RAILWAY MEN'S STRIKE NOT ARTHUR
FIGHTING NORTH OF FENGWANGCHENG

Sharp Action From May 27 to
May 30 in Which Both Sides
Are Said to Have Suffered
Seriously.

Chetoo, June 1.—(11 a.m.)—An un-
confirmed rumor is current among the
Chinese that a battle occurred six miles
from Port Arthur yesterday (Tues-
day).

CONTINUOUS CLASHES.

Liaoyang, May 31.—(5.30 p.m.)—Con-
tinuous fighting has taken place north-
east of Fengwangcheng and the rail-
way about Kinchow since May 27. A
sharp action has taken place eastward
of Simatsi, 35 miles north of Feng-
wangcheng, which lasted from the
morning of May 27 until daylight, May
28. Both sides suffered seriously, altho
the detailed losses are not available.
The engagement resulted in the Rus-
sians retiring on Simatsi, followed
cautiously by Japanese detachments.
Three companies of Japanese are re-
ported to have defeated a patrol of the
Nerinsky regiment near Hunsian,
wounding three Cossacks. A fourth
Cossack had his horse killed under
him. Fearing capture he buried his
horse. He was captured, but subse-
quently escaped, dug up his rifle and
rejoined his regiment.
Severe fighting is reported along the
railway between stations Vyangy and
Vandien. The Japanese suffered
heavily and would have been annihi-
lated had not infantry reserves come
up and forced the Russians to retire
into Vyangy.

TO FORTIFY YINKOW.

London, June 1.—The Tokio corre-
spondent of The Chronicle telegraphs:
"Russian strategy has undergone an-
other change. Yinkow is to be again
fortified. Four guns have been brought
from Newchwang, the garrison in-
creased and the harbor mined."

ON TO PORT ARTHUR.

London, June 1.—The correspondent
of The Standard at the Japanese
army headquarters, telegraphing un-
der date of May 31, says:
"Repeated reconnaissances
show that the enemy's troops
are not within 15 miles of Feng-
wangcheng or east of Taying
River for 30 miles in the direc-
tion of Siyu. Motienting
Pass may delay, but cannot
prevent the Japanese advance
to Port Arthur, as the pass can
be turned on either side.
The Morning Post's correspondent
at Shanghai learns that the Russians
handed a number of Chinese who had
been caught signaling to the Japanese
fleet near Vladivostok."

FORCE MAY DISRUPT.

Because of Yesterday's Ruling Regarding Pension Fund.
In Toronto going to have another
policy meet. The last one happened
in 1872. Toronto is a much larger city
now and cannot very well afford to
stand for its protectors quitting work.
The police commissioners seem either
to be dense or careless if they have
not become wise to the fact that dis-
satisfaction amongst the members of
the force has reached a point where
it is going to be a serious matter.
They yesterday had a conference
with the committee of the police bene-
fit fund, but it was about the same
old case of discussing Detective Slie-
man's case. It is well known that Mr.
Sliehin has tendered his resignation and
has been appointed chief of police in Brai-
ford. He has served time enough in
Toronto to entitle him to a pension from
the benefit fund, so he claims.
The commissioners are willing to ac-
cept his resignation, but decline to pay
the pension. They say that the fund
was not established for the purpose
of handing out money to able-bodied
men. It was intended for the aged,
decrepit and aged. They therefore refuse
to accept his resignation unless he
agrees to continue to pay into the fund
for seven years more, or until he is
65 years of age.

COMMITTEE BACK UP COMMISSIONERS.

The benefit fund committee yesterday
afternoon fell in line with the commis-
sioners' views. This decision means
that no one will be allowed to draw
money from the fund until he is
65 years of age. That is one of the
points of the great dispute, and the
committee's decision is a serious blow
to the strikers. They say that the
fund is going to make an error, and
will seriously injure the working of the force.
The commissioners present were Col.
Denison and Mayor Dewart. Mayor
Winchester being in Montreal. The
fund committee was represented by In-
spector Stephen, Detective Black, Secret-
ary Watson and P.C.s. Dykes, McKinley,
Hogg, Welsh and Phelan, who were
present at the expense of the strikers.
The committee to discuss the Sliehin
matter and its effect on the force, as in-
duced by the hearing in his Ser-
vice of No. 2 division of his resigna-
tion, and the threatened resignation of
dozen other officers in various
ranks up to inspector.

WHY THE MEN GRUMBLE.

The police at present are forced to
contribute 7 per cent of their salaries
to the fund, which is not in their
position to stand an overplus of pension
money. The men who are in the
position of the fund are a million-
aires around the neck of the force. It
provisions hitherto have not tended to
encourage young men, and will certainly
not attract them now. The men also
have the gymnasium grievance, and
their very reasonable request for a day
off each month, which the board of con-
trol granted, and the fact that the com-
missioners have seemingly made no effort
to meet.
Those who claim to know say that
the whole fault is in the present disposi-
tion of the working hours of the relief
system prevailing in Buffalo and
other American cities, and which can-
not be applied here, would satisfy the men
and give a better police service than
now. For instance, it is said that To-
ronto now, between the hours of 4 and
7 a.m., is protected by less than twenty-
five policemen on street duty.

JAP SQUADRON WIPED OUT

St. Petersburg Reports a Check
to the Mikado's Forces Near
Vagenfuehuchu.

St. Petersburg, May 31.—The follow-
ing official despatch has been received
by the general staff:
"From May 29 to May 30 all has been
quiet in the neighborhood of Feng-
wangcheng.
"At 10.30 p.m., May 27, a force of
Japanese infantry from Kuandianian
commenced a frontal flank attack upon
a position occupied by our Cossacks
near Shoago, 15 versts northwest of
Kuandianian. The Japanese, under
cover of the darkness, opened a run-
ning, demolitory fire, using field search
lights. The Cossacks retired on foot
to Chanlin Pass, two versts west of
Shoago, and subsequently on Aiyang-
pienmen, sixteen versts west of Chan-
lin Pass. The firing ceased at 2 a.m.
May 28, when the Japanese ceased the
pursuit at the entrance of Chanlin
Pass.
Japs Suffered Heavily.
"The same day the first section of a
Japanese detachment approached Aiy-
yangpienmen, but afterwards retired to
the summit of the hills west of the
town. At 10 a.m. they formed up in
order of battle, the force consisting of
two battalions, with another in re-
serve. At 11 a.m. a battery of artillery
took up a position, and opened fire
with shrapnel. While crossing the
valley the Japanese infantry, advanc-
ing in close formation, suffered heavily.
At 12 p.m. the Cossack observation
post that the Japanese were turning their
right flank, retired in good order on
Salmatsia. The fire of the rear guns
ceased at 2 p.m. We lost two officers
and seven Cossacks.
"By 5 p.m. the Japanese advanced
towards Salmatsia. Their movements
were watched by Cossacks. When this
telegram was despatched the Japanese
had not arrived at Salmatsia.
"Up to May 30 the Japanese had not
occupied Siyu.
"All is quiet on the coast at New-
chwang, Kinchow, Kaiping and Sen-
chen.
Annihilated the Japs.
"Shortly before noon May 30 our
battery opened fire near the railroad
station of Vagenfuehuchu against an
advancing Japanese force consisting of
eight companies of infantry, eight
companies of cavalry and four machine
guns. DURING THE ENSUING BAT-
TLE OUR MOUNTED SOTNIAS
BELLARMINI, AND A JAPANESE
SQUADRON ON THE
ENEMY'S LEFT FLANK AND AL-
MOST COMPLETELY ANNIHILATED
THEY. The Japs then attacked the
infantry, but retired under the fire of
machine guns. The advance of the
Japanese was stopped by the fire of
our battery, which inflicted con-
siderable loss on the enemy. The three
hundred Japs were definitely ascertain-
ed, but so far as known one officer
and 25 men were wounded and 25
horses were lost."

WILL FURNISH HOSPITAL WARD.

Bruce Old Boys and Girls Decide on
Worthy Experiment.
The executive of the Bruce Old Boys
and Girls' Association yesterday decided
to furnish a hospital ward in the Bruce
General Hospital at Walkerton at an
estimated expenditure of \$300.
The funds will be turned over to the
hospital board on Friday, July 8, and
the occasion will be made an eventful
one by the presence of the county and
town officials and the 32nd Regiment Band.
Arrangements were also made for
the excursion, which will go to Southampton
by way of the Great Lakes. The
Bruce Old Boys will send their subscrip-
tions to the hospital fund to J. H. Spence,
secretary, Canada Life Building, or Mr.
Johnston, 96 Huntley-street, one dollar be-
ing the amount asked from each subscriber,
in order to have a many names as pos-
sible represented in the donation.

LABOR IS FOR LOCAL OPTION
WILL ASK FOR REFERENDUM

Meanwhile Employers Issue
Summonses Against Union
Leaders, Charging
Conspiracy.
An interesting turn was given to the
brewery workers' strike yesterday
by the issuance of summonses against
the officers of the local union and Inter-
national Secretary Proebste, charging
them with conspiracy to injure and
destroy the business of the various
breweries. The informations were
sworn out by A. G. Merrick of the
Employers' Association on behalf of
the non-union brewers and call upon
the accused to appear before Magis-
trate Denison at 10 a.m. to-day. The
only persons served up to a late hour
last night were Jos. Rutledge, presi-
dent, and James Ralph, chairman of
the executive of the local union.
Mr. Proebste was at his hotel last
night and said he was waiting for his
summons. He made light of the ac-
tion of the brewers, saying it was an
old trick and bound to do the employ-
ers more harm than good. He con-
sidered that the men and women who
were accused of conspiracy for the
lockout were not to be taken into ac-
count to prevent them from earning a
living. Mr. Reinhardt had come to
him, he said, and declared his inten-
tion of signing the wage scale, taking
back the old men and women who
had been in the union, which was in-
fluenced by the other members of the
combine to try the last resort, an ap-
peal to the courts.

say that they will be able to under-
take the British railmakers, who they expect
to have been competition from the re-
constructed Soo Company when that
industry gets well going.

PRINTERS STRIKE TO-DAY
NO SIGN OF SETTLEMENT

Loung Conferences Held Yesterday Be-
tween Masters and Men, With
Both Sides Determined.

The relations between the printing houses
of the city and their employes are now in
an extremely precarious condition, and
within a few hours may be witnessed the
inauguration of one of the most complete
strips that the printing trade has ever
experienced. The men are very reluctant
to enter upon a struggle, and will not do
so without the endorsement of their highest
officials in the international organization,
but they feel that they are not being justly
treated, and are prepared to take the
consequences, if forced to fight for what
they consider fair demands.

JUSTICE FERGUSON IS DEAD.

Passed Away Yesterday Afternoon
After Brief Retirement.

Without having regained conscious-
ness Hon. Thomas Ferguson, justice
of the high court of Ontario, passed
away yesterday afternoon at 3 o'clock
at his residence, "East Lawn." He
had been ill for the last two years,
and for the last month was confined to
his bed, altho he was on the bench at
the recent civil assizes.
He was 76 years old and one of the
three veterans of the high court
bench. He served for over a quarter
of a century, and presided over many
of the famous criminal cases that have
been tried in this province. The second
trial of the Kinnear brothers, the Do-
minion Bank case, when Pare, Holden,
Mackie and Ponton were the leading
figures; the memorable McWhirral
murder trial, the long fought John
Eaton insurance case, and the sensa-
tional Melancthon-aron case were
among those presided over by Justice
Ferguson.

FOR CIVIC OWNERSHIP.

Mayor Morden Exhibited a

formal communication he had received
from a Montreal firm that wishes to
erect a plant for the city that will
supply arc lights at rate of \$1.50 each.
Mayor Morden, with a successful busi-
ness career to his credit in Hamilton
extending over a period of forty years,
declared to The World that he favored
the acquisition of a plant to be oper-
ated and owned wholly by Hamilton.
In any event he knew the time had arrived for ap-
plying the pruning knife very sharply
to the municipal ownership of the city.
He is positive the city has the authority
to do something in this direction
under the present charter. He has
been five years ago the city council
had even a more violent municipal
ownership proposition than that which
is now before the city. In fact it reached
the proportions of a convulsion. William
McAndrew, one of the great electrical
engineers of the world, was the chairman
of a special conciliatory committee ap-
pointed to investigate the subject.
The feeling had reached such a stage
that on Dec. 12, 1888, Chairman
McAndrew filed a report of Percy
Domville, an expert electrical engineer
in Canada, who had been commissioned
to look into the practical details and sub-
mit a working plan and cost of plant,
and supplemented it with an enthu-
siastic endorsement which was pre-
faced thus:

ELECTRICAL WORKERS AGREE.

Receive 2-Cent-an-Hour Increase on
New Scale, Beginning To-Day.

An amicable agreement was reached
yesterday by the electrical workers
and their employers by which the men
receive an increase of two cents per
hour, making their minimum wage for
the ensuing year 27 cents.
The old agreement expired last night
and numerous conferences have been
held during the past few weeks on the
question of wages.
About 150 or 200 men are affected by
the increase.

SEE COLONIES FIRST.

(Canadian Associated Press Cable.)

London, May 31.—At the Royal Col-
onial Institute, Sir C. Smith, presidi-
ng, Mrs. Archibald Colquhoun read
a paper on "Women and the Colonies."
She said that the attitude of the English
woman towards the colonies was one
of suspicion and fear. Proof of this
lay in the fact that out of 3000 applica-
tions to the British Women's Emigra-
tion Association during 1903 only 100
went to the colonies. She said that
she as the chief field for colonization,
and there was crying need of do-
mestic servants and mothers of the
highest importance, and she urged the
female population more evenly through-
out the world to send out a sister for
every brother. There were over a
quarter of a million more men than
women in Canada, New Zealand and
Australia. She said that she had
diverted from hospitals and art and
music schools to Canada, where dis-
tinctly the only profession she witness-
ed yesterday's racing, and it is expected
that both he and the Queen will see the
great race.

if Canada was asked to contribute to

Men Went Out on Strike at 12

O'clock Midnight Last Night—
President in England.

Ottawa, May 31.—(Special.)—A private
telegram from Sydney, C.B., this
evening announces that the employes
of the Dominion Iron and Steel Com-
pany will go on strike at 12 o'clock to-
night. This means that 1800 men will
be idle in Sydney to-morrow. It is
stated in the private telegrams received
here that the company has declined
to agree to the demands of the men, and
makes the following proposition:
The provincial Workmen's As-
sociation is asked to arbitrate, and
chosen by the Nova Scotia govern-
ment. The statement that the company
pays rates equal to similar industries
in Canada.

Under this arrangement the

association would appoint one arbitrator
and the company another arbitrator. The
two would choose a third arbitrator, or
failing to agree, the third arbitrator would
be a judge of the supreme court.
The men refused to accept this.
Mr. Plummer, the president of the
company, is in England and cannot re-
turn before June 15.

But Mayor Morden and Other

Citizens Strongly Favor the
Municipalization of the
Matter.

Hamilton, May 31.—(Staff correspond-
ence).—A curious chapter in municipal
economics has been revealed through
the efforts of the city council to
secure a reduction in the cost of street
lighting. Present developments are the
sequel of the contract awarded the
Cataract Power Co. five years ago
and the methods that then obtained.
Some interesting details are promised
before the problem is solved. Public
ownership sentiment is responsible for
the exciting time the city fathers are
framing up for the Cataract Company.
At the same time if the municipal
ownership current does not run deeper
than that which the Cataract Power
Company diverted at the time the
street lighting contract was secured
in the dog days of 1899 the corporation
corporators are not likely to be jarred
loose from the public treasury to any
appreciable degree.

Hamilton is paying \$85 per lamp for

each of the four hundred arc lights
on the streets to-day. For each light
beyond that number up to 600 the
company charges but \$25.50. Beyond
500 the city would have to pay but
\$30 each. But the council and a large
number of citizens think this amount
excessive. In fact a large number of
business men have been discussing
the subject and insist that the time
had come for the city to own and
operate a lighting plant. In fact pre-
liminary negotiations to that effect are
being made and an interesting legal
discussion is forecasted.

N.W. Ratepayers Discuss Abattoir and Aldermen Side With Sentiment of the Majority.

Dr. J. Sinclair presided over a meeting of the Northwestern Ratepayers' Association last night in Dunlop's Conservatories, Lansdowne-avenue and Bloor-street. George F. Scott, secretary of the association, read letters of regret from Mayor Urquhart, Assessment Commissioner Fleming and Controller Spence.

Trying to the Nerves.

Rev. A. McGillivray would not divest himself of the right of free speech on account of the cutting. He entered the slaughter house already established but the proposed extension, if Puddy Bros. were given employment to fifty men in the inception of the scheme, how many would they have in the future?

As a Land Owner.

Robert Jeffrey did not come to represent the Canada Property Co., as he had a right to do, but a company which had sold a great deal of land to residents in the neighborhood, and they could not permit the value of the land to be depreciated.

Must Set Apart Location.

It would be necessary to set apart certain localities where the industry might be established. He had himself introduced the bylaw against the North York factory and the city council recognized the necessity and gave the council power to lay out factory districts.

Right Ahead.

G. Puddy, Jr., said that twelve years ago the working men were carrying round the black flag. The trouble was that they were not getting any wages. They were getting too many. These men were glad of an abattoir if they wanted to get wages. Permits had been got from Dr. Sheppard and the council, and they had spent \$15,000 or \$20,000, and had plant lying ready to place on the site.

Ald. Ward is Positive.

Mr. Campbell said he had been informed that the plant spoken of was that of the Pakenham Company of Stouffville, and had been bought for \$100,000. He said that the plant was not to be located on Paton-road, and the future would prove him right.

HAM'S STREET LIGHTING

Continued From Page 1. The city could supply its own lights at not to exceed \$4.55 per annum each, a reduction of 40 per cent. Apparently the special committee was struck with the economical arrangement, for at that time the Hamilton Electric Light Co. was receiving from the city \$12.25 per each lamp.

Quickly Adopted.

April 10, 1899, two months after Chairman McAndrew signed the report, declaring it the conviction of the special committee that it was most desirable that the city go into the lighting business, he filed another report, in which there is no reference to municipal ownership, but recites that the committee had an informal interview with the managers of the Cataract Power Co. and the Hamilton Power Co. and the Hamilton Electric Light Co. and the Hamilton Electric Light Co. and the Hamilton Electric Light Co.

Overed in the States.

A city official, alluding to the terms of the contract with the Hamilton Electric Light Co., said that he had been sent here three years ago to succeed H. C. Layton, who had been a member of the council and that Hawkins had been sent here from him to the contract. He said that the contract was not to be renewed after July 1 of next year.

Throttled for a Time.

This municipal ownership sentiment was throttled for a time. But Monday it is breaking out anew, but with just what chance of a practical arrangement in definite. The only hope of wresting the business from the Cataract Company lies in a clause in the contract which declares that at the expiration of five years the city may demand a reduction of the contract price if in that time new inventions in electrical devices have been introduced which would enable the city to produce power at less cost than when the contract was made.

When the City was Paving the Old City.

When the city was paving the old city with the electric power, it was using the expensive system of generating power from steam. There was two years of a lighting contract to run when the Cataract Company absorbed the Hamilton company with its franchise. Then the new contract was figured out. When the city was paving the old city with the electric power, it was using the expensive system of generating power from steam.

HOW THOUGHTS ARE MADE

A battery must have vitriol to act upon the other things and produce electricity. A Brain is made of Water, Fat, Albumen and Phosphate of Potash.

GRAPHIC ILLUSTRATION.

A normal Brain shows 6 per cent of Phosphates, while the brain of an insane person shows less, in one case only 2 1/4 per cent. This proves Brain-power and Nerve-Force depend upon the quantity of Phosphate of Potash system assimilates from food.

Certain parts of Wheat and Barley contain these elements in their most effective form, but many cannot digest enough to feed a busy Brain up to its full working capacity, nor can they digest the dead Phosphate of Potash taken from the drug store.

(Note—White Flour does not contain these Phosphates, because they grow in the dark parts of wheat which the miller leaves out because of its color. This explains why white flour is useless to restore Brain and Nerves.)

In GRAPE-NUTS food these elements are presented in the most liberal proportion and in such form any one can digest and assimilate them.

Government analysis proves GRAPE-NUTS thirteen times readier for assimilation than oatmeal and three times more digestible than the average wheat food. This proves the valuable food elements of GRAPE-NUTS are ready to change into Brain-Power and Nerve-Force with least delay and least tax on Liver and other organs.

Also it explains why GRAPE-NUTS is acknowledged the most scientific Brain and Nerve food in existence, which can be proved by trial.

Copy of this great Government Food Test sent free by Postum Cereal Co., Limited, Battle Creek, Mich., largest makers of Pure Foods in the world.

Ex-Mayor Bond Gets Monster Pike in Which is Found an 8-Inch Chisel.

BOY KILLED AT BURNHAMTHORPE

Death of John Coulter—Bridge Delay at East Toronto Cause of an Accident.

Toronto Junction, May 31.—To-day being ex-Mayor James Bond's 65th birthday, he received from his son-in-law, J. C. Lockhart, C.P.R. store-keeper at North Bay, a box of fish. Among the lot was a monster pike, nearly 3 feet in length. In the inside was found a cold chisel, made of 7 1/2 inches steel, 1 1/4 inches long and 1 1/4 inches wide at the cutting end, which weighed 21 ounces, also a black wood file handle with brass ferrule. The file handle had evidently not been in the fish very long, as the growth over it had only commenced. The steel chisel, weighing over a pound, must have been in its inside a considerable time, as nature was doing its best to overcome the obstacle, which was embedded in a trice scum and was hidden from view when the fish was cut open. The chisel was given to the C.P.R. Company, and had the company's name stamped on it, also the initials J. S., in red ink, in the handle. The chisel had in all probability been thrown out of the C.P.R. shops into the lake. Being about the shape of a fish, the flat end representing the tail, and traveling thru the water at a rapid pace, this voracious pike must have made one strike at the chisel, and it before realizing what it was. The weight of the instrument would not even have made one strike at the fish, but Mr. Bond states that it flew was prime eating.

William Mathers, 15 years of age, son of James Mathers, Lambton, was riding to the postoffice at Burnhamthorpe last night when he was thrown from his bicycle. The bicycle was overturned, and he was thrown into the water. He was rescued by a fisherman, and taken to the hospital. He died of his injuries on June 1st.

Albert Baker, Mulock-avenue, was playing around a dry-well in the Docks Pulley Works when his left hand got caught. He had a miraculous escape and got off with a few bruises. The strike for a raise of one cent an hour by employees of the Ontario Paving Brick Company, who are now on strike, was rejected by the company.

East Toronto, May 31.—A meeting of the members of the Willing Workers of St. Saviour's Church will be held at 8 p.m. at the residence of Mrs. Campbell, 114 Mulock-avenue, on Thursday afternoon at 3 p.m., and the Junior Willing Workers will meet at the same hour at the home of Mrs. M. J. Pollard, Inabella-street. Miss Thompson, a returned missionary from India, spoke to a small audience in the Presbyterian Church here to-night.

Residents north of the railway complain of the delay in the erection of the bridge. More than a year has elapsed since the association, Mr. Banks acting as secretary, proposed a plan which would be forwarded with a recommendation for its immediate construction. In this agreement the association has agreed to contribute \$10,000 towards the cost of the bridge.

Travelers' Tales. In Jarvis-street Baptist Church last night a number of those who attended the recent world's Sunday school convention in Palestine, told of their travels. Dr. Potts and Rev. Wm. Frizzell were the chief speakers, and the "Echo" meeting, as it was called, was most interesting and successful.

An Associated Press correspondent, who has traveled 60 miles in the neighboring country, found no traces of the pest and says the people had no knowledge of the hostilities.

Seventy-one Chinese bandits are at Lisovang awaiting execution.

"SPORTS"

We sell the right things to wear for out-of-doors sports—the "links"—the "crease"—the "court"—the "golf"—the "tennis"—the "cricket"—the "trousers"—the "flannels"—white and grey and white—2-50 to 3-50—The Shirts—7-50 up—The "neckerchief"—something new—worth—costs 3-00—but it's novel—in comfort—Dressing up for your recreation is as much a part of "the new men's store" as selling hats—raincoats—shirts—collared neckwear—gloves—boots and fancy vests.

Fairweather's 84-86 Yonge St.

Acquiesced, submitted plans of a bridge which were regarded as suitable, and here the matter has been allowed to rest. With the extension of the street railway over the bridge and along the Danforth-road a great boon would be conferred on the north-ends.

Richmond Hill. The death occurred at Richmond Hill on Tuesday evening of John Coulter, one of the oldest and most highly respected citizens. Mr. Coulter was a native of Newfoundland, County Down, Ireland, emigrating to Canada and settling in Kingston over sixty-five years ago. From Kingston he removed to Toronto, where he resided several years, finally locating in Richmond Hill, where he has continuously resided for over half a century. He conducted a merchant tailoring business until retiring some nine or ten years ago. Mr. Coulter was a Presbyterian in religion and a member of the congregation of St. Andrew's Church, where he was buried. He was survived by his wife, who died several years ago, and a daughter, Mrs. M. J. Pollard, Inabella-street, Toronto.

wish to increase the size, mate them with a large male. This applies especially to turkeys. Hens learn to eat eggs by having broken in the nest, but they rarely break eggs themselves until so taught. Very many of the diseases and ailments which poultry are subject to may be traced to improper ventilation. While conditions may serve as stimulants to a vigorous and temporarily invigorate the hens, they do of no value whatever to healthy fowls. The hen only lays when she is capable of supplying the materials for forming an egg, and stimulants contribute but little that is necessary. "Fouling" produce, those of the dairy, can usually be sold above the market quotations if put on the market in good shape and sold to select customers.

In feeding young chickens, it is best at all times to either cook or scald the grain and feed it to them in a sloppy condition. All young chickens want for health, growth and good condition, is plain, nutritious food, fed often and a little at a time to suit their digestive organs.

The farmer who has a good garden has a healthy family as a rule. We remember being at a farm where a few fresh eggs, when an aged physician was asked to make a prescription for the family, he said: "I noticed all my life that I never got sick for a text he gave a most interesting talk on the benefits to be derived from fresh fruits and vegetables in the home garden and plenty of fruit saves doctors' bills."

Nothing adds quite so much to the appearance of the homestead as a smooth, green lawn. It is a thing which is not only to be found to be full of little beauties and beauties. These may be gradually worked up by putting a thin layer of soil to the depression, letting the grass grow over it, and repeating the operation until the whole is level. The law is not to be mowed or raked off the elliptical, but to be left to grow and fall from the mower and they will either close to the ground, fertilizing the soil as they decay and the water will be springy. Under this system the lawn should be mowed every week or fortnight.

THE NEW FRENCH REMEDY. THERAPION

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Kocot, Robert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind. It is a remarkable short time, often a few days only, removes all discharges from the urinary organs, suppresses gonorrhoea, the use of which does not produce any harm by the foundation of stricture, and other serious diseases.

ROOF OF THE HOUSE OF THE LATE JOHN CRERAR BURNED OFF, CAUSING \$1800 DAMAGE.

Hamilton, May 31.—(Special.)—The firemen had a busy day. This afternoon at 3.40 they were called to the Main and Catharine-streets, where one of the company cars, "Hamilton," was blowing away merrily. The car was damaged to the extent of about \$200. At noon the fire fighters were called to the residence of the late John Crerar, 220 South MacNab-street. They had a stiff fight, and before they got to the flames conquered the roof was burned off. The loss will amount to about \$1800.

The races of the Hamilton Driving Association, which were to have opened Wednesday afternoon at the half-mile track, have been postponed till Thursday afternoon at 2 o'clock, on account of the rain.

The presentation of the colors to the 51st Highlanders, which had been arranged for June, will not take place till Wednesday afternoon at the half-mile track, have been postponed till Thursday afternoon at 2 o'clock, on account of the rain.

Dr. G. W. Forbes, Winnipeg, is suing the Mutual Life Company for the return of \$75, which he paid on a premium note. The company took the note, but as the note was ten days overdue, cancelled the policy. Now the doctor wants his money back. Judge Monck, who heard the case, reserved judgment.

In spite of the storm, the Schuman trio, Toronto, composed of J. D. Tripp, Frank Blachford, violinist, and H. S. Saunders, cellist, played to a good-sized house this evening.

Labor Circles Excited. Labor circles are stirred up by the announcement that Misses Vernon and Curry, London, Eng., agents of the British Women's Emigration Association, have come to the city to make arrangements to bring in women and girls to work in the local factories. Miss Vernon visited Paris to-day on a similar mission. The ladies are also arranging to bring a party of domestic servants and household help out. Those who want them will have to pay their fare from Montreal, but the association advances the passage money to Montreal.

Father Hauck's Funeral. After lying in state in St. Joseph's Church, the remains of the late Rev. Father Philip Henry Hauck, the late pastor, were laid away in Holy Sepulchre Cemetery this morning. At Mass in the church, Bishop Dowling was at the throne, and was assisted by Rev. J. P. McKeown, and Rev. J. J. Caven. The service was impressive. The late pastor, who was 65 years of age, was a native of the United States, and had been in the city for many years. He was a member of the St. Vincent de Paul Society, and of the St. Joseph's Guild. He was a devoted pastor, and his death is a great loss to the church.

Harry Mooney, a cripple, who, with his pal, Charlie Higgins, was sentenced to a year in Central Prison for constructing a G.T.R. train, was to-day acquitted on the charge of stealing a gold watch.

"Col." Mallory has dropped his suit against the Gurney estate a wiser but not a better move. Walter E. Solomon, whose divorce case has made him famous, is in the city to-day. He is the son of a well-known family, and has been in the city for some time. He is a well-known figure in the city, and his case has attracted much attention.

J. W. Tyrrell and his surveying party of twenty-five, accompanied by J. S. Peterson, the artist, left for the Saskatchewan to-day. The party is to survey a large tract of land, and will be in the city for some time. The party is well equipped, and will be able to do a great deal of work.

The price of beefsteak will be advanced 20 per cent. in the morning. The price of round steak will be a pound and porthouse 18c. The Canadian Wholesale Company took out a permit this morning to make a \$15,000 addition to its office building.

ATTEMPT TO ASSASSINATE. London Hears That Someone Tried to Kill Lansdowne.

London, May 31.—A despatch from St. Petersburg to the Central News says that it is rumored there that an attempt was made to assassinate Foreign Minister Lansdowne at dinner this evening.

St. Petersburg, June 1.—The rumor that an attempt has been made to assassinate Foreign Minister Lansdowne is baseless.

Paris, June 1.—The Echo de Paris' day correspondent reports that "Count Lansdowne" was assassinated, while out walking, by Prince Dolgorouki, formerly a pretender to the crown of Bulgaria. The prince was immediately arrested.

MAY RETIRE EARLY. St. Petersburg, May 31.—Gossip concerning Count Lansdowne's early retirement from the ministry of foreign affairs is renewed. The rumor is that the present instance seems based not so much on political grounds as upon the minister's personal health, which would not receive on his regular reception day, to-morrow, is being used to add color to the reports of his retirement, although this may only be the coincidence of little significance. Such notions have not been uncommon during the past year.

It is considered possible that these reports may have been spread by ministerial enemies, who are, of course, some of whom, it is well known, have sought to undermine him for some time.

CONGREGATIONAL MISSION BOARD. About 100 Women Delegates Here to Attend Annual Meeting.

To-day sees the opening of the annual convention of the Canadian Congregational Women's Board of Missions, in Northern Ontario. The assembly will be in session for two days, and will doubtless conclude the year's business by Thursday evening. The days will be taken up with routine business and special lectures have been arranged for in the evenings.

To-night Mrs. Moodie of Montreal will speak and to-morrow evening Dr. Mary Scott, who is home from Cayton on furlough, will give an illustrated lecture on her work in that part of the field. Both evening meetings will be public. To-morrow afternoon the meeting will be adjourned to the field, and the delegates to attend the funeral services of the late J. C. Copp. The delegates will number about 100 and come from all parts of Canada. They will be entertained during their stay by the ladies of the Toronto Congregational churches.

FIRE AT THE 300. Saul's Ste. Marie, May 31.—Fire to-night destroyed a frame dwelling on West Bruce-street, built, owned and occupied by Thomas Irwin being started from an explosion lamp. The house, adjoining occupied by Mr. Hanna, was for some time in danger of demolition, but the fire was checked. The damage, however, will amount to about \$100. Irwin's house is totally destroyed, and the loss is in the neighborhood of \$1500.
