OLD BOYS OF 'VARSITY' RECEIVE IN NEW YORK

President Loudon Hopes to See Many Students' Residences Erected in Toronto.

New York, Jan. 30.—(Special.)—A jolly party of old boys of Toronto University, with President Loudon in their midst as a guest of honor, foregathered to-night in Hotel Manhattan at the first annual dinner of the University of Toronto Club of New York. The object of the club, which was organized on Dec. 13, is to foster closer relations between former Varsity men now in or near New York. Hon. Richard Harcourt, who accepted an invitation to attend the dinner, was not present. Other guests were Wolford Nelson of McGill Society Graduates and Dr. John R. Shannon of Queen's University Society.

G. H. Ling, arts '93, president of the club, presided. The toast of the evening, "Alma Mater," proposed by C. D. Paul, arts '88, a veteran of Varsity, was responded to by President Loudon, who was received with cheers as he stood up.

After commenting on his pleasure at being present for the first time at any banquet wherein the toast of the President of the United States and the King of England were to be continued: "The double toast was most appropriate. We should remember that both countries are of one nationality, one people connected by ties of blood. We possess in common the same ideals, the same interest in everything that goes to advance humanity."

"In recent years the two countries have been drawn closer together, and it is this friendship of the two nations that will do more to secure the peace of the world than any formal alliance politicians may enter into. [Applause.]

"I realize that it is a strenuous life in this country, and there is no better stuff drawn here to undergo this strenuous life than that furnished by Canada. Canadians are not finding their open arms, and you will find them rising to the top in the United States."

President Loudon cited examples of Canadian college men who have become eminent in academic life and business enterprise in the United States. He then gave a resume of the present hope and work of Toronto University, stating that it had been his aim to encourage the spirit of research therein.

"In no other university, that I know of, is higher work done by undergraduates. Many of the leading scientific papers of England are publishing papers written by our men. The Royal Society of London has accepted for publication the two first papers on physics, prepared at the university. I tell you, this is what you may realize to the degree of Ph.D. which we now confer on the writers of a thesis only when the article is adjudged worthy of publication, is of equal value to that granted in Germany or abroad."

President Loudon said he hoped to see in the course of a few years quadrangle after quadrangle of student's residences extending from Hoskins' avenue to Bloor-street.

He was lustily cheered on concluding, and the dinner became an informal gathering. President Loudon shaking hands with each old Varsity boy present.

N. H. Harris.

Frank G. Morley, the new secretary of the Board of Trade, was born at Cooksville, Ont., but has lived most of his life in Toronto. He has been engaged in the brokerage business for the last ten years, and his experience and acquaintance with Toronto business men are valuable qualifications for his new office.

UNITED STATES VIEW HIGH RE VENEZUELA ALL UP TO BOWEN NOW

Captain Mahan Tells What It Signifies if He Cannot Settle Dispute It Must Go to The Hague Tribunal.

London, Jan. 30.—The February number of The National Review contains a very timely article by Captain Mahan on the Monroe Doctrine. He points out that the United States considers it "essential to her interests and to those of peace to withstand the beginning of action which might lead to a firmness of the government, and indicates an instinctive political apprehension not excited by greater and immediate interests in quarters external to the American continent."

"Not to invade the rights of an American State is to the United States as firm as the Monroe Doctrine. It is not to permit no European state to influence in any assault upon their independence or territorial integrity, so she will not countenance by her support any shirking of their international responsibility. Neither will she undertake to compel them to observe their international obligations to others than herself."

"The United States is inevitably the preponderant American power, but she does not aspire to be paramount. She does not find the true complement of the Monroe Doctrine in an undefined control over American states, exercised by her and denied to Europe."

"It is correlative, as forcibly urged by John Quincy Adams at the time, to abstention from interference in questions territorially European. It is, in my apprehension, Europe, construed by the doctrine, would include Africa, with the Levant, India and the countries between them. It would not include Japan, China nor the Pacific generally. The United States might, by very excellent reasons, abstain from action in any of these last-named quarters in any particular instance, but the doctrine would not be in violation of the Monroe Doctrine, in the legitimate deduction."

AN OFFICIAL VIEW.
Lord Cranbourne Declares Britain Does Not Injure Monroe Doctrine.

London, Jan. 30.—Lord Cranbourne, Under Secretary of Foreign Affairs, speaking to-night at the banquet of the Sheffield Chamber of Commerce, said the government's policy in Venezuela was dictated by a determination to defend the interests of British subjects, and there was no infringement of the Monroe Doctrine. This was also the view, he continued, of the United States, which would be a long time before making itself responsible for a disorderly state like Venezuela. The Foreign Office had maintained intact Great Britain's friendship with the United States. Lord Cranbourne concluded by saying:

"There is no German or European alliance, but Great Britain is ready to cooperate with the powers, not only in South America, but in Asia, Africa and Europe."

FACTORIES SHUT DOWN WHEN POWER FELL OFF

Thousands of People in Buffalo, Niagara, Lockport and Tonawanda Feel Electrical Famine.

Niagara Falls, N.Y., Jan. 30.—At 6:30 o'clock to-night the temporary repairs at the Niagara Falls and Conduit Company's plant were completed, and the electrical famine along the Niagara frontier, due to the early morning fire started by a flash of lightning, was practically at an end.

Power was sent out from the plant an hour before that time, but it was not permanent, owing to a short circuit, which occurred in the power house shortly thereafter, and which seriously burned five men, one of whom may die. The short circuit and the injury of the three men came as the climax to disconcerting accidents which had marked the day, despite the fact that the repairing of the damage in so short a time is considered remarkable.

Caused Great Inconvenience.
Never before since the establishment of Niagara Falls power has there been a delay of such magnitude. It was felt directly by thousands of people in Buffalo, Niagara and Lockport, and the Tonawanda and intermediate points. Hundreds of factories were shut down for the day, and the street car service was demoralized. Thousands of workmen employed in the factories along the river were temporarily thrown out of employment.

The officials of the Power Company of the situation was not so great as was first thought probable. As a matter of fact the electrical famine lasted 19 hours. The worst of it is over to-night. On the Buffalo line 10,000 horsepower was ready for distribution at 6:50. Under ordinary conditions 30,000 horsepower is used there.

Charles R. Huntley, vice-president of the company, said that 10 o'clock all the necessary additional power would be obtainable.

Were Terribly Burned.
The men injured to-night were Will Allen, H. Anderson, William H. Beam and William Milks, all of whom are electricians, and Superintendent Inman. They were engaged in testing what is known as a feeder to No. 2 switchboard in No. 1 power house. An ambulance was called, and the four electricians were taken to the hospital. Beam and Anderson were found to have been injured the worst. In places the bones of the hands and forearms were broken, but not to such an extent that it was necessary to remove them to the hospital. The main cause of the short circuit was caused by a 7000 feet of cable ruined.

7000 Feet of Cable Ruined.
E. B. Rankin, vice-president of the company, made the following statement this evening: "The cause of the fire was a bolt of lightning, which entered one of the cables, which had the insulation worn. The flames communicated to the cables, and in a short time the roof of the arch and the transformer house were ablaze. The cables were destroyed in a short time, and it was necessary to shut down power house No. 1. Operations in power house No. 2 were not interrupted in any way. There was no damage to machinery in either power house. In all about 7000 feet of cable supply of cable on hand sufficient to replace it."

The loss by fire is estimated at \$50,000.

MINISTER OF LANDS ACCUSED.

Australian Said to Have Appropriated Public Property.

London, Jan. 30.—The Times correspondent at Melbourne, Australia, says that the Victorian Minister of Lands McKenzie, who has been highly respected, has been accused of improperly obtaining public lands for his own purposes.

He indignantly denies wrongdoing, and has resigned his portfolio. The courts are making an inquiry, and a select investigating committee has been appointed.

CHAMBERLAINS AT KIMBERLEY.

Accorded a Remarkable Reception—Diamonds for Mrs. Joseph.

Kimberley, Cape Town, Jan. 30.—Colonial Secretary Chamberlain and Mrs. Chamberlain arrived here to-day and were accorded a remarkable reception. Mrs. Chamberlain was presented with a basket of diamonds.

FOR CANADIAN FARMERS.

London, Jan. 30.—The British War Office has decided to invite tenders from Canadian farmers for the supply of fresh meat to the British army in South Africa.

DIED IN LONDON.

London, Jan. 30.—George F. Wardle, chief operator of the Great Northern Western Telegraph Company at London, died somewhat suddenly at an early hour this morning.

Cigars 10c. Gatos and La Arrow clear Havana. 5c each—Allive Ballard, 138 and 99 Yonge St.

A Steady Increase.
It is a satisfaction to Canadians to see the very steady increase in Canada's first mineral water, Radnor, all over the country, and to notice the decrease in the consumption of foreign waters, which proves that Canadians are alive to the fact that out of the grand old Laurentian Mountains gushes the very finest mineral water known. It is entirely due to the excellence of Radnor as a mixer, and to the care taken by the company in bottling, that Radnor has won such a reputation.

SANDERSON'S MOUNTAIN DEW SCOTCH. Always excellent. Never varies.
J. T. Bailey, Haircutter, 471 Queen Street.

To Commercial Travelers and Others—See Walter H. Bright, Medical Building. Phone 2770 before placing your accident policy.

DANGEROUS.

Mr. Ross (at Niagara): Dear us, from the way in which the people yell at me I must have gone too far.

THE PRACTICAL ISSUE.
Are you in favor of the repeal of the Conmee law?
Are you in favor of the municipalities of Ontario being empowered to go into the business of supplying gas and electrical energy for heat, light and power?

CROMER ON THE SOUDAN GOAL NEAR KHARTOUM

British agent in Egypt, speaking at a banquet here to-day, paid a tribute to the work of the missionaries in the Sudan, where the natives were learning that the foreigners visiting them were no longer slave dealers but the bitter opponents of slavery. He said:

"Let me testify to the special pleasure afforded me by a visit to the admirably conducted establishments of the Sobat River, and to that of the Austrian missionaries on the Nile. One is a Catholic institution and the other Protestant, but I know no distinction between such efforts among the pagans and they shall receive encouragement and assistance."

Lord Cromer spoke at length on the recent material moral and intellectual development of the Sudan, and held out the hope of early railway communication with Khartoum, which would open up the Sudan provinces to the world's trade. He said there was a prospect of finding coal in the region south of Khartoum, which, in the circumstances, was more valuable than gold.

NEWS IN MID-OCEAN.

First Attempt With Wireless System Made for Lucania.
London, Jan. 30.—The first attempt to supply incoming steamers with a news service was made to-day. The Reuter's Telegram Company, fitted with the Wireless Telegraph Company, 100 words of news for the Cunard Line steamer Lucania, which left New York Saturday last, and which is due to arrive at Queenstown to-day or to-morrow.

WIRELESS TESTS SUCCEEDED.
Berlin, Jan. 30.—The experiments on the military railroad between Berlin and Zoosen in keeping a moving train in continuous communication with the signal station have been completely successful. The Braun system was used.

Cold Pressed Nuts, square and hexagonal, finished and semi-finished, special discounts to the trade. Canada Foundry Company, Limited, 1416 King Street East.

DIED FROM HIS INJURIES.
St. Catharines, Jan. 30.—Frank Miller, the G.T.R. brakeman injured yesterday, died at noon to-day. He was 22 years of age.

PATENTS—Fetherstonhaugh & Co. Head Office, 100 Queen Street West, Toronto and Montreal, Ottawa and Washington.

TORONTO'S POPULATION ESTIMATED AT 266,939

Increase of Nearly 8000, According to Figures Furnished in New City Directory.

Some convincing figures as to the growth of Toronto commercially and every other way are to be found in the Toronto city directory for 1903, which will be ready for delivery about next Tuesday.

This is the forty-second issue of the directory of the City of Toronto, and by actual count it contains 97,087 individual names, exclusive of firms, corporations, etc. This total multiplied by 2.34—which is considered extremely low—gives the estimated population of the city at 226,880 up to the end of 1902. The estimate for 1901 was 220,420, thus showing an increase of 7539.

In defending criticisms of the estimate to the effect that it is too high, the directory people have shown the rapid progress made by the city.

Interesting Statistics.
Following are the figures of the yearly clearings of the banks in the city, as given by the Toronto Clearing House, during the past four years:

1899	\$20,872,846
1900	513,096,401
1901	625,228,206
1902	899,078,539

Another evidence of the large increase in transfers of real estate, in 1897 they numbered 1410 against 4188 in 1902.

The number of building permits issued last year was 1019 against 981 in 1901 and 296 in 1897. The value of buildings for which permits were issued in 1902 was \$3,854,523, against \$3,011,130 in 1897.

The total assessment of the city, as returned by the Assessment Commissioner for 1903, is \$163,823,975, against \$148,938,249 in 1902.

It is estimated that the amount of fire insurance in force in Toronto on Dec. 31, 1902, was over \$80,000,000.

Away Ahead of Montreal.
The Postmaster-General's report for 1902 gives the following figures for the year ending June 30, 1901, which show the business of the Toronto post-office largely exceeds that of Montreal:

Gross postal revenue—Toronto	\$481,771
Montreal	\$378,811
Money orders paid in Toronto	16,645
Montreal	12,019
Custom House returns for Toronto	1908 were \$4,533,005
1902	\$6,468,844

The returns at the Western Cattle Market show the following:

Cattle	Hogs
1902	157,408
1901	168,078
1900	170,152
1899	88,719
1898	40,883
1897	74,557

Increase in nine years—110,880, 95,595
Toronto Railway Co. Receipts.
Gross receipts of Toronto Railway Company during the month of December in the past six years are as follows:

December	
1897	\$ 99,350.55
1898	108,924.65
1899	119,931.15
1900	125,910.13
1901	146,815.50
1902	170,082.13

Medical Experts of Germany Say That It is Worthless.

Berlin, Jan. 30.—The commission of experts in mental diseases appointed by the Ministry of Education in the Sudan, where the natives were learning that the foreigners visiting them were no longer slave dealers but the bitter opponents of slavery. He said:

"Let me testify to the special pleasure afforded me by a visit to the admirably conducted establishments of the Sobat River, and to that of the Austrian missionaries on the Nile. One is a Catholic institution and the other Protestant, but I know no distinction between such efforts among the pagans and they shall receive encouragement and assistance."

ALBANY IS STILL POPULAR

The French-Canadian Prima Donna Pleased a Large Audience in Massey Hall.

ADELA VERNE CARRIED OFF LAURELS

In a Pianiste of the Highest Order - Program Might Have Been Better Chosen.

The audience at Massey Hall last evening was of such dimensions as to remove all doubt of Madame Albany's continued popularity.

It is to be regretted that the organizers of concerts will insist on displaying indifference to the wants of the people.

Not all music composed by the old masters is equally good, and some of their works might very well be dispensed with.

Madame Albany has a charming personality that is always the same. Her little mannerisms are suggestive of French Canada.

The most pleasant memory of Albany the writer has is of an occasion some years ago, when she sang the English version of "The Angel's Song" for in the closing bars...

Miss Katherine Jones and Mr. Archibald McEwen were the only ones who saw it to curtail their time by giving up their seats, which, however, was admirably regretted.

The office system always falls into a category of its own, and Mr. John Chesley is a pastmaster in the instrument of management.

THE WORLD OUTSIDE.

The World can be had at the following news stands: Windsor Hotel, Montreal; St. Lawrence Hall, Montreal; Peacock & Jones, Buffalo; Wolverine News Co., Detroit, Mich.; P.O. News Co., New York; P.O. News Co., 217 Dearborn-st., Chicago; G. F. Root, 274 E. Main-st., Rochester; John McDoanald, Winnipeg, Man.; T. A. McLintosh, N. Westminister, B.C.; Raymond & Doherty, St. John, N.B.

TWO VITAL QUESTIONS.

The liveliest question in Ontario to-day concerns the development of electrical energy at Niagara Falls and at other great sources of water power in this province. Of the Toronto newspapers, four or more want to have the municipalities authorized to go into the power business, either individually or collectively. In other portions of Ontario the same idea is prevalent. The idea is coming up with a rush and must now be settled. Furthermore, the Ontario government has just authorized a third company to develop power at Niagara Falls. In connection with the authority granted to this company, Hon. J. R. Stratton and Premier Ross have both made statements which are, in substance, to the effect that there is sufficient power in Ontario to supply the needs of the municipalities, and that they see no reason why Toronto should not be authorized to go into the business. Public opinion is decidedly in favor of some kind of new and advanced legislation governing the development and transmission of electrical energy. This being the actual condition of affairs, the practical question is, What can be done to bring about the desired object?

We do not desire to hamper the situation. We rather desire to clear the ground, and the first thing to be done, to our mind, is to get rid of the Connec law, by which municipalities are bound to buy out at a valuation any existing company within their limits now engaged in generating power or distributing it for light or some other purpose. Under that law we believe Toronto would have to buy out the two existing companies here, although when Toronto made its agreement with these private corporations there was no such idea, and that iniquitous law was thrust upon the city thru the investigation of the companies and in spite of the protest of the municipalities. It is a bad law, and because it is a bad law it ought to be repealed. There is no justice in it. No one can tell us of any other business that is protected from competition outside of these monopolies. A man embarking his money in a newspaper or any other enterprise is subject to all kinds of competition the next day, and no protection is given him. So should it be in the generation and distribution of electrical energy. It is therefore evident that the Connec bill must be repealed.

Next, the city must be authorized to go into the power business, both generating it or purchasing it from some individual or corporation, empowered to generate it and empowered also to distribute it through its limits for light, heat and power, irrespective of any franchises that may exist with companies already within its limits. All sorts of side issues will be discussed, and all kinds of lions will be placed in the way. But what the public must do is to keep the power in its own hands and make every man, every alderman, every politician and every newspaper man who they are in regard to the Connec bill, and if they are favorable to Toronto and other municipalities being empowered to generate or purchase and distribute electrical energy.

Toronto wants no advantage over any other municipality. It wants simply to be treated exactly as they are treated, and it has no intention of going into competition with them to draw manufactures to itself. This idea of Toronto competing with other municipalities was floated by the monopolists themselves, and is one of their old forms of obstruction. Whatever is good for Toronto is good for any other place. Toronto has rather the worst of it, as she is on the outer fringe of the area to which Niagara power can be carried. Hamilton is in a much better position and so are all the Grand River towns. What we desire to see and what we believe the people of the province desire to see is all the municipalities placed on an equal footing in this respect.

The ground should be cleared at once for the reason that a session of the legislature will be held in a very few weeks, and unless the municipalities know exactly what they want the thing will be "jollied" over for another year, enabling the companies to strengthen themselves in the meantime. Toronto and all the other municipalities should therefore approach the legislature at the forthcoming session on these two distinct planks—repeal the Connec bill, and authorize the municipalities to go into the development and transmission of electrical power. When this is done the problem will work out to the satisfaction of all.

MR. PATTULLO'S NEW LIGHT.

An evening paper states that Mr. Andrew Pattullo has altered his attitude towards the production and distribution of power by municipalities. Mr. Pattullo we remember as a gentleman who fought against the effort of the municipalities to obtain this power. He made the pretext that Toronto would injure smaller municipalities if she had such power. We believe that Mr. Pattullo, who appears for office in the Ontario government, has modified his position. He sees that public opinion is moving. But if Mr. Pattullo has any doubt on the question we advise him to read the report in his own paper of a discussion in his town the other night on public ownership, when the merits of that proposition were ably discussed. And if Mr. Pattullo wants any further proof than this let him meet his reporter out among the manufacturers of Woodstock, Brantford and the towns in his locality and see whether the manufacturers and the people of

these towns would like to get an unlimited supply of electrical energy at the cheapest possible rate. Nay, more, let Mr. Pattullo go out among the farmers of Oxford County, who are within the area of distribution of power from Niagara Falls, and see whether they would not like an unlimited supply of electrical energy at the lowest possible cost for the purpose of working their farms, pumping water and some day dragging their plows and driving all their machinery. The World will be more than pleased to copy in these columns any information that may thus be obtained and give Mr. Pattullo and his paper due credit for the same.

SUPPORTING THE GOVERNMENT.

The hollowness of Provincial politics is once more illustrated by the action of Mr. Gurney, member for Manitoulin, in going over from the opposition to the government. Mr. Gurney says that Manitoulin is his politics, and as Mr. Ross' policy of building up Ontario will help Manitoulin, he will give the government "an independent support." Why is the announcement delayed so long? All through the election campaign of the Ross government proclaimed that its policy was to develop New Ontario. Nothing has happened recently except that the Ross government is now fairly well entrenched in power, and Mr. Gurney wants Manitoulin to be on the right side. There is nothing new or surprising in this. The outlying regions of the Province are in special need of roads, public works and other things which are at the disposal of governments. Many of their demands are legitimate enough. They are services which it is our duty to supply. The members in these regions are doing hard, rough work, and enduring hardships such as the people of Old Ontario endured many years ago. It is they who are "building up Ontario," and they are entitled to recognition and generous treatment.

What is really objectionable is the notion that Manitoulin or any other constituency in New Ontario will not be fairly or generously treated unless its member supports the government. If the policy of the government is to "build up Ontario," it ought to perform that duty without regard to the politics of the representative. Yet, both in Dominion and Provincial politics, the idea is firmly fixed that constituencies in the pioneer stage, are doing an imprudent thing when they support the opposition. "It is contrary to the genius of our institutions" was once humorously said.

It may be argued that there is not much difference between the parties, and that changing one's allegiance is not any worse than crossing over to the other side of the street. If so, why is the country thrown into turmoil every four years, and often, and why do the politicians and the newspapers give so much attention to a matter of no importance? The difference seems to be important enough to lead to the raising of big party funds, to corruption and charges of corruption, to the stuffing of ballot boxes and other frauds. If we could drop all this, and just say "Manitoulin is my politics," perhaps we should get rid of a lot of humbug, and not lose a great deal.

ANIMALS IN CARTOONS.

The Hon. Frederic Taylor Pusey has been endeavoring to persuade the Pennsylvania legislature to forbid the publication of cartoons depicting public men as dogs, roosters, horses, etc. The reports published by our American contemporaries are somewhat fragmentary, but they are enough to enable us to say whether the objection taken on behalf of man, or the other animals with which he is compared. Our own impression would be that the dumb brute requires the greater protection. The public man can explain, and point out that he does not resemble the dog, the owl, or the ox in any respect, and that the poor dumb brute is at a disadvantage. The honest, industrious and affectionate, he has no means of protesting against the cartoonist who identifies him with the most cold-hearted and treacherous of politicians.

NO BENEFIT IN THIS TRANSFER.

If there was any sound reason to hope that provincial subsidies would be expended wisely on deserving provincial institutions there would be more justification for the raids on the Federal treasury. Hon. G. W. Ross maps out an admirable program for the additional subsidies he hopes to secure, and it is possible that the program will be revised beyond recognition before the subsidies are spent. Money that comes easily goes easily. It goes easily and it often goes recklessly. The Ontario government is required to give only a general account of the subsidies it expends. The money is obtained in a manner which imposes no direct tax upon the people. For this reason it escapes that critical examination of the public which would be given to the expenditure of funds that bore a more direct relationship to the pockets of the people.

Deserving institutions may get some of the additional subsidies. The enterprising subsidy hunter is likely to secure a generous share. It is unfortunate that the municipalities cannot be made the direct beneficiaries of the Federal subsidies that the provincial governments are after. The closer the people's money gets to the people the better for the people, so long as it does not pass beyond the possibility of expenditure for political considerations until it has reached the municipalities. There is a possibility that the people of Ontario will receive more benefit from the expenditure of the additional subsidy by the provincial than by the Dominion government. But the possibility is somewhat remote. Politics is politics in Queen's Park, even as on Parliament Hill, Ottawa. If the subsidy could only be diverted from the Federal treasury to the municipalities to improve roads, to build bridges, and assist in other local enterprises, the transfer would be distinctly beneficial.

CLEAN THE CROSSINGS.

Complaints against the condition of Toronto's streets are numerous, and they are well founded. Following every thaw, citizens must wade thru water and slush to pass from one side of a street to the other, or to enter a street car.

The answer of the Street Commissioner is, of course, that appropriations are not sufficient to give proper attention to the streets. It is true, moreover, that the Street Commissioner's Department has been put to an unusual strain this winter. Relieving the coal situation was an imperative obligation, and Mr. Jones did his work well. But admitting that the department has neither the time nor the money to make the streets as clean as they should be, something more could be surely done to mitigate the nuisance of which the people complain. The chief complaint is the condition of the crossings. Would it not be possible to put men at work on any fifty important crossings following every thaw? The cleaning of the chief points of intersection would be a convenience to thousands of citizens, and the cost would be small. A settled policy should be inaugurated,

THE T. EATON CO. LIMITED

February Furniture Sale

Next week ushers in the great harvest time for furniture buyers. It's the occasion of our February Furniture Sale, when some of the best furniture made in Canada will be offered at prices considerably less than we could afford in the regular way of buying and selling. How much less we leave you to judge when you see the furniture and our February prices.

As an annual event this February Furniture Sale has earned a country-wide reputation, and hundreds—yes, thousands—of home-owners in Toronto and all over Canada look forward to it with eager interest, because of its substantial money-saving possibilities—which this year are more pronounced than ever.

For this sale we have already gathered twenty-five carloads of brand new furniture, selected from the best factories within our reach and representing absolutely worthy kinds—dependable materials, honestly put together and carefully finished in the newest and most approved styles and designs. Fresh supplies will be added from time to time to keep assortments complete and prices at the lowest point.

Monday is the Opening Day of this February Furniture Sale. All the furniture bought for this sale will bear a green price-tag, which makes it easy for you to compare February prices with regular values. Intending buyers will find it to their advantage to come early and make choices while assortments are complete and at their best.

February Silverware and Woodenware

Silverware and Woodenware will share honors with furniture in having special sales during February. Reliable makes will be offered by them at greatly reduced prices. For instance, on Monday, the first day, they contribute these worthy specialties:

- Silverware**
 - BAKING OR PUDDING DISH; silver-plated; satin finish; embossed trimmings; fancy handles; porcelain finished inner dish; regular \$5.00; our sale, Monday, 3.19
 - BISCUIT JAR; fancy glass jar, with silver-plated cover; with fancy embossed knob; reg. \$1.00; on sale Monday, at68
 - BUTTER DISH; satin engraved finish; roccoco border; fancy feet; separate drainer; a \$2.50 dish; Monday, for 1.39
- Woodenware**
 - 250 WOODEN WASH TUBS; three-hoop; regular price 70c each; Monday, 39
 - 300 FIVE-FOOT STEP LADDERS; fitted with racks for pail; regular price 50c each; Monday, 25
 - 1000 GOOD CORN BROOMS; with four rows of stitching; this line, with a plain handle, sells at 25c, but, on Monday, we'll give you the broom, with colored handle and screw-eye in top, for hanging, at 20

Our Silverware and Woodenware plans for February will be more fully outlined in Monday's paper. It will make profitable reading. Don't miss it.

THE TORONTO DAILY STAR WILL HAVE A MORE COMPLETE LIST

THE T. EATON CO. LIMITED

190 YONGE ST., TORONTO

by which the busiest street crossings in the city would be cleaned when a thaw has rendered them unfit for pedestrians.

It seems strange that coal, which is cheap in Buffalo, N.Y., should be worth its weight in gold when it crosses the frontier.

Now that a doubt has been raised as to whether Romulus founded Rome, it is up to the Oldest Inhabitant to state his recollections.

One of the clearest and best accounts of the Alaskan boundary dispute that we have seen was given by The London Free Press on Thursday.

The recklessness of the cable corporation in its charge of the graduates of the University of the South, surely the authorities will retrace their steps in this matter and so enable us to give the University the support which we would like to give it but cannot in the face of such a compromising situation.

Hon. J. Israel Tarte proposes to conspire with the weather to make the summer session of the Dominion parliament exceedingly hot for some people he knows.

The Scotch curlers have received a few intimations that if they use the ice on Sunday in this world they will run up against a rare line of ice famine in the next.

It is joyfully announced that the majority of the Ross government is increased from five to seven, thru the conversion of Mr. Gurney, member for Manitoulin. Mr. Gurney is now described by The Globe as a man of force. He was elected as an independent Conservative, it is said, but for the last few days he has been giving the Premier of much anxiety by speaking in support of the government. He is not ungenerous in these cases. The extension of the glad hand to the convert is one of the most pleasing features of political life, let shallow cynics say what they will.

GREEK LETTER SOCIETIES.

Editor World: It is with no little surprise that I have become aware of the strange relations into which the University authorities have entered with the Greek Letter Societies. In my day the authorities did not view these societies with any favor. I for

one have never felt it wise to take any particular action against them, but why should the authorities go out of their way to help them with land and money when the matter is so simple to deal with for other purposes? Especially improper is this course when the members of the society, as is well known, are in the main, mostly of the wealthier class. The letters on the face of the matter and so enable us to give the University the support which we would like to give it but cannot in the face of such a compromising situation.

It is a curious and somewhat amusing circumstance that the responsibility for the calamity will assuredly be placed "higher up."

In any event, it is little short of criminal to run a train at a speed of nine miles a minute with only one man in the cab, and not even the fireman in the room with him. Suppose the engine driver is taken ill or drops dead at the throttle? Even when he seems in normal health are the lives of hundreds of persons to be risked on the condition of this one man's liver or of his sight or his nodding for a moment?

The causes of this catastrophe should be relentlessly probed and brought to light. What is already known proves that the unfortunate engine driver alone was not responsible, and that a reform of methods on the railway is imperative.

Much Municipal Gold Sold.

The Town Treasurer did a hot job of business this morning, and sold thru the wicket of the town hall some \$40,000 worth of gold. All was sold before 2 o'clock, and after that hour many persons called at the office for more. Mr. Bond expects the next two carloads to contain nut and stove coal.

Would You Think It?

Would you think it possible that you could be disappointed in the face of a woman whose shapely shoulders, and beautiful hair suggest womanly perfection and beauty? Such disappointment comes not seldom when the face turned to you shows disfigurements of blotches and blemishes. In general the cause of these eruptions is impure blood.

Dr. Pierce's Golden Medical Discovery purifies the blood, and removes the corrupt accumulations which cause skin diseases.

The blood is cleansed, pimples, tetter, self-rheum, boils, sores, and other results of impure blood, are perfectly and permanently cured.

REV. DR. MILLIGAN AND THE CURLEERS.

Editor World: If a canvasser of Toronto citizens were made instead of confining it to local curiers, you would, I feel thoroughly convinced, find a large number endorsing Rev. Dr. Milligan's comments about the curiers' junk to Niagara Falls. I am sure that there might have been a sort of an excuse had it been the last Sunday before the millennium, but the signs of the times are not just pointing that way at present. But of course a person can always find an excuse, however ridiculous that excuse may be, for wronging himself. I remember the Sabbath Day to keep it holy, and I content that we are certainly disobeying the commandment of God by using Sunday as a day for pleasure excursions. When I was in Scotland people thought they were quite justified, the Sunday that the Lord's supper was celebrated during the week, and that the refreshments such as whiskey, etc. and port so that a person can almost make

himself believe anything, especially when it suits his taste. If some of the Scotch ministers were as original and brilliant as Rev. Dr. Milligan and could preach their sermons like that and divide instead of reading a rignarole off a paper and almost sending a person to sleep, they would get better acquainted as to how to behave themselves on the Lord's Day, as the water keeps running over the Horse Shoe Falls just the same the other six days of the week. W. Anderson McNeill.

THE McLENNAN PAINT CO.

Attention is directed to the prospectus of the "McLennan Paint Company, Limited," of Buffalo, N.Y., which appears in another column. This company, which is incorporated under the laws of Canada, has a capital of \$500,000. They offer for sale \$50,000 of 5 per cent. preferred treasury stock at par, on which dividends are paid quarterly. The terms of payment are 20 per cent. on subscription, 30 per cent. in sixty days, and the balance in ninety days. The McLennan Paint Company in Buffalo has one of the most extensive plants of its kind in the world, occupying 300,000 square feet of floor space. The company was organized in 1892 by Mr. C. J. McLennan and has had a most successful business career. A very large amount of goods manufactured by this company are already sold in this country. Their object in building a branch in Canada is to not only save the duty on also to largely increase the number of their Canadian customers.

POSITIVELY THE FIRST.

Editor World: The cartoon in this morning's World, anent the robin, induces me to lay claim to having seen the first robin for 1903, on Jan. 28. He was perched as large as life on a tree on Downing-avenue, drawn by me, doubtless, by the false pretences of the last few mild days, but where can "poor robin" be to-day? He'll be the first, I'll be the first. To keep himself warm. And put his head under his wing. Poor thing! Jan. 30. Parkdale Resident.

IN HIS OWN DEFENCE.

Editor World: In the Police Court proceedings of yesterday I was charged with committing an assault on and robbing Charles Egan, Henry Nutley was found guilty of the offence and sent to prison for three years. I wish to assure my friends that I had nothing to do with this affair. I was in Weston at the time the assault and robbery took place, and had a dozen witnesses in court to prove this, but the magistrate dismissed the charge after hearing the evidence offered by Egan and his witnesses, holding that there was not the slightest evidence given to connect me with the offence. Even the I was proven entirely innocent of the charge on the evidence of the complainant, a gross injustice was done to me by bringing me into court to face a serious charge, as some may think I must have been in some way connected therewith or I would not be called upon to prove my innocence. I had nothing whatever to do with Egan or Nutley at any time, and I was never before accused of wrongdoing. I have always endeavored to conduct myself properly, and never associated with persons likely to be guilty of such an offence as that of which I was unjustly accused and proved to be innocent. Daniel Ryan.

RAILWAY RESPONSIBILITY.

New York Herald. In the New York Central tunnel disaster there was an attempt to place the sole responsibility upon the luckless engine driver of the colliding train.

Investigation, however, revealed where the chief responsibility lay, and the railway company—corporations are said to have no souls, only pockets—is being made to feel it.

The Central of New Jersey officials lay the blame for the awful accident on Westfield upon the dead driver of the engine on that fatal train. From the statements printed it is clear that the company cannot thus make a scapegoat of the unfortunate engine driver.

It is plain that the engine driver who takes long chances and contrives to make time is the one who is given credit for these "flyers." He is a gallant fellow until the almost inevitable catastrophe occurs, and then—he is the criminal. If the story should be confirmed that Davis' engine was defective and that the attention that should have been devoted to signals was thereby diverted, the responsibility for the calamity will assuredly be placed "higher up."

WANTS CLEAN STREETS.

Editor World: You have a good, live and up-to-date paper, and I would like to ask you what you think of the idea of this naturally beautiful city as a good kick for the improvement of this fair city. It is told to shut up, and the result is, in this more than in any other city, a great deal of dirt and slush at the corner of York and Front streets. The corner of Front and Yonge was equally as bad, at King and Bay worse, at King and York dreadful. Just imagine these men and women having to ride miles in the streets cars with wet feet, and the result is, in this more than in any other city, a great deal of dirt and slush at the corner of York and Front streets. The corner of Front and Yonge was equally as bad, at King and Bay worse, at King and York dreadful. Just imagine these men and women having to ride miles in the streets cars with wet feet, and the result is, in this more than in any other city, a great deal of dirt and slush at the corner of York and Front streets.

DOAN'S KIDNEY PILLS CURE

Are Not a Cure-all But a Pill for the Kidneys Only.

They go straight to work at the right spot and set the kidneys working properly, stimulate their action, and enable them to carry off the impurities which would otherwise circulate through the system, brooding disease.

Miss B. M. Crocker, Seal Harbor, N.S., tells how she was cured. I had all the symptoms of kidney disease—my back was lame some days I could hardly walk, my urine was scanty and highly colored. After taking only two boxes of Doan's Kidney Pills I can recommend them to anyone suffering from kidney trouble. They are the best pills I ever took.

Price 50c. per box or 3 for \$1.25. All Dealers or The Doan Kidney Pill Co., Toronto, Ont.

SMOTHER A COUGH.

You can smother a cough with your hand but you can't cure it that way. Some medicines only smother coughs.

Scott's Emulsion cures them. Old coughs and deep-rooted coughs can't be cured until the inflammation which causes them has been replaced by healthy tissue.

That is exactly the kind of thorough work Scott's Emulsion does. It changes the entire nature of the throat and lungs so that there is nothing to cough about.

Send for Free Sample. SCOTT & BOWNE, Chemists, Toronto.

"SOLID AS THE CONTINENT"

If you think you cannot afford to insure your life, have you thought how your family can afford to do without you?

A five per cent. Debenture Endowment policy in the NORTH AMERICAN

makes a most desirable investment for a family man. It guarantees, after insured's death, an annual income to the beneficiary for twenty years of 8% on amount of debenture. In addition, at end of twenty years, the full face value of the debenture is payable in gold, or, should insured live, the debenture would become his property in 15 or 20 years.

Rate at your age sent upon request.

STOCKS AND THEIR WEEKLY SPELL

On Wall Street, Due This Time to a Reported Strike on Union Pacific Railway.

GENERAL ELECTRIC THE FEATURE

In Local Stocks—C.P.R. and Others Easter-Market Quotations and Gossip.

World Office, Friday Evening, Jan. 30. Buying in General Electric was the only feature of the local market today. The price of this stock opened 1/2 a point higher than yesterday, and running orders carried the figures up another 1/2 a point, from which it receded to 3/8 or 1/2 from the high mark. Opinions seem to be generally favorable to the stock and prospective business, and some further improvement in price would not cause surprise. It was firm early in the day, but New York called the turn, and the price fell off a full point, closing at 107 1/2. The stock was sold yesterday, but closing sales were made at a loss from yesterday, although the price was 1/2 for the dividend. Sao Paulo took an easy turn on the afternoon session and dropped to 17, a loss of 1 point from early in the week. Coal was steady to-day at 138, and steel weakened somewhat, but not to 54 1/2. Northern Navigation was firm at 128, and N. S. Steel steady with 108 1/2. Bank stocks were steady to-day, somewhat less demand to-day.

Business was in very small volume at Montreal today, and prices were ranging from 129 1/2 to 130 1/2. The market was quiet, and the price of this stock opened 1/2 a point higher than yesterday, and running orders carried the figures up another 1/2 a point, from which it receded to 3/8 or 1/2 from the high mark. Opinions seem to be generally favorable to the stock and prospective business, and some further improvement in price would not cause surprise. It was firm early in the day, but New York called the turn, and the price fell off a full point, closing at 107 1/2. The stock was sold yesterday, but closing sales were made at a loss from yesterday, although the price was 1/2 for the dividend. Sao Paulo took an easy turn on the afternoon session and dropped to 17, a loss of 1 point from early in the week. Coal was steady to-day at 138, and steel weakened somewhat, but not to 54 1/2. Northern Navigation was firm at 128, and N. S. Steel steady with 108 1/2. Bank stocks were steady to-day, somewhat less demand to-day.

Atchison earned 8.1 per cent. on common in 1932. Strong profit operating in Amalgamated. President Stickers' views on negotiations are pending for transfer of control of C. G. W.

Probable dividend this year will be 100 per cent. of 1932. President Stickers' views on negotiations are pending for transfer of control of C. G. W.

Principal movements of currency this week indicate that banks signed thereby \$6,783,500. A Philadelphia dispatch says: A prominent and usually reliable source in Philadelphia, Southern Railway and Frisco. There is a triple alliance here.

McIntyre & Marshall: We know of nothing special to account for the present weakness of Metropolitan, but its stock is being sold in large quantities. The stock is now within one point from the low price reached in 1932.

Proposed expenditure of some \$300,000 on Central Pacific division of Southern Pacific, coupled with expenditure for betterments on S.P. property which have been undertaken, will apparently preclude payment of dividends on Southern Pacific stock for some time.

The selling of the Metropolitan stock has attracted considerable attention. A good authority says that it is a selling movement to dilute stock in the hands of the public. Another installment of 50 cents will be required on March 15, 1933, and it is at that time that the Metropolitan Street Railway stocks—Head & Co.

Believe Manhattan cheap at present prices, and should sell at 100. There is anything especially new in this stock is strongly held, and, as it is a cent. guaranteed stock is worth 150, while the fact that it will be a 7 per cent. guaranteed stock will be much attracted at the 100. It is worth 150 later on—Head & Co.

Joseph says: The market will be firm, Average Longs, Readings, Atchison moderate dip, but not to 100. The material decline. Good judges of values say that the general 4 1/2 per cent. yield is a good one. There should be 5 1/2 in each of these Erie bonds. There is a very strong market here, but Washington says: "An important upward movement in coming. The market is going higher. It sells dividend to-day."

New York News: There is little doubt in the opinion of some of the best informed men in the stock market that the common stock, if the management wishes, can show a 2 per cent. profit on its common stock. The controlled coal properties of the Erie are a large asset. In the period, the total surplus for the fiscal year may reach 6 per cent. on the common stock.

Pig iron production during 1932 in United States was 10,000,000 tons, as compared with 10,000,000 in 1931 and 10,000,000 in 1930. Imports of pig iron in 1932 were 1,000,000 tons, as compared with 1,000,000 in 1931 and 1,000,000 in 1930. Exports of pig iron in 1932 were 1,000,000 tons, as compared with 1,000,000 in 1931 and 1,000,000 in 1930.

Amelius Jarvis & Co. In their weekly letter, say: A feature of interest in the market is the call for the first time of five million, and taking the market price of the stock, this is the first time that the company has called for its capital. On the other hand, the American company, we are informed, has a surplus of \$5,000,000. Their stock has been selling on the curb at \$6 per share, giving a 20 per cent. profit on the call. The call is being made at a time when the market is very active, and the price of the stock is high. The call is being made at a time when the market is very active, and the price of the stock is high.

The shareholders of the Bank of Ottawa will be entitled to their proportion of the dividend on the 31st day of January. The dividend is being paid in cash. The shareholders of the Bank of Ottawa will be entitled to their proportion of the dividend on the 31st day of January. The dividend is being paid in cash. The shareholders of the Bank of Ottawa will be entitled to their proportion of the dividend on the 31st day of January. The dividend is being paid in cash.

An Overwhelming Demand for the Stock of the Eastern Consolidated Co.

The safest, best and most profitable oil investment on the market has resulted in an advance in price. The 400,000 share allotment was over-subscribed several thousand shares. ONLY A LIMITED AMOUNT OF STOCK IS NOW PLACED IN THE ALLOTMENT OFFERED AT \$1 A SHARE. The new oil refinery on the Kern River property means many thousands of dollars profit annually to the stockholders. This is the company that has already paid 27% on the investment in 13 months in dividends to its stockholders. The next advance is to \$2.00 a share, and it will come quick!

Advancing Steadily

EVERY day there comes news of large advances in the price of furs—furs of all descriptions. That is the reason we are urging you to buy today and before it is too late.

ALASKA SEAL JACKETS

Made of the best selected fur from Alaskan seals, finished by the best fur artists in our own workrooms... \$125 to \$250

PERSIAN LAMB JACKETS

Some splendid Persian Lamb Jackets, in plain designs, lined throughout with splendid satins... \$85

If you want a coat, even for next season, this is the time to buy it. You'll save 50 per cent.

The W. & D. Dineen Co., Limited Cor. Yonge and Temperance Sts.

JUDGE McDUGALL'S FUNERAL

Representatives of Numerous Public Bodies Will Be Present.

The funeral of the late Judge McDougall will take place this afternoon at 2:30 from the family residence, 121 Carlton-street, to Mount Pleasant Cemetery.

It will be attended by representatives of the judiciary and bar of Ontario, the Mayor and City Council, city and county officials, and other representative bodies.

The order of the procession will be as follows: A detachment of 250 policemen, Rev. Armstrong Black and assisting clergymen, twelve honorary pallbearers, the members of the family, judges in seniority, members of the Law Society, Board of Governors of Grace Hospital, Mayor and City Council, county officials, city officials, Public Library Board, Public School Board, a general public.

The casket will be borne from the house to the hearse by eight policemen who will walk beside the hearse to the cemetery as an escort.

W. H. Stone of 243 Yonge-street will have charge of the funeral.

The City Council will meet at 2 o'clock to pass a resolution of condolence and will proceed in a body to the home.

The late Judge McDougall was chairman of the Board of Governors of Grace Hospital. He it was who suggested the name for the hospital, which had always been a source of pride to him. The board will attend the funeral in a body today.

ORANGEMEN AT SUPPER

Success Attends 49th Annual Affair of Victoria Lodge.

The forty-ninth annual supper of Victoria Lodge, No. 558, L.O.L., was held last night in Victoria Hall, about 200 sat down to the tables.

The hall itself was prettily decorated, with the banners of the lodge standing out prominently. William Flannick, W.M., presided, and among those present were John McMillan, Grand Master Ontario West, F. T. Essery, London, Deputy G. M., Ontario West; C. H. Niles, D. M.; Alexander Harris, P.D.M.; Thomas Cooke, P.D.M.; Mayor Urquhart, ex-Mayor Howland, and Past Masters Benjamin Kirk, George Harris, William Noble and J. F. Scholes. Lists of names of those who were unable to attend owing to illness; Duncan Munro, G.M. Ontario East; D. M. German, P.G.M. Ontario West; W. J. Parkhill, P.M.B.A.; Harry Lovelock, C.M., and J. H. Pritchard, D.C.M. The toasts honored were: "The King and the Charter," "Grand Lodges of British America," "County and District Lodges," "Mayor and Corporation," "Canada, Our Home," "Sister Lodges," "The Press," "The Ladies," Messrs. Bert Harvey, Day, Long, Duffell brothers and Alexander Mackie assisted in the program.

INSURANCE FOR BELGIANS

Government Plans to Relieve Poor Workmen Injured.

London, Jan. 30.—The Brussels correspondent of The Times says the Workmen's Accident bill now before the chamber of Representatives is a government measure, democratic in character. It applies to all commercial and industrial enterprises employing machine motive power, and includes all workmen receiving wages to a maximum of \$450 annually. Every accident, no matter how slight, including culpable negligence, is within the scope of the bill.

The amount of indemnity is fixed at 50 per cent. of the actual loss of wage-earning capacity caused by the accident. In case of death the indemnity is an annuity in favor of the direct heirs and an equal quarter of the victim's wage-earning capacity during the term of expectation of life.

SCORE'S

It Pays Us to Give Satisfaction

Fresh lines of Scotch Tweed and English Worsteds Suiting received—splendid values—tailored in smartest styles—from \$22.50 to \$32.00.

R. SCORE & SON, Tailors and Haberdashers, 77 King Street West.

N.B.—Store closes on Saturdays at one o'clock during January and February.

WORK COUNTY AND SUBURBS

Council Objected to an Inspection in Private Car of the Metropolitan Railway.

AFRAID TO BE SEEN IN THE SPECIAL

Two Weston Children Locked in a Trunk and Narrowly Escape Death.

The members of the York County Council took a trip over the Metropolitan Railway to Newmarket yesterday afternoon, but not without a good deal of unfavorable comment and dissent.

Mr. Woodcock said that the invitation had been accepted, and the warden invited officials and friends to accompany him on the trip.

Even this did not prevent Councillors Lundy and Kirby from continuing their opposition to the journey. Mr. Lundy said he would not be seen in a private car of the Metropolitan Railway, and that if he saw any of the new cars there, and if a new car was not there, there was no object in taking the trip.

Snow on Car Tracks.

The question of removing snow from the railway tracks was brought up by the possibility of a lawsuit against the county for injuries sustained in collisions with the street car due to the impassable condition of Yonge-street.

When the municipalities were asked to remove the snow from the tracks, they refused to do so, and the county was obliged to pass a by-law requiring the municipalities to do so.

Mr. Hill said that there was no use having a clause in the act giving the county power to clear away snow unless there was a by-law from the municipalities.

He thought it was an undecided question whether the county was responsible for keeping the roads passable when the municipalities were asked to do so.

The law was plain, and that the township was obliged to maintain the roads in a passable condition, whether the by-law was passed or not.

Where Town Lost Money.

The Solicitor General Morgan's decision interpreting the School Act in the matter of Toronto Junction and the county of York, which was rendered on the 26th inst., has been found by the act to be entirely correct.

The result of the decision is that the county is entitled to the interest on the money which it advanced to the township for the purchase of the land.

The township is not entitled to the interest on the money which it advanced to the county for the purchase of the land.

The county is not entitled to the interest on the money which it advanced to the township for the purchase of the land.

Store Closes To-Day at 5.30 P.M.

The Furniture Event of 1903

Our Annual Sale Commences Monday.

Carloads of new furniture, underbought and underpriced, for this great February occasion. Never in the history of this store were such preparations made for a month of economical household opportunity.

Our annual February Sale of furniture is looked forward to with expectation every year, but this time we fully believe that realization will far surpass all expectation.

Several points must first be noted, however, before the fullest significance of this year's sale becomes apparent.

1st—The whole tendency of furniture prices is higher, labor is higher, varnish and hardware are higher—lumber is higher.

2nd—Our furniture was principally bought or arranged for last season when old prices ruled. We sell on the old basis during February—discounting our old prices for the sale—but after that we will have to follow the manufacturer's present scale.

Look at this list with more than ordinary care. Every saving means much more than the actual figures, because next month values will have increased all along the line. Monday we begin:

LADIES' BEDROOM ROCKING CHAIR, hardwood, golden oak finish, shaped wood seats, regular price \$11, February Sale price \$8.30

LADIES' PARLOR ROCKING CHAIRS, in quarter-cut golden oak and birch, mahogany finish, polished, saddle-shaped wood seats, regular price \$3.90, February Sale price \$2.37

PARLOR ROCKING CHAIRS, in solid oak, golden finish, polished, large size, with arms upholstered, fancy-turned legs, brass claw feet, \$5.50, February Sale price \$3.39

MORRIS RECLINING, EASY CHAIRS, in solid oak or mahogany finished frames, denim upholstered, reversible cushions, regular price \$5, February Sale price \$3.87

PARLOR TABLES, in solid oak, 24x24-inch tops, polished, fancy-turned legs, brass claw feet, regular price \$2.25, February Sale price \$1.87

PARLOR TABLES, in solid, quarter-cut oak and birch, mahogany finish, fancy shaped tops, shaped legs, with self, regular price \$3.50, February Sale price \$2.78

HALL SEATS, in solid quarter-cut oak, golden finish, carved backs, with arms, regular price \$5.50, February Sale price \$4.45

HALL SEATS, in solid quarter-cut oak, golden finish, panel ends, box seat, with lid, regular price \$9.50, February Sale price \$7.75

HALL RACKS, in solid quarter-cut oak, polished, box seats, with lid, bevel-plate mirror, 4 double brass hat and coat hooks, regular price \$9.50, February Sale price \$7.90

IRON AND BRASS BEDSTEADS, white enamel finish, 1-inch post pillars, brass caps and knobs, fancy, child's size, 3 feet, 3 feet 6 inches and 4 feet 6 inches wide, regular price \$3.50, February Sale price \$2.97

BEDROOM SUITES, hardwood, golden oak finish, bureau with 3 drawers, 36 inches wide top, bevel-plate mirror, large washstand, bedstead 4 feet 2 inches wide, regular price \$14, February Sale price \$10.90

\$4.50 Trousers, \$1.98. Boys' \$5.00 Suits, \$3.49

Two items from the Clothing Section for Monday. An extra pair of trousers should strike a man as a reasonable saving. And a new suit is always timely, in the case of a boy.

154 pairs Men's Fine Trousers, consisting of English worsteds and a few Scotch tweeds, medium light and dark shades of grey and black, narrow and fine halftone stripes, made with side and hip pockets, well tailored and finished, and cut medium width, sizes 31—39, reg. \$3, \$3.50, \$4 and \$4.50, on sale Monday, reg. 1.98

49 only Boys' Fine Canadian and English Tweed Three-Piece Suits; also a few navy blue serge. The tweeds are black and brown checks, and double-breasted style, finished with good farmers' satin linings and trimmings, in sizes 27 to 35, reg. \$4, \$4.50, \$5 and \$5.50, on sale Monday, reg. 3.49

Men's Half-Dollar Socks, 25c.

The Monday item for men in the Hosiery Sale, which is now one of the store's principal features of activity. For sale in the Men's Store:

Men's Finest Hermsdorf Black Lace Lisle Three- and Two-Hole Ribbed, Double Sole, toe and heel, regular 50c, Hosiery Sale, Monday, day, per pair 25

12,000 Rogers' Silver Plated Spoons, 10c.

Our success with the celebrated W. A. Rogers' silver-plated spoons and forks has been the envy of all manufacturers and dealers. We have obtained for these guaranteed spoons and forks, bearing W. A. Rogers' name and Home made a new price this quality of response was INSTANTLY RETAILERS AT THE MANUFACTURER'S LIST PRICE, \$1.75 PER DOZEN—other sizes in proportion. The manufacturer wants to get a sample of these spoons into as many hands as possible, and he has bought a thousand dozen, to be distributed at the special price of ten cents each. Any one who will continue to buy W. A. Rogers' spoons is the one who is getting the best value for his money. We have all the other sizes in spoons and forks to match, as well as Emery Table plates. While we sell only one dozen to each customer, anyone who prefers to buy only a sample spoon first, may order immediately after the rest of the dozen or half dozen at same rate for ten cents each. Here is the maker's guarantee, which we fully endorse, and will make good. Money back if not satisfied.

12,000 W. A. Rogers' Tea Spoons, 11 plate full size and weight. Monday, per dozen, \$1.20 or each 10c

Out-of-Town customers please add for postage for one dozen, 12c; for sample spoon, one cent.

GUARANTEE the base of these goods stamped with my name and trade-mark to be 21% Nickel Silver, the plating, full standard weight of pure Silver.

W. A. ROGERS, New York.
