APPOINTMENT DOES NOT PLEASE SIR SAM HUGHES

Stating that the appointment of Lloyd Harris, as chairman of the Canadian trade commission to London, was strongly resented by a large and important factor in the population, Sir Sam Hughes, who was a visitor at the King Edward Hotel yesterday, said he had already sent his protests to Premier Lloyd George and Borden. He had given notice to parliament that he desired all orders-in-council

which restrict the liberties of the press or people rescinded. And further, he said:

"I pointed out long ago that there was danger, from government by order-in-council, of overthrowing autocracy in Prussia and being governed by it in Canada. An autocrat is the same to me as he is to the Kaiser, labor leader, church dignitary or minister of the crown. It's the voice of the people that counts. I would also rescind the whole registration force."

TEMPERANCE ACT NOT WAR MEASURE

Dominion's Temperance Legislation, Under War Act, a Different Matter.

With the signing of the armistice last Monday, many reports got into circulation respecting prohibition. Some people seemed to think that the hotels would reopen because the war was over. As a matter of fact, the Ontario Temperance Act, passed in wartime, was not a war measure, nor did it pretend to be. It simply established a provincial prohibition for three years from and after Sept. 16, 1916, and provided for a plebiscite at the end of that period. The Ontario

PREPARE TO ABSORB RELEASED LABOR

Government Urges Railways to Place Orders Now for Equipment.

FOOD PRODUCTION NOT TREASURY STOCK
Minister of Agriculture is Considering Plans for Greatly Increasing It.

Ottawa, Nov. 13.—Conferences held during the day are expected to result in the placing of some large railway orders, both by the government and the railway companies. The situation was thoroughly canvassed especially in regard to rapid transition by the basic industries of iron and steel from war to peace orders, and data obtained as to the exact present situation. The government has already intimated its intention of placing orders for steel rails, ties and equipment for the national railways. The railway companies are now being urged to follow a similar policy, rather than wait for a possible decline in prices of equipment. Furthermore, it is proposed to begin work as early as possible on any necessary railway extensions in the west.

The conferences were attended by the reconstruction and development committee, representatives of the railways and of the railway departments, steel and iron manufacturers, the war trade board and the imperial munition board.

With a view also to the absorption of labor, it is announced that preparations are under way for a campaign of increased food production. The cessation of hostilities has in no wise, as yet, justified any relaxation in food conservation. The claims of Germany and Austria for food, Belgium and the Balkan states have aggravated the problem. It is felt that the reduction in the cost of living and other measures of conservation as essential as before the armistice. The minister of agriculture is understood, has now under consideration, plans which aim to result in widely-increased production and at the same time absorb much of the labor which will be released within the next few months.

PLAINTIFF INSISTS HE WAS VICTIMIZED

Cross-Examined in Case Against Mercantile Trust Company and Others.

NOT TREASURY STOCK
Admits That He Bought Additional Shares of Pulp Company Thru Toronto Broker.

By Staff Reporter.
Hamilton, Nov. 13.—For six hours Strathearn B. Thomson was under cross-examination today in the trial of his case against the Mercantile Trust Company and others before Chief Justice Falconbridge and a jury in the Supreme Court of Ontario. During the forenoon sitting he was asked questions by Senator George Lynch-Staunton, attorney for the defendants, Morris & Wright. Then D. L. McCarthy, K.C., attorney for the Mercantile Trust Company, took a turn at the wheel and toward evening the long inquisition terminated with cross-examination by J. L. Counsell, representing the defendant, P. L. Bradley, Senator Lynch-Staunton was in his most sarcastic mood and more than once touched the plaintiff on the raw. But the latter came back with no little spirit and stuck to the story he had told upon direct examination. Mr. McCarthy cross-examined to show that the Trust Company was not liable no matter what representation had been made by the defendant, S. C. McDonald, its general manager. Several other witnesses on behalf of the plaintiff were examined before the close of the day, and the trial of the case will conclude tomorrow.

Insists He Was Victim.
During his entire cross-examination Mr. Thomson insisted that he had been the victim of a conspiracy in which all the defendants, including his brokers, Morris & Wright, the Mercantile Trust Company, and its general manager, participated. He said he bought the stock of the North American Pulp and Paper Co. upon the representation that it was treasury stock, and that all the money paid by the underwriters had gone into the property. This turned out to be untrue, he said, and the money he had paid was not in his pocket, but was held by the company. The company has outstanding bonds and preferred stock amounting to twenty million dollars.

Senator Lynch-Staunton savagely cross-examined the plaintiff upon the wholesale charges made by him out of court against the directors of the Mercantile Trust Company, including such prominent citizens as Sir John Hendrie, and Cyrus Birge. The plaintiff said that he had no personal knowledge of Sir John Hendrie having purchased any stock in the Pulp and Paper Company, but contended that S. C. McDonald, general manager of the Mercantile Trust Company, had acted as steersman for a number of wealthy men, and that these men had allowed their names to be used in the company's prospectus.

Counsel and Witness Clash.
Senator Lynch-Staunton and the witness clashed in a clash when the latter suggested that the plaintiff was laboring under an hallucination about the conspiracy, when the latter made some reference to the "Canaan crowd," the senator asked sarcastically:

"If they needed you" in the context referred to, "I guess you would have been in the market."

Counsel made much of the fact that Mr. Thomson is a well-known horseman and has been more or less in the stock market for the last few years. It was shown that he had bought additional stock of the Pulp and Paper Company thru Cawthra Mulock's office and had paid a higher price than he paid for the shares delivered to him by the Mercantile Trust Company.

Underwriter Testifies.
There was considerable wrangle over the failure of the defendants to produce certain documents, including some books of the Mercantile Trust Company. Finally, C. S. Wilcox was put in the box and admitted he was one of the underwriters. He said he had bought 5,000 shares of the stock outright, paying \$8 per share for the same.

W. H. Burns, accountant of the Mercantile Trust Company, said the trust company had loaned \$18,500 on Pulp and Paper Co. common stock as collateral, but other security had also been required from the borrowers. This money had been loaned out of the capital fund. No trust money belonging to an estate had been loaned on this stock except to Strathearn B. Thomson, the plaintiff. He had been loaned money to the estate of Sarah Alice Thomson. Under her will considerable property was being administered for the benefit of the Women's Home and other charities. The will, however, authorizes the trustee to use its own discretion in making investments without regard to statutory restrictions.

POLICE ARREST MOTOR DESPERADO

Faces Charge of Attempted Murder of Police Constable May.

Charged with the attempted murder of Police Constable John May of Cowan avenue station, Arthur Healey, 18, of 91 Tecumseth street, has been arrested by Detective Nichols of Cowan station. The arrest, the police believe, is the sequel to several motor thefts and robbery.

On November 1, a car was reported as stolen and was later said to have been proceeding west on West Queen street. Constable May, while patrolling his beat, saw the car and held up his hand for it to stop. It is alleged that Healey stood up in the tonneau of the car and fired two shots at the officer, one of the bullets entering the constable's right arm and the wrist. The constable was taken to the General Hospital and the bullet located by means of the X-ray near the elbow.

Later in the evening the car was again sighted by Policeman Courtney, who gave chase in a passing motor car, but lost his quarry near Lambton. Nothing further was heard of the man in the car until two days later a motor belonging to the Royal Air Force was stolen from the Long Branch Camp. Two mechanics of the Air Force were sent after the thieves and succeeded in running them down at the corner of Argyle street and Ossington avenue. The Air Force men, however, were held up at the point of a revolver by other members of the gang, and the man

escaped. Since that time two or three other members of the gang have been arrested.

Later, Detective Nichols was telephoned at his home at 1.30 on the morning that the car was again sighted. The officer hurriedly dressed, and stopping in the alleyway, gave chase, picked up the trail and gave chase. The car was soon located proceeding east on College street, and after the officer had pursued it down Yonge street, Healey was run down at McGill street.

The owner of the motor car ran into a cafe and telephoned to West Dundas street station while Nichols arrested Healey. An officer arriving on the scene arrested the driver of Healey's car, but he was later given his freedom.

SERIOUS SITUATION AFFECTS EMPLOYEES

Willis-Overland employees at a special session last night at the Labor Temple, discussed a serious situation which is alleged to have arisen in connection with changes about to be made in the general plan of the company. Many hundreds of employees, and with these many trades unions, come are expected to be affected by these changes which are consequent upon the sudden cessation of war activities. Union officials had no information to give.

CHARGE IS THEFT FROM WIFE

Charged with the theft of \$514 from his wife, Hendrikus Van der Berg of Paterson, N.J., was arrested in Toronto last night by Detective Taylor, acting on information received from that town. He will be held pending the arrival of an officer from that city.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In the political sphere, one principal event is the beginning of preparations for the peace conference. This Liberal friends, let drop a remark that suggests that before the conference opens that hold a general election. He said that the mandate of the government at the forthcoming general election would mean that the British delegation to the peace conference would be in favor of a just peace. The British people are determined upon to effect a settlement that will prevent wars in the future, and Lloyd George believes that a league of nations will go far towards this aim. The war has created the old Balkan problem on a larger scale. It has created many more small nations, and the big powers will have to protect these against would-be aggressors.

The real problem of a league of nations, according to Lord Robert Cecil, is the machinery to enforce its principles. It might be solved by a treaty binding the signatories never to wage war against themselves, or to permit others to wage war until the league had investigated and, if possible, decided upon the dispute. This program, if adopted, would be a revival of the old European congress. This concert of powers always attempted to avoid war, and sometimes it succeeded, and it was the failure of Sir Edward Grey to secure a congress on the Austro-Serbian dispute that marked the beginning of the present war. League of nations, or no league, it would seem possible that a group of powers could align themselves against the rest.

In Britain it is hoped that the forming of a league to keep the peace will do away with the need for conscription. Britain, as in the past, would maintain her old regular army for policing the empire and will keep her navy up to the mark. In the United States the government is continuing its naval program and enlarging its navy. The program appears to be the enlargement of the United States Navy. Before demobilization of the American forces the government has to submit plans for reorganization to congress. This will involve considerable delay in the breaking up of the American forces. It is said, besides that the cessation of universal military training will become an issue, and also the American army enters on a career of Bolshevism. The allies will endeavor to prevent the overturning of civilization, such as it is, east of the Rhine, by attending to the feeding of the German tribes. President Wilson has sent them a note of counsel, and a promise to attend to their food supply.

In Germany, further units of the navy, including the crews of four large battleships, have gone over to the Allies. The Swiss frontier continues, and it is shutting off the lack of detailed intelligence from Germany is causing anxiety in London. The German navy is in a state of disarray. A sentiment of Germanic union, however, is prevailing, and the German of Austria have decided, upon the abdication of the Hapsburgs, to unite with the Germans of the north. The allies, however, have arranged for diplomatic action to prevent the formation of a larger aggressive Germany.

WILHELM ARRIVES ON SPECIAL TRAIN

Some Aged Generals Accompany Ex-Kaiser in Flight.

Amsterdam, Nov. 13.—William Hohenzollern, former German emperor, arrived Monday afternoon at the Castle of Ammerongen, Count von Bentinck's country seat at Maarm, in the Province of Utrecht.

Soon after 4 o'clock a special train stopped near the little country station near the castle. Count von Bentinck awaited his guest in an automobile. It was raining as the former emperor, dressed in a gray general's uniform, with red cuffs and fur collar, but no orders or medals, and carrying a cane, stepped from the train and was greeted by the count.

Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its thirty feet.

The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste materials.

It is, in other words, the great sewer of the body. The more food eaten the greater the waste. If a sewer becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follows.

Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "cut it" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuations as "regular as clockwork."

Nujol prevents stagnation and self-poisoning. Nujol forms no habit, except a natural, healthy habit. After Nujol has trained the bowels to act, it can be dispensed with.

Members Are Asked to Remember Their Obligations to Boys Yet Overseas.

In the flush of victory let us not forget that the families of the boys overseas must receive the same generous treatment that has been meted out to them during the past five years. The patriotic fund will carry on for many months, and those who have subscribed large sums direct or through the 50,000 Club are merely carrying out their promise in voluntary efforts.

During the past few months there have been many things that have tended to make the people of Toronto those who are behind in their 50,000 Club dues should see that the arrears are paid up and payments continued for three or four months longer.

Collectors for the 50,000 Club are also requested to clear up their lists up to date at the earliest possible moment and make the returns so that all the accounts may be properly checked and delinquent subscribers get after for back payments.

LOAN IS NEEDED NOW TO MAKE CANADA SAFE

Objective in Sight, But Every Effort Required to Make It Big Success.

"While we can never be absolutely certain until the returns are actually recorded, I am confident we are within sight of our \$500,000,000 objective," said E. R. Wood, chairman of the Dominion executive, Victory Loan.

"Evidently the public appreciates at its true value the new situation created by the cessation of hostilities. That situation is a serious one—not one to cause alarm—but serious. Our task as far as actual fighting is concerned. But our war task at home will not be completed until we have restored the country to normal conditions.

"We can make of this transition period on which we are now entering what we will. If we let things slide it will be dangerous; if we grasp the situation firmly we can transform it into one of magnificent opportunity. There are tremendous possibilities for Canadian industry and production—if we finance them.

"Some one might unthinkingly suggest that the Victory Loan is no longer needed to back up the men at the front. That would be a shortsighted suggestion. Between now and Saturday night Canada has another world to demonstrate to the world its efficiency and resourcefulness. A great over-subscription to the loan will be an inspiration to our own people and a notice to the world that Canada is a force to be reckoned with in the days ahead. My message is, therefore, to everybody, to keep on buying every bond you can until the loan is closed."

HUMBER RIVER APPLIANCES DISGRACE, SAY JURYMEN

That the life-saving appliances on the Humber River are a disgrace to the County of York, was a verdict rendered last night on the circumstances surrounding the death of a young man who was drowned in the Humber River on Oct. 26. The jury found that death was accidental. The boat had taken a canoe out, had overturned and sunk before help could reach him. Major C. J. Currie conducted the inquest.

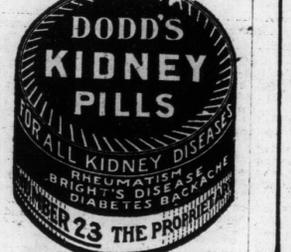

TO SUPREME COURT.

Case of Will of Late D. T. Burk of Port Hope.

The case of the will of the late D. T. Burk of Port Hope will be removed from the court at Thunder Bay to the supreme court of Ontario. In this case the application of the second wife for a probate of the will is being opposed by Kathleen Clarkson, a daughter by the first wife. The testator is alleged to have divorced his first wife and remarried within a year, contrary to the divorce laws of the United States.

SOLDIERS NOT REPRESENTED.

The Parkdale G.W.V.A. have wired Ottawa protesting because no soldier representative had been appointed to accompany Premier Borden to Europe to take part in the after-war deliberations. Labor and other interests have had representatives chosen, but the soldiers have been overlooked. The Ottawa executive is asked to take the matter up.

WAS PULL USED TO GET PROMOTION?

Fire Chief Says Merit Alone is Policy of the Department.

APPOINTS HIS SON

Controller McBride Charges That Other Firemen Were Side-Tracked.

As a result of the promotion of his son, Lieut. R. A. Smith, to a captaincy, vice Capt. Lynch, deceased, Fire Chief Smith was subjected to an attack upon his promotion system by Controller Sam McBride. It started while the board of control at their regular meeting yesterday morning were discussing the list of promotions which had been submitted to them by the chief for approval. Controller McBride declared he knew that promotions in the department were not made for merit, seniority, or any defined policy, but were simply made in a haphazard manner. The whole business, he declared, was simply a wire pulling proposition. Lieut. Smith, according to the controller, had been promoted over the heads of men who were his seniors by 14 years and this was causing ill feeling and upheaval in the department.

Chief Smith was sent for and upon his arrival he was asked by the mayor if there was any wire pulling going on in his department. "Not with me," replied the chief. "Promotions are made purely on the basis of merit and for length of service."

"That is right," Cont. McBride wanted to know why so many young men were promoted over the heads of older men who were far their seniors in service and intelligence.

Chief Smith replied that these older men had not received promotions because they were not good fire fighters.

Cont. McBride: "Then be big enough to ask them for their resignations." Cont. Maguire: "I have every confidence in Chief Smith, but I am going to hold him responsible for efficiency." Cont. McBride: "Then I am forced to ask Chief Smith why he promoted his son to captain when he could not qualify as a fireman? He was made a driver."

Chief Gets Angry. This angered Chief Smith, who sprang to his feet to reply. Cont. McBride arose, too, and the two gentlemen glared at each other across the chamber.

Chief Smith, banging his hand on a desk, explained that every man on the strength of the department was a fireman, and that there was no distinction between firemen and drivers. There were two drivers killed at The Globe fire, and drivers did firemen's work when necessary.

Cont. McBride: "I am going to make a charge. Chief Smith has taken advantage of his position by making his son a captain."

Here the following list was produced, showing that it had been necessary to go down 19 men in order to give Smith, Jr., this position:

- Lieutenants and Date of Promotion.**
 1. G. Mason, October, 1910; 2. J. Conter, October, 1910; 3. W. A. Cahoun, June, 1911; 4. S. Price, November, 1911; 5. J. A. McQueen, September, 1912; 6. James Potts, September, 1912; 7. A. Sargent, November, 1912; 8. W. Welr, February, 1913; 9. W. J. Beah, January, 1914; 10. C. Fox, January, 1914; 11. C. Sweetman, January, 1914; 12. A. E. Bezier, June, 1914; 13. George Henderson, January, 1914; 14. S. Ridout, June, 1914; 15. C. Stewart, June, 1914; 16. J. P. Walden, June, 1914; 17. A. F. Bezier, June, 1914; 18. E. Robinson, July, 1914; 19. A. Tomlin, January, 1916; 20. R. A. Smith, January, 1916.

Declaring that the whole discussion was out of order, Mayor Church vainly attempted to close the argument, but Cont. McBride would not be silenced. "I repeat," he declared, "that men physically and mentally strong, have not been promoted on the basis of merit or seniority." Chief Smith told the board that if they did not think him capable there was only one way out of the difficulty. The recommendations were finally passed and will come up before the council at the next meeting for ratification.

DRAFT ESTIMATES READY. The draft estimates yesterday by Assessment Commissioner Forman, call for a total of \$129,260, plus war bonuses of \$2095, making a grand total of \$129,355.

REAL ENTERTAINMENT IN BAIRNSFATHER PLAY

Everyday Life in the Trenches as Lived by Old Bill, Bert and Alf.

"The Romance of Old Bill," as related in the film of "The Better 'Ole," is a stirring story containing a strong vein of humor and a message to all who see it. Old Bill is played by Chas. Rock, in whose experienced hands Bairnsfather's character is admirably presented. The striking charm about these master studies is that they are so thoroughly unstudied. The characters reek—that is a sound word to use about the trenchers in the Messrs. We see Old Bill that philosopher of the trenches; Alf and Bert, those life studies in khaki, the comedy of the uniform; Khaki and cackation is the motto for "The Better 'Ole." It is better than any play. Only a percentage of people have seen the legitimate version. The screen version begins with a prolog, in which we vision Rouget de L'Isle singing the "Marseillaise." We see the "Three Musketeers of Dumas," one for three, three for one." These dissolve into our modern trio of warriors—Old Bill, Alf and Bert. We see them in their dugout, making merry in billets behind the lines, then off to Blighty and their welcome 'ome. "The Better 'Ole" comes to Canada direct from England and will be shown at the Allen Theatre the week of Nov. 25, for the first time on this continent. The London Evening News says of it: "The Better 'Ole" is meeting with enormous approbation wherever shown. It gives real entertainment."

PLAYS PICTURES AND MUSIC.

"Experience" Returns. "Experience," that most wonderful play in America, returns to the Royal Alexandra for the entire week of Nov. 18. Written by George V. Hart and produced by the Messrs. William Elliott, F. Ray Comstock and Morris Gest, the play has won phenomenal success in every city throughout the United States and Canada during the past five years. Also a noteworthy feature of "Experience" is that it has been endorsed by the clergy, by parents, teachers and others everywhere it has been presented. It teaches such a strong and moral lesson that no one, man, woman or child, can afford to miss it. Seats are on sale today.

At the Princess. The New Princess will have for its attraction next week John Cort's exhilarating musical comedy, "Listen Lester." Mr. Cort has provided a cast of exceptional interest that includes Emma Carus and many other players. The most prominent are Clifton Webb, Gertrude Vanderbilt, Felix Adler, Eddie Garvie, Hal Wilson, Pan Travers, Ruth Mabee and a chorus of dainty femininity that is magnificently and startlingly gowned. The seat sale opens this morning.

Mutt and Jeff Coming to the Grand. Mutt and Jeff, the cartoon characters, made famous by Bud Fisher and the newspapers all over the continent, are coming to the Grand Opera House next week in a new comedy with music, entitled "Mutt and Jeff in the Woolly West." This season the "long and short," as these laugh producers are known, will have the principal roles in a play with the locale laid in the golden west. As the owners of a gold mine and with visions of unheaped wealth, Mutt and Jeff install himself as "Jeff's" business manager. During the week at the Grand matinee will be given on Wednesday and Saturday.

Shea's Theatre—Vaudeville. A great comedy show with all new features will be seen at Shea's Theatre next week. Music and novelty abound in the bill, and Blossom Seeley and her syncopated studio and Bernard and Rose will be among the headline attractions. Paul and Mae Nolan call themselves "jesting jugglers. Their juggling stunts are out of the ordinary and their comedy spontaneous. Shea's Theatre orchestra will be heard in a special musical program.

Loew's Next Week. Alice Brady in "The Ordeal of Rosetta," to be shown next week at Loew's Theatre and Winter Garden, the zenith of her career to date. The Collins Variety Dancers, in a series of artistic and terpsichorean specialties, top-line the vaudeville, with the following entertaining acts: Brown and Barrows, Paul Petching & Co., Arthur Sullivan and Mercedes Clark, and the University Trio. Loew's war pictures and "Mutt and Jeff" cartoons round off the bill.

Shea's Hippodrome. For next week the Hippodrome announces that it has secured probably the greatest production in motion pictures—William Farnum, in his greatest picture, "The Rainbow Trail." The headline attraction of the vaudeville bill will be the Seven Allied Singers, Hank Brown and Company, Florence Henry & Co., Charters & Myers, Myrtle and Jimmy Dunedin and Billy Kelgard complete the bill.

At the Allen. Next week Mary Pickford, in her latest Artcraft success, "Johanna Enlists," will be featured at the Allen. In this production Toronto's favorite star has unusual opportunity to display her wonderful ability. An added attraction will be the first episode of "Boy Scouts to the Rescue."

"Ruggles of Redgap." Taylor Holmes makes his biggest hit in "Ruggles of Redgap," the picture feature at the Regent next week. He certainly has the delightful opportunity to get the most out of his raven of humor and Manager Elliott guarantees that he is the funniest in this vehicle that he has ever seen. Frank Bessinger, who made such a hit last week, will be heard again.

The Social Follies. Harry Sevon, who is this season at the head of the Social Follies Company at the Star Theatre next week, is a comedian of ability, and is considered among the best exponents of the Irish comedy. His methods are unique, and at all times keeps his audiences in roars of laughter. "The Very Idea," which New York, Chicago and Boston laughed at, will be at the Royal Alexandra for the week of Nov. 25.

SOLDIERS' INSURANCE. At its meeting yesterday the board of control sent on a request to the city solicitor to prepare a report on the possibility of providing a plan of insurance for soldiers' insurance up to date.

"I wonder what he thinks of me?"

Another wounded soldier!

Never have I noticed so many on the streets as there seems to be today.

I wonder why that chap gave me such a searching look? If he thinks I am a slacker he's wrong. I'm not able to fight; but I have done my duty. Here's my honor button on my coat to prove it.

I've bought ten Victory Bonds—put nearly all my savings into them. Not quite all—that hundred I have left must be kept to buy Christmas presents.

Christmas presents? I wonder if this would be the best way to spend that money?

Let's see; I could take that hundred dollars and pay it as a deposit on four \$100 bonds—then pay the other \$300 in instalments.

But that would leave me nothing to buy Christmas presents.

I have it!

This year I'll give Victory Bonds as presents.

But would the wife like that? Would she like a Bond as well as the gift I was going to buy her?

Why she'd rather have a Bond, if she knew it might save one poor boy from being crippled like that lad there.

And the three children, every one of them has been at me to buy a bond.

I could pay the other \$300 in instalments—by being a little more careful of my expenditures. And the wife will gladly help.

I'll do it.

I'll take that hundred dollars to buy four more bonds. I wonder why I didn't think of that way before.

Let every Canadian do some serious thinking along these lines today.

You have only three days left to set yourself right with the boys who fought, toiled, suffered and died—for you.

Today may be the biggest day in your life.

You've never known a day that compares with it in opportunity to serve your country, for this loan must be oversubscribed.

Canada must show both friend and foe that she is in this fight to win.

SAYS TEMPERANCE ACT IS HERE FOR ALL TIME

That the Ontario Temperance Act is here to stay is the opinion of Rev. Ben Spence. When asked yesterday if any plans had been made regarding a temperance vote now that the war is over he said he did not contemplate any such thing. "Speaking of the possibility of a referendum, Rev. Mr. Spence said: "The O.T.A. is in as definite a form as any other piece of legislation in the Province of Ontario, but the provision was made, and rightly so, that when

the war was over and normal conditions again obtained, the people, having had a fair test of prohibition, should be allowed to express at the polls their opinion upon that law. I have no doubt as to that opinion or expression." Rev. Mr. Spence discredited the idea that the men at the front wanted the return of the license system, and said it was a shame to say it. "I am content to leave the vote entirely to the men who have been fighting for Canada," he said, "and have no fear of the result. It is the women's burden to say they are not as good as the men at home. Man for man they are better."

MOVING TO LEASIDE SOON AS POSSIBLE

Just as soon as the yards at Leaside can be made ready the C.N.R. will move from the present quarters in the Don Valley, it was stated yesterday on reliable authority. In the meantime the work is being rushed with all possible speed, the only obstacle being the lack of sufficient laborers. The question, "Do you expect to be moved by spring?" brought the answer, "Yes, that would be the outside time. The possibilities are that the move will be made before that."

CLAIMS HE IS PERSECUTED.

Claiming that he was being persecuted by some unknown enemy who claimed he was a German, Joseph Cleman, a Russian barber, appeared before the board of control yesterday. He claimed that he had been discharged from his situation three times lately. He produced evidence to show that he was a native of Russia, but had been naturalized a British subject, and further, his son has been cheerful.

CALMLY AWAITS DEATH.

Calmly whiling away the time by playing checkers with the death guard at the Toronto Jail, Hassan Neby, who will be hung on January 3 next, appears to be little disturbed by the future. Not only does he eat well, but he is reported as being decidedly cheerful.

PARTY WAR HEROES REACHES TORONTO

First to Come Since Armistice, But Crowd to Greet Small.

At 3:45 o'clock yesterday afternoon, Toronto welcomed home the first party of returned soldiers to arrive since the signing of the armistice. There were 178 war veterans in the contingent, ten of them being "cool" cases, who were taken to the Daville Military Hospital.

Name of W. H. Parker Added To Masonic Honor Roll

The name of W. H. Parker, 30 Kiplingdale avenue, New Beach, who died in Toronto after a long illness yesterday, has been added to the honor roll of "The Beavers" Lodge, A. F. and A. M., No. 473, G.R.C., which meets in the Masonic Temple, Balmston avenue. W. H. Parker, which was a bandsman in the 127th York Battalion in the early spring of 1918, and went overseas from Camp Borden with that regiment in August of that year. He was initiated into "The Beavers" Lodge, A. F. and A. M., on April 27, 1907. His military services prior to the great war included participation in the Burma campaign with the imperial army and 12 years' service in the 48th Highlanders.

SULPHURIC ACID CAUSES FIRE

A broken carboy of sulphuric acid burned through the floor of Aikenhead's hardware store, 370 West Richmond street, yesterday, causing damage to the extent of \$350. Two firemen attached to headquarters, E. Gilbert and R. Phillips, were overcome by their fumes. This is the second time a carboy of acid has broken in this building. Lieut. Oliver Ough of the fire department lost his life some time ago by inhaling fumes while fighting a fire in the same plant.

BIG PROBLEM IS FACED BY INDUSTRIAL CANADA

Training in Shell Shops Has Equipped Labor as Never Before.

In its summary of the iron, steel, metal and machinery markets for week ending Nov. 14, Canadian Machinery and Manufacturing News, Toronto, makes the following observations:

Industrial Canada faces its period of reconstruction right now. It has been anticipated in many cases, and firms have ambitious programs that should work out to good advantage if the proper support is forthcoming. Other firms were war favorites and nothing else, and they will simply drop out. Also there may have been little in the mechanical training a person received in a shell shop that would fit that person for machine work after the war. There is another side to the matter. Those who have worked for some years in shell shops have become accustomed to working to very fine dimensions. They have learned to do things within a ten thousandth of an inch of being absolutely correct, and this training is not going to be lost. The shell shop workers will carry a lot of it into other lines, and in that will come the benefit of industrial Canada with a vengeance. A woman who has been trained in a shell shop, she ever had before.

SOCIETY

Conducted by Mrs. Edmund Phillips.

General McLaughlin, military attaché of the British embassy at Washington and Lady Maud Macintosh, were christened in St. Bartholomew's Church, Ottawa, on Nov. 12, by the Bishop of Ottawa.

Mr. and Mrs. Frederick Beardmore, Montreal, are the guests of their excellencies at Government House, Ottawa.

Great sympathy is expressed by everyone with M. and Mme. Rochereau, P. Saboureau on the occasion of their son, Mons. Emanuel Rochereau.

Mrs. and Mrs. Robert Waide have returned from a visit to Gen. Sir John and Lady Gibson, at Ravenscliffe, Hamilton.

Massey Hall was sold out last night, thus placing Mme. Gall-Curci in the first flight of Toronto's favorite prima donna. The singer looked remarkably well in flesh pink tulle, with lavender flowers in her hair, pink stockings and silver shoes. Madame is conspicuous among stage favorites by never wearing any jewels.

Gen. Sir Sam Hughes was at the King Edward yesterday.

Mr. Maurice Lumsair returned from England yesterday. He was very badly wounded while serving with the colors in France, having gone with the 103th Battalion.

WOMEN'S MUSICAL CLUB GIVE PLEASING RECITAL

The Women's Musical Club made a notable opening for the season of 1918-19 when they presented Ernest Hutcheon, the Australian pianist, in a recital at the new Masonic Temple yesterday afternoon. In addition to a large turnout of members, many of the men musicians and critics of the city were present.

Australia has sent a number of its gifted musical children to Toronto, the visitor of yesterday being among those who gave much of his art and every satisfaction to an audience that had experienced much of the best in the realm of music. In his program Ernest Hutcheon showed a real mastery of a conscientious interpreter, every note receiving expert and sympathetic treatment. Mellowness and clarity of tone, together with extraordinary flexibility of fingering were features in an altogether perfect program.

The numbers were the Fugue and Fugue in G minor by Bach-Liszt; Chopin's Sonata in B minor, Op. 68; the auxiliary of E.M.C.A. of Broadview, Alkan, Schubert; and two numbers by Liszt—Sonata 123 of Petrarca and the Hungarian Rhapsody, No. 12. Enthusiastic applause followed every number.

At the meeting of the Riverdale Women's Patriotic League yesterday afternoon, Mrs. Ewart Wilson gave an outline of the work which the league had done in connection with the "fit" and in co-operation with the auxiliary of the Y.M.C.A. of Broadview. Over 1300 quarts of soup were sent out. The "fit" report showed that \$488.55 had been collected with an expense of \$142.45.

The Women's Musical Club commenced its season yesterday afternoon with great success. Mr. Hutcheon, Australia, gave the program, which was much appreciated by the large audience, more than 200 people outside the membership being present. Tea was poured by Lady White, Mrs. Albert Gooderham, Mrs. D. A. Dunlop and Mrs. Vogt, assisted by the Misses Dorothy Lash, Yvonne Hobbs, Lois Polson, Edith Gash, Marion Matthews, Carroll, Seitz and Goulinck.

Mrs. Valentine Schuyler is coming from New York on Friday to stay with her sister, Mrs. Philip Gilbert.

Mrs. Harry Crerar, daughter of Mr. and Mrs. B. Crerar, a Canadian lady returned from England, has been staying with Mrs. P. W. Crerar in Hamilton.

The bi-weekly afternoon dances at the King Edward promise to be very popular this season, judging from the number of young people there at the tea hour yesterday.

The tea which Mrs. Parkyn Murray was to give for the Dreadnought Chapter and which had to be postponed owing to her illness will take place on Friday.

Miss Marion Ogilvie, Montreal, is staying in town with Miss Mary Williams.

Miss Ferguson, Thamesville, is staying with her sister, Mrs. Frederick Mercer.

Mrs. W. J. Elliot is leaving on Friday for Pittsburgh for a short visit.

Sir Arthur Harris, director-general of British shipping in Canada, and Lady Harris, are the guests of Sir Leonard and Lady McMeans, at Armstrong's Point, Winnipeg.

Mrs. McMurich has returned to Toronto after spending some time in "Toronto and New York."

Mrs. J. S. Dignam is in Muskoka.

Mr. John Thompson, flight-lieutenant, R.A.F., is in town this week. He was wounded while flying in Egypt and is now on sick leave.

Mrs. C. Robertson and Mrs. G. E. Gooderham have returned from a short visit to New York.

Mr. Hutcheon, Australia, whose playing has won so much admiration, was the guest of the Heliconian Club at tea yesterday afternoon, after the meeting of the Women's Musical Club.

WOMEN ON THE FARM.

Miss Hazel Martin, who had charge of the women's farm labor department of the Ontario Government, has resigned for the purpose of taking up farm work for herself. Miss Martin, who is the wife of Mr. J. W. Martin, with Miss Winnifred Harvey, also of the employment bureau, will rent a farm just about a hundred acres near Port Hope. They will have the stock of about 500 chickens, eight cows and a few sheep. During the winter they will do the work themselves, but with the coming of spring they will employ a man assistant.

CLOTHES FOR REFUGEES.

The workrooms of the Friends of France have been enlarged to accommodate the number of volunteers wishing to assist in the making of clothes for refugees French children. The auxiliary of the Y.M.C.A. of Broadview, to enable them to make up garments at the outfit of \$500 a month.

LADY DOCTOR DEAD.

Word was received yesterday that Dr. Susan L. Petheringham had died of influenza, following Spanish influenza, at the Women's Medical College, Ludhiana, India, where she had been professor of obstetrics for the past year. Dr. Petheringham graduated in medicine from the University of Toronto in 1911 and had post-graduate work at Philadelphia, London and Vienna. She was an excellent student and had organized many girls' clubs in Toronto. She was also a government lecturer in the Women's Institute of Ontario.

JUDGMENT FOR PLAINTIFF.

Judge Coatsworth yesterday gave judgment for the plaintiff for the full amount in the case of W. I. Seburn v. the Central Casket Co. for \$2000 on promissory notes.

GET THE SOLDIERS BACK TO CIVIL LIFE

Board of Control to Consider Steps to Facilitate Demobilization.

Mayor Church submitted a list of 21 suggestions to the board of control yesterday which embody a policy to be followed by Toronto and other municipalities to facilitate demobilization and soldiers' civil re-establishment. Among them are: An immediate survey and list of soldiers overseas belonging to Toronto. Report on employers taking them back, and what new positions could be secured for them, heads of departments to meet at once and report as to what work the city can undertake; efforts to be made for the completion of harbor reconstruction. Hydro expansion, completion of the Welland Canal; national good roads policy; Hydro policy of the Dominion for the various provinces; prepare the way for taking over the Toronto Railway in 1921; erect a car factory. Permanent civic board to be appointed re-demobilization and reconstruction, with T. Bradshaw, R. C. Harris, E. L. Cousins, of the harbor commission; D. Chisholm, Geo. Wilson and the board of central composing it.

The board thought the matter a splendid idea and will consider it at a meeting today.

MADE INSPECTION OF NEWMARKET HOSPITAL

Corpl. Parker and Other Inmates to Be Given Better Treatment as Result.

Dr. Ryan, director of medical services, No. 2 district, inspected the Newmarket Hospital yesterday, and in view of the fact that the hospital is a provincial secretory, G.W.V.A., Capt. Cunningham, I.S.C., Sgt.-Major Conroy and Sgt.-Major Geo. H. Grant, G.W.V.A., made an inspection tour of Newmarket military convalescent hospital yesterday, and Dr. Ryan has given his assurance that no matter what circumstances may arise Corpl. Parker, the patient suffering from manic depression, will always have bed and bath and comfort from now on. When the investigating commission arrived, Corpl. Parker had taken his bath at the continuous bath treatment chamber and was lying comfortably on a clean bed, himself perfectly clean and attired in pyjamas. The condition of the extreme cases will be much improved from now on.

This was the information given to a reporter for The World last night. The three single, barred rooms are being thoroughly refitted.

MANSLAUGHTER PROVEN; MERCY RECOMMENDED

Guilt of manslaughter, but strongly recommended to mercy, was the verdict yesterday at the criminal sittings under Mr. Justice Masten, in the case of Frank Mulla, an Italian, charged with the death of John Jamieson on August 13, in that he ran him down while driving his motor lorry on Yonge street, near Hayter. Sentence was reserved until today.

Evidence by several witnesses was to the effect that Mulla was near the intersection of Yonge street and Hayter street when Mr. Jamieson was struck by the lorry, east to west. The lorry struck him and he died shortly after.

The accused stated that he had turned slightly west in order to avoid some children. He saw Jamieson a few feet in front of him. Suddenly, Jamieson turned back, running into the lorry. Joseph Hill, a returned soldier, corroborated this evidence. One or two witnesses stated that Mulla was 35 feet and not five feet away from Jamieson when he turned his lorry west.

Joseph Hill and other witnesses testified that the lorry was going at a fairly high rate of speed. Mr. Sheppard and Dr. Norman McLeod stated in evidence that the body of the victim had shown marks of extreme violence.

NEW BUILDING PERMITS.

The following building permits were issued by the city architect's department yesterday: L.O.D.E. for a babies' pavilion, 2 1/2 storeys brick, on Sheppard boulevard, at a cost of \$3500; J. Howell, two-storey frame and brick addition to dwelling on Day avenue, to cost \$180; Alroy Works, to rebuild part of factory on Logan avenue at a cost of \$8000.

URGE EXTENSION OF T. & N.O.

In a resolution passed by the Cochrane Board of Trade, the Ontario Government is urged to include in the resumption of provincial works for the period of readjustment after the war the construction of the extension of the Timiskaming and Northern Ontario Railway, from Cochrane to James Bay.

POLICE CAN DO WORK.

Following the advent of peace the board of control yesterday decided to request every head of civic departments to render a list of municipal property which at present is being guarded by special watchmen employed by the city. Mayor Church, in view of the matter, stated that he thought the police could now give adequate protection to the properties concerned.

SETTLEMENT OF SOLDIERS.

The land settlement board for soldiers hopes to be able to arrange a 12 weeks' instructional course for returned men desirous of taking up farming as a vocation. The Dominion and provincial authorities are co-operating to this end.

FINE WAS REDUCED.

Judge Morson yesterday reduced the fine for violation of the order-in-council relative to excess lighting from \$5 to \$10 in the case of Sam Moran, 217 Yonge street. The violation had occurred only a few days after the order-in-council had been gazetted.

PTE. FRED BRAGG DEAD; FUNERAL TO BE MILITARY

Strangely sad was the death yesterday of Pte. Fred Bragg, late of the 20th Battalion, and a member of West Toronto G.W.V.A., who lost both his sister and brother-in-law two days ago, and whose wife now lies dangerously ill. The funeral will be a military one and will be held this afternoon from 995 West Bloor street to Prospect Cemetery under the auspices of the West Toronto G.W.V.A.

ST. ANDREWS DOWN THE U.C.C. TEAM

Saints Count Thirteen Points and Hold Upper Canada Scoreless.

With no Little Big Four games to cause rivalry, St. Andrews and Upper Canada Colleges staged an exhibition game at Varsity Stadium yesterday.

The Scotsmen have a big, husky team, that is well drilled, and they had no trouble in downing their lighter rivals. The score was 13 to 0.

A few minutes after play started, Gordon of St. Andrews broke thru and ran 35 yards for a touchdown. It was not converted. Up to this time both teams had shown a great weakness on the line, and the ball carrier repeatedly broke thru for good gains. St. Andrews had too much weight for U.C.C. and broke thru and stopped the play before the ball left the hands of the U.C.C. quarterback.

Midfield play featured the early stages of the second period. The catching on both sides was very weak. Both teams did well at the back-field running game, but U.C.C. showed a weak defence on the line. U.C.C. improved, putting their line into motion faster and plowing holes thru the St. Andrews line.

Four times in order they were fended by straight-line work, taking the play finally to St. Andrews' 10-yard line, where Saints kicked out of danger. There was no scoring in this quarter.

Beatty failed when he tried to drop a goal. St. Andrews punted their way out of a bad hole a moment later and got the ball at centre, when Chisholm dropped the ball when tackled. Some loose handling of the ball gave both teams a chance at midfield. Beatty was fended for talking back to the referee. With one man advantage, U.C.C. failed to do anything. They lost the ball when Beatty punted to his own man. Stonehouse dropped a field goal from 35 yards. St. Andrews 13, U.C.C. 0. Gordon was fended for rough play. The final score was: St. Andrews 13, U.C.C. 0. Players: St. Andrews (13)—Flying wing, Kent; half-backs, Stonehouse, Loomes, Strrett; quarter, Gordon; scrummers, McCarter, Mason, Caruck; inside wings, Soyer, MacDonald; outside wings, McDonald; outside wing, McMurtry, Thorley.

U.C.C. (10)—Flying wing, Yager; half-backs, Rowell, Zetser; quarter, Cross; scrummers, Richards, J. McDougall, W. McDougall; inside wings, R. Davis, Beatty, Hyland; outside wings, Davis; outside wings, Rogers, Evans. Referee—Dr. Wood, Empire—Ray Clarke.

The following Capital players of the 130-pound team are asked to turn out Thursday and Friday evenings, at 8.45, at Ramsden Park: Thomas, Stuart, Woods, Maxwell, Armour, Robertelli, Carrington, Garnet, Newby, Schell, Johnson, Trotter, Kitchick, Mitchell, Lacey, Hughson, Moore, Lalor, Lombotham, Worrington, Lusty, Rae.

PRESENT TROPHIES TO CHAMPION HILLCRESTS.

This is Western City Baseball League open night at Moss Park recreation centre, Shuter street, when the champion Hillcrests, the guests of honor, will be presented with their various trophies and the players their individual prizes. All amateur ball players and their friends are invited.

LIVELY DOINGS AT CITY RUGBY MEETING

The City Rugby League spent hours last evening trying to unravel some internal affairs, but each hour brought deeper water. It was decided to continue in the old strain, and the ruling making Dunk Munro ineligible was allowed to stand.

The Central "A" delegate was ruled out of order when he asked to have two clauses of the bylaws suspended. The acting-president claimed it was a matter for the annual meeting, and was upheld on a close vote.

RUGBY PRACTICES.

Beaches senior city team practise this evening at Scarborough Beach at 7 o'clock. All players are requested to turn out in uniform.

Central Y team practises this afternoon at Victoria College at 4 o'clock.

O.R.F.U. SENIOR SERIES ABANDONED FOR YEAR

The Ontario Rugby Football Union's senior series, that originally consisted of six clubs, and dwindled down to three, and then two, has followed the high schools into the discard. The Machine Gunners and Dentals defaulted in turn to the Beaches, whole team left, and they will show their wares against the Royal Air Force this week-end at Scarborough Beach.

LEE AXWORTHY IS DEAD.

Sporting Men Asked To Boost Victory Loan

Only three days remain in the Victory Loan drive to demonstrate to the people of Canada that Toronto is as good as her word. Toronto originally assumed an objective of \$100,000,000. Montreal has a similar drive, and Montreal real thinks it can beat Toronto. Toronto's greatest contest there has ever engaged the attention of the Canadian people. One hundred million and more is what Toronto must do, not only because money is needed to continue prosperity to keep "things going," as it were, and more especially to conclude the war. It is a great opportunity and should appeal to the sporting instinct in every man. For the next three days think Victory Loan, talk Victory Loan and work for Victory Loan.

LAUNCH THE PLANS FOR BALL RECONSTRUCTION

Committee Appointed at Peoria to Reclassify and Distribute Territory.

Peoria, Ill., Nov. 13.—Plans for the reconstruction of the minor league baseball map were launched at the annual meeting of the National Association of Professional Baseball Leagues here today, when committees were appointed to consider the advisability of reclassifying all organizations and redistricting the territory. The movement was started by A. R. Hickey, president of the Chicago White Sox, and the Chicago White Sox, who in an address to the club owners and league presidents, declared the game was in need of invigilant attention if it is to resume operations on a self-supporting basis next season. President Hickey said the salary limits of some organizations were "entirely without reason," and the geographical make-up of the league were too unwieldy to assure successful operation.

The committee considering the proposals are in session tonight, and the report will be made tomorrow.

There is a possibility that Omaha, Nebraska, will make application for a berth in the American Association. William O'Rourke, owner of the Omaha team of the Western League, announced providing it could be transferred to Omaha. The franchise O'Rourke desired, is said, is now held by Louisville. Revision view with satisfaction the proposal to include Omaha in the circuit.

President Thomas A. Hickey of the American Association has called a meeting of the club owners to be held at Indianapolis on December 13 to consider plans for the 1919 season.

"Unless the government is opposed to baseball, the association will certainly be in the field," President Hickey said.

CRIBBAGE

The following members of the West Toronto Branch, G.W.A. Cribbage Club, are requested to turn out this evening at 8 at the Paris Candy Works, Bloor street and Lansdowne avenue, for their league game, all members being earnestly requested to attend. G. R. Black, C. Hutchings, E. Rowett, W. Viner, W. G. Gray, G. F. Saunders, H. G. Spruit, A. Howell, E. Burley, W. J. Patterson, G. Y. McKean, J. E. Smith, Mr. Moxey and Mr. Simpson.

Do You Know What a Victory Bond Really Is?

In buying a Victory Bond you exchange with the Government one kind of money for another kind of money.

The kind of money the Government is asking you to exchange for another kind of money is better, because—every \$50.00 Victory Bond that the Government asks you to buy has attached to it coupons which are cut off every six months, and each coupon is the same as money.

You can spend it with your butcher, your baker, or your landlord will take it for rent.

Every six months, when you cut a coupon from a \$50.00 bond, the value of the bond is still \$50.00.

Everyone knows that there can be no better way of saving money than to buy a Victory Loan Bond, the safest and best interest-bearing investment in the world. It is guaranteed by the Canadian Government with all its resources and wealth, and besides it will help to keep the home wheels turning.

If you are planning to buy one Victory Bond outright and find that you can buy two if you can arrange to buy them from your future earnings—by all means buy the two—it will be better for you and better for Canada.

If your income is \$2,500 and upwards, do not buy a couple of bonds and then sit back satisfied you have done your whole duty—you can afford to buy more—you are not giving—you are lending at good interest on the best security in all Canada.

Remember---In buying Victory Bonds you exchange one kind of money for another kind of money.

(Each has the same Government guarantee back of it.)

"I Will."

Let the answer ring so loud and clear that not only all over the Dominion may know that Toronto is leading the way in Victory Bond buyers, but that our allies may know—and more than that—may Toronto's answer demonstrate her intention to maintain and continue Canada's commercial prosperity and provide ample employment for our returning heroes.

"I Will"—your answer is Toronto's answer.

Will you do your part?

"Money is like water. Scattered in countless small pools it has no industrial value. Collected in large quantities it has potential force. It may be directed through certain channels and made to provide energy for industry."

SCHUMACHER MEETING. The annual meeting of the Schumacher Mines will be held today. It is anticipated that an announcement will be made to the effect that the mine and mill will be opened up again as soon as there are indications that lower costs are coming.

The Banks will advance you money to buy Victory Bonds on a Twelve Monthly-Payment Plan

How much money did you save last year—\$100, \$500, perhaps \$1,000—and you have it in a savings account all ready, like a prudent patriot—to put into Victory Bonds.

But—just a moment:

If you saved \$100 or \$500 or \$1,000 last year, how much do you expect to save during the coming twelve months?

You can now capitalize your ability to save and help your country at the same time.

In this way: Any Chartered Bank will give you credit for ninety per cent. of the amount you can save to put into Victory Bonds and the Bank will carry you for a year, charging just the same rate of interest as you get on your bonds—so the interest costs you nothing.

You can pay off your bonds to the bank in monthly instalments and each instalment begins to earn 5½ per cent. for you the moment it is paid.

Step in and see a Banker about it today—it costs nothing to investigate and you take no risk in any event.

WASAPIKA SHOULD BE PRODUCER SOON

Great Increase in Value and Volume of Ore at Depth Likely.

INDUSTRY IS FAVORED

Gold Mining, Under Peace Conditions, Should Receive Great Stimulus.

Special to The Toronto World.

Kashihaw, Nov. 13.—The burden of the great war began to press heavily on the gold mines about two years ago. In addition to the increased cost of labor and supplies, money became hard to obtain, and in districts where roads were necessary the government refused to spend any money, either for original construction or for the betterment of the existing means of ingress and egress. The new and promising district of West Shining Tree has been one of the sufferers from inadequate means of communication. Even with a railway at their front doors, several of the mines of Porcupine and Kirkland Lake were compelled to close down. Established producers like the Dome and Porcupine Crown in Porcupine and the Tough-Oakes in Kirkland Lake had to succumb. It is, therefore, not surprising that the progress of the Wasapika at West Shining Tree has not been as rapid as anticipated. In fact, no one foresaw the effect of the war, or how a number of adverse conditions, none of them alone decisive, would together have the effect of eliminating most of the profit from mining operations. But a great change is now in sight. West Shining Tree will soon have a railway or else a wagon road over which supplies can be carried at a minimum cost and the Wasapika is in a position to take full advantage of any amelioration in conditions and all reductions in the cost of mining and milling. The ore body has been marked out on the ground and partially developed. Some of the machinery for the mill is now at the property and the balance at the railway station at Kashihaw. No time will be lost in getting the plant in operation. Fortunately some very rich ore has been blocked out within the last month and this can be drawn on to build up a strong treasury.

Many Veins. There are many veins on the Wasapika, but the one now relied on to supply the mill is known as the Ribble. It is 1800 feet long and about five feet wide. It outcrops on the east side of a small ravine, having a course nearly north and south. On the west side of this ravine, about 80 feet distant, there is an outcrop of rhyolite porphyry, and it is claimed by George R. Rogers, the engineer in charge of work at the Wasapika, that the whole of this 80 feet will carry payable ore.

The Otisse or Colorado and Ontario Development Company is only 25 miles to the northeast. Here the same formation is found, and carries very high values. Rhyolite is also looked to for great results at the new district of Lightning River. These three sections of northern Ontario are on the same mineral belt and are all well worth watching.

We expect to see the Wasapika now moving rapidly to the producing stage, and it is reasonable to look for a great increase in the value and volume of the ore with increasing depth. The geological conditions are very favorable, and the Ribble vein is one of the longest and strongest in the north. Mr. Rogers is fully convinced that the property has a great future, and the work already accomplished affords a very satisfactory basis for his faith.

Gold mining is now one of our most favored industries, and in view of the extraordinary latent resources of new Ontario it is sure to advance steadily and rapidly. We have at our very doors, prospectively, the very greatest gold fields in the world.

S. R. Clarke.

DAVIDSON STOCK HAS GREAT POSSIBILITIES

F. C. Sutherland and Co. in their weekly market letter point out that for several months they have consistently advised the purchase of stock of the Davidson Gold Mines, and continue:

"The investors are turning to peace stocks. They are eager to get into the market before the advance goes far. They are eager to select the issues that will make immediate and substantial profits. The three first securities to attract notice are Hollinger, Lake Shore and Davidson. The Hollinger and Lake Shore are now investments. The Davidson stock is an investment with excellent speculative possibilities. The general public are not generally advised as yet that developments of the first importance have taken place at the Davidson mine.

"We are confident that Davidson will sell above \$1 per share in the near future. When the stock is selling at \$2.50 the market will not even then represent the full value of the assets behind the security."

MOSA OIL FIELD NOW TO FRONT IN BIG WAY

Nearly Fifty Producing Wells, and Monthly Output is Large.

In the past six months the shallow oil field in Mosca Township, near Glencoe, Ont., has come to the front in a big way, and the monthly output now far exceeds the output of the entire producing areas of Lambton County.

The formation from which the oil is secured is a comiferous limestone similar to the producing formation of Petrolia and Oil Springs. The majority of the wells start with a production of 20 to 100 barrels a day, which seems small in comparison with some other fields, but which is really a very attractive figure when it is considered that some of the producers receive \$2.50 per barrel for their oil, which is a high record, outside of Pennsylvania oil, for this continent. There are now close to 50 producing wells in the field and since it costs rather less than \$1000 to drill a well and get into commission, the future possibilities appear remarkably bright.

THE ONE GREAT INVESTMENT

TO-DAY, TO-MORROW and SATURDAY

Only three short days, and then the opportunity to purchase Victory Bonds is gone.

If you have already bought and still have resources left, buy again; for with peace an assured fact you will never again have an opportunity to purchase such a high-class government bond returning such a handsome income.

Aside from all questions of patriotism and duty, allow me to say that as a straight out-and-out investment Victory Bonds are in a class all by themselves, and in my opinion they will be selling at 110 or higher before another year goes by.

In 1914 just before the big war started, government securities were quoted on a basis where the income return was less than 4%, and it is only logical that all Canadian Government bonds will be on that same basis a year or two after conditions become normal.

No country, not even the great and wealthy United States, can compare with Canada in undeveloped natural resources, and as it is the undeveloped natural resources that bring wealth to a country, Canada in my opinion must soon take its rightful place as one of the world's richest nations.

This war has advertised Canada as nothing else could, and today there is hardly a man, woman or child in Europe who cannot tell you all about this country.

Before the war, Canada meant little or nothing to the citizens of foreign countries, but after our boys got into the fighting they soon made the word "Canadian" not only known but also greatly respected, and this advertising will all be returned tenfold when the world settles down to a regular life.

Canada is one of the great treasure vaults of Mother Earth, for deep in the ground we have practically all of the valuable raw materials that are so necessary to commerce, and as the gold, silver, iron, copper, zinc, lead, nickel (and a score of other metals not so well known, but just as valuable to our commercial existence) are extracted, it adds just so much new wealth to the nation.

Not long ago I talked with an eminent mining engineer who had just returned from a prospecting trip through northwest Canada, where he had spent two long years. During most of this time he was accompanied only by native Indians, and he spent many weeks in districts where the white man has never before trod.

This engineer brought back nearly 1000 samples which included almost every known metal, as well as salt, asbestos, talc, marl, coal, oil and a score of other valuable commodities, all of which have value in manufacturing, and the tale he told of these natural resources that have for centuries been hidden from man was one that staggered belief.

Some day—and that day is not so far distant—all of these new and wonderful districts will be opened up and this wilderness of today will be a rich farming, mining and manufacturing community of tomorrow.

I mention these great and wonderful resources so you will appreciate the fact that as yet the resources of Canada have scarcely been scratched, and then when you remember that a purchase of Victory Bonds is backed up with all this great wealth, you must acknowledge that as an investment there is nothing in all this world that can approach it when safety of principal and income is considered.

If you have money to invest buy Victory Bonds guaranteed by your government and backed by the entire resources of the Dominion of Canada.

Faithfully yours,

Mark Harris

STOCKS LOWER IN TORONTO MARKET

Losses Are Fairly General With Recessions Most Marked in Steel Issues.

The irregular tendency which developed in the Toronto market on Tuesday became more pronounced yesterday, the heaviness in Wall street, due to recognition of the seriousness of reconstruction problems, exerting a depressing influence. This was particularly marked in the case of the steel stocks, as a result of the further break in U.S. Steel, but offerings were limited and the day's trading, amounting to 1,273 shares, was distributed among 23 issues. The war loans again failed to figure in the sales column, \$500 in Electrical Development bonds, at the steady quotation of 84 1/2, representing transactions in the bond section.

Brazilian fell away greatly in activity, only 236 shares coming out. The opening, 37, proved to be the highest of the day, and the close at 56 was a point below that of Thursday. Announcement that the directors of Canada Steamships had not considered declaring a dividend on the common did not help the stock, which sold at 45 1/2, a decline of 2 1/2, while the preferred stock yielded 1/2 to 7/8. The steel came out in small lots only, Dominion Iron dipping 2 1/2 to 59 1/2, and Steel of Canada 1 1/2 to 60. Twin City forfeited its two-point gain of Tuesday, sagging to 50, and Barcelona at 14 1/2 showed a loss of 3/4. Maple Leaf opened a point off at 134, but rallied to 135 and held the gain at the close. Another firm issue was Mackay, 1/4 up at 7 1/2. Cement held its ground at 63.

PROFIT-TAKING SALES ON LONDON EXCHANGE

London, Nov. 13.—The reactionary tendency in gilt-edged securities continued on the stock Exchange today. It was due to realizing competition of war bonds, and a desire to have funds for reconstruction. Oil, rubber and Mexican shares were the most active in rising markets. With the publication of money was in fair demand and discount rates were quiet.

FEDERAL INTERVENTION CHECKS COTTON'S DROP

New York, Nov. 13.—A further sensational break in the cotton market here today was checked by the announcement posted on the exchange that the government had stepped in to prevent undue speculation. Prices were off from 120 to 100 points at the opening, or a decline of a maximum of \$9.50 a bale under yesterday's closing quotation. With the publication of the intervention by the cotton distribution committee of the war industries board, active covering began in excellent demand, while the more active oil issues eased off slightly under profit-taking by professionals. Canada Copper was also in great demand, while Cotton Arizona was steady. The strong investment demand for United States continued. Tonopah Belmont and Tonopah Mining advanced to high prices for the recent movement. California, however, reacted in anticipation that the dividend will be cut to 1 cent a share on Jan. 15, 1919.

USUAL C.P.R. DIVIDEND

Montreal, Nov. 13.—At the meeting of the directors of the Canadian Pacific Railroad Company held today, a dividend of 12 1/2 per cent on the common stock for the quarter ended September 30, 1918, was declared. The dividend is payable December 31 next to the shareholders of record 1 p.m. November 30 inst.

SUPERVISE STEEL INDUSTRY

Washington, Nov. 13.—The steel committee of the American Iron and Steel Institute today asked the War Industries Board to continue supervision of the industry for a time while restrictions incident to the stoppage of the war are completed.

PRICE OF SILVER

Bar silver closed at \$1.01 1/2 in New York and at 43 1/2 in London.

NO STEAMSHIP DIVIDEND

Montreal, Nov. 13.—Directors of Canada Steamship Lines met here this afternoon, but it was announced afterwards that the much discussed question of a dividend on the common stock had not come before the meeting. Earning reports submitted were satisfactory, according to Vice-President Norcross.

ON NEW YORK CURB

Hamilton B. Willis received the following wire at the close of the New York curb market yesterday: The tone of the market was irregular today, with the majority of good mining stocks in excellent demand, while the more active oil issues eased off slightly under profit-taking by professionals. Canada Copper was also in great demand, while Cotton Arizona was steady. The strong investment demand for United States continued. Tonopah Belmont and Tonopah Mining advanced to high prices for the recent movement. California, however, reacted in anticipation that the dividend will be cut to 1 cent a share on Jan. 15, 1919.

THE "PREMIUM" SECURITY

When market restrictions are removed investors who hold war bonds yielding 5 per cent, and under will sell them and buy Government Bonds yielding 5 1/2 per cent. In other words, they will buy Canada's Victory Bonds as exempt from income taxes. As an investment they are the pick of all securities.

HEALTHY REACTION IN MINING MARKET

Davidson, With Three-Point Advance, is Exception to General Trend.

Profit-taking was decidedly in evidence in the mining market yesterday with the result that the majority of issues in both the Porcupine and Cobalt groups finished with net declines from the closing prices of Tuesday. The setback was not a material one, and was regarded by conservative mining men and brokers as merely a healthy reaction. It is recognized that if the headlong advance seen in the past week or ten days were continued uninterrupted, a somewhat dangerous position might develop, and that a settling down process as a prelude to a fresh advance is desirable.

Davidson was, however, a pronounced exception to the general trend. Confident statements made that were already fully determined give a value to the shares much in excess of the present market price. It appears to have created such a furor in the stock that it is able to hold its price, at least to pursue an upward course independently of the rest of the list. Opening at 56 yesterday, heavy buying caused a rise to 61, and while there was a reaction before the close to 59, the stock nevertheless showed a net gain of three points for the day. Dealings in Davidson reached the big total of 19,800 shares for the aggregate for all stocks of 139,421. Holdings established a high point for the year at \$6.20 but fell back to 60, a net loss from Tuesday of 2 points. McIntyre opened at 1.83, which proved to be the high of the day, and the close was at 1.75, as compared with 1.84 the day before. Wasapika gave a good exhibition of stability, holding its recent rise at 40. Dome sold at 14.50, a loss of 35 points, and in New York at \$14. Porcupine Crown at 28 and West Dome at 17 each lost 1-2. Dome Extension receded a point, shares in fractional losses were sustained by Dome Lake, Kirkland Lake, Newray, Thompson-Krist, Porcupine Imperial and Schumacher, Hattie at 60, Lake Shore at 93 and Vipona at 25, lost no ground.

In the silver stocks Adams was the most active, with a turnover of 17,300 shares. The stock ruled firm for a time at 12 1/2, but yielded at the close to 11 1/2, a half point below the close of Tuesday. Beaver dipped 1 1/2 to 34 1/2. Crown Reserve 13 1/2 to 25 1/4. Timiskaming and McKinley each lost a point at 34 and 45 respectively. Mining Corporation was firm at 32 1/2 and Nipissing steady at 38 1/2.
