SOUTH AFRICA.

Disaster Overtakes Col. Benson's Column—Large Casualty List—Kekewich Makes a Capture.

LONDON, Nov. 2.—Lord Kitchener has reported to the war office a disaster to the British near Bethel, Eastern Transvaal, in which two guns were lost, several officers were killed or wounded, and fifty-four men were killed and 100 wounded. The following is the text of Lord Kitchener's despatch, dated Pretoria, Nov. 1:

"I have just heard of a severe attack made on the rear guard of Col. Benson's column when about twenty miles northwest of Bethel, near Brakenburg, during a thick mist.

"The strength of the enemy is reported to have been a thousand. They rushed two guns with the rear guard, but it is uncertain whether they were able to remove them.

Later Lord Kitchener telegraphed as follows: "Col. Barter, who marched from the Constabulary line yesterday, reached Benson's column early this morning (Friday) unopposed. He reports that Col. Benson died of his wounds."

"The other casualties are as follows: "Killed—Col. E. Guinness, Major F. D. Murray, Captains M. W. Lindsay and W. T. Thorold, Lieuts. E. V. I. Brooke and R. E. Shepherd, and Second Lieut. A. J. Corlett.

"Died of his wounds—Captain Eyre Lloyd."

Lord Kitchener then gives the names of thirteen other officers who were wounded, most of them severely, and announces that 54 non-commissioned officers and men were killed and 100 wounded, adding that four of the latter have since died of their wounds.

The despatch then says: "I assume that the guns have been recovered and that the enemy have withdrawn, but I have no further details."

"I deeply regret the loss of Colonel Benson and the officers and men who fell with him. In Benson the service loses a most gallant and capable officer, who invariably led his column with marked success and judgment.

"The fighting was at very close quarters and maintained with great determination by both sides. The enemy suffered heavily, but I have not yet received a reliable estimate of their losses."

"The Boers retired east."

LONDON, Nov. 1.—A despatch from Lord Kitchener, dated Pretoria, received here today, says that Colonel Kekewich, during a night surprise of Van Albert's laager, northwest of Rustenburg (about 60 miles west of Pretoria), captured 78 Boers.

Briefs by Wire.

Wm. O'Brien, M. P., says a London cable, has gone on a long cruise for the benefit of his health.

The Russian battleship Perseviet, which went ashore yesterday morning on the island of Lanze, has been floated.

The Paris correspondent of the London Times and the New York Times says there is already some talk of a return visit by President Loubet to St. Petersburg next June.

WAS A CANADIAN.

ST. CATHERINES, Ont., Nov. 2.—Col. Frederick William Benson, whose death in action in South Africa was announced today, was a native of St. Catherines, being a son of the late Senator J. R. Benson. He was born in 1849, was educated at old Grantham Academy, St. Catherines, and Upper Canada college, Toronto, and received his military training at the Royal military college at Sandhurst, England. He served as a volunteer in the Canadian militia during the Fenian raid in 1888 and entered the British army service in 1892. Col. Benson saw a good deal of service in India and Egypt, and distinguished himself in the service of the empire in far-away countries. He was ordered to South Africa on the outbreak of the war in '99 and had filled a number of important posts there, being frequently in the thick of the fighting.

ELVEN ARE DEAD

ST. LOUIS, Mo., Nov. 1.—The list of deaths attributed to lockjaw as a result of the administration of diphtheria anti-toxin manufactured by the city chemists, now numbers eleven, two more deaths having been reported today. Eleven other children are reported to the health department as suffering from lockjaw with slight chances for recovery. The cause of lockjaw in each case is said to be poisoning from the city's diphtheria anti-toxin. The health department has now begun the free distribution of tetanus anti-toxin for injection into the blood of patients who have been inoculated with the infected serum and thus exposed to lockjaw. The health department has announced that no more diphtheria anti-toxin will be made by the city of St. Louis.

The investigations ordered by the coroner's jury to determine positively the cause of the deaths of the eight children who are alleged to have died of lockjaw following the administration of the city's anti-toxin, is being pushed, and it is expected it will be completed in a few days. Drs. Bolton, Fish and Waldron, three of the most experienced bacteriologists in St. Louis, are making tests with the anti-toxin and the serum taken from the spinal column of the dead children.

THE WEEK'S DEATHS.

The secretary of the Board of Health reports the following deaths for the week ending Nov. 2:—Pneumonia, 1; peritonitis, 1; cerebral meningitis, 1; consumption, 1; cerebral meningitis, 1; congestion of brain, 1; tubercular meningitis, 1; obstruction of bowels, total 9.

INTERESTING IF TRUE.

St. John or Halifax May Be Ocean Port of 100-Hour Route From New York to London.

NEW YORK, Nov. 2.—New York to London in one hundred hours is the problem which two great American railroad companies are considering two solutions, says the Journal and Advertiser. The New York Central's engineers are working out the details of a plan involving the following route to Europe, with a view of determining its mechanical and commercial possibilities:

New York to Boston by New York Central and Hudson River and Boston and Albany lines; Boston to St. John, N. B., by Boston and Maine railroad and connections; St. John to a port on the Irish west coast by a line of swift steamships to be established, by rail to Dublin; packet across the Irish channel; rail to London. Time, four days, four hours.

Pennsylvania railroad officials and Clement A. Griscom of the American S. S. company, are having brought to their attention anew the long cherished plan of Austin Corbin, who desired to establish a steamship port at Montauk Point, cutting many hours off the trip by way of Sandy Hook, and gaining through traffic for the Long Island railroad. The Corbin plan was modified and proposed to the Pennsylvania, which now controls the Long Island, making two jumps of the ocean voyage as follows:

New York to Greenport by Long Island railroad, the East River tunnel, when completed, would make this a two-hour run without change from a terminal in down town New York. Greenport to Halifax, N. S., by fast steamship; Halifax to Southampton.

DANNY MAHER

Will Get \$35,000 Next Year and May Ride King Edward's Horses.

NEW YORK, Nov. 2.—According to the World, Danny Maher, the little American jockey, is now the premier rider of the world. He has been engaged to ride the horses in charge of Trainers C. Blackwell and Richard Marsh at the combined salary of \$35,000 for next season—the highest amount ever paid any jockey in the world for a year's work in the saddle. Richard Marsh trains for King Edward VII.

The engagement of Maher as jockey is regarded as a tactical way of expressing the king's opinion that he is not prejudiced against American riders. Maher spoke to the World representative on the subject of his engagement to ride King Edward's horses.

"Why first of all, I will go to my home in Hartford, Conn., in December, but will return here in March. It is possible the king's horses may be again leased next year to the Duke of Devonshire, in which event I shall not ride in the king's colors."

FRANCE AND TURKEY.

NEW YORK, Nov. 2.—Commenting upon the departure of the French fleet for the Levant, the Paris correspondent to the London Times and the New York Times, says:

"The French opposition is now menacing the government because it sent the squadron to the Levant without the permission of parliament. The correspondent remarks that it is folly to expect that the French government would deliberately inform another government in advance of its intention to support the arguments of diplomacy by force of arms. A great majority of impartial Frenchmen support the action. It is a fact that the invasion of the brilliant and strange world of the Orient by a French fleet fires the popular imagination and relieves the monotony of events by which France has been seriously bored."

LONDON, Nov. 2.—A despatch to a news agency from Rome says that the second division of the Italian Mediterranean squadron has been called for Turkey with the object of counterbalancing the French naval demonstration.

A CUT IN SUGAR.

MONTREAL, Nov. 2.—The St. Lawrence and Redpath Sugar Refining Companies have made a cut in the price of sugar of all grades 10 cents per hundred pounds, the new tariff going into effect this morning. This action follows the action of the Halifax refinery in making a similar cut a few days ago, as well as in sympathy with the reduction made by the American refineries of 15 cents per hundred pounds.

AUSTRALIAN PARLIAMENT.

MELBOURNE, Nov. 2.—After a continuous sitting of twenty-seven hours the federal house of representatives rejected by a vote of 39 to 25 a resolution of confidence in the government, introduced by Mr. Egid, the opposition leader, in connection with the tariff bill.

MISS STONE.

NEW YORK, Nov. 2.—A despatch to the Journal and Advertiser from Sanakow, Bulgaria, says that the latest snow storms must hasten the negotiations for the release of Miss Ellen M. Stone, the kidnapped missionary, because fears are entertained about her health.

NEW CANAL TREATY.

It is Said Lord Pauncefote Has Draft of New One Approved by Government.

LONDON, Nov. 2.—The first official statement of any kind made for a month in relation to the Nicaragua canal has been obtained by the Associated Press. It confirms the fact that Lord Pauncefote, the British ambassador to the United States, when he lands in New York today, will have with him the draft of a new treaty, abrogating the Clayton-Bulwer treaty, which in every particular is satisfactory to Lord Salisbury's cabinet.

The state department does not have to see a copy of the important document Lord Pauncefote carries in order to learn its terms, though, officially, negotiations will only commence when the ambassador reaches Washington. Until then the exact condition of the new contract are withheld. Though it is admitted that Great Britain has agreed to put the Clayton-Bulwer treaty to one side and to acquiesce in the construction of the canal by and under the control of the United States, this concession from Lord Lansdowne's original contention has not been granted without some real or fancied advantage to Great Britain. It would not be fair to say that a quid pro quo constituted the main feature of the protracted negotiations, but that it will directly or indirectly result in firmly established in the minds of the members of the cabinet. One of the most responsible officials connected with these and the earlier negotiations said:

"We never really objected to the construction of the canal, but we did not object to a cavalier abrogation of the Clayton-Bulwer treaty. It was in that spirit that Lord Lansdowne couched his reply to the senate's rejection of the last Hay-Pauncefote treaty. It was not what you wanted to do, but the nasty way you said it, that was the chief reason for our opposition. Since then we have been approached in a rational, polite manner, and we have again endeavored to substitute the Clayton-Bulwer treaty in a way that will enable America to carry out a design which, in a broad sense, will doubtless benefit the whole world."

The modification of the foreign office has doubtless done more than anything else to secure the assent of the British government to a new treaty. But almost in the same breath must be mentioned the state department's willingness to agree to reciprocal arrangements regarding the British West Indies and other British possessions.

The allegation contained in some of the British papers that Lord Lansdowne has tamely given up inherent rights without any return, is strenuously denied on the foregoing grounds.

A Case of Smallpox in Winnipeg—Took Strychnine by Mistake.

WINNIPEG, Nov. 1.—A case of smallpox was discovered here last evening. The victim is James Foley, of Perth, Ont., who recently arrived here from North Dakota.

KINGSTON, Ont., Nov. 1.—The County of Frontenac yesterday voted on a by-law to grant twenty thousand dollars to Queen's university, with which to erect Frontenac convocation hall. The returns so far received indicate the defeat of the by-law.

HAMILTON, Nov. 1.—In response to a question from leading merchants Mayor Hendrie will issue a proclamation asking citizens to observe Monday, Nov. 11, instead of Saturday, Nov. 9, as the King's birth-day.

TORONTO, Nov. 2.—The coroner's jury in the case of police inspector Robert Armstrong, who died of strychnine poisoning, a few days ago, returned a verdict to the effect that Armstrong took strychnine in mistake for the opium, which the evidence shows he was in the habit of taking to induce sleep.

These four members of Toronto university faculty, who have had the standing of associate professors, have been promoted to the status of full professors—W. H. Vandermisken, M. A., German; John Squalre, B. A., French; A. B. MacAllum, B. A., M. B., Ph. D., physiology; W. H. Fraser, B. A., Spanish and Italian.

The provincial government has asked the court of appeal to decide whether the act empowering municipalities to pass by-laws prohibiting the issue of trading stamps is good law or not.

THE IRISH DELEGATES.

NEW YORK, Nov. 1.—John E. Redmond, Patrick A. McHugh and Thomas O'Donnell, the Irish nationalists who are visiting this country in behalf of the United Irish League, were tendered a formal reception tonight by the citizens committee which has charge of the entertainment of the visitors. An elaborate address of welcome was read by Thomas H. Ronayne.

DUKE AND DUCHESS IN LONDON.

LONDON, Nov. 2.—Cheers greeted the Duke and Duchess of Cornwall and York today as they passed on their triumphal return from their world tour through streets of London. The ceremonies passed off excellently. The king and his reunited family bade farewell to Portsmouth to the strains of the naval bands. All the ships in the harbor were gaily dressed, and the weather, as in London, could not have been finer.

The royal train arrived at Victoria railroad station at 12.56 p. m. Immense crowds of people gathered there to welcome the royal party.

A despatch to the New York Herald from Buenos Ayres, Argentina, says: "The government has informed the American minister that it cannot allow the importation of American cattle for breeding purposes."

ST. JOHN STAR.

FRIDAY, NOVEMBER 2, 1901.

THE TRANSVAAL DISASTER.

The disaster which has overtaken Col. Benson's column in the Transvaal is both a surprise and a shock. Occasional reverses are inevitable, but the one recorded today is exceptionally severe. The British must have been taken completely by surprise. Evidently the lessons of the early part of the war have not yet been taken fully to heart. The need of skilled scouts in such warfare as this is emphasized by every such occurrence as this attack upon Benson's column. The Boers know the country so well and can move so quickly that only the greatest vigilance can guard small British columns from surprise and disaster. A more vigorous prosecution of the struggle by Kitchener will undoubtedly follow this blow. The stubborn opposition of the Boers must be beaten down. Their ranks are being daily thinned by death or capture. There can be but one end, though it seems so long in coming.

UNITED STATES GRAIN CROP.

It is estimated that the wheat crop of the United States will be this year 650,000,000 bushels. Last year the crop was 620,000,000 bushels and that of the year before 647,000,000 bushels. This year's crop is about 100,000,000 bushels more than the average. The corn crop however is less than 1,200,000,000 bushels, and it is said that at least 2,000,000,000 bushels are required to meet the ordinary needs of the country. A statistical figure out that the loss in corn amounts to about \$300,000,000, which the increased crop of wheat would offset to the extent of \$100,000,000. Of the 650,000,000 bushels of wheat, probably nearly 60,000,000 will be needed for seed purposes, and the local consumption will be about 300,000,000 bushels. Making allowances for the extra demand for wheat because of the shortage in corn, there would still be between 250,000,000 and 300,000,000 bushels of wheat available for export.

SOUND DOCTRINE.

In the course of a thoughtful article on current civic and political conditions the Saturday Evening Post deals with those who place "the dollar mark before good citizenship." This writer points out that votes are bought by other means than the actual payment of cash, and that there are men who will support corrupt factions for the sake of trivial concessions. Urging the need of more of conscience in politics the article concludes—

The big things, the enduring things, the cleansing reforms, the noble and uplifting lives, come only from that zealous and jealous sentiment that clings to right because it is right, and to principle because it is principle. When a man begins to bargain with his conscience he sells his character to his lower self. When he compromises in convenience or in comfort he sells out just as truly as does the ignorant person who accepts money—and his guilt is all the greater because his sense of responsibility is larger. There does seem to be in all the walks of life—in our great universities and our public schools—in our shops and our department stores—in our homes and in our offices—the need of direct, vigorous and undiluted education in the higher duties of conscience and character. With such training we shall come to a time—possibly in the far future, but we shall come to it—when great cities will not look upon violation of Sunday laws and of other ordinances as perfectly excusable merely because many people prefer matters changed, or rather mismanaged, in that way. We shall come to a time when a man will be as careful with his vote as he is with his oath on the witness stand. We shall come to a time when there will be a vast majority of good citizens for the sake of good citizenship. Then we shall not be ashamed of our cities, and we shall not see vice protected at the expense of virtue.

A bill to provide for the creation of a department of commerce will be brought before the next session of the United States congress. There is a strong feeling in favor of creating such a department because of the great volume and steady increase in the foreign trade of the country. It is believed that the president is favorable to the organization of the department and that the bill will pass both the house and senate with little opposition.

SEVERELY BURNED.

Yesterday afternoon when a cast was nearly ready in Haslam & Jones' foundry Carleton, a workman threw a piece of metal against the support of the bottom of the furnace, causing it to give way. Wm. G. Haslam, one of the proprietors, was quite severely

burned on the side and arm. Hiram Riley, another of the firm, was slightly burned, and the other employees had very narrow escapes.

THE LIQUOR HABIT.

Rev. J. A. McCallen's Lecture.

On the occasion of a lecture delivered before a large and appreciative audience in Windsor Hall, Montreal, in honor of the Father Matthew anniversary, Rev. J. A. McCallen, B. S., of St. Patrick's church, and President of St. Patrick's Total Abstinence Society, paid the following grand tribute to the value of Mr. Dixon's new discovery for the cure of alcohol and drug habits.

Referring to the physical crave generated by the inordinate use of intoxicants he said: "When such a crave manifests itself there is no escape unless by a miracle of grace, or by some such remedy as Mr. Dixon's cure, about which the papers have spoken so much lately, and if I am to judge of the value of the Dixon remedy by the cure which it has effected under my own eyes I must come to the conclusion that what I have longed for twenty years to see discovered has at last been found by that gentleman."

Full particulars regarding this medicine can be obtained by writing to Mr. Dixon, No. 31 Willocks street, Toronto, Canada.

THE NEW PRESIDENT.

A Prayer.
The following poem, by Clinton Dangerfield, is reproduced, by permission, from advance sheets of the November Century:

Not for the silent chief whom Death Gently and sedulously keeps Within a splendid calm; naught mars His well-won laurels where he sleeps.

Rather for him who newly stands Half started on a slippery height, Like a strong falcon which some hand Unbanded rudely, whoms the light of Floods unforeseen, but who shall prove A wide-winged strength: For him we pray!

Give him such wisdom swift and keen He shall restore us Yesterday. (Fredericton Herald.)

People in all parts of the province will rejoice if St. John forges ahead as a result of the pleasing business outlook. That city furnishes a valuable market for the rest of New Brunswick, and while all the outside towns and villages buy large quantities of goods from St. John merchants, they also sell much to the mercantile classes in the commercial capital, and thus the dealings are mutually profitable.

From ATLANTIC To PACIFIC...

It is one continuous song of praise from Cape Breton to Vancouver Island, across our broad Dominion, from the thousands of owners of Nordheimer Pianos, that the exquisite quality of tone these famous instruments produce, unquestionably makes them the choice of all the pianos made in Canada.

The steadily increasing sales, together with the unstinted admiration of the thousands of purchasers of Nordheimer Pianos, is, after all, the best proof of their sterling merit. The Nordheimer Piano is a musical instrument of the highest quality, retaining its own peculiar charm and sweetness of tone, after many years of use and wear.

Another case has developed at Kentville this week. The patient is H. Taylor, who works with T. W. Cox. Mr. Cox's place has been quarantined.

The Designer for November, which is on sale at Dykeman & Co's pattern counter, is a very attractive number. Many handsome conceptions for evening dresses and street costumes are shown, and the number is particularly complete in its description of dresses and cloaks for children's wear. Some excellent stories fun in this number, such as The Minister's Turkey, by L. O. Lenart; and A Fair Heart and a Fair Lady, by Henry Cleeland Wood.

THE SMALLPOX.

No New Cases—General Vaccination Begins Monday.—Notes.

Although no more smallpox has been definitely reported, the health has under supervision a suspected case in the house of Solomon Brown, No. 10 Pitt street. The patient is Mrs. Charles London, a daughter of Mr. Brown. Dr. Morris was called in last evening to visit the young woman, whom he found showing some symptoms of the disease, though differing somewhat from the previous cases. Under the circumstances, he has made a definite diagnosis until today. Meanwhile the house has been quarantined and guarded. There are six of the family included in the quarantine, among them being Charles London, the husband of the sick woman. Mr. London's home is on St. Patrick street, and he and Mr. Brown are workers in Paterson tannery, where young Parker of Marsh street, who is now in the epidemic hospital, was also employed.

This morning Dr. Morris again visited the London house and examined the suspected victim. He reported to the Board of Health that he was still uncertain as to whether Mr. London has small-pox or not.

The board of health met as usual at noon today and ordered that the house to house vaccination be commenced on Monday morning.

This forenoon the schoolroom of St. John's (Stone) church, in which the Rev. John deSoyes remained for a day or two was thoroughly fumigated by the officials of the board of health.

Miss Munro, one of the patients at the hospital, whose attack was more serious than the others, is reported somewhat better today.

Mr. C. E. Debooy of City road, the mother of the girl who died last Tuesday, is seriously ill in the quarantine house. She is a sufferer from gastritis, and is almost prostrated with the strain of the past week, but has as yet developed no symptoms of smallpox.

A supply of vaccine has been ordered and the house to house vaccination will commence probably Monday. Everyone not producing a certificate of recent evidence of recent vaccination will be compelled to undergo the operation under a penalty for refusal of not more than \$40, under the Public Health Act of 1888.

All the patients of the epidemic hospital are doing well with the exception of one patient, who has developed serious symptoms. She was, however, reported last night to be resting much easier than during the day.

The hospital authorities have not yet been able to find anyone willing to undertake the duties of cook at the epidemic hospital.

At the regular meeting of the board of hospital commissioners, held yesterday, the proceedings of the previous special meeting were ratified. No bills were passed, owing to the absence of the superintendent and matron of the hospital, who are detained by the quarantine. It was announced that the epidemic hospital will be ready for the accommodation of twenty more patients if necessary.

C. P. R. STRIKE OFF.

The strike among the C. P. R. laborers at Sand Point is declared off, the men having accepted an offer of \$1.35 per day made by the company.

There were in all seventy-two strikers, and most of these live some distance from the work, but all have relinquished their demand for \$1.50, and have accepted \$1.35 per day. Twenty-five of the men resumed work this afternoon, and the others will be back on Monday morning.

THE SARDINE SEASON.

The sardine canning season up to the present time down east, has been a big success for the working people, and there has certainly been more work than in recent years since the season opened in May. Two of the St. Croix factories have already closed, and others will probably close today. It is now expected that all the Eastport and Lubec factories will shut down before the close of the season, which is December 1st.

The funeral of the late Cameron Clifford Blair, son of Andrew Blair, took place this afternoon at half-past two o'clock. The usual services were conducted at the house and grave by the Rev. L. G. MacNeill. Interment was made in Fernhill.

The cars of the royal train came to the city on the C. P. R. express at noon today and will remain here until Monday morning. They will not be open to the public.

The fine new jail building in Woodstock is nearing completion. It is a very substantial structure, and the offices, cells, etc., will be of modern design.

The thermometer at the Star office registered above 55 degrees in the open air today. Overcasts are a burden. November is treating us with great consideration.

Returning.—Bad pennies and swallows always return, and cats are apt to come back. Umbrellas are different, they are never returned. Returning means going back, but it is poor return to go back on a friend. There are different ways of turning; a pretentious person who turns around, but if she turns up her nose, you get turned down. To turn down the light is a sign of affection; to turn up your pants is affection; but to return to our subject: We are going to put on sale tomorrow, Saturday, 20 doz. Florence Linde Underwear, with a "pure wool fleece," at 60c. a garment. This lot was bought for a Saturday special, and anyone making a purchase is sure to return to us for other goods, as they are the best value ever offered in this city at the same price. Wm. A. Wetmore, 158 Mill street.

President Roosevelt today issued his proclamation fixing Thursday, Nov. 2, as a day of national thanksgiving.

Empress of China sailed from Yokohama for Vancouver yesterday.

POLICE COURT.

A Heavy Family—Stealing Coal and Groceries—One Drunk.

As a result of information given to the police by J. B. Gibbon & Co., a seventeen year old boy, James Lowell, employed by them as a driver, was last night arrested on suspicion of stealing coal. The story is that Lowell, assisted by another man, has been in the habit of taking coal from cars in the I. C. R. yard and selling it to parties about town, one of the principal buyers being a restaurant keeper on Germain street. The prisoner was brought before the magistrate this morning and remanded till Monday.

Yesterday forenoon a squaw by the name of Jane Ackman, who was accompanied by two young children, fell asleep between the rails at the I. C. R. depot and was removed by the I. C. R. police. She joined her husband a short time afterwards, and together the family paraded the streets until shortly after noon, when they found themselves on Brussels street. Here the squaw, feeling fatigued, composed herself to rest, leaving the brave to attend the children. In a few minutes Sgt. Campbell appeared on the scene and had the squaw conveyed to the central station. Ten minutes later she was again sound asleep. In the meantime her husband, who was amazing celerity and two papagoes had maneuvered to Wellington Row, and, finding a suitable spot on the pavement had followed his wife's example and gone to sleep. The children were in a state of agitation, having no one to care for them, but were along with the father lifted into an express wagon and given a cell in the central next door to their mother, whose snoring could be heard throughout the building. This morning in the police court Gabriel, the husband, explained that his wife was not drunk, but that she was subject to fits and always took them after having had a drink. And, worst of all, he had to keep giving her drinks every few minutes. The family was released without a fine.

Yesterday afternoon Mrs. Harrington, who keeps a grocery store on Gilbert's Lane, reported to Officer Greer that a bottle of pickles and a quarter gross of matches had been stolen from her establishment. Greer instituted an enquiry, which this morning resulted in the arrest of a twelve year old boy by the name of McElhinney on suspicion of having done the stealing. By a number of children in the vicinity of the store the officer was told that McElhinney had taken the articles and stowed them away inside the blouse worn by a four year old child by the name of Northrup, and had got them away in this manner. The boy McElhinney was brought before the magistrate this morning and remanded.

William Taylor, for being drunk on British street, was fined four dollars or ten days and paid.

An assault case between two employees of the Victoria hotel was settled, the parties agreeing to call it off.

D. A. R. STRIKE.

The annual fall strike on the D. A. R. steamship line is now in progress, but it does not in any way interfere with the running of the Prince Rupert. The company has offered two scales of wages, one for summer and the other for winter, and the strike is the usual result of the adoption of the winter scale. During the summer the deck hands receive \$25 per month and the firemen \$30, which amounts are in winter reduced to \$22 and \$27, respectively.

On Thursday evening upon the arrival of the Prince Rupert in St. John the stokers and deck hands immediately quit work, but started again, being paid by the hour.

They refuse to go back at the lower rate of wages, and the company have engaged other men. The Rupert sailed this morning with almost her usual number of hands and the company have in Digby all the men they want to attend the boat while there. It is expected that as has previously been the case, the men will all return through the winter. One man applied for a job on Thursday night, but shortly after signing articles disappeared. He will probably be given in charge of the police when the steamer returns.

NELL GWYNNE TONIGHT.

The Bohemian Girl drew a very large house to the York Theatre last evening, and the Robinson Opera Co. scored another success. The singing, the stage effects and costumes were very attractive, and the performers were heartily applauded. The principal parts were admirably taken, and the tuneful music was greatly enjoyed. This afternoon Said Pasha is being produced to a large house, and this evening the present engagement of the company ends with the production of Nell Gwynne. The company expect to return to St. John soon, and they will be heartily welcomed.

A regrettable feature of last evening was the conduct of the youths in the gallery, which was crowded. They kept up a racket, for which they should have been summarily ejected from the house. They paid to see the show, not to annoy those who wanted to listen and watch the performance.

RECENT DEATHS.

Amos Mott of Central Cambridge, Queens County, is dead, aged 91 years. Dr. Mott and H. H. Mott, of this city, are sons.

Samuel Leuckery, of Norton, died on Thursday, aged 66 years. He leaves a wife and three small children.

Joseph Kaye died last night at Halifax, aged 82 years.

John Patrick Cahill, a former baseball player, familiarly known as the "White Wings," and the original "Casey at the bat," is dead at Pleasant Cal. His death was due to consumption.

Captain John Lorway, a well-known citizen and former ship owner of Sydney, is dead, aged 75 years. One son is in South Africa.

The death is reported of Mrs. Bridget O'Neill, widow of Philip O'Neill, which occurred yesterday at the residence of her daughter, Mrs. Patrick McBride, on Lombard street. Mrs. O'Neill was eighty-seven years of age. She leaves two daughters, Mrs. Patrick McBride, Mrs. Philip Geary, and three sons, James, of Coldbrook; Dennis, of Main street; and Felix, of Water street. Her funeral will take place at half-past two o'clock tomorrow.
