Trades Council Expresses Sympathy in Strong Resolution to Aldermen.

Labor Aldermen Called Upon to Demand Ample Protection Against Floods.

"Whereas, this council realizes the danger of life and property in West London by reason of an in-sufficient and unsafe breakwater to protect that district from flood and storm water, and ap-preciating the fact that a large number of intelligent and thrifty workingmen have their hard earned savings invested in com fortable homes in West London, we believe they are at least as much entitled to a permanent and adequate protection of their entire homes from storm water as other parts of the city, where only cellars are in danger,

"Therefore, be it r as being in hearty sympathy with the agitation from West London for some kind of a safe and permanent breakwater for the ample and reasonable protection of life and property in that district, and we further respectfully request the Labor aldermen on the city council to do all in their power to further and promote the reasonable requests of West London in this regard.

"And be it further resolved that a copy of this resolution be furnished to the three said aldermen and a copy to each of our daily papers, also a copy to the

MR. RICHTER BEFORE BOARD SHOWS CHARGES EXCESSIVE

The Hydro Commission Hears London's Protest on Street Lighting Rates and Promises Definite Figures.

SOME HEATED EXCHANGES MARK CONFERENCE WITH HON. MR. BECK

Mr. Pocock Charges Ald. Richter With Motive in Preparing Report Mr. Beck Says the London Aldermen Play to the Grand Stand.

[By Staff Man.]

Toronto, Feb. 12 .- The dice are loaded against Ald. Richter, in his appeal against the excessive charge for street lighting, presented before the hydroelectric commission today. Hon, Adam Beck professed to give the city every opportunity to present its case, but he and charges that did not show indeendence and broadness of view.

The sitting will be continued later. Hon. Adam Beck stated that grandstand plays were prevalent in London, and the aldermen were largely respon-

A Peep Behind the Curtain Before the Show Opens

A Set of Manufacturers' Samples

Spring Models Ladies', Misses' and Children's Coats

HIS sale affords an opportunity to get a glimpse at the spring styles, even if you don't intend to buy at present, and a double advantage, too, if you need a spring coat, as this assortment contains 58 models, of which in selecting we would not choose all in one maker's selection, and sometimes it is difficult to choose between some of the styles-particularly in the high-grade imported models such as these —being from one of the high-class German manufacturers. It might be in some cases that what many buyers would reject in making selection would be the very one to take your eye. In these sample models there are many styles which will not be found in our regular spring stock. An opportunity to have something different. Look them over.

Silk Coats, Ladies' and Children's, 21 Sample Models

BLOODSHED IN MEXICO.

This is bad news from Mexico. There is fighting in the streets of the capital reminiscent of the Paris barricades Shot and shell are raining in the hear of the city. The Diaz forces are en trenched mainly in the arsenal, and have also turned the neighboring Y. M. C. A. building, a steel and concrete structure, into a fort, bristling with machine guns which sweep the surrounding streets. The Government forces reply with heavy artillery plant ed on the thoroughfares.

The great Diaz imposed peace and order on Mexico for 30 years. Under the shelter of his rule, foreign capital and enterprise poured in, and the economic development of the country was almost unexampled. But Diaz was a despot and Mexico a republic only in they had left behind sick comrades, name. Millions of his countrymen re- who would have told no tales. But mained desperately poor, almost en- they were not built that way, slaved to the owners of the soil. Madero appealed to this mass of discontent, which burst into flame two years ago and drove the President from the country. But Madero in office has done little to fulfill his promises in the field. He may have been sincere, but his problem was appalling. Only a small proportion of the people are whites; the others are Indians or mixed bloods, Ignorant, downtrodden, and passionate. With this intractable human material, what could be achieve in two years? Democratization of such a country must be slow and painful at the best.

In these conditions, the Madero reeime has been one of continuous turmoil. The insurgent leader, General Felix Diaz, a nephew of the former president, represents the tradition of military dictatorship. His success may the necessary to a revival of order and stability for a period, but only for a period. The grievances of the Mexican millions are too genuine to be Money repressed Unless the white aristocracy develops a social conscience and puts itself at the head of a reform movement, the outlook is black under any form of government. A QUESTION ANSWERED.

"If local option in liquor license fails to meet Liberal approval, wherein is local option in taxation to commended.?" — London Free

"If local option in taxation fails wherein is local option in liquor licenses to be commended?-London Advertiser

We are aware that two questionsour own a jest-do not make an answer, and we propose to supply one. My mind to me a kingdom is as the Free Press has not followed up

There is no relation between tax reform and the liquor business; our contemportary drags in a false analogy. Even if the two things were related, the Free Press would fail to score a point. Mr. Rowell is desirous of a general reduction in the taxation of improvements over the whole Province. just as he favors a provincial act to abolish barrooms. Here is an extract from his evidence before the taxation

"In view of these different conditions existing in different parts of the Province, I would suggest that either or both of these bills (Mr. Ellis' Content to live, this is my stay; and Mr. Rowell's) should be modified so as to provide an amendment to the assessment act which would apply to the whole Province, and which would provide for a lower rate Lo, thus I triumphed like a king, on improvements than on lands. Content with that my mind doth bring. on improvements than on lands, What that rate may be is a matter for discussion. I would not make it less than 25 per cent. It would not have much value unless it amounted to that at least, but it is probably not wise to go too far at first; 25 per cent. or something over that would appeal to most, if made part of a general law applicable to the whole n't know he had."

"Then, under that heading of permitting a lower rate of assessment on improvements, we should include the business and income tax as well. It is quite true that under the law as planned, if we reduce the rate on buildings and do not change the law with regard to business assessments at all, we do to a certain extent reduce the business tax, because the business tax is based on the value of both land and buildings; but in some form or other we should work out a bill which would give a reduction on the business tax corrresponding to the reduction on buildings, and we should make a similar provision as

"Then, further, I submit that we should give to all the municipalities of the Province the option of going further. Why should we not give to any municipality of the Province that believes it would be more equitable and fair that the municipality should raise the taxes necessary for municipal purposes by taxing land more largely than improvementswhy should we not give such a mu

nicipality the power to do so?" It will be seen that Mr. Rowell's policy on tax reform and his policy on the liquor traffic follow parallel lines, though the questions are not related. being hit. He would pass in both cases a genera act supplemented by local option provisions to enable any municipality to go further than the general legislation. We should like to hear from the LALEANS Free Press again.

FAST ST. MICHAELS Sarnia, St. Thomas and Stratford Put Toronto Team Only Beat Them by Two Out of Ontario Tankard Games,

Toronto, Feb 12.—Collingwood, Orillia, Napanee and Owen Sound are the survivors of the first day's battle for the curling premiership of the province, the Ontario tankard. They are paired for today in the order named, and yesterday's gallery came to the conclusion that the winner of the Collingwood-Orillia game this morning, which will probably be Collingwood, will be presented with the Tankard tonight. The scores: beat Midland by 3 to 1 at the Arena last night the big new structure was packed from top to bottom. The game was the first of home-and-home fixtures between the teams in the O. H. A. Senior semi-finals. The Irish will therefore go to Midland on Friday night with a lead of only two goals. As was intimated yesterday, the Saints had underestimated the strength of the Northerners. It was expected that they would accumulate a lead of at least five goals. The Light Blue, who had not been on the ice since last Thursday, will have to do some thorough practicing between now and Friday if they are to hold Midland on the latter's small, narrow rink. What Dyspeptics Should Eat

"Indigestion and practically all forms stomach trouble are, nine times out o ten, due to acidity; therefore stomach ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach, develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste, as well as those which are rich in blood, flesh and nervebuilding properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in asually so thin, emaciated and lacking in that vital energy which can only come from a well-fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a nead of any food or foods which you may like in moderate amount, taking immediately afterwards a half teaspoonful of Bisurated Magnesia in a little hot or cold water This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated Magnesia is doubtless the best food corrective and antacid known. It is not a medicine and has no direct actions on the medicine, and has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugar instead of mesia from your druggist, eat what you want at your next meal, take some of the Bisurated Magnesia, as directed above, and see if I'm not right."

Underneath the Terminal City and its streets are 33 miles of railway tracks on two separate levels, the upper for Through Service and the lower for Suburban Service.

Each level forms a complete terminal in itself, separate entrances and exits, with equal facilities for the comfort of passengers,

Both levels are reached by gently inclined walks. No stair climbing, and no confusion, since incoming and outgoing traffic is separated.

Ticket, Pullman, Baggage and other facilities are progressively arranged from waiting room to train, no step need be retraced.

Burn Caused Open Sore Zam-Buk Worked Wonderful Cure

Sometimes a bad burn, a deep cut, o some similar mishap, sets up a more permanent injury in the form of an open, discharging sore. In such cases Zam-Buk will be found of unequalled

Mr. J. Nixon, of 901 William avenue, Winnipeg, a blacksmith at the C. P. R. shops, had his foot badly burned by some molten metal falling upon it. He "The burn was a very bad one, and after the first few days it left an open sore, which showed marked signs blood-poisoning. It discharged freely and caused me terrible agony. For three weeks I suffered acutely and could get no ease. At last I obtained a preparation from the doctor, which seemed to stop the discharging and made me quite hopeful, but finally the

wound became as bad as ever. "I was then advised to use Zam-Buk, and from the first application the balm gave me relief. The inflamma-tion was thoroughly checked, and the poisonous matter cleared away in a very short time after beginning with Zam-Buk. Healing then began, and in less than two weeks the wound was thoroughly cured."

One of the main lessons of this case lies right here-try Zam-Buk first for any injury, sore, skin disease or wound. Don't spend money and waste time in experiments. Zam-Buk is equally good for piles, blood-poisoning, festering wounds, chaps, cold sores, children's eruptions, scalp spres, varicose ulcers, chilblains, etc. All druggists and stores at 50 cents box, or pofree from Zam-Buk Co., Toronto, price. -How a Cure Was Found.

Mr. Joseph Stephens, Rosemount, Ont., is one of the great host who continually sound the praises of Dr. Marquis of Lorne, A. O. F. Williams' Pink Pills, and he has much reason to do so, as they brought him from suffering to health after he had spent much money and Wo years of time experimenting with other treatments. Mr. Stephens tells nis experience as follows: month of January, 1908, while working in a logging camp at Creston, B. C., I got my back badly injured. I suffered a great deal of pain, and was almost-helpless. I tried plasters, thinking they would help me, but they were of no use. I took several medicines, equally without benetime, but without getting any permanent relief, and it began to look as though I was going to be respectively. See the second treasurer of a "Story Hour" for a look of the second treasurer. as though I was going to be permanently crippled. Then I was advised o undergo treatment with a specialining me he said I was in a very bad shape and that the trouble was likework was plentiful, and wages good, unable to bend. "The best thing to do is to forget it,"
growled 'Gene.

"The men won't forget it till ye make them forget it."
"How?" questioned 'Gene.
"By knocking out every man son of them that dares look crosswise at ye. And where a week ago there wasn't more than one now there's a dozen. more than one, now there's a dozen. It'll

"Ye expect me to wade through the whole bunch?" demanded 'Gene hoarsely."

"Exactly."

"What ye think I am?"

Nat turned his head to face the man. "You're the husband of Julie Moulton," e answered steadily

he answered steadily.

"What if I am? That don't make me a fightin' wildcat."

"It ought to make ye a man. It's got to make ye a man. An' accordin' to your tell ye'd rather fight than eat in your sailor days. I'll give ye all the time off ye need, an' your wages'll run on just the same. Ye can take till spring if need be, but ye'll have to begin today. Ye'd made a good start, but it looks now like ye'd have to begin all over again."

"A man ain't to blame for what he does when he's drunk," whined 'Gene.

"He's twice over to blame," answered Nat. "If he can't drink and be a man, then he's got to make up for it when he's sober."

It was the thought of Bella dead that gave 'Gene courage for a second. She had always been in the background, a terrible weapon for vengeance if Nat should ever find her out. Now that her lips were sealed forever, he felt freer. He squared his shoulders.

"I've had enough of all this," he growled. "Ye haven't any right over me, an' I ain't goneter stand it no longer."

"Do ye mean that?" Nat asked quickly. "Every word of it," answered 'Gene. He freed his hands and turned, ready to spring at his brother's throat. The latter drew his horse to a standstill. "Then," he said, "we might as well get out right here."

He threw off the buffalo robe and sprang to the ground. 'Gene followed, keeping himself, however, on the other ide of the pung.

side of the pung.

"You go your way an' I'll go mine," he said. "I ain't troublin' you none, and ye ain't any call to trouble me."

Nat led the horse to the side of the road. It was dark and cold. He tossed the robe over the horse's back and then pulled off his heavy overcoat. 'Gene in the meanwhile had started back in the direction of St. Croix. Nat called sharply: "'Gene!"

The latter, already hidden your had.

ly: "'Gene!"

The latter, already hidden, now broke into a run. He hadn't gone a hundred yards before he heard Nat's footsteps behind him. Throwing off his coat, he increased his speed, but though fairly fleet of foot he couldn't shake off the steady tread of his pursuer. He finally darted to the left and hid himself in the shadow of a large pine. Nat paused almost opposite him and listened. Then, after listening a moment, he spoke:

tening a moment, he spoke:

"Ye're only wastin' time, 'Gene. If ye mean what ye sald, ye'd better come out afore you're half frozen, 'cause I'm goin' to stay here till daylight."

'Gene held his breath and listened. He heard his brother take a turn of a dozen steps up the road and then back again, slapping his arms across his chest to keep warm. He took a cautious step backward, but his foot came down upon a twig that snapped in the frosty air like twig that snapped in the frosty air like a pistol shot.

"I hear ye." Nat called coolly. "When you're ready, come out and make good, or climb into the pung and we'll go to camp."

This is how to make Irish Stew:-

Put in a stewpan twelve peeled potatoes, sliced the thickness of a penny, four large onions sliced—a layer of each—with salt and pepper to taste. By successive layers, half fill your pan. Then take four chops of neck of mutton, the scrag end. Lay these on the potatoes and onions and fill up with additional layers of potatoes, onions, &c., as before. GRAVEL AND SMALL STONES PASSED THROUGH THE URINE.

One of the most painful forms of kidney disease is Gravel or Stone in the Bladder, and is caused by the acid and lime in the blood uniting and forming a gritty substance which lodges in the inner surfaces of the kidneys or bladder, and sets up a painful irritation.

To relieve these terrible pains it is necessary to keep the kidneys healthy for healthy kidneys secret fluids that dissolve the gravel and stones, and they pass out through the urine harmlessly and without pain.

Mrs. Elmire Baldwin, Windsor, Ont. writes:—"I was so weak I could not do my own work. I tried many doctors, and every one of them told me to go to some institution. I have audited the books and accounts of the London Life Insurance Company for the year 1912. All Journal Entries are of a proper nature, all payments are verified by vouchers and all postings have been checked. The Policy Reserve Liability has been duly certified by the Actuary. The Securities have been examined and found in order.

The above statement is a correct abstract of the Company's business for 1912, and is in accordance with the books.

JAMES McMILLAN, C. A., Auditor.

Actuary's Report

The basis of valuation of the liability under the of profits accruing but not yet due, shows a large increase Company's policies as at the 31st December, 1912, was as follows: Ordinary Business-Issued prior to and during the year

1909, Hm. Table of Mortality, 31/3% interest. Issued since 1909, Om (5), Table of Mortality 3% interest.

Industrial Business-Issued prior to and during 1899, Combined Experience Table, 31/2% interest. Issued subsequent to 1899, Farr's

English Table No. 3, 3% interest. The total Reserves so computed, less the Reserve on policies re-insured in other Companies, amounted to

A still more liberal scale of profits having been adopted for 1913 than those formerly in use, the total amount set aside in the Liabilities to cover the amount over the previous year, and as the amount thus set aside covers the participating policies' share of all profit earnings up to the close of 1912, it is largely in excess of the requirements of the Act in this connection. The special nature of the Reserve-Dividend Policies

of the Company necessitate a considerably higher Reserve than is usually set aside under policies calling for the same premium payments. This additional Reserve now amounts to \$145,000, and is included in the total amount of Reserve Liabilities above certified to.

The surplus shown in the statement is \$201,374.26, after full provision has been made for various liabilities of a contingent nature. Were the statement prepared simply in accordance with the present Government standard and requirements, the policyholders' surplus would be in excess of \$480,000.00.

EDWARD E. REID, B.A., A.I.A., Actuary.

and the late

President John McClary, in moving the adoption of the Report, said:

The Directors' report, and the accompanying Financial Statement for year ending December 31st, 1912, submitted therewith, afford indisputable evidence of the continued prosperity of the Company.

Notwithstanding that the new business of 1911 was the largest in the Company's history, the new business of 1912 surpassed the previous year by over eleven per cent, while the net gain in business in force at the close of the year aggregate over Three Million Dollars, or over fifteen per cent.

The Net Premium and Interest Receipts of the year also showed marked increases, aggregating approximately nineteen and fifteen per cent respectively, over the like receipts of the previous year. The payment of Cash Profits, Surrender Values, Matured Endowments and Claims, to Policyholders or Heirs,

aggregated thirty-three per cent of the net premium income of the year.

Of the net invested assets of the Company, over eighty-six per cent is invested in first mortgages on real estate, appraised by the company's own appraisers in each case, and with ample margin of security to guard against every likely contingency. The remaining, approximately, fourteen per cent, is made up of Bonds and Debentures, Loan Company Stocks, Loans on Policies, Head Office premises, Cash in Bank and sundry small items, all undoubted security, and yielding, as is shown by the large interest receipts, a good return on the investments.

The Liabilities of the Company have, as usual, been provided for in the most ample manner, and the substantial sum of \$21,071.33 has been added to the surplus over all Liabilities, out of the net earnings of the year, to further strengthen the already exceptionally strong financial position of the Company.

I have much pleasure in moving the adoption of the Report.

The Vice-President, Dr. A. O. Jeffery, K.C., in seconding the adoption of the Report, said:

The year 1912 was notable in the Company's history for three events of interest and importance. In the first place the Cash Income exceeded \$1,000,000 by the comfortable margin of \$134,000. In the second place you will note that the highest interest rate used in the valuation of the Company's policy liabilities is 31/2%; that section of the business formerly valued on a 4% basis having been placed on a 31/2% basis as at 31st December last. In the third place the earnings of the Company have been such as to enable the Directors to authorize a scale of profit distributions to policies under existing rates 30%, on the average, in excess of estimates quoted when such business was written. This series of achievements in a single-year will, I am sure, prove most gratifying to all interested in the Company's welfare.

In accordance with our usual practice, additional reserves providing for liabilities of a contingent nature have been well maintained, and in addition to the sums added thereto, the net surplus, as the President has pointed out, has been increased by over \$20,000. It must be borne in mind that the total surplus shown, \$201,374.26, is in excess of all profits due or accrued, and such other special funds as are above referred to. The surplus on the Government standard exceeds \$480,000.00, an increase over the previous year of \$75,000.

The mortality rate experienced by the Company continues very favorable, the percentage of actual to expected claims for the year in the Ordinary Branch being only 43%. The percentage of claims to Premium Income in the Industrial Branch again shows a marked decline.

That the business of the Company is of unusually good quality is evidenced by the fact that three-fourths of the total consists of Endowment Policies. In consequence of the special nature of the business now being written, which necessitates the setting aside in Reserve of large sums that would ordinarily be treated as surplus, the Report presented is most satisfactory, as indicating the ability of the Company to provide these extra Reserves, and at the same time to further improve the surplus funds so substantially. Ample assurance is thus afforded of the splendid financial position of the Company, and the continuance of the prosperity that has characterized its operations in the past.

I have much pleasure in seconding the adoption of the Report,

The Report was adopted unanimously. A hearty vote of thanks was tendered the agents and other employees of the Company for the very efficient manner in which their duties during the year had been discharged. The vote of thanks was briefly acknowledged on behalf of the agents by Geo. McBroom, Inspector, "Ordinary" Branch, J. F. Maine, Supervisor, "Industrial" Branch, and J. W. Humphrey, Chatham.

The following Directors were re-elected for the current year: John McClary, President; Dr. A. O. Jeffery, K. C., Vice-President; W. F. Bullen, Sir George Gibbons, Thos. H. Smallman, T. W. Baker, W. M. Spencer, Judge Bell (Chatham), W. J. Christie (Winnipeg).

VERVILLE, LABORITE, DEMANDS PLEBISCITE ON NAVY QUESTION

Robust Canadianism in Mr. Pardee's Speech on the Subject.

Ottawa, Feb. 11. - The event of the day was an amendment to the resolution of the Prime Minister, providing for the contribution by Canada of three Dreadnoughts to the naval forces of the empire, proposed by Mr. Alphonse Verville, the Liberal member for Maisonneuve, Montreal. Mr. Verville, although a member of the Liberal party, is best known to the public as the British Empire is strained too Indeed, he entered the House in 1906 hear the argument put forward that the representative of organized labor. as a Labor member, carrying the by-election against the Laurier Govern-ment occasioned by the death of the ment occasioned by the death of the late Hon. Raymond Prefontaine. He was re-elected on the Liberal ticket in 1908 and in 1911, but has always been regarded as a spokesman of the Trades and Labor Congress of Canada. His amendment calls for a plebiscite, or possibly a general election, declar-ing that the proposed vote of thirtyfive million dallars should not become effective until submitted to and approved by the electorate.

HAIR CAME OUT

Scalp in Very Bad Condition, Dandruff Could be Seen Plainly. Lost Most of Hair. Cuticura Soap and Cuticura Ointment Cured.

42 Lippincott St., Toronto, Ontario.-'About a year ago I had a very bad attack of typhoid and my scalp was in a very bad condition. The dandruff could be seen plainly and I lost most of my hair. My hair fell out gradually, but after having it shampooed it came out in handfuls. I used Cuticura Soap to shampoo my hair, then rubbed the Cuticura Ointment into the scalp. The dandruff was very soon removed and my hair stopped falling out. Cuticura Soap and Ointment cured me." (Signed) Miss E. Chamberlain, Mar. 31, 1912.

Business Men Refused to Fall for Plea of Fake Banker Or "Beautiful Daughter."

Scores of London businessmen read with interest, and, probably, just tinge of satisfaction, of the arrest in Spain of the crew of swindlers who for A building permit for the er months have been attempting to work the "Spanish prisoner" swindle. The operations of the company were

most extensive, embracing many cities in the United States, England, Canada and a number of foreign countries. Londoners received many of the letters, which told of the imprisonment in Madrid of a banker absconding from Russia with a fortune. He claimed to have hiden the fortune in a portmanteau, and wanted money to secure the portmanteau from the customs authorities He also wanted money to bribe jailers in order to effect his escape.

wife of Mr. Walter Trick, occurred on Tuesday afternoon at the family residence, 509 King street. Mrs. Trick contracted a severe cold a short time ago which developed into bronchial pneupolicy-holders including the com- monia. and resulted in her death. Mrs. Trick was an invalid for many years, and bore her suffering with re-markable Christian patience and fortitude. She had a wide circle of kind and devoted friends, who never lost

an opportunity to contribute to her comfort and happiness. As a member of Dundas Centre Methodist Church, Mrs. Trick was always interested in all its branches, especially missions, for upon one occasion some five years ago the Woman's Missionary Society of the

church made her a life member. Mrs. Trick was born at St. Giles-inhe-Wood, Devonshire, England, and came to this city twenty years ago, and had since resided here contin-Besides a sorrowing husband, she
