a thickening of the outer layer, causing the complexion to assume that "muddy" look which is so disfiguring.

Nature never intended that women should suffer from physical disabilities at certain periods, and too often women feel that the great distress they suffer at these periods is only natural. The fact is the women who live in the open air and do physical labor are little troubled by the pains and ills that our delicate, house-born women suffer. Dr. Pierce's Favorite Prescription is a womanly tonic that has sold more largely in the United States than any other compound prescribed only for the diseases of women.

Dr. E. V. Pierce, the well-known specialist, is chief of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. This wonderful remedy therefore stands absolutely alone as the only one possessed of such remarkable curative properties. It is a medicine which has stood the test of a third of a century, and numbers cures by the thousands. It is a perfectly safe tonic in any condition of the system, being entirely vegetable.

### COULDN'T DO IT.

Come, now, Julie, you've got to make up your mind whether you prefer my company or Mr. Smith's. I can't, really. Whenever I'm with one of you I prefer the other!

But you couldn't deceive him, eh? asked Miss Peppercorn.

### THE MORNING BATH.

Conditions Under Which It Should Not Be Taken Cold.

Cold baths in the morning are undoubtedly beneficial, but only to those persons who have sufficient vital energy and nervous force to insure good reaction with no subsequent languor or lassitude. Many persons who are greatly refreshed by their morning bath feel tired or languid two or three hours after it. When this occurs it is conclusive evidence that the practice is harmful. Persons who have an abundance of blood and flesh, who are lymphatic or sluggish in temperament and whose nervous force is not depleted, can take a cold morning bath to advantage. Others who are inclined to be thin, whose hands and feet become cold and clammy on slight provocation, who digest food slowly and assimilate it with difficulty, who are nervous and who have much on their minds should avoid early morning cold bathing. For such the bath before retiring at night is recommended, as it should be followed by rest of brain and body till equable conditions of circulation are re-established. Some persons who are weak in nerve power have such excitable nerves that they get at once a perfect reaction from cold bathing, but lose in after effects more than the value of the bath. This class of individuals should not bathe too often and should always use tepid water, choosing the time preferably before retiring.

### A Wonderful Memory.

Magillabed had a memory so extraordinary that it seemed to dwarf all his other mental faculties. He read all ancient and modern languages that had a literature and was familiar with the title and contents of every known book. He once said that he could repeat the titles of over 500,000 books written in many languages on a diversity of subjects. His whole life was given to study. He commonly remained at work all night, and when nature could endure no more he lay down wherever he chanced to be, and with the floor for a couch, a book for a pillow and covered with an old tattered cloak he would sleep for a few hours, then rise and go to work again. He literally knew everything that was worth knowing in his time, but produced nothing of his own.

No; he said that he saw his answer in my face.

Terms of endearment should come from the heart and not merely from the lips.

Norway Preparing Grand Welcome For Elected Monarch.

Christiania, Nov. 18.—Preparations are being made to receive the new King and Queen of Norway (Princess and Princess of Denmark), whose formal election by the Norwegian Parliament to-day is a foregone conclusion.

The state entry into Christiania will occur Nov. 25. The vessel bearing King Charles V. and his consort, with its escort of Norwegian, Danish, British and German warships, will be met by a large flotilla of steamers from all the coast towns, and will be conveyed to this port, where the first official and popular welcome of the new rulers will occur.

### Norwegian Plebiscite.

Christiania, Nov. 18.—The final report of the plebiscite was that 259,563 votes were cast in favor of Prince Charles and 69,264 against him. A deputation conveying a formal offering of the throne to Prince Charles will leave to-day for Copenhagen.

## KIDNEY DISEASE AND ITS DANGERS CAN BE QUICKLY CURED BY DOAN'S KIDNEY PILLS

Kidney disease comes on quietly, it may have been in the system for a long time before you suspected the real cause of your trouble. There may have been backaches, swelling of the feet and ankles, disturbances of the urinary organs, such as, brick dust deposit in urine, highly colored, scanty or cloudy urine, bladder pains, frequent urination, stone in bladder, etc. Perhaps you did not know that these were symptoms of kidney disease, so the trouble kept growing worse, until Neuralgia, Sciatica, Rheumatism, Diabetes, Dropsy, and worst of all, Bright's Disease, had taken hold of your system. Doan's Kidney Pills should be taken at the first sign of anything wrong. There is no other safe way, (plasters and liniments are useless), as the trouble must be eradicated from the system.

Doan's Kidney Pills go to the seat of the trouble, strengthen the kidneys, and help them to filter the blood properly and flush off all the impurities which cause kidney trouble. Mr. Thomas Mayhew, Smith's Falls, Ont., writes: "For over four months I was troubled with my kidneys, and my back got so lame I felt miserable all over. After taking five boxes of Doan's Kidney Pills I was as well as ever."

Price 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

Three freight cars came to grief on the Port Marquette near the G. T. R. Junction yesterday. The rails spread and threw the cars off the track. One of the cars was badly damaged. The section men were called out and the damage to the line was repaired after a few hours' work.

### TARIFF REVISION

The following telegram has been received by the Board of Trade: Secretary Board of Trade, Chatham: Tariff Commission will hold session, Chatham, Thursday, twenty-third inst. Kindly receive applications and make necessary arrangements therefor. I understand farmers of the district wish to present their views. Have them placed on the program.

JOHN BAIN,  
Secretary Tariff Commission.

In connection with the above, arrangements have been made to hold the session in the City Council Chambers, Harrison Hall, from 9.30 in the morning until noon. The commission will leave for Wallaceburg after luncheon.

The time being short, it is important that all cases should be carefully prepared and arrangements as to their presentation to the Commission must be made by Wednesday evening the 22nd, with W. A. Hadley of the S. Hadley Lumber Company, or W. A. London, of the Chatham Wagon Company.

### POLICE MAGISTRATE

The Ontario Gazette on Saturday announces the appointment of Chas. R. Atkinson, son of C. R. Atkinson, of this city, to be Police Magistrate, of Little Current, Manitoulin.

We are anxious to make a fortune chiefly to render ourselves less dependent on fortune.

It is always easy to tramp up an excuse for finding fault.

### LARGE FUNERAL

The Remains of the Late Alexander Jacques Reverently Laid to Rest Yesterday

The funeral of the late Alexander Jacques, which took place yesterday afternoon, was one of the largest held in Chatham for some time. The service, which was held at his late residence, Laurox St., was very solemn and impressive, and was attended by a very large number of sorrowing friends and relatives. Rev. Mr. Rutledge conducted the obsequies.

Among the many floral offerings were the following:—

Wreath—Mr. and Mrs. Jenkins.  
Spray—Rhea Glassford, Detroit.  
Spray—Mr. and Mrs. Morton.  
Spray—Mr. and Mrs. Homer Turner.  
Spray—Miss Barbara Symes.  
Spray—Mr. and Mrs. Wm. McPherson.

Pillow—From the family.  
Sickie—Employees Grillon Store.  
Spray—Mr. and Mrs. Wm. Plummer.  
Spray—K. O. T. M.  
Wreath—Chatham Fire Dept.  
Cross—Veteran Firemen.  
Wreath—W. O. W.

The veteran firemen and the priest attended in a body out of respect for their late chief. The funeral procession passed the Fire Hall, where the rigs were standing outside. Other bodies in the procession were the Workmen, the Woodmen of the World and the Woodbees. The bell at the Fire Hall was tolled during the funeral. Flugs were hung at half-mast on the Park, the Sunarium, the Fire Hall and the City Hall.

The interment was at the City Hall, of the Fire Dept.; S. Smith of the Veteran Firemen's Association; W. H. Benson and J. J. Gouzen of the Workmen, and N. Burrows and F. Shoemaker, of the Woodmen. The family are very grateful to the societies and their friends for kindnesses extended in their sad bereavement.

### WANTS LUXURIES

Mrs. Hall Says the Jail is Not Comfortable Enough—Other Police Court Cases

Three prisoners faced Judge Houston in the Police Court this morning and they were all duly tried and the cases disposed of.

William H. Jackson, a colored man, was charged by his wife with assault. The evidence of the prisoner went to show that he did not contribute very much towards the support of his wife and two children. He was allowed to go on suspended sentence providing he pays \$2 every week towards the support of his children. Jackson promised to do his best to pay the \$2 per.

Poke Freeman was charged by Mr. Toulous with raising a row in the latter's bar room. He paid a fine.

Mr. Jackson came up charged with begging without a license. Two witnesses were examined but nothing was found against the prisoner. Other witnesses did not appear so the case was again adjourned for a week.

Mrs. Hall is the woman who is looking for a good home, as she claims she is unable to work. She complained about the treatment she received at the county jail and said she did not have enough comforts and luxuries.

"You know," she said, "I am a sick woman and I should receive proper care and attention. I am not able to eat prisoner's food."

Dr. Charteris, the jail physician, says the woman is perfectly able to work.

**Killed by His Brother.**  
Buffalo, N. Y., Nov. 20.—Albert Lay, a twelve-year-old Indian lad was accidentally shot and killed by his brother Carl at the Thomas Indian School, near Gowanda Saturday night.

**Trolley Cars Collide.**  
Springfield, Mass., Nov. 20.—Two cars of the Springfield & Hartford Railroad collided on a curve in Long Meadow, near here, Saturday, and Motor-man G. A. Charon of this city received injuries from which he died, and a few passengers were injured, some seriously.

**Shot By Hunting Companion.**  
Rochester, Nov. 20.—Frank J. Wirth, aged 21 years, was accidentally shot while returning from a duck hunting trip. He died in half an hour.

Charity does not always produce the beneficent results that were anticipated by the donor.

Money lost in bad investments is regretted more than the money spent in silly extravagance.

### MISSIONARY ANNIVERSARY

Rev. Mr. Malott and Rev. Mr. Carscallen Give Interesting Discourses

Much Interest Created in Missions—The Special Music Much Enjoyed

At both services yesterday Victoria avenue Methodist church was filled to the doors with interested listeners. It was the missionary anniversary of the church. At the morning service the pastor, Rev. F. E. Malott, B. A., B. D., gave a brief history of the West China mission and advanced several arguments in favor of evangelizing China. He was followed by Rev. C. R. Carscallen, B. A., who has recently been appointed as a missionary to West China, and who will leave Canada about the end of December. Mr. Carscallen gave an interesting and instructive account of our Canadian West and its possibilities, advancing arguments for making the church strong in the West that she may do her work in evangelizing the foreigners who are coming to us.

At the evening service Mr. Carscallen preached an able sermon from Matt. vi. 10, "Thy Kingdom Come." His theme was "God in history, working in the interests of His Kingdom." A rapid review of the great movements and events of ancient and modern history was given to show how everything is being used by God to promote His Kingdom. The resources of Christendom were reviewed to show that there are in the possession of the members of the various Christian churches of the world all the resources, material and spiritual, that are needed for the evangelizing of the world. If church members gave to missions one-tenth, not of their income, but of their savings, as shown by bank returns, they would increase their contributions several hundred fold. The speaker closed with an appeal for more thought on this great work for which the Christian church exists. As a result of yesterday's services the contributions for missions in Victoria avenue church were largely increased.

At the morning service a duet was rendered by Miss Lou Jackson and Miss Eva Dyer. At the evening service Mr. H. Horstead sang a solo. At the close of the Sunday school service Miss Jackson gave the choir a rehearsal for next Sunday evening.

### REVERSE FOR WORKMEN

Council Decides to Abandon Industrial Strike.

Also Abandon 8-Hour Day For the Present, But Make Demand For Lives of Cronstadt Mutineers and Liberty of Poland—Zemstvo Is Meeting and Will Hold the Hands of Premier Count Witte.

St. Petersburg, Nov. 20.—After the severe reverse which they suffered early yesterday morning when at the end of a seven-hour debate the Council of Workmen decided to abandon the industrial strike, the leaders of the St. Petersburg workmen engaged in a hard and losing fight in defence of a resolution for an eight-hour day, which was the slogan of last week's strike but which was abandoned at the last moment in favor of an appeal for the lives of the mutineers at Cronstadt and the liberty of Poland.

The strike, by alienating public sympathy and opening the eyes of intelligent Liberals and Moderates, aided greatly in the reformation of the "law and order party," which now has sprung into a formidable being. The railway strike was formally declared off Saturday, beginning at noon Monday.

**Zemstvo Is Meeting.**  
Interest is now shifted to Moscow, where the Zemstvo Congress opened yesterday. The members of the new party from all parts of the country have gone there to make a fight in the congressional union of all the Conservative and Liberal elements to hold up the hands of Count Witte, to condemn the political strike and to seek further political salvation through the doors opened by the manifesto.

**Half Vladivostok Burned.**  
Tokio, Nov. 20.—An eye-witness of the recent riot at Vladivostok, who has arrived at Nagasaki, reports that nearly half the city was burned; that 600 of the garrison were killed; that the jail was thrown open, and that Gen. Kappeek is missing. The damage is estimated at \$25,000,000. Soldiers from Harbin appear to have joined the rioters.

**Jap Armies in China.**  
London, Nov. 20.—Chao Erh Hou, the Viceroy of Manchuria, has demanded information concerning the probable date of the departure of the Chinese troops from that part of the Chinese Empire, and the answer is that it is Japan's intention to recall her men with all possible expedition.

**Showed Signs of Revolt.**  
Nagasaki, Nov. 20.—Five hundred Russian soldiers who were taken prisoners by the Japanese during the late war, and who are bound for Vladivostok on board the Russian volunteer fleet steamer Vladimir and Bornej, have shown signs of mutiny. The Russian officers applied to the Japanese Government for troops, and a police officer and 100 constables boarded the Bornej.

Four Japanese torpedo boat destroyers surrounded the two vessels. Vice-Admiral Rojstevsky is on board the Bornej.

### PETTY THIEVES

Miss Malady Claims Her House Was Entered and Several Articles Were Stolen

Miss Malady, who lives on St. Clair street, near the second concession, was a visitor at the Police Court this morning. She had a grievance and she found the police ready and willing listeners.

Miss Malady claims she lives in a very poor neighborhood and lately she has been missing several valuable articles which, it is her opinion, have been stolen by the neighbors. She works for Mr. Terry and is away from home during the day, so the robbers have a good opportunity to do their work. Among the innumerable articles which she claims were stolen are jewelry, hair brush, two dresses, bureau drape, black silk waist, skirt, a set of small dishes, her mother's prayer book, and ribbons of every shade.

It is claimed the robbers entered her home through a broken window and carried the stuff away in a basket. Miss Malady has her own opinion who the guilty parties are and she succeeded in getting out a search warrant this morning and P. C. Henry Darr went along with her to see that the warrant was executed.

### Many Styles—See Our East Window Display

The short man, the tall man and the other men are not all one mind on overcoats. So diversity is a factor of this showing. Medium length, Chesterfield and long loose models, as different as different can be. The fabrics are meltons, beavers, chevrons, novelty pattern tweeds, in plain black, browns, and fancy mixtures and overblends.

### The Good Workmanship Points in Our Coats This Season We Are Justly Proud Of

**POINT NO. 1**—The collar sets snug and can never sag away from the neck—due to its hand tailoring.  
**POINT NO. 2**—The shoulders are shapely because modelled by hand and keep the entire coat properly balanced.  
**POINT NO. 3**—A full broad chested front, because of liberal allowance of cloth in contrast to the narrow pinched effect in ordinary ready-to-wear coats.  
**POINT NO. 4**—Smooth setting coat fronts, accomplished by hand working and moulding the internal parts to conform to the lines of the body.

## Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

"How often do we hear women say: 'It seems as though my back would break.' 'Don't speak to me, I am all out of nerves.' These significant remarks prove that the system requires attention."

Backache and "the blues" are direct symptoms of an inward trouble which may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all these peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally successful remedy for woman's ills known to medicine.

The following letters from Mrs. Oakes and Mrs. MacNamee are among the many thousands which Mrs. Pinkham has received this year from those whom she has relieved.

Shurely such testimony is convincing.

Mrs. J. P. Oakes of Prince of Wales Hotel, Head of St. Margaret's Bay, near Halifax, Halifax County, Nova Scotia, Canada, writes:

"Dear Mrs. Pinkham:—

"After using your Vegetable Compound

for me, I am a firm believer that it is a

wonderful medicine, and that any woman

who is troubled with any of the ills we suffer

from should try it and she will soon be con-

vinced of its worth. Six bottles changed me

from a peevish, despondent, sickly, ailing

woman to a sweet tempered, healthy one.

No more pain now, and who but

before was rarely without one. As a regulator,

strengthening and a tonic, I think it has no

superior and I certainly endorse it."

Mrs. Anna R. MacNamee of corner

Bank Mrs. Pinkham's Advice-A Woman Best Understands a Woman's ills.

Queen and Wellington Streets, King-

ston, Ont., writes:

"Dear Mrs. Pinkham:—

"Lydia E. Pinkham's Vegetable Compound

has done all the good in the world for me. I

suffered with irregularities, backache and

severe pains all through my body, and was

very nervous and blue. I think I used a

dozen different kinds of medicines, some pre-

scribed by the doctor and some recommended

by friends, but one bottle of Vegetable Com-

ound was worth more to me than all the

other medicines put together. My general

health began to improve as soon as I began to

use the Compound, and in three weeks I was

a perfectly well woman."

When women are troubled with irreg-

ular, suppressed or painful menstrua-

tion, weakness, leucorrhoea, displace-

ment or ulceration of the womb, that

bearing down feeling, inflammation of

the ovaries, backache, bloating (or

flatulence), general debility, indiges-

tion and nervous prostration, or are beset

with such symptoms as dizziness,

faintness, lassitude, excitability, irrita-

bility, nervousness, sleeplessness, mel-

ancholy, "all gone" and "want-to-be-

left-alone" feelings, blues and hopeles-

ness, they should remember there is one

tried and true remedy, Lydia E. Pink-

ham's Vegetable Compound at once re-

moves such troubles.

No other medicine in the world has

received such widespread and unqual-

ified endorsement. No other medicine

has such a record of cures of female

troubles. Refuse to buy any substitute.

**FREE ADVICE TO WOMEN.**

Remember, every woman is cordially

invited to write to Mrs. Pinkham if

there is anything about her symptoms

she does not understand. Mrs. Pink-

ham's address is Lynn, Mass., her

advice is free and cheerfully given.

## OATH BOUND PLUMBERS

166 of Them to Stand by Each Other in Trade Secrecy.

How the Public Were Bled—Rake-Off on Contracts, Some of Them as High as \$200, Paid to Members of the Association—Claiming a Customer—Hard to Get Supplies Under the Rules.

Toronto, Nov. 18.—At the opening of the trial of the Central Supply Co. of Canada, Limited, and the Master Plumbers' Association of Toronto, before Mr. Justice Clute, in the Criminal Assizes, yesterday, without a jury, on the indictment for conspiracy in restraining trade in plumbers' supplies, it was brought out that the master plumbers were bound by oath to preserve the secrecy of the doings of their association. The document was signed by 166 master plumbers.

The Understanding. Thomas A. Stevens, manager of the Empire Manufacturing Co. of London, admitted that he was a member of the Supply Association and had been since its incorporation, and of the Central Supply Co., which was not incorporated, and before that the Plumbers' Supply Association. The books for these three associations were produced as having been found in the offices of the present supply company's offices.

"What was the written agreement between the Master Plumbers and the Supply Co.," asked Mr. DuVernet.

"There was no agreement of that kind that I know of," answered the witness.

"Will you say there was no understand-

ing?"

"No."

"What was the understanding then?"

"It was that if we supplied non-as-

sociation master plumbers, we were

likely to lose the trade of the Master

Plumbers. Our name would be struck

off their list and they would buy sup-

plies elsewhere."

Joseph Harrison, one of the dissent-

ing master plumbers, said that his

joining the association caused a reduc-

tion in his business from \$12,000 in

1902 to \$2,000 in 1903. In the first year

35 per cent. of his work came from out-

side points, which was prevented by

rules of the association.

**Rake-Off System.**

Harrison gave some instances of the

rake-off system practiced by the asso-

ciation. In the contract for the Clark

Lithographing Co., all those tendering

received "I.O.U.'s" for \$110; for the

Guelph Sanitarium, four plumbers re-

ceived "I.O.U.'s" for \$300; on the Isola-

tion Hospital, fourteen plumbers got

rake-offs of \$25; on the Annesley con-

tract, ten plumbers got \$25 each; on the

Nerlich house fourteen got \$15 each;

plumber got \$150 on the Dip-

num, Moneypenny building. These were

only a few of the instances cited.

In describing the customer claims,

Mr. Harrison said that he got the worst

of it because he was a new member.

A plumber was entitled to claim a per-

son as his customer if he had done his

work continuously for two years. This

prevented competition, and stopped him

from making bids for the work for

men claimed by other plumbers as cus-

tomers.

**Hard to Get Supplies.**

James A. Bridge, builder, told

the same story as he told in the Police

Court. He told of his difficulties in

obtaining supplies from William Har-

ris, James Robertson Co., James Mor-

risson Co., Ontario Lead and Barbed

Wire Co., April 12. At that time Mr.

Porter of the latter company said he

wished the Master Plumbers' Associa-

tion was broken up as he was getting

tired of it.

"A few days after this," continued

Berridge, "after I had made a com-

plaint to the Minister of Customs, I

attempted to get some goods. The

men I sent were told that the com-

panies were not all they asked for.

An hour later I secured what I wanted

in a roundabout way from James Mor-

risson Co., which was one of those as-

ked."

Mr. Watson refused to cross-examine

the witness, holding that his evidence

was inadmissible. This stand the judge

refused to support, holding that the

actions of members of the Supply Co.

was evidence against the indicted com-

pany.

The trial will go on this morning at

10 o'clock.

**WAS DRIVING ON TRACK.**

Melancthon Township Man Struck by

Owen Sound, Nov. 18.—W. C. Hook-

er, manufacturer of Augustus, Melan-

cthon Township, was struck and badly

hurt by the C. P. R. northbound train

from Toronto Thursday night, about

two miles south of Dundalk, while

driving on the track half a mile from

a crossing.

Hooker was driving towards the train

and as the engineer did not see him

until he was only a short distance off

he could not stop the train in time to

avoid a collision. The horse was killed

instantly and dragged some distance in

front of the engine. The whole outfit

was completely demolished, and Hook-

er himself thrown into the ditch. When

picked up he was unconscious.

**Farmer's Big Fire Loss.**

Campbellford, Nov. 18.—Thursday

night the barns and outbuildings of

Ernest Cassan, a farmer near this town,

were totally destroyed by fire, includ-

ing twenty cows, seven horses, num-

ber of hogs and fowl, the season's

crop of grain, farm implements, ve-

hicles, etc. Loss about \$7,000; insur-

ance \$1,500; cause of fire unknown.

**Explosion Kills Fifteen.**

Releigh, N. C., Nov. 18.—A special

from Marion, N.C., reports that 15 men

were killed near there yesterday by

the explosion of a powder magazine

located just outside of the town. The

shock of the explosion was so great

that it was felt at Morgantown, 21

miles away.

Paris, Nov. 18.—Chief of Police Mac-

Farlane is missing. He has been en-

gaged in collecting poll and dog taxes,

but the council is secured by a bond is

## We Will Buy

You a Bottle of Liquezone, and Give It to You to Try.

We make few claims of what Liquezone will do. And no testimonials are published to show what it has done. We prefer that each sick one should learn its power by a test. That is the quickest way to convince you.

So we offer to buy the first bottle and give it to you to try. Compare it with common remedies; see how much more it does. Don't cling to the old treatments blindly. The scores of diseases which are due to germs call for a germicide. Please learn what Liquezone can do.

### What Liquezone Is.

The virtues of Liquezone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Contact with Liquezone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquezone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquezone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

We purchased the American rights to Liquezone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. Today there are countless cured ones, scattered everywhere, to tell what Liquezone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquezone can do.

### Where It Applies.

These are the diseases in which Liquezone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

Asthma, Abcess—Anemia, Bronchitis, Blood Poison, Bowel Troubles, Cough, Croup, Consumption, Contagious Diseases, Cancer—Catarrh, Dysentery—Diarrhea, Erysipelas, Fevers—Gall Stones, Gout, Gonorrhea—Gleet, Hay Fever—Influenza, La Grippe, Leucorrhea, Malaria—Neuralgia, Piles—Quincy, Rheumatism, Scrofula—Syphilis, Skin Diseases, Tuberculosis, Tumors—Ulcers, Throat Troubles.

Also most forms of the following: Kidney Troubles, Liver Troubles, Stomach Troubles, Women's Diseases, Fever, inflammation or catarrh—impure or poisoned blood—usually indicate a germ attack. In nervous debility Liquezone acts as a vitalizer, accomplishing remarkable results.

### 50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it today, for it places you under no obligations whatever. Liquezone costs 50c. and \$1.

**CUT OUT THIS COUPON**

IT WAS NOT A  
FAITH CURE

**Dodd's Kidney Pills Cured Mrs. Adam's Bright Disease**

She Did Not Believe in Them, But To-day She is Strong and Well. Collingwood, Ont., Nov. 20.—(Special).—Mrs. Thos. Adams, who moved here about two years ago from Burk's Falls, is one of the many Canadians who once had Bright's Disease and are now strong and well. Like all the others she was cured by Dodd's Kidney Pills. "I was eight months an invalid," says Mrs. Adams, "and no one can tell what I suffered. My doctor said I had Bright's Disease and Sciatica, but I got no relief from anything he gave me. At last a friend of my husband induced me to give Dodd's Kidney Pills a trial. I had no faith in them, for I thought I never would get better, but after taking three boxes of them I was able to do my work. I have had good health ever since I used Dodd's Kidney Pills."

**Employers' Secretary Fined.** Toronto, Nov. 18.—Magistrate Denison yesterday imposed a fine of \$50 and costs on James G. Merrick, secretary of the Employers' Association, on a charge of having brought alien labor into the country.

NO POISON IN CHAMBERLAIN'S  
COUGH REMEDY.

From Napier, New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, St. Louis, Mo., U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

**Temiskaming Loan Completed.** Toronto, Nov. 18.—Hon. A. J. Matheson, Provincial Treasurer, has received a cablegram announcing the completion of the arrangements regarding the renewal of the Temiskaming loan. The old treasury bills have been paid off, and the new ones duly issued.

## PROVED IN MOUNT FOREST.

Every dealer in this town tried his best to relieve Mrs. J. Witham, of Asthma; not one succeeded. "For years, she states, 'I was a dreadful sufferer; nothing gave relief. At times I found it necessary to have got my breath. When in despair I heard of Catarrhazone. I used it and now am perfectly cured.' This proves beyond doubt that any case of Asthma is curable with Catarrhazone. No remedy so pleasant, none so absolutely certain to thoroughly cure; try Catarrhazone yourself; it's guaranteed."

## WATER IN YOUR BLOOD.

Lots of people have thin, watery blood—they eat plenty but don't digest. When digestion is poor, food isn't converted into nourishment—in consequence the body rapidly loses strength. If you need more vitality, extra energy, better nerves, then use Ferrozone, the medical triumph of the age. Fifty cents buys a box of fifty chocolate coated Ferrozone tablets.

## FARMER KILLS CONSTABLE.

**Sent to Seize Goods of Farmer Eli Grobb Near Treherne, Man.** Treherne, Man., Nov. 8.—John W. Clarkson, constable of Treherne, was murdered here yesterday. He left here Thursday with Robert McCuay, County Court bailiff, to seize the goods of Eli Grobb, eight miles from Treherne. Grobb was absent and Clarkson was left in charge.

After noon yesterday Grobb arrived in town and gave himself up to Constable Moore, stating that he had murdered Clarkson. On being arrested Grobb wrote a statement of the crime. The coroner, Dr. Staples, M. P. and J. Coulter, J. P., left for the Grobb farm. The body was found lying in an enclosure with the legs crossed over the hands of a wheelbarrow, showing it had been wheeled into the position. Bloodstains were found in the house, indicating that Clarkson had been shot there and wheeled outside. It appeared that he had been shot in the heart with a shotgun and that death had been instantaneous.

Clarkson was for some years the agent of the Winnipeg police force and was only 26 years of age. He had only lately joined the Treherne force.

## ROYAL AID FOR THE POOR.

**King and Prince of Wales Enlarge Queen's Fund.** London, Nov. 18.—King Edward has given \$10,500 and the Prince of Wales \$5,250 to the fund for the aid of the unemployed, which was started by Queen Alexandra. The fund now amounts to nearly \$140,000.

**King Transfers Business.** London, Nov. 18.—King Edward, although in the hands of his physician, as a result of a sprained ankle, sustained while shooting in Windsor forest Thursday, transacted the usual state business yesterday. His ankle is progressing well.

## MAN LOSES HIS LEGS.

**Charles McBride, Run Over by C. P. R. Engine, Will Die.**

Toronto, Nov. 18.—Two serious accidents occurred in Toronto last night. Through being run over by a C. P. R. engine, Charles McBride is in the Western Hospital with both legs cut off. He is likely to die.

Owing to their wagon being struck by a street car, William McElroy and his brother, Samuel McElroy, are both in the Emergency Hospital with severe injuries.

## Four Incendiary Fires.

Sarnia, Nov. 17.—While firemen were extinguishing a blaze at Shury's blacksmith shop at 1 o'clock yesterday morning, another fire at the storehouse of the Hub and Spoke Works, owned by Fred Loughead, the ex-champion cyclist, demanded their best efforts. Earlier in the night two other blazes had been discovered in their vicinity, but about \$1,000 loss was incurred at Loughead's. All four fires were purely of incendiary origin. Had any of them got a proper start, a costly conflagration would have resulted. A young man giving his name as Carrol is under arrest on suspicion.

## Tried to Save Companion.

Port Hope, Nov. 18.—The remains of the late Miss Georgia Grace, who was drowned at Crooked Lake on Monday, were brought to Port Hope yesterday. The hunting party consisted of Chief Bond, Miss Grace and Mr. Peterson, a resident of the vicinity. One of the rowlocks broke and the boat was swamped. Chief Bond caught Miss Grace and swam with her to a short distance from shore, when both sank, benumbed by the cold. The chief's body has not yet been found.

## Adrift for 50 Hours.

Boothbay, Maine, Nov. 18.—Peter O'Brien of Boston, one of the crew of the fishing schooner "Stranger" was brought here yesterday by the schooner W. Parker, which picked him up Thursday night, having discovered him by nearly running down his dory. O'Brien lost his schooner in a fog on Tuesday and had been drifting for more than fifty hours without food or drink.

## RULERS OF THE WORLD

**Meat Eating Nations are the Leaders in Every Branch of Human Achievements.**

The ruling nations of the world are meat eaters and history records that they always have been. Vegetarians and food cranks may explain this in any way they choose, but the facts remain that the Americans, English, French, Russians and Germans are meat-eating nations, and they are also the most energetic and most progressive.

The principal food of the heroic Boer soldier, known as Biltong, is a sort of dried beef, affording a great deal of nourishment in a highly concentrated form. The weak races of people are the rice-eating Chinese, Hindoos, and Siamese, regarded since the dawn of history as non-progressive, superstitious and inferior physically and mentally to the meat-eating nations who dominate them.

The structure of the teeth plainly indicates that human beings should subsist upon a variety of food, meat, fruit and grains, and it is unhygienic to confine one's diet to any one of those classes to the exclusion of another.

Meat is the most concentrated and most easily digested of foods, but our manner of living is often so unnatural that the digestive organs refuse to properly digest meat, eggs and similar nutritious and wholesome food, but it is not because such food is unwholesome, but the real reason is that the stomach lacks, from disease or weakness, some necessary digestive element; hence, arising indigestion and, later on, chronic dyspepsia.

Nervous people should eat plenty of meat, convalescents should make meat the principal food, hard-workers and office men should eat, not so much meat, but at least once a day, and to insure its perfect digestion one or two of Stuart's Dyspepsia Tablets should be taken after each meal, because they supply the pepsin, diastase and fruit acids, lacking in every case of stomach trouble.

Nervous dyspepsia, catarrh of stomach, gastritis, sour stomach, gas and acidity are only different names for indigestion, the failure to digest wholesome food, and the use of Stuart's Dyspepsia Tablets cures them all because, by affording perfect digestion, the stomach has a chance to rest and recover its natural tone and vigor.

Stuart's Dyspepsia Tablets is the real household medicine; it is as safe and pleasant for the stomach ache of the body as it is for the imperfect digestion of its grand sire.

They are not a cathartic, but a digestive, and no pill habit can ever form by their use; the only habit Stuart's Tablets induce is the habit of good digestion and consequently good health.

## Berlin's Big Venture.

Berlin, Nov. 18.—The municipality of Berlin yesterday voted to build an underground railroad from the north to the south of the city. The line, which will cost about \$12,500,000, will be electrical and will be operated by the city. The measure still requires the sanction of the Town Council.

## HER SKIN WAS YELLOW.

"I had only to try Dr. Hamilton's Pills to appreciate their merit," writes Miss Annie S. Bryer, of Woodstock. "My system was out of order. My blood was weak and thin. I had a nasty, murky complexion. ### Bavarian Pilot Testifies.

Quebec, Nov. 20.—Pilot Lachance of the steamer Bavarian was examined on Saturday. He disposed that he mistook the light at St. Thomas for the gas buoy at St. Margaret Bank which was out, and to this fact he attributes the accident. Lachance has been a pilot for 27 years, and this is his first accident.

He asked before leaving for the Bavarian if they were any reports regarding the buoys, and was told there was not.

Other witnesses stated that the light on St. Margaret's buoy was out on Wednesday, and had not been relighted on the Friday following, the night of the accident.

## 100 LIVES WERE LOST

Marine Disaster Off French Coast Sunday Morning.

Steamer Hilda Struck a Rock During Storm and Foundered Near St. Malo—First Word Said the Passengers Were All Frenchmen, But Later Despatches Includes Several English People in List of Victims.

London, Nov. 20.—The Southwestern R. R.'s cross channel steamer Hilda foundered off the French coast yesterday morning with a loss of more than 100 persons on board. The Hilda left Southampton Friday night for St. Malo on the north coast of France. The crew numbered 26, and there were about 100 passengers all Frenchmen, the majority being union dealers from St. Briac and neighborhood.

**Few Available Particulars.**—A telegram from St. Servin, adjoining the town of St. Malo, gives the few particulars yet available. The Hilda was near St. Malo Saturday morning delayed by a fog and bad weather. She struck the rocks at 4 o'clock Sunday morning in the roadstead off the island of Cezembre.

The majority of the crew and passengers were asleep at the time. Two boats were lowered, one of which, containing five men, arrived at St. Servin. The second boat was picked up empty at St. Cast, where 13 bodies were washed ashore. The top of the Hilda's funnel and her mast were visible at low tide according to a telegram from St. Servin.

The Hilda was built at Glasgow in 1882, and registered 848 tons. She was a screw steamer of iron construction, and was 235 feet in length.

**English People Drown.**—The exact number of lives lost on the Hilda is unknown here. It is understood that there are about twenty first-class passengers, including several English people. Among the latter were Hon. Mrs. Butler, sister of Lord Lanesborough, and Col. Follet. Though it is not certain that these actually were on board, they were expected to travel by the Hilda, and it is known that all the first-class passengers were drowned. These passengers were English officers and others who were coming to rejoin their families or to spend the season at St. Malo and Dinard (opposite St. Malo).

It appears to be certain that only six were saved, these being five union sellers and an English seaman named Grinter, belonging to Guernsey, and that the total on board, including the crew, numbered 105.

**A Treacherous Reef.**—The disaster was first suspected through the washing ashore of a body, and the port authorities immediately sent out a tug. It was then learned that the Hilda was wrecked on a treacherous reef close to the island of Cezembre, called Les Portes.

She apparently had struck, broken her back, and immediately sank, leaving no time to launch the boats. The Jardin light is quite close to the spot. It cannot yet be explained at what time, or how, the disaster occurred. The entrance to St. Malo is dangerous, the currents and rocks needing the exercise of considerable caution at all times.

### AWFUL LOSS OF LIFE.

39 Men in Glasgow Imprisoned by Flames and Suffocated.

Glasgow, Nov. 20.—The most terrible fire that has occurred in Great Britain for many years broke out here yesterday morning in a cheap lodging-house for men in Watson street, and resulted in the loss of thirty-nine lives and the severe injury of many others.

The flames were first noticed at 6 o'clock in the morning on the fourth floor of the building, which was occupied by 330 men. An alarm was raised and the firemen were speedily in attendance, but flames and smoke were then issuing from most of the windows on the fourth floor.

An extraordinary scene was created by a procession of almost naked men issuing from the door of the building, and against their frantic efforts to escape the firemen had actually to fight for admission.

Reaching the upper floors the firemen found that the narrow passages were becoming congested with men who dropped to the floor overcome by smoke.

**Fire on One Floor Only.**—Fortunately the fire was confined to the fourth floor, and as soon as the firemen were able to get to work it was speedily extinguished. The flames had been fed by the wooden partitions of the cubicles, which threw off volumes of smoke, resulting in the suffocation of the inmates. Many being brought to the street, rallied in a few minutes, but others had to be taken to the hospitals.

The dead were mostly workmen in the prime of life. They presented a horrible spectacle, their blackened faces bearing evidence of terrible struggles to escape.

By 10 o'clock a search of the building was made, and a complete list of the victims obtained, which showed that thirty-nine were dead and thirty-two injured.

### Child's Awful Death.

Amherstburg, Nov. 20.—During the absence from the house of her mother, six-year-old Corine Martin in some way set her clothing on fire, there being no one in the house except smaller children. Assistance was not given the child until she was so terribly burned that the flesh literally fell from the bones. She died two hours later.

### SUNK IN SHAM FIGHT.

German Torpedo Boat Goes Down Before Cruiser With One Officer and Thirty-Two Men.

Kiel, Nov. 20.—The torpedo boat "S-126" was in collision Friday night near Buek with the small German cruiser Undine. The torpedo boat sank, and one officer and thirty-two of her seamen are missing. The disaster occurred during the manoeuvres in the Kiel Bay.

**Helmsman Confused.**—A torpedo division was making an attack upon the Undine, which had

blinded her lights. Later she suddenly used her searchlight, which confused the helmsman of the "S-126," and the torpedo boat got under the Undine's bow and was struck amidships, causing her boiler to explode. The suddenness of the catastrophe explains the great number of victims.

**All Killed or Drowned.**—It is believed that all the missing members of the crew were killed or drowned. Several wounded officers were rescued. The accident occurred in the midst of a blinding snowstorm, and the night was very dark. The torpedo boat sank in four minutes. Emperor William, who arrived here at noon for the swearing in of the naval recruits, was immediately informed of the accident.

**Two Men Were Killed.**—Belleville, Nov. 20.—A double fatality occurred in the station yard here about 7 o'clock Saturday. William Dick and David Wrennick were riding on the front platform of a pilot engine, which had a box car in front of it, when the engine collided with another pilot. Both men were instantly killed, Dick's head being completely severed from his body. Dick was a married man and leaves a widow and three children. Wrennick was single.

**Section Man Is Killed.**—Komoko, Nov. 20.—William Stewart, section foreman for the Grand Trunk at Komoko, while crossing the track east of Komoko station Saturday afternoon, was struck by a special passenger train and knocked to one side of the track. He was picked up unconscious and taken to London Hospital, where he died shortly afterwards.

**He Bounded Several Feet.**—Belleville, Nov. 20.—Harry Osborne of Marmora fell from the outside scaffolding of Hubbell's new building, 27 feet, striking on his shoulders on a pile of scantling. He was busy sweeping snow from the wall. The force of the fall caused his body to bound several feet, and his head was cut open on a brick. Strange to say, he had not a bone broken, and was conscious in a few minutes. Though suffering very severe pain, and the horror of the shock, he will likely recover.

Some fellows are so skeptical that they would fall over a precipice and say it was merely a bluff.

### The Revolver Went Off.

Ottawa, Nov. 20.—Percy Grace, a bell boy in the Grand Union Hotel, in company with Bert Halloway, the engineer, was examining a revolver. Halloway started revolving the cylinder and the gun exploded. The bullet hit Halloway on the first finger of his left hand and then went into Grace's body just below his heart. He fainted, but will recover.

**Succumbed to Many Burns.**—Berlin, Nov. 20.—Nicholas Luessing, who was badly burned as the result of using kerosene to light a fire, succumbed to his injuries at Berlin and Waterloo Hospital on Saturday.
