Government, As Feared, Seeks To Limit The Scope of The Inquiry

Amendment By Mr. Stewart Is Rejected

HOUSE STILL IN SESSION

As Finally Adopted Bill Slightly Enlarges Scope of Inquiry—What North Shore Member Proposed and What Actually Was Passed

Fredericton, April 18.—When the house took up the Royal Commission bill today Mr. Stewart of Northumberland declared there must be a thorough investigation. He said the point that there was one section of the bill relating to the charges regarding timber limits which, if literally interpreted, meant, as he read it, that if the commission found that Hon. J. K. Fleming had not directed the alleged extortion of money from the limit holders then the whole inquiry would fall to the ground.

The people wanted all the facts brought out so that no guilty man would escape. Mr. Stewart then moved— "Strike out the words 'And if he is found guilty' and insert the words 'And if he is found guilty of the said money were so collected through the agency of the said William H. Berry then also find what disposition said William H. Berry did make thereof.'"

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service. Synopsis—The western disturbance centred in the Missouri Valley is to move slowly to the Great Lakes region. The weather continues warmer in western provinces and Ontario, becoming much warmer in Quebec and the maritime provinces. Dry heavy rain has occurred in Ohio and in parts of Southern Ontario.

PROHIBIT TORTURE OF MAN'S BEST FRIEND FOR SURGICAL PURPOSES; BRITISH COMMONS PASSES BILL

(Canadian Press) London, Eng., April 18.—The second reading of the dogs bill the object of which is to prohibit all experiments on dogs either with or without anaesthetics, passed the House of Commons yesterday by 122 votes to 80. Sir Frederick Banbury argued that the dog is one of the best friends man has had for thousands of years.

MONEY LIES FORGOTTEN IN LOCAL BANK

In every bank, for one reason or another, unclaimed balances are constantly accumulating in the deposit accounts. In some cases the depositor has died and his heirs are unaware of the account at the bank; sometimes the depositor moves from the city and neglects to clear up the account before he leaves; in other cases a small balance is neglected until it is forgotten.

While the banks have the use of this money in most cases the unclaimed balances are so small that the cost of book-keeping more than balances the advantage and the banks usually make an effort to keep their books clear of such stray accounts. An account is not classified as "unclaimed" until five years have passed since the last transaction and at

Mother's Birthday
What shall you give her on her birthday? You can hardly imagine how much more she will appreciate what you give on her own birthday than what you give her on Christmas day. The knowledge that the gift was inspired by love, and was distinctly personal, represents a value far greater than the Christmas gift, which is inspired by custom and habit, and is one of many gifts to as many persons.

In our store are many articles that will please her. A nice piece of Cut Glass or of Silverware, or something for her personal use.

You will find numbers of pieces of Jewelry that will suit your taste and your purse.

SEUMAS MACMANUS IN ST. JOHN, MONDAY, APRIL 27.
Seumas MacManus, famous Irish novelist, poet and story-teller, will appear at the York Theatre, Monday, April 27, afternoon and evening, under auspices of Playgrounds Association. In the afternoon he will delight ladies and children with story-telling, and in the evening he will give a dramatic performance of his play "The story-telling revival that he is conducting is a benediction to the children, the schools and the entire community." In the evening he will give an illustrated "Bamble around Ireland," with strikingly beautiful views of Irish life and a fund of humorous Irish anecdotes.

THE LAW ON CLOTHES
The law of our country, to say nothing of the climate, demands that every man, woman and child shall wear clothes. You can meet all the requirements of the law with a 15c. extra, or you can put on ten times as much as the law required. It is well to avoid both extremes, but you get beyond "essentials" when you make on quality.

The 20th Century Brand tailors never claim to make essentials. They make and always have made the better kind of clothes only. Clothes that in addition to protection, comfort, and wear combine the great qualities, perfect fit, and absolutely correct style. Gilmore's Best is showing the new 20th Century spring styles and an inspection of them is a liberal education in clothes.

THE SALADA Tea Company last year amounted to as much as the combined totals of the first twelve years they were introducing Ceylon Tea into America. Their increase alone in 1913 over 1912 amounted to more than the total business done during the first five months of 1914. Their rate of increase was the largest they have ever had.

The St. John Tennis Club dance held last evening in Keth's Assembly rooms was enjoyed by about one hundred and fifty guests. Jones' orchestra supplied the music. Miss Schofield and Miss McKenna made up the ladies' committee, with D. C. Skinner and K. S. Barnes on the floor. Mrs. J. Pope, Mrs. E. Barnes, Mrs. P. W. Thomson, Mrs. H. C. Schofield, Mrs. Hugh Mackay, and Mrs. S. A. Jones were chaperons.

ELECTION CARDS

To The Electors of The City of St. John:
Ladies and Gentlemen:—
At the conclusion of my statement last evening I referred to a scheme proposed or favored by Gutelius, involving a great loss to our city, and in which he had the confidence of the Mayor. The scheme consisted of the development of the Lower Cove Basin, and was promoted after the name of Gutelius had become well known to you, and his friendship and loyalty to St. John were established.

To The Electors of The City of St. John:
Ladies and Gentlemen:—
Sincerely let me thank you for the magnificent vote given to me on Tuesday the 14th inst. It proved you liked a fighter who is not afraid to fight for the principles for which he stands. Single handed I am fighting this great fight of Tax Reform. It is a glorious fight I win, for in it is the answer to all your questions of moral reform, better housing, and better conditions socially and morally for the city in which we live; the making of homes, the upbuilding of industries, and the prosperity of business. Further let me say my motto is, Everything for Saint John in steamship and transportation lines, first preference given to our local contractors in all city work. Patronize St. John and home industries. The selling of city lands where ever they may be (they are dead assets). The extension of the ferry service to Union street West; a fair adjustment of ferry rates to our citizens; the immediate attention to our wharves at Sand Point; the continuing of permanent pavements under the old Act, and many other things that I believe desirable for our progressive city, which must be made the greatest in the Maritime Provinces. Others are promising you Tax Reform. The Citizens Committee promised it as the first plank in their platform. The promise is all you have to show. Be fair and let me ride in to victory on my own horse, and let me ask the assistance of all citizens who were unable on account of promises made on the election on Tuesday the 14th, to assist me with their valued support on April the 29th. Trusting to be favored again with your valued support, and hoping to receive the additional support from those who were unable at the last election, I am, Respectfully yours,
F. L. POTTS.

To The Electors of The City of St. John:
Ladies and Gentlemen:—
I wish to thank you most heartily for the vote extended to me Tuesday and to those who acted in my behalf at the polls. I appreciate their friendliness and good will most highly. I trust at the final election on April 28, I will receive sufficient support so I may again serve you at the council board for another term.

Yours sincerely,
M. E. AGAR.

To The Electors of The City of Saint John:
Ladies and Gentlemen:—
I wish to state most emphatically that I am an independent candidate in the election now pending, for Commissioner, and the canvass that is being used against me that is not the case, is entirely without foundation and has, no doubt, been originated by some jealous rival. I think that in the short time I had to canvass the public, my ballot on the 14th inst. was very satisfactory, and with a little more hard work, there will be a great change in the returns on the 29th. And I hope my friends and the public generally will bear in mind that I am in this game to stay until the finish, and if elected will, at all times, give the laborer the same consideration as I should to the more wealthy populace and will endeavor always to play up and play the game, and do it in a straightforward manner.

Yours very truly,
CLARENCE W. DEFOREST.

LIEUT.-GOV. WOOD

This is the 71st birthday of Lieut.-Gov. Wood. The people wait to learn whether he will signalize the day by refusing his assent to a bill placing a heavy burden on the province, while the conduct of the government which asks for it is being made the subject of investigation by a royal commission;

MR. GOULD WINS

With charges of the gravest character hanging over the premier and a late member of the Flemming government the legislature last night rushed through its third reading a bill to saddle another burden of \$2,000,000 upon the people of the province.

Mr. Gould of Maine is to be congratulated upon the influence he is able to exert in the legislature of New Brunswick. The members of that legislature, with four exceptions, are not to be congratulated either upon their independence or their regard for the welfare of the province and its good name.

There was no urgency for the bond guarantee in advance of the investigation. Acting Premier Clarke should have told the house that the legislature would be called together again if necessary after the inquiry into the Dugal charges had been completed.

brief remarks in reference to Lord Percy's address yesterday, our people are really ignorant of the extent of the service which is freely placed at their disposal in all parts of the world, Lord Percy made a clear and businesslike statement, and there can be no question that his visit will prove of benefit to the business community.

ST. JOHN SHOULD PARTICIPATE

The visit of Mr. W. S. Lecky, representing the Canadian Commission of Conservation, in relation to the international conference on city planning to be held in Toronto on May 23, 26, and 27, will, it may be hoped, arouse sufficient local interest in this conference to ensure that St. John will be well represented.

The United States it is felt that city planning is one of the most important functions of city government, and indeed this is true of cities in Great Britain, Germany and some other countries in Europe. More and more attention is being given to the subject, and the Toronto conference will therefore be of the greatest interest and value in connection with the promotion of the movement in this country.

THE HISTORY OF H. P.

Every popular commodity has a history of paramount interest to somebody. Here is the history of H. P. Sauce—we think it will interest you.

Every member of the legislature who voted last night for the additional bond guarantee of \$2,000,000 thereby declared himself unfit to be a representative of the people and a guardian of the interests of the province. The brazen effrontery with which on the one hand they called for a royal commission to investigate the Dugal charges and on the other declaring their complete confidence in the government shows how unfit they are to occupy seats in the legislative halls.

BRITISH CONSULAR SERVICE

The address before the Canadian Club by Lord Bunsford yesterday on the British consulate, embassy or legation, of a revelation to his hearers. His lordship pointed out that this service is at the command of Canadians, and that when they ask for information from any British consulate, embassy or legation, they are simply asking for that which it is the duty and the pleasure of those in charge to supply as fully as may be possible.

Asked to give an example of the use of the saying "to keep the wolf from the door" a small boy wrote:— "It does not mean to keep a real live wolf from the door. A good instance is when the landlord comes for the rent. He knocks at the door and you keep a wolf quiet in the hope that he will think there is nobody in, and go away."

BIRTHDAYS OF NOTABILITIES

SATURDAY, APRIL 18. His Honor, Josiah Wood, Lieutenant-Governor of New Brunswick, whose seventy-first birthday occurs today, has been a prominent figure politically for a good many years. He first entered the house of Commons as member for Wigtownshire in 1853 and sat there until 1868, when he was elevated to the senate. Two years ago he was chosen by Premier Borden to succeed Hon. L. J. Tweedie as lieutenant-governor of New Brunswick.

SUNDAY, APRIL 19.

Today marks the fifty-ninth anniversary of the birth of an English scholar, whose interest in Canada has been neither short-lived nor perfunctory—Hugh Edward Egerton, Belf Professor of Colonial History in Oxford University. Professor Egerton has not only spent his time but his money in assisting research into colonial history and out of his own pocket has paid for the editing of the acts of the privy council. Personally he is an interesting mixture of kindness, shrewdness, humor and shyness, with the latter characteristic probably most conspicuous.

\$100 Reward, \$1000

The student of this paper will be pleased to learn that there is no spot on the ground in Canada that has been able to cure in all its stages, and that is Cancer. Hall's Cancer Cure is the only medicine now known to the medical profession. Cancer, being a constitutional disease, requires constitutional treatment. Hall's Cancer Cure is taken internally and acts directly upon the blood and causes removal of the cancer, thereby destroying the foundation of the disease, and giving the patient strength by building up the organism and giving it the best food for its growth. It is a positive cure that after other cures have failed. It is a positive cure that after other cures have failed. It is a positive cure that after other cures have failed.

North End man found yesterday with six bottles of liquor hidden in corner of Long Wharf. To use a Wall Street expression he may have been trying to "corner the market."

I OWE MY LIFE TO "FRUIT-A-LIVES"

They Did Me More Good Than All Other Treatments Combined

Mrs. H. S. Williams, Palmerston, Ont., June 30th, 1913.

"I really believe that I owe my life to 'Fruit-a-lives.' Ever since childhood, I have been under the care of physicians and have been paying doctors' bills. I was so sick and worn out that people on the street often asked me if I thought I could get along without help. The same old stomach trouble and distressing headaches nearly drove me wild. Some time ago I got a box of 'Fruit-a-lives' and the first box did me good. My husband was delighted and advised a continuation of their use. 'Fruit-a-lives' completely cured me. Today, I am feeling fine, and a physician's friend on the street, noticed my improved appearance and asked me the reason, I replied, 'I am taking 'Fruit-a-lives.' He said, 'Well, if 'Fruit-a-lives' are making you look so well, go ahead and take them. They are doing more for you than I can.'"

MRS. H. S. WILLIAMS. "Fruit-a-lives" are sold by all dealers at 30c a box, 6 for \$2.50, trial size 25c or sent on receipt of price by Fruit-a-lives, Limited, Ottawa.

A lady from the southern states Thought she would take a trip To St. John and she asked a friend What she'd put in her grip.

Her friend's reply took fourteen stamps To carry the letter back. For this is what he said: "Dear friend, So she'd best begin to pack. An overcoat 'bout twice as thick As the fur of a polar bear. A mackintosh and an umbrella, And warm socks—several pair. Snowshoes and a Panama hat, A pair of rubber boots, A fan and a muff and a set of furs And several waterproof suits. There were many other things he said That she'd best need just the same. But listen while I whisper this, The Lady Never Came."

From Halifax To Vancouver WOMEN ARE PRAISING DODD'S KIDNEY PILLS

Nova Scotia Mother Tells How They Cured Her Aches and Pains, and Made Her a Well Woman Again.

Ecum Secum Bridge, Halifax Co., N. S., April 17.—(Special)—From Vancouver to Halifax come daily reports of the splendid work Dodd's Kidney Pills are doing for the suffering women of Canada, and this little place can show a partial cure of its own. Oratus Pace, the mother of a large family, was a sufferer from those aches and pains only women know. Today she is a strong, healthy woman. Dodd's Kidney Pills did it.

"I had a pain in my left side and down through my hips," Mrs. Pace states. "I had headache all the time. My heart was weak, and at times a pain around it added to my fears. Some days I was hardly able to walk. I read of a number of cures of cases like mine by Dodd's Kidney Pills and sent for three boxes. Today I am a well woman, and can do as much work as ever I could. Dodd's Kidney Pills cured Mrs. Pace because her troubles came from diseased kidneys. Dodd's Kidney Pills always cure diseased kidneys, and as ninety per cent of women's troubles come from kidney trouble, Dodd's Kidney Pills have come to be known as suffering woman's best friend."

WHERE TUNNELS BEAT BRIDGES (American Machinist).

The joint commission of the states of New York and New Jersey, which was primarily created to devise plans for bridging the Hudson, has been brought seriously to consider the alternative of tunnels under the river as highways for general traffic and travel by ordinary vehicles. "This looks as if bridges over the Hudson, although talked of for many years, may never materialize. The satisfactory experience already had with passenger tunnels should go a long way toward creating confidence in vehicular tunnels. But perhaps the most conclusive argument will be the fact that while the estimated cost of a bridge at 89th street is \$42,000,000, two tunnels, one for movement in each direction, could be constructed under the river from about Canal street, where they would be of the most use, for not more than \$11,000,000.

RECENT DEATHS

"OLD JONES" (New York Sun) Austin Jones, who rang the Harvard College bell for 50 years, is dead at 97. There was once a time, though the purple pampered youngsters of today may not know it, when the "getting up" bell jangled, out of tune and harsh, smote the ear of undergraduate youth at six a. m. At 6.30 in summer, at 7 in winter, wasn't it that far too early piety was huddled into the Appleton Chapel, quite the angriest house of prayer, at least we hope and pray so, that dares to show its face between earth and heaven. Old Jones rang the recitation bell, too. Yet everybody was fond of old Jones. He was but the amiable agent of higher and accursed powers, foci of slumber, dons and prigs, admirers of the ant.

Old Jones! When he was in his thirties he was still old to the pitiless youth which, now gray or white with morose old age or middle age, sees how relative and foolish is time and talk of it. Old Jones was a handsome man, early gray, as who wouldn't be, exposed to the innocent savagery and vociferous devilry of boys? We seem to see him, of many avocations, lending a helping hand to science. His melodious hand turns some frictional electricity thingamajig in Harvard Hall for an irreverent audience, rising in tiers and jeers. Prof. "Old Joe" Lovering is favoring us with some science. "Old Joe" gets a spark of electricity on his knuckles. Much applause arises. "Old Joe" is also known ironically as "the Gay Lothario," the spark must be self-generated, still "wood up" for old Jones; his is the honor of the experiment; he is a man of science Old Jones blushes. Tempus edax recum!

Good old Jones, kind, patient, intelligent, ingenious, a beloved tradition rightly hailed in the class-day ritual. Old Jones did get old at last, it seems and now the bell is knolled for him, and old Jones is young forever in the Resurrection of the Life.

Cyrus (entering the 16th-floor office of the Syndicate Building, perspiring and panting)—Them stairs must be several miles long! Occupant of Office—Why didn't you come up in one of the elevators there? Cyrus—Not much! I jes' see one of 'em full of people fall down that hole there!

HAVE PRETTY HAIR

Soft, Fluffy, Abundant—Use Parisian Sage—It Stops Falling Hair and Itching Scalp

If your hair is not as soft and heavy as that of some friend, do not despair—do as she does—give it daily attention. Beautiful hair is largely a matter of care. If it is too thin, make it grow. If it is harsh and brittle, soften it up—lubricate it. If you have dandruff it is because the scalp is too dry and flakes off. Freshen up the scalp with Parisian Sage and all dandruff disappears.

Parisian Sage, sold in fifty cent bottles at drug and toilet counters, is just what you need. It quickly stops itching head, cleanses the hair of dust and excessive oil; takes away the dryness and brittleness, makes it seem twice as abundant, and beautifies it until it is soft, fluffy and lustrous.

You cannot be disappointed in Parisian Sage. Always sold out money back if not satisfied plan.

ST. JOHN ENTERPRISE

A despatch from Montreal, showing the interest taken there in St. John affairs is quoted below. The company referred to is the New Brunswick Packing Co., Ltd., organized by D. P. Pidgeon and A. C. Corfield. The despatch is as follows:—

"Montreal, April 17—A company has been organized with \$99,000 capital; \$70,000 to be issued and \$45,000 already subscribed, to erect a large packing plant, preferably in St. John, N. B., but perhaps in the outskirts of the city. The company has bought large farms along the line of the Intercolonial at three different points, and also on the St. John River, comprising over 1,200 acres in all, on which hog-raising will be begun on an extensive scale. An experienced English packer will have charge of the packing plant."

THE LIARS

Opera House Next Week

"The Liars" written by the famous English dramatist, Henry Arthur Jones, will be the offering of the Stock Company next week. This is probably the most brilliant comedy of its kind ever produced, and should prove one of the best attractions of the stock season. Sir Charles Wyndham, the prominent English actor, successfully starred it. "The Liars" is a comedy dealing with English aristocracy; it is clean and refined, and is full of the bright witticisms for which Mr. Jones is famous.

The scenic equipment will be perfect in detail, the text being especially effective.

Mr. McHarty will be seen as Sir Christopher Deering, the part originally played by Sir Charles Wyndham, while Miss Brandt will play the role of Lady Jessica, which, in contrast to her Hetty Gandy of this week, will more than ever bring out her versatility.

OWNED WHOLE CITY EXCEPT ONE LOT

Proprietor Refused to Sell at Five Dollars an Inch

London, April 18—Sir J. W. Ramsden is dead at Huddersfield. He owned all the city of Huddersfield except one house and plot. He often tried to buy that, but in vain.

On one occasion he offered to cover the site with sovereigns as a purchase price, but the Quaker owner demanded that the sovereigns should be placed edgewise, and then the negotiations were broken off.

The children are in an institution. Do you see it, man—that wife of yours striving for a crowd of lodgers—trying to make ends meet and to give the kiddies a decent education? Think a moment—think of the difference it will make if you provide for them now, while you have the chance.

We have a book which explains how The Imperial Life will do this. It is very interesting—and it's free. Why not write for a copy now? Don't put it off—tomorrow may be un-insurable. Address:

CONGRATULATION K. J. MacInnes has received notification of his appointment as Norwegian vice-consul at St. John.

VITAL STATISTICS During the last week the birth of twelve infants, four girls and eight boys and five marriages were recorded with Registrar J. B. Jones.

FIVE NEW ELDERS St. David's Presbyterian church is electing five additional elders to fill vacancies in the session board which have been caused by deaths and removals. Balloting was commenced last Sunday.

TAX REFORM COMING James R. Brown the single tax advocate, leaves tonight for New York. He held a great meeting in Fredericton on Thursday and an equally interesting one in Woodstock on Wednesday evening. He found strong and influential advocates of the single tax in every city and town he has visited in New Brunswick and Nova Scotia and is confident that the principle of a single tax in taxation will very soon be adopted in both provinces. Then, he says, some one or more places will test the single tax, and as surely as they do all the others will follow. Mr. Brown is regarded as the ablest advocate of tax reform that has been heard in these parts.

Y. M. C. A. MATTERS Finance Report Shows Expenses Some \$500 Over Budget—Mr. Milligan's Resignation

At the monthly meeting of the board of directors of the Y. M. C. A. on Thursday evening, the finance committee presented a report and a memo of the amount which must be secured to close the year, which will end on May 1, without a deficit. The expenses of the 1913-14 year, to May 1, will be about \$800 in excess of the estimate in the budget. This increase in expenses is due to some radical improvement in the heating apparatus, and other matters.

The annual meeting of the association was set for May 12 and a special meeting will be held before then to appoint three members to the nominating committee. It was with regret that the resignation of B. D. Milligan, the boys' secretary, was received. Mr. Milligan has been in the position for the last two years and has done a great deal of good in his department. He is not yet prepared to make public his plans for the future, but expects to be here for the next month.

GOOD CITY THIS Local Wholesaler's Experience Though What Other Places Found Hard Times

"If the cost of living is high in St. John as compared with other places and I do not know that it is—the advantage of living here is well worth the price. This was the comment of a local wholesaler merchant who had his own experience to back up his statement. "While we hear and read of hard times in almost every other part of the continent with factories closing and railways laying off men by the thousands I have never found business better in St. John. This year my business showed a substantial increase during January and February, held my own during March and is running away ahead of last year's record for April; and last 1913 was a banner year with us too." "Any city that can maintain a showing like that during a period of depression is a good city to live in and do business in."

FAIRVILLE NEWS The suburbanites were a pleasant smile last week when the robins came around and the sun managed to allow a few warm days to slip through his fingers unnoted. The spring always makes up in great measure for the hardships in crossing the bridge on cold wintry days, and the sight of new shoots of grass and resurrection of nature, creates the feeling that after all life outside the city is preferable. But the last few days have been disappointing to say the least. The high hills toward the north, covered with snow, looked as forbidding and chilly as in January, while the wind on the "Suspension" felt like anything, but a spring sphyx. Today however, is milder again and the prophets declare this snow must be the last.

A diver was again at work this morning to locate the sunken tug Edward P. belonging to the Fish Co., and which lies at the bottom of the falls. As the weather is comparatively calm it is expected the work will be successful. Rev. H. R. Boyer of the Bible Society is visiting Prince Edward Island in the interests of his new work and is not expected back until the latter part of next week.

It is learned on good authority that arrangements have been made to call the baseball captains with one or more members of their prospective teams together for a "talk fest" next week. The person or persons responsible have not yet been located. The spring always supposed Vice-President Riley will call the meeting to order by virtue of his office.

It is reported that the condition of James Lowell who has been ill for a comparatively long time is very grave at present. His brothers are said to have come from the states and are now with him at his home at South Bay. The community in general recognized Mr. Lowell as its foremost councillor in all time, and his illness and withdrawal from political life have been a great loss to the parish. The death of Charles Yeats at his residence in Manawagonish road on Thursday evening removed the last of his family.

Eat More Fish and Cut Down Cost of Living

CHAIRMAN'S SUGGESTION

Work of Commission Now in St. John Probing Prices and Conditions—Sessions Secret and No Names of Witnesses Given

"Eat fish and reduce the cost of living" is one of the suggestions of Commissioner McDougall, chairman of the dominion board of inquiry into the cost of living in Canada.

Speaking of the result of their investigations so far Mr. McDougall said that the evidence seemed to indicate that, while the price of beef was advancing steadily with no prospect of stopping, the cost of fish food had not increased in proportion. It appeared that the use of fish in larger quantities in the place of meat would have the effect of helping to reduce the household bills. The change in diet would also be beneficial, in many cases, to the health as well as the pocket book.

The suggestion should have special value to the maritime provinces where the supply of fish is almost at the doors of the consumers and also contains a hint which might be useful in widening the scope and enlarging the profits of the fisheries which already play an important part in the economic scheme of the provinces.

The board is composed of Chairman John McDougall, commissioner of customs; C. C. James, commissioner of agriculture; R. E. Cooke, editor of the Labor Gazette; J. U. Vincent, assistant deputy minister of inland revenue, and Thomas J. Lydon, secretary. Since their appointment they have held sessions in Ottawa, Montreal, Toronto, Winnipeg and Halifax and, later on, will spend five or six weeks in the west. The chief object of their inquiry is to secure statistics regarding the actual cost of necessities for purposes of comparison and information regarding the causes of the increasing prices. Upon this information it is expected that they will formulate recommendations for the improvement of living conditions.

The board continued their sessions in the Royal Hotel this morning and heard counsel on the evidence. The inquiry is being closed today as the members of the board say that they have found that the witnesses will speak much more freely and give more information when they are assured that their evidence will not be reported. The evidence will probably be made public with their report. It is reported that the names of the witnesses will be withheld.

Mr. Cooke, one of the members of the board, left for Ottawa, and the others will leave for the capital this evening.

RICHEST CARGO OF WINTER SEASON

The export manifest of the C. P. R. Liner Mount Temple, which sailed yesterday for London and Antwerp, was made up this morning and was found to amount in value to \$1,600,000, by far the most valuable cargo that has ever been taken out of the port of St. John.

REAL ESTATE NEWS

Transfers of real estate have been recorded as follows: Philip Black to J. H. McLean, \$50, property at St. Martins. Mrs. Ana Henderson to Rupert Rice, property at King Square. James Kingston to R. W. Moore, property at St. Martins. William Lowry to School District No. 15, property at South Bay. F. H. McNair to A. R. Kelly, property at Simonds. R. H. Pickett to Annie E. Burke, property in St. Patrick street. C. S. Smith to Mrs. Bell Smith, property at St. Martins. W. D. Stewart to J. W. Taylor, property at Simonds. Mary A. Walsh to J. G. Walsh, property at Simonds. J. P. Jones has purchased from Admr. Julia Gillespie a leasehold property in Bin street. The sale of a large farm, consisting of 125 acres of farm land, situated about four miles from the city on the Beaver Lake Road to be used for dairy purposes on a large scale, has been reported. The farm was originally known as the Robert E. Lawton estate, and the sale was made by W. E. A. Lawton to a local man, whose intention it is to enter into an extensive milk business. A four storey wooden building, 20-26 Delhi street, erected only last year has been sold by W. E. A. Lawton to J. J. Whitley. The house contains four tenants.

COUNTRY MARKET

In the country market this morning the supply of meats was plentiful, veal being in especially good supply and selling at 12 to 20 cents a pound. Spring lamb sold from \$2 to \$3 a quarter, beef at 12 to 23 cents a pound, pork 18 to 20, chickens \$2 a pair, fowl \$1.75 to \$2 a pair, and turkeys 35 cents a pound. Butter was a little cheaper, at from \$7 to \$8, while eggs were in fairly good supply and brought 24 and 25 cents. There was quite a stock of American vegetables, at high prices.

PRESENTATION OF FLAG

When St. George's Society assembled at their rooms to attend the annual service at St. Paul's church, the president, G. S. STIRRING SCENE IN THE HOUSE; ROYAL COMMISSION FOR INQUIRY; VALLEY ALL-WAY BILL IS PUT THROUGH

Three on Commission To Probe Serious Charges Made By Dugal

Limitation of Investigation Planned by Government?—Stewart and Swim Voted Against Valley Bond Guarantee—Last Recourse Governor Wood

Fredricton, April 17.—After a long and exciting day in the House special bills were introduced tonight by Hon. Mr. Clarke providing for a Royal Commission of three persons to inquire into the Dugal charges, both as to the Master business and the Valley railway accusations.

On its face the bill appears to cover the charges fairly well, and in the hands of a proper commission it would seem likely to give a thorough investigation, but it is too early to predict with confidence for the government this afternoon amended Mr. Dugal's resolutions in such a manner as to indicate a definite intention to limit inquiry in both matters in a way most injurious to a public interest.

The bills Mr. Clarke introduced later are better than his amendments suggested, and this is taken to mean that there was a strong group in the House which objected to a limited field of inquiry and the bringing of the charges.

PAID THE \$2,000,000 THROUGH.

But the amazing and outrageous development was Mr. Clarke's announcement that the Valley railway \$2,000,000 bond guarantee must go through—and through it went. He pressed it to the skies, and it was given its third reading with only Messrs. Stewart and Swim voting against it.

Only the Lieutenant-Governor can now prevent the outrage which would be done by the guaranteeing of \$2,000,000 worth of bonds by a government while the Premier is facing grave charges and while it is alleged that contractors had to pay large sums before getting their contracts.

However, it is charged that there is a discrepancy of \$400,000 between the actual cost of the road to date and the sum provided to build it and paid over for that purpose.

It is hoped under these grave circumstances that Governor Wood will intervene. There has been nothing like the passing of this bill in all provincial history. The government was bound to deliver the goods.

The public will now demand that the governor's signature be withheld until the investigation is held and the air cleared. Mr. Gould and Mr. Flemming and the others can easily wait that long. There is a million of the first bond money yet unissued.

Let the investigation go on at once. Let all the facts come out. Let there be no hiding behind technical terms of legislation or amendments. The people want the truth, and they must have it in one way or another. There are men who will suffer, but the air will be cleared and the political atmosphere purged of that kind of an inquiry that was first demanded by the attorney-general on the floor of the house and is expected and promised by all friends of honest government.

EXCITING SCENES IN THE HOUSE.

The scene today in the house was of unusual interest. Mr. Dugal was the central figure, as he made his charges from his seat in chamber and read copies to Mr. Clark's letters demanding particulars of his charges, received two or three hours before from the leader of the government. Put an Englishman speaking broken French in a French assembly chamber and Mr. Dugal's position today can be imagined. He acquitted himself admirably, even when most exciting and trying periods when he was asked by government members to make charges against Hon. Dr. Landry.

In one letter Mr. Dugal said he gladly exonerated Messrs. Morrison, Mr. Murray and Wilson from any suspicion, but he did not mention the name of Dr. Landry. This led to a scene, and cries of "What about Dr. Landry?" "Don't you exonerate him?"

Before Hon. Mr. Clark arose to make his speech, Mr. Dugal endeavored to do his most patiently, and when Hon. Dr. Landry, after his name had been included in the amendment for the investigation, made an impassioned speech of denial and of his innocence, Mr. Dugal arose and said he had no charges to prefer against Dr. Landry.

Then J. L. Stewart suggested that the amendment be changed by striking out Dr. Landry's name. This was done and the incident closed.

Hon. Mr. Clark spoke upon the Valley railway charges, but said it was his preference to discuss them at length. He did go into considerable detail of the Valley railway, and said the present move against the bill was made as a result of personal hatred and for political effect.

This gave Mr. Baxter a chance to shout "Dark sinister brigade," and a senator in the gallery called out audibly: "What about the foreboding bill?" F. B. Carvell, M.P., to whom the attorney-general alluded in general terms, but not personally several times, sat smiling as a privileged ex-member on the floor of the house.

History will have plenty of material in the future if all the facts demanded in inquiries promised are permitted to be told.

THE ROYAL COMMISSION BILLS.

In the house tonight, Hon. Mr. Clarke introduced a bill authorizing an inquiry into certain charges connected with the timber limits. This bill provides that "The lieutenant-governor is hereby empowered to cause a commission of three persons to issue under the great seal to not more than three persons to be selected by him, authorizing them to inquire into the actual cost of said railway, so under construction to date, and the further amount necessary for completion of the said railway between Gagetown and Centerville, and also to acquire and find whether any and what amount of said moneys were also paid the St. John & Quebec Railway Company was diverted from its proper channel and as been used for purposes other than the construction of said railway, and if so, the persons to whom paid and what amounts were paid and also to inquire into whether contractors under the said St. John & Quebec Railway Company were compelled to pay and did pay large, or any, or what sums of money to the Hon. James Kidd Flemming, premier of the province, and the Hon. Harry F. McLeod, provincial secretary in the year A. D., 1912, before they obtained their contracts."

Madawaska, from his place in the house this day has declared and states that he is credibly informed and believes he can establish by satisfactory evidence:

"That the St. John & Quebec Railway Company has already received in actual cash out of the proceeds of the bonds guaranteed by the government of this province the sum of \$3,728,778, and from the Dominion government on account of subsidy the sum of \$648,000, amounting in the whole to the sum of \$4,376,778."

"That the railway company has actually under construction 117 miles of railway between Gagetown and Centerville. That the said railway company has therefore received about \$88,000 per mile for railway actually under construction; that the cost of construction of the railway, is completed, and therefore the actual cost of completion of said railway ready for operation can be easily obtained."

"That it will require \$600,000 additional money for the completion of the railway between Gagetown and Centerville, and the said railway now owes the Dominion government the sum of about \$200,000."

"That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company."

Charges of Diversion of Money.

"That a large amount of said moneys so paid the St. John & Quebec Railway Company, and which were derived from its proper channel and has been used for purposes other than the construction of the railway."

"That contracts under the said St. John & Quebec Railway Company were compelled to pay and did pay large sums of money to the government of this province in the year A. D. 1912 before they obtained their contracts as aforesaid."

"That the complete list of names of contractors under the said railway so under construction to date, and the further amount necessary for the completion of the railway between Gagetown and Centerville, and also to find whether or not any of said moneys have been improperly diverted from the purpose intended, and if so, the persons to whom paid, and what amounts were paid out and to what members of the government of this province, and documents and contracts, as above alleged, and that the said committee have power to call for papers and documents and to summon and examine witnesses under oath, under the provisions of chapter 5 of the Consolidated Statutes of New Brunswick A. D. 1908."

"Further resolved, that said committee do proceed with such investigation until they have fully investigated such charges and reported upon the same to this house."

Mr. Dugal's Statement.

Mr. Dugal then read the following statement:

Mr. Speaker: In making these charges, I fully appreciate their importance and would not make them in this public manner were I not convinced that I have proof to substantiate them in full and that my duty to the public, as a member of this house, demands that I should make these facts known and demand that they be thoroughly investigated for the benefit of all parties concerned.

Resolving my responsibility to my constituents and the serious consequences to myself in case of failure, I was very much surprised on receiving at 12 o'clock today (nine days after the charges were made) the following letter from the Hon. George J. Clarke, attorney-general of this province, namely:

Clark's Demand.

"I have no doubt that you fully appreciate the fact that the charges contained in the notice of motion given by you in the house of assembly on April 9 are of a general character and lacking in specific detail."

"As you state in your notice that you believe you can establish by satisfactory evidence the statements contained in your notice, it is to be presumed that this evidence must be in your possession, or under your control."

"This being the case, you must know that every gentleman who are members of the government and against whom, as a result of your action, an unwarranted suspicion may very naturally have been awakened in the public mind, are wholly unconnected with the subject matter of your charges, and who, I am sure, you will hardly be ready to relieve from the false position in which they have been placed by reason of your irresponsible and unjust what you are prepared to prove."

"It may be needless for me to add that it is impossible to meet the demands of your notice until the details are furnished and I shall be compelled to ask you to give these details before the appointment of any tribunal for investigation."

"Under the circumstances I feel warranted in requesting that either before or at the time when your motion is presented to the house you will furnish the following particulars:

(1)—A statement of the manner or of the methods by which moneys were paid to the St. John & Quebec Railway Company who were compelled to pay, and of the large sums to members of the government in the year 1912 before they obtained their contracts.

(2)—The names of the contractors under the St. John & Quebec Railway Company who were compelled to pay, and of the large sums to members of the government in the year 1912 before they obtained their contracts.

(3)—The name of each member of the government to whom any part of these moneys was paid.

(4)—The amount of money paid in each individual instance."

(Sgd.) "GEO. J. CLARKE."

No President.

Mr. Dugal continued: So far as I am able to learn, no precedent exists in this legislature for the furnishing beforehand of all details of charges preferred by members of this assembly. I find by referring to the journals of this house for the year 1905 that the Hon. Mr. Haas preferred what are known as the "bridge charges" against the Hon. Mr. Stewart, and that, with a few exceptions, these charges were not given, and as I am advised, it is contrary to all parliamentary rules, and even to the rules governing the courts of the land, that a member should be given before the investigation is held.

Were I compelled to do this, it is quite possible that certain charges might not be available which, if made known, would be given before the investigation is held.

Further, to show my good faith in the matter, I will give you, as far as I am able to learn, the following information, taken up in the order in which it is asked for, namely:

(1). I am in a position to prove that the St. John & Quebec Railway Company have received from the proceeds of the bonds guaranteed by the government of this province the sum of \$3,728,778, and from the Dominion government on account of subsidy the sum of \$648,000, amounting in the whole to the sum of \$4,376,778.

(2). The said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(3). That a large amount of said moneys so paid the St. John & Quebec Railway Company, and which were derived from its proper channel and has been used for purposes other than the construction of the railway.

(4). That contracts under the said St. John & Quebec Railway Company were compelled to pay and did pay large sums of money to the government of this province in the year A. D. 1912 before they obtained their contracts as aforesaid.

(5). That the complete list of names of contractors under the said railway so under construction to date, and the further amount necessary for the completion of the railway between Gagetown and Centerville, and also to find whether or not any of said moneys have been improperly diverted from the purpose intended, and if so, the persons to whom paid, and what amounts were paid out and to what members of the government of this province, and documents and contracts, as above alleged, and that the said committee have power to call for papers and documents and to summon and examine witnesses under oath, under the provisions of chapter 5 of the Consolidated Statutes of New Brunswick A. D. 1908.

(6). Further resolved, that said committee do proceed with such investigation until they have fully investigated such charges and reported upon the same to this house.

(7). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(8). That it will require \$600,000 additional money for the completion of the railway between Gagetown and Centerville, and the said railway now owes the Dominion government the sum of about \$200,000.

(9). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(10). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(11). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(12). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(13). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

(14). That the said railway, when entirely completed as aforesaid, will not be able to pay the actual cost of the railway, and will therefore require the aid of Messrs. Kennedy & McDonald, the Hibbard Construction Company and Messrs. J. Corbett & Sons, who are the contractors under the said railway company, will show the actual cost to date, and James Taylor, inspecting engineer for the Dominion government, can tell exactly what amount will be required for the purpose of carrying out the operations by the Intercolonial Railway Company.

The charges are specific, that the Hon. James Kidd Flemming through the agency of William H. Berry, did extort large sums of money from the owners of crown timber lands in this province before their lands were classified under the act relating thereto passed in the year 1912.

I only ask a proper tribunal before which to make my proof. Were I to furnish the names of my witnesses they might not be available when the subpoenas were issued and when the trial is appointed. In my judgment they should be given (if charges and I should be called upon to prove them. Hon. Mr. Fleming or any other person involved by the evidence will then have ample opportunity in which to refute them, if possible. I only demand the right to produce the witnesses.

The amendment was adopted without division, and the motion as amended was afterwards adopted.

Hon. Mr. Clark moved that the address be presented to his honor by such members of the house as are members of his honor's council.

The house went into committee of the whole house with Mr. Wood in the chair, and the bill relating to the town of Marysville was taken up.

Mr. Dugal announced that he would withdraw the bill.

The bill to amend the Production Assessment Act was then taken up. The law committee reported against favorably recommending the bill.

A bill relating to the town of Marysville was agreed to with amendments. The house took recess at 5 o'clock and resumed at 8:30 o'clock.

Valley Railway Bill Passed.

On the order of the day for the third reading of the bill to amend the act relating to the Valley railway being read, Mr. Stewart (Northumberland) moved:

"That the said bill be not now read a third time, but that it be referred back to the committee of the whole house with instructions to amend the same by providing that the bond guarantee be reduced to \$750,000, that the broken contract with the St. John & Quebec Valley Railway Company be cancelled, that the deposit of any moneys be made as security for the performance of that contract be forfeited, and that a contract be let to some other company, firm, syndicate or person for the completion of the railway as a government work."

In moving this amendment, he said that it proposed to cancel the contract with the company now constructing the road, on the ground that they were wanting in financial backing. They had undertaken to do certain things, and had altogether fallen down on their undertakings, and he felt that the work should be taken out of their hands and given to some other company.

The company had no claim whatever on the province, for they had obtained the contract on the strength of their declaration that they could complete the road for \$2,000,000. Now they come back and say it will cost \$7,000,000. He thought that the \$2,000,000 should have been ample to complete the road and leave a good margin of profit for the contractors. But admitting that it had become necessary to give further financial aid, he was very strongly of the opinion, and he thought work should be taken out of the present company's hands and put in those of a firm which could be better depended upon. The present company was to carry out their obligations once and might do it again.

Hon. Mr. Clark said he could not bring himself to do that. He had no objection for Northumberland was serious in moving the amendment and asking that it be accepted by the intelligence of the house. He had not brought forward one single reason why it should be adopted.

On the amendment being put it was declared lost by the following vote: Messrs. Stewart (Northumberland), Stewart and Swim—2. Messrs. Hon. Messrs. Clark, Landry, Morrison, Murray and Wilson, Messrs. Woods, Jones, Guthrie, Slipp, Baxter, White, Carleton, Stewart (Gloucester), Robichaud, Glaser, Dickson, Carson, Young, Morchison, Pinder, Tilley, Grunna, Lockhart, Perley, Dick, Hatch, Foy, Stewart (Restigouche) and Culligan—38.

The motion to have the bill read a third time then passed without division.

Mr. Guthrie moved that progress be reported on the bill to incorporate the New Brunswick Veterinary Association.

Mr. White (Carleton) protested, and said that the bill had been passed by the committee on corporations with certain amendments after much consideration.

The bill to amend the Judicature Act was agreed to with amendments.

The house went into committee with Mr. Young in the chair and took up the consideration of the bill land titles act 1914. This bill provides for the appointment in each county of an official to be known as the "Master of Titles" who must be a barrister of not less than ten years standing, to whom any person owning real estate may apply for a certificate showing that he is possessed of an absolute title to the estate that he owns.

By this means the person came to sell the whole or any part of such estate the trouble of looking up the title to it would be done away with. The office of such an official would be that of the registry of deeds, and the cost of the search prior to obtaining the certificate is payable by the applicant. Provisions are included in the bill for giving notice to every one who may have any claims against any part of the estate under search, and a right of appeal is provided for to the supreme court.

So far as I am able to learn the request made by the honorable attorney-general is entirely unsupported by precedents, either parliamentary or legal.

of the legislature, it meant that the entire work would be tied up for a year; it also meant that the province would have to pay a large sum of money out of the treasury for interest on bonds now guaranteed, but with that reckless disregard of the people's interests which had marked the career of those gentlemen down through year after year, they still continued to demand that this bill be not passed. No greater calamity could be imagined for the province under the conditions in this bill to reasonably protect the province's interest.

Referred to Royal Commission.

In the amendment to the resolution which he would propose to the house, he would suggest that those charges be not referred to a committee of the house but to a royal commission.

There were several reasons for such a suggestion as this. One was that the great majority of the members of the house are supporters of the government, and if a committee was selected from the house and only today had been composed very largely of supporters of the government. While it was felt that a committee could be named who would be able to conduct a complete and thorough investigation, and bring in a report which would be thoroughly in accordance with the facts brought out, nevertheless no committee from this house, be they angels from heaven, could make a report which would be satisfactory to the hon. gentlemen opposite and their friends and the press supporting them.

PROTEST TWO WHO
DENY VIRGIN BIRTH

Orthodoxy of Union Seminary
Graduates Attacked But They
Are Accepted

(New York Herald.)
Two of seven young candidates in the graduation class of the Union Theological Seminary who yesterday were licensed to preach by the Presbytery of New York were accepted under protest from Rev. Dr. John Fox, secretary of the American Bible Society, who held that there were unorthodox in that they did not believe that Christ was of virgin birth and that they did not accept the Biblical details of the building of the Tabernacle.
The identity of these two was not disclosed, the presbytery conducting its three hours of questioning of the candidates behind closed doors. After listening to the protest against the two the presbytery appointed Rev. Dr. George Alexander, of University Place Church, and William H. Parsons, an elder in the Madison Avenue Church, a committee to answer the protest.
The seven from the Union Theological Seminary licensed to preach, among them being the two against whom Dr. Fox protested, are Hugh L. Forman, assistant at First Church; Lyman R. Hartley,

AN AMAZING CURE FOR NEURALGIA
MAGICAL RELIEF FOR HEADACHE

Nerviline is the Most Effective
Remedy Known

The reason Nerviline is infallibly a remedy for Neuralgia, resides in two very remarkable properties Nerviline possesses. The first is its wonderful power of penetrating deeply into the tissue, which enables it to reach the very source of congestion.
You know when a congestion is overcome, pain ceases—
Nerviline possesses another and not less important action—it equalizes the circulation in the painful parts and thus af-

fords a sure barrier to the re-establishment of congestion.
You see the relief you get from Nerviline is permanent.
It doesn't matter whether the cause is spasm or congestion, external or internal; if it is pain—equally with its curative action upon neuralgia—Nerviline will relieve and quickly cure rheumatism, sciatica, lumbago, strains, swellings or enlarged joints and all other muscular aches.
Nerviline is a guaranteed remedy. Get the large 50-cent family size bottle; it is far more economical than the 25-cent trial size. Sold by dealers everywhere or direct from the Catarhosone Co., Kingston, Canada.

Only the orthodox of those candidates from the Union Theological Seminary was questioned in the long session. Louis H. Ordle, of the Bible Teachers' Training School, and Ellinwood Frost, secretary of the National Bible Institute, were accepted without question and licensed to preach.

Rev. Dr. H. M. MacCrosken, chancellor emeritus of New York University, was elected moderator. Dr. Alexander was elected to lead the delegation from the New York Presbytery to the General Assembly in Chicago next month.

Some of the Appliances Shown at
Convention of Surgeons in New
York

(New York Herald.)
Marvels of ingenuity for aiding the maimed were shown yesterday at the International Surgical Congress now in session at the Astor Hotel before delegates from the great European centres as well as from the leading cities of the United States.

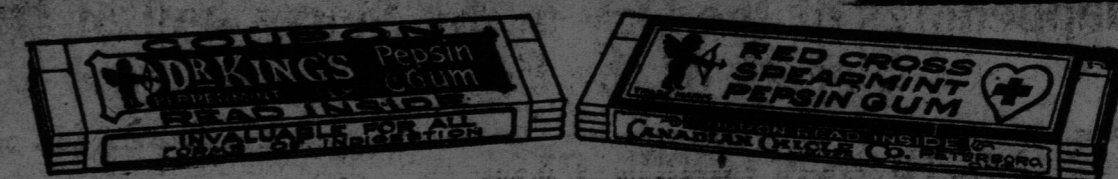

These were exhibited in the reading of papers devoted to the repair of broken bones by which the surgeon becomes the skilled artificer as well as the man of science. Fractures which once defied the best efforts of surgical skill may now be reduced with ease. Not the least remarkable of the contrivances to be seen were artificial arms worn by a group of one armed and armless men, who were showing artificial limbs which seemed to have the functions of life.

If such contrivances continue to develop the man who has suffered an amputation will not be much handicapped in the race of life. Perhaps he may be better off, for some of these arms are so trained that their nimble fingers will pick up dimes and pennies and put them in the pockets of their owners, but refuse to take out any money. The only way that a man without any arms can part with his money these days is to have it in calling cards, which can easily be handled with artificial fingers.
Wonderful Artificial Arms.

There are artificial arms which merely fill sleeves, others which have some traces of motion, but recently there have been developed and tested arms which are so perfect that the hands of them are increased in gloves would easily pass for the real ones, as far as any action is concerned. By deft management a man who has no trace of arms at all except stumps two inches long can perform prodigious feats. He can carry his own luggage, light cigarettes, keep up his prowess at trancer and flagon and go blithely through life.
Much of the discussion of the afternoon was concerning amputations, and it naturally followed that surgeons who had taken away the arms of a man should give him a reasonably good substitute. The inventor of one brand of artificial arms was asked how he happened to devote so much of his time to the perfecting of these contrivances. He said that he was a mechanic in a Pittsburgh factory when he lost a considerable part of his right arm, and not being able to get another one which suited him he worked two years in devising one which would do everything but "take money out of the pocket after putting it there. So there came into being an arm factory where pulleys and rotary joints and ratchets and such things were converted into useful members.
Armless Men Made Useful.

The factory is largely manned by those who are lacking an arm or two. The salesmen have no arms, and yet all seems to go as well as could be expected of human beings who had all the limbs the laws of nature allow.
The removal of members so valuable as hands and fingers, said Dr. P. Von Kusanik, professor of surgical operations at Budapest, should not be made until all other methods have failed.
"Before proceeding," continued the Austrian scientist, "we are in duty bound to essay every physical method of treatment at our disposal. For the amputation of the hands and fingers our modern methods have given good results, but I am of the opinion that for the hands or fingers we should be as conservative as possible."
The afternoon session was given up entirely to the technique of amputations. Papers were read by Dr. Wilsel, of Dusseldorf, Germany, on "The Amputation of the Forearm"; Dr. Ceci, of Pisa, discussed the amputation of the hand, and Dr. J. Feitshorn Blaise, of Kansas City; Dr. Rurand, of Lyons, and Dr. Ranzl, of Vienna, discussed various amputations. It was noticeable through all the papers that the surgeons were inclined to be conservative and that they went to unusual pains to retain as much of the muscles as possible. This being an age of machinery, and of quick processes, the number of maimed legs and arms seems large and amputations have considerably handicapped many in the race of life.
The papers and the various appliances on view, brought either by the surgeons themselves or exhibited by manufacturers, indicated that the ingenuity of both the scientist and the artisan is being employed in every direction to lessen the disabilities of those whose injuries are such that they might in other days have become public charges.

LEGION OF HONOR NOW
INCLUDES MANY WOMEN

Three Queens Among Those Who Have
Received Coveted Decoration From
France

Since the Legion of Honor was instituted by the great Napoleon in 1809 many French women and a few foreigners have received the coveted decoration.

Although an "admitted principle" that the cross which bestowed on women should be for works of charity and goodness—a principle which seems to have been fairly generally adhered to in earlier years, with the great exception of Rosa Bonheur—in latter years this rule has been greatly extended, and besides good works and patriotic deeds we find in the list, besides three queens, women renowned in art, science, literature and education. Others thus distinguished include Mme. Doda, a postmistress at Pithiviers during the Franco-Prussian war, who instead of transmitting a message destroyed it—for this she was condemned to be shot by the Germans, who occupied the place. On the arrival of Prince Frederick Charles, however, she was not only released but the prince complimented her on her courage.

Mme. de Rosthorn, an Austrian lady, who during the war in China in 1900 helped most valiantly in the defence of the French Legation and was badly wounded; Soeur Candide, who founded homes for consumptive children; Mme. Carlier, who during the massacre of the Armenians in 1897 helped the refugees in every possible way and protected many of them in the French consulate at Siwas, which, revolver in hand, she helped her husband to defend, also have been awarded the cross.

Peace, however, has also her victories, and others who have gained the coveted cross include Mme. Bottard of the Salt-petriere ward for nervous diseases. She had been in the hospital for forty-seven years and entered it as a servant at the age of twenty her work being to attend on the mad women. The city of Paris also awarded "Maman" Bottard a gold medal.

Acid Stomachs Are Dangerous

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a diseased condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers.

GRACE GEORGE IN THE REVIVAL OF FITCH'S TRUTH

CATHOLIC THEATRE MOVEMENT

New York Campaign Against Some Classes of Productions - Kirk Brown to Pennsylvania For a Summer Engagement

Grace George, in the revival of "Truth," a four-act play by Clyde Fitch, which opened last week in Waterbury, set with general favor by a most critical audience at \$2.50 top. It will now play at the Little Theatre, New York.

"The Lure," a white slave play, has been banned in Pittsburgh. This was done not by the police, but by Harry Jarvis and Manager J. P. Reynolds of the Alvin theatre. The play was booked for this week, and would have been a success in a financial way. The management, however, decided to do without it.

The Catholic theatre movement in New York was given great impetus at a meeting on Sunday night at which the ex-plays came in for a good deal of spicing. It was agreed that the stage was not the proper place for the teaching of sex problems and steps were taken to withhold Catholic patronage from such performances. Those in attendance were also urged to create sentiment against attending the theatre on good Friday so that it will be no longer profitable for the theatres to be kept open that day.

The Academy Players will close their season on May 2, after thirty weeks of brilliant business, and will open again next October. Sidney Toler and Jane Morgan have again been engaged to play leading roles.

Sex and problem plays dealing with the questions of modern life were discussed by Dr. Harris Franklin Roll in a talk on "The Drama As a Teacher of Social Truth," before the Social Service Department of the Woman's Club in Detroit last week. Doctor Roll declared the portraying of social evils had its place on the stage, and helped up the Damaged Goods as one of the greatest dramas of modern times, and of immeasurable spiritual and educational influence.

Doctor Roll divided plays roughly into three classes—those dealing with the human movement, or the questions of a master of which he cited Brieux; those having an ethical purpose, such as the works of Charles Fennell Kennedy, and those dealing with industrial problems, in which connection he discussed the plays of John Galsworthy.

"The stage is admirably adapted to showing forth of social and industrial problems," he said. "The drama should not portray realistically the life of the people. Social evils can only be cured by showing people the misdeeds of lives caused by them, and that is the mission of the stage today."

Myrtle-Harden Co. opened this in an indefinite engagement at New York, N. J.

Mr. Brown, who has not visited St. John this season, will play a summer engagement this year at Lake Montezuma, Pa. Manager Macaulay is now arranging for the play.

The following scathing article is clipped from the Dramatic Mirror. The moral supervision of the theatre in Toronto is in a very curious state at the present time. Every entertainment is subjected to the inspection of two censors who focus their intellects on each episode, and try to ascertain by careful observation whether their souls are becoming perverted, and hence, whether the souls of others—perhaps, more soulless persons, are likely to be similarly perverted, and hence, whether they suggest some changes which the management is compelled to make.

After that the police casually step in to see whether the censors have done their duty. But this is not enough to keep the shine on public morals! On top of all this, the famous Committee of Forty, of which the late advertised Rev. John Coburn and his clerical associates are the ring-leaders, steps in and attempts with much zeal to censor both the censors and the police, writes Mrs. W. M. Davidson in the Calgary Alberta. This was the organization which stirred up all the rumpus about that play Debarah, which was "tried on the dog" in Toronto last winter. Certain members of this committee now propose to seek the cancellation of license of a prominent theatre which housed a burlesque entertainment last month. The theatre in question has recently made more plays of Shakespeare this season than have ever previously been in the course of a single year in that city, and the general order of the entertainment there has been from a moral standpoint, at least, of a higher order than usual.

The management has almost entirely side-stepped the supercilious sex-dramas, which have overflowed the stage of New York this season. According to the critics the burlesque in question was boisterous, but not nasty, and a number of the extremely pretty girls displayed their two legs, and the graceful curves of body with which nature has endowed them. The ministers did not approve, and they are striving to make out that the theatre is technically a "disorderly house," and to have it closed for the remainder of the season.

Toronto must be a very bad city at heart. They have been loudly reforming it for the last decade and it still remains the city where unscrupulous women are subjected to more offensive "mashings" than anywhere else in Canada.

"Peter Pan" came back to the Empire Theatre, New York, this week. Miss Maudie Adams appeared again as Peter, the boy who would not grow up, and was once more the personification of joy and eternal youth.

Oswald Stoll, manager of the London Coliseum, will begin a novel vaudeville experiment on April 20, when he will produce what he describes as a "serial" play. In other words, the first act of a popular play will be given one week, and the remaining acts in each successive week until the play is fully represented.

The experiment will start with Charles Klein's "Find The Woman," which is the English title of "The Third Degree." Arthur Boucher and his wife, Violet Vanburgh, will still be in the leading roles.

Will Give Up Post As Yacht Club Commodore

Aemilius Jarvis, one of the best known yachtsmen in Canada is to retire on April 28th from the commodore-ship of the Royal Canadian Yacht Club, after holding the position for eleven years. The club's flagship Zebra shown in the group is typical of the fast cruising type of yacht. She combines very fair speed with the maximum amount of accommodation. She is handsomely finished inside in butternut and mahogany, has four independent staterooms and one main saloon 12x14 feet floor space; splendid galley accommodation, and accommodations forward for six hands. This yacht has cruised down the Atlantic coast as far as Philadelphia. Mr. Jarvis is also known widely as a horseman. The four horses shown in the illustration are the property of Mr. Jarvis and are the huster class. Fifteen hundred dollars would not buy any one of them. Note the immense forearm and short cannon bone of the horse nearest the camera. This is an imported horse of stands seventeen hands, weighs more than 1,375 pounds. Note the difference in the cannon bone of this horse and the right centre which is a Canadian bred horse. It shows plainly the effect of non-effect of breeding to bone. Whilst he is a handsome horse and has won many prizes he lacks the strength of the one to the left.

ANNE MORGAN EATS HER LUNCHES WITH HER WORKING GIRL FRIENDS

Miss Anne Morgan takes most of her lunches at the new "Spug" restaurant that has recently been opened for the working girls of lower New York. The restaurant serves to the member of the "Spug" club appetizing food, served in the daintiest manner. Miss Morgan is a woman of the simplest tastes, both in her dressing and eating, and if one should happen in the "Spug" restaurant at luncheon time one might not realize for the moment that the gray-haired woman with the strong face and ordinary black gown and hat was the daughter of the late ear of finance, rather she might be taken for a self-respecting business woman of moderate income.

MOVIES "HEALTHFUL"

Ruling of Judge in Case Against a London Municipality Hearing a case in the Chancery Division a few days ago, Mr. Justice Dive expressed some interesting sentiments in regard to moving pictures. The case was a motion for an injunction to restrain the Corporation of Shorehitch from permitting the Hoxton Public Baths in Pittfield street from being used as a cinematograph theatre, and to restrain Charles Frederick Wright from using the baths for the purpose of moving-picture entertainments.

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP--25 CENT DANDERINE

Girls! Girls! Save Your Hair Make it Grow Luxuriant and Beautiful If you care for heavy hair, that glistens with beauty, and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff, you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes later you will say this was the best investment you ever made. We sincerely believe, regardless of anything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it--no dandruff--no itching scalp and no more falling hair--you must use Knowlton's Danderine. If eventually why not now?

STAGE BEAUTIES WHO HAVE MADE LARGE FORTUNES

Lotta Crabtree Has Become Millionaire OWNS MUCH IN BOSTON

Maggie Mitchell, Mary Anderson, Julia Marlowe, Maud Adams, Viola Allen, May Irwin and Billie Burke Also Rich

(New York Sunday Sun) In Boylston street in Boston not far from the Touraine Hotel is a hotel of much more modest character. Its patrons have been commercial travelers--it enumerates among its attractions large sample rooms--actors and the sort of public eating place that plays a part in it rather than fashion. Actors who happen to visit this hotel find a special appropriateness in selecting it for their stay in Boston. It is owned by Lotta M. Crabtree, the richest actress in this country, if not in the world, and there she lives today.

In these modest quarters dwells the woman set down by the last assessment list in Boston as the sixth largest holder of real estate in the city. Her holdings are assessed at \$1,473,000, while her personal estate is valued--for purposes of taxation, just as the other estimate was at \$25,000.

As Miss Crabtree has in addition holdings of valuable real estate in New York and other cities of the country there can be little doubt that she is the richest actress in this country, if not in the world. And she made her fortune out of her profession. Of course economy and judicious investments have helped to swell her savings. But this fortune had its beginning in the nuggets that the miners used to throw on the stage when in their California music halls--crude and rough as they were--Lotta, as she was known throughout her long career, laughed and sang and danced for them.

Miss Crabtree had a long career. She was one of the most popular of the stars who came to the West Coast when the theatre was in its heyday of her popularity. She sang and danced in plays written for her that showed her talents at their best.

Sometimes she essayed a real character, as in "Little Nell," which she acted, and once she had a version of "Mlle. Nitouche," which she did in her later days at Daly's Theatre. But it was in "The Little Decidives," "Bob," "Zip," "Pirately," "Musette"--was she the little circus rider in that play?--and a string of other farces written to exploit her banjo playing and her singing that she was best known. She was a type of actress that has disappeared altogether from the stage.

Lotta was born at 750 Broadway in this city in 1847, and her family went seven years later to California. There she sang as a child and then came East to try her luck here. Although she had starred for two years in the western theatres it was not until she played in John Broughman's adaptation of The Old Curiosity Shop, acting both Little Nell and the Marchioness, that she passed out of the stage of a popular performer in various concert halls and minstrel shows. From the time New York started to rush to see her in this play in 1867 she was one of the most popular stars in the country.

Not only in this part of the country could she count on big business, but she was as beloved throughout the south as she was anywhere else. Her companies were small and the expense of her productions light. From 1867 down until 1884 she was an immensely popular star rivalling every year the most prosperous actor ever known in this country.

It must be remembered that Lotta made her great fortune at a time in which there were not so many actresses in proportion to the population of the theatre goes as now and the career of a favorite was much longer than it is today. She was in the heyday of her popularity for almost thirty years. She could keep on acting whatever the play in which she appeared might be. The public never weariied of the actress and did not bother about the play. Now it is the play which determines the popularity of the actress. Charles Frohman has given it as his opinion that except in unusual cases the career of an actress is limited to ten years.

Maggie Mitchell, who played in "Fanchon, the Critchell," "Loris," a version of

"I tried Cuticura Soap and Ointment. I put the Cuticura Ointment on my hands after washing them with the Cuticura Soap and in two weeks they were perfectly cured." (Signed) Miss Bridges A. Bristol, May 17, 1913.

FOR PIMPLES AND BLACKHEADS

The following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on pimples and blackheads. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Cuticura Soap and Ointment sold everywhere. For liberal free samples of each, with 25-cent book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

Gatlin 3 Day Liquor Treatment is Guaranteed. No matter what your opinion or prejudice may be, the fact remains that the Gatlin 3 Day Drink Treatment does the work. It thoroughly eliminates every vestige of the stored up alcoholic poison from the system in just 3 days, and leaves the patient in the condition he was in before taking his first drink.

12 Tumors Removed Without An Operation. Dear Mrs. Currah--I am enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health and think Orange Lily is the greatest treatment for women of the world known.

Radway's Ready Relief. Jacob Abbe of St. P. D. No. 1, Milwaukee, W. I., writes: "For the last three years I have had backache and rheumatism, and I have tried every remedy I could get my hands on, but nothing would help me. I was in St. Paul, Minn. when I met Mr. J. M. Radway, who showed me his Ready Relief. I gave my back and limbs a good rubbing, and in a short time the pain was all gone. No one in this world knows how I enjoyed the relief. I was in St. Paul, Minn. when I met Mr. J. M. Radway's Ready Relief."

CURES LUMBAGO. Radway's Ready Relief would be well rubbed over a large surface, until it grows as red as a beet, with a burning sensation. Few cases of lumbago are cured in this way. Some cases are cured in the following way: Rub over the lumbago with a towel.

NATIONAL LEAGUE RACE AS IT LOOKS TO FULLERTON AFTER SEEING THEM IN TRAINING CAMP

By Hugh S. Fullerton

New York Giants should win the National League pennant again. The clubs that are improving have not yet reached the state of perfection to make it seem logical that they can defeat McGraw's team. The ones that have been closest to the Giants in form are slipping back.

Only Pittsburgh of the other seven seems to have any real chance to beat the Giants. Yet Pittsburgh certainly is not as strong a team as it looked to be last season.

The Giants are not as good a team as they were a year ago—unless some of the young material shows better than it has done. The pitching department is weaker. The pitching staff is about the same—the most consistent in the country, and consistency is what counts. Third base is a frightful vacuum.

Pittsburgh's strength is with the improved first base and the renewed spirit. Wagner will be the best shortstop in the league this season, as he always is when in condition.

After Pittsburgh, Boston looms strongest. This team is a bidder for high honors. The acquisition of Evers makes the infield a wonder, and the outfield is good enough. The team is working wonderfully well for Stallans, is perfectly trained, and will show a lot of baseball. Much depends upon the pitchers. Tyler ought to have a great year, judging from his training season form. James looks good, and League, the Cuban, may help a lot.

Cincinnati is the most prominent of the resurrected dead ones. Henney has made this team the big question mark of the circuit. Of course, the team still lacks much of being perfect. Pitching is the weak spot. The bats cannot hit hard enough to average five runs a game, and their pitchers allow almost that average.

It is hard to see how a club as strong individually as the Cubs can be far down in the race, yet I expect it to finish sixth or below. O'Day is not a good manager, and there is a lot of bitter feeling and disgruntlement in the club. Besides it has weak spots. The infield is worse than last year's and weaker in hitting and base running. The outfield is mediocre, save Schulte.

Brooklyn shows little improvement. It has a lot of strength hidden around, but leading and confidence and the habit of losing has hurt it.

Philadelphia is all shot to pieces. Besides what the Feds did to it, there is dissatisfaction and ill feeling, cliques and disturbances.

St. Louis ought to improve a little, because of the acquisition of the tie from Pittsburgh, but not much. It looks to be the same hopeless tail ender.

DIABETES

Most Dreaded of All Diseases Can Now Be Cured

The name "Diabetes" has formerly been dreaded as much as the deadly cancer, and was considered incurable until the discovery of Sanol Anti-Diabetes, a remedy that has proven its efficiency in numberless cases, many of them of as long as fifteen years' standing.

SANOL ANTI-DIABETES is a remedy prepared specifically for one disease and we have absolute proof to offer you testimonial after testimonial from sufferers who have been cured.

It is only in the past two years that this remedy has been available to the Canadian public and during that time it has won a reputation that extends from ocean to ocean—one sufferer is cured, and he immediately spreads the glad news to others.

If you are troubled with Diabetes, try **SANOL ANTI-DIABETES** at once. It will CURE YOU.

Write for our medical booklet which gives full particulars of our treatment of diabetes, and the unsolicited testimonials of prominent patients who have been cured.

"Safety First"

Some men, sometimes, can board the flying street car or "monkey with the buzz-saw" in a mill or factory, and get away with it. But that's how accidents happen. Some men, sometimes, can shave with an open blade razor and avoid cutting themselves. But thousands agree that the chances are against it.

Gillette Safety Razor

was the practical forerunner of to-day's "Safety First" movement. What engineers are doing now to safeguard tools and transportation, King C. Gillette did ten years ago for that much used tool, the razor. And while he made the razor safe, he also made it keener, harder and handier than the old open blade.

That thin, electrically tempered blade, gripped rigid in the adjustable holder, gives the cleanest, smoothest and quickest, as well as the safest shave man has ever enjoyed.

Standard Sets cost \$5.00—Pocket Editions \$3.00 to \$4.00—Combination Sets \$2.50 up. At Hardware Dealers, Druggists and Jewelers.

RABBITS RAVAGE FORESTS

At a recent conference of Forestry Branch officials in Ottawa the inspectors of Dominion forest reserves unanimously agreed that thousands of acres of young trees on these reserves have been destroyed by rabbits in the last two years. The bark of poplar, jack pine and spruce seems to be equally acceptable to these rodents, and in many places so completely have the trees been stripped of bark at the base of the trunk that they have the appearance of a whitewashed forest. Especially do the rabbits like the young tender tree-seedlings in the forest reserve nurseries, and in one instance some thousands of green ash transplants were entirely consumed in one night.

It is hard to realize the great numbers of these rabbits in the west in some seasons, yet the rapidly with which they increase seems, strangely, to be one of the reasons for their periodic decline in numbers, for the western Indians state that the disease which almost exterminated them every seven years or so is due primarily to starvation through lack of sufficient food.

The Australians were put to the necessity of building a wire fence almost across their continent to protect their crops from the rabbit plague there. The forestry branch has a similar problem in protecting the forest crops in the west from devastation. It was once proposed to put a little wire fence around

each tree plant, but a forest is not an orchard, and some more practicable preventive will have to be found for the annual destruction caused by rabbits on the 56,000 square miles contained in Dominion forest reserves.

Poehler Captures First Half of Twenty String Match on Black's Alleys—Highest Single is 132

A difference of only ten pins separates Archie Walsh, world's single string bowling champion, and "Peeries" Paul Poehler, holder of the world's ten string

PAUL POEHLER

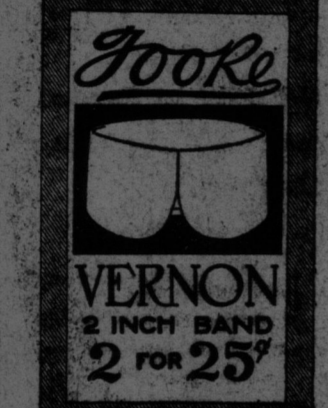

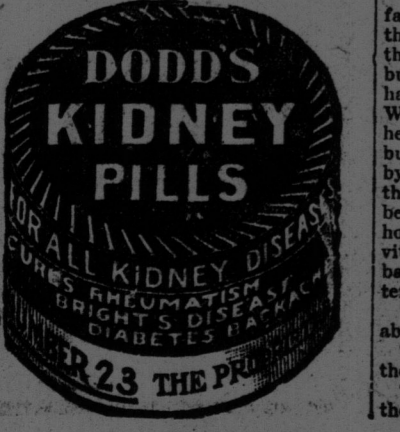

record, after the first half of their twenty-string match on Black's alleys last night. At the end of the evening's play, Poehler's score stood 1080 to 1080 in Poehler's favor. Poehler's best string was 124, his poorest 98, while Walsh, though he led consistently except for the last leg when he fell to 84, did not get over 117 on any single string.

A bashful boy, accompanied by his father, took a load of hay to town for the new minister. Just as they reached the minister's gate the load slipped off, burying the man beneath it. The boy hastened to the door to ask for help. When the minister answered his knock he began to explain about the mishap; but the cordial preacher cut him short by insisting that he come in and share his dinner—the upset load of hay could be attended to afterward. Not knowing how to refuse, the boy accepted the invitation. After the meal he pushed back his chair and looked at the minister appealingly. "I—I guess I'll have to go and see about father, now," he stammered. "Why, where is your father?" inquired the surprised minister. "He's out there under the hay," replied the boy—Magazine of Fun.

Heart and Nerves Were Bad. Could Not Sleep.

To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nerves on the jump, the heart action all wrong, and to whose eyes sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber, as they restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Charles Teal, Elmwood, Ont., writes:—"Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the least noise or excitement would make me feel so that I used to think I was going to die and I would tremble until I could hardly stand. I took doctor's medicine, but it did not do me much good. At last I tried Milburn's Heart and Nerve Pills and can certainly say they did me a great amount of good. I can recommend them to anyone who is suffering as I was."

Milburn's Heart and Nerve Pills have been on the market for the past twenty years, and have done more to steady shaky nerves and strengthen weak hearts than any other known preparation.

Price, 50 cents per box, or three boxes for \$1.25 at all dealers, or mailed direct for \$1.50. Write to T. Milburn Co., Limited, Toronto, Ont.

DR. WOOD'S NORWAY PINE SYRUP Effected A Complete Cure.

Mrs. Thos. A. Julian, Almonte, Ont., writes:—"Just a few lines to let you know how thankful I am for what Dr. Wood's Norway Pine Syrup has done for me. A few years ago I was operated on for appendicitis, and was confined to the hospital for five weeks. When I returned home I contracted a severe cold which left me with a bad cough. A neighbor told my husband about Dr. Wood's Norway Pine Syrup so I decided to try a bottle. When it was finished it had done me so much good I took another which completely cured me. I can very strongly recommend it."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the famous Norway pine tree, which makes it the very best preparation for Coughs, Bronchitis, and all Throat and Lung troubles.

Price, 25 and 50 cents.

See you get "Dr. Wood's" as there are many imitations on the market. The genuine is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

YOUNG PRINCE TELLS PORTER GET BAGGAGE, NAME IS JUST "HENRY"

London, Eng., April 18.—Coming up from Eton recently, Prince Henry, on his arrival at Paddington, hailed a porter to bring his baggage to the carriage which was waiting for him.

"Anything in the van, sir?" said the porter.

"Yes," the prince answered.

"What name shall I look for?" said the porter.

"Henry,"

"Henry what?" asked the porter.

"Just Henry," said the prince. And the porter departed to look for "Henry's" baggage.

Gypsies and Their Customs

(By Gipsy Simon Smith)

Yes, I am a Romany, or Gipsy by birth. I was raised in one of the numerous camps still to be found in the forests of England. No, I do not know the origin of the Gipsies. The opinions of learned men who have made the subject their study are varied. Some declare that we were Chaldeans; others that we are one of the lost tribes of Israel. 'Tis true, and strange that most of our people have Bible names, yet they were quite ignorant concerning the Bible. I am one of a family of eleven. All Gipsies of Great Britain (and there are about 18,000) are ignorant, and superstitious. They religiously keep the Sabbath and when I was a Gipsy boy it was looked upon almost as a crime to even whistle on that holy day. A common belief among the members of our tribe was that if we picked up sticks on the Sabbath we would be forever banished to the moon and the old Gipsies used to declare that they could see a man in the moon, with a bundle of sticks on his back; his punishment for breaking the Sabbath in that manner.

Last year my great aunt, Palliance Smith, died. She was the Gipsy queen and in the English papers an account of the quaint burial rites was reported. Her age was 108. There is no reason why everybody should not live to be 100, if they live right, eat and drink as they should.

The burial rite referred to, was an old custom, that of burying the belongings of the deceased and strewing the ashes over the grave. Sometimes the catwags are worth \$200 to \$1,000, but the rite is not considered; so superstitious are they, that everything must be buried. I think the idea was that the deceased would need them in the next world, and the only way to get them there is to burn them.

The Gipsies used to have strange weddings. The young couple were betrothed at the age of sixteen. But the marriage ceremony would not be performed till two years had elapsed. Then the bride would dress themselves up in their gala attire, and make their way to a forest glade. A large branch would then be cut and on the repeating of a few words in the Romany tongue by the chief, the young couple would step over the branch; this would complete the ceremony. That was considered as binding as the ceremony performed today by the "Gorgies" or house-dwellers. Of course in these days Gipsies are married just the same way as other people.

A BRIGHT CHILD

perfectly reliable biographers, say, could read his A. B. C.'s before he was three years old. Marjorie Nash, now four years old yet and she can read Shakespeare. Marjorie, who looks more like a French doll than she does like a "blue stocking" or a prodigy, can read lots of things besides "Hamlet" and "As you Like It." She reads the Bible without a single trip of the tongue, and she reads her reports from Mexico as if they were primer lessons. Marjorie learned to read when she was three. Except for her "literary" tendency, she's quite like other little curly-headed girls of four.

THE CADET CAMP

It is understood that the Cadet Camp will be held at Sussex this year immediately after the regular military camp.

MINISTER PROBES STRIKE SITUATION

Denver, Colo., April 18.—Rev. Henry A. Atkinson, secretary of the social service commission of the Congressional church, has come to Colorado to make a thorough investigation of the causes of the strike and the conditions in the coal zone. His purpose is solely to determine what stand the church should take on the strike.

He recently reviewed the conditions in the copper fields of Michigan and his book was condemned by many because of the fearless way in which he expressed his convictions regarding it.

ARBORICULTURE SOCIETY

The report of the St. John Arboriculture Society for 1913 shows that during the year 198 trees were planted in the public streets, and that seventy-five trees and 150 shrubs were planted in the public grounds. Sixty-five tree guards were repaired and all the trees were overhauled and retied. The financial statement for the year shows receipts, including the city grant of \$600, amounting to \$918.64, the expenditures totalling \$918.11, leaving a balance due to the treasurer of \$53.53.
