MILLIONS OF. PEOPLE S'IN'S

Physicians Cornered!

I SUPPOSE there is not in the whole of a physician's experience, anything in b issue sudering which calls forth his sympath, and pity, to such an extent, as to witness the expreciating pains of a poor mortal, sungrung from RHEUMATISM.

Heretofore there has been a considerable aiv sity of opinion among medical men, as to true character of this disease. Some locating in the fibrous or muscular tissues of the syste and others viewing it as an acute nervous a case: but it is now generally admitted to odisease arising from a poison circulating it. blood, and further it is ad vitted that Rheem tism can never be thoroughly cured without e terminating such poisonous matters from the blood, by a constitutional internal remedy. We feel confident that none will feel better stissific and rejoice more, than the conscientionus physician, who has found out that a cure for this stat born disease has been discovered. The following testimony from a gentleman of standing, an high respectability a d wall become

With the three small didders, firs, Lucerne, and Daisy, Sassafras contracted a great friendship; they did not recognize him as the person who had addressed them in the church-yard for he had disguised his voice on that occasion, and he was covered with his large cloak from head to foot. When they saw him coming they would run to the door, and Daisy would eap into his arms, and Lucerne would take right hold of the hem of his coat, and wouldn't let go, and Irls would welcome him in her quieter fashiou.
