

ORANGEMEN EVERYWHERE CELEBRATE THE 12th.

A Great Parade at Fredericton--Speeches by Grand Master H. F. McLeod and Others--Celebration at Shubenacadie was Marred by Drowning Accident.

The Glorious Twelfth did not lose any of its reputation in yesterday's celebration. The weather was glorious, the trains and steamboats fitted in nicely; no accident marred the proceedings and one of the best twelfths in New Brunswick's records has been celebrated. The greatest interest centered at Fredericton, where the quintessential grand lodge was holding its meeting, and hither thousands of the brethren followed. The other excursions were, however, well patronized, and William III. and the Boyne were kept green (or orange) in the minds of the people.

FREDERICTON, N. B., July 15.—The glorious twelfth was celebrated in right royal style by the Orangemen of New Brunswick today. The weather was all that could be desired and all the proceedings were carried out without a hitch. From an early hour in the morning people began to pour into the city from the surrounding country and the streets soon became a mass of moving human beings. The stores and buildings along Queen street were gaily decorated with flags and bunting and this added to the brilliant regalia of the Orange orders presented a most imposing scene. The whole town took on a holiday appearance and seldom if ever did the city present a livelier picture. The first visitors to arrive came last evening and included a number of delegates from Bangor and other Maine towns.

BY TRAIN AND BOAT.

This morning the visitors first of all came in teams and then shortly after nine o'clock the St. John train brought about 375 people, including delegations from the different Sunbury Co. lodges. These visitors came independently, and the first attempt at formation for procession was after the arrival of the two morning boats from down river and when the western train came in.

MUSCULAR MEN LIVE LONGEST.

CHICAGO, July 10.—Fat and lean men are now defied by the heavy, muscular man. Ten of the leading insurance companies of Chicago taking life risks have been revising their mortality tables in favor of the "heavy, active man" and against the fat and spare man. This change in premium rates and risks is not confined to Chicago—it is a national movement inspired by the medical examiners of the life insurance companies. As one of the medical examiners said recently: "In the early days of figuring mortality averages there is no doubt that the man who was lean had an advantage. The thin man was a preferred risk with many companies—in fact, with the majority. "Two decades of collecting statistics on the general average of life have brought the life insurance companies to some new conclusions, based wholly on the actual physical condition of the applicant for insurance. These conclusions favor the heavy, active man, discredit the ordinary fat man and leave the lean man in a state of doubt. The latter is no longer the favorite. "Life insurance risks for the last 20, and even 30 years, show this, and I am taking the reports of over 20 leading companies. "The lean man is nervous, worries and gets tuberculosis. The fat man eats and drinks too much and is a victim of heart disease or apoplexy."

ROOF GARDENS IN ENGLAND.

LONDON, July 6.—The roof garden craze has struck London at last. The first of London's public roof gardens is being arranged for opening at the Westminster Electric Supply Corporation's new transforming station in Duke street, Grosvenor Square. It will be laid out in Indian style and it opens up possibilities in the utilization of many wasted spaces on top of London buildings. If it proves to be a success, as it now seems certain it will, the metropolis may soon be graced with many similar attractions. The site of the building was formerly a private garden belonging to the Duke of Westminster, but the corporation obtained permission to build upon it on a condition that they made an undertaking to maintain a roof garden which should always be open to the public between sunrise and sunset. Seats are being provided, and Westminster's "garden in the air" promises to be one of the most restful and picturesque spots in London.

REDUCTION IN SUGAR.

SAN FRANCISCO, July 13.—A reduction of 20c per hundred pounds in all grades of sugar has been announced. The cut is attributed to the weakness of the raw sugar market, the price of that article having recently dropped 11-14c per pound.

GERMAN-SWEDISH ALLIANCE.

STOCKHOLM, July 13.—The Associated Press is able to state on good authority that a German-Swedish alliance is seriously contemplated.

LORD ROBERTS' PLANS.

MONTREAL, July 13.—The Soldiers' Wives' League of this city has received a communication from Lord Roberts' aide, stating his plans for his visit to Canada are as yet unsettled and no definite engagements have been made. The league offered his lordship an afternoon reception, at which it was hoped officers of the militia and their wives could meet him and Lady Roberts, for which he expressed thanks.

DARING ATTEMPT TO BLOW UP THE TSAR.

250 Pounds of Dynamite Under His Bedroom—Regiments Mutiny at Moscow—The Bombardment of Karsakorsk.

NEW YORK, July 13.—A World dispatch from London says the following from the Vienna correspondent of the Daily Telegraph: Private letters from St. Petersburg state that the police have discovered elaborate preparations for blowing up the Castle of Hilsnake near Moscow where the Czar with the Imperial Family intended to take up a brief residence. Beneath the apartments destined for His Majesty's use a subterranean passage is said to have been found leading to a cellar where 250 pounds of dynamite lay concealed.

The police have made many arrests, apprehending among others two engineers who conducted the cleaning and decorating of the apartments in the castle.

The intelligence, associated with the murder of Shouvaloff has made a deep impression. "The Czar has now given up all idea of staying at Hilsnake."

ST. PETERSBURG, July 13.—The resignation of M. Bonomi, minister of the interior, is expected daily. General Trepoft, the assistant minister of the interior, probably will be his successor.

The territories have recently renewed their warnings against General Trepoft with ominous persistence. The general is constantly in receipt of letters signed by the executive committee of the fighting organization informing him that his hour has come. A remarkable feature of all the communications is that the writers take pains to say that no safeguards can avoid his impending doom. At the same time they tell him not to be afraid to go abroad in the streets, they add: "Your sentence will be executed in your own room. You will die in your bed."

The terrorists seem to take pride in issuing a challenge involving a demonstration of their powers and recourse to penetration of the agencies of police and General Trepoft knows enough of the resources and desperateness of the organization to believe the threat. He makes no concealment of the fact that he expects to be killed, but his nerve is unshaken. He says: "I will at least die at the post of duty."

Privately General Trepoft takes a gloomy view of the situation which he believes. The general is confident that if given untrammelled power he could restore the old status quo in a year, but the present military policy he thinks will end only in ruin. A representative assembly, no matter what its initial character may be, he is convinced, will soon be transferred into a permanent assembly which will give the death blow to absolutism.

SIPINGHIA, Manchuria, July 13.—Quiet continues along the front, but the Japanese are still moving in Korea. The Russian trains move as far as Changtiao.

Information from the Japanese lines indicates that the rank and file are exceedingly anxious for peace. To penetrate the agencies of police and General Trepoft knows enough of the resources and desperateness of the organization to believe the threat.

THE CHINESE say that "decaying corpses buried in shallow graves in frozen ground after the battle of Mukden, have created a terrible condition. Plague and cholera are said to have appeared among the Japanese."

TOKIO, July 13, 5:30 p. m.—An eyewitness of the Japanese bombardment of Karsakorsk writes that the Russian forts were silenced on July 7 after the exchange of a very few shots. The piers, warehouses and other buildings were set on fire and the conflagration was reflected by the smoke in the atmosphere converting the sky into one mass of blood red color. The Japanese army landed amidst the fire, which was fast spreading to the forts. The infantry quickly captured the forts. From the tops of which the bewildered inhabitants were seen fleeing in every direction, carrying what property they could remove. The slightest confinement, however, is obtainable of these rumors.

SHANGHAI, July 13.—Chinese post office officials have issued notice that communication has been stopped between New Chungang and all Western Manchurian towns, to and including Harbin.

ST. PETERSBURG, July 13, 5:35 p. m.—Official advice received by the minister of the interior this afternoon say that the assassin of Prefect of Police Shuvaloff of Moscow, has been identified as a former school teacher of St. Petersburg named Kulkovsky, who was actively connected with the

political agitation and is believed to have belonged to the terrorist organization. He was first arrested under the administration of the late interior minister Sipiaguine in 1901 and three years later was exiled to Siberia for six years by the late interior minister Fliuve.

CHARLOTTE COUNTY ORANGEMEN CELEBRATE.

ST. ANDREWS, N. B., July 13.—The Orangemen of the western end of Charlotte Co. met yesterday at Wilson's Beach, Island of Campobello. The St. Stephen, Mother and members of lodges in that district with their friends, numbering about three hundred and fifty, came down river in the str. R. F. Eaton, accompanied by the Maple Leaf Band, arriving at St. Andrews about 10:30 o'clock a. m. The Bocoboc lodge members and their friends joined them. The steamer arrived at the wharf at Wilson's Beach about 1:30 p. m., where the party landed, and a rush was made for the tent in which dinner for all-comers was provided. The cash proceeds of the dinner are to be appropriated to the building of a hall for the use of the Wilson Beach Orange Lodge. After dinner a procession was formed which proceeded by the Maple Leaf Band, playing marches and other appropriate music, with County Master A. Douglase and county lodge officers followed by the Ladies' Royal True Blue Lodge, Lord's Cove; Mrs. Lizzie Leonard, worshipful mistress, succeeded by R. H. Clark, worshipful master, No. 18, Baillie S. Robinson, W. M., 133, Rolland; Henry Emerson, W. M., 129, Ureka Lodge, Lord's Cove; Stewart, W. M., 122, Quoddy, Deer Island; Noyes, W. M., 117, Ransie Lodge, J. A. Newman, W. M., 92, King Edward Lodge, A. Tatton, W. M., 178, Eastport, Me. Lodge, Rev. Chas. McGiffin, W. M. Including the members of the Ladies' True Blue Lodge, 350-0 on the line of march covering two miles and returning, three hundred and twenty-four persons. The procession as it wended its way through the hills roads from some points of vantage presented a most picturesque appearance.

A public meeting was organized and held in a field. County Master Deakin, who introduced the speakers, introduced the following brethren, seated on the platform as follows: Bro. Newman, W. M., Riverside Lodge; Rev. C. H. McGiffin, W. M., Eastport Lodge; Rev. Mott, Wilson's Beach; Bro. Robert Smith and Mr. McDonald, who made speeches. One of the brethren, William Davis, newly arrived in Canada from Londonderry, Ireland, wore a black hat with a green sash, border of the Royal Black Preceptory of Ireland.

A return was made to the Eaton at 5:30 p. m. The steamer departed first for Eastport to land some passengers that had boarded her there. She arrived at St. Andrews at 7 p. m. The St. Andrews passengers landed, the steamer left for St. Stephen.

The weather throughout the day was fine. The St. George, Pennfield and Deer Island Orangemen were carried to and from Wilson's Beach in the str. Viking.

MILDTOWN.

MILDTOWN, July 12.—Miss Fannie Templeman of Marysville, who has been employed in the cotton mill here was removed from her boarding house at an early hour this morning to Children's Hospital, where she was operated on for appendicitis by Dr. J. M. Deacon. Miss Templeman is in a comfortable condition at present. Dr. W. Laughlin and family are occupying their cottage at Leaside.

Miss Josie Burns, who has been ill since last May, is reported quite weak today. Her friends are hoping for a speedy recovery.

Ellis Kehoe, daughter of Mrs. Kehoe, graduated from Carney Hospital last Monday and has accepted a position in that place.

T. J. Robinson of New York, an old-time resident of Milltown, is the guest of his nephew, H. R. Haley, drugist.

CANDIDATES NOMINATED.

Daniel McLeod and C. F. Jamieson Nominated for House of Assembly of N. S.

HALIFAX, N. S., July 13.—The liberal conservatives of Cumberland in convention at Amherst tonight nominated Daniel McLeod, M. P. P., as one of their candidates for the house of assembly. The naming of his colleague was left in the hands of the representative committee.

C. F. Jamieson, editor of the Amherst Daily Telegram, was nominated by the convention and this was enthusiastically endorsed and ratified by the convention.

MAN FATALLY INJURED BY STRIKING TAILORS.

NEW YORK, July 13.—One man was probably fatally injured, more than a score were slightly hurt, and hundreds were involved in a riot of striking tailors and their sympathizers today in Wallabout street, Williamsburg. Before the police could disperse the crowd it had wrecked the clothing factory of Isaac Newman. Two arrests were made.

Newman, the owner of the factory, will probably die. He was struck on the head by an iron bar in the hands of a striker, receiving a fracture of the skull.

THE JAPANESE INVASION OF ISLAND OF SAKHALIN.

Graphic Description by Correspondent of London Daily Telegraph--Conquerors Treated Citizens Kindly--Bomb Factory Seized.

LONDON, July 14.—The correspondent of the Daily Telegraph at Tokio sends a description of the Japanese invasion of the Island of Sakhalin, written by a correspondent of the paper at Aomori, Japan, which is in part as follows: "The Japanese left their temporary base July 4 and reached their destination July 7."

"The Russian cruiser Novik was found at Cape Enduma stranded on a reef, half submerged, and in a wretched condition. "The Russians fired only three or four shells before they destroyed the fort, the jetty and the barracks. "Heavy guns, undamaged, were afterwards found in the forts, where they had been hastily and imperfectly mounted.

The greatest confusion was witnessed in the streets of Korsakovsk. The Russian troops were rushing in all directions, carrying cooking utensils on their shoulders, and men were passing about the streets looting and setting fire to the buildings. "All the citizens were panic-stricken, many of them setting fire to their own houses. The conflagration continued for nearly three days. The streets are now desolated and obstructed with the ruins of charred buildings. "Finding that the Japanese respected property and treated the people kindly, the citizens are beginning to return."

ST. PETERSBURG, July 13.—Official advice received by the minister of interior this afternoon say that the assassin of Prefect of Police Shuvaloff of Moscow, has been identified as a former school teacher of St. Petersburg named Kulkovsky, who was actively connected with the political agitation for the recent riots here. "A corner's inquest was held by day owing to lack of evidence, and 28 were sentenced to six weeks' imprisonment, the time to include the two weeks which they have already passed in prison. The extraordinary outcome of these trials has aroused much comment here.

LONDON, July 14.—The Tokio correspondent of the Times says: "The Japanese imperial household has taken up half of the Korean foreign loan. "Hereafter the Japanese army of all services will be clothed in khaki. The officers will be distinguished from the men only by their shoulder straps."

ST. PETERSBURG, July 13.—The peace party is overjoyed at the fact that the negotiations have been placed in M. Witte's hands. It is the belief here that this not only secures a successful termination of the negotiations, but that M. Witte will secure the best possible terms for his country. Some of the grand ducks and courtiers of the emperor's entourage, however, are reported to be furious at M. Witte's selection.

ODESSA, July 13.—Of 202 persons arrested and charged with robbery or incendiarism in connection with the recent riots here, 74 were acquitted today owing to lack of evidence, and 28 were sentenced to six weeks' imprisonment, the time to include the two weeks which they have already passed in prison. The extraordinary outcome of these trials has aroused much comment here.

SPRINGHILL MINERS AGAIN ON STRIKE.

Work Will Close at Collieries Today—Angry Over Dismissal of Incompetent Boy.

(Special to the Sun.) HALIFAX, N. S., July 13.—The work will close again at Springhill collieries tomorrow because the boys have not come to terms with the management over a boy who was dismissed for incompetence. Work went on pending an investigation by the management. This was held and the boys asked for the result of it today, but no answer being forthcoming, they decided to go out tomorrow. With the boys out, the men cannot work, and operations must cease. The P. W. A. lodges say they have no jurisdiction over the boys and are awaiting developments.

DROWNED IN THE SHUBENACADIE.

Frank Brown, of Amherst, Lost His Life While Bathing in the River.

A drowning accident occurred in the Shubenacadie River yesterday, near the grounds on which the Orange celebration was held at Shubenacadie, by which a young man named Frank Brown of Amherst lost his life. Brown and a companion named John Walsh went in the river for a swim. Walsh, who was a good swimmer, was the first to go in the water, and cautioned Brown, who could not swim, not to go out far, as the water was deep.

At first Brown waded out to where the water was about three feet deep, and after ducking himself a few times there, waded towards a wharf near by. When he reached the wharf, Walsh, who was out in the river swimming, looked for him and was horrified to find he had sunk. Walsh swam to where he last saw him near the wharf, but could not find him and being unable to dive, gave the alarm.

A crowd soon gathered and a boat and grappling irons were obtained. After searching for over half an hour the body was grappled and brought up, it being found about fifteen feet from the wharf. Walsh last saw him.

A coroner's inquest was held by E. H. McGregor, J. P., of Lower Stevedock, with a jury, of which J. L. Barnhill of Halifax was foreman, and a verdict of accidental drowning was rendered. The body was forwarded to Amherst tonight. The deceased leaves a widowed mother, Mrs. John Brown of Amherst.—Chronicle, 13th.

M. WITTE LEADS PEACE COMMISSION

Takes the Place of His Rival, Muravieff.

His Appointment a Guarantee of Peace

—A Sketch of the Career of Russia's Best Hated Man.

ST. PETERSBURG, July 13.—12.53 p. m.—Emperor Nicholas has signed the appointment of M. Witte, president of the committee of ministers, yesterday to be the chief plenipotentiary representing the Russian government in the peace negotiations to be conducted next month in the United States.

FLAG EVENTS.

We have flag incidents on both sides of the line. It is stated that a party of Orangemen in London, Ontario, angered at a national incident offered by an American excursionist, tore down the Stars and Stripes brought by his party and trampled it under their feet.

considered insufficient, owing to the great cost of living in the United States. M. Witte twice refused to become the successor of M. Muravieff on the mission on the ground that he did not wish to be a mere figurehead in the transmission of the peace terms offered by the Japanese.

Mr. Tarte does not believe in the project of loading passengers and mails at North Sydney from the Allan steamships. Confusing North Sydney with Sydney, he speaks of the difficulty of taking large vessels anywhere near the Cape Breton port, and points out the Belle Isle route is much shorter than the route of Newfoundland.

For you, the younger branches of the empire, there is no limit to your progress, but even we, even this grey old motherland, which has borne so long the burden of a great empire and a great responsibility, even we are no contemptible ally. We have given you no reason to be ashamed of your relationship. We dare not face the possibility of separation. United, we shall always stand as the great task that Providence has imposed upon us.

"With the most economical management," says the Montreal Witness, "the C. P. R. cost for running expenses 57 per cent of the gross earnings. This may not be a good showing, but it may be compared with the Intercolonial, which with the least economical management costs 133 per cent of the gross earnings."

It was Mr. Butler, the new deputy minister of railways, who figured out that the Grand Trunk Pacific route between Quebec and Moncton would, on the basis of ten full trains each way daily, save millions a year as compared with the Intercolonial. Now it will be his business to see how much the Intercolonial can be made to save in comparison with itself.

Governor of Alabama Endorses Pe-ru-na.

Other Prominent State Officials Add Their Praises.

The Magnificent State Capitol Building of Alabama.

ONE of the most wonderful events in the history of medicine is the multitude of endorsements which Peruna is receiving as a cathartic cure from men of national importance.

Governor of Alabama Commends Pe-ru-na. In a letter dated July 25, 1898, written from Montgomery, Ala., Governor Joseph J. Johnston, says: "I join Congressman Brewer in commending Peruna."—Joseph J. Johnston.

The most distinguished men of the United States have no hesitation in lending their influence to assist in letting the public know of the merits of Peruna.

Nearly one-half the people are in some way affected by catarrh. Therefore it is almost a national curse, and it is of national import that the people should know of Peruna.

Catarrh is an American disease. Peruna is an American remedy. Catarrh is a result of changeable climate. Peruna is a result of long and careful experimentation.

Catarrh enters the system through the nerve centers and affects the mucous membranes. Peruna enables the nerve centers to repel and expel the catarrh from the system.

Catarrh is a systemic disease and curable only by systemic treatment. The remedy that cures catarrh must aim directly at the depressed nerve centers. This is what Peruna does.

NORTH SYDNEY, July 13.—An event of very great public interest took place here this morning. The Allan liner Virginian was intercepted about twenty miles off this port by the government cruiser Canada, to which both the mails were delivered at sea with only about an hour's delay; and in another hour the delivery on the terminus wharf here began. The train left at eleven o'clock. In addition to the mails some twenty passengers landed here, bound chiefly for points west of Montreal. It is expected the train will make a record run to Montreal, which will go far to the establishment of North Sydney as a port of call for the English mail boats.

The Virginian at 8.30 a.m. yesterday was forty miles east of Cape Race, some four hours behind time owing to the heavy fog for one thing, and also an accident to her steering gear. But that has nothing to do with the speed test, though it makes this trip look long as compared with the last record trip. Mr. Pottenger and many other I. C. R. managers and head men are here. Should the saving in time in the delivery of the mails at various points warrant it, as exemplified by this trial, arrangements and facilities for the steamer to connect in the harbor will be made. The establishment of North Sydney as a port of call will, incidentally, be a benefit to North Sydney, is of great importance to the maritime provinces and Canada generally.

HALIFAX, N. S., July 13.—Another link was added to the imperial bond of unity today, when the English mails for the first time entered Canada by the front door. The consummation of 1,847, of whom 1,047 are for Canada, and 800 for the United States. About 50 per cent are steerage passengers.

Mobile, in a recent letter from Mobile, Ala., says: "Allow me to send to you my testimonial as to the good qualities of Peruna. I have used it for the past three months and find it is a most excellent tonic."—P. D. Barker.

U. S. Marshal, Northern District. Hon. Dan Cooper, U. S. Marshal for the Northern District of Alabama, writes: "Your remedy for catarrh and grippe, Peruna, has done me so much good that I cannot speak too highly of it."

Register United States Land Office. Hon. Robert Barber, Register United States Land Office, writes from Montgomery, Ala.: "For some time I have been a sufferer from catarrh in its incipient stage, so much so that I became depressed and feared my health was generally in a decline. But hearing of Peruna as a good remedy I gave it a fair trial and began to improve. Its effects were distinctly beneficial, removing the annoying symptoms, and it was particularly good as a tonic."—Robert Barber.

Collector of Port. Hon. J. K. Burke, Collector of Port, Mobile, Ala., writes: "Peruna I can recommend as a fine medicine. It has been used in my family and as a tonic it is excellent. I take pleasure in testifying to its fine qualities."—J. K. Burke.

Postmaster of Mobile. Hon. P. D. Barker, Postmaster of Mobile, Ala., writes: "I have used Peruna for catarrh a short time and have also had several friends try it and they all pronounce it the best catarrh remedy ever put on the market. It can not be praised too highly."—L. J. Bryan.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio, and he will give you the benefit of his valuable advice gratis. All correspondence strictly confidential.

RECORD TIME MADE IN CARRIAGE OF MAILS BY CANADIAN ROUTE.

All Records Broken Yesterday on the I. C. R. by the Special Express—Mails Reached St. John at 10.07 p. m.—Train Got to Rimouski at 12.48 O'clock This Morning—Fifty-Two Miles an Hour Made

The Virginian carried all the mails for the Western States and also all the mails for Canada this week, this being the first occasion on which this has been done.

Eighteen passengers landed at Sydney, these proceeding by special train to Quebec and Maritime points. On reaching the I. C. R. terminal wharf a special train was in readiness, and the mails transferred on board with the least possible delay.

One hour and ten minutes after the mails were landed the train pulled out, and began perhaps the most interesting run ever made on a Canadian railway. It was a race to decide upon the merits of Sydney and the all-rail route to Montreal as against the St. Lawrence route to Point Levis.

The following officials of the Intercolonial were in town in connection with this test: Dr. Pottenger, general manager, and R. Simpson, assistant; L. B. Archibald, superintendent sleeping car service; J. B. Lambbick, assistant chief passenger agent; E. Tracey, chief car inspector; A. Rand, superintendent of locomotives; D. White, master car builder; J. Benoit, baggage master in charge of mails and baggage for Rimouski in summer and Halifax in winter; C. Thomson Schmidt, inspector of government steamers; F. P. Bent, superintendent of railway mail service.

The special train was in charge of R. P. Rutherford, who on November 24th, 1890, took the first regular passenger train that went over the Cape Breton division. The special train started on its journey at 10.40 o'clock a. m. and the I. C. R. people expect that it will reach Montreal ahead by some hours of the Virginian's time.

The Virginian departed from her Belle Isle route about 25 miles, which includes a deviation from the St. Lawrence route of about sixty miles. It is estimated that this threw her about sixteen hours behind her schedule time had she gone by Belle Isle and four or five hours if by the St. Lawrence route.

The distance between North Sydney and Liverpool via Merville is 2,382 knots; from Rimouski to Merville via Belle Isle, 2,318, and via Cape Race, 2,477 knots.

Horrible Story of Crime On Board Trading Vessel

NEW ORLEANS, July 12.—A shocking story of murder with robbery as the motive, was brought here today by Captain Hans Holm of the Norwegian frigate Bratner, which piles between New Orleans and Honduras ports. It was subsequently confirmed by the officers of the fruit str. Rosina, which came in tonight, bringing additional details. The island of Ullila, lying off the Honduras coast, whose population is an indiscriminate mixture of whites, Caymanites and Caribs, was the scene of the tragedy, in which 12 lives were sacrificed. The captain of the little trading schooner Olympia was about to make a trip to Ruanan, Truxillo, and Belize. He had about \$1,400 and was to buy cattle at Truxillo to sell at Belize. The Olympia carried a crew of four and nine passengers. Among these were two women and two children. The vessel left the harbor of Ullila at 11 o'clock Friday night, June 30th, and after she had been under way less than an hour everybody was aroused by a shot and, rushing on deck, found a negro armed with a Winchester shooting down the men one after another. The negro was Robert McGill and as it afterwards developed, he had stowed himself aboard with the intention of robbing the captain and then swimming ashore. After he had killed all but one of the men he ordered the last survivor to go below and scuttle the ship. When the unfortunate re-appeared on deck and reported the negro shot him dead. He then put the two women, Miss Elsie Morgan and her sister, Mrs. Walter Rose, in the dory with Mrs. Rose's six-week-old infant, and left in the boat, steering for the mainland. On the way he changed his mind about allowing the women to live and killed Mrs. Rose and her infant. He then began shooting at Miss Morgan and wounded her in the arm. She jumped overboard and started to swim back to the island. He fired at her ineffectually, but his ammunition evidently gave out, for he promised her immunity from harm if she would come back to the dory. She started back, and when within ear's length he struck her on the head with a bar, stunning her. Believing she was dead, he rowed away towards the mainland. Miss Morgan recovered her senses and swam back to the island, where she was thrown on the beach by the waves in an exhausted condition. Fearing that the negro would follow her, she hid in the bushes, and for two days she suffered from heat and exposure, until she was rescued by a boat from the neighborhood. Miss Morgan's story was told to the authorities, who arrested McGill at Eliportville and returned him to the island.

NORWAY'S CROWN OFFERED TO PRINCE CHARLES. LONDON, July 11.—The Associated Press is in a position to confirm the report that an offer of the Norwegian throne has been made to King Edward's son-in-law, Prince Charles of Denmark. The matter is still under consideration. It is understood that the feelings towards the British government are favorable to the project, but much depends on King Oscar's attitude on the subject.

RECENT WEDDINGS. MONCTON, N. B., July 11.—The bells of St. George's Church, England, rang out joyously at noon today, the occasion being the marriage of William E. Marks and Miss Eloise, daughter of A. H. Newnam, the Canadian Express Co.'s agent here. The church was beautifully decorated for the occasion by St. George's Guild, of which the bride was an energetic and valued member. After the ceremony Mrs. Marks left on the Ocean Line steamer for a wedding trip to the Upper Provinces.

INSTITUTE OF INSTRUCTIONS. PORTLAND, Me., July 11.—The American Institute of Instructions sessions today were marked by delightful July weather, a large attendance, interesting and valuable addresses and general satisfaction of the several hundred visitors at the selection of Portland as the place of meeting. A feature of the convention was the general session tonight when the members listened to President Charles W. Elliot of Harvard University, who spoke of "The Fundamental Assumptions in the Report of the Committee of Ten," and Charles H. Judd, director of psychological laboratory at Yale University, whose topic was "Practical and Theoretical Studies of Mental Development."

NEGRO WENT INSANE ON CROWD STEAMER. NEW YORK, July 11.—A panic was created on the New York-Philadelphia & Norfolk str. Pennsylvania just before it left Cape Charles for Norfolk today by James Monroe, a large insane negro, who came aboard, drew two long knives from his coat and ran amuck among the hundred or more passengers. The passengers, many of whom were women, fled about the boat in efforts to escape. The Pennsylvania's officers were unable to capture the negro, who threatened to kill all who approached him. An officer of the Cape Charles police started for Monrovia while the latter thrust at him with a knife and the officer opened fire. The negro was wounded in the neck, carried to a hospital and probably will not recover.

THE MOST TELEPHONED CITY IN THE WORLD. (July Cent Per Cent) No country in the world has so much capital invested in the telephone as America, and yet even America has not begun to make the telephone as thoroughly a part of its daily life as the system and land the service to the people at prices so low that practically every home has its private phone. But in addition to this, the public service is so thoroughly accessible that it is cheaper than writing. In Stockholm, for instance, there is a public telephone at almost every street corner, and before every restaurant, hotel, place of amusement, cab stand, etc. Besides these there are hundreds of closed pavilions, made of glass, upon the tops of which are daily lights. They open automatically by the insertion of a coin, which also pays for the service, and are available at any hour of the day or night. In these things, Sweden is far ahead of America, and yet follow her example. Public telephones will yet become as necessary and as abundant as letter-boxes. It would almost stagger the brain to apprehend the millions of dollars which will yet be demanded in the development of the telephone in our own land.

JEALOUSY CAUSES MURDER AND SUICIDE. ATLANTIC CITY, N. J., July 11.—Murder and suicide ended today the lives of Edward O. Doughty, 36, and Miss S. Clyde of Philadelphia. Doughty, the murderer, was insanely jealous of the woman, who, desirous of discarding him, stirred his jealousy by taking a walk with another man. Doughty met the couple on the street and after upbraiding Miss Clyde drew a revolver and chased her into a crowded store on Baltic avenue. The woman was shot to death as she crouched behind a counter, several bullets entering her breast. Doughty then shot himself, dying instantly.

SYMPTOMS OF NERVE DISORDERS. Which Foretell the Approach of Nervous Prostration, Paralysis and Locomotor Ataxia. Twitching of the nerves and muscles, jerking of the limbs, sleeplessness, headache and indigestion—such are some of the symptoms of exhausted nerves. Because there is no acute pain people do not always realize the seriousness of nervous diseases. They do not think of the helplessness of body and mind, which is the result of neglected nerves.

DIED IN CALGARY. AMHERST, N. S., July 12.—Word was received this morning from Calgary by R. C. Fuller of the above city. He went out over two months ago and opened a drug store. His parents and one sister, Mrs. Warren Steele, of South Carolina, survive him. The remains will be brought home.

SEVERE COLD IN THE CHEST. "My fourteen-year-old boy had a very severe cold the chest last winter and I really thought he was going to die. He coughed nearly all the time and sometimes would spit up blood. I was positively say that he was completely cured by two bottles of Dr. Prince's Syrup of Lined and Turpentine, and he has not been troubled since."—Mrs. J. Frost, Retrow, Ont.

Hundreds Struggle and Fight for Berries at Indiantown.

Lively Scenes on Steamer Crystal Stream—There Were so Many Buyers That the Price Went Up.

There was something doing at Indiantown yesterday. Statements which appeared in the newspapers to the effect that large quantities of berries were expected and that the price would probably be low had the effect of attracting such a crowd to the wharves that what really happened was exactly the opposite of what was anticipated. So many buyers were there, that there were a dozen brought every crate of berries brought down, and the result of such a demand was that the price went up.

A lot of berries came down, scores of teams went away from the boats loaded down with fruit, but fully a thousand people failed to secure the supply they were looking for. The prevailing price was six cents at first, but this soon went to seven, and even at this there was no over-supply. One man who came down river with eighteen crates sold them at five cents a box almost before the boat touched the wharf, and his eyes stuck out when a few minutes later he saw those same berries going off at seven cents. He lost the chance of making at least ten dollars by selling too soon, and for hours he wandered disconsolately about the wharves trying to get that money back.

There must have been a crowd of between five and six hundred people, men, women and children, waiting when the Crystal Stream arrived. This steamer was so full of freight that

there was scarcely room for twenty people on her lower deck, but the minute she touched the wharf the crowd surged on board. People were thrown between sales of hay and cattle, they were pushed up and down stairs, they fought, swore, and struggled till it was as much as a person's life was worth to be in the crowd. Such a crush was never before seen on a boat at Indiantown, and all the people wanted berries. They climbed over the piles of crates looking for the owner; they pulled and hauled the boxes, and anxiously enquired the price. But there was no price. Fully half of the berries were assigned to D. H. Nason. A man named MacDonald had taken time by the forelock and bought a large number of crates on the wharves up river, and most of the remainder were consigned to different city grocers. So far as could be learned there were only about twenty crates for sale, and these were bought up in an instant. But it was an hour before the five hundred other people learned of this, and during that hour they struggled and fought their way up and down the steamer, envying those who had berries and angry at the ones who raised the price. Gradually the disappointed hundreds straggled home, thoroughly disgusted, and bought two boxes for tea at eight and nine cents in the city, when they might have bought them for seven cents in Indiantown.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED
Health Fully Restored and the Joy of Life Regained

When a cheerful, brave, light-hearted woman is suddenly plunged into the depths of misery, the blues, it is a sad picture. It is usually this way: She has been feeling "out of sorts" for some time; head has ached and back also; she has slept poorly, been quite nervous, and nearly fainted once or twice; head dizzy, and heart-beats very fast; then that bearing-down feeling, and during her menstrual period she is exceedingly depressed. Nothing pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting blues.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Madame Josephine Rivville, Mass. See what it will do for you.

Dear Mrs. Pinkham—

I suffered for years with female troubles—inflammation of the stomach and fallopian tubes which caused me violent pain and often vomited, so much so that I could not walk at times and attend to my daily duties. Life was misery to me. I was so blue and depressed that I nearly knew what to turn to for relief. I had tried the doctor but Lydia E. Pinkham's Vegetable Compound, so I bought a bottle. I am glad that I did so, for I am well and strong to-day and the world looks bright, for I have perfect health, thanks to your medicine.

If you have some derangement of the female organism write Mrs. Pinkham, Lynn, Mass., for advice.

family circle. He has little time for social enjoyments. For many months every year the lights in the auditor's department in the Eastern Block at Ottawa burn far into the night. Other departments of the government may have shorter hours. Not so the auditor general's, which always has vast arrears of work to undertake.

SIR JOHN AND THE AUDITOR.

As a rule, Mr. Macdougall says little about his business outside of what he is required to state in his official capacity. But sometimes he unbends. Two or three years ago he told the Canadian Club in Toronto how, liberal though he was, he had been backed by Sir John Macdonald in the discharge of his duties. Soon after the conservative came into office he had occasion to object to certain proposed payments. "I went," says Mr. Macdougall, "to Sir John to get his aid in preventing some expenditure. I said: 'Sir John, this would do the government any good.' 'No, no, you are quite right,' said he. 'It would only give rascally grubs like you a ground to run up and down the concessions abusing my name. You can always count upon my helping you. Be sure to call upon me when anything like that occurs.'"

On another occasion Mr. Macdougall asked Sir John for two extra chief clerks. "Be answered," says the auditor, "with a moment's delay: it is a common habit of the government to say 'Yes' to you when you have always my support. Why do you come to me? Go to Foster and the rest."

A few days later I had reason to see Mr. Foster again. After my explanation he would usually add: 'Ah, that isn't quite as I heard it. Perhaps you aren't very far wrong. I knew that in nearly all of the cases his was the explanation in council.'"

The auditor general, though a liberal in his early days, is not a politician, and is careful to refrain from saying anything political. Yet a few months ago he said to Sir Mackenzie Bowell: "I cannot restrain the tendency to acknowledge my obligations to this straightforward politician whenever his name is mentioned in my hearing. He seems to have the instinct of a politician to be on the best side whenever money is involved."

UNDER SIR MACKENZIE BOWELL.

Another good friend of the auditor-general is Sir Mackenzie Bowell. Of his relations to that gentleman Mr. Macdougall says moments ago: "It is a practice of his when on his way to the council chamber to call at my office and say quite abruptly: 'What the devil are you doing now?' 'About my resignation,' I answered. 'After my explanation he would usually add: 'Ah, that isn't quite as I heard it. Perhaps you aren't very far wrong. I knew that in nearly all of the cases his was the explanation in council.'"

THE ESCAPE.

(Brooklyn Eagle.)

Howard Eckstein, of the Greylock Hotel, Williamstown, tells a story of a woman stopping in Williamstown last summer who was deathly afraid of cats. Before entering a drug store she carefully inquired of the soda water boy whether any cats were in the store or not.

"No, ma'am," replied the boy, "there ain't none. But one bit a lady here last week."

"What?" exclaimed the good woman, "Did they cauterize it?"

"No," replied the boy, "they never cauterized it."

FATALITY NEAR NEW GLASGOW.

NEW GLASGOW, July 11.—A sad fatality occurred at McLeellan's Brook, on Saturday. John Johnston, a young farmer, left his home to go to a lumber camp about 4 o'clock. He did not return as soon as expected and search was made. His body was found on the path leading to the camp with a bullet wound near the heart. A revolver was found near by. Whether in going through the bushes the revolver was accidentally discharged or not cannot be definitely determined. The deceased was about 27 years of age and was a son of William Johnston, deceased, late of McLeellan's Brook. It is said that he had not been in the best of health for some years. He was unmarried and lived with his widowed mother on the homestead farm at McLeellan's Brook.

INGENIOUS.

A story comes from Paris of the unusual way in which a prominent young Parisian made the acquaintance of the stage beauty of the hour. The lady was lunching in a fashionable restaurant in the Bois de Boulogne, accompanied by her equally well known pooler. The dog was running about from table to table, picking up pieces of food, and was frequently being scolded, and presently, when it returned to its mistress, she was astonished to see written on its back in red chalk: "Tell your mistress that she is simply adorable, and I love her exceedingly." The gentleman signed his name. After this a formal introduction was no longer necessary.

TOO OUTSPOKEN.

An English prisoner, on being put into the dock in a London court, leaned over the front of the box and handed a "doek guinea" to a young member of the bar.

"You defended me once before, sir, do you remember? And got me off. It was at Hertford sessions, sir, for stealing a watch."

"For the alleged stealing of a watch, you mean?" corrected the barrister, as he pocketed his fee.

"Alleged be blowed!" replied the prisoner promptly. "I've got the watch at 'ome now!"

DIDN'T UNDERSTAND.

(Tit-Bits.)

It might be supposed that English speaking people would not venture to travel in a foreign country without some knowledge of its language; but our countrymen do so every year.

A lady relates that she was one of a party of English tourists that visited Madrid. She was the only one of the number who knew any Spanish, and her stock was confined to "yes" and "no" and an "excuse me." By means of gestures they managed to see along the first afternoon and night.

The next morning at breakfast there was coffee, but no milk, and the party appealed to the lady to get some.

"To her dismay she ferreted the word for milk, and after striving in vain to recall it she seized a piece of paper and pencil and drew the picture of a cow.

The waiter examined the drawing critically, went out of the room and returned promptly with a bundle of tickets for that day's bull fight.

ONE OF THE POETS.

(M. A. P.)

The exquisite, though unconscious, humor of this letter addressed to the editor of the London Daily Mail will not be lost on the enlightened:

"Looking over some back issues of my Daily Mail, which have been kept for me during my absence from home, I see that Marriott Watson seems to imply that poetry, extolled by its triumph in the earlier part of last century, is now either dying or dead. As one who has been a life-long lover of poetry, and who has recently ventured to publish a volume of 'Lakeland Poems and Others,' will you, sir, kindly grant me space to assure the great host of your readers that poetry can never die, because it lives and moves too near the heart of things.

WOMEN MAKE JEWELRY.

Nowadays the ambitious woman who earns her living by her needle enters the field of labor as a worker in applied arts. She finds in some of the many opportunities offered in arts and crafts work more remunerative than in her former occupations. She is represented by some of his characteristic pictures of Norwegian peasant life. In the grounds are to be seen antique Norwegian buildings, an old Norwegian church, dating from the twelfth century and typical farmhouses of the country.

JUDGE FORBES' SENTENCE AROUSES COMMENT.

The sentence passed by Judge Forbes on the man Jackson, guilty of stealing, has aroused a lot of comment about the city, and different views are held. There are some who praise Judge Forbes for his effort towards ridding Canada of a criminal, and these persons express the wish that more Canadian judges would follow his example. They think it might be a lesson to some people in England that Canada is not to be made a dumping ground for all classes and conditions. Others take a very different stand and argue that the sentence should not have contained the option. They reason that the crime was committed in Canada and the criminal should have been punished in Canada. One legal gentleman speaking to the Sun thought that the judge in England who gave the prisoner before him the option of coming to Canada, had gone beyond his power, and that the same might apply in all cases.

Lewis A. Wright of Salisbury, Geo. W. Fowler, John B. Slipp, Geo. W. Pearson and S. A. McLeod of Sussex and Jas. G. Price of Norton have come to respect him for his business ability and absolute honesty. Therefore his selection was deemed a happy one. That even in those early days there was need for such an office and such an auditor is proved by Mr. Macdougall's famous letter in which he says: "Friends expect to be benefited by offices they are unit for, by contracts they are not entitled to, by advances not earned. Enemies ally themselves with friends and push the friends to the front. Some attempt to storm the office. Some dig trenches at a distance and approach in regular siege form. I feel like the besieged, lying on my arms night and day."

FIGHT HAS ENDED.

And John Lorne Macdougall Has Quit.

His Struggle Against Graft and Thieving at Ottawa Was Long and Bitter.

(Mail and Empire.)

John Lorne Macdougall's long and bitter fight against graft and thieving at Ottawa is about ended, and the auditor general will vanish into private life. It is a matter for regret that this distinguished servant of the people, after half a lifetime spent in guarding their interests, should be virtually forced out of office by a dishonest political clique.

AN APPOINTMENT OF MACKENZIE'S.

His office was designed by Edward Blake, and the appointment of Mr. Macdougall to the newly-created office was made by Mr. Mackenzie shortly before the defeat of the liberal administration. The theory was that there should be some independent audit of the government's accounts apart from the government's auditor, and therefore the auditor general was so securely fastened in office that he could be removed only by the vote of parliament. This also is a mere theory, for liberal politicians in which he found another way, just as sure and much easier. Mr. Macdougall, before his appointment, sat in parliament as a liberal representative of South Renfrew, and both sides of the house had come to respect him for his business ability and absolute honesty. Therefore his selection was deemed a happy one. That even in those early days there was need for such an office and such an auditor is proved by Mr. Macdougall's famous letter in which he says: "Friends expect to be benefited by offices they are unit for, by contracts they are not entitled to, by advances not earned. Enemies ally themselves with friends and push the friends to the front. Some attempt to storm the office. Some dig trenches at a distance and approach in regular siege form. I feel like the besieged, lying on my arms night and day."

THE AUDITOR'S MOTTO.

"Be just and fear not," is the motto of the auditor general, and it cannot be denied that he makes a good attempt to live up to it. The auditor general is always an objectionable man to loose administration. Some time ago Mr. Macdougall declared "that a good auditor must accept no favors, and enjoy no perquisites. Indeed, he can scarcely make a friend of anyone outside of those who are dependent upon him. Thus the auditor general may be said to have a lonely life, for his friendships are confined to his
