Duties Superseded by Commission Which Takes Charge.

When Change Was Asked For.

The Ottawa Separate School Board has been summarily relieved of its duties as a board and superseded by a commission composed of Dennis Murphy, Thomas D'Arcy McGee and Arthur Charbonneau, who will now charge of the separate schools of Ottawa under the power given the minister of education by an act passed last

Last spring the old board asked Hon. Dr. Pyne, minister of education, for certain changes in the regulations. Their request was refused and they were told that unless the act was car-ried out they would be superseded. Lately the board has failed to pay fied English teachers in spite of warnings and the appointments were made yesterday on recommendation of Hon.

President Wilson's latest note to Germany may be described as peremptory. It is couched in courteous language, but the politeness is that of a man whose patience has been tried to the breaking point.

The president firmly refuses to be drawn into any further discussion of principles which he declares to be immutable. Neither will be discuss with Germany any grievances the United States may have against Britain. FIRM STAND OF UNITED STATES Strongest Note Sent to Germany by President Wilson in Present Controversy Despatched

to Berlin Yesterday-Claims of Germany of Right to Resort to Inhuman Acts on Plea of Reprisal Not Admitted by Washington.

WASHINGTON, July 23 .- The text of the American note on submarine warfare, presented at Berlin today by Ambassador Gerard, was made public here tonight. It reveals that the imperial government has been informed it is the intention of the Unied States to regard as "deliberately unfriendly" any repetition by the commanders of German naval vessels of acts in contravention of American rights.

The United States announces that it will continue to contend for the freedom of the seas, "from whatever quarter violated, without mpromise and at any cost."

In official and diplomatic quarters the communication was received as the strongest and most emphatic pronouncement that has come from the Washington government since the beginning of its correspondence with the belligerents of Europe. President Wilson returned to Cornish, N.H., tonight to await developments.

EXPECTS DISAVOWAL.

On the assumption that Germany has already admitted the illegality of her practices by attempting to justify them as against Great Britain, the United States in the new note expresses the belief that Germany will not longer "refrain from disavowing the wanton act of its naval commander in sinking the Lusitania, or from offering repar-

with the Vistula, centified marshal von Mackensen, operating between the Bug and the Vistula, centified marshal von Mackensen, operating between the Bug and the Vistula, centified and the Vistula and the Vistula, centified and the Vistul establishing the freedom of the seas.

VIRTUALLY SETS LAW ASIDE.

At the outset, the German note of July 8 is declared "very unsatisfactory, because it fails to meet the difference between the two governments, and indicates no way in which the accepted principles of law and humanity may be applied in the grave matter in controversy, but proposes, on the contrary, arrangements for a partial suspension of those principles, which virtually sets them aside."

Contending that "the defence of an act as retaliatory is an admis-

sion that it is illegal," the American Government then argues that it cannot discuss actions of Great Britain with Germany, and must regard as "irrelevant" in the present negotiations the conduct of other belligerents.

ILLEGAL AND INHUMAN ACTS.

"Illegal and inhuman acts," says the note, "however justifiable they be thought against an enemy who is believed to have acted in contravention of law and humanity are manifestly indefensible when they deprive neutrals of their rights, particularly when they violate the right of life

Pointing out that a belligerent should give up its measures of retaliation if unable to conduct them "without injuring the lives of neutrals," the note declares that persistence in such measures under the circumstances would contsitute an unpardonable offence against the sovereignty of the neutral nation affected.

TO MAKE ALLOWANCES.

The U.S., it is further asserted, is "not unmindful of the extraordinary conditions" created by the present war and is "ready to make every" reasonable allowance for these novel and unexpected aspects of war at sea," but cannot consent "to abate any essential or fundamental right of its people because of a mere alteration of circumstance."

The note says that even the events of the past two months clearly indicate that it is "possible and practicable" to conduct submarine opera-tions "in substantial accord with the accepted practices of regulated war-fare." The comment is added that the "whole world has looked with interest and increasing satisfaction at the demonstration of this fact by Geronly further answer expected is one of compliance with what it contends for. "English Colonials to be Interned"

WHEN Lissant Beardmore, Toronto, grand opera singer, saw that not opera singer, saw that notice tucked away in an obscure corner of a German newspaper, which he was reading in his home in Berlin, he decided to break the surveillance under which he had been kept since the outbreak of the war and get out of Germany. It was toward the end of January and the grip

of winter was on the land. Nevertheless, he started out on a dash for freedom towards the Swiss frontier. His travels through the snow-bound, official-

ridden country occupied seven days, and took him first over the Austrian frontier and then into Switzerland. How he evaded the sentries, how he was captured once and lodged in an hotel, from which he escaped disguised as a peasant, makes a story of thrilling interest. Mr. Beardmore tells it himself in the August issue of Maclean's Magazine.

The story has a double interest, as it gives an insight into conditions in Germany. You can get this story in

Along the entire length of Main street a seven-foot tight-board fence is being built, shutting out all view of the school grounds and giving the principal street of the district a most unbusinessible and street of the district a most unbusinesslike appearance. Yesterday Miles Vokes and Dr. Steele, members of the board of education, visited the grounds, but stated that they could do nothing, as the bylaws of the city call for a seven-foot fence at the rear of all schools. Meanwhile, regardless of the protests of the citizens, the work of building the fence

The note of the Imperial German Government dated the 8th day of July, 1915, has received the careful consideration of the Government of the United States, and it regrets to be obliged to say that it has found it very unsatisfactory, because it fails to meet the real differences between the two governments and indicates no way in which the accepted principles of law and humanity may be applied in the grave matter in controversy, but purposes, on the contrary, arrangements for a partial suspension of those principles which virtually sets

High Seas Free.
The Government of the United States notes with satisfaction that cognizes without reservation the validity of the principles insisted on in the several communications which this government has addressed to the Imperial German Government with regard to its announcement of a war zone and the use of submarines against mechantmen on the high seas—the principle that the high seas are free; that the character and cargo of a merchantman must first be ascertained before she can lawfully be seized or destroyed, and that the lives of non-combatants may in no case be put in jeopardy unless the vessel resists. or seeks to escape, after being summoned to submit to examination; for a belligerent act of retaliation is per se an act beyond the law, and the defence of an act as retaliatory admission that it is illegal. Illegal and inhuman acts, however justifiable and inhuman acts, however justifiable they may be thought to be against an enemy, who is believed to have acted in contravention of law and human-object, have long stood together in urging the very principles upon which in contravention of law and humanity, are manifestly indefensible when they deprive neutrals of their acknowledged rights, particularly when they violate the right to life itself. If a belligerent can not retaliate against an enemy without injuring the lives of neutrals, as well as their property, humanity, as well as justice and a due regard for the dignity of neutral powers, should dictate that the practice be discontinued. Four trenches, forming steps on a slope between the sea and a ravine opening from the village, were chosen as the objective for an attack on the 21st. A west wind covered the field of battle with clouds of dust swept up by the artillery preparations.

Suddenly, about 11 o'clock, metallic flashes streaked the shroud of yellow dust and the clash of bayonets was dust and the clash of bayonets was heard as the infantry leaped to the assault. One after another the trenches fell before the impetuous charge of the French troops, which carried them almost to the heights of Krithla beyond the furthest point at which the assault was aimed. An entire Turkish company, surprised in the first trench, surrendered without resistance.

Colonel Roosevelt once expressed a contemptuous opinion of young Christians who have shoulders like a hock bottle. Roosevelt himself shas what men call force—has it physically and morally—and that is why he is Roosevelt. But here in America we have an opposed school of thought—the Friends of Flabbiness. Mr. Carregie has organized a good many of their talking expenses. Now, of the two fallacies that keep cropping out about force as a factor in the lives of nations, one is as witless as the other. German thoroness, skill, blood rich and red about force as a factor in the lives of nations, one is as witless as the other. German thoroness, skill, bravery, and brutality are proving (as they have proved before) that force doesn't settle everything in this world. The Potsdam officials who are trying the present experiment with blood and iron may stand in Bismarck's boots till they ossify—they will never have his brains. The opposite delusion is that "force settles nothing." Some interviewer attributed this empty phrase to Jane Addams upon her recent return from Europe. Perhaps she did say it, but it is empty just the same. Ask any social reformer or historian who has heard of the French Revolution; as any Italian old enough to know about Garibaddi; ask any native of Poland—land of the Broken Heart. This is not a world of automatic grighteousness, and our only real excuse for being here is that our strength may in some way help to force the cause of better things to victory.—Collier's Weekly.

Russians Are Doing Remarkably Well Under Great Handicap.

BERLIN, July 23-Via London-A despatch from Vienna to The National Zeitung says the final attempt of the Russians to stop the advance of their opponents in the critical battle on the new line southward of the Lublin-Cholm Railroad, southeast of Warsawn has ended in failure. The decisive ac-

with a lack of ammunition, but the statement that their morale is shattered is untrue. On the contrary, they are displaying the greatest bravery and endurance, and only in the case of contingents without higher officers do they surrender readily.

At Krasnostav, 34 miles south of Lublin, there occurred an engagement at close quarters, which was unusually desperate and deadly. The Russians awaited their attacking opponents and resisted them with the bayonet. They had assembled strong reserves, and the Germans and Austrians had to expend the greatest efforts to overcome them. It was necessary literally to throw the Russians from their trenches.

Invaders Hampered.

The lack of goo & roads in Poland presents an especially unfavorable aspect from the standpoint of the invaders. Deep sand makes the movements even of infantry slow, while from ten to twelve teams of horses must be ptilized to draw heavy guns.

Philadelphia Inquirer: The United States gives notice to Germany that the murder of American citizens on the high seas by these assassins of the sea, the submarines, pust cease. The note to Berlin does not employ those precise words, to be sure, but that is their precise meaning. This government is contending for "the freedom of the seas" it will continue so to contend "without compromise and at any cost."

Washington Herald: "If it be true that diplomacy the civilized world over recognizes a deliberately unfriendly act of one nation against another as a deliberately hostile act, and that diplomacy's definition of a deliberately hostile act is an act of war; and fi it be further presumed that the government at Berlin will accord diplomacy's recognition to the term deliberately unfriendly, then the Government of the United States has finally placed before Germany the choice of war or peace."

or peace."

St. Louis Republic: The climax of the note's argument is to be found in the declaration that the United States and Germany, are in the present controversy, both contending for the freedom of the seas, and the declaration that this government, "will continue to contend for that freedom from whatever quarter violated, without compromise, and at any cost." Another German Submersible Was Split in Two in Fight With British.

JOHNSTOWN, Penn., July 23.-A letter recieved here yesterday by Andrew McAtee, a prominent business man, from a relative in Scotland, throws a light on the defensive mea-

sures being used by England in submarine warfare waged by Germany.
The letter is in part as follows:
"Two of the enemy's submarines
were cleverly disturbed the other week, one off Peterhead and the other near Aberdeen. At Peterhead an innocent-looking trawler, in reality a government gunboat, left the habror and was soon spotted and held up by a submarine. The gunboat did not give the submarine time to approach, but opened fire at once, smashing the periscope with the first shot, where-upon her crew rushed upon the deck. The second shot disturbed the con-

ning tower, and down she went like a Was German Spy.

"All the officers and crew were rescued, and, curiously enough, one of the rescued men turned out to be a German who for several years previous to the outbreak of the war had been engaged in the fish trade at Peterhead. He must have been a spy."
"In the Aberdeen fight, a British submarine submerged followed in the wake of some trawlers as they put out to sea. When the trawlers were approached by the German submarine they diverted their course a little. The British submarine then came to the struggle to the end, that is to surface and with the first shot the say until the complete and defisurface, and with the first shot the shell nearly split the German boat in two. WELDING NOT STRONG

Finding in Inquest on Fatal Explosion at West Toronto.

"We find from the evidence submitted that the Searchlight Gas Company were negligent in not having a more qualified employe in charge of their plant in West Toronto, knowing the dangerous nature of the gas manufactured.

"We also find that the Grand Trunk were at fault in receiving the tanks without proper danger stickers being attached thereto, and we recommend that the government require more stringent rules in the manufacture of acetylene gas and in the inspection of the tanks and containers and in the handling of acetylene gas.

"We are of the opinion that the welding of the tank was not strong enough to stand the pressure of the gas put into it."

The foregoing verdict was returned last night at the inquest held by Coroner J. E. Elliott into the death of Frank Riding on June 14 in Grace Hospital, following injuries received in the morning in an acetylene gas explosion at West Toronto.

an acetylene gas explosion at West Toronto.

The inquest was a very thoro inquiry and in all six sittings were held. R. H. Greer, county crown attorney, had a number of acetylene gas experts summoned, who testified as to the dangerous nature of the gas and the care that should be taken. Last night the jury did nothing but consider their verdict and they were out two hours before it was submitted.

The explosion which caused Riding's death and serious injury to Mark Grabham occurred in the G.T.R. freight yards at the station in the rear of 1712 Dundas street. Nine tanks of gas were being loaded into a freight car for shipment to Parry Sound, where they were to be used in buoys in Georgian Bay. While placing the sixth tank in the car it exploded and caused damage estimated at more than \$20,000.

all Kingston Road Improvement Committee Considers Plans at Whitby.

As to the army it is known that the president is preparing to incorporate in his next message to congress a definite program relating to the development and equipment of this branch of the scrvice. It will provide a plan for the proper military training of citizens in every way consistent with American traditions and national policy, and at the present believed will commend itself to all patriotic and political minds. In this matter the president is working with the secretary of war and his professional associates. It is understood that on this portion of the president's general national defence propaganda, some very definite Engineer McLean of the department of public works, Toronto, reported that the cost of completing the macadam road from where it stops on the Kingston road near Pickering to Osnawa would be \$290,-452.57. This amount is made up as follows: 20 miles of macadamizing at \$7,-798.63 a mile, making a total of \$155,-972.60; 20 miles of tar or oil surface at \$328.42 a mile, making a total of \$6574 for this item, which, with the \$127,905.87 needed for reducing the hills to 5 per cent. for the 26-mile stretch and for repairs to the bridges, made the total \$290,452.57.

\$290,452.57.

Increased Expenditure.

To cut the grades all down to 4 per cent., the same as that on the Toronto to Hamilton roadway, Mr. McLean reported, would involve an additional expenditure of \$22,000. This figure does not include cutting down the Highland Creek hill to any less than a 6 per cent. grade. In all, according to this latest plan, six hills will be out down and 28,900 cubic yards of earth removed.

At a previous meeting of the executive a resolution was passed favoring a macadam readway, but the Toronto delegates were not present at that meeting.

But Sir Adam has always been ready for any development which might be needed, and with far-seeing the hydro-electric local commission jority of his most enthusiastic support-

clared that plans for the development of 600,000 horse power were ready to be laid before the government. This is to be generated from the 6,600 feet available at Niagara, and the balance from the spillways of the new Welland Canal, to the extent of 250,000 horse power. The Cataract Power Co. had applied for a portion of this, but Sir Adam stated that the hydro commission had an assurance that it would he reserved for the province. This Five Millions for the Mud Wall price for the first 70,000 or 75,000 horse power equal to that now under contract. Beyond this quantity the cost will be cheaper, and beyond 250,000, after paying for everything, interest and sinking fund included, the price of power would be from one-third to forty per cent. cheaper that at present. The plans for the first 250,000 will be submitted to the government shortly. The work entails an expenditure of events. ten million dollars and will take three

years to complete. Unquestionably the hydro-radial plans are behind this demand for increased power. The great success of the power distribution has given confidence to the people of the province that it is possible to carry out the greater policy, and to enlarge and combine the usefulness of both schemes, Radial traction means cheaper power and light all over the province, and this again means cheaper traction in every district entered. The people are organizing in every direction for the purpose of building publicly owned roads.

It was with these things in mind that Sir Adam justly declared that the people had a right to have a statement from the governments of their willingness to grant a subsidy for the proposed radial roads. Hon. Mr. Lucas stated definitely that the premier was not prepared to pay subsidies at the present time. We believe that sympathy with the request for a subsidy could be read into Mr. Lucas' words, but as a member of the government and a member of the Hydro-Electric Commission he had no right to say more than he did. Sir Adam is not so unreasonable as to ask for the payment of subsidies at the present time, but we think he is justified in asking for a declaration of policy on the matter from the premier. No. even the German world war will last for ever. Mr. Lucas himself was quite sanguine about the era of prosperity which was to follow. It is not asking very much, and it is not asking anything that is not perfectly legitimate, and in the will and heart of the people to grant, that the government should pledge itself that when conditions become more propitious the subsidies asked for the hydro-radial roads will be a first considera-

Mr. Wilson's Nomination

In the nomination of Mr. George Wilson, presently head of the street cleaning department, the board of control has taken the first step that seems likely to have a practical bearing on the settlement of the fire department tangle. Mr. Wilson has had Daily World \$4 00 per year; Daily World as much experience of city hall me-thods and city hall needs as anyone things are the should know the in Toronto, and he should know the situation with which he may be called upon to deal as well, and perhaps better, than anyone that could be found. He has a splendid record and he is known to fear the face of no man. He is without the "entangling alliances" which have wrought such havor in municipal as in larger fields of diplomacy, and he has an unswerving determination to do the right thing as he sees it. Those who designed it are ashamed of it as a mud wall, and are annoyed to have it called a mul wall. But a mud wall is what it is, and it cannot be made into a steel overhead railway or anything else without changing the whole idea. The mud wall will run along the water front, and will be pierced at street crossings with what The Globe calls openings. They will be tunnels 230 feet long. OF MISSING PRISONER

Seventy-Two-Year-Old Man Disappeared From Guelph Prison Month Ago.

Special to The Toronto World.
GUELPH, Ont., July 23.—One of the guards at the Ontario Reformatory made a gnastly find this afternoon when walking out near the stone quarries. He happened to walk in an insual place and discovered the body of a man in a badly decomposed state. He at once notified the authorities, and the man proved to be W. H. Wilkinson, 72 years of age, who was cor victed of a minor offence at Hamilton and sentenced last January to an indeterminate sentence at the Ontario

Reformatory. He was given a little more liberty than the others. It was just a month ago that he was reported missing and a thoro search all over the farm failed to reveal his whereabouts. From all apeparances, however, the old man had met with an accident and fell over the side of the quarries, a distance of

The convention crowd made a path for her cast admiring side glances, then with longing eyes followed her to the elevator. It was at the Pontchartrain in Detroit. The incident was recalled when I chanced to sit across the table from the woman. What was it about her that caused all that commotion? Her complexion. Really, I've never beheld its equal. Venturing to pick up acquaintanceship, I learned the secret.

"I've tried to make the most of my one charm," she said. "I know men abhor about 40 feet. The probabilities are that he was killed instantly. Dr. Savage, coroner, of this city, decided to hold an inquest at the farm at 10 o'clock tomorrow. Wilkinson has no family, but it is understood that he has some property in Dundas.

HOME RUN IN TENTH **SETTLED TORONTO**

Jack Flynn Turned the Tide With Two Out and Two Strikes.

MONTREAL, July 23.—Jack Flynn's home run smash in the tenth innings, with two out and two strikes on the with two out and two strikes on the batter, gave the Montreal Royals a 5 to 4 victory over Bill Clymer's Toronto clan, in a scrappy game this afternoon.

Royals tied the score in the ninth, after the Leafs had taken a one run lead in that session. The game was mostly a battle of pitchers, in which Charley Fullerton outlasted Luque, who made way for Herbert after pitching two balls to Smith in the ninth. Herbert did not get settled down, for Smith laced out a double to right, and after Holden had fanned, Madden came thru with another two-base clout, tying the score.

Herbert fanned both Irelan and Whiteman starting the tenth, and had two Pittsburg. two-base clout, tying the score.

Herbert fanned both Irelan and Whiteman starting the tenth, and had two strikes on Flynn when the big first sacker caught one on the nose and bumped it out of the lot. It was Flynn's second home run of the day. With one out in the fourth, Flynn registered the Royals' first hit by driving a homer over the left field fence just inside the foul line. Home runs were the winning factor for the Royals, Whiteman contributing a circuit clout in the eighth and sending Irelan over in front of him.

Torontos' scoring also opened with a homer, Wares smashing a drive over the left field wall in the fifth. The Leafs got another tally in the eighth, which gave them the lead for a few minutes, Rath beating out an infield roller, Graham bouncing a double along the left field foul line, and Williams dumping a Texas Leaguer into left, which tallied Rath. The Royals got two runs in their half and it looked to be sall up with the Leafs when Fullerton opened the ninth by fanning Kocher and Wares. Luque singled to right, however, and Gilbert laced out a double to the left field fence. Irelan threw the return over Madden's head, and Luque scored, Gilbert taking third and scoring on Rath's single. This gave the Leafs a one-run lead, but the Royals tied it up and won. Luque held the Royals hitless in the first three innings, retiring them in one, two, three order, but after that, altho he was hit, the Royals could not score again until the eighth, when Whiteman drove out his homer after Irelan had been passed.

Fullerton was generally effective in the pinches. The score:

CANOE RACES TODAY.

All that is required today to make the a come-back stunt.

The three stars will start from scratch in a ten-mile handicap event, giving away two-lap handicaps to Henikman, Dougherty, Young and Burtschaell. This event should be the best motorcycle event seen at the local saucer this year.

The amateur motor-paced race tonight will have MacMillan, Wright, Penny, Macdonald, Webster, Nichols, Hall and Brady following the motors. The local men are fast becoming experts at this style of racing.

All that is required today to make the regatta, of the western division of the C.C.A. a big success is fine weather. The entries are the largest on record for a divisional meet. Parkdale and Balmy Beach head the list, while the other clubs are largely represented. The war canoe events, in which all the clubs are represented, promises to be a close affair, and some records are expected to be broken. The races will be held on the Toronto Canoe Club course, and will start promptly at 2 p.m.

Pittsburg Pirates Take Two From N. Y. Giants

At New York (National.)—Pittsburg defeated New York in both sections of a double-header, the scores being 6 to 1 and 4 to 3. In the first game Pittsburg bunched four hits on Mathewson in the third inning and four more on Ritter in the fifth, scoring three runs in each case. In the second game Tesreau had a bad start and a bad finish. He allowed two runs in the first inning, and then was almost invincible until the ninth, when, with a one run lead, he permitted three bunched hits, giving Pittsburg two runs and the game. Catcher Dooin of New York was ordered off the field in the second inning of the second game, and two innings later Umpire Klem cleaned the entire Giant bench, chasing fourteen players. Scores:

Pittsburg 0 0 3 0 3 0 0 0 0 0 6 10 2

New York 1 0 0 0 0 0 0 0 0 0 1 3 1

At Brooklyn.—In a free hitting game that was full of loose fielding on both sides. Brooklyn defeated St. Louis, 9 to 7. Brooklyn secured an early lead when Hyatt lost Cutshaw's fily in the sun in the second inning and before the Brecklyns were retired six runs crossed the plate. The Cardinals then made a great uphill fight. Snider gave Brooklyn two more runs in the fifth by hitting Wheat on the head with a thrown ball when the runner was trapped between third and home. Daubert did not have a putout at first base until the seventh, and only two in the entire game. Score:

At Philadelphia.—Bad work on the bases by both teams figured largely in the game which Cincinnati won from Philadelphia in ten innings, 3 to 2. The visitors overcame Philadelphia's one-run-lead in the eighth, when Herzog singled with the bases filled, two runners scoring. In the ninth, with two men out, Niehoff walked and scored when Leach fumbled Whitted's single. Baumgartner gave Leach a pass at the start of the tenth, and Rixey went to the rubber, Mollwitz's sacrifice and Twombly's out put Leach on third, and he scored when Niehoff fumbled Groh's grounder. GERMAN SOCIALISTS

Despite Boast That Potatoes Are Plentiful, They Are,

ALIENATE CIVILIANS

Meat Will Be Forbidden for Two Days a Week, and Butchers Face Ruin.

By GORDON GORDON-SMITH. ZURIOH, July 23 .- A protest by the executive committee of the Socialist party, published by The Vorwaerts, against the increasing cost of food and charging that speculation is chiefly onsible, has made a great impres-Prices of meat, eggs and butter t the food completely out of the ich of the poor classes. It was oficially declared that supplies of potatoes were practically unlimited, so much so that permission had been given for export to Holland, Switzer-

land and Scandinavia to prevent loss of unconsumed supplies.

Herr Von Delldrueck, minister of the interior, declared in the reichstag press declares that the price in the past week or two has risen from 200 to 300 per cent. The committee calls on socialist organizations in all great

centres to bring pressure to bear uppn all local government bodies.

Alienate Civilians.

Semi-official announcement is made that the federal council is preparing to issue a proclamation regulating the alienation of the civil population. The imperative necessity of such a mea-sure is recognized universally and is greeted with satisfaction by all classes. The Lokal Anzeiger states that the government probably will give municipal authority the right to fix maximum prices to prevent excessive consumption of meat, which is becoming scarce. Its sale will be forbidden for two days a week. Butchers face ruin. The conservative press is in-dignant that the censor allowed the socialist protest to be published.
Should Feed People.

The Kreuz Zeitung declares that manifestations like this regarding peace and international conditions are calculated to encourage Germany's enemy and to disturb civil peace. To this The Vorwaerts replies that The Kreuz Zeitung, an organ of the great landed proprietors who are making fortunes just now, regards it as an attack on civil peace to denounce criminal speculation on food for the people. The announcement that the federal council has decided to authorize an increase in the price of grain also arouses opposition.

arouses opposition.

The Berliner Tageblatt declares that since the price of all other foodstuffs has risen in enormous proportion the government should see that citizens are given their daily bread under accentable conditions. ceptable conditions

BERLIN (via London), July 23.—, Supplementing the denial made last night that a German warship had been sunk in the Baltic by a hostile submarine, the German admiralty today authorized the statement that in the operations in question no battle-ship of the Deutschland class was attacked by a submarine, and that no German warship of any kind was sunk. The only loss during the operations was the Albatross, a minelayer, it was stated.

normal. Hardware firms are doing fairly well in ordinary summer goods, but building materials are moving slowly. Boot and shoe concerns report trade fairly good.

The stock market broadened a little for industrials and gold securities have been exceptionally active. Ontario silver mining companies are storing bullion until silver prices recover. Industrial companies, working on war orders, are busy and earnings are exceptionally good, in spite of isolated reports to the contrary. Toronto flour mills have found trade quiet and are curtailing their operations. Toronto has shared in the export trade in eggs.

Poor Cotton Outlook.
The chief factor in connection with heaviness of the southern stocks BUSINESS IN TORONTO Poor Cotton Outlook. The chief factor in connection with was the discouraging cotton outlook resulting from the war, together with infavorable earnings. Cotton options were mostly higher, however, in re-

staple from foreign sources.

Dealings were the lightest of any in the cent session, the overturn in the ecialties being from 1-4 to 1-2 under that of the midweek. Baldwin Loco-motive, Westinghouse and American Can, together with U. S. Steel, made up one third of the total of 475,000 shares.

International conditions, particularly the impending reply of the U.S. to Germany, furnished the basis for much of the day's hesitation. There were no developments of interest in the markets for foreign exchange. The prob-able success of the new Canadian note offerings by our bankers threw some light on the investment enquiry. Monetary conditions were unchanged except for a more free acceptance of in-dustrial collateral loans.

Bonds were irregular, with a renewal of foreign seiling. Total sales, par value, \$1,655,000.

Firmness.

With the Dominion Government paying 5 per cent. for money, it is quite asible for semi-speculative stocks with settled dividend prospects to sell considerably below normal levels. The process of disintergration in domestic stocks is slower because of the minimums established by the exchange.

The weakness of this position is shown by sales outside of the Toronto stock market and it is probable that more of this will follow unless some arrangements are made. C.P.R. was weak yesterday. BLACK RUST PERIL GROWING SERIOUS

News From South Dakota Made Impression on Wheat Pit.

CLOSE WAS STRONG

World Shipments Decrease and European Crop Outlook is Unfavorable.

CHICAGO, July 23.-Reports that black rust had begun attacking the stems of wheat in South Dakota led were strong, %c to 1%c above last night. Corn gained 5.8c to 14c net and oats 3-8c to 1 5-8c. In provisions the outcome ranged from 71/2c decline to an advance of 5c.

Attention to black rust took first rlace in the wheat pit the moment news came that a vital part of the plant was being attacked. All previous advices had been that the blight had touched only the leaves and that there was apparently not much cause for alarm if the weather remained windy and clear. Today's despatches, however, seemed to put a radically different aspect on the situation, the harvest in the fields endangered being 10 to 20 days off, leaving ample time for serious lesses. leaving ample time for serious losses in case atmospheric conditions suffered a turn for the worse.

Most News Bullish.

Smaller world shipments, especially from India, and the unfavorable outlook for European crops gave an advantage to the wheat bulls even before traders were affected by the fore traders were affected by the flurry over black rust. Besides showers were threatening in Illinois, Iowa and Missouri. Export demand, tho, failed to become urgent, and in the last hour holders showed a desire to realize profits until just at the close the market tightered again. The lightness of stocks and the cool temperature prevailing kept the stocks exclusive of mining shares. Iron was next in point of activity with a turnover of about 1300 shares.

The balance of the list was featureboard was brisk.

since May. Demand from the sea-Higher prices for hogs and grain steadied provisions. On the soft spots in the market packers bought lard and

Specialty Gained Sixteen Points in Montreal

MONTREAL, July 23.—A wild mar-set for Canadian Car which rose 17 1-2 points to 91 1-2 under the stimulus of New York buying and closed with a net gain of 16, started the other stocks of the war order group moving today and the market as a whole presented an appearance of greater strength than has been seen for some weeks. While the other war stocks moved slowly by comparison with the move-ment in Car, buying was in larger volume all around than for weeks back Scotia jumped 3 1-2 to 66 1-2, Iron 1 1-4 to 32 1-4, Bridge 1 to 127 and Steel of Canada 1-2 to 16 1-4. Scotia and Bridge finished at best prices. the market tightened again.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, July 23.—There was less inquiry from foreign buyers for Manitoba spring wheat today and as prizes bid for both old and new crop showed no improvement no further business was done. The local trade in coarse grains was fair and the market is steady. There is no change in flour to note, business being still rather quiet and of a jobbing nature. The enquiry for milifeed is good, which is scarce, and buyers find it difficult to fill their wants. An easy feeling prevails in the butter market and prices at the auction sales today scored another decline of %c to %c per pound. Cheese slightly stronger. Eggs in fair demand.
