MAY IT PLEASE YOUR ROYAL HIGHNESS,—

The House of Commons have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

The Honourable the Speaker of the Senate then said:—

MR. SPEAKER,—I am commanded by His Royal Highness the Governor General to assure you that your words and actions will constantly receive from him the most favourable construction.

And the House being returned,—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

Since I last addressed you the war in which we are engaged has been continued with unabated vigour and varying fortunes.

The Empire's part therein has been amply maintained at sea by the inspiring achievements of the Navy, and on land by the distinguished valour of the great armies which have enrolled themselves in all parts of His Majesty's Dominions for the common defence of our liberties.

In a spirit of splendid loyalty and unflinching devotion, India and the Overseas Dominions have vied with each other in co-operating with the Mother Country to achieve this great purpose.

The call to service has evoked a widespread and notable response in Canada. Already 120,000 men have crossed the seas, an equal number is now being actively trained and equipped for service abroad, and a call extending the authorized enlistment to half a million men has been received with warm enthusiasm.

At the front our gallant soldiers have met the enemy in repeated contests, and by their pre-eminent courage and heroic endurance have shed lustre upon their country and uphold its highest traditions.

Equally praiseworthy and impressive has been the self-sacrificing and loyal spirit shown by all the Canadian people who have freely dedicated their manhood and substance to the common defence of the Empire.

The life of the present Parliament expires in the autumn of this year, and, under existing legislation, a dissolution and election would be necessary in the early future. My advisers, however, are of the opinion that the wishes of the Canadian people and the present requirements of the war would be best met by avoiding the distraction and confusion consequent upon a general election at so critical a time.

That purpose can only be effected through the medium of legislation by the Parliament of the United Kingdom. A resolution authorizing and requesting the enactment of such legislation as will extend the life of this Parliament for the period of one year will be presented to you.

Measures will be submitted for your consideration to further the effective co-operation of Canada in the defence of the Empire and in the maintenance of this war, waged for liberty and lasting peace.

It is a matter for profound thankfulness that Providence has blessed the labours of our husbandmen during the past year with the most bountiful harvest in the history of Canada.

Gentlemen of the House of Commons:

The accounts for the last, and the estimates for the next fiscal year will be submitted to you without delay, and you will be asked to make the necessary financial provision for the effective conduct of the war.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

The high courage, the splendid heroism, and the unalterable determination which have marked the united efforts of all portions of His Majesty's Dominions, during a year of unprecedented strain and effort, justify our supreme confidence in the triumph

of our cause and in the lasting affirmation of the principles of liberty and justice throughout the world. I commend to your earnest consideration the measures which will be submitted to you for aiding in that great purpose, and I pray that the Divine blessing may rest upon your counsels.

On motion of Sir George Foster, for Sir Robert Borden, seconded by Mr. Casgrain, Ordered, That the Speech of His Royal Highness the Governor General, to both Houses of Parliament of the Dominion of Canada, be taken into consideration on Monday next.

On motion of Sir George Foster, for Sir Robert Borden, seconded by Mr. Casgrain, Resolved, That the Order for the consideration of the motion for an Address to His Royal Highness the Governor General, in reply to his Speech at the opening of the Session, have precedence over all other business, except introduction of Bills, until disposed of.

On motion of Sir George Foster, for Sir Robert Borden, seconded by Mr. Casgrain, Resolved, That a Special Committee be appointed to prepare and report, with all convenient speed, Lists of Members to compose the Select Standing Committees of this House, under Rule 10, said Committee to be composed of Sir Robert Borden, Sir Wilfrid Laurier and Messieurs Reid, Casgrain, Pugsley, Stanfield and Pardee, and that that portion of Rule 10 limiting the number of Members of the said Committee, be suspended in relation thereto.

Mr. Speaker laid before the House,—The Report of the Joint Librarians of Parliament, which is as follows:—

To the Honourable the Speaker of the House of Commons:

The joint Librarians have the honour to report on the affairs of the Library of Parliament for the year 1915.

Owing to the partial cessation of publishing volumes of Miscellaneous Literature, the additions to the Library of such Literature have not been as many as usual.

Large demands have, however, been deemed necessary for the purchase of books that relate to the various aspects of the war, such as Law books dealing with contraband, neutrality, trade and finance.

The purely historical volumes that have been, by general consent, considered standard works, have been procured in sufficient numbers to satisfy the requirements of Members.

The Diplomatic Correspondence of all the nations, so far as it was obtainable, has also been collected in numbers.

Particular attention has been given to the Diplomatic Correspondence of the United States with all the warring nations; and a liberal supply of copies has been procured.

A very large collection of war pamphlets has been made and bound for reference; and a considerable number have been retained unbound for the convenience of members.

Where an unusually large number of pamphlets and small books have accumulated on their hands, the Librarians have sent them to the Department of Militia and to the various military camps for the use of the troops, and to some soldiers' clubs, where they have been much appreciated.

Among the donations to the Library during the year we may mention specially:

1. A collection of Provincial Statutes and Sessional Papers;
2. A copy of the six volumes of the Century Dictionary;

3. A collection of the proceedings of the Royal Society of Canada; and other donations from T. B. Flint, Esquire, LL.D., the Clerk of the House of Commons, whose attention to the interests of the Library has been constant and valuable;

4. A collection of war pamphlets and posters of value for historical purposes, from Honourable Sir Clifford Sifton, K.C.M.G.;

5. Many beautiful and costly volumes from the Trustees of the British Museum, including a catalogue of Cuneiform Tablets, and one of Greek and Roman lamps; also a volume of select bronzes, Greek, Roman and Etruscan; and other exquisite productions more fully set forth in the donation list;

6. A splendid collection of reproductions of Roman Antique monuments of architecture, the work of the celebrated artists Piranesi. It is contained in nine immense folio volumes. We owe this very rare work to the liberality of the Italian Government, from which it was obtained through the kind request of Mr. Chevalier G. Chilesotti, Italian Consul for Canada in Montreal;

7. The customary donations from the Imperial Government; the Congress of the United States; the Government of France; the various States of the United States; the Legislatures of all the Colonies of the Empire.

A glance at the donation list appended hereto will show the varied sources from which the Library is recruited, and the constant care taken in preserving and extending the exchange system. This work alone occupies the time and attention of the Library Staff to a large extent.

The large additions made to the Library from year to year, by purchase, exchange and donation, justify the demands so often made for an enlargement of space, demands which the present war conditions and the need for economical expenditure prevent us from repeating at present.

The Librarians desire to acknowledge the courtesy which they have had in the discharge of their duties, from the late Speaker, Honourable Thomas S. Sproule.

The list of copyrights has also been prepared, and will be found as usual among the sessional papers when printed.

The annual catalogue of accessions has been prepared, and is in course of printing. It will be distributed at an early date.

All of which is respectfully submitted.

A. D. DE CELLES,

General Librarian.

MARTIN J. GRIFFIN,

Mr. Jameson moved, seconded by Mr. Edwards, That, whereas, fish is a highly nutritious and palatable article of food, of which abundant supplies are continually available at low prices at the sea-coast and inland waters of Canada; and, whereas, in order that an increased demand for fish might be speedily developed in the interior markets of the country by having the same placed thereon in prime condition and at moderate prices, the Government has been and is assisting the industry, under certain conditions, by paying a portion of the express charges, and providing more adequate transportation facilities; notwithstanding which, the prices at which fish can be purchased in such interior markets seems unreasonably high, as compared with those received by the producer, which condition is militating against the ends in view.

Therefore, be it resolved, That, in the opinion of this House, it is desirable that an inquiry should be made to determine if possible the cause or causes of the great discrepancy between the price of fish at the places of production and that charged on the interior markets.

And it is further resolved, That this resolution be referred to the Committee on Marine and Fisheries, with instructions to consider the subject-matter thereof and make such inquiry.

And a Debate arising thereupon, the said Debate was interrupted by the breaking out of a fire which destroyed the Parliament Buildings.

FRIDAY, 4th February, 1916.

By Mr. Fripp,—The Petition of James William McKenzie, of the Parish of Ste. Marguerite, County of Terrebonne, Province of Quebec, farmer, the lawful husband of Mary Amelia McKenzie (née Monette), whose place of residence is, at present, unknown.

Mr. Speaker informed the House that he had directed the Clerk of the House to lay upon the Table his recommendation and the report of the Clerk on the subject of the appointment of Mr. Arthur Beaudesne, B.A., K.C., to the position of Clerk Assistant of the House of Commons, in place of the late Mr. J. B. R. Laplante.

To the Honourable

The House of Commons.

The Speaker of the House of Commons has the honour to recommend the appointment of Mr. Arthur Beaudesne, B.A., K.C., as Clerk Assistant of the House of Commons to fill the vacancy in that office created by the lamented death of Mr. J. B. R. Laplante, who lost his life in the recent disaster at the Parliament Buildings.

The report of the Clerk of the House and a statement as to the Certificate of the Civil Service Commission in that behalf is hereto annexed.

ALBERT SEVIGNY,

Speaker.

House of Commons, 15th February, 1916.

HOUSE OF COMMONS,

14th February, 1916.

To the Honourable,

The Speaker of the House of Commons.

SIR,—I have the honour to report, with deep regret, the death of Mr. J. B. R. Laplante, Clerk Assistant of the House of Commons, who was at his post of duty at the time the fire broke out in the Parliament Buildings.

Mr. Laplante had been Clerk Assistant since 1897 and in the discharge of the duties of his office he was in every way, not only thoroughly competent, but a most zealous and obliging official. This sad event has created a vacancy in the office which it is desirable should be filled. The office is graded, under the organization of the Staff of the House (by virtue of the Civil Service Amendment Act, 1908) in Sub-division A of the First Division, and the appointment to fill the vacancy is to be under the provisions of that Act.

I beg further to report that the knowledge and ability requisite for the position are largely professional and in many features peculiar and technical, and that a thorough knowledge of the French language is essential.

Upon your recommendation Mr. Arthur Beaudesne, B.A., K.C., a legal officer in the Department of Justice, who has the grade in the Civil Service above referred to, has been requested to apply to the Civil Service Commission of Canada for a certificate of qualification under the said Act.

The Civil Service Commission have on this 14th day of February, 1916, duly filed in this office their certificate that Mr. Beaudesne, in their opinion, possesses the requisite knowledge and ability, and is qualified as to health, character and habits, for appointment to the position of Clerk Assistant of the House of Commons in the said grade. They further certify, in pursuance of the provisions of Section 33 of the said Act, that he possesses the exceptional qualifications required for the performance of the duties of such position.

I am, Sir,

Your obedient servant,

THOMAS B. FLINT,

The Order of the Day being read for the House to resolve itself into the Committee of Ways and Means,

Sir Thomas White moved, seconded by Mr. Casgrain, That Mr. Speaker do now leave the Chair.

And a Debate arising thereupon, the said Debate was, on motion of Mr. Maclean (Halifax), seconded by Mr. Carvell, adjourned.

The House, according to Order, again resolved itself into the Committee of Supply, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Rhodes reported, That the Committee had made some progress, and directed him to move for leave to sit again.

Resolved, That this House will, at its next sitting, again resolve itself into the said Committee.

And then The House, having continued to sit till ten minutes before Eleven of the Clock, P.M., adjourned till To-morrow, at Two o'Clock, P.M.

1. Whether the Government have taken cognizance of the following article published in *The Montreal Gazette* on 1st November, 1915:—

“CANADIAN HELP COMES FROM SALE OF GIFT FLOUR.

“FOODSTUFFS NOT NEEDED BY THE ENGLISH POOR WERE BOUGHT FOR BELGIAN RELIEF.
“FUNDS TO AID EAST COAST.

“HON. WALTER LONG SUGGESTED TO CANADIAN GOVERNMENT THAT \$750,000 BE ALLOTTED,
AND LATTER AGREED.

“(Special Cable from the Gazette's Resident Staff Correspondent.)

“LONDON, 31st October, ‘Canada's aid to the East Coast towns of England, which are suffering through the war, is the subject of some misconception,’ said Sir George Perley To-day. In a statement in the Commons, Hon. Walter Long said that the necessary funds for a Government scheme of help for hotel and lodging house keepers had been generously provided by the Canadian Government. This gave rise to the idea that the Dominion was taking a new step, but the fact is that no money is coming from Canada. Of the flour sent by Canada a year ago to relieve distress in England, very little was distributed, as poverty was in no way abnormal. Some 400,000 bags of this flour were transferred to the American committee for Belgian relief, which purchased them. The money paid for this flour being in the hands of the Local Government Board, Honourable Walter Long, as President of the Board, suggested to Sir George Perley that this might be utilized for the relief of the East Coast towns where the season had been ruined owing to the lack of railway facilities and the disinclination of the public to visit the East Coast because of the possibility of German naval or aerial raids. The Dominion Government acquiesced in this proposal, and the sum of \$750,000, part of the proceeds of the sale of the flour, has now been allotted for this purpose. Canada's generosity will therefore go to alleviate the distress of a large number of better-class people, who are direct sufferers from the war, instead of the destitute poor, for whom it was intended, but who, it develops, were not in need of it.”

2. Whether the said article is accurate; if not, in what respect it is inaccurate.

Sir Robert Borden, a Member of the King's Privy Council, presented,—Return to the foregoing Order, forthwith. (*Sessional Papers, No. 198.*)

On motion of Mr. Papineau, seconded by Mr. Demers,

Ordered, That there be laid before this House, a Return showing:—

1. Whether the Government is aware that the following extract from an article was published on the 12th January, 1915, in the *Montreal Gazette*:—

“DISTRESS CAUSED IN ENGLAND BY WAR IS NEGLIGIBLE.”

“COMPARATIVELY SMALL PORTION OF COLONIAL GIFTS USED FOR NATIONAL RELIEF.

“MUCH WENT TO BELGIANS.

“WAR OFFICE ALSO TOOK LARGE SHARE. SALVATION ARMY HAS SCHEME REQUIRING
CANADIAN CO-OPERATION.

“(Special Cable from the Gazette's Resident Staff Correspondent.)

“LONDON, 11th January. Very satisfactory evidence of the comparative absence in England of any distress caused by the war is furnished by a report on the special work of the Local Government Board arising out of the war, which was issued to-day as a White Paper. The action by Noel Kershaw, dealing with the disposition of the gifts from the Colonies, shows that only a small part of the goods allocated has been required for relieving the distress of civilians.

"The following is the disposition of the 940,530 bags of flour received from Canada: To the local committees for the relief of distress, 90,474; to the Belgian Refugees Committees, 1,691; transferred to the War Office, 99,760; further offer to the War Office, 300,000; to the Belgian Relief Commission, 443,886; sold, owing to damage, 4,719."

2. Who had charge of accepting delivery and the shipping of this flour.

3. Whether the Government have any information of the shortage of 59,430 bags of flour, alleged in said article; if not, what became of the flour that was short.

Sir Robert Borden, a Member of the King's Privy Council, presented,—Return to the foregoing Order, forthwith. (*Sessional Papers, No. 198a.*)

In estimating the value of stock issued, for any consideration other than cash, regard shall be had to the value of the assets, real and personal, movable and immovable, and to the liabilities of the company at the date as of which such value is to be determined. In no case shall the value of the stock be fixed at an amount exceeding the par value of such stock.

9. An incorporated company shall include as part of its capital, its actual, unimpaired reserve, rest or accumulated profits.

(2.) The Minister may determine the amount of the capital of any incorporated company issuing stock after the fifteenth day of February, one thousand nine hundred and sixteen, and if, after the said fifteenth day of February, one thousand nine hundred and sixteen, the capital stock of any incorporated company is increased or additional stock is issued, or if the stock is in any way changed or re-organized in such a manner as to increase the amount of the capital, the Minister may decide whether or not it is fair and proper to include such increase or any part thereof when determining the capital of such company, and the decision of the Minister shall be final and conclusive.

CORRECTION.

Mr. Speaker: After the vote taken at yesterday's sitting on the amendment proposed by Mr. Bennett (Calgary) on Mr. Stevens' Resolution, I decided that the amendment having been voted in the Affirmative, there was no need to again propose the principal motion, as amended, to the House.

I have since carefully examined this question and I have ascertained, by referring to authors, that the question, as amended, should have again been placed before the House.

Here is what May says at page 291, 11th Edition:

"If the House resolve 'that the words proposed to be left out stand part of the question,' the original question is put: but if they resolve that such words should not stand part of the question, by negating that proposition when put, the next question proposed is that the words proposed to be substituted be inserted or added instead thereof. This latter question being resolved in the Affirmative, the main question, so amended, is put."

Bourinot, at page 439, 3rd Edition, says:

"If the amendment be negated, the Speaker will again propose the main question, and a debate may ensue thereon or another amendment may then be submitted. On the other hand, if the House adopt the amendment, then the Speaker will again propose the question in these words: 'Is it the pleasure of the House to adopt the main motion, so amended?'"

There are also numerous precedents, amongst others: at the sitting of the 6th June, 1904, as reported at page 431 of the Votes and Proceedings of that year, on a motion of Mr. Champagne, that Bill No. 110, "An Act respecting the Ottawa Electric Company," be read a third time, Mr. Puttee moved, in amendment, that all the words after the word "that," in the main motion, be left out and that other words be substituted therefor. This amendment of Mr. Puttee having been voted in the Affirmative, the principal motion, as amended, was again submitted to the House.

Another precedent is found in the Votes and Proceedings of the Session of 1906-07, at page 185. On a motion of Mr. Heron, Mr. Knowles presented an amendment which proposed to omit all the words of the principal motion after "that", to add other words. There was a vote on that amendment of Mr. Knowles and it was voted in the Affirmative. After this vote on the amendment, the motion, as amended, was submitted to the House and accepted on Division.

After the vote taken at yesterday's sitting, Sir Robert Borden proposed the adjournment of the House and nothing prevented making this motion, but Mr. Stevens' motion, as amended, is still pending and should be on the Orders of the Day, to be taken at another sitting, and I have given instructions to the Clerk to re-instate the motion on the Orders of the Day, in its proper place.

The Speaker: With reference to Bill No. 67, intituled: "An Act relating to the St. Peters Indian Reserve." The Honourable Member for St. John (Mr. Pugsley) on Thursday last, when the resolution on which the Bill is founded was reported to the House, raised the question as to whether this was not a measure that required the consent of the Crown before proceeding further.

The Bill was allowed its first reading, and a second reading ordered for a future day, on the understanding that I would consider this point in the meantime and give a ruling upon it.

Upon looking into the authorities on the subject, I find that where the consent of the Crown is required, it may be announced by a Minister at any stage of the Bill in question, in this respect differing from that class of Bills where a preliminary recommendation of the Crown is necessary.

The consent of the Crown is required when property rights of the Crown are postponed, compromised or abandoned, or where some prerogative of the Crown is to be waived. See May (11th Edition) pp. 448-561. Also, Bourinot (3rd Edition) pp. 576-578, and notes.

In the Bill under consideration it appears that certain grants made by the Crown, by virtue of Statutes in force at the time, are confirmed.

This confirmation does not, in my view, upon a study of the authorities, require any additional consent of the Crown to that already presumably furnished when the Statutes were passed. The present Bill, however, appears to grant, in addition to a confirmation of title, power to the Government to release liens held and liabilities due or to become due by virtue of the enactment.

In this aspect of the case, I am of the opinion that the measure would require that the consent of the Crown be announced to the House, at some stage of the Bill before its final passage.

The Order of the Day being read, for the second reading of Bill No. 67, relating to the St. Peters Indian Reserve;

Mr. Roche, a Member of the King's Privy Council, then acquainted the House, That His Royal Highness the Governor General, having been informed of the subject-matter of the proposed Bill, recommends it to the consideration of the House.

The Bill was accordingly read a second time; and committed to a Committee of the Whole House.

Resolved, That this House do immediately resolve itself into the said Committee.

The House accordingly resolved itself into the said Committee, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Rhodes reported, That the Committee had gone through the Bill, and directed him to report the same without any amendment.

Ordered, That the Bill be read the third time at the next sitting of the House.

The Order of the Day being read, for the second reading of the Bill, No. 68, An Act relating to the Superior Courts of Saskatchewan, and to amend the Judges Act,

The Bill was accordingly read a second time; and committed to a Committee of the Whole House.

Resolved, That this House do immediately resolve itself into the said Committee.

The House accordingly resolved itself into the said Committee, and, after some time spent therein, Mr. Speaker resumed the Chair; and Mr. Rhodes reported, That the Committee had gone through the Bill, and directed him to report the same without any amendment.

Ordered, That the Bill be now read the third time.

The Bill was accordingly read the third time.

Resolved, That the Bill do pass.

Ordered, That Mr. Speaker do now leave the Chair.

The House accordingly again resolved itself into the Committee of Supply.

I submit herewith a report of the Clerk of the House, with reference to certain changes in the organization of the Hansard Section of the Reporting Branch of the House of Commons. Some of these changes have been in operation since the opening of the present session, have been found to be very satisfactory and not attended with any increase of expense.

The views expressed in the said report meet with my approval and I recommend that the same be carried into effect.

ALBERT SEVIGNY,

Speaker.

HOUSE OF COMMONS,

29th MARCH, 1916.

SIR,—In response to your request for a report on the work of the Reporting Branch (Hansard Section) of the House of Commons, since the transfer of its secretary to the Votes and Proceedings Branch of the Service, I beg to report that following upon your directions, at the beginning of this session, the Editors of Debates took over all the Secretarial duties, and I understand that the work of the Branch has proceeded most satisfactorily. There being no longer any occasion for a secretaryship as a separate position, I recommend that no further appointment be made and that the office be abolished.

As Mr. Owens has been relieved of reportorial work, a temporary transfer from the Committee Section of a reporter was made to the Hansard Section. This, by reason of the secretary's salary being no longer required, occasioned no additional expense.

I beg further to recommend, as a consequence of this change, that Mr. Owens, on account of his long service and experience, be designated "Editor of Debates," to act conjointly with Mr. Horton, instead of "Associate Editor of Debates and Reporter," and that the Editors of Debates have equal responsibility in regard to the work of the Hansard Section of the Reporting Branch of the House.

Mr. Jameson, from the Select Standing Committee on Marine and Fisheries, presented to the House the Third Report of the said Committee, which is as follows:—

Having had under consideration a Resolution, referred by the House to the Committee, relating to the Spread in price of sea foods in Canada, between the points of production and consumption, and having examined witnesses under oath in connection therewith, Your Committee ask leave to herewith transmit, for the information of the House, the evidence taken, together with the following conclusions and recommendations:—

CONCLUSIONS.

That the demand in Canada is chiefly for fresh frozen, and mildly cured fish.

That there is at present serious delay in shipments by fast freight.

That there is at times deterioration in the quality of the fish when shipped by express, owing to lack of suitable equipment.

That express carriers are not giving westbound carload rates; are unwilling to open the car in transit to set down part of its load, and are charging rates which seem to be heavy for the service given, and which are greatly in excess of those on the same commodity Eastbound.

That a shrinkage in weight, between the fisherman and the retailer, amounting to as much as 15 per cent occurs, due in part at least to lack of proper refrigeration in transit, and a further loss of 5 per cent to 10 per cent or more occurs in retail stores; those poorly equipped losing most; and all such loss is charged in the price paid by the consumer.

That the average cost of delivering fish from the retail store, to the consumer, in cities, is about $1\frac{1}{2}$ cents per pound.

That an inferior quality of fish is being supplied to consumers in interior markets at high prices, imposing an undue burden on the consumer and preventing the increased consumption of what should be a cheap food and more extensively used.

That the shippers' price at points of production of fish, annually consumed in Canada (according to Departmental Reports) is roundly \$15,000,000, but under present conditions the cost thereof to the consumers in Canadian centres would probably be \$45,000,000.

That the marketing of largely increased quantities of sea foods in Canada await the proper organization of its distribution (insuring a good article at fair prices) and the education of the people, both as to its food value and the most attractive method of serving it.

That the industry can be greatly stimulated, and a saving of millions of dollars to the people of Canada effected by more highly organized methods of distribution, while increased consumption will tend towards reduction in cost.

RECOMMENDATIONS.

1. That inspection of transportation of sea foods, and organization of the distribution thereof, be undertaken by the Department of Marine and Fisheries, somewhat along the lines already inaugurated by the Department of Agriculture, in respect to certain farm products.

2. That the express facilities be so improved as to insure daily transportation of sea foods from the East by means of the chilled car service.

3. That the refrigerator car service, for the transportation of sea foods, be so improved as to render it available on express trains.

4. That the consolidation of shipments for different points in the express refrigerator car, on the basis of carload express rates, to the farthest point, and the opening of car in transit to set down fish at different centres en route, would materially aid prompt and economical distribution of sea foods.

5. That a carload lot express rate, substantially lower than the L.C.L. rate should be fixed on sea foods from the east.

6. That the minimum freight carload quantity, on the Government Railway, be reduced from the new scale of 24,000 pounds to the former scale of 20,000 pounds, in the case of fresh sea foods; and from the new scale of 30,000 pounds to the former scale of 24,000 pounds in the case of cured sea foods.

7. That transportation companies should give special attention to the movement of cars containing perishable food commodities, to secure delivery thereof without deterioration.

8. That an exclusive express service, operated by the Government, be inaugurated on the Intercolonial Railway and Prince Edward Island sections of the Government Railways, as a preliminary to any general scheme for the nationalization of express business in Canada.

9. That the fish diet be made a special feature on the Intercolonial Dining Cars, the price not to exceed the cost and expense of serving the same, as shown by the evidence.

NOTE.—This would be in line with the policy of certain important railways which make a special feature of food products peculiar to the country traversed by such railways, tending to increase the consumption and advertise the product.

10. That an active publicity campaign be organized by a competent person to promote an increased demand for sea food in Canada.

11. That the Department have made, for demonstration purposes:—

(a) An inexpensive refrigeration box, suitable for use in retail fish stores, in which fresh fish can be attractively displayed without risk of deterioration.

(b) A portable refrigerator, suitable for use in the distribution of sea foods in towns and cities; and that plans and specifications thereof, with estimate of cost, be furnished by the Department upon application.

12. That the existing scale of Government aid in the transportation of certain sea foods by express be for the present continued, under regulations as to methods of shipments.

13. That the steps already taken to promote the packing of herrings by the Scotch method are approved, and that special attention be given to the development of this branch of the Industry.

And your Committee further recommend that the said evidence and report be printed, as an appendix to the Journals of the House, and in pamphlet form, to the number of 25,000 copies, and that Rule 74, relating thereto, be suspended.

Mr. Blondin, Member of the King's Privy Council, presented,—Return to an Order of the House, of the 27th March, 1916, showing the names and addresses of all persons in the Public Service of any and every Department of the Government of Canada, in the Counties of Cape Breton, Victoria, Inverness, Richmond, Guysborough, Antigonish and Pictou, Province of Nova Scotia. (*Sessional Papers, No. 284.*)

A Point of Order having been raised that the introduction of said Bill should be preceded by a Resolution, with the recommendation of the Crown;

Mr. Deputy Speaker ruled, That as the said Bill did not itself appropriate any public money, but required for its operation a subsequent appropriation by Parliament, a Resolution was not necessary.

"it has long been the settled policy of Great Britain whenever a country passed under the sovereignty of the Crown by treaty or otherwise, to respect the religion, usages and language of the inhabitants who thus become British subjects;

"That His Majesty's subjects of French origin in the Province of Ontario complain that by recent legislation they have been to a large extent deprived of the privilege which they and their fathers have always enjoyed since Canada passed under the sovereignty of the British Crown, of having their children taught in French.

"That this House especially at this time of universal sacrifice and anxiety, when all energies should be concentrated on the winning of the war, would, while fully recognizing the principle of Provincial Rights and the necessity of every child being given a thorough English education, respectfully suggest to the Legislative Assembly the wisdom of making it clear that the privilege of the children of French parentage of being taught in their mother tongue be not interfered with."

And the question being proposed on the amendment;

(*Sessional Papers, No. 211a.*)

On motion of Mr. Bennett (Simcoe), seconded by Mr. Jameson,

Ordered, That Bill from the Senate, intituled: "An Act for the relief of Martha Isabella Kenny," be now read the first time.

The Bill was accordingly read the first time; and ordered to be read a second time at the next sitting of the House.

The Order of the Day being read for the House to again resolve itself into the Committee of Supply,

Sir Thomas White moved, seconded by Mr. Casgrain, That Mr. Speaker do now leave the Chair.

Mr. Lapointe (Kamouraska) moved, in amendment thereto, seconded by Mr. Devlin, That all the words after "That" in the main motion be struck out and the following substituted therefor:—

"it has long been the settled policy of Great Britain whenever a country passed under the sovereignty of the Crown, by treaty or otherwise, to respect the religion, usages and language of the inhabitants who thus become British subjects;

"That His Majesty's subjects of French origin in the Province of Ontario complain that by recent legislation they have been to a large extent deprived of the privilege which they and their fathers have always enjoyed, since Canada passed under the sovereignty of the British Crown, of having their children taught in French.

"That this House especially at this time of universal sacrifice and anxiety, when all energies should be concentrated on the winning of the war, would, while fully recognizing the principle of Provincial Rights and the necessity of every child being given a thorough English education, respectfully suggest to the Legislative Assembly the wisdom of making it clear that the privilege of the children of French parentage of being taught in their mother tongue be not interfered with."

And the question being proposed;

A Point of Order was raised by the Honourable Member for Moosejaw (Mr. Knowles), "That the proposed amendment of the Honourable Member for Kamouraska (Mr. Lapointe) was not in Order, because the subject-matter was not within the jurisdiction of the House."

Mr. SPEAKER:

"The motion of the Honourable Member for Kamouraska is an amendment to the motion that I do now leave the Chair, for the House to go into Committee of Supply. This amendment contains certain declarations in the nature of a preamble and asks the House, for certain reasons, to respectfully suggest to a provincial legislative assembly the wisdom of a course of action recommended by the general tenor of the amendment.

"A Point of Order has been raised that this amendment is not in order because the subject-matter of the amendment is not within the jurisdiction of this Parliament.

"It is the duty of your Speaker to enforce, and, subject to your instructions, to administer and interpret the rules and practice enacted and prescribed by your House for the orderly conduct of its business and debates, but the privileges, powers and jurisdiction of the House are matters of the very greatest importance and must be determined by the House itself.

"A motion to go into Committee of Supply is parliamentarily of a different nature from other motions, in that debate upon it need not be relevant to the motion before the House. Almost any matter can be discussed on the main motion itself. There are indeed a few limitations of a strictly technical nature which need not be referred to here. (See Bourinot, 3rd Edition, p. 585.)

The present amendment is one asking an expression of opinion on the part of the House upon a matter of general public interest and need not be relevant, nor upon a subject within the legislative powers of this House. As to the nature of amendments which may be made at such a time, May, 5th Ed. pp. 554, says:—

"The ancient constitutional doctrine, that the redress of grievances is to be considered before the granting of supply, is now represented by the practice of permitting every description of amendment to be moved, on the question for the Speaker leaving the Chair, before going into the Committee of Supply. Upon other orders of the day such amendments must be relevant but here they are permitted to relate to every question upon which any Member may desire to offer a motion."

"Bourinot, 3rd Ed. on page 583, quotes these observations with approval and adds: "The same practice is now followed very extensively in the Canadian Commons" and cites in support of this statement many pages of the Journals of the House.

"Bourinot refers to certain limitations of this right, such as that only one amendment may be moved at a time, but he nowhere suggests that such an amendment would be inadmissible because the subject matter was beyond the legislative jurisdiction of the House.

"The Journals are replete with instances of amendments of almost every description on going into Supply. These have been debated and voted upon without objection on the grounds either of relevancy or want of jurisdiction.

"Members of this House, being here to act in the interest of all Canada, I think it is proper that any of them may bring before it, on the motion to go into Supply, any matter which, in his opinion, may be detrimental or advantageous to any section of the population.

"In my opinion, the point of order is not well taken.

"By ruling that this amendment is in order, I mean that this House has the right to discuss it, not with the view of depriving a Province of what may have been enacted by its legislature, but merely with the view of allowing the House to express its opinion."

From this ruling Mr. Northrup appealed to the House.

The question being put by Mr. Speaker: shall the ruling of the Chair be confirmed; the House divided: and the names being called for, they were taken down, as follow:—

The House then proceeded to the consideration of the motion of Sir Thomas White,—That Mr. Speaker do now leave the Chair, and the proposed motion of Mr. Lapointe (Kamouraska), in amendment thereto.

And a Debate arising thereupon, and continuing, the said Debate was, on motion of Mr. Marcil (Bonaventure), seconded by Mr. Proulx, adjourned.

By leave of the House,

Mr. Hazen, from the Special Committee on Pensions for Disabled Soldiers, presented to the House the Third Report of the said Committee, which is as follows:—

The Special Committee appointed to consider and report upon the rates of pensions to be paid disabled soldiers of the Canadian Expeditionary Force and the establishment of a Permanent Pension Board and any other matters relating thereto, or connected therewith, have carefully considered the questions submitted to them, and beg to submit the following as their Third Report:—

1. Your Committee, appreciating the probable short duration of the present session of Parliament, and the difficulties that might be encountered and not adequately met if the entire pension system of Canada were reviewed, have limited their inquiries and recommendations to pensions and assistance for the members of the Canadian Expeditionary Force, in the great war which began in August, 1914, and to the system of pension administration likely to secure the most equitable and satisfactory results.

2. That all pensions, expenses for appliances—such as artificial limbs—and for vocational training, or other advantages awarded to members of the Canadian Expeditionary Force, or their dependents, be paid by the Government of the Dominion from the national funds.

3. That three persons, to be known as the Board of Pension Commissioners, hereinafter called the Commission, be appointed to hold office, during good behaviour, for ten years unless removed for cause, and to this Commission be entrusted the consideration, determination and administration of all Military and Naval pensions.

4. That the Commission have full authority and responsibility to deal with and determine all matters pertaining to pensions, and from their decision there be no appeal; provision, however, should be made for any complainant so desiring to present his case, either personally or by Counsel, before the full Commission sitting for the purpose of hearing the complaints of those who may have been dissatisfied with awards given in the ordinary course of administration.

5. That the Commission have authority to engage such clerical and other assistance as may be considered by them requisite for the transaction of their duties, at

such salaries as may be approved by the Governor in Council, and to make such rules and regulations as may be necessary to facilitate administration; such rules and regulations to be submitted for approval to the Governor in Council.

6. That the pension awarded any member of such Force, or any dependent of such member, should not be capable of being assigned, charged, attached, anticipated, or commuted.

7. That all pensions awarded to members of such Force be determined by the disability of the applicant without reference to his occupation prior to enlistment.

8. That each case be subject to review at the end of a year from the time the pension is first granted, except in those cases where the disability is obviously permanent, and then there be no further review.

9. That, to encourage industry and adaptability, no deduction be made from the amount awarded to such pensioner owing to his having undertaken work or perfected himself in some form of industry. The welfare of the State demands that so far as possible those who are at all able should endeavour to augment their pension allowance. If the pension granted were subject to reduction owing to the recipient having remunerative work, your Committee are of the opinion that a premium would be put on shiftlessness and indifference. That provision be made by the Commission for vocational training for those who are desirous of taking advantage of it, and for the supplying of artificial limbs and appliances, from time to time, to those who would thereby be benefited. This subject is within the province of the Military Hospital Commission, and is now receiving attention.

10. That provision be made by the Commission for entrusting to a reputable person for administration, the allowance to any pensioner, or to any dependent, when the Commission is satisfied that it is being improvidently expended by the ordinary recipient, the expense of such administration, if any, to be borne by the Commission.

11. That a member of such Force, on account of disability incurred on active service, or aggravated thereby, be pensionable at the following rates for total disability:—

	Yearly.
Rank and file.	\$ 480 00
Squad, Battery or Company Sgt.-Major	} 510 00

Warrant Officer	680 00
Lieutenant.	720 00
Captain.	1,000 00
Major.	1,260 00
Lieutenant-Colonel	1,560 00
Colonel.	1,890 00
Brigadier-General	2,700 00

12. That those who are entitled to be awarded pensions be divided into Six Classes, and to each member of each Class be awarded a pension in the direct proportion of his disability to total disability, as follows:—

Class 1.—Total disability, 100 per cent.

For example,—Loss of both eyes.

- Loss of both hands, or all fingers and thumbs.
- Incurable tuberculosis.
- Loss of both legs, at or above knee joint.
- Insanity.
- Permanent extreme leakage of valves of heart.

Class 2.—Disability 80 per cent and less than 100 per cent—pension 80 per cent of Class 1.

For example,—Loss of one eye.
Loss of one foot.

For example,—Loss of one thumb.

Class 6.—Disability under 20 per cent, a gratuity not exceeding \$100.

For example,—Total deafness in one ear.
Partial deafness in both.
Loss of index or other finger.

13. That, to those, up to and including the rank of Lieutenant, who are totally disabled and in addition are totally helpless, so far as attendance to their physical wants is concerned, the Commission may make a further grant, subject to annual review of not exceeding \$250 a year.

14. That a disabled member of such force, up to and including the rank of Lieutenant, entitled to a pension in the 1st, 2nd or 3rd Class, in addition to his personal pension, be entitled to draw \$6 a month for each child; of the rank of Captain, \$7 a month for each child; of the rank of Major, \$8 a month for each child; of the rank of Lieut.-Colonel, Colonel or Brigadier-General, \$10 a month for each child, a child to include a step-child and a child in respect of which such member was in *loca parentis*.

15. That, if a member of such Force has been killed, or has died as the result of injuries received, or disease contracted or aggravated while on active service, the widow, until remarriage, be entitled to the equivalent of the pension mentioned in Class 2, and also be entitled to draw the allowance recommended for children; on the remarriage of the widow her personal pension cease, but that she be entitled then to draw a gratuity of an amount equivalent to one year's pension.

16. That, if a member of such Force who has been killed, or has died, as the result of injuries received, or disease contracted or aggravated while on active service, was a widower, but leaves a child or children, as defined by this report, said child or children receive \$12 per month each.

17. That, in the event of an application being made for a pension on behalf of a woman who has, without being married to a member of such Force, lived with him as his wife, or on behalf of the child or children of any such man or woman, the Commission be authorized to grant the customary pension for a wife or for a child or children,

on being satisfied that the circumstances were such as to warrant the conclusion that the woman had at the time of enlistment, and for a reasonable time previously thereto, publicly been represented as the wife of said member of such Force, or if the Commission is satisfied that justice would be done by the recognition of such woman, for the purpose of pension, as the wife of such member; on the marriage of the woman her personal pension cease, but that she be entitled to draw a gratuity of an amount equivalent to one year's pension.

18. That no payment be made on account of any child, if a boy over the age of sixteen, or if a girl over the age of seventeen, unless owing to mental or physical infirmity the child is incapable of earning a livelihood, in which case the pension may, if in the discretion of the Commission it seems best, be continued until the child is twenty-one. That no pension be paid in respect of a child after the marriage of such child.

19. That no pension be paid, when disability or death was occasioned by the negligence of the member of the Canadian Expeditionary Force, to any person claiming, or on whose behalf a pension is claimed, unless the Commission otherwise consent.

20. That in all cases the claims for personal pensions must be made within two years of the date of the appearance of the disability in respect of which the claim is made.

21. That a widowed mother, step-mother, or grandmother, wholly or mainly dependent upon a member of such Force who is killed or dies as the result of injuries received, or disease contracted or aggravated while on active service, if such member was without dependent children and unmarried, or a widower, be entitled to a pension of Class 3, provided, however, that no such woman be entitled to more than one pension; on the marriage of the woman such pension cease, but that she be entitled then to draw a gratuity of an amount equivalent to one year's pension.

22. That a father, wholly or mainly dependent upon a son who is a member of such Force and who is killed or dies as a result of injuries received or disease contracted or aggravated while on active service, if such member was without dependent children and unmarried, or a widower, be entitled to a pension of Class 3.

23. That if a member of such Force to whom a pension has been granted in either Class 1 or in Class 2 dies, leaving a wife to whom he was married at the time of his incurring the disability in respect of which his pension was granted, or a woman occupying at said time the position of a wife within the purview of Clause 17 of this report, or leaving children by such wife or woman, the pension for the Class next below that granted the said member be given said wife or woman, and the allowance on behalf of any child or children be continued subject to the restrictions as to age, as provided by Clause 18 of this report; on the marriage of the wife or woman her personal pension cease, but that she be entitled to draw a gratuity equivalent to one year's pension.

24. That pensions to widows and children take effect from the day following that on which the death of the member of such Force, in respect of which said pension is granted, occurred, and that a gratuity equivalent to two months' pension be paid the first month in addition to the pension.

25. That strong recommendations were made to your Committee that the Reservists of the Allies who were *bona fide* residents of Canada, at the time they were called to the colours of their respective countries, and who left their dependents with the intention of returning to Canada after the war to make it their home, should be treated on the same basis as those enlisting from Canada in the Canadian Expeditionary Force, and that this country should supplement the pension granted respectively by the Allies.

As your Committee were unable to get definite information as to the policy of the other Governments, and sufficient information to warrant a sound conclusion being reached, your Committee recommend that the Commission give the matter of pensions

to Reservists and their dependents careful consideration and investigation, so as to permit a full report being made to the House at its next Session.

The attention of the Canadian Patriotic Fund should be directed to the advisability of its aiding, in the meantime, the dependents in Canada of such Reservists as have become disabled, and whose dependents, as a result, require assistance.

Your Committee are, however, of the opinion that if provision be subsequently made for supplementing pensions given to Reservists by their respective Governments, it should apply to men, who, at the time of their being called to the colours, had dependents bona fide residing in Canada and who continued in Canada during the war; and that such supplementary pensions be not continued beyond the time that the dependents of such Reservists actually continue to reside in Canada.

26. That, in the administration by the Commission, in order to obviate the annoyance and distress incidental to delay, great care be taken to insure all applications being considered and determined with the utmost despatch.

27. That in due course legislation be introduced confirming this report, but that in the meantime, proceedings be taken to forthwith bring it into effect.

28. That the provisions of this report relating to the granting of pensions be made effective as and from the date of the declaration of war, 4th August, 1914.

Your Committee also recommend that this report and the evidence and the statements submitted herewith, together with a suitable index; to be prepared by the secretary of the Committee, be printed forthwith for distribution; and also, printed in the appendix to the Journals of 1916, and that Rule 74 be suspended in relation thereto.

(For the Evidence accompanying the said Report see Appendix to the Journals No. 4.)

On motion of Mr. Hazen, seconded by Mr. Rogers,

Ordered, That the said Report and Evidence be printed forthwith, and that Rule 74 be suspended in relation thereto.

And then The House, having continued to sit till Twelve of the Clock, P.M., adjourned till To-morrow, at Two o'Clock, P.M.

Thursday, 11th May, 1916.

Two o'Clock, P.M.

"CANADIAN HELP COMES FROM SALE OF GIFT FLOUR.

"FOODSTUFFS NOT NEEDED BY THE ENGLISH POOR WERE BOUGHT FOR BELGIAN RELIEF.

"FUNDS TO AID EAST COAST.

"HON. WALTER LONG SUGGESTED TO CANADIAN GOVERNMENT THAT \$750,000 BE ALLOTTED, AND LATTER AGREED.

"(Special Cable from the Gazette's Resident Staff Correspondent.)

"LONDON, 31st October, 'Canada's aid to the East Coast towns of England, which are suffering through the war, is the subject of some misconception,' said Sir George Perley To-day. In a statement in the Commons, Honourable Walter Long said that the necessary funds for a Government scheme of help for hotel and lodging house keepers had been generously provided by the Canadian Government. This gave rise to the idea that the Dominion was taking a new step, but the fact is that no money is coming from Canada. Of the flour sent by Canada a year ago, to relieve distress in England, very little was distributed, as poverty was in no way abnormal. Some 400,000 bags of this flour were transferred to the American committee for Belgian relief, which purchased them. The money paid for this flour being in the hands of the Local Government Board, Honourable Walter Long, as President of the Board, suggested to Sir George Perley that this might be utilized for the relief of the East Coast towns, where the season had been ruined, owing to the lack of railway facilities and the disinclination of the public to visit the East Coast because of the possibility of German naval or aerial raids. The Dominion Government acquiesced in this proposal, and the sum of \$750,000, part of the proceeds of the sale of the flour, has now been allotted for this purpose. Canada's generosity will therefore go to alleviate the distress of a large number of better-class people, who are direct sufferers from the war, instead of the destitute poor, for whom it was intended, but who, it develops, were not in need of it."

2. Whether the said article is accurate; if not, in what respect it is inaccurate.

198a. Return showing:—

1. Whether the Government is aware that the following extract from an article was published on the 12th January, 1915, in the Montreal Gazette:—

"DISTRESS CAUSED IN ENGLAND BY WAR IS NEGLIGIBLE.

"COMPARATIVELY SMALL PORTION OF COLONIAL GIFTS USED FOR NATIONAL RELIEF.

"MUCH WENT TO BELGIANS.

"WAR OFFICE ALSO TOOK LARGE SHARE. SALVATION ARMY HAS SCHEME REQUIRING CANADIAN CO-OPERATION.

"(Special Cable from the Gazette's Resident Staff Correspondent.)

"LONDON, 11th January. Very satisfactory evidence of the comparative absence in England of any distress caused by the war is furnished by a report on the special work of the Local Government Board, arising out of the war, which was issued To-day as a White Paper. The action by Noel Kershaw, dealing with the disposition of the gifts from the Colonies, shows that only a small part of the goods allocated has been required for relieving the distress of civilians.

"The following is the disposition of the 940,530 bags of flour received from Canada: To the local committees for the relief of distress, 90,474; to the Belgian Refugees Committees, 1,691; transferred to the War Office, 99,760; further offer to the War Office, 300,000; to the Belgian Relief Commission, 443,886; sold, owing to damage, 4,719."

2. Who had charge of accepting delivery and the shipping of this flour.

3. Whether the Government have any information of the shortage of 59,430 bags of flour alleged in said article; if not, what became of the flour that was short.

Mr. Currie, from the Joint Committee of both Houses on the Printing of Parliament, presented to the House the following as their Third Report.

The Committee has had before it for consideration the question of the prevention of waste in public printing and distribution.

The Committee has made careful investigation and inquiry, and, after referring the matter to a sub-committee for further investigation, beg leave to report as follows:—

The Committee desire, in the first place, to call attention to the great increase in the cost of Parliamentary and Departmental printing in recent years. For instance, the expenditure in 1895 was \$330,627. In 1915 this had increased to \$1,807,390.

Within the past few days the Committee has had before it the King's Printer and other officials of the Department of Public Printing and Stationery. After hearing the testimony of these gentlemen, the Committee is of the opinion that great economies can be effected by the adoption of certain changes, both in the manner of printing and distributing. A complete review of the situation, from the King's Printer's standpoint, is contained in a memorandum which he prepared in March, last year, copy of which is attached hereto, and which it is recommended to be printed with this report.

Dealing first with the distribution lists, because upon these the extent of the printing to be done depends, the Committee recommend:—

That all distribution be made from the office of the King's Printer, as provided by the Act constituting the Department of Public Printing and Stationery (Chapter 80, R.S.C.).

That all Departmental mailing lists be sent to the Distribution Branch of the Government Printing Bureau, and that these lists be revised annually by the Distribution Office. This should be done by sending out reply cards to all individuals on the lists—for any class of Government publication. In the event of no response within a specified time, the name or names to be dropped.

The same practice to be pursued with regard to bound volumes of the Sessional Papers, over 640 sets of which are now sent out to different institutions. It is estimated that fully half of this quantity is thrown away, and that if the lists be reduced by fifty per cent there will be a saving of at least 9,600 bound volumes.

Distribution lists and the printing of the Debates of both Houses in every case, to be referred to the Printing Committee.

Recommendations made to either House by any Committee for the printing of evidence taken before it to be referred to the Printing Committee for action.

Reports of Special Commissions to be referred to the Printing Committee to determine whether they shall be printed, and if so, in what quantities.

The Committee is of the opinion that the practice of charging the general public for Departmental blue books and special publications should be strictly adhered to.

The indiscriminate distribution of maps, annual blue books and special monthly reports has led to many abuses in the past. Instances have been cited by many Departments where scores of applications have been received from schools in different parts of the country for publications which could not, in the slightest degree, interest the school children applying for them. These books have been asked for probably on the mere mention by some newspaper that they would be sent free. Some Deputy Ministers are of the opinion that the motive underlying the requests for these reports is the hope that the report will contain pictures.

In order to expedite the mailing of Governmental publications, it is earnestly recommended that a branch post office be established, in connection with the Distribution Branch of the Department of Public Printing and Stationery, and mail be sent therefrom direct to the railway stations.

With regard to the Parliamentary printing, which is done under the supervision of the King's Printer, the Committee is pleased to learn that during the past two or three years changes have been made in the typographical arrangements of several blue books, whereby considerable economy has been effected. On these books it is estimated that an annual saving of \$15,000 has been made. The King's Printer, however, has no editorial authority, and can only bring about these changes through the good-will of the officials of the several Departments.

Attention is called by the Committee to the enormous increase in the number of illustrations in annual and special reports. Many of those illustrations are of no value. It is suggested that only such plates be incorporated in Parliamentary blue books as are necessary to a proper understanding of the text.

There is great room for economy in the printing of annual Departmental reports, by eliminating entirely technical treatises, complimentary references, lists of staffs of officials, formal introductions and formal signatures, duplication of statistical information, etc. In the latter connection one has only to examine the statistical reports of the Departments of Customs and Trade and Commerce to see the proof of this statement. The Committee recommend that, where at all possible, duplications should be avoided.

The Committee recommends that the scope of the monthly *Agricultural Gazette* be extended, by incorporating with it *Seasonable Hints* and small bulletins now issued by the Department of Agriculture in leaflet form, in order to give them permanent value, and that the *Gazette* be distributed free to all Canadian farmers who apply for it. This could be accomplished without much additional cost, by dropping the Bulletin of Foreign Agricultural Intelligence, much of the information contained in which is of little practical value to the Canadian farmer. The best features of the Bulletin could be incorporated in the *Agricultural Gazette*, which should be published in cheaper form. The Bulletin of Agricultural Intelligence has been in existence for over five years and costs annually about \$9,400.

The Committee would call attention to the large quantities of maps, which are prepared by some sixteen branches of the Public Service, and which in a large measure are circulated free. The Report of the Royal Commission appointed in 1914 to "inquire into the state of the records of the Public Departments" called attention to this great division of labour, and suggested "that the whole of the map-making for the Dominion Government might be carried on more effectively and economically under the direction of a central authority." We would recommend that this work be supervised by the Department of Public Printing, with absolute authority to prevent useless duplication or overlapping.

The Committee would further recommend that all "copy" for the printer be type-written. Instances innumerable have been noted of the great waste of public funds through bad caligraphy and consequent corrections of proof. Last year at the Govern-

ment Printing Bureau the cost of authors' corrections was \$48,376. This was a decrease of \$5,666 over the previous year, but the Committee is satisfied that this charge can be largely reduced by the exercise of greater care in the preparation of "copy."

As already pointed out, the King's Printer and the Bureau staff have no authority to make any changes in the text of any Parliamentary or Departmental document. Recognizing that thousands of pages of reports of no value are printed annually, the Committee is of the opinion that to revise copy and to avoid redundancy and overlapping, a Board of Editors of Parliamentary and Departmental publications should be established by the Government, to work in conjunction with the King's Printer. To this Board all reports and publications should be referred, and authority should be vested in such a Board to decide what should or what should not be printed. The Committee is of opinion that such a Board, properly constituted, with wide editorial powers, could save the country thousands of dollars annually.

MEMORANDUM.

It is assumed that the object of the query submitted to the Department of Public Printing and Stationery is to secure a summary of the views of the Department—

(1) As to the means of reducing the original cost of parliamentary and departmental publications.

(2) As to the means of avoiding waste and cheapening distribution.

PRELIMINARY REMARKS.

On several recent occasions, public commissions or committees, both in Canada and in the United States, have reported upon this very subject.

1. In January, 1906, a "Committee on Department Methods" reported to the President of the United States on the query: "How much too much is printed of Government Publications?"

2. In 1908, a Canadian Public Service Commission incidentally reported on the preparation of blue-books in the departments (page 43 of the report, Sess. Paper No. 29 A, 1908).

3. In 1908, a special inquiry into the methods of the Public Printing and Stationery Department was instituted by the then Secretary of State (Sess. Paper No. 39, 1911).

4. In December, 1911, a Commission on "Economy and Efficiency" reported to the President of the United States on the centralization of the distribution of the Government publications (U. S. Senate Document No. 293, 1912).

5. In 1912, a Dominion Public Service Commission, amongst other matters, investigated the working of the Department of Public Printing and Stationery, and their own report is accompanied by a sub-report of Messieurs Price, Waterhouse and Company (Sess. Paper No. 57, 1913).

6. The Royal Commission appointed to inquire into the state of records of the Public Departments, whose advance report has been communicated to us, made an inquiry, several features of which apply to the subject matter of these notes.

The above-mentioned United States reports apply to our Canadian problem, as the conditions in Washington will be found to have been almost identical to conditions in Ottawa.

The conclusions of these American and Canadian reports cover the subject fully and well, are very plain, and based on findings of common practices.

I. REDUCTION OF COST OF PUBLICATIONS.

Excessive expenditure in public printing may be classified under the following heads:—

1. Excessive cost in the execution of printing work in the Government Printing Office.

2. Excessive size of documents and printing of unimportant documents for Parliament or the Departments.

3. Excessive editions of such publications.

1. *Cost of Printing.*

The cost of printing has been, in the late years, the object of a good deal of study and improvement in the Printing Bureau. The suggestions of the 1910 and 1912 inquiries have been mainly carried into practice, and this, coupled with certain changes in the personnel, and the use of modern machinery previously introduced and kept up, has certainly brought the Bureau to a satisfactory state of efficiency, if one considers the drawbacks inherent to the working of a government institution, and those resulting from more or less congestion in several portions of the department.

The output of the Printing Bureau per head of its force will favourably compare with the output of a large number of outside printing establishments and this showing would be still more conclusive if the Government Bureau were allowed to charge Parliament and the departments for their publications according to the rates allowed to outside printing establishments on work executed for the Government. Wages, stock, and a few overhead charges are only permitted to be charged by the Printing Bureau against the departments, nothing being included in the overhead charges to cover Civil Service salaries, heat, light, and power, depreciation and maintenance of building, plant and capital equipment, nor for interest on the investment, insurance, etc.

As the technical working of the Department of Public Printing and Stationery has already been inquired into, we abstain from going further into details.

2. *Excessive Size of Publications.*

3. *Excessive Editions of Publications.*

If these two items are considered in the light of the responsibility for the size of the documents and for the excessive editions of same, they may be studied together.

The copy or subject matter of publications is, of course, prepared in the several departments.

The original requisitions or orders on the Department of Public Printing and Stationery for the printing of publications are issued by each of the departments (including Parliament) wanting them.

The publications are classified into two main divisions:—

(a) Parliamentary publications which are ultimately intended to be collected and bound in the annual series designated as "Sessional Papers." All the annual reports of the departments, in several cases with appendices, are included in that division.

(b) Departmental publications proper, which include all publications not otherwise belonging to the first division (technical reports, monographs, monthly publications, bulletins, and also all forms, account books, etc., etc., wanted for the sundry services).

The present notes are only dealing with the publications of the first of these divisions.¹

The total edition of any given publication going into the Sessional Papers is not wholly ordered by any one department. The total edition is made up of the number of copies ordered separately by the House of Commons, by the departments, and by the Distribution Office.

The edition of blue-books or number of copies of "*all printed matter, over which the Joint Committee on Printing has jurisdiction,*" is apparently regulated by report of the Committee, dated 1st May, 1902 (still in force), and which approved of distribution lists laid before them then, and followed since, corrections having been made from time to time in consequence of events (deaths, removals, etc.).

¹ At the same time the remarks made as to preparation of copy, size of publications, editions, etc., etc., will generally apply.

The editions or number of copies intended for the departments are requisitioned for, or ordered printed, by the departments, under the authority of an Order in Council of the 16th January, 1893, fixing the limit of the number of copies to be printed for distribution by them to 500 copies. From time to time since, this Order in Council has been severally amended by other Orders in Council, according to a list annexed to the present memorandum.

The Distribution Office of the Department of Public Printing and Stationery issues its own requisitions, under the authority of the Order in Council of January, 1893, which provides that the "Queen's Printer be authorized to reserve for purposes of sale such numbers of the departmental reports, and to arrange for their sale in such manner as may be deemed advisable by the Secretary of State."

Apparently, therefore, each department is responsible for the quantities of reports ordered for its own service. But, by a peculiar practice, the exact origin of which we cannot trace, the quantities ordered for the departments proper (not for the House or Senate), under the authority of Orders in Council, are not charged against the departments.

The departments only pay for the number of copies which they order, in excess of the quantities fixed by the Order in Council. The number of copies ordered by them under the authority of Orders in Council (even though printed exclusively for them and until now distributed by them) are charged against the parliamentary appropriation voted to the Department of Public Printing and Stationery, under the appellation of "*Miscellaneous Printing*."

The amounts required to cover this "*Miscellaneous Printing*" are increasing at a great pace. A table annexed to this report shows that the appropriation in 1900 was only \$30,000; in 1910-11, it reached \$85,000; in 1911-12, it was made \$100,000; and this year the Main Estimates of \$100,000 have been increased by \$50,000 in the Supplementary Estimates.

The opening of this appropriation and account of "*Miscellaneous Printing*" had likely for its object the centralization, under one head, of the expense of printing the annual reports of the several departments. However, if it is thought that excessive expense, in size and in editions, results directly from the authorized requisitions of the departments, it seems that the responsibility would be more directly traceable to the departments, if each one had to have its appropriation for printing voted singly and annually, in lieu of the lump appropriation voted to all departments, under the general heading "*Miscellaneous Printing*."

Of this "*Miscellaneous*" appropriation, the departments can only use what Orders in Council allow them to use, but there seems to be no definite limit to the passing of Orders in Council, and the "*Miscellaneous Printing*" may be considered as only a covering appropriation, for which Supplementary Estimates have been several times voted or will be more and more needed in the future.

We will now examine items 2 and 3 singly.

To eliminate waste in the *unnecessary size of public documents*, the United States Committee of 1906 made the following recommendations, which are undoubtedly applicable to the Dominion publications:—

(a) There should be in each department of the Government a committee advisory to the head of the department on the subject of printing and publications;

(b) This committee should examine the copy for the reports with a view to the exclusion of unnecessary matter;

(c) It should see that such copy is edited carefully before, and not after, going to the printing office;

(d) It should see that the statistical matter is kept within reasonable bounds and compiled in condensed form;

(e) It should give its special supervision to the question of costly and unnecessary illustration of public documents;

(f) It should prevent the duplication of matter in different departments.

And the same committee laid down, amongst others, the following rules to govern all classes of publications:—

(a) Annual reports should be confined to concise accounts of work done and expenditure incurred during the period covered by the report, with recommendations relating to the future, including plans for work about to be undertaken.

(b) Contributions to knowledge, in the form of scientific treatises and general discussion, have no place in an annual report. Observance of this rule would, they say, exclude an immense quantity of matter from annual reports, as now printed. (And the committee here point out the tendency of departments to have the cost of their printing charged against other appropriations than their own, which gives further ground to our previous remarks about "Miscellaneous" appropriation.)

(c) Illustrations in annual reports should be excluded, except maps or diagrams indispensable to the understanding of the text, views of monuments begun or erected during the period covered by the report, etc.

(d) Inserted material written or compiled by persons not connected with the reporting office, and biographical and eulogistic matter relating to the past or present personnel of the office, should be rigorously excluded.

(e) The reports of officers who do not report directly to the head of an executive department should not be printed, but may be summarized in the reports of their head officers, etc., etc.

To eliminate waste by *excessive editions*, the measures recommended to do away with *excessive size* of documents may be applied with good results.

How many copies of each publication are really needed, or wanted, is a piece of information which few officials can fully and authoritatively supply. It seems to have been a very general impression in the several Canadian Commissions, and with the Members and officers of Parliament who have handled the subject in or before Parliament, that a great waste takes place.

It has been affirmed time and again and lately reported that a large number of copies are refused by persons entitled to receive them in Parliament, and are piling up in the storerooms of Parliament and the departments, ultimately to find their way to the junk stores or waste-paper dealers.

But even an inventory of the accumulation of documents in the different departments would afford only a partial demonstration of this fact, as a large number of publications have already found their way to junk stores and waste-paper dealers' yards.

Excessive editions contribute directly to the waste in distribution, and the remedies against such waste will afford the control and the means of guarding against printing unnecessary numbers of copies, and reciprocally.

But it must not be assumed that a very great saving can be affected by reducing the editions (number of copies) of the publications. It has been estimated by officers of the Printing Bureau that cutting down the edition or number of copies of average so-called blue-books will not result in a saving of more than 25 cents for each unit of 500 pages. The first and heaviest cost of publication being that of composition, revising, make-up and preparation for press, it will only matter to that extent of 25 cents per unit of 500 pages, if any given edition be increased or decreased. This figure cannot possibly apply to all cases, but it is given as an average basis for calculations.

The cutting out of unnecessary copy or subject-matter of reports will much more effectively influence the total cost than the reduction of the number of copies to be printed, except when the cutting may unmercifully be applied to very large editions.

 II. AVOIDING WASTE AND CHEAPENING DISTRIBUTION.

A large number of persons, in the Senate and the House of Commons, or through the Members of the same, officials in the Provincial Governments, judges, etc., etc.—or, of institutions, libraries, educational establishments, etc., etc., are entitled to or do receive government publications. All the departments distribute copies of their own reports. Many of these are again bound up in the Sessionals and sent again to libraries, etc. An American official, appointed to inquire into the itinerary of public documents so sent broadcast (in the United States) was able to write, in 1905:—

“Since the establishment of this office, in 1895, 800,000 duplicate documents have been returned to the Superintendent of Documents by libraries receiving more than one copy, and applications have been made for the return of several hundred thousand additional volumes, which were declined owing to lack of storage facilities.”

And the report from which this quotation is taken adds:—

“These figures relate solely to duplication of distribution to libraries, and take no account whatever of very large duplication in distribution to individuals.”

These processes of handling by which documents, after printing, successively pass to the hands of packers in the shipping rooms, to the wagons and conveyances, to the Members of the Senate and the House of Commons, to the departments, from the departments to other departments, or through the mailing clerks to the public, and from them all to post offices and railway stations, are both slow and costly. It has been calculated by the United States Committee in Economy and Efficiency that the handling of the publications from the Government Printing Office to the post offices and railway stations in Washington, via the departments, entailed the expenditure of the vast annual sum of \$327,000.

With these and similar findings before them, what do the above reports suggest in order to avoid waste in and cheapen distribution? Unanimously, *the centralization of the distribution of Government publications.*

The 1911 United States Commission on Efficiency Report covers the ground so effectively and completely that we insert their conclusions:—

“1. That the work of distributing documents be centralized in the office of the Superintendent of Documents of the Government Printing Office, instead of being performed, as at present, by the departments, establishments, and bureaus issuing such documents.

“2. That each department and establishment retain only such part of its present organization and facilities for the handling of documents as is needed to prepare and issue orders for the mailing of publications.

“3. That the use of teams and trucks, and operators in connection therewith, as well as the other equipment now used in conveying publications from the Government Printing Office to the several departments and establishments, and from such departments and establishments to the post office, and from the post office to the Union station, be discontinued.

“4. That such portion of the forces of the various departments and independent establishments now engaged in addressing, wrapping, sealing, and otherwise handling publications for distribution, as may be necessary, be transferred from the departments and establishments in which they are now employed, to the office of the Superintendent of Documents of the Government Printing Office.

"5. That, if necessary for the direct conveyance of publications from the Government Printing Office to the Union station, a sub-post office station be established in or adjacent to the mailing room, for the purpose of giving such postal supervision as may be required in the distribution, routing, etc., of documents."

What legislative provisions would have to be passed in order to permit the centralization of distribution of government publications in Ottawa? Likely none at all.

It is important here to note the wording of the Order in Council of 1893, relating to distribution, and to compare it with the law respecting Public Printing and Stationery:—

"On a report dated 16th January, 1893, from the Minister of Finance, the Minister finds that the number (of copies) required for Parliamentary inside and outside distribution is, as to most of the departmental reports, 1,800 each, and as to five of the most important, 2,500 each. The numbers ordered by the different departments for their own distribution vary from 350 to 10,000, as will be seen from the annexed list. The Minister is of opinion that it is desirable to secure greater uniformity and economy in the orders from the various departments, and that the numbers ordered by each should be based on the call for *necessary official* distribution. The Minister, therefore, recommends that each department be authorized to order within its discretion, for its own distribution, copies of its reports, not to exceed a *maximum of 500 copies of each, and that the Queen's Printer be authorized to reserve for purposes of sale such number of the department reports and to arrange for their sale in such manner as may be deemed advisable by the Secretary of State.*"

Now the law respecting Public Printing and Stationery reads thus, chap. 80, R.S.C.

"Sec. 5. The department shall be charged exclusively with the following duties in relation to service required for the Senate and House of Commons and the several departments of the Government,

(b) The purchase and distribution of all paper, *books*, and other articles of stationery of whatsoever kind, except books which are required for the Library of Parliament, etc.

"Sec. 22, ss. 2. The Superintendent of Stationery shall also have charge of the *sale of all official publications* of the Parliament and Government of Canada, *which are issued for sale, as well as of the distribution of all public documents and papers to the 'officials and other persons who are entitled to receive the same without payment.'*"

With this statutory enactment, it seems that if the Order in Council of 1893 and the amending ones are valid as to the number of copies of publications to be printed, they cannot be interpreted as lawfully establishing a right to, or a justification for, the distribution of the publications by the departments as carried on now.

Attention is only drawn to this peculiar situation for the purpose of pointing out that if the central distribution is to be considered and recommended as the actual and best remedy against the waste of printed publications, and the most effective means of cheapening distribution, no legislation need be resorted to to carry it into effect. It is already provided for, and never, at any time, in our statutes, since the institution of the Department of Public Printing and Stationery, was it contemplated that the actual work of distribution should be carried by departments.

The President of the United States, in adding his recommendations of the report of this committee to the favourable consideration of Congress, added this explanation:—

“The plan (of centralizing distribution) does not contemplate any change in the authority which determines the persons to whom documents shall be sent, but, only that the physical work of wrapping, addressing, and mailing the documents shall be done at one place, and that the place of manufacture.”

Respectfully submitted,

J. DE L. TACHÉ,

OTTAWA, 20th March, 1915.

King's Printer.

The House, according to Order, resumed the adjourned Debate on the proposed motion of Sir Thomas White: That Mr. Speaker do now leave the Chair, for the House to again resolve itself into the Committee of Supply, and the proposed motion of Mr. Lapointe (Kamouraska), in amendment thereto, That all the words after “That,” in the main motion, be struck out, and the following substituted therefor:—

“it has long been the settled policy of Great Britain, whenever a country passed under the sovereignty of the Crown by treaty or otherwise, to respect the religion, usages and language of the inhabitants who thus become British subjects;

“That His Majesty’s subjects of French origin in the Province of Ontario complain, that by recent legislation, they have been, to a large extent, deprived of the privilege which they and their fathers have always enjoyed, since Canada passed under the sovereignty of the British Crown, of having their children taught in French.

“That this House, especially at this time of universal sacrifice and anxiety, when all energies should be concentrated on the winning of the war, would, while fully recognizing the principle of Provincial Rights and the necessity of every child being given a thorough English education, respectfully suggest to the Legislative Assembly the wisdom of making it clear that the privilege of the children of French parentage of being taught in their mother tongue be not interfered with.”

Mr. McKenzie moved, in amendment thereto, seconded by Mr. Carroll, That all the words after the word “That,” in the main motion be struck out, and the following substituted therefor:—

“it appears from official papers laid on the Table of this House, that the Minister of Militia, since the beginning of the war, illegally and without any power or authority, sold a quantity of small ammunition, exceeding three million rounds, to J. Wesley Allison, who represented himself as acting for Vickers, Maxim, Limited, at the price of twenty dollars per thousand rounds.

“That the quantity first intended to be sold was five million rounds, and that over three million rounds was actually delivered.

“Be it and it is now resolved, That the depleting of the stock of ammunition held by the Government, exclusively for the purposes of the war, and the disposal of the same to any one but the Imperial authorities, was a serious danger to the country and an offence which was further aggravated by the circumstances, that there is strong reason for believing that the said ammunition was subsequently sold to the British authorities at an advanced price.

“That the commission issued on the 3rd of April, to Sir William Meredith and Mr. Justice Duff to investigate certain contracts of the Shell Committee, be also empowered to investigate the sale of small ammunition to the said J. Wesley Allison,

as well as the disposition which he made of it, and that, for the purposes of the said investigation, the said powers and authority now vested in the said commission be continued and extended as far as may be necessary."

After which His Honour, the Deputy of His Royal Highness the Governor General, was pleased to close the Sixth Session of the Twelfth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In this crisis of our national life your attention has been directed to affairs of supreme importance; and it is with gratitude that I recall the care and devotion with which you have considered and approved all necessary measures for effective prosecution of the war. Our Empire, with unexampled singleness of purpose, is defending not only its own integrity and institutions but also the rights of mankind. It is my sincere conviction that your efforts will materially aid in the achievement of that unquestioned victory for which we shall not cease to strive until it is attained.

The struggle, still proceeding in many widespread theatres, has recently become more intense on the western front, where for more than a year the Dominion troops have been engaged. The Canadian Army Corps has been entrusted with an important position, and the people of the Dominion justly cherish a calm confidence that it will fully maintain the honourable and distinguished record already established by the First Division.

Throughout our country the response to the urgency of the Empire's need has been unflinching, and unaccustomed burdens have been accepted with an unflinching spirit. Nearly 170,000 troops have gone overseas and more than 140,000 are undergoing training in Canada. To supply the needed reinforcements men have offered themselves in even greater numbers, during the first four months of this year, than in any similar period during the war.

I am convinced that the important measures which you have taken, for the economic well-being of the Dominion will meet the needs of the situation and will be attended with marked advantage to the public interest.

The magnificent crops harvested during the past season have materially assisted in maintaining the stability of our national fabric. You will rejoice to learn that the vastly increased volume of Canada's exports is still maintained and that the general prosperity of the country has not been perceptibly diminished by the war.

In dealing with national problems of railway development, you have made provision by which present needs will be met. Steps will be taken by my advisors without delay to insure an effective inquiry into the conditions by which those problems are surrounded and the most efficient methods by which they can be solved.

The provision for supplementing, with such aid as is required from the federal power, the operation of provincial legislation, restricting the sale or use of intoxicating liquors, is in accordance with the marked advance of public opinion to which the provincial enactments are due.

I deplore with you the partial destruction of the historic building in which the deliberations of Parliament have been held since the founding of this Dominion. It is anticipated that in its restoration the distinctive features of its architecture will be preserved, while at the same time, more spacious and convenient accommodation will be provided.

Gentlemen of the House of Commons:

I thank you on behalf of His Majesty for the liberal provision which you have made for the public needs and for the increasing demands of the war.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is my privilege now to relieve you for the present from your arduous labours; and I do so with an evergrowing confidence that, notwithstanding any temporary reverse, victory will crown our high cause; with a fervent prayer also, and an humble faith that out of this time of trial and suffering our country will assuredly advance to a greater and nobler future.
