GENERAL INJURED IN WINNIPEG'S FIRST STRIKE SKIRMISH

STREET RAILWAY STRIKE
IS STILL A PROBABILITY
Everything Hinges Upon Men's Decision in Regard to Accepting Board of Conciliation--To Decide Saturday Night.

"I don't know where 'e are."
The above remarks of J. Chelvalier's famous songs just sum up the present position of the street railway company and the employees in regard to any action or definite decision they can collectively or individually take. Neither of them quite know where they are at, or in which direction to turn for guidance. There have been so many red herrings dragged across the trail that it is almost impossible to find the path leading to any settlement. What all parties to the dispute are talking from the point of their own particular interest is the hands of the timepiece are going regularly round and in five days the clock will strike and Toronto will be in the midst of another labor trouble.

VERA DE LAVELLE WRITES A LETTER

Mysterious Missive Containing Message for McCullough Had Postmark Removed.

Frank McCullough has during the past week in the death cell of the Toronto Jail, written a book on his life. McCullough's life story would cover one column of newspaper, and in the story he traces his movements in life from the time that he was a wild school boy at the age of 12 until the present day. The reason for his writing the book was a desire of the prisoner to make a confession of his past, and also to fill in the long days which he has spent confined in the condemned cell.

BIG RAILWAY STRIKE HANGS IN BALANCE

IRISH PRESSING TO SEE BIG FOUR

Paris, June 10.—Frank P. Walsh and ex-Governor Edward F. Dunne, of Illinois, the representatives here of Irish societies in the United States, have secured an appointment with President Wilson for tomorrow. They will ask him for a definite statement of his attitude with regard to permission for the Irish Sinn Fein delegates to appear before the peace conference, in view of the United States senate resolution urging this step.

LEAD TO DISRUPTION SOUTH AFRICAN UNION

Premier Lloyd George Tells South African Nationalists That Britain Cannot Take Action Which Would Bring About Conditions of Ruin.

London, June 10.—Great Britain cannot take any action which would mean the disruption of the Union of South Africa. This, in effect, was the answer given to the deputation of the Nationalist party of South Africa by Premier Lloyd George in Paris on June 8.

REORGANIZING POLICE FORCE

City officials today roughly estimated that 40 per cent. of those who joined the sympathetic strike on May 15 had returned to work today.

RIOT IN SOUTH AFRICA

He was unable to see how the British government of the imperial parliament could reopen "the great settlement" forged out in the heat and trials of the last twenty years.

STRIKE SILENCE

The principle of self-determination, added the premier, had been given effect by the people of South Africa in the fullest, freest and most solemn manner, and to consent to any disruption of the union would ruin South Africa.

PEACE FOR INDEPENDENCE

In his statement of the case Gen. Hertzog said that the deputation represented the old populations of the Transvaal and Orange Free State. They were actuated by no race antagonism, but were determined by constitutional means to press their claims for independence.

THE QUESTION OF THE DAY.

More Fortunate Than U.S.
"In this respect," Guthrie went on: "I think we have perhaps been more fortunate than our neighbors in the United States, but we must not permit ourselves to be allowed to rest in any state of fancied security because it is well known that the same invidious agencies of crime and revolt which have been operating so freely in the United States and some of the countries in Europe, are actual-ly in evidence in Canada today."

"AND I WANT TO COMMEND YOU ON YOUR GOOD APPEARANCE ---for appearance is nine-tenths of the law in creating a favorable first impression." "That gained, the rest is comparatively easy in most every phase of business, especially the first one, that of securing a position."

Always bear in mind that clothes---though they do not make the man---reflect his taste and temperament. As Emerson said, "A good appearance is at a premium anywhere." "Come in Tomorrow at 8.30." "Good Morning."

Though the above is an imaginary conversation between a boy and his employer, it brings out the fact that appearance plays a vital part in one's success or failure in life. So then it behooves all to be "spick and span" at all times, especially when applying for a position, which, no doubt, many boys will be doing with the closing of school. To them, the various things listed on this page should prove of special interest if they have an outfit to buy.

Perhaps the Most Important Item of All Is One's Suit

It Should Be Chosen For "Up-to-Dateness" of Style, Good Fit and Durable Cloth Quality

The average man and woman lives in the hope of a better day, no matter what the present state of living.

When a man is low in morals naturally his social condition is lower, but when he attains a financial standing the moral and social conditions improve.

Now it is often heard that "There's Jones, his daily wage is no better than mine, but he sports a car, or he takes his annual outings."

There's a reason for all things. Jones

set his "sports," his "annual outings," his "wife her maid," his "good times," because he makes the most of his opportunities.

There are hundreds of cases, thousands, where a hundred dollars invested at the right time and in the right place grew not only into four figure values, but on into the five figure values.

You know the Bell Telephone Co. You remember the long struggle Bell made to make the people believe it was a practical proposition.

There is ready for you on request, simply writing or phoning us a story in fact of what a hundred dollars have done, and showing you how you can get on a big industrial that will rival any of the big concerns of the day.

THE DAY AT OTTAWA

By TOM KING

Ottawa, June 10.—Stewart Scott, Unionist member for South Waterloo, never speaks in the house unless he has something to say, and always talks on a subject he knows something about.

Mr. Scott met this argument today with facts and figures, that seemed indubitable. He took the afternoon to the tariff question this afternoon, and told the house something about the tariff on boots and shoes, and how it worked out to the advantage of Canada.

But the real debating after all goes on outside of the chamber with the interest centered in the low tariff Unionist members from the west.

Mr. Scott met this argument today with facts and figures, that seemed indubitable. He took the afternoon to the tariff question this afternoon, and told the house something about the tariff on boots and shoes, and how it worked out to the advantage of Canada.

But even with this handicap of a tariff duty upon raw material, Mr. Scott claimed that the Canadian manufacturer would soon be able to produce as cheaply as the American manufacturer, and compete with him for trade in every market of the world.

The argument was a second one, but it did not convince Dr. John P. McWay, liberal member from Provencher. The doctor said it would have been a good argument thirty or forty years ago, but that by this time the "infant industries" were old enough to be weaned and ought to be rooting for themselves like the farmers and stock raisers of Canada.

The budget debate was resumed this afternoon by Hon. Dr. S. P. Beland, who returns to the house after years of exile and captivity as a Canadian prisoner of war in Germany.

Dr. Beland is probably the most polished orator in the house, and today his manner, his gestures, and his diction were strikingly reminiscent of the late Sir Wilfrid Laurier. He covered many subjects, touching only casually on the tariff question and agriculture.

But the real debating after all goes on outside of the chamber with the interest centered in the low tariff Unionist members from the west. Friends of the government claim that the revolt will be less serious than appears probable a day or two ago.

Wolsley, Saak, June 9.—"It is not farmers we want in parliament essentially," said Mr. Musselman at the convention of the grain growers of this district, "but those only who will stand for our principles thru thick and thin."

A resolution was moved that no candidate be nominated by the convention, and this was carried, with about half the delegates voting in the affirmative and none in the negative.

Premier Hearst and Dr. Cody Visiting Sault Ste. Marie Today Sault Ste. Marie, June 10.—The high school board passed an increase in \$100 in all teachers' salaries, which replaces war bonus of \$50 now dispensed with.

No CALUMET DIVIDEND Boston, June 10.—The Calumet and Hecla Mining Company today held its quarterly meeting without declaring a dividend for the current quarter. No dividend was declared for the previous quarter, and it was stated at the time that the omission was due to conditions of readjustment in the copper trade.

DETROIT STRIKE STILL UNSETTLED

Union Officials Declare Walk-Out May Extend to Other Cities.

Detroit, Mich., June 10.—Little progress was made today toward an immediate settlement of the street car strike that has completely tied up the traction service here for three days.

Union officials said tonight there is a possibility of the walk-out being extended tomorrow to include inter-urban carmen and employees of street railway lines in half a dozen other southern Michigan cities.

An injunction served on the Detroit United Railway Company, ordering car service resumed on certain lines, was met today by the declaration that the company would fight the order, in the courts, while Corporation Counsel Wilcox announced that he would ask the circuit court to place the company in the hands of a receiver unless the injunction is complied with.

The city council has acted favorably upon Mayor James Couzens' suggestion that a special election be called to vote on a \$10,000,000 bond issue, with which to acquire a part of the present street railway system and construct competing lines to be operated by the municipality.

END BOLSHIEVISM AND SAVE RUSSIA Future of Country Will Be Built on Democratic Principles.

Omsk, June 3.—The congress of the Constitutional Democratic Party adjourned tonight after adopting a resolution of protest against the government declaring that the regeneration of Russia is possible only thru co-operation between Russia and the allies.

"Our struggle is not only for the regeneration of Russia. In struggling against Bolshevism we defend civilization and democratic principles. There can be no return to the old. The Russia of the future will be built on principles of law, order and democracy.

The Union of Seimovs of the government of Ufa has sent the following telegram to Admiral Kolchak, the head of the White Russian government.

"United for the first time after the liberation of our region from the Bolsheviki terror by the Siberian army, we congratulate the head of the White Russian government which is carrying on the great work of Russia's regeneration upon the principles of right, order and unity. We believe that thru the united efforts of all Russian patriots and democrats Bolshevism will be destroyed. We believe the Russian people are with you."

Omsk, June 2.—General Dutoff, hetman of the Orenburg Cossacks, has been appointed Inspector-general of cavalry in the all-Russian army. Admiral Kolchak, head of the White Russian government, in a special order to the army expressed his appreciation of the services rendered by General Dutoff in the struggle against the Bolsheviki.

STOP FIGHTING WITH THE CZECHS Bela Kun, Hungarian Communist Minister, Gives Assurance to Clemenceau.

London, June 10.—Bela Kun, the Hungarian Communist foreign minister in reply to a message from Premier Clemenceau, according to a wireless despatch from Budapest, agrees to stop hostilities with the Czechs and Slovaks, altho he claims the Czechs are to blame for the fighting because they disregard the frontier fixed by the allies.

The Hungarian leader suggests that a commission be appointed to settle the differences between the Czechs and the Hungarians. Bela Kun also expressed satisfaction that the allies have invited Hungary to the peace conference.

A despatch from Vienna received in Paris Monday reported that Premier Clemenceau, as president of the peace conference, had informed the Hungarian government that attacks on the Czech-Slovaks must cease. The message was declared to add that if Hungary did not comply, the allied and associated governments had decided to use "extreme measures." The report made no mention of any invitation to the Hungarians to come to Paris.

ARMENIANS SUFFER TERRIBLE ATROCITIES Three-Fourths of Males in Asia Minor Killed. New York, June 10.—Dr. George H. Washburn, of Boston, a member of the American relief commission in the near east, returned on the steamship Adriatic today with first-hand details of Armenian massacres. He said: "Three-fourths of the male population of Asia Minor has been killed since 1915; women and children are starving and Turks are holding 300,000 Armenians in the mountains away from the lands which have been expropriated. Constant guerrilla warfare between Turks and Greeks exists along the Black Sea."

MANE OF UNREST, WARNING BY GUTHRIE

(Continued From Page 1). first instance, that this pernicious propaganda may be stopped in this country, and at the same time the greatest care will have to be exercised that there is to be no interference, no curtailment of free speech or free printing or free political thought, statement or action.

Unrest Succeds Tranquillity. There were many new societies and political changes in the world. The serenity and tranquillity of former years had been succeeded by unrest, and there was a good deal of uncertainty as to the future. They must recognize that there had been organized a persistent effort to cause disaffection, to raise mazz against the constitution, and to subvert the government.

THE SITUATION IN EUROPE

New York, June 10.—The Associated Press tonight issues the following: Agahn come reports from Paris that all is not going smoothly in the council of four as regards the definite settlement of points under argument relating to the German peace treaty. While it has been asserted that the final answer of the allied and associated powers to the counter proposals of the Germans probably would be ready for delivery to the Germans at Versailles not later than Friday, the present week-end despatches declare that some of the larger questions at issue have not been solved and which no agreement has been reached.

ENGLAND IN CANADA. A rather peculiar situation is said to have arisen in connection with Canada's most recent war brides, who were in receipt of separation pay and other allowances while in Britain. Many of them have discovered that payment of gratuities has been made over to them at English addresses after they had arrived in Canada. The G. W. Y. A. is taking up the matter with the Canadian militia.

WAGNE STANDARD RAISED. The Electrical Workers' Union has effected an agreement with the Electrical Contractors' Association for a wage standard of 75 cents an hour and a working week of 44 hours.

PLUMBERS' INCREASES. W. J. Storey, business agent for the Plumbers and Steamfitters' Union, Local 46, stated yesterday that wages would be increased ten cents an hour, increasing the wage to 75 cents an hour. The new scale will affect 400 men.

OFF FOR VANCOUVER. Comrade Gustar, secretary of West Toronto G. W. Y. A., leaves for Vancouver on the 11th inst. to go to the great western seaport in time for the Dominion convention which sits on June 30, and the three following days.

FOUNDED 1880. A morning newspaper published every day in the year by The World News Paper Company of Toronto, Limited.

WEDNESDAY MORNING, JUNE 11

The Bourgeoisie of Canada.

In spite of the report from Ottawa that fabrics are to be cheaper, the whole textile trade unites to say with one voice that the report is entirely illusory, that costs are ascending, and that there can be no appreciable reduction in the cost of garments for a long time to come.

The element now adding additional cost to all production and distribution is the strike. When labor was grounded to the earth it combined and extorted what was denied as justice.

The manufacturer also has suffered loss, but he can secure an adjustment with his customers. He recognizes that costs have gone up, and prices must follow.

The Canadian bourgeoisie are people who live on salaries and small fixed incomes which have not been augmented by anybody.

Still the strikes go on. Still the prices go up. As long as production is checked it must be so.

Mr. Bulman, in his address to the C. M. A. yesterday, said that "one of the fundamental facts underlying the social structure is that no one class can longer maintain rights, privileges or compensations which are denied to other classes."

Clergymen, doctors, teachers, professors, men of science, the literary workers, artists, and the elderly people who had retired after a life of toil with enough to last till the end, are feeling the burden of the war today more heavily than any others have felt it.

It is said there are about nine doubtful states in the union on the question of woman's suffrage.

question of woman's suffrage. Five of these going one way or the other would decide the matter, and it is believed by the suffrage headquarters that the vote will be favorable and federal suffrage be carried.

It may be ten or fifteen years before the full effect of woman's suffrage will be seen. Proportional representation must come in order to give a democratic franchise free scope, and permit the unrestrained nomination of candidates, whether men or women.

A Civic Observatory. Prof. Chant's article, which appears elsewhere, says that it is necessary for an intelligent constituency on the desirability of establishing an observatory in the city.

The extent to which men in ordinary life and business depend on astronomy is but slightly appreciated, and is thought by some to be confined to the weather bureau, with which, indeed, so far it has had comparatively little to do.

An Observatory For Toronto

BY C. A. CHANT

ONE of the outstanding needs of the city of Toronto at the present time is a first-class astronomical observatory. For many years there have been persistent requests from our citizens for the purchase of observing instruments for a large telescope.

These wants have not developed in a day, but have been the result of a decade. Early in 1914 a committee was appointed by the Astronomical Society to consider the question of obtaining an observatory, and the chief provisions of its report were the following:

1. That the city should furnish the site. 2. That the university should maintain the observatory. 3. That the society should have accommodation for its library and its instruments.

CICOTTE BESTS RUTH IN SEVEN ROW FOR CHICAGO PITCHER

Seven in Row for Chicago Pitcher—Washington Fans Rough.

At Philadelphia (American League)—Both's triple in the seventh inning, with the bases full, gave Philadelphia the first game of the home series with St. Louis yesterday, 5 to 3.

At Boston—Chicago took the first game of the series from Boston, 5 to 3. Cicotte winning his seventh game of the season and his seventh straight. Seasonal fielding behind both Ruth and Cicotte kept down the score.

At Washington—Ernie behind Shaw and Cicotte in the opening game of the series, 3 to 2. For protesting a close decision in the seventh, Manager Griffith was ordered off the field by Umpire Nallin, who later was made a target of the Washington pop bottles.

At New York—Detroit lost to New York yesterday 2 to 1. Thormanliens leading the Tigers to three hits, Boland pitched well for Detroit. The Yankees won in the fifth inning when Lewis' single scored Vick, who had walked and advanced on Peckinpaugh's sacrifice.

At Chicago (National League)—Chicago went on a batting rampage in the first inning against Greig, Smith and Wendell enough runs to win easily from Philadelphia in the first game of the series.

At Cincinnati—New York won easily from Cincinnati, 6 to 2, in the first game of the series. Fisher was very wild and lasted less than 3 innings, while Mitchell was hit hard by the Reds.

At St. Louis—Punching two hits with a base on balls off Rudolph, and an infield out in the sixth, St. Louis won its seventh consecutive victory, defeating Boston in the opening game of the series, 4 to 2.

At Pittsburg—Pittsburg defeated Brooklyn yesterday by a score of 10 to 6 in a free hitting contest, mixed with many mishaps on each side.

At Toledo, O., June 10.—Tex Rickard, promoter of the heavyweight championship contest between Jess Willard and Jack Dempsey here July 4, tonight requested Major Anthony J. Drexel Biddle, president of the army, navy and civilian board of boxing control, to select the referee for the contest.

Rickard in his letter to Major Biddle suggested that the board name all of the officials to be connected with the contest, which includes the referee and two judges. If the board so decides, to appoint the official timekeeper and to give any conditions of the match which the board believes will be helpful to the sport.

Rickard's startling announcement came as a distinct surprise to the score or more candidates who have sought to be appointed referee. Rickard's letter to Major Biddle followed in the morning.

"I am writing to you in your capacity as president of the army, navy and civilian board of boxing control, to select the referee for the contest. I have been convinced that boxing in this country is handicapped because of the absence of a proper organization to look after its interests.

"Boxing was in an even worse condition in this country a few months ago. I had the moral courage to come forward and establish the National Sporting Club and a board of boxing control, to select the referee for the contest. I understand Col. Roosevelt would have done it, had he lived, if he felt that boxing was in such a condition.

Across the GREAT LAKES

Hot? Not on Lake Superior! WHEN the mercury is playing around in the upper eighties, and you wish Henry Ford would invent a self-refrigerating collar—do you ever stop to remember that the temperature of Lake Superior never rises above 40 degrees?

What if you don't spare the time for a long holiday? The Canadian Pacific Railway's Clyde-built steamships make a five-day trip from Port McNicoll to Fort William and back, during which you can be as cool as an Eskimo and as comfortable as a New York clubman.

Roomy cabins, the best of chefs—oh, those broiled Lake Superior whitefish!—tea on deck under the lazy awnings—seagulls against the long, northern sunset—and a breeze from a thousand miles of clean pine woods, on duty twenty-four hours in the day.

Then—if you find you've got more time than you counted on—how about a week on the Nipigon River, forty miles from Fort William, with guides, canoes and campfires and white water under the moon—and more speckled trout than you know what to do with?

President Bulman of Winnipeg Denounces Bolshevism in Unmeasured Terms.

PREFERENTIAL TARIFF Would Have Commission to Revise Rates and Advise Parliament.

Denunciation of Bolshevism in the strongest terms, and a warning to the organized labor men of the Dominion to drop their connections with those of their members who preached these seditious doctrines, featured the speech of President W. J. Bulman of Winnipeg to the members of the Canadian Manufacturers' Association, which began its 48th annual convention in the King Edward Hotel yesterday.

The winter, said the president, had passed with less unemployment than might have been expected under the circumstances, but the period of adjustment had not yet been passed. Many problems were yet to be solved, and the most serious one, which had occasioned the fiercest of controversies for many years, was the constitution of the society.

Revolutionary in Method. These extremists were imbued with the ideas which brought about the Russian catastrophe, and they were both revolutionary in method and speech. "It seems impossible to negotiate with this class," said Mr. Bulman. "They appear to want war."

Cat's Paw Rubber Heels and Rinex Soles

Rinex Soles don't wear out like other soles—they lengthen the life of the shoes more than two-fold—they are noiseless around the house and they will not scar the floors or furniture.

Cat's Paw Rubber Heels and Rinex Soles take the jar out of each step, which means relief from the aches and pains that come from a hard day's play. If the uppers are still good, have the kiddies' old shoes heeled and soled with Cat's Paw and Rinex.

Condition in Winnipeg. Before beginning his address Pres. Bulman related some of the conditions in Winnipeg, his home city which he had left to come to the convention. The situation he described as being of such an acute form that it could almost be called revolutionary, and the citizens were waiting it out in siege style.

Some 6,000 people had assembled in a park at Winnipeg last Sunday and there had declared that they would fight to a finish. "We are not against labor unions, nor are we against collective bargaining," said Mr. Bulman, "but we are against the one big union and sympathy strikes by employes on public utilities."

Workers' Grievances. The grievances of the wage earners who were not destructively revolutionary. Mr. Bulman concentrated into three parts. First, they want a shorter working day, second, more pay for the shorter period, and third, they want a share in the control of the industry.

Disclaimed Article. Col. Maclean in answer to Mr. Parsons said he did not either write or inspire the article. The article said Mr. Parsons had given much offence and led labor to believe that the C. M. A. was their chief enemy which should not be the case.

Tariff Question. On the tariff question, Pres. Bulman said: "Successive agrarian movements in the western United States agitated to secure free trade in agricultural markets, but when great industries located in the west and built up large industries these agitations subsided. It is inevitable that a similar change will take place in Western Canada."

Financial Statement. The financial statement showed an excess of assets over liabilities of \$45,168.47, and a deficit on the year's operations of \$1,867.34. The total expenditure for the year was \$97,987.96. Industrial Canada yielded a profit of \$8,836.82.

Insurance Report. The report of the insurance committee presented by W. H. Shapley, although occurring in most of the findings of Justice Masten in his recent investigation, disagreed with him in his report that applications for insurance by unregistered companies should be refused unless registered companies' rates are unreasonable.

New Positive Treatment To Remove Hair or Fuzz. (Beauty Notes). Women are fast learning the value of the use of delatone for removing hair or fuzz from face, neck or arms. A paste is made with some powdered delatone and water and spread on the hairy surface. In 2 or 3 minutes it is rubbed off, the skin washed and every bit of hair has disappeared. No fall-out will result if you are careful to buy genuine delatone.

RETURN TO ENGLAND Colonel Bruce Regrets Government Does Not Provide Funds.

Seldom is there a more beautiful setting presented for graduating exercises than that of yesterday afternoon, when twenty-two nurses of the Wellesley Hospital received credentials of a course well and truly earned from their alma mater. The ceremonies in connection with the event were held in the attractive grounds of the institution, where seats shaded by many trees in tender green foliage and supporting immense flags were placed for the invited guests and the nurses of the training school and hospital.

Col. Herbert Bruce. The speaker of the afternoon was Col. Herbert Bruce, who is imbued with no profession in the world was held in such high esteem as that of nursing. Dr. Bruce agreed with Miss Flaws in hoping that the graduates of the university course for nurses would be able to do their part in the war.

CONTRACTORS' INDUSTRIAL EQUIPMENT

PRICES ARE LOWER IN GRAN MARKET. Belief That Measures Will Be Taken to Check Speculation Causes Selling.

Chicago, June 10.—Efforts which the federal reserve banking system was said to be putting forth to check undue speculation led to much selling of corn today. The market closed heavy at 1 1/8 to 2 1/4 net lower with July 1917-8 to 1917-8 and Sept. 1917-8 to 1917-8. Oats finished quarter to 3/4 down and provisions varying from 25 decline to a rise of 10.

Weakness in the corn market became pronounced in the last hour. It was this just before reports were circulated that letters from the federal reserve board to the various reserve banks had been sent expressing serious concern in regard to signs of over-speculation. Simultaneous downturns in stocks and cotton had a further bearish effect on corn. Previously the corn market during the greater part of the day had shown strength on account of wet weather and a prospect of more bearish sentiment due to the government crop report was noticeable at the opening. The corn bears did not again take the view of an important degree until competition of sellers widened out after midday and crop reports were all that counted.

Oats were governed mainly by the changes in corn. Higher quotations on hogs made provisions average higher. On the bulge, however, packers sold.

Hughes, Harcourt and Company, 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: Yesterday's market opened somewhat easier on a feeling that a lower market would prevail because the weather was good and crop reports were all that counted. The market strengthened around noon there was a let-up in the buying and the price fell to the low price of the opening, where it remained steady until near one o'clock, when a wave of local selling carried the market down 1 1/2 points below yesterday's close. The close was weak at the lowest of the day. Oats were strong early but weakened later with corn. On the decline commission houses sold buyers on resting orders. The selling was largely by long interests.

LIVERPOOL COTTON. Liverpool, June 10.—Cotton futures closed irregular, June 1917: July, \$13.42; August, \$13.91; September, \$13.42; October, \$13.23; November, \$13.08; December, \$13.22; January, \$13.75; February, \$17.64; March, \$17.52; April, \$17.40; May, nominal.
