Text of the German Reply

"In reply to the questions of the president of the United States of America, the German Government hereby declares:

"The German Government has accepted the terms laid down by President Wilson in his address of Jan. 8 and in his subsequent addresses on the foundation of a permanent peace of justice. Consequently its object in entering into discussions would be only to agree upon practical details of the application of these terms. The German Government believes that the governments of the powers associated with the government of the United States also take the position taken by President Wilson in his address. The German Government in accordance with the Austro-Hungarian Government, for the purpose of bringing about an armistice, declares itself ready to comply with the propositions of the president in regard to evacuation. The German Government suggests that the president may occasion the meeting of a mixed commission for making the necessary arrangements concerning the evacuation. The present German Government, which has undertaken the responsibility for this step towards peace, has been formed by conferences and in agreement with the great majority of the reichstag. The chancellor, supported in all of his actions by the will of this majority, speaks in the name of the German Government and of the German people. "Berlin, Oct. 12, 1918.

Vouziers is a town of 3000 inhabitants. It commands two defiles in the forest region eastward and is of great military importance in itself. The significance of the capture arises from the fact that since 1914 it has symbolized German resistance in northern France. A KNOCK-OUT BLOW

Returned Soldiers Think Germany Is Anxious to Save Something From Wreck.

London, Oct. 13 .- The text of the German reply to President Wilson's note reached the British foreign office this morning from the British minister at The Hague. Foreign Secretary Balfour and Andrew Bonar Law, the chancellor of the exchequer, immediately left with it to confer with Premier Lloyd George, who is spending the week-end in the country.

At this juncture it is unlikely that any responsible British minister will make any detailed declaration on the situation arising from Germany's reply to the American president. The next step seems to be for the president to consult with the allies for a general consideration of the German answer. On the face of it, the German note! according to an authoritative source, seems to be an acceptance, not only of the points of the president's declaration in January, but also of his subsequent statements. It may thus be said to look as if the Germans meant acceptance, but, of course, it was pointed out the real difficulty is that truth or keep her word. The phrasing tary success. of the note, it is held, does not yet make it definitely clear if the president's terms are accepted outright or

Ruse Suspected The reply was received in London too late last night to become generally known outside the theatre and restaurant sections, where at first glance was accepted as meaning peace. After publication in morning newspapers, however, expressions of suspicion were heard on all sides. Many searched the note for some evidence that it might be a ruse to save the German armies from utter destruction, but most of the people are awaiting an authori tative lead before forming a definite

It is commented that there is no doubt Germany found herself faced with the loss of the bulk of her army caught in the pincers of the advancing allied armies without any assurance of their escape, and thus the view is taken in some quarters that the terms of evacuation must include

the surrender of those armies unconditionally. VIADUCT HELD UP

Merchants and Residents Protest Against Unnecessary Hold-Up.

MEETINGS TO BE CALLED

Citizens Will Demand Explanation of Delay From Council.

Late last night Mayor Church told The World that there would be a reconsideration of the board of control's action, and to this end he would call a special meeting for Tuesday morning. "All the work is of a temporary character," he said, "and should not be delayed for a single day." He intimated that the board of control had been too hasty in going against the recommendation of the commissioner of works, and in the light of information he was now in possession of it would be necessary for that body to reverse its decision, stand by Mr. Harris, and thus expedite the completion of the viaduct.

Merchants Up in Arms.

Merchants on East and West Bloor streets, Yonge street, immediately north and south of Bloor, and Danforth avenue, as well as residents generally in these districts, were angry when informed on Saturday of the true state of affairs. They not enly all looked for the opening of the viaduct from Broadview to Parliament this week, but also for the laying of car tracks on the temporary roadway to Bloor and Sherbourne streets and the completion of the trestle over Glen road in a fortnight's time. Public meetings,

to attend, will probably be held this week to protest against any unnecessary delay, and a petition to the city council and Ontario Railway Board circulated demanding quick action.

The Toronto Railway Company, too, are indignant at the delay. They had already announced that as soon as the work was completed they would run a direct crosstown line from the head of Broadview straight thru to Landowne avenue. They are the viaduct was opened on Monday next, he could have saved \$5.00 in his moving contract. The board of control should have acted in the matter," said the alderman.

"The viaduct is closed for the spectacular opening next week," said thru to Lansdowne avenue. They had expected great things from this new line in the way of relieving their very much congested traffic and were anxious to inaugurate it at once. It is not unlikely that they, too, will protest to the city council and railway board against any further delay and demand that the city finish laying the tracks so they can get their new car line running. They have 50 new pay-as-you-enter cars in their shops almost completed, and intended using as many of them as the traf-

fic required on the great crosstown Hidden Hand at Work.

George R. Ellis of the east end citizens' committee said there was some thing sinister about the whole thing the steel girders over Glen road to carry the tracks on the new roadway between Parliament on the new roadway between Parliament and Sherbourne streets.

Three times two or three professed residents north of the Glen road bridge work as the viaduct," he declared. "I think it more than passing strange that the plans for the subway and girders of Commissioner Harris changed and then held up, and the commissioner now despairs of getting them built this fall. The work, including the track laying, could be come in a week. Ties, calls and girdcne intend moving in that direction."

MUNITIONS CALL FOR COAL SAVING

Every Ounce Needed to Keep Output Up to Maximum.

"It's coal or casualties," declared R. Home Smith, the Ontario fuel administrator last night. "Coal is required for the producton or transportation of everything the soldier needs overseas and every ton of coal we save means munitions, ships or other supplies. To get the proper attitude toward the coal crisis we must bear that thought in mind always. Coal must not be wasted lest by doing so we waste the lives of the boys at the front by failure to send them the shells and other

tions they need. "Coal consumers should not Iull themselves into a sense of false security by the talk of peace," he warned. "Even if peace were declared the United States and the other allies know the German character too well to be caught off their guard. They will not cease their munition and shippoulding program and while that lasts the abnormal demand for coal. and the necessity for conservation, will

continue. The movement of coal towards Ontario has not improved and will not improve to any marked extent until navigation closes on the upper lakes. Every possible ounce is being shipped in that direction at present and mean-while we are endeavoring to equitably distribute thruout Ontario the limited supplies that are coming in this di-Many towns in Ontario are still entirely without coal and where these places have a fuel controller appointed we are endeavoring to distribute relief by diverting shipments from more fortunate municipalities. Too many places have failed to appoint controllers and they are the worst sufferers." Peremptory orders have now been issued to the delinquents to appoint controllers within

the next few days or go fuelless.

The fuel administrator is convinced that Ontario will have to saw wood this winter as never before since the pioneer days. In a great many cases the farmer has been bringing wood to town and returning with a supply of coal. But the local fuel controllers are awakening to this condition of af-fairs and where they know a supply of wood exists on a man's farm suitable for the stove they are rigidly restricting his coal purchases.

BARBERS' UNION OPPOSES HALF-DOLLAR HAIRCUT

The Journeymen Barbers' Union, at a meeting held on Sunday afternoon, placed themselves on record as being in favor of 40 cent hair cuts and as being opposed to 50 cent hair cuts on principle. At the same time if certain master barbers desired to charge 50 cents a hair cut they were merely exercising their privileges. "We are now at least 70 per cent, organized in the downtown district," said Leon Werthal, general organizer for the union. "We have 28, if not more of the 60 master barbers of this section of the city, and in the Ward we are 100 per cent, organized. Of course, several firms are dead against the principle of traces unionism, but these form a minority of the employers. There are many firms which would favor us, indeed do favor us, but who Cesire us to supply them with full staffs, which unfortunately we can't campaign on behalf of trades unionism in respect to ourselves. Our minimum wage is \$20 a week with half profits on all weekly turnovers exceeding \$26 Brotherhood of Railway Clerks, a week. We are becoming stronger every few weeks."

of Archduke Francis Ferdinand and his consort at Sarajevo to the poten-tial destruction of militaristic influence in the Germanic empires by way of great American battles and bombing

The siege of Liege, the destruction of Louvain, the portrait of Kaiser Wilhelm as the self-styled descendant of Alexander the Great, the campaign of Eritain's "contemptible army," the destruction of St. Paul's Cathedral and Westminster Abbey by zeppelins in 1916, neither of which has been touched in any German raid, the Mesopotamian expedition with its tableau, the capture of Jerusalem, the battle of Verdun, the sinking of the Lusitania with its tableau, with its ultimate result, the entry of the United States into the war and the final paean of victory, were vividly pictured on the screen. All the branches of the services were well represented, from the huge Krupp guns trained upon the steel revolving de-fences of Liege to the far greater guns, juggernaut cars and other devices of modern warfare. Submarine destroyers, the bombing and battle planes of all the allied nations, and the finest of the infantry and cavalry units were well portrayed features.

SMILES AT THE ALLEN

Full of pep and ginger, Douglas Fairbanks fairly hurtles himself and his joyous personality into the pic-ture "He Comes up Smiling," in which he is appearing at the Allen Theatre

In the role of Jerry Martin, Mr. Fairbanks plays the part of a bankteller suffering from the effects of his caged-in life, who throws up his job to join a band of hobos. How he gets mixed up with some Wall Street inanciers, and extricates himself from an embarrassing position, at one of the magnates' country home, is the laughable basis for the very best picture in which Fairbanks has yet appeared. All thru the picture, "Doug" is given many opportunities to display his athletic skill, and to show some of the stunts which have made him famous,

motors. But the grade crossing is a necessity, for a reason which belongs to the future but is no less valid. Toronto is already a city of half a million, and must very soon have rapid transit. The demand for housing accommodation at present is an earnest of this. Rapid transit for the northeast must cross the Bloor street viaduct, and must approach it thru a tunnel which will rest on the present low level grade of Glen road. Hence Glen road must be raised to the level of Howard street, and the proposed trolley car crossing can therefore only be temporary.

Rosedale people are not too particular about spending the people's taxes, but the unnecessary expense as well as the delay in opening the full service of the viaduct occasioned by the second interference of Mr. Carrick and his friends will not be forgotten to Rosedale by the general public. When On this fifth thanksgiving of the a little purple patch of privileged people undertake to hold up the progress of a big city they are getting in wrong.

EPIDEMIC CRISIS NOT REACHED YET

Civic Health Department Takes Over Hotels for "Flu" Hospitals.

Not yet has the crisis of the influenza epidemic been reached. In fact, the medical health authorities expect several weeks may yet elapse before it may safely be said that Toronto is again on the up-grade to a free city.

Remedies of all kinds are being used by citizens in a frantic endeavor to ward off the plague. The drug stores are doing a land office business, and every known drug that anyone hears of is at once bought up. Dr. Hastings says most of it is bosh, and in many cases only irritates the trouble.

A wonderful response is reported from the Ontario Government employment bureau, where help has been pouring in to aid in combating the epidemic. A further call for help is issued, and all who could act in any capacity are asked to assemble at the Parliament Buildings this morning, where Dr. Margaret Patterson, head of the V.A.D. work of the city, will take the novices in hand and give quick instruction in the first necessities to nursing.

Dr. C. J. Copp of the St. John's Ambulance Association has also offered his services for the procuring and training of volunteer nurses.

A large number of women's organiza-

services for the procuring and training of volunteer nurses.

A large number of women's organizations are taking up the suggestion and will co-operate with the provincial board of health. Some of those already mentioned include: I.O.D.E., Women's Canadian Club, Graduate Nurses' Association, Women's Conservative Club; Women's Liberal Club, Y.W.C.A.

The Ontario Governmnt has signified its intention of backing up the efforts of the provincial board of health in every possible way. The meeting in the private bilds committee room (west wing. Parliament Buildings), will convene at 10 o'clock this morning. Hon. W. D. McPherson will speak on behalf of the government.

"Cruel Mollie! Does she talk like that to you, Brian, when you are having those tete-a-tete dinners in some swell joint?"

"Of course not! Mollie discriminates," Brian replied, but Ruth noticed he looked annoyed. She would have liked to have strangled Beckly. But her aunt's training stood her in good stead, and she rose smilingly and led the way to the living-room, where

COMMISSIONER MAPP TELLS STORY OF RUSSIA

Commissioner Mapp of the Salvation Army in Russia spoke at Knox urch, Harbord and Spadina, on Sunday night, giving a thrilling story of the troubles in Russia. The commis-sioner stated that the Red Guards were composed of all the thieves murderers and outcasts that could be secured by the German intriguers to undermine the welfare of the country

and the allied cause.

Commissioner Mapp was in Petrograd thru most of the bitter fighting which characterized the later days of the revolution. He recounted the events which led up to the revolution, the orders of the czar to dissolve the duma, the refusal to enforce this or-der and the final influence of Kerensky to force the hand of the government and throw it over. He traced the course of the revolution thru the era of the provisional revolutionary government and on thru the horrors of fight between this and the Bol sheviks who succeeded to power. To the czarina he attributed the death of Lord Kitchener. "The czarina," he said, "had a direct wire to Potsdam installed in her bedroom. She received word of the projected visit of Kitchener to Russia and treasuritied all de-

er to Russia and transmitted all de-tails to the Potsdam chamber, and to her treachery is due the death of the great British warrior." "Notwithstanding all that has transpired in that troubled land." con-cluded the commissioner, "I have no

hesitation in saying that out of all the ashes of chaos and destruction new and mightier Russia will arise which will in time take her place among the great nations of the world. Amid all this desolation the Salvation Army was enabled to carry on its great work practically unmol the day of our inauguration the forces of Kerensky and Korniloff were in death grips in the heart of Petrograd the we remained unmolested. To-y we have 50 officers of the army Russia, 500 cadets in training and a shelter for women.'

The speaker paid a fine tribute to the work of the Y.M.C.A. and kindred organizations at the front. he said, "are represented at the train ing camps, at the bases and at the very trenches, and they are mothers the boys at the front."

ENGLISH BISHOP GIVES

PRAISE TO CANADA'S SONS "Thru the stand she has taken in this war Canada will forever be a power in the world," said Bishop Wakefield of Birmingham, Eng., speaking in St. James' Cathedral yesterday morning. "Other nations will look to Canada for advice, will question her stand in matters of justice. It will be a big responsibility, and in order to live up to it the social, the industrial and every side of life must be strengthened here at home, seeking first of all that our motives and aims

be truthful." backyard Sunday morning Gordon Grigg, In the past the religious bodies had 64 Rhodes avenue, was accidentally shot failed in that they had put the smallshould be the first consideration of all in the future to join and bind them-selves together for all great social and moral purposes, then if reforms come about thru the efforts of one religious denomination of by all who call themselves Christians, the world would see Christ, and His work and will would be done.

One of the biggest responsibilities laid upon all teachers and parents at this present time is the careful training of the young who are coming into positions where theirs will be the work of remaking the world. "My great delight," continued the bishop, "has been to see the hundreds of young people with practically no training whatever step into the responsibilities of this war and carry on so splendidly, and this brings the thought that if only care were given in the training of all the young how many hundreds more would grow up to prove themselves worthy of the land that bore them." The bishop called to remembrance the crossing of the first Canadian contingent and with what pride and joy England received word of the coming remembered the first Canadian patient to be received in an English hospital, one of the Princess Pats, who the Canadian-born, was strangely enough the son of the rector of a Norwich (Eng.) church, but all felt that they could not do enough for him. Ulster United hold the Dunlop Shield for this season. The final was staged at Varsity Stadium on Saturday afternoon, and the Irishmen downed Dunlop Rubber, 3 goals to 1.
Both teams were hit by the "flu" epidemic, Galbraith being missing from Dunlops, and Long and Lindsay being Ulster absentees, Ulster put their best efforts into the first half, scoring two goals to Dunlop's one, The first goal went to Ulster, Dobson netting it. Dunlops got the next. In trying to keep the ball out after Yeates had played it, Brookes shouldered the ball into his ewn net.

Layery saved nicely from Dobson at

Brookes shouldered the ball into his own net.

Lavery saved nicely from Dobson at close range, but Allan, rushing up like a whirlwind, headed the ball into a vacant net. Half-time whistle blew with the score: Ulster 2, Dunlops 1.

Ulster put on the pressure early in the second half. Lavery was hard put to keep out the ball. The Ulster defence was good and smothered the Dunlop attacks.

Ulster tired before fifteen had passed of this half. Again they took a spurt, and Forsythe made it sure with a low, hard shot, that Lavery tried to save with his feet. The final was 3 to 1 for Ulster. The teams:

Dunlops (1)—Lavery. McKie, Richardson, Coombes, Peden, Hamilton, Crawley, Lowe, Yeates, McChristie, Cowper. Ulster (3)—Hallowell, Burdett, Brookes, Drummond, Carrol, Cardy, Holland, Reid, Dobson, G. Forsythe, Hutchinson.

Referee—Murchie.

Owing to the sickness of Old Country's secretary, a misunderstanding arose over the time of starting of their game with Street Railway at Dunlop Field on Saturday, and only eight players were on hand to line up nearly an hour after the advertised time. Two more players drifted in after the game started, but O.C.C. were defeated, 2 to 1, Teams:
Old Country (1)—Bennett, Harding, Taylor, Anderson, Burns, Champ, Jackson, Patterson, Brown, Logan.
Street Railway (2)—Cohen, F. Wilding, Lewis, White, Shepherd, Burke, McLeod, Fyles, McGregor, W. Wilding, Worthington. Owing to the sickness of Old Country's Jamieson, Harper, Cain, LaFavure, Turnbull. Reserves—Roxborough, Cook, Newman, Raynor, Parrington.

Clothiers To All Mankind

WETHANK YOU!

These are days when men are men. History is being made over night. Kingdoms and empires are tumbling. The map of the world is being remade. Under the stress of war-times, a new generation of efficient, energetic men, WHO DO THINGS, are coming to the front.

Canada has no place for drones and parasites while the battle is raging in Europe. The business outlook is constantly changing in accordance with the fortune of war-and prospects of peace.

Let us look about!

The real men of business have not pulled down the flag-they are not lying down-they are standing up, and they will maintain and improve their place in the sun of commerce and industry. New fields and opportunities are constantly opening, and far-seeing men who gauge the trend of things, and the end of the war in sight, are mobilizing for great forward movements.

Canada is all right! We have faith in Canada! Faith in its red-blooded, virile people. Faith in its future.

We are filled with optimism for the future.

The present is taking care of itself.

Our business has prospered, and we are grateful to that large clientele of customers, old and new, who have favored us with their patronage, and helped us maintain our supremacy in our chosen field. It has been a great year of business for us, and you have helped to make it great.

We thank you!

Cordially yours,

ED. MACK.

FIGHTING WILL STOP

The battle of Passchendaele was no naseball game," said Captain (Chaplain) I. Ferguson Morris, in speaking at the Earlscourt Men's Own in Central Methodist Church, on Sunday afternoon, His subject was "Observations on the War," and he gave many illuminating items concerning the war at the front, as he has but just returned. One million canalities was the toll at Vimy Ridge, over which Captain Morris went with the boys, and the closest call he had was when a shell tore off his uniform and, smothered him in mud. "My name was not on the shell," said the speaker, "but it was a near-shave. My observation is that the boys over there will not stop fighting until they are on German soil; then a peace can be concluded that will be a lasting peace. We are going to Berlion, and every allied soldier believes it," he said. The speaker paid a big tribute to the first contingent, who paid the fairly sacrifice, and concluded with the statement that the leading military authorities had come to the conclusion that the victory that was coming was the result of confidence in God, for the allied toldiers had put their trust in Him. Two returned men who were present received a rousing welcome. They were Sergt. Parker of the 15th Scottish Battalion and Spr. Burley. Rev. E. C. Hunter presided.

When the City of Toronto made a grant to the G.W.V.A. of \$10,000 some time ago the amount was kept as a headquarters fund for any kind of work that the association thought would be best in which to use it. The advisory board of the G.W.V.A. have now decided that the balance of this money. Which amounts to \$8500, shall be distributed among the various branches of the association. Under this arrangement \$1500 will come to the Earlscourt branch of the veterans and will be devoted to the building fund for the erection of the new hall in which to conduct their stairs.

WILL CLOSE SUNDAY SCHOOL.

Owing to the Spanish "flu" epidemic which is very severe in the Midway district, the Rhodes 'Avenue Presbyterian Church, East Gerrard street, Sunday school, will be closed for the next two Sundays.

SEVEN IN ONE FAMILY ILL.

Seven members of one household are down with the influenza in Rev. H. A. Berlis' parish, Rhodes Avenue Presbyterian Church, and every other house has one or more of the inmates suffering with the complaint, according to the minister's statement.

This comes at an opportune time and will form a nice-little nest egg towards expenses. It is the intention of the building committee not to spend a cent unnecessarily. Earlscourt is taking un the project with enthusiasm and the whole committee is now engaged on a vigorous canvass around the Earlscourt district. Realizing the splendid work done by returned men, several offers have been made by manufacturing-firms and landowners to help them, and with the practical help of the men themselves the new hall is expected to be built at a minimum cost.

Mr. Gilbert pointed out that there was full unanimity between the United States and the other allied nations in respect to the war.

MAY CONNECT LEASIDE BY TEAM TO BROADVIEW

A syndicate of east end business men have under consideration at the present time a bus service between Broadview and Leaside. According to one of the premoters a 20-minute service, could be maintained, starting from Broadview and Danforth corner, along the Don Mails road and thru the road by the Sun Brick Company across the River Don, and thence following the Cudmore road direct into the Town of Leaside. The journey with a good team could be accomplished in 20 minutes, and the short, steep grade could be overcome with a booster team at the difficult part of the route en the Don Mills road on the return trip. The York Township Council and Leaside Council will be approached in the matter of grading the route. The two councils working in conjunction could quickly and economically overcome the grade difficulties which are not very great, and the benefit to hundreds of east end residents would be enormous.

QUICK-LUNCH COUNTER FOR MUNITION PLANT

The following notice has been posted in the Leaside Munition Works: "A quick service counter for the employes will be opened in a few days for the convenience of "A" and "B" plants owing to the time lost by men leaving their work to go to the cafe, the cafe will be closed between meal hours and men will not be permitted to leave the building during working hours.

"This applies to both day and night shift. During meal hours employes may take their meals where they please, provided they are back at their work at starting time."

What last year's Victory Loan achieved

AST year the people of Canada lent the nation \$425,000,000, by buying Victory Bonds.

And because Canada now needs more money and will presently ask the people to lend it, the people have a right to know what was accomplished by last year's loan.

Every dollar of it was spent in Canada.

Not only was it spent in Canada—it was circulated—it became the working capital of the nation.

T financed millions of dollars worth of munitions for I Great Britain through which great sums of money were passed along to the workers in a hundred cities and towns and to the coal and iron miners of Nova Scotia and New Ontario.

It financed the purchase of thousands of aeroplanes for Great Britain through which again, millions of dollars were passed along to scores of lumber camps in British Columbia and to thousands of workers in the cities.

It financed the export of millions of dollars worth of copper, lead and zinc and that again gave employment to an army of miners and metal workers all over Canada.

It financed the building of 112 steel and wooden ships in the Maritime Provinces, Quebec, Ontario and British Columbia through which many more millions were passed along to the artizans, miners, steel workers and lumbermen of Canada.

It financed the purchase of hundreds of millions of dollars worth of foodstuffs as a result of which the money passed along to the farmers all over Canada.

And the farmers and the workers of Canada deposited their savings in the banks and the banks in turn loaned it to more producers who circulated it again and yet again, until every individual in Canada felt the benefit.

THE money from the Victory Loan, like any other working capital, was "turned over" several times. It kept working, over and over again, until it built up a tremendous commerce—it developed the greatest export trade Canada ever had, greater by several times, than the amount of the loan itself.

And this trade furnished the market for Canada's products of the field, the mine, the forest and the shop.

Thus was Canada's prosperity, upon which her war efficiency depends, kept at a high level.

And by reason of this prosperity, Canada has maintained and equipped an army of over 400,000 men-an army which has brought glory to Canada by its courage and prowess in the field, and by its heroic spirit of sacrifice.

So when Canada asks us to lend our money to carry on, we have an opportunity to contribute again to the nation's prosperity and to the fighting efficiency of her noble sons on the battle line.

How Canada's Exports have Grown

What Canada's war activities and financing have actually achieved for the nation's export business may be seen at a glance by comparing certain items for the year ending March 31st, 1918, with the average volume of trade in the same items for three years previous to the war.

From the Farms:	Average for 1912-13-14	For fiscal year 1918
Dairy	\$21,064,893	\$40,175,270
Grain	97,061,983	403,985,858
Flour	18,861,944	95,896,492
Meat	6,146,554	76,729,060
Vegetables	1,205,709	19,034,528
From the Mines:		,
Iron and Steel (1914		
only)	11,374,981	45,810,367
Copper, Nickel, Zinc,	Same and the first transfer	
and Aluminum	15,323,513	46,271,848
From the Industries:		* S.
Munitions		450,000,000
Leather	2,162,662	10,986,281
Clothing	337,047	.9,702,207
Vehicles	2871,163	22,776,590
From the Forests:		
Pulp and Paper	12,446,523	59,599,339

Canada's fisheries will yield, in addition to the above, during the present year about \$9,000,000

In addition to the forest items 248 million feet of aeroplane spruce timber averaging over \$20 per thousand is contracted for in British Columbia as the result of Canada's financial assistance to Great Britain.

Not ranking as exports, but nevertheless directly financed by the Victory Loan 1917, is 446,000 tonnage of ships valued at \$70,000,000 which will be completed by the end of this year. These ships use millions of dollars worth of lumber and steel which again circulates vast sums among the workers of Canada.

A Stitch in Time

HERE is a homely old proverb which tells us that "a stitch in time saves nine."

If the man who said it first had been thinking of health, he would probably have said that a stitch in time saves nine hundred and ninety-nine, so important is it to repair those first tissues that become impaired by ill-health. This is no new doctrine. It is as old

as man. Unfortunately (to paraphrase another proverb), we too frequently put off until to-morrow what we ought to do Failing to repair the first tissues that need repair, allowing the malady to continue unchecked, other tissues become im-

paired, for all parts of the body are sympathetic. The trouble spreads. And—then comes the rent. Nervous disorders may show themselves in various ways, such as sleeplessness, headaches, neuralgic pains, nervous prostration and exhaustion, while later developments take the form of paralysis, locomotor ataxia, or some form of

helplessness. Strangely enough—all these symptoms are preventable, if that stitch had been taken in time. It is here that Dr. Chase's

Nerve Food becomes important. We do not say that it is the only means of preventing the rent, but we do say that many years of experience have proved its value as a repairer of wasted nerve tissues that have become weakened by overwork, anxiety, or other causes.

When we say that the value of Dr. Chase's Nerve Food has been proved we are speaking by the book. We might, at cos iderable length, tell you why Dr. Chase's Nerve Food will make that stitch if taken in time and prevent the rent, but we have always proceeded upon the idea that people are more interested in knowing what has been done in cases similar

Mrs. W. T. Abbott, 536 Paterson street, Peter-boro', Ont., writes: "My system was in a run-down condition, and I was troubled with nervousness and sleeplessness. For some time also I had been bothered with neuralgia, and although I tried many remedies, it was without success. Upon the advice of a friend I commenced using Dr. Chase's Nerve Food, and soon found that my neuralgia was cured, and I have not been troubled in this way since. I also find that now I can eat and sleep well, and I give full credit for this great benefit to Dr. Chase's Nerve Food. I might also mention that I had lost considerable in weight, but after using the Nerve Food I gained back the flesh I had lost."

You can obtain Dr. Chase's Nerve Food from any dealer at 50 cents a box, six for \$2.75, or from Edmanson, Bates & Co., Ltd., Toronto.

Our trading in grains and other commodities was large and profitable, and Peterson Lake also gained to the previous day. Mining Corporation did not follow up its gain of Friday when it sold at 2.85, the stock being held on Saturday at 3.00 with 2.50 bid. Timiskaming at 29% was up to the previous day. Mining Corporation did not follow up its gain of Friday when it sold at 2.85, the stock being held on Saturday at 3.00 with 2.50 bid. Timiskaming at 29% was up to the previous day.

Our trading in grains and other commodities was large and profitable, and nese profits, together with income from investments, give us nearly sixty per int. of our total profits.

The turnover for the year was \$56,657,117, of which \$40,412,848 was on the ale of the products of our flour mills, the profits from the operation of which and 10, respectively.

Rockwood Off was again under precitation of the turnover, a figure which is, indeed, very low, and only possible feeturning a reasonable profit on account of the very large amount involved.

Realizing that our business is much more subject to market changes than generally the case, it has been the policy of your Directors to carry the large plies required by our milis and the product of same, as also its investment most safe and conservative figure, but owing to Government requirements, hd feeling the advisability of our shareholders realizing that proper provision as been made to take care of a sudden change in values, you will note that intingent Reserve Account has been established to provide against such hitingency. With flour and wheat from two to three times normal values, is only natural that there should be some anxiety in the minds of our shareders in this respect. This reserve, however, must be regarded as likely to required for the purpose named. connection, it is well that proper provision be made and shown. We continue to contribute largely to the Income and Business Profits Taxes, our contribution this year again exceeding the dividends paid to the share-holders of our ordinary stock. There has been practically no change in the holdings of our shareholders during the year, the average holdings being 34

The outlook for this year is hardly as promising as last. Firstly, for the reason that the Government has felt it necessary to adopt the use of the same quantity of substitutes for flour as is used by our Allies, which means a reduction in the use of wheat flour in Canada by some 20 per cent. Secondly, the export outlook is not as bright as it was a year ago, but your Management feel confident of the maintenance of a satisfactory return to the shareholders.

EXTREMELY RICH ORE TAKEN FROM NIPISSING

Cobalt, Oct. 12.—Production of silver from the Nipissing mine 2or the month of September showed an increase of nearly \$6000 over the August output. A notable feature of the report is the treating of only 98 tons of ore in the high-grade mill from which 513,713 ounces of silver was shipped. This would indicate an average of approximately 5242 ounces of silver to the ton. In his report to the president and directors of the company. The government exchequer has been enriched by war taxes paid by this company to an extent in excess of the dividends paid to the share-holders of the common stock. At the same time the company invested very heavily in government war loans. Due provision was also made for the pensioning of employes, and for the maintenance of the company's various properties at the highest possible state of efficiency.
