**THE WINTER PORT.**

Our people have not lost the interest in the winter port question which they manifested a few years ago when they manifested in St. John in what the co-operation of the citizens of Fredericton to strengthen their hands in what, at the time, was thought to be a critical moment for the maritime provinces of the dominion. The action then taken had the effect of impressing the authorities at Ottawa with the conviction that it would not be safe to disregard the wishes of the people down by the sea and the crisis was passed. But the question looms up this term in a different form. Then the government were proposing openly to ignore the existence of St. John and Halifax. Now it is the shipping companies which withdraw from the Canadian ports for want of sufficient government assistance, and Canadian mails from Europe are to be carried to a United States port and through Uncle Sam's territory in order to reach the dominion. This must be a shock to those sensitive people who last winter cried out so lustily for the old flag and Canada for the Canadians. We are not about to denounce the government at Ottawa because those ocean steamers are withdrawn and New York made the winter port of Canada. It may be that unless the steamship companies are heavily subsidized—very much more heavily than the revenue would sanction—that they cannot be induced to make their port of arrival and departure in Canada during the winter months. Neither are we prepared to say that the companies should be induced by other subsidies to take up a route which otherwise they would not favor; but we do feel that our conservative friends are placed in a very awkward situation.

As Mr. Foster would say the basic principle of conservative policy is the giving of bounties, subsidies and aids of all kinds by means of public taxation to stimulate the growth of enterprises in Canada which would not otherwise flourish. We in the maritime provinces have bled, although perhaps not very freely, and with some results reaped in other parts of Canada. Montreal, Toronto and Hamilton have prospered while our cities have declined. Here there was an opportunity for the government to at once exhibit its sense of justice to New Brunswick and Nova Scotia, and its fidelity to the leading article of its faith. If the party's abounding love for our Canada had been directed in the present phase of the winter port question we fear we are hopelessly blind. We would have supposed the true and only Canadian party would have suffered martyrdom rather than surrender on so vital a point as this. To have to descend to offer bribes, common to the place, justification, that it would not pay to give Canada independent communication throughout the whole year to the outside world, and that to stimulate ocean traffic to and from Canada, and thereby secure the transit of British mails direct between Canada and England, would mean a tax upon the people of the whole dominion. This must be galling to those friends of bounties and high tariffs. This excuse made for not subsidizing these steamers might be satisfactory to liberals as being in accord with the main principle of their policy but the application of the doctrine which specially hurts the maritime provinces, while adhering to the grand old policy which certainly does not help us, is an injustice that Nova Scotia and New Brunswick do not deserve to suffer at the hands of the party now in power.

**THE BEHRING SEA QUESTION.**

This is about the only dispute now pending between England and the United States, and as it is one which closely concerns British North American interests, it is well that our readers should understand it. The return to Montreal of Sir William Dawson and Sir George Boden Powell, two of the English appointees upon the joint commission to study and report upon the subject, revives public interest in the question. The Americans claim exclusive fishery rights over an area of a hundred sea miles from the coast of the Behring Sea and base their claim upon the ukase of the czar Alexander issued in 1821, in which the Russian emperor asserted exclusive fishery rights for his subjects in that sea. Russia having abandoned all rights in America at the time of the surrender or sale of Alaska, the latter consider themselves as the inheritors of all the privileges and rights claimed by Russia. Great Britain opposes this claim and relies upon modern international law, which, she maintains, does not recognize any such extended authority over the sea as that asserted by Russia in 1821, and moreover, it is contended the Russian claim was never treated as valid. International law has long settled the marine league as the limit of territorial jurisdiction over the sea exercisable by any of the powers. That distance was fixed, as it was the outside range of the heaviest ordnance at the time, and has not since been questioned. Exclusive fishery rights are held to be restricted within the same limits, and the British government maintains that the claim, the exclusive right in the seal fisheries of an open sea, such as the Behring sea, is in conflict with well settled principles of international law. That beyond the three mile limit the waters of the ocean are great with him, instead of all nations, and that the United States pretensions are at variance with a clause in the treaty between Russia and Great Britain in 1825, that in no part of the Pacific ocean should the subjects of either country be hindered or obstructed in the prosecution of navigation or fishery. It is scarcely possible that the United States government will succeed in closing this part of the ocean to the Canadian fishermen. If they should it will be a serious blow to an important Canadian interest, as a good deal of Canadian capital and a large number of Canadian vessels are engaged in the seal trade. As the dispute is to be referred to arbitration, there is no danger of any serious international complications arising in connection with the question.

One of the latest proposals in the way of economic reform is that litigation should be made free. We have free education and free churches; free trade is not merely a creed—it is a faith—and why, it is said, should not some politician make the country resound with the battle cry of free law? It is said that a poor man has no chance in litigation with a rich one. The state bears the expense of criminal prosecutions because when a criminal injury is done to an individual, the state suffers. Extend the principle to every form of injury and you are compelled to admit that if the individual suffers the smallest wrong, the community is injured until the injury is redressed. What will the lawyers have to say to this?

**GOTHENBURG LICENSING SYSTEM.**

The Gothenburg system of licensing the sale of liquors, has now been in full operation in Sweden since 1874, and its results are attracting the attention of temperance reformers in Great Britain. The British consuls and vice consuls in Sweden have been required by the English government to report upon the working of the system and the reports are almost without exception favorable. The Gothenburg system is the managing of the public house traffic, by a limited liability company who derive no profit from the business but who are solely in the interest of the community, and who, after the payment of the interest on invested capital, hand over the entire surplus to the municipal treasury. The municipal council is the local licensing authority and they grant a monopoly to the local licensing company. The immediate effect of this method of managing the business, has been to bring about a marked and steady decrease in the fifteen years of its operation—(1) in the liquor consumption per head; (2) in the number of convictions for drunkenness, and (3) in the number of cases of delirium tremens. In 1889 the revenues, after paying all expenses and six per cent to the shareholders, left a surplus of \$205,000, which passed into the local treasury. A committee of the house of lords in England, after investigating the Gothenburg plan, recommended "that legislative facilities be afforded for the local adoption of the Gothenburg system." Nothing has yet been done in this direction and we presume in this country such a proposal would be bitterly opposed, but our own temperance reformers might learn a profitable lesson from the experience of a country even as remote as Sweden.

**Bluff Versus Business.**

To the Editor of The Herald:—Sir,—Inasmuch as it has gone broadcast that we blundered in making the check list at the last municipal election, I would politely ask for space to say that our check list was all right. The very fact of the Stanley officials sending back to Miramichi for more check lists that would show up the names of the men who voted and telling our carrier to forward them within ten days, sounds too ridiculous to repeat. The truth is, that the chairman of Stanley No. 1 was compelled by law to either accept or reject our returns before ten o'clock the next day after the election, and publicly declare two candidates elected. Councilor Fullerton came over before the election and told his way of making a check list in the above mentioned way, with some more nonsense, about checking down the voters' names on the face of the list when the men were voting; but, our chairman was to discharge his duty faithfully, and of course was guided by the law, and let the bluff go; but, the Stanley officials took Mr. Fullerton's view of the matter.

I may also add that our chairman got the form of a check list from our county lawyer (Mr. Black) and it is worth noting that it does not show up the voters' names. So you see, gentlemen, it will be time enough to pick us up after we fall. I would kindly direct councilor Fullerton to the Consolidated Statutes, Chap. 99, Section 41, and he will see where we learned to make a check list, and we would in turn ask him to tell in public print where we can find the law to bear him out in making a notation at last January session, exempting a ratepayer of Stanley No. 1 from paying any rates or taxes for a period of ten years. As we are under the impression that that notion is not worth the paper on which it is written, in law, and that the council had just about as much authority to grant it as a school teacher to grant some rule in school.

If the above mentioned ratepayer has a good case, it would be an easy matter for him to ask the proper tribunal to attend to his business, namely, the local legislator. I believe the minutes of the council will bear me out in my statement, that there has been no board of valuers appointed since 1884, and the law, also, very pointedly states there must be a board of valuers every three years. I here appeal to the councillors of York to attend to this matter at the next session. If Mr. Fullerton persists in his bluff games he will operate our disadvantage on the tax score, for the way the business stands now there is no board of valuers to apply to, if a ratepayer feels aggrieved.

I would be the last man in the parish to speak if I were fairly treated; but, I don't intend to see my work put down, when it is legally performed, and bluff crowded into effect instead of law.

**A Good Investment.**

To the Editor of The Herald:—Sir,—Would it not be a good speculation for some one, or say a syndicate, to erect a grist and saw mill for sawing small lumber, planing, etc., somewhere close to government, such as there is not any good site in the city proper (so to speak) for such a purpose. Such a grist mill must pay well, as there are but two or three of any importance in the county. The people of Sunbury have to come all the way from Shelburne and Barton, and other parts of that county to McIntosh's, Thompson's or Gibson's mills, to get their grist ground. I venture to say, that without a doubt if a grist mill were built near the mill command the grist of nearly all of York, a large portion of Sunbury, besides what might come in from the Miramichi.

Of course the local mills would still retain their share, and as they get more grain than they can attend to, it would not injure their business to any extent, and if a mill on a large scale was once started it would make business for itself. Just stop and look at what a great convenience it would be to the people having grain to be ground, if a mill was operated in or near the city. A farmer coming to town could bring his oats, wheat or corn as well as his load, pork and butter, with him at one load, drive direct to the mill, unload his grain, then do his marketing, put up his horses in a good, warm stable, get his dinner, and then drive back home with his grist with him, instead of, as at present, being obliged to stay outside of the north end of a lonely grist mill all day in bitter winter weather, waiting for his grist, or else, obliged to go home, probably some thirty miles distant, and call again for his grist.

Here again, instead of parties who have taken to stall feeding cattle, which industry has been greatly on the increase lately, being obliged to send all the way up to the mills on the river in Carleton and Victoria for feed for these beasts, and thereby virtually sending the money out of the country, they could be supplied almost on the spot in the city. This would also apply to those who are now engaged in selling milk, as they have to buy largely from the millers to keep their cows in order for the business. Then again, a large quantity of cracked oats and corn is being used now for horse feed. There is plenty of money now lying idle which could be safely and profitably invested for the above purpose, and which would be doing some good to the country instead of being locked up. I wish that some of your numerous readers would take some action in the matter. There is no way any other season should be lost, as a mill could well be erected in time to do the summer's sawing of small lumber, and for the grinding of any grain that might be left over the winter or imported from outside, or purchased in the dominion, without any difficulty. Yours, etc.,

A LONG SUFFERER,  
Fredericton, Nov. 10th.

**HARVEY STATION**

Its Industries and its People.

**SOCIAL FEATURES.**

So much has been written about this thriving farming locality there remains but little more to say. But the visitor finds many changes that show the progress of Harvey and the determination of the inhabitants to make the most of their surroundings. The station is the most important on the Vancouver-St. John portion of the C.P.R.; is a tank and coal-gathering station and has a general telegraph and express business. The post office handles a large amount of mail, is carefully and efficiently looked after by David Glendinning and is fully up to the requirements of the times. The school, which is classed superior, is ably conducted by G. Chamberlain of Kings Co., with Miss Hetherington as teacher of the primary department. There are some seventy pupils enrolled in both schools. The church is under the spiritual guidance of the Rev. Mr. McLean, well known in Fredericton; "a man he is to all the country dear." He has a strong hold on the affections of his people and Mrs. McLean is all that a pastor's wife should be. The principal store is kept by Mrs. W. E. Smith, who, besides doing a large trade at the store, does a very large export trade in farm produce. The hotels are kept by Miss S. Saunders and Daniel Holland. All who have visited either speak in the highest terms of the entertainment provided and the care and attention paid to them and their wants.

**All know the village blacksmith.**

"Week in, week out, from morn till night you can hear his bellows blow, you can see him swing his heavy sledge with measured beat and slow like a sexton ringing the village bell when the evening sun is low." All that Longfellow portrayed in his ideal can be found in the flesh here. Those who have known Michael Donahoe longest are his best friends. It would not do to forget the very efficient blacksmith of the St. Croix Courier, John Taylor. He is one of the foundation posts of the hamlet and has a fine residence and a neat and comfortable public hall. He is no longer the owner of the York woolen mills, but more on this at a future time.

Andrew Coburn, one of the staunch men of the place, has a beautiful farm and is surrounded by the comforts and luxuries of life. Near him reside Marshal and Stephen Robison, sturdy farmers are they; men who made their fortunes on the stump and yet hale and hearty can now enjoy the benefits of their labors. Many stout, thrifty olive branches cluster round their tables and no one can blame them for a depletion of the census. S. B. Hunter does a fine general business. He has shipped a large quantity of farm produce again and again bought the Taylor farm, J. W. Taylor having bought out W. Atchison, who intends moving westward next spring.

**QUEENSBURY.**

**Diphtheria—Concert—The Harvest—Promises Broken.**

Wm. Moore and wife, as well as most of the members of his family, are down with diphtheria. Peter Moore is also down with it. A Sabbath school concert and thanksgiving service was held on Sunday evening at the F. C. Baptist church, Prince William. Quite a number attended, from here. All were loud in their praise of the decorations and success of the affair. John Redwood was one of the speakers. Miss Mary Sykes, daughter of Rev. Mr. Sykes, Keswick Ridge, had charge of the affair. Thomas Burden and family left last week for Lowell, Mass., where they will reside in future. Monday, all the farmers were busy getting out turnips, carrots and potatoes. It is now thought that the harvest will be a successful one. Geo. W. Slipp was surprised a few days since to find his turnip field invaded by his neighbors, who had come to help him without invitation. He got out his team and in short order hauled 16 loads of the roots that afternoon. He had altogether 640 barrels. Geo. Hagerman and wife are here on a visit from Houlton. They left Bear Island about a year ago. There are quite a number of vacant farms in this district. Many look forward to the advent of free trade. Annexation is spoken of, but any other commercial change would be received with more relief. There are very hard feelings regarding the action of certain politicians respecting the promised railway. The people will not be cheated again. Grumbling, loud and deep is heard on all sides. The people are awaking to the fact that they have been duped.

**UPPER KESWICK.**

**A Budget of Interesting News from this Section.**

We are having very fine weather lately. It appears more like the first of autumn than the end of the last. Housa are fine and the young folks are taking the good of them. The lumbermen are getting away to the woods; some of our young men are going with heavy hearts, leaving their best girl behind to do a little flirting during their absence. Quite a number are getting married in our neighborhood this fall, and plenty room for more. W. H. Lawrence is doing a large business, with good result, and a prospect of his business increasing. He is having a large trade in iron that it requires an assistant clerk. He is dealing in firewood, spruce, hemlock, and pine lumber and hemlock bark, and is shipping large quantities of bark to Boston. Recently he has been making some improvements at Carleton station on the C.P.R. The siding has been removed and extended to make it more convenient for his traffic, which is no small amount. Mr. Lawrence has leased a piece of land from Alban Burt, which adds much to the small portion of his land owned by the C.P.R., and lastly, has erected a platform between the two tracks for his own convenience, which improves the place very much.

Our American friends are doing quite a business in the last works. We want a few more enterprising men from the west to take the place of the old ones who are not afraid to put out a few dollars in a little business. We hope for better times in the future, so that our young men in this country will not have to leave their own birthplace to earn a little money to pay their taxes with. They are getting very sharp on delinquents. I expect there will be trouble soon. The Kennebec Mutual insurance agent has been in our midst, insuring quite a number. I think it is a good company; any one that would wish to get insured in this company will do well to call at W.

**NASHAWAK.**

**Gathering Them In—A Serious Accident Averted—Accident—Sickness.**

The much longed for mild weather has arrived and the turnips are being gathered in lively.

What might have been a serious accident happened to John A. Munroe and his span of colts on 7th inst. He was hauling wood down a steep hill which whirled upon one side. The bridling also became detached from the wheels and the colts unaided to holding back, got frightened, one of them jumped over the side of the hill, a distance of six feet. Only the breaking of harness etc., saved the load from coming on top of him. The horse escaped by a few seconds to the rescue of Mr. Munroe is quite lame from an injury to his knee. A milking is badly needed at that spot.

On the 9th inst., Messrs. Jas. McKilligan and Andrew Dodds were engaged in loading a car with bark. While clearing some fence rails out of the way, one of them slipped and struck Andrew a severe blow on the head, stunning him and inflicting a cut about an inch long. After a few hours he was able to be at work again. We regret to hear that Mrs. Alex. McBean is very ill. Dr. Moore of Stanley is in attendance.

**Mrs. J. Angus McBean's youngest son**

Charlie is also quite ill. He has complained for a long time with pain in his head, being unable to attend school.

**HARVEY.**

**Roots Gathered—Threshing—Out Business in the Land—Typhoid Fever.**

The hard frosts and snow storms of three weeks ago have been succeeded by a spell of very fine open weather. The root crops, which were caught in the frost, have all been gathered, seemingly unharmed, and ploughing is going on rapidly. Threshing machines have had a great run here lately. We hear of one that has run through 15,000 bushels with orders ahead for about ten thousand more. Oats are an extra crop both in quantity and quality—forty, fifty and sixty bushels per acre being of common occurrence. In one instance, eighty-three bushels per acre, by Thomas Little, who sowed six acres and thrashed five hundred bushels. The demand for oats was never so brisk in Harvey as at present. There are about eight buyers here all anxious to get as many as possible. Prices are from \$1 to \$1.40 cents per bushel by weight.

There are two or three cases of typhoid fever in Tweedside. Dr. Keith has been attending them and they are recovering rapidly. John Burrell and William, his brother, who have been in the western states for some years, have returned again and bought the Taylor farm, J. W. Taylor having bought out W. Atchison, who intends moving westward next spring.

**QUEENSBURY.**

**Diphtheria—Concert—The Harvest—Promises Broken.**

Wm. Moore and wife, as well as most of the members of his family, are down with diphtheria. Peter Moore is also down with it. **SPECTACLES AND EYEGLASSES.**

Our commissioner, Gabriel Burt, has laid out some money for the repairs of our highways, which needed it very much; the bridge across Jones' Fork has been newly plankled, also some laid cross-ways have been repaired.

Our shoemaker, Robert McKay, is busily driving pegs. People are beginning to think of winter and are preparing for it.

Mrs. Samuel Burpee, from Edmundston, has been here on a visit among her relatives and old acquaintances.

Lewis Brewer, from Upper Woodstock, was on a visit to Miramichi, and on his way back purchased a very fine horse in Fredericton.

**STANLEY.**

**Robinson's Lecture—Sudden Death—Sickness—Matrimonial—Review.**

The weather is moderating, and the frost is coming out of the ground. Farmers are in hopes of getting some more fall ploughing done, which operation was interrupted by the unusually early frost. Professor Robinson gave a lecture in the Stanley hall on Monday evening on "Dairy Farming." He handled his subject very ably, showing the farmers that their farms are being deteriorated by selling the natural products, and recommended as a remedy more stock raising; which fact is beginning to be appreciated by our more intelligent farmers. We believe that an effort will be made towards starting a cheese factory here. The wife of John Yates, Williamsburg, and very suddenly on the 6th ult. She leaves a husband and five small children to mourn their loss.

Mrs. Wm. Scott has been to Berthouge to consult Father Morrissey.

The wife of G. R. Merrill, clerk in the Grange store, is slowly recovering from a serious and protracted illness.

Frederick Dorcas and Miss Lina Ward, of Williamsburg, have agreed to share each other's joys and sorrows. We wish the young couple a long and happy life.

Rev. W. R. Carpenter is holding revival meetings at Cross Creek and Williamsburg. Eight persons have recently been baptized by him.

**NEW MARYLAND.**

**Hallow'een—School Inspection—Visitors and Other News.**

Hallow'een passed over very quietly, being celebrated only by the small boys who accomplished nothing excepting the removal of a number of gates. While removing one in particular, the owner caught them in the act and so great was their flight that they hurried each to his respective home sadder and wiser boys. Mr. Bridges, school inspector, visited the school in district No. 2, on the 10th inst., and reports that the school has made very favorable progress since his last visit. F. R. Webb and the Smith brothers took their departure for the Maine lumber woods one day last week.

John Phillips is making preparations for Uncle Sam's territory.

Wm. Moore's team are on the threshing machine doing work in Doak settlement.

A number of young ladies from this and the adjoining settlement are talking of going to Maryville to try the cotton mill this winter. Miss Lottie Morgan is making very favorable reports of the same, having made a short visit to the place.

Nehemiah Smith lost a very valuable bull last week of his family, and was with diphtheria. Peter Moore is also down with it.

A Sabbath school concert and thanksgiving service was held on Sunday evening at the F. C. Baptist church, Prince William. Quite a number attended, from here. All were loud in their praise of the decorations and success of the affair.

John Redwood was one of the speakers. Miss Mary Sykes, daughter of Rev. Mr. Sykes, Keswick Ridge, had charge of the affair.

**WATER FAMINE FEARED.**

New York, Nov. 10.—This city is threatened with a water famine. A light rain fell during the night, but five inches of rain is needed to again fill the reservoirs. The drought has extended over the greater part of the country. The big mills on the Choptank and the Connecticut, N. Y., are preparing to shut down. Their water supply is expected to last not more than forty-eight hours. It will throw several thousand people out of employment on the verge of winter, and great hardship to all classes will be the consequence. The people at Nashville Tenn. are crying for water. The inhabitants on the outskirts of the city are in a pitiable state. "Water, water; oh, God give us water," shouted two hundred women who huddled around a small spring in West Nashville. Nothing like this has ever been experienced in the south before.

26, 50 and 75 cts. PER PAIR. No More Fancy Prices. I have just received 500 pairs of Spectacles and Eyeglasses, which I will sell from 25 to 75 cts. per pair and guarantee a perfect fit in every case. These are not cheap, shoddy goods, such as are sold by peddlers, but a good reliable article.

Shear's Sale. A Sterling

LOCAL NEWS.

IMPROVEMENT.—Dr. Coulthard has made a decided improvement to his office by putting in a plate glass front.

COMPLETED.—Willard Kitchen has completed his contract for the building of the first fourteen miles of the Tobique valley railway.

RETURNED.—John Maxwell has completed his contract for the mason work on Robert Connor's new hotel at St. Francis, and returned to the city.

NEW HALL.—J. A. Morrison is erecting and nearly completed new hall at the mills for the accommodation of the temperance organization. It is erected near the school house.

WOODSTOCK BRIDGE.—A. G. Beckwith, provincial engineer, and David Brown, assisted by a local staff, have taken soundings of the river at Woodstock to locate the site of the new bridge.

THE DEAF AND DUMB.—George E. Powers who has been over to P. E. Island collecting money in the interest of the Federation of the Deaf and Dumb school has met with considerable success. He obtained over \$250.

ELECTION TRIAL.—Saturday last before Judge King, Mr. Gregory applied to have a day fixed for the election trial of Kennedy Parsons, M.P.; Mr. Vanwart contra. Case postponed till Wednesday at Woodstock.

AT ST. PAUL'S.—At Monday evening's congregational meeting at St. Paul's it was decided to extend a call to the Rev. Mr. McDonald, of Hampton, Kings county, Rev. Mr. McLean, of Harvey, acted as moderator.

FORTY-NINE YEARS.—Just forty-nine years ago last Wednesday, this city was scourged with a great fire. That part of the city between Carlton and St. John streets, including the leading business houses, was almost totally destroyed.

TOO LATE.—McMurray & Co.'s advertisement announcing his fine stock of books, fancy goods, etc., just from the markets, came to the office too late for insertion this week. Our readers will do well to keep their eyes on his space next week.

NEW RESIDENT.—J. D. Phinney, M. P. P. for Kent, has rented Dr. Brown's residence, corner of Brunswick and Westmorland streets, and has moved in for the winter. Mr. Phinney intends going to California for his health about the first of December. Dr. Brown is to take quarters in the barracks.

FLOWERS.—J. Bebbington, Fredericton's leading florist, Charlotte street, has a choice lot of flowers, suitable for the season, for sale. It will well repay anyone to visit Mr. Bebbington's conservatory at this time of the year, and that gentleman, with his usual kindness, will only be too happy to accompany one in the inspection.

ST. DUNSTON'S FAIR.—The ladies of St. Dunstan's church are bestirring themselves in preparing for the grand fair to be held at St. Dunstan's hall, commencing on Tuesday, 24th inst., which promises to be an event of unusual interest. We bespeak for their enterprise that encouragement and success which their untiring efforts towards a worthy purpose deserve.

THE DEMOND CASE.—Daniel Desmond was arraigned for manslaughter before Judge Wilkinson at Bathurst on Tuesday. The grand jury stood eleven for a true bill to eleven for no bill, and found a true bill only on the casting vote of the foreman. Mr. Twissel secured a postponement until March. Solicitor General Pugsley was on hand to prosecute for the crown.

A COOL HEAD.—While coming down government lane Thursday evening, a team coming in the same direction, ran into N. A. Laforest's wagon, turning it over on its side, and throwing Mr. Laforest out. The driver held on to the reins and after being carried some distance by the frightened horse the wagon righted and the animal was stopped. No damage was done.

ACCIDENT.—As Miss Minnie Kilburn daughter of Charles J. Kilburn, of Central Kingsclere, was driving home from lodge on Saturday evening last with Henry Forsey, the horse shied, upsetting the wagon and throwing both occupants out. Miss Kilburn had four ribs broken and was otherwise injured, but Mr. Forsey escaped uninjured. Miss Kilburn's injuries were attended to by Dr. T. Clowes Brown.

A HURRY.—The New Brunswick Foundry have the contract of fitting Gibson's new mill at Margville with all the necessary machinery, etc. The engine will be 150 horse power, with latest improvements; and that with the single machines, shafting, etc., will have a running time of about the winter months for that foundry. Besides the above, the firm will also furnish two tubular boilers, eighteen feet long and five feet in diameter.

FREE FROM BLAME.—Some three weeks since THE HERALD contained a paragraph regarding a shooting affray at Marinette, Wis., in which Dr. Fred. Hartley figured. Later accounts show that Dr. Colter was entirely free from blame in the matter, and came out of the case not only honorably, but bearing with him the commendation of the judge before whom complaint had been lodged and who, no one appearing to prosecute, dismissed the case.

TO MOVE IN.—The F. C. Baptist parsonage has been undergoing thorough repairs, some time past, and it was rumored by the fair sex that those repairs were the forerunner of an interesting event with which the pastor would be closely connected. The HERALD has learned that this is not the case at least at present, as the house will be occupied by Peleg Smith. Rev. Mr. Hartley will make the parsonage his home as soon as arrangements are completed.

COAL MINING.—A mile south of Cork crossing and two miles east of the C. P. R. track at that point, D. Glendonning has a crew at work opening up a coal mine. On Saturday night a shaft had been sunk fifteen feet and coal struck. What the prospects are have not as yet been made public, but there is every reason to believe that coal in fair quantity and quality will be found and a new industry added to the county. Mr. Glendonning is pushing the work and his enterprise deserves success.

THEY ELIVED.—Harry C. Hooper, well known in this city and St. Marys, as a musician of some note, has created quite a sensation in Manchester, N. H., by eloping with a Miss Walley, a seventeen year old heiress and one of the belles of the town. The parents of the bride are highly enraged and have written here for a statement respecting the life of Harry, while in this place. It appears that there is doubt as to the death of his first wife, but he had secured a divorce from his second, a Miss Colwell, of Gibson.

HANDSOME ORNAMENT.—John G. Gunn has on exhibition in his window, a very beautiful piece of workmanship representing a bouquet of flowers. The bouquet is encased in a large glass stand and the flowers formed entirely of sea shells, the leaves of wax, at the base of which are birds with rich plumage, in glass, presenting a very rich appearance. It is the work of sister Bernard, of St. John, and will be one of the principal prizes to be drawn for at the St. Dunstan's bazaar to be held on the 24th of this month.

THE DAY WE GIVE THANKS.

How the Day Passed and Where it was Enjoyed.

It was a beautiful day. The early morning appeared dull and threatening rain, but by eleven o'clock the clouds parted and the sun came out warm. Those inclined to shooting took to the woods, of which there were a large number, while the majority of our people spent the day in the city. Many of the principal business places were closed and held in nearly all the churches, the attendance at which was quite large.

In the afternoon nearly 600 people attended the foot ball match at the association grounds and witnessed the boys pelting their shins and kicking themselves all over the field. It was a great day for "kickers," and no doubt there were as many among the spectators as were on the field. How well the principal feature was played, we will leave to the boys to say. The match was between the university team and a picked team of St. John. Though resulting in a second defeat the university boys made a better showing than they did in St. John on Saturday last. The score stood eight to nine in favor of St. John.

The horsemen were making considerable sport on government lane and some lively collisions were had. In the evening our suppers and church socials were the attractions in nearly all the churches. In the Methodist church the ladies prepared a fine program of music and recitations in connection with the oyster supper, at which the principal feature was the banjo playing of professor Handley. All had a good time, and quite a sum was realized.

The ladies of the F. C. Baptist church had an oyster supper, cake and other refreshments, at which a very large number attended. Judging from the social manner and smiling faces present, an evening of unusual pleasantness was spent by all; a fitting way to close the Thanksgiving day of 1891.

In the Baptist church the young people dispersed generally at the bivouac instead of which a program of music, recitations, etc., was gone through with to the satisfaction and enjoyment of the large number present. Messrs. Estey, Richards and Spurlen, and Miss Porter, and Miss Estey took part in the singing and all were in good voice and highly pleasing; and the recitations of Miss Brown and Miss Richardson, Normal school students, were very interesting. The social terminated a little after ten o'clock, all pleased with the manner in which the young folks so ably conducted the affair.

Everything was quiet around the streets, very few people imbibing, and those that did do so, were laid away in the early part of the day. About seven o'clock in the evening two "freshies" let off considerable gas from their lungs in the way of abusive language, on the corner of Queen and York streets, beyond that there was no trouble or excitement.

A Voice From the West. The Vancouver World says: "Among the visitors to the city is Thomas H. Colter, one of the members for York county, N. B., in the local legislature. He is a follower of the hon. A. G. Blair, and regards him, as most men do who know the premier, as the ablest statesman in Canada. Mr. Colter, in the last election had opposed to him his own brother, who was a member of the Hanington government, but the former minister was destined to defeat and the younger son won. Another brother is Dr. Colter, the liberal M. P. for Carlton, N. B., who has always given Dr. Montague such a hard time in Parliament, and who sat in parliament in 1890. Mr. Colter is spry on his feet and is very much pleased at what he has seen of British Columbia. Last night he took in the theatre and was charmed with the opera house of which Vancouver verifies are quite properly so proud. Today he visited New Westminster, going over on the tramway, and tomorrow he intends crossing the gulf to Victoria. On his return he will pay particular attention to the Northwest Territories and Manitoba, and does not expect to reach his home at Keswick valley, near Fredericton, before the beginning of December. Mr. Colter is of the opinion that in the event of a general election for the commons the result in the herring back province would be just about the opposite of what it was last year."

Fredericton Park Association. At the regular semi-annual meeting of the shareholders of the Fredericton park association held at the Queen hotel Monday night considerable business was transacted. The director's report showed that the past season had been one of the most successful in the history of the association, and that the financial outlook was much better than for some time past. The election of new directors will take place at the meeting to be held in May next when the board of directors will be enlarged to twelve members instead of seven as at present. Considerable discussion was had with a view of holding a two or three days meeting in August but the matter was left for the directors to deal with.

Church Services. Baptist church, corner York and Brunswick streets; 10 a. m., prayer meeting; 11 a. m., preaching service; 2:15 p. m., Sunday school and Bible class; 6 p. m., 20 minute meeting by young people; 6:30 p. m., preaching; 7:30 p. m., 20 minutes after service. Tuesday and Friday evenings social prayer and conference meeting at 7:30. All seats are free. Rev. F. D. Crawley, pastor.

F. C. Baptist church; preaching service at 11 a. m. and 6:30 p. m. Evening subject, "Have faith in God." Sabbath school at 2:30; social service Tuesday and Friday evenings from 8 until 9; cottage service at St. Marys Wednesday evening 7:30. All are welcomed. Rev. F. C. Hartley, pastor.

Debate Society. A young men's literary and debating society has been organized in the city, the society to meet every Monday evening in Fisher's building to hold their debates. The officers of the society are H. B. Schofield, president; B. Baxter, vice-president; A. G. Blair, Jr., secretary and treasurer.

The subject chosen for discussion for Monday evening next is "Resolved that the franchise should be extended to women in dominion and provincial politics." Aid Estey, leader of the affirmative, Geo. A. Hughes, negative, Mr. Baxter, chairman.

The strength of the membership is already upwards of twenty, and everything points to the successful carrying out of the society, especially since they have the co-operation of the older young men.

New Sidewalks. The plank sidewalk on College road, commenced in the summer months, has been completed, and is a boon of convenience to the residents of that locality. A walk is also very much needed across the green, from the C. E. station to Charlotte street, which place in the fall and spring months is very disagreeable to pedestrians. The HERALD has been asked to call the attention of the city authorities to this needed improvement. Myshall's alley has also been graded with a plank walk.

Shot Himself. Harry Risteen met with rather a severe accident on Monday evening. He had been out shooting with his brother Frank, and had just reached home, when taking the gun out of the wagon it discharged its contents into his right arm, entering about two inches above the wrist and tearing away the flesh to the elbow. He was attended by doctors Coulthard and Coburn who made him as easy as possible. It was a narrow escape from death, however.

Local Talk. Further particulars of the Bogardus and Humphreys estates have been received and will appear in next issue. Like everything else that is new, the putting up of the electric light wires, has done a lot of good talk, but it will quiet down after a little.

Lost Sabbath. Rev. Mr. Ross, of Woodstock, officiated at St. Paul's, both services.

Rev. Mr. Nobles, of Gibson, occupied the pulpit of the P. C. Baptist church here, exchanging with the Rev. Mr. Hartley.

Horse Notes.

There was not so much fun on the road as the horsemen anticipated Thanksgiving day owing to the mucky state of the street but those who had the courage to hold their trotters and pacers up had lots of fun on government lane. It was expected that Sporter, Harry M. and the speedy Moore pacer would have put in an appearance and have the first of the season's supremacy but as the afternoon wore on and neither of these responded to the judges bell, the spectators sadly wended their way homeward much disappointed at not witnessing the much talked of race which rumor says the Moore pacer is capable of showing. Among those who were out might be mentioned A. N. LaForest, with Sir Wilks, N. Keirstead, with his Alright pacer, T. Murphy with his promising Kearsage colt, W. P. Fiewelling, with the speedy little gelding Ford, W. E. Seery, with a world beater, Ran Cox, with his Sir Charles mare, and many others, in cluding quite a number of youngsters of fashionable breeding. There were many brushes between the speedy ones and what they adjoined at 4.30 evening was satisfied with the afternoon's fun and the lane even if they did not finish a winner.

It is said that the wren of Harry M. has had his shoes removed and will not start him this winter. This is hardly credited by the sporting fraternity as it is known that few enjoy a 30 gut to sligh any better than Mr. Thompson, especially when he sits behind Harry.

The Snow King, has not been seen or heard from for some time and his admirers are beginning to get anxious, but his popular owner anticipates being in Christmas time he had better be getting him in shape, for the company will be more than hot that day. So look out Alonso!

D. J. Stockford, of the government stables for the winter season and is prepared to take colts for the purpose of breaking and educating them. This is the chance that horsemen have long needed in Fredericton, and it is hoped that the university youngsters will avail themselves of the opportunity and patronize Mr. Stockford in his new venture.

It is rumored that three gentlemen who reside in the lower end of the city are about purchasing the pacing horse owned by C. H. Ames, of St. John. It is also said the celebrated King horse will be driven on the Fredericton roads this winter by a prominent horseman.

Gibson and St. Marys. Arthur Sewell has just completed a very fine barn. Fred Davidson who has been seriously ill with fever is now convalescing.

Rev. Mr. Hartley's meeting in the Baptist church Sunday evening, was largely attended and much appreciated.

Garden's hall, Gibson, has been made ready for service and the Rev. Mr. Parsons will officiate there to-morrow evening.

Sunday afternoon the Gibson Royal Templars held a very successful gospel meeting in the station hall. It was largely attended and a choice program gone through. The council is earnest in its work.

The tag, Hunter, took away a large fleet of loaded coals on Wednesday from the Gibson wharf. Thirty carloads of deal and ten carloads of laths were shipped this week, closing the season's shipments.

Reid Blair met with an unfortunate accident on Wednesday afternoon. While driving from Gibson to this place, his horse, a spirited one, took fright at the Maryville mill, threw Mr. Blair to the ground and dislocating his right shoulder.

A beer seller at Gibson, known as Tounsey, has helped swell the police account by the payment of \$50 and costs for selling beer to a youth. It appears that the boy's mother happened in just as the liquor was being drunk. The seller offered her the money paid by the boy but she refused it and called in the strong arm of the law.

The Thanksgiving supper at Gibson under the auspices of the St. Marys church women's aid association, was largely attended and a general good time enjoyed. The committee in charge were: Mrs. Parkinson, Mrs. Wm. Barker, Mrs. Jas. Wetmore, Mrs. Estabrooks, Mrs. Geo. R. Logan, Mrs. W. Jeffrey, Mrs. J. D. Coombs, Mrs. W. Miles, Mrs. Peppers, Mrs. J. W. Kuel, and the Misses Rae, Seelye, Balfour, Staples, McCullough, Wetmore, Steel, Friel, Brown, Peppers and others. The F. O. M. W. orchestra added much to the pleasure by their superior music.

Maryville Notes. Geo. Hovey left on Monday for St. Stephen where he has secured a good position in the cotton mill.

Miss A. Gibson and Miss M. Rowley, of Maryville, took part in the concert at Mount Allison on the evening of the 10th inst., and received much praise.

Much interest is taken in the revival now going on at this town and the meetings are very largely attended. On Sunday afternoon the hall was crowded. Rev. Mr. Nobles of Gibson occupied the pulpit.

Maryville has still another happy couple in the persons of Miss Mary Waugh, of Gordonville, and Miss Mary, and Robert Collins, of St. John, who were married at that town by the resident pastor, Rev. D. Chapman, on the 10th inst. at the parsonage. The contracting parties are very popular.

A bad runaway took place at the Maryville-Gibson highway on Monday afternoon. Michael Wade was going down from the town with his horse and sledge when a runaway team belonging to Isaac Peabody, of St. Marys, came tearing after him being frightened by the train. The team ran right over Wade's wagon and the three horses went on together. The team went over Wade cutting and bringing his hand badly but no horses were broken. He held on to the reins and brought all to a standstill. Not much damage was done.

Police Penitentials. A youth well known to the police seized two linen laddies at W. H. Vanwart's store last night. He was seen and after a lively chase dropped the laddies.

On Goose lane there was a lively racket a few nights since, the floor of one castle being carpeted with disks and other household paraphernalia. The police were also numerous. No arrests as yet.

The window of Peleg Smith's store, corner St. John and King, was broken last night by a soldier who was accompanied by a civilian. A dish of head cheese disappeared with them rearing the corner. They were seen.

Monday evening, Private Pike of the I. S. C., was arrested by the city police for assault on McAlister, cook of the barracks. They had a go-as-you-please race about the yard, Pike forcing the pace with a revolver in his hand. He was put behind the bars.

Freddy Hope, who figured so prominently some time since in the bee hive business, called on his friend John Dean at Whitechapel district and after partaking of his hospitality also partook of his pants or, instead of taking them in part, took them totally. He was hauled in by the police on Monday night and tried on Tuesday before Mr. Marsh. Having the option of being tried by the magistrate or county court he chose the former. Prisoner pleaded guilty and was sentenced to jail for three months with hard labor. He was wearing the stolen pants at the time of capture.

Local Talk. Further particulars of the Bogardus and Humphreys estates have been received and will appear in next issue. Like everything else that is new, the putting up of the electric light wires, has done a lot of good talk, but it will quiet down after a little.

Lost Sabbath. Rev. Mr. Ross, of Woodstock, officiated at St. Paul's, both services.

Rev. Mr. Nobles, of Gibson, occupied the pulpit of the P. C. Baptist church here, exchanging with the Rev. Mr. Hartley.

BUILDING IMPROVEMENTS.

New Houses—Repairs Made During the Year.

It is often stated that but very few improvements to the city have taken place during the year in the shape of new buildings and repairs on old ones; but when the matter is investigated the showing is not so bad.

Asa Vanwart has built a new house on the corner of George and Westmorland streets at a cost of \$3,000, besides other improvements which he has made on the property.

J. C. Risteen has erected a double tenement, near corner of Smyth street and government lane, costing about \$2,500.

James Lewis has completed a small house on Victoria lane, cost \$600.

Turney Whitehead has remodelled his residence on Brunswick street, making a decided improvement at the expense of \$1,000.

A very neat house has been made out of an old one, on King street, at an expense to Dr. Coburn of \$1,500.

J. B. Grievon has rebuilt the Altkens house, corner of George and Westmorland streets, at a cost of \$700.

Byron Brewer is building a residence on Charlotte street, that will cost over \$1,000.

Edward Owens has begun a house on Victoria lane, that will cost \$1,000 when completed, and is locating two others.

A new structure, the frame of which is up, is being built on the site of the old building, York street, by John and Michael McLaughlin. Rumor says it is for a feed mill. Cost not yet estimated.

J. A. Vanwart had an addition to his house in the shape of an ell, made this summer, at a cost of \$600.

Repairs are being made to St. Paul's manse at a cost of \$200.

Normal school building has had expended on it for repairs, \$700.

Work at York street school has been finished for the year, but the cost so far will be in the vicinity of \$600.

G. T. Whelpley is remodeling the O'Brien street building, the cost of which will be in the neighborhood of \$1,500.

Howard & Crangle's new building will cost \$2,700.

James & Co.'s store, opposite Normal school, has been enlarged by the addition of a thirty foot ell, costing \$500.

Wedding Bells. Miss Maggie Mawhinny, of Mace's Bay, Charlotte county, and William Brown, of Maryville, were married on Wednesday afternoon last.

The sweet chiming of the marriage bells also sounded at Williamsburg on the 5th inst., when the nuptials of Frederick Dorcas and Miss Angela Ward, of that place were solemnized by Rev. J. Mullin. They have the best wishes of all the neighbors for their future success.

Miss Abbie S. Young and Chas. M. Dow were married at the residence of Rev. J. W. Young, Southampton, on the 4th inst. Both were residents of that parish. The happy couple received many tokens of respect in which they are held by all. They will reside at Woodstock.

There was a quiet wedding ceremony at the Cathedral Monday evening. The happy couple were Michael Murphy, of Morrison's mills, and Miss Frances Ricker. The bride's sister and Mr. McIntyre, her brother-in-law, provided the necessary support in a very graceful manner. Rev. Mr. Alexander was the officiating clergyman.

Miss Eliza Kiscaden, of Mace's Bay, Charlotte county, and William Dismore, of Zionville, York, were married on Wednesday. They went to housekeeping at once in Maryville. A large crowd of invited guests gathered for the house warming and the complimentary presents attended the respect in which the happy couple are held.

On the 21st October Miss Emma Little, daughter of David Little of Harvey station, was married at Vancouver, B. C., to S. L. Young, real estate broker on the 4th inst. The bride was one of the most popular young ladies of Harvey, and the Pacific province has scored a point on N. B. The best wishes of all follow the young bride in her western home.

At quite an early hour on Tuesday morning, St. Dunstan's church was the scene of one of those happy events, when John Dunstan, real estate broker to Katie O'Leary, daughter of Dennis O'Leary, both of this city. Rev. J. C. McDevitt performed the ceremony. The bride received a large number of presents, among which was a handsome one of china from N. A. Edgecombe, at which establishment Mr. Donahue holds a lucrative situation, and an elegant piece of silverware from Walter McGinn. Employees of the factory also made the happy couple a presentation of a purse, showing the high esteem in which they hold their fellow workman.

PERSONAL. Concerning People Known to Most Readers. Albert Palmer, M. P. P., was in the city on Thursday.

Randolph Ketchum, M. P. P. of Carleton county, was in town on Thursday.

Patrick Carr, of Lake George, left Thursday morning for the gold fields of Nova Scotia.

Rev. Mr. Payson returned from Woodstock where he had been filling appointments on the County of York, that is to say, Robert Howie has returned from New York where he has taken lessons in cutting.

Rev. B. N. Hughes and Mrs. Hughes, of Havoc, Kings, are visiting their friends in this county.

Louis J. Smith of Harvey Station and Geo. McKie, late station agent there, go to Vancouver on the 23rd.

John Stewart, president of the Tobique Valley railway, spent Monday night at the Manor House, St. Marys.

Dr. McLeod left on Tuesday for Charlottetown, P. E. I., to engage in the Scott case, crasse taking place there.

Mrs. A. G. Beckwith went to New York, Monday, to spend with her old home with her mother and her sisters.

William Lewis of Prince William, who has been in Montreal for some years, has been called home through the illness of one of his children.

The Halifax Mail says: Michael McEade, who has been in the city for a couple of weeks in the interest of the Mutual Life of New York, goes home to spend Thanksgiving day with his family and to celebrate the eighth anniversary of his marriage. Mike is a huge and will come back to scoop in a large number of new risks.

Cheese Factories. To the Editor of THE HERALD: Sir,—It is quite apparent, from the newspaper reports, that the farmers are awakening to the benefit which will come by the establishment of cheese factories, under the auspices of the government, and the incorporation of these factories and the other to encourage dairying, which provides the bonus of \$200 to any company which will operate a cheese or butter factory. The governments have also employed a person of ability to lecture on the subject in the different parts of the province, which will be of great benefit to the farmers who have not had any experience in the business. The late importation of stock will greatly add to the good work already begun. There is no reason why the people of York, with the great facilities they have, such as plenty of good water and pasturages, should not produce as good butter and cheese as either Carleton, Kings, or in fact any part of the dominion. Now that there is some good stock in the country, it is to be hoped that those who are fortunate enough to own such will have sense enough to keep their barns snug and warm and feed liberally, which is the only means by which the stock can be kept up and good results realized. Upper Kingsclear, Nov. 7th.

Football.

The U. N. B. football team met defeat at the hands of their opponents—a St. John team picked from the St. John, Beaver and Y. M. C. A. athletic clubs, at the city by the crowd on Saturday last. There was a fair show of spectators, but the game was a whole was poor. The teams were as follows:

ST. JOHN. U. N. B. Forwards. W. Kilpatrick, C. McLaughlin, F. Barker, Geo. Giff, H. Fairweather, A. Cowerthwaite, C. Elliott, F. Stone, H. Haggerman, W. Harrison, W. E. Day, A. J. Baxter.

Quar. Backs. W. Starr, capt. Fred Tweedie, capt. J. Esson.

Half Backs. G. McLeod, F. Walker, A. McKay, E. Roal.

Full Backs. H. Hansard, B. Baxter, — Green.

The game occupied two hours and forty minutes, the score standing: St. John, 12; U. N. B., 0.

Sad Home. Michael McLaughlin of Fredericton Junction, met with a sad loss in the death of his son, David, on the 5th inst., from inflammation. Deceased was in his eighteenth year and was well respected by all who knew him.

Mrs. John Yates, of Williamsburg, Stanley passed away at her residence there on Friday evening the 5th inst., in the thirtieth year of her age. Deceased was a sister of M. Yerxa of this city. Much sympathy is expressed for the bereft family.

Mrs. Henry Sloot, wife of ex-councillor Sloot of Bright, died on Friday last and was buried on Sunday at the mouth of Keswick. The Rev. Messrs. Irvine and Hughes officiated. There was a large attendance. Deceased was a sister of Samuel Yerxa of Queensbury and an aunt of E. Yerxa of B. Yerxa & Co., this city. She was about seventy years of age and greatly respected in the parish.

Fredericton Electric Reading Club. At the annual meeting of the Fredericton electric club, held Monday evening, the following officers were elected for the ensuing year: Mrs. Jack, president.

Mr. C. H. B. Fisher and Mrs. A. H. F. Randolph, vice-presidents.

Miss S. Tippet, secretary-treasurer.

Prof. A. W. Duff, Prof. W. F. P. Stockley and W. A. Tippet, committee of management.

NEW ADVERTISEMENTS

SHERIFF'S SALE.

There will be sold at Public Auction, at the County Court House in the City of Fredericton, on THURSDAY, the 11th day of February, A. D. 1892, between the hours of twelve o'clock noon and four o'clock in the afternoon, all the right, title, property claim and demands whatsoever of Thomas Mull, in, to, upon or out of, the following described lands, premises, tenements, etc.:

44 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and known as part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road, running parallel with the said highway road, thence south by a northerly direction to a "beginning." Also,

45 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and being a part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road, running parallel with the said highway road, thence south by a northerly direction to a "beginning." Also,

46 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and being a part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road, running parallel with the said highway road, thence south by a northerly direction to a "beginning." Also,

47 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and being a part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road, running parallel with the said highway road, thence south by a northerly direction to a "beginning." Also,

48 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and being a part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road, running parallel with the said highway road, thence south by a northerly direction to a "beginning." Also,

49 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and being a part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road, running parallel with the said highway road, thence south by a northerly direction to a "beginning." Also,

50 A. L. that certain place or parcel of land, situate in the Parish of Southamptown, and being a part of lot number fifty-two, beginning at the highway, thence in a N. 75° W. line on the easterly side of the highway ten rods westerly along the said highway road
