"Corsican" Hit Iceberg Hidden in Dense Fog But Continues Voyage

Captain Cook of Allan Liner Sends Reassuring Message That Steamer Was Going Slowly and Sustained Slight Injury—Accident Occurred Some Hundred Miles Off Belle Isle.

MONTREAL, Aug. 12.—(Can. Press)—Word came to Montreal to-night from Capt. E. Cook of the Allan liner Corsican that his vessel struck an iceberg this afternoon in the vicinity of Belle Isle. The Corsican was proceeding slowly, and the damage, which is reported as slight, is above the water line. The vessel will proceed on her voyage to Liverpool. The message from Captain Cook, which came to the Allan Line office here, is as follows: "Corsican struck an iceberg this afternoon at 4 o'clock while going very slow. Stem injured above waterline, and ship is making no water. Will proceed on voyage." Earlier reports that the Lake Champlain and the Scandinavian were proceeding to the assistance of the injured vessel are without confirmation. The signal service report shows that the Scandinavian was some 300 miles away at the time of the accident. The position of the Lake Champlain is not definitely known, but she passed Belle Isle at 8 a.m.

IN DENSE FOG.

The exact position of the Corsican when she struck is not stated, but the accident is thought to have occurred some hundred miles east of Belle Isle, judging by the latest reports from the signal service. The signal service report from Belle Isle shows dense fog prevailing, and this is probably the cause of the collision with the berg, and also accounts for the fact that the vessel was proceeding slowly. The Corsican carried 25 first-class, 62 second-class, and 200 steerage passengers, and sailed from Montreal for Liverpool last Friday morning at 9 o'clock.

The conflicting nature of the reports as to the extent of damage to the steamer and the proffered assistance of other steamers recalls an outstanding feature at the investigation into the sinking of the Titanic.

DARROW GIVEN VERBAL FLYING

Job Harriman and Lincoln Stephens Also Denounced by Prosecuting Attorney.

LOS ANGELES, Aug. 12.—(Can. Press)—Alternately denouncing Clarence E. Darrow as a corruptor of men and lauding his brilliancy of mind, District Attorney W. J. Ford made the opening argument in the Darrow bribery trial to-day. Denunciation extended to other connected with the defence of the Chicago lawyer to Job Harriman, whom Ford called an accomplice in the alleged bribery of jurors; to Lincoln Stephens, designated as a "Christian anarchist," and to other defence witnesses of lesser importance. Time after time Ford assailed Darrow personally, either because of his philosophical teachings or his conduct of the McNamara defence. Throughout the day the man long regarded as one of the country's foremost champions of organized labor, listened with apparent unconcern to successive arrangements of himself, his friends and the cause he represented.

The climax of the prosecutor's denunciation was reached in his charge that Darrow, by his teachings, was responsible for the blowing up of the Times Building and its attendant fatalities. J. B. McNamara, he said, had been deluded by the doctrines advocated by Darrow. At another time the speaker referred to the defendant as "his brilliant gladiator of the courts."

Ridicules Alleged Plot.

The theory of the defence that Franklin and John H. Harrington were actors in a plot to ruin Darrow was ridiculed by the prosecutor. "If there was any 'frame up' in this case," he said, "it was between the district attorney and Lockwood to trap Franklin, and they did it."

To-morrow attorney Horace S. Appell will make the opening argument for the defence.

No Melon Cutting By C.P.R. Directors

MONTREAL, Aug. 12.—(Can. Press)—There were no sensational developments at the August meeting of the board of directors of the Canadian Pacific Railway, and only routine business was transacted. The usual quarterly dividends of 2 per cent. on the preference stock, and 2 1/2 per cent. on the common were declared, this, of course, including distribution from the proceeds of land sales and other extraneous assets. The annual report was considered, and in due time will be made public.

Sir Thomas Shaughnessy presided, and those present included Sir Wm. Van Horne, Hon. Robert Mackay, R. B. Angus, C. Hosmer, D. McNicoll, E. B. Osler and W. D. Matthews.

There was nothing to substantiate rumors of a further issue of stock.

Forestalling Germany in Panama

LONDON, Aug. 12.—(Can. Press)—The Royal Mail Steam Packet Company, it became known to-day, has given orders to a Belfast shipbuilding concern for four new 650-foot passenger liners for Panama Canal traffic to meet anticipated severe German competition. Mr. Mayhew, an official of the Royal Mail Steam Packet Company, in an interview to-day expressed the opinion that there was no occasion to be disturbed by the action of the American senate in passing the Panama Canal bill. He did not believe the American Government would entertain a step so calculated to deprive the canal of a considerable source of revenue. In any case, he thought the matter could be amply arranged without making comments distasteful to the United States.

LONDON TO HAVE CIVIC CAR LINES

Hon. Adam Beck Discovers That City Can Outgeneral Street Railway in Use of Streets.

LONDON, Ont., Aug. 12.—(Can. Press)—There is a good chance that the report on the electrification of the London and Port Stanley railway will be submitted to the consideration of the city council without considering the question of street railway purchase.

Rumor has it that some weeks ago, Hon. Adam Beck discovered that there was nothing in the street railway by-law which would prevent the city from building railways on any street in the city where the lines of the company are not in existence.

The by-law is clear enough that the street railway company has a prior right to build upon any street which another company might propose to build upon. It does not seem however, that the clause took note of the city itself building such line or lines.

If this contention is correct, it opens the way for the city to bring in radial lines at will. It makes possible also the building of sidings to factories not now enjoying direct railway connection.

SCORER WAS FATALLY SHOT

Seaforth Lad Stepped Out After Hoisting Danger Signal and Cadet's Bullet Killed Him.

SEAFORTH, Aug. 12.—A fatal shooting accident occurred at the rifle buses this afternoon when Tommy Blues, son of Thos. S. Blues, grocer, who was scoring, was accidentally shot dead. He had taken the place of the regular scorer and had registered an outer for one of the cadets, who took considerable time in sighting for his next shot. Young Blues, it is thought, took this delay as indicating doubt regarding the previous shot. Putting up the danger signal, he stepped out in front of the target just as his mate fired. The bullet entered the right side beneath the collar bone and came out the back at the left side, causing death.

BRAKEMAN'S SLIP FATAL

BELLEVILLE, Ont., Aug. 12.—A fatal accident occurred in the G. T. H. yards here this evening. The victim was George O'Neil of this city, employed as a brakeman on the road. In endeavoring to catch an engine he slipped and fell in such a manner that a wheel passed over him, inflicting terrible injuries. O'Neil was 28 years of age and unmarried.

BORDEN NOT GOING TO GERMANY

LONDON, Aug. 12.—(C. A. P.)—The Canadian Associated Press understands that there is no foundation for the report that Premier Borden contemplates a flying visit to Germany.

Soft Felt Hats \$1.95

The Dimeen Company have some special high-class lines in soft felt. All of very fine quality, by the best of English makers, for \$1.95 each. These hats are regularly worn \$3 and \$3.50 and are advance fash styles. The soft, light colored felt hat is the proper thing for early fall wear and this opportunity should appeal to the man who desires to dispense with the straw and wear the soft felt between seasons.

ATROCITIES BY MEXICAN BAND

Train Looted and Soldiers and Other Passengers Victims—Two Newspapermen Among Slain.

MEXICO CITY, Aug. 12.—(Can. Press)—Thirty-six soldiers and more than twenty passengers were slaughtered by Zapatistas in a canyon one kilometre north of Tlaxman, 120 miles southeast of Mexico City, yesterday, when a passenger train southbound from this city was attacked from ambush. Only meagre details had reached this city tonight. So far as known, only a part of the train crew escaped. The first news of the assault were sent to Mexico City by Conductor Martin and Collector Dominguez, who, although wounded, had managed to make their way to Yustepec, 12 miles away. They were forced to steal thru the Zapatista lines and did not arrive at the telegraph station until this afternoon.

Horrible Atrocities

Not satisfied with robbing the victims in an ordinary manner, the soldiers of the men and women were chopped off with machetes, that rings they wore might be more quickly obtained. Ornaments were torn from ears of women and their bodies were otherwise mutilated.

Among the passengers were two newspaper men, and they were among the killed. They were on their way to interview Zapata, the chief of the rebels.

One of these, H. L. Straus, a native of Uruguay, and consular agent of his country in this city, was employed at the time on The New York Herald. He was making this trip to see Zapata, as a representative of El Imparcial. The other was Ignacio Herreras of El Pais.

The ill-fated train left Mexico City yesterday morning. Most of the passengers belonged to the farmers and lower classes. The soldiers, who had been retained to act as guards, were from the Eleventh Battalion, commanded by Lieut. Reynosa.

Acting upon information brought to them by fugitive members of the train crew, authorities of Yustepec notified the authorities who prepared to send a punitive expedition to the scene. They were not got under way until late today. Another train was sent from the north towards the scene of the massacre to recover the bodies and give aid to any wounded who might be found.

BEHAVE THEY HAVE RING THEF

Detective Goes to Buffalo to Bring Back Man Accused of Robbing Jewelry Store Six Weeks Ago.

Detective Young of the Toronto Detective department left for Buffalo yesterday to bring back to the city Alfred Dickson, the man who is believed to have been responsible for the robbery of Ellis Bros., Ltd., jewelry store, 165 Yonge Street.

About six weeks ago the window of the store was broken and six valuable diamond rings. This occurred about midnight and was not discovered until the thief had made good his escape. The next the Toronto police heard of the matter was about a month ago, when word was received from the Buffalo police that a man arrested there as a vagrant had been attempting to sell the rings at one of the pawn shops. Only five of the rings were recovered.

Dickson was at the time sentenced to a thirty-day jail term by the Buffalo police magistrate, and his term having expired he has been handed over to the Toronto police.

CHINESE GOVERNMENT WANTS BEREAFORD.

LONDON, Aug. 13.—(Can. Press)—China, the Peking correspondent of the London Daily Telegraph says, he understands, has offered the post of advisor to the Chinese Government to the American Ambassador at Constantinople, who, it is stipulated, would not be the American Ambassador, but a Chinese official.

FIVE KILLED IN TRAIN WRECK.

SEATTLE, WASH., Aug. 12.—(Can. Press)—Five persons were killed and several injured last to-night when the Everett train of the Chicago, Milwaukee & Puget Sound Railway crashed thru a bridge half a mile west of Keechelus, 67 miles east of Seattle. The train was a double-headed, 25-gauge and five of both engines were killed. Mrs. Simon Jones of Seattle was the only passenger killed. The railroad officials say no other passenger was injured.

UNIFORMITY IN FREIGHT RATES IS GREATEST DEMAND OF WEST

G. T. Somers, Back After Six Weeks' Tour, Thinks Equalization by Railways and Bounty on Manufacture of Flour Would Remove Great Bulk of Grievances.

The great needs of Western Canada are equalization of freight rates and flour mills is the impression of G. T. Somers, president of the Sterling Bank, who reached Toronto last night after a six weeks' tour of the western provinces.

Touching on the vital question of railway rates he said: "The people of the western provinces are highly incensed over the local freight rates, and are demanding that an equalization be made and that either the rates in the west be lowered or otherwise equalized with these charged in the east."

A Bumper Crop.

There is no doubt that the grain crop of the west will be a bumper one in the history of the country," said Mr. Somers. "Harvesting is pretty general. In Northern Alberta there has been a little too much rain, but weather conditions there are now ideal. Barley, flax and oats are looking exceptionally well. In some parts of the provinces the wheat yield is not as high as was formerly expected, but the west as a whole will have a large average yield and the sample is very fine. Some new wheat has already been shipped to Calgary."

"The wheat crop is estimated by conservative people to be about 255,000,000 bushels, out crop over 200,000,000 bushels and with barley, flax and other grains, the total is expected to be about 500,000,000 bushels. If good weather conditions prevail until the end of harvesting, the money return to the west will be enormous, somewhere about \$300,000,000."

Mixed Farming.

In a great many districts farmers are realizing the necessity of mixed farming and proper cultivation of the land. Around Regina and Moose Jaw crops are exceptionally good and the

yield will be very heavy per acre." Speaking of western real estate he said that while central properties in cities and towns undoubtedly had substantial values, subdivision, prepositions which were being sold almost exclusively to easterners and Englishmen, were regarded by men of affairs in western cities as a huge joke. "While there may be subdivisions that have merit, I would strongly advise anyone investing in real estate of any kind in the west to see it before handing over the money," said Mr. Somers.

Have Real Grievances.

Western people have some real grievances which should be adjusted, he continued. "If they could have freight rates equalized and the government could see its way to pay a bounty on the manufacture of flour for export, I believe that the western provinces would be dotted with flour mills, and, further, that it would satisfy the people of the west very largely and do away with any cause of complaint they may have at the present time. If the wheat were milled out there and the flour exported there would be plenty of ofal with which to feed stock. What farmers require is such ofal."

CLERK REVEALED DETROIT GRAFT

Schreiber Made Voluntary Statement Implicating Aldermen Three Days After Being Ousted.

DETROIT, Aug. 12.—(Can. Press)—All doubt that the alleged confession of Edward Schreiber, clerk of the common council, was the basis for the sixteen arrests made in the councilman's "graft" cases last week, was removed this afternoon when Prosecuting Attorney Hugh Shepherd, in an interview, told the details of Schreiber's confession.

Schreiber was taken before Police Justice Jeffries, to assist in making out warrants against the sixteen aldermen arrested last Friday, and two additional members of the common council, making 18 in all who will appear in police court to-morrow on a charge of promising to accept a bribe. Schreiber said his aged mother led him to confess.

"Schreiber made a complete and detailed confession of all the deals that he said he had been in," said the prosecutor. "He did this voluntarily three days after the council had ousted him from his job. He went to an hotel with me and a stenographer, and spent five hours going over all of his transactions."

To Clean Up City.

"He told me that he wanted to help clean up the city. I figured he could help us greatly, but I promised him nothing. He did want to know whether it was a matter of just 'getting him' or cleaning up the city, and I assured him that I wanted to clean up the whole thing. The confession takes up more than 100 pages, the details of which cannot be given out now. The city will be startled when the disclosures are made."

Schreiber, who is secretary of the American League of Municipalities, is charged by the operatives of Detective Wm. J. Burns, with being the leader in the alleged bribery arrangements made with the Wabash Railroad for street rights in the City of Detroit, which rights in the first aldermanic arrest being made several days ago, Schreiber was arrested at the time and is now at liberty on bail.

IN FIT, ALMOST DESTROYS STORE

Took Dozen Men to Finally Overpower Frank Griffiths, Drug Clerk, Who Smashed Goods and Fixtures.

Frank Griffiths, age 37, a drug clerk, went violently insane in the drug store of Herbert Morrow, Christie and Dupont-streets, at 7.30 o'clock last night and before he could be overpowered smashed several hundred dollars' worth of goods and fixtures. The combined efforts of about a dozen men finally resulted in his being overcome, and he was then removed to the Western Hospital.

Griffiths, who had worked at the drug store for a week last month while one of the clerks was on his vacation, had been acting in this capacity of relief drug clerk in a number of city drug stores. Last night, when he entered Morrow's store he asked for a cigar, and while one of the clerks was reaching in the case for it, he with a shriek suddenly began smashing and throwing things about.

After doing considerable damage Griffiths rushed to the doorway of the drug store and, throwing his hands in the air, made as if to dive head first on the hard pavement. C. F. Hutches of 44 Yarmouth-road, who was passing at the time, seeing the man apparently about to smash his head against the pavement, rushed up to him and grabbed him around the waist. Alone, he had to struggle with the man for 15 minutes, while onlookers kept far away. At length a dozen other men helped hold him until the arrival of the police ambulances, which removed the man to the Western Hospital, where he was found to be suffering from an epileptic fit. After sedatives had been administered Griffiths, who is six feet tall and powerfully built, was quieted down, and at a late hour last night was reported to be recovering.

SIR WILFRID IS BACK AT OTTAWA

OTTAWA, Aug. 12.—(Special)—Sir Wilfrid Laurier, who has been absent from the Capital for the past six weeks, arrived here to-day and was at his office this afternoon. Following his usual course he declined to be interviewed. He expressed himself as having spent a very enjoyable holiday. He is looking robust and is in splendid health.

With Sir Frederick Borden he has lately been on a motor tour thru the New England States. The rest of the time he spent at his old home in Arthabaska. It is likely that the opposition will address one or the other of the meetings in both Ontario and Quebec this fall.

SECRETARY OF I.O.O.F. IS Suddenly Stricken

HALIFAX, Aug. 12.—(Can. Press)—J. J. McKinnon, Charlottetown, grand secretary of the Independent Order of Oddfellows, which meets this week at Yarmouth, was seized with rupture of a varicose vein as he stood on the platform at Wolfville, awaiting the Yarmouth train. He was sent back to Halifax for an operation, which took place to-night.

Mr. McKinnon will probably recover, but will be confined to the hospital for two or three weeks. He had previously been quite well.

Dr. Hastings Begins "Clean-Up" Campaign

Restaurateurs Who Disregarded Warnings Will be Brought Into Court—Rate of Half Dozen Daily—World's Experto Have Strengthened M. H. O.'s Stand.

"Commencing this week there will be an average of from five to six restaurant-keepers in the police court of this city to answer to charges of running dirty, filthy eating-houses. There are a great number of these places that are not trying in the least to keep their premises clean, but before our department has finished with them there will be a noticeable difference apparent in Toronto's restaurants. Over six months ago, yes, longer than that, we have been instituting a regime of education in regard to these places. That is, we have been trying to show the foreign proprietors of these places in the city how to conduct their houses from a sanitary standpoint. Some have benefited by our teachings, others have gone on in the same old dirty, silt-shod fashion. It's a long lane, tho, that has no turning, and now they have simply got to clean up or suffer the consequences. If the ones we have been after for some time, and more strenuously since The World has taken up the matter, don't clean up, you get steam floating on the top of the milk bottle when you look it in liberty to use your own discretion as to what use you make of these names. We have decided that this is the only way to bring these recalcitrants to time. They have run to the end of their tether. Let them either mark time or fall out."

"Personally I am in favor of licensing restaurants and making a required standard that all must qualify for before they shall be given permission to run. We have no legislation to do this just now, at least I don't think we have, but we shall get it, and then we shall see the standard and will either come up to the standard or get out. As it is now we need an inspector for each separate restaurant if the supervision of these places got the supervision they should get."

The above is, in substance, what Dr. Hastings, M.H.O. for Toronto, had to say to this paper yesterday. And the doctor meant what he said. Since he has been M.H.O. for here, his great idea has been to educate all the different persons and businesses that come under his departmental work up to the standard required by him and the law. With the milk dealers he has succeeded very well. Conditions in that business are much better than when he became M.H.O. The milkmen don't come up to the standard now, but they are gradually learning. Not so very many years—perhaps it would be more germane to say months—if you got steam floating on the top of the milk bottle when you look it in liberty to use your own discretion as to what use you make of these names. We have decided that this is the only way to bring these recalcitrants to time. They have run to the end of their tether. Let them either mark time or fall out."

Realty Market News and Comment Building

Making Haste Slowly on the Civic Houses

No undue haste is noticeable in the starting of work on the housing scheme for Sparkhall-ave. planned and financed by several public spirited men. Results of the completion of plans will be made public in a week's time.

"We had hoped," said W. S. B. Armstrong, "to have had the exterior work on at least fifty of the houses completed by this fall, so that the interior could have been finished during the winter, and the tenants could move in early in the spring. I doubt whether this will be possible, however, as things look now. Much depends on the plans of course, because it is of first importance that we should know just what we purpose doing as a whole with the section before we begin work."

"We have \$100,000 of the \$200,000 capital already subscribed, and I have not the slightest doubt we shall get the balance without the least difficulty. But we would prefer to pay interest while the land lies idle rather than to incur all kinds of extras, and perhaps compel many minor modifications by being in too great haste."

City May Buy Site.
The city council will discuss the question of purchasing the Normal school site to be used as a park or playground, and the mayor when approached on the subject yesterday, said: "It will be necessary to see the terms of sale before any steps can be taken."

Buy Blake Residence.
J. B. Perry has purchased W. H. Blake's residence in Dale-ave., South Rosedale.

Will Lease Space To Swift Can. Co.

Some time ago, the Swift-Canadian Company made application for the lease of 50 x 100 feet at the southeast corner of the north portion of St. Lawrence Market for the purpose of carrying on a wholesale butcher business. The matter was brought up at the committee and a report from Property Commissioner Chisholm was read, recommending that the site be rented for 65 cents per square foot per annum, or a total of \$3250 on a 20 years' term, the rent to be fixed every five years. After some discussion on the possibility of the city requiring the space, and its ability to regain possession by arbitration if necessary at any time, it was decided upon the motion of Ald. Austin, to accept the offer of the company. Another firm is after the other side of the building, and it may be rented to them on the same conditions.

Property Commissioner Chisholm has options on two sites for the purpose of erecting a fire house to replace No. 5 station now situated on Yonge-st. The commissioner will further report on the matter. He will also take up the question of what is to be done with the civic garage now situated at the St. Lawrence Market.

FOUR NOW IN FIELD.
Contrary to expectations, there will be four candidates for the Ward 10 aldermanic seat left vacant by the appointment of Daniel Chisholm as property commissioner. Samuel Fieldhouse, who declared on Saturday that he was too busy to run, yesterday filed the formal declaration of eligibility at the office of the city solicitor and placed himself in the field. Mr. Fieldhouse, who is a grocer, occupies premises at Nos. 1596 and 1598 East Queen-st.

May Not Start Big Building Until Spring

A member of the advisory committee on industrial education said to The World yesterday afternoon that it looked as though the new million dollar technical school would not get started before next spring.

The general plan was accepted in June, but the planning of details in progress caused delay. The building will cost \$2,000,000 and extras and the site \$200,000.

Old Men's Home.
Following up the resolution passed by the city council favoring the erection of an old man's home at the industrial farm, the matter was brought before the property committee yesterday, and referred to Commissioner Chisholm for report. The home will be purely for aged couples, with special facilities being made for their non-separation as is usual in institutions of that class.

START IN OCTOBER.
Controller Church returned yesterday from his hurried trip to Montreal, and announced that the C. P. R. officials had informed him in that it was not their intention or fault that work was being held back on the grade separation and new Union Station here. Arrangements are being made for them to argue their appeal before the railway commission when it sits in Toronto next month. This will make it possible to start the work during the first week in October.

While in Montreal, he reported himself riding on all the main line cars. He says: "I traveled on a half dozen different routes and in each case I was taken out ten miles in the country in about fifteen or twenty minutes. The lines are well patronized and the fares are cheap, and Toronto should have a service like this."

LAWNS AND WATER.
Constant sprinkling of a lawn will not create or preserve a fine grass plot. Evidence is so general that this fact is not appreciated by householders that some cities have issued leaflets on the proper care of lawns. One of the most instructive of these was prepared by John W. Duncan, superintendent of parks at Spokane, Wash., and has been incorporated in the booklet on the water code of that city by the public utilities department. Mr. Duncan declares that no hard and fast rule can be laid down for the watering of lawns, because of the varying qualities of soil which make for excellence of growth of grasses. He does, however, lay chief stress on the danger of over-watering.

With proper food for grass in the soil, far less water is necessary for the making of rich and velvety lawn than is otherwise procured. Grass is naturally a deep-rooted plant, and for the producing of the best results it should have at least twelve inches of soil. Each cutting of grass takes from the soil every atom of element which is utilized in producing the removed growth. As a consequence, fertilizer ought to be used to replenish these elements.

Mr. Duncan recommends bone meal, wood ashes or manure. If free from the seed of weeds. Any of these fertilizers will supply the plant with plant food which all the water in creation cannot supply. Another detriment to the growth of grass from over-watering is that the blades are chilled by the sudden change from the summer heat to which they are exposed to the temperatures of the water. "Hosing" a lawn twice a day, in addition to keeping the plant and its roots in cold water for a large portion of the twenty-four hours, is apt to wash the soil from the roots and expose them to the air, according to Mr. Duncan. This process also "cools" an otherwise good soil bed.

It is Mr. Duncan's conclusion that a thorough watering twice a week is all that is necessary. "When you give a good watering, but do not water it again until it needs moisture. If your soil is good and of proper depth, this will be sufficient to form a surface film which will keep the soil on which no lawn can flourish."

It will pay the lawn owner, as well as the city, if the water for sprinkling is used as is fuel in the range, with intelligence. Suggestions like these are doubtless made by the city of Spokane in its official publications for the accomplishment of the double purpose of bringing about economy in the use of water and in aiding the need to secure the best results with their lawns.

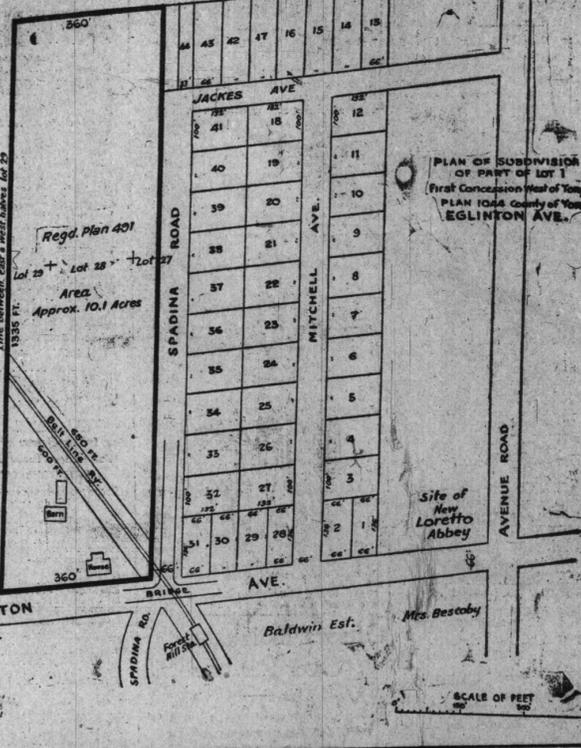

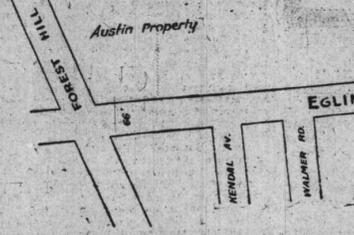

LOVED HIS VIOLIN.
The career of Bronislaw Huberman, the famous Warsaw violinist, was nearly nipped in the bud by his mother. When a little boy of six years of age he devoted all his spare time to practicing on a violin which had been given him, and his mother was one day about to destroy the instrument, but was prevented by Count Zamoycki, who was observing the skill which the lad displayed. Six years later, in 1887, when six years of age, Huberman appeared at an Adeline Patti concert in Vienna, and his remarkable performance there was the beginning of a series of engagements which has continued ever since. His mother, who was present at that concert with Count Zamoycki, shed tears of rejoicing at his success, and gave an unqualified affirmative reply to the count's question, "Are you not glad that your son keeps his violin?"

According to Bronislaw Huberman, Sir Edward Elgar is appreciated even more in Russia than he is in Britain. At his Queen's Hall recital recently Huberman played a Capriccio by that composer. The same item was placed upon his Boston program on two or three occasions but afterwards omitted. Huberman says, however, that he was never allowed to leave the platform without playing it, and on several occasions the Russian audiences rose en masse and demanded this piece as an encore.

PRISON REFORM

Louisville Courier Journal.—It is more than fair that the prisoner should have some part of his earnings. The word prison is suggestive of punishment, but prison life should not be altogether punitive. It is a hard life at best and it is not to be expected that it should be otherwise, but convicts are human beings and are entitled to humane treatment. The penal institution should be reformatory and while it is not possible to reform all the inmates of the law who are sent to prison it should be possible to make better citizens of a large percentage of them. If this result cannot be attained the prison system will fall of one of its chief objects.

The incorrigibles constitute only a small part of our penitentiary population. Most convicts are amenable to reason and to kind treatment, while harsh punishment is an effective method of confirming the criminal in criminal ways.

Miss Gertrude Fox of Hastranch Height, N.J., is visiting for two weeks with Miss Cora Pallette, 382 St. Catharines-ave.

MEDLEY OF FACTS AND FIGURES.

The free lodging-house in Honolulu, Tokio, has housed 850,000 persons since its institution, eleven years ago. Most of the lodgers have been men between the ages of twenty and forty.

Canadian customs revenue for May was rounded off \$2,000,000—the largest monthly collection ever made. It is estimated that for Canada's present fiscal year, which began April 1, the customs collections will exceed \$100,000,000.

Vice-Consul-General James L. A. Burrell states that the Portuguese census taken December 31, 1911, gives a population of Lisbon as 486,484, an increase of 80,000 over 1900, and of Porto 194,064, an increase of 28,000.

Goose liver pies are the celebratory specialty of Strasbourg, where 250,000 geese are said to be fattened and killed annually, besides large imports of geese livers from Austria-Hungary.

The wild fowl in the London parks have been in company there since the reign of James I. and possibly longer. Among some old documents recently offered for sale is Lord Rochester's bill of charges "for keeping the fowls and beasts at the St. James parks and gardens for April, May and June, 1611."

The professor of the agricultural extension department of the University of Chicago says that there are 600,000 persons in Chicago with unused yards which might easily be turned into gardens. He believes that if the garden specialty of Chicago were there 250,000 geese are said to be fattened and killed annually, besides large imports of geese livers from Austria-Hungary.

The exportation of eggs from the consular district of Trebizond is one of the important businesses of the consular part of Asia Minor. About 600,000 eggs are exported annually from this region, about ninety per cent going to France.

The mineral industry of New Jersey during 1912 has greater value per square mile of territory than any other State except Pennsylvania, says Henry B. Kump, the State geologist, in his report for this year. The total value of the industry amounted to \$7,716,411. The relation this sum bears to the agricultural output of the State is shown by comparison. The value of the total product amounted to \$2,593,833; the stone \$1,271,844 and then iron mining. The home name shows a decrease of \$27,942 from the value yielded by the iron mines in 1910.

Mercer, of course, leads the State in the manufacture of pottery, and the industry centres in Trenton, the eleven counties represented in the making of some form of ware. Sanitary manufactures constitute more than fifty per cent of the State's total product, nearly \$2,000,000 worth having been made last year. Next comes white ware, including the porcelain, and third the china. Deft, Belleek, etc. Mercer makes 8.5 per cent of the State's pottery products. Essex makes only four per cent.

That department of the clay industry which does not include the finer material of the potteries is confined almost entirely to the Mercer, Hudson, Warren, Ocean and Cumberland counties. This refers to the clay used in making fire brick, ordinary building brick, the sewer pipe, etc. Middlesex leads far and away in this branch, the 1911 output being 105,000 tons, worth \$1.10 per ton of the

COUNTRY HOME

32 Church, Toronto.

State's total of 40,812 and burning 72.1 per cent of all the bricks, tiles, terra cotta, etc., made in New Jersey. Recently a promising deposit of brick clay was found in Warren County, but it has not yet been developed.

Essex County leads in the manufacture of red earthenware and Hunterdon in stoneware and yellow ware. Camden is second in sanitary ware; Middlesex third; Hunterdon is second in porcelain electrical supplies. Mercer produces all the white earthenware. All the sanitary ware except to the value of \$18,988. Chemical ware is made in Middlesex and Camden; clay tobacco pipes in Hudson and Essex; and door knobs in Mercer. The total pottery products are valued at \$5,401,841; those of the brick, tile, terra cotta, fireproofing and sewer pipe branch of the clay industry at \$3,776,237, an increase of over half-a-million compared with 1910.

During the past year 244,543 tons of stone were hoisted from the mines of this State, an average of more than one thousand tons for every working day in 1912. More than 2,185 tons less than were mined in 1910. In the last twenty-one years no less than 4,000,000 tons of stone have been mined and treated in New Jersey.

Iron mining has shown a marked decrease. The production was 539,721 gross tons or about sixty-six per cent of the product of 1910. Morris County leads with 28.84. Warren and Passaic follow.

Warren County has all the Portland cement plants, with a combined daily capacity of 30,000 barrels. The total output last year was 4,111,590 barrels, an increase of 271,192 barrels over the previous year. This is about seventy-two per cent of the total capacity. The raw materials used are limestone and cement rock.

Notwithstanding the stone and gravel system in this State and the constant demand for crushed stone for road metal, railroad ballast and concrete, the total production of all classes of stone in 1911 was \$1,322,881, a decrease of \$9,225 as compared with 1910. In 1909 only 1,139,923 railtons were used as indicated, but \$13,013 worth went into the buildings. There were decrements of 2,232,817, valued at \$20,153. Some 60,000 tons of gravel were sold to be used in the manufacture of soft drinks.

Greenland marl, lime, rocks, soapstone, mineral paints, zinc oxide and Venetian red are among the minor mineral products.

ORCHARDS

NORTHUMBERLAND PLANTATION

The below properties are situated one-half mile from the northern boundary of the Town of Cobourg, two and one-half miles from railway station; property fronting on west on good road leading to good markets, best schools, churches, etc.; telephone service passing property (cost of installation \$40); annual cost after installation about \$10; rural mail covers district daily. The soil on this property is choice, rich loam, well worked and splendidly adapted to raising the very best quality of apples. We consider there is no better place of property in the Province of Ontario. Location and shipping facilities are the very best.

No. 8, containing about ten acres, practically level, having 248 apple trees; these trees are young—Northern Spy, McIntosh Red, etc. Price \$100 per acre.

No. 9, containing about ten acres, having 65 apple trees in full bearing and 124 young trees—varieties Northern Spy and McIntosh Red, etc.; also a two-story frame house containing eight rooms, nicely situated, about fifty feet from the road. Price \$250 per acre.

No. 10, containing about ten acres, having 112 apple trees in full bearing and 27 young trees—choice varieties, McIntosh Red, Northern Spy, etc.; also a barn 34 x 110, driving shed and stable 35 x 50 feet, workshop 16 x 28. Buildings are nicely situated, close to the road. Price \$200 per acre.

No. 11, containing about ten acres, having 60 trees in full bearing, and 148 young trees—best varieties, Northern Spy, McIntosh Red, etc. Price \$150 per acre.

No. 12, containing about ten acres, having 410 young trees, all apples, choice varieties Northern Spy, McIntosh Red, etc. Price \$125 per acre.

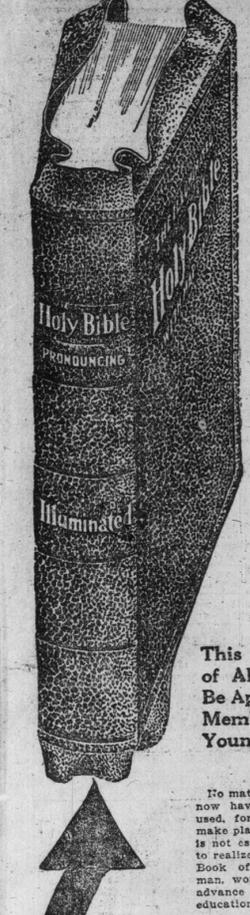

No. 13, containing about ten acres, having 410 young trees, all apples, choice varieties Northern Spy, McIntosh Red, etc. Price \$125 per acre.

No. 14, containing about ten acres, 393 young trees, all apples, choice varieties Northern Spy, McIntosh Red, etc. Price \$100 per acre.

Illustrated BIBLE

This is not a meaningless picture book. The illustrations serve a distinct purpose. They enrich the text and they do more—they intelligently explain it so that many a hitherto obscure passage assumes a new meaning.

This Is the One Book of All Books that Will Be Appreciated by Every Member of the Family—Young and Old Alike.

No matter how many Bibles you may now have, here is one that will be used, for these eye-teaching pictures make plain the subjects illustrated. It is not essential to belong to a church to realize the educational value of this Book of Books. Every progressive man, woman and child who wants to advance should be familiar with its educational and literary merits.

Either of the Catholic or Protestant Bibles Offered Will Be Mailed to Any Address for the 5 Free Certificates, the Amount Set Opposite the Style Selected and 23c Extra for Postage.

Dizzy Headaches Cured in One Night

If Troubled With Head-Fullness, Ringing Noises, Specks Before the Eyes, the Stomach is at Fault.

Quick Relief and Certain Cure Came From Dr. Hamilton's Pills.

"I had terrible pains in my head. My appetite faded away, and when I did eat anything it disagreed and made me very sick for hours after each meal. The pains in my stomach and the dizzy headaches I had to endure almost set me wild. Sometimes attacks came on so severely that I had to go to bed. I would feel so worn, depressed and utterly miserable, that for hours I wouldn't speak to my family. My system was poisoned with wastes and nothing helped me till I used Dr. Hamilton's Pills. Without this grand system-cleaning remedy I would still be sick, but each day brought me better health and spirits. I was cured and made strong, ruddy and healthy, and will always use and recommend Dr. Hamilton's Pills.

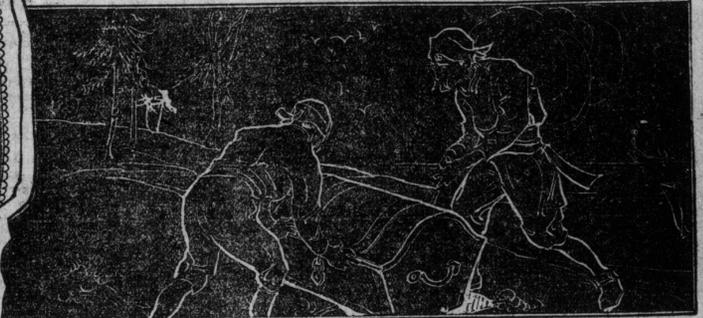

"MRS. B. C. CURRAN, Westport, P.O."

Thousands who are in an ailing, low state of health need nothing else but Dr. Hamilton's Pills. 25c per box, or five boxes for \$1.00, at all druggists and storekeepers, or the Catarrhone Company, Buffalo, N.Y., and Kingston, Ont.

MULHOLLAND & CO. MCKINNON BUILDING

A Woman's Duel for Pirate Treasure

Miss Genevieve Davies, Who Heads One Expedition for the Fabled Treasure on Cocos Island.

The Adventurous and Unique Quest of Two Rival Expeditions, Each Headed by Determined Ladies, for the Famous \$30,000,000 of Hidden Gold and Jewels

On Torrid Cocos Island

BLOOD may again be shed over the buried treasure of Cocos Island. To recover the thirty million dollars worth of gold buried there nearly a hundred years ago by pirates, thousands of men have already paid the penalty with their lives. Now two more expeditions are being fitted out to pursue the dangerous quest, and both of them are headed by women.

The search for the Cocos treasure is hazardous enough in itself, as so many have found out to their cost, but an additional element of danger is involved in this latest double quest because of the intense rivalry of the two women.

"If these English woman get in my way, there will be too much of trouble, that's all!" declares Mile. Matilde Durand, of Marseilles, France, the organizer of one of the expeditions.

"I started first, I spent a lot of time and money and trouble in this

if both parties should arrive at the island together, which is not at all improbable. It will be quite beyond the power of the women, even if so disposed to hold their

was the protection afforded by their banks and the altars of their churches, intrusted it to the captain of an English vessel. This man weighed anchor and sailed for Co-

number of mining experts, geologists and other scientific men. In preparing for this adventure, Miss Davies has constantly kept in mind the possibility of hostilities with her French rival. For this reason she has had her vessel practically converted into a protected cruiser. Her hull and decks have been sheathed with steel a quarter of an inch thick and she has had mounted four six-pounders. In addition to this a large supply of small arms and ammunition has been provided, and every member of the crew has been picked with due regard to his fighting calibre.

"I am going after this treasure and intend to get it at any cost," declared Miss Davies. "If this Frenchwoman happens to get to the island while I am there, there may be trouble, and I am prepared for it."

"I have what I believe is an authentic map of the island with certain marks indicating the hiding place of the treasure. This Frenchwoman's idea, I suppose, is to take advantage of the information I have, and beat me out in quest for the treasure. I shall consider myself justified in resisting by force any attempt of that kind."

Mile Durand, on the other hand, declares that she has information of her own and is in no wise dependent upon Miss Davies' expedition.

"Indeed," she declared, "I am straining every nerve now to get to the island before this English woman, and if my plans turn out right I will be on my way back with the treasure safely stowed before this Miss Davies appears upon the scene."

"My vessel is now being equipped at Marseilles. I will be the only woman on board, but my crew consists of friends who are eager to follow me in this great adventure and to share in the spoil we expect to bring home."

"I have full information regarding this pirate treasure. It comes direct from the son of a man who as a lad served under Bonito the pirate. This man, now seventy-five years old, obtained from his father a diagram which clearly marks the cave in which Bonito buried most of his ill-gotten treasure, besides numerous other spots where members of the pirate crew buried their individual shares."

"I am not looking for trouble with this English woman. No, no. But if when I have located the treasure she should arrive at the island and attempt to interfere with my work, I will not be answerable for the consequences. She will bring it upon herself. I will not be responsible."

"Altogether there is thirty million dollars worth of it, I understand. If I succeed in locating only a portion of this vast sum, my investment will prove profitable, but it is the adventure itself which impels me principally. The fact that this English woman is going to try to beat me out makes the quest all the more interesting. We shall see who wins!"

In the Pirates' Graveyard on Cocos Island.

Map Showing the Location of the Cocos Island Treasure.

egs Island, where he buried the treasure, amounting to twelve million dollars.

The balance of the treasure was buried on the island by no less a character than the notorious pirate Benito Bonito, who with a loyal crew of cutthroats did an immense amount of damage in the Western Atlantic from New York to Rio Janeiro in 1816-1817.

Bonito then doubled Cape Horn and ravaged the Pacific shores of America as far as Mexico, sacking the churches and other repositories of plate, jewels and specie until his loot amounted to nearly twenty million dollars in value.

In searching for a spot to bury this treasure, he came upon Cocos Island. There he buried his share of it in a cave, while his officers and crew chose other hiding places. The following year the pirate and his crew were captured by a British corvette, and slain.

From that time to this as many as a dozen notable expeditions have been organized to recover this pirate loot, but for one reason or another every one failed.

The latest expeditions to be organized to recover the sunken treasure are perhaps more ambitious than any ever before undertaken.

Miss Davies has chartered a large steamer, which is now completing its outfit at Plymouth. The only other woman on board the vessel will be her friend, Mrs. Barry Till. Besides the crew, there will be a

thing, and I certainly shall not allow this Frenchwoman to come between me and the fruits of my labor!" insists Miss Genevieve Davies, the beautiful English girl who heads the rival expedition, and there is something about her manner which bodes ill for her fair rival.

Both women are plentifully supplied with cash and each claims to have the only authentic map in existence which definitely points out the location of the sunken treasure.

followers in check, and a battle to the death for the thirty millions of buried loot is almost inevitable.

Cocos Island lies in latitude 5 degrees 33 minutes N., 85 degrees 59 minutes W. It is a deserted, rocky island about three hundred miles from the coast of Costa Rica.

The treasure which lies buried there was derived from two sources. In 1824, when Peru was being torn asunder by a revolution, the trembling citizens, realizing how feeble

Woman's Realm --- the Household, Fashions and Society

SOCIETY

The Daily Hint From Paris

Mrs. Herbert Cowan's youngest daughter, Miss Hamlin Harrison, has returned from England, where she was at school, and will be one of the debutantes next winter.

Mr. George Burton is in town from Murray Bay for a short time before going to England in September with Mrs. Burton and the Misses Burton, who will not be in town again before sailing. Dr. Burton is the York Club during his stay in town.

Mr. and Mrs. Hamilton Cassels and Miss Cassels left town en route for England last week, for a six weeks' trip.

The Hon. Rupert Guinness and Lady Gwendoline Guinness have arrived in Montreal.

One of the many camping parties in Muskoka consists of a party of young people from Hamilton, including the following: Miss Margaret Scott, and Miss Frances Scott, Miss Meta Gibson, Miss Jean Malloch, Mr. Douglas Scott and Mr. Hope Gibson.

Mrs. Leslie is staying with Mrs. Ralph Robinson, in Lower-avenue, and will probably return to England before Christmas.

Rear-Admiral Lord Sackville arrived in Montreal the beginning of the week.

Mr. and Mrs. E. R. Howland were in town from Ottawa and spent the week-end at the King Edward.

The Bishop of Toronto and Mrs. Sweeney spent the week-end at Niagara-on-the-Lake. The bishop preached at both services in St. Mark's Church.

Dr. and Mrs. Hood are at Algonquin Park.

Miss Lillian Crawford is staying at Bala, Muskoka.

Mr. Allan Macintosh left town from Vancouver, and spent the week-end at Niagara.

Mr. and Mrs. Arthur Russell are spending a fortnight with Dr. and Mrs. Anderson at Niagara.

Mrs. H. Smith, 28 South Wentworth-street, Hamilton, announces the engagement of her daughter, Miss W. Y. Lloyd, Toronto. The marriage will take place in October.

Dr. Philip has returned from a fortnight's stay at Niagara.

Mr. Ernest Ball spent two weeks with his mother at Niagara-on-the-Lake.

The Earl and Countess of Onslow arrived in Montreal on Sunday.

Mr. Edmund Phillips is staying in Niagara for the golf tournament.

Colonel Grant was in Niagara yesterday.

Mr. and Mrs. Frederick J. Harris, Montreal, announce the engagement of their daughter, Miss Margaret Harris, to Mr. Herbert J. Sullivan, M.D., son of Mr. and Mrs. John C. Sullivan, Peterborough, Ont.

Mrs. Christopher Robinson is building a large house in St. Clair-avenue and has taken Mrs. George Burton's house in Lower-avenue for the winter.

On the 7th of August in Vancouver the marriage was solemnized very quietly in St. Michael's Church of North Vancouver by Rev. J. J. Gormley, M.A., to Mr. David M. Ross, B.S.A., secretary of the Jaymen's missionary movement in Canada, eldest son of Mr. Montague Ross, M.D., of England. Mr. and Mrs. Ross will not be in Toronto until October.

Mrs. Lucy Robinson is visiting Mrs. William Bishop of Britannia.

Mrs. Frank Mackleson and Miss Agnes Dunlop will not be back from Indian Harbor until the middle of September. Mrs. Marshall, Hamilton, is with them.

Dr. and Mrs. Harry Torrington, who have been in Vancouver, have returned to their home in Sudbury, with the intention of returning to the coast in the spring to reside there.

Mr. Newell Houston is in town from St. Catharines.

Susan Geddes Remanded. Susan Geddes, of 61 Mutual-street, the young woman arrested on Saturday as a wanted witness in the Backtrack conspiracy case was remanded till called on when she appeared in the police court yesterday morning. It was pointed out that as the case against the Backtrack brothers has concluded her evidence would not now be required.

IF THIS IS YOUR BIRTHDAY

Caution in regard to health and general activities should be your watchword, and evils which threaten you may be avoided thereby. You will soon become acquainted with people who will influence your life. Those born to-day will have pleasing manners and be fond of society. They will be clever and gain wealth, but will be inclined to waste it on selfish pleasures.

Simple and Artistic

Soft charm in medium grey was used in the costume shown above. The Paquin sleeves are edged with lace frills and trimmed with tiny covered buttons. A richly embroidered tab, showing red and brilliant colors, hangs from the neckline and partially conceals the row of tiny covered buttons which trim the skirt.

A yoke of plain net has a frill of lace around the neck, with a lace bow at the throat. This is ornamented with tiny pearls.

Lady Principal for the Ontario Ladies' College

Dr. Haré has just returned from England, where he succeeded in engaging, with the help of Dr. James L. Hughes of Toronto, a lady principal for the Ontario Ladies' College, Whiteby, via, Miss Alice Taylor, B.A., a teacher of ability and experience and a lady of more than ordinary culture. Her early education was received in the Sheffield High School for Girls, under the direction of Mrs. Woodhouse, who is acknowledged to be one of the most cultured lady educators in England. Her university course was taken in the University College, Cardiff, an institution widely known for its attention to the social life of the students. Her first experience in teaching was in Bede Collegiate School for Girls, from which she rose to the position of teacher in the same school. Her department and became responsible for all that pertained to the social life of the lady teachers.

Five years ago she was appointed one of the lecturers in the training college for teachers in Sunderland, which position she leaves to become lady principal of the Ontario Ladies' College. She has been highly recommended for her beautiful character and decided influence for good over young people. The college is to be established on having secured one or two fitted by education, social training and decided influence for good over young people. The college is to be established on having secured one or two fitted by education, social training and decided influence for good over young people.

Scarboro's Program

An admirable free open air entertainment was presented at Scarboro Beach last night, and will be repeated twice daily throughout the week. The feature was perhaps the casting of the D'Orleans, the European symphony, who have built up a great reputation for themselves in this branch of accomplishments. Their performance is a remarkable one and equals, if it does not surpass anything that has been seen in this city in a long time. Rice, Elmer and Thom, the comedians, acrobats, gave a lot of fun out of the horizon; the 6th Regimental Band of Buffalo made lovable to the beach this week. A special feature on Wednesday afternoon will be the balloon ascension and parachute drop of Harry Melville, the athletic agent, who made a sensational ascent and parachute drop on civic holiday.

Teachers Welcomed

Party of English Teachers Driven Around the City.

The visiting English teachers were received at the city hall yesterday afternoon by Mayor Gandy and Alderman Munn, chairman of the reception committee. W. W. Goldstone, member of the British House of Commons, who had been in this city in connection with the visit, accompanied the party. The visitors ascended the tower and had a view of the city from above. They spent the major portion of the morning in a trip thru Ector's. Alderman Maguire conducted the visitors in a motor drive around the city.

Vegetarian Recipes

Pea-Roast.—Break stale bread in pieces, dry in oven, roll up thru a pure-strainer; there should be three-fourths cupful of bread crumbs. Drain canned peas, and rinse thoroughly with cold water. Put in a saucepan, cover with cold water, bring to the boiling point, and let boil three minutes. Drain, and force thru a pure-strainer; there should be one-half cupful of pulp. Mix bread crumbs and pea pulp, and add one-fourth cupful of chopped English walnut meats, one egg, slightly beaten, one tablespoonful of sugar, three-fourths teaspoonful of salt, one-eighth teaspoonful of pepper, one-fourth cupful melted butter, and three-fourths cupful of milk. When well mixed, turn into a small breadpan lined with paraffin paper. Cover with buttered paper and bake in a slow oven 40 minutes. Remove to hot serving-dish and serve with or without tomato sauce.

Shapleigh Cheese Pulling.—Remove the curds from a stale loaf, and cut bread in one-half inch slices, and slice with strips, and arrange remaining pieces lattice-fashion in bottom of dish. Cut one-half pound of soft mild cheese in small pieces, or force thru a chopper, and put in dish; then pour over the following mixture: Beat two eggs slightly, and add one cupful of thin cream or milk, one teaspoonful of salt, one-half teaspoonful of mustard, one-fourth teaspoonful of paprika, and a few grains of cayenne. Bake in a moderate oven thirty minutes, and serve very hot. Arrange around a dinner napkin folded on the diagonal.

Baby Abducted And Wife Is Ill

Pitiable Plight of Montreal Man—Servant Girl Spirited Child Away.

MONTREAL, Aug. 12.—(Can. Press.)—His baby lost and his wife undergoing a serious operation at the General Hospital, are the afflictions that confront John Pilling of Notre Dame de Grace.

Mr. Pilling is guardian of the Royal George School of Notre Dame de Grace, last evening his servant, Nellie Hughes, disappeared with his baby and Mrs. Pilling's clothes. Mr. Pilling promptly reported the matter to the police, and after a lieutenant from No. 23 station had investigated the matter, general orders were issued to the force to watch for the woman and child.

Effective, Economical Complexion Beautifier

(Julia Orr in The Clubwoman.)

One reason I so strongly recommend mercurized wax is that it really takes the place of several different cosmetics, saving time, patience and expense. It is better than any cleansing cream, better than any massage cream and better than any rouge, for accomplishing the results for which such articles are used. As the wax actually absorbs an old, faded and discolored complexion, little each day, the underlying skin, which gradually appears, is clearer, softer, healthier-hued and more youthful. Spreading on a thin coat of this wax at night, washing it off mornings, in a week or so produces a marvelous transformation. Just one ounce of mercurized wax, obtainable at any drug store, will do the work. There's nothing better to remove freckles, tan, blotches, blotches, pimples or blackheads.

For wrinkles and loose, saggy skin, I invariably recommend a face bath made by dissolving 1 ounce powdered mercurized wax in 1 pint water. This has remarkable astringent and tonic properties.

ONE MORE RIOT IN TORONTO

After Settling Trouble in New York, Musicians Exhume Another Grievance— Peculiar Situation.

NEW YORK, Aug. 12.—"There's many a slip 'twixt cup and lip." "All's not gold that glitters," and other axioms of similar purport may be used aptly in describing the relations between the Musical Union and the theatrical managers of this city. A week ago the differences were patched up, each side to the controversy made concessions, and the fiddlers and trap drummers promised to go home and behave like good, little boys.

In fact, the musicians expressed themselves as elated over the outcome of the misunderstanding, and the managers sighed with relief because they suddenly recalled that following the union's ban on the theatres the managers had made so bold as to protect their interests by engaging temporarily orchestras from regular contractors who were willing to fiddle for a salary less than that of a railroad president.

And how the union musicians demand that their non-union successors be immediately discharged. Since it happened that the managers placed the non-union men under regular contract, and since it also happens that the managers are business men of responsibility, the latter request of the union cohorts is not easily granted.

And there you have another controversy. At the New York, the Criticism of the Globe theatre non-union cohorts, open the regular season on Monday next. The managers, who have been giving complete satisfaction. They came as a sort of first aid to the managers in distress, and signed contracts in good faith.

Union musicians demand that these orchestras be dismissed forthwith. Quia non, the question will be met squarely and answered satisfactorily. At this moment, however, the opinion of the problem has not been found, and the union men have resumed their favorite attitude of sulking, while the temper of the manager is soaring to fever heat.

Methodists Gather at Mecca to Reopen Old Conger Church

Conferences Well Represented.

MONTREAL, Aug. 12.—(Special.)—There was a fine gathering of Methodists at Mecca on Hay-Bay, to reopen the old chapel erected by U. E. Loyall, pioneer in 1872. Many people assembled from all points on the Bay of Quinte to enjoy a picnic and to hear an excellent address by Rev. Dr. Burton, who was accompanied by Mrs. Burton.

The Toronto Conference sent greetings by President Locke. Ministers of the Bay of Quinte Conference, DeMillo, Garrett, Boyce and Saxwith took part in the service. Addresses were given by John N. Lake, Toronto; Fred L. Hooper, Napanee, and Geo. A. Rutland, Adolphustown, and the Rev. J. C. James, member, absent in Winnipeg, sent a message of regard. Harvey McCutchen of Picton, conveyed the greetings of Prince Edward to the old Conger church, second in age in Western Canada.

Rev. R. Duke of Toronto presented a fine hymn book, and Mrs. Duke of the trustee board of the old chapel, who has been inscribed, an historical tablet presented by the members of the trust board. A. R. Davis, was in the exterior of the front of the church.

Many people were left on the docks at Belleville, Picton and Napanee on the steamer service, sufficient to be being available. It is planned to set out from Mecca to make this historic spot on the Bay of Quinte an attractive camping ground for the Methodists of all Canada.

Big C.P.R. Terminal Plans for Chicago

Plans for Chicago Terminal.

MONTREAL, Aug. 12.—(Can. Press.)—The Canadian Pacific Railway, which has great interests in Chicago, as a result of acquiring the Wisconsin Central and other American lines, is planning big terminal developments in that city. It is announced to-day that the Central Terminal Co. of Chicago, which is a subsidiary of the Canadian Pacific Railway, has just purchased twelve additional parcels of land, making a total of 208 parcels that have been owned in the vicinity of Harvard-street, from 42nd to 50th high-street. The total amount involved is \$1,710,153.

FREE DELIVERY IN GALT

New Postal System Inaugurated With a Felicitous Ceremony.

GALT, Aug. 12.—Free postal delivery was inaugurated to-day under unique and happy circumstances. Geo. Clark, M.P., thru whose exertions the system was granted by the government, was present at a function marking the setting out of six post-boxes, as were also Chief Post-Office Superintendent Ross of Ottawa, Inspector Durston, Mayor Scott, Postmaster Turnbull and others. The first letter delivered was to Mr. Clark, from Mr. Ross, congratulating the member on the inauguration of free delivery.

ORIENTALS HIRE FEMALE HELP.

SASKATOON, Sask. Aug. 12.—(Can. Press.)—After five advertisements Crown Prosecutor McKenzie has received instructions from the attorney general's department at Regina, to proceed with the prosecution of two Japanese and one Chinaman, charged with a breach of the provincial law prohibiting Orientals from hiring white female help. This is the first case of the kind and will come up next Monday in the police court.

A. O. U. W. PROTEST MEETING

Members of the A.O.U.W. who objected to the proposed increase of assessment rates are holding a protest meeting in St. Andrew's Hall to-morrow night.

PRICES DOWN ON FRUIT MARKET

Supply Was Plentiful—Business Very Brisk—Canadian Apples Arrive From Markham.

As a sequel to the slackness in fruit business so apparent last week, yesterday was a big day for the dealers on the Toronto Fruit Market. Domestic fruit arrived in abundance during the morning and prices fell a little as a result.

Canadian apples came in yesterday from Markham. They were scarcely ripe and rather small. The barrels brought from \$7.75 to \$8. Eleven-quart baskets ranged from 25c to 30c. Canadian plums in baskets of six quarts apples brought from 90c to 95c.

Domestic vegetables sold at easy prices. Cucumbers went as low as 20c. Some good tomatoes sold at 35c, while green corn was quoted at 15c to 18c the dozen ears.

Yesterday's prices were as follows: Raspberries, 15c to 18c the box; red currants, 50c to 55c a basket; black currants, 15c; cucumbers, 20c to 25c a basket; beets, 20c; tomatoes, 25c; peas (very scarce), 50c; carrots and parsnips, 25c to 30c; cantaloupes (case), \$3 to \$3.50 (basket) 75c; Canadian plums, \$1 the 11 quart basket; peaches, 60c the 11 quart basket; California pears, \$2.50 to \$2.75 a case; plums, \$1.25 to \$1.75 a case; peaches, \$1.25 to \$1.75 the case; Canadian pears, 50c the basket; apples, 25c to 30c the basket, \$2.75 to \$3 a barrel, 41 basket, cherries, 75c to 90c the basket.

CEREMONIALS AT HISTORIC CHAPEL

Methodists Gather at Mecca to Reopen Old Conger Church

Conferences Well Represented.

MONTREAL, Aug. 12.—(Special.)—There was a fine gathering of Methodists at Mecca on Hay-Bay, to reopen the old chapel erected by U. E. Loyall, pioneer in 1872. Many people assembled from all points on the Bay of Quinte to enjoy a picnic and to hear an excellent address by Rev. Dr. Burton, who was accompanied by Mrs. Burton.

The Toronto Conference sent greetings by President Locke. Ministers of the Bay of Quinte Conference, DeMillo, Garrett, Boyce and Saxwith took part in the service. Addresses were given by John N. Lake, Toronto; Fred L. Hooper, Napanee, and Geo. A. Rutland, Adolphustown, and the Rev. J. C. James, member, absent in Winnipeg, sent a message of regard. Harvey McCutchen of Picton, conveyed the greetings of Prince Edward to the old Conger church, second in age in Western Canada.

Rev. R. Duke of Toronto presented a fine hymn book, and Mrs. Duke of the trustee board of the old chapel, who has been inscribed, an historical tablet presented by the members of the trust board. A. R. Davis, was in the exterior of the front of the church.

Many people were left on the docks at Belleville, Picton and Napanee on the steamer service, sufficient to be being available. It is planned to set out from Mecca to make this historic spot on the Bay of Quinte an attractive camping ground for the Methodists of all Canada.

WILL CROSS CONTINENT

Visiting Cadets Given Fine Opportunity to See Canada.

MONTREAL, Aug. 12.—(Can. Press.)—Arrangements were completed to-day whereby at the close of the Toronto Exhibition the 29 British cadets who will have taken part in the big cadet display and competition will be given a trip across the continent.

They will travel as the 12th guests of the Canadian Pacific Railway and the Canadian National Exhibition Commission.

The thirteen Australian cadets and the twenty from New Zealand will travel with the British boys, the party separating at the coast.

Stops will be made at Winnipeg, Regina, Brandon, Banff, Glacier and other points, and the cadets will give exhibitions.

President John Kent and Dr. Orr, manager of the Toronto Exhibition, completed these arrangements with Sir Thomas Shaughnessy to-day.

Winnie Black Disappeared

The authorities have been asked to try and locate Winnie Black, a fifteen-year-old girl, who had been living with her parents in East Toronto up to last Wednesday. She was last seen on the steamer Chippewa on Saturday. The girl had been working up to the time she disappeared.

Fished Up Baby's Body

Pilot Miss. St. Spiritus-at-tempe, while fishing in the lake east of the Stanley Parkes yesterday morning, fished up the body of a young child, which was proved to be that of a young female infant, wrapped up in rags. The girl had been working up to the time she disappeared.

YOUR GROCER HAS Our NEW BLEND

PER 40c POUND (GREY LABEL)

LIPTON'S TEA

And other Blends from 35c to \$1 per pound

PRIZE EMBROIDERY

The embroidery made from Sunday World patterns and for which two prizes of \$25 and \$15 in gold have been awarded, will be exhibited in the windows of Buttericks, Yonge-street, opposite Shuter, a few days this week, beginning Monday.

In addition to the two pieces which won money prizes, several were given honorable mention by the judges and these will also be shown at Buttericks.

The judges expressed surprise at the splendid quality of the work sent in, in some of which they declared would compare favorably with the best work of the convents of Europe.

At the Theatres

"A Country Mouse Is Fine Comedy Well Played"

Such a comedy as "A Country Mouse," by Arthur Law is well adapted to bring out the finer qualities of Miss Percy Haswell and her company. Much indeed, everything depends on the ability of its interpretation, and the revealing way in which the points of the dialog are emphasized without exaggeration and with the proper reserve. Judged by this rather exacting standard, the presentation at the Royal Alexandra last night deserves a high meed of praise. Nothing indeed can better test a stock company, and the Toronto public is accustomed to general excellence in the case of Miss Haswell and her company. It is a play for last night to reveal even more than their record warrants anticipation.

The comedy turns on the advent, into a certain circle of London fashion, of a certain society, of a country girl, who presenting all the external characteristics associated with that type is more than a match for even the most sophisticated member of the set. There is not much of a story, but the comedy in some of the less intensely interesting scenes is full of humor to the audience who don't realize, which is the first requirement of the stage and its success in appeal to public sentiment.

In the "Country Mouse" Miss Haswell has just the role that suits her, a delightful veil of light comedy. She was charming in all its phases and delivered her lines with that realistic display that meant full absorption in the role. Notably among her support were Miss Stephens in Lorraine, who, by a brief notice, took the part of Lady Sylvia Bonby. But without diminishing the comedy was a success in a way that evoked the best encomiums from the large audience, than which nothing can better show their real appreciation.

Star Keeping Up Good Show Record

Those who delight in seeing the impossible accomplished would do well to see the Asahi troupe of Japanese acrobats at the Star Theatre this week. The act is billed as "garrd," and it is all that is claimed for it. One of the members of the troupe has his thumb tied by the Kling Sun has his thumb tied by a man in the audience, then passes his hands thru or around a long brass bar so that the bar is inside his outstretched arms—all without taking the string from his thumbs. And the other four form are on the same level.

The rest of the bill consists of a high standard of burlesque, against a setting of bright new costumes and pretty girls. Helen Van Euren, who was with Billy Watson last year, sings the kind of songs that draw the big applause on the railway specialty. The duo Gruffs have a vaudeville act that is far above the average and includes some real music.

If the show at the Star this week is indicative of the burlesque we are to have in Toronto all season, the prospect is good.

"Grain of Dust" Great Book Play

Interest in the book "The Grain of Dust" did not centre alone in the tragic end of its brilliant young creator because it was not the late David Graham Phillips' first and only work. It was his greatest. It was a really great book that deals with big and interesting modern conditions; the kind of conditions that big and interesting modern people think about. Doubtless therein lies the explanation of the fact that it has sold over a quarter of a million copies in three months. To do that a book must mean something, must say something, in other words, the mere murder would not promote the sale of his book to record breaking figures unless it was a good book. "The Grain of Dust" which will be presented

Your Purse

It needs consideration, as it has to stand constant strain. The use of gas for light and fuel is one way of saving money, but there is far less worry with an illuminant or fuel as reliable as GAS. We can supply you with efficient fixtures at very low prices.

DECREASE IN VISIBLE HELPED WHEAT MARKET

Chicago Pit Closed Steady at Irregular Prices—Cash Demand Was Stronger—Corn and Oats in Erratic Changes.

CHICAGO, Aug. 12.—Decrease in the visible supply of wheat, together with a strong cash demand brought about a late rally, overturning depressed conditions to-day. The market was steady at the close from a shade to 1-4 to 3-8 higher. Final trading left corn a shade up to 1-4 up, oats 1-4 to 3-8 down to 1-4 to 3-8 higher and provisions varying from unchanged to a rise of 1c. Attempts to accelerate the movement of wheat which is slowly getting in transit, brought a sharp demand from elevators and shippers and made the cash market exceptionally strong. Boats were waiting to-day to take on cargoes and the interest in current arrivals spread to later months. A decrease of 758,000 bushels in the visible supply brought down the domestic sight to 13,000,000 bushels compared with 14,760,000 bushels last year. Comparatively strong North-western markets also helped offset generally bearish conditions due to promises of enormous yields and favorable weather. Primary receipts were large and cash sales aggregated 35,000 bushels.

Strong Demand for Corn. Favorable weather prospects throughout the corn belt, with early ears ripening and later planting filling well, failed to dull the strong demand to-day for the grain. The September option felt the greatest force of the rise and moved stronger than the cash variety, climbing 1-8c above Saturday's close. September longs relinquished much grain. The close was steady at near the top figures.

September oats dragged the market slightly into the net decrease was not large. Hedging sales and some profit taking were observed and the distant futures advanced under moderate demand.

Firmness in the Provisions market was distributed by packers' sales when higher spots were reached. Higher prices on live hogs also checked bearish pressure.

Northwest Receipts. Receipts of wheat at northwest points, with usual comparisons, follow:

Table with columns: To-day, week ago, year ago. Rows: Chicago, Duluth, Minneapolis, etc.

European Markets. The Liverpool market closed unchanged and unchanged to 1/4 higher on corn.

World's Shipments. World's shipments inclusive up to Saturday night, 10,000,000 bushels against 9,200,000 bushels last week, and 9,000,000 bushels last year.

United States Visible. Visible grain supplies in the United States today, last week and a year ago, compare as follows:

Table with columns: Aug. 12, Aug. 5, Aug. 12, year ago. Rows: Wheat, Corn, Oats, etc.

Harvesting Next Week. The count comes from Missouri, Iowa, Nebraska, Kansas, Oklahoma, Texas, Arkansas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland.

Grain Supplies Afloat. Liverpool—Floating quantities wheat and flour, 4,200,000 bushels, 1,200,000 bushels last week, 1,200,000 bushels last year.

Liverpool Grain Exchange. Liverpool, Aug. 12.—Wheat—The market opened steady and unchanged to the advance and following the opening rally, it advanced to 1/4 higher.

Minneapolis Grain Market. MINNEAPOLIS, Aug. 12.—Wheat closed steady. No. 1 hard, 1.00; No. 2 hard, 98c; No. 3 hard, 96c.

No Market in Winnipeg. WINNIPEG, Aug. 12.—No markets to-day. Closed holiday.

Liverpool Cotton. LIVERPOOL, Aug. 12.—Cotton futures closed barely steady. Aug. 8, 54 1/2; Aug. 15, 54 1/2; Sept. 1, 54 1/2; Oct. 1, 54 1/2.

Duluth Grain Market. DULUTH, Aug. 12.—Wheat closed—No. 1 hard, 98c; No. 2 hard, 96c; No. 3 hard, 94c.

ST. LAWRENCE MARKET. Receipts of farm produce were 30 loads of wheat, 10 loads of oats, 10 loads of corn, 10 loads of hay, 10 loads of straw.

HEAVY CATTLE MARKET SELL LOWER

Market Very Uneven, Depreciations Ranging From 10c to 30c Per Cwt.

Receipts of live stock at the Union Stock Yards were 152 cars, 238 cattle, 350 hogs, 64 sheep, 72 calves and 18 horses. The run was a large one, especially in cattle, much larger than was anticipated. As a consequence the market was dull and drab, and prices in nearly all the classes of steers and heifers were from 10c to 30c lower, and common cows 20c to 40c lower, while good to choice cows held steady.

Heavy steers got a hard knock from buyers to-day. There was a very large proportion of that class of cattle offered and the demand was not broad enough to absorb it all. So bearish and apathetic were the buyers for the big steers that bids at the start were generally 5c lower. Sellers started it as a joke for a while, but soon found it was no joke. The bulk of the heavy cattle (that were sold) had to sell at a decline of 20c to 30c from last week, and then a clearance was made, and there were fully 800 cattle still unsold at the close of the market.

Exporters. The only buyers of export cattle reported were Swift & Co., who bought 150 steers, heifers and cows as follows: Steers, 100 to 1,200 lbs., \$4.25 to \$4.75; heifers, 80 to 1,000 lbs., \$3.75 to \$4.25; cows, \$3.50 to \$4.00. It will be seen and the highest price was \$4.75, as compared with \$4.00 of last week, and only a small proportion of cattle being in comparison with the prices of last week.

Butchers. Choice heavy steers of export weights for local killing, \$7 to \$7.40; good, \$6.75 to \$7.10; medium, \$6 to \$6.50; common, \$5.25 to \$5.75; light, \$4.50 to \$5.00; cullers, \$3.50 to \$4.00.

Milkers and Springers. A moderate supply of milkers and springers sold at \$40 to \$55 and \$2.50 was reached for choosing choice by McDonald & Halligan.

Veal Calves. Receipts of veal calves were about 70 to 100. Preference was made, and a few calves at \$3.25 per cwt.

Sheep and Lambs. A fair run of 400 sheep and lambs were reported sold as follows: Light ewes, \$4.25 to \$4.75; heavy, \$4.00 to \$4.50; pigs, \$3.50 to \$4.00; bulk of \$2.75 to \$3.25.

Hogs. Selects, fed and watered, sold at \$8.00 to \$8.50, and 85c country.

Representative Sales. Corbett & Hall sold 14 loads of live stock as follows: Butcher, \$6 to \$7.50; cows, \$4.50 to \$5.50; pigs, \$3.50 to \$4.50; calves, \$3 to \$4 per cwt.; sheep, \$4.25 to \$4.75.

Chicago Live Stock. CHICAGO, Aug. 12.—Cattle—Receipts 2,000. Market, beefs strong, 10c up; others steady. The lower beefs, \$5.75 to \$6.00; Texas steers, \$5 to \$5.50; western steers, \$5 to \$5.50; stockers and feeders, \$4.50 to \$5.00; calves, \$2.50 to \$3.00.

Hogs—Receipts 20,000. Market active, 5c up. Paddy brought 19 butchers, 900 to 1,000 lbs., at \$6 to \$6.40; 100 lbs and 8c to \$6.50 per cwt.

Sheep—Receipts 23,000. Market steady to the lower, active, 10c up. Light, \$4.50 to \$5.00; heavy, \$4.00 to \$4.50; native, \$4.00 to \$4.50; western, \$4.00 to \$4.50.

Chicago Gossip. J. P. Bickell & Co., from Logan & Bryan: Extreme dullness and some heaviness marked early trading in wheat. Local feeling has been moderately bearish since official crop figures were given out late Friday.

CATTLE PRICES LOWER IN MONTREAL MARKET

Supply Was Ample and Demand Slow—Hogs Held at Steady Prices.

MONTREAL, Aug. 12.—The receipts of live stock at the west end market for the week ended Aug. 10, were 10,800 cattle, 150 calves, 150 sheep and lambs, and 1,000 hogs. The offerings to-day were 1,200 head of cattle, 200 calves, 150 sheep and lambs and 800 hogs. The demand on the whole was only fair, especially for cattle. Choice steers were comparatively scarce and while prices for these were firm around \$7 per 100 pounds, the prices for good butchers' steers were at \$6.25 to \$6.50; fair butchers' steers at \$5.75 to \$6.00; medium butchers' steers at \$5.25 to \$5.50; light butchers' steers at \$4.75 to \$5.00; cullers, \$3.75 to \$4.00; cows, \$3.25 to \$3.50; calves, \$2.75 to \$3.00; sheep, \$2.25 to \$2.50; lambs, \$2.00 to \$2.25; hogs, \$7.50 to \$8.00.

LIVERPOOL CATTLE MARKET. LIVERPOOL, Aug. 12.—John Rogers & Co. sold the Birkenhead market for the day was steady, the slow, and Saturday's quotations remain unchanged at 14 1/2 to 15c per pound for Canadian steers.

BIG OPTURN IN C. P. R. IN MONTREAL

MONTREAL, Aug. 12.—Canadian Pacific and the consent stocks were the leaders to-day in a market in which dealings were on a comparatively large scale, about 12,000 shares, with the tone firm. Canadian Pacific displayed strength in the morning, opening a half point up at 28 1/2 on the higher cables from London, and advancing steadily on heavy trading to a new record of 28 1/2, just before the close of the morning session. The tone was somewhat reactionary in the afternoon and trading heavy to a turnover of only a few shares here. Closing bid was 27 3/4, as compared with 27 1/4 on Saturday. The directors of the company met this afternoon, but only routine business was made as to any plans for new financing that may be under consideration.

Cement continues to a new high price for the year, 3 1/4, and closed at the top, while the preferred advanced 1 1/4 to a new record of 9 1/4, also selling at its best price in the final dealings of the day.

We will also offer a number of good horses for express or delivery purposes.

Preston East Dome Abandons Porcupine Claim---Market Quiet

MINING STOCKS QUIET COBALT ISSUES STRONG

Specialties Come to Front in Mining Markets—Foster and Wetliufer in Lime-light—Dome Extension on Toboggan Again.

Monday Evening, Aug. 12. Advances in some of the specialties, and more particularly in a few of the generally dormant Cobalt stocks, were the outstanding features of the mining exchanges today. As far as the general list was concerned, it did practically nothing at all; active speculation being to all intent and purpose an unknown quantity in the exchanges, and price changes being so restricted in extent as to be negligible.

In the Porcupine list the only interesting development was to be found in another downward movement in Dome Extension, which dropped a couple of points under a resumption of bearish activities. The shares were quoted lower at the opening of business, and slumped very rapidly, reaching 14 1/2 within quarter of a point of the recent low record. The street professed to know no reason for the decline other than the sudden offering of a big block of stock on an unwilling market. The company is, of course, nearly out of funds, and consequently there is no material demand for the stock.

PORCUPINE WANTS MORE GOOD ROADS

Porcupine wants more good roads, and petitions signed by over two-thirds of the residents of Whitney township have been presented to Dr. Resaume, minister of public works, asking that the towns of Porcupine and South Porcupine be connected up by wagon road by the way of the north side of the lake. The camp is now three years old and there is no road leading between the two principal towns. Teams are taken from the north to the south end of the lake by ferrying them across on scows. A good winter road has been cut out and travelled for two years along the north shores of the lake but a summer road has never been prepared out of the winter road. The cost of ferrying a team load across the lake last year was \$25.00, while this year the price is less.

START WORK AT THREE NATIONS

With a view to starting active development work on what was known as the three Nations claims in Eastern Whitney, near the Three Nations Lake, H. A. Devine, one of the owners of the Extension made an examination of the lots last week.

MOTHERLODE PROFITS WERE \$19,287 IN JULY

Motherlode Mining Co. reports mine results for July, 1912, as follows: Mill ran 23 1/2 days, crushing 1800 tons of ore with a value of \$17,235 per ton. Extraction was 97.08 per cent, and value of product \$21,421. Operating expenses amounted to \$12,210, leaving an operating profit of \$19,287.

NO OPTION GIVEN ON FOSTER PROPERTY

But Syndicate May Take One at Any Time—La Rose Wants Claim.

The Foster Cobalt Silver Mines are not under option, although the Flynn syndicate is pumping out the shaft preparatory to making a test of the values for the purpose of putting in a bid under lease and bond for sale. Whether or not the Porcupine syndicate will give the option is a matter yet to be decided. The Flynn syndicate is still open to new bids, and the Foster property is still open to new bids. The Flynn syndicate is still open to new bids, and the Foster property is still open to new bids.

GOLD OUTPUT OF RAND FIELD

LONDON, Aug. 12.—Last month's gold output of the Rand, as reported to-day by the Transvaal Chamber of Mines, was 282,525 ounces fine. In June it was 282,525 ounces. In July last year, 260,238; in July, 1910, 283,711.

DOBIE CLOSED DOWN

George E. Farl, manager for the Dobie Mines, has left for his home in New York, and the mine work has been closed down for the present. Nothing is given out as to when the work will be resumed. Work on the Dobie property in Northern Tisdale was closed last March.

Great Opportunity While They Last

All of our Scotch Tweeds and West of England Worsteds Suits—regular price \$25.00, \$30.00, \$36.00, \$40.00 and \$45.00—reduced for quick sale to

\$22.50

We want to clear our counters quickly to make room for our new Fall goods. That is the "Why" of this sale. That is why you can buy one of these mighty attractive suits so far below their original price.

He: "That fellow over there cheated me out of a cool ten thousand." She: "How could he?" He: "Wouldn't he marry his daughter."

PRESTON CLAIM IS ABANDONED

Even Machinery is Removed From Property—Shareholders' Hopes Went Long Ago—Try Luck in Cobalt

Dismantling the machinery on the Preston East Dome lot, three-quarters of a mile to the south of the Big Dome property, has begun, and with the completion of the work the boilers, hoists, and pumps will be shipped to Cobalt, where the company has an option on the Silver Bay property. The two compartments will not be shipped at this time, as they are not needed to begin the development of the Silver Bay.

A full complement of mining machinery was placed on the Preston during the winter of 1911, boilers, hoist, compressor, pumps, drills, and buckets, all owned by a large block of claimants. Two Nissen stamps were also provided, but were never set in place and now lie on the rocks near the power plant.

During the winter of 1912, work was discontinued on the Preston and a new boiler, small compressor, and hoist were purchased for work on the East Dome lots, located 100 rods to the north-east of the Preston lot, where considerable underground work was accomplished before work was shut down in June.

Two shafts to the depth of 75 and 65 feet respectively were sunk on the Preston lot, with drifting done on a small lens of quartz, while a 100-foot shaft was put down on the East Dome lot, with a cross-cut thru the formation. Paying values were not found.

This is the first instance in the Porcupine camp where the management in leaving a property took the machinery with them.

RAILROADS BUYING NEW EQUIPMENT

NEW YORK, Aug. 12.—The first seven months of 1912 have shown a heavy increase in equipment orders over a similar period in 1911. In cars, the total number ordered since the first of January has been about 125,000, or at the rate of about \$1,000 for the year. This compares with 115,000 in the entire 1911, and 145,000 in 1910. The best year was 1915 when a total of 244,000 cars were sold by equipment companies.

TRYING LUCK IN REDSTONE BELT

Redstone Rapids district in Shaw Township is to be fore again with active development. Richard Sherwin, owner of a large block of claims at the Falls, has begun work. An announcement is made that 13 men will be employed on this one property for the balance of the summer and during the fall.

When mining work was closed down there some time ago several good veins were opened and worked to considerable extent. The falls in the river provide water power and should be worked show that the making of a mine is not impossible in this district this year.

Power will be developed. Engineer Walker Armstrong of Buffalo is in charge of the work and sinking on the main King and Toronto streets. Phone Main 5179 and Main 2553.

COBALT PORCUPINE

We have in preparation a circular letter giving a brief opinion on the merits of the following stocks: Chambers-Perla, City of Cobalt, Cobalt Lake, Conlagas, Crown Reserve, Hargrave, La Rose, Nipissing, Pater Apex, Crown Chartered, Jupiter, Moneta, Pearl Lake, Pienaurum, Vipond and Hollinger. Will circular on receiving a request for same.

MINES FOR SALE

MINES FOR SALE—Buck and Coleman. Located; one thousand ounces to lot. Owner, Box 4, World Office.

Offering of \$90,000 of 7% Cumulative Preferred Shares of the Canadian Ohio Motor Car Co., Limited

7% Cumulative Preferred Stock Common Stock CAPITALIZATION AUTHORIZED \$200,000 ISSUED \$150,000 \$200,000 165,000 (Of the above the Directors and their friends have subscribed for \$60,000 of the Preferred Stock)

DIRECTORS: H. I. MATTHEWS, Capitalist, Colborne, Ont., President; A. E. SCHAFER, Vice-President Ohio Motor Car Company, Cincinnati, Ohio, Vice-president; J. F. PRATT, Wholesale Fruit Exporter, Colborne, Ont.; C. F. SUTHERLAND, Warden United Counties Northumberland and Durham, Colborne, Ont.; H. H. SUTHERLAND, of F. C. Sutherland & Co., Toronto, Ont.; FRANK L. WEBB, Barrister, Colborne, Ont.

Transfer Agent and Registrar—National Trust Company, Limited, Toronto, Ont. Bankers—The Standard Bank of Canada. Auditors—E. R. C. Clarkson & Sons, Toronto, Ont. Solicitors—Masten, Starr, Spence & Cameron, Toronto, Ont. Brokers—F. C. Sutherland & Co., Toronto, Ont. Head Office and Factory—Colborne, Ont.

The Preferred Shares are preferred both as to assets and cumulative dividend at the rate of 7 per cent. per annum. WE OFFER for subscription 900 fully paid shares 7 per cent. Cumulative Preferred Stock at par, \$100 per share, with bonus of 25 per cent. in Common Stock.

The Canadian Ohio Motor Car Company, Limited, has been incorporated under the Ontario Companies Act to manufacture and sell in the Dominion of Canada the noted "OHIO" Motor Cars, Delivery Wagons and Cars. The Manufacturing Plant will be established at Colborne, Ont., where the Company has been granted a valuable site and exemption from taxes for a period of ten years.

The operating agreement between the Ohio Motor Car Company and the Canadian Ohio Motor Car Company is of material advantage to the Dominion of Canada, and to the use and benefit of all patrons, blue prints, tools, dies and general engineering, together with the free service of the Drafting Department, thereby enabling the Canadian Company to produce the latest and newest models without the large expenditures incident to experimental work for quality equal to the best cars made on the continent or abroad. The "OHIO" has gained for it a reputation to be extremely conservative.

ESTIMATED EARNINGS: Mr. C. F. Pratt, the President of the Ohio Motor Car Company, estimates that the profits for the first year, based upon the present sales, will amount to at least Twenty Per Cent. on the issued capital, which, after paying interest upon the Preferred Stock, will leave a substantial amount for dividends upon the Common Stock.

AUTOMOBILE BUSINESS IN CANADA: The automobile business has become one of the most important in Canada, and is yet in its infancy. The companies operating in Canada are meeting with remarkable success, and motor-car shares are eagerly purchased by the investor on account of the substantial character of the business and the satisfactory returns received therefrom.

AUTOMOBILE TRUCKS: The remarkable industrial growth in Canada, convinces the Directors that there is a large and profitable field in the manufacturing of trucks and delivery cars, and attention will be given to this department without delay, as this branch of the business has proven to be highly profitable. We advise without reserve the purchase of the 7 per cent. Cumulative Preferred Stock of The Canadian Ohio Motor Car Company at \$100 per share, carrying a bonus of 25 per cent. of Common Stock. We believe these shares to be a safe, sound investment, surrounded by great profit probabilities.

Women's Most Practical Costume

is the suit. Always and everywhere she finds need for it because of its instant adaptability to meet the changes of temperature—often extreme in a few hours. Designers are alive to this need, and to the fact that to be desirable a suit must be simple and practical in cut and durable in materials. Those we describe here are intended for fall and early winter wear, and the price we name, \$12.85, is due to their early appearance, and the desire of the maker to keep his entire staff at work.

ONLY ONE HUNDRED

Women's and Misses' Fall and Winter Suits; lines of unusual becomingness characterize these smart models.
