THE FOOL AND HIS FOLLY.

The News has turned three or four back somersaults in attempting to explain away its reference to the parliament of Canada as "congress" The effort is entirely futile, neighbor If you will look into an occasional number of the Montreal Star, the London Times or any leading British newspaper you will discover the fact that the term "congress" is used without qualification or modification to designate the two legislative departments of the United States gov-

The fact that Dawson's splendid public school building is completed and ready for occupancy, calls attention again to the remarkable progress which the town and the territory have made during the past two years. The immense business which we enjoy has been honestly earned. We are legitimate merchants and have told and will tell the people about our goods in a legitimate and honest manner. When we say you can save money at our store we mean that exactly. You know that thousands of tons of merchandise have been imported this year as in preceeding years by us. You may not know, but such is the fact, that the Northern Commercial Company at the present writing has sufficient supplies to carry all the population of this district through the closed season in comfort and, we might add in luxury. The importation of this immense stock is in keeping with the policy outlined for getting and keeping your business. We are not here to ruin
