CLERICAL FACETIOUSNESS.

CEMENT FOR MENDING BROKEN VESSELS —To half a pint of milk, put a sufficient quantity of vinegar in order to curdle it; se-parate the curd from the whey, and mix the whey with the whites of four eggs, beating the whole well together; when mixed, add a little quick lime through a seive, until it ac-quires the consistency of a paste. With this cement broken vessels or cracks can be re-paired; it dries quickly, and resists the action of fire and water.
