with reference to this point, it is matter of much gratification to the late Directors, to be enabled to inform you, that there has been an active demand for the stock of the Bank for some time past, so that its value has been ad anced since the first of November last, from 10 per cent. discount to 3 per cent. premium, at which sate considerable sales were made before closing the Transfer Book, and which rate is fully warranted by the statement

now submitted to the meeting.
No nousual feature in the business of the Institution has occurred during the last swelve months —it has been stendy and fees from losses of any insportance. Some old debts, however, are realizing less than they were estimated at in our last and previous Balance Sheet, and we have therefore made a reserve to cover them, out of the profits of the year just closed.

WEDNESDAY, JUNE 5, 1850.

"Birke" at "Bristol," imitated by his modest colleague, "Cruger," affirmed the unrestricted right of the Representative to vote and act unstanced and ampliaged, society has made some progress; and though, in practice, many Canadian Mambers onjoy hill the freedom for which Burke contained, by disregarding their promises at the poil, and often enting at variance with the at the poil, and often acting at variance with the wides of their constituents, yet, somer or later, society revenges itself for the indignity, by consigning them to contempt; the day of retribution may be distant, but, though tardy, it is inevitable—and men in the Assembly, who now afrut and twaggor with the noisy imputence of the clown, changing their parts with each Act, will find, eventually, that unpretending honesty is the best policy. Whether Mr. "Sanborn" be a disciple of the "Burke" school, or not, the events, still fresh in men's minds, connected with his election, leave no room to question the fact, that he 'accepted a special mission. However he may calm his conscience by mental reservations, Mr. Sanborn must led that he was elected Member for the County of Sherbrooks aroundly upon Annexation ground; and hir. Sunborn was opposed by the Ministry, precisely because he received Annexation that he support. These facts no man can controver they are patent to all. From the hour when Mr. Sanborn issued his address, an antagonism Mr. Sanborn issued his address they are patent to all. From the hour when pated and mature, sprung, up between Mr re and the Ministry, and that antegonism Sanborn and the Ministry, and that antogonism ought to exist in vigor, until the Ministry retract their reproaches, and atone for the persecutions which they and their journals have unceasingly directed against the ranks of the Annexationists. There is a code of mornity even in political carcing, which man of honor respect. Consistency is its prominent feature, because consistency implies and includes truth, fidelity, courage, and resolution. Has Mr. Sanborn respected the obligations he assumed at the hustings t Such is the

ion which would suggest itself upon a posal of his maiden speech in the Assembly; and has he, above all things, been consistent? Indiagoosed to censure one who has acted, in some
respects, with integrity, yet, measuring his conduct by the standard of consistency, he has either
anid too much, or performed too little. In that
dpeeth, which doubtless was the fruit of reflection,
he states—" He believes the present Government
to be liberal men, and desirous of promoting the best interests of the country. He wished the present men to remain in power, as no other set of men could be found who could so well fill their places." It would be difficult to extract from places." It would be difficult to extract from
the apseches of the most ardent supporters of the
Ministry encominus expressed in atronger langaage. Does the atmosphere of the Assembly
affliet Members with a vertigo which clottle the
reason and distorts the judgment? Who counwelled this new-horn sympathy for the Ministry—
this volunteer eulogy, not shared in by the Anhexationists? Has he discovered a mine of vir-

this volunteer endagy, not shared in by the Anhexalidnant I Has he discovered a mine of virtues not revealed to rulgat eyes—and has the Province make so low that worthier men cannot be
found from Gaspe to Sandwich I We repel with
seen the imputation. We see in the Ministry
man prodigal of promises, but only emulating each
other in their separate schemes to demoralize and
degrade the country, and when future times erect
a estate to their memory, it will be to—

"The dog in forchesto, and in seast the daer."

The who appires to be one of the champions of
Annexation, should reflect, that Annexation is
but a convertible term for Elective fastitutions,
vote by bullot, Governmental economy, and political liberty. The present Ministry, not content
with frowning down all attempts to secure these
privileges, have wantonly insuited the common
sense of the country, by withholding from citizens
the unallenable right of Petition. With what
show of reason Mr. Senborn can applant such
men, guilty of meh outrages, and why he should
gratuitously alander our people by stupid panegyries of the Ministry, his constituents may be
curious enough to inquire.

The Germania Munical Society gave their first Grand Instrumental Concert at the Theatre-Royal last evening to a crowded house, and more than realised the high expectations entertained, from the flattering notices they have alicited from the United States press; indeed, in some of the most exquisite passages of Mr. Schultz' Funtain of the Violin, fire audience with difficulty restrained the well-understood signs of gratification. In our next we will give a more extended critique. Those who really love good mutic should loss to exportunity of hearing them during their short stay here. The second part is illustrated by disgrams. Mr. Howard's plan in the division of his work, and the classification of diseases, is, we believe, entirely new, and we observe that he quotes largely from other authors; his work forms, in fact, an epitome of the opinions and treatment of the most celebrated Oculists, to which he adds his own, and the results of his long practice and experience. We will conclude the following: "Temperance and Charity;" a "Christian Hope," &c. About ten o'clock His Lirdship the Coadjutor Bishop of the Diocese made his appearance. and operations. MOFFATS

Life Pills and Phonix Bitters These Medicines have now been before the public for a period of PIFFEEN TRABS, and during that time have manufactured a high character is almost every part of the globs for their extraordinary and immediate power of restoring period health to persons suffering under meanly every kind of disease to which the human frame is liable.

of certificated instances, they have even rescued sufferers from the very verge of an intimety grave, after all the deceptive neutrum of the day had atterfy failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life listed is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than mireculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and endaing them with renewed tone and vigor, that they were indebted for their name.

and channels of life; and enduing them with renewed tone and viger, that they were indebted for
their name.

Unlike the heat of pernicious quackeries which
beast of vegetable ingredients, the LIFE MEDICIMES are purely and solely vegetable; and coutain notice Mercury, nor Antimony, nor Arenic, nor any after mineral, in any form whatever.
They are entirely composed of extracts from rare
and powerful plants, the virtues of which, though
long known to several Indian tribes, and recently
to some emineat pharmaceutical chemists, are altogether, suknown to the ignorant pretenders to
medical science; and were never before administered in so happily efficacious a combination.

The first operation is to losson from the coats of
the stomach and bowels the various inpurities and
cradities constantly settling round them; and to
remove the hardened faces which collect in the
convolutions of the small intestines. Other medicines only partially cleanse these, and leave such
collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhea
with its imminent dangers. This fact is well
known to all regular anatomists who examine the
human bowels after death; and hence the prejudies of these well-informed men against the quack
mediciner of the age. The second effect of the
VEGETABLE LIFE MEDICINES is to
cleanse the kidneys, and the bladder; and, by this
means, the liver and lungs, the healthful action of
which entirely depends upon the regularity of the
urinary organs. The blood, which takes its red
color from the agency of the liver and lungs, before
it passes into the heart, being thus purified by them,
and nonrished by food coming from a clean atomach,
courses freely through the veins, renews every part
of the system, and triumphantly mounts the banner
of health in the blooming cheek.

The following are among the distressing variety
of human diseases in which the VEGETABLE
LIFE MEDICINES are well known to be infailible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy hile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Hearthurn, Headache, Restleasness, Ill-temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels contive within two days.

violence: all violence programmes within two days.

Diarrhose and Cholers, by removing the sharp acrid fluids by which these complaints are occasioned, and by premoting the lubricative secretics are mucous membrane.

occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular olreutation; through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Lark Medicians have been known to cure RHEUMATISM permanently in three weeks, and GOUT is half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropaise of all kinds, by freeing and strengthening the kidneys and bladder: they operate most dolightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the lowels the slimy matter to which these creatures adhere.

of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air vessels of the lauge from the nucceis which even slight colds will ecclasion, and which, if not removed, becomes hardened, and produces these desdful diseases.

Scurvy, Ulcers, and Inveterate Scres, by the perfect purity, which these LIFE MEDICINES give to the blood, and all the hunters.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints; sallow, cloudy, and other disagreeable complexions.

The use of these Fills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dues, or by two sven in the worst cases.

the worst cases.

PILES. As a remedy for this most distressing and obstinate maludy, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in recommendation. recommendation. It is well known to hundreds in this city, that the former proprietor of these valu-able Medicines was himself afflicted with this able Medicines was himself afflicted with this complaint for upwards of THIRTY-FUR YEARS; and that he tried in vain every remedy prescribed within the whole company of the Medicine, which is now offered to the public, and he was cured in a very short time, after his recovery had been uncounced not only improbable, but absolutely impossible, by any human means.

PEVER AND AGUE For this scourge of the western country these Medicines will be found a safe, speedy, and certain remody. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Illious Fevers and Liver Complaints.
General Debility, Loss or Appetite, AND SECURED.
BEAGES OF FREADS—these medicines have been sed with the most beneficial results in cases of this secrition:—Kine's Evil., and Scarotta, in its out forms, yields to the mild yet powerful action of use remarkable Medicines. Nature Sweats.

Sometimes whole fam hes are inken down by malignont fevers, fever and Ague, and other dangerous discreters, a lipspreading from a bilious and foul state of the stonach. No parvat can be so ignorant as no to know the great danger easing from biliousness—no parent would be guilty of causing the

causing the DEATH OF THEIR OWN CHILDREN!!! Yet thoushuds of children and adults die every year through niglect of pareuts to attend to the early symptom to bite and foulstonach.

Superfluity of bile may always be known by some untrovable symptom which is produces, such as sick timach, headacles, less of apportie, biffer at a bin the mouth, yellow tint of the skin, languidness, contiveness, or other symptoms of a similar natere. Almost overy person are at times bilrous, the neglect of which is sore to bring on some dangerous disorder, frequestly terminating in death. A single 25 cent box of Dr. Halsey's Gun-coated Furest Pile, are sufficient to keep a whole family from bilions attacks and sickness from aix months to a year. A single dose, from I to 3 of these mild and rod-lent Pills for a child; from 3 to 4 fer an adult, and from 5 to 6 for a grown person, car y off all bilious and morbid matter, and restore the stomach and bow-la, curring and preventing all manner of bilious and morbid matter, and disorders. Dr. Halley's Forest Fills act on the gail ducie, and early all morbid bills as matter from the stomach and bow-els, leaving the system strong and buoyant, mind clear, producing permanent good health.

Dr. Halley's Forest Fills are unlike all others. They are threetly on those wital organs of the Stomach, Liver, Kidneys, &c., which serves the fluids of the body, and esparate the inquirates from the blood. While they purge all bil our and morbid matter from the stomach and bowels, they cleanse and renow it is blood, thereby destroy the seeds of discase. The Forest Fills do not weaken, but give strefigth and animat on its best body and mind. They neither unfluence than before taking them. They are mild in operation, yet powerful in restoring beaths.
