SEVENTEENTH YEAR

WENT DOWN TO DEATH

Many Persons Who Found Watery Graves
on Sunday and Monday.

TWO TORONTOANS WERE VICTIMS

John Pollock Was Brought; John Cotton
Fell Out of a Boat.

Attempts at Resuscitation in Both Cases

Proved Futile—James McEwen Met His
Fate in the Murray Canal.

Both Were Drowned—Fred Drawing of a

Russell Pollock, aged 23, who lived
with his widowed mother at 11
Argyle-street, was drowned in the
bay yesterday afternoon, while
bathing off the sand bar
opposite Brock-street.

It is supposed to have got beyond his
depth. As soon as he was missed, Ar-
thur E. Rutherford, 144 Peter-street,
dived for him and recovered the body
in a few minutes. Dr. Wood and others
worked three hours trying to resusci-
tate him, but without success. The
body was taken home in the patrol
wagon. Coroner Greig was notified,
and decided that an inquest was un-
necessary. The remains will be taken
to Fort Perry. The young man's fa-
ther dropped dead while running to
catch a street car.

JOHN COTTON'S FATAL HOLIDAY

The Sad Drowning of a Young Man Who
Supported His Widowed Mother.

John Cotton, a young fellow of 17,
who resided at 11 Argyle-street,
was drowned on Saturday afternoon
at Rosebank, near Wherry. He had
just commenced a short holiday and
was to have met there three friends
named Walter and Wallace Haney and
Harry Ellis, all of whom live on
Glenora-street, near the
Glenora station. As soon as he was
missed, Arthur E. Rutherford, 144 Peter-
street, dived for him and recovered the
body in a few minutes. Dr. Wood and
others worked three hours trying to
resuscitate him, but without success.
The body was taken home in the patrol
wagon. Coroner Greig was notified,
and decided that an inquest was un-
necessary. The remains will be taken
to Fort Perry. The young man's fa-
ther dropped dead while running to
catch a street car.

George Messer, an Old Man, Ended His Ex-

istence by Hanging Himself in
His Cellar.

Yesterday afternoon George Messer,
75 years old, who kept a small con-
fectionery store at 705 Yonge-street, hanged
himself.

Messer lived with a married daugh-
ter, who kept house for him, and a
son, aged about 5. She was out
visiting yesterday, and Messer
went to bed early in the after-
noon. When he returned at 5
o'clock, he found the door of his
cellar open. He went in and
found the body of his son hanging
from the rafters. He called the
police and the body was taken
to the morgue. Messer was called
to the morgue and found his son
dead. In order to end his life, Messer
climbed a chair and hanged himself
from the rafters. No reason is assigned
for the act.

Dr. Johnson has issued a warrant for
the arrest of a man who is charged
with the murder of a young man who
was drowned in the Murray canal on
the occasion of the Sunday school
picnic.

The funeral takes place this after-
noon at 3 o'clock, from St. Matthew's
Church.

WADED OUT TO DEATH

Low Charles Brewer, II, of Peterboro,
lost his life.

Hastings, Ont. Aug. 2.—This after-
noon Charles Brewer, a companion,
while bathing at Sunbury, about two
miles east of Hastings, was seen to
see who could go out the farthest in
the water. Neither could swim. Brewer
was not caught in some way, but
immediately sank and never rose.
His companion, Fred, who was with
a couple of men who were near, came
to his assistance, but after
diving for the body for several
hours, had to give up the search. The body
has not yet been recovered. Brewer
was a young man about 18 years
of age, worked on a farm for Andrew
Hoggin, at Hastings. His parents reside at
Peterboro. A large crowd of people
gathered for the body, but it is very
unlikely they will find it to-night.

DROWNED AT KINCARDINE

Aleck Roe, Ten Years of Age, Loses His Life
Swimming to the Breakwater.

Kincardine, Aug. 2.—At Kincardine
this afternoon a young boy, while
bathing with two boys about his
own size, Aleck Roe, 10 years of age,
with his son of ten years of age, was
drowned. He was trying to swim from
the shore to a breakwater about half
way out on the south pier, but he
came tired out, and before assistance
could be rendered he was drowned.
He had been under water about five
minutes before his body was re-
covered, and all efforts to restore him
to life were fruitless.

THEIR WEDDING WAS DEATH

Fred Organ and His Future Bride Drowned
at Montreal.

Montreal, Aug. 2.—(Special)—While
four young people were boating near
St. Helen's Island yesterday, the craft
capsized, and Fred Organ and Miss
Hughes, who had been engaged for
some time, were drowned. The other
two were rescued. The young lady's
body has not yet been recovered.

Later—the body of the young girl,
Miss Helen Hughes, was seen near
St. Helen's Island yesterday, but re-
covery is not expected. Her father,
Mr. Hughes, a prominent grocer, and
at one time President of the Domini-
on Commercial Travellers' Association.

DROWNED IN THE MURRAY CANAL

James McEwen Follows His Father to a
Watery Grave Eight Years After.

Brighton, Ont., Aug. 2.—This morn-
ing James McEwen, 18 years of age,
living with his father, was drowned in
the Murray Canal. It appears he and
another young man went in bathing.
Early Sunday morning James McEwen
was seen by a man acting suspiciously in
College-avenue. In chasing the fellow
down University-street, McEwen was
struck by a car and his head and hand-
ed to the morgue. McEwen's body was
taken to his home at 10 number-
land-street in the ambulance.

DISASTER AT DETROIT

Many Yachts Were Capsized in the Storm
and Three Were Drowned.

Detroit, Mich., Aug. 2.—A terrific
rainstorm broke over this city to-night
which was a day of intense heat. The storm
was accompanied by a high wind
which swept over the river and Lake
St. Clair, upsetting a number of yachts
which were on the river at the time.
There were a number of daring re-
scue attempts, but the storm was so
violent that the boats were blown
down the river and many were
drowned.

THE MAN OF MANY SCHEMES

Professor Robertson Tells How He Would
Develop the Northwest.

HAPHAZARD SETTLEMENT IS WRONG

Would Have Villages Set Apart for
Every Six Miles Square

And Suggests That the Conditions and Re-
quirements of the West should be Look-
ed Into by a Federal Commission—One
Way to Promote Dairying in That Coun-
try—Tree Planting Necessary—Refugee
Tree Indians.

Ottawa, Aug. 2.—(Special)—Prof. James
Robertson, Agricultural and
Dairy Commissioner, has returned
from a tour of the Northwest Terri-
tories, with some new ideas as to
the method for encouraging the de-
velopment of that section of the
country. In the first place, as to
dairying, he suggested that the Dominion
Government should loan \$2000 to \$2500 to
any company of farmers subscribing
themselves \$500 to enable them to
purchase a cow and a bull. He sug-
gested that a first-class creamery
should be built and run by the
Government, and four cents a pound
charged for expenses to cover the cost
of manufacturing the butter. He pro-
poses to retain one cent per pound,
also as a sinking fund to repay the
loan. With its large acreage of
land, he thinks dairying should be
a staple industry in the west, and
the production of butter for the
country. It would be a great ad-
vantage for the Territories.

SIXTEEN DROWNED

A Pleasure Boat Run Down on the River
Spree—The Victims Were Young
Men and Girls.

Berlin, Aug. 2.—An accident occur-
ed to a pleasure boat on the river
Spree, which, by which 16 persons were
drowned. A party had gone out
on the river on an excursion, and one
of the steamers plying on the river
would not pass the excursionists,
crushing it so badly that it almost
sank. The party was taken to the
shore and every effort made to save
them, but only 16 were rescued, prin-
cipally young men and girls, were
drowned.

THE SHERIFF ARRESTED

Peculiar Charges Against an Ontario
Game Warden—An In-
vestigation Made by the Inspector.

Windsor, Ont., Aug. 2.—Inspector
Wright has been issued a warrant
for the arrest of a game warden, and
that every settler after perform-
ing duties on his quarter
section, should be granted three acres of
this residential reserve. Prof. Robert-
son also suggested that the require-
ments of the Northwest should be
looked into by a Federal Commission.

ESCAPED FROM THE GRAVE

Mrs. Mary Albertson Had Been Placed in a
Casket and Had Been Found to Be
Buried Alive.

Portland, Ore., Aug. 2.—Mrs. Mary
Albertson, 42 years of age, who had
been buried alive, was found to be
alive. She had been buried in a casket
with her hands and feet secured by
ropes. She was found by a neighbor
who had noticed a light coming from
the casket. She was taken to the
hospital and is recovering. Her hus-
band, who was with her at the time,
was arrested on charges of murder.
The coroner has ordered an in-
vestigation into the matter.

ARRESTED FOR THEFT

Late Toronto Agent in Trouble in Bal-
timore—Alleged Theft of \$600—Recently
Harried in Toronto.

Albert Horax, formerly an agent for the
Toronto Bureau of Loan and Investment,
was arrested in Baltimore, Md., on
charges of theft of \$600. He was
found with a large quantity of goods
which he had stolen from a store in
Toronto. He was arrested by the
police and is being held in the
jail. His wife was also arrested and
is being held in the jail. The police
are investigating the matter.

THE REFUGEE CREE INDIANS

In regard to the deportation of re-
fugee Cree Indians from Montana,
the Northwest it is learned that a mis-
impression obtained across the line as
to the terms of amnesty for the In-
dians. What the Canadian Govern-
ment agreed to do was to amnesty all
of those who had been captured in
the rebellion of 1885, but it was ex-
pressly stipulated that those who had
been captured in the rebellion should
undergo trial therefor upon return
to Canada. It is understood that
250 of these Indians had been
turned over to the Canadian authori-
ties and that the balance were being
discharged for want of funds. The
accusation against the pair was
participation in the Frog Lake mas-
sacre. The United States authorities
are gradually gathering in scattered
detachments of those who fled from
the Frog Lake massacre, and that they
were to be sent back to the Northwest.

HILL TOP SALES

A Great Demand Existing for This Valuable
Property.

A reporter called upon Mr. Fullerton
Friday afternoon, but owing to the
number of people purchasing stock
was unable to get an interview. The
Hill Top sales having been developed
by the Mayflower, thereby establish-
ing beyond a doubt the value of the
property, and the stock selling for
just one half, offers great inducements
to those who are not slow to
appreciate. Parties contemplating
investing would do well to leave their
orders, as the amount ordered to be
sold for development purposes will
soon be gone.

New Orleans, Aug. 2.—Last Wednes-
day night in St. Charles Parish, Jay
Guymaud, a storekeeper, was assas-
sinated while standing on his porch.
A Scotlan named Lorenzo Saladino
fired at Guymaud with a revolver. He
was known to have a grudge against
Guymaud, and he was suspected of
the crime. Circumstantial and other
evidence caused his arrest on Friday.
The sheriff has great difficulty in pre-
venting the people from lynching Saladi-
no then and there. The sheriff suc-
ceeded in conveying the prisoner to Ha-
ville, the county seat, and placed him
in jail. This structure is a new brick
building, and was guarded by a negro
night watchman, who has performed
duty for two other Italian named Decio
and Angelo Marcuso were confined in the jail
for the same reason. Two other
men of the plantation.

About midnight last night, a mob of
about 50 persons, well armed, surpris-
ed the guard, battered down the doors
of the jail, and rushed in. They
crushing it so badly that it almost
sank. The party was taken to the
shore and every effort made to save
them, but only 16 were rescued, prin-
cipally young men and girls, were

President Faure Has Been Asked to Visit
Osborne House to Meet the German
Emperor.

Paris, Aug. 2.—A news agency here
has reported for the statement that
Queen Victoria, at the request of Em-
peror William, has agreed to receive
him to meet him (Emperor William)
at Osborne House, the Queen's resi-
dence on the Isle of Wight, during the
visit of His Majesty's visit to the
Paris Exhibition in 1900. The
announcement was made by the
Paris correspondent of The Daily

was a member of the same body, was
killed. The bodies of the Christians
were thrown into the sea. The
Mussulmans are reported to be
preparing to leave the island.

THOUSANDS OF BURIED CORPSES.

Washington, Aug. 2.—United States Sanitary
Inspector Eldridge, at Yokohama,
has reported that the condition of the
northern districts of the northeast
of Japan is likely to give rise to the
development of epidemic disease. Oper-
ations of 20,000 men, including the ac-
tivity of the army, and the work of
paying attention to crops and supplies,
are not at all particular at what price
labor is so difficult to obtain within a
radius of 100 miles of the coast. The
corpses of thousands of men are
still buried.

THE COMMITTEE OF FIFTEEN TO ENQUIRE INTO SOUTH AFRICAN AFFAIRS.

As an Orator and a Debater, But He
Is a Good Committee Man.

HE WILL INVESTIGATE ALONG WITH MR. LA- BOUCHERE AND OTHERS THE BEINGS OF BOUCHERE AND THE CHARTERED COM- PANY—A HOPE THAT THE IMPERIAL HOUSE COMMITTEE MAY BE ABLE TO ENLARGE AND EXTEND THE GOOD FEELING NOW EXISTING BETWEEN BRITAIN AND THE TRANSVAAL.

New York, Aug. 2.—Mr. Ford cables
from London. The committee of 15 ap-
pointed to investigate South African
affairs in general, and Cecil Rhodes
in particular, is fairly representative, and will
probably stand. Threats are made that
Mr. Labouchere's appointment will be
challenged on account of his fierce hos-
tility to Rhodes, but it will be an un-
usual and extreme measure for his op-
ponents to object to his service for
that reason. The Parliamentary Com-
mittee is supposed to represent all
sections of opinion in the Commons,
and Mr. Labouchere is an exponent of
the most critical and hostile opinions
of Rhodes, and is entitled to serve. It
is not likely that the committee will
adopt the unprecedented course of
excluding any member. The members
object solely to Mr. Blake's ap-
pointment as their representative.
Mr. Blake is not a Redoubtable, but
he is connected with the largest
agency of Nationalities and is well
known to committees. He has a
peculiar talent for the examination
of the facts and for the investigation
of the facts. As an orator and debater,
Mr. Blake has disappointed his friends,
but he is a good committee man, and
will be able to do his duty. The
committee will be able to do its
work.

It is not the intention of The World because its party, or rather the party that it is most in accord with, happens to be out of power to cry blue ruin. When there are evidences that things are improving, when the prospects are more hopeful, it will say so, whether Liberal or Conservative it be.

FREE COINAGE OF SILVER.

Though Times are Hard it May be the Best of Proposed Will Produce Satisfaction. The Times has an interesting letter on the free coinage question, written by a few of our publicists from which the following are made: "The 'free and unlimited coinage of silver' is a subject upon which there is a wide diversity of opinion and it is not easy to let us be careful. Even if times are hard now, it may be the wisest remedy that will produce the greatest benefit to the country, and if we can do so without incurring any loss, it is a thing which we should do."

IT MIGHT SPREAD HERE.

It is often noticed that big popular movements in the United States have a reflex action in Canada. For example, the tariff reform movement was nothing more than a Canadian adaptation of the Farmers' Party in the Republic. The P.P.A. first saw the light across the border. The tariff reform cry here in 1885 was the direct result of the Tariff Reform League in the United States.

AN OLD ISSUE UP AGAIN.

Mr. Charlton has revived the question of reciprocity with the United States in an editorial paper written for the Globe. Once more he enlarges on the six million market, discrimination against Great Britain, and all the rest of it. Mr. Charlton is perfectly right in his standpoint. He does not see why the silver question should be shelved. Other prominent members of his party may box the compass on public questions if they like, but Mr. Charlton evidently wants us to know that he is not ashamed of his colors. It looks as if our late lamented friend, the six million market, were coming to the front again. Mr. Goldwin Smith, the most talented of all the commercial unionists, is again writing for the press. Here is Mr. Charlton to the fore with a strong plea for discrimination against Great Britain, and it is well known that many Liberals are a bit impatient at the equivocal and bewildered attitude of the new Ministers on the tariff question.

A CHANCE FOR LI.

When Li Hung Chang gets tired of dining with royalty in his yellow jacket, and when he sees the sights of London, he will begin to think of returning home. There is no reason why he should not come by way of Canada. He would have to pay \$50 at the frontier, but what is that to a man who has tipped a London waiter? He would learn much from us. We could give him

Bygone Subject Wyatt Buried After His Wife's Death Under Ground. Indianapolis, Aug. 8--J. J. Wyatt was placed under hypnosis influence by Prof. Boone in this city on Tuesday last, at night, and was taken to Fairview Park and buried under four feet of earth with a sheet extending from the surface to his face to give him air. Thousands of people visited the park to look upon the living dead man, and to-night fully 10,000 were present when the earth was dug away and Wyatt was brought out. When taken out of the ground Wyatt's form was rigid, and there was no appearance whatever of life.

LAST OF THE CITY LIMITS.

Woodbine-Avenue Deviation-Crowds at the Parks-Other Items of Interest.

The members of the York Township Council, with Townships Engineers Gibson, made a survey of the proposed Woodbine-avenue deviation on Saturday afternoon. It is proposed to make the deviation through property belonging to Mr. T. Taylor, and to compensate the land now traversed by the old highway. To make a suitable thoroughfare through the latter owner's land cost \$2000. The expedient proposed and which will be carried out if legal, will be to have the deviation done by the necessary fencing which is done by the sale of the time, now standing on the property.

Victoria and Munro Parks.

Victoria and Munro Parks having a fine cool breeze all the afternoon were invaded by a host of visitors. Today, it was not so warm to dance, and no numbers danced. There were not boats enough for the occasion. It was claimed for them, and every tree was encircled with those who sat down to eat and drink. A most interesting scene was witnessed at the Victoria Park, where the Municipal Council, from Weston, who during the afternoon carried out a program of sports. Small's Park was a refuge to a number on Saturday. A special attraction was a quiet tourney.

Some dozen members of the Hunt Club are now hunting at the new gallop on the Kingston-road, and go into the city each day for professional livery.

Items of Interest.

I.O.F. Lodge, East Toronto, and friends went by special car to High Park on Saturday. There was a number of games and speeches, and the ladies, under Mrs. C. Pickett and Mrs. J. R. Johnson, provided a capital supper. In evidence of the better times enjoyed by the G.T.H. this summer, there are 21 more men employed at the yards than in 1895, and last week 60 trains left the station in excess of the number pulling out during the week ending last year.

Messrs. Costain and McMillan, East Toronto carpenters, are filling a big order for tables for a Toronto firm.

The Church of the Holy Trinity has been removed on the exterior.

The East Toronto Fire Brigade is arranging for a concert on Sunday at the Kew Beach pier.

Messrs. Harris & Co. have completed their big brick building on the north-west corner, and all the machinery is in place.

The departments of carpentering, shoemaking and printing are about to be added to the program of the Ontario Biontary Industrial School, in connection with the work as printers, the boys will run a monthly paper.

W. Warren, George Warren, and S. Shaw, three Montreal tradesmen, are wanted to reach Chicago, had not enough money to do this comfortably, so they raised the orchestra of J. P. Longley on the Danforth-road, and took out a large basketful of fruit to sell. All sources have gone for ten days.

Give them a Trial.

Editor World: This is one phase of the Sunday car question which I feel surprised at never having seen presented, and knowing the interest the World takes in the matter I am sure you will be pleased to give it publicity. In any ordinary department of municipal affairs, if a considerable number of the community demanded some benefit which they alleged it was in the power of the city to confer upon them without expense to the city or annoyance to those who differed from them, a temporary law would be made. The request of bicyclists for special paths is a case in point. What the bicyclists are in a tremendous minority and contribute nothing to the cost of paths. Bicyclists are not persons who are to be feared by those who do not ride, and they are simply enough to ride more on Sunday than on week days. What the bicyclists may not do is to take the ways may not be exactly those of other people, and while they may be a small minority, the sound principle is observed in their case, that they are citizens and taxpayers like their fellow citizens, and that their wishes have to be consulted.

Now if I have read the arguments of the most prominent anti-Sunday car people right, they base their opposition to Sunday cars principally on the following points: "That the respectable working classes do not need and would not use the extra cars, and that the sections to the contrary are mere traps." And that if they did use them they would lead to dissipation and revelry at the ends of the various lines. 3rd. That it would interfere with divine service. Does not the common sense solution of this unsatisfactory problem lie in a mutual agreement (without prejudice to existing agreements) to test the desirability of the question by running the people of this city by running the cars for three or four fine Sundays this fall. This will prove more than any vote and will moreover cost the city nothing. The way that people would look on the cars on Sunday is different from the way that they would look on them on bright Sunday afternoons and their decent behavior when there would settle the question at once. I believe that the gentlemen who are so convinced that the plain people do not wish to go on Sundays to the parks or who believe that the people of Toronto are selfish on Sundays (and Sundays only) with a fierce tendency toward immorality, would receive a new eye-opener that would effectually answer their absurd statements. On this account they would doubtless propose it. I do not think, however, that anyone will deny that the course here suggested is the one that would be followed in almost any other department of life. H. H. Godfrey.
