

## QUALIFICATIONS OF PHYSICIANS.

Council of Physicians and Surgeons Have a Bill With New Regulations Before Legislature.

WILL BE OPPOSED

As it Tends to Unduly Increase the Monopoly to be Enjoyed by Doctors of the old School.

Under the bill introduced in the Legislature on behalf of the Council of Physicians and Surgeons every person desirous of practicing as a medical man shall attend a course of four sessions of six months each extending over four years at some college of medicine of good standing, to include lectures and instruction in anatomy, practical anatomy, chemistry, practical chemistry, physiology, histology, materia medica, therapeutics, hygiene, pathology, diseases of women and children, medicine, surgery, obstetrics, bacteriology and medical jurisprudence, and attend upon the general practice of a hospital of not less than fifty beds for not less than twelve months and shall pass an examination in the before mentioned subjects. On any person applying for admission as a practitioner of any system of medicine a majority of the registered practitioners of the system, or failing them, the Medical Council, shall be allowed to appoint an examiner of the particular theories of that system with regard to materia medica, pharmacy and therapeutics.

Section 40 reads as follows: If any person not registered or licensed under the act shall for hire, gain or hope of reward, practice or profess to practice medicine or treat or attempt to cure or alleviate any ailment or infirmity, physical or mental, in any manner whatsoever, unless under the advice or by the direction of a duly qualified practitioner, he shall be liable to a penalty of twenty dollars for each and every offense.

There is a saving clause, No. 49, which exempts any necessary treatment not given for hire or hope of reward, and which permits women to assist in confinement cases "as heretofore accustomed." Throughout the province generally there is a very strong opposition to the proposal in the Medical Act aimed at the practise of healing by all but regular medical practitioners. Petitions against this portion of the act are now in circulation not only in St. John, but in Moncton, Chatham, Shediac and other places throughout the province, and when the matter comes before the legislative committee the council of the Medical society will find they have to face a very powerful and influential lobby. The clause of the bill to which objection is taken is section 40 which is directed not only against those who practise osteopathy, but against all engaged in any form of medical treatment, and would make osteopaths, Christian Scientists, massage givers, corn doctors and all others engaged in any form of healing liable to the penalty imposed.

## OBITUARY

### MRS JEREMIAH FITZPATRICK

Mrs Jeremiah Fitzpatrick, formerly Miss Kate Ryan of Chatham, died in Calais, Maine, on Friday of pneumonia. The remains were brought to Chatham, and the funeral took place from her mother's residence, Water Street on Monday.

### MRS. EVERETT O'DONNELL.

(Contributed.) DERRY, North'd Co., N.B.—At the home of her mother, Mrs. Annie Clouston, on Friday, March 19th, Kate Flora, beloved wife of Everett O'Donnell, died at the age of 33 years, leaving a husband and one child, besides a mother, brother and sister to mourn their loss, but what is their loss, is her eternal gain.

Our sister was a consistent Christian and also a member of the U. B. church at this place. She will be greatly missed by all. She has entered into her rest from all her labors and her works will follow her. Blessed are the dead who die in the Lord. Funeral service was attended by the Rev. H. D. Worden of Whitneyville.

### DAVID WARD.

The death of David Ward occurred at his home in Blissfield, on March 22nd. Mr. Ward had been in poor health the greater part of the past ten years, and was confined to his bed during the last three weeks. He was a member of the Baptist church, in which he was a great worker. He was born in Blackville, but spent his married life in Blissfield. In 1866 he was married to Miss Emeline Gilks of Blissfield and to them seven children were born, three sons and four daughters. One daughter died some years ago. Mr. Ward spent the greater part of his life in farming and lumbering and had much success.

### PLINY R. TOZER.

The death of Pliny R. Tozer, son of Robert Tozer of Exmoor, occurred at the residence of Melvin Sutherland, Lyttleton, on the 2nd instant. Deceased, who was only 17 years old, had been sick three weeks with spinal meningitis. He was a bright and promising young man whose untimely death is much regretted. He is survived by his father, and eight brothers and sisters among whom are: Otto, Walker, and Oakley, of Lyttleton; Robert at home; Mrs. Melvin Sutherland, Lyttleton, and Miss Flossie residing at Renous River. The funeral took place in Whitneyville Baptist cemetery on Sunday, Rev. E. E. Mowatt officiating.

### MISS BESSIE WARD.

Miss Bessie Ward, daughter of the late Asa Ward of Harcourt, died in Boston on the 27th ult., of tuberculosis. The remains, accompanied by Mr. and Mrs. Bishop and Mr. and Mrs. Gould reached home on the 30th and were taken to the home of Mr. Alfred Ward, whence they removed on Wednesday afternoon to their last resting place in the Presbyterian cemetery. Rev. R. H. Stavert conducted the services. Many beautiful floral tributes, testifying to the love and

## CANADIAN FRUIT.

OTTAWA.—Mr. Burdett, one of the members of British Columbia, wants the provisions of the Canadian fruit marks act to apply as far as packing and grading is concerned to fruit from the United States, and he thought all the provinces of Canada would be compelled to adopt uniform packing.

Mr. Fisher said that the intention of the act was not to have every package of Canadian fruit inspected, but to have a check on packers for the interprovincial and export trade. To make the inspection too rigid might interfere with the Canadian fruit trade.

Dr. Black of Hants, held up the Nova Scotia fruit farms as models. He wanted more inspectors for that province.

A return was made to Parliament showing that in 1907 there had been shipped in cold storage from St. John to Liverpool 2,123 barrels, 2,060 half-barrels and 517 boxes of apples. A considerable quantity was shipped from Halifax to South Africa. During January and February this year the shipments of apples from St. John and Halifax was the largest on record.

respect in which the deceased was held, accompanied the remains. Mr. and Mrs. Ward's home was rendered doubly sad from the fact that their infant son, whose death occurred on the 29th was buried at the same hour.

### JAMES ANDERSON.

St. John, March 30.—James Anderson, the oldest newspaper man in New Brunswick, died yesterday morning after a lengthy illness. He was 87 years old, and had been in ill health since January. For forty-two years he was connected with the Daily Telegraph in this city as night editor, city editor and marine editor. He leaves four sons and six daughters. The sons are:—E. M. of the Steel Works at Sault Ste. Marie; Arthur E., Architect, at Montreal; Herbert J., manager St. John Opera House; W. Earle, Secretary St. John Board of Trade. The daughters are:—Mrs. J. M. Perkins, Mrs. Clarence Ward, St. John; Mrs. L. E. Rheume, Montreal; and Helen, Edith and Annie at home.

### MRS. JOHN HOSFORD.

The funeral of Mrs. John Hosford of Trout Brook took place Saturday, April 3rd at 2 p. m.

Service was held at the house. Hymns, "Beautiful Home," and "In the Shadow of His Wings" were sung, and a few appropriate words from the text Hebrews, 14:9: "There remaineth therefore a rest to the people of God," were spoken at the graveside. Miss Bessie Hosford sang "Hark, Hark My Soul."

Deceased was a respected member of the community and her quiet and good life won her many friends. She leaves behind three sons, Joseph and Edwin at home, and James in the States; and four daughters, three away and one, Mrs. W. Dunnett, at home. The brothers are Patrick Mullin of Chatham, Neil and John of Protectionville, and Thomas of Newcastle.

The pallbearers were Amos Stewart, John Stewart, Archie Stewart, John Way, James Way and Thomas Cain.

Interment was in the Seaville cemetery, Rev. J. F. Rowley officiating.

## LUMBERMEN

### UP IN ARMS.

Against the Granting by the Government of 99-Year Leases.

HOLDERS COULD SELL OUT

To Foreigners and the People of the Province Have No Redress.

CHATHAM, N.B., March 31.—A fight against the granting of perpetual leases to limit holders was decided upon at a meeting of the New Brunswick Lumbermen's Protective Association here today. There was a large attendance of Miramichi operators. W. S. Montgomery, mayor of Dalhousie, was also present, and P. G. Mahoney, of Westmorland county, sent assurances of support. A committee of eight was appointed to prepare a memorial and submit it to the provincial government at an early date. T. W. Flett was in the chair, and W. C. Winslow was secretary. On motion of D. J. Buckley resolutions were adopted as follows:

First—That the association disapproved of the Quebec system of leasing and stood by the Maltby scale, as used at present.

Second—That the lumber surveyors continue to be appointed by the municipalities and not by the government as recommended by the Limit Holders' Association.

Third—That each party to an agreement for a lumber operation be allowed to have a surveyor and that if the two fail to agree that a third surveyor be named by the government to act with them.

Fourth—That the government should adopt no policy looking towards the extension of crown land leases or give the limit holders encouragement that their request should be granted.

Mr. Buckley was present by invitation at the meeting of the limit holders at Fredericton last week, and he was able to give the small operators today the gist of their memorial, as drawn up, and which has not been given to the public. It was stated that the lease-holders feel confident of having their petition granted.

T. W. Butler of Newcastle, in speaking of the granting of perpetual leases, hinted at a deal and said an attempt was made to make a damnable thing doubly damnable. He said the limit holders, if granted perpetual leases, could become millionaires by selling out their rights and the people could go to the devil.

Charles E. Oak was heard on behalf of the Miramichi Lumber Company and counselled moderation. It was better to take the middle of the road, he said, for a fight meant one side getting left out entirely. He pointed out some of the arguments that could be used by the limit holders.

A resolution was introduced by Mr. LeBlanc, recommending that the present regulations governing the settlement of crown lands under license be dropped and that another section be substituted giving the settler power to cut the merchantable pine and spruce on the tract applied for until the land is granted in full, providing he pays the license holder for same.

The following were chosen as the committee to prepare and present the memorial: W. S. Montgomery, D. J. Buckley, T. W. Butler, Wm. Daugery, Bernard MacCormack, C. LeBlanc, President Flett and Secretary Winslow.

### AT THE OPERA HOUSE.

Voye and Crangle returned from Fredericton and reopened in the Opera House on Friday night. A large audience awaited their reappearance. The vaudeville feature has been dropped, and the show consists of lots of moving pictures, with good instrumental music and first class singing. All for ten cents. Matinee Friday afternoon.

## PASTOR DROPS DEAD.

Rev. A. F. Brown of Digby Neck Baptist church (not a clergyman who was once stationed in Newcastle) dropped dead near his church at Little River, Digby Co., on the 1st instant. He was 61 years old, was an old newspaper man and had served in the American civil war.

## GREEN'S MONEY FOUND

\$2,733 and Two Watches Discovered Under the Floor of a Camp.

Andover, April 5.—The missing money, amounting to \$2,733, together with two watches which belonged to Edward Green, the peddler, who was murdered on the right of way last December, was discovered early Saturday by Constable McKie, under the floor of the camp formerly occupied by the five Italians, Tony Arosia, Leon Sepeppil, Sandy Murray and James and Andrew Hatch. The constable acted under information given by James Hatch.

The circumstances of the discovery are said to be regarded by the crown as of importance as bearing on the evidence given by the condemned men, Arosia and Sepeppil, implicating Murray and the Hatches in the murder. \$1,700 was found in an old lard can, and \$1,033 in a tobacco box.

No date has yet been fixed for the trial of the three new prisoners.

## THE NEED OF TODAY.

Dealing with this subject, the Sacred Heart Review speaks thus: "More books and fewer banquets. More thinking and less drinking. More work and less talk. More self-forgetfulness and less selfishness. More constructiveness and less criticism. More real sociability and less whist. More simplicity and less airs. More copying of kindly and worthy deeds and less imitation of fads and follies and foibles. More real recreation and less mere dissipation. More reality and less sham. More study clubs and fewer social clubs. More helpful, hopeful conversation and less gossip. More emphasis on manners and morals and less on money. More sincerity and less smartness. Larger outlooks and smaller grudges. A greater desire for social usefulness than social prestige."

## FRENCHMAN

### WON MARATHON.

Longboat Stopped at 19 Miles, and Shrubbs at 25.

30,000 PEOPLE

Watched the Great Contest in the New York Base Ball Park, Saturday.

NEW YORK, April 3.—Henry St. Yves, of France, won the Marathon for professional runners at the National league base ball park here today. Dorando Pietri of Italy, was second; John K. Hayes of New York, third, and Mathew Maloney of Yonkers, (N.Y.) fourth. Tom Longboat, the Canadian Indian, quit the track in the nineteenth mile and Alfred Shrubbs of England, gave up in the twenty-fifth mile. Both were completely exhausted trying to keep the terrific pace set by the Frenchman. Shrubbs made a game struggle from the twentieth to the twenty-fifth mile, but the pace was too fast and the distance too far for him.

St. Yves, the almost unknown who figured but little in the forecast of the race, covered the Marathon distance, 26 miles, 385 yards, in two hours, 40 minutes, 50 and 3-5 seconds, a remarkable performance under the conditions, and finished with a fast sprint in good condition. Dorando was four minutes, 40 seconds behind the Frenchman, while Hayes, the third man, followed the Italian across the finish line three minutes and 50 seconds later. No time was taken on Maloney, the fourth man.

St. Yves took down \$5,000 of the prize money; Dorando, \$2,500; Hayes, \$1,500, and Maloney, \$1,000. Shrubbs and Longboat go unrewarded for their brave efforts. This was the result of the greatest Marathon ever run in America and, except in point of number of contestants, the greatest ever run anywhere.

## WEDDING BELLS.

BEATTIE—VOYE.

The home of Mr. and Mrs. Jas. Voye, of St. Marys, York Co., was the scene of a pretty wedding on the 31st ult., when their youngest daughter, Miss Stella May Voye, and Mr. Percy G. Beattie of Fredericton, were united in marriage. The bride was very becomingly attired in cream satin and carried a bouquet of roses and carnations. The ceremony was performed by Rev. A. A. Rideout, and was witnessed by only the immediate friends of the couple. A wedding repast was served after the ceremony. Mr. and Mrs. Beattie will reside in St. Marys for the present. Mrs. Beattie is a sister of C. A. Voye of Voye & Crangle, the well-known motion picture showmen.

### CLARKE—GLENCROSS.

A very quiet wedding took place at the home of Mr. and Mrs. Robert Glencross, Beersville, on the 31st when their daughter, Bella J., was united in marriage with Thomas J. Clarke, engineer on the Beersville railway. The ceremony was performed by Rev. R. H. Stavert of Harcourt in the presence of the immediate relatives.

The young couple were unattended.

Mr. and Mrs. Clarke will reside in Beersville. The Union Advocate extends congratulations.

## In the Local Legislature.

FREDERICTON, Mar. 27.—Nearly all the members of the house, including members of the government, went to the house this morning and the chairman said that there will be a session on Monday. As there have been no meetings as yet there is very little for the house to do on Monday. After the long drawn out debate which ended on Friday in which no less than twenty-five speeches, long and short, were delivered, the members will welcome the result.

Just before the house adjourned on Friday Mr. Fleming announced that the house would go into session next week and that the estimate would be brought down on the same date. The government have been considering the estimates for several days past and it is among the possibilities that the budget speech will be the feature of the coming week. If not, it will be delivered early in the following week. How long the debate on the budget will last depends very largely on the character of the speech Mr. Fleming delivers.

During the debate on the address the opposition speakers brought out many important facts concerning the management of the public business during the past year. It was demonstrated to a conclusion that the audit was of no value in protecting the public treasury. By one of its sections the government, through its treasury board, can always obtain a warrant without asking the consent of the auditor general. Five such warrants were obtained during the past year, the total amount being about \$12,000.

It was also shown that to obtain an extra discount from the publishers of the school readers and other books sold by the government an order had been given for 200,000 scribbles. These books are sold by the government vendors for three cents containing thirty-six pages. Private parties sell a scribble containing sixty pages for five cents. During the debate on the question, it was also brought out that the government gave all transportation charges on the books from the publishers and to the vendors and all expenses of handling the books at Fredericton, so that after all, the books will cost the people directly and indirectly about the same as they always have done. The government has ostensibly lessened the price of school books for the people and made the appointment of vendors part of the political patronage of each county. As a natural consequence the vending of school books has been taken out of the regular channels of trade and placed in very undesirable hands in some cases. In one case in York it was shown that school books were sold over the same counter with liquor.

**A Weak Defence**  
The provincial secretary made a very weak defence of his department. The surveyor general made a much better showing but failed to refer to any but a few of the charges of maladministration made against him by different speakers. A great portion of his address was taken up telling how he had collected a \$10,000 more in the stumpage in Northumberland county than the first estimate made by the scaler would justify. This lumber had been sealed three times before the government got justice, according to Mr. Grimmer, and in 1908-9 he said the first scale would have been satisfactory to the old government. Mr. Grimmer is strong in his opinion, which he is not always able to back up. In fact he might very well take to himself the advice he gave to another member of the house on Friday night. Mr. Grimmer would hardly have had the temerity to refer publicly to this Northumberland business if he had remembered a certain case in Restigouche county in which an opposition candidate, Mr. W. Albert Mott, was greatly interested. Seven years ago word reached the crown land department that a well known North Shore lumberman was conducting an operation of considerable magnitude, regarding which the scaler in the district had made no report. Instructions were immediately sent to the scaler to look into this operation and

report. He declined to do so, and was dismissed. Mr. Mott asked for his reinstatement. It was refused and later he was an opposition candidate for Restigouche. The crown land office collected \$2,000 stumpage on the operation. This was not the only case where the return of a scaler was not accepted by the old government, nor was it the only case where a scaler was dismissed for not properly performing his duties. But these things were not published in the House papers as was done by Mr. Grimmer.

The whole object of Mr. Grimmer was to divert attention from the change in the regulation by which the size of the log was reduced to sixteen feet long and nine inches in diameter. On this change Mr. Grimmer had nothing to say, save that the lumbermen had not been living up to the old regulations. His answer regarding the neglect of the Warden Dean to properly perform his duties was more equivocal, and the same may be said of many of his statements concerning the protection of game by the present government.

FREDERICTON, Mar. 30.—The province of New Brunswick has spent \$2,038,49 since the end of the last fiscal year in general road repairs.

Since the opening of the house every effort has been made to find out how much money was spent on the roads to help out the Conservative candidates in October last. The government, until this afternoon, was successful in preventing the information getting out. Today it was compelled to make the admission that fully half of the public works grant for the roads for the present year had already been spent.

Almost every dollar was illegally spent for the sole object of assisting the Conservative candidates in their election. In one district in Restigouche county where the road superintendent is a violent partisan and a Conservative worker, over \$600 was expended on the roads. In this same district the defeated Hazen candidate stood at the polls representing Mr. Mott, the Conservative candidate, watching how the men his co-workers had employed on the roads had voted. The bringing out of these facts was the sensation of the day in the house.

Out of the \$45,058.49 paid out for the Provincial Government since Nov. 1st 1908 for repairs made on roads during the Dominion elections and after, the county of Restigouche received the sum of \$17,798.88 made up as follows:

Edie Arsenault, Dalhousie, \$99.27.
Joseph Turley, Dalhousie, \$99.65.
Francis Goodin, Dalhousie, \$88.35.
Alex. Frelotte, Dalhousie, \$86.18.
Sam Laughlin, Dalhousie, \$158.54.
James Laviolette, Colborne, \$115.55.
Hugh Archibald, Dalhousie, \$35.90.
Wm. McKinnon, Dalhousie, \$102.79.
Nell Shaw, Dalhousie, \$101.25.
Wm. Nicole, Addington, \$100.00.
G. Dawson, Edon, \$142.50.
John McGovern, Dalhousie, \$633.27.
Francis Goodin, Dalhousie, \$11.00.
Alex. McDonald, Dalhousie, \$6.00.

On enquiry of Hon. Mr. LaBelle the following answers were given Thursday:

1. How many Deputy Game Wardens were employed during the year 1908 in the County of Restigouche?

Ans.—None, since 27th June, 1908. No record of wardens being employed previous to that date.

2. What were the names of the Game Wardens employed?

Ans.—David McCarty, James R. Doyle, W. C. Hamilton, Matthew St. Onge, Murray Duncan, John L. Connelley, James Keen and Victor Polign.

3. What wages were paid?

Ans.—Two dollars per day.

4. What was the total amount paid to each warden during the fiscal year of 1908?

Ans.—David McCarty, \$84.00.
James R. Doyle, \$4.00.
W. C. Hamilton, \$6.00.
Matthew St. Onge, \$2.00.
Murray Duncan, \$1.00.
John L. Connelley, \$4.00.
James Keen, \$4.00.
Victor Polign, \$78.00.
Total, \$169.00.

5. Are the same wardens still in the employ of the Government, if not what changes have been made, and if any new wardens have been appointed, what are their names?

Ans.—All the above with the exception of Victor Polign are still in the employ of the Government, as Fire, Fish and Game Wardens. Henry Dorte takes Victor Polign's place.

FREDERICTON, Mar. 30.—In the legislature yesterday Hon. Premier Hazen introduced a bill to amend the Supreme Court Act. This amendment will take the place of the judicature act of 1906, and is on similar lines. Six Judges will sit in appeal as at present, but no Judge may sit on appeal from his own judgment. There will be six Judges. Four must reside at St. John and one at Fredericton. There will be five terms of the Supreme Court, in February, April, June, September and November. The Circuit Courts will be rearranged so that

not more than two sittings will be held simultaneously. The new act will come into force this year.

Hon. Mr. Hazen also introduced a bill relating to the custody of children providing that the claims of the father or mother shall not be paramount, but only equal to that of the mother and giving the Court discretion to act in the best interests of the children, when parents or guardians disagree as to who shall have the custody of the child.

Hon. Mr. Hazen introduced a bill to provide that when two or more claimants for insurance on deceased, the company interested may pay the amount of the policy into the equity court in trust, and receive a discharge from further liability.

Several government bills were agreed to.

Hon. Mr. Mealy stated that the amount paid in road tax in 1908 was \$67,640.

FREDERICTON, April 1.—On Wednesday afternoon in the House of Assembly, Attorney General Hazen moved the House into committee, to take into consideration a bill and act to provide for the appointment of a stipendiary or police magistrate with civic jurisdiction in the Parish of Durham, in the County of Restigouche. Mr. LaBelle asked the Attorney General to allow the bill to stand for a few days, as the information that he was receiving from leading ratepayers in the Parish of Durham, in the County of Restigouche would go to show that if the wishes of the temperance people of that large parish were carried out, there would be no necessity to give power to the municipal council to build a lock-up in the parish of Durham. The present bill provided that the sum of \$500.00 might be expended by the County Council in building a lock-up in the lower end of the County, the cost of the lock-up being chargeable to the parish of Durham.

He was informed that during the beginning of the present week a large meeting of the people of Durham was held at River Louisbourg, which meeting was addressed by two of the clergymen representing the two denominations of the parish, and as a result of this meeting two petitions were being largely signed, one to be forwarded to the government-in-council, praying that an order in council be passed to prevent the granting of licenses to sell intoxicating liquors in the parish of Durham. The other petition, addressed to the board of liquor license commissioners for the County of Restigouche, strongly requested that no licenses be granted in the parish of Durham for the coming year.

In view of these facts, and that the County in past years towards the creation of a public hall in the parish of Durham, and knowing the peaceable condition of the people of that parish when no liquor is sold therein, from the parish of Durham, the distance was only about some twenty miles, the intercolonial railway traversed the whole County, and the highway between Durham and Dalhousie, the shortest, is one of the best in the Province and there can be no difficulty experienced in bringing any prisoner to the County Jail in case of any emergency arising.

The Attorney General stated that he would gladly allow the bill to stand over for further information, and he would inform the committee that even if the legislation were passed it would not put the municipal council of Restigouche to take action unless they felt it was absolutely necessary to do so.

years of experience, he would respectfully urge that there would be no necessity for the parish to go to the expense of spending the sum of \$500 in a lock-up. The county jail of Restigouche County is not situated very far from the parish of Durham.

Reply given to Mr. LaBelle on Friday last by the Surveyor General.

(1) What position does C. S. Shaw occupy in connection with the Crown Lands of New Brunswick?

Ans.—He is a scaler and superintendent of scales in Restigouche county.

(2) When was he appointed to office and by whom was he recommended?

Ans.—Appointed Dec. 30th, 1908, on his own application.

(3) What salary does he receive?

Ans.—\$700 per year including expenses.

(4) What ground is he supposed to occupy in his official capacity?

Ans.—Restigouche County.

(5) Has he made any reports to the surveyor general, if so what is the nature of such reports?

Ans.—He has made reports from time to time, giving estimates of the lumber cut in the district under his supervision.

## TO ORGANIZE TEACHERS.

International Teachers' Union Plan-  
ned by the Tupper.

Boston, Mass., March 26.—Sir Charles Tupper, of Canada, is working hand-in-hand with a Boston relative, Mr. Frederick A. Tupper, head master of the Brighton High School here, in organizing the half million school teachers of Canada and the United States into an association, with well-defined aims, and to use the forces of organization for the realization of these aims. The Boston man said: "We stand for higher salaries, pension for teachers, tenure of office, the Sabbatical year, national and state aid to education, extension of teachers' legal rights, more attention to school hygiene, playgrounds, gymnasiums and baths for all schools. The plan has the endorsement of the greatest educational authorities of this country and Canada, including President Eliot, of Harvard College. Sir Charles Tupper is aiding us in every way, and it is hoped through his efforts that branches throughout Canada will be established."

[The N. B. Teachers had a powerful Union between 1903 and 1908 but have allowed it to fall into disuse the last year or two. It is time they awakened and put forth renewed effort.—Ed. UNION ADVOCATE.]

## MANY NEW LABOR UNIONS FORMED

Increase of 107 Organizations Up to  
End of February—Five Industrial  
Disputes During Month

Ottawa, March 25.—The current year showed considerable activity in the formation of labor organizations, particularly in the Maritime Provinces. In Ontario and Quebec, according to the Department of Labor, there was a decline. To the end of February there were 197 labor organizations formed and fifty dissolved, showing a net increase of 107. The year before there was an increase of 174 and the year previous to that a gain of sixty nine. During the month there were five industrial disputes affecting five companies and 205 hands. They resulted in the loss of 4,395 working days.

## ONTARIO WOMEN WANT TO VOTE

Advocating votes for women, a large deputation, some 150 in number, from the Canadian Women's Association, waited on the government at Toronto on Wednesday. Sir James Whitney, in reply, said with such a momentous proposition as that to change the method of the political management of the country the deputation could not expect him to immediately declare his policy. The government would have to examine into the moral and social aspect of the question.

## CANADA'S POPULATION.

In 1665 Canada had 3,251 people not counting Indians and Esquimaux; in 1689 there were 13,385; 42,701 in 1739; 70,000 in 1763; 113,012 in 1784; 3,500,000 in 1867; 5,371,315 in 1901; and in 1908 the population was estimated at 6,863,300. In Western Canada there are 25,000 Swedes, 15,000 Norwegians, 10,000 Finns and 5000 Danes. The Germans number over 50,000 and the Russians over 10,000.

## KILLS WOMAN'S SUFFRAGE BILL

Boston, March 24.—Woman's suffrage in Massachusetts was killed in the house of representatives yesterday by a vote of 160 to 43 in an attempt to substitute the bill for the adverse report of the committee.

**PAIN**

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least so says Dr. Shoop, and he proves it by his little pink tablet. This tablet—called Dr. Shoop's Headache Tablets—conveys blood pressure away from pain centers. Its effect is charming, pleasing, delightful, timely, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with vaginal same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the blood is empty distribute the unnatural blood pressure.

Bruse your finger and doesn't get red, and swell, and pain your. Of course it does, it's congestion, blood pressure. You'll find it where pain is—always. It's simply common sense.

We sell at 25 cents, and cheerfully recommended

NEWCASTLE, APRIL 7th, 1909.

A GAIN FOR  
EQUAL SUFFRAGE.The legislature of South Dakota  
has passed an act granting women  
the right to vote, subject to a  
referendum to be taken on the  
subject next year.PHYSICIANS  
AND PATIENTS.

The bill before the Local Legis-  
lature, promoted by the New  
Brunswick Medical Society, is a  
most important one, aiming, as it  
does, to make the council of Phy-  
sicians practically absolute in all  
matters of medical practice in this  
province, shutting out all new  
medical practitioners but those  
measuring up to the standard  
that the present physicians  
seek to impose upon them. A  
medical monopoly would not likely  
be any easier on the people than  
any other Trust, and we hope that  
our legislators will eliminate from  
the bill any and all sections that  
may unduly restrict the patient's  
freedom of choice and enlarge the  
doctor's opportunity of collecting  
extortionate fees. This latter evil,  
which does not manifest itself so  
much in towns, is frequently very  
much in evidence in the rural  
sections. It would do no harm if  
the Chinese plan were adopted, by  
which physicians are paid for keep-  
ing people well rather than for  
curing them when sick. Boards  
of Health should be entirely com-  
posed of competent physicians, who  
should be liberally paid as long as  
they maintained the public health  
in good condition and dismissed as  
soon as they allowed an epidemic  
to get the better of them. Such  
boards would require wide powers  
of compelling obedience to sanitary  
regulations, but if the exercise of  
their powers made and kept the  
people healthy the latter would  
willingly submit. The plan of  
paying the doctor nothing when  
we are well and allowing him to  
charge what he pleases when we  
are sick needs to be reversed. Let  
him be paid generously for not  
allowing us to become sick. It  
would be better for both doctor  
and patient.

## IMPERIAL QUESTIONS.

The British government has  
been sustained on the question of  
Naval expansion by a vote of 353  
to 153, the leader of the opposition  
moving a vote of want of confidence  
on the ground that the govern-  
ment's plan of building four large  
battleships was insufficient, the  
country needing eight. The govern-  
ment, however, intimated dur-  
ing the debate that, while they  
were going to lay down only four  
immediately, they would reserve  
the right to lay down four more if  
necessity required, thus practically  
agreeing with the opposition's de-  
mands.

New Zealand has voted the  
worth of a battleship as a donation  
to the Mother country, and the  
Australian States of New South  
Wales and Victoria have decided  
to do likewise. Ontario and Mani-  
toba are discussing the advisability  
of offering another fighting

machine to the Imperial authori-  
ties. Australia has adopted the  
principle of universal military  
training for her male citizens  
and is also preparing to build a  
fleet of smaller war vessels. The  
Canadian parliament is seriously  
considering the building of a Cana-  
dian war fleet.

To make this defensive cam-  
paign effective, the different self-  
governing parts of the Empire—  
Great Britain and Ireland, Canada,  
Newfoundland, Africa,  
Australia and New Zealand—should  
form a close confederacy like that  
of the United States, of America,  
or even more centralized, between  
all of whose members should be  
absolute freedom of trade, the  
army and navy and all questions of  
peace and war and commerce being  
under the authority of the central  
parliament, in which each state  
should be represented according to  
its population. What the British  
Empire needs is more union among  
its constituent parts, if it is going  
to last much longer and continue  
to play a leading part in the family  
of nations. If her colonies do not  
rally to her assistance and unite  
with her, Britain may be compelled  
to make overtures to France and  
other countries for the organization  
of a United States of Europe, the  
capital of which would in all proba-  
bility be Paris or some city other  
than London. Let the English-  
speaking people bury their petty  
likes and dislikes and branch out  
in the great and glorious path of  
Union and Progress.

## OUR CIVIC PLATFORM.

Had we any voice in the man-  
agement of the affairs of New-  
castle or any other New Brunswick  
town, we would, as a preliminary  
to the introduction of still other  
much-needed changes, exert our-  
selves to the utmost to so alter the  
civic system as to bring into oper-  
ation the following reforms:

The making of all respectable  
citizens eligible for election to any  
office within the gift of the  
electorate.

The election of assessors, now  
appointed by the council.

The election of the school trust-  
ees now appointed by the council.

The provision of a sinking fund  
large enough to rapidly reduce the  
present debt, no further additions  
to be made to the latter.

The taxation of vacant or un-  
improved land at the selling price  
asked for it by the owners, with a  
view of compelling the owners,  
who are now merely speculating  
in land values, either to build upon  
such premises, thus increasing the  
number of dwellings and affording  
accommodation at reasonable rates  
for an increased population, or  
sell their property, now useless, to  
those who are willing and anxious  
to build houses, stores or factories.

"I can truthfully say  
that I believe that, but for  
the use of your Emulsion  
I would long since have  
been in my grave. I was  
past work—could not walk  
up-hill without coughing  
very hard."

THIS, and much more was  
written by Mr. G. W. How-  
erton, Clark's Gap, W. Va. We  
would like to send you a full  
copy of his letter, or you  
might write him direct. His  
case was really marvelous,  
but is only one of the many  
proofs that

Scott's  
Emulsion

is the most strengthening  
and re-vitalizing preparation  
in the world. Even in that  
most stubborn of all diseases  
(consumption) it does won-  
ders, and in less serious  
troubles, such as anemia,  
bronchitis, asthma, catarrh,  
or loss of flesh from any  
cause the effect is much  
quicker.

Do not delay. Get a bottle of SCOTT'S  
EMULSION—be sure it's SCOTT'S and  
not a cheap imitation.

ALL DRUGGISTS

Let us send you Mr. Howerton's letter  
and some literature on Consumption.  
Just send us a Post Card and mention  
this paper.

## LABOR AND WAR

[St. John Sun, March 31st, 1909.]

While the British parliament  
was debating on Monday night the  
necessity of increasing naval arma-  
ments, the government defending  
the present rate of progress though  
admitting that it spelled national  
bankruptcy eventually and the  
opposition demanding more ships  
and a larger expenditure, and both  
pointing to Germany as the chief  
source of danger, the Labor mem-  
bers of that parliament and the  
Socialist members of the German  
Reichstag exchanged telegrams  
pledging themselves to work for a  
reduction of armaments.

Is there here a possible solution  
of this terrible problem of militar-  
ism which, unless peacefully solved  
in the near future, means world-  
wide financial disaster or world-  
wide war, or both? The two  
parties to this notable pledge speak  
for the classes in all countries who  
bear the burden of all this warlike  
preparation as well as the burden  
of war itself when it comes. It is  
the working man who pays the  
bulk of the taxes; the working man  
who fills the firing line and the  
casualty lists; the workingman's  
wife who wears black after each  
glorious victory. And the work-  
ingman is waking up to this and  
also to the fact that in whatever  
of profit war might bring to the  
victorious nation he has small  
share if any. And in his organiza-  
tion for mutual protection and  
advancement he is beginning to  
realize that, through the ballot,  
he has the power to direct national  
policy—that he, who is the victim  
of war, has in his hand the power  
to bring war to an end.

And in this gradual develop-  
ment of class consciousness, of a  
spirit of fellowship which trans-  
cends national boundary lines, lies  
the only presently visible ground  
for hope that the world will settle  
down on a common, sensible, peace-  
able basis before the jealous  
powers have exhausted or destroy-  
ed each other. None will deny  
that universal peace is desirable.  
The leaders of the most warlike  
nations are the most ardent dis-  
ciples of peace in the abstract.  
But though they all cry peace,  
there is no peace. Though it is  
obvious that by an ordinary hand-  
shaking agreement between half a  
dozen nations mutually desirous  
of escaping the costly responsibility  
of armaments the world would be  
rid of this horrible spectre, these  
nations keep piling up their debts  
and dangers. They do not trust  
each other. Each suspects the  
other of sinister designs of aggres-  
sion and aggrandisement. None  
dare take the first step toward  
disarmament for fear of inviting  
attack. And so the race must go  
on until bankruptcy comes or, as  
more probable, some nation delib-  
erately chooses war as the lesser  
evil. When war becomes cheaper  
than peace then war must come,  
and that day is not far distant at  
the present rate of progress.

When a European war does  
come, after all this preparation, it  
may shock the world into its  
senses but even that is doubtful.  
The only sure foundation for  
common peace is better acquaint-  
ance, closer relations and a broader  
appreciation of the common  
interests of Christendom. And  
the greater hope for this union of  
sentiment lies today in the steady  
growth of the Labor and Socialist  
ideas which, with all their fallacies  
with regard to social and com-  
mercial conditions, are the source  
of the only present political force  
which ignores national boundaries  
and provides ground for action for  
the common good of mankind, re-  
gardless of race or language.

## Suggestive Questions on the Sunday School

Lesson by Rev. Dr. Linscott for the

## International Newspaper Bible Study Club.

April 11th, 1860.  
Easter Lesson, I Cor. xv. 12-28.  
Now is Christ risen from the dead, and become the first fruits of them that slept. I Cor. xv. 20. Corinth.

Verses 12-13. Does the doctrine of the resurrection of the body rest upon revelation or upon reason?

Providing the soul is immortal, is it, or not, of material importance whether the body is raised or not?

If there is no resurrection of the dead, it follows as Paul here states, that Christ is not risen; but is the converse true, that if Christ is risen, then all human beings will necessarily be resurrected?

Why was it, when Jesus was crucified, that His disciples were a dispirited band, having lost heart, and going back to their former occupation, and what was it afterwards that put new life in them, and made them the most courageous men that ever lived? (This question must be answered in writing by members of the club.)

What is the process of reasoning that demonstrates the fact of immortality?

What is the scripture proof of life after death?

Can you mention a single nation or tribe of the past, or at the present which has not believed in immortality in some shape?

Verses 14-17. If there is no resurrection of the dead, how would that make their preaching vain, make our faith vain, and make them false witnesses?

Verses 18-19. How is it that all men instinctively believe in the immortality of their departed friends, and expect to meet them again?

It was doubtless true in Paul's day that if there was no immortality, Christians were of all men most miserable, because they were then despised, and put to death; but is the same true to-day? Is not Christ's religion now a grand thing for this world, even if death did end all?

Teas grown at high altitudes on the mountain slopes of Ceylon, where the growth is slower and cultivation more careful than in the warm, humid climate of the valleys, are used in "Salada" Tea. High-grown tea like "Salada" is not only of a finer quality, but contains more of the essential oil in leaf than valley-grown tea. This is easily proved by comparing a drawing of "Salada" Tea with any other.

## LYTTLETON.

The ladies of the Lyttleton Baptist church have organized a sewing circle. The first meeting was held a few days ago at Mrs. Ernest Tozer's.

Mrs. W. H. Tozer, who has been much troubled with rheumatism, is convalescent.

Mrs. Ellen Matthews of Halcumb is getting better after a severe illness.

Mr. Herbert Matthews of Halcumb, recently lost a very valuable four year old horse of distemper.

Mrs. Abram Tozer of Halcumb, is able to be about her work again.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice where a liniment was required and have never failed to get the desired effect.

Mr. Edward McInerney, of Richibucto, spent Sunday with Mr. and Mrs. W. F. Buckley.

Miss Dorah Humphrey, on her return from Campbellton to her home in Apohaqui, was the guest of Mrs. R. G. Girvan on Wednesday.

Mrs. C. H. Manaton returned this week from a pleasant visit with friends in Dorchester.

Mr. Melbourne Carter left this week for Millerton, where he will work with the Miller Tanning Extract Co.

A quiet but interesting event took place on Wednesday evening, March 31st, at the home of the bride's parents, Mr. and Mrs. Robt. Glencross, Beersville, when their daughter Isabella, was united in marriage to Mr. Thomas Clark of

Verses 24. What is the chief evidence of the truth of Christianity?

What is the proof that Jesus did rise from the dead? (See Matt. xxv. 16-18; Mark xvi. 1-7; Luke xxiv. 36-48; John xxi. 1-14; 1 Cor. xv. 12-14, 20-22; I Cor. xv. 28, et seq.)

Is the fact of the resurrection of Jesus to be proved by evidence, like any other fact, and is there any other historic fact better attested?

Why was it, when Jesus was crucified, that His disciples were a dispirited band, having lost heart, and going back to their former occupation, and what was it afterwards that put new life in them, and made them the most courageous men that ever lived? (This question must be answered in writing by members of the club.)

What became the prominent theme of their preaching?

Is it creditable that such noble men, who afterward laid down their lives for the truth, would testify that they had seen and talked to Jesus after his death, if they had not so seen him?

Verses 21-32. Would there have been natural death if there had been no sin? Would there have been any resurrection of the dead, if Jesus had not been resurrected?

Verses 23-28. Was Christ the first man to rise from the dead?

When will the general resurrection be? Will Christ finally abolish death and destroy sin?

Has God put all the forces of nature under the control of Jesus?

## MCDONALD'S MOOSE

The birchen horn, that called the moose, that wore the head, that carried the horns, which attract the attention of men who visit the office of the Park & Pollard Company in Canal St. these days, sounded "taps" in October for one of the heaviest big game animals killed during the last open season.

It was a bit late for good calling when Philip R. Park, who made the kill, entered the New Brunswick forest at Newcastle accompanied by John McDonald. Arriving at a likely-looking place the guide made several attempts to get responses by sending out the cow cry.

Both guide and sportsman thought they heard something suspiciously gamey away on in the thick of the jungle while the cow cry was oo-ooing through the stillness, but they were not sure.

"Just listen," said the guide with a smile, and he let go a call through the cone of bark entirely different from any he had yet sounded.

"What's that?" asked Mr. Park. "The challenge," whispered the guide, "sssst," and he held up his hand warningly.

From far away on the other side of a dense swamp of cedar came a keen ringing response, a sort of "yes, ding you," and the guide laughed quietly and listened.

"Just another to give him direction," he said, and once more the challenge of the big timber was wafted tauntingly in the direction whence came the first reply.

That the angry moose in quest of a scrap had approached with some caution was apparent for no sooner had the second "come-on" been heard than there was sudden and near commotion in the swamp, and into full view burst one of the finest moose ever seen in New Brunswick.

Just for a moment he stood head high, nose searching the air, ears forward and eyes ablaze. Mr. Park fired. The antler spread measured 59 inches.—Boston Globe.

## EMERSON.

Mr. Isaiah McLeod, who has been spending the winter in Houlton, Me., has returned home, accompanied by his brother John, who has spent the past three years in Houlton.

Mr. C. Morrison, who moved his saw mill near Emerson last fall, has cut a large amount of lumber during the winter and expects next week to move his mill to Cumberland Co., N.S.

Mr. T. Ogden of Harley Road, who has spent the past few weeks with his nephew, Mr. John Ogden, of Emerson, and has been very ill, has recovered and expects to return to his home in a few days.

Mrs. Thomas Irving of Beersville spent 25th and 26th with her parents, Mr. and Mrs. Robert McCray of Emerson.

Misses Lizzie and Eva Beers spent the 31st with friends in Harcourt.

Mrs. James Spencer of Beersville, who has been seriously ill, is improving under the care of Dr. H. Fairbanks.

Mr. John W. Beers visited friends in Moncton on the 20th.

Mr. Reid Lyons went to N. S. on the 20th to spend a few days with friends there.

## A CASE FOR CHARITY.

A widow and four little children, living rent free in Mr. Graham's house Bay du Vin Mills, are reported to be entirely destitute and nearly starving. The Glenelg poor commissioner, Mr. Graham tells us, refuses to help the family through the winter. Somebody with some regard for humanity and the good name of Glenelg, should look into the case at once and see that something is done for this poor woman and her children.—Chatham World.

Minard's Liniment for sale everywhere.

Most of the Chatham teachers called at Principal R. D. Hanson's house, Wednesday night to say goodbye, and presented him an elegant leather travelling bag. Mr. and Mrs. Hanson entertained the callers, refreshments being served, and all spent a pleasant evening. Inspector Hanson left for Fredericton Thursday morning to begin his duties. Geo. P. O. Fenwick, B. A., has been engaged to teach the Chatham Grammar School for the rest of the school year. Mr. Fenwick began work April 1st. He is an honor graduate of the U. N. B., took a two-years postgraduate course at Queens University, and taught the Dorchester High School two years.

## STORES THAT ADVERTISE

Offer Many Inducements for the Buyer Over Those Where Enterprise is Lacking.

It is generally conceded that stores which advertise are in a position to sell goods at lower prices than their non-advertising competitors. The larger volume of trade as the result of newspaper publicity reduces the ratio of operating expense. The customers of such stores, share in this saving. Larger turnovers in stock likewise increase the buying facilities of the merchant who advertises, with the result that he is in a position to take advantage of the best price inducements of the wholesalers and manufacturers.

Two striking characteristics of the stocks of stores that advertise are newness and freshness. Shop-worn goods are conspicuous by their absence, because with systematic and judicious advertising stocks cannot accumulate on the shelves.

Furthermore, stores that advertise clearly indicate their appreciation of your patronage. You visit these stores on their own special invitation. It is but reasonable therefore to conclude that in these stores you will be accorded more courteous attention than in the store which shows an indifferent attitude regarding your trade.

Newcastle's most reliable and progressive merchants use the UNION ADVOCATE regularly for placing their daily business announcements before the purchasing public. At all times this information merits attention, and by reason of the many special price inducements being offered at the present time this store news is of exceptional interest to-day.

## THE ILLS OF BABYHOOD AND OF CHILDREN.

The ills of childhood are many, and may prove serious if not promptly attended to. In all homes where Baby's Own Tablets are kept there is a prompt cure at hand for such troubles as indigestion, colic, diarrhoea, constipation, worms and troubling troubles. And the mother has the guarantee of a government analyst that this medicine contains no opiate or poisonous drug. Mrs. R. Hammond, Cape Breton, says: "I have used Baby's Own Tablets and think nothing can equal them for small children. I would not be without them in the house, for they saved my little girl's life." Sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## DOES NOT PAY TO SWINDLE.

TORONTO, April 6.—Daniel Corrigan and Frank M. Callum, G.T.R. conductors, who swindled the company by carrying passengers on fake tickets, got three years in the penitentiary. Joseph Woods and Harry Rosenberg, who sold bogus tickets, got a year apiece. Jacob Wood, who defrauded the G.T.R. in a similar way, was released on suspended sentence.

## ONE CENT A MILE.

The Stochart Motor Car Co., Ltd., have added a new line this week, 25 charcol stoves, and 2000 pages of charcol. Stoves retail for \$1.00; charcol 2 pgs. for 25 cents. It costs 10¢ an hour to run, to cook a meal for average family, 4¢ cheaper and safer than oil stoves; an attach to any stove or range and use same smoke pipe.

A woman has been charged with her husband, charged with two children, with a charge of incest, in not knowing how to control the women have an unfair advantage.

## KENT COUNTY WOMAN DEAD AGED 105.

Mrs. James Patterson, Kent County's oldest resident, died at Kouchibouguie on the 2nd inst., aged 105 years and some months. Until the past two weeks Mrs. Patterson had enjoyed good health. Mrs. Patterson's maiden name was Potter. She was born in the parish of Kirkcubright, Dumfriesshire, Scotland, in 1812, coming to this country in 1833 with her husband. She made her home by the Kouchibouguie River, where she has since lived. Five of her nine children survive her. They are Robert, John and Margaret, at Kouchibouguie and Mrs. Kee and Mrs. Cummings, in the United States. She is also survived by a niece, Mrs. Agnes McNaught.

## NEWCASTLE'S PROSPECTS BRIGHT

For Location of Shipping Point of Canada Iron Corporation.

## A PLAN PROPOSED

Public Meeting Will be Called soon to Which Everything Will be Submitted.

Mayor Miller returned on Saturday from a trip to Montreal and Ottawa whither he went to interview the Canada Iron Corporation and the Dominion government re the making of Newcastle the Shipping port for the Drummond Mines and finally the site for a smelter.

His Worship returned much encouraged with the outlook for Newcastle in this regard. Mr. Taylor, one of the company's men, has been here to look over the ground again, and the Mayor has a definite proposition from the company which he will, at an early date submit to a public meeting.

The Corporation stipulate for wharves to be built and leased to them, they to pay for the maintenance of same and have the option of buying them within twenty years at cost.

The Dominion government has promised assistance, and the local government has been asked to contribute. The latter's reply is expected soon.

Altogether, the prospects for this port are at present of the brightest.

Alderman Dennis P. Doyle has been appointed Chief Constable, Warden for Westchester, Ontario, and Northumberland counties, vice Charles Sargeant resigned.

The doctrine of the Methodist Men's Union on Friday evening, April 2nd, was on the question of allowing women equal political rights with men. The affirmative was led by H. H. Stuart, with Rev. D. A. Rice contra. Among the speakers were messrs. T. A. Clarke, Simon McLeod, Walter C. Day and Arthur W. Steele.

## ENLARGING HIS STORE.

Geo. Stables, one of the most deservedly popular and successful merchants of Miramichi, is enlarging his store, taking in the apartments formerly occupied by the Larson, photographer. Mr. Stables has then by doubling his floor space, allowing more room for his rapidly growing business. The grocery department will henceforth be upstairs, giving the whole ground floor for groceries, etc. By strict attention to business, the most careful consideration of his customers' needs and tastes, the selling of first quality goods only, and a regular advertising in the columns of the Union Advocate, Mr. Stables has built up a splendid business, which, in all probability, will soon demand a further increase of space.

This people's opinion must resemble a common sense to be in style. If women suffrage would stand at the milliner's stalls, the cost of the milliner's stock would be cut in half and much desired dress would be in plain.

"Fruit-a-tives." I suffered for four  
long years with this trouble. My head  
ached incessantly. I could not eat  
anything but what I suffered awful  
pains from indigestion. I used every  
known remedy but was treated by  
physicians, but the dyspepsia and head-  
aches persisted in spite of the treat-  
ment.

I was told to try "Fruit-a-tives" and  
I sent for six boxes, and this was the  
only medicine that did me any good.  
I am now entirely well. I can eat ordi-  
nary food and I never have a head-  
ache, and for this relief I thank this  
wonderful remedy "Fruit-a-tives." My  
case is well known in this vicinity and  
you may publish this statement.

## MYSTERY STILL SURROUNDS 'NURSE' WHO KIDNAPPED LAD

Willie Whittle Has Identified Man and  
Woman as the Pair who Stole  
Him From School

CLEVELAND, Mar. 25.—J. P. Whittle,  
of Sharon, Pa., father of Willie, the  
central figure in the kidnapping case,  
did not return to Sharon with the other  
members of the family yesterday. It  
was reported he is in Cleveland to clear  
up some private law affairs. Charles  
and Joseph and the woman who  
claims to be his wife, are expected to  
be handed by the Grand Jury today.  
Further efforts to obtain satisfactory  
identification of the woman in the  
case will be made today.

Thomas F. Boyle, of Sharon, Pa.,  
a brother of the man under arrest,  
arrived in Cleveland today. He has  
asked permission to see the woman  
detained at the Central Police station  
and he may be able to throw some  
light on her identity.

To the Associated Press Mr. Whittle  
said he and Mrs. Whittle have the  
highest appreciation for the constant  
activity of the police all over the  
country. "No understanding as to pro-  
secution has yet been reached," said Mr.  
Whittle. "We want justice administered  
and since the crime was committed  
in Pennsylvania, we believe that  
it is the proper place in which to bring  
the criminals to trial."

Willie Whittle yesterday identified the  
man and woman held on suspicion  
by the Cleveland police as the persons  
who kidnapped him.

## A FLEET FROM THE EMPIRE

The vision of Great Britain stripped  
and shorn of its empire and become  
one of the neutralized states of Europe  
is bound to be regarded by the extreme  
left of the empire itself. From New  
Zealand there already comes an offer  
to defray the cost of a first class bat-  
tle-ship of the fleet type. The money  
for the ship will be forthcoming  
immediately. It more is needed the  
money for a second ship will be raised.  
This offer is not particularly remark-  
able. For the tradition of imperial  
loyalty had been set. It can take but  
little more to confirm it. England's  
navy taken satisfaction in the fact that  
before imperial naval reform had en-  
tered the sphere of practical politics  
Canada voluntarily accepted the most  
thoroughly practical of her commercial  
rivals in the tariff on manufac-  
tured goods. One of the brightest  
pages of British history is that which  
tells how almost before the talk of im-  
perial unity had taken form the colo-  
nies began mustering their troops for  
the aid of Great Britain in the Boer  
war. At the queen's last jubilee, at  
the coronation of King Edward, in im-  
perial conferences and parliaments un-  
numbered, this feeling has been in evi-  
dence. A colonial poet gave it elo-  
quent expression when the present king  
was crowned.

When you hear the belated concur-  
rence of the world and sing:

Alas, of our fathers who  
in vain sought the true and the free,  
By the changeless heart's decree  
On all the winds of heaven and the  
currents of the sea  
From the verges of the empire will  
come, "God Save the King!"

A number of Canadians have recently  
been refused entry into the United  
States. Service men right. What on  
earth do they want to go to the United  
States for when there are better op-  
portunities for personal advancement  
in their own country. Let them stay  
at home and aid in the great work of  
developing Canada. It should appeal  
to their pockets if not to their patrio-  
tism.

FREDERICTON, Mar. 25.—It will be  
encouraging to all parties interested  
in the erection of the Matapedia In-  
terprovincial Bridge, to know that in  
reply to an inquiry made by Mr. La-  
Belle in the House of Assembly on  
Monday, chief Commissioner Morrissey  
stated that he had visited the site of  
the bridge during recess, and that he  
had made a favorable report to the  
Governor-in-Council and that the gov-  
ernment had decided to pay the sum  
of \$5,000 towards the erection of the  
structure. Moreover, that the New  
Brunswick department of Public Works  
would build the road approach on the  
New Brunswick end of the bridge.

## A St. John Stone Mason Cured of Rheumatism

By "Father Morrissey's No. 7"  
After Seven Doctors  
Had Failed.

647 Main St., St. John, N.B.  
FATHER MORRISSEY MEDICINE CO., LTD.  
I am writing to tell you I have been  
a victim to Rheumatism for several years,  
and have been treated by seven doctors  
without finding any permanent relief  
until I got Father Morrissey's medicine.  
It has cured me so I am able to do my  
work and find I am as well as ever in  
my life.

Yours truly,  
JOHN CRAWFORD.

Rheumatism is caused by sluggish  
kidneys failing to take the Uric Acid  
out of the blood. The whole system  
becomes loaded with poison, causing  
gathers in joints and muscles, causing  
agony at every movement.  
"Father Morrissey's No. 7" Tablets  
act directly on the kidneys, stimulating  
to vigorous work. They dissolve  
the Uric Acid in the blood and free the  
whole system of the poison. Then, of  
course, the Rheumatism leaves. Price  
50 cents at your dealer's or from Father  
Morrissey Medicine Co., Ltd., Chatham,  
N.B.

## THE GREAT WHITE PLAGUE.

Some useful Information About Its  
Nature, Prevention and Cure.

A great deal has been written on  
this subject in the newspapers, maga-  
zines and the lay press generally, within  
the past few months, and deservedly  
so, for probably no disease has so  
taxed the energies and skill of the  
medical profession within recent years  
as consumption. Too much credit has  
been bestowed upon the physicians  
of our country who have given so  
much of their time to the dissemination  
of information regarding the best  
and most effective means of fighting  
this plague and who have not yet  
been able to discover the absolute cure  
of this disease. We must do our best  
to prevent it, and this has certainly been  
accomplished in a remarkable degree  
our government instead of spending  
so much annually in fighting con-  
sumption in our country, might with  
better results, devote part at least  
of this expenditure in an effort to  
save the lives of our own people by  
disseminating information on the sub-  
ject of tuberculosis, which would pre-  
vent it, instead of being in the  
hands of the disease. A great deal  
has already been done in this line and  
a great deal can yet be accomplished.

People should stop wasting their  
money in patent medicines and pro-  
prietary nostrums which are ex-  
pensively advertised to "cure" con-  
sumption. The selling of such trash should  
be made a criminal offense, punishable  
by a severe penalty. People are being  
hoaxed up by these sharks until they  
are ready to drop into the grave in-  
stead of being taught how to live in  
an atmosphere of comparative security.  
Very liberal rewards are offered for  
the discovery of a positive cure for  
consumption, but such a remedy has  
not yet been obtained.

The following directions for the pre-  
vention of the spread of consumption  
as well as its treatment in con-  
sumption is taken from a pamphlet  
issued by the New Homeopathic Society  
of the province of Ontario. Society  
and seems to be about as much as  
the present and contains as much in-  
formation in a few words as anything  
we have yet seen on the subject.

## Its Nature

Consumption is a disease of the lungs.  
It is caused by a very small living  
thing called the tubercle bacillus. This  
living thing, the germ of the disease,  
comes from the sick person through the  
air. Many thousands of them are  
coughed up and spit out by a consump-  
tive person in a single day. When the  
sick person is in the street or in the  
company of other persons, the dust of  
the air and are then breathed  
into the lungs of other people, at  
which time they may cause the disease.

## Its Prevention

Consumption can be prevented by  
educating people to observe the follow-  
ing directions:

1. Don't spit on the sidewalk. Ask  
others not to do it. It is against the law.
2. Don't spit on the floor of your  
home, office or workshop.
3. Always destroy the spit before  
disposing of it.

## How to Destroy the Spit of a Consump- tive

Always spit into a cup of paper  
which must be burned with its con-  
tents, or into a cup of china or metal  
containing a solution of household lye,  
and which must be washed for at least  
ten minutes each day, or spit into  
paper napkins which you use once and  
put into a paper bag and burn.

## Its Cure

First aim, rest. Food, cheerfulness.  
Why Fight It?

Because more people die of con-  
sumption than any other disease.  
Because it is a disease which can  
be stopped and need not spread.  
Because every one may and should  
fight it.

If you already have a cough, or  
if you have the number of deaths  
from consumption, be growing less.  
Twenty years ago there were many more  
deaths in proportion to the population  
than now.

## When Fight It?

Now.  
Every day.

Tell your friends these things that  
they may know how to avoid it. Tell  
your consumptive friends these things  
that they may know how to avoid it.  
It is to others.

See that the law against spitting is  
observed in your neighborhood.

## Remember

That consumption is not contagious  
by smallpox or scarlet fever.

That a consumptive who is careful  
and clean is not dangerous to those  
with whom he lives or with whom he  
works.

If you have consumption remember  
the following things:

- (1) Fresh Air  
Don't live, work or sleep in rooms  
where there is no fresh air.  
Take all the fresh air into your lungs  
that you can by deep breathing.
- (2) Rest  
Stay out of doors all you can. Re-  
member that sunshine kills the germ.  
Sleep with at least one window open  
in your room. Don't be afraid of cold  
air.
- (3) Food  
Go to bed early—Sleep at least eight  
hours.  
If you have to work, rest all you  
can while at home.
- (4) Food  
Eat all the good, plain nourishing  
food you can, principally cereals, fruits,  
vegetables, and milk.

## SHAKE IN A BOTTLE

Advice of Noted authority, Also  
Gives a Simple Prescription

Now is the time when the doctor  
gets busy, and the patent medicine  
manufacturers reap the harvest, un-  
less great care is taken to dress warmly  
and keep the feet dry. This is the  
advice of an old eminent authority,  
who says: "The Rheumatism and  
Rickey trouble weather is here, and  
also tells what to do in case of an  
attack."

Get from any good prescription  
pharmacy one-half ounce Fluid Ex-  
tract Dandelion, one ounce Compound  
Kalmegon, three ounces Compound  
Syrup Sarsaparilla. Mix by shaking  
in a bottle and take a teaspoonful  
after meals and at bedtime.

Just try this simple home-made  
mixture at the first sign of Rheu-  
matism, or if your back aches or you  
feel that the kidneys are not doing  
right. This is said to be a splendid  
kidney regulator, and almost certain  
remedy for all forms of Rheumatism,  
which is caused by uric acid in the  
blood, which the kidneys fail to filter  
out. Any one can easily prepare this  
at home and at small cost.

Druggists in this town and vicinity,  
when shown the prescription, stated  
that they can either supply these  
ingredients, or if our readers prefer,  
they will compound the mixture for  
them.

It is said that Charles M. Shaw  
recently got into a game of Monopoly at  
Paris, and lost \$112,000 in one night.  
Then he rose, went to bed, and con-  
tinued the game, he said. "No, I don't  
mind a little ditty such as we have  
just had, but I never gamble."

## INDIGESTION ENDS

Misery from Your Disordered Stom-  
ach Goes in Five Minutes.

You can eat anything your stomach  
wants without fear of a case of In-  
digestion or Dyspepsia, and that your  
food will ferment or sour in your  
stomach if you will occasionally take  
a little Diapasin after eating.

Your meals will taste good, and any-  
thing you eat will be digested. Nothing  
can ferment or turn into acid or poison  
in your stomach, which causes Belching,  
Dizziness, a feeling of fullness after  
eating, Nausea, Indigestion like a  
lump of lead in stomach, Bloating,  
Heartburn, Water brash, Pain in  
stomach and intestines or other  
symptoms.

Headaches from the stomach are  
almost unknown where this effective  
remedy is used. Diapasin really  
does all the work of a healthy stomach.  
It digests your meals when your  
stomach can't. Each triangle will  
digest all the food you can eat and  
leave nothing to ferment or sour.

Get a large 50 cent box of Diapasin  
from your druggist and by tomorrow  
you will actually brag about your  
healthy, strong stomach. For you then  
can eat anything and everything you  
want without the slightest discom-  
fort or misery, and every particle of  
impurity and Gas that is in your  
stomach and intestines is going to be  
carried away without the use of  
laxatives or any other assistance.

The benefits of Diapasin are  
shown in a firm, vigorous stomach, and  
in the fact that you can eat and  
digest without any trouble. The  
Hawthorne Food and Drug Co., Inc.,  
New York, N.Y., is the only place  
where you can get Diapasin. It is  
sold in all the drug stores, and is

# LOCAL NEWS.

At Nelson, March 28th, Anna, youngest daughter of Andrew and Nellie McCallum, aged one year and two months.

Rupert D. Hanson, B. A., of Chatham Grammar School, has been appointed to the inspectorship of schools lately made vacant through the death of the late D. L. Mitchell, the last incumbent. His districts will be Sunbury, and parts of York, Queens and Charlotte Counties.

**TWO YEARS ABED.**—"For eight years I suffered as no one ever did with rheumatism; for two years I lay in bed; could not as much as feed myself. A friend recommended South American Rheumatic Cure. After three doses I could sit up. Today I am as strong as ever I was." Mrs. John Cook, 287 Clinton St., Toronto.—2

## NOT MR. RUSSELL OF SHEILA.

Mr. Bernard Russell of Sheila writes us, protesting against the advertisement in last week's UNION ADVOCATE signed "Barney Russell." This notice did not refer to the former at all, but was handed to us by the father of Barney Russell of Chatham Head, who we regret, did not put his address on the copy.

**CATARH FOR TWENTY YEARS AND CURED IN A FEW DAYS.**—Hon. George James, of Scranton, Pa., says: "I have been a martyr to Catarrh for twenty years, constant hawking, drooping in the throat and pain in the head, very offensive breath. I tried Dr. Agnew's Catarrh Powder. The first application gave instant relief. After using a few bottles I was cured." 50 CENTS.—1

Officers of the Farmers' and Dairy-men's Association as elected at the annual meeting at Fredericton a few days ago are as follows:—President, O. W. Wemore, Clinton; vice-president, W. P. Dunham, St. John; corresponding secretary, G. E. Fisher, Chatham; treasurer, Harvey Mitchell, Sussex; recording secretary, B. M. Fawcett, Sackville.

**"THOUGHT IT MEANT DEATH SURE."**—Mrs. James McKim, of Dunnville, Ont., says of her almost miraculous cure from heart disease by Dr. Agnew's Cure for the Heart:—"Until I began taking this remedy I despaired of my life. I had heart failure and extreme prostration. One dose gave me quick relief and one bottle cured me. The sufferings of years were dispelled like magic."—3

## RELIGIOUS NOTES.

Next Sabbath morning will be Communion Sunday in St. James' Presbyterian church. Preparatory service Friday night. A handsome individual Communion service has been presented to the church by Mr. George Stables and family in memory of the late Mrs. Stables and will be used next Sunday for the first time.

There will be services in St. Andrew's church every night this week, also at 11 a. m. on Good Friday.

Rev. H. A. Brown came home from St. John on Sunday and occupied the Baptist pulpit on Sunday.

**FAULTY KIDNEYS.**—Have you backache? Do you feel drowsy? Do your limbs feel heavy? Have you frequent headaches? Have you failing vision? Have you dizzy feelings? Are you depressed? Is your skin dry? Have you a tired feeling? Any of these signs prove kidney disease. Experience has proved that South American Kidney Cure never fails.—5

Under a bill introduced in the legislature by the Attorney General, tuberculosis is declared to be a contagious disease and dangerous to the public health. It is declared to be the duty of every physician who knows or believes that any person to whom it has been called is suffering from tuberculosis to immediately report the name and address of such person to the local Board of Health, and it shall be the duty of the local Board of Health to prepare and supply to families in which such disease appears suitable literature and instructions as to proper sanitation in such cases, but it shall not be necessary to quarantine and place the houses in which the disease is, as in other cases. The bill is based on a recommendation of the Provincial Board of Health.

**A MODERN WEAPON IN THE BATTLE FOR HEALTH.**—If disease has taken your citadel of health, the stomach, and is torturing you with indigestion, is peevish and nervous prostration, South American Nerveine is the weapon to drive the enemy from his stronghold. At the point of the bayonet, such by trench, but swift and sure, it always wins.—4

The telephones were removed from the county buildings Thursday. At their last regular session, the Municipal Council ordered the phones removed until the telephone company reduced the rate.

The Miramichi Lumber Company's operations for the present year have been completed, and it is estimated that the total cut of long lumber and pulp wood will reach thirty millions of superficial feet, which is about 25 per cent. less than the cut of last year.

At a meeting of the Presbyterian congregations of West Branch and Bass River, Kent Co., held last week it was unanimously agreed to extend a call to Mr. J. R. Miller on the completion of his college course. Mr. Miller graduates at Pine Hill next month.

McMURDO'S is the only exclusive dress furnishing store in town. We buy nothing but the new, snappy, up to the minute goods. We are the young men's place every time. Buy once—you are always with us.

Sheriff O'Brien, Nelson; Hon. Allan Ritchie, W. A. Park, Collector of Customs, Newcastle; R. A. Lawlor, J. F. Rundle, Chatham; James Robinson, ex-M. P., Randolph Crocker, Millerton; T. M. Burns, Arthur McKendry, Bathurst, and A. J. Curran, Rexton, were in Fredericton last week attending the lumbermen's meeting.

## NORTH SHORE REPRESENTED.

A Washington paper, in its report of President Taft's inaugural ball, said:—"From Trinity College there was also a group of young women, including Miss Marguerite O'Leary, coral duchess satin, embroidered in gold; Miss O'Leary, pink messaline satin, renaissance lace." These young ladies are daughters of Mr. and Mrs. Richard O'Leary, Richibucto.

## THE SLAUGHTER OF GAME.

(Chatham World.) Very little respect has been manifested for the game laws on the North Shore since Mr. John Robinson was dismissed. Moose have been slaughtered in their yards in this vicinity, and no effort has been made to punish the offenders. Two deer were killed at Grand Downs last Sunday, and so little effort was made to conceal the fact that a lot of people know all about it, and some of them have lodged information against the offenders. Mr. Dennis Doyle, who is said to have been appointed Chief Game Warden, though not yet sworn in, has volunteered, we are told, to prosecute the offenders. It would pay, as a business proposition, to offer Mr. Robinson enough salary to induce him to accept the office again. If Mr. Grimmer would come over here, in cognito, and go around a little among woodsmen and sportsmen, he would find out how badly he has been advised.

## COMPETITION IS THE LIFE OF TRADE.

In all lines of business, no matter how large or how small, you have got to compete with the "other fellow." If you cannot do this you cannot stay in the business. This has been proved time and again. It is the same in the printing business. We have got to keep up with the large city offices, if we want to live.

We can print your office stationery as neat and just as CHEAP as the city office.

We will also PREPAY the Express charges on all orders amounting to \$10 or over.
