Demonstrations Occur in Greece Against the Bulgar Invasion

Saloniki the Centre of Big Meeting for Venizelos, and Trouble Threatened To-morrow in Athens.

Saloniki, Aug. 26 .- via Paris .- A large popular meeting was held here last night to protest against the occupation of Greek territory by Bulgarians. It was followed by a demonstration for Venizelos and the singing of the national hymn. The crowd then marched to the headquarters of General Sarrail, the Entente commander, and sang the Marseillaise. 'A formal protest against the Bulgarian occupation was drawn up and left with the prefect of police.

Despatches from Athens say the government is much concerned about the Liberal party manifesstation which is being organized for Sunday and threatens to hold counter demonstrations of supporters

Third, and last, lap-and the Allies going strong.-London Opinion.

Zeppelins Violate Dutch Neutrality Deliberately, Huns are Picking Fight Germans Launched Assault the Word from Paris, Aug. 25, says:

This Morning a Zeppelin, on Its Return from England, Flew About Holland's Capital, and Other Zepps. Were Elsewhere in Country.

WAR IS WANTED SO ENEMY CAN SEIZE PORTS

London, Aug. 26 .- The Times prints the following despatch from its Amsterdam correspondent:

The German violation of Dutch territory by Zeppelins continues without regard for Holland's position and interests as a neutral. No attention has been paid to the repeated protests against the presence of Zeppelins over the Netherlands, whether going or returning from their expeditions. This morning, with indifference to Dutch rights or susceptibilities, a Zeppelin, on its return from England, manoeuvred above the Netherlands capital, while other Zeppelins were reported elsewhere over Holland. Not Accidental

It would be a mistake to suppose that these incidents are purely accidental. The German press has lately made threats against Holland, which are particularly significant when taken in conjunction with the scare raised by Germany earlier in the year, when she expressed the desire to save Holland from the allies. Wants War with Holland

"The destruction of Dutch ships, such as the Tubantia and the

Palembang, and many smaller vessels, without compensation or apology, speaks for itself. Germany desires to pick a quarrel with the Netherlands with a view to seizing the Dutch port and obtaining possession of the Scheldt and the mouths of the Rhine and Zuider Zee, so as to save something from the impending wreck of the German military plans. Meanwhile, Germany continues at the same time to violate Dutch territory and quarter her children on Dutch charity.

The announcement follows:

"The British armed boarding steamer Duke of Albany was torpedoed and sunk in the North Sea on Thursday by an enemy submarine.

The commander and twenty two men were lost. Eleven officers and seventry six men were saved.

The announcement follows:

"The British armed boarding steamer Duke of Albany.

Westerday evening when the police held four young tourists and their chauffeur, who came from Lewiston, Me., to Canada. One of the girls, belong the four o'clock, Chief of \$1,500 from her father in Lewiston, Me., to Canada. One of the girls, belong the four o'clock, Chief of Police Marsan, of Levis, Que., received a telephone call from Lewiston, Me., to Canada. One of the girls, belong the four o'clock, Chief of Police of Albany.

The announcement follows:

"The announcement follows:

"The British armed boarding steamer Duke of Albany was torpedoed on the four o'clock former and a red rose of the latter ad- hanged, and the same paper then herents. As a second illustration no one needs to be reminded of the many come to a pretty pass when a man FOR We because of lack of modern methods of treatment of the wounded, and sanitary precautions.

The countries concerned, however were in no sense wiped out as regarded population and the depletion was, in fact, very much les than a casual observer would imagine. The same thing is proving true in connection with the present Titanic struggle. The truth is that Cupid and Mars go very much hand in hand at such periods. Take the experience of England as an illustration. The latest report of the Registrar General shows a marked increase in the marriage rate. It had been going down steadily for years, and the first part of 1914, gave indications of the maintenance of this low average. Along came the war, however, and the rate took a sharp advance, enough in fact to make the tally at the close of twelve months, the highest since 1907. The official figures are not available for 1915. but they will demonstrate even more marked results. The advance is not by any means solely attributable to war weddings, but also to a large extent to the fact that higher all-round earnings for those working at home, has enabled more men to undertake the establishment of homes. Another feature is the number of crippled soldiers who have found wives willing and proud to take them. In a large number of cases even those who have returned from the front in an almost

helpless state have found young women ready to assume the task of veritable helpmates. 'Pity is akin to love" favorable to longevity. Senator and the maimed, the halt, the blind, Frost of Smith's Falls, has just passand even the disfigured in their coun- ed away in his 93rd year. BRANTFORD NURSE

Miss M. E. Duncan Proving Splendid Superintendent in Northern City.

An interesting sketch of the isolation hospital and its staff is given by the Times-Journal, Fort Wilaptain. Some time ago his con- Brantfordites. The superintendent of regation made him a present of a this up-to-date institution is Miss M old wrist watch, also leave of abence. This is the third son of the can, Cainsville, and sister of Mrs. A. family who is doing his bit; the two J. McCann, and is connected on her late mother's side to the Westbrooks of Brant county. Miss Duncan re ceived her training at the then called "John H. Stratford Hospital," in

> After graduating here, she went to Montreal and took a course of training with the Victoria Order of with her Victoria medal and diploma at Ottawa by Lord Minto, then Gov

few years later she was sent to the factories, and lots of times extreme Eastern part of Canada, and never hear them blow. The time they blow in the morning, is the time five years at Sydney, Cape Breton. It that anyone should be up and around. was at this place Miss Duncan had nursing among the miners and their families out at Glace Bay, descending down into the black depths o the mines and giving "first aid" to the injured in one of the severe and regretable miners' strikes. The Victorian nurse was often called upon to attend the families of the wealthy millionaire mine owners, and accom pany her patients on the firm's Norwegian boats from Sydney to Boston tice to the Grand Trunk authorities, en route. Some seven years ago also, and not let them ride roughmany old friends, returned to Fort William and accepted the position

she now occupies, and the following account shows how her work is ap preciated: tion of the up-to-date nature of the building and its equipment, the Times-Journal article concludes:

The Nurses. Physical strength and good tempe e essentials in nursing, and, in the ase of isolation nurses, courage under depressing or irritating condi-tions may be regarded as special virtues. These qualities are possessed in a high degree by Miss Duncan, the matron of the hospital, and are re-flected in her assistant, Mrs. Ashby. Miss Duncan won laurels in the Vicwards when it was merged in the the regular minister.

McKellar hospital. She has the Whether there are p only women and children but men of all nationalities are among her patients, and she is required, by the peculiar circumstances of an isolation hospital, to perform more laborious duties than are demanded in ordinary nursing, enough to tax the energies of three or four nurses. As a proof of her cheerfulness and her divine gift of mothering, children who, their mothers feared, would grieve themselves to death at being separated from them, would become separated from them, would become so attached to the superintendent that the mothers found it hard to get that the mothers found it hard to get them from the arms of the nurse, in the Saugenay and Lake St. John went to take them have treating are also sharing to form the superintendent in the Saugenay and Lake St. John Good wages to good men. SPORTING Sport Made of Army Order Abolishing Beard

The Total Weight of Beards Would Be 120 Tons, Says One Wit, Who Thinks, Since Material Is Heavy, Staff Considered Infantry Should Be Light.

Paris, Aug. 26.—The beard of the French soldier has been doomed in an army order which directs that the men at the front must shave all except moustaches. The order has been the signal for the outburst of a humorous and ironic discussion in the trench newspapers, to which some of the mo st famous French artists, philosophers and literary men have contributed.

Jean Richepin, the dramatist, writing in The Fuse, says: ,'The beard has gone, but what is the difference to us? In place of it, it is courage that grows. Let the beard fall and French cour-

Edmond Rostand celebrates the beard in verse as a symbol of "All the beauty of all of France, a soul, a jewel, a torch, a prod." Maurice Barres gravely regrets the beard, which he says was "a heritage of long ago in which the dead lived again and which bound us mysteriously to the soil."

General Pierre Cherfils, reasoning technically, excuses the measure because "the beard of a troop er weighs on an average sixty gramms. With two million men at the front, this brings the aggregate weight to 120 tons. It was na tural that the staff should think of relieving the army of this consider able and useless weight. It was reasonable in creating heavy mater ial to make in compensation light

On the east the Bulgars are digging them lves in between the Struma and the railway. Events in the Balkans are approaching a decisive stage daily.

THAT'S WHAT THE CHALMERS ALWAYS IS!

These cars have seen over a million miles of road service, with an almost perfect service record.

You already know the Chalmers plans for 1917; how seven body styles have been built around the 3400 r.p.m. principle.

The five-passenger car remains the same. A better car could not be made at the price.

Then there is the seven-passenger for Chalmers in every county from Halifax to Vancouver.

These are the facts. After we analyzed them we decided to hang out the Chalmers monogram in Brantford.

Our Service Department will be maintained for the benefit of our customers, and all Chalmers owners will receive courteous and prompt attention at all times, regardless of whether the car has been purchased through us or else-

.. The 3400 r.p.m. Chalmers combines excellent value and reasonable price. More than 20,000 of these cars have been sold in Canada and the United States since last November.

We will have a line of 3400 r.p.m. Chalmers. Drop into our garage-we will be glad to show you these cars and demonstrate them.

Germany Gets None of Belgian Relief

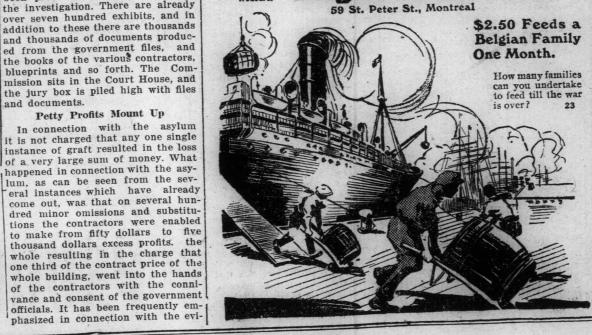

Conditions of Agreement with Neutral Relief Commission respected by Germany

When the Belgian Relief Commission was organized, Britain insisted that Germany guarantee not to touch a particle of the food imported by the Commission for the Belgians. This guarantee, given to the American business men who are the executive heads of the Commission, has been respected—probably because its violation would be reported at once and would rouse the whole neutral world.

So each contributor to the Belgian Relief Fund may feel perfectly sure that every pound of food which his money has helped to purchase, has gone directly to the delgians. No Dollars in the world are needed more—will be handled better—or will do more vital good, than the dollars which it is your privilege to give to the Belgian Relief Fund.

Whatever you feel you can give, send your subscription weekly, monthly, or in one lump sum, to Luca or Provincial Committees, or

Wet Spring and a Hot Dry Summer Affected Adversely the Growth of Many Products-Fruits are Not Particularly Plentiful This Year

sued by the Ontario Department of

and in service as a big league pilot. for grain and straw. While the yield The tall tactician reached this mark is much below that of the bumper crop of 1915, it is above the average for the thirty-four period, and practically equal to that of the average ger a full two years before George of the last ten years. The fields give ger a full two years before George Stallings.

Mack first directed the play of a major league team on September 3, 1894. He succeeded "Al" Buckenberger as boss of the Pirates, who showed their appreciation of the choice of directors by manhandling the Senators, 22 to 1 in the first game under Mack's direction. "Jim" McGuire, a manager in Cleveland of the last ten years. The fields give great promise in early spring, but the cold, wet weather following, succeeded by the unusually hot, dry days of July, influenced the crop unfavorably. There is a wide variance in the yields, which runs from 14 to 40 bushels per acre, and the quality also varies greatly; for while the senators, 22 to 1 in the first game under Mack's direction. "Jim" McGuire, a manager in Cleveland of the last ten years. The fields give great promise in early spring, but the cold, wet weather following, succeeded by the unusually hot, dry days of July, influenced the crop unfavorably, at the period of blossoming, and a comparatively light yield is expected. Harvesting will extend from the beginning of September to the middle of October.

Hay: Not for many years have such satisfactory reports been received regarding the various grass and clover crops. Bumper yields were the rule, and the weather at harvesting was almost perfect for McGuire, a manager in Cleveland reported as the result of the intense harvesting was almost perfect for and Boston, and a private in Detroit, drouth. The crop on drained land curing, thus ensuring first-class did the catching for Washington in which Mack first donned the manag-

> decreasing in acreage. As in the case of all spring grains the season was plants, baking the soil and making Spring Wheat: This crop is still too wet for satisfactory sowing, and nuch of the crop had to be "mudded that the majority of the corn fields erage, but there will be considerable usual at this time of the season, and in." The yield will be about an avsmall, light grain, and the straw will it will require most favorable weath-be rather short, owing to the hot er from now on to bring the crop be rather short, owing to the hot July weather. Harvesting ranges along anything like average form. Ensilage corn is doing relatively betfrom Aug. 7th to 19th.

McGraw, at his own request, had been released by Baltimore and after "Joe" Kelly, present Yankee scout, his successor, had hurdled to Cincinnati. Under Griffith the White Sox won their first game, 8 to 2, and under "Robby" the Orioles lost theirs, I to 2, the respective opponents of Chicago and Baltimore being Cleveland and St. Louis.

In 1903 "Jim" Callahan forsook the ranks of the privates and headed the White Sox, who started off by annihilating the Prowns 14 to 1. Light in Workship Control of the present outlook for potatogs.

Barley: The cold and rainy spring weather was unfavorable to seeding, and the crop got a poor start. The prolonged drouth of July was also trying to the fields, forcing field crops, tobacco suffered both in area and quality from the very wet and otherwise unfavorable weather prevailing at the time of planting. The later exceedingly warm and dry period also told against the vigor of the plants, which are now considered to prevent a full acreage.

Potatoes: The present outlook for provided the White Sox, who started off by annihilating the Prowns 14 to 1.

the ranks of the privates and headed the White Sox, who started off by annihilating the Browns, 14 to 1.

"Cal" resigned in June of the following year and Fielder Jones succeeded him as the responsible party with the Comiskeyites, who made his bow a success by slaying the White Elephants, 14 to 2.

Hugh Jennings became boss of the Tigers in 1907, and they started off by beating Cleveland, 2 to 0. In 1913 Miller Huggins took charge of the Reds and, on July 16, "Bill" Carrigan took charge of the Red Sox won from Chicago, 5 to 3, in their first game under Huggins; the Reds lost to Pittsburg, 8 to 2, in their first game under Tinker, and the Red Sox won from Detroit, 7 to 4, in their first game under Carri-

The Popular Laurentians

Lac Marois, Shawbridge. (2) Mixed Bathing (3) Quiet Fishing Pool Near Val Morin.

OVERS of beautiful mountain and valley scenery towering rocks, thick forests, pleasant glades, flower-clad vales and plains, rushing and placid s, roaring waterfalls and babbling streams could not do better than to select the Laurentian Mountains reached by the Canadian Pacific, as their holiday resort. So prettily situated are all the spots where the holiday-makers make their headquarters that it is embarassing to choose the one that might be best suited to the taste of the individual. But all are enchanting, from Shawbridge—the first of them—to Mount Laurier—the last. Within easy reach of any of the resorts there is excellent trout and bass fishing to be had. The rivers and lakes are clear and sand-bottomed generally, and are well suited to the requirements of the swimmer and bather. Row boating, motor boating, and canoeing are favorite pastimes, and on a fine calm evening it is exhibitarating to sit by the waters and listen to the laughter and merry chat of the parties who are on the waters. rentians is comparatively small,

Lesson IX .- Third Quarter, For Aug. 27, 1916.

SUNDAY

SCHOOL.

THE INTERNATIONAL SERIES.

Text of the Lesson, Acts xx, 16-27. Memory Verse, 24-Golden Text, Acts xx, 32-Commentary Prepared by Rev. D. M. Stearns.

After the uproar of Ephesus, Paul bade an affectionate farewell to the disciples there and crossed over to Macedonia, whither Timothy and Erastus had preceded him (xix, 22; xx, 1). After comforting the disciples, probably in all places where he had preached the word, he and his party recrossed to Troas, where he first heard the call to Macedonia. He had tarried three months in Greece, and now they abode seven days at Troas (xx, 2-6; xvi, 8, 9). There they had an all night preaching service, at which one young man who sat in a window slept so soundly that he fell out from the third story and was killed, but the Lord restored him through Paul, and all were comforted. Paul must have been full to overflowing with messages which he felt would be his last to them (xx, 7-12, 25). While all the party went by ship to Assos, tune in "entertaining" him. Mrs. Paul walked across country to meet them there (verse 13). While fellowship with the brethren is often refreshing, there is nothing so grand as to be alone with God, and this lonely walk would give Paul opportunity for the mmunion he desired.

Paul desired, if possible, to be at Jerusalem by the day of Pentecost, so instead of visiting Ephesus again he sent for the elders of the church there to meet him at Miletus, and the principal part of our lesson today is the record of his farewell address to them (verses 14-17). He reminded them that for three years he had faithfully testified to Jews and Greeks repentance toward God and and faith toward our Lord Jesus Christ, testifying the gos-pel of the grace of God and preaching the kingdom of God (verses 21, 24, 25). These are the truths which all need to know, and there is nothing so grand to tell as the grace of God which bringeth salvation to all and justifies freely all who truly receive him (Rom, iii 24; Eph. ii, 8, 9; Tit. ii, 11; iii, 4-7).

Since all are guilty before God and the righteousness which He requires no mortal man has nor can obtain by his own efforts it is surely good news that God has provided this perfect righteousness in Christ Jesus and offers it freely to every penitent sinner (Rom. iii, 19; II Cor. v, 21; I Cor. i, 30; Rom. x, 4). Humility becomes us always, for we are nothing and know nothing and can do nothing apart from Him, and there is no room for boasting except in the Lord. If we realized how great is the wrath from which we have been delivered and which still rests upon and awaits those who are not saved there might be more prevailing tears on our part for lost ones about us (verse 19; I Thess. i, 10; John iii, 36). Then there is the building up or edifying of the saints so necessary for the glorifying of God on the part of His saved ones (verse 32), and nothing can orting) Danny Johnston, of the do this but the word of God, which is 180th Battalion, Camp Borden, Ont., the only food for the soul (John xvii, who won the championship of the 17; Jer. xv, 16). Paul could say what (verses 20, 27). Although it is written that "all Scripture is given by inspira-tion of God and is profitable," that there is a special blessing upon all who read or hear the book of Revelation, that our Lord said that it was foolish not to give heed to all that the proph ets had said (II Tim. iii, 16; Rev. i, 3; Luke, xxiv, 25), yet there are those who turn away from all prophecy and specially from the book of Revelation and do well to consider what is written of robbers, hirelings (verses 29, 30; Ezek,

xxxiv; John x). Paul was always speaking of the kingdom of God, as was also our Lord Jesus (verse 25; xxviii, 23, 31; Matt. iv, 23; Acts i, 3), but of all Bible topics perhaps none is more misunderstood than that of the kingdom, which is yet to be set up on this earth at the second coming of our Lord and which cannot be till He shall come, as He Himself taught (Luke xix, 11-13). Will all who read these notes please bear with me in my oft repeated assertion that this is not the age of world conversion nor of subduing all things to Christ? But, as James said at the council at Jerusalem, it is the time of taking out from the gentiles a people for His name, that so He may come again with His church, His bride, as the Messiah of Israel for their conversion as a nation, and then through them the winning of all nations (xv, 13-18).

The only business of believers is to give the good news to others as quickly as possible that the church may be completed—cause all Jews and gentiles to hear, as Paul did in Asia (xix, 10), then instruct the saved ones as to the purpose of God, that they may win others, for every sinner saved brings The American football team which joy in heaven (Luke xv, 7, 10) and helps visiting Sweden was defeated in to complete the church. A readiness Thursday's match by a picked team to earn our own living while doing this, of the Stockholm players. The score was 3 to 0. The Swedes played a very fast game and baffled the Amsuffer or be imprisoned or be killed, as God might will, if only he might finish his course with joy and the ministry he had received of the Lord Jesus (verses 22-24; xxi, 13). He desired only the approval of God.

though anything like standard yields might not be looked for.

Fruit: All clases of orchard trees nade a fine showing of bloom, but frequent and heavy rains then wash ed off much of the pollen and the setting of fruit was more or less a disappointment. Apples will be com-paratively light in yield, more especially the winter varieties. There has been much "dropping" during the summer, and considerable scab has been complained of. Pears have done relatively better, but will be only about half a crop. Statements regarding the yield of peaches range from poor to good; the crop will probably be about a medium. Cherries were almost a failure. The sou varieties did much better than the sweeter sorts. Grapes will be a good crop where properly looked after. Strawberries started out with prom ise of a great yield, but fell off with

the drouth. Raspberries were more

or less a failure, much of the fruit

drying on the canes owing to the in-

HOW TO KEEP WELL

BY JOHN W. S. McCULLOUGH, M.D., D.P.H., CHIEF OFFICER OF THE PROVINCIAL BOARD OF HEALTH.

THE HUMAN EYE is a wonderful instrument, but under the trying conditions of modern life it often fails to meet the demands put upon it, and serious trouble of all sorts results because we do not help out by getting glasses to supply Nature's

Particularly at the time when children begin their school life, the new and difficult uses made of the eye often bring on eye, strain and a host of

The signs of beginning eye strain may vary in different cases. At first only a slight fatigue may be noticed after reading or sewing.

The eyes may water easily or the eyeball may become bloodshot or the eyelids red. Some persons whose eyes NEED GLASSES are overtaxed show it by nervousness and others by drowsiness after the eyes have been used. Headaches of all sorts and even attacks of vertigo may be merely the symptoms of eye

The eye has a remarkable power, called the power of accommoda tion. When you look from a distant object to one nearby you notice that it takes a few seconds to focus the eye so that you can see it clearly. Little muscles are contracting and changing the shape of the eye to adjust it to the different distances agreement the stage of a camera. Little muscles are contracting and changing the snape of the eye to addact it to the different distances somewhat as you change the focus of a camera according to the nearness of the object to be photographed. If the eye is abnormal in any respect these muscles have to work too hard, and, even though we may by this unconscious effort be able to see clearly, yet the In such case we are seeing by a constant effort, while if glasses were provided to correct the defect of vision thy would do this work

A careful and thorough examination of the eyes should be made by a competent person. Many a miserable hour would be saved if this were done

Because of defective eyesight a child may be dull, fretful, and back ward in school, without anyone guessing the reason. An examination of the eyes reveals serious defects; these are corrected by proper glasses, and the effect is most marked. The child appears happier, makes good progress in his studies, and takes his rightful place in the school community.

Glasses or no glasses, there are some things that cannot be done with the eyes except at grave peril. Too little light strains the eyes, and so does too much. A direct glare right in the face is quite as bad as a room that is too dim to see properly. For reading, sewing, or other work which requires close and accurate vision the light should be clear and steady and should come from above and behind.

Earache is a common and distressing trouble in young children. It often occurs in connection with winter colds and in the course of measles and scarlet fever; it is due to an infection of the middle ear, the poisonous germs being carried from the throat up the little passage called the Eustachian tube to the middle portion of the ear just inside the ear-drum. In other cases it occurs in children who have adenoids and large tonsils. In cases of earache which are severe and which may easily be neglected because the mother may not know the danger, the ear-drum may burst from the pressure of muco-pus inside it and the child is left with a running ear. This is often difficult to cure. In other cases the infection may spread to the cells or honeycomb of bone in the mastoid bone behind the ear and necessitate an operation. These bad results may frequently be prevented by a timely puncture of the drum, which at once gives relief and soon clears up the case. In an earache of which at once gives relief and soon clears up the case. In an earache of which at once gives relief and soon clears up the case. In an earlied of any severity or where the pain lasts over a day or so, always call in a competent physician or an ear specialist, and give your child the best chance possible. In mild cases relief may be given by putting a few drops of warm olive oil in the ear and a hot water bottle outside.

2.—Responsibility for Disinfection. J.D., Smith's Falls. Q.-Who pays the expenses of disinfection after a case of contagious

A .- This question is answered by Sections 29 and 62 of the Public

tense heat and drouth of July, but 21.2 per acre in 1915. 118,607

currants did better. Pastures and Live stock: Pastures were of the best until the drouth be- 585 bush. or 26.0 per acre as against gan to tell about the latter part of 522,318 acres 19,893,129 bush, and July. Later on most of the fields, especially in Western Ontario, were 096,754 bush or 31.2 per acre. Av.

browned by the continued drouth, and in some quarters cattle on the grass had to be helped out by hav or other extra feed. Notwithstanding 2.871.755 acres 120,217, 952 bush. varm temperature prevailing during the summer, live stock generally thin, but hearty. It is thought that there will be plenty of fodder for grain, straw, roots and corn ensilage, farmers counting upon splendid crop of hay to carry them through. Much however, will depend upon the weather of the next month or two. Dairy produce has been generous in supply, and the demand for cheese, butter, cream and other lines was never stronger. There has been some shrinkage in production since the drouth, but the high prices now

offering are tempting dairymen to keep up the milk supply as far as

The following statistics of the principal field crops of Ontario for 1916 which no estimates as to yield have shows the acreage as compiled from been made at this date are as following the property of the complete the complete

able yields according to conditions 42,793 and 50,795; stagar deces 22, on August 10th, 1916.

Fall Wheat: 704,867 acres will produce 15,684,923 bush. or 22.22 per acre as against 811,185 acres 24,737,011 bush, and 30.5 in 1915.
685,692 acres yielded 14,333, 548 bush. and 20.9 in 1914. The annual bush. and 20.9 in 1914. The annual cleared land devoted to pasture; 331,736 in summer fallow; 280,653 in parely 28,17 in small fruits:

GORIZIA WAS WINTER RESORT BEFORE WAR

Favorite Gathering Place for Austrians, as Its Climate Was Beautiful.

By Special Wire to the Courier.

London, Englang, August 26 -The Italian capture of Gorizia is an event of extreme importance, as it places in the hands of our Allies a great fortress and one of the two routes by which a large Italian army can debouch into Austria, the other being the railway by Malborgetto, which is still controlled by the en-

The works at Gorizia were so designed as to command all the passages of the Lower Isonzo and to direct a deadly flanking fire on any army which attempted to reach Trieste by the Carso. They were of immense strength and of the most modern construction-expressly de signed to meet the attack of heavy artillery. Numerous 12 inch guns and large Skoda howitzers were mounted. The fortified position extended along both banks of the river for a distance of about ten miles, s that at any moment the Austrians could debouch on the western on Italian bank and could thus always threaten the Italians with a danger-

Trieste, the great Austrian port, twenty miles southeast of Gorizic from which two railways lead to it A third line runs, generally north east, to Klagenfurt and Vienna, 200 miles distant, across very difficult country. The possession of Gorizia gives hope of further great develop-

Three violent but vain assaults were delivered on Gorizia by the Italians earlier in the war, which they entered on May 24th, 1915. The first at the beginning of June, 1915 failed largely owing to bad weather The second attack in July could not be pressed owing to the Italian weakness at that date in heavy artillery, but it was made with great gallantry and splendid energy. A third attack in November came | don agents that an order-in-council liner that drives the wealthy within an ace of success. OLD WORLD NOTES

The Scotch herring harvest is cellent, both in respect to catch and quantity. Submarines have no terror to the North Sea fishermen writes, "is only that which we have been able to create in haste, under a fearful bombardment of both British and Stonehaven. Women have been and Procech Theorem to be seen now, he great fleets leaving each night from Aberdeen, Fraserburgh, Petherhead, and Stonehaven. Women have been to act and French. The men crouch im- known to accompany the men to act movable in these shell holes with no cover from sun or rain, and not the slightest protection and not the slightest protection. Scotch herrings are arriving at Bi dropping like a torrent from straight lingsgate than the public are suming," says a well known fish merchant. "They are absolutely the cheapest food there is, for two weigh just a pound, and the public ought to get as many as they want at a penny each. Herrings are in the best condition now, and it would be a good thing, in these times of economy, if the public took to them more free-

The rage for souvenirs of air raid is developing into a perfect craze in Scotland, in fact some men and wo men have been known to take great risks in order to obtain souvenirs of the Germans' many attempts t murder them. A few months ago town on the east coast was raided and immediately a number of pec matic 207.
