CAUTION. The Cornwall Manufacturing Company have pleasure in intimating the commencement of the disreputable practice of importing English Blankets and selling them as Canadian. These Blankets are made largely of Shoddy and Cotton Waste, with a small percentage of pure Wool, and though slightly in appearance, closely imitating the Cornwall Blankets, and ticketed "Canadian Manufacture," have neither warm nor wear, but can be sold at a lower price than the Cornwall Blankets which are made of Pure Wool can be produced for.

The public are cautioned against this attempted deception, and respectfully informed that the name of the CORNWALL MANUFACTURING COMPANY is printed on the ticket of every Blanket made by them. Cornwall, Sept. 16th 1872. dw2m

New Advertisements.

Guelph Evening Mercury

THURSDAY EVENG, OCT. 24, 1872

Local and Other Items.

Several attempts at robbery were made at Prescott on Tuesday night. A number of stores were entered but the robbers failed to secure much booty.

A girl aged 14 years died in New Brunswick a few days ago, from tetanus, or lock-jaw, induced by a wound made by stepping on the rusty teeth of an iron rake.

The Ottawa correspondent of the New Brunswick Ministerial organ reports in an emphatic manner the current rumor that the Hon. Joseph Howe is to be made Governor of Nova Scotia.

HON. NEAL DOW.—We would remind our readers that this distinguished Temperance lecturer will give one of his addresses this evening in the Good Templar's Hall at 8 o'clock. Admission free. We anticipate a large attendance.

THE NIPISING RAILWAY.—The laying of the rails to Cobocook, the northern terminus of this railway, eighty-seven miles from Toronto, was completed on Saturday last, and in a week the whole road will be thoroughly ballasted and ready for opening.

Y. M. C. A.—The regular weekly meeting of this Association will be held in their rooms this evening, the monthly public meeting having been postponed on account of the temperance lecture. It to be hoped that there will be a large attendance of members, as business will be transacted in connection with the reorganization of the Association for the ensuing year.

CHANGING THE GAUGE.—The Grand Trunk Railway will commence to reduce its gauge to the 4 feet 8 1/2 inch standard on the 5th November. The line from Buffalo, Sarina and Goderich will be first altered, and other sections will follow as soon as occasion demands. By the middle of next summer it is expected the reduced line will be in operation as far east as Belleville.

CONCERT.—A Concert was given in Elora on Thursday evening, under the auspices of the Life-Boat Temperance Lodge of that Village. Quite an array of talent was mustered for the occasion, and the audience appeared highly gratified. The local choir opened the proceedings in their usual style, the singing of the Misses Sutherland proved all that could be desired, and received hearty accolades. Mr. Maitland fairly brought down the house with his Scotch story of "How to raise the Wind," and his singing is above criticism.

AN ACT OF KINDNESS.—We understand that a tenant at one time living in the County of Tyrone, on the property of the His Excellency the present Governor-General, emigrated to the United States. Matters did not progress with him there satisfactorily. Lately his wife died, and he left the United States for Canada, learning that the Governor-General was in Toronto he bent his steps in this direction, having about fifty cents in his pocket, he waited on His Excellency who gave him a cheque for \$150, a sum sufficiently large to release the unfortunate man from his difficulties.—Leader.

THE ATLANTIC MONTHLY.—The November number of this periodical is before us, and patrons of either literature, science, art or politics, can find a rich reward in its pages. Its contents are: The Poet at the Breakfast Table, by Mr. O. W. Holmes; Nocturne; A Dinner Party; Oriole; Jefferson's Return from France in 1789; Illnesses; Guests Concession; Mozart; The Primordial Globe; World; The New Day; A Comedy of Errors; A Prodigal in Tahiti; Recent Literature, being short notices of new books; Art, containing a notice of the architecture of New Chicago; Music and Politics, the latter containing a scathing criticism on the candidates for President of Hovee Greley for the office of President. One sentence thereof will suffice: "His election makes us forget the vulgarity of Johnson, and destroys all lingering hope that if the worst come to the worst and he is chosen President, the curses of office will bring gravity and decorum with them."

HARPER'S NEW MONTHLY.—The number of this popular magazine for November is now before us, and contains a large and varied amount of most interesting and instructive matter. Its contents are: The Mountains, illustrated by Porte Croyon; The Listeners, illustrated; Down the Danube; The Great Mother; An Industrial Experiment at South Manchester; The Siren of Science, or the mode of numbering sonorous vibrations, (illustrated); The Republican Movement in Europe, by the eminent Spanish orator, Emilio Castelar; The Visi; Geneva, (illustrated); Old Kensington, by Miss Thackeray, (illustrated); After Many Days; Improvements, by Bayard Taylor; The New Magdalen, by Wilkie Collins; The Treaty of Washington; Release; A Simpleton, a story of the day, by Charles Reade; The Editor's Easy Chair; do. Literary, Scientific and Historical Record; do. Drawer. With the present number is concluded the forty-fifth volume of Harper's Magazine. For the artistic excellence, as for the number of its illustrations, Harper's Magazine is unsurpassed. Its immense circulation (over 130,000 copies) enables the publishers to expend upon it, for literary and artistic features alone, the sum of \$50,000 a year. Terms, \$4 per year; for Harper's Magazine, Weekly and Bazar for \$10 to one address, or any two for \$7.

Two large light-houses are being erected by the Dominion authorities on Sable Island, near Halifax. These are much needed as numerous wrecks take place every season in that vicinity.

THIS MORNING'S DESPATCHES

Fire in Saginaw.

The entire sales of the wholesale warehouse of Messrs. A. T. Stewart & Co., average about \$50,000,000 per annum, and during several years have not varied more than \$1,000,000 or \$2,000,000. About 600 persons are employed there, and the transfer of goods requires the continued use of about 100 horses. The great operations in the firm are shown in its skilful touch on the pulses of the market. When there is a strong upward movement that the rise has been anticipated by the firm, and a stock obtained sufficient to supply all their wants until the prices recede. On a falling market is the reverse. Their stock is found to be very light, and they buy only enough to move until the prices are lowest. Thus they can sell to advantage and retain their enormous trade. There are but four partners in the house, Mr. Stewart and Mr. L. J. Seligman being in New York, Mr. Warden in Paris, and Mr. Fox in Manchester. Mr. Stewart commenced business when quite a young man in a small frame building on the opposite side of Broadway, and on the square below his present location. This little place was but 12 feet wide and 50 deep. Now, as then, every customer coming to his establishment is treated with marked politeness whether he is rich or poor; comes in a carriage or walks in rough attire. The prices of all goods are fixed, and the salesman has no power to change them, whether the sale is for one dollar or thousands. The firm is known throughout the land for its integrity, its promptness and enterprise.

The Horse Epidemic.

Chicago, Oct. 23.—A fire at East Saginaw, Michigan, last night entirely destroyed the Crouse Block, owned by Jesse Hoyt, New York, and occupied by grocers and clothiers. Total loss, from \$100,000 to \$125,000.

New York, Oct. 23.—The epidemic among the horses has caused intense alarm. The disease is spreading rapidly. It is rumored to-night that Mr. Bonner's "Pochahontas" has been attacked by the malady. About 150 cars and 50 stages of the disease are reported in Jersey city, Hoboken.

London, Oct. 24.—The coal dealers of Cardiff have reduced the price of coal for steamers used to six shillings per ton, fearing American competition in trade.

Monaco, Sept. 24.—The Railway communication between Monaco and Genoa has been interrupted by the breaking down of two bridges.

Paris, Oct. 24.—The German troops have evacuated Rheims and the French garrison marched in yesterday amid great rejoicings.

MEETINGS have lately been held in several of the Spanish Provinces, at which resolutions were adopted demanding the abolition of the conscription system.

Rheims Evacuated by the Germans.

Paris, Oct. 24.—The German troops have evacuated Rheims and the French garrison marched in yesterday amid great rejoicings.

News from Fort Garry.

Fort Garry, Man., Oct. 23.

The troops from Ontario and Quebec, numbering two hundred and twenty-five, arrived to-day. A large crowd received them. Col. Smith made a speech complimenting the men on the success of the journey. All are in good health and spirits.

Mr. Jarvis of the Pacific Surveying party, returned yesterday from the expedition east of the Lake of the Woods. The Presbyterian congregation in this town, from being a mission station, have resolved upon being self-supporting, and paying a minister \$2,000 per year.

We have beautiful Indian summer weather.

Trade and business are exceedingly lively.

BIBLE BURNING IN NEW BRUNSWICK.

It may be remembered that lately a priest named Father Dupe entered the house of a lady at Grand Falls, N. B., who had renounced what she considered the errors of Popery, and, asking to see her Bible thrust it into the fire. It was also stated that redress was to be sought at the hands of the law for the regrettable outrage. It now appears that on the day before the trial was to come off Father Dupe's adviser proposed an offer of adjustment of the case on payment of the necessary expenses, and the frank confession that Father Dupe being lately from France was ignorant of the laws of this country on the subject of toleration, liberty of conscience and perfect freedom of thought. The case was then amicably settled.

SOCKING RAILWAY ACCIDENT.

About 7 o'clock on Wednesday morning a special passenger train from the east arrived at Whitty station and shunted on to the siding until the express train from Toronto passed. The special then went back to switch and moved on to the main line. One of the passengers, Louis Theault from Dunceville, county of Russell, on his way west, stepped off on the platform opposite the station, intending to go aboard when the train passed up, but owing to the distance between the switch and the station platform, it had obtained considerable speed when young Theault tried to leap on the steps, but was jerked off and fell between the wheels and platform, both his feet being crushed by the wheels. He was sent to Toronto by train to undergo the amputation of his feet.

The balloon trip made by Messrs. Samuel A. King, the noted aeronaut, and Luther L. Holden, of the Boston Journal, during the afternoon and night of Sept. 30th, and the morning of the 27th, from Plymouth, N. H., to Sayabec, Quebec Province, Canada, was one of the most remarkable ever made in this or any other country. The adventurous gentlemen passed over wild regions in New Hampshire, Maine, and portions of the Province of Quebec, to the shore of the Gulf of St. Lawrence, travelling about 500 miles in 12 hours and 42 minutes. They narrowly escaped being blown out to sea, and making a far from agreeable visit to the inhospitable shores of Labrador. The highest peaks of all the White Mountains, and many hills, lakes and rivers, in Maine and Canada, were passed over during that dark and stormy night, and at an average elevation of two and one-half miles.

GROWTH OF WINNIPEG.—Nothing can be a better index of the confidence felt in the future of Manitoba, than the substantial growth of the town of Winnipeg. This season it has at least trebled itself in size. Hundreds of houses are now in course of construction. The buildings are nearly all of a good class. The demand for mechanical labor is very great. First-class tradesmen are getting their own rate of wages. Posters are put up through the town for fifty carpenters by the Hudson Bay Company.

Rufus King, the Minister of the United States in England, protested, in 1798, against the banished leaders of the Irish rebellion being allowed to go the United States.

A Great Firm.

The entire sales of the wholesale warehouse of Messrs. A. T. Stewart & Co., average about \$50,000,000 per annum, and during several years have not varied more than \$1,000,000 or \$2,000,000. About 600 persons are employed there, and the transfer of goods requires the continued use of about 100 horses. The great operations in the firm are shown in its skilful touch on the pulses of the market. When there is a strong upward movement that the rise has been anticipated by the firm, and a stock obtained sufficient to supply all their wants until the prices recede. On a falling market is the reverse. Their stock is found to be very light, and they buy only enough to move until the prices are lowest. Thus they can sell to advantage and retain their enormous trade. There are but four partners in the house, Mr. Stewart and Mr. L. J. Seligman being in New York, Mr. Warden in Paris, and Mr. Fox in Manchester. Mr. Stewart commenced business when quite a young man in a small frame building on the opposite side of Broadway, and on the square below his present location. This little place was but 12 feet wide and 50 deep. Now, as then, every customer coming to his establishment is treated with marked politeness whether he is rich or poor; comes in a carriage or walks in rough attire. The prices of all goods are fixed, and the salesman has no power to change them, whether the sale is for one dollar or thousands. The firm is known throughout the land for its integrity, its promptness and enterprise.

NEWS ITEMS

The epizootic has broken out among the horses of Brooklyn and Boston.

A counterfeit of a Canadian half-dollar piece is in circulation in Montreal.

A supposed robber was arrested at Gananoque on Tuesday and committed for trial.

Four horses were killed on Tuesday, near Cedarvale, by a train on the Grand Trunk.

The epizootic has reached New York, and attacked 7,000 horses in twenty-four hours.

A subscription fund is said to be on foot in Bombay for the erection of a temple to Vishnu in London.

A large meeting has been held in London in favor of an amnesty to the Fenians. Isaac Butt, M. P., was present and spoke.

John McHugh, a young man aged 25, belonging to Peterborough, had his neck broken on Tuesday afternoon by a tree falling on him, on the Burnt River.

Thos. Cullen, found guilty in Chicago lately, for murdering a man named McWilliams, has been sentenced to penitentiary for life.

An anonymous producer offers to go to Nathan the banker, and prove said murderer guilty, provided he is given immunity for requisitions from other States, and paid five thousand dollars after the conviction of the murderer.

From all quarters intelligence arrives of the spread of the epidemic now prevailing amongst horses in this country. In the States the disease is equally extended. In Rochester every horse is reported of the streets.

Philadelphia merchants have resolved to petition the U. S. Financial Department to buy up \$4,000,000 of interest-bearing debt and the same amount of legal tenders in order to relieve the tightness of the money market.

At the session of the Brotherhood of Locomotive Engineers, at St. Louis, a resolution was adopted favoring the abolition of all Sunday trains, and a clause in the corporation was adopted providing for the expulsion of any engineer addicted to the use of intoxicating liquors.

PATROL ACCIDENT.—A serious accident occurred in Fisher's grist mill, Wingham, on Wednesday. A boy of Mr. Hutton's, miller, went to show another boy how to put the belt on the grindstone pulley, when it slipped off, caught him by the leg, and drew him into a wheel which broke his leg in two places.

It is intimated that there are at least fifty thousand young men employed as commercial travellers in the United States.

Fifty Italians, employed as street musicians, peddlers, and in similar occupations, were discovered to live in a small two-story house in New York city.

We have been told from time to time that the taxation of Canada is as large proportionately as that of the United States. The fact is that the State taxes alone in the United States are nearly as great per capita as our whole taxation. In New York, the State taxes this year will amount to \$16,970,098, while this rate is far exceeded in other States.

It is understood that according to the decision arrived at by the large committee of which the Rev. Dr. Puncheon is chairman, sitting in the Dorchester street Wesleyan Methodist Church, Montreal, there shall be no United British North American Methodist one General Conference, while the district enclosed by the Canada conference shall be divided into three sub-districts, and the Maritime Provinces into two sub-districts, of which each will have an annual Conference Assembly. The incorporation of the lay element into the General Conference will be acceded to if so desired.

GOOD FOR THE COUNTRY.—These October rains. They are replenishing our wells, springs, brooks, rivers, reservoirs and lakes, from the far East to the far West with good supplies of water, to say nothing of the vitality they are giving to the soil. Last October, from the Rocky Mountains along the great lakes to the Atlantic coast, the country was dried up by a general drought, and the West from Dakota to Chicago, suffered more or less from the disastrous October freeze. This year from these widespread "later rains" the West has suffered little or nothing from prairie, forest or city fire; and so, in every view, it may be truly said these autumn rains are good for the country.—N. Y. World.

Two Knowing by Half.

An eligible young man was one day recently calling on an equally eligible young woman, and the conversation happening to turn upon hills, mountains, valleys, cataraets and waterfalls, a precocious brother of the young lady spoke up and said:—

"Why, sister's got a trunk full of them up stairs; pa says they are made of horse hair.

Imagine the confusion of the washing damsel.

Shortly after, the subject of a yoke of calves owned by the young gentleman's brother, was uneluctably mentioned, when the little one looked up and said:—

"Sister has a dozen pair of them, but she don't wear them only when she goes up town on windy days."

"Leave the room, you amannually little wretch!" exclaimed Emily, "leave at once."

"I know what you want me to leave the room for," replied he, "you can't fool me; you want to sit on that man's lap and kiss him, like you did Bill Simmons, the other day; you can't fool me, I see tell you. Give me some candy, like he did, and I'll go. You think because you have the Green bend, you are smart. Guess I know a thing or two. I'm mad at you, anyhow, because papa would have bought me a new top yesterday, if it hadn't been for you getting them sorled, dog on you! You needn't turn so red in the face, 'cause I can see the paint. There ain't no use winking with that glass eye of yours, for I ain't going out of here, that's what's the matter with the pup. I don't care if you are twenty-eight years old, you'n no boss of mine."

THIS MORNING'S DESPATCHES

Fire in Saginaw.

The entire sales of the wholesale warehouse of Messrs. A. T. Stewart & Co., average about \$50,000,000 per annum, and during several years have not varied more than \$1,000,000 or \$2,000,000. The highest peaks of all the White Mountains, and many hills, lakes and rivers, in Maine and Canada, were passed over during that dark and stormy night, and at an average elevation of two and one-half miles.

GROWTH OF WINNIPEG.—Nothing can be a better index of the confidence felt in the future of Manitoba, than the substantial growth of the town of Winnipeg. This season it has at least trebled itself in size. Hundreds of houses are now in course of construction. The buildings are nearly all of a good class. The demand for mechanical labor is very great. First-class tradesmen are getting their own rate of wages. Posters are put up through the town for fifty carpenters by the Hudson Bay Company.

Rufus King, the Minister of the United States in England, protested, in 1798, against the banished leaders of the Irish rebellion being allowed to go the United States.

THIS MORNING'S DESPATCHES

Fire in Saginaw.

The entire sales of the wholesale warehouse of Messrs. A. T. Stewart & Co., average about \$50,000,000 per annum, and during several years have not varied more than \$1,000,000 or \$2,000,000. About 600 persons are employed there, and the transfer of goods requires the continued use of about 100 horses. The great operations in the firm are shown in its skilful touch on the pulses of the market. When there is a strong upward movement that the rise has been anticipated by the firm, and a stock obtained sufficient to supply all their wants until the prices recede. On a falling market is the reverse. Their stock is found to be very light, and they buy only enough to move until the prices are lowest. Thus they can sell to advantage and retain their enormous trade. There are but four partners in the house, Mr. Stewart and Mr. L. J. Seligman being in New York, Mr. Warden in Paris, and Mr. Fox in Manchester. Mr. Stewart commenced business when quite a young man in a small frame building on the opposite side of Broadway, and on the square below his present location. This little place was but 12 feet wide and 50 deep. Now, as then, every customer coming to his establishment is treated with marked politeness whether he is rich or poor; comes in a carriage or walks in rough attire. The prices of all goods are fixed, and the salesman has no power to change them, whether the sale is for one dollar or thousands. The firm is known throughout the land for its integrity, its promptness and enterprise.

The Horse Epidemic.

Chicago, Oct. 23.—A fire at East Saginaw, Michigan, last night entirely destroyed the Crouse Block, owned by Jesse Hoyt, New York, and occupied by grocers and clothiers. Total loss, from \$100,000 to \$125,000.

New York, Oct. 23.—The epidemic among the horses has caused intense alarm. The disease is spreading rapidly. It is rumored to-night that Mr. Bonner's "Pochahontas" has been attacked by the malady. About 150 cars and 50 stages of the disease are reported in Jersey city, Hoboken.

London, Oct. 24.—The coal dealers of Cardiff have reduced the price of coal for steamers used to six shillings per ton, fearing American competition in trade.

Monaco, Sept. 24.—The Railway communication between Monaco and Genoa has been interrupted by the breaking down of two bridges.

Paris, Oct. 24.—The German troops have evacuated Rheims and the French garrison marched in yesterday amid great rejoicings.

MEETINGS have lately been held in several of the Spanish Provinces, at which resolutions were adopted demanding the abolition of the conscription system.

Rheims Evacuated by the Germans.

Paris, Oct. 24.—The German troops have evacuated Rheims and the French garrison marched in yesterday amid great rejoicings.

News from Fort Garry.

Fort Garry, Man., Oct. 23.

The troops from Ontario and Quebec, numbering two hundred and twenty-five, arrived to-day. A large crowd received them. Col. Smith made a speech complimenting the men on the success of the journey. All are in good health and spirits.

Mr. Jarvis of the Pacific Surveying party, returned yesterday from the expedition east of the Lake of the Woods. The Presbyterian congregation in this town, from being a mission station, have resolved upon being self-supporting, and paying a minister \$2,000 per year.

We have beautiful Indian summer weather.

Trade and business are exceedingly lively.

BIBLE BURNING IN NEW BRUNSWICK.

It may be remembered that lately a priest named Father Dupe entered the house of a lady at Grand Falls, N. B., who had renounced what she considered the errors of Popery, and, asking to see her Bible thrust it into the fire. It was also stated that redress was to be sought at the hands of the law for the regrettable outrage. It now appears that on the day before the trial was to come off Father Dupe's adviser proposed an offer of adjustment of the case on payment of the necessary expenses, and the frank confession that Father Dupe being lately from France was ignorant of the laws of this country on the subject of toleration, liberty of conscience and perfect freedom of thought. The case was then amicably settled.

SOCKING RAILWAY ACCIDENT.

About 7 o'clock on Wednesday morning a special passenger train from the east arrived at Whitty station and shunted on to the siding until the express train from Toronto passed. The special then went back to switch and moved on to the main line. One of the passengers, Louis Theault from Dunceville, county of Russell, on his way west, stepped off on the platform opposite the station, intending to go aboard when the train passed up, but owing to the distance between the switch and the station platform, it had obtained considerable speed when young Theault tried to leap on the steps, but was jerked off and fell between the wheels and platform, both his feet being crushed by the wheels. He was sent to Toronto by train to undergo the amputation of his feet.

The balloon trip made by Messrs. Samuel A. King, the noted aeronaut, and Luther L. Holden, of the Boston Journal, during the afternoon and night of Sept. 30th, and the morning of the 27th, from Plymouth, N. H., to Sayabec, Quebec Province, Canada, was one of the most remarkable ever made in this or any other country. The adventurous gentlemen passed over wild regions in New Hampshire, Maine, and portions of the Province of Quebec, to the shore of the Gulf of St. Lawrence, travelling about 500 miles in 12 hours and 42 minutes. They narrowly escaped being blown out to sea, and making a far from agreeable visit to the inhospitable shores of Labrador. The highest peaks of all the White Mountains, and many hills, lakes and rivers, in Maine and Canada, were passed over during that dark and stormy night, and at an average elevation of two and one-half miles.

GROWTH OF WINNIPEG.—Nothing can be a better index of the confidence felt in the future of Manitoba, than the substantial growth of the town of Winnipeg. This season it has at least trebled itself in size. Hundreds of houses are now in course of construction. The buildings are nearly all of a good class. The demand for mechanical labor is very great. First-class tradesmen are getting their own rate of wages. Posters are put up through the town for fifty carpenters by the Hudson Bay Company.

Rufus King, the Minister of the United States in England, protested, in 1798, against the banished leaders of the Irish rebellion being allowed to go the United States.

Resignation of the Ontario Government.

Immediately after Lieut. Governor Howland's return from New Brunswick, Mr. Blake waited upon him and tendered his own resignation and that of Mr. Mackenzie, Provincial Treasurer. His Excellency accepted these resignations, and asked Mr. Blake's counsel as to the course he should take.

The other members of the Administration have placed their offices at the disposal of the new Premier, and he is now engaged in the reconstruction of the Cabinet.—Globe.

The New Premier.

The intimation made in another place that the Hon. Oliver Mowat had been sent for by Governor Howland, on the recommendation of the Hon. Ed. Blake, the retiring Premier, to become the head of a new Liberal Administration, will be received by Reformers throughout the Province with unmingled satisfaction.

The maturer judgment and more ripened experience acquired since his elevation to the Bench, together with his high personal character, and consistent record as a politician, unitedly point to Mr. Mowat as a worthy successor to the very distinguished statesman who preceded him in the office of Premier, and we feel fully persuaded that Reformers will rally with enthusiasm to the hearty support of the New Government under his leadership.

Mr. Mowat is now busy with the reconstruction of his Cabinet—Messrs. Crooks, Scott, McKellar and Gow having all placed their offices at the new Premier's disposal—and we shall probably learn in a day or so what is the personnel of the New Reform Ontario Government.

Mr. Mowat will, of course, require to seek the suffrages of some constituency, and in this respect, doubtless, there will be little difficulty in obtaining what the exigencies of the case demand.

An Example for Canadian Snobs.

In remarking upon Lord Dufferin's affability, condescension, and desire to please, the Quebec Chronicle reads certain folks in "this Canada of ours," a little lecture which we deem worth reproducing for the benefit of all concerned. Our contemporary says of the Governor-General's social qualities: "His example in this respect might be followed with good results in Quebec and other cities where you often meet persons not one whit above you in social position, and far inferior to you in the qualifications which render a man agreeable and entertaining, unwilling to be even ordinarily polite on social and other occasions. This constant affectation of superiority in a new, democratic, self-made community, is the most ridiculous outcome of egotism and stupid pride conceivable. The people who are this superiority unconsciously betray both their ignorance of what good breeding is, and their inward knowledge of the fact that there is nothing really superior about them. It is not the genuine metal that needs polish and gilding, but the worthless pinchback. We have heard the remark more than once made, of late, that the development of habits of silly display and snobbery in our Canadian cities is something both surprising and ridiculous; and 'fashions' may be expected to live on as long as sensible people who don't like or can't afford them, don't snub their votaries on all proper occasions—and as long as obliging tailors and milliners don't refuse to give long credit. We want just such real leaders of society in this country as Lord and Lady Dufferin at present, to reprove by quiet gentlemanly demeanor and gracious conduct towards persons who really are inferior, that it is not necessary to be rude, or foppishly dressed to play a gentleman's part in "good society."

A HORSE THIEF IN CUSTODY.—There is a man in St. Catharines gaol charged with various thefts, principally horse thefts. About three years ago he stole a horse from Oshawa, and on the 11th of June from a clergyman in Pennsylvania, with whom he was hired, he stole a horse and buggy, which Constable Robert Campbell, on Sunday last, recovered a few miles out from Hamilton, and left it there with the Hamilton Police to be identified by witnesses from the other side. The St. Catharines News says:—"Detectives from the other side were down at our goal on Sunday, hovering around for the reward, which is \$100 for thief and \$50 for the horse, besides some more by the State. This reward belongs of right to Robert Campbell, who had several more charges against prisoner, and who has worked up the case with energy and tact." FINE.—DeCov's store, at Cayuga, was partially destroyed by fire on Tuesday.

The Gardner Sewing Machine.

The Hamilton agent for the Gardner Sewing Machine is now in town for the purpose of introducing the machine to our townfolk. We feel sure, from the great success this machine has met in other towns, and the attraction it has gained from the public at all the Annual Fairs and Exhibitions, having been awarded no less than twenty-two prizes this fall, that he will have a good sale while here. We cannot do more than recommend those about to purchase a sewing machine to try the Gardner before buying. It is well adapted for all kinds of sewing—it is in fact a first class machine for Tailoring, Dressmaking and Family use.

Orders sent to Mr. Hunter, Wyndham Street, Guelph, or to William S. Lumme, Hamilton Agent, Wellington Hotel, Guelph, will receive prompt attention. AMONG our Merchants in Guelph, there are none perhaps so noted for thorough business enterprise as the celebrated Hardware Merchant, Mr. Jno. Horsman. Every season finds him ready for the particular wants of the time, with the best articles of what ever kind are required, and at the lowest possible prices. Now, at the approach of winter, Coal Oil the clearest, Lamps the finest, Chimneys, Wicks and Burners the best; Coal hard and Coal soft, Fire Grates, Fire Irons, Coal Scuttles, Cinder Sifters, Lanterns, Floor Oil Cloth, Mats, &c. Tea and Coffee Pots, Cruet Stands, Wringers, Mangles, Scrubbing Brushes, Shoe Brushes, Stove Brushes, Smoothing and Finishing Irons, and every Housekeeper's need can be supplied; and every one knows with what confidence they can go or send to Mr. Horsman's, and depend on getting the best goods at the lowest prices. dw

DIED

WILSON—At Stratford, on the 24th of Oct., Jane Elizabeth, only daughter of Mr. Jas. Wilson, of Stratford, formerly of Eden Mills, aged 17 years and 2 months. The funeral will leave for Eden Mills Cemetery to-morrow (Friday), from the Grand Trunk Passenger Station, on the arrival of the 11 o'clock train. Friends and acquaintances are respectfully invited to accept this intimation.

CHAPTER XXII.

A POOL DEED—THE MISSING ONE.
 Matthew Greigson and Allie, his wife, like honest, honest country folks, went early to bed, and though George had not returned when their usual hour for retiring to rest had come, they did not think it necessary to sit up long beyond it to wait for him. His non-return at that time gave them no surprise, for though it was late according to their old-fashioned notions they were well aware that in the estimation of others, the hour was not untimely, and on this occasion they could easily understand why George tarried. The lovers, they thought, absorbed in each other's society, were giving no thought to the passing of time, and could not find it in their hearts to separate. Which was not, to be wondered at, for seeing the difficulty they had of meeting each other, it was very natural that they should prolong their happiness to the utmost.

So Allie proposed, and Matthew acquiesced in the suggestion, that they should just go to bed, leaving supper on the table for George, and the door on the latch for his unimpeded entrance. Before passing into the bed chamber, Matthew went outside to take a look at the night, as was his custom. A thoughtful and devout man was Matthew Greigson, and many solemn raisings he had, when at these night seasons, he stood outside his cottage door, and gazed up to the thousands of shining stars and the densely clustering Milky Way, which girded the heavens with a belt of light. He felt then, as most men feel in such circumstances, that he was near to the Infinite and Eternal, and a sacred awe came upon his spirit, which he loved to experience.

On this particular night this impression was peculiarly profound, and he stood longer than his wont, listening to the deep, deep stillness, broken only by the low murmuring of the stream as it flowed down the ravine. As thus he stood, there came to his ear with startling distinctness one cry, which Matthew took for the cry of "a hoole!" from the recesses of some distant ivy-clad tree. He thought no more of it at the time, but, turning, went indoors and to his couch of rest. But the time came when he had reason to believe that it was no howlet's cry which he heard, and then he bitterly reproached himself for failing to distinguish between the "too-hoo" of the night-howl and the wild utterance of human despair.

Though he rose betimes in the morning, Allie had been still earlier astir, and on going into the kitchen she laughingly observed—
 "Maister George had suppit on love last night."
 "What mean ye by that, mistress?" asked Matthew.
 "I just mean what I say, guidman. The milk and the scones and the cheese that I left on the table he has never tasted."

"What time cam' he in?"
 "Dear a bit o' me kens, for I sleepit as sound as a tap."
 "And sae did I," observed Matthew; "and it's like he wad slip awa tae his bed without makin' a noise."
 "Aweel, pair chield," said Allie, "he'll want tae mak' up for it this morning, and we shanna disturb him. He can just get his breakfast when he comes bop."

"Just that," responded Matthew, and in due time the couple breakfasted together without waiting for George, or even tapping at his chamber door to rouse him.

Grief, excessive anxiety, or prolonged study will produce infirmity in the nervous system, in proportion as the strength of that system is expended upon the mind in troubled thought, so are the organs of digestion, assimilation and nutrition, rendered inactive and sluggish in proportion as the system becomes infirm. Every individual has some organ weaker than the rest, and this is always the first to suffer during nervous prostration; for example, afflicting news sometimes causes total suspension of the muscular action of the heart, when the patient is debilitated, producing sudden hemorrhage and death. No doubt any longer remains of the practicability of restoring the nervous system, and through the nerves the muscles of the impaired organs. Fello's Compound Syrup of Hypophosphites has been proved to possess such power in numerous instances. It will impart strength to overcome trouble and affliction. Persons who are accustomed to look upon the dark side, and who see no pleasure in living, on using this Syrup soon learn to value and enjoy life, and those who study deeply or through long hours, will find in the Syrup a promoter of the power of endurance in the brain.
