SALT JOHN HOMES ARE SADDENED; LOVED ONES GONE WITH HOSPITAL SHIP

Six Households Receive Word Of Brave Ones "Missing, Believed Drowned"

Small Avalanche of Notifications From Ottawa Increases Grief in Loss in Murderous Attack of Germans Upon The Llandoverly Castle

St. John suffered more keenly than she knew when the German savages sank the hospital ship Llandoverly Castle off the Irish coast on June 7. In six homes in this city there is deep grief today over loved ones probably sent to death by the murderous enemy that wages war upon women and children, upon the wounded and upon those carrying on a work of mercy in this war.

From Ottawa today came notification to the homes of those named here that a daughter, sister, husband or a brother who had been in the hospital ship was "missing and believed drowned." Deeply does the community sympathize with those in the stricken homes.

Missing Sister Anna Stammers Among those who went down with the hospital ship Llandoverly Castle, none will be more sincerely mourned than Nursing Sister Anna Stammers who has cheerfully risked her life time and again on voyages through the danger zone in order that she might minister to the sick and wounded. The heroes of this war include many of the gallant sea and surely no finer sacrifice could be made than that of the young woman who, thoroughly aware of the perils she faced, willingly risked her life in the service of her country and in her ministry of mercy.

Miss Stammers, who was thirty years of age, is survived by her mother, Mrs. B. A. Stammers of Waterloo street, and two sisters, Miss Willis, at home and Mrs. J. S. Addy, also of Waterloo street. Before going overseas, she had enjoyed a long nursing practice in this city and enjoyed an enviable reputation in her profession. Her fine character and her generous disposition had endeared her to all who had the pleasure of her acquaintance. Her loss will be deeply mourned and her family will have the sincere sympathy of the entire community in their bereavement.

Kenneth Daley, reported missing in the hospital ship, was of 120 Paradise row. He was twenty years of age. His father is dead, but his mother is living at home with two sisters, Misses Margaret and Annie. Two brothers, Allan and Horace, are fighting in France, and another is in hospital in Halifax. Kenneth was a baker by trade, and played by Thomas Robinson, Celebration street. He was a lad of good habits, with a wide circle of warm friends and he attended German Street Baptist church. He left St. John with Dr. Corbett's Ambulance boys in April 1917, and about a year ago was transferred to the ill-fated hospital ship as an orderly. This last trip was his third.

Albert Baker, 41 King square, was advised this morning from Ottawa that her husband, Albert Baker, a member of the crew of Llandoverly Castle, is missing and believed drowned. Private Baker went overseas as a member of the 16th Field Ambulance and after arriving in England was transferred to the Llandoverly Castle on the medical staff. He was thirty years old and prior to donning the uniform was employed by T. McAvity & Sons. Besides his wife, he leaves two daughters, Ethel and Margaret; a brother, Charles, at present in England, suffering from shell shock; Private Baker was well known and his friends will learn with deepest regret that he is believed drowned.

Frederick Clark, 22 Erin street, received word from Ottawa this morning that her husband, Private Frederick Clark, an orderly on the hospital ship Llandoverly Castle, was reported missing and believed to be drowned. He was a native of England and with his family moved to St. John about four years ago. Besides his wife, there are five sons—Frederick, William, Harold, Albert and Earle, and one daughter, Nellie, at home. Clement George Scribner, 23 Delhi street, was advised this morning that her son, Private Clement George Scribner, a member of the crew of the hospital ship, Llandoverly Castle, was reported missing and believed to be drowned. He was twenty years old and prior to donning the uniform was employed by T. McAvity & Sons. He went overseas as a member of the 16th Field Ambulance. Besides his parents, he leaves two sisters, Mrs. P. A. Wilson, Pine street, and Miss Bath at home, and one brother, William, overseas, a member of the N. B. Battalion.

Edward Hickman, Mrs. Hickman, 2 River street, was advised this morning that her son, Edward Hickman, a member of the crew of the Llandoverly Castle, was reported missing and believed to be drowned. He went overseas as a member of the 16th Field Ambulance Corp, under Lieutenant-Colonel G. G. Corbett. Prior to going overseas he was employed by T. McAvity & Sons.

Mr. and Mrs. James Taylor, 266 Rockland road, were advised today from Ottawa that their grandson, S. K. Taylor, who was aboard the Llandoverly Castle when she was torpedoed, had arrived safely in England.

Halifax, N. S., July 5.—At last night's meeting of the city council, Albert Gillis read an extract from a cable from Ireland to America stating that the commander of the German submarine

"MISSING, BELIEVED DROWNED" Anna Stammers, Waterloo street. Kenneth Daley, Paradise row. Albert Baker, King square. Frederick Clark, Erin street. Clement George Scribner, Delhi street. Edward Hickman, 2 River street. ON BOARD, BUT SAVED S. K. Taylor, 266 Rockland road.

PTE. C. E. BROWN OF NEWMAN STREET IN HOSPITAL WOUNDED Multiple Gunshot, Says Official Despatch to His Father

Robert Brown, of 107 Newman street, was advised today by the record office in Ottawa that his son, Private Charles Edwin Brown, infantry, has been officially reported admitted to the General Hospital in Rouen on June 29, suffering from multiple gunshot wounds.

Private Brown, who is twenty-seven years of age, went overseas with the 10th Battalion and afterwards was transferred to the New Brunswick Battalion. Before enlisting he was employed as a horse-shoe maker in the Portland Rolling Mills.

After reaching England he was stricken with rheumatic fever, was in the hospital for more than a year. He reached France about nine months ago and until he was wounded this time, had passed through the trench warfare and several engagements without injury. Another brother, James Brown, was one of the original members of the 29th Battalion and has been wounded three times in the war.

Drummondville Has A Serious Fire Tank Containing 1,500 Gallons of Gasoline Explodes

Quebec, July 5.—The city of Drummondville was threatened by a serious fire last night. The huge gasoline tanks of the Canadian Government Railway were destroyed. A tank containing 1,500 gallons of gasoline exploded and the concussion shook houses more than two miles away. Nobody was injured. This morning a big coil of the Canadian Government railway is still on fire, but the danger of a spread in the fire is past.

Gunner King Kerr Is Seriously Ill In Etaples Hospital

John Kerr of 44 Camden street has received confirmation of the news that his son, King Kerr, is in a hospital in Etaples, France, seriously ill with pneumonia.

Gunner Kerr, who was a member of the 16th Field Ambulance, was in the Canadian Postal Corps, but afterwards received his commission to an artillery unit from this city.

ALIEN BID FOR PEACE FAIL TO WIN BACK GROUND

Vorwaerts Says German People Want it Speedily—But Must Be "With Honor"

Amsterdam, July 5.—The Socialist newspaper Vorwaerts of Berlin, declares that the desire of the German people for a speedy peace with honor is so strong that a sensible accommodation from the other side would be bound to lead to its realization.

"Or enemies today," continues the newspaper, "have the opportunity of obtaining a peace not proscribed by the war, but based on the equities of the military and economic forces on both sides."

The policy of truth demanded by Philipp Scheidemann (Socialist leader), requires an admission that the economic forces of the German people are not so exhausted, and the fact that they are not overpowered raw material is being increasingly felt.

"The more candidly we speak of this matter, the more readily will our enemies be brought to a sensible accommodation. It is a progressive situation, can only induce us for years to make greater military effort, but not to concede to conditions dishonoring the German people and damaging their interests permanently."

"The conclusion of a peace with honor thus corresponds to the interests of our adversary in the same degree as our own."

ENDORSE SPEECH OF U. S. PRESIDENT

Washington, July 5.—The call to the peoples of the world to endorse America's declaration of independence, and the declaration of America's purpose to persevere in the "peace offensive" is now at stake, made by President Wilson in his fourth of July address at Mount Vernon, was endorsed today by officials and diplomats in Washington.

The statement of the president, that "no half-way decision is conceivable" is "conceivable" many officials believed, will have an important effect in forestalling another "peace offensive" by Germany, rumors of which have been reaching allied capitals for several weeks.

Although only a single reference was made to Russia, the enumeration of the "people of stricken Russia still among the rest" has been noted by officials in that country.

The Mount Vernon address, it was pointed out by some officials, while not so specific as some of President Wilson's previous addresses, constitutes in many ways the most forceful and clear-cut statement of allied war aims that he has given.

Schwab Sent 12 Into Water From His Own Yards

San Francisco, July 5.—Charles M. Schwab, director general of the Emergency Fleet Corporation, launched twelve vessels from his own yards in this district yesterday and directed the launching of five more from other yards. Eight of the twelve constructed in Mr. Schwab's plants were destroyers. Four new freighters, one of which, the Defiance, was constructed in thirty-seven days—a world's record.

This is the swiftest launching of an American workman to the common foe," Mr. Schwab told the assembled thousands as the big Defiance started the waters of the Oakland estuary.

Among those assisting Mr. Schwab were Calhoun Maughan, representing the British admiralty, and Rev. Charles A. Eaton, head of the national service section of the fleet corporation.

Well Done Newfoundland Raises \$2,000,000 Victory Loan in Six Days

St. John's, Nfld., July 5.—A \$2,000,000 Victory Loan which Newfoundland was asked to raise in six weeks was obtained by popular subscription in six days. It was announced today that the amount probably would be doubled.

Home For Incubables The monthly meeting of the board of management of the Home for Incubables was held yesterday afternoon. An order was passed for the admission of two male patients. The president reported that the fund for the bakery and fire escape amounted to \$1,462. It is the intention of the management to make an attempt to secure about \$800 more.

NOVA SCOTIA HAS SENSATION; WOMEN SHOT

Millidge Refuse Kills One Woman, Seriously Wounds Another and Himself in Kentville

Kentville, N. S., July 5.—Millidge Refuse, aged 50, last night shot and seriously wounded Mrs. Ross Veiner, and turned the gun on himself, inflicting serious injuries, which physicians say will probably prove fatal.

Domestic trouble is said to be the probable cause of the tragedy.

HON. MR. BLONDIN REACHES CANADA

Halifax, July 5.—Hon. P. F. Blondin, postmaster-general of Canada, is here from overseas en route to Montreal. Referring to his visit to France, he said that he was especially impressed with the cheery spirit of the wounded.

"I saw men with scars of many battles on their faces and arms and legs and legs in English hospitals and what impressed me most was the general spirit of optimism in these places," said Mr. Blondin.

"The men in the front line trenches are even more cheerful. If that is possible, and are very patient. They feel that victory will be theirs in time and are ready and waiting for the word to go over the top at the German command that is given."

Moncton, July 5.—Lieut.-Colonel Hon. P. E. Blondin, postmaster-general of Canada, passed through Moncton this morning on a military special with returned men from overseas.

HALIFAX MAN PRESIDENT

St. John Men on Executive of Maritime Wholesale Hardware Men's Association

The annual meeting of the Maritime Wholesale Hardware Men's Association was held in St. Andrews, N. B., on Wednesday and Thursday. Among the members present were H. W. Emerson, retiring president; A. V. Armstrong, secretary; J. F. Tilton, P. D. McAvity, S. C. Hoyt, R. M. Bartch, F. A. Foster and George B. Rivers of St. John; F. R. Sumner and R. P. Dickson of Moncton; G. J. Mettler, J. R. Simmons, C. W. Staines, H. L. Crowell of Halifax; H. N. Steeves of Amherst and W. H. Spimney of Yarmouth. There was also a large number of visitors who connected with the business and who were welcomed to the meeting.

The election of the coming year resulted in the choice of the following: President, G. J. Mettler, Halifax; vice-president, R. P. Dickson, Moncton; additional members of executive, L. L. Crowell and J. R. Simmons, C. W. Staines, H. L. Crowell of Halifax; H. N. Steeves of Amherst and W. H. Spimney of Yarmouth. There was also a large number of visitors who connected with the business and who were welcomed to the meeting.

WANT SPECIAL FARES FOR TEAMS ON FERRY Representatives of Large Concerns Have Interview at City Hall

A request for the continuance of the special fares for teams on the ferry steamers was laid before T. H. Bullock, commissioner of harbors and ferries, and Mayor Hayes this morning by representatives of concerns which pay out large sums annually for ferriage. The delegation consisted of W. E. Scully for the Union Ice Company; H. Colby Smith for A. C. Smith & Company; H. Firth Britain for the C. E. Colwell Company, and George Waring for the Union Foundry.

Under the old arrangement books of 1,000 tickets for single teams and of 500 tickets for double teams were sold for \$60, making the rate six and twelve cents respectively. An order was passed by the council several months ago forbidding the issue of further books of tickets, which would force all teams to pay the current rate of eight and fifteen cents. At that time, the larger patrons of the ferry laid in a generous supply of books of tickets but these are now being exhausted and they face the necessity of paying full fares.

The delegation this morning asked that the order be rescinded and the books of tickets be issued at the same rate as formerly. They contended that the higher rates would be a hardship to the west side business men, especially those who are competing with merchants on the east side. One of the representatives said that it would mean an additional tax of \$400 a year on his business.

Commissioner Bullock said that the rates had been low in the past, while the expenses of operation have been increasing, but he promised to give the matter careful consideration.

NEARLY A THOUSAND

Speaking to the Frederick Gleason regarding the recent examinations for entrance to the Provincial Normal School, Mr. W. S. Carter, chief superintendent of education, said that he was extremely gratified at the large number of prospective students who had stood the examinations. "There were," said Mr. Carter, "upwards of 1,000 who applied to stand the recent examinations. To be exact, there were 981 tried the Normal school entrance and matriculation exams, and while these will not all come to Normal school, the prospective number is much larger than I expected. In fact, so far as I can learn at present, speaking proportionately, it surpasses the number in any other province in the Dominion."

CARRYING THE TORCH FORWARD

(From an Address by Sir Walter Raleigh at the University of Oxford.) In any case, whether we win through to real peace and real security, or whether we are thrown back on our armed peace and the duty of unbroken vigilance, we shall be dependent for our future on the children who are now learning in the schools or playing in the streets. It is a good dependence. The children of our nation are better than the children whom I knew when I was a child. I think they have more intelligence and sympathy; they certainly have more public spirit. We cannot do too much for them. The most that we can do is nothing to what they are going to do for us, for their own nation and people. I am not concerned to discuss the educational problem. Formal education, carried on chiefly by means of books, is a very small part of the making of a man or a woman. But I am interested to know what the children are thinking. You cannot fathom a child's thoughts, but we know who are their best teachers, and what lessons have been stamped indelibly on their minds. Their teachers, whom they never saw, and whose lessons they will never forget, lie in graves in Flanders and France and Gallipoli and Syria and Mesopotamia, or unburied at the bottom of the sea. The rimmer falls, but the torch is carried forward. This is what Julian Grenfell, who gave his mind and his life to the war, has said in his splendid poem called "Into Battle":

And life is color and warmth and light, And a striving evermore for these; And he is dead who will not fight, And who dies fighting hath increased such increase that a whole new generation, better even than the old, will be ready, no long time hence, to uphold and defend and decorate the commonwealth of nations which their fathers and brothers saved from ruin.

VICTORY NEXT YEAR IS NEW FLEA TO GERMAN

Military Authorities Start Propaganda to Prepare People for Failure in France.

Washington, July 5.—Information has reached the state department from a neutral country that the German authorities were conducting propaganda to bring public opinion home around to the view that if the Teuton armies were unable to overrun France this year, the situation would be still better next year for Germany than it was at the beginning of the present offensive on March 21.

This information is taken to mean that the German government is already preparing letters sent from Germany to France and Flanders, and is preparing the people for news of the failure of the offensive operations which have been in progress since the beginning of the year. German officers interested in a neutral country are reported as having admitted that letters sent from Germany showed a decided change of public opinion regarding the army, and also indicated that great surprise had been impressed in Germany over the attitude of American soldiers of German origin who are serving the United States loyally in our army in France.

CORN AND OATS

Chicago, July 5.—Good weather over the greater part of the corn belt today to make values decline. Besides, traders who had been out in the country for the holiday returned with a favorable opinion of the crop outlook. The fact, too, that receipts continued liberal and that several western fields were instead of corn exercised a bearish influence. Opening prices, which ranged from 1.22 1/2 to 1.25 1/2, were followed by a moderate further setback but then by a reaction.

Activity on the part of export interests gave firmness to the oats market. Only a meagre amount of new oats to arrive was offered. After opening unchanged to 1 cent lower, with August at 96 1/2 to 97 1/2, prices sagged a little further and then rose to about Wednesday's finish.

ARBITRATION PROCEEDINGS

The last session of the arbitration with respect to grounds expropriated by the municipality for the new lower house site for the General Public Hospital was held today. J. King Kelly, county secretary, appeared before the board in behalf of the municipality. The arbitrators have been in session for the last few days, and the municipality is very concerned. When the municipality desired a site for the power house at the hospital site, the arbitrators were composed of Leon Keith, chairman; J. C. Chesley and Frank Holt.

Big Tim's Daughter Has Spent \$50,000 Insurance He Let Her. New York, July 5.—Margaret Catharine Sullivan, who received \$50,000 from the estate of the late Timothy D. Sullivan, has filed a voluntary petition in bankruptcy with the federal court. Her liabilities were put at \$13,886 and her assets at \$13,620.

SOON COMING HOME

Sussex Record; Lieut-Colonel F. W. Wedderburn, who commanded and recruited the 115th Battalion, is soon to return to Canada. For the last year and a half he has been in command of a discharge depot in England. When the 115th was broken up there was a surplus of officers and Lieut-Colonel Wedderburn was among the number to receive an appointment in England.

WINS MILITARY MEDAL.

Word has been received that Sergt. William Ross of the 54th Canadian, had been awarded the Military Medal for distinguished service on the field of battle. He was in the employ of the S. H. White Company prior to going west about ten years ago. Q. M. Sergeant Ross, who went overseas in the 26th Battalion, was decorated with the Military Medal for bravery in the field on the Somme.

MR. TAFT IN CANADA.

Washington, July 5.—It was announced here today by the national war labor board that former President Taft, one of the joint chairmen, has gone to Murray Bay, Canada, for the summer and has nominated Frederick N. Johnson, of St. Louis, Mo., as his alternate on the board during his absence.

GERMANY AND POWER

Two Prime Ministers, Von Bulow and Von Bethmann-Hollweg

Since 1871 to 1917 Germany has had only five chancellors. Next to Bismarck it is thought that Prince Von Bulow was the most sagacious and important of those five.

Why does he thrust this thrust at England, with his "economic" when he knows that Britain for years has admitted German manufactures free of duty?

The Mount Vernon speech of President Wilson will be classed among the great utterances of the great leaders of all time. It will be cherished by the liberty lovers of all nations as a clear and concise statement of the principles which must guide the nations of the future.

THE PLAYGROUNDS

The action of the city council yesterday in relation to play grounds is highly commendable, and calls for action on the part of the citizens to the end that the various grounds may be made of the most possible benefit.

The Roads

(Halifax Recorder.) No matter how many lines of railway a country may build, the public highways are still necessary and so important are they that it is a question whether or not they even take precedence over the iron road in the internal economy of the nation. It is thus a matter that concerns every one and cannot be left to the mere casual efforts of municipalities.

young French officer organized the lorries and ran trains of them in the same way as on a steam railroad, on a schedule, and if a car broke down it was shovelled off the road and its contents taken in at night time during two hours kept for that purpose.

It may not be out of order to state that the French method of keeping roads in repair is to patch and patch and patch, and then some more. Every hole, every hollow, every crack in the surface is at once filled up with the proper material and always leveled off; and it is said that in France you can always tell where a Britisher or a Canadian mends a road by the patch being always elevated some inches above the surrounding surface, making a bump that is worse than the depression. This is certainly the way in Nova Scotia.

The extreme value of roads were shown in the marvellous defence of Verdun when the French saved the Allied cause by the use of motors when the railways were destroyed. The Motor Magazine tells the story in this wise: "The French did something at Verdun that saved Britain, saved Canada and saved the world, and it was done on the roads. The Hun, the first three days at Verdun, shot up the only means of communication that the French had to keep the whole of their armies supplied with ammunition and supplies, but a bright

There will be those who will characterize this as an Egyptian dream, but citizens hitherto regarded perhaps as humanly impossible appear in a far more hopeful light today, because of the revolution in sentiment brought about by the war. The democratic nations want no repetition of the world-wide anguish and suffering of these four years. They see clearly what may follow when the principles of honor and respect which should be mutually observed by nations are set at naught by one of them, in order that it may impose its selfish and autocratic will upon its neighbor; and surely the lesson will not have been in vain. It is fitting that the leader of the nation whose entry into the war means complete victory for the cause of democracy should give expression in pregnant words to the lofty purpose and unshakable determination of the Allied nations in this crisis of the great world struggle.

ANGLO-SAXON UNITY

American soldiers and sailors cheering King George at Buckingham Palace marks a great change in American sentiment toward at least one monarchical government. It is now realized more fully than ever before by our neighbors that a country may have a king and still be a real democracy.

Whatever his critics may say of Hon. P. J. Veniot, they cannot deny that he is a hard worker. He is constantly travelling through the province in the interests of good roads. One day he is in the St. John district, another in Charlotte, another in York, Victoria or Westmorland or a north shore county. He learns for himself what is needed.

The greatly improved condition of the roads of the province is the best answer to the yawn of the Standard. The public will not complain if they find mud in the columns of that journal, so long as it is being gradually removed from the highways.

Duluth business men have found a syndicate to raise sheep in Northern Minnesota. They expect a flock of ten thousand.

Kernsky warns the Allies that unless they intervene in some way Russia will form an alliance with Germany as the only alternative method of restoring democracy in that distracted country. But how, under present conditions, can the Allies intervene with most hope of arousing Russian sympathy instead of hostility? That is the problem that perplexes the Allied statesmen.

The United States yesterday launched a greater tonnage of vessels than she has lost since the war began. The nearly one hundred vessels that slid into the water on Independence Day represented 400,000 dead weight tons, while the total American tonnage sunk by submarines thus far is only 332,220. The United States record in ship-building is as notable as the transportation of troops to the war zone, and the two combined spell defeat for Germany, for with this aid the Allies will gain a sure ascendancy.

The contrast between the utterances of President Wilson and those of German philosophers and militarists is very striking. The one breathes the spirit of true democracy, the others the spirit of the war-lord and the autocrat. The former speaks for the happier world of the future; the latter are the prophets of a lost cause.

The Italians improved their position on the lower Piave front yesterday. The enemy is given no rest, and if another Austro-German drive is to come it will find the Allies ready to offer a resistance even more stubborn than before.

St. John has a good police force, but it cannot do all that is required of it without an increase in numbers.

The wet weather of this week has been disagreeable, it is true; but it has been of immense value to the crops.

**FREED THE PESTS.**

Feeding the garden insects on poison is the surest way of keeping them from feeding on the vegetables you are growing for your own use.

Perhaps you have never watched them closely but the various pests have different ways of attacking the plants. For instance, some insects chew and swallow their food and others suck it from the juices and sap of the plants. The best way to get rid of both varieties is to make a study of the various poisons and how to apply them.

Arsenate of lead is the simplest poison to handle. It comes in two forms, powder and paste. The powder is easiest to weigh out and handle and it keeps indefinitely. One ounce will go as far as two ounces of paste.

Paris green is more expensive and does not mix with water as well as arsenate of lead. Furthermore, it will burn plants if it does not have two or three times its weight of lime added to the water. Used in Bordeaux it does not need the extra lime. In preparing the spraying mixture use half an ounce of Paris green and two ounces of lime in five gallons of water. Keep well stirred so as to spread the poison evenly.

**ANALYSIS OF POISONS.**

As the season advances careful study should be given to the use of poisons for spraying purposes. The best way to keep the pests from feeding on the vegetables you are growing for yourself is to feed them with poison.

One of the easiest ways to apply poison is with a whisk broom. Of course there is the spray pump but the other is cheaper and just as effective. When used in its dry form the poison should be dusted on by mixing it with air-dried lime, sifted ashes or dry road dust.

Use one ounce of powder and two ounces of paste in six quarts of water or Bordeaux mixture. Put the powder in a bucket and stir in enough water to wet thoroughly. Then it will mix evenly into the rest of the liquid.

Paris green is more expensive and does not mix with water as well as arsenate of lead. Furthermore, it will burn plants if it does not have two or three times its weight of lime added to the water. Used in Bordeaux it does not need the extra-lime. Use half an ounce of Paris green and two ounces of lime in five gallons of water. Keep well stirred so as to spread the poison evenly.

**KEEP AFTER POTATO BUGS.**

No matter how assiduous you are with your earlier spraying there is sure to be quite a family of potato bugs on the rampage in your war garden again and early July is an excellent time to resume operations with your spraying mixture.

The potato beetle can destroy a potato crop in a remarkably short space of time if steps are not taken to checkmate him. Sometimes hand-picking is resorted to, but it is safer either to use an arsenical spray or to dust the plants with Paris green and land plaster.

If the latter, mix one part Paris green in twenty to forty parts land plaster or air-dried lime, apply it with a perforated can duster. One good shake of the can over each plant should be sufficient.

All potatoes should be sprayed with Bordeaux mixture at least three times during the season as a safeguard against blight. By using arsenate in the Bordeaux mixture the plants should be safe from the potato beetle.

**Luxurious Self-Service Untaxed**

War is demanding of those at home many economies.

With the new taxes in force we must pay more unless we smoke less; it costs us more to ride in the railway sleeper and parlor car; our tea and coffee have gone up at the grocer's; and the salary that enables us to pay the butcher and baker and moving picture maker is pared down by income and business taxes.

Those who were inclined to grumble a little at first, soon stopped in shame, for the war is on. A willing hand and a stiff upper lip are expected of every man at home, as well as of the boys who are doing the actual fighting.

What if it does cost more to smoke—cost more to travel—cost more to eat—cost more to dress? There are some things which a tax cannot touch,—some of the BEST things in life—as for instance, the shave a man gives himself—one of the joys of simple living.

The man who starts the day with a Gillette shave pays only the price of the lather. No tax reaches that shave. Let's be thankful that what a man does for himself is, and will forever be free from taxation.

Gillette shaving does not cost in six months what it is worth all day and every day. The "velvet" chin is an asset in business; it is a real support to the stiff upper lip, and the man who owns a Gillette will never miss his morning shave though he has only four minutes for that exceedingly pleasant operation.

The Gillette is equally essential to the man who bears the brunt of war and the man who bears the burden of the taxes.

The selection of a particular style and case may well be left until a comparison is made of the various Gillette sets at Hardware, Drug or Jewelry dealer's. Prices range from five dollars.

TRANSPORTS AND DESTROYERS CUT 5 U-BOATS OFF ENEMY REGISTER

An Atlantic Port, July 5.—Destruction of five German submarines by British transports, and by American and British destroyers conveying them, in European waters, was described by passengers who arrived here yesterday on a British liner. The transports, one of which was carrying 7,000 American soldiers to a European port, accounted for three of the U-boats, and the destroyers sank the other two. Officers of the liner confirmed the stories.

LUMBERMEN ORGANIZING

Fredricton, July 4.—A meeting of the committee appointed some weeks ago to arrange for the organization of a New Brunswick Lumbermen's Association, was held at the office of McLellan and Hughes this morning. The meeting was employed in consideration of a draft of the constitution and of a list of proposed organizations. The committee will make its report to the organization meeting which will be held in this city early next month.

Those who attended the committee meeting today were W. B. Snowball, chairman; F. C. Bekty, of the Steam Cutter Company, St. John; Donald Fraser, of Plaster Rock, and R. W. McLellan, of this city. At the conclusion of the meeting the chairman stated that only routine business connected with the constitution was transacted. The association will be conducted much along the same lines as the Old Limit Holders' Association which was in existence for some years.

Premier Foster said the government will hear the views of the members of the Lumbermen's Protective Association regarding the suggested re-distribution of the crown timber lands at a meeting to be held in Fredericton on July 11 next.

The semi-annual session of the York County Council concluded this afternoon. At the final meeting there was a presentation to Warden Brewer to mark the completion of his second session as warden.

Committees to appoint a dam to be shored by logs were appointed for each parish under the recent provincial legislation. The two committees of each parish will meet on July 11 next to constitute each committee.

Dr. W. C. Kierstead, representing the Canada Food Board, addressed the council. Warden Brewer, Coun. D. E. Pickard and Coun. W. Ford were appointed delegates to the convention of New Brunswick Municipalities. There was much opposition to the appointment of delegates.

AGED FARMER DIES FROM KICK OF HORSE

Quebec, July 4.—Narcisse Bonnard, a farmer at St. Samuel, Frontenac county, was killed by a horse here he was leading into the stables, Saturday. The man was seventy-four years of age, and received a kick in the abdomen.

CONSERVATIVES WIN IN DUTCH ELECTIONS

Amsterdam, July 4.—The returns from yesterday's elections in ninety-two constituencies indicated that the Conservative elements had a majority in the second chamber of the Dutch parliament, according to the Handelsblad today.

STILL BUYING LUXURIES. German Buying of Champagne, Etc., Makes Newspaper Complaint.

Amsterdam, June 18.—(Correspondence of the Associated Press)—Despite widespread distress, enormous sums of money are being spent in Germany on luxuries and amusements, the Deutsche Tageszeitung of Berlin complains. It says that the consumption of champagne, which amounted to 10,000,000 bottles a year before the war and dropped to less than 5,000,000 bottles in the first year of the war in 1917 rose to 20,000,000 bottles, although the prices ranged from 800 to 400 per cent higher. The newspaper also points out the crowded theatres and the great increase in betting at the race courses.

NEW ZEALAND EDITORS ON WAY TO FRONT. A Canadian Pacific Port, July 5.—Six New Zealand newspaper editors arrived here yesterday on their way to the war zone to be the guests of the British government.

The training carried out in the Canadian forces in England is equal to the best standard of the Imperial army. It is as perfect as science can make it. The general scheme is planned by Headquarters in London, and carried out in detail by the staffs of the respective camps. U. S. SOLDIERS MAY REGAIN CITIZENSHIP. According to the law of the United States, American citizens who enlisted in armies outside their own previous to the United States casting their lot with the Allies, were by doing so deprived of the rights of American citizenship. An amendment has been passed by which those who enlisted before the United States joined the Allies may again take up their American citizenship by appearing before a consular officer, and making the usual declaration and producing proof of their former good standing. PLEASED AT OBSERVANCE OF 4TH BY ALLIES. Philadelphia, July 5.—A resolution recognizing and appreciating the observation of the fourth of July by Great Britain and by the other allies was passed by the descendants of the signers of the declaration of independence yesterday.

PAY AND ALLOWANCES FOR DISCHARGED MEN UNDER TREATMENT FIXED AT OTTAWA

Ottawa, July 5.—Pay and allowances for discharged soldiers and sailors undergoing treatment in the sanatoria and hospitals of the department of soldiers' civil re-establishment have been fixed by order-in-council. The scale will be exactly the same as each individual man was in receipt of from either the army or navy before his discharge, with one or more slight variations. Dependents will receive militia or naval separation allowance, but a special scale in lieu of any allowances paid from the patriotic fund has been fixed. The order-in-council also contains a confirmation of the scale which has been paid to discharged men granted courses of industrial education. The scale of treatment allowances applies not only to men who are discharged for treatment, but to men who, having been discharged for civil life, subsequently break down, owing to war disabilities, and come back for treatment.

ARE ADVERTISED MEDICINES WORTHLESS

There is no more reason to condemn all advertised medicines than there is to condemn all physicians or all druggists. There are in every profession and in every trade, but they do not last long. Take a medicine like Lydia E. Pinkham's Vegetable Compound, the true test of its merit is the fact that for forty years it has been relieving women of America from the worst forms of female ailments, constantly growing in popularity and favor, until it is now recognized from ocean to ocean as the standard remedy for female ills.

TRAINING OF CANADA'S MEN

Each Prepared Individually For Battle Conditions in Short Time. Ottawa, July 5.—The following description of the training of Canada's soldiers after their arrival overseas is authorized by the Militia Department. The art of training soldiers has made a great advancement in the past two years in the art of active warfare. During the past year the art has been pretty thoroughly mastered, and the training of soldiers has been built up so as to scientifically meet the conditions. The men who are now arriving from Canada are trained in scientific detail. Every man is trained individually to meet battle conditions, just as a boxer is trained for the prize ring or a football player for the gridiron, only more so. The men are now made into soldiers in a fraction of the time that it took in 1915, and are better trained. Development is Rapid. It is interesting to see the rapid development of these soldiers, who a few weeks ago were civilians in Canada. They are keen to learn, and as their knowledge grows they become enthusiastic and anxious to learn. The most recent arrivals give promise of being equal to those who have, by their deeds, established the reputation of Canadian high place which it holds among the armies of the world.

A segregation camp has been started at Freshwater Pond in the Aldershot area, with accommodation for 10,000, to which all drafts from Canada are posted on arrival in England. Preliminary training is carried out during the period of segregation. The training under the command of Colonel Colquhoun, D. S. O., and at a recent parade over 4,000 men of all branches of the service were present. The improvement in appearance and march discipline effected in ten days has been something extraordinary. The physique of the men is good, and there is every reason to believe that, when put to the test the men who are coming from Canada at the present time will put up a show equal to the best that has been performed in the past by officers and other ranks of the first four divisions.

Improved Training for Commissions. Preliminary courses for the training of other ranks from France to be trained for commissions have been established. These have more than fulfilled expectations. Training has been standardized and is uniform throughout all areas. The result is that while the prospective cadets in waiting for the next school to start at the Canadian training school he is usefully employed, his work of interest, and it also means the saving of a certain amount of time on the assembly at the cadet school, his higher level, and cases no longer occur of cadets being backward and so retarding the progress of others.

Forestry Corps Instruction. Arrangements have been made to train the men of the Forestry Corps, so that in the event of emergency they can defend themselves. Arrangements are being made for a short course in musketry, physical training and bayonet fighting and drill. It is considered that suitable lectures, combined with a little propaganda work on the work done by the Forestry units during operations in the field, will greatly assist in building up esprit de corps.

The training carried out in the Canadian forces in England is equal to the best standard of the Imperial army. It is as perfect as science can make it. The general scheme is planned by Headquarters in London, and carried out in detail by the staffs of the respective camps.

A Baby's Skin

What is so beautiful as baby's soft, smooth, velvety skin? And how is it to be kept free from chafing, irritation and distressing eczema? This is every mother's question. Many have found the answer in the use of Dr. Chase's Ointment. Applied after the bath, this soothing, healing ointment overcomes irritation of the skin and prevents the development of eczema and other annoying skin diseases.

HON. C. J. DOHERTY IS BANQUETTED BY HIS FRIENDS

Montreal, July 4.—Hon. C. J. Doherty, minister of justice, was tendered a complimentary dinner tonight at the Mount Royal Club in recognition of his accession to the office of acting prime minister of Canada in the absence overseas of Sir Robert Borden.

The feature of Hon. C. J. Doherty's address to those assembled at the function, including representatives of every branch of Canadian public life in Montreal, was his words in conclusion. The minister of justice said: "I wish to thank you all for this impressive tribute to the work I have tried to accomplish. It had seemed to me that I might have had to risk my reputation in the performance of my duty. Had that sacrifice been necessary, I should have willingly made it. But your expression of confidence tonight assures me that those who thought they might not be kept free from chafing, irritation and distressing eczema? This is every mother's question. Many have found the answer in the use of Dr. Chase's Ointment. Applied after the bath, this soothing, healing ointment overcomes irritation of the skin and prevents the development of eczema and other annoying skin diseases."

Halifax, N. S., July 4.—In the admiralty prize court here, Judge Drysdale ordered the confiscation of a quantity of medicine manufactured in Germany which was seized by the naval inspection staff here from the luggage of R. Silva Zamorana, a Chilean diplomat on board the Dutch steamer Hollandia, which, while on a voyage from Amsterdam to Buenos Aires, called at this port September, 1917, for examination. One of the inspectors testified yesterday that he had examined M. Zamorana's luggage and in one of his trunks found packages and bottles of medicine, each bearing labels printed in German. On one of these parcels was written the name of the wife of a German general residing in Berlin. The inspector said that the Chilean diplomat claimed that the trunk was the property of a friend who had preceded him to America. W. A. Henry, K.C., for the crown, informed the court that the Chilean representative in Canada had been notified of the proceedings. He also said that a registered letter had been sent to M. Zamorana, owner or custodian of the trunk, to the same effect but that there had been no response. Neither the ship nor M. Zamorana were represented in court. Judge Drysdale ordered the medicine, which is believed to have been manufactured at a famous dye works in Germany and which is valued at several thousands of dollars, to be sold by the marshal of the court.

TO REPRESENT AUSTRALIA AT U. S. CAPITAL

London, July 4.—It is understood that Crawford Vaughan, former premier of South Australia, will be the representative in America of the Commonwealth of Australia, says a despatch to the Exchange Telegraph Company from Melbourne today. Pope Sees Baron Cochlin. Rome, July 4.—Pope Benedict, today, received in audience Baron Denys Cochlin, former member of the French war cabinet without portfolio.

Try ENO'S for a cool, refreshing Drink. WATER doesn't seem to satisfy—it's liquid but it's flat. You want a sparkle—something with a snap and a tang to the palate. Eno's Fruit Salt just satisfies—a spoonful in a glass of water makes a sparkling, refreshing effervescent draught—pleasant to take and beneficial to the system, too. Made from ripe fruit juices, it is cooling and safe. In every clime, and in every land, it is recognized for its sterling worth and pleasant efficacy in keeping the system "fit" under all conditions.

ENO'S FRUIT SALT. —corrects errors of diet, and gently and effectually keeps the liver active, and encourages regular activity of the digestive and alimentary system. It does not gripe, and leaves no weakening after-effects. Your Druggist carries Eno's and is glad to recommend it. Prepared by J. C. ENO, Ltd., "Fruit Salt" Works, London, Eng. THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, JULY 5, 1918

Independence Day Observed In Britain

London, July 4—The formal celebration of the fourth of July began today with a fellowship meeting in Central Hall. Five hundred seats were allotted to American soldiers and sailors. The meeting opened with the band of the Coldstream Guards playing the Star Spangled Banner.

Viscount Bryce, former Ambassador to the United States, presided and spoke feelingly of the past and present relations between the two countries. Winston Spencer Churchill, minister of munitions, then proposed "a greeting to the president and people of the United States."

This was seconded by Hon. Arthur Meighen, Canadian minister of the interior.

Major George H. Putnam, of New York, proposed a resolution expressing "profound satisfaction that the two great English-speaking races find themselves for the first time fighting side by side in the cause of justice and liberty."

The resolution was seconded by Professor Canby, of Yale University. Vice Admiral Sims, Commander of the United States naval forces in the war zone, and General Biddle, of the United States Army, also spoke. The meeting concluded with the singing of God Save the King. All American organizations in London had representatives at the meetings and blocks of seats were set aside for wounded British, French, Belgians and Italians.

Viscount Bryce said the bitterness of 1776 never could have arisen had the will of the British people ruled then, as it rules today. "The severance came," he declared, "because

we had then a perverse court and a non-representative parliament."

HOSPITAL SHIP'S OFFICIAL LIST

Canadian Officers, N. C. O.'s and Men Who Sailed on Last Voyage of the Llandovery Castle

Ottawa, July 4—The following list of names of Canadian officers, N. C. O.'s and men who sailed from England on the last voyage of the hospital ship Llandovery Castle has been received from overseas by the militia department. It was issued by the acting minister of militia, Hon. Martin Burrell. RETURNED MEN HOME DIRECT

New Plan For Distributing Soldiers on Furlough Works Successfully—News of the Soldiers

The new arrangement whereby soldiers returning from overseas will be taken to their homes with the least possible delay was inaugurated yesterday afternoon in this military district when the returned party of soldiers reached the city from an Atlantic port and were met at the station by the military authorities and the necessary business put through whereby they were immediately, upon their arrival in the depot, dispatched to their respective homes. The men from points beyond St. John were given all necessities, including pay, etc., and sent on their journey to their homes on the outgoing trains while the St. John men were given permission to go direct to their homes from the depot. This plan is already finding much favor and is a decided improvement over the old routine, when the soldier was retained at the discharge depot for several days before getting home. Now all the men are given a furlough of fourteen days and allowed to proceed directly to their homes. The men for eastern and northern points throughout the province did not have to come to St. John, the headquarters of the discharge depot, as previously, and they stopped off at their stations en route. The men will, however, report into the district discharge depot when their furlough expires for further disposition.

cannot spare another FOR TRAFFIC WORK. That a traffic policeman should be placed at the foot of King street by the police department was a recommendation made by the jury in Greog vs. Grant & Home, tried yesterday, when the jury returned a verdict in favor of the plaintiff and assessed damages at \$800 and costs. "We cannot possibly take any more men off the force for traffic jobs," said Commissioner McLellan, when asked about this matter. He said that he had not yet received the recommendation, but in any event there were not now sufficient men on the force to permit placing a traffic policeman at the foot of King street. "We ought to have six or eight additional men."

NOTICE By virtue of Order No. 415, of the Privy Council of Canada, dated 28rd February, 1918, the Committee of Public Safety for the Port and City of St. John (N. B.) have been given general charge—for the duration of the war—of all that pertains to the safety of the public. In continuation of instructions issued on the 2nd instant, the following additional instructions are issued in connection with the protection of the city and must be carried out by all concerned: 1. No notice will be given with regard to the turning off of city lights (houses, streets, etc.). Business or other concerns generating their own electricity will promptly turn off all their lights on the city lights being turned off. 2. When the electric lights are turned off, the blinds on all windows facing the harbor must be kept lowered. 3. When the lights have been turned off, all blinds on street cars must be kept lowered and the headlights dimmed. The running of the street cars will NOT be discontinued. 4. All owners of motor cars, trucks or other motor vehicles must at once blacken the upper half of the circumference of both headlights. 5. When the lights of St. John are turned off, it is requested that the lights of Lancaster and Fairville be immediately turned off likewise. 6. When the city lights are off, all lights on lighthouses, buoys, fishing boats, ferry boats or any other water craft must be extinguished. 7. After the lights are extinguished, the blowing of fog horns, whistles, whistles, etc.—other than the fire hooter in the event of a fire—is forbidden. (Sgd.) A. H. ## Exclusive Fabrics— Unequaled Values In Made-To-Measure Garments

THERE is not a single fabric in our range but what is honestly worth double our price—many of the woollens that we tailor to measure at our standard prices cannot be duplicated in some shops under three times our price, and we are very conservative in making the comparison.

A little investigation will dissipate any skepticism you may have regarding the truthfulness of what we say. As a matter of fact it is the over skeptical man that usually loses out. Our Made-to-Measure service points the way to the greatest possible economy, in the matter of good, dependable apparel, stylish and individual—

fact it is the over skeptical man that usually loses out. Our Made-to-Measure service points the way to the greatest possible economy, in the matter of good, dependable apparel, stylish and individual—there is practically no end to the variety of weaves and patterns we are now showing in our 22 Conveniently Located Tailor Shops, ready for you to choose from.

You had better be fortified against higher prices and other relative conditions right now—while a big and reputable concern, such as ours, offers to tailor to your individual measure garments that you will feel proud to wear at a price you will like to pay.

Trousers—We are showing many values in our special trousers, many of these cloths are shown in very limited quantities, we will be obliged to ask customers for a second choice.

OUR price in many instances would represent an actual loss for us were it not that our woollen contracts were placed before the cost trebled. Great as our reserve stock is, the unprecedented volume of business we are doing is making decided inroads on it. You had better estimate what garments you will require for a year or more to come and avail yourself of the opportunity of the moment—The time rapidly approaches when clothing prices will advance as never before—It may be many years before we can duplicate our present values.

LOCAL NEWS

JULY 12. There is little prospect of any special celebration of the 15th July—Orange-men's day—this year. So many of the members are across the water or in training on this side that it would be futile, a prominent officer said this morning, to hold any observation exercises with a degree of success, at least so far as numbers of participants go. It is estimated that between fifty and sixty-five per cent of the membership of St. John and provincial lodges are in khaki, the remaining members being units and aged.

ON SPORTING TRIP. Guide Harry Allen of York county, who is so well known to American notables through his visits to sportsmen's shows and also because of his personal supervision of their jaunts in this province, has quite a number of parties booked for the summer fishing and fall shooting. One of his parties will be that of Cecil DeMille, a noted moving picture creator and director, the man who produced all the Geraldine Farrar pictures of note, "The Whispering Chorus," etc. Mr. DeMille, with his friends and Japanese servants will reach the province in a few weeks.

MATTER OF MILK LICENSES. Three milk dealers were before the police magistrate this morning charged with not taking out their 1918 milk licenses. They were H. A. Northrup, Clifford Crichton and Pacific Dairies, Ltd. All three were fined \$200, but the fine was allowed to stand. Another dealer, William F. Keane of South Cove road, who was notified to be present, was not in court. The magistrate ordered that he be notified to discontinue the selling of milk until his license has been secured. His case is to be heard two weeks from today.

NOT SO MUCH RAIN AS YOU WOULD THINK

A Bit More Than Two Inches Since July Came In

Ask the man in the street how much rain has fallen since the first of the month and he will doubtless say all the way from six inches to a foot. That's just how such a spell of "precipitation" as the Weather Man calls it feels to the ordinary person, who some purely personal opinions, etc., thrown in. But as a matter of scientific fact the depth of rain—if it could be equitably distributed on a level surface—amounts to only two inches and nineteen hundredths, or about two and a fifth inches to make easier thinking.

D. E. Hutchinson, chief of the local weather bureau, gives the record of this late rainfall as follows:

July 1—0.1 inch. July 2—75 inch. July 3—12 inch. July 4—27 inch. July 5—04 inch up to 9 a. m.

The weather man says this is really not abnormal for the time of year. In fact it is logical to look for "good green" rains just now. Without a doubt the country might go broke and those who grumble over the inconveniences of wet weather might be the first to raise a holler, as the boys say, when the price of scarce produce soars especially high in the autumn.

Other summers have had such rain-falls galore. Subsequent to the last, doubtless see many more of them. This last spell is truly most timely—if it stops on schedule for the time being, certainly a thing as too much rain.

At the present writing there is no immediate hope of fine weather, but most people are banking on Sunday for sunshine. Suburbanites are beginning to wonder how long it will last, especially those who motor to and fro, but the wonderful rate at which their amateur lettuce and radishes are sprouting changes their complaints into a new boast.

PLANS ARE COMPLETE FOR FIFTH OF AUGUST

Meeting For Prayer and Supplication Here on War Anniversary

Plans have been completed for a meeting of prayer and supplication on Monday, Aug. 5, in commemoration of our nation's entry into the world strife for liberty and right, the fourth anniversary.

The gathering will be non-sectarian and of a general public character. It will be held in Imperial Theatre commencing sharply at 8 o'clock and concluding at 8 p. m. (Capt. G. A. Kuhring of St. John's Episcopal church will preside and the following order of service will be carried out:

Hymn—"O God Our Help in Ages Past." Invocation—Rev. L. A. Tedford, Tabernacle Baptist church.

Scripture reading—Rev. J. C. B. Appel, Douglas avenue Christian church.

Hymn—"O God of Love, O King of Peace."

Creed and prayer—Rev. F. S. Dowling, St. Andrew's kirk.

Hymn—"Eternal Father Strong to Save."

Address—Rev. H. A. Goodwin, Centenary Methodist.

Offering.

God Save the King.

Benediction.

The doors of the theatre will be opened at 1.30 and special arrangements will be made for seating on the stage for officials and representatives of the armed forces.

PROMINENT BAPTIST VISITORS

Rev. Miles F. McCutcheon, pastor of the First Baptist church, Montreal, accompanied by Rev. Dr. W. F. Patterson, pastor of the First Baptist church, Winnipeg, arrived in the city today after attending the sixth district Baptist meeting at Lower Millstream, where Dr. Patterson was a principal speaker last evening.

Rev. Mr. McCutcheon, formerly pastor of Brussels street church, this city, will spend a month at Grand Manan with his family and Dr. Patterson proceeded to P. E. Island for a short stay, after which he will sojourn in Nova Scotia with his family until late in August.

The eminent western divine is an ex-St. John boy of twenty years ago. None of his family survive. He says while business is a bit dull in Winnipeg and labor scarce the crop prospects are very excellent.

SAVES THE FINES WERE TOO LARGE

Chief Justice McKeown's Liquor Cases Judgment

IMPOST OF \$200 TOO MUCH

Decision in Cases of Galbraith and Kelly Taken Before Higher Court After Fines Imposed by Police Magistrate

In the Supreme Court chambers this morning His Honor Chief Justice McKeown handed down an interesting judgment in the cases of the King vs. Robert J. Ritchie ex parte Frederick Galbraith, and The King vs. Robert J. Ritchie ex parte Thomas Kelly.

These cases were brought before the chief justice on writs of certiorari, applications being made to have convictions made by Magistrate Ritchie, under the Intoxicating Liquor Act of 1916 quashed. As these cases were the first appeals to be made under the new liquor act, considerable interest centered round the hearing on review when they came before His Honor in last March.

In the case of Frederick Galbraith the magistrate on January 18 last imposed a fine of \$200 on Galbraith, on the charge of unlawfully importing liquor into the city. William M. Ryan, who appeared for Galbraith at the time, objected to the penalty imposed, contending that Section 197 of the Liquor Act provided that any amount of imposing liquor into the province would be liable on summary conviction to a penalty for the first offence of "not less than \$100." Mr. Ryan said that as this offence was being treated as a first offence, the words "not less than" limited the jurisdiction of the magistrate, and did not give him the power to impose a greater penalty than \$100. The magistrate imposed the fine of \$200, however, and Mr. Ryan took the matter up on certiorari before Chief Justice McKeown, asking to have the conviction quashed on the grounds that the magistrate had exceeded his jurisdiction.

January 25 last the magistrate imposed a similar penalty of \$200 on Thomas Kelly, who was also charged with importing liquor into the province. George H. V. Belyea, K. C., who appeared for Kelly at the time, took the same objection as Mr. Ryan. Mr. Belyea took the additional objection that, as Kelly had been previously convicted on the charge of having liquor in his possession, the magistrate had not the jurisdiction to convict him twice in regard to the same quantity of liquor.

When the matter came before Chief Justice McKeown, Dr. W. B. Wallace, K. C., opposed the application on behalf of the attorney general and Magistrate Ritchie appeared in person to oppose the application. By consent both cases were heard at the same time.

Dr. Wallace contended that the affidavit under which the writ was sought was wrongly stipulated, took the additional objection that certiorari did not lie because it was open to the applicant to review the proceedings by way of appeal as provided under the Provincial Summary Convictions Act. With regard to the first objection taken by Dr. Wallace, the chief justice held that the word "crown side" as used in the affidavit was merely a surplusage and should only be stricken out as such. The second objection taken by Dr. Wallace was overruled. Regarding the contention made by the applicant to have the conviction quashed inasmuch as penalty for the first offence provided by the act was "not less than \$100" without providing for increased amount, His Honor stated as follows:

"The contention of the applicant was that the power of the magistrate to fine in such a case as this is limited to the sum of \$100, and I think that in view of the case of ex parte Richard 88 S. C. R., page 894, the section must be construed as confining the magistrate's power to the sum named. The case last cited arose under a section of the Canada Temperance Act which empowered a magistrate on conviction for a first offence to impose a fine of not less than \$50. The magistrate took the view that the words "not less than \$50" did not limit him to the imposition of that amount only, and he fined the accused in a larger sum. The matter was brought before the Supreme Court of Canada under a writ of certiorari and it is instructive to note the grounds upon which Mr. Justice Duff dissented from the view of the magistrate under the circumstances. He says at page 498 of the report: "The power to impose a fine is limited in amount in respect of offences created by this act is clearly a power which, not being conferred expressly, can only be held to be conferred at all; if plainly and necessarily implied in the language used."

"I am, therefore, compelled to hold that the magistrate was without jurisdiction to impose the fine of \$200 in this case, as a penalty for a first offence.

Magistrate Ritchie in arguing before the chief justice contended that inasmuch as both defendants were previously convicted the offence of importation was really a second offence, and therefore the second offence penalty of \$200 was justified.

The chief justice held the magistrate could not convict for second offence simply because during the hearing a disclosure of the previous conviction was made. The act laid down the procedure to be followed in the matter of certiorari, and he said that the records did not show that the procedure was adopted. The chief justice held, however, that the act gave the judge on appeal remedial powers, and he felt that it was within his power to remedy the defect, which, in his view the conviction contained by imposing the proper penalty upon the applicant. His Honor therefore ordered that the conviction be amended by striking therefrom the words "to forfeit" and pay the sum of \$200," and insert in lieu thereof the words "to forfeit and pay the sum of \$100." The order was made in both cases.

NOT HERE TILL AUGUST

The "kiddies" will be disappointed, says the Sussex Record, when they learn that their friend, J. D. O'Connell, will not be able to reach New Brunswick so soon as expected. A letter dated Canaan, Cuba, June 25, was received at the Record office on Wednesday from Mr. O'Connell, in which he stated that as he was leaving for the southern states en route for this province, he was obliged to turn back on account of the illness of his foreman, and he would not be able to reach here until late in August.
