INVESTIGATION INTO CHILDREN'S SHELTER SHOWS THE HEAVY TRIALS THE SOCIETY HAS HAD TO CONTEND WITH

lack of Help and Not Enough Accommodation, but Things Have Wonderfully Improved, With Even Better Prospects For the Future.

The County Council committee named to investigate the Children's Aid Shelter complaints held a session in the Grand Jury Room last night. President Claus and other members of the Children's Aid Society were present, including Mrs. J. S. Campbell, Mrs. C. M. Gibson, Mrs. Rogers, Mrs. Herbert Meyer, D.C. Hethington, E. Poole, C.M. Gibson, Mrs. Davis, the matron, Mrs. D.C. Hethington, Mrs. Culp, Mrs. C. H. Claus, Mrs. Collins, Mrs. C. Taylor, Mrs. Johnston, Clerk and others.

The members of the County Council Committee were: Reeve Richardson, chairman; Reeve Mitchell, Deputy Reeve Revett, Niagara, and Deputy Reeve Haynes, Gran-

am. The evidence showed that while the Children's Aid Society has gone through much trial and tribulation in conducting the shelter, the untiring energy of noble women of the city is the only thing that saved its collapse, splendid things have been accomplished and that when the improvements and enlargements to the building are completed, even better things will come in the future.

C. H. Claus at 8.20 arose and announced that there had been some misapprehension regarding the calling of the meeting. Some charges had been made against the management of the Children's Aid Shelter. The Children's Aid Society had nothing to hide and asked for the investigation.

He felt that it was up to the county council to proceed with the investigation. The society was ready to open the books and answer any questions. But until proven guilty the members wished to be considered innocent, which was all that any one could ask.

Reeve Richardson took the chair and said the criticism had been made of the Children's Shelter, an institution which received a great deal of public money. The committee had been things at the shelter which they did not approve of.

Mr. Richardson did not consider that he was there as a judge at an investigation. He invited all who had any questions to ask or information to give to come forward.

Mr. Claus reiterated that the committee had been ordered by the county council to make an investigation and report. The society was there to answer any questions.

Reeve Revett said the committee would like to know the ones who were responsible for the feeding, clothing and general care of the children.

C. M. Gibson advised taking up some question at a time.

W. J. Westwood said it would be well to hear from the man who made the charges in the county council.

Reeve Mitchell of Grimsby admitted that he was the man. He said he didn't think there was a disposition to blame anyone. He thought the committee would meet the city committee and talk things over.

What he said at the county council meeting he would repeat there. He didn't think the Children's Shelter was a credit to the county.

"We admit that," said several ladies.

Mr. Mitchell said the committee had considered the buildings and the grounds not suitable and they did not think the children were properly clothed or fed.

The committee did not think it advisable, perhaps, to spend any more

Not "Old World" Scene But New World Problem

"Don't argue, just show me." Here's an attempt by the church to do in picture what has so often failed in sermon—to convince church-going Canadians that it is worth while to spend millions of dollars in Canada in the attempt of an "Old World" scene. It is "Old World" enough—happy Italians at a photograph taken in Toronto's slummiest centre, "The Ward." Greatly enlarged and embellished with design, it is the feature of a book on national problems which the

Methodist National Campaign has just issued in connection with the effort to raise \$4,000,000 in an every-member canvass, February 9-14. Artists say that the photograph is fine enough to be a good painting of an "Old World" scene. It is "Old World" enough—happy Italians at cards after work. Cards! And no effort is made in the whole production to brand the group as degraded foreigners. Rather they are treated as "New Canadians."

money on the place when it is not satisfactory. Perhaps the trouble has been a lack of money. If so, the committee wished to know why didn't want investigations—merely information.

Mr. Claus said the Children's Aid Society was an unpaid organization outside of Agent Boyle. They wished to do the best they could and were striving to do so. Scarcity of labor handicapped them.

It was no fault of the Children's Aid Society that they have that building. It was bought by the city and county and handed over to them. They were rushing the alterations as fast as possible.

They expected at the beginning there would be no more than ten children, but when the war came on the number was greatly increased. They admitted the place was overcrowded, that the beds were not as they should be.

They had been up against it regarding help. It was impossible to get the kind they needed.

Speaking of what Mr. Boyle was reported to have said to the county council Mr. Claus asked him if he had complained of not having a proper system or set of rules adopted.

Mr. Boyle said he had been properly reported. He had made this complaint a year ago in his report.

Mr. Claus said rules were drawn up. Inspections were made nearly every week by Mrs. Taylor.

Mr. Boyle complained of changing help too often.

They had engaged Mrs. Pegg and she staid there till she died.

"You couldn't expect us to keep her there any more," intimated Mr. Claus, with fine sarcasm.

Mr. Claus began to name over the other two women, Mrs. Housell and Mrs. Davis, and asked Mr. Boyle if he had been satisfied with them.

Mr. Boyle said he didn't know any thing about them. He had merely complained of insufficient help.

Mr. Revett wanted to know finally if Mr. Claus were carrying on an investigation or merely making a report. If so, he wished Mr. Claus to get along as fast as possible.

"We have our minds set the certain things are wrong and we intend to remedy them," said Mr. Revett.

Mr. Claus replied that he wished (continued on page 2.)

Mrs. Edward Jones Passes Away After A Long Illness

Gwendoline Violet May, beloved wife of Edward Jones, 13 Taylor avenue, passed away, aged 22, after an illness of nine months.

The late Mrs. Jones, who was born in Exeter, England, was a daughter of the late Harry Harris, and came to Canada when she was fourteen years of age, settling in St. Catharines, where she married, and has resided ever since. She was a member of St. George's church, and was a faithful worker in every organization.

Besides her husband and one husband and one son, Ross, she is survived by her mother, Mrs. Harris, one sister, Mrs. Wm. Short; and three brothers, Harold, William and Earl Harris, all of St. Catharines.

The funeral will be held from the family residence, 13 Taylor avenue, on Thursday afternoon at 1.30, after which the remains will be taken to St. George's church at two o'clock. Interment will be at Victoria Lawn Cemetery.

A. H. Trapnell Likely to Be First Chairman

This evening the new Board of Education will organize for business at the City Council chamber. The meeting will commence at eight o'clock. There will be one important item of business to deal with, the election of a chairman.

Several names are mentioned, but it is quite likely A. H. Trapnell will be the selection. Mr. Trapnell headed the poll and by virtue of experience and capability is considered the proper man for the position.

His untiring work in connection with the new Collegiate site also entitles him to consideration. The appointment of a secretary-treasurer of the board must also be made, but whether this will be done tonight or not is uncertain.

C. T. McBride, the secretary of the Old Public School Board, is the likely appointee.

First Annual Ball Of Lawn Bowlers A Great Success

There was a crowd last night at the first annual ball of the St. Catharines Lawn Bowling Club in the Prince of Wales ball. Everything turned out most pleasantly and it was most successful from every standpoint. Quite a number of guests were present from out of town, the full number present running between 350 and 400. Cards were played by those who couldn't or didn't care to dance. Many beautiful costumes were worn by the ladies. So successful was this first annual ball that the club has decided to hold one every winter.

MURDERED GIRL'S RECORD SOUGHT

NIAGARA FALLS, N.Y., Feb. 4.—W. R. Baldwin, chief immigration inspector here has been requested to forward to the police of Cleveland, O., all information he had gathered concerning the records of Mrs. Frances Stockwell, the chorus girl who was found murdered in that city on Monday.

Mrs. Stockwell who, the police say was also known as Frances Altman, passed through Niagara Falls on the night of January 18 on her way from Canada to Cleveland. At that time she said she was a member of the French Erotica company.

Numerous stock breeders associations were in session in Toronto yesterday.

Shortage of power in the province last week was attributed by Hydro officials to troubles with ice at Niagara.

WOMAN WHO ACCUSES HUSBY OF NON-SUPPORT HAS TO PAY THE COSTS AND NEARLY GOT IN TROUBLE

PIN THEIR FAITH TO THE CHURCHES

Public men, east and west, are not slow to see the possibilities for national betterment in the great Campaign of the Churches. Premier Drury of Ontario, himself a leader in the little Methodist Church at his Crown Hill farm, says he believes "the Inter-Church Forward Movement can do more for Canada than all other movements combined." Mr. Bell is chairman of the Methodist National Campaign.

Await Army View On More Diversions At Niagara Falls

State Department Hasn't Considered New Treaty With Britain, Says Lansing.

WASHINGTON, Feb. 4.—Representative James M. Mead of Buffalo has received from Secretary Lansing of the State Department a reply to a letter asking whether the State Department has considered the question of concluding a new treaty with Great Britain for additional water diversion at Niagara Falls.

Mr. Lansing says that negotiation of a further agreement with the British Government has not been under consideration by the department.

"As of possible interest to you, however," the letter adds, "I may call your attention to public resolution number 8 of the sixty-fifth congress approved June 30, 1917, authorizing and directing the secretary of war to make comprehensive and thorough investigation of the entire subject of water diversions from the Great Lakes and the Niagara River, including navigation, sanitary and power purposes and the preservation of the scenic beauty of the Niagara River. It is understood that the report of the war department is now in the course of preparation and it would seem that any action in the premises should be deferred pending receipt and consideration by Congress of that report."

THE WEATHER

TORONTO, Feb. 4.—The depression mentioned yesterday is still over the South Atlantic states while the cold wave is centered over the Northern portion of Ontario. The weather has been fair in Canada and for the most part cold-zero temperatures from Manitoba eastward.

FORECASTS—Fresh to strong northeast to north winds, fair and cold to-day, some local snow on Thursday.

Mr. A. Hicks of Centralia was named party whip by the U.F.O. members

Husband Accused Her of Various Misconduct, Including Whiskey Running—Steeple Jack Smith Decides to Go to a Jury—Indians Figure in the Docket

"I plead not guilty and elect," but also stated that she has been sub-junctly stated James Smith of steeple-climbing fame, in police court today, when arraigned on a charge of maliciously destroying property at the Mansion House by smashing windows and other property in a drunken rage.

He said he would go before a jury in the high court.

Smith also pleaded not guilty to striking Mrs. Slough, proprietor of the Mansion House.

Mrs. Slough said she had ordered Smith to leave the house because he had used a vile insult toward a young man. Smith broke nineteen panes of glass and damaged furniture.

Terrance McCarron, Smith's counsel, here declined to defend him unless he took his advice to have his trial before the magistrate.

Smith then wanted a remand to get another lawyer, but as it was merely a preliminary trial, it was decided to go on with the case.

Mrs. Slough said she had paid over \$50 for new glass.

A young lad told of seeing Smith in his orgie of destruction.

He was charged with assault, and the charge of assaulting Mrs. Slough will be heard on Monday.

Bail of \$300 was accepted. Smith got it from the bank.

Jess Clause, an Indian, with a much battered head, pleaded guilty to being drunk and was fined ten dollars, which he paid.

Angus Back, another Indian, was charged under the Indian act with being drunk. He paid ten dollars.

Four Teacups of Whiskey

Charles Overholt, a caretaker at 40 St. Paul street, was accused of supplying liquor to an Indian, to wit, Angus Back. Back doesn't look like an Indian, but rather like an intelligent, good-looking white man.

He was well dressed and wore spats. He said he belongs to the Six Nations tribe and came here last June, attracted by a room from Overholt at 40 St. Paul street. He is employed at the Welland Vale. Monday evening Overholt called him into a room and gave him four good drinks of whiskey in a teacup.

"Are you sure he gave it to you, or did you buy it?" asked the magistrate.

"No, I didn't pay for it. He gave it to me."

Overholt got an adjournment till tomorrow in order to get some witnesses.

Non-Support Charge

Joe Kurea was accused of non-support of his wife and six children.

Mrs. Kurea, a rather attractive middle-aged woman, said they were married seventeen years ago in Poland. Seven years ago they came to Canada and lived in Toronto and Hamilton, and then came to St. Catharines. She, herself, lives in Montreal, where she works, getting \$44 a month. He had never paid her very much, but in the past two years he has given her eighty dollars in all. He visits her occasionally at Montreal and beats her, and had on several occasions threatened to kill her.

A letter written in Polish by Kurea to his wife, in which he accused her of carrying on with other men in Montreal, and promising to come there on Saturday and "fix her," was read.

Kurea went on the stand, and not only accused his wife of infidelity,

plying liquor in St. Catharines. He would support her if she would agree to come back to St. Catharines and live with him. They have two other children in the old country, a boy of seventeen and a girl of fifteen, and he wanted to bring them here and have the whole family re-united.

Mrs. Kurea was recalled to the stand and declared the story about whiskey running was all moonshine. She had brought her brother whiskey once. She had come here five times since she went to Montreal two years ago. She came to see her brother, not her husband. Her brother was convicted on a liquor charge.

Kurea had stated that his wife had brought whiskey as far as Hamilton, where she had abandoned it because the Toronto police got on the scent. The police got the whiskey but didn't get his wife, Kurea said.

Mrs. Kurea denied the truth of this. She said she didn't want Kurea's support. She only wanted him to let her alone. She said she had \$100 with her.

"Well, you pay the costs of this case and go back to Montreal and stay there," said the magistrate.

"You are a whiskey runner and can afford to pay the costs."

They amounted to \$24.

Razor Wielder Finds Another Victim at Falls

Second Attack in Twenty-four Hours Causes Police to Believe Maniac is Aboard.

NIAGARA FALLS, Feb. 4.—Caroline Calao, forty-five years old, who lives at Ferry avenue and Fifteenth street, is in Mount St. Mary's hospital with several deep gashes on his right cheek and his chin. He was attacked by an unidentified young man while standing before Jas. Sharbat's saloon in East Falls street near 11th street, at 7.30 o'clock yesterday morning. The man cut Calao with a razor.

The attack was similar to the one made on John Karam the morning before and the police are inclined to believe that someone with a mania for razor-slashing is at large on the east side. Residents of the district are terrorized as a result of the two assaults.

Calao told the police that he did not know who his assailant was, and could not give a reason for the attack made on him. He said he had just left the saloon for a minute outside the door when the stranger approached him and slashed him several times on the cheek and chin. His assailant then ran up the street and turned into Twelfth street.

Patrolmen were sent to the scene in the police patrol, but a search of the neighborhood failed to result in finding the wielder of the razor.

Karam was assaulted as he stood in front of his home, but was not so seriously injured as Calao.

Detectives Calahan and Keenan are investigating the assault on Calao. They say they have learned that the descriptions of the man who assaulted Karam and that of the man who cut Calao do not tally. But friends of the two victims say the same man committed each attack.

THE FORWARD MOVEMENT

In referring to the great Forward Movement of the Protestant Churches of Canada, as an endeavor to provide the moral and spiritual leadership necessary to direct the thoughts and activities of the people in quest of the nobler ideas of life, the Stratford Herald in a strong and able editorial says:

"Realization of the confusion of mind which has accompanied the advent of peace, has been the incentive to the broad Forward Movement that is now occupying the churches. It aims at the restoration of spiritual, moral and material values as the only sound foundation on which to build a regenerated world fabric."

Things promise well for this movement in St. Catharines and the surrounding District. The Every Member Canvas will take place from February 9th to 14th inclusive.

Wall Street was characterized by heavy selling. The public apparently was inclined to take a more pessimistic view of the situation.

THE STABLE IN WINTER

Keep Your Dairy Cows Comfortable and Clean.

Spray the Place With Whitewash—Add Some Germ-Killer—Fill In All Broken Window Panes, and Provide Other Ventilation—Care of Plants in Winter.

THE period of long, cold winter is here. Of necessity, your milking cows must have special protection from the cold, and at the same time must be made as comfortable as possible.

The whole of the inside of the stable should have a thorough cleaning. The dust and cobwebs should be swept from the walls, ceiling and windows; the windows should be thoroughly cleaned, also the mangers and stalls. Then spray whitewash all over the inside, except the windows. To the whitewash add some disinfectant such as a carbolic acid preparation or a chloride germ-killer. This will kill disease germs, lurking in dark, damp places and maintain the health of the animals, which is at the foundation of profitable milk production.

Cow stables need ventilation in winter by having the foul air removed and fresh air introduced without a draft directly on the cows. A simple way to do this is to hinge all windows at the bottom and allow them to open inward, as to shoot the air toward the ceiling. There should be a V-shaped board at each side or end of the window, to prevent the side-draft. Foul air outlets should extend below the ceiling of the stable, and preferably have two inlets for foul air—one near the floor and one at the ceiling, as in this way the foul air is removed without cooling the stable too much by simply closing the top outlet. No system of cheap ventilation works automatically. They all require some attention.

Other points in stable preparation are to have all the secure, the plant cover may not get broken, repairs to mangers and gutters should be made so that they may be kept clean and sanitary without too much labor. Litter and feed carriers are great savers of labor in looking after a herd of milkers during the winter.

Care of Plants in Winter. Water growing pot plants only when they need it. When the soil is thoroughly dry. When the soil begins to get dry and powdery on the surface, or when the pot is tapped with the knuckles or a knife handle and it emits a ringing sound, the plant requires water. Give sufficient water so that it runs out through the bottom of the pot. Water plants in the morning in cold weather, not at night. Use tepid rain water, or water that has been exposed to air and sun for a day or two, if possible. The water should be lukewarm, about 50 to 60 degrees F. in winter.

Fumidity in the atmosphere is one of the main reasons why plants are not so successful with plants indoors. Place pans or saucers of water on the heaters or registers. A steaming kettle or pot of water on the stove is a great help in this respect.

When the pots become full of roots, or where the soil is poor, worn out or exhausted, liquid fertilizers can be given plants. The soil should be moist, not dry, or very wet, when the fertilizer is applied. There are several good plant foods sold at seed stores. "Sterling Worth Plant Tablets" or "Bonora" are both good.

Plants having very rough or scaly foliage, should not be sprayed or sponged, especially in winter, only the plants having glossy, glabrous foliage. Insect pests increase and thrive best in a dry, warm atmosphere. For aphids or green lice, white fly, red spider and thrip, "Sulpho-Tobacco Soap" is a good remedy. Black Leaf 40 is also a good remedy for most insect pests on house plants. Soapy water or a solution of whole oil soap and tobacco water are beneficial for scale insects on plants.

Slake about one-half pound of fresh lime in a pail of water, allow it to settle. Give about a teaspoonful of this solution once or twice to each plant suffering from earth worms. Put frozen plants in a dark place at once, temperature about 45 degrees F. Do not touch the leaves. Sprinkling with ice cold water is beneficial.—W. Hunt, O. A. College, Guelph.

A Chat About Chickens. In very cold weather to make them comfortable and to keep her in good condition feed (a little at a time, of course, in the afternoon or other litter) some kind of mixed grain.

Milk to drink, or about a pound of meat or its equivalent in beef scrap each day, is required to supply material for the building of the egg white for twenty days.

The stewards of the Royal Henley Resatta have declined to postpone the event to permit American College crews to get to England in time to row.

THE WONDERFUL FRUIT MEDICINE

Every Home in Canada Needs "FRUIT-A-LIVES"

To those suffering with Indigestion, Torpid Liver, Constipation, Sick or Nervous Headaches, Neuralgia, Kidney Trouble, Rheumatism, Pain in the Back, Eczema and other skin affections, "Fruit-a-lives" gives prompt relief and assures a speedy recovery when the treatment is faithfully followed.

"Fruit-a-lives" is the only medicine made from Fruit—containing the medicinal principles of apples, oranges, figs and pines, combined with valuable tonics and antiseptics. 50c a box, 6 for \$2.50 trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Toronto, Ont.

VIOLATORS OF LIQUOR LAWS PAID \$12,507 IN CROWLAND DURING 1919

According to the report of John A. Talbot, chief constable of the township of Crowland, violations of the Ontario temperance act by residents of that township totalled a large amount during the fiscal year just ended.

According to his statement, the total amount of fines collected during the year for violations of the Ontario temperance act, mostly for smuggling totalled \$12,507.65. The total number of cases during the year in Crowland was 655, of which violations of the Ontario temperance act constituted 184, gambling 26, theft 49, assault 59, opium 22, etc.

The Dominion Government has given the Navy League of Canada the honor "Besties" for training boys in practical seamanship.

SAVE MAKE CANADA SECURE

"SYRUP OF FIGS" IS LAXATIVE FOR CHILD

Look at tongue! Remove poisons from stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

CONTAGIOUS ABORTION

A Too Common Trouble with Some Farm Mares.

Cause of the Disease Discovers Method of Spreading—Measures for Control—Shell Bark Louse with Treatment.

CONTAGIOUS abortion of mares is due to a specific bacillus (Bacillus abortus) which gets established in the uterus, fetal membranes and foetus, setting up local inflammation leading to expulsion of the foetus dead or alive at any time during pregnancy.

The symptoms of contagious abortion are not usually in evidence until just before abortion takes place. Then the animal is liable to colic pains, restlessness and a bloody discharge is noticeable. The abortion, the symptoms being specific. There is a chordee-like fluid discharge from vulva which has a typical offensive odor, and the fetal membranes are inclined to remain intact, thus necessitating a liberal removal to prevent blood poisoning. The disease has been known in Europe for many years, but was not found on the American continent until 1884, when it appeared in the Mississippi valley. Since that time it has spread far and wide in the United States and Canada. Although many investigations were made in Europe and America, it was not until 1919 that the cause of the disease was discovered. In that year E. S. Good, of Kentucky, discovered the bacillus which causes the disease. The same year, Dr. Schofield, of Toronto discovered the same bacillus in some cases of joint ill in calves which had developed in districts of Ontario where contagious abortion of mares was prevalent and the following year found the same bacillus in cases of contagious abortion of mares in Ontario.

Method of Spreading.—The disease is spread mainly by the discharge from the vulva of aborting animals. If a mare that has aborted is allowed before all discharges from the vulva have ceased and the genitalia have been efficiently disinfected, this stallion is liable to get contaminated with the bacillus and spread the disease to other mares which he subsequently serves. If the discharge from an aborting mare are allowed to contaminate the bedding or materials that other mares come in contact with, then the mares are liable to contract the disease. Discharges are allowed to contaminate water or food materials which are given to other mares, the latter are liable to contract the disease.

Measures for Control.—The following measures were suggested by the Canadian Municipal-Sanitary Commission and subsequent reading: 1. Mares that have aborted must not be bred if there is evidence of uterine catarrh, even after the month of abortion. 2. Mares that have aborted must only be bred at the end of the following season. 3. Application of an efficient disinfectant to the external genitalia of the stallion after each service in a tested district. 4. Isolation of mare at first approach to aborting mares. 5. After abortion the foetal membranes should be burned, if possible, or buried deeply in quicklime. 6. Those handling the foetus should disinfect hands and clothing. 7. Bedding should be burned, the stall washed with a strong disinfectant. 8. External genitalia, the tail of a mare should be washed with a good disinfectant. Two per cent. bacteriol, lysol, or cresol, is satisfactory for this purpose. 9. Isolation of aborting mares maintained for at least a month until all evidence of uterine discharge has ceased.

Frosting the animal with druggists carbolic black wash, which is a tannic blue, though popular in some districts, cannot be recommended as being of any value.—Dr. J. H. Dean, O. A. College, Guelph.

Oyster-shell scale. This is a very common pest which also attacks not only oysters, but also pears, plums, currants and ornamental and shade trees. Full-grown scales are almost exclusively on the bark and are easily recognized by their oyster-shell appearance. They are about 1/16 of an inch long, 1-24 inch wide, and are closely the bark.

The injury is caused by their sucking the juices out of the bark, thus weakening the trees. When they are abundant, they almost completely cover the bark and in that case they kill either the whole tree or portions of the branches. Most infested trees, however, are not killed but are weakened.

Control.—Spraying the trees just before or just after the buds burst with lime-sulphur solution, 1 gallon to 8 or 9 gallons of water, is a satisfactory remedy. The regular Ontario Moth spray with one gallon of lime-sulphur to about 39 gallons of water, to which two pounds of arsenate of lead paste or one pound arsenate of lead powder is added will also help greatly, because it will hit the oyster-shell insects just after they have hatched, while they are still unprotected and easily destroyed. The scales may remain on the trees for several years after date of killing. Pruning the trees early makes it easier and cheaper to spray them well.—Prof. L. Caesar, O. A. College, Guelph.

Choice cut flowers, potted plants and floral designs, at all times. Walker's Florist, 104 St. Paul Street, Phone 763.

Peace Incomes and War Prices

TEN years ago a Canadian clergyman was forced by illness to retire from active work. The largest salary he had received in the forty years of his ministry was \$1000 and a furnished house. The average did not exceed \$800.

On this sum he had maintained and educated his family. He and his wife were given to frequent hospitality. They supported every good cause, and even contributed to the maintenance charges of the Church they served.

A Minister's Budget.

By good management and economy they were able to carry an endowment insurance policy, pay an assessment to their Church Superannuation Fund, and accumulate some small savings. When that clergyman was superannuated in 1909, he bought a house. His income during the first year of retirement was as follows:—

Table with 2 columns: Description and Amount. The retiring allowance from the Church (being \$10 for each year of active work) - \$400.00. Interest from investments - 100.00. Wedding fees and sundries - 75.00. Summer supply work - 100.00. Total: \$675.00.

Against this total of \$675 stood the charges for taxes, insurance and maintenance of the house; say, \$75, leaving a net annual income of \$600.

The Shrinkage in Values

Before the war, the rise in the cost of living had necessitated careful management of this income. Today, the pressure is too great to be borne. If the statisticians are correct, the dollar of 1913 is worth now in purchasing power about 47c.

Therefore, the real income available to maintain these people of refinement and culture is \$282 a year.

Do you say that this is an exceptional case? On the contrary, scores of retired clergymen are not so well situated as this one. Some are tasting the bitterness of destitution, since in a few instances no retiring allowances are provided for.

Veterans of the Cross

These men gave a lifetime of unselfish service for their Church, their country, their neighbors; visiting the sick, burying the dead, comforting the bereaved, preaching Christ crucified, and doing their part in making Canada "God's country." In a time when the payment of pensions to old employees is accepted as a reasonable thing by industrial firms, these veterans deserve more consideration than they have been getting from the Christian people of this Dominion.

The Forward Movements

The Superannuation, Beneficiary or pension funds of the five Communions co-operating in the United National Campaign must be largely increased to yield a reasonable and an adequate income for these old heroes of the pulpit. They ARE heroes. They make no complaint. They still are found doing all that their strength will permit for the great and noble Cause to which they devoted their lives. They still are enduring hardness as good soldiers of Jesus Christ.

National Peace Thank-Offering

Simultaneous Every-Person Canvass by Each Communion February 9-14

What Are You Going To Do About It?

This is not a question of Charity. It is a question of justice, of chivalry, of common honesty. Your Church is seeking, through the Forward Movement, to do its full duty to the retired clergymen. Your interest and your subscription are needed. Tell your Church leaders where you stand. DO IT NOW.

CHRIST AND THE CHURCH

BY J. E. MIDDLETON

In a recent article, The Woodstock Sentinel Review agreed that if Jesus Christ lived in this day, He would have as much trouble with the church members as He had with the Scribes and Pharisees.

In late years the Christian Church necessary ceremonial. He went up to the feasts. He was able, as a boy, to surprise the theologians by His knowledge of the Law.

It is always the misfortune of the Church to be judged not by its ideals, its aspirations and its principles, but by the actions and words of the inactive and careless members.

the priests that he might observe the citation with men and women of bad reputation was solely for their advantage and not for His pleasure.

The theory of Christianity has not been enlarged. It remains expressed in the marvelous teachings of Our Lord. But the Churches have broadened their conception.

No organization is perfect, however fine its principles. But Christ, while realizing the imperfections of the Jewish religious order, while denouncing the hypocrites it sheltered, still recognized the Church of His time.

Och! Bachache! Rub Lumbago or Stiffness Away

RUB PAIN FROM BACK WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOBS' OIL."

When your back is lame and sore or lumbago, sciatic or rheumatism has you stiffened-up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs' Oil" at any drug store.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!

Two carloads of whiskey and one of beer, estimated at nearly two hundred thousand dollars, was seized at Calgary by the Provincial police.

Gaby Says New Power For Next Year is Certain

HAMILTON, Feb. 4.—The City Council last night held an informal meeting for the purpose of hearing P. A. Gaby, chief engineer of the Hydro-electric Power Commission, explain the power situation.

The council at its last regular meeting decided to get information as to the availability of the power to operate Hydro-radials, the point being raised over the present power shortage.

Mayor Booker declared that he would not sign a single debenture for hydro-radials until he has assurance that there would be plenty of power. Mr. Gaby gave this assurance last night.

After three years overseas has resumed practice in diseases of the eye, ear, nose and throat and prescribing of glasses. Office hours 9 to 11 a.m., 1:30 to 4 p.m. and 7 to 8 p.m. Tuesdays 7 to 8 p.m. Sundays

work. By the fall of 1922, he asserted, there would be six hundred and fifty thousand horse power.

The present shortage was due to ice, but this trouble would not be encountered with the Chippawa plant, because the water would be drawn from the bottom of the river instead of the top, and there would be no ice trouble.

He stated that municipalities had voted in favor of two hundred miles of hydro-radial lines, and these would not require more than ten or twelve thousand horse power to operate them.

Fred Fulton knocked out John L. Johnson in their bout at Boston last night.

New York Funds advanced to 15 per cent. and closed at 14 3/4.

DR. J. G. SUTHERLAND

After three years overseas has resumed practice in diseases of the eye, ear, nose and throat and prescribing of glasses. Office hours 9 to 11 a.m., 1:30 to 4 p.m. and 7 to 8 p.m. Tuesdays 7 to 8 p.m. Sundays

THE DOMINION BANK

At the Forty-Ninth Annual General Meeting of the Shareholders of The Dominion Bank, held at the Head Office, in Toronto, on 28th January, 1920, the following statement of the affairs of the Bank as on the 31st December, 1919, was submitted:

Table with columns for LIABILITIES and ASSETS. LIABILITIES: Capital Stock paid in \$6,000,000.00; Reserve Fund \$7,000,000.00; Balance of Profit and Loss Account \$495,707.05; Dividend No. 149, payable 2nd January, 1920 \$180,000.00; Bonus, one per cent., payable 2nd January, 1920 \$60,000.00; Former Dividends unclaimed \$4,089.00. Total Liabilities to Shareholders \$12,739,796.05. ASSETS: Gold and Silver Coin \$1,980,342.69; Dominion Government Notes \$15,843,726.00; Deposit with Central Gold Reserves \$4,100,000.00; Notes of other Banks \$1,170,282.54; Cheques on other Banks \$691,267.03; Balances due by other Banks in Canada \$3,857.96; Balances due by Banks and Banking Correspondents elsewhere than in Canada \$1,988,043.33; Dominion and Provincial Government Securities, not exceeding market value \$8,790,080.39; Canadian Municipal Securities, and British, Foreign and Colonial Public Securities other than Canadian, not exceeding market value \$13,334,525.62; Railway and other Bonds, Debentures and Stocks, not exceeding market value \$1,906,115.44; Call and Short (not exceeding thirty days) Loans in Canada on Bonds, Debentures and Stocks \$9,352,534.25; Call and Short (not exceeding thirty days) Loans elsewhere than in Canada \$4,698,984.25; Other Current Loans and Discounts in Canada (less rebate of interest) \$65,396,248.68; Other Current Loans and Discounts elsewhere than in Canada (less rebate of interest) \$1,050,488.62; Liabilities of Customers under Letters of Credit, as per contra \$1,168,405.41; Real Estate other than Bank Premises Overdue Debts, (estimated loss provided for) \$74,566.85; Bank Premises, at not more than cost, less amounts written off \$5,407,180.30; Deposit with the Minister of Finance for the purposes of the Circulation Fund \$904,500.00; Mortgages on Real Estate sold \$22,680.94. Total Public Liabilities \$129,765,123.77. Total Assets \$143,504,919.82.

AUDITORS' REPORT TO SHAREHOLDERS. We have compared the above Balance Sheet with the books and accounts at the Chief Office of the Dominion Bank, and the certified returns received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches on December 31st, 1919, we certify that, in our opinion, such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs, according to the best of our information, the explanations given to us and as shown by the books of the Bank.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

Notice to Creditors

IN THE MATTER OF THE Estate of HOWARD HODGKINS of the city of St. Catharines in the County of Lincoln, Contractor, Insolvent.

NOTICE is hereby given that the above named Howard Hodgkins, carrying on the business of a contractor, in the said city of St. Catharines, has made an assignment under the R.S.O. 1914 chapter 134, of all his estate, credits and effects to Henry O'Loughlin of the city of St. Catharines in the County of Lincoln, sheriff of the said County, for the general benefit of his creditors.

A meeting of creditors will be held at the office of the Assignee in the Court House in the city of St. Catharines on Friday the thirteenth day of February 1920 at the hour of two o'clock in the afternoon, to receive a statement of affairs, to appoint inspectors and for the ordering of the affairs of the estate generally.

Creditors are requested to file their claims with the Assignee with proofs and particulars as required by the said Act, on or before the day of such meeting.

And notice is further given that after the thirteenth day of February 1920 the Assignee will proceed to distribute the assets of the estate amongst the persons entitled thereto having regard only to the claims of which notice shall then have been given, and that he will not be liable for the assets or any claims he shall not then have had notice.

TO FULL CITIZENSHIP.

Ottawa, Jan. 31.—Ex-employees of the Postoffice Department who went on sympathetic strike at Winnipeg, have, it is officially announced, been restored to full citizenship so far as their further employment by the Government is concerned. They may now re-enter the services as vacancies occur. Application will be made through the Civil Service Commission.

"What Shall I Do Then With Jesus, Who Is Called Christ?"

Pilate's Question Is Yours To-day

THE Church is not impersonal. It is a company of individuals, each of whom has expressed determination to acknowledge Jesus as Lord and God, to accept His teachings and follow His example.

The Active Christians

Those who persist in the Way find their lives radiant with hope. They have an object in living. They are not plunged into hopeless misery by bereavement. They develop character. They learn contentment. Being themselves men of hope and good-will, they are centres of hope and good-will in the world.

The Inactive Christians

Not all continue faithful. Many neglect to keep the Pattern before them. They cease to pray. They forego public worship. They become only nominal Christians. Their sympathies are on the side of Right, but they miss the full-orbed peace that comes from being obedient to the Heavenly vision.

Aiding the Enemy

Apart from their own loss, lukewarm Christians do positive harm to the Faith. Enemies never cite the lives of notable Chris-

tians as a proof of the inefficiency of the Church, or of the Gospel it proclaims. If, therefore, all lukewarmness should disappear the critics of Christianity would be confounded.

Where Do You Stand?

You are a Christian. Are you ardent or careless? Are you whole-hearted or half-hearted? Do you realize that the Church in Canada faces unprecedented responsibilities?

You believe that the Gospel of Christ is a perfect solvent of selfishness and class-hostility. Will you do your part to give it free course?

A Great Possibility

"Righteousness exalteth a nation, but sin is the reproach of any people." If all the Church Members of Canada would begin today to follow earnestly the principles enunciated by their Divine Master; if they would acknowledge their stewardship in full measure, the name of Canada would ring around the world. Therefore, the Question is to you:

"What shall I do then with Jesus, who is called Christ?"

A United Appeal

FIVE Christian Communions—Anglican, Baptist, Congregational, Methodist and Presbyterian—have in Canada ten thousand congregations, over one million communicants, and represent more than half of the population of the Dominion. Under the stimulus of five great Forward Movements, it is in the power of these people to root out the evils of materialism in Canada, and to conserve the spiritual values revealed by the chastisement of War. Are you ready for active service?

The Decision Is Yours

LET Christianity have a fair trial in your own life. Make Jesus Christ master in your home. Test the reality of prayer. It will give your life direction, purpose and power.

You can help to cure the ills of Canada and the world. Be prepared to serve. Begin NOW.

The United National Campaign

ASK THAT LIBRARY

BE MADE A TREE ONE

And School Board Exercise a Censorship Over the Books In It.

BRIDGEBURG, Feb. 3.—The much anticipated meeting of the Fort Erie Library Board, called in connection with the furore recently started by Rev. Canon D. R. Smith of St. Paul's Church, over the circulation of a certain book, was held yesterday.

It was decided to ask the Council to make the Library a free institu-

tion instead of a library maintained by subscriptions, as at present, and also to have the School Board exercise a censorship over the contents of the library.

The book, despite the criticism that has been leveled against it, is still in circulation. Many have failed to find anything sensational in it, only to be disappointed by the failure to find anything sensational in Canon Smith's declaration that it teaches morality and disrespect to God's parents.

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attached by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

Four Good Reasons for a National Forward Movement

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth on Him should not perish but have everlasting life."

DESPITE the four years' fury of War, and the year of uncertainty just ended, the people of Canada have prospered. Yet, spiritual glories revealed to us in the great Conflict are being clouded by drifts of class-hostility, mutual suspicion and cynical materialism.

The world is troubled. Old conceptions are giving place to new. Yet, the Kingdom of God remains, firmly grounded on the great principle of love. It has the one remedy for a world diseased:—"Believe on the Lord Jesus Christ and thou shalt be saved."

Five Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—call their various constituencies and the whole nation to a livelier and more sacrificial Christianity. They are making a great financial appeal. It is fitting that the public should know the reasons.

1 The Decline of the Dollar The sharp rise in prices the world over has affected injuriously the position of every man working for a fixed salary. Missionaries are in this category. Stipends that were ample in 1900, and nearly adequate in 1912, are utterly insufficient in 1920. There has been no general increase in these stipends. There cannot be, until the Canadian people scale-up their giving to balance the decline in purchasing-power of the Canadian dollar.

International exchange has been unstable. Money for export has been subject to heavy discounts. In view also of the increased cost of materials and of labor, any new building programme abroad has been out of the question. But the need for new buildings is imperative. Some missionaries are living in clay-floored huts.

New Standards are Necessary The Anglican Synods, the Baptist Conventions, the Congregational Union, the Methodist Conferences, and the Presbyterian General Assembly, have set new standards for the salaries of Clergymen actively engaged in Canada. But, for the Missionaries, and for the Superannuated Ministers, no increases have been possible.

One of the aims of the Forward Movement is to show the fine-spirited, generous, Christian people of Canada that the old standards of giving for Missions must be revised. It is impossible to maintain existing stations, even on a pre-War basis, without more men and much more revenue.

2 The Call from Abroad Coincident with this financial difficulty, new and glorious opportunities for the extension of Christian teaching have appeared. In India, literally millions of "outcastes" are pleading for Missionary preachers and doctors. In China, a new National spirit has been born. Missionary teachers are urgently required to help formulate the National system of education. Hospitals, Missionary nurses, doctors and dentists, are heartily welcomed by the people. From Japan, Africa and the Islands of the Sea, comes the same story.

3 The Home Responsibility Here in Canada, the work of evangelizing Indians and Eskimos must now be undertaken wholly by the Canadian Church. The rapid growth of our cities, the expansion of the West, the great immigration of the last twenty years, and the depopulation of rural areas, make a four-fold problem which can be solved only by radical readjustments of policy and greatly increased resources of men and money.

4 The Pressure on the Colleges Finally, the decline of the dollar has created difficulties in financing the Colleges and Universities established and maintained for the training of the Clergy. Last year, one College which had been able before the War barely to subsist, faced an additional charge for coal alone of \$1600. All other expenditures have risen in like proportion. Christianity has been the mother of Higher Education. A thoroughly trained Ministry is the great need of the times.

The men of faith, filled with the Holy Ghost, who proclaim the Gospel story by the frozen Coppermine, beneath the cone of Fujiyama, along the banks of the Yangtse and the Ganges are the product of our Canadian Colleges. There the Vision first appeared to them. The Church must stand behind these institutions.

The Unity of Faith and Prayer These are the facts. Faced with such conditions, the Church leaders, at first, were appalled. They went to their knees, first in separate denominational groups, then in company. Putting aside for the time being differences of religious temperament, considering only their common belief in the Everlasting Father, the Almighty Son, and the everpresent Holy Ghost, they prayed together. Then they arose, thrilled with a glimpse of the wonderful Missionary opportunity, to appeal together to the whole body of Christians in Canada.

The Greatest of All Gifts You are a believer in the Lord Jesus Christ, and in the Gospel He proclaimed. Your country has become great through Christianity. The hope and love of the Gospel have warmed your heart and illumined your life. Next week you will be asked by the representatives of your Church to show practical proof of your convictions. Be prepared—not to give a trifle out of your abundance, but to taste the full sweetness of Sacrifice.

OUR NATIONAL ECONOMIC PROBLEM.

The following interesting extract from an article by Mr. E. W. Beatty, president of the C. P. R. appeared recently in the Montreal Gazette:— "So much for the manner in which the transportation machinery of the country is carrying out its obligations to the Canadian producer. Other aspects of the transportation problem are less satisfactory. There are many people who look upon Canadian Railways as custodians of magic fortunes which cannot be exhausted. That bookkeeping should be as simple and inexpensive in its tale of losses and vanished profits to a railway as it may be to a corner grocer, is to these people unthinkable. It apparently does not occur to them that to no public is it more important than to the Canadian public that the good reputation of its railway securities in the world of credit and investment should be carefully guarded. To those, however, who understand these things clearly and who view the matter from the standpoint of broad public interest, it is at once apparent that the Canadian public pays a very high rate for the quality of service rendered. One that is rapidly approaching when, if Canadian railway securities are not to be made less desirable to investors than almost any other kind of industrial security, railway rates will either have to go up, or railway operating costs go down. Such persons recognize that it is not because the situation of the railways is an easy one that certain companies have been able to show net earnings—very low net earnings compared to the actual cash invested in the industry—but because in the past the shareholders of such companies have been, as they are to-day, courageous persons willing to supply the means for constructive enterprises in which no one but themselves had faith, and because their officers have been skilled, resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work. This, indeed, is the thing which has made it possible for Canada's railroads to function successfully during the war without making anything like the demands that foreign roads—less efficient in serving their community, yet earning the same rates and paying the same wages—have made up their public exchequers. I do not believe that this strain upon the railways and this tendency to weaken the general reputation of Canadian Railway securities should continue. The servant, after all, is worthy of his hire, and railway capital is not less worthy a servant than other forms of capital whose earnings have not been so consistently depressed. "The net earnings during the war years, of those companies which showed net earnings, would have been much lower had the Canadian railroads been making expenditures for maintenance which circumstances would have justified, but which conditions prevented during that period. These services have now to be made up. During 1919 the Canadian Pacific laid 70,000 tons of steel rail. In place of, say, 2,000,000 ties, worth 44c in 1914, the Canadian Pacific laid 4,624,000 ties at 85c per tie. The educational advance in the rate of railway wages is well known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$2.09 in 1913. Now it is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$1.604 in 1918, to \$2.494 in 1919. It is higher to-day. The operating expenses of one mile of line in 1915 were \$4,152; in 1918, \$7,046, and to-day they are even greater. On the other hand, railway rates, taking all classes of revenue together, have advanced scarcely 25 per cent. I venture to say no other industry in the Dominion can show such moderation."

AFFLICTED COLDS Lead to Consumption

Unless a complete cure is effected, the inflammation passes rapidly to the throat, bronchial tubes, and then to the lungs. You can't make new lungs any more than you can make new fingers or a new nose—hence, consumption is practically incurable. But Catarrh can be cured, except in its final and always fatal stage.

Catarrhazone Guaranteed to Cure

The purest balsams and the greatest antiseptics are sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly. Colds and throat troubles can't last if the pure healing vapor of Catarrhazone is breathed—sneezing and coughing cease at once, because irritation is removed. Use Catarrhazone to prevent—use it to cure your winter ills—it's safe, and guaranteed in every case. Two months' treatment, large size, guaranteed to cure, price \$1; small size 50c. sample size 25c; sold everywhere.

Investigation Into Shelter

(Continued from page 1)

to make the matter clear and to make his own position as president of the Children's Aid Society clear. Mr. Boyle said that trouble in getting help was at the bottom of the difficulty. Mrs. C. M. Gibson corroborated this. As soon as applicants find it is an institution of this kind, there is nothing doing. The clothing for the children is made by the ladies of the society in the city. The county ladies have never offered any assistance. If they had the clothing question would have been settled par excellence. "Did the gentlemen of the county council know the full facts and the difficulties under which the society labours, they would not have criticized. The children were well clothed going to school, but at home the same as the ordinary child, they are given older clothing to play in. Mrs. Gibson said a mother's help is needed. They are aiming at this appointment and hoped to have such an officer there very shortly. Mrs. Revett wanted to know about the food and Mrs. Gibson said she couldn't say as to that as at meal time she was at home as she should be. Mr. Claus said he had often walked in during meal time and found the children well fed and properly attended to. Mr. Claus read a letter signed by the teachers of Connaught School as follows: "We, the teachers of Connaught School, wish to certify that the children from the Children's Shelter who attend our school (while under the care of the present matron, Mrs. Davis), are clean in body, free from vermin, and neat in appearance; as healthy children as the average child who comes under our care. They show by their happy disposition that they receive kind, motherly treatment." Mr. Mitchell wanted to know what member of the county council favored the present building but there was no definite information to be had. Mr. Claus said he had favored an entirely new building. He thought a farm would be the right thing. Mr. Westwood said the inspector from Toronto had approved the building; at the same time Mr. Westwood thought a white elephant had been unloaded on the city and county. Defending the Children's Aid Society, Mr. Westwood said they had put the whole management in the hands of the matron, and there was never any stinting of food or clothing. The children were always well and happy. He couldn't say they were always clean, because no children anywhere are always clean. Mrs. Davis is a good matron, doing splendid work, and when the building is completed they will have a first class institution, as good as any in the land. With the aid of the noble band of women of the city the institution will be carried on satisfactory to all.

A Witness Testifies SHE WAS WEAK AND NERVOUS

Brampton, Ont.—"About five years ago I began suffering with woman's trouble. I became all run-down, weak and nervous, and was so completely down and out that I could not do anything, could scarcely dress myself. I had the doctor and took other medicine but without getting better—until I began taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. It was only necessary for me to take about three bottles when I was completely restored to health and strength. I have been in better health than I ever was before. I have had no use for medicine since, but should I need it I would take these same remedies, knowing them to be excellent."—MRS. HARRY KNIGHT, Jessie St.

OWES HER LIFE

Ft. Saskatchewan, Alta.—"It is with great pleasure that I write the following and I hope it will help the many sufferers who do not know the good Dr. Pierce's medicines would do them if they would try them. "In regard to my condition, I will say that I suffered from childhood from a very weak back. I had the misfortune of having spinal meningitis when I was one year old and still I was 13 I did not see a well day, but a very kind lady told my mother about Dr. Pierce's Favorite Prescription and she got a bottle to try it. It did me so much good that I bought another bottle. Recently I happened with a car accident and hurt my back badly. My doctor gave me up and said I would not live, but I still stick to Dr. Pierce's Favorite Prescription and to my surprise in three weeks I was out of bed and better. I owe my life to it and nothing else, and shall never be without it. "If any sufferer wishes to write I will answer with pleasure."—MRS. NOEL BARTHOLOMEW.

OPEN NOSTRILS! END A COLD OR CATARRH

How to Get Relief When Head and Nose are Stuffed Up. Count fifty: Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sneezing, hawking, mucous discharge, dryness or headaches, no struggling for breath at night. Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

Mr. Poole said the committees' hearts would ache if they knew what the children's aid society had been up against. And now comes the county council's accusation, resulting in the loss of their matron, who was the very woman they want.

Mr. Hetherington said for two years he had been interesting himself in the feeding of the shelter children. He knew personally they were not underfed and he defied anyone to bring a group of children from anywhere who would make a better appearance. He spoke of the conditions at the shelter which Mrs. Davis had remedied.

Chairman Richardson said no doubt good would come of this discussion. The committee would report to the county council and report just what had been told them. In future, he himself would require a report from Mr. Boyle to the county council.

PREMIER DRURY SURE OF HALTON?

MILTON, Feb. 2.—Mr. Drury is not likely to be opposed in Halton. Because of the extreme cold, the meeting of the Liberal Executive called to consider the situation did not take place yesterday. President W. J. Clements says he does not expect to see a Liberal or any other candidate brought out. The election is near. The Supreme Court decision on arguments on the powers of the Board of Commerce.

Dainty Ready-to-serve Luncheons

BY the wayside, on the table, in your home or at the cottage, here are delicacies for the warmer days that help to make a real holiday or everyone—including the housewife! Ready to eat—no fuss, no worry—no cooking, no heat!

OUT FOR 75c AN HOUR

TORONTO, Feb. 4.—"Seventy five cents an hour."

This is the slogan of the men employed by the Toronto Railway Company on their cars. Not even the frosty weather made them hesitate to discuss the matter on the cars today.

The press took a trip over several of the lines this morning and learned from the men that nothing definite had been done by their union nor had the increase been discussed at a meeting, but there is a general feeling that they cannot meet their obligations at a scale of 55 cents an hour.

One motorman said: "I am going behind every day. With me it is 75 cents an hour or bust."

The leaders of the union will not discuss the matter, but they won't deny that there is talk about an increase.

"The present agreement expires in June, and it's a little too cold and too soon to talk much," was the opinion of one of the leaders.

The suggestion that Toronto enter the dead meat business was endorsed by the property committee of the City Council.

CONDEMNNS EMPLOYING MEN TO MAKE MAN BREAK LAW

MOOSE JAW, Sask., Feb. 3.—The jury in the case of the Crown v. Holdworth, by which the accused is charged under the Secret Commissions Act with "knocking down" fares while in the employ of the Canadian Pacific Railway, returned a verdict of not guilty today. Mr. Justice Newlands condemned the practise of employing men to make a man commit a crime for the sake of conviction, in the opening of his charge to the jury.

"CONTEMPTIBLE THEFT" DECLARES MAGISTRATE

And Prisoner Goes to Jail Farm For Six Months' Term.

TORONTO, Feb. 3.—"It is a contemptible kind of theft—swindling the Government while holding a good job on the Fire Department," said Magistrate Denison in the police court yesterday in sentencing John L. Williams to six months imprisonment at the jail farm for obtaining relief from the Federal Emergency Appropriation Funds while he was drawing a weekly wage.

Williams was overseas for three years but for a long time after his return he had been out of employment. On December 12 he had been engaged by the Fire Department but on December 31 he had applied for and received a sum of money from the Government relief fund.

"I hope the Government will look after his wife and little children," said Mr. W. B. Horkins, who defended Williams.

Ingersoll got an eight-goal lead over Woodstock in their intermediate play-off last night.

Preparations for the proposed Royal Agricultural Winter Fair were discussed by several live stock organizations at their annual meetings.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat, also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headaches, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

I. W. W. MEN INDICTED

"Big Bill" Haywood Is Included in the 37 Concerned.

CHICAGO, Feb. 3.—Indictments against 37 members of the I. W. W. were returned yesterday morning by the special grand jury investigating radical activities.

Chief among those indicted were William D. ("Big Bill") Haywood, former secretary of the organization, now at liberty from Leavenworth prison under bond, and Thomas Whitehead, who succeeded Haywood as the secretary.

LOCAL NEWS

We buy everything you want to sell. McGuire & Co.

Miss Erma Grobb has gone to Peterboro to visit her brother.

Rev. Mr. Hamilton, rector of the Anglican church at Jordan is quite ill with malaria fever. Yesterday he took a turn for the better and his recovery is now looked for.

A well attended meeting in the interests of the Anglican Forward Movement was held last night in the town hall at Jordan. After the speaking refreshments were served.

Hydro officials were in the city two or three days ago to get the debentures of the corporation for the proposed hydro radial by-law between here and Port Credit.

A special business meeting of the Burns society was held last night.

People looking for accommodation in the city find a big scarcity of rooms and board. There is room in this city for a large boarding house for men and women. The hotels have about all the guests they can accommodate.

Present plans look to the establishment of a waterworks system in Port Dalhousie in the near future.

St. John's Amateur Dramatic Club of Port Dalhousie will present the comedy drama, "Miss Busby's Boarders," Thursday evening, of next week. Those taking part are:

The funeral of Mabel, little daughter of Mr. and Mrs. Osmond Hill, was held on Tuesday afternoon from the family residence, 43 Henry street, to Victoria Lawn Cemetery. Rev. Canon Broughall, rector of St. George's church, conducted the services.

Mr. and Mrs. Young, of Ridgeway are visiting their son, H. Young.

Daughters of the Empire of St. Catharines are interested in the formation of the Provincial Chapter which is shortly to be effected. At Hamilton on Friday a meeting is to be held which will be attended by Daughters of Empire from all parts of the province, among them many from this city. The Hamilton Municipal Chapter will entertain the delegates at luncheon.

Miss Helen Cartmell, of Thorold, was one of the graduates from the St. Joseph hospital, Hamilton.

Ottawa's mayor will proclaim daylight saving from May first to September 30th.

Welland County Council has appointed a committee to go into the question of a memorial for fallen soldiers.

Toronto police department budget for this year calls for salary increases totalling \$178,000, the total for the Department this year to be \$1,961,357, which represents an average increase of \$200 a year for the thousand men on the force. First-class constables, are now to get \$1860, second class \$1650 and third class or first year men, \$1350.

A young woman took a bad fall on the icy sidewalk on James street yesterday afternoon. A number of men assisted her to a neighboring building. A boy fell down near the sidewalk and nearly bit his tongue in two.

In police court to-day a number of men accused of being drunk failed to answer to their names.

A special business meeting of the Burns society was held last night.

FARM HELP

THE BUREAU OF COLONIZATION expects a large number of FIRST-CLASS MEN FROM THE OLD COUNTRY during the latter part of March and succeeding months: some experienced, some inexperienced young men, and experienced married men with and without families.

Farmers with vacancies will kindly write H. A. MACDONELL, Director of Colonization, Parliament Buildings, Toronto, at once for application forms. Applications will be filled as far as possible in the order in which they are received. By authority of BENIAH BOWMAN, Minister of Lands & Forests. Feb 4 and 7.

While the new housekeeper of Mrs. Horace Whitten, who recently arrived from England, was exhibiting an heirloom in the form of an old family cabinet, admirers discovered the presence of a small drawer which upon being opened was found to contain a copy of the London Times of October 3, 1798. It published Lord Nelson's official account of the battle of the Nile, which had been sent overland in custody of Captain Capel, dated "Vanguard, Mouth of Nile, August 3." The paper is in excellent condition.

Burlington beat Milton intermated at Toronto in a group play-off by six to five.

Declare the Kaiser Must Be Handed Over

PARIS, Feb. 4.—The Entente rejoinder to the refusal of Holland to accede to the allied demand for the extradition of former Emperor Wilhelm, according to The Petit Parisien.

The newspaper says that while the note will be generally conciliatory, it will consider, in case of a new refusal by Holland, measures going so far as the breaking off of diplomatic relations or a naval blockade of the Dutch ports.

A different forecast of the note, however, is given by The Journal des Debats. It says its information is that the powers are not contemplating for the present any such measures as the breaking off of diplomatic relations or a blockade. They will insist, it says, on the surrender of the ex-kaiser, but will not accompany the repetition of the demand with threats.

Demand sterling was offered down to 3.33 3/4 at New York following a steady downward movement all day.

Thursday, February 19th, 1920, at 11.30 a.m. for the purpose of receiving the Financial Statement and Report of the Directors for the year 1919, the election of Directors and the transaction of such other business as may be brought before it.

E. F. DWYER, Sec.-Treasurer.
St. Catharines, Ont., January 12th, 1920.

VALUABLE PAPERS
The Safety Deposit Boxes of this Bank offer security for valuable papers, documents and other effects. The rental of one of these boxes is very moderate and protects you against loss by fire or theft.

THE CANADIAN BANK OF COMMERCE
PAID-UP CAPITAL \$15,000,000
RESERVE FUND \$15,000,000
ST. CATHARINES BRANCH, R. G. W. Conolly, Manager.

Chief Commissioner Carvell of the Railway Board has given a ruling strictly regarding the use of telephones, telegraph, and express franks.

We are specialists in Crown and Bridge Work which is a branch of Dentistry that very often goes away with the necessity of extracting teeth.

As an example, let us explain that it often happens that broken down or badly decayed teeth still remain sufficiently sound to permit a secure anchorage for bridge work.

In some cases we are able to provide a complete bridge under conditions which when treated in an ordinary way would demand a plate.

This work is under the care of four of the leading specialists in New York State and the charges for their skilled services are reasonable to an unusual degree. Crown work at only \$1 a tooth is an example of our low charges.

Why not take advantage of our free examination service and determine what attention your teeth require?

Bridge work, \$5 per tooth,
Fillings 50c up.
Very good Plates, \$8.

DR. ARTHUR B. COBB
Dentistry
Offices: Corner of Main and Esplanade Streets
Buffalo, N.Y.
(Formerly known as "White Dental Offices", Dr. Cobb Proprietor.)
Open until eight. No Sunday work.

Dr. Curry thought there should be an investigation. If it is true Mr. Jackson asked this girl to remain after four o'clock and help him to investigate, there certainly should be some explanation. Mr. Jackson certainly must have thought there was some danger or he would not have investigated the books. Of course the board was responsible for the account.

This was made into the form of a resolution and passed. The account was also ordered paid. D. Fraser complained of the city dumping ground at the bridge of the

THE

ESTABLISHED 1859

Board of Health With Mr. Cha Elected

Citizen Complains That Through Holding Book Who Had Caught the D

Charles M. Gibson was elected chairman of the Board of Health at the organization meeting yesterday.

The Finance Committee is composed of D. W. Eagle and W. P. Holmes.

The Management Committee is composed of Dr. Currie, chairman and the whole board.

W. E. Emmitt, 51 Chaplin avenue, wrote the board, claiming that his cousin, Alma Macdonald, had contracted smallpox by being asked by the science master of the Collegiate Institute to leaf over books belonging to other pupils while he furnished them. The girl went home and in time contracted the disease. Her mother is a widow and supporting herself by dressmaking, was compelled to lose her source of income, as the home was quarantined, together with the added expense of a doctor.

The total expense was \$23.57 which bills Mr. Emmitt presented to the board. He said the case was a matter for investigation.

Dr. Curry thought there should be an investigation. If it is true Mr. Jackson asked this girl to remain after four o'clock and help him to investigate, there certainly should be some explanation. Mr. Jackson certainly must have thought there was some danger or he would not have investigated the books. Of course the board was responsible for the account.

This was made into the form of a resolution and passed. The account was also ordered paid. D. Fraser complained of the city dumping ground at the bridge of the

When Man Has Discovered the Harnessed It to His Own Gulfs of Intervening Fog

LONDON, Feb. 6.—In a remarkable article in the Nineteenth Century, for which he writes frequently, Harold Frazee Wyatt, discusses the endless possibilities that will be created when man has discovered the secret of atomic energy, and harnessed it to his own uses.

Mr. Wyatt, an authority on naval and Imperial affairs, comments that while this prodigious potentiality is known to exist in matter, no effort has been made to form some general conception of the results expected appears to have been made, yet these results will be a staggering imagination and transcendent experience.

Coal fields and oil wells will become superfluous and all conditions of transport will be revolutionized.

"A motive power, enormous, illimitable and costing nothing save for the apparatus as may be required will be placed at the service of an astonished world."

Mr. Wyatt presumably the chosen mode of movement will be through the air, and their speeds will naturally be reached exceeding any present thought of as possible. He considers that when atomic energy is at last made usable there would seem to be no valid reason to reject the thought that man may be able to "navigate" the gulfs of intervening fog between the units of the solar system, and make the moon's distance from the earth as roughly 210,000 miles pass as thickly at a speed say of one mile per second, "and we cannot im-
