GLOBE CLOTHING HOUSE

WE'LL TREAT
YOU RIGHTLY!
... CLOTHING

Should stand on its merit, and a First-Class House always has a large enough assortment for a man to be suited without having sometimes forced on him which he forever dislikes, come our way, if we cannot possibly suit you, we will treat you kindly, just the same. One thing is certain, if we can't fix a man or boy with a Suit, Overcoat, Trousers, Shirt, Tie, Underwear or anything else in our line, nobody in Brockville or around Brockville can, and furthermore, if you do not find that OUR PRICES ARE RIGHT, don't spend a cent with us, fair proposition hey!

GLOBE CLOTHING HOUSE

Clothiers & Gents' Furnishers

Corner King and Buell Streets,

BROCKVILLE

A LITTLE OF EVERYTHING.

TOPICS OF INTEREST GATHERED FROM FAR AND NEAR FOR REPORTER READERS.

In Montreal over one thousand stores keep open on Sundays and the proprietors transact business the same as on every day. The above smacks considerably of the style of doing business in the great American union.

An English sailor was watching a Chinaman who was placing a dish of rice by a grave. "If you are hunting for money," "When do you expect your friend to come out and eat that?" the sailor asked. "Same time as your friend come out to smeele flowers you fellow put," retorted he.

A burglar who had entered an editor's house at night was disturbed by the awakening of the occupant of the room he was in. Drawing his knife he said: "If you stir you are dead man. I am hunting for money." "Let me get up and strike a light," said the editor, and I'll hunt with you."

An exchange remarks "After praying for forty years for a baby, a couple placed a small want advertisement in a newspaper, and within twenty-four hours a bouncing boy was left on their doorstep." Prayer is all right if you are not in a hurry, but for quick response use printers ink.

The Smith's Falls News says that illegal fish at all points along the Rideau is now, and has been for the past two weeks been carried on in a most open manner. Between Smith's Falls and Merrickville, nets, spears, and every known illegal device have been used to catch fish. Bass and pickerel have been caught in hundreds. There is absolutely no protection against this illegal fishing and the same state of affairs is noted up the Rideau lakes, where salmon has been netted by the wagon load.

A unique life insurance problem was presented to the manager of a British company recently. He received a letter from the holder of a policy for \$20,000, saying that an immediate operation for appendicitis was necessary, involving with hospital expenses, an outlay of \$800, which the writer had no present means of paying. The letter continued: "I am sensible that I owe it to you, who have so large a pecuniary interest in my life, to give you the option to pay the cost of this operation to save my life, that I may continue to pay you the yearly premiums on my policy (I believe that I am otherwise strong and healthy), or in the alternative to pay the \$4,000 to my beneficiaries within two weeks." The manager is thinking hard.

At the recent session of the Supreme Court of the Independent Order of Forersters held at Los Angeles, Cal., on May 1st, Dr. Oron Hyatekaha was re-elected Supreme Chief Ranger by acclamation. Judge Weddenbury, New-Brunswick, was re-elected Past Supreme Chief Ranger by acclamation. It was decided that the sitting of the Supreme Court shall be restricted to eight days, when the Court will adjourn to San Francisco and hold one day's session there. The election of Supreme Chief resulted in the election of J. D. Clarke, of Ohio, his opponent being G. McEllfresh, California. The re-election of the old Executive was unanimous. Supreme Auditors Greer and Fitzgerald were re-elected. The Medical Board were elected as follows: Buckley, California; Cameron, Ontario.

A SPRING SONG.—The sun is shining on the hills, the bees on the wing, I hear the song of rippling rills, the birds begin to sing. The lambs are skipping o'er the meads, the crocuses appear, the congressmen send out their eels, to show that spring is here. The crow is nesting in the wood, the winter season's past, the hens are trying to be good, and huddle the eggs out fast. The farmer buys a riding plough, and sows the crop of oats, the calf bawls for the mother cow, the candidate hunts votes. Alas, I fear I sprake too quick, the weather changed just then; old winter turned another trick, and now it's cold again. The weather makes the crocus, the pussy willows mew, it makes spring to exodus, and freezes me clear through. The rippling rills have ceased to trip, the birds can't sing a note, the most of them have got the grip and trouble in the throat. O winter, if you only knew as in springs' lap you sit, how we would like to strangle you, you would get up and git! But, hold! another

change has come. I hear the bluebirds sing, again the bees begin to hum their welcome unto spring. The sun shines warm and bright again, the rills resume their rip, and down along the mossy glen the cows begin to slip. Now listen to the robin trill, and hear the wood nymph pipe, I think it won't be long before young onions will be ripe. —Wheatgild Telephone.

DEATH OF MISS ALICE BOURNES.

After a lingering illness extending over several months death came as a happy release to Miss Alice Bournes at the family residence, near Addison, on Tuesday, 6th inst., at the age of 53 years, 2 months and 18 days. She was born on the old homestead of the Bournes family and has always resided there. She had five brothers and one sister living: Callwell and James at Qu Appelle, Man.; John at Addison; Dr. Thos. at Ottawa; Dr. Wm. at Frankville, and Mrs. York at Ottawa. The funeral will be held to-morrow (Thursday), starting from the house at 9.30 to the Methodist church, Addison, where service will be conducted by the Rev. Mr. Smith, (Anglican). Lyn.

VILLAGE COUNCIL.

The municipal council of the village of Athens met on Monday evening, 5th inst., in regular monthly session. All the members present. The minutes of special meeting read, approved and signed.

The clerk presented his official return of the votes cast in the election held on April 28th, re-issuing debentures to raise \$6,000 to build a town hall, and the council then proceeded to finally pass the said by-law, which was read for the third time and passed, signed by the reeve and clerk, numbered 84 and finally completed by affixing the corporate seal thereto.

Orders were drawn on the treasurer for \$4.00 each in favor of E. S. Clow and Ed. Taylor, auditors for 1901. Council then adjourned to Monday May 12th, then to meet as a court of revision.

B. LOVERIN, Clerk.

BROCKVILLE CHEESE BOARD.

The Brockville Dairymen's Board of Trade opened on Thursday and began work with a good start. The attendance was exceptionally large for the beginning of the season. The registry was large and good prices were offered. After addresses by president Singleton and Mr. Derbyshire, president of the Eastern Ontario Dairymen's Association, the auditor's Messrs. Bissel and Wilson, made a verbal report which was adopted. The election of officers resulted as follows:

President.—C. F. Rath, Lansdowne. 1st. Vice Pres.—J. B. Wilson, Lansdowne.

2nd Vice-Pres.—J. Edwards, Algonquin.

Sec. Treas.—C. J. Gilroy, Glen Buell. Salesman.—R. G. Murphy, Elgin.

Auditors. M. H. Bissel, Brockville, R. J. Jelly, Jellyby.

The sale of cheese was then taken up. The offering was 1,410 boxes of which 533 were white and 877 colored. The first bid was 10 1/2 but this was refused, 10 1/4 was then offered and as this was not high enough 10 1/2 was offered at which figure nearly all on the board were cleared off.

The buyers were D. Derbyshire, 400; J. Webster, 300; M. H. Bissel, 300; J. F. McGregor, 160; T. J. Howe, 55. The factories from this section who had offerings were: Elbe, Greenbush, Glen Buell, Oak Leaf, Plum Hollow, Roman's, Soperton, Union Valley.

The village clerk appeared at the town hall at 7 o'clock on Monday and made his official declaration as returning officer in the election held on 28th April to raise the sum of \$6,000 for building a new town hall. The vote stood: at township hall, polling subdivision No. 1, for the by-law, 54; against the by-law, 5. At Parish's store, polling subdivision No. 2, for the by-law, 48; against the by-law, 6. Total, 102 for and 11 against.

MAY FORECASTS.

We take the following from the Rev. Irl. R. Hicks Almanac for 1902:

May is comparatively free from storm-producing causes, only the regular and reactionary periods appearing without complication, until the last days of the month. A reactionary storm period is central from the 3rd to 5th, the moon being on the celestial equator on the 3rd. Nervous thunder storms with black clouds, wind and rain will appear in many sections, moving eastward, from the 3rd to 5th, that is if the elements take their usual and normal course. We will scarcely escape scattering thunder squalls on and following the 3rd, but the most general and active storms may be looked for from the 7th to 12th. The photographer who fails to have his camera loaded will miss many opportunities to catch a thunder storm and lightning flash from the 3rd to 12th of May. As the low barometer and storms disappear, the high barometer and northwesterly winds following will bring very cool nights, with frosts in many sections central and northward. The direct conjunction of the moon with earth and sun, or the eclipse* of the sun on the 7th will be a factor in storms and disturbances about that date. From the 14th to the 16th reactionary storm period will be sure and natural—it will turn much warmer, winds will become southerly, the barometer will fall, cloudiness will come on and wide areas of rain attended with lightning and thunder, will move eastward, reaching a crisis about the 16th. Change to cooler and fair weather, progressively from west to east, will be natural from about the 16th to 19th. The Vulcan storm period, central on the 21st, covering the 19th to 24th, will bring some decided storms. Rising temperature and falling barometer will indicate their formation and approach in western sections early in the period. These conditions will move eastward followed by rain, wind and thunder, traversing the country to the Atlantic by about the 24th. Meantime fair weather and much cooler nights will have advanced behind the storms up to or east of the Mississippi river region. Storms of this period will be at their highest and widest pitch about Wednesday the 21st to Saturday, the 24th. The last week in May is covered by a Mercury disturbance which is central on the 31st, running into June. Much cloudiness and tendency to rain and drizzle will continue for days during the Mercury disturbances, but decided storms will fall within the Vulcan storm period which begins on the 30th and runs into June. Summing up the prospects for May, we predict that most parts of the country will have favorable temperatures and propitious weather in sunshine and moisture. We believe that rainfalls generally will be less than the average, extreme northern parts getting, perhaps, too much. Rain will be better diffuse than in 1901, with a probable small increase in the general amount. This will necessarily give some sections more and some less than in May, 1901.

*Invisible here.

—The Elizabethtown stone crush which has been at work for some time on the Addison section of the macadamised road, has moved on to the G. Buell section.

—Mrs. Geo. E. Judson is spending few days in Brockville the guests of Mrs. Powell, Main St., West, Mrs. Geo. F. Johnson, Pearl St.,

F. W. HODSON, Live Stock Commissioner.

It is the best reading, and has the largest circulation, of any paper of its class in America. It is the SPORTSMAN'S FAVORITE JOURNAL of shooting, fishing and yachting. Per year, \$4. With any one of the Forest and Stream large artotypes of big game and field scenes, \$5.50. Send for illustrated catalogue of books. FOREST AND STREAM PUB. CO., 346 Broadway, New York.

Rheumatism

No other disease makes one feel so old. It stiffens the joints, produces lameness, and makes every motion painful.

It is sometimes so bad as wholly to disable, and should never be neglected.

M. J. McDonald, Tremont, Ont., had it after a severe attack of the grip; Mrs. Hattie Turner, Bolivar, Mo., had it so severely she could not lift anything and could scarcely get up or down stairs; W. H. Shepard, Sandy Hook, Conn., was laid up with it, was cold even in July, and could not dress himself.

According to testimonials voluntarily given, these sufferers were permanently relieved, as others have been, by

Hood's Sarsaparilla

which corrects the acidity of the blood on which rheumatism depends and builds up the whole system.

HOOD'S PILLS cure constipation. Price 25 cents.

THIS ORIGINAL DOCUMENT CONTAINS EVERY PAGE

A GREAT SUFFERER FROM RHEUMATISM CURED BY ST. JACOBS OIL.

MR. E. G. MOORE, of 7 Phillips street, Kingsland, says: "I was a great sufferer from Rheumatism for many years, during which time I tried many remedies, from which I received but very little relief. Being advised to use St. Jacobs Oil, I did so, and am happy to say that after a few applications I felt great relief, and continuing its use I can now say I am perfectly well. St. Jacobs Oil is, in my opinion, a thing which should be in every household."

What a blessing, and what hours of suffering, pain and misery would have been saved had Mr. Moore adopted the wiser course and used St. Jacobs Oil at first, instead of wasting time and money on worthless concoctions and nostrums, with which, unfortunately, the market is flooded. The public should not lose sight of the fact that St. Jacobs Oil has conquered pain for more than fifty years, and it is not going to stop doing the same thing now or at any future time. Fifty years' record of pain conquered is a record to inspire confidence.

Stratford, 4th Aug., 1893. Messrs. C. C. RICHARDS & CO. Gentlemen.—My neighbor's boy, 4 years old, fell into a tub of boiling water and got scalded fearfully. A few days later his legs swelled to three times their natural size and broke out in running sores. His parents could get nothing to help him till I recommended Mr. RICHARDS' LINIMENT, which, after using two bottles, completely cured him, and I know of several cases around here almost as remarkable, cured by the same Liniment and I can truly say I never had such a medicine which has had as good a sale or given such universal satisfaction. H. HERBERT, General Merchant.

A Dvice at Funston. (New York Times.) How would it do to fight the Phillips with the jawbone of an ass? Send the talking Funston back there. Minard's Liniment Cures Diphtheria. Twiter-Earned Money. (N. Y. Herald.) First Dentist—Do you have any trouble in collecting your bills? Second Dentist—No, it's the pulling teeth to get money out of some people.

THE VERB "TO SHY." How its Meaning was Illustrated in a Western Court. One of the easiest ways for a lawyer to confuse a witness is to make him explain the meaning of a word. Few people can define a word satisfactorily, even if they know its meaning. A Western lawyer was cross-examining a young woman who had a very haughty temper. According to the Los Angeles Herald, she had testified that she had seen the defendant "shy" a book at the plaintiff.

The lawyer seized on the word, "shy." "Shy" a book? What do you mean by that? Will you explain to the court what the word "shy" means?" The girl leaned over the desk beneath the witness-box, picked up a law book and threw it so accurately and so forcibly at the lawyer that he had hard work to dodge it. "I think the court now understands the meaning of the word 'shy,'" said the judge, gravely. The girl was allowed to finish her testimony.

Stops the Cough and Works Off the Cold. Laxative Bromo-Quinine Tablets cure a cold in 30 days. No Cure, No Pay. Price 25 cents. A Humane Judge. For a breach of the old maxim, "Kiss, but never tell," a man in East Liverpool, Ohio, was married to a woman named Harry Colledge, as the police court records. He knocked at the door of Mrs. Anna Barker, doctor, and a drink of cold water, which the kindly matron gave him, whereupon Mr. Colledge expressed his gratitude by seizing Mrs. Barker with sufficient force to render her unconscious, and issued her, then peaceably went his way.

Later Mrs. Barker had Mr. Colledge arrested and told her tale in court to the justice of the peace, H. P. McCree, by name. That night of the law heard the story told calmly and then asked, "Is that all he did?" "Well, yes," answered Mrs. Barker, with some reluctance, "but he went away and told a dozen men what he had done. That's what made me mad, and I want him to get the limit of the law."

The justice looked thoughtfully at Mrs. Barker for a long time, and then, after declaring himself incapable of flattery and determined to be just, announced that he was compelled to dismiss the case on the ground that, while the act of Mr. Colledge was in fact involuntary, it was in effect involuntary. In other words, that, with the defendant's opportunity and the plaintiff's beauty taken into consideration, what happened was inevitable.—Exchange.

Too Late. Hewitt—My wife loved me at first sight. Jewett—Will wonder that she is now a believer in second sight.

New York Central and Hudson River Railroad. The above name is a household word, and the superior excellence of the road should be sufficient to attract most people, but now that the rate is the same to New York points east as by other lines no further recommendation should be sought. Everybody will tell you it is the best.

If your Grocer cannot supply write to LEVER BROTHERS LIMITED, Toronto, sending the name and address of your grocer, and a trial sample of Sunlight Soap will be sent you free. Ask for the Octagon Bar

THE ORIGIN OF SHAVING

Mr. W. Shaw Sparrow contributes an article to the Magazine of Art on "Hirsute Adornments and their origin," which touches on the origin of shaving. He says, "The origin of shaving is to be found in the very primitive custom of painting the body. Now in more barbarous times this old vanity was every-where more marked, and hence we may suppose that no painted tribes liked their skin decorations to be hidden from view by a veil of hair. Hence they removed the offending things, as the Red Indians seem to bear witness, and their variegated bodies became the first public exhibition of a crudely realistic art. Again, all primitive shaving took place with the aid of some sharp instrument which could trim the hair neatly, and thus our pre-historic hunter artist, whose beard came to a point, and whose sporting tactics were so well known to his drawing, knew not the beginning of the barber's craft. It may have been those tactics that made it necessary for his ancestors to shave both their faces and heads, for consider how flowing beards and long hair must have caught in every bush and bramble as the unshaven hunter crawled along the ground in his dangerous quest. This theory is quite in line with the historic fact that Alexander the Great put an end to beards in the Macedonian army only because they were pulled in battle. Last of all, the first pre-historic man who joined two metal razors together, introduced the art of clipping the beard to a point. Many bronze razors have been extant in France, and are at least as old as those Sicilian ones with which Skelton Africanus set the fashion of shaving in Rome; but the fashion of modelling, probably, on other such instruments used in times vastly more primitive.

India in No Danger. A thirteen-year-old lad applied for work the other day at a Border factory where three of his brothers had been working before they took the Queen's shilling. He was taken care of by the principal and told to start by "How's your brother Jim getting on?" "He's out fechtin' at the front, sir." "Is Tom out also?" "Yes, he's w' Jim in the 2nd Buffs regiment." "I suppose?" "Na," said the youngster, proudly, "oor Sandy hasna gae out yet. He's mindin' India."

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

QUIET FOR TELEGRAPHERS. Coral Reef in the South Pacific. The little coral reef in the South Pacific Ocean, known as Fanning Island, is to be a resting place for the British submarine cable to the Australian Commonwealth. Although a mere speck on some maps, and entirely absent from most atlases, it has developed great importance in the telegraph system of the world. It lies 1085 miles south of Hawaii, and is geographically accurate, situated in latitude 8 degrees 52 minutes 23 seconds north, and in longitude 15 degrees 21 minutes, 50 seconds west. On this island the Pacific Cable Board, by which the English Cable Company is called, has determined to establish its mid-ocean station, expending thereon between \$100,000 and \$120,000 in San Francisco.

The plans for the buildings have been prepared in this city by Henry H. Meyers, and provide for quarters for the telegraph staff, including the operating room, a dwelling for the Superintendent of the station, a carpenter shop, bath house, a lamp room, kitchen and a large reservoir for the catching and preservation of rain water for drinking purposes. The walls of these structures are to be of coral obtained on the island, but all the other material will come from San Francisco. The coral will be covered with cement on the exterior and the buildings will be made as nearly fireproof as possible. They will be for the most part two stories in height.

The telegraph cable station will be located at English harbor, the only shipping entrance on Fanning Island, although it is nine and a half miles long and four miles wide. A peculiarity of the place is that it is not above two or three feet above the level of the ocean, excepting on the outer coast, where the rim of the coral has been thrown up by the action of the sea to the height of ten feet in some places. There are trees on the island, but they are mostly cocoanut, so that fuel, as well as drinking water, is a scarce article. The coral isle has been a British possession since 1798.—San Francisco Chronicle.

Minard's Liniment Cures Colds, etc. Ages of Animals and Birds. A sheep lives ten years. A cat lives fifteen years. A lion lives twenty years. A camel lives forty years. A bear lives twenty years. A dog lives fourteen years. A squirrel lives eight years. A canary will live six years. A crow will live fifteen years. An ox lives twenty-five years. A guinea-pig lives seven years. A horse lives twenty-five years. A swan will live twenty-five years. A whale lives three hundred years. A tortoise lives one hundred years. An elephant lives four hundred years. A parrot lives one hundred and twenty-five years.

New York Central and Hudson River Railroad. The above name is a household word, and the superior excellence of the road should be sufficient to attract most people, but now that the rate is the same to New York points east as by other lines no further recommendation should be sought. Everybody will tell you it is the best.

HORRIBLE PAINS. French Gentleman's Sufferings are Beyond Description.

Many Doctors Treated him, but without Success.—Doit's Kidney Pills Cured Him, and Now He Tells the Story. St. Urbain, Que., April 27.—(Special.)—Fearful indeed has been the experience of Narcisse Barrette, of this place. For fifteen long and wearisome years he has suffered with an acute Malady of the Kidneys and back which has caused him the most agonizing pains. He consulted physician after physician and followed their treatment patiently and carefully. Some of them afforded him a little temporary relief, which was in itself a great blessing, but the pain always came back to torture him even worse than before. Rheumatism added its terrors to his already great burden of misery, and his life was a succession of spasms of the most violent pains that has ever been the lot of any mortal man to endure. The story as told by Monsieur Barrette himself is in part as follows: "For more than fifteen years I suffered with a severe Malady of the back and Kidneys, which caused me horrible pains in the back. "I tried many doctors, but the relief I got was only temporary, and the Malady always returned. My suffering was so great at times that it was almost beyond endurance. "I had Rheumatism as well as the pains in my back, and between them I was sorely tried. I would rather die than suffer again the way I did, but now life is very pleasant for me and I am anxious to live. "You ask me how I was cured? "Well, after trying in vain doctors' treatments and almost everything else, I began to use what has been to me the greatest medicine in all the world, Doit's Kidney Pills, and very soon the pains all left me. They acted almost like magic. I am now in perfect health and work every day."

In washing woollens and flannels, Levery's Dry Soap (a powder) will be found very satisfactory. Higher Prices. (Baltimore American.) "How's this?" asked the customer in the book store. "Last week the prices on Bacon and Lamb were only \$1.25, and now you have marked them up to \$3." "Well, you explained the boogymen," since the Meat Trust began cornering supplies." "But the customer hurried away to secure seats for "The Steer" before the prices went up at the theatre, also.

Keep your eyes open and be sure that when you ask for Perry Davis' Pain-killer you get just that and nothing else. Ask it promptly to cure cramps, diarrhoea and all other bowel complaints in summer. The Changing Season. Mrs. Hatterton—What! You've had fourteen books in three months. Mrs. Hatterton—Yes, and I didn't please any of them.—Life.

An impossible thing to find is a plaster equalled to "The D. & L." Wasn't it awful that being indigestion, backaches, stitches, nothing equals it. Made by Davis & Lawrence Co., Ltd. Too Bluntly Put. The subject of a young lady's essay, who was graduated from a Delaware county high school last summer was "Hawthorne," and in her essay she said: "At the age of 39 Hawthorne married and took his wife to the old manse." The day after the commencement two of the village women were talking over the affair, and one of them remarked: "Wasn't it awful that Maude should say such a thing in her essay?" Her friend inquired what she alluded to. "Why, she said at the age of 39 Hawthorne married and took his wife to the old man's."—Philadelphia Times.

HOW'S THIS? We offer One Hundred Dollars' Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for many years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm. West & TRUX, Wholesale Druggists, Toledo, O. WALKING, KINMAN & MARTIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system. Testimonials sent free. Price—75c per bottle. Sold by all druggists. Hall's Family Pills are the best.

To be Well Shaken. A young Scotch lad had just received a dose of medicine, when his father said with some excitement: "I quite forgot to shake that bottle afore givin' ye it, Robbie. Come here, Robbie, geyd, and much to his discomfite, was subjected to a vigorous shaking from the strong arms of the parent, at the conclusion of which he was released with the remark: "There, my lad, that'll dae. It should be gey well mixed up now; but don't let me forget again."

Minard's Liniment Cures Garget in cows. On the Banks of the Styx. (Smart Set.) New Arrival—Who was that party who laughed so derisively when I told the prize fish story? Old Shad—Oh, that was Jonah.

Page Woven Wire Fence. Owing to the variations of the Canadian climate, consideration should be made in all fences of contraction and expansion, which makes an ordinary wire fence unsatisfactory. The Page wire becomes so loose as to prove of little value. This makes it elastic and self-regulating. Note the difference in price as to ordinary wire. The Page wire is now in use. We also make Gates, Ornamental Fences and Fencing. The Page Wire Fence Co., Limited, Walkerville, Ont.

WHY DR. SPECIALIST FELT GOOD.

The specialist's carriage was announced. He asked the footman how many patients waited for him in the ante-room. "Two," said the man. "The very thin gentleman and the very fat one." "Ah!" said the doctor. "I shall not be able to see anyone else this morning, James." The thin, nervous man came in quickly, stumbling over the rug in his eager haste. His eyes were unusually bright and his head jerked occasionally in an emancipated manner. He was thin to emaciation. "Good morning, Mr. Slimmer," said the doctor, gravely. "How are you to-day?" "I feel as though I were going to fall in small pieces, or else to fly," said the thin man, beginning to finger a paper knife on the table. "I can't sleep and I can't eat," said the doctor, holding the thin man's wrist for a moment, glancing at his watch as he did so. "I'm-n," he said, "you really ought to go to Bermuda, Mr. Slimmer." "Impossible, doctor," said the thin man, irritably. "I can't think of such a thing. I have all sorts of business affairs at stake just now. I can't get away."

"You tried the hot milk before retiring?" "Yes, it was no good." "And the warm bath and massage?" "Yes, but it made me thinner. I declare, doctor, I lost weight. I did, I assure you. I did not want to gain more flesh. I'm nothing but skin and bone. I'm a living skeleton." "Have you taken the daily exercise I recommended in my automobile for two hours every day?" "That won't do, Mr. Slimmer. You'll have to walk."

"But I don't feel well enough to walk. It excites me too much." "You'll have to if you want to get well. Otherwise I'll have to send you to a sanitarium in another month or so, and I'll give up your case. Drive for two hours, but walk for an hour. Take an hour's tramp in the park. Walk around the hotel square where the fountain is, you know. There's a nice, soft path. Twice around takes an hour. Drink the hot milk, and—come and see me again."

Mr. Slimmer put his hand nervously in his pocket and took out \$25, which he placed on the doctor's desk. Then he hurried out. Mr. Heavyweight came in ponderously. He sat down panting from his short walk along the hotel square. His shoes dully between his fat lids. His cheeks hung in bags. He had four pounds on his scale. His waist measure was indefinite. "Ah, Mr. Heavyweight," said the doctor, gravely, "how are you?" "No, better, doctor," said Mr. Heavyweight in an undertone. "I've got no appetite. That is, I don't enjoy my food. My digestion is all wrong. I have headaches and a taste in my mouth. Worse than all, I've gained five pounds in the last week."

"You really ought to go to Bermuda, Mr. Heavyweight. You need a tonic." "Can't get away, doctor. I've five political banquets to attend in the next two weeks—absolutely necessary." "Have you taken the hot water every day?" "Yes, it makes me sick. I tell you I gain weight on hot water."

"The doctor in the fat man's wrist between his finger and thumb, timing the pulse by his watch. "H-m-m," he said. "How about the hot milk and the massage?" "I've taken 'em till I'm tired. They give me heart failure. I weigh a pound more after each treatment." "Have you taken the daily exercise I drive out my team every day for an hour or two in the park?" "That won't do, 'quill have to walk for an hour also."

"Walk? Doctor, I'm too heavy a man to go sprouting around for an hour. It looks too silly. Besides, I pant and puff. My heart's weak." "I'll have to walk, Mr. Heavyweight, or I'll give up your case. You've refused to diet, but you must walk. Take a walk around the fountain in the square every day. Twice around is a mile, and take just—well, it will take you a little longer. Keep up the hot water—and—come and see me again in a week."

Mr. Heavyweight deposited \$25 on the desk with a groan and panted out laboriously. The doctor, who was a man of medium build, got into his coat leisurely and thoughtfully and stepped out to his carriage. As it turned into the square he caught the sight of the fountain. One was the thin man, who walked jerkily. The fat man trudged on laboriously, puffing like a steam engine. The doctor leaned back against the cushions, chuckling softly to himself. —New York Sun.

DR. A. W. CHASE'S 25c. CATARRH CURE... Is sent direct to the diseased parts by the Improved Blower. Cleans the ulcer, clears the air passages, stops droppings in the throat, and permanently cures Catarrh and Hay Fever/Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Effectual Teaching. Shocked Mother—Oh, Tommy! What have you been doing? Tommy—(with a gasp) returned the first day of a preliminary course at the village school.—Fighting with Billy Brown. Mother—That horrid boy at the farm? Don't you ever quarrel with him again? Tommy—I ain't likely to. He can lick me.

Page Woven Wire Fence. Owing to the variations of the Canadian climate, consideration should be made in all fences of contraction and expansion, which makes an ordinary wire fence unsatisfactory. The Page wire becomes so loose as to prove of little value. This makes it elastic and self-regulating. Note the difference in price as to ordinary wire. The Page wire is now in use. We also make Gates, Ornamental Fences and Fencing. The Page Wire Fence Co., Limited, Walkerville, Ont.

Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers. The nature of some children prevents them from thriving on ordinary food. Such children grow right if treated right. All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment. Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for. Send for free sample. SCOTT & BOWNE, Toronto, Canada. 50c and \$1.00 all druggists.

Horse Health. is one of the most important things for every farmer to consider. Dick's Blood Purifier will build up a run down horse. It tones up the system, rids stomach of bots, worms and other parasites which undermine an animal's health. 50 cts. a package. LEEMING MILES & CO. AGENTS. - - - MONTREAL. Write for books on Horses and Cattle. IT IS FREE.

CONSUMPTION Prevented and Cured. Four marvelous free remedies for all sufferers reading this paper. New cure for Tuberculosis, Consumption, Weak Lungs, Catarrh, and a run-down system. FREE. Do you cough? Do your lungs pain you? Is your throat sore and inflamed? Do you spit up phlegm? Does your head ache? Is your appetite bad? Are your lungs delicate? Are you losing flesh? Are you pale and thin? Do you lack stamina? These symptoms are proof that you have in your body the seeds of the most dangerous malady that has ever devastated the earth—consumption. You are invited to test what this system will do for you, if you are sick, by writing for a FREE TRIAL TREATMENT and the Four Free Remedies will be forwarded you at once, with complete directions for use. The Sleucus System is a positive cure for Consumption, that most insidious disease, and for all Lung, Throat and Disorders, complicated by Loss of Flesh, Coughs, Catarrh, Asthma, Bronchitis and Heart Troubles. Simply write to the T. A. Sleucus Chemical Company, Limited, 779 King Street West, Toronto, giving post office and express address, and the free medicine (the Sleucus Cure) will be promptly sent. Persons in Canada using Sleucus's free offer in American papers, will please send for samples to Toronto. Mention this paper.

PAINT UP WELL. Ramsay's Paints are made from the best pigments, pure oil and turpentine, wear better than white lead, more economical, easier to work, beautiful colors, handy packages, and at the right price for the best paint. Drop us a card and ask for BOOKLET NO. 11 FREE, showing how some homes are painted. Established 1812. A. RAMSAY & SON, MONTREAL, Paint Makers.

USE EDDY'S PARLOR MATCHES. THE FINEST MATCHES IN THE WORLD. For sale by all the principal grocers.

BUSINESS CHANCES.

CASH FOR REAL ESTATE OR BUSINESS, no matter where it is. Send description and cash price and get our plan for finding cash buyers. Patent Exchange and Investment Company, Toronto, Canada.

PATENTS. PATENTS, CAVEATS, TRADE MARKS, etc. Home or foreign procured and applied. Replies on patents free. The Patent Exchange and Investment Company, 171 Queen Building, Toronto, Ont.

WANTED—LADIES, ALSO MEN—To copy letters, address envelopes at home, anywhere, day or evening, strictly genuine employment. Address Excelsior Manufacturing Co., Station B, Cleveland, O.

WANTED—GOOD HOUSEKEEPERS TO know that electric Polishing Fibre, the chemically prepared cleanser, silverware, jewelry and all bright metals like magic. No paste or powder whatever is required. SUPPLEMENTARY NOTES

\$4,189,245 More in Estimates at Ottawa.

INCREASE OF REVENUE.

Ottawa, May 5.—Supplementary estimates for the current year amounting to \$1,189,245, were presented to the House to-night.

To meet expenses of Ministers in connection with the colonial conference in London, \$12,000.

Exhibitions at St. Louis, and Osaka, Japan, \$5,000.

Cork and Liverpool Exhibitions, Governor-General's warrant, \$5,000.

Site, etc., of branch postoffice in west end of Toronto, \$15,000.

Maintenance of Toronto postoffice locomotives, \$5,000.

Construction of Marconi wireless station, Glace Bay, N. S., \$70,000.

To pay the Canadian Bank of Commerce for services in the Yukon, May 1st, 1900, to April 24th, 1902, \$53,469.

Purchase and fitting up steamship Tyrann as a cable vessel, and to Montreal instruments, testing his system, \$50,000.

Expenses of Chinese and Japanese commission, \$7,000.

Purchase of steamship Kathleen for gross Isle quarantine service, \$12,000.

Further amount required for contingencies and general expenses in connection with immigration, including special printing and advertising in the United Kingdom, \$50,000.

Further amount required for annual drill and musketry, including clothing and stores, \$24,000.

Towards expenses of the Canadian militia attending the coronation, \$30,000.

Capital expenditure on the Intercolonial, \$372,700, including \$247,000 for improving ferry service at Strait of Canso, \$10,000 for additional tools and machinery, and \$17,000 for rolling stock.

Operation and maintenance of the Intercolonial Railway, \$1,000,000.

Working expenses of the Yukon telegraph system, \$140,000.

Improvements Collingwood harbor, \$20,500.

Dredging Collins Inlet, \$9,050.

Dredging Godefrich harbor, \$3,000.

Improvement entrance Kingston dock, \$2,000.

Brockville Drill Hall, \$2,500.

Improvements London Post-office, \$2,100.

Depositing and widening entrances to Sault Ste. Marie Canal, \$20,000.

Pontoon for Sault Ste. Marie Canal, \$2,500.

Enlargement Farrow's Point Canal, \$26,000.

Gathering information in regard to Railway Commission, \$1,400.

Further amount required Royal Military College, \$19,580.

Medals, \$5,000.

Revenue still increasing.

Canada's revenue does not appear by any means to have yet reached the top notch. For the month of April the customs receipts show an increase of \$13,721 over the same month of last year, while for the ten months just ended the gain is \$2,472,314.

Following are figures for the two periods:

April, 1901-2 \$2,789,978

April, 1900-1 2,276,257

Increase 513,721

Ten months, 1901-2 26,388,587

Ten months, 1900-1 23,916,273

Increase 2,472,314

VICTIMS OF "FIRE" PANIC

Five Girls Killed and More Than Twenty Hurt.

SOME JUMPED TO THE STREET.

Philadelphia, May 5.—Five girls are known to have been killed and more than a score injured during a panic at the cigar factory of Harburger, Homan & Co., 10th street and Washington avenue, at 12:15 this afternoon. The company employs over 600 girls. At the hour named a workman employed in the building was slightly injured by being caught in an elevator. Some person cried "Fire" and immediately there was a rush for the stairway of the building. The crush was so great that many of the girls turned back and rushed to the windows. Before they could be restrained from jumping a score or more had hurled themselves to the street, several being crushed to death.

HAD IT BAD.

Man Arrested for Sending 600 Letters to Women.

New York, May 5.—When Mrs. Katherine Ballou's victoria came up Fifth avenue to Fifty-first street at 5 o'clock yesterday afternoon Police Captain Delaney had a dozen men and Detectives Quinlan and Mehan lining that part of the avenue.

At Fifty-first street Mrs. Ballou stopped the carriage and sent a footman to the curb. The footman pointed out a man and the police grabbed him, hauled him into a cab and locked him up in the Thirty-fifth street station house.

The prisoner is Frederick C. Zimmerman, who describes himself as an inventor of fountain pens, with an office at 233 East Fifty-second street. He admitted that he had written more than 600 love letters to Mrs. Ballou. He says he fell in love with her in the street, seeing her drive by.

Mrs. Ballou says he has been annoying her for two years by writing her letters, sending flowers and candy, and later by calling at her house at 331 Lexington avenue and insisting on seeing her. She believes that he is mad and she was afraid he might shoot her.

He told the police he would love her forever whatever they did to him. She drove to the station after his arrest and told Capt. Delaney that one of Zimmerman's letters spoke of things at his home which he was going to send her through the mails. She feared that he might mean an infernal machine. The detectives went to Zimmerman's office and there took possession of his effects, which will be examined today.

FUTURE OF THE SAULT.

Mr. Clergue Fortells a City of 200,000.

WORK THERE FOR 25,000 MEN.

Sault Ste. Marie, Ont., May 5.—F. H. Clergue, addressing the Korah Township Council, which called upon him yesterday to talk matters over in which the allied companies are interested, said he was confident there would be a city of 200,000 inhabitants on this side of the river within a few years. He also said that the steel works when carried to completion would employ 5,000 men in one location in America; that the proposed tube quarters, for which ground has been cleared, would employ another 5,000 eventually, and that in his judgment 25,000 men would be needed to operate industries owned by the allied companies, or attracted by them. Mr. Clergue further stated that not a foot of the miles of land now owned by the allied companies was held for speculation. All of it would be needed for industrial purposes. Mr. Clergue added that the allied companies would give free sites to other manufacturers, and there would be no rent nor taxes to pay.

DR. HARBOTTLE PARDONED.

Governor-General Orders His Immediate Release.

SHOT MAN WHO TEASED HIM.

Toronto Dispatch.—Dr. Robert Harbottle, of Burford, who was sentenced in January last to twelve months in the Central Prison for shooting a man named Stewart, has been pardoned. A telegram was received in Brantford yesterday from Ottawa, that the Governor-General had ordered the doctor's immediate release.

Warden Gilmour, of the prison, when spoken to last night, said he had not yet received the order, but there was often some little delay in these matters, as the papers were first sent to the Department of Justice at Ottawa, and then to the Provincial Secretary's Department here, and then transmitted to him. The doctor was in good health, he said, and had been acting as orderly at the prison.

STIRLING, OF GRIMSBY, ILL.

Corporal Howard Dead of Wounds at Klerksdorp.

Ottawa, May 5.—A telegram to His Excellency from Cape Town, dated April 28th, announces that Corp. Fred. McL. Howard, of the 2nd Battalion, Canadian Mounted Rifles, died from his wounds at Klerksdorp on Monday. He was one of the brave band of staid Canadians who made the gallant stand at Hart's River on March 31, when he was severely wounded. He belonged to Montreal, where his father, Stewart Howard, resides. The telegram also reports that the next of kin of Pte. Thomas B. Day, killed April 2nd, is D. C. Day, school teacher at Shallow Lake, Ont.

George E. Stirling, of the South African Constabulary, was reported dangerously ill of enteric fever at Potchefstroom, April 26. He is a son of John Stirling, of Grimsby, Ont.

SOME INCIDENTS OF THE BATTLE OF SPION KOP.

(Black and White.)

Not a tittle of the dramatic occurrences of the war can ever be told.

We get a good impression of the extraordinary scenes common to the combatants' life in a volume just issued—Buller's Campaign, by Lieutenant E. Blake Knox, R. A. M. C. (Brimley Johnson, 10s. 6d. net). This gallant officer has given us a stirring story of some of the most remarkable tableaux of the great battles in which General Buller engaged. It was during the battle of Taba Mayama that the sporting instinct of the Times brought some of them to their names. They were on Three Tree Hill, when something started a hare out into the open. "This was trying Tommy too far. He could sit and wait for most things, but a chase he could not resist. Nearly a hundred men jumped up and went after that hare, hallooing, throwing stones, sticks, bully-beef tins, and even their helmets after it, regardless of all danger." This was all the sight the Boers wanted and started the shelling, one shell instantly killing a man and wounding half a dozen others.

Tricked into Spion Kop. It was in the same battle that a trick was practiced which had incalculable effect upon the Boer fortunes. Hinton (who afterwards became known as an infernal machine. The detectives went to Zimmerman's office and there took possession of his effects, which will be examined today.

A Pathetic Last Message. Much has been written about Spion Kop, and we have by no means heard the last of it. Lieutenant Knox contributes important additions. Some of his pictures are intensely dramatic. When General Woodgate, who had the command, received his fatal wound, he ordered the heliographer to signal: "We are between a terrible cross-fire, and can barely hold our own. Your help is needed. Help us." A shell smashed the instrument as the last official words of the unfortunate officer were being trans-

mitted. The awful story of the battle is gratefully cited by the author. General Buller's telegram to Sir Charles Warren is historic: "Unless you put some really good hard fighting man on the top, you will lose the hill. I suggest Thorneycroft." At once Sir Charles Warren sent the message: "With the approval of the Commander-in-Chief, I place Lieutenant Thorneycroft in command of the summit with the local rank of Brigadier-General."

A Battle-field Promotion. Some time previously Thorneycroft had led a magnificent sortie to drive off some of the Boers who had obtained a position from short range. He fell and dislocated his ankle, and was still lying prone with his men around him flung at a range of 150 yards at the enemy when a messenger arrived. As the man was about to speak a shot hit him in the head, and he fell dead across Thorneycroft's body, with his hand on the officer, seeing the disabled officer, and probably fearing that he was dying, crept up behind a rock, and uttered, "You are a general!" The gallant general pro tem. was in a sorry condition to accept such a command, but he cheerfully undertook it, and there can be not a shadow of doubt, saved us from a terrible disgrace. It makes a fine story.

"I Allow No Surrenders." When the slaughter amongst the awfully-placed British was at its worst, some thirty men of various regiments threw down their arms, and advanced towards the Boer position with the purpose of surrendering. A number of armed Boers waving white flags came out of their trenches to receive their surrender. Suddenly, from some thirty yards in the rear of our men, a soldier, whose stature made him everywhere conspicuous, rushed forth, limping on a stick. He pounced like a hawk on the Boer leader, by name De Kock, in whose words the rest of the incident is given. "We had got up, and we should have had the whole hill. The English were about to surrender, and we were all coming up when a great big, angry red-faced man, who I allow no surrender, came out of their trenches to receive their surrender. Suddenly, from some thirty yards in the rear of our men, a soldier, whose stature made him everywhere conspicuous, rushed forth, limping on a stick. He pounced like a hawk on the Boer leader, by name De Kock, in whose words the rest of the incident is given. "We had got up, and we should have had the whole hill. The English were about to surrender, and we were all coming up when a great big, angry red-faced man, who I allow no surrender, came out of their trenches to receive their surrender. Suddenly, from some thirty yards in the rear of our men, a soldier, whose stature made him everywhere conspicuous, rushed forth, limping on a stick. Newsy Budgets of the Reporter's able staff of Correspondents

CHANTRY

Mr. Merritt Alford is at home after being absent all winter. Mr. S. Davis, of Chantry, is on the sick list.

DELTA

An exceedingly pretty wedding took place in Mr. Samuel Coleman's house on Wednesday evening, April 30th, when Miss Anna J. Berney, of Athens, daughter of the late Daniel Berney, of Athens, was united in holy bonds of matrimony to Mr. Harry Maud, of Bellamy's.

CAINTOWN

Mrs. Jos. Hall is reported to be improving. Evening services will be held in both churches on Sunday evening next.

SEELEY'S BAY

Henry Bigford the young boy who had his leg broken by a collision with a bicycle last week is improving nicely. John Cheetham, very ill the past few days with pneumonia is slowly improving.

ASSIST NATURE.

You have been told to "hitch your wagon to a star"—that nature will assist you. That's all right. There are times, however, when you should assist nature and spring is one of these times.

Nature is now undertaking to cleanse your system—if you take Hood's Sarsaparilla the undertaking will be successful and your complexion bright and clear.

—Mrs. John Eaton, whom we reported so dangerously ill at the hospital, Brockville, last week has passed the critical period and is now on the high road to recovery.

—The Recorder has the following to say about the bran new baby that arrived at Senator Fulford's a few days ago: "Senator Fulford has received many congratulations over the arrival of a son and heir in his household."

—A few of the "Whoys" from classic Plum Hollow were in town on Saturday night last and were bound to kick up a row at Hickey's Corners.

Got the Better of Hotel Clerk. "With all his faults," began Mr. Fairchild, "the hotel man is a first class fellow, who will go a long way to keep his guests from shining too much in public or from being seen by doubtful guests."

Mr. Harry Richards, Brockville renewed old acquaintances here on Sunday last. Mr. Albert Nixon is the happy possessor of a fine new buggy.

Warnings are given in a medical journal against the injury to skin and even bone which may result from the long continued use of weak—say, 3, 2 1/2 or even 2 per cent—carbolic acid.

As a house is never attacked by fire at the top and bottom at once, if there is a safe and ready exit at both top and bottom very little danger to life is to be feared.

—The local columns of the Liberator published at Lisbon, North Dakota contains the following: "C. D. Cow, the grocery prince, has recently purchased a handsome rubber tire delivery wagon and goods are now delivered in metropolitan style."

—The funeral of Mrs. Samuel Brown which occurred on Friday of last week, May 2d, in the vestry of the Methodist church, was conducted by Rev. W. E. Reynolds, Pastor of the Methodist Church, Athens.

Throughout the length and breadth of India the Ficus religiosa, under which Buddha rested for seven years plunged in divine thought, is dedicated to religious worship and may on no account be felled or destroyed.

—The Court—So you ask divorce from this man on the ground of mental incapacity. What proof have you that he's insane?

—There is said to be quite a number of cases of small pox of a mild type in Westport, and the Brockville Times devotes considerable space to giving full particulars of the outbreak of the disease here and is content to tell of the numerous cases in Brockville in a two or three line local.

—The Recorder has the following to say about the bran new baby that arrived at Senator Fulford's a few days ago: "Senator Fulford has received many congratulations over the arrival of a son and heir in his household."

Miss Kelly spent Saturday and Sunday at her home in Athens. The school children here celebrated Arbor Day in first class style, greatly improving the appearance of the school house and surroundings.

Mr. Harry Richards, Brockville renewed old acquaintances here on Sunday last.

Messrs. John Noff and Clinton Washburn have left for the West for an indefinite length of time. All in wishing them success.

Mr. Albert Nixon has secured a situation on the railroad. Mr. Peter Jarvis and daughter, Maggie, visited friends in Seeley's Bay, on Saturday and Sunday.

The recent wind storm caused a great overthrow of fences in this vicinity, and the residence occupied by Mr. John Morris, caught fire from the chimney and very narrowly escaped burning.

Mr. John Morrison and Mr. Charlie Dixon spent Thursday in Seeley's Bay. We are sorry to report Mrs. John N. F. still continues in ill health.

Mr. Roy Richards, Harlow visited friends here last week. Mr. John Hudson has gone to his factory in the vicinity of Carleton Place.

Tired Out. "I was very poorly and could hardly get about the house. I was tired out all the time. Then I tried Ayer's Sarsaparilla, and I only took two bottles to make me feel perfectly well." Mrs. N. S. Swinney, Princeton, Mo.

Wm. H. Leavitt, who managed the Cedar Park at Charleston for a couple of years, is now running the Bellevue House, at Temiskaming, about 40 miles above Mattawa.

Our new neighbors have made quite an addition to the number of scholars attending our school.

Ogle Webster had the misfortune to find a valuable horse dead in his stable a few days ago.

Geo. Bulford and family, of Cardinal, have taken up their residence in the Connor's house. He is working his uncle Edwards' farm on shares this season.

Wm. Moulton is busy working at his trade of a stone mason most of the time.

Ed C. Bulford has been confined to the house for several days with his old complaint.

A Hornick spent a few days with his family here last week, but has returned again to New York state.

Since Ed. Davis sold his fine black diamond horse for a good figure to Smith's Falls buyer. He is breaking in a pair of fine colts with apparently good success.

Frank Kerwin is driving the public milk wagon to Athens and Richard Willis takes a portion of the milk to the Soperton factory.

Joseph Moulton, jr., has purchased the Richard Kelly farm and is busy putting in the spring crop.

Sidney Lumbard is working the Clark Wiltse farm this season. He is putting in the spring crop in fine shape.

Joel Parish is building a large addition to his barn, capable of stabling 16 cows.

Mr. Shaw who purchased the John Crawford farm last fall is preparing to build a large new barn this season, with underground stables for 24 cows.

John Mulvena is through this section buying up a lot of cattle for the Manitoba market.

Ed Wilson is busy delivering the trees and small fruits he took orders for during the winter. He has sold a large quantity which arrived in splendid condition.

W. W. Cross, near Athens, is removing and repairing one of his buildings and fitting it up to hold his blood stock of porkers.

While John Moore does not like grit governments he freely says that times are good and money plenty, and as a result he is engaged in building a large addition to his house.

CORN FOR SALE. I have for sale a quantity of the old fashioned Yellow Corn, carefully gathered and chanced dried, which can be obtained at the stores of JOSEPH THOMPSON, or G. A. McCLARY, Athens.

COURT OF REVISION. NOTICE is hereby given that a Court of Revision for the Town of Athens, will be held in the Council Room, Lamb's Block, on MONDAY, MAY 12th, at 2 o'clock P.M.

COURT OF REVISION. Notice is hereby given that a Court of Revision for the Village of Athens, will be held in the Council Room, Lamb's Block, on MONDAY, MAY 12th, at 8 p.m.

Yorkshire and Berkshire Boars. Good pure-bred animals of the above named breeds for service. F. R. BLANCHARD, Addison, Ont.

Perfection Cement Roofing

THE TWO GREAT RAIN EXCLUDERS

THESE GOODS are rapidly winning their way in popular favor because of their cheapness, durability, and general excellence. Does your house or any of your outbuildings require repairing or a new roof? Are you going to erect a new building? If so, you should send for circular describing these goods or apply to

The McLaughlin Asphalt Roof Paint Company.

BROCKVILLE and ATHENS.

The practical side of science is reflected in

A monthly publication of inestimable value to the student of every day scientific problems, the mechanic, the industrial expert, the manufacturer, the inventor—in fact, to every wide-awake person who hopes to better his condition by using his brains. The inventor, especially, will find in The Patent Record a guide, philosopher and friend. Nothing of importance escapes the vigilant eyes of its corps of expert editors. Everything is presented in clean, concise fashion, so that the busiest may take time to read and comprehend. The scientific and industrial progress of the age is accurately mirrored in the columns of The Patent Record, and it is the only publication in the country that prints the official news of the U. S. Patent Office and the latest developments in the field of invention without fear or favor.

Liberal discount for contract advertisements. Advertisements sent without written instructions will be inserted until forbidden and charged full time. All advertisements measured by a scale of solid nonpareil—12 lines to the inch.

BROCKVILLE BUSINESS COLLEGE.

Pronounced by members of Dominion and Provincial Parliaments to be a first class Business School. Has your education been neglected? Do you want to improve it? Do you want to become a good Bookkeeper or Shorthand writer? If you do our catalogue will tell you what to do. Send for it. Address—Brockville Business College, Brockville, Ont.

Gathered by the Reporter Scribe just before going to Press.

—Miss Miner, of Smith's Falls, is visiting in town.

—Mr. Harry Berney has accepted a position with Mr. C. L. Lamb.

—A party from Brockville caught 6 fine salmon at Charleston yesterday.

—Have you noticed the new wickless, blue flame oil stoves with ovens at W. F. EARL'S?

—J. V. Phillips, of Philipville, has shipped his thoroughbred stallion, Rifleman Jr., to Manitoba.

—We are pleased to report that Mr. J. Jones, Victoria street, who has been so seriously ill for a few days, is somewhat better.

—Call in and see our line of fishing tackle. We have a good assortment to select from in Archer and Sore catch spinners, rods, lines and minnow pails.—W. F. EARL.

—Ed. Curry is repairing and renovating the property he recently purchased at Charleston.

—W. G. Parish has added a hand rearing machine and another planer and matcher to his stock of machinery in his mill near the station.

—The popularity of the Reporter's Horse Route bills is evident by the fact that a few days ago an order for bills to be sent to Manitoba was received and another from Western Ontario.

—Mrs. Derbyshire is making extensive improvements to the house recently purchased from the Isaac Robeson estate.

—An itinerant vendor of cheap ready made clothing was in town yesterday. When interviewed by Chief Brown he produced a license for rig driven by one horse and was allowed to go on his way rejoicing.

—Now is the time to get in your well pump. I have a fine working pump at a cheap price. Piping galvanized and black, all sizes with fittings in stock. Pipe cutting and other work done promptly.—W. F. EARL.

—Color Sgt. W. W. Frew, and Corp. Donald Jack, of "H" Co., 56th Regiment, Light Artillery, Lansdowne, who took a short course of instruction last winter at the Royal School of Infantry, Stanley Barracks, Toronto, received their certificates this week and are to be congratulated on having passed their examinations in such a creditable manner.

—Richard E. Mills, a former typo in the Reporter office, who started a newspaper at Fergus, Ontario, some four years ago, sends a marked copy of his paper this week in which he says:—"As promised last week The Fergus Canadian appears in 8 page form this week. We are forced to make this change because of the increasing pressure of our news and advertising columns. The Canadian is a young newspaper and has had to win its way against opposition, not always fair or business like. That our efforts have been appreciated is abundantly proved by the very large increase in circulation, and by practical assistance we are daily receiving in the gathering of news throughout the country in which The Canadian circulates." We are pleased to note Richard's progress, as he was one of the best "subs" the Reporter ever had.

MORNING STROLL NO. 2.

ROSS & EARL'S BRICK AND TILE WORKS, ATHENS.

The fresh morning air circulated freely through our lungs as we emerged from our sanctum and wended our way again in the direction of "the flats" lying to the south east of the village, in search of pointers for our second morning stroll. The objective point this time was the busy hive of industry, Ross & Earl's Brick and Tile Works. These gentlemen are too well known to the builders and farmers of this section to need any introduction at our hands. They have been engaged in the business for many years and the large number of substantial brick stores, dwellings and other buildings in which the product of their yards are to be seen, as well as the thousands of acres of previously unproductive soil that has been reclaimed through the use of their superior make of tile is proof positive that they are turning out an article that is worthy, and is receiving the hearty indorsement of the people of this district. We have frequently visited their works at the foot of Isaac street and in conversations with them have gleaned the following facts and figures in relation to their business.

We have often stood and watched the men at work, both under the old style of hand make and the later, and we think better system of machine made brick and tile. The yards comprise about two acres in extent and here the clay is taken out in the fall and placed in large heaps, in order that the action of the frost will help to prepare the clay for being properly tempered. This clay must be free from lime or gravel otherwise the brick would burst while being burned. The material is carried in wheel barrows from the pit and dumped into the grinding machine a cut of which appears above.

This machine is operated by two horses when making brick for and 3 for tile. It requires two smart men to the delivery of the brick from the machine. The clay, after being ground is forced out through moulds on to a revolving table, where it is cut into proper lengths by a number of heavy wires attached to a frame. Men with wheelbarrows stand ready to take the finished brick or tile away which are piled in tiers under the drying sheds.

The firm employ from six to eight hands, and the daily capacity of the mill is about 5,000 per day of brick and 3,000 of tile. They are thinking of putting in steam power, which would increase the output fully two thirds more. The brick is a trifle larger than those formerly made by the old hand process and have a fine smooth finish on the face side and are made with a

number of holes running through the centre, which allows of an even burn all the way through. The color is a deep red, very hard and of excellent quality and we have only to mention the fact that all the brick used in this section is now made by this firm, as a proof that they are considered the best that can be procured anywhere.

The capacity of drying sheds in about 100,000, and the kiln shed for burning brick about 300,000. When the brick or tile is sufficiently dry they are placed in the kiln which has a capacity of 25 to 30 thousand tile and 15,000 brick, which are filled in to make arches and protect the tile while being burned.

It requires about 800 cords of wood to properly burn the season's output of brick and tile. The firm have been fortunate in securing several tracts of wood land from which they have taken their supply for years past. The wood is cut and drawn to the yards thereby giving employment to the men during the winter months.

The output during the season is about 300,000 brick and 90,000 tile all of which find a ready sale in the surrounding country, and in our opinion the proprietors deserve great credit for their pluck and energy in building up an industry in our midst, which not only gives employment to the laborer, but also materially reduces the cost of building in the vicinity of Athens.

Our morning stroll like everything else must come to an end. But we go back to work feeling that others have labor as well as ourselves, that labor is the lot of man, that the heart may conceive and the hand devise in vain if the hand is not prompt to execute the design. That work is necessary to preserve the social and moral well-being of the human family, that idleness and sloth begets poverty and degradation, and that by an all-wise dispensation of providence, not only man's physical nature but his intellectual as well, requires him to put forth daily exertion, whether it be at the anvil, the bench, in the field or at the desk, matters little, except in so far as adaptability is concerned. But one element is essential and that is that man shall work. Refuse to be guided by this principle and he must inevitably become a failure. Make work the rule of his life and his efforts much eventually be crowned with success.

Bidding our readers good bye for the present, we hope to be able in the near future to give them an account of a stroll out into the country and a resume of another morning stroll.

A RARE OLD FIND.

In looking over some old papers belonging to the Loverin estate a few days ago the editor of the Reporter came across a rare old silver coin bearing the following inscription "Hispanica, Rex, 1769." On the reverse side "Carlos III, D. G." The coin is well preserved and the letters and ornamentations perfectly clear and legible. This coin was found by the writer over 45 years ago near the old house on the Loverin homestead and after carrying it around for several months it was thrown into a drawer with a lot of old papers, where it has remained ever since. We have a faint recollection of hearing a story in connection with this coin to the effect that nearly one hundred years ago a tramp came along and stopped at the Loverin homestead and craved a lodging for a few days, offering to do odd chores for his board.

He was an adept at wood working and rigging up a little shop in an outbuilding he made the family a number of tables, bureaus and boxes as well as cases for a couple of old fashioned clocks that reached from the floor to the ceiling (one of these clocks is still running at the farm. He also made a fanning mill said to be the first one ever made or used in Leeds county and farmers used to come for miles to have their grain cleaned for seed by it. He was also an expert engraver on copper, and there were several pieces of finely engraved copper plates lying around the place within the writer's recollection. He was very reserved in his manner and only occasionally, when in a low mood through drink, that he would tell anything about himself. From these remarks let drop in an unguarded moment it was surmised that he

had been a buccaner on the Spanish main and that the gold and silver pieces that he displayed on these occasions were the product of some of his depredations. He used to sit for hours at a time on a big stone in front of the old house on the hill and count over his coins and it was near this stone that the coin now referred to was found many years after. He disappeared one day and was never heard of in those parts again.

Another rare find while looking through the old papers was an envelope mailed in Vermont on the 6th of November, 1865, on which were a couple of 2 cent stamps bearing the portrait of Martin Van Buren, then president of the United States, and two 3 cent stamps bearing the profile of Thos. Jefferson. The envelope and stamps were well preserved and as fresh and distinct as a last year's Canada stamp. The old chest of drawers contained several parchment deeds over 150 years old and any quantity of letters and envelopes which were mailed before the introduction of postage stamps into this country or the U. S.

—Mr. Nathaniel Benedict has relinquished his residence on Reid street.

—Mr. W. Mott is behind the counter of P. P. Slack & Son's store for a few days. The rush of spring trade required the assistance of more help.

—Cap. Chas. Chapman, for over thirty years license inspector for Grenville county, died at his residence, Prescott, on Tuesday of last week, aged 83 years.

—Citizens of Mallorytown are trying to start a bank there to be run in conjunction with the one at Lansdowne, and be open for business two days out of the week.

Seen in Woman's World

Gossip About Late Fashions—Beauty Hints—Matters of Etiquette and General Chat for Feminine Readers.

While there is nothing strikingly new in the way of gowns there are hosts of pretty ones which have new and original touches, giving them every appearance of being entirely novel. Mantles, coats and wraps show quite as extensive variations as the gowns, and they are certainly dressy beyond anything we have had before, especially those which are designed for the matrons, and made of lace and silk.

Black Chantilly is the popular lace and you see long loose coats with this, as well as capes made with cut a fixed lining, and finished with one or two flounces of the lace and a cape collar of lace. To combine usefulness with chic, and to give the appearance of being entirely novel, one which can be worn in the afternoon as well.

In the lace coat you see the full flowing sleeves with a lace cuff and frills, and also a deep collar, and cream lace is shown in the second illustration.

The black taffeta coats are more useful and just as good style. They are usually, plaited, mounted on a yoke, which is covered by a broad collar, or cut in a partially circular shape with a bias seam down the back.

Yet there are all manner of modes in coats, and one of the prettiest models has two box plaits down the back, one down either side of the centre, these attached to the visible yoke, and lace insertion filling in the space between. Again the plaits are made wider and trimmed down the centre with lace, which also finishes either side of the front.

The broad collars are usually of lace, and tucked batiste combined, or lace with applications of silk or velvet.

For coats too, there is a silk which resembles canvas in weave, a silk etamine maybe, while for travelling and driving very stylish coats are made of wool, tweed and lined with pongee. These are usually of full length and finished with deep collar and cuffs of white linen embroidered and lined most artistically that they have the appearance of being wrought by hand. Some of these linen collars have Oriental colors worked in with the white, possibly, a little black velvet ribbon threaded through the openings.

Beautiful coats are made in the pale fawn colors of cloth, canvas and silk, also of white in the same materials. A white cloth coat of three-quarter length in very well out with the bias seam at the back and also lined with white silk, and also in white down the fronts and around the cuffs and collar.

Among the wraps you need not be surprised to find some which in shape resemble the old-time dothan forming a loose sort of hood effect, the edge gathered and turned under on the lining all around. This falls a little below the waist line, below which the garment flares, covering the entire gown.

Walking Jackets.

The short walking jackets of black taffeta to wear with any skirt are extremely good style, and one little model has the broad Gibson plait in the back, shaping in narrow at the waist line, where it forms a coat-tail. The top of this plait meets at groups of tiny tucks, with meet at the belt.

The front is tucked in the same manner and the collar is a triple one of lace and white silk. The sleeves tucked at the elbows are flowing in shape below, over an undersleeve of lawn and lace.

New Skirts.

The black taffeta skirt continues in vogue, and it is with this that the taffeta jacket is shown in its best.

The triple skirt seems to be one of the latest fancies, but it is triple in effect only, and accomplished at three circular narrow front breadths, the top one, attached to a hip yoke of lace, or one of the material. Again, it is made by using two flounces, either straight or circular, and finishing the upper skirt like a tunic to fall over the upper flounce.

Noticeable among the thin gowns is the fact that the five, nine and eight-gored skirts are very much used, but so often disguised by the vertical tucking and plaiting so much in evidence that the gown with the almost invisible, the most with the tucking stitched down below the knee, the fulness being left to swing out, is very popular for batiste and muselins.

A pretty model without tucks has three narrow bias ruffles around the hem, and insertions of cross stitching set in around the hips in yoke form, each line turning at the back and extending down to the ruffles. This may be reversed, the long lines extending down the front.

A five-gored skirt may be arranged very prettily in shallow box plaits all around and stitched down to the knee in the usual way. A band of embroidery, or lace, or a group of tucks are a pretty finish at the hem.

Skirts of six and eight gores have a seam directly in front, of course, which is very good for linen. The seam is often joined with beading, cross-stitching or partially hidden by a group of fine tucks at either side. It is biased a little, of course, and that gives a pretty flare to the skirt.

A chic model for crepe de chine or pongee is shown in the illustration, trimmed elaborately with insertions of flit lace in a skirt.

The skirt has a plain hip yoke stitched on to the lower part and cut in scalloped lines.

Shirt Waist Tips.

The woman who prefers to make her own shirt waists, or at least has them made by the home seamstress, may find some very delightful patterns in separate embroidered fronts to combine with these

waists. The material in many of these dainty pieces is white lawn, though the various grades of linen in white and colors are also seen. The embroidered designs spread well over each side of the front, some in black, some in white, while other fetching patterns are in ecru—Mall and Express.

The Girl Who Walks Correctly.
The girl who walks correctly is a joy to herself and to all who behold her. She has some purpose in life. She is, nine times out of ten, neatly dressed, bright eyed and healthy. Watch her and you will see that the ball of the foot is the centre upon which the weight of the body swings, and that upon the heel and the toe there is an even balance of the strain, if such it may be called, the heel not being called upon to do more than the toes, or the toes more than the heel, while the sole is the medium between the two extremes.

In correct walking the foot is placed evenly upon the surface, with the pressure upon the heel, then upon the ball of the foot and then upon the toes. From the ball of the foot upon which the weight of the body swings, and that upon the heel and the toe there is an even balance of the strain, if such it may be called, the heel not being called upon to do more than the toes, or the toes more than the heel, while the sole is the medium between the two extremes.

Many persons, in endeavoring to walk correctly, make the mistake of putting too much weight upon the heel. This is not as bad as putting too much weight upon the toes. The easiest method of learning how to walk correctly is to pat yourself after putting on your shoes, and in Philadelphia Ledger.

TRIPLE GIBSON.

Dainty Shirt-Waist Rig of Linen With Stitchings.

For a plain, stylish summer rig this triple arrangement of the Gibson plait is very pleasing. The illustration is taken from a shirt-waist suit of fine though heavy white linen. Each of the plaits which extend down the back also, is stretched three times with black, the same triple stitching being used to border the

The Triple Gibson.

narrow centre plait, the belt, the cuffs, the flounce top and the tucks in the top of the flounce. Triple stitching also outlines the seams. Pretty and dainty turnovers for this smart little suit are shown on the stock and cuffs in the shape of fine white linen embroidered in black and scattered with black French dots.

It's a valuable little pattern dress, and would be effective in China or Reseda, or even the dastor or gray would also be adorned by white stitching. Or deep red is good on pink; also on linen color.

News of French Modes.

Trials shortened at the back. Blue and green combined with black and white.

Two kinds of lace used on one dress.

Lattice strapping is the prettiest yet.

Parisienne will not desert the becoming Eton.

Trailing skirts shortened immediately across the back are supposed by the wily French woman to make her appear younger.

Box-plaited box coats are extremely modish.

Lots of hip trimming, which slender women like.

Nothing is more chic than Hungarian embroidery.

There are additional lingerie effects in dresses.

Incrustations of Point de Flandres are modish.

Lace gilets are now quite without stocks.

Buttons serve to accentuate lace designs.

Batwing braid, with buttons, edges lace insertion.

Tulle is but a very delicate voile.

Louis XV. coat-tails are hung onto anything above the belt.

Pin-striped shaded taffetas are the latest cry.

Variouly shaped wedges may let footfulness into a skirt.

Not that our dear friend, the flaring flounce is done for.

Elaborate tucking in yoke effect serves to perfect the fit of many a dress skirt.

Words on Women.

A plain woman takes pride in her friends, a beautiful woman in her enemies.

A woman will often say no, when she means yes; but never yes, when she means no.

The normal woman is capable of one love and fifty affairs.

A woman's charity sometimes begins away from home, and then remains there.

A young girl is the nearest approach to an angel that we have—and the most exasperating.

It has never yet been decided whether a woman is happier when happy or when miserable.

When a woman is thoroughly tired, she finds nothing so refreshing as a nice, long talk.—May Smart Set.

The Honeymoon.

It has never yet been decided whether a woman is happier when happy or when miserable.

When a woman is thoroughly tired, she finds nothing so refreshing as a nice, long talk.—May Smart Set.

HE.
"Of course he does! But, dear, your hat is white with rice."
—New York News.

THE LANCET ON THE CIGARETTE.

Whatever may be the explanation as to why smoking in the form of cigarettes has become so enormously popular during the past decade, there can be no denying that popularity from the fact that it has led to a very sharp industrial war. Millions of public money have been invested in cigarette-making companies. Cigarettes are the subject of advertisement in the daily papers on an enormous scale utterly incomparable with that on which tobacco and cigars are advertised.

The reason is not far to seek; the cigarette is cheap, and more than that, it is a convenient form of "smoke." The good cigar is not so easy to carry about with you. The pipe must be kept clean, it requires to be filled, and a pouch must be carried to contain the tobacco. The cigarette is ready to smoke, scores can be smoked in the pocket, and one can be smoked in a snatched quarter of an hour. The cigarette is, therefore, popular, probably mainly because of its convenience.

That being so it is important to consider whether cigarette smoking is more injurious from the point of view of health than is the smoking of a cigar or a pipe. To begin with, a much milder tobacco can be smoked in cigarettes than in the pipe, and the pipe must be kept clean, it requires to be filled, and a pouch must be carried to contain the tobacco. The cigarette is ready to smoke, scores can be smoked in the pocket, and one can be smoked in a snatched quarter of an hour. The cigarette is, therefore, popular, probably mainly because of its convenience.

Sunday School.

INTERNATIONAL LESSON NO. VI. MAY 11, 1902.

Peter Delivered From Prison.—Acts 12:1-19.

Commentary.—1. About that time—About the time Saul and Barnabas came to Jerusalem. Chap. xi. 30. Herod—This was Herod Agrippa I. He was grandson of Herod the Great (4. 16), nephew of Herod Antipas, who murdered John the Baptist (Matt. xiv. 3-12), and father of Herod Agrippa II, before whom Paul preached (Acts xxvi.). Paul preached (Acts xiv. 3-12), and father of Herod Agrippa II, before whom Paul preached (Acts xxvi.). Paul preached (Acts xiv. 3-12), and father of Herod Agrippa II, before whom Paul preached (Acts xxvi.).

2. Killed James—James was one of the three apostles who had been especially favored by Jesus. He was present at the raising of Jairus's daughter, at the transfiguration, and at the time of Christ's agony in the garden. James was no doubt taking a prominent part in the raising of the sword with the sword we are to understand beheading. Among the Jews there were four kinds of death—starving, burning, killing by the sword, and hanging. Paul was not to be hanged, but to be killed by the sword.

3. Pleas'd—His object was to gain public favor. Many others in authority since Herod's time have succeeded in this. Peter was very conspicuous in the church at this time. Unleavened bread—The feast of seven days, which continued the seven days. During this feast the Jews ate unleavened bread (Ex. xii. 15-18), and no leaven was allowed in their houses. The Passover was celebrated in the month of Nisan, and Peter was imprisoned during the feast.

4. Apprehended—See R. V. in prison—Intending to keep him until the feast was over. The Passover was celebrated in the month of Nisan, and Peter was imprisoned during the feast.

5. Prayed—The only weapon they used without ceasing—"Earnestly."—R. V. These prayers brought about his deliverance. The church—The church was not in the city because of the persecution which would make public services dangerous.

6. The same night—The night preceding the day on which Herod intended to bring him forth for trial and execution. Peter was sleeping. Blessed sleep! "He giveth his beloved sleep." Peter had nothing to do with his Master, and he did not know how his end was to be, yet he knew how he was to die. John xxi. 18, 19. "His peaceful sleep was the triumph of faith."

7. Angel—came to him in the night and delivered him. The deliverance was delayed until the last moment. The church—The church was not in the city because of the persecution which would make public services dangerous.

8. Gird thyself—In order that he might sleep more comfortably, he had laid aside his belt, or girdle, his sandals and his tunic. Blind on thy sandals—This was a shoe made of the foot, and was fastened about the ankles with straps.

9. And he went out—Guided by the angel, he met his opposition in his way. He was led by the angel safely out of all danger. And wist not—He knew not.

10. Ward—The terms ward and guard are but different forms of the same word.—Whedon. The watches, or wards, here mentioned seem to have included the staid guard of the prison, as well as the soldiers especially appointed to keep Peter.—Scott. They were probably asleep. Iron gate—Although locked and barred, it opened at their approach! Departure—Supernatural aid was unnecessary longer; the apostle could now direct his own steps.

The day of sarsaparilla, sulphur and cream of tartar, and salts as spring medicine has gone by. People are beginning to listen to the advice of their physicians and build up their systems by the use of such preparations as Dr. Chase's Nerve Food.

The strong point in favor of the great food cure is the fact that it actually creates new, rich life-sustaining blood, and builds up the system gradually and naturally. For this reason it is the most satisfactory spring medicine that you can possibly obtain, and its results are permanently beneficial.

The tired languid feelings that tell of low vitality and an exhausted constitution disappear before the vitalizing, upbuilding influence of this great restorative. It conquers disease by filling the system with health, energy and vigor.

Mrs. S. Thompson, 240 Munro street, Toronto, Ont., states: I wavered much run down in health, and whenever I exerted myself more than usual I had severe attacks of splitting headache, and was very nervous, so much so that I could not rest well at nights. After using Dr. Chase's Nerve Food I found that my nerves were steeper, I could rest and sleep better than I have for a long time, and was entirely free from headaches. I can speak very highly of this preparation for nervous trouble.

Dr. Chase's Nerve Food has the endorsement of the best people in the land—physicians and laymen alike. It is bound to benefit any one who uses it, because it is composed of the most potent restoratives of nature. 50 cents a box, 6 boxes for \$2.50. At all dealers, or Edmanson, Bates & Co., Toronto.

THE MARKETS

Toronto Farmers' Market.

May 5.—The grain receipts were light on the street market this morning. Prices were steady.

Wheat—Was steady, 50 bushels of goods selling at 73 to 78c per bushel.

do light	3.75 to 4.00
Milk cows, average	3.00 to 4.00
Sheep, ewes, per cwt.	4.00 to 4.60
Lamb, yearlings, per cwt.	3.00 to 3.50
do spring	3.00 to 3.50
Hogs, choice, per cwt.	6.75 to 6.00
Hogs light, per cwt.	5.50 to 6.00
Hogs fat, per cwt.	6.50 to 6.00

Bradstreet's on Trade.

Business at Montreal last week has been of fair volume. The demand from country trade centres for sorting parcels of seasonable goods has been better, but it is expected that with the first pronounced burst of hot weather the movement will show a marked revival.

Trade at Toronto has been rather quiet this week owing to the cool spell of weather experienced, the demand for light summer goods being rather less than looked for on the opening of May. The conditions of trade are healthy and generally satisfactory, being, it is generally felt, in good shape for an expansion in the demand when the retail season gets fairly under way. At Hamilton this week, as reported to Bradstreet, there has been a good demand for summer goods to sort stocks. A marked improvement in the retail demand is expected with the first appearance of summer weather. Large shipments are being made to the West, where there is an increased demand owing to the large increase in the population reported from many sections of the country, and this market is getting its fair share of the expansion in the trade in that part of the Dominion. Values in wholesale trade continue to be fairly maintained.

Business at Quebec in general is fully up to the standard for the season. There has been more activity in trade at Winnipeg the past week. There is a good deal of grain moving now and money is being more freely circulated.

At London this week there has been a fair movement in jobbing circles. The general prospects for trade are promising.

At Pacific Coast points the conditions of trade are not altogether satisfactory. There have been one or two important failures which appear to have made business men take a more conservative view of the situation. Business at Ottawa this week has been moderately active. The sorting demand for seasonable goods is expanding a little, and it is expected when the weather gets warmer that the jobbing trade will show more activity.

A Spring Medicine That is a True Tonic.

Dr. Chase's Nerve Food Builds Blood, Creates Nerve Force, Increases Flesh and Weight, and Makes Weak, Sickly People Strong and Well.

The day of sarsaparilla, sulphur and cream of tartar, and salts as spring medicine has gone by. People are beginning to listen to the advice of their physicians and build up their systems by the use of such preparations as Dr. Chase's Nerve Food.

The strong point in favor of the great food cure is the fact that it actually creates new, rich life-sustaining blood, and builds up the system gradually and naturally. For this reason it is the most satisfactory spring medicine that you can possibly obtain, and its results are permanently beneficial.

The tired languid feelings that tell of low vitality and an exhausted constitution disappear before the vitalizing, upbuilding influence of this great restorative. It conquers disease by filling the system with health, energy and vigor.

Mrs. S. Thompson, 240 Munro street, Toronto, Ont., states: I wavered much run down in health, and whenever I exerted myself more than usual I had severe attacks of splitting headache, and was very nervous, so much so that I could not rest well at nights. After using Dr. Chase's Nerve Food I found that my nerves were steeper, I could rest and sleep better than I have for a long time, and was entirely free from headaches. I can speak very highly of this preparation for nervous trouble.

Dr. Chase's Nerve Food has the endorsement of the best people in the land—physicians and laymen alike. It is bound to benefit any one who uses it, because it is composed of the most potent restoratives of nature. 50 cents a box, 6 boxes for \$2.50. At all dealers, or Edmanson, Bates & Co., Toronto.

Athens, Apr. 1902.

ALL THE NEWS OF THE TOWN

The Events of the Week
Chronicle for Reporter
Readers

—Westport is going to celebrate on the 1st July.

—Mr. T. G. Stevens' cabinet shop is receiving a coat of paint.

—Every house in the village of Malorytown is occupied at present.

—Miss Bella Covey, Brockville, visited friends in Athens last week.

—Miss L. Cole, Brockville, visited her sister here a few days this week.

—Tapestry Carpet worth 50c yd for 43c a yd at BAIRD BROS., Brockville.

—Mr. A. E. Donovan is building a barn on his property on Elgin street, south.

—Pants, first class material and good fit for \$4 to \$5, at A. M. CHASSELS, Merchant tailor, Main street.

—Mrs. W. G. Parish has as a visitor this week, her mother, Mrs. A. Patton, Iroquois.

—Rev. Rural Dean Wright is in Prescott this week, attending a meeting of the Deacons of Leeds.

—Mr. Joshua Weart who has been in attendance at Trinity College, Toronto, is home for vacation.

—Mr. and Mrs. Plunkett, of San Francisco, are on a visit to Mr. and Mrs. A. E. McLean, Elgin street.

—Mr. A. E. McLean and two assistants are busy getting a number of monuments ready to place in position.

—Mr. Nelson Earl is making the addition of a woodshed and summer cook house to his residence on Sarah street.

—Mr. Percy Alford and family, of Phillipsville, are removing to Athens. They will occupy Mrs. Johnston's house on church street.

—Messrs. J. P. Lamb & Son have purchased a new sawing for their store. Several others of our merchants might take the same step.

—The cheese train over the B. & W. made its initial trip for this year on Friday last when it conveyed over 1,000 boxes of cheese to Brockville.

—There is said to be 150 cases of small pox in Valleyfield, Que., and it is rumored that the large cotton mills situated there are to be closed in consequence.

—W. J. Webster, Westport, has purchased a lot of wood working machinery at Durham, Ont., to be placed in his new mill at Edmonton, Alberta.

—Messrs. J. P. Lamb & Son are putting in a first class soda fountain this week capable of producing six flavors. You can now drink your best girl's health in soda water.

—A SNAP.—We have just rec'd a line of Mercer silk in all the new shades, worth 18c, bought so that we can afford to sell it at 12c per yard—T. S. KENDRICK.

—Mr. George Hutchison, who last summer obtained a second class certificate at the Athens High School is attending school here again. He intends trying for matriculation this summer.

—Sim Manhardt was breaking in a bucking bronco, belonging to I. C. Alguire, yesterday, and created lots of sport for the on-lookers. He stuck to his job like a veteran and came out victorious in the end.

—The auction sale of Indian ponies brought from Alberta by Mr. Morton C. Knapp was largely attended on Saturday afternoon. The ponies were in a poor condition but the whole carload was disposed of at fair prices.

—The Gananogue Reporter of the 3rd inst. announces that Mr. Chas. E. Britton has consented to be the candidate in South Leeds at the approaching provincial election. He was promised loyal support from all parts of the riding and finally concluded to be the party candidate.

—You will find at T. G. STEVEN'S a large and well selected stock of furniture of all kinds from kitchen furniture to parlor suites and oak bedroom suites, also a fine assortment of picture moulding. Undertaking supplies of all kinds, black, white, grey and varnished caskets and gents' and ladies' burial robes.

—Miss Ethel Reynolds, of Westport, well known to Athenians, was married on Wednesday last to Ernest Ely, of New York City. The ceremony was performed in the Knox church, Westport by Rev. Mr. Ryan in the presence of a large number of people. The bridal party left that evening for New York by special train over the B. & W.

—IRON BLOOD PILLS.—The only genuine Iron Blood Pills have our name on the wrapper—J. P. LAMB a name you see that you get them. If you are ailing, have that jaded, tired feeling, sleep, no ambition, no appetite, languor and generally out of sorts, your blood is out of condition. You need a tonic to build you up and remove all these unpleasant feelings. No other tonic is equal to Iron Blood Pills. They start at the root by being slightly laxative, removing the secretions of a winter's accumulation, and supplying the iron to build up the system. Use no others.

—Two suits from \$14 to \$17 at A. M. CHASSEL'S tailor shop.

—W. & F. Cameron, lime manufacturer, Carleton Place, are building a kiln at Delta.

—Addison Council of Chosen Friends has taken in fifty new members within the past two weeks.

—Mr. John A. Rappel soon disposed of a car load of 500 bushels of potatoes he received last week.

—Mr. M. Anglin, McIntosh's Mills, is building a fine new brick residence to replace the one recently destroyed by fire.

—Farmers.—Prices of pork and cheese away up and likely to stay there. Plenty of feed at ATHENS GRAIN WAREHOUSE.

—The Rev. E. M. Rowland has been appointed to the vacancy in the parish of Newboro and preached his first sermon there on Sunday May 4th.

—A number from here are in attendance at the Regimental fair, being held in connection with the opening of the new Drill Hall, Brockville.

—Mr. S. Y. Bullis added three Indian ponies to his ranch at Lake Elzetta this week which makes 16 animals he has pasturing there.

—APPRENTICE WANTED.—Young man about 18 years. Apply to G. N. Asseltine, jeweller and optician, Gananogue, with photo and references.

—Thursday next, being the festival of the Ascension, there will be a celebration of the Holy Communion, with sermon, in Christ church at 10.30 a.m.

—French Taffeta Silks, black and colored, worth 75c for 50c at BAIRD BROS., Brockville.

—The services in the parish of Lansdowne Rear, next Sunday will be as follows:—10.30 a.m. Lansdowne Rear; 8 p.m. Delta, service for the I.O.O.F.; 7 p.m., Athens.

—Report all loose or broken planks in the sidewalks to either of the road commissioner C. L. Lamb or Wm. Jacobs, and they will see that repairs are made at once.

—A thimble party was held at the residence of Mrs. Lennox on Thursday last. It is needless to say that a large amount of work was accomplished and an enjoyable time spent.

—Hong Lee, the Chinese laundryman who opened up a shop in the Dowling block a week ago, is meeting with a fairly liberal patronage. He is doing good work and attends right to business, like the majority of his race.

—Mr. Thomas Thompson, of Vermont, is here on a visit to his brother, Mr. Joseph Thompson. Thomas spent several months here in his brother's store a few years ago and while here made many warm friends who will be pleased to renew his acquaintance.

—Among those under quarantine at the Island City Boarding House, Brockville, in which a case of small pox developed recently, are Messrs. Arthur Lee and Chas. Hillis, of Athens. The boys have the sympathy and best wishes of their Athens friends in their confinement.

—The Gananogue Journal says:—Mr. John Gibson who owns the Tremont Park Hotel, is removing his family over to the park this week. The house has been thoroughly renovated and painted, both inside and out, and will make a decided improvement. The dining room has been considerably enlarged, which no doubt will be much appreciated by all the patrons of this house. Mr. Gibson has a large number of guests booked already for the summer months. Mr. Gibson is well known in Athens and vicinity having moved from here to take charge of the Tremont Park Hotel. Parties visiting Gananogue this summer will be assured of a comfortable hospitality by calling on John at the Park Hotel.

—The case of McCreedy, vs Gananogue Water Power Company was before the court of appeal last week. G. H. Watson, K. C., for defendants, appealed from judgment of Lount, J. Action for injunction restraining defendants, the owners of a water power at town of Gananogue, fed by Wiltse creek and Gananogue river, from opening their dam and letting water flow down on plaintiff's lands and for damages. Up to 1900 defendants compensated plaintiffs for damages suffered by them, but have refused to allow any compensation for year 2900, and set up that the damage alleged to have sustained is the result of the situation of the plaintiff's lands, and that any payments made to present plaintiffs or other riparian proprietors were made for the sake of peace and not intended as admission of any liability to pay same. The trial judge held that defendants had not the right to cause water to flow on plaintiff's land other than the natural flow of Wiltse Creek, or to so control or manage the dam at outlet of Charleston Lake as to cast more than the natural flow of water upon plaintiff's lands, and granted a perpetual injunction, and awarded damages to plaintiffs. R. T. Walkem, K. C., for plaintiffs, opposed appeal. Reserved.

CARD OF THANKS.

To the officers and members of Athens Council, No 176, C. O. C. F.:

DEAR FRIENDS,—I hereby desire to extend to you my sincere thanks for your very kind resolution of condolence, and also to extend my thanks to the Grand Council for the prompt payment of \$1,000, the amount of insurance held by my beloved daughter, Annie G. Ross. I received the cheque within 14 days from the time the proof was sent in, which I am sure speaks well for the society. I remain,

Yours in F. A. & P.,

JAMES ROSS.
