"FLU" HITS THE INDUSTRIAL WORLD

Steel Situation Reported Serious and Growing More So.

In its summary of the iron, steel, metal and machinery markets for the week ended Feb. 19, Canadian Machinery and Manufacturing News, Toronto, makes the following comment: "There is no doubt a feeling of 'we don't know' in the market this week, and it finds its echo in steel, iron, machine tools or small tools. The exchange question is a hackneyed affair, but it is a real circumstance just now. It means a loss of business in the way of bookings, and a loss of money on orders that have been quoted by dealers at a definite figure."

Influenza is hitting the industrial world hard this week. There are plants with from two to three hundred workers out, and, of course, production is suffering accordingly. In spite of all these conditions, dealers report a good inquiry and a satisfactory volume of sales as a result. The steel situation is serious, and it grows more so. There is nothing in sight to show any improvement. Steel mills in Canada are having a hard season trying to find the necessary coke or coal to keep their plants going. As

BE SUSPICIOUS OF TENDER GUMS

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health. Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ill-effects to these infecting germs in the gums weakened by Pyorrhoea. They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently. And in preventing Pyorrhoea—it guards against other ills. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. Six and 60c tubes in Canada and U. S. If your druggist cannot supply you, send us direct and we will mail tubes postpaid.

THE UNSPEAKABLE TURK

The announcement that the London conference has agreed to the principle of maintaining Turkish sovereignty in Constantinople has caused great rejoicing in Turkey but has aroused a storm of protest in England. The protest is not without good reason. The question is admirably reviewed by the Christian Science Monitor, which says: "It is only a year or so since the civilized world was appalled by the story of the massacres of the Armenians, of the Greeks, and of the Jews, in the Ottoman Empire. Columns of newspapers were filled with the story of the iniquities and with equal denunciations of the Turks for perpetrating them and of the Germans for either instigating them or failing to prevent them. Unending speeches were made by public men, protesting and demanding that the German government should also be held responsible. Today Germany lies crushed and faced with the demand for the punishment of her war criminals. But nothing is heard of the iniquities of Turkey. Turkey now is to be permitted to continue her reign upon the Bosphorus. The great basilica of St. Sofia, torn from the Greek Church, is to remain a Turkish mosque. The autonomous provinces of Armenia are to shrink to two vilayets, with nobody knows what sort of protection against the Kurd and the fanatical ulema. In Thrace, as in Asia Minor, Greece is to be put off with a minimum of concession, while finally these countries are to be handed over to the Allied high commissioner called the attention of the Grand Vizer to the action of nationalist bands and urged upon him the necessity of stopping such proceedings. Toward the end of January 1920 Armenians were massacred, according to information received from the British agent of the Lord Mayor of London's Armenian Refugee Fund, near Marash, in Cilicia, and as a result the Allied high commissioner is calling the attention of the Grand Vizer to the fact. . . . Governments which waged against Turkish massacres, while the war was on, and which denounced Germany for not preventing these massacres, are now that Germany and Turkey are crushed, satisfying themselves with calling the attention of the Grand Vizer to the continuation of them, and letting it be known that they are arranging for a continuation of the rule of the culprit in Constantinople and Asia Minor."

HERE IS THE PROOF.

The attention of those who say that the opponents of the proposed harbor commission scheme are talking politics, and that the interest and sinking fund for capital expenditures will not be placed as a burden on the harbor revenue, and that we may safely trust the government, is respectfully directed to an extract from a speech in parliament by Hon. Mr. Ballentyne on June 25 of last year, as reported in Hansard. Mr. Ballentyne was speaking of the harbor commission in Vancouver, which is similar to what is proposed for St. John, and said: "The harbor commissioners also have authority to levy wharfage dues on inbound and out-bound freight. They have not been exercising that authority, but I have given them instructions to do so, BECAUSE IT IS NECESSARY FOR THE HARBOR COMMISSIONERS TO RAISE THEIR REVENUE IN ORDER TO MEET THE EXPENSES OF INTEREST ON THE MONIES THAT WE ARE NOW ASKING PARLIAMENT TO VOTE (\$8,000,000), AND THE EXPENDITURE ON CAPITAL THAT WILL TAKE PLACE FROM YEAR TO YEAR."

THE INFLUENZA EPIDEMIC

The influenza epidemic is subsiding in this province without assuming the proportions of a serious epidemic. There can be no doubt that greater care, learned from previous experience, has aided materially in preventing more serious conditions. The western province premier is again after the natural resources of these provinces. The eastern provinces are interested in these resources, and they help to purchase and open up that territory.

ENFORCE THE LAW.

There is too much drinking in St. John at the present time. Too many young men may be seen about the streets in the evening, even on Sunday evening, who obviously have not been thinking of their religious duties. Until the referendum has been taken and it is made more difficult to import liquor into the province there will be difficulty in enforcing the law, but a more strict enforcement than is at present manifest should be possible. It is too easy to get liquor. Boats are heard on every hand that it is easy to get liquor if one has the price. A good many persons are making large profits out of the illegal traffic, which is far from being confined to lemon extract. An unpleasant feature of the case is the fact that quite a number of young men—some of them would be better described as boys—can be seen in the evenings under the influence of liquor. That this is so reveals a deplorable indifference on the part of the public, for if the people were in earnest and willing to lend a hand to the officers of the law, they would have all the information they required to round up most of the offenders. The contemptuous way in which one too frequently hears the officers spoken of in their part to do their duty, and perhaps their number should be doubled for a time; but until the temperance people themselves wake up and take a hand in enforcing a law which they induced the legislature to adopt the boot-lickers will go on reaping a harvest. The matter is of some importance, since it is not good to have an increasing number of more youths, who are to be the citizens of tomorrow, imbibing a disregard for law and order at the same time they are cultivating an appetite for liquor. The conditions that exist today in this city are not an argument against prohibition, but a reproach to prohibitionists, and the sooner they make up the better will be their chance of winning the battle when the referendum is ordered. An effort is to be made at Ottawa to make a three-fifths vote necessary when the referendum is taken, before the manufacture and importation of liquor can be prohibited in any province. It is possible, though hardly probable, that this amendment will carry. It is the old Ontario law, in force in Whitney's time. It should be resisted with the utmost energy. If, however, it should carry, there would be harder work before the temperance forces to get out the vote and secure the desired majority for in such matters too many are indifferent on polling day. The task would be all the more difficult in St. John if in the meantime failure to enforce the existing law weakened public faith.

THE PEOPLE ALONG CITY ROAD

The people along City Road who have decided to give voluntary aid to the street department are setting an example of civic zeal that is worthy of emulation in many directions. How much more attractive the city could be made if all the people manifested a real public spirit and co-operated in real community work.

THE FUNERAL.

When Jimpson died (we must have whose face we never again shall see) he made his funeral more ghastly than any human rite should be. The pastor's talk was long and dismal, and fraught with morals of morn and trite; he spoke about the void abyssal, more than he spoke of our souls with dread, a lot of alecks kept on moaning as though they hoped to raise the dead. And then the choir sang dreary dirges, and wretches wet with useless tears, till we could hear the wailing surges of Death's cold river, in our ears. No hope inspiring hymns they lifted, but dirges full of maudlin whines, and women wept and strong men wailed, and felt pink gooseflesh down their spines. Oh, when I die, and folks assemble, to see goodfellow down their spines. What man may say will cut no figure when I have sinned or virtues bright. What man may say will cut no figure when I have met the common fate, and I step up, with pep and vigor, to dodge old Peter at his gate. No, let the urbane undertaker get busy, like a dead game sport, and take me to the churchyard care, with all the lousy stuff cut short.

PRINCE EDWARD ISLAND SHIPS.

The smallest of the provinces of the dominion and the last to enter confederation among the old divisions, Prince Edward Island, has long been noted for its interest in shipping. As many as 100 seagoing vessels have been built there in one year but iron and steel have largely replaced timber in the construction of ships now that the industry is waning greatly. The first vessel propelled by steam to enter any port of the island was the *Princess*, built there by the Albion Shipyard, manager of the Albion Mines Coal Company. The little vessel was built in 1860, and the little vessel brought a party of thirty excursionists to Charlottetown, returning the same day. On Sept. 7, 1860, on her first voyage from Halifax to Quebec, called the *Princess*, she was the first of the line to be placed in the hands of the merchants of the place to purchase fifty shares in the company which they had been offered conditionally the same day. The next day, arrangements with the postal authorities, the *Princess* began regular trips between Pictou and Charlottetown. From that time onward there was a regular shipping industry in the province, vessels called in the early days slipped down the river toward the water.

BRITISH REPORT ON LUMBER FROM N. B. AND N. S.

A report received from H. W. Lightburn & Co., Liverpool, shows that more New Brunswick and Nova Scotia spruce and pine has been imported here during the last two months than during the entire season of 1919 and that such is also true as regards the importation of birch logs and birch planks. To date 1,080 standards of spruce and pine have arrived here from these provinces, also 160 loads of birch logs and 285 standards of birch planks. At Manchester only 400 standards of New Brunswick and Nova Scotia spruce and pine boards had been received; no birch logs had arrived there to date and only ninety-seven standards of birch planks. Last year 3,400 standards of spruce and pine boards arrived there from these provinces, 100 loads of birch logs and six standards of birch planks.

ROTARIANS CELEBRATE ANNIVERSARY

The local observance of the fifteenth anniversary of Rotary was begun by the Rotary Club of St. John last evening by attendance at Trinity church, where Canon Armstrong, who is a member of the club, preached a notable sermon on service. The Rotarians assembled a little before seven o'clock in one of the rooms of the church, and each was given a badge by Secretary Hunt. The arrangements for their reception were made by Rotarian Russell Sturdee. Just before the service began the members, led by President E. J. Perry, marched into the body of the church, taking seats reserved for them. During the service they joined heartily in the singing of the hymns and were much impressed by the discourse of Canon Armstrong.

During the course of the service Canon Armstrong took occasion to refer to the success of the forward movement. In all the churches the result has gone beyond the mark that had been set. In their own communion in Canada the amount to be raised was \$2,500,000 and it was expected to reach \$125,000. This wonderful result was great cause for thankfulness to Almighty God.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, FEBRUARY 23, 1920

MATTER OF THE PLAYGROUNDS AT ROCKWOOD PARK

Slow Progress Referred to at Horticultural Association Meeting

AN ALTERNATIVE Question of a Different Location—Financial Report Shows Expenditures in Excess of Receipts, Chiefly Because of Building Work Done—Memorial in View.

Matters of much public interest are included in the reports submitted today at the annual meeting of the St. John Horticultural Association in the rooms of the board of trade. Reference is made to the much discussed question of athletic grounds and the possibilities offered at the entrance to Rockwood Park while the recommendation is made that higher grounds within the park at the southern entrance from Mount Pleasant are worthy of consideration in this connection.

The annual report of the managing committee is as follows: Acting under authority given at the last annual meeting and to fill a want much felt ever since the loss by fire some years ago of the pavilion on Lily Lake, which was erected by the Frank White Company, your committee entered into an agreement with Joseph Tebo, who, with his capable wife, has creditably carried on the tea house in the park to construct a pavilion on a new and more convenient site on the southern edge of Lily Lake, the association to furnish the material, Joseph Tebo to furnish the labor.

As usual the cost exceeded the estimate, the total cost of the material amounting to \$2,632.72 net, exclusive of the items supplied material kind, donating 5 per cent or 10 per cent on the total. The cost of the labor exceeded this amount. The association therefore has a building well suited for its object at the expenditure of considerably less than one-half of its actual cost. The building is well designed for checking of skates, with well warmed separate apartments for both sexes in winter and will be used in connection with hiring of boats, bathing, etc., in summer. A well kept restaurant is on the premises and in summer the large broad verandas or galleries looking out on the lake will no doubt be well patronized.

Though the winter because of frequent snow storms has necessitated much labor in providing outdoor skating the ice has been cleared or fresh ice largely induced in. Joseph Tebo will pay this year \$300 for the rental of the house. This large expenditure has necessitated an increased overdraft in the bank which, however, it is hoped can be met out of next year's receipts.

John Henry remains head keeper of the park property and is ever faithful and intelligent in his work. William Hume, a gardener from England who had charge of and did good work in the public gardens, died in September last. His place has been filled by the appointment of William McCreary who was previously employed in the gardens.

Last winter Charles T. Merritt, who had owned and had charge of the boats, etc., on Lily Lake, passed away. Mrs. Tebo for the boats and a quantity of gear, tools and other articles necessary for the boats being then used by the association to Joseph Tebo for \$150.

Very few additions have been made to the collection of animals during the last year but it is hoped to be able to accomplish more in this direction in the near future as opportunity occurs. The law under the migratory birds convention prohibiting the keeping in captivity of migratory birds, appropriation made and obtained for their keeping under certain regulations.

Representation having been made to the commissioners of the city of St. John that it was impossible to carry on the affairs of the association with the \$4,000 grant only, which had previously been received, your committee gratefully acknowledge the receipt of the increased grant of \$5,500. Every effort will be made properly to continue the work of the association without appeal for any further increase.

Playgrounds. The association has received from the common council a request that the association deed to the city of St. John for use as playgrounds the area at Rockwood Park known as the Allison grounds. These grounds, comprising some seventeen acres, are still entirely unfit for use as a playground. The cr-

BILIOUSNESS How to Prevent and Cure

Among the earliest symptoms are furrowed tongue and dull headache. They come dully spells, bad taste, quick pulse, fever and cold sweats. Finally, sleeplessness and vomiting make the condition of the sufferer almost intolerable.

The root of biliousness is with the liver which is clogged and can't keep bile from getting into the blood.

Nothing works with the certainty of Dr. Hamilton's Pills; they act directly on the liver, restore the bile to its proper course and prevent it from contaminating the vital fluid.

Of course, the bowels are ordered and they receive new tonic, the blood is renewed, and the result is a renewal of good health.

No need for delay, the sooner you use Dr. Hamilton's Pills, the sooner you'll feel the break, keen satisfaction of a healthy, well-regulated system. Sold in yellow boxes, 25c.

Eyesight Dim?

If your eyesight is dim, your vision blurred, if your eyes ache, itch, burn or feel dry, get a bottle of Bon-Opto tablets from your druggist.

Dissolve one in a fourth of a glass of water and use to bathe the eyes from two to four times a day. Bon-Opto has given stronger eyes, clearer, sharper vision and relief to thousands.

Note: Doctors say Bon-Opto strengthens eyesight 25% in a week's time in many instances.

ronous impression prevails that these grounds were in some way vested in the association in trust for a playground. They were acquired by the association by expropriation in the same way as much of its lands were acquired and are held upon the same trusts as the whole of Rockwood Park, namely, for the use and enjoyment of the citizens generally as a public park and place of recreation.

The money awarded on the expropriation proceedings was generally used by Joseph Allison, who has since stated that it is his wish that the grounds should be used as a playground. The association has no desire to give the slightest obstacle in the way of this being carried out. The land does not yield any profit to the association, which is not troubled with the first class, but which is saved as far as possible, for the feeding and bedding of the animals.

The association has no power to convey this land to the city as requested, or any of its land. It is possible that power to convey the property could be

obtained from the legislature if the conveyance is insisted on and it is thought desirable, but there seems little object in this for the association does not seek in any way to obstruct the making of the grounds suitable or its use as a playground when made suitable. On the contrary permission was cheerfully given to the commissioner of public works of the city to begin their work.

To this end, a public dump was established there last summer, but because of its distance from the thickly settled parts of the city very little work was accomplished. Judging by the progress made last season it would be a fair estimate that the work might be completed in a quarter of a century—and in the meanwhile if the ground is required for roadway yard room the purchase money, if the property were conveyed to the city, would be lost to the association. And yet the only way in which the grounds can be made suitable for sports is by public dumping, except by enormous expense.

The stream which runs from Lily Lake traverses the ground through its entire length in a serpentine fashion, and in the course of many years has created in great ravines. At right angles approximately to this stream are deep artificial ditches. Any one visiting this spot at certain seasons would see more water than land over the seventeen acres and would realize that after subsidence is provided these ravines or brook beds and these ditches should be filled in and then the whole raised at least three or four feet. The cost of this has been variously estimated at from \$10,000 to \$20,000, a sum of money which it is submitted is entirely too great to expend

Shortly after the great war broke out, a party of girls numbering ten from Wright street and vicinity, formed themselves into a club known as the Rockwood Comfort Club, the object being to look after the comfort of some sixty boys from the neighborhood who went to the war, sending them boxes, knitting socks, writing letters, etc. Besides carrying out these objects they gave valuable aid in other patriotic directions by erecting within the public gardens a suitable memorial to the six who, out of these sixty, lost their lives in the cause. Permission is asked towards this end, subject to submission and approval of the proposed design and inscription.

HARD TO REALIZE CHANGE, SHE SAYS

Mrs. McClanahan Feels Like Different Woman Since Taking Tanlac.

"I have not only gotten rid of a severe stomach trouble of nine years standing, since I started taking Tanlac, but have gained ten pounds in weight and am still gaining," said Mrs. D. McClanahan, Grassy Bay (B. C.), recently.

"Before I started taking Tanlac," Mrs. McClanahan continued, "I was so weak I could hardly get about and my appetite was so poor I had no relish for any kind of food and just had to force down every mouthful I ate. When I did manage to eat a little something, I would have intense cramping pains in the pit of my stomach and gas would form and press against my heart until it palpitated dreadfully. I suffered with such severe headaches nearly all the time they almost made me desperate, and at times I became so dizzy it was all I could do to stand on my feet. Then, too, I was extremely nervous, and the least little noise would completely upset me. Why, I could not stand the rustling of a newspaper and it was just impossible for me to get a good night's sleep, as I would toss about all night long, and I always felt worse on getting up than when I went to bed. I was also troubled a great deal with constipation and had to always be taking some sort of laxative.

"But things are altogether different now, for since taking Tanlac I am completely rid of all my troubles. My appetite is simply wonderful and I can hardly eat enough to satisfy me, and the best of it is, I eat just anything I want without suffering any bad after effects whatever. I am never troubled with pains, gas or palpitation of the heart, and have not had a headache or dizzy spell since I began taking Tanlac. My nerves are in such good condition I can sleep all night long as peacefully as a child and always get up feeling greatly refreshed. I am not troubled with constipation any more and have regained my strength to such an extent and feel so good and am so full of life, I can hardly realize I am the same woman.

"My husband, whose stomach was in every bit as bad condition as mine was, has gotten the same results from Tanlac that I have, and we both recommend it every chance we have."

Tanlac is sold in St. John by Ross Drug Co., and by the leading druggists in every town.

PORT OF HALIFAX IN GRIP OF STORM KING. Gale Caused Heavy Sea in Harbour—Activities at a Standstill.

(Halifax Chronicle, Friday.)

Once again the shipping activities of the port of Halifax were handicapped, when a south to southeasterly gale raged standstill. Preceded by a heavy rain storm the gale became a reality about 11 o'clock yesterday morning, when the fresh winds had developed into a velocity of twenty-four miles an hour. It gradually increased and at 4 o'clock in the afternoon it was registering forty-eight miles.

The gale, accompanied by a steady downpour of rain, raised a heavy sea in the harbor, which washed up against the wharves and craft on the Halifax side. The decks of many of the smaller steamers and schooners were continuously washed by the spray. In the stream were anchored two Greek steamers, the Eleni Stathalos and the Agios Gerasimos, and they were heaving heavily at their anchors. The ferry steamers had to do a difficult task crossing the harbor and had to go south of their usual course to approach the Halifax dock.

ABOLITION OF THE STONE PILE IS ADVOCATED

(Canadian Press Despatch.)
Ottawa, Feb. 22.—The abolition of the stone pile in Canadian penitentiaries is strongly advocated by W. S. Hughes, dominion superintendent for the last fiscal year to the minister of justice, Hon. C. J. Doherty. "Nothing ever written regarding the 'stone pile' was to my mind sufficiently severe," he affirmed, "and I never look at the men at this work that I do not wish I could place those responsible in their places."
Superintendent Hughes also advocates employment for every man in useful work and a small wage which in the case of married men would be turned over to his family and for single men would be held to give them a new start upon their release.
The number of convicts in the penitentiary at the close of the fiscal year was 1,089 compared with 1,468 at the close of the previous year. The penitentiary population was divided as follows: Kingston, 540; St. Vincent de Paul, 380; Dorchester, 226; Manitoba, 149; British Columbia, 148; Alberta, 121; Saskatchewan, 118. British born prisoners numbered 1,140, and foreign born 948; the latter including 114 Austrians and eighty-three Russians.

CITY PULPITS

Some of the city pulpits were occupied by visiting clergy yesterday. Rev. W. A. Snelling, formerly of St. Martin's, again conducted the services in the Waterloo street Baptist church. Rev. Norman A. MacNeil, of Salisbury, delivered eloquent sermons in the Central Baptist church. In St. David's Presbyterian church Rev. E. McL. Smith was the preacher in the evening and in the morning the port chaplain, Rev. Mr. Harbushon assisted at the baptismal ceremony and delivered the sermon. The names of the four children baptised were as follows: Donald Seiler MacCagan, William Caborne Heine, Constance Goldie Girvan and Jean Campbell. The congregation of the church was sorry to hear the announcement that Mr. MacCagan had been obliged by doctor's orders to arrange spend the next three months in a sterner climate and would leave the city some time next week. Mr. MacCagan said that Rev. E. McL. Smith, who has made many friends in the vicinity while engaged in work for the inter-church forward movement, had kindly offered to give his services to the congregation for one month.
In the Main street Baptist church the service was held in the afternoon. The pastor, Rev. H. E. Thomas, president of the N. B. and P. S. I. Methodist conference, was the preacher in the Queen Square church last evening. He preached in the Fairlie Methodist church in the morning and addressed the Sunday school of Exmouth street church in the afternoon.
FOR AN INSURANCE POLICY OF MILLION.
Chicago, Feb. 22.—Capt. Marshall Field, heir to the \$10,000,000 Field estate, died last week for a \$1,000,000 life insurance policy.
He made the application through two former "buddies" with whom he served in France, and who are now insurance agents.

THE ADRIATIC QUESTION

This map shows Italy's latest suggestions regarding the Dalmatian coast. She would make Fiume and its environs a buffer state with its Italian population. Zara would be a free port. Italy's newspapers are bitterly hostile to President Wilson's attitude on the Adriatic question. They say that he is trying to impose his will upon all Europe.

BOY TAKES LIFE

News of Serious Illness of Mother — Had Been Reading Theosophy.

Franklin, Me., Feb. 22.—Philip V. Abbott, fifteen-year-old son of Dr. C. Edson Abbott and Mrs. Abbott, the former a leader in civic affairs in this town who died a year ago, committed suicide last week by placing the barrel of his small hunting rifle in his mouth and firing it.
The lad was the oldest of four children, who have been living alone in their home here since the mother was taken to the Homeopathic Hospital in Boston a fortnight ago, so ill from blood poisoning that her physician held out no hope of her recovery.
Philip had been the mainstay of his mother for the last year, and the care and unusual burden of sorrow—for he had been told that his mother could not be expected to return—had so wrought upon him that it was more than he could bear.
The situation at the home had been discouraging since his mother left. Water pipes had burst and the children had been much alone.
His younger brother found the lad's body on the floor in the front bedroom. He told the coroner, Dr. Carl P. Richardson, that he knew Philip was going for his father had called him. When the coroner protested that the father was dead, the young lad replied that his father's spirit had been with them and had called Philip.
Nothing in years has so moved the people of Franklin, who esteemed Dr. Abbott as one of their most eminent citizens, and had felt deep sympathy for the young children at the illness of their mother.
The family was unusually intellectual. Dr. Abbott was a scholar and read a great deal with his boys. Philip was brighter than most boys of his age, thoroughly normal and active, a zealous Boy Scout and interested in boys sports and activities. He had a reading habit, looking on Theosophy a great deal recently, his brother told Dr. Richardson.
The children had been getting their meals at the home of Dr. Solon Abbott, their uncle, but had spent the nights alone in their own home. The two younger boys and their sister are now being cared for in the homes of relatives. They were left comfortably provided for by their father and had been kept in school even since their mother's illness.

MANY WISH THEIR SOLDIER DEAD TO LIE IN FRANCE

New York, Feb. 22.—Ralph A. Hayes has gone to investigate conditions on the battlefields of Europe in connection with the work of bringing back the bodies of American soldiers.

WHAT UNCLE SAM DID.

In the debate in the English Parliament, Austen Chamberlain, chancellor, said that among other things the world's sugar production was short and because of the work by the war department, said that of the 7,000,000 American soldiers buried abroad, more than 25 per cent would not be brought back, because relatives have expressed a desire that they be not disinterred.

THE C. T. A.

Ottawa, Feb. 22.—During the coming session an attempt will be made to have the Canada Temperance Act amended so that prohibition will not go into effect in any provincial area until a referendum on the question shows a three-fifths majority in favor of the bone dry regime. The government, it is alleged, will make it a party matter, and unionist opposition and cross-bencher alike can express their real sentiments. Manitoba has asked for a referendum under this act, and Alberta and Saskatchewan also want one. If the proposed amendment should carry it would practically have the effect of rendering the whole bill invalid as legislatures would not ask so quickly for referendums when it would be so difficult to pass it.

Canada Puts Up The Bars Against Alien Mechanics

To aid the unemployed at home the Dominion government has put up the bars against mechanics, artisans and laborers entering Canada unless they possess \$250 in money in addition to transportation to destination. In the case of family men with families the head of the family must have money equivalent to \$125 in cash for every member eighteen or over and \$15 for each child between the ages of five and eighteen. In addition the entire family must have transportation to its destination.
These regulations are to be in force until March 31. The regulations apply to citizens of the United States as well as to immigrants from Europe. American business men coming to Canada will be admitted, provided they have papers establishing their citizenship and to show that they are not mechanics, artisans or laborers. American mechanics coming to Canada to do repair work on American machinery or to branch offices of United States concerns in Canada will be admitted as usual if they bring the necessary certificates to show that they are to be solely employed in this work.

BURNED TO DEATH IN LYNN LIME VAT.

Stephen Mangis is Caught in the Machinery.

Lynn, Mass., Feb. 22.—After being whirled around shafting by which most of his clothing was stripped off, Stephen Mangis, aged 28, of 28 Pleasant street, was literally roasted to death in a lime vat in the tannery of the Agos Leather Company in Boston street.
Despite the efforts of workmen to rescue him, ten minutes elapsed before his body was dragged from the vat by means of hooks used in the handling of skins. Mangis was dead and in the opinion of the doctor at the Lynn hospital his suffering was not of long duration. His body was terribly burned.

How to Absorb Freckled, Chapped or Harsh Skin

An over-red or a sallow complexion, or chapped, blotchy, pimply or freckled skin, can be changed, by a quite simple, harmless and inexpensive method, to one of flower-like radiance, spotless purity and velvet softness. One ounce of common macerated wax, to be had at drug and department stores generally, will remove the most unsightly complexion in from one to two weeks. By its remarkable absorptive power, the coarse, scurfed, roughened or discolored layer of thin film-skin, which hides the healthier skin underneath, is gradually flaked off in tiny, almost invisible particles. This is done so gently there is no inconvenience, and no trace is left on the skin except that of enhanced beauty. The wax is smeared on like cold cream before retiring and removed in the morning with warm water.

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE

Frederick S. Kelle, M.D., Editor of New York Physicians' "Who's Who" says that weak, nervous people who want increased weight, strength and nerve, should take a 5-grain tablet of Bitro-Phosphate just before or during each meal.

This particular phosphate is the discovery of a famous French scientist and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well, or are too thin; go to any good druggist and get enough Bitro-Phosphate for a two week's supply—it costs only fifty cents.

Eat less; chew your food thoroughly; and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing. It is sold by the Ross Drug Co., in St. John and all good druggists.

Scott and Aubrey, in their novel comedy, "The Dancing McDonalds," is a spectacular act, as also well seeing, while the other acts are all good and highly entertaining. In addition there will be another episode of "The Midnight Man," featuring James J. Corbett.

The new programme for tomorrow will be as follows:

Harry Brooks and Company in an original comedy skit entitled "The Old Minstrel Man," the Nelson Duo in a singing skit of real merit. Two inches and a half of snow fell in the city during the slight storm yesterday. There was practically no wind, and the storm was over by 5 o'clock in the evening.

The government steamer Aberdeen, which left here on Saturday morning in response to a telegram that a three-masted vessel was in distress near Parrboro, reported that she was unable to find any trace of the schooner.

By a unanimous vote at a meeting Saturday night, the members of the 1920 Loyalist Chapter, I. O. O. F., E. R. decided to take the Revue to Halifax, presenting a hearty and enthusiastic exchange with the Halifax amateurs. After a long period of inactivity this was the first meeting of dramatic exchanges between the two cities.

HALIFAX PLAYERS HERE MONDAY AND TUESDAY NEXT

Arrangements have now been completed by the managers of the Majestic Theatre, Halifax, and the Imperial Theatre of this city whereby the sister cities will enjoy an exchange of theatricals. The Majestic will send over its splendid 1920 Revue of Loyalist Chapter, I. O. O. F., E. R. and Halifax will return the compliment by transporting their excellent stock company of professionals to St. John for two days during which they will present their great comedy hits, "Sis Hopkins" and "Come Out of the Kitchen." Lovers of the spoken word may settle back for an engagement of deliciously funny plays, plays that had extended runs in the Nova Scotia capital and which are prime favorites in all centres. St. John people remember with pleasure the charming performances of "In Like Time" by the Halifax players last March and it is safe to predict a hearty welcome for this season. The tickets will go on sale Thursday at 10 a. m. Imperial box office.

ATHLETIC SHOW AT OPERA HOUSE

A big athletic entertainment and minstrel show will be staged in the Opera House tonight at 9 o'clock. The first part of the programme will be rendered by the North End Minstrel Club, after which Rogers and Bolton will perform. There will also be two good wrestling bouts. Joe Irvine and Frankie Burns will then entertain the audience. In addition there will be vocal solos by A. C. Smith and Clarence Girvan. The performance should prove highly entertaining and will undoubtedly attract a capacity house. Tickets can be secured at the box office in the Opera House.

THE GODDESS OF LOST LAKE, UNIQUE TODAY

"The Goddess of Lost Lake," starring Louise Glaum and depicting the story of the mysterious frontier, is the stellar picture attraction at the Unique today. There are many beautiful mountain scenes taken 6,000 to 7,000 feet above the sea, which are among the most impressive scenes ever photographed for a screen play. In addition two very interesting reels will be shown. Two shows tonight, at 7 and 8:30.

GOUGH ADVISES THE RECOGNITION OF RUSSIA

London, Feb. 23.—Some military men and others, who during the past two years have engaged in official duties in Russia, have sent a memorial to Premier Lloyd George advocating a recognition of Soviet Russia. The signatories include Lieut. General Sir Herbert Gough, who headed the British military mission in the Baltic, and Col. G. Marsh, British military agent in the Caucasus.

A German Plan.

Berlin, Feb. 23.—The standing currency and exchange commission had requested the government to appeal to the reparations commission for funds out of the money Germany has already paid under the treaty, order to procure essential food supplies and for economic needs.

The commission argues that Germany, with the utmost restrictions of citizens, is becoming so impoverished under the operation of the reparations commission, that it is threatened with the same fate as Austria.

FEDERAL CONTROL OF THE RAILROADS

Statement by Chairman of Interstate Commerce Commission in U. S.

(Canadian Press.)

Washington, Feb. 23.—Railroad administration estimates present the net cost to the government of federal control of the railroads at \$636,000,000, so Chairman Esch, of the Interstate Commerce Commission, declared Saturday.

Total appropriations of approximately \$1,000,000,000 including those already made were the "experience of federal control," Mr. Esch said, but he added that of these amounts approximately \$1,200,000,000 were "investments in the form of improvements made for the roads and for which they ultimately will pay." He said that prior to government operation only sixty per cent. of the roads earned dividends and paid interest.

"During federal control, 108 of the 175 class roads did not earn interest," he added. "In 1916 the roads lacked \$80,000,000 of paying interest on their indebtedness."

"Fifty per cent. of the roads in this country would go into the hands of receivers in three months without the government guarantee," Mr. Esch declared. "And I want to warn you that receivership for railroads means receivership for industrial enterprises and other business."

He denied that the government, under the compromise bill, guaranteed a return of 6 per cent. on the value of the investment. He explained that the guaranty was not an actual value, but an efficiency, he said. "The government is losing nothing," he added. "Compensation is stimulated. This plan is the best practical solution for a most difficult problem."

HIS REMEDY FOR THE H. C. L.

U. F. O. Organizer Would Imprison the Profiteers and Tax the Very Rich.

London, Ont., Feb. 23.—A. A. Powers, organizer for the U. F. O. in an address to the Independent Labor party here, predicted greater partnership for the country than any Canada had yet known, and he predicted a dominion general election in the near future.

He suggested a direct tax on all unearned salaries and on inheritances in order to lessen the antipodal hardships. The reason why the farmers were flocking to the cities, he said, was because farming did not pay; the middle man was getting the profits, not the farmer.

Imprison the profiteers and tax those people who were burdened with too much wealth, was the cure Mr. Powers said he would apply for the reduction of cost of living.

For Sydney Dry Dock.

Ottawa, Feb. 23.—(Canadian Press.)—The application for the construction of a second class floating dry dock in the harbor of Sydney, N. S., under the provisions of the dry docks subsidies act, are before the cabinet council now, it is understood, and its decision is expected soon.

MINE WORKERS' CONVENTION IN TRURO APRIL 5

Sydney, N. S., Feb. 23.—The annual convention of the United Mine Workers District No. 26 will be held in Truro on April 6, according to announcement by President Robert Baxter.

Ordinarily the convention would have been held during February but the work of the various conciliation boards now considering wage disputes will not be completed until some time in March and the executive deemed it advisable to wait until the reports of these boards are available so that the municipalities would not be issued until March 9 at the earliest.

Stomach And Liver Troubles

Once the liver fails to filter the poison from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore, upon the liver, more than any other organ of the body, depends the general health and often times vital disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver is active and the stomach upset. To bring the system back to its normal state, you should take Milburn's Laxa-Liver Pills. They live upon the liver, get the bowels back to normal, improve the condition and tone up the stomach.

Mrs. G. L. Cackett, Enchant, Alaska, writes: "I have used Milburn's Laxa-Liver Pills and have found them good for both stomach and liver troubles. They are also good for headache."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Sels before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headache, liver trouble, nervousness, dizziness, sleeplessness, and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scaling, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with a fine mineral water, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys active and active and the blood pure, thereby avoiding serious kidney complications.

DEATH OF THE LOSER'S REWARD

Was One of His Many Experiences.

A wrestling match with death as the loser's reward was just one of the many harrowing experiences that Stanislaus Zbyszko went through during his five years' stay in Russia. The veteran wrestler, encountered during his five years' stay in Russia, the veteran says the New York Times, with enough facts of adventure and thrilling escape to fill a book.

The elder Zbyszko had many close calls while held as an interned Austrian in the war, and later with the rampant Bolsheviks, but the narrowest escape of all was during a life-and-death wrestling battle with Aberg in Petrograd, writes William Abbott in the New York Evening World.

Aberg, a massive Russian, and Zbyszko were always bitter rivals on the mat. They met frequently, with varying success. It was during the Geraseny Regime in Russia that Zbyszko was scheduled to appear in a wrestling bout with Aberg in Petrograd. On learning this, Aberg, according to Zbyszko, hired about 100 army deserters to spread reports that he was an Austrian spy.

Entering the building for the tournament, Zbyszko was seized by the deserters and informed he would be immediately executed. After many entreaties proved futile, Zbyszko was ordered to strip. The request was granted. The Russian giant was hastily summoned after the fight, but he would be shot on the spot if he lost the match.

For two hours and forty minutes the two fighters struggled with every hold and trick known to the ancient sport. Finally Stanislaus threw the opponent, scattered 1000 bullets. While the frenzied soldiers searched after the money Zbyszko made his escape.

In exchange for his freedom, Zbyszko was easily the greatest match in the world. He was immediately interned as an Austrian enemy. At no time, however, was he confined to prison. Because of his wrestling fame and friendship with high officials, Zbyszko was granted considerable liberty. Once he gave an exhibition for the Czar shortly before that monarch was captured by the Bolsheviks. It was only when the Reds overran the desolate country that Zbyszko's real troubles began. Almost every day brought on serious troubles.

The veteran's money was taken. In exchange he was given worthless, Bolshevik currency. Food and clothing were scarce. Zbyszko, who usually weighs about 250, was reduced to nearly 200, while he wandered around seeking an opportunity to escape. Aided by several friends he made his way back to Poland, and for a time helped to put the young nation on its feet. For a short period that part of turbulent Europe was governed by the strongest combination of statesmanship produced by the great war—Paderewski, the pianist, and Zbyszko, the wrestler.

Poland is now quiet, says the returned champion, and is concentrating it on the Russian border to check the progress of Bolshevism.

Apparently Poland is not dreadfully shy on foodstuffs. While in his native land Zbyszko's weight shot up close to 275 pounds.

After planning his huge brogans on American soil the mighty son of Poland, as Joe Humphreys would announce, quickly started work to reduce his bulging waist line. Jaunts on the road and daily workouts in Georgia. Butcher's gymnasium are expected to bring the giant's weight down to the level where he can compete in the catch-as-catch-can class, a form of wrestling Zbyszko hasn't attempted for a number of years. WOMEN EVERYWHERE

Praise Lydia E. Pinkham's Vegetable Compound as the Greatest Remedy for Women's Ills.

New Haven, Conn.—"For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased."

—MRS. CHARLES E. MORGAN, 37 See Street, New Haven, Conn.

The reason Lydia E. Pinkham's Vegetable Compound is so successful is because it contains the curative, strengthening properties of good old-fashioned roots and herbs, which act directly on the female organism.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years' experience is at your service.

TENDERS NOT OPENED

The tenders for the paving of Douglas avenue, City road, Marsh road and Prince William street, closed today at noon at city hall. The tenders were brought into the committee meeting, but were not opened, as the committee decided first to obtain the opinion of the city solicitor as to whether the proposed paving-by-law would apply to the work to be done in 1920. It is expected that the tenders will be opened tomorrow.

THE MATTER OF N. B. POWER CO.

Council Proposes Bill to Determine Valuation and Fix Rate of Return—"Soldiers' Day" Accounts—Reply to Mr. Wilkins.

Matters of proposed legislation were dealt with at a committee meeting of the common council this morning. In addition to the proposed paving bill, referred to elsewhere, Commissioner Fisher moved a resolution that a bill be prepared and presented to the legislature for enactment at the next session in connection with matters pertaining to the N. B. Power Company.

The proposed bill will enable the council to:

- (1) to fix and determine the valuation of property and assets upon which the New Brunswick Power Company shall be entitled to a return;
- (2) to fix the rate of such return;
- (3) to provide for civic participation in the management of the affairs of the said company;
- (4) to provide for the taking over by the City of Saint John of the plant, assets and franchises of the said company in whole or in part.

The motion carried.

Mr. Wilkins' Letters

Mr. Fisher moved that the common clerk acknowledge receipt of two communications from Mr. J. Wilkins regarding expenditures by the Polymorphian Club on "Soldiers' Day" and the grant by the city of \$300, and that Mr. Wilkins be informed that the city has paid \$289.26 of the \$300 and in addition undertook on August 27 last to pay an amount of \$88.64 of the Christie account (now \$86.20) was not received until February 14; and further that the city was adopting a resolution that a meeting held in the mayor's office on October 29 last with Mr. Wilkins present, a resolution was adopted appointing a committee composed of the commissioner of public works, the comptroller and A. Skinner to receive and report on any additional accounts which Mr. Wilkins might present, and that no such accounts have so far been presented. The motion carried.

Commissioner Thornton asked for authority to purchase 1,200 feet of hose for the fire department. On motion he was given the authority.

ORGANIZE A CLEAN-UP DAY

Residents of City Road Will Spend Tuesday Removing the Ice and Snow from the Streets.

To the residents of City road must be handed the laurels for a decided movement with a touch of the community spirit in it. Yesterday some of the people who make their homes in that street met and decided, in view of the difficulty in obtaining men and the limited means of the city to clear away the accumulation of snow and ice, the people themselves would lend a hand.

William L. McLennan presided at the meeting and it was unanimously decided that Tuesday would be the appointed day for the great onslaught against the aftermath of the elements. So as many residents as can possibly attend have been asked to gather at eight o'clock tomorrow morning at "The Wedge" near the foot of garden street, with picks, shovels, horses, sleighs and any implement which will assist in clearing the street.

The people of City road are to be complimented on being the pioneers in this movement in the interest of the general public and perhaps residents of other sections of the city will follow their lead.

Referred to By Council.

In the common council committee meeting this morning Commissioner Thornton asked Commissioner Bullock if he had heard anything of the work which was proposed being done by the City road residents tomorrow, and Mr. Fisher replied that so far he had received no notification. Mr. Thornton expressed the feeling that the movement on the part of the people in that section of the city was to be highly commended.

VARIETY IN THE POLICE COURT

Session Today Held in Police Guard Room

Story of Trouble in Hostel—Also a Game of Cards—Theft of Case of Whiskey at Dock Alleged.

On account of the police court room undergoing a thorough cleaning and painting the police court session was held this morning in the guard room. Thirteen prisoners were arraigned.

Harry Charles was charged with assaulting Rev. O. P. Brown and brandishing a revolver in his face at the Salvation Army Hostel last night, also for having liquor in his possession other than his private dwelling, and he was also charged with being drunk. According to Inspector Merryfield and Policeman Linton, they were called to the hostel last night and found the accused attempting to take charge, at the same time saying he was a returned United States soldier.

Rev. Mr. Brown said he was in his room last night, preparing a sermon, when the accused entered, brandishing a revolver. The accused told him there was nothing in the gun. The clergyman told him to get out, as he had no business in his room. To this the accused said "You damn sky pilot we do not want you around." The clergyman attempted to throw him out and he struck him on the nose, causing it to bleed.

A fine of \$200 or nine months in jail was imposed, and he was remanded to jail on the other charge.

Alexander Howie was charged with stealing a case of Scotch whiskey, valued at \$35, the property of the Anchor-Donaldson Line, on February 21.

George Dunlavy, who is in charge of the night work for the steamship company, said he saw the defendant walking down the street carrying a parcel, in consequence of what Parker C. Stanfield said, they followed the accused to a hole of goods behind which he threw down the parcel. The accused came towards them, and the witness said he caught hold of him by the collar. He asked Mr. Stanfield if the parcel was a case of whiskey and he answered in the affirmative. He took the accused to the assistant superintendent, Harry A. Seely, who, after hearing an explanation for the case, gave the man in charge of the police. The case of liquor was produced in court, had not been opened, and, according to the outside, it contained Scotch whiskey. The case was opened by Sergeant O'Neill, and found to contain eleven bottles of whiskey.

Mr. Stanfield, wharfinger for the Anchor-Donaldson Line, corroborated the evidence.

The accused pleaded not guilty, and was sent for trial, E. C. Weyman appeared for the prosecution and J. A. Barry for the defense.

William Wood, a sailor on the S. S. Melita, was charged yesterday afternoon, was given in charge by Captain Black of the S. S. Fann Head on charge of stealing a silk handkerchief, valued at \$1, from John Burns. He pleaded guilty, and was remanded. The magistrate said he intended to send him back to England, as they were already feeding too many blackguards in the jail here.

It was said the accused went off the Melita soon after she arrived and wandered about the forecabin of the Fann Head. One of the sailors awakened and noticed what he was doing. The members of the crew were soon aroused and dealt with the offender before handing him over to the police.

While quieting the disorder at the Salvation Army Hostel last evening, Inspector Merryfield and Policeman Linton detected a "moker game" in room 17 and arrested William Marr, Alfred Brittain, Percy McKay, Basil Minue and William Pinkey, on a charge of gambling. They pleaded guilty. The magistrate gave them a severe reprimand and fined them each \$30 or three months in jail, but allowed the fine to stand.

Richard McCaustlin was charged with being drunk, violently resisting the police, and also having liquor in his possession other than his private dwelling. He pleaded guilty to the liquor charge, but said he did not remember resisting. Sergeant O'Neill, who made the arrest, gave evidence. The accused was remanded.

VESSEL HAS GONE

J. C. Chesley, local agent of the marine and fisheries department, received a wire from Mayor C. A. Huntley of Pictou this morning saying that the three-month schooner which had been caught in the ice near there and had signalled for assistance, had evidently succeeded in breaking through as it was not then in sight. He thanked Mr. Chesley for his prompt action in sending the government steamer Aberdeen to the scene.

We Don't Feature Sales But For Value--Well!

From a bulletin issued by the Vigilance Committee of the Associated Advertisers, we quote this paragraph:

"A store which features bargain sale advertising all the time is in danger of establishing itself in the minds of the people as a good place to go when they want cheap stuff."

It may be a mistaken policy not to have great "sales," but we believe there is promise of a longer merchandising career for a store if it merely advertises good values and fair treatment to all customers.

At least that's the way we're going along here. The "good values" are always here—you can wager on that. The "fair treatment" our friends tell us is also here. Try!
