Mr. Francois Langelier, M.P., as counsel for the Quebec Government, asked the following question: "It has been insinanted here that you played an active part and that you had some interest in the settlement of Armstrong's claim. Is that true?

Stamp It Out.

The fact that hog cholera exists in the outskirts of the city is a matter of grave concern to farmers and dealers. Canada has been wonderfully free from the contagious diseases that elsewhere carry off live stock, and not an unnecessary moment should elapse in taking steps to eradicate the disease. Dr. Allen's suggestions are sweeping ones, but it would be eriminally unwise to try half-way measures. Not only must this precautions may be taken against future outbreaks. If it was brought in from the States enter care must prevent it from being eritar care must prevent it from being brought in again—if it was induced by local extra care must prevent it from being brought in again—if it was induced by local causes, these must be removed with vigorous

Many of the health officials and dealers in have found fault with The World for publishing the facts in this matter, but we feel first rate under their dis pleasure. The truth was bound to come out sooner or later, for the disease was spreading, and we think it was infinitely preferable that the hog trade should sustain a slight shock than that the sale of diseased pork should continue throughout the city until an epidemic broke out among the people. Dr. Allen had had the case in charge for two weeks, the detectives were crawling around. weeks, the detectives were crawling around in the trail of the butchers—hogs were dying, farmers selling them to butchers and butchers to customers—in good faith, one who is somewhat partial to porkehop may

The Republican party is the party of protection in the United States and Major McKinley represents the principles of that dominating party more completely, perhaps, than any other individual. He is opposing Governor Campbell in the Ohio State elections and delivered his opening speech at Niles on Saturday before an immense dominating party more completely, perhaps, than any other individual. He is opposing Governor Campbell in the Ohio State Niles on Saturday before an immense gathering. Soon the struggle will open all along the party line for Maj. McKinley has really fired the signal shot and the Republican speakers of the country will follow his cue. On the silver question he came out very explicitly in favor of making a gold and silver dollar each intrinsically worth a dollar. The Demograte have in worth a dollar. The Democrats have, in defiance of their best judgment slowly moved into a war-like position against this principle. To treat 80 cents worth-of silver as a dollar simply invites the world to dump its cheap silver in the American market, to deplete the Federal treasury of gold and substitute heaps of silver that is 20 per

cent. deficient in value.

But that in which we have an interest chiefly is Maj. McKinley's remarks on the tariff question. He discusses it as a broad principle. The protective tariff is a surer means of raising revenue than is a revenue tariff, for even in times of war it has but failed three to promptly supply the demands failed thrice to promptly supply the demands of the public service in the United States.
And in peace it never failed. The revenue
tariff taxes and grinds down home production, while protection levies toll upon the tion, while protection lavies toil upon the foreigner who comes to compete with the domestic producer. By either system must revenue be created for the maintenance of government—one exacts it from the foreign producer, the other would draw it from the mattre producer and let the outsider have mattre producer and let the outsider have full swing in the American market. Leaving containing the latter of the matter of the full swing in the American market. Leaving patriotism aside and thinking only of the material interests of the individual citizen, an Ohion is liable to declare for protection. The conditions being largely identical, so, too, must a thoughtful Canadian decide. In the United States as in Canada protection has been assailed with dire prophecies of disaster and a great army of croakers have foretold decay—a decay that neither comes nor gives any sign of approach. In Canada, by a faithful application of the protective principle, we let the conditions of the protective principle, we let the conditions of the protective principle. application of the protective principle, we ket. can achieve the results that prove the United States to be in the van of the world's pros-

Picknicker's fast mile in 1.39% at Westchester was cleverly done, after Clayton had waited with the colt to the last furlong. Then he brought him up, and eleverly stalling off the challenges of Homer and Ambulance won a very fast race.

The Traders Can Play Cricket. It will be remembered that, when the doughty knights of the bat of the Traders and British teams met at Rosedale some little while ago the latter inflicted upon the former a six wickets' defeat. Miles batted in faultless style for his 28 not out, while Garrett, Kydd and Simpson divided the honors at the bat for the British. Subjoined is the score:

Cor. King & Victoria-sts., Toronto ceipts were so loads, including to sheep and lambs, 80 hogs and 500 calves. Total receipts last week were 2728 cattle, 2265 sheep and lambs, 1017 hogs; fees \$48.79.

CATTLE—Dull and weak. Owing to the inactivity in the English market there was no demand for export cattle and prices were about 25c per cwt cheaper. There was only one buyer on the market and he took 5 carloads at 446 to 5c per lb; average weight of animals taken was about 1200. Butchers' cattle were off \$1 to \$2 per head, prices ranging from 2½c to 3½c per lb, while for extra choice a fraction more would probably have been paid. Good fat animals weigh ing 925 to 1028 generally went at 3½c.

STOCKERS—There were not many offered; for the few in there was no inquiry. The want of sufficient shipping facilities is the principal cause, but an improvement in this respect is looked, for next week. One bunch averaging about 875 lbs sold at 36; 11 bulls averaging 1000 lbs changed hands at 24c.

SPHINGERS—Were in fair demand at \$90 to \$40.

SPHINGERS—Were in fair demand at \$90 to \$40.

SPHINGERS—Were in fair demand at \$90 to \$40.

SPRINGERS—Were in light supply and demand was good for light fat at \$5.50 to \$5.75; stores were not wanted at any price.
CALVES—Were plentiful and slightly easier at \$2 to \$7.

SHEEP AND LAMBS—Sheep were in fair demand at \$5 to \$5.50 per head for shipping and \$4.25 per head for butchers'. More lambs offered than wanted and prices were easier at \$3.50 to \$3.75. A bunch of 48 sold at the outside figures and 30 picked fetched \$4.25.

Grain receipts were larger to-day than for some time. Wheat steady, 400 bushels selling at 35c to 39c. Barley sold once at 54c. Hay was in fair supply and steady; new sold at \$11 to \$13 and old at \$14 to \$16. Straw \$9 to \$10. Dressed hogs \$7 to \$7.50.

St. LAWRENCE MARKET.

Gossip from Chicago.

Kennett, Hopkins & Co. to R. Cochran: Room traders hammered wheat nearly all day, their offerings going into strong hands apparently until shortly before the close. They succeeded in holding December below \$1.04\( \). The closing cales reporting wet weather and higher prices in England, and some engagements for export having been made at New York, scalpers undertook to cover with usual result. The market advanced 1½c and closed nearly at the top.

J. J. Dixon & Co. 's correspondents: After noon, when private advices stated that London daily appears predicted? 66 dexport duty would be glaced on wheat by Russia, speculative buying farmed leading futures to a strong closing. This seems to us to be merely a local short scare, as in fair supply and steady; new sold at \$11 to \$13 and old at \$14 to \$16. Straw \$9 to \$10. Dressed hogs \$7 to \$7.50.
