C. P. R. Preparing For Handling Of Grain

Acquisition of some sixty of the largest of passenger and freight engines, as well as more than 2,000 new box cars, which will be ready in time for grain handling in September, for the western division of the Canadian Pacific Railway, was announced by Charles Murphy, general manager. The new rolling stock will be built at the Angus shops, Montreal.

Flowers Placed On Graves Of Canadians

Thousands of spectators were present at the impressive ceremony at Shorncliffe cemetery Wednesday when children from all the schools of the Hythe and Folkestone district placed flowers on the graves of Canadian soldiers. Local mayors and other celebrities delivered addresses.

Patronage Of C. N. R. In P. E. I. Debated

In the Senate Senator Murphy complained of the political patronage on the government railway in Prince Edward Island. He said that the work of broad gauging the road in his country was controlled by the officers of the Liberal association and that supplies for the government boats were purchased from a figure-head who represented prominent Liberal workers.

HIGH SCHOOL GRADUATION EXERCISES

The graduation exercises of Harbins Academy was held at 8 o'clock last Thursday evening in the High School Auditorium. The following interesting program was given to a large assembly of parents and friends:

Chorus—"Tell Us."
Valedictory—William A. Campbell
Selection—Band
"God Save the King"

The following pupils graduated this year:—

William Aloysius Campbell, George Dobson Champlon, Elizabeth Florence Craig, Marion Elizabeth Gough, Robert Emmet Hagarty, Katherine Elizabeth Maltby, Lyman Theodore Manderville, William Frederick Kanan, Francis Eileen Scribner, Horace Bertrand Smallwood, John Everett Sproul, William George Stothart.
Valedictory—W. A. Campbell.
Class Prophecy—W. G. Stothart.

PRESBYTERY MET AT TIDE HEAD

The quarterly meetings of the Miramichi Presbytery of the Presbyterian Church were held in Tide Head on Tuesday of last week. The Presbytery opened at 10 o'clock on Tuesday morning and besides the morning meeting there was, also an afternoon and an evening session. At these three busy sessions much church business of a varied nature was dealt with and the many reports submitted showed gratifying progress and a satisfactory condition in all the different branches of the church's work.

One very interesting circumstance made known at the morning session is that not a single pulpit in the Miramichi Presbytery is vacant at present.

Rev. J. H. A. Anderson, B.D., Moderator of the Presbytery, presided at the meetings, and ministers from all congregations in the Miramichi Presbytery attended. Large numbers of adherents from the Kestigouche congregation and from St. Andrew's Church were also present at the meetings. The re-election of Presbytery officers also took place. Rev. A. D. Archibald of Bathurst being installed as the Moderator of the Presbytery for the ensuing year.

Toronto Knox Church Not To Enter Union

After having figured in 1902 as the cradle of the church movement, Knox Presbyterian Church, Toronto, by a vote decided to "respectfully dissent from the decision of the General Assembly on the proposed union" and to "remain loyal to and continue to form part of the historic Presbyterian Church." Only two dissenters opposed this resolve, out of a total of some 350 members and adherents, who were present at the gathering.

MIRAMICHI HOSPITAL NURSES PASS EXAMS

Twelve nurses from different parts of the province passed the registration examinations held in St. John in May. All those who tried the tests were successful in passing. They are: Miss Blanche Cameron and Miss Mary Isabelle Calder, Miramichi Hospital, Newcastle; Miss Hazel B. Wood, Miss Catherine Rippey and Miss Hattie Cojwell, Moncton Hospital. Sisters Ellen McNeil, Caroline Kenny, Adelaide Laporte, Pauline Dalton and Francis Sanford, Hotel Dieu Chatham. Miss Miriam McDonald and Mrs. Bertha W. Colter, Victoria Public Hospital, Fredericton.

REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Town Council was held on Thursday, June 21st at eight o'clock p. m. Present Mayor Creaghan, Ald. Atkinson, Crocker, Dalton, Mackay, McGrath, Morris and Russell. Minutes of meeting of May 17th were read and approved.

A request from a number of rate-payers on Green, Ludden and Water streets for sewerage was read and on motion was referred to the L. & W. Committee.

Reports of Committees:
The Finance Committee recommended payment of the following bills:— Barnes & Co. Ltd., \$12.00, Newsoms & Gilbert Ltd., \$31.20, R. J. Lovell & Co. Ltd. \$3.19, Mills-Evelagh Ltd. \$1.80, Can. General Electric Co. Ltd. \$2.22 and on motion same were passed and ordered paid.

The following bills from the L. & W. Committee were passed and ordered paid: Can. Brass Co. Ltd., \$87.74, Miramichi Foundry \$18.42, Sumner Co. Ltd. \$10.31, T. McAvity & Sons, Ltd., \$22.78, C. W. Gough \$1.10, H. A. Russell \$3.75, Can. General Electric Co. Ltd. \$147.18, Northern Electric Co. Ltd. \$44.43.

The Public Works Committee recommended payment of the bills of Maritime Produce Co. \$20.00, H. A. Russell \$18.60, Frank Hogan \$20.30 and on motion of Ald. McGrath, seconded by Ald. Dalton, the same were passed and ordered paid.

The Chairman of the Finance Committee reported that Geo. T. Bethune had been engaged as an additional collector of Default Taxes and that he was at work.

Alderman Morris presented a number of petitions from storekeepers in various lines requesting the passage of a bye-law to enforce closing on Wednesday afternoons during the summer, and gave notice that at the next regular meeting of the Council, he would introduce such a bye-law.

The expenditure of \$2000 in permanent street work was discussed and on motion the matter was referred to the Public Works Committee for report and recommendation.

Ald. Morris called attention to the bad condition of the Town Dumping Ground, and it was left in the hands of the Public Works Committee to have the matter attended to. On motion the meeting adjourned.

HOSPITAL EXTENSION MEETINGS THIS WEEK

Successful and enthusiastic meetings were held last week in Millerton, Blackville, Doaktown and Loggieville, in the interests of the Miramichi Hospital Nurses' Home and Extension Drive, which is to be held during the week of July 15-21. At each meeting, the citizens displayed a keen interest in the project, which was explained by members of the Hospital Board of Directors. Committees composed of local persons were organized to look after the drive in the different communities and a local secretary was also appointed. These committees will appoint canvassers and be in control throughout their several districts during the week of the drive. Meetings will be held this week at the following places when committees will be appointed to look after the details.

Monday—Nelson Reserve
Tuesday—Douglastown and Burnt Church.
Wednesday—Nelson and Renous.
Thursday—Whitneyville
Friday—Black River and Millbank

LORD BYNG'S VISIT TO NEWCASTLE

Arrangements have been completed for Lord Byng's visit to Newcastle on August 28th. It is expected that the party will arrive at 10.30 a.m. and remain for three hours. Their Excellencies will be met at the station, from where they will go to the Opera House, where an informal reception will be held and an address presented. It is the desire of His Excellency to meet as many citizens as possible. At 11.30 a.m. His Excellency will formally open the Memorial Field, dedicated to the fallen heroes of the Great War.

War Veterans, Boy Scouts and School Children will be present in large numbers at the opening. The Miramichi Hospital and other points of interest will be visited, after which the party will be conveyed to Chatham by automobile. The arrangements have been submitted and approved of and Mayor Creaghan has been advised that Lord Byng is prepared and willing to open the Memorial Field.

THE CARAQUET A TOTAL LOSS

It is estimated that more than \$1,000,000 has been lost by the stranding on a reef 12 miles north of Bermuda of the Royal Mail Steam Packet Caraqueet from St. John and Halifax, for Hamilton and the West Indies. A despatch from Hamilton says that it is thought that much of her bottom has been torn out. Three of the Caraqueet's holds and her engine room are flooded and it seems almost certain, adds the despatch that the ship is a total loss. All of the passengers, officers and crew were saved. The passengers included 25 in the saloon and 55 Chinese. The mail and a considerable part of the cargo have been saved, but high winds and heavy seas prevail. The steamer was valued at \$1,000,000. The ship struck during a heavy fog while she was proceeding at a fair speed.

Canada's Prosperity

Through Us Or In Spite of Us?

When the war was on and this country was putting forth every effort at home and overseas, to aid the allied cause, a great spirit of confidence and faith, of willingness to work, economize and sacrifice filled every class of the community from the highest to the lowest.

As a result, Canada's honorable war record has set her high among the nations, with a place at the Imperial Council table and a voice in international affairs.

Canada must and will come with equal honor, through the troublous times of post war adjustment. The only question is, will all of us help or some of us hinder, by pessimism, apathy or class jealousy.

To the Canadian farmer this question comes with a peculiar force. Agriculture must be the economic balance wheel of this or any nation. It is an occupation where nature herself demands energy, courage, economy and efficiency. These sturdy qualities radiate from our farms to industries in other walks of life, where so many leaders were country born and bred.

The farm home and farm life as the source of what has been and is the strongest and truest in our national character is interwoven with the history of Canada from its infancy. The settlers on the shores of New Brunswick and Nova Scotia toiling to clear a patch of forest and sowing their grain among the stumps; Hebert and the pioneers of New France, fighting Indians enduring privations, wrestling mere by a rude living from their small clearances, but full of faith in the future if not for them then for generations yet to come; the men who rescued Upper Canada from the wilderness; the Red River colonists who after two years of complete destruction of their crops sent a party to the Mississippi for the next year's seed grain and won! These men made possible the Canada of to-day.

The farmers of Canada, then have a rich history and a noble tradition to live up to. Upon them Canada's progress has always, in

the main depended; upon them it will always, in the main depend.

What then, is necessary for the farmers of today? Simply the application of those qualities we have referred to—energy, courage, economy and efficiency, and under present day conditions the return is sure and speedy. A very high percentage of farms owned by farmers in this country have been acquired and paid for in the farmer's own lifetime. For the present and future generations there is exactly the same opportunity. True, when each generation, and perhaps often, we may have to change our type of crops to meet the changing market requirements, but surely that is a trifling task compared with that of those who had to establish themselves in a new country, create their farm their community their markets and their civilization.

During the war years, the farmer like most others became unreasonably optimistic. As in other industries, he was over-capitalized, tied up too much money in extravagant buildings and expensive machinery; bought tractors to get the crops in more quickly and easily; without considering whether the actual earning power of these warranted the investment. With the depression, which has followed; this over-expansion has been a serious burden and has shaken the faith or some in ultimate success.

We must get back the indomitable courage and untiring effort of Canada's days. The farmer must remember that in the last analysis, he is infinitely better off than the wage-earner of the city. True, his cash income may sometimes be small; but he can, at the very worst, gain his living from the soil, while in the city the larger wage melts away in paying for things which on the farm involves no cash outlay. The farm products are necessities of life and must always command a market. The products of city industries must often create their market and their sale is subject to wide fluctuations. Sure of a market, then; the farmer's main problem is simply the lowering of cost of production to permit it a fair margin of profit even at present prices. This can be done and is being done.

We may call attention to the advertisement placed in this issue by the Federal Department of Agriculture. It is more than an advertisement, it is a call to united and cheerful effort, a summons to the Canadian spirit of the "will to win" which has burned so brightly throughout Canada's history—a spirit which is so well shown in a message received in Ottawa only a few days ago from one of the foremost farmers of the Province of Alberta. He says: "It started to rain the last part of the week, and this

IMPOSSIBLE TO GET RELIEF

Until She Started To Take "Fruit-a-tives"

The Medicine Made From Fruit
R.R. No. 1, Everett, Ont.
"I had been troubled for years with Dyspepsia, Liver and Kidney Trouble, and could not get relief until I started taking 'Fruit-a-tives'. Thanks to their beneficial action, I am in normal health again!"
Mrs. THOMAS EVANS
"Fruit-a-tives" alone can give such happy and successful results because "Fruit-a-tives" is the famous medicine made from fruit juices and tonics. "Fruit-a-tives" is pleasant to take and will always restore the health when taken regularly as directed. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

coming after the recent heavy rains has put the soil in a condition that it has not been in at this time of year since 1916; the farmers are consequently very jubilant and if optimism could pay debts the farmers of Southern Alberta could by next fall cancel our National Debt."

Druggists Urged To Advertise Truthfully

A "A Truth in Advertising" campaign to include a common interest among pharmacists was urged before the convention of the Texas Pharmaceutical Association, at Galveston, by William Ochse of San Antonio, president of the San Antonio Drug Company. The idea was that carried out at San Antonio with success and was embodied in the "San Antonio Plan" which Mr. Ochse explained.

Aside from the benefit to the drug trade, the retailer and the wholesaler and the general public, the idea was to foster a spirit of community interest. In commenting upon this plan, Mr. Ochse emphasized that the stores advertising and selling articles of merchandise at cut prices bear the same relation to the regular merchants as bolshevism does to other nations of the earth. "Cut prices on standard goods are misleading," Mr. Ochse said, "in that they carry the impression that every article in the store is also carried in stock for sale at a reduction. In every line of business where articles are sold for less than the advertised price confidence is destroyed both in the manufacturer and the retailer, for prices and not the goods are sold. Such a system puts the manufacturer and the retailer, both those who practice it and those who do not, in a bad light in the public mind.

"This is a time to get some action among the merchants and educate the public to the real situation. Public confidence is being abused and an end must come. It is up to the dealers to advertise and bring the true situation before the public. In this manner can bolshevism in business be ended."

The co-operative plan originated in San Antonio within the organization of the San Antonio Drug Company, Mr. Ochse said. Co-operative advertising campaigns were put on by the drug stores of the city and the company maintained an expert staff to assist the retailers in planning sales and newspaper advertising campaigning. Above all, the idea has been to help the druggists to become better merchants. In connection with this, which brought closer connection between the manufacturer, wholesaler and retailer, a real service was created to meet the demands of an educated public.

BELYEA IS DOWN TO BUSINESS

Hilton Belyea has settled down to his practice spins covering the course in very fast times which were not announced. He is accompanied in his training by Bert Barry, junior son of the old time English champion, W.M. Hoover the Duluth sculler has just arrived. He had a try out over the Putney course. Hoover stated in an interview that he expected Belyea to put up a fine fight for the Diamond

The Aristocrat Of Passenger Engines On Can. Railways

Designed specially for speed and for economy of operation engine No. 6000 the largest passenger engine in Canada, has just been built for the Canadian National Railways by the Canadian Locomotive Co., of Kingston. The latest iron monster to be added to the 1923 equipment of the National Railways will roll out of the locomotive company's yards to-morrow night and make its initial journey to Montreal where it will be on exhibition over the week-end. At the first of the week it will also be on public exhibition.

Engine No. 6000 is of the mountain type and according to both the builders and the engineers of the C.N.R. it is the last word in engine construction and represents the finished product of modern thought in locomotive design. It is the first of sixteen engines which are to be built in Kingston for the National Railways. Of these six are to be put into operation between Montreal and Toronto while the remaining ten will be shipped to the Atlantic Division where they will be put into service between Moncton and points eastward. In many ways engine No. 6000 is unique in design and there is every possibility that it will make railroad history, the same as did Engine No. 999 which some years ago made an United States railroad famous for its trains between New York and Chicago. This engine which is now a "pensioner" of the American road which it served so well for more than two decades, famous though it is in railway annals would seem to be small when compared to the titanic 6000 both for size and power.

British Ambassador Takes Needed Rest

New York, June 26—Sir Auckland Geddes, British Ambassador to the United States, sailed for home to-day on the Berengaria for a three month's rest. The ambassador's sight which has been seriously affected during the past few months, was said to be improving slowly. His friends said he will not become entirely blind, as was at first feared.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Food is specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

"King Cole" Preferred

A growing preference is expressed for KING COLE TEA. What other explanation could there be for its persistently increasing sale? Every year of the twelve that it has been before the public has marked its strong steady advance. A good long testing time—long enough to prove the merits or reveal the weakness of any article. Public confidence has been demonstrated in no uncertain way. The testing stage has been passed with honour.
"You'll like the flavor."
KING COLE TEA

A Little Journey to THE MIRAMICHI HOSPITAL THE HOME FOR THE SICK

On a certain warm afternoon obeying the Call of the great out-doors I strolled through the Country sides, admiring the awakening of nature—the green garb of the hills—melodies from the full throats of birds—summer at her task of rejuvenating the World. Carried away by the beauty of nature, my thoughts soared upward to the ties that united this universe into one common mass of causes and effects. The sun gives light and heat, the clouds give rain, the snow gives gases, the soil gives fields and forests, the animal kingdom gives its choicest, the vegetable kingdom gives its delicacies Everything in nature gives and receives. Last of all came man, lord over all; but nevertheless a unit of this wonderful system of things, and he in turn must give and receive. Worlds of civilization passed before my eyes; man's glorious achievements, man's joys and sorrows, man's happiness and sufferings. And as if my inward soul could hear the groans and pains of suffering humanity, I unconsciously, found

myself going through the Miramichi Hospital "The Home for the sick".

And by "through" I mean in and out, behind the scenes, in every nook and corner, and here is what I discovered:

That this worthy institution is in a sore need of extension or an additional building, and that the citizens of Northumberland County by largely contributing towards this building are rendering a great human service. This is a duty that we owe one to another. It is a debt that we are paying to a past generation, and a service that we are giving to a future generation.

Many are under the impression that this new building is to house the nursing staff of the Hospital only. This is a delusion. This building shall give to the citizens of Northumberland County the following services in return for their investment.

Children's Ward

Sweetest little fellow
Everybody knows
Don't know what to call him
But he's mighty like a rose.

A necessary and important addition to the hospital. On the care and health of our children depends the future of this nation.

Class Room

Science and education are the guiding stars of our civilization They are the only armour in the battle between life and death, much depends on the training and teaching of Nurses. Give your daughters the knowledge of life.

A Nurses' Home

Nursing is a noble profession, a difficult task. Longfellow expressed it thus:—

Honor to those whose words or deeds
Thus help us in our daily needs
And by their overflow
Raise us From what is Low.

Let us give them comfort so they may return it to us in our hour of need.

Isolation Ward

You can not imagine the necessity of this ward, its usefulness and the service that it can render to the public. It is as important to a Hospital as a safety valve is to a steam engine.

Demonstration Room

Our knowledge is gained through experience. The best medium to transmit our thoughts and knowledge is through illustrations and demonstrations. This goes hand in hand with education.

Maternity Ward

Napoleon said, "The Hand That Rocks the Cradle Rules the World. Let us preserve the health and happiness of our acknowledged queen the "Mother of our Nation!"

Sterilizing Room

There is a room now in the Hospital that takes care of this important duty but is becoming inadequate to take care of the increasing demand of the Hospital.

Eyes & Throat Room

Just think of the importance of this ward. The utter necessity of such a room. There is no place to take care of these vital organs outside the large cities.

Accident Room

With the lumbering activities on the river, the clinking of steel chains and the buzzing of saws, accidents are bound to happen. An accident room fitted with all modern appliances is an immediate help and blessing to the injured.

Automobile Fares Reduced \$2.00

The Summerside Board of Trade has received a letter from Sir Henry Thornton, President of the C. N.R., advising that the charges have been reduced from \$6.00 to \$4.00 for carrying automobiles between Cape Tormentine and Port Borden. He also advised that the existing roadways, ramps and platforms are to be improved so that autos can run directly on and off flat cars; the flat cars themselves being equipped with aprons and other appliances to facilitate the transfer of automobiles. This should result in a greatly increased inter-provincial auto traffic.

Divorces Among Canadians Increase

An enormous increase in divorces throughout Canada in recent years and particularly since the war, is shown by a bulletin just issued by the Dominion Bureau of Statistics. In 1918 divorces granted in Canada numbered 59. In 1919 the number was 90. In 1920, the first year of peace, the number jumped to 376, and in 1922 there was 544. British Columbia with 138 had the highest number of divorces in 1922; Alberta coming next with 129; Manitoba had 97; Ontario 90 and Quebec only 6.

In the years subsequent to Confederation the number of divorce decrees granted was very small. In 1883 there were 13 and in 1903 the number had increased to 21.

SAYS MARITIMES SUFFER FROM LACK OF CAPITAL AND MACHINERY

Montreal—There is one thing sure, if Canadian firms want to take advantage of an unusual opportunity to increase their export business to Great Britain, they must send their trade agents abroad of their trade," said J.E. Ray, Canadian trade commissioner at Manchester, England, who arrived here recently on his customary triennial visit to Canada. Mr. Ray said he had just concluded a tour of the Maritime Provinces, where he found the merchants interested in export trade but handicapped generally by lack of capital and also of machinery to turn out the products for which the British market was waiting. There was plenty of opportunity for profitable trade but the exporters had not the business machinery to take advantage of it.

Only One minute boiling

Oh! If you only didn't have to boil, boil, boil your fruit so long in a hot kitchen!

With Certo the "jell" point is reached with only one minute boiling. Save fruit, fuel, hard work and worry. Certo never fails, it is Nature's pectin, the natural jelling element in fruit. Your jam or jelly will cost less and keep perfectly. You can't help getting the most delicious jam or jelly you ever tasted! Complete Booklet of Recipes with every bottle. If your grocer does not have Certo, send his name and 40c and we will mail you a bottle. Write today for revised Certo Booklet of 73 recipes (free).

How to Make Red or Black Currant Jelly

Crush well about 3 1/2 lbs. ripe fruit. Add 1 cup water, stir until boiling, cover pan and simmer 10 minutes. Place in jelly bag and squeeze out juice. Measure 4 1/2 cups juice into large saucepan. Measure 7 1/2 level cups (3 1/4 lbs.) sugar in separate pan. Bring juice just to boil, and begin to add sugar slowly with constant stirring, taking about 5 minutes to add sugar, keeping juice nearly at boil. Then bring to boil, and at once add 1/2 bottle (scant 1/2 cup) Certo, stirring constantly, and bring again to a full boil, for 1/2 minute. Remove from fire, let stand 1 minute, skim, and pour quickly.

THE NEED OF HOSPITALS

Hospitals are the product of Christianity. They are found only in Christian lands or where they have been established through Christian agencies. The spirit of christianity is that of help and blessing to humanity. Its mission is to serve in any possible way. In hospitals it is manifesting this spirit in contributing to the physical welfare of humanity.

The modern hospital, with its attendant physicians and surgeons, its efficient management and nursing staff, its cleanliness and special facilities for treatment, brings great physical blessings which without the hospital would be impossible. Skill, knowledge, and efficiency removes serious physical troubles, disseminate much valuable knowledge, all resulting in the prevention of much human misery and the saving of many lives. The more favorable conditions of hospitals make these results possible where otherwise there would be failure. These are the product of specializing and concentrating in the cure of disease.

The Miramichi Hospital is doing its full share of this good work. From the Town and all parts of the County people of all ages, with all kinds of physical maladies come for treatment, and a full measure of success rests upon the work done there. All diseases cannot be cured, but many are helped and cured which would not be if there were no hospital in Newcastle.

The time is now when the opportunity of the hospital is greater than its capacity, and more room is urgently needed. The building of a Nurses' Home will give added room in the hospital and give the nurses much more comfort and inspiration for their work. The quarters now occupied by the nurses will be converted into a children's ward, thus double good will be done; the nurses will be better accommodated and more children can be treated in a more efficient way. Those who contribute will have for their reward the giving of a congenial home to the nurses and the relieving of the physical handicaps and suffering of many children.

N. B. Man Beaten In Ontario Election

So far as can be learned only one native of New Brunswick, was a candidate in the provincial election in Ontario.

J.H. Sproul who is a native of Hampton, N.B., ran in Ottawa, West where J.H. Fisher, Liberal, was elected by a majority of 948. Mr. Sproul's platform, as set forth on printed matter distributed in his interest, was "Sana Nescit Liva".

A Mother's Health Needs Great Care

Care of Home and Children Often Causes a Breakdown

The woman at home, deep in household duties and the care of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand.

When well it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health and that is through Dr. Williams' Pink Pills. Mrs. W.T. Riley, R.R. No. 1, Apple Hill, Ont., has proved the great value of Dr. Williams' Pink Pills to mothers, and tells her story as follows:—"Two years ago, after the birth of my boy, I became very weak and run down. Gradually I lost weight and energy until I was unable to do my housework. I could not sleep, my nerves would twitch and jump so that I arose in the morning with heavy aching limbs and head. Indigestion helped to make the misery worse, and my heart would palpitate terribly. I doctored steadily for a year without getting better, but just dragged along feeling that I would never be well again. But one lucky day, on the advice of a friend, I began treatment with Dr. Williams' Pink Pills. I have taken only six boxes but I wish you could see the difference. I am now able to do my work, go about and enjoy myself. I feel so entirely like a new woman that I advise every weak or ailing woman to try Dr. Williams' Pink Pills and I know they will get beneficial results.

If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Many a business man has missed valuable information by throwing away a circular letter unread. It takes but a moment, and oftentimes means money to you.

Keep Stable Clean

Cleanliness in and around the cattle barn is especially important as milk is a product unusually easy to contaminate with germs and dirt of the stable, and such contamination often results in serious conditions in the individuals who consume the products. Dairy products are very sensitive to surroundings and for this reason the equipment and dairy quarters should receive special care; by adopting precautionary measures you will be doing your bit to prevent the spread of disease among the human family.

FIRST TO ESTABLISH LUMBER INDUSTRY ON MIRAMICHI

Sir Frederic Fraser who recently celebrated his Golden Jubilee as Superintendent of the Halifax School for the blind and who was honored with a complimentary address by Lieut. Gov. Grant, Premier Armstrong and Chairman George S. Campbell, and received several presentations, has a most interesting family history, and has had the unique distinction of having had two grand-fathers in the famous Council of Twelve.

Sir Frederic is the son of the late Dr. Benjamin DeWolf Fraser, who resided and practised his profession in Windsor, N.S. for over fifty years. His paternal grandfather was Hon. James Fraser, a member of the old "Council of Twelve" whose residence was at the corner of Bell's Lane and Water Streets, Halifax. His maternal grandfather was Hon. Joseph Allison, who served in both branches of the Legislature of Nova Scotia, and who resided at "Brookside," Halifax, the present residence of Mrs. M. Dwyer. His paternal great grandfather was Alex. Fraser who emigrated from Farraline, Scotland and was the first to establish the lumber industry on the Miramichi, near Newcastle, N.B. His maternal great grandfather was Hon. C. R. Prescott of Halifax and Cornwallis also at one time a member of the "Council of Twelve."

The old Council of Twelve, who were the rulers of the Province in 1820, was composed of the following: Hon. Sampson Salter Blowers, President; Rt. Rev. Lord Robert, Bishop of Nova Scotia; Hons. Michael Wallace, Charles Hill, Richard Uniacke, Charles Morris, T.N. Jeffrey, James Stewart, John Black, Brenton Halliburton, James Fraser, Hubert Binney, Rupert D. George, Secretary.

Sir Frederic came to Halifax as a young man 50 years ago, founded the School for the Blind with a half dozen pupils, and has made it the wonderful institution it is to-day.

A. Milne Fraser, of Halifax, is a brother of Sir Frederic.

QUESTION OF HOW DRY THE U. S. IS

News that fifty thousand carloads of California grapes are being shipped East this year, says the Boston Globe, offers an interesting sidelight on the much mooted question of how dry we are.

The assiduous statisticians, always quick to grasp an opportunity have dug up figures to show that during the last year prior to prohibition such shipments annually made by the Vineyard State of America, totalled only 15,000 carloads. They further point out that California—which last fall by referendum voted itself into the "dry" column—increased its grape crop acreage from 325,000 acres in 1912 to 714,000 acres to day.

Undoubtedly, much of the grape crop from California will go into the ordinary markets for fruit consumption. Enough will go into grape juice to send a warm thrill through the cockles of the heart of Mr. William J. Bryan, too. The question as to how much will go beyond such mild uses, and in more ardent direction, has already kicked up a stable row among the prohibition forces in the East, which is receiving this visitation of the piteous grape.

Of course grape growing is a legitimate business, and the Government has scarcely interfered. If it did, the Administration would soon be up against the trait growing business interest in California, which is another word for California politics. And California, it is safe to remark, is not due for any

Alone From Uscilug to Milwaukee Via Canada
Eleven-year-old Polish Boy Makes Long Voyage Alone.
TRAVELLING does not tire or trouble this little fellow. Though he does not speak any English other than two or three words which he picked up en-route, he travelled alone from his home at Uscilug on the Russia-Austrian boundary to Milwaukee, burdened only with a small valise and a sheaf of tickets and immigration documents. Koeth Here is his name. Orphaned by his mother's death three years ago, he was going to his father in Milwaukee, who had made arrangements for his transportation.
When Koeth arrived at Warsaw he was conducted by an agent of the Canadian Pacific Railway to Antwerp.
There he was given a ticket almost as long as himself which would carry him through to his destination. Crossing to England he sailed on the "Metagama," being, from the time he left Warsaw, under the care of the Canadian Pacific. The direct mileage from Milwaukee to Uscilug is not by any means the full mileage of his travels. The ship's officers estimate that he ran at least twenty miles a day over the vessel, and the port officials had an anxious time when he made surreptitious peregrinations in search of someone who spoke his own tongue. He was glad, of course, to meet his father, but what an adventure it is to travel far and alone!

EASTERN STEAMSHIP LINES, Inc
INTERNATIONAL LINE
Resumption of Freight and Passenger Service between St. John and Boston
S. S. GOVERNOR DINGLEY will leave St. John every Wednesday at 8 a. m. and every Saturday at 6 p. m. (Atlantic Time) for Boston.
Wednesday trips are via Eastport and Lubec, due Boston about 11 a. m. Thur. Saturday trips are to Boston direct, due Sundays about 2 p. m.
RETURN—Leave Boston Mondays and Fridays at 10 a. m. (Daylight Saving Time) for Eastport, Lubec and St. John.
FARE \$19.00 STATE ROOMS \$5.00
At Boston destination to make via the Metropolitan Line express freight and passenger services for New York and points South and West.

MINARD'S "KING OF PAIN" LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

Mr. A. E. L. ... writes: "I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain, it gives instant relief.

Minard's Liniment Co., Limited
Yarmouth, N.S.

THE POWER OF SUGGESTION

Travelling is becoming more and more of a fine art. Formerly it was regarded simply as a process of getting from one place to another—most tiresome but unavoidable. Now it is looked upon as a joyful undertaking, a delightful interlude in the regular routine of life, especially when the journey is over the lines of the Canadian National Railways. The keynote of the Canadian National Railways is service. That service aims to make the passenger as comfortable as possible and to save him every bit of unnecessary effort. Thinking is a mental effort. Patrons of the Dining Car Service will now find themselves saved that trouble, by a casual glance at the little dodger that is distributed throughout the coaches on all trains to which Dining or Cafe Cars are attached. Upon the dodger, which is printed in both English and French, are several suggestions for a suitable combination of dishes for the coming meal. Prices for a complete menu for breakfast, dinner and supper range from 35 cents to \$1.25. The traveller merely needs to decide what he wishes to pay, and upon entering the Dining-Car he will find himself served as quietly and satisfactorily as he would in any well appointed home.

MILL SAW BILLS

We have just printed a large quantity of Mill Saw Bills, and can supply them to the different mills either singly or in quantities.

MAGIC BAKING POWDER

Magic Baking Powder has been known and used all over Canada for more than 25 years. It has set and maintained the standard for goods of its class. Its use is increasing daily because of its strength, purity and universal satisfaction.

Pure food insures good health. Magic Baking Powder insures pure food.

GRUBS PLENTIFUL

The cut worms, the most destructive of all garden pests is reported to be exceedingly plentiful this season in the rural districts. They have not only destroyed green garden vegetables but in some cases have actually attacked and destroyed potato plants and oats. The continued dry weather is believed to be the cause of the heavy run of cut worms.

A Matter Of Age And Temperament

Eight men having died while playing golf in England, the question is raised whether there is an age limit beyond which it is not safe to play. A physician says that golf is not a very strenuous exercise, and that the mental stress is perhaps worse than the physical exertion, especially in the case of elderly people, who take the game too seriously.

This may be the explanation. Physically, golf is a somewhat leisurely game, with plenty of walking between whacks, besides delays caused by losing balls. Nor is there any need for anxiety or worry; no great result hangs on the score, the hazards represent no real dangers, and the so-called penalties are mere love taps. Your opponent does not try to body-check or tackle you. There is nothing to become excited about.

Yet, such is the perversity of human nature that grave, elderly men, may be seen addressing abusive remarks, not to their fellow human beings, but to a harmless little ball, a slender stick with a bit of metal on the end, or even a grassy plain, a hill, a vale, or a purring brook that to the sleeping woods all night singeth a quietude. All the surroundings of golf links seem to conduce to musty, meditation, serenity, poetry nature study.

But instead of admiring the scene some men grow angry because they do not hit the landscape on the desired spot. For them the sun shines, the winds whisper and the brooks murmur in vain. They are even exasperated by the calmness with which nature views their errors and misfortunes. When all nature smiles they fancy she is laughing at the way they slice or fizzle.

This is the temper which should be avoided by those whose arteries are hardening. They should get into harmony with the landscape and the ball, and recite a few verses from some leisurely poem like the Lotus Eaters, when they miss. In this way golf may lengthen and not shorten their days.

A Caterpillar Year

Providence Journal: The tent caterpillars have wrought havoc along the New England roadsides. They have spread their tents on every wild cherry tree and are a threat to the farmer's orchards. Some systematic attempt should be made to destroy them, either by cutting the infested branches or by burning the nests with kerosene torches. Here is a good work for the Boy Scouts. The farmers themselves, moreover might devote some portion of their energies to the task, though just now they are, of course in the midst of other engrossing labors. It seems to be a great caterpillar year. In Oregon the Southern Pacific Railroad is having a hard time with an army of the pests that has been seriously interfering with traffic on the Albany-Newport branch. The army is a mile long and has moved five miles in a few days, stripping trees and bushes in its progress.

The railroad is using crude oil in combatting the worms, and everybody will hope that it will literally wipe them out before they get much farther in their ruinous advance.

PULPWOOD BILL IS PASSED IN FEDERAL HOUSE

By a vote of 96 to 57, the House defeated an amendment to give the six months' hoist to the Government empowering the

Used After Shaving Keeps Skin Soft and Smooth

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's Itch and Eczema are prevented or relieved.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mononitroacetate of Salicylic acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company are stamped with their general trade mark, the "Bayer Cross."

Mountain-Climbing on Vancouver Island

Cameron Lake showing Mount Arrowsmith in the distance.

Vancouver Island is becoming famous for many things. Among the chief of these is its climate, among the more utilitarian its strawberries; and among the tourist attractions its marvellous scenery, and magnificent drives, its many fascinating trips both by boat and by rail. But, while tens of thousands of visitors holiday in the island every summer, very few of them are aware of the fact that within less than a day's journey of Victoria there are mountain peaks covered with perpetual snow, and massive glaciers, which defy the warmest of the summer sunshine, where those who enjoy that most exhilarating sport, mountain-climbing, may put all of their skill to the test.

The most popular mountain from an Alpinist's point of view is Arrowsmith. It is about six thousand feet high, and to reach it one travels by one of the most magnificent scenic railways on the continent. There is a diversity of country all along the hundred miles from Victoria to Parksville. Parksville is on the east coast of the island, and Victoria, situated at the extreme south of the island is the starting point for the journey. One of the first summits to be crossed is that of the splendid Malahat, about fifteen hundred feet above the sea. Here, from the "Lookout," one looks down on a wonderful panorama of green-embowered hills, narrow winding waterways, the wide stretch of the sea itself and the Olympic mountains on the Mainland in their dazzling dress of ice and snow. After crossing the Malahat there are miles along the shores of the salt water, quick passages through picturesque villages and towns, journeyings among sweet-scented woods which are always gay with flowers.

At Parksville the road divides one branch swinging toward the west. And there begins the first trek in the journey which leads to the everlasting hills. As one nears Cameron Lake, whether one travels by rail or highway, one sees the beginning of the vast forest of Douglas fir, than which there is no finer stretch of timber in America.

Just across the lake from the Chalet one begins the ascent of Mount Arrowsmith.

The particular day when we made the journey was in early June. It was sweet and cool near the water, the bracken thrusting up bracken and tall, maiden-hair ferns just unfolding, all of the trees and shrubs wearing their new dresses of fresh, young green.

magnificence of scene that called forth exclamations of delight.

The Hut was practically buried, for the snow lay deep on the upper reaches. It took us an hour or more to tunnel into it, for although our packer had gone ahead with the blankets, he could not accomplish much alone. But we finally dug our way in, cleared the snow from the windows, made a fire, and before very long the aroma of boiling coffee and fried ham filled the little cabin, and we sat down to eat with ravenous appetites.

The sleep that comes to one on these high, snowy altitudes, far above the slightest sound of life, is deep, dreamless and infinitely refreshing. We awoke at eight the next morning, full of eagerness to continue the climb, which from there on is a real test of strength and endurance.

The final five hundred feet were very steep, and not without danger for the unwary. We had a few tumbles, and slides, which only added to the enjoyment, and when we had pursued our journey to the end our satisfaction was very great. For it was an objective worth striving for.

The view was grand beyond conception, snow-peaks all about it, dazzlingly splendid in the sunshine, clouds of mist lifting from the valleys, and rolling away to give a glimpse of lakes blue as periwinkle, of bare cliff-sides coloured with the tints of the rainbow, and bright, green valleys, and forests of sturdy little jack-pines, while now and then when the clouds would roll up and melt into the blue of the sky, we could glimpse a farther view, and we said it was the sea, and the mountains beyond the sea, but the distance made it almost as vague as a half-forgotten dream.

It is a journey that one can easily make within the day, providing there is no precipitation, and it is a most joyfully exhilarating journey, while the pleasure which the summit disdains to give always stands out conspicuously in the memory of one's experience.

Just before the end.

STUDEBAKER LIGHT-SIX TOURING CAR \$1375

More Cars Shake Themselves to Pieces Than Ever Wear Out

Charge that up to vibration—the constant trembling that causes cars to grow old prematurely by racking the chassis, destroying the "metal life" of vital parts, loosening up bodies and causing squeaks and rattles. Frequent, costly repairs are the result.

The Studebaker Light-Six is freer from vibration than any car of its approximate size or weight yet produced. This has been accomplished largely by machining the crankshaft and connecting rods on all surfaces—a practice used by Studebaker exclusively on cars at this price and not to be found on any other car in Canada selling for less than \$8500.

Aside from its mechanical excellence, the Light-Six is handsome in design, extremely comfortable, sturdy, and we believe the most economical car to buy and operate ever offered at \$1375 or anywhere near this figure. It is powerful, flexible, speedy, easy to handle and convenient to park.

The Light Six is well worthy of the Studebaker name, which for 71 years has stood for unflinching integrity, quality and value.

YOUNG DAUGHTER
MADE WELL

Mother Tells How Her Daughter
Suffered and Was Made Well by
Lydia E. Pinkham's Vegetable
Compound

Vancouver, B.C.—"My daughter is a
young girl who has been having severe
pains and weak and dizzy feelings for
some time and had lost her appetite.
Through an older daughter who had
heard of a woman who was taking it
for the same trouble, we were told of
Lydia E. Pinkham's Vegetable Com-
pound. My daughter has been taking it
for several months and is quite all right
now. It has done all it was represented
to do and we have told a number of
friends about it. I am never without
a bottle of it in the house, for I myself
take it for that weak, tired, worn-out
feeling which sometimes comes to us all.
I find it is building me up and I strongly
recommend it to women who are suffer-
ing as I and my daughter have."—Mrs.
J. McDONALD, 2947 26th Ave. East,
Vancouver, B. C.
From the age of twelve a girl needs all
the care a thoughtful mother can give.
Many a woman has suffered years of
pain and misery—the victim of thought-
lessness or ignorance of the mother who
should have guided her during this time.
If she complains of headaches, pains
in the back and lower limbs, or if you
notice a slowness of thought, nervous-
ness or irritability on the part of your
daughter, make life easier for her.
Lydia E. Pinkham's Vegetable Com-
pound is especially adapted for such
conditions.

GREAT VICTORY
FOR CONSERVATIVES

There are three or four out-
standing facts about this election
which must be observed," declared
Hon. G. Howard Ferguson, when
the swift coming election returns
had shown beyond doubt an over-
whelming Conservative victory in
Ontario.

First it shows that the people of
Ontario are thoroughly imbued
with the necessity of clinging to
British practices in government
and that they would not tolerate
any departure from the principle
of cabinet responsibility. There
has been so much vacillation and
erratic movement, so much want
of stability and lack of policy, in
the last government, that the public
entirely lost confidence in it.
Another thing that I think
weighed a great deal was that
Mr. Drury emphasized every-
where that the old parties had
been discarded by the people for
their want of sincerity, and that
only made more prominent his
own lack of sincerity, and the lack
of adherence to the programme
issued by his party."

Questioned as to the cabinet
which might be formed, Mr.
Ferguson stated that beyond
certain men, obviously of cabinet
rank, and entitled to the first
consideration, he had not consid-
ered the matter.

The Gregory Commission he said
would be asked to make any state-
ment which they might care to.
They will also be asked what they
are doing.

"In any event," said Mr. Fer-
guson, "they will not be allowed
to continue on the present scale.
They have achieved nothing, nor
have they merited the people's trust."
"I have a great sense of apprecia-
tion of the responsibility given
me," declared the new premier,
"and I hope my efforts will jus-
tify the confidence shown in the
very large vote."

"The Government has endeavor-
ed, during the campaign, to carry
on a clean, educative discussion
of the public questions before the
people. After having done so, if
the people do not agree with the
government's policy, I accept
their verdict most cheerfully."

FRANCE WILL NOT
EVEN CONSIDER
GERMANY'S OFFER

The German reparations offer
elaborated in the note delivered
to the Entente Allies remains en-
tirely unacceptable to France, it
is declared in Government cir-
cles at Paris. It makes no appre-
ciable advance over the previous
offers, and France cannot even
discuss it with Germany, for as
was decided at Brussels, the pas-
sive resistance in the Ruhr must
be abandoned before any negoti-
ations can begin.

The note is characterized as
unsatisfactory for four main rea-
sons:

First, because it makes no
mention of abandoning the pas-
sive resistance, which is the first
of the Franco-Belgian condi-
tions.

Second, Germany offers no
definite sum as the total repara-
tions.

Third, in suggesting an impar-
tial International Commission to
fix reparations total Germany
ignores and seeks to violate the
Versailles Treaty, which created
the reparation commission for
exactly that purpose. The
French see no reason why the re-
paration commission should be
supplanted.

Fourth, the suggestions for
guarantees might be open to
discussion if Germany proposed
their administration by the Al-
lies, but if the Germans adminis-
ter the guarantee the French
would expect no satisfactory re-
sult.

The French are still unconvin-
ced, they say, when Germany
pleads inability to pay. They
declare they have seen her liv-
ing sumptuously and that they
know she can meet her obliga-
tions.

Canned Fruits And
Vegetables Are
Now Standardized

Housekeepers run practically
no risk of getting a poor quality
of canned fruits or vegetables if
they will be careful to order by
quality grade. All canned goods
put up in the larger factories must
conform to legal standards, and
these are shown on the label of
the can. The system of stand-
ardizing canned fruits and vege-
tables is explained in the May-
June number of the Agricultural
Gazette by C. S. McGillivray,
the Chief Canning Inspector of
the Department of Agriculture at
Ottawa.

The four legal standards of qual-
ity for fruits and vegetables are—
"Fancy Quality," "Choice Qual-
ity," "Standard Quality," and
"Second Quality."

In addition to general standards
for vegetables, specific grades
have been established for canned
peas. There are as follows: Size
No. 1, Size No. 2, Size No. 3, and
Size No. 4. The size is deter-
mined by the opening in the sieve
through which the green peas
will pass.

Canned fruits are graded for
quality and syrup. In grading
for syrup, the terms "Heavy Sy-
rup," "Light Syrup," and "With-
out Sugar" are employed. If the
pucker so desires, he may substi-
tute the words "Packed in Syrup-
less sugar," (stating the percentage
of sugar in the syrup.)

The terms denoting quality and
grade must appear upon the main
portion of the label in plain type
of a size not less than 3-8 of an
inch in height. Thus, in the case
of peas the label must indicate
the quality and size of the peas
contained in the can, thus "Fancy
Quality," size No. 1". In the
case of fruit, it must indicate the
quality of the article as well as
the consistency of the syrup so
far as sugar content is concerned
thus "Fancy Quality— Heavy
Syrup."

DROUGHT FELT
BY FARMERS IN
ALL SECTIONS

The Provincial Department of
Agriculture in its semi-monthly
report upon crop conditions has the
following:—Local showers during
the past fortnight have done little
to relieve the country wide droughty
conditions. Cool weather with a
light frost on the fifteenth pre-
valled until the nineteenth when it
changed decidedly warmer and re-
gistered 94 degrees. Upland pas-
tures and hay fields suffer for rain
interval and Marsh does not lack
moisture. Hay is only fair, and in
the North Shore counties it will
be a light crop. Milk production
is below normal in all parts of the
Province. Oats, barley and wheat
are growing strongly. The total
acreage sown to these is less than
last year on account of many men
having been compelled to leave
farm work before seeding, was com-
pleted to fight the forest fires.
Planting potatoes is completed and
in the St. John river valley dis-
tricts these are showing above
ground. No change in early es-
timate of comparative acreage viz.
seventy five per cent of last year.

PREMIER PLEASED
WITH ELECTIONS
Hon. Dr. P. J. Veniot, Premier
and Minister of Public Works when
asked to express his opinion on the
Ontario election, smiled and repli-
ed that he was glad to see that at
least they were getting back to
stable government and he hoped this
was the death knell of group gov-
ernment in Canada.

RED ROSE
COFFEE For
particular people

"How good it smells"—for it is
packed fresh roasted, and the
doubly sealed can preserves its
rare aroma and flavor.

SMP Enamelled WARE
There's nothing like piping hot, delicious
soup to start the hearty meal. Here is a fine
pot that will do a lot to help you make good
soup—the SMP Enamelled Ware London Kettle.

Canada Confident
of the Future

CANADA is endeavor-
ing to regain her
after-the-war stride
in the midst of many
difficulties, — debt,
deflation and depression being
some of them.

Quack remedies and academic
theories beset her path on every
side. Some suggest that our debt
worries can best be eased by go-
ing further into debt. Others
preach blue ruin, decry their own
country and indulge in mis-
chievous propaganda generally,
while still others look for a new
social order or some miraculous
sign to indicate a better coming
day—all this in apparent forget-
fulness of the fact that just as
there was no royal road to win
the war, there is now no royal
road to pay for it or regain our
former buoyancy, vigor and
confidence.

Some are leaving Canada hop-
ing to escape taxation, only to
find there is no escape anywhere.
In seeking for easy remedies too
many of us overlook the fact
that the greatest remedy is hon-
est, hard work faithfully and
intelligently performed, accom-
panied by old-fashioned thrift.

It takes time, it takes patience,
it takes grit. But every Canadian
knows in his heart that Canada
is coming through all right.

Our Experience Proves It

Look back over the path Canada
has trod. The French Colonists,
cut off from civilization by 3,000
miles of sea, faced a continent—
a wilderness—without the aid of

even a blazed trail. They had
to fight savages, frosts, scurvy,
loneliness and starvation.

The United Empire Loyalists
subdued an unbroken forest in
one generation, growing their
first wheat amid the stumps and
snags of the new clearing.

The Selkirk settlers came to
Manitoba when the prairie was a
buffalo pasture, and grew wheat
where none had grown before
and where those who knew the
country best at that time said
wheat would never grow. To-
day the Canadian prairies grow
the finest wheat in the world.

In proportion to population Canada
stands to-day among the wealthiest
nations in the world, with average
savings on deposit per family of
\$800. Canada's foreign trade per head
of population stands amongst the
highest of the commercial nations,
being \$192 per capita in 1922-23, as
compared with \$135 in 1913-14, the
"peak" year before the war.

New Opportunities for
Canada

In Canada, although prices in the
world markets fell below war level,
our farmers reaped last autumn the
largest grain crop in Canadian his-
tory, and Canada became the world's
largest exporter of wheat, thus in
large measure making up for lower
prices.

Last year, Great Britain, after an
agitation extending over thirty years,
removed the embargo on Canadian
wheat, and a profitable and practically
unlimited trade is opening up for
Canadian stockers and feeders.

"The 20th Century belongs to
Canada"—if Canadians keep faith.

The next article will suggest prac-
tical opportunities for profit making
on our Canadian farms.

Have Faith in Canada

Authorized for publication by the
Dominion Department of Agriculture
W. R. MOTHERWELL, Minister. Dr. J. E. GIBSDALE, Deputy Minister.

Local and General News

TENNIS CLUB / DANCE

The dance given in the Town Hall last Thursday evening was largely attended and enjoyed by those present.

NEWSPAPER MERGER

The Telegraph, Times and Journal of St. John has amalgamated and the first issue of the new paper "Telegraph-Journal" will appear to-day.

SUPPER IN REDBANK

The R.V. Grl's Club of Red Bank, N.B. are having a supper in Park's Hall, July 6th for the benefit of the new church. Supper commencing at 7:30 p.m.

PRESBYTERY MEETING

An interesting and successful meeting of the Miramichi Presbyterial was held last Wednesday and Thursday in Campbellton. A full account of the meetings will be published next week.

Many a business man has missed valuable information by throwing away a circular letter unread. It takes but a moment, and oftentimes means money to you.

WENT TO JAIL

Ethel Demsey of Gray Rapids and Tom O'Hara of White Rapids, who were convicted of manufacturing booze the other day before Judge Lawlor were fined \$200 each or six months. They went to jail.

DOMINION DAY

Dominion Day was quietly observed here yesterday. All places of business were closed and many went out of town for the holiday. The weather was delightful and many picnics were indulged in by the residents.

MISSION AT NELSON

A mission was held at St. Patrick's Church, Nelson last week. A large tent was erected in the field of Mr. David Sullivan, at the corner of the Bridge Road, where services were held every day. The early morning Mass was especially for the working men of the mills, who were thus spared the long walk to the church.

SCHOOL HOLIDAYS

The school children once more are free. Friday marked the last day of the scholastic year. Graduates leave behind them some of the happiest days of their lives, although few of them believe that at the present time; and those in the lower grades have thrown off the responsibility of learning lessons which is a great weight to many in the days of childhood. We wish all to be happy and enjoy to the full their holiday.

RAIN AT LAST

The rains which were so long in coming arrived Tuesday and continued on Wednesday. The good which they will do to the farms and gardens cannot be overestimated. They will also have a large influence over the serious forest fires. Unfortunately, the rains were not steady but came in showers. The soil in this section was exceedingly dry and the forest fires becoming very alarming. These rains are the first of any consequence in weeks.

THE WONDERFUL FOOD-TONIC FOR ANEMIC GIRLS
Scott's Emulsion

BASEBALL

On Tuesday evening Newcastle defeated Douglastown by a score of 7-3. Chatham defeated Loggieville 6-0.

RETREAT

A retreat for the Anglican Clergy of the diocese was conducted last week at Rotherav by His Lordship the Bishop of Ottawa. Rev. W. J. Bate was in attendance.

RECEIVED DIPLOMA

At the Sherbrooke, Que., Hospital Thursday night, Miss Gladys White of Red Bank, N.B. was one of the eight young ladies who received diplomas.

CALL FOR BRIDGE TENDERS

The Provincial Department of Public Works is calling for tenders for building the Gulliver Bridge, Parish of Hardwicke, Northumberland county also for building the Semiwagen Mouth Bridge, Parish of Nelson, Northumberland County.

NEWCASTLE BRANCH OF THE CANADIAN RED CROSS SOCIETY

The Secretary gratefully acknowledges the following contribution for a Special Cause:
Mrs. E.H. Sinclair..... \$5.00
Previously acknowledged..... \$95.00
\$100.00

"After all there is no tea but like MORSE'S." This is what the visitor to New Brunswick said after being absent for nearly twenty years in the United States. "I tried all the teas they had over there," she continued, but not one of them was as good as mother used to make, and she always used MORSE'S"

PROHIBITED FROM WOODS

Travel permits for the woods will be prohibited until after July 3rd. This was decided by the Advisory Board of the Department of Lands and Mines after considering a number of requests from persons who wished to enter the woods for the holiday, the risk being considered too great from the viewpoint of fire.

Many a business man has missed valuable information by throwing away a circular letter unread. It takes but a moment, and oftentimes means money to you.

Red Hot July Days Hard On The Baby

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does not come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

NEW LOCOMOTIVES FOR DOMINION ATLANTIC

Yarmouth—The Dominion Atlantic Railway is adding to its equipment thirteen new locomotives from the shops of the Angus Locomotive Company at Montreal, and already two of those locomotives have arrived. They will replace the engines which have for years been serving the purpose of the D.A.R. Co.

HAD THE LAUGH ON JAILER

Prisoner in Tower of London Escaped and Literally Left His "Host" in Embarrassment.

During that period in English history when it was "quite the thing" to be shut up in the Tower of London the prisoner, says a writer in Chambers' Journal, could live comfortably. He could order what furniture he pleased—and even plate and tapestries—but there was one condition: he could take nothing out of the tower again. If he went out by way of the scaffold it did not matter much; but if he was acquitted or escaped his expenditure was a total loss. All the furnishings became the perquisites of the lieutenant—a circumstance from which we may confidently infer that he encouraged his prisoners to make themselves as comfortable as possible, regardless of expense. Sometimes, however, the lieutenant met a stone as hard as himself—in other words, Greek met Greek. Such a one was Sir William Seymour, afterwards duke of Somerset. Though not at all blessed with wealth, the knight ordered expensive tapestries, silver plate and the best of furniture while the lieutenant stood by and rubbed his hands in anticipation of his future inheritance.

Sir William Seymour, however, noticing that a cart came almost daily to deliver hay and fagots at the entrance under the Bloody tower exactly opposite his prison, conceived the idea of escaping. A friend smuggled a sloop hat, a false beard and a smock to him, and one day while the cart was inside delivering his goods Sir William strolled out, mounted the driver's seat, turned the horse round and calmly drove out of the Iron gate. The horses awaited him; he took boat opposite Greenwich and reached a ship that he had chartered to carry him to France.

The matter naturally made trouble for the lieutenant, but he consoled himself with the thought of the rich perquisites that Sir William had left. What, then, was his indignation to find that the fugitive had paid for none of the things, and that he himself was sued by the tradesman who had supplied them! Even so, he might have recovered at least some of his money by the sale of the goods, but to his disgust he found that the facetious knight had cut up the most valuable tapestries to fit the fireplace.

Ingenious Washington Youth. One small Western boy has solved the fisherman's problem of getting plenty of fishworms without digging for them. He coaxes them forth from their hiding places through the magic of electricity. This lad, Joe Siegfried of Kennewich, Wash., though only ten years old, has devised with a little help from his father a special apparatus that is the champion fishworm coaxer and extractor. The apparatus consists of a telephone magneto, which delivers current at 80 to 90 volts. This magneto is connected to two heavy wires or electrodes set in the ground six or eight inches deep and fifteen to eighteen inches apart. When the magneto is operated the current flows between the electrodes, and many worms in the vicinity receive a sensation which causes them to hurry to the surface at full speed. Joe has counted as many as fifteen worms coming out at one time. He has had inquiries as to the charge for worms if purchased by the gallon for medicinal purposes, but his school work keeps him too busy and he only uses the apparatus for furnishing fish bait to his many young friends.

Like Modern "Put and Take." Almost identical in principle with the present-day game known popularly as "Put and Take," is the game of "Trendel," particularly popular with the Jewish people during the Chanuka holidays. It is a very ancient game and is said to have been known to the Greeks and Romans. "Trendel" is from the German word "drehen," or turn, hence the name for the toplike instrument with which it is played, explains the Detroit News. The trendel has inscribed on its four sides the Hebrew letters "nun," "gimel," "heh" and "shin," which are the initial letters of the words "Nes godol hoyo shom," meaning "a great miracle was performed then." In playing the game the consecutive meanings given these letters are "nichts," "gans," "halb" and "stetl." Thus when the top falls with the "nun" upward the player turning the top gets nothing, "gimel" takes the whole pot, "heh" takes half, a "shin" calls for "putting" or "adding" to the pot.

Astronomers Were Wrong. A sixty-inch reflecting telescope purchased for the Harvard college observatory nearly 20 years ago and later abandoned as unsatisfactory has been proved by recent successful tests to be of decided value. It is one of the four largest reflectors in the world. Made 30 years ago in England by A. A. Common, a famous telescope maker, it was bought by Harvard in 1902, for a special type of visual work, but when set up and tested was called unsatisfactory. Since that time astronomers have learned much about the characteristics and special uses of big reflectors, and the recent tests promise good results with this telescope in radiometric work.

Modern Youth. Marjory (aged seven)—That little boy next door is always trying to kiss me.
Her Brother (aged eight)—Nay, nay, mind, Marjory; you know we were young ourselves once.—Boston Transcript.

Freight Wreck Ties Up Traffic On C.N.R. At Harcourt

The breaking of a wheel on a car of railway coal attached to Extra 3273 north in charge of Conductor J. Cormier was responsible for a six hour tie up of traffic on the C.N.R. Northern Division at Harcourt late last Thursday night.

The accident happened about 10:30 and besides derailing some six cars which were behind the car of coal, it tore up the track for some distance.

An auxiliary was immediately dispatched from Moncton and made record speed to the scene of the mishap and the line was reported all clear again shortly after four o'clock.

French Liner Paris Deprived Of Liquor

New York June 26—The French liner Paris, the third vessel challenging United States dry laws to be visited for federal officials, was deprived of her excess beer and wine late to-day.

Thirteen kegs of beer were dumped overboard and several thousand bottles of wine were carted to government warehouses.
