the Longwoods Road, Ekfrid, for  
the season 1924. Terms, \$10 to insure.  
—Duncan McTavish, proprietor and  
manager.

Mortgage Sale  
—of—  
Valuable Farm Property  
IN TOWNSHIP OF EKFRID

Under and in virtue of the powers  
contained in a certain mortgage,  
which will be produced at the time  
of sale, there will be offered for sale  
by public auction on the premises at  
3 o'clock in the afternoon on FRI-  
DAY, JULY 18, 1924, the following  
property, namely:  
In the Township of Ekfrid in the  
County of Middlesex and Province of  
Ontario, containing one hundred  
acres more or less, and being com-  
posed of the West Half of Lot Num-  
ber Sixteen in the First Range North  
of the Longwoods Road in the said  
Township of Ekfrid.

This property is situated on the  
Longwoods Provincial Highway, con-  
venient to markets, churches and  
schools. The land is a rich and pro-  
ductive clay loam and, on the property  
is a frame dwelling, frame barn and  
other improvements in good re-  
pair.

Terms of Sale.—One-tenth of the  
purchase price to be paid down at  
the time of sale and the balance  
within three weeks thereafter. The  
property will be offered subject to a  
reserve bid and to conditions of sale  
which will be announced at the time  
of sale.

For further particulars apply to  
ELLIOTT & MOSS, Vendor's Solicit-  
ors, Glencoe, Ontario, or T. V. RID-  
LEY, Auctioneer, Arkona.

kinds of junk. Good prices.  
For Sale—Building Rails, from 5  
to 30 lbs. to the yard.  
Also Trucking done.  
**SAM BOOM**  
Glencoe P. O.

## DISTRICT AND GENERAL

The Prince of Wales will again  
visit his ranch in Alberta this fall.  
Agnes McPhail, M.P., declares that  
the Ontario school system is 100  
years behind the times.

Six brothers, living at Lamber-  
hurst, Kent, England, are all draw-  
ing the old-age pension.

Much damage has been done to the  
early seed corn in Kent by a maggot,  
which many growers think to be the  
bean weevil.

Last year 1,095,353 people visited  
the British Museum, the biggest  
number since 1851, the year of the  
Great Exhibition.

Arrangements are being made at  
Strathroy to have a tourist camping  
grounds and parking area on a por-  
tion of the old market square.

The Ontario Motor League is mak-  
ing an effort to have the law govern-  
ing vehicles on public highways  
changed so as to make it compulsory  
for the carrying of lights on all ve-  
hicles.

Myrtle and Greta Kettlewell,  
daughters of Charles Kettlewell,  
were painfully injured when their car  
was thrown out of their car as a  
result of a collision on the street at  
Strathroy.

Through a movement which origi-  
nated in the London city council  
strong pressure will be brought to  
bear upon the Dominion Government  
to restore the two-cent rate on let-  
ters in Canada.

Eight persons, all of the same fam-  
ily, were killed, and a ninth probably  
fatally injured, when their auto-  
mobile was struck by a passenger train  
at grade crossing in the village of  
Eagle Lake, Minnesota.

A member of the Ontario Govern-  
ment states that a liquor plebiscite  
will be held in the province, probably  
before October 31. Municipal clerks  
have been notified to prepare and  
have printed part 3 of the voters'  
list.

The Leamington Post has just cel-  
ebrated its 40th anniversary by  
moving into handsome new quarters  
and installing a brand new fast  
press. Messrs. Lane & Whitman,  
the publishers, are to be congrat-  
ulated.

Besides paying the regular immi-  
gration service \$8 head tax, an addi-  
tional visa certificate, costing \$9, is  
now demanded of all Canadians go-  
ing into the United States to reside,  
owing to the radical changes in the  
American immigration laws.

Near Wallaceburg four men were  
seriously and two ladies slightly hurt  
when a large hog jumped into the  
road out of the long grass and was  
struck by the automobile in which  
they were riding. The pig was found  
dead in the ditch and the car is a  
complete wreck.

More than one-fourth of the coun-  
ties in Illinois have been invaded by  
the army worm. A big percentage  
of the young corn has been cut down  
level with the ground in many parts  
of the state. The worms feed on  
the young corn, practically consum-  
ing all of the leaves, leaving nothing  
in the central rib. They are mov-  
ing in great armies, as they did ten  
years ago. Farmers are working  
day and night to control the pest.  
Trenches are being dug ahead of the  
advancing masses, trapping the  
worms, which are saturated with  
kerosene and burned.

Retail grocers of Ontario, in con-  
vention at Toronto, expressed the  
desire in a resolution that eggs be  
sold by weight instead of size. Stre-  
nous opposition was expressed by J.  
Brown, who claimed that such a  
measure would result in the increas-  
ed sale to householders of what he  
called "boarding-house eggs"—under-  
sized. In the course of his remarks  
Mr. Brown incidentally brought out  
the interesting point that a new  
competitor with Ontario had arisen  
in the central market, the first car-  
case of eggs from Nova Scotia ever to go  
west having been sent to Montreal  
last week. E. G. Thompson, of Blen-  
heim, explained at some length the  
difficulties in the present system of  
egg-grading. In support of his as-  
sertions he offered to present a suit  
of clothes to any team of four men  
in the room who would all grade a  
case of eggs in the same way.

FINED FOR OPERATING GAMES  
Roy Siddall and A. Davenport were  
each fined \$10 and costs by Police  
Magistrate Morrison for operating  
games of chance in their establish-  
ments.

Provincial Constable T. Y. Strat-  
ton, who seized the games in a re-  
cent visit to the town, stated the de-  
fendants were operating punch  
boards for cigars and chocolates, as  
well as a baseball game, run on the  
same principle. If a customer  
punched a home run on the board he  
received a box of candy.

CHAUTAQUA AT GLENCOE  
This season's Chautauqua enter-  
tainments in Glencoe are proving  
better than ever and are attracting  
bigger crowds than ever. The four-  
day series opened on Saturday after-  
noon with a concert by the Melody  
Trio, three accomplished young la-  
dies, who very quickly won favor  
with the audience. Miss Dorothy  
Dyer, who heads the company, is a  
versatile entertainer of notable suc-  
cess in the Chautauqua field, and is  
well supported by Miss Betty Wat-  
son and Miss Ruth Swanson. They  
appeared again in the evening in a  
prelude to the Marko Company's pre-  
sentation of a program of magic and  
mystery.

Monday afternoon and evening the  
Columbus Entertainers, Misses Beat-  
rice Baughman and Miriam Hoover,  
more than delighted the large audi-  
ences with their classical and popu-  
lar instrumental numbers, and char-  
acter portrayals and dramatic read-  
ings by Miss Baughman pleased im-  
measurably. Following their short  
program in the evening Geoffrey F.  
Morgan, educator, lecturer and hu-  
morousist, delivered his widely popular  
address, "Success With Ease." No  
one could fail to profit from Mr. Mor-  
gan's address, full as it was of philo-  
sophy, good humor and common  
sense, and delivered in a style that  
was a treat in entertainment.

Other features in the series of pro-  
grams presented by the Chautauqua  
will be dealt with again, not to over-  
look the special features for the  
children conducted in the forenoon  
by a specially trained juvenile enter-  
tainer.

Judging from the enthusiasm be-  
ing manifested by the community on  
this occasion, Chautauqua next year  
will be so popular that a much  
larger tent will be necessary to ac-  
commodate the attendance.

## CHAUTAQUA AT GLENCOE

Remodelling of the Glencoe public  
school building, which it was intend-  
ed to undertake during the summer  
holidays this year, will be delayed  
for another year, and it may yet be  
decided to erect a new building in-  
stead. At a special meeting of the  
municipal council held on Thursday  
evening application was made by  
the school board for the necessary  
financing. It was pointed out that  
this would require a special by-law,  
and the same to be submitted to the  
ratepayers. Such being the case  
may reopen the question as to whe-  
ther it might not be more desirable  
to build a new school than to re-  
model the old one.

The council adopted a resolution,  
moved by Councillor Parrott and  
seconded by Councillor Irwin, that  
the clerk prepare a by-law to issue  
debentures for ten thousand dollars  
for the purpose of remodelling and  
re-equipping the public school, in-  
cluding a new toilet system and new  
heating system.

POULTRY DEMONSTRATION  
Representatives of the Ontario  
Agricultural Department will con-  
duct poultry-culling demonstrations  
at various points in Middlesex this  
month. Of local interest are the  
following:—July 15, at 3 p. m., in Mosa,  
place not stated; July 18, at 10 a. m.,  
on farm of D. S. McDonald, Appin;  
July 23, at 10 a. m., on farm of Wm.  
Smithrim, lot 12, con. 3, Metcalfe.  
All are invited. Special invitation  
extended to the ladies.

VISITOR FROM SUNNY SOUTH  
Straying far from its haunts south  
of the Mason-Dixon line, a mocking-  
bird visited one day recently on  
Peter McArthur's farm in Ekfrid.  
The bird was discovered by Mr. Mc-  
Arthur in the woods on the back por-  
tion of the farm, where it enjoyed it-  
self for a whole day, pouring out a  
variety of song. In the evening it  
left and has not since been seen. To  
find a mocking bird so far north is a  
rare experience. Only once before,  
according to W. E. Saunders, noted  
naturalist, of London, has the bird  
been known to visit Ontario.

RECEPTION AT APPIN  
A reception was given at the home  
of Mr. and Mrs. Wm. Farrell, Appin,  
on Wednesday, July 2, in honor of  
R. J. Martin, of Detroit, and Mrs.  
Martin (formerly Miss Alma Far-  
rell), whose marriage took place at  
 Windsor on May 24.

There were about 100 guests pres-  
ent and the evening was spent in  
games and a program consisting of  
addresses by L. L. McTaggart and  
John Macfie, instrumental duets by  
Misses Margaret and Marion Macfie,  
solos by Dr. McDonald and Mrs. Geo.  
Howe, Little Eliza McDonald and  
Beryl Payne presented Mr. and Mrs.  
Newbury and Mrs. Frank Fry of  
Mosa, and three sons, George H. of  
Aldborough, Hiram of Ekfrid and  
Joseph on the homestead, also three  
brothers and two sisters. The fun-  
eral was held from her late resi-  
dence to Oakland cemetery on Tues-  
day, July 1st. Service was conduct-  
ed at the house by Rev. Bert Shriek,  
of Stevensville, assisted by Rev. M.  
Bridgette, of Wardville. The pall-  
bearers were George Winger, Hiram  
Winger, George Winger, Franklin  
Fry, Wm. Cucksey and Simon Winger.  
Among the floral offerings was  
a beautiful wreath from the family.

METCALFE COUNCIL  
Meeting of Metcalfe council held  
June 30th. Members all present.  
Minutes read and signed. The usual  
orders were paid. Several school  
grants were also paid.

A deputation representing the  
Strathroy fair board waited on the  
council asking for the usual grant.  
It was moved by Moyle and Rowe  
that a grant of \$50 be given. Moved  
by Blain and Morrison that no grant  
be given. The original motion car-  
ried, for a grant of \$50.

A representative of the Abbott  
Lawson Assurance Co. waited on the  
council re road insurance. On mo-  
tion of Blain and Moyle the council  
decided to insure the roads for the  
ensuing twelve months for a pre-  
mium of \$100. Any claim for dam-  
age must be made to the township  
clerk in writing within seven days  
after accident.

Council adjourned to August 4th  
at 1 p. m.

At Iona Station a few nights ago  
Mack Hyde's car was forced into the  
ditch by a reckless motorist. Miss  
McArthur, of Middlemiss, who was  
with him, had her collar-bone broken  
and sustained other injuries of a  
minor nature, while the top and  
windshield of the car were com-  
pletely demolished.

## PUBLIC SCHOOL BUILDING

Remodelling of the Glencoe public  
school building, which it was intend-  
ed to undertake during the summer  
holidays this year, will be delayed  
for another year, and it may yet be  
decided to erect a new building in-  
stead. At a special meeting of the  
municipal council held on Thursday  
evening application was made by  
the school board for the necessary

Appin  
The following is the report of the  
junior room of the Appin school.  
Names in order of merit:  
II. to III.—Douglas Sinclair, Beryl  
Payne, Edith Philpot, Claire Perry,  
Annabel Macfie, Jack Howe, Emma  
Gough.

I. to II.—Dorothy McDonald, Mar-  
jorie Galbraith, John Watson, Esther  
Webster, Edward Perry, John  
Hughes, Katie Gough, Stewart Bard-  
well.

Primer to I.—Ada Black, Margaret  
McDonald, Lloyd Pole, Tommy  
Howe.

Primer C. to B.—Donna McCallum,  
Ulea Hathaway, Floyd Watson.  
Absent from examination.—Ruby  
Stephenson, Donald McIntyre, Betty  
Strode, Eliza McDonald, Mary  
Gough, Georgina Jaferry.

A. Farrell, Teacher.

CHEERIO NOTES  
On Wednesday evening, July 2nd,  
the regular meeting of the Cheerio  
Club was held at the home of David  
Currie. The president, Miss Agnes  
McEachren, had charge of the meet-  
ing, and the following program was  
rendered:—Solos by Walter Walker  
and Sid Hartley, duets by Agnes  
McEachren and Sid Hartley and a hu-  
morous Live Wire by Susie Gardiner.

The club was presented with a  
book of popular songs by Sid Hart-  
ley. He is also arranging a contest  
for the club members at softball  
games to be played throughout the  
summer months.

The next meeting of the club will  
be held at the home of W. McCut-  
cheon on July 18, the program to be  
in charge of Jean McEachren and Per-  
cy McLean.

On Monday evening the Cheerio  
boys played a game of softball with  
the No. 9 team, Cheerio winning by  
a few runs. On Thursday a game  
was played with the Pratt's Sliding  
Book Club team, Cheerio winning by  
a score of 13-7.

CAIRO  
Mr. and Mrs. Clarence Brown  
spent the week-end in Detroit.  
Mr. and Mrs. Chas. Doester, of  
Detroit, who have been visiting her  
sisters, Mrs. R. Longley and Mrs.  
Fred Burr, have returned home.

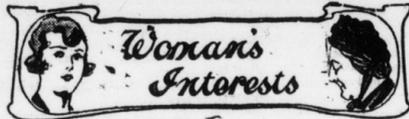

Mrs. Stewart Smith and two  
daughters, of Walkerville, are visit-  
ing her mother, Mrs. Fred Sullivan.  
Mr. O'Neil, of Dawn, our new store  
keeper, is moving in.

Mr. and Mrs. Roy Hands and Mr.  
and Mrs. Fred Burr spent the week-  
end in London.  
D. A. Williams, of Detroit, is visit-  
ing his friend, Fred Macaulay.  
Rexford Annett, of Cleveland, is  
home for the summer.

The Transcript acknowledges its  
appreciation of a fancy Eversharp  
pencil from the Canadian National  
Exhibition office. It reminds us that  
the "Big Show" is less than two  
months away, the dates being Aug-  
ust 23rd to September 6th.

# The Quality of "SALADA" TEA

is most appreciated in the rich, delicious flavor. Try it today.

A NEW PATTERN SERVICE OF EXCEPTIONAL MERIT.

**Frock of Simple Elegance**  
Parisian import of tan flat crepe and trimmings of brown satin. One-piece dress with novel shaped yoke from neck back and long sleeves or made sleeveless and folded bands used. Front of dress is slightly gathered below yoke, giving the necessary graceful fullness. Straight applied bands across front of dress and on long sleeves are becomingly trimmed. Tie-strings at sides are very smart. Crepe de chine and summer volles are suitable materials. Ladies' dress No. 1001, cut in sizes 34 to 42 inches bust. Size 38 requires 4 1/2 yards 36 or 40 inches wide or 5 1/2 yards 44 inches wide.

Pattern sent to any address on receipt of 20 cents in silver, by the Wilson Pattern Service, 73 Adelaide St. W., Toronto.

### SUMMER DESSERTS.

**Favorite Shortcake**—1/2 cup butter,

Made in Canada.

### PAY \$5 DOWN

And Get Yourself a REMINGTON PORTABLE

To-day

The Remington Portable has the regular keyboard and all other features of the Standard Remington. It responds to the lightest and swiftest touch. It is strong and dependable. The beauty of its writing is noteworthy. Yet it is as easy to carry as a small hand-bag.

For the professional man, the commercial traveller, the retail store-keeper, the student, for all who wish their correspondence to be easy and pleasant to read, the Remington Portable is the typewriter. Pay \$5 down and you can have a Remington Portable sent to your home immediately. Further payments of \$5 a month will complete purchase.

## "When Hearts Command"

By ELIZABETH YORK MILLER

"When hearts command, From minds the sagest counsellings depart."

### CHAPTER XXV.

After all, Jean wondered, hadn't she been very silly to let what Alice had said make her feel uncomfortable? Hugo wasn't Alice's father; he wasn't even her uncle. Not a drop of the tainted Smarke blood ran in her veins.

Yes—behold the great difficulty of it all.

One lived in a practical world, although for years Mrs. Carnay had hidden herself and her daughter from its cold observant eyes. One thing and another had combined to assist them in the anonymous mode of living, not in the least of which had been the war. Alice was quite a little girl when the war began, and for all those years they had been out of England.

They were remembered less and less, and finally almost forgotten, except by Christopher Smarke, who had the handling of Jean's small affairs.

Christopher was the great difficulty. There were several things which he did not know, the most important of all being that Alice was not Hugo's daughter. And one could not tell Christopher the truth about that. Nor did he know that Mrs. Carnay had been passing as a widow even to her own daughter. He would suppose that Alice was in the secret of Hugo's identity.

As soon as Alice was established in London, Christopher Smarke and his wife would call upon her.

Jean realized with horror that she had overlooked this contingency. As a matter of fact, it could be counted upon as a certainty.

When the rest of the little household had composed itself to slumber that night she stole out with her candle to the salon and resolutely set herself to the bitter task of writing to Christopher and flinging herself bodily upon his Christian mercy.

Christopher was of the sterner type of Christian—he believed in reward for the good and in punishment for the wicked. Things were either white or black. A perfectly sound doctrine, but one could not help but feel that no man, not even Christopher was good enough himself to sit in such heavy and final judgment upon his fellow-beings.

For instance, if Christopher knew what she had done in her youth, he would say that all the evil which subsequently befell Hugo had resulted from that rash marriage of theirs.

So the letter was very troublesome to write.

To begin with, she broke with him light-heartedly the news of Alice's impending marriage, dwelling upon the worldly goods of Dr. Philip Ardeyne to an extent that seemed almost extraordinary. Christopher thought a great deal about money.

Then came cheerful news of Hugo's health and—something which would please Christopher—of the recovery of his (Hugo's) recovery of a "bad debt," making it unnecessary for him (Christopher) to allow them that promised one hundred and fifty pounds a year.

After this her pen slowed down and she wasted a few sheets of paper. It was even more difficult than she had anticipated. One might as well just take for granted that Christopher would see nothing odd or hopelessly wrong in what she had done and persuaded Hugo to be a party to.

Finished, it ran thus:

Oh, I almost forgot to tell you, Hugo is calling himself John Baliss. I believe he wrote you to address him by that name, but didn't explain why. You see, after that terrible affair, when you advised me to drop the

common soapwort—almost impossible to root out or to kill, and for this reason often used in old-fashioned gardens or in cemeteries. As children we used to like to take a pin and remove the skin from the fat leaf; then we would blow the skin up like a bladder.

The leaves of this plant are a safe relief for even an extensive growth of warts. Apply the juice of the leaf each night until the warts disappear. Keep on, even if results after the first few days do not seem to warrant the effort, for Bouncing Bet is sure to be getting in her work, and some day the warts will look noticeably shrunken and soon they will be gone.

CANDY KITS.

Quant little favors for children's parties may be made from pure gumdrops.

For each kit, select three gumdrops, plump and round in shape and soft enough to be flattened out a bit. These form the body of the kitty. Insert two strong toothpicks perpendicularly through these, pressing the first two down slightly and leaving the third quite round for the head.

Now, on the protruding ends of the toothpicks, adjust two smaller gumdrops, oblong in shape, to form the kitty's ears. Next, insert a toothpick through the lower and middle gumdrops and finish off with four oblongs which make the paws. Attach with a small bit of toothpick a fifth oblong, placing it at an angle to form a saucy tail. Three cloves, stuck in for eyes and nose, complete this seductive pussy who supplies in a satisfying way the demand that there be sweets on festive occasions.

These attractive favors need not be confined to children's parties—they have found favor and created amusement in grown-up circles.

AWAY WITH WARTS.

When the children have a growth of warts, as they are apt to have, send them out to hunt that old-fashioned plant with the thick, oily leaves and the delicate blossom which is of a pale lilac tint. It is the Bouncing Bet—

lustre reduced to mere well-brushed shininess, but undoubtedly the same coat.

Besides his bag Hector had a rush basket which smelled sweet and dripped with moisture. He let them have a peep at its contents, and—behold, the bride's bouquet! White carnations and rosebuds embedded in smilax and asparagus fern, with yards of white satin ribbon to tie it up with. He had risen at dawn to gather the flowers before the sun had touched them, he said.

"I should think that Ardeyne would have ordered a bouquet," said jealous Hugo. "Otherwise I should have done so myself."

But the little bride-to-be was considerably touched by this mark of affection from her mother's old admirer.

"If he has, I can carry them both," she said.

Hugo sighed prodigiously. Gaunt clapped him on the back. "Come, old chap, you'll make me feel like a funeral."

"Well—weddings are quite as sad. Worse, I think. How time flies! But, of course, I was years in That Place. It seems like only yesterday Alice was no more than so high. Just a mile of a thing."

"Oh, Uncle John, do you remember me when I was a baby? I didn't know—"

Jean hysterically dragged them off these dangerous quicksands.

"Dear me, it's after five! Where can the carriage be? Are you quite sure that Louisa—"

"Quite sure, mummy," Alice calmed her. "It's old Gemell. He won't fail us. He wasn't to come until five-thirty. . . . Oh, here he is now!"

There was a jangle of bells as the roomy old-fashioned carriage drew up at the gate. The driver came in to help Louisa carry out the bags and Alice's trunk. Hugo had mislaid his pipe, and a wild search was made for it. Alice was in the carriage before she remembered that she had left her now rather valuable jewel case in her bedroom. Jean discovered that one of the bags had escaped the labelling process, and for a horrible moment Hector Gaunt thought he had left the railway tickets at home.

But one by one these matters were cleared up satisfactorily, and finally they were off, lurching down the hill to the station, brakes shrieking, the heavily burdened vehicle rolling unsteadily on its deep, soft springs.

Jean caught sight of a distant puff of white smoke. The train—their train—was just pulling out of Vestimiglia. In another ten minutes—!

"Quickly—quickly!" She urged the driver to hurry.

But eventually the confusion subsided and they were en route for Genoa.

(To be continued.)

## CUPID COULDN'T CATCH THEM!

Wonderful Women Who Never Married.

The death of Miss Marie Corelli was a reminder that many women who have attained to high fame never married. Probably the most famous historical spinster is Queen Elizabeth.

The refusal of her hand to Philip of Spain brought the Armada up the Channel and to ultimate destruction.

Miss Hannah More, the friend of Dr. Johnson, is, however, more typical than Elizabeth of that influential line of unmarried women who have done so much to mother their country.

Hannah, though staid in later years, was inclined to be almost frivolous up to middle life. She lived in the household of Garrick as companion to his wife until the great actor's death, and so vivacious, unaffected, and witty was she that she was petted and flattered by all, the great biographer being especially fascinated.

Admired, But Not Married.

It was when she expressed surprise that the poet who could write "Paradise Lost" should write such poor sonnets, that Johnson said one of his best things: "Milton, madam, was a genius that could cut a Colossus from a rock, but could not carve heads upon cherry stones." Hannah More was a pioneer of popular education, a great philanthropist, and the virtual founder of the Religious Tract Society.

Maria Edgeworth is regarded as the inventor of the novel with a purpose, of which kind "Castle Rackrent," which sent her name into immediate fame in 1800, is a typical example.

Miss Edgeworth's influence was enormous. Her success with her Irish novel had much to do with turning Sir Walter Scott to the writing of prose fiction.

Her society was courted by "everybody who was anybody." Byron admired her, and Macaulay was among her enthusiastic worshippers. There is no doubt she was natural reading today if only for the wealth and vivacity and character-revealing nature of her dialogue. In this respect she is comparable with Jane Austen, another of the spinster luminaries.

Disappointed in Love.

Miss Austen's reputation was almost wholly posthumous, although she is supposed to have written her masterpiece, "Pride and Prejudice," when she was twenty-one.

It is said that Miss Austen's first book was rejected with something like scorn, and although she sold "Northanger Abbey" to a publisher in Bath for \$50, he did not see fit to issue it, and, many years later, its author bought it back!

She depicts love-making with great humor and a touch of cynicism, which may possibly be accounted for by her own love disappointment in early girlhood.

At present there is a lively discussion as to the real author of "Wuthering Heights," but whether Branwell Bronte or his sister Emily wrote it, it is undeniable that the latter was a wonderful woman. She lived and died unmarried. There seems to be no record of any love affair in this lonely woman's life, and for many years after her death any reputation which was her due was completely overshadowed and veiled by Charlotte's fame.

A Poet's Inspiration.

Two devoted sisters of two great men come to mind in this connection—Dorothy Wordsworth and Mary Lamb. The latter, in a fit of mental aberration, killed her mother, and thereafter Charles gave up any thought of marriage and devoted himself to his sister, a devotion she returned with an equal passion. She is the "Cousin Bridget" of her brother's matchless essays.

Wordsworth's sister Dorothy was the poet's comrade and companion both before and after his marriage to Mary Hutchinson. The fern of many of her brother's most famous lyrics is found in her diaries and journals.

Caravans in Cloudland

Every summer more people are being attracted by the caravan holiday, but the latest development in this line the aero-caravan, will probably remain for some time yet beyond the reach of the person of moderate means, says an English Writer. Still, the cost—\$7,500—compares favorably with that of the first motor caravan, which costs \$15,000.

The aero-caravan attains a high speed when in flight, and an arrangement of folding wings enables it to be "pitched" in a comparatively restricted space. The body is large enough to hold two folding seat-beds, with cupboards, etc. All lighting, cooking, and heating is, of course, done by electricity.

If the aero-caravan idea is developed, and models become cheaper, we may yet be able to make a trip round the world when we get our two weeks' holiday in the summer!

A peace-time barrage is not a screen of bursting shells, but a low dam in a river, intended to raise and to keep water at such a level that some of it will run off through canals and irrigation ditches. The Indus River in India is to have such a barrage at Sukkur. It will be a mile long and will divert water enough to irrigate six million acres of land now barren.

## Canada from Coast to Coast

Sydney, N.S.—Tests made some time ago with fireclay from two of the Cape Breton collieries, have produced a splendid brick which is being used at the Sydney steel plant. There are other purposes to which this clay has been applied and hundreds of tons are used each month.

St. John, N.B.—It is understood that plans are under way for the establishment of a cigarette manufacturing plant, and a plant for the canning of fruit. The establishment of these two new industries, according to a reliable authority, is assured, providing that certain concessions are made by the city and the railways.

Quebec, Que.—The population of the City of Quebec, exclusive of suburbs, reaches 119,488, divided by nationalities as follows: French-Canadians, 104,969; Irish, 6,029; English, 1,490.

Toronto, Ont.—The value of mineral production of Ontario for the first quarter of the current year, as shown by a report of the Dept. of Mines, has increased \$2,353,000 over the corresponding quarter of last year, the totals being \$11,575,151 and \$9,241,853, respectively. Silver was the only metal of importance to record decreased production during the period under review.

Winnipeg, Man.—It is reported

that there are no less than 200 prospectors working in the Rice Lake district this year, and that the total number of men engaged in mining activities is not less than 900. The Rice Lake district is what is known as the Southeastern Manitoba Mineral Area and lies east of Lake Winnipeg and north of the Winnipeg River.

Regina, Sask.—The total value of farm livestock in the Province of Saskatchewan is placed at \$115,240,900, according to the latest report of the Provincial Dept. of Agriculture. Since the year 1906 the number of horses in the province has increased from 240,566 to 1,152,409; milch cows from 472,254 to 1,046,780; all cattle from 472,254 to 1,502,786; sheep from 121,290 to 1,919,937; and swine from 123,916 to 563,069.

Edmonton, Alta.—Sheridan Lawrence brought out furs from the Fort Vermilion district, in the far north, valued at \$22,000. They include silver, cross and red fox, wolf, wolverine, beaver, mink and muskrat.

Vancouver, B.C.—The Vancouver Board of Harbor Commissioners has asked for competitive plans for construction of another one million bushels annex to number one elevator. This will give the plant a storage capacity of three million bushels.

The above photograph shows H.M. King George presenting the colors to the First Battalion, Devonshire Regiment, at the review at Aldershot.

### BRITAIN RETAINS PURSE OF THE WORLD

#### New York Cannot Displace London as Financial Centre.

London, July 5.—Otto H. Kahn contributes to The Sunday Times a two-column article commenting on the statement broadcast from Washington a few days ago as emanating from certain high Treasury officials to the effect that the American money market was about to displace the British money market as the financial centre of the world.

"It is manifest," says Mr. Kahn, "that a broad and naturally receptive market for foreign securities, based upon the capacity and the willingness of the investing community at large to absorb such securities, is one of the essentials, the same as in a broad and active discount and acceptance market for the successful undertakings of the functions of the leading international money centre."

"She could not dislodge Britain from her traditional position as a money centre if she would, and she ought not to want to do it if she could. The maintenance of Britain's financial position is vital to Britain's welfare, and she is the best customer of America."

"From the mere point of view of America's self-interest the prosperity of Britain is an asset to America. For surely the past five years have taught all too convincingly the interrelationship of the world's trade and commerce and the importance of preserving or restoring the consuming power of the nations."

### Marconi Will Build Low Power Stations

A despatch from London says:—Following announcement by Senator William Marconi, of the success of his short wave, low-power "beam" wireless experiments, in both telegraphy and telephony, Godfrey Isaacs, have of the Marconi Company announced his firm will build no more high-power stations.

All the stations of the future, according to present plans, will be under 25 kilowatts in power. Both Marconi and Isaacs predict that a substantial reduction in rates can be made when the new stations are in operation.

The four advantages are: Low power; comparatively inexpensive short wave stations will maintain direct high-speed service with the most distant points; more words can be sent a day; the system is directional, and can be received only by stations within the restricted sector of the beam; economy in the cost of new stations, and in operation due to the low power.

Square scarves of vivid colors, for men to wear on the tennis courts, are said to be gaining popularity.

## FIRST TREATY EVER SIGNED IN CANADA, COMMERCIAL PACT WITH BELGIUM

A despatch from Ottawa says:—There was signed at Laurier House on Thursday night the first treaty ever signed in Canada, a commercial treaty between Canada and Belgium. In which each nation grants to the other most-favored-nation treatment on its whole tariff schedule. The treaty follows negotiations extending over a considerable period, which were begun during the presence of the Canadian Ministers in Europe last year, and are now brought to a successful conclusion. Plenipotentiary powers were asked by Canada from King George for Hon. James A. Robb, Acting Minister of Finance, and Hon. Dr. Beland, and were received a few days ago, and on Thursday night the treaty was signed. Baron de Selys, Belgian Consul-General, acted for the King of the Belgians.

### CROW'S NEST PACT IS AGAIN IN FORCE

#### Schedule of Freight Rates Effective Automatically in View of No Action by House.

Ottawa, July 7.—At midnight the Crow's Nest Pact agreement, affecting freight rates in Western Canada and providing substantial reductions on a list of specified commodities, came into full force again. Its resumption of effect is automatic, inasmuch as no step has been taken by Parliament to further suspend the extension of that pact. Last Thursday was the latest date on which the processes of legislation could be begun and since that time there has been no discussion of it in the House.

While it has been argued by the heads of the C.P.R. and the C.N.R. that the application of the Crow's Nest Pact to Western traffic will have a serious effect on their earnings, it was pointed out by counsel for the Western Provinces during the recent hearing that the predictions made in 1922 by E. W. Beatty, K.C., and D. B. Hanna, for their respective roads, were not realized.

Winnipeg, July 6.—"It is indeed gratifying to learn that the schedule of freight rates forming a part of the Crow's Nest agreement of 1922 is again to become effective," said F. E. Hamilton, managing secretary of the Shippers' Bureau, Winnipeg Board of Trade.

"This will mean a saving of at least \$10,000,000 yearly to the consuming public and will materially reduce the disparities which have been hampering the progress of the West for the past few years," added Mr. Hamilton.

### New Zealand Farmers Demand State Banks

A despatch from Wellington says:—Great pressure is being exerted on the New Zealand Government to establish agricultural state banks, the Agrarian interests urging here, as they have done in Canada, and other agricultural countries, that farmers need further credit facilities.

Mr. Wilfrid, the Opposition leader, moved a vote of censure on the Government on Thursday on the ground of their failure to extend pensions, and to promote other social and humanitarian legislation; to relieve soldier settlers; to solve the housing and unemployment problems, and to establish agricultural state banks. Mr. Stewart, the Minister of Customs, in reply, defended New Zealand's sound financial position, and contended that the Australian experience did not warrant the establishment of a state bank here. The debate is proceeding but defeat of the Government is considered highly probable.

### ABUNDANT CROPS IN SOUTHERN ALBERTA

#### Dry Belt Looks Forward to Harvesting Bumper Yield—North Needs Rain.

Calgary, July 6.—Crop conditions of the country to the south of Calgary are excellent, according to reports submitted by The Calgary Herald's special crop representatives in the fifth report for this year. The hot weather following on the recent rains has brought the growing grain along very rapidly, and the outlook is considered decidedly optimistic.

Lethbridge reports that with a July rain there is bound to be a bumper crop, while Cardston says crops were never better. Districts north of Olds, 60 miles north of Calgary, are not so well favored, not having had the rainfall that was general throughout the south. Consequently reports are not so encouraging, and unless there is considerable moisture in the next week conditions will be anything but favorable. Along the Goose Lake line there is also great need of rain, although the crops, so far, are standing up well under the intense heat of the last few days.

### Prince of Wales' Ranch To Reap Good Crop

A despatch from Calgary says:—"So far as we know, no particular plans will be made for the visit of His Royal Highness the Prince of Wales," said Prof. W. L. Carlyle, manager of the E.P. ranch, the other day. "It is probable that the Prince will make a quiet visit, just as he did last year. We did not know that he was coming, but we are delighted by the announcement."

Professor Carlyle did not know when the Prince was coming, but assumed that the visit would probably take place in October.

Professor Carlyle said that the Prince would find some changes. The gardens were improving, in accordance with the original plans, and cattle and machinery sheds were being constructed.

"But what will please the Prince," said Prof. Carlyle, "will be the luxuriant grass and hay and the abundant crops. I have never seen Southern Alberta look better than it does to-day."

### British Cabinet Decides Against Channel Tunnel

A despatch from London says:—The British Cabinet, accepting the views of its military and naval advisers, is understood to have decided against the construction of a Channel tunnel between England and France. The supporters of the scheme will, however, press for a public inquiry, and for an explicit statement of the strategic objections taken by the defence authorities to the project.

### U.S. QUOTA RULE BARS MANY BRITISH SUBJECTS

#### Insular Portions of Empire Fall Within Restrictions of New Immigration Laws.

A despatch from Washington says:—Immigration officials have corrected information given out at Secretary Davis' office that the British quota restrictions will not operate against British subjects of the West Indian possessions.

Under the regulations of the new Act, Commissioner-General Husband explained, the quota exemption of the Western Hemisphere applies only to the self-governing Dominions of the British Empire, which means that the West Indian Islands possessed by Great Britain and the other European powers fall within the quota restrictions.

Assistant Immigration Commissioner Sibray asked for a ruling from the Labor Department on the status of the British West Indies. It was stated at Secretary Davis' office that they would remain exempt from quotas, as they were under the old law.

The fact that the insular possessions do not have the unrestricted privileges of the British self-governing Dominions will mean a check on negro immigration from the West Indies to New York.

### Young Australians to Tour Canada This Summer

A despatch from Montreal says:—Fifty boys, ranging in age from 14 to 18 years, members of the Young Australia League, will make a tour of Canada in August of this year. The visit is a return of that made by the 101st Canadian Cadet Corps to West Australia in 1912. The boys will arrive at Quebec on Aug. 23 and will spend a full month in Canada visiting such points as Montreal, Ottawa, Niagara, Winnipeg, Regina, Saskatoon, Calgary, Edmonton, Jasper Park Lodge and Vancouver. They will also be the guests of the directors of the Canadian National Exhibition in Toronto. Their rail journey across Canada will be made in two special cars over the Canadian National Railways, and their itinerary will be so arranged that they will spend not less than twelve hours at any one point.

### Ocean Weather.

During a recent trip of an Atlantic liner, while passengers at one end of the vessel were enjoying sunshine, those at the other end were experiencing a hail storm.

Investigations of the oil possibilities of the Wainwright-Irma oil area, Alberta, and the making of a geological map of the field, will be conducted this summer by Dr. George S. Hume of the Geological Survey, Dept. of Mines. Considerable drilling will be done in this year during the summer.

## LONDON CONFERENCE AIMS AT RAPID PACIFICATION OF EUROPE

A despatch from Paris says:—The London conference on July 16 will try for a rapid pacification of Europe according to the program unofficially reaching Paris.

Prime Minister MacDonald has not issued the official invitation yet, but it will contain four principal points:

1. All must accept the experts' plan without reservations;
2. The conference will fix a date for functioning of the plan;
3. A date will be fixed two or three weeks later for Franco-Belgian evacuation of the Ruhr;
4. The Allies will agree not to apply sanctions in case of future German default unless a new body, not the Reparation Commission, decides it is necessary.

It is expected this new body will be either out of the League of Nations or The Hague court. This creates something of a sensation here, as it will mean clipping the wings of the Reparation Commission, which the French dominate.

Former Premier Poincaré's followers are preparing to fight on this point and may succeed in rousing such

a large opposition to it in Parliament as to hamper Premier Herriot at London.

Further doubt is raised here by the suspicion that a protocol signed at London will replace the Versailles Treaty in essential details. It is recognized that it is to sign a new agreement, as the experts' plan is outside the treaty, but the French object that to renounce their right to sanctions will weaken the power of the Allies.

M. Herriot has refrained from expressing himself but is conscious of political opposition at home if he yields the right to coerce Germany into paying.

A despatch from London says:—The French, Belgian and Italian Governments have agreed with the British that when the reparations experts' scheme is put into effect the agents general for reparations, and the chairman of the Transfer Committee shall be the same man.

As these are the two offices that will have the most to do with reparations, the man who holds them will be practically dictator of the whole indemnity question.

## The Week's Markets

### TORONTO.

Man. wheat—No. 1 North, \$1.29 1/2; No. 2 North, \$1.22 1/2; No. 3 North, \$1.15 1/2; No. 4 North, \$1.08 1/2; No. 5 North, \$1.01 1/2; No. 6 North, \$0.94 1/2; No. 7 North, \$0.87 1/2; No. 8 North, \$0.80 1/2; No. 9 North, \$0.73 1/2; No. 10 North, \$0.66 1/2; No. 11 North, \$0.59 1/2; No. 12 North, \$0.52 1/2; No. 13 North, \$0.45 1/2; No. 14 North, \$0.38 1/2; No. 15 North, \$0.31 1/2; No. 16 North, \$0.24 1/2; No. 17 North, \$0.17 1/2; No. 18 North, \$0.10 1/2; No. 19 North, \$0.03 1/2; No. 20 North, \$0.00 1/2.

Man. oil—No. 1, \$1.50; No. 2, \$1.45; No. 3, \$1.40; No. 4, \$1.35; No. 5, \$1.30; No. 6, \$1.25; No. 7, \$1.20; No. 8, \$1.15; No. 9, \$1.10; No. 10, \$1.05; No. 11, \$1.00; No. 12, \$0.95; No. 13, \$0.90; No. 14, \$0.85; No. 15, \$0.80; No. 16, \$0.75; No. 17, \$0.70; No. 18, \$0.65; No. 19, \$0.60; No. 20, \$0.55.

Man. sugar—No. 1, \$1.50; No. 2, \$1.45; No. 3, \$1.40; No. 4, \$1.35; No. 5, \$1.30; No. 6, \$1.25; No. 7, \$1.20; No. 8, \$1.15; No. 9, \$1.10; No. 10, \$1.05; No. 11, \$1.00; No. 12, \$0.95; No. 13, \$0.90; No. 14, \$0.85; No. 15, \$0.80; No. 16, \$0.75; No. 17, \$0.70; No. 18, \$0.65; No. 19, \$0.60; No. 20, \$0.55.

Man. coffee—No. 1, \$1.50; No. 2, \$1.45; No. 3, \$1.40; No. 4, \$1.35; No. 5, \$1.30; No. 6, \$1.25; No. 7, \$1.20; No. 8, \$1.15; No. 9, \$1.10; No. 10, \$1.05; No. 11, \$1.00; No. 12, \$0.95; No. 13, \$0.90; No. 14, \$0.85; No. 15, \$0.80; No. 16, \$0.75; No. 17, \$0.70; No. 18, \$0.65; No. 19, \$0.60; No. 20, \$0.55.

Man. tea—No. 1, \$1.50; No. 2, \$1.45; No. 3, \$1.40; No. 4, \$1.35; No. 5, \$1.30; No. 6, \$1.25; No. 7, \$1.20; No. 8, \$1.15; No. 9, \$1.10; No. 10, \$1.05; No. 11, \$1.00; No. 12, \$0.95; No. 13, \$0.90; No. 14, \$0.85; No. 15, \$0.80; No. 16, \$0.75; No. 17, \$0.70; No. 18, \$0.65; No. 19, \$0.60; No. 20, \$0.55.

Man. spices—No. 1, \$1.50; No. 2, \$1.45; No. 3, \$1.40; No. 4, \$1.35; No. 5, \$1.30; No. 6, \$1.25; No. 7, \$1.20; No. 8, \$1.15; No. 9, \$1.10; No. 10, \$1.05; No. 11, \$1.00; No. 12, \$0.95; No. 13, \$0.90; No. 14, \$0.85; No. 15, \$0.80; No. 16, \$0.75; No. 17, \$0.70; No. 18, \$0.65; No. 19, \$0.60; No. 20, \$0.55.

Man. other goods—No. 1, \$1.50; No. 2, \$1.45; No. 3, \$1.40; No. 4, \$1.35; No. 5, \$1.30; No. 6, \$1.25; No. 7, \$1.20; No. 8, \$1.15; No. 9, \$1.10; No. 10, \$1.05; No. 11, \$1.00; No. 12, \$0.95; No. 13, \$0.90; No. 14, \$0.85; No. 15, \$0.80; No. 16, \$0.75; No. 17, \$0.70; No. 18, \$0.65; No. 19, \$0.60; No. 20, \$0.55.

## IRISH BY-ELECTION ASSUMES IMPORTANCE

### Because of Claim Set Up by Republican Leaders in Campaign.

A despatch from London says:—That the Irish Free State considers her position in the Empire the same as that of Canada, and in matters of status takes Canada as her exemplar, has often been noted. Hitherto, it has been the Free Staters who have taken this attitude and stressed the analogy to prove that the Free State under Dominion constitution enjoys all the freedom she needs. According to the latest news from Ireland in connection with the impending by-election in Mayo, the Republicans have now adopted the Canadian analogy for more sinister uses. They are arguing that as under the treaty the Free State enjoys the same status as Canada, she enjoys Canada's right already admitted and defined by British statements, to secede from the Empire and become an independent state. They are making this a contentious issue in Mayo and for this and other reasons the by-election is regarded as fraught with great significance for Ireland's immediate future.

Natural Resources Bulletin. The Natural Resources Intelligence Service of the Dept. of the Interior at Ottawa says:—

Agriculture is the economic heart of Canada. Among the natural resources of the Dominion arable lands stand unrivaled. It is difficult to appraise adequately the degree to which they are responsible for sustaining the industrial and commercial life of Canada regarded as a whole. Lumbering, mining, and fishing in the sphere of primary production, the secondary industries of manufacture, the essential services rendered by transportation systems and by purely commercial enterprise—all contribute materially to national income and development. But agriculture is the pre-eminent basic activity by which Canada's economic stature and character have been determined. It forms the chief direct means of livelihood and, moreover, the rural population of the Dominion—constituting both a broad consuming market and a large reservoir of raw materials—is an indirect but vital factor in fostering extensive communities engaged in other phases of primary industry as well as in manufacture and commerce.

Canadian agriculture rests upon an unusually generous endowment of cultivable lands. Present information permits only a rough estimate of their actual extent, but it is certain that for many years it will still be necessary to measure the Dominion's total arable area mainly by the untitled acreage rather than by that under cultivation. Of the 300,000,000 acres believed to be physically suitable for agriculture, only 60,000,000 acres, or one-fifth of the total, have been placed under field crops. The remaining four-fifths, comprising some 240,000,000 acres, are capable of sustaining many added millions of population, and they include an immense acreage sufficiently ripe for settlement as to ensure that the extension of agriculture will continue to be a main highway of Canada's material progress. Despite the rapid advance of settlement during the last two decades there are to-day, in the three prairie provinces of Manitoba, Saskatchewan and Alberta alone, at least 25,000,000 acres of unoccupied lands situated within fifteen miles of existing railways, and available for purchase at figures representing but a fraction of the values placed upon lands of no greater fertility in the older farming communities of the Dominion and of the United States.

## UNUSUAL NUMBER OF CANADIANS IN LONDON

### Many Have Played Part in Social Events of Brilliant Season.

A despatch from London says:—There are more Canadians in London to-day than at any other time in its history. The Dominion Day dinner had a record attendance, including Canadians from every point of the world, some of whom had come over from the continent specially for the occasion. Wembley is the magnet which draws a great number of Canadian visitors, but other factors in the world power conference, to which well known Dominion Hydro-Electric engineers are delegates; the Congress of Empire Chambers of Commerce, which is attended by many officials of Canadian Boards of Trade, the visit of the weekly newspaper editors, the Bisley shooting and even the international lifeboat conference. There was a Canadian competitor in the early rounds of the tennis championships at Wimbledon and a Canadian entrant for the Diamond Sculls at Henley. There are also one hundred members of the Canadian Manufacturers' Association here under the leadership of Col. Hatch, of Hamilton. A number of prominent Canadian lawyers are in London in connection with the Privy Council cases, including E. L. Newcombe, Dep. Minister of Justice, who will be joined by hundreds of others when the Bar Association comes here in a few weeks. Many of these Canadians have been playing their part in society during one of the most brilliant seasons London has known since the war. Many attended the Royal Garden party and courts.

## Australia to Build North-South Transcontinental Railway

### It is understood the Federal Government has definitely promised the South Australian Government to undertake the construction of at least a portion of the north-south transcontinental railway. Premier Gun, in conference with the Federal Minister of Works, claimed the completion of the line should precede all other Commonwealth projects, and understood the Minister gave his assent subject to the conditions which the Government is considering. When the northern territory was transferred by South Australia to the Commonwealth, Validating Act gave South Australia first claim to construction of the first big railway by the Federal Government.

A despatch from Adelaide says:—It is understood the Federal Government has definitely promised the South Australian Government to undertake the construction of at least a portion of the north-south transcontinental railway. Premier Gun, in conference with the Federal Minister of Works, claimed the completion of the line should precede all other Commonwealth projects, and understood the Minister gave his assent subject to the conditions which the Government is considering. When the northern territory was transferred by South Australia to the Commonwealth, Validating Act gave South Australia first claim to construction of the first big railway by the Federal Government.

Those who would care to see a duke acting as stonemason's laborer should go to Inverary Castle, Argyllshire, says a Glasgow despatch. Here, minus his coat and waistcoat and with his sleeves rolled up, the 62-year-old Duke of Argyll is working daily on the erection of a belfry in the castle grounds which is to house a fine peal of bells of great antiquity.

Wearing kilts, Balmoral bonnet with bright red "toorie" and a gray woven shirt, the Keeper of the Great Seal of Scotland can be seen carrying heavy stones and acting as assistant generally to the skilled stonemasons, whose orders he accepts like any other workman. And he keeps to the union hours.

Duke Works as Laborer to Build Belfry on Estate. Those who would care to see a duke acting as stonemason's laborer should go to Inverary Castle, Argyllshire, says a Glasgow despatch. Here, minus his coat and waistcoat and with his sleeves rolled up, the 62-year-old Duke of Argyll is working daily on the erection of a belfry in the castle grounds which is to house a fine peal of bells of great antiquity.

The indications of worms are restlessness, grinding of teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased.

### The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—in Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townspeople. It is a first-class advertising medium. Rates on application.

Job Printing.—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher

Trade at home and save the gas. It takes a live fish to go upstream; any dead one can float down.

Blessed are they who were not satisfied to let well enough alone. All that the world is today we owe to them.

Some people's idea of economy is to use up three dollars' worth of gasoline and oil to get a bargain in something marked down from one dollar to 99 cents.

Toronto "Saturday Night," sometimes referred to as the paper with a sneer, doesn't like the way in which the local weekly newspapers are edited—they don't criticize enough. And a whole lot of people don't like the way Saturday Night is edited—it criticizes everything but the monied interests and the ultra-fashionable set.

Old age pensions of \$20 a month to begin at the age of 70 have been approved by the special committee appointed for the purpose and will be recommended to the House of Commons. It is estimated by the committee that the number of persons requiring to be pensioned under the plan would be 95,800, or approximately 40 per cent. of the total population of the Dominion at the age of 70. This estimate is based on Australian experience. The total cost of the scheme to the Dominion is placed at \$11,860,920 per annum. This is one-half of the pension estimated to be paid, the province being asked under the plan to provide the other half and to pay the cost of administering the act. Residence of 20 years on the part of a British subject is fixed as a condition of pensionability, while aliens must be naturalized and must reside here for 25 years in order to qualify.

An exchange makes the observation that many a good spirited public citizen who in private life has held the goodwill and respect of his neighbors, finds after a year or so of unpaid service at the municipal council board that he is jeered and run down right and left by people who try to pick holes in his actions at council. These people never take the trouble to commend the councillor for his good work, but are quick to strike a jarring note when some small matter does not suit their personal views. This is most unfair and unjust. Sometimes good men are discouraged by this sort of thing and drop out and the community is the loser. Every citizen who wants to see his community prosper should be a "booster," not a "knacker," in municipal and community affairs. Town and township councillors, as a rule, try to do their best, and deserve the public's commendation for their efforts.

This, from the Ridgetown Dominion, is equally applicable to Glencoe: The advent of warm weather has brought the usual Saturday night throngs to town. Everyone is glad to see them come. Like all other good things, however, the situation is not perfect. Many of the merchants feel that some of their customers are not quite fair in putting off their shopping until the last thing before leaving for home. It seems not unreasonable to ask that shopping be done early and the social activities relegated to the time after business is transacted. We believe that customers would see the point if they would for a moment place themselves in the place of the clerks in the various stores. These clerks, under existing conditions, work on Saturdays from fourteen to sixteen hours—an unfair strain at any time and particularly in the hot weather. Shop early and make the other fellow think well of you.

#### SAME IN MIDDLESEX

The annual report of one of the leading departmental stores in Toronto shows a net profit, after paying all expenses, of \$1,547,753, compared with \$766,558 in 1921. And how was that enormous profit made? Out of the suckers who prefer to build up a city and make millionaires at the expense of their best neighbors and community. All the stores in Dundas county combined did not make as much profit last year as that one departmental store in Toronto, and Dundas county residents who have sent away for their goods contributed to help make the big profit at the expense of their own county. Winchester Press.

#### PRATT'S SIDING

The Book Club and the residents of the section held a successful picnic on the school grounds on Thursday afternoon. The weather being ideal, there was a good attendance of both young and old. In the afternoon the Pratt's Siding and Cheerio boys had a friendly game of softball, and in the evening the ladies from Walkers came over and played a good game with the ladies here. Great interest was taken in the races, the results of which were:— Girls under 7—Margaret Hagerty, Anna Bell Mitchell, Alice Hamilton; girls under 14—Winnie Goff, Lorna Sherwood, Mary Jane Mitchell; girls 14 and over—Florence Gardiner, Della Squire, Anna Beattie; married ladies' race—Mrs. Lorenzo Gardiner, Mrs. Calvert Reycraft, Mrs. Richard Reycraft; boys under 7—Keith Telfer, Donald Hagerty, Francis Telfer; boys under 14—John Telfer, Jack Reycraft, Albert Gould; boys over 14—Wm. Gardiner, Will Reycraft, Walter Walker; married men's race—Lorenzo Gardiner, Chas. Telfer, Russell Walker; ladies' relay race—Cheerio, Book Club; men's relay race—Cheerio, Book Club.

Mrs. Walter Farris and her father, John B. Jones, attended the funeral of the former's aunt in Windsor last week.

Mrs. Dave Currie gave a delightful tea on Friday afternoon. Mr. and Mrs. Kendall and little daughter have returned to Detroit after a two weeks' visit with friends here.

Mr. and Mrs. Chris. McRae and family, of London, and Mr. and Mrs. Carl Law, of Detroit, spent the week-end at the home of Peter Gardiner.

#### THAT TIMBER LIMITS PROBE

To the Editor of The Transcript: A friend has requested an answer to the following question: Has the Government recovered from the Shevlin-Clarke Co. and other lumber companies any returns as a result of the Riddell-Latchford Timber Commission's investigation under the Drury Government?

I feel this question is of sufficient public interest to ask for space in your valuable paper to give the answer. The story of the appointment of this commission, its work and report, is a very lengthy one and I will not encroach on your valuable space to go into detail. As the public is no doubt aware, the commission reported to the Government on the 29th day of October, 1920, that pro-

# Teachers-All Aboard!

### Canadian Teachers' Federation Convention at Victoria, B.C., Aug. 12-16

Here is a wonderful opportunity to view and study the scenery of our glorious Dominion at first hand; to see the beauties of Ontario, the rolling prairies, the majestic mountains and the sparkling waters of the great Pacific all in this very complete journey to the Convention centre.

#### Special Low Fares from all Ontario Points

A special train de Luxe of the Canadian National Railways carrying the most modern type of all-steel equipment, with radio set complete, leaves Toronto, July 26th.

A number of optional routes may be taken on the return trip. Full information, also rail and sleeping car tickets may be obtained from any of the following officers of the Public School Federation.

TORONTO—Mr. A. E. Bryson, 44 Silverthorn Ave.  
HAMILTON—Mr. L. J. Colling, 98 Barnsdale Ave.  
HAMILTON—Miss Hazel G. Roberts, 107 Sanford Ave. South

or any Canadian National Ticket Office

ceedings should be taken to recover from the Shevlin-Clarke Co. of Fort Francis, moneys unlawfully withheld from the Province and for cancellation of certain licenses in the Quebec Forest Reserve illegally granted to the company without competition.

In conformity with this report two actions were instituted by the Province against the company, the result of the court being that the company were held liable to pay a fair value for all timber cut on these limits. The value was determined to be \$17.60 per thousand feet, log scale, Doyle rule, exclusive of Crown dues, but inclusive of the burning of brush. This means the company was declared liable (and they accepted liability without further appeal) to pay \$17.60 per thousand feet on all timber cut but not yet returned, as well as on all pine timber uncut, whenever cut, instead of \$7 as in the original license.

The result.—In answer to a question on the floor of the House on February 20th last, what payments have been made by the Shevlin-Clarke Company under the settle-

ment of the claims of the Province of Ontario made with that company in 1922? the present Minister of Lands and Forests replied:

1922—	
May 3	\$250,000.00
May 31	173,111.68
August 27	131,874.33
October 13	9,681.36
1923—	
August 14	\$ 80,432.80
August 20	26,365.35
August 27	26,365.35
September 7	7,559.96

Total to February 20 last, \$705,690.83. The period for which these licenses are extended by the Act does not expire until April 30, 1929.

The Hon. Mr. Justice Logie, speaking as to the quantity of timber yet to cut on these berths, says: It cannot be definitely determined; it would appear, however, that it will be at least \$1,000,000, and it may reach a much larger sum.

In addition to the above the following claims were settled out of court:—  
Marshall Lumber Co. ....\$37,759.82

Jas. Harrington & Co.	12,500.00
Geo. E. Farlinger	13,030.74
L. Lambert Co.	4,218.76
Russell Timber Co.	55,000.00

1922—

This makes total receipts up to February of this year \$828,200.15. The cost of the investigation was \$170,101.25, leaving a net return to the Province to date of \$658,098.90.

Yours truly,  
J. G. LETHBRIDGE.

### CASTORIA

For Infants and Children In Use For Over 30 Years

Always bears the Signature of *Chas. H. Wittich*

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is. Say you saw it in The Transcript.

## Opportunity Buying Month

Bright, Crisp, Seasonable Merchandise at "Economy Prices"

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Wedding cake boxes at The Transcript office.

**BIBLE THOUGHT FOR TODAY**  
Bible Thoughts memorized, will prove a precious heritage in after years.

**RICHES HAVE WINGS**—Labour not to be rich; cease from thine own wisdom. For riches certainly make themselves wings; they fly away.—Proverbs 23: 4, 5.

**DIED**  
TOMLINSON.—In Ekfrid, on Tuesday, July 8th, Mary Tomlinson, beloved wife of Wm. Tomlinson, sr., in her 80th year. Funeral service will be held at her late residence, Ekfrid, on Thursday, July 10th, at 2 o'clock. Interment in Oakland cemetery.

**TOWN AND VICINITY**

Mrs. Wm. June, of North Newbury, is recovering after a long and serious illness.

The Book Club will meet at the home of Mrs. W. A. Currie on Monday, July 14th.

Forest town council have voted to hold their meetings in private. Some stunt—if they can get away with it.

Gate receipts of the annual garden party held recently at Napier were \$480 and the total receipts over \$620.

Rev. G. S. Lloyd, of Viridaw, Manitoba, is expected to preach in the Glencoe Presbyterian church on Sunday morning.

Field crops of all kinds have been much benefited by the recent rains, and there are cheering indications of a bountiful harvest.

A young man told us he went over to Detroit, one day last week to hunt a job, but he couldn't even find a vacant seat in the park.

J. C. Andrews, of the department of agriculture is conducting surveys of farms in the county where drainage will be made during the next few days.

Two new moons this month. If you are 150 years old you may remember the last time there were two new moons in one of the months.

Miss Jean McEachren, who is leaving S. S. No. 9, Moss, was presented with a handsome handbag by her pupils. She has accepted a position in the Newbury public school.

A sitting of the division court was held in the Glencoe court room on Tuesday before His Honor Judge Judd. There was no business of a public interest before the court.

Recent additions to the membership of the Glencoe Tennis Club are Jean McLachlan, Lorna Luckham, Mrs. Mac, McAlpine, Arnold Aldred, Margaret Morrison, Rev. D. G. Patton, Catharine Steele, Frances Moss, Marlon Huston, Eleanor Sutherland, Alma Watts, Mr. Churchill (London).

Engineers of the Canadian National Railways were engaged last week taking levels and making surveys with a view of piping water from the Thames or Nathaniel Currie's pond to supply the company's locomotives at Glencoe. We are informed that the C.N.R. have made an appropriation of \$100,000 for this purpose.

The Thamesville Herald publishes a well gotten up special number of forty pages to mark the old boys' gathering to be held in that village in August. It is a credit not only to the publisher, Ross V. McGuire, but to the business men of Thamesville, whose enterprise in the way of advertising makes such a publication possible.

Glencoe being one of the starting points for Chautauqua this year the full talent for this circuit were assembled here for the opening days. On Sunday evening, after arriving from Chicago, the Plantation Jubilee Singers attended the Presbyterian church and assisted the choir in the musical service. They gave two special selections which were a decided treat.

James Poole, a former resident of Dutton, whose he was engaged in the mercantile business for several years in a partnership with Thomas Hockin, died a few days ago at his home in Vancouver. He was born in 1855 at Wardsville and before going to Dutton spent some time in the banking office of Harrison & Rathburn at Glencoe. He is survived by his wife and daughter and one sister, Mrs. Rathburn, of London.

A ladies' local bowling tournament on Friday afternoon excited keen interest. Five rinks were drawn up and after two spirited games, in which the ladies displayed surprising ability, awards were made as follows:—1st, Mrs. McCallum and Mrs. Suttler; 2nd, Mrs. Knox and Mrs. Mawhinney; 3rd, Mrs. Poole and Miss Jean McLachlan, the latter substituting for Mrs. Lunley. The prizes were articles in cut-glass. Supplementary prizes of candy and figures in celluloid were donated by J. D. Brown, and a supply of lemonade by J. A. McLachlan.

There was tremendous excitement at sixteen sideroad corners a few nights ago, all caused by an innocent little drey. A little daughter at the farmhouse, having her attention arrested by the sparkles of light made by the insect, imagined that the barn was on fire and made the startling announcement to the family. Realizing that fire brooks no delay, time was not lost in an investigation, and the telephone was immediately made busy, with the result that the highways far and near were soon animated with motor cars hastening to render assistance; numbers hurried out from Glencoe, and the countryside from all directions swarmed the highways and byways, all arriving at the objective point to be very happily disappointed.

### PERSONAL AND SOCIAL

—John M. Beckton was home from Toronto for the week-end.

—J. M. Fawcett, of Niles, Mich., is visiting at A. J. Wright's.

—Miss Lena Craig was home from Detroit over the week-end.

—Miss Florence Hurley is home from London for the holidays.

—Miss Mary Hurley spent the week-end in St. Thomas and Rodney.

—Miss Thelma Siddall has been visiting her uncle, C. Nixon, of Dresden.

—Miss Alice Martin, of London, is visiting Mr. and Mrs. M. J. McAlpine.

—Rev. A. S. and Mrs. Whitehall and family are holidaying at Rondeau.

—Grant Hibbert, of Kitchener, is spending the week with Glencoe friends.

—Charles Colerick, of London, is spending a couple of weeks at James Gilbert's.

—Miss J. Calder, of Calgary, spent a few days with Mr. and Mrs. H. I. Johnston.

—S. C. Willis and wife, of Detroit, spent the week-end with his sister, Mrs. R. Hicks.

—Mrs. John Bennett, of Broderick, Sask., was a visitor at G. McMurchy's this week.

—Albert Hawley and Joe Grant spent the week-end at the former's home in Aylmer.

—Miss Ethel Nixon, of Windsor, has been visiting her mother, Mrs. Nixon, of Glencoe.

—Miss Vera Reeves, of London, is holidaying at the home of Mr. and Mrs. J. C. Graham.

—Mr. and Mrs. Russell Legg, of London, spent Sunday with Mr. and Mrs. Charles Hurley.

—Mrs. John Bennett, of Broderick, Sask., is visiting at the home of Mr. and Mrs. Matt Knox.

—Mr. and Mrs. Wm. Thomas, of Detroit, were week-end visitors with Mr. and Mrs. J. W. Smith.

—Miss Verna Ponsford and Miss Evelyn McKillop, of St. Thomas, are visiting Miss Annie Aldred.

—Harry and Leslie Hicks, of Detroit, spent the week-end with their parents, Mr. and Mrs. R. Hicks.

—Mr. and Mrs. Kneale, of Woodstock, motored home with Miss Margaret Eddie and spent the week-end here.

—Miss Betty Grant is holidaying for a couple of weeks, part of which will be spent with friends at Bienville.

—Mrs. E. F. Reycraft has returned home after spending a week with her daughter, Mrs. D. L. Mitchell, at Detroit.

—Rev. H. K. L. and Mrs. Charlton,

of Onondaga, are spending their vacation with her mother, Mrs. Mary Burchiel.

—Miss Jessie McMurchy, of Detroit, spent a few days last week with her parents, Mr. and Mrs. John McMurchy.

—Mr. and Mrs. R. M. MacPherson and children are leaving today to holiday at their summer cottage at Kincardine.

—Rev. and Mrs. G. S. Lloyd and two children, Hugh and Lois, of Viridaw, Manitoba, are in Glencoe visiting friends.

—Stanley McTavish, of Saskatchewan, and Miss Lilias McTavish, of Detroit, were Sunday visitors at G. McMurchy's.

—Mrs. Wilfrid Taylor and son Douglas, of McTaggart, Sask., are visiting at the home of her brother, Dr. R. J. Mumford.

—Mr. and Mrs. P. McTavish, of Alvinston, attended the funeral of his sister, Mrs. Wm. Mason, at Avoca, Mich., on Tuesday, July 1st.

—Mr. and Mrs. Robinson and family and Mr. and Mrs. McColl and family, of Rodney, spent Sunday at the home of Mr. and Mrs. Roy Squire.

—Mr. and Mrs. L. Pender, of Palmerston, spent a day with Mr. and Mrs. Charles George, returning from Detroit and the Old Boys' reunion at Chatham.

—Mr. and Mrs. Bryden Glasgow and daughter, Charlie, are leaving on Tuesday, the 15th, for a trip to Banff and other places in the Western Provinces.

—Mrs. Wm. Crouchley, of Hamilton, spent two weeks at James Gilbert's and returned home on Monday with Mr. Crouchley, who motored down for the week-end.

—Mr. and Mrs. Mills and son Walter, Mrs. Chas. Colerick and daughters, Leila and Dorothy and Miss Ruby Gilbert, of London, spent over Sunday at James Gilbert's.

—Misses Pearl and Annie George have returned home after spending over a week in Peterboro. Miss Annie will spend the remainder of her holidays at her home here.

—Miss Ethel Kelly returned on Sunday after spending a week at Port Stanley. Miss Maud Weldon was with her and will spend the balance of her vacation at Seaford.

—Mr. and Mrs. Frank J. Boldt, of Detroit, spent Sunday at the home of Mr. and Mrs. Richard Singleton while returning from a motor trip to Brantford and other points in Ontario.

—Mrs. W. H. Mithell, Mrs. A. P. Malone, Mrs. W. T. Rapley and Miss Josephine Cameron motored over from Strathroy on Wednesday and spent the afternoon with friends in town.

—Mrs. Edgar Kaufman, of Brantford, spent a few days this week at the home of her daughter, Mrs. Richard Singleton. She was accompanied home by her grandson, Francis Singleton.

—Misses Mildred and Muriel Richards and Anna and Malena McGugan, of Melbourne, and Jessie Currie, of Glencoe, left Saturday on the "Noronic" to visit relatives at Edmonton, Banff and Vancouver.

—Keith Sangster and Jack Henderson spent a few days this week with Mr. and Mrs. Joseph Grant, on their return home to Melbourne, Australia, after spending several months in England, Scotland and France.

—Clarence McCallum, manager of the Royal Bank at Mildred, Sask., with Mrs. McCallum and their little daughter, Josephine, are spending a couple of weeks with his parents, Mr. and Mrs. A. D. McCallum, London.

—R. J. Younge, a former Glencoe boy, for the past two years assistant to George S. O'Neil, general manager of United Hotels for Canada, is retiring to assume the post of sales manager for Canada Car and Foundry Co., Montreal.

—Joe McKobbe and John Stewart, of Detroit, were visitors at G. McMurchy's on Sunday and assisted at the morning service in the Presbyterian church. Mr. McKobbe rendering a solo and Mr. Stewart accompanying him on the organ.

—Miss Mollie Tait has received word of the safe arrival of her sister, Mrs. S. J. Schofield, and her husband at their home in Vancouver after spending a most interesting ten months in the Orient. Dr. Schofield, F.R.G.S., was granted leave of absence from the University of British Columbia and has been making a geological survey for the Government of Hong Kong.

**SPECIAL NOTICES**  
26c trade and 24c cash for eggs, at Mayhew's.  
Electric hair-curlers, very special at \$1.75.—Wright's Hardware.  
About two dozen quart sealers for sale.—Mrs. King, Victoria street.  
Buy your sugars now; market advancing. Prices right, at W. A. Currie's.  
Call at Scott's Shoe Store before buying elsewhere, and see our prices for cash.  
Load of nice straight cedar posts just arrived today.—McPherson & Clarke.  
Strawberries at their best this week. In quantities or by box, at W. A. Currie's.

**CASHMERE**  
A number from here spent Sunday at Rondeau Park.  
Mrs. J. E. Taylor and children, of Windsor, are visiting her parents, Mr. and Mrs. Archie Patterson.  
Mr. and Mrs. Basil Sittler and Miss Alice Holton, of Detroit, spent a few days with his brother, Calvin, and his sister, Mrs. Earle Tunks.  
Miss Mildred Taylor, of London, spent a few days at her home here.  
Harley Read, of Cleveland, spent the week-end at J. S. Thompson's.  
A few of the young people motored to Port Stanley and spent Saturday.  
Mr. and Mrs. Ferris, of Detroit, visited with her parents, Mr. and Mrs. Isaac Saylor, over the week-end.  
Roy Saylor, of Detroit, spent a few days under the parental roof.  
Melvin Sittler, of Detroit, visited his brother Calvin on Saturday.  
Mrs. Harry Brimson, of Aldboro, spent Friday with her sister, Mrs. Howard Gardiner.  
Bramwell Gardiner and Mae Gauthier tried their entrance examinations at Wardsville last week.  
Wed. Darke was a Strathroy visitor on Friday last.  
Mrs. Earle Tunks was ill with an attack of acute indigestion on Monday but is somewhat better.

**AUCTION SALES**  
See list of sale of the late T. J. Devlin estate in next week's Transcript. Date of sale is Tuesday, July 22nd.  
See Jelly for meat.

Bring us your coupons and get two large cans of Kleenup soap for 26c.—Wright's Hardware.

Clearing all summer dresses at half price. See Mayhew's ad.

See us for your haying supplies—Plymouth rope, hay cars, slings and pulleys, etc., at Wright's Hardware.

Be on the lookout for particulars of Appin annual garden party, Wednesday, August 6, afternoon and evening.

Ford cars now on display.—M. J. McAlpine, Ford service and sales, Glencoe; Galbraith Bros., Ford dealers, Appin.

For sale—Massey-Harris binder and Massey-Harris mower, nearly new.—Dan A. Leitch, Walkers; phone M 29 r 49.\*

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.

Boils and stews, fresh meat, beef, at Jelly's—Sc. 10c, 12c lb; roasts, 14c. Free delivery. Cut down cost of living by buying at Jelly's.

See us for your binder twine—Green Sheaf, Silver Sheaf, Gold Medal—the twine that has stood the test for years.—Wright's Hardware.

For sale—Studebaker touring car, in first-class running order. Price ridiculously low and terms to suit purchaser.—E. Mayhew & Son.

Watch for particulars of the garden party to be given Monday evening, July 21st, at the residence of Mr. Moss, under the auspices of the Anglican church.

The Junior W. A. of St. John's church are holding a cooking sale on Saturday, July 12, from 3 to 6, in the schoolroom of the church. Ice cream and light refreshments. Everybody welcome.

The Campbellton annual garden party will be held on the evening of July 18. Program—Harry Bennett, of Toronto; Miss E. Graham; the David brothers, of London; Miss May Leithbridge, 7-piece orchestra, London. The choir will be taken at 8.30 by J. H. McIntyre, of London.

Bethel church annual garden party will be held on Wednesday evening, July 23rd, on the grounds of James Moore, Appin sideroad. The Brunswick Trio will furnish most of the program.

### SOUTH EKFRID

Mr. and Mrs. Will George and Mary B. Duncanson spent Saturday in London.

Stanley Hyndman has returned to Detroit after spending a few days at his home here.

Mrs. Thatcher, of Windsor, spent the week-end at Geo. Coad's.

Mrs. Tobias, of Toronto, visited at J. L. Tait's this week.

Mrs. McDonald, of Appin, and Mr. and Mrs. D. R. McRae visited Duart friends on Monday.

John McKay, of Detroit, spent the week-end at T. J. McDonnell's.

Mr. and Mrs. Geo. Woods, of Detroit, spent the week-end at the home of their daughter, Mrs. Roy Squire.

A pleasant time was spent at the close of school on June 27th, when the pupils of S. S. No. 5 gave a little concert in honor of their retiring teacher, Miss Mattie McRae. During the program Miss McRae was asked to come forward and was presented with an ivory jewel case and comb and a nicely-worded address, which showed the high esteem in which she is held. After a trip to the coast Miss McRae will take a position as teacher in one of the Walkerville schools. We wish her every success.

### CASHMERE

## SPRAYING POTATOES FOR LATE BLIGHT.

Late blight, primarily a disease of the potato foliage, is most destructive, and in some years causes tremendous losses. The starch which is stored up in the tubers is manufactured in the leaves, hence loss is occasioned both by the blighting of the tops and the consequent failure of the tubers to attain their normal size, as well as by the well-known tuber rot which follows an attack of the disease before and after the tubers are placed in storage. This loss can be greatly reduced, if not entirely eliminated, by careful and thorough spraying with Bordeaux mixture. This should be done whether the crop is being grown for "seed" or for table stock.

The best spraying solution to use is home-made Bordeaux mixture made up of 4 pounds copper sulphate (blue-stone), 4 pounds of quick lime, and 40 gallons of water. In making this solution it will be found most convenient to use stock solutions and to dilute them as required. These solutions are prepared as follows:

**Blue-stone Stock Solution**—This is prepared by dissolving 40 pounds of copper sulphate in a barrel containing 40 gallons of water. A convenient method is to place the chemical in a sack and suspend it, over night, in a barrel of water. When ready to use the surface. A more rapid method is to crush the blue-stone crystals and dissolve it in a smaller quantity of hot water and make up to 40 gallons. Each gallon of the solution will then contain one pound of blue-stone. Metal vessels must not be used in handling this chemical.

**Lime Stock Solution**—Slake 40 pounds of fresh quick lime in a barrel by gradually adding water. Mix thoroughly and continue to add water until the barrel contains 40 gallons. The barrel of stock solutions should be covered to keep out dirt and to prevent evaporation. When ready to spray transfer four gallons of the stock solution of blue-stone into the spray tank and add 32 gallons of water. Then add 4 gallons of the lime stock solution, pouring it through a fine mesh strainer to remove all solid particles. This is most essential, as it will prevent the annoying clogging of the nozzles. Keep stirring the solution in the tank while adding the lime. The solution is now ready for use.

Spray mixtures made in the above manner will usually contain the necessary proportions of blue-stone and lime. However, since the composition of quick lime is not always constant, it is desirable that the mixture be tested since an excess of blue-stone will injure the foliage. A testing solution may be prepared by dissolving one-half ounce of potassium ferri-cyanide in one-half pint of water. This material is a poison. Sprinkle a few drops of this reagent on the surface of the spray mixture, and if on striking the surface of the solution, a distinct brown color results more lime should be added. As an insecticide 1 1/2 pounds of arsenate of lime should be added to each 40 gallons of solution for the control of potato beetles. Spraying should be commenced about the middle of July. When the plants are small an application of about 60 gallons per acre will be sufficient. This amount should be increased as the plants grow larger, using three nozzles for each row so that both upper and under surfaces of the leaves will be thoroughly protected. The spray should be applied under pressure of about 125 to 200 pounds. Experiments have shown that in circumstances four applications may suffice during the season, but five or even six will generally give the best results. The later sprays, given when late blight is known to cause the greatest amount of damage, should be applied with the utmost care. The omission or careless application of one spray at this time may undo all previous efforts at control. This is due to the fact that crops which are sprayed remain in a green, growing condition longer than they otherwise would. If the later applications are not thoroughly applied the unprotected foliage will present favorable conditions for the late blight fungus to become established. Even though the appearance and severity of the disease is usually dependent upon seasonal conditions, a grower will be amply repaid for the labor and expense of spraying a season when no blight occurs by the obtaining of a larger yield. It is also desirable to increase the proportion of copper sulphate in the later sprays—using the formula 6:4:40. In preparing this mixture the only difference is that six gallons of stock solution of blue-stone are added instead of four, and 30 gallons of water instead of 32. Commence spraying early before the disease makes its appearance. Spray before rather than after rains. Spray thoroughly.—J. B. MacCurry, Plant Pathologist.

## POULTRY

Gaping chicks are too often supposed to have gaps, when in reality they have something else the matter with them. In other words, gaping worms are not so common as is frequently supposed.

Where they are common, however, they are a source of loss and trouble. This little worm, the female of which is four-fifths of an inch long and brownish red in color, while the male is only a quarter of an inch long, gets into the bird's body through the alimentary tract.

The female worm, which is filled with eggs, is expelled by the infested chick through coughing. The worm's body then decays in the soil and the eggs hatch, provided there are the proper conditions of moisture and warmth.

There is a common belief that an intermediate host, such as the earthworm, is necessary, but this is not a fact; there may be such a host, but none is necessary for the completion of the life cycle.

The larvae which have thus hatched are then picked up by the chicks and make their way into the trachea from the gullet. Their presence sets up an irritation and this causes the chick to gasp.

The common method of removing these worms has been by means of a feather or horsehair twisted around in the trachea—that is, the windpipe. The worms are thus dislodged and expelled out. This method, however, is dangerous and unnecessary. It is dangerous because the feather or horsehair is apt to cause injury by tearing the trachea, thus exposing these areas to infection. The same results can be obtained without danger or injury.

The safe method consists in injecting into the trachea by means of a hypodermic syringe one cubic centimeter of a 5 per cent. solution of sodium salicylate, the idea being to cause irritation and coughing, thereby dislodging the worms. The chick coughs them out.

Another is to feed one bulb of garlic a day for each ten birds. Asafoetida and tobacco may also be used to cause the irritation and coughing.

## DAIRY

Our method of maintaining the milk flow during the dry period is to provide an ideal all-summer pasture. For this purpose we grow the biennial white sweet clover. An acre of it will keep more than one cow all summer and the pasture will keep green and palatable until there is a new pas-

ture provided after threshing time by the sweet clover that was sown in the small grain in the spring. Occasionally when we buy a new cow that does not seem to like the sweet clover at first, she is given a little grain or dry feed until she will eat the clover well. Cows on sweet clover need very little grain to keep up the milk flow to profitable production.

When the cows are turned back in the pasture at night, the flies do not bother so much while they are feeding at night or lying down. Since the sweet clover provides a fine pasture from early spring until fall, it provides milk that has no bad odor or taste, and it points the way to economy in milk production.

**Elimination of Degeneration Potato Diseases.** Degeneration diseases of potatoes are those such as mosaic, leaf curl, curly dwarf, spindle tuber and the like, which are known to be spread in the field by aphids, plant lice, and which can only be eliminated by removing the source of infection. The source in every case can be traced to tubers which were formed in diseased fields the previous year. The aphids feed on the plants arising from these tubers, and when they go to healthy ones they carry some of the infection with them, and in the course of feeding, inoculate the juice from the diseased plant into the healthy one. In the course of a few weeks the formerly healthy plant is diseased.

In order to prevent the spread of these degeneration diseases it is necessary to go through the field about the time the plants are eight to ten inches high and pull out all that appear undesirable. In doing this system to remove the entire plant system, including the seed piece. The removal of plants in this way is known as "roguing." Two or three weeks later the field should be given another thorough inspection and all diseased or undesirable plants rogued. It is also necessary at this time to remove any foreign varieties which may be present. Should it be necessary to rogue a field after the tubers have begun to form, care should be taken to remove those as well as the plant. This will reduce to a minimum the danger of disease being carried over to next year's crop by means of the tubers.

Scissors in the kitchen are handy for cutting up greens.

These are the days when flies bite hardest and the stock suffers most from the pests.

## Fanning Mills and How to Use Them.

The points to observe in fanning seed grain are: first, proper air blast; second, right size and combination of sieves; third, right speed; and fourth, running the grain evenly and thinly over the screens.

The wind supply or air blast in all machines is provided to remove as much of the lighter seed and chaff as possible. If the air blast is not sufficiently strong, the chaff and pieces of straw will find their way back into the sample, while if the blast is too strong, some of the good grain may be blown out. The air blast also serves the purpose of keeping the sieves clean of the lighter material thus allowing them to do more efficient work. A trial of the air blast should be made with each new lot of seed to be cleaned in order to see that the correct amount of air is being supplied.

It also may be found necessary to change or readjust the sieves to get the best results. A good assortment of sieves is imperative and a test should be made with different types before undertaking to clean seed in order to ascertain those capable of doing the best work. The top sieves should be large enough to allow the seed to pass through, the remainder of the sample, such as chaff and pieces of straw, running over the top and out at the end of the mill. Sometimes it is expedient to deliver the good grain at the back of the mill instead of at the usual feed point in order to get rid of a certain impurity that cannot otherwise be removed.

The lower sieve or sieves should be large enough to allow the weed seeds or broken kernels to escape but fine enough to carry the good kernels over the top. If wild buckwheat is present, a sieve with triangular 8-64 inch holes or slightly bigger will be found a handy one to have.

The following sieves will be found useful for the cleaning of seed grain:

Wheat and barley.—The upper sieve should be a zinc or tin perforated sheet with twelve, thirteen or fourteen sixty-fourth inch holes. The lower sieve should be either a perforated zinc sheet with eight or nine sixty-fourth inch holes or should be square woven wire mesh eight by eight or nine by nine squares to the inch, or long woven wire mesh two by nine.

When the hens are working overtime laying twenty cent eggs, fill a ten or twenty-gallon crock with them, using water glass as a preservative. When winter comes, allow each and every one their fill of eggs and it will seem no time until biddy comes across with her fresh ones.

## Home Education

"The Child's First School is the Family"—Froebel.

### You Children's Belongings — By Mrs. Nestor Noel.

We hear a great deal about the farmer who gives his children calves and pigs and takes them away when these animals are grown. For years, people have been writing about this. There are other injustices which no one thinks much about, yet they are just as serious because the same lack of principle is there.

I allude to the cool way with which the mother frequently takes a gift received by one child and gives it to another. A child has some rights! Once you have given your daughter something, even if it be but a doll, this becomes hers for ever, unless she herself chooses to give it away.

I recall a child of six to whom I gave several small presents. As soon as she returned home, her mother took them away, to give them to a younger sister!

Very frequently, an older girl is told to give something, prizes to the baby to stop it crying. This is not good for the elder child. It makes her look on the baby as an enemy from whom her things must be hidden. It certainly is not good for the baby, because it makes her think that anything will be given her, provided she cries loudly enough for it!

What sense of justice can our children have in later years, when they are brought up in this manner? Once when I gave a present to a little girl she said, "Is it for me to keep?" It seemed that other people had given her things and she had not been allowed to keep them.

There was another child to whom I gave a doll. I knew she had been longing for one for years, yet when I gave it to her, instead of being delighted as I had felt sure she would be, she looked at me sadly, while two

great tears rolled slowly down her cheeks. "What is it?" I asked. "Do you not want the doll?" "Oh, I do!" she cried, "But Helen has no doll, and they will give this to her as soon as they see it."

It was only by giving Helen another doll that I could induce the mother to allow the elder sister to keep hers.

A child's mind is easily influenced and it is while one is still very young that clear ideas of right and wrong can be most easily implanted. Later on, there will be many things that we shall try to teach, and those first impressions will either help or hinder.

It is at home that a child should be taught his first moral lessons. What mother is fit to teach if she be not fair?

Even a very little child should be taught to respect his brothers' and sisters' toys. If an elder sister lends a toy to a younger one, the latter should be taught to be extra careful of the toy because it "belongs to Big Sister."

Each child should have a place for his own toys and these should not be lent about indiscriminately by the parent, especially while the owner is away at school. I have seen mothers lend toys when those to whom they belonged were not there to defend their property. I have known the big children to hide their things away "in case Mother might give them to Baby" in their absence. It is easy to see that no true love can grow up between mother and child under such conditions. Mothers should be fair to all their children and not show favoritism. Above all, mothers should teach the little ones as early as possible the difference between "mine" and "thine."

two by ten, or two by eleven squares to the inch.

Oats—Upper sieves: zinc sheets with slots seven, eight or nine sixty-fourths inch wide by three-quarter inch long. Lower sieve: zinc sheets with slots one-tenth to one-thirteenth inch wide by one-half inch long.

The feed should be adjusted to allow a thin, even flow of material over the top sieve, with no crowding. A larger quantity of impurities is removed when the grain travels slowly over the sieves than when running quickly over them.

The makers of good fanning machines are always willing to give their advice as to what sieves to use. Should any particular problem arise and in case of trouble, it is often advisable to send a pound sample of the seed to be cleaned to the fanning mill manufacturer for suggestions as to sieves.

### Get Ready for the Grass-hoppers.

Poison bait, if properly made and applied in time, will control at a very small cost serious outbreaks of grass-hoppers.

Bran, 12 pounds; hardwood sawdust, an equal bulk to the bran; Paris green, or white arsenic, 1 pound; salt, 1 pound; water, 2 gallons.

Mix thoroughly in a large box or tub the bran, sawdust and Paris green. Dissolve the salt in the water, and then gradually pour the liquid upon the poison bran and sawdust, mixing thoroughly. In applying, scatter the mixture thinly over the infested field, sowing by hand like grain. The early morning on a bright warm day is the best time to apply, as the hoppers do not move very much when it is cold or dull. Twelve pounds of bran and 1 pound of Paris green is sufficient for two acres.

Modern agriculture must be organized agriculture.

Maybe a bent front axle is premature wearing the treads of your front tires.

When the hens are working overtime laying twenty cent eggs, fill a ten or twenty-gallon crock with them, using water glass as a preservative. When winter comes, allow each and every one their fill of eggs and it will seem no time until biddy comes across with her fresh ones.

## What To Teach Young Children

BY MARGARET CONN RHOADS.

Many farm mothers lament that their days are so fully occupied that they are unable to give their little children more time in preparation for school work.

"I would like to start James on his letters and number work," said a mother to me the other day. "He is a bright child and I feel that he would advance rapidly in his work if I only could."

But my reply to her, based on my own experience and that of many primary teachers, was: "Don't try teaching James either his letters or his number work. To-day all first-class teachers have been trained in methods of scientific teaching. They have wonderful ways of instructing your 'James' and your neighbor's 'Betty' in both number work and reading. And you might find, if you had the chance to spend a teaching year with their preliminary work for school, that this would prove but a handicap, for many home-taught children have had to learn all over again. It is more difficult to forget one method and begin another than it is to begin with the right one."

But there are many things that the mother can teach her children in preparation for the first school year. Teachers of consolidated schools and of all schools in rural districts tell me that one of the greatest hindrances they encounter in teaching the country child is shyness. Too often these little children have been kept at home so much that, upon coming to school, they are made incompetent by their abnormal shyness. This is truly a great handicap. The farm mother who wishes to give her children a fair chance with the other children, will see to it that from babyhood her little ones are allowed to make friends with both grown-ups and children outside the immediate family. There are opportunities for the farm child to mingle with others. The Sunday-school affords an ideal opportunity; then there are the trips to town and community affairs which can be attended by the whole family. The farm mother should also allow her children to entertain their own friends occasionally, a wonderful way in which to cultivate poise and ease.

The child can be taught obedience; not the kind that follows a mild threat, but the kind that comes instantly. The child who is taught at home to pay attention to small commands and acts upon them at once, is the one who will give attention to any request of "teacher" and will be the pupil who will command respect from the entire school body.

The child can be taught cleanly habits. Too often mothers would be surprised to find that their children are only mildly versed in the use of a handkerchief in keeping their desk, belongings in order and in being personally neat. It adds so much to the assurance of a child to know that he is presentable in appearance.

Teach your children independence. Begin, when they are very small, by allowing them to lace their shoes, even if they start such lessons with the shoes in their hands; teach them to put on mittens and rubbers; to hang up their belongings and to button their coats. "Teacher's" temper and

the garden to see what was the matter. "There is not a single worm left," said Bruin. "Where do you suppose they have gone to?"

Together they searched the rows to see which way the worms might have gone, but all they could find was hundreds of little bird tracks.

"Ah, I have it," said Bruin. "Our little bird that had the broken wing has come back and helped us for helping him. All those worms didn't go away, but were eaten by the birds."

A little "chirp, chirp, chee-chee" in a tree right over their heads made them look up and there on the limb was the same little bird that had the broken wing. When he saw Rolly and Bruin looking at him, he just winked his eye and off he flew. But they were sure that he was the one who had helped to save their cabbage plants.

### THE CHILDREN'S HOUR

#### THE LITTLE BIRD SAVES THE CABBAGES.

In Woodland, the animal folks have gardens just the same as we do, for they like crisp, fresh vegetables better than you, my little reader, like candy. Rolly and Bruin had the finest garden of all. The warm spring rains had made everything grow and Bruin had not allowed one weed to stick its head above the ground more than an inch.

Every evening when the rest of the work was done, they would go out into the garden and see just how far each new plant had grown that day.

"I believe this lettuce has grown an inch since last night," said Rolly, one evening just as the sun was kissing the earth good night. "Soon we can have some for supper."

"Fine, fine," said Bruin, "and just look at these radishes. They will soon be ready, too." Walking over to the rows of cabbages, he called to Rolly, "Just look what's happened here."

Now Rolly had tended these cabbages faithfully, for they were his favorite vegetable, and he liked them better than anything else in their garden.

In answer to Bruin's call, he came hopping over. But when he looked at the cabbages, he felt very discouraged. Little worms seemed to be everywhere on them, and some had big holes eaten in the leaves. "What ragged looking cabbage plants!"

"Oh, the horrid worms," said Rolly, "they will ruin my early cabbages. What can we do?"

"Too bad, too bad," said Bruin, "but in the morning, perhaps, I can find something that will drive them away. Bright and early the next morning Bruin was out in the garden to see what he could do. Carefully he looked all the cabbage plants over, but there wasn't a single worm on them. "Oh, Rolly, Rolly," he called, "come here." And Rolly went hurrying to

patience stand a much better chance of not being strained if the children can perform these duties for themselves.

Teach them to stay at a task until it is done. The child who does not give up easily is the child who will outrun the more timid in the school race.

Give them playthings that will teach them to use their hands. Crayons will be an aid to them. An old magazine and a box of crayons will do wonders in teaching children colors and in training their hands to keep on the lines. Let them cut also; teach them early how to handle scissors, providing them with the kindergarten scissors which have blunt ends. Modeling clay or wax is also recommended; it can be purchased wherever school supplies are sold and in many toy-shops. Modeling familiar objects not only trains the hands, but the eyes as well, developing a sense of proportion that will be helpful in many ways. Provide pencils and paper and train the little hands in the proper way of holding pencil and pen.

Encourage the children to play games requiring fairness and accuracy. Let them receive an occasional beating in a game, for experience of this kind will teach them how to become good losers.

One farm mother of my acquaintance allowed her children to have a sum of money, all in coppers, five and ten-cent pieces and quarters. They are as careful not to lose any of this money as if it were part of a game, such as checkers or dominoes. When they played "keeping store" they used real money with which to purchase commodities, and in this way learned both the value of the different coins and what amount of smaller coins it took to make a quarter or a dime.

Reading to the children is one of the best ways in which parents can instruct them. The child who starts school familiar with the rhythm of good poetry, or who has been taught to listen to a piece of worth-while prose, is a long way ahead in the race for knowledge. Your child will find a true delight in his knowledge of something the teacher brings out in a lesson. One day I was in school-room when the teacher quoted from a poem of Robert Louis Stevenson's, a poem from that admirable collection entitled "A Child's Garden of Verses."

Instantly a smile spread over the face of one of the children, and I realized that this child was on familiar ground. He could hardly wait until the teacher had finished when he went his hand and he said: "I can say all of that." You may be sure he had a chance to repeat the poem, and his pleasure was great in having had it as a memory possession.

Therefore, do not lament at lack of time to spend in preparing your child in book knowledge. Direct the conversation at table to such affairs of the day as are not over the children's heads; when an opportunity affords take your small children to places of interest and let them learn by seeing; let them mingle freely with your acquaintances, teach them the simple niceties and courtesies of life and they will overcome shyness and acquire book knowledge with surprising rapidity.

Another good formula for outside whitewash is the following: Slake a bushel of quicklime with twelve gallons of hot water. Dissolve two pounds of common salt and a pound of sulphate of zinc in two gallons of boiling water. When the lime is well slaked, add the solution of salt and zinc and two gallons of skimmed milk and stir well together. This is very good for fences and outbuildings such as poultry houses.

Another good formula for outside whitewash is the following: Slake a bushel of quicklime with twelve gallons of hot water. To this add a solution made by dissolving twelve pounds of rock salt to six gallons of water, then stir in six pounds of cement. This can be further improved by adding an ounce of alum to each gallon of whitewash to make it stick more securely. A pint of molasses to each five gallons of whitewash makes it penetrate the surface, and silicate of soda in the proportion of 10 to 1 makes a fireproof coat. A pound of soap dissolved in hot water added to each five gallons of thick whitewash gives it a gloss-like paint.

A good whitewash to use inside, as in factories and stables, is made by slaking a bushel of lime in fifteen gallons of water, to which is added a paste made with three pounds of rye flour and a solution of two pounds of rock salt dissolved in water. Make the paste by beating up the flour in two quarts of cold water and cooking by pouring into it two gallons of boiling water. Do not add the salt or paste until the lime is thoroughly slaked. This whitewash is almost fireproof.

A whitewash that is put on white hot has advantages, but is not so convenient to apply. To make this kind of whitewash slake half a bushel of lime with boiling water, keeping it covered during the process. Strain it and add a peck of salt dissolved in warm water, three pounds of ground rice boiled to a thin paste, half a pound of powdered Spanish whiting and a pound of clear glue dissolved in warm water. Mix these well together and let the mixture stand for several days.

When ready to use put it in a kettle or portable furnace so that it may be kept hot while it is being applied with a brush.

Whitewash used in damp places inside basements or buildings should contain glue, milk or flour, though these ingredients will be found very desirable where the walls do not mold.

## Would Have Piano in Every Home as Check Upon Deterioration of Home Life

There are many problems facing the world at the present time. But probably none are more far-reaching than the problems of how to keep the young people at home, and how to employ their leisure moments. For upon these largely hinge the extent to which restlessness pervades the nations, the amount of crime that is committed, and various other kindred matters.

One of the greatest antidotes to crime and restlessness that has been discovered is Music in the Home. This fact is being borne out more clearly day by day, and accounts for the interest such welfare organizations as the Kiwanis, Rotary, Lions, Kinsmen's Clubs, etc., are taking in music.

Dr. Percival Hilsley, F.R.C.O., a prominent Canadian organist, has become quite concerned over the waning influence of home life upon the young people of to-day, and declares that unless some means can be devised to check this deterioration of home life and all its influences for good, one trembles for the future. "As an important factor in keeping the family together and strengthening home life, Dr. Hilsley emphasizes the development of Music in the Home."

"If rightly practiced," he says "music should exert a refining and exalting influence in the family circle, and through it home life can be made more attractive. Music, rightly understood and practiced, should appeal to everyone. Its language is universal, its call is irresistible, and its effect is at once elevating and ennobling."

"In the field of instrumental music I would have a piano in every home, and I would have everyone in the home taught to play it. The best types of music should alone be cultivated, and it should be remembered that music is an educative factor as well as being a source of pleasure. Light, popular music has its place, but the term, 'popular music,' must not be confounded with the music no infrequently heard in the movies and other places of amusement. Such music is often absolutely bad, crude, vulgar and suggestive."

The home orchestra, the encouragement of singing, particularly among children, the old custom of family hymn singing on Sunday evenings, and the cultivation of an appreciation of British and French-Canadian folk songs, have been also suggested by Dr. Hilsley as means to the desired end, an appreciation of good music, beginning in the home.

### Durable Whitewash.

About the farm a whitewash that will stay on is very desirable, both for sanitary purposes and to improve the appearance of outbuildings and fences. It is the cheapest of all paints and when properly made will last for a year or more. A very durable weatherproof whitewash is made as follows:

Slake a bushel of quicklime with twelve gallons of hot water. Dissolve two pounds of common salt and a pound of sulphate of zinc in two gallons of boiling water. When the lime is well slaked, add the solution of salt and zinc and two gallons of skimmed milk and stir well together. This is very good for fences and outbuildings such as poultry houses.

Another good formula for outside whitewash is the following: Slake a bushel of quicklime with twelve gallons of hot water. To this add a solution made by dissolving twelve pounds of rock salt to six gallons of water, then stir in six pounds of cement. This can be further improved by adding an ounce of alum to each gallon of whitewash to make it stick more securely. A pint of molasses to each five gallons of whitewash makes it penetrate the surface, and silicate of soda in the proportion of 10 to 1 makes a fireproof coat. A pound of soap dissolved in hot water added to each five gallons of thick whitewash gives it a gloss-like paint.

A good whitewash to use inside, as in factories and stables, is made by slaking a bushel of lime in fifteen gallons of water, to which is added a paste made with three pounds of rye flour and a solution of two pounds of rock salt dissolved in water. Make the paste by beating up the flour in two quarts of cold water and cooking by pouring into it two gallons of boiling water. Do not add the salt or paste until the lime is thoroughly slaked. This whitewash is almost fireproof.

A whitewash that is put on white hot has advantages, but is not so convenient to apply. To make this kind of whitewash slake half a bushel of lime with boiling water, keeping it covered during the process. Strain it and add a peck of salt dissolved in warm water, three pounds of ground rice boiled to a thin paste, half a pound of powdered Spanish whiting and a pound of clear glue dissolved in warm water. Mix these well together and let the mixture stand for several days.

When ready to use put it in a kettle or portable furnace so that it may be kept hot while it is being applied with a brush.

Whitewash used in damp places inside basements or buildings should contain glue, milk or flour, though these ingredients will be found very desirable where the walls do not mold.

The Prince of Wales, photographed while watching a worker painting at the Cauldron Pottery at Stoke during his recent two-day visit to the potteries there.

**WARNING AGAINST POISON IVY**

The poison ivy is perhaps the plant most frequently encountered by the unsuspecting city visitor to the country. Yet it may be easily distinguished from other creepers by its three divided leaves. The harmless creepers have five leaves. This one distinguishing mark if borne in mind will protect the vacationist from poison ivy. Poison oak is a shrub or small tree with broad leaves very much resembling the leaves of the oak tree. The part of these plants to be feared is the resinous sap. When a plant is injured this sticky sap exudes. It comes in contact with the skin and sets up an irritation which is distinguished by its acute character. This irritation frequently begins between the fingers.

The symptoms of ivy poisoning are comparatively easy to recognize. A more or less mild attack may be ushered in by a burning or itching of the skin. Within twenty-four hours after the skin is exposed to the poison of the plant, a red rash appears. This is followed by more or less swelling and itching, then small blisters filled with serum make their appearance. The parts of the body affected may swell to enormous proportions.

At one time it was believed that many persons who had suffered from attacks of ivy poisoning would experience a recurrence of the attack if they passed through a wood or came into proximity with the plant even though the ivy itself was not touched. It now appears certain, however, that contact is necessary in order to produce ivy poisoning.

Ivy poisoning may sometimes be averted even after these plants have been handled provided the parts exposed are washed thoroughly with soap, water, and alcohol. This washing must, however, be thorough, otherwise it will only tend to spread the irritating poison.

The treatment of ivy poisoning is simple and easily administered. One of the best treatments is bathing with salt water. Sea water is best if it is available. Another good application consists of one teaspoonful of boric acid in a quart of hot water. The affected parts should be bathed with warm water every day or every two days and carefully dried without rubbing. Bathing should be followed by another application of boric acid. The attack may subside in from four to six days. The best advice to vacationists is, study the poison oak, the poison ivy and the poison sumac that you may distinguish these plants from their neighbors. Once you are able to recognize them you can scrupulously avoid them. Avoid the creeper with the three divided leaves. Avoid the small shrub with the broad leaves like the oak. Give the sumac that grows in swampy places a wide berth. Persons who have suffered from plant poisoning do not forget the experience.

**Quaint Old Inscriptions.**

Bells were invented for church use, and the dedication of them was a solemn ceremony in ancient days. Regarding the inscriptions put upon bells some examples were cited by an English lecturer. At first it was the fashion to dedicate them to the Deity. Then the saints were "honored." At a later period many would put on such inscriptions as "Fear God, honor the King," and "Ye people all who hear us ring, Be faithful to your God and King." The following were quoted as examples of inscriptions in praise of the donors of bells:

"All you of Bath that hear me sound, Thank Lady Hopton's hundred pound, 'Ring, boys, and keep awake, For Mr. W. Henchman's sake." A delicate hint was conveyed in the inscription on bells at Glastonbury: "Our tongues would all have been much deeper, If contributions had been greater." At Whittlesea this inscription appeared on a bell: "Prosperity to the Established Church, and no encouragement to enthusiasm."

**Barnum and the Trombonist.**

For one of his circuses Barnum, the famous showman, once wanted to make a "big splash," and for this purpose engaged at considerable expense an unusually large band. Things seemed to be going on very well until Barnum himself appeared on the scene to observe the results. Seeing the first trombone sitting at his ease when all the other instrumentalists were hard at work, he went up and asked him why he was not playing. "Oh," said the player, "I've forty bars' rest here. 'Forty bars' rest!" exclaimed the showman; "forty bars' rest! I don't pay you for resting; you go to the Treasurer and get your week's pay; you're sacked!" Fortunately, at that moment the conductor was able to intervene and explain matters, though Barnum confessed that he was quite at a loss to understand them.

**Hospitals Now Health Centres.** Hospitals established in Latvia after the war have been converted into health centres and served 34,000 persons during the first half of 1923.

**Blew Up a Whale.** The carcass of a 40-foot whale which was washed ashore at the Isle of Wight was towed to sea and destroyed by explosives.

There is no such gain as to be sparing with what you have.

**RED ROSE TEA 'is good tea' and extra good is the ORANGE PEKOE QUALITY**

**Surnames and Their Origin**

**DONOVAN.**  
Variations—O'Donovan.  
Racial Origin—Irish.  
Source—A given name.

The true Erse spelling of this family or clan name is "O'Donobhain." That is to say, it's as good a spelling as can be rendered in the English alphabet, which does not exactly correspond to the Irish.

Though you might not suspect it from the spelling, "O'Donobhain" is pronounced exactly as we pronounce O'Donovan. There may be, perhaps, a slight difference in accent which would betray an Anglo-Saxon tongue to a true Gaelic speaker, but that's all. The name offers a good illustration of the peculiar Irish "m" which sometimes is pronounced like a "b" and sometimes, as in this case, like a "v." "Donobhain," the chieftain who founded the clan, and from whom the clan took its name, was like "Carthach," Prince of Desmond and founder of the MacCarthys, a military leader who won renown in the Danish wars, though at a somewhat earlier period. Donobhain, however, had made common cause with the Danes in Limerick, and was with them decisively beaten by the famous "Brian Boromh" ("Boru"), one of the outstanding rulers in the long list of the Irish High Kings, and who was responsible for the passage of laws controlling the adoption and use of family names. "Donobhain" was slain

in later fighting by a brother of this monarch, at the battle of Croma.

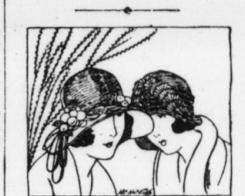

**CRAWFORD.**  
Racial Origin—Scottish.  
Source—A locality.

Here is a family name which surely sounds English, but it is distinctly Scottish. It is a place name, and one derived from Gaelic instead of Saxon words, its present ending "ford" representing merely the influence of English speeches through a number of centuries and the confusion between the word "ford" and a Gaelic word of similar sound.

In reality the place name signifies "bloody pass." How it came to bear that name is an episode on which available history sheds no definite light, though it is logical to assume that it must have been the scene of at least one desperate encounter. Among the Scots the name of Crawford is borne principally by those tracing their ancestry back to the Clan Lindsay. There are those among the Scottish historians who do not admit this combination of the words "cra" and "ford" into the classification of the Highland clans, since its first chiefs were of Norman origin. Yet, its hold-ings were on the edge of the Highlands, it played an important part in the history of the Highlands, and there can be no doubt that while its leaders were originally of Norman extraction the bulk of its membership represented Gaelic blood. The name is explained as a "ford."

**TEETHING TROUBLES**

Baby's teething time is a time of worry and anxiety to most mothers. The little ones become cross; peevish; their little stomach becomes deranged and constipation and colic sets in. To make the teething period easy on baby's stomach and bowels must be kept sweet and regular. This can be done by the use of Baby's Own Tablets—the ideal laxative for little ones. The Tablets are a sure relief for all the minor ailments of childhood such as constipation, colic, indigestion, colds and simple fevers. They always do good never harm. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Green and Fresh.**  
Mary—"That yap tried to make love to you, eh? He's positively green."  
Ann—"Perhaps that's why I found him so fresh."

**Tree Furnishes Food.**  
The bassia tree in India has "candy" flowers, the petals of the flower being rich in sugar, and used for food.

**Words With Changed Meanings.**

If we wish to label anything strange or barbarous we say it is "outlandish," but when the Bible speaks of an "outlandish woman" it means a foreigner. Another curious expression in the Authorized Version is "The other basket had very naughty figs." That means fruit which was good for naught. To-day the word "naughty" means "ill-behaved." In the Prayer Book the word "presently" means "at the present time," but to-day it always means a future time, though not far distant.

When the Authorized Version of the Scriptures was first printed the word "careful" meant "full of care and anxiety," as in "careworn," but if a man were said to be careful it would to-day be a good testimonial. Thus, when the New Testament tells us to "be careful for nothing," it is not referring to wastefulness and speaking against thrift, but simply telling us not to worry about anything.

**Universal Music.**

There's music in the sighing of a reed; There's music in the gushing of a rill; There's music in all things, if men had ears—  
—Bryon—Don Juan.

In Zululand the atmosphere is so clear that objects can be seen by starlight at a distance of seven miles.

We endeavor to make a merit of faults that we are unwilling to correct.

Minard's Liniment for Rheumatism.

**DOMINION OF CANADA FIRST AID CHAMPIONS.** These five young women, members women taking instruction in First Aid, in every shop and yard, capable of No. 1 Ladies' First Aid Team, Canada work than any other organization in rendering First Aid efficiently when the National Railways, Montreal, Of Canada. Already more than 4,000 have ever the occasion demands. The names of the winning team from left to right, recently won the Lady Drum-begs enrolled in the classes, and the of the swimming team from left to right, are: Misses May Neate, Olive Championship of Canada in First Aid coast to coast. It is the aim of the Doody, Robina Moodie, captain; Sarah and Home Nursing. The Canadian Company to have employees on every N. James and Isabelle Tarleton. National Railways have more men and

**Pigs That Guard Sheep.**

In this country one seldom says anything kind about pigs. Yet they are highly esteemed in other parts of the world.

In the Apennines they are used to guard sheep. One man in each village acts as shepherd to the community, and is allowed a sheep-pig to assist him when the animals are out at pasture.

The man's task is an easy one—he may amuse himself by playing the flute, or he may even sleep for a few hours while the pig faithfully guards the flock. In the evening the same trust-worthy guardian sedulously singles out the sheep belonging to this house or that, and never makes a mistake.

Where truffles grow pigs are used to find and root them up. If carefully trained a pig will keep for his master all the truffles he uncovers. In Ireland, of course, the pig's merits have always been recognized. There he is the "gentleman that pays the rent."

**NERVOUS DEPRESSION**

**Why People Are Low Spirited and Depressed.**

Nearly all women and most men suffer at times from fits of depression and low spirits. Everything seems a burden; then come periods of nervous irritability, headaches and weariness. People who suffer this way lack vitality because their blood is poor and nerves are starved in consequence.

The only way the nerves can be reached is through the blood. By enriching the blood with Dr. Williams' Pink Pills the starved nerves are supplied with just the elements they need. This is proved by the experience of Mrs. J. E. Dadson, 12th Ave. East, Vancouver, B.C., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back, and also suffered from frequent pains in the back of my head and neck. I was hardly able to do anything about the house. I would wake with a start in the night and my heart would flutter; so that it almost choked me. I tried much doctor's medicine but it did me no permanent good. One day I read about Dr. Williams' Pink Pills and decided to give them a trial. These pills produced such a beneficial change in a short time that I kept taking them until I had used a dozen boxes. By this time there was such an improvement in my condition that friends would ask me what I was taking, and of course I was only too pleased to tell them it was Dr. Williams' Pink Pills. I am now feeling like a new person and am doing my own housework. We would not now be without Dr. Williams' Pink Pills in the house."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Freckles for Beauty.**  
The new Sunlight League of Britain might have counted on the blessing of George Meredith, for whom sunburn and freckles were beauty's greatest adjuncts.

In one of his pastoral poems he urges the companion of a walk to give both a welcome, declaring:—"Thou are no nun, veiled and vowed; doomed to nourish a withering pallor. City excites beside thee would show like bleached linen at midday. Hung upon hedges of eglantine, a collection of 'a gracious freckled lady, tall and grave,' whose sunburnt beauty made her unforgettable."

He—"Do you put it down in a note book every time we have a spat?"  
She—"No, I used a scrap book for that."

**Britain's Daily Shipping.**

On any day of the year some 2,750 British merchant ships of more than 3,000 tons are traversing the great sea highways of the globe.

It is always safe to send Dominion Express Money Orders.

**A Flowery Controversy.**

A tear was in the Violet's eye, A smile was on her lip; She said, when asked the reason why, "I saw the old Cowslip."

Wild rose laughed in the morning breeze, As back and forth she swung, That Johnny-jump-up could not reach The branch from which she hung.

The Hollyhock beside the wall Was filled with anger grim; 'Twas caused by Black-eyed Susan, Who slyly winked at him.

The Poppy shook her fiery head, Kept it bobbin', bobbin'; The old snapdragons quarreled so, She feared they would Wake-robin.

The Lady's-slipper tapped applause, The Foxglove clasped in glee, The Tulips laughed right merrily To see them disagree.

Jack-in-the-pulpit raised his voice, Sweet concord to restore; The Bluebells rang their sweetest tones, And all was peace once more.

—Muriel E. Hunt

**A Woodland Scene.**

One bright, sunny day in June I went by myself into the woods. As I wandered on I came to a little stream. I stopped to admire it and its surroundings. The sun was shining through the trees making the pure water sparkle like diamonds.

Next to the stream stood three trees. They were all alike in size, and towered above all the rest. The scene had a soothing effect upon me and I lay down upon the soft, mossy bank with my face to the sky. The rustling of the leaves was putting me to sleep and I thought only of the beauties of nature.

Suddenly I was startled by a little furry creature which fitted by me as if on wings. I lay very still for it was a rabbit, and I did not want to frighten it. I watched it drink the pure sun-kissed waters of the stream. The rabbit did not even notice me, but drank on in peace.

"Bang!" I jumped up at this, for it was the sound of a gun. When I again looked at the stream, I saw that my little friend was no longer drinking, but lay by the stream dead.

"Alas! Not even in the woods can there be peace. The world is wicked."  
—C. D. H.

**Green Tea Imports Larger.**  
Statistics from Ottawa show that in 1923-553,977 pounds more Green Tea were brought into Canada than in 1921, and 906,728 pounds more than in 1922. The reason given is that the fine quality Green Teas of India and Ceylon have displaced the inferior Japan and China Greens which, due to their low price, were imported heavily some years ago. Salada Tea Company is the largest importer of India and Ceylon Green Teas.

**Too Zealous.**  
P.C. X95995 was walking along the bank of a canal, when he came upon a youngster sobbing bitterly. Stopping him, he asked: "What's the matter?"

The youngster, still crying loudly, pointed to mid-stream, where a hat was bobbing up and down on the water.

"My brother—" he sobbed. "In a flash the courageous constable plunged into the murky water. Thrice he dived, but at last he was forced to come to shore again with only the hat in his hand."

"Can't find him!" he gasped. "Where was he standing when he fell in?" "He—he—he—" the boy blurted, "he didn't fall in! I was going to tell you that he threw my hat in, but you wouldn't let me finish."

**Her One Accomplishment.**  
Just what a green servant girl can do anyway often puzzles the distracted housekeeper nowadays. Mr. Robert U. Johnson in Remembered Yesterdays thinks that we must expect to hear of such experiences as that of a Swedish-American friend of his who, needing a maid-of-all-work, resorted to a Scandinavian agency.

There she found a sturdy Finnish girl and asked her what she could do. Could she cook? No, she could not cook. Could she do the washing? No. Could she wait on table? No. Well, what could she do?

The girl thought for a moment and then replied, "Vel, ly can milk the reindeer."

A man's brain attains its maximum weight at the age of twenty years; that of a woman at seventeen years.

Minard's Liniment Relieves Pain.

**RHEUMATISM GONE, SAYS MONTREAL HOTEL MAN**

**F. A. Mongeau Tells How He Recovered Strength After Eight Years of Rheumatism.**

F. A. Mongeau, popular night clerk at the Prince of Wales Hotel, 17 and 19 McGill College Avenue, Montreal, Canada, lends his name to further the cause of Tanlac, the treatment that has proved of such great benefit to him.

"After all Tanlac has done for me," said Mr. Mongeau, "I just feel like prating it to everybody. Eight years of muscular rheumatism had just about made a cripple of me. I got to where I simply had to limp around on a cane. My nerves became affected, my sleep unsteady and I felt completely knocked out."

"Six bottles of Tanlac, taken eight months ago, made a new man of me and I have had no further trouble with rheumatism, or my health, since. My nerves are steady as a die, I sleep fine and feel the same way. Anyone wanting to know of me what Tanlac will do, just phone me here at the hotel."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

**Mosquitoes and Malaria.**

It is estimated that the deaths annually from malaria number some two millions, and this figure may probably be multiplied by two or three hundred if we would arrive at the total number of people in the world affected by the complaint. Malaria is mainly a disease of the tropics, and is caused by a minute parasite in the blood. The parasites in one malaria patient may number anything from one hundred to a thousand millions. In many cases there are more parasites in the system of a malaria patient than there are people on the earth, and for ages it was believed that marshes and malaria were in some way connected.

Sir Ronald Ross discovered that it was not the marsh but the mosquito which bred in the marsh which was the originator of the disease, and he declares that the parasite of malaria is, to the mosquito which carries it, as a threepenny-bit would be to a hippopotamus!

When a disease-carrying mosquito bites, it injects a saliva in which are the malaria parasites. These are carried into the human circulatory system and so throughout the body. The cure for malaria is quinine, but the prevention of malaria is the destruction of the mosquito in which it breeds.

**Don't.**

Don't be like folks who laugh and sing Along the summer ways, But grunt and groan when winter brings The gloom of duller days.

Don't be like folks who vow they're chums Along each level mile, But when the roughened pathway comes Forsake one at the stile!

Don't be like folks who fear to bear A little trouble-pack, For life brings everyone a share Of bothers in its track.

So, if you're down, spring up again, And when you're on your feet— Wipe off each mark of condescension, Press onward through the sun or rain— Show by your heart and soul and brain Pluck's very hard to beat!

—Lillian Gard.

**Strength of Silver Wire.**  
A silver wire one-twelfth of an inch in diameter will support a weight of 138 pounds.

**TO EXPECTANT MOTHERS**

**A Letter from Mrs. Smith Tells How Lydia E. Pinkham's Vegetable Compound Helped Her**

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children was born and afterwards, and find it a great help. Before my first baby was born I had shortness of breath and ringing in my ears. I felt as if I would never pull through. One day a friend of my husband told him what the Vegetable Compound had done for his wife and advised him to take a bottle home for me. After the fourth bottle I was a different woman. I have four children now, and I always find the Vegetable Compound a great help. I recommend it to my friends."—Mrs. FRED H. SMITH, John St., Trenton, Ont.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect effectually as nature intended. Thousands of women testify to this fact.

**The Right Attitude.**

Be careful how you "I am" your misfortunes. The trouble with most of us is that we "I am" our misfortunes too much. We say "I am sick"; "I am tired"; "I am discouraged"; "I am poor"; "I am down on my luck"; "I am a failure."

All sorts of people are constantly making use of negative, destructive expressions. They are always talking down, complaining about one thing or another.

In winter they will say "Did anyone ever see such beastly weather as we are having?" This snow and sleet make me ill. I am never free from a cold. I'm so afraid it will develop into pneumonia."

In the summer it is just the same: "I wonder if it is ever going to stop raining?" "It looks as if we are not going to have any summer!"

They are constantly complaining of things and are always "tired," "fagged," "played out," "not fit for anything." And, as John Henry would say: "It's all wrong!"

Companionship with a powerful person is never to be trusted.

What test did Jesus lay down for detecting false prophets?—Matt. 7: 15-20.

### WARDSVILLE

Mr. and Mrs. Art. Smith and children, of St. Thomas, visited Mrs. Geo. Harold on Sunday.

Albert Constant, of Windsor, was a holiday visitor here.

Thos. H. Weer and Dave Weer, of Port Huron, spent a few days at the former's home here.

Mrs. J. Gourley and Mrs. J. Thomas and Earl spent Saturday in London.

Mr. and Mrs. W. Telfer and children, of Parkdale, spent Sunday with Mr. and Mrs. Thomas H. Weer.

Mrs. J. Sloan and Victor spent a few days in Detroit last week.

Carlisle Bilton, of Detroit, spent the week-end at his home here.

Margaret Harold, who has spent the last three months in St. Thomas, returned to her home on Sunday.

J. Humphrey, of Detroit, spent the week-end with friends in the village.

Mr. and Mrs. Wm. Walker and son, of Detroit, spent a few days in the village last week with relatives.

Wm. Tomlin, of Detroit, was in the village for the week-end.

Mr. and Mrs. Wm. McMaster, Mr. and Mrs. J. McMaster and Garrett McMaster spent Friday in London.

C. R. Ashdown left Tuesday for a six weeks' course at Guelph Agricultural College.

Mr. and Mrs. Bilton and children, of Detroit, spent last week with Mr. and Mrs. W. Bilton.

Misses Maud and Violet Murphy went to Detroit on Monday to spend some time.

F. Radcliffe and niece, Miss Spence, returned on Monday from an extended visit in Fort William.

Miss Ila Gourley spent last week with Mr. and Mrs. J. Brown, of Cashmere.

Miss Anthistle, of London, spent the week-end in the village.

A party of girls, consisting of Winifred Parnall, Janet Elliott, Isabel McCracken, Marion Reid and Lorraine Henderson, chaperoned by Misses M. Anthistle and Agnes O'Malley, left on Tuesday for a three weeks' holiday at Port Glasgow.

The annual garden party held by St. James' Anglican church on July 1st was a decided success from all angles. The program was very good and was listened to by a large audience. The evening was rather cool but in spite of this the total receipts were \$230.

The Wardsville boys' ball team played a good game of ball on Tuesday evening with Tai's Corners. The game was a victory for the home team, 10-8. On Monday evening the team played Strathburn and again won a victory, the score being 17-7.

There passed away on Monday morning one of Wardsville's old-time residents, in the person of James Fitzpatrick, at his home on the first concession of Aldborough. Mr. Fitzpatrick was a well-known man in the village and a friend to everyone. He will be greatly missed not only by his relatives but by a great circle of friends. He leaves to mourn his loss a daughter, Mrs. A. B. O'Hara, and a son, Carson York, of Ruscombe. The funeral services were held this (Wednesday) morning at 9 o'clock.

The W.H.S. entrance board, composed of Principal C. R. Ashdown, B. A., chairman, and Inspector J. H.

Sexton, B.A. secretary, have completed their labors and the results of the pupils' work are as follows:—

Passed with honors—Mary Watterworth, May Gauchier, Mary McLean, Florence Fry; passed (in order of merit)—Helen Goff, Dorothy Armstrong, Ronald Galbraith, Gordon Squire, Gladys McMaster, Gordon Armstrong, Clarence Scott, Percy Connelly, Madeline Fisher, Blanche Whitlock, Audrey Willis, May Bayley, Frank Moore, Margaret Long, Helen Whitlock, Bramwell Gardner.

The old W.H.S. has just closed one of the most prosperous years in its history. Twenty pupils wrote on the middle school subjects. This is double last year's number. In Form II, the rank in order of merit is:—Class I.—Flossie Palmer, Mary McIntyre, John McRae, Albert Brooks; Class II.—James Bunda, Florence Willis, Sadie McMaster, Alberta Armstrong. Part year students were:—James Stalker, Wesley Connelly. There were no failures. In Form I, the rank in order of merit is:—Class I.—Marion Reid, Jean Moore, Eva King, Dora Squire, Roberta Bridgette, Loraine Henderson, Florence Linden; Class II.—Norma Willis, Donald Coyne, Marion Grover, Albert Bridgette, Berton Woods, Maxwell Lancaster, John Wallace, Ida Duckworth, Austin Thompson (Can. Hist.), J. D. McNaughton (Art), Elmer Storey (Can. Hist.) Part year students:—Helen Brooks, Frank Carman, Emily Carman. Practically all the students took Agriculture and it has proved a most interesting form of science.

Seventeen wrote on both third and fourth year Agriculture for their Normal Entrance and University Matriculation. Of the two dozen who wrote on the high school entrance, all passed but three. The indications are for a crowded school next year and prospective students should send in applications at once to C. R. Ashdown.

Notice.—Monuments, in Scotch and Canadian granites; inscriptions engraved at your cemetery, a specialty.—Wardsville Granite & Marble Works; Chas. Minna, proprietor.

### NEWBURY

Alvia Burr, of Detroit, was home for the week-end.

J. H. Bayne, of Detroit, spent a few days in town last week.

Wm. Clark and wife, of Walkerville, called on his uncle, D. J. Batsner, on Friday while on a motor trip to London.

Miss Dorothy Welch is spending the vacation with her aunt, Mrs. Shaw, at Ridgetown.

Mrs. Jas. Patterson and son Will are visiting her daughter, Mrs. Frank Foster, in Detroit.

Clarence Armstrong and sister, Mrs. Nelson June, of Windsor, spent the week-end here.

Miss Jessie Gray, of Detroit, spent the week-end at her home here.

Mr. and Mrs. Hannon and daughter returned to Toronto on Wednesday.

Several from here attended the funeral of the late Mrs. Elizabeth Jane Armstrong, of Strathroy, at Windsor on Sunday afternoon. Deceased was a resident of the village for several years and was loved and respected. Her sons, John A. S. R. and T. E., have the sympathy of all in their bereavement.

Mrs. Russell L. McVicar, of Regina, and niece, Kathleen Armstrong, of Bridget, have returned to their homes after visiting Mrs. McVicar, "Inglewids."

Will King and daughter Norma and son Billy, of Wilkesport, Pa., and his mother, Mrs. H. Taylor, are visiting at Charlie King's in Mossa.

Mr. and Mrs. P. T. Galbraith and

son Ronald are spending this week at Grimsby Beach.

Miss Myrtle Prangley is visiting friends in Plattsville.

Mrs. Pernell (nee Minnie Palmer) of Duluth, has been visiting friends in town.

Miss Ann J. Connelly has returned from Detroit for a few months' stay at her home here.

Robert Scott, of Detroit, has been visiting at Percy Shred's.

Mrs. L. B. Burdon is visiting her daughter in London.

Mr. and Mrs. Smith, of Detroit, visited last week with her cousin, Mrs. R. H. Moore.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

### KNAPDALE

Mr. and Mrs. Ward Leitch, of Windsor, spent the week-end with his parents here.

Glad to see Mrs. Alex. Stuart out again after her recent illness.

Mr. and Mrs. Roy Barnes, of Sarnia, were visitors at Thos. Wilson's last week.

Soft-ball teams, beware! The bachelors of Knapdale are contemplating organizing a team.

On Friday evening, June 24th, a pleasant social evening was spent at the home of Mr. and Mrs. Dan Hillman, when the friends and pupils of Miss Agnes McEachren gathered to bid farewell to her prior to her leaving the section. During the evening Councillor Leitch took the chair and a short program of songs and readings was given by the children. A number of short speeches were given by members of the school board and others, the speakers all commenting upon the excellent work which had been accomplished in the school during the past two years, and expressing their regret that Miss McEachren was leaving the section. Miss McEachren was then called forward and presented with an ivory clock and mirror. A short address was read by Velma McNaughton, the presentation being made by Edith June and Jessie McNaughton. Lunch was then served, and the many friends of Miss McEachren joined in wishing her happiness and success in her new school.

### SHETLAND

Mrs. D. Nicholson and little children, of Toronto, are visiting Mrs. Robert Gray.

Mr. and Mrs. Henry Shower and Mr. and Mrs. John Shortt spent the week-end at Wm. Bolton's.

Charles and Miss Ila Bolton left for Detroit on Sunday.

Miss Grace Bolton returned from Lambeth Sunday.

Mr. and Mrs. L. H. Badgley left for the West on Tuesday.

Misses Ona and Bessie Jeffery, of Detroit, are spending the holidays at Fred Jeffery's.

Mrs. Smoke and little son spent the week-end with her parents, Mr. and Mrs. Wm. Bilton.

Wm. Bolton and A. Dykman spent the week-end with Shetland friends.

Fred Jeffery attended the Jeffery-Martin reunion at Belmont on Wednesday.

Mrs. Duncan Fletcher, of Newbury, spent last week with her sister, Mrs. Alex. Dobbey.

Bruce Fletcher spent Sunday with Shetland friends.

### NORTH EKFRID

Mr. and Mrs. Albert Perry and two daughters, Mrs. Roy Abram and Mrs. Quick, of Windsor, are calling on friends in this vicinity.

Mr. and Mrs. Henry Pettit spent Sunday in Appin.

Bert Hagerty, teacher in S. S. No. 10, Ekfrid, has been engaged by the trustees for another year.

Mr. and Mrs. Richards and family, of Detroit, are the guests of Mr. and Mrs. Joseph Blackmore.

Mrs. Fannie Kettlewell, of Windsor, is visiting her daughter, Mrs. J. Blackmore, and renewing old acquaintance.

Keep in mind the monster garden party at North Ekfrid next Monday night, July 14. Come and have a good time.

Melbourne baseball team played the North Ekfrid team here Saturday evening, resulting in a victory for the home team, the score being 6-1.

North Ekfrid was largely represented at the annual U.F.O. picnic in Strathroy on July 1st.

On Monday evening of last week the Bethel soft-ball team played the North Ekfrid team. The score resulted in favor of Bethel.

The Ladies' Aid will hold their meeting at Mrs. Wm. Musgrave's on Thursday afternoon of this week.

### CAIRO

Will Switzer, of Detroit, is visiting friends here.

Mr. and Mrs. Bessinger, Mr. and Mrs. Cecil Hayward and son James and Mr. Johnston, all of Detroit, called on friends here on Friday.

Mrs. Will Fraser, of Walkerville, is waiting on her mother, Mrs. G. W. Young, who is ill.

Jean McKeown is visiting at Aberfeldy.

Mrs. Stuart Smith and children, Muriel and Gwendolyn, of Windsor, are visiting at her old home.

Arthur Hopkins, of Leamington, is spending his holidays here.

Meryl McKeown is visiting in Windsor.

Mrs. J. J. Cross spent Thursday with her mother, Mrs. W. F. McKeown.

An Oil of Merit—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a pure combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

### RIVERSIDE

Miss Mary P. Willets is visiting friends at Brantford.

Mrs. D. C. Stephens and son Calder and daughter Jean motored from their home at Detroit and are spending a few days visiting friends here and in London. Jean will spend the vacation here with Mr. and Mrs. W. Graham.

Miss Annie M. Johnson, who has been attending London Normal, is at her home for the holidays.

Gordon Mullins has sold his business at Lambton and spent a few days recently with his parents, Mr. and Mrs. Henry Mullins. He has taken a position with the Rural Telephone Company.

Mrs. Kellogg spent a few days recently visiting friends in Dunwich.

Mr. and Mrs. D. Johnson attended the county picnic at Springbank.

Rev. R. Stewart, of Dutton, had charge of the service in the church here on Sunday.

Mrs. John Campbell, of London, spent Sunday with her parents, Mr. and Mrs. D. Hardy.

### DAVISVILLE

Mr. and Mrs. Clayton Armstrong and family, of Detroit, spent a few days with his parents, Mr. and Mrs. Joseph Armstrong.

Mr. and Mrs. Wm. King and family, of Pennsylvania, and Mrs. Harvey Taylor, of Owen Sound, are spending a few days with Mr. and Mrs. Charles King.

Mr. and Mrs. Well Lumley and family, Mr. and Mrs. Roy Lumley and Mr. and Mrs. Clarence Watterworth, of Detroit, spent the week-end at Wm. Durfy's.

Mr. and Mrs. Geo. Babcock, of Detroit, spent the week-end with his parents, Mr. and Mrs. Joseph Babcock.

Miss Lea Armstrong, of Windsor, is spending a few days with her aunt, Mrs. Dan McNaughton.

### PARKDALE

Mrs. Earl Blain spent a few days last week with friends in Windsor.

James Haggitt, Miss Ila Haggitt, Mrs. Fred Haggitt and Miss Mary Hanton attended the Old Boys' reunion in Chatham on Friday.

Wilma Martin is spending the summer holidays at her home here.

Frank Campbell, of Windsor, spent the week-end with his parents here.

Mrs. and Mrs. Wes. Babcock and kiddies visited Sunday with Mr. and Mrs. Thos. Haggitt.

Mr. and Mrs. Geo. Nichols, Southwood, visited Sunday at the home of Wm. Martin.

The days are getting shorter but there is still ample time to row the lawn before breakfast.

### MELBOURNE

The members of the Methodist church celebrated July 1st by gathering in the Sunday School room, where supper was served by the Ladies' Aid and W. M. S. in honor of Rev. Andrew Boa, who has been the pastor here since May 18th, and Rev. Morley Colling, who will now have charge of the work here. After supper Mrs. Gilbert McLean, president of the Ladies' Aid, called the gathering to order, giving a splendid address, making mention of the good work done by Mr. Boa and extending welcome to the new pastor. Mr. Boa was called on for an address, which was much appreciated. Referring to the kindness that had been shown to him, he placed the work which he had enjoyed for a few weeks in the hands of his successor, who expressed his appreciation of the invitation to Melbourne, stating that he came prepared to give his best and requested his people to give their best to the church. Rev. G. W. Oliver, pastor of the Presbyterian church, was present and gave an appropriate address, wishing the retiring minister every success and trusting that the same kindly relationship between the two churches would continue under the leadership of Rev. Mr. Colling. Edmond Richards, Earl Beattie, and Mrs. E. Richards, president of the W. M. S., gave short addresses, after which Miss Eleanor Meek presented Mrs. Colling with a bouquet of roses on behalf of the Mission Circle.

Thomas Annett is home from the West.

A number from here motored over to the Sutherland appointment to attend the garden party, several taking part in the program.

Mrs. Sparling Clarke, who has been seriously ill for some weeks and under the care of the family doctor, a specialist and two trained nurses, is now showing signs of improvement.

Mrs. Dale and Mrs. Hinkle, of Detroit, are the guests of their parents, Mr. and Mrs. James Collier.

Mrs. Annett, who was injured by a passing car, is not improving. No hope is held for her recovery.

Melbourne, July 8.—Rev. Robert Stewart, of Dutton, occupied the pulpit in the Presbyterian church here on Sunday morning. The pastor, Rev. G. W. Oliver, conducted an anniversary services at Dutton.

Mr. and Mrs. Archie Carruthers, of Windsor, and Mr. and Mrs. Griffiths, of Detroit, spent the week-end with friends here.

Mrs. Wesley Harrison is visiting friends at Windsor.

Mr. and Mrs. Clayton Harrison spent a week at Port Stanley.

Mr. and Mrs. Clark, of St. Thomas, spent Sunday here the guests of their daughter, Mrs. (Rev.) Colling.

Mrs. Richardson and Mrs. Graham and family motored from Maryland to spend a few days here with their mother, grandmother and great-grandmother, Mrs. Annett, who is ill.

Mrs. Archie McDougald is seriously ill.

Mrs. J. D. Campbell is still confined to her bed.

### APPIN

Mrs. Archie F. Munroe has returned from Windsor, where she had a pleasant visit with her sister.

The June meeting of the Fraser Young Women's Auxiliary was held at the home of Mrs. James Hawkins, with a good attendance. A pleasant afternoon was spent in quilting, after which Miss Mary J. McTaggart took charge of the devotional exercises. At the close a dainty luncheon was served by the hostess.

The community was shocked and deeply grieved by the death of T. J. Devlin Wednesday evening, July 2. The deceased was a lifelong resident of the community, being born and raised and having lived on the farm on which he died. He was a faithful member of the Methodist church and from early boyhood was active in its affairs. He leaves to mourn his loss his wife and ten-month-old son, Gordon, his aged mother, his sister, Mrs. Whitfield Johnson, of Ekfrid, and his brother, John Henry, of Chicago. The funeral services were held at his late home and were conducted by a former pastor, Rev. M. C. Parr, assisted by his pastor, Rev. Mr. Motyer, of Appin. Interment was made at Longwood cemetery. Those attending the funeral from a distance were John Henry Devlin, of Chicago; Mr. and Mrs. Charles Cotnam, of New York; Mrs. George Beck, of Ingersoll; Sam Lakin and wife, Geo. Lakin and wife and Miss Lucy Lakin, of Detroit; Mrs. Ralph Vail, of Windsor; Mr. and Mrs. A. Young, of Wheatley, and Mr. and Mrs. Lance Banks, of Sarnia. Mrs. Devlin has the deepest sympathy of the community in her bereavement.

Four of our young ladies, Misses Marion Macfie, Thelma Watterworth, Ella Switzer and Marion Campbell, left on Monday to attend the summer school at Alma College, St. Thomas.

Mrs. Macraut entertained at afternoon tea on Wednesday in honor of Mrs. (Dr.) Stuart, of Port William, who is on a visit to her father, Richard Pettit.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

## All Modern Conveniences

What a stride from the old pump to the sanitary convenient, modern plumbing system of today. Just turn a faucet and an unlimited supply of hot or cold water is always available, just where you want it. We are prepared to install such systems with the most modern equipment and efficient plumbing.

IN YOUR COUNTRY AND CITY HOMES

The Appin soft-ball team played the locals here Tuesday evening. The score was '23 in favor of the locals, making a total of five straight victories.

Donald and Woodrow Moore, of Detroit, have returned home after spending a week at Mrs. Joseph Moore's.

## Invited for the week-end

—By Long Distance

It was Thursday afternoon in the country. Hospitable Mrs. Martin seemed disappointed. The week had slipped away before she knew it. No one had been invited up for the week-end and there wasn't time in which to write.

And then she thought of the telephone—Long Distance! In twenty minutes she knew the Smiths would come—delighted to—and what train they would be on. Splendid!—and she had ordered some extra supplies from her grocer in town to be shipped by express that night!

What a pleasant week-end she will have—thanks to Long Distance!

### MOSA

An enjoyable time was spent at the home of Mrs. D. C. Graham when the No. 9, Mosca, branch of the W. I. entertained 27 members of the Appin branch. There were present 23 members of the home branch and 8 visitors. Members' fees received, \$175. After the business part of the meeting the following program was put on by the Appin branch:—Reading, Marion Campbell; solo, Mrs. Herman Galbraith; paper on Spring, Mrs. Macraut; music, Margaret Macfie. A splendid address was given by the Dominion President, Mrs. Edwards, of Komoka, on "Little Things Worth While." At the close of the meeting a dainty luncheon of sandwiches, cake and ice cream was served.

Mr. and Mrs. Stanley Graham, of Brooke, spent Sunday at A. Douglas'. Miss Catharine Paton, of Camachie, is the guest of Miss Flossie Douglas.

Miss Mizie Walker and Mrs. Alice Nichol, of Detroit, spent Friday with the former's sister, Mrs. A. Douglas.
