SOME GIVE UP COMMANDS IN FACE OF ORDERS

Field Marshal French in Dublin--Colonel Seely and Winston Churchill in Conference--King George Keeping in Close Touch With Situation

London, March 21.—An official communication issued this afternoon says:—The recent movements of troops in Ulster are purely precautionary with the object of giving adequate protection to depots of arms and ammunition and other government property against possible risks.

There has not been and is not any intention to move troops into Ulster except for these and like purposes. The outstanding feature of the news from Ireland today is disaffection among the officers of the regular army under orders to proceed to Ulster with their regiments. The actual number of resignations is still phenomenal, but that it is considerable was evident from the midnight consultations of cabinet ministers regarding the best means of counteracting the movement.

In some quarters it is believed that the sudden marching of a limited number of troops was ordered so that the authorities might gather an idea as to how widespread was the threatened disaffection.

Reported Mutiny. A mutiny of two companies of the Dorsetshire regiment stationed in Belfast is reported by the Pall Mall Gazette. According to the Pall Mall Gazette's message, when the men of the First Battalion of the Dorsetshire regiment were marching in Belfast today, and notified that they were being transferred elsewhere they threw down their arms.

The greatest danger is disaffection among the officers, and said:—"We will have no home rule here." This is thought in some quarters to be an exaggerated version of the reports of unrest among the regular troops in Ulster.

Parade Abandoned. Londonderry, March 21.—The National Volunteers have abandoned the parade announced for Sunday. They did this on the advice of John Redmond.

War Office Activity. London, March 21.—The military activity prevails at the War Office and in the other departments of the government affected by the apparently grave situation in Ulster. All the secretaries of state cancelled their usual week end trips to the country.

Mr. John Seely secretary of state for war, and Winston Spencer Churchill, secretary of the admiralty, conferred at the War Office this morning. After the conference, a statement was issued containing a report of the resignation of "one army officer serving in Ireland, and stating that these cases will be dealt with in due and normal course by general Sir Arthur Paget, the command-in-chief in Ireland.

Tumors also were in circulation today among other officers of the army, serving south of Ireland, who will resign their commissions if ordered to Ulster.

THE NEW SHERIFF. Amos A. Wilson will probably be sworn in as high sheriff of St. John this morning. Mr. Beattie was sworn in last week. His commission expires this week. His resignation was given the first portion of guaranteed bond.

MR. MAREED IS QUOTED. Stirling Speech of Late Provincial Secretary Placed Before Government With a Query as to What is to Be Done About This Whole Business.

I. O. BEATTEY DEAD. Had For Long Time Been Under Attack in Caravan.

Paris, March 21.—Madame Callaux the assassin of Gaston Calmette, today has broken an agreement made after the trial. Her friends and acquaintance having partly recovered from their shock at the execution of the woman, they are now showing their interest in her fate, and hundreds have written to her or left cards at the gate of Saint Lazare prison, where she is in custody.

THE STEAMERS. R. M. S. P. L. Carquet left Bermuda this morning for St. John. Several St. John people are among the passengers.

LOOKING INTO MATTER OF THAT BILL FOR A FOURTH ASSESSOR. A committee of five members of the Fairview Board of Trade is meeting this afternoon and the Patriotic Board of Trade at a meeting last evening adopted a resolution strongly against the extra assessment.

DISFIGURES BEAUTIFUL WIFE FOR LIFE; THEN PUTS END TO HIS OWN LIFE. Chicago, Ill., March 21.—Mrs. Mary Karant, a nurse noted for her beauty, was disfigured last night by acid which her husband, Walter Karant, a jeweler, dashed into her face when she refused to return to him. Karant was found dead in a street car a few minutes later, a victim of the acid.

HERE IS MR. CASTRO. Former Dictator of Venezuela Found in Port of Spain. Port of Spain, Trinidad, March 21.—The smaller section which went adrift will be placed at the head of the slip between the two new wharves at a bulkhead to sustain the weight of the filling material in that place.

REBEL LEADER BOASTFUL. Says Place "Will Be Mine Within a Week"—Most Important Battle Since His Rise Against Rule of Huerta is About to Be Begun.

Constitutionalist Headquarters Yermo, Durango, Mexico, March 21.—General Pancho Villa, with his 12,000 rebel soldiers, today was prepared to put the first shell into the trenches of the retreating Federal army under General Herfugio Valencia at Cuernavaca. This is considered the most important battle of the revolution. Full confidence General Villa has transmitted his energy to his subordinates and the camp at Yermo presented a scene which never before marked a revolutionary movement in Mexico. The poor soldiers hurried here and there, giving final touches to the establishment of the relief plans for opening the assault.

Refreshed by a night's sleep after their long hard march, through the desert from Nampim and Bernajillo, Villa's khaki clad soldiers sprang to their work with zest. The beginning of the day saw the rebel army stationed on the outskirts of the Federal stronghold, a position they had gained without resistance, and with scarcely the sound of a shot to check their preparations for an assault. Within an hour the rebel camp knew what preparations General Valencia was making to repel the attack of the revolutionists.

PINDER RAILWAY INQUIRY SUBJECT

Awkward Questions For Answer in Local Legislature

(Special to Times) Moncton, March 21.—Some weeks ago two brothers, Arthur and Truman Nickerson came to the hospital here. The bodies have been taken to Havelock, where a double funeral is being held today. Mrs. Roy Byron, of St. John, is investigating a fire which occurred last night in a vacant house in Wesley street, and believed to have been set.

LAWRENCE BUILDING SOLD. Important King Street Real Estate Deal—More Active Movement in Property; Many Places Change Owners.

Walter H. Bell, proprietor of the St. John Creamery has purchased from the Lawrence estate the four story building in King street at present occupied by Bond's restaurant. The building in which Mr. Bell is located at present, which adjoins his premises, has been sold to H. Mont Jones and Mr. Bell was forced to prepare for the change which will come at the expiration of six years hence. Mr. Bell plans to add a fountain and fruit business and other lines to the dairy business.

NOT SOLD AT LAST BUT AT TIMES THERE WERE PROSPECTS OF ROW. Harbor fishery set No. 8187 Navy steamer building lot at Bonaventure close to beach, 91 by 300—sold for Edward A. Lawrence and Richard L. Carro to Dr. L. Noble.

EVIDENCE GIVEN IN C.P.R. WEST END CASE. The preliminary examination was begun this morning before Magistrate Ritchie in the case of the King vs. James A. Harris, charged with stealing pocket knives and a watch from the C. P. R. Sand Point. The goods taken were the property of the C. P. R., and the defendant has been in their employ as a constable. The prisoner yesterday afternoon pleaded not guilty.

ON A TOUR OF WORLD; TEN YEARS GONE SINCE THEY LEFT THEIR HOME. Brantford, Ont., March 21.—Mr. and Mrs. Hubert E. A. Hazare of Vienna, Austria, who started on January 1, 1904 on a wager of 25,000 crowns for a tour of the world, arrived in Brantford this morning. They started on bicycles to cover the most important parts of each country of the world, making a tour of 740,000 miles.

SENATOR CLARKE'S CLOSE CALL. New York, March 21.—A derrick and 14 ton girder at the new building of the Equitable Life Assurance Society, at Broadway and Cedar streets, New York, fell yesterday. One man was killed. Senator Clarke had a narrow escape.

EGGS CHEAPER. Housekeepers visiting the country market this morning were made happy by the news that eggs were lower, yes, and not only that, but that they were probably drop further. Prices for "strictly fresh" this morning were generally about thirty cents, though some country people sold at twenty-eight. There was quite an abundance of eggs and they sold readily. The indications are that they will be considerably cheaper before Easter. Eggs on P. E. Island are rated at twenty-four and twenty-six cents.

DEATH IN NORTH END. The death of Mrs. Charles McLaughlin occurred this morning at the residence of her sister, Mrs. Wm. Codner, 163 Bridge street. She formerly resided at Pleasant Point, and many friends there as well as about the city will regret to learn of her death. Although she had been in failing health for about four months, her illness was not regarded as serious until the last week. Mrs. McLaughlin is survived by three sisters, Miss Adella Staples, Mrs. Albert Osborne, of Lancaster, and Mrs. Wm. Codner. Two brothers also survive—E. Staples, of Orson, Me., and U. G. Staples, of Victoria street. Mrs. McLaughlin was a daughter of the late Robert Staples. The funeral will be held on Monday afternoon at 2.30 o'clock.

NEW ARRIVALS. At the office of Registrar J. B. Jones this week eight births were recorded, four boys and four girls. There were three marriages. The Maritime Express was two hours late in reaching the city today. The Montreal was half an hour behind time.

READY FOR BIG TORREON BATTLE

Villa and 12,000 Men Prepared To Attack

Constitutionalist Headquarters Yermo, Durango, Mexico, March 21.—General Pancho Villa, with his 12,000 rebel soldiers, today was prepared to put the first shell into the trenches of the retreating Federal army under General Herfugio Valencia at Cuernavaca. This is considered the most important battle of the revolution. Full confidence General Villa has transmitted his energy to his subordinates and the camp at Yermo presented a scene which never before marked a revolutionary movement in Mexico. The poor soldiers hurried here and there, giving final touches to the establishment of the relief plans for opening the assault.

Refreshed by a night's sleep after their long hard march, through the desert from Nampim and Bernajillo, Villa's khaki clad soldiers sprang to their work with zest. The beginning of the day saw the rebel army stationed on the outskirts of the Federal stronghold, a position they had gained without resistance, and with scarcely the sound of a shot to check their preparations for an assault. Within an hour the rebel camp knew what preparations General Valencia was making to repel the attack of the revolutionists.

Speculation as to when the battle will begin was rife today among the soldiers and the civilians who had followed the rebel leader south from Chihuahua, but Villa answered all inquiries with the remark that "Torreon will be mine in a week."

Attack on Another American. Austin, Texas, March 21.—Reports of new disturbances along the Mexican border, including the alleged kidnapping of an American citizen by five Mexicans today, caused Governor O. B. Colquhoun to order the coast of Texas recruited with "men who can shoot."

Transfers of freehold properties in Kings County have been recorded as follows:—Large parcel, bounded by Hampton Street, lot 105 by 250—sold for James Dill Dunlop to Mrs. Annie Fitch.

Minister Tries to Get Back into Graces of the Laboring Man. Kingston, Ont., March 21.—Hon. T. W. Crothers, minister of labor, was the guest of the Canadian Club at the dinner last night, and he spoke on the labor question. He made a strong appeal to employers to pay workmen a fair wage which would be sufficient for them to provide for their families and have something for old age. The labor unrest, he said, was due to low wages and failure to recognize the fact that the workmen had a heart as well as a mind, and that he had emotions as well as muscles.

Many Willing to Come to Canada to Be His Bride. London, March 21.—At a meeting of the Eastbourne Board of Guardians the chairman announced that in response to a letter from a Canadian rancher, with an income of \$2,000 a year, and who wanted a wife, no fewer than 244 replies had been received from girls willing to go to Canada.

Weather Bulletin. Issued by authority of the Department of Marine and Fisheries, H. F. Stupart, director of meteorological services.

Synopsis.—The Atlantic coast storm is centred in Newfoundland and heavy gales prevail to the eastward of Nova Scotia. The weather continues cold throughout the dominion, with indications, however, of a change to milder in the western provinces.

May Be Little Warmer. Maritime.—Strong northwest winds, and cold Sunday, moderate winds, and a little higher temperature. Washington—New England forecasts: Fair tonight and probably Sunday, slowly rising temperatures; moderate westerly winds.

THE MISTAKE MERCHANT

Many curious trades and professions find mention in the London Directory, but therein is no mention of the "Mistake Merchant." A London Standard representative, however, has found a number of this queer trade. He is a Swiss with a speaking knowledge of most European languages, living and dead, and a vast fund of literary and general information accumulated in his world wanderings. Just now in his busiest season, for he is searching all the new 1914 reference books for errors, mostly in connection with any foreign data. The mistakes he neatly tabulates on a foolscap sheet and sends it to the

editor of the publication, leaving it entirely to him as to whether he is compensated for his trouble. Editorial generosity at any rate may be gauged by the fact that it provides the merchant with his general translation work, with a fairly satisfactory living throughout the year.

"I first began this job," he said "by pointing out to the publishers of a popular reference book a great many inaccuracies—in this case they took a fortnight to collate—and then I followed on with corrections, especially in the etymological section of a new dictionary. In each case I received remuneration for my trouble, and now I work for practically all the publishers of reference books."

Making More Dollars

Canada is "making" money. The Government has to print more dollars every year to meet the demands of business prosperity—but the dollar you make must have purchasing power if it adds to your health and comfort. For a Canadian dollar you can get one hundred

ROMANCE OF LORD AND LADY DARNLEY

He Won His Bride on the Cricket Field in Australia

(London Great House Weekly)
The genial giant who owns famous Cobham Park, an historic mansion in the heart of Kent, was born a younger son of the sixth Earl of Darnley. There was a matter of eight years between himself and his elder brother, and at the death of the sixth earl the Hon. Edward Henry Stuart Bligh succeeded to the title and estates. The seventh earl married a daughter of the Blackwood family, but within less than two years left a widow and a baby daughter, of whom he had little more news. When the Earl of Darnley became the happy father of twin boys, he had different colored ribbons tied about the arms of his lusty youngsters in order that he might distinguish one from the other, and he made a bet of £10,000 that the better of that one which had appeared twenty minutes later in the world than the first-born. The greater difference in the age between the elder Bligh boys relieved their father of any such problem as this, and matters were to follow pretty much the course usual in such cases. The younger son went in the ordinary way to Eton and Cambridge, where, although the family boasted a marquis, a viscount, and a baron, there was no title for him save the nominal profit due to an earl's son, "the Honorable." They still speak of his deeds in Australia as those of "the titled batsman," which is incorrect. He was not a titled batsman when they knew him. He had his own title in cricket, rackets, and tennis, but those were the distinctions bestowed by sportsmen, not any formal patent of nobility. He proved a veritable giant at play, as he was in physique.

At a Triumph at Cambridge
He himself vows that he gave too much attention to play and too little to study, but he is such a modest fellow, would have you believe that he let his Alma Mater an ignoramus, whereas, he is a really capital classical scholar. But it certainly was not either scholar or man of commerce that he attained to fame. He was incomparable as a batsman in cricket, and in the games named. At Eton he beat all comers in the competition Eton against the other public schools, and at Cambridge he for three years rendered the position of the rival university hopeless, triumphing with the greatest ease for that period over the dark blue representatives. Moreover, he played twice for Eton at cricket, and once a match of the year, while after going up to Cambridge, he appeared for four years in the inter-university matches, last year as captain. He was a splendid batsman and a glorious fielder, and with a reputation for skill and fast bowling, he was chosen in the 1882-3 season to take an English team to Australia.

Needless to say, his reputation had preceded him. They know more in Australia about our cricketers than we trouble to learn here, and the name of the handsome young English giant, son of an old and noble house, who was to skipper the side from the motherland, created much interest on the other side of the world.

It was a memorable year in cricket, for it saw the introduction to Englishmen of the "demon" Spofforth, who was to Australia howling and even more than Barnes is to the English bowlers of the present time. Either through inexperience or ill-luck Spofforth, in these early matches, was so unhappy as repeatedly to drag his foot across the cricket, and in his anxiety to get his cut up the pitch on which the Englishmen were batting, that it fell to the victor's certain to generate. Australians are so wildly keen on the game which the motherland has taught them, that their great national pastime, that they resent most bitterly any implied aspersion upon the method of their representatives, no matter how well based a complaint may be. Mr. Bligh's attitude, therefore, exposed him to considerable criticism among that section of Australian cricketers who whom "harracking" originated. But that popularity was not impaired he presently had reason to realize.

A Fair Lady's Help

In one of the great matches of the tour was completed temporarily to retire from the field with an injured hand. It was something and nothing, as we say, and yet how much trouble it cost that slight hurt! The damaged hand was bleeding as the big Englishman returned to the pavilion. Now, in the pavilion, watching the play with the keenest interest, was a beautiful Australian girl. She was Miss Florence Rose Morphy, daughter of what the Americans would call "Judge" Morphy, or, as we say, Mr. John Stephen Morphy, stipendiary magistrate, whose home was at Bechwood, Victoria. Here was one of Australia's fairest daughters watching the game with palpating interest, and hoping with all her heart that the son of her native land might triumph over the representatives of the Motherland. But when she saw the leader of the invading host stricken on the field, like a gracious dame in the lists of old, she seemed to succor the wounded knight, and, seeing that due medications and bandagings were not at once forthcoming, she sent forth her dainty handkerchief, that that might serve to staunch the bleeding.

Once when Darnley was sitting next at table to the future Queen Alexandra he cut his hand while carving a roll. The then princess, with grace, instantly bound up the injured finger with her own lace handkerchief. "Ah!" said the practised old courtier, with his famous dramatic groan, "I asked for bread and they gave me a stone; but I had a princess to bind up my wounds." The damaged cricketer said nothing so oracular. He quickly put matters right, declined to stain the lady's gift with blood, but himself walked forward, bare-headed, with grace and stately courtesy to return thanks for the charming little act of kindness. He was a goodly figure of a man, five feet two in his socks, with a Saxon mop of golden curls, and a face as honest, frank, and open as it was handsome. It is all nonsense to say there is no such thing as love at first sight, or that, if there be, nothing comes of it. He did fall in love at first sight, head over heels, as the saying goes, as being free and unfettered, he ought to have done.

His Heart was in Australia

Taken Literally

Once upon a time a very cool man called on his physician and asked him for medical advice.

"Take a tonic, and dismiss from your mind all that tends to worry you," said the physician.

"Several months afterward, the patient received a bill from the physician asking him to remit three guineas, and answered it thus—

"Dear Doctor—I have taken tonic and your advice. Your bill tends to worry me so I dismiss it from my mind."

Moral—Advice sometimes defeats the giver.

LOCAL NEWS

A piece of stone, weighing fourteen pounds, was hurled from a blast at the marine depot yesterday afternoon and struck the roof of the home of H. H. McLeod, 55 King street, West Side, more than 800 feet away. Fortunately the members of the family were not in the part of the house where the stone entered.

GAS RANGES

Why not decide on one this season? Just inspect our line, the "McClary" standard, either straight gas or combination, at our new showroom (next customs house). Some fine sale bargains left yet, too. McClary's. 8-22.

Special sale of men's pants tonight from 7 to 10—At Corbett's, 194 Union street.

CLIMO'S ANNIVERSARY

Don't forget—what? Why? Climo's photo anniversary. Starts today, the 21st, also 22nd and 24th, 88 worth of lovely photographs for 88. A five dollar bill kept in your pocket. Don't miss it. 88 German street.

Pointer Lodge of Oddfellows met last evening in their rooms, Charlotte street, and plans were outlined for the celebration of the anniversary of the order. On April 28 a musical and literary evening will be held and on the following evening degrees will be completed and a smoker given in the York theatre. On April 28 the members will attend divine service in St. Andrew's church.

Turkey supper at Bond's tonight 5-7. Also fresh lobsters.

GAS RANGES

McClary's standard ranges need no special introduction, nevertheless we will conduct a gas range demonstration next week at our new showroom, 221-223 Prince William street. A five dollar bill buying your range—it will surely be to your advantage.—McClary's. 8-28.

OF GENERAL INTEREST.

It has been said that there has never before been such a strong organization in this city, as those men who have got together in connection with the Metro-pole campaign, form. Every side of this city seems represented.

It is remarked on every hand that the object which calls forth this effort is one of the most deserving. For this reason the mass meeting in the Imperial Theatre tomorrow afternoon should appeal to such societies as the Associated Charities, Canadian Club, St. Andrew's, St. James, St. George's, C. M. B. A., Knights of Pythias, Knights of Columbus, and other like bodies that are organized for the purpose of uplifting and bettering conditions.

DR. JOHN B. TRAVERS

ON THE LECTURE PLATFORM

Tomorrow evening Dr. John B. Travers will be the story under the auspices of the C. M. B. A. subject "The Cause and Effect of Alienation or Mental Derangement." Dr. Travers has given much time and thought to the preparation of his lecture and his long experience as physician in charge of the Provincial Hospital justifies his many frigidities in expecting an evening of more than usual interest.

A story of Mark Twain. He had finished his speech at a dinner party and was seated in a chair. He had his hands deep in his trousers pockets, as was his habit, and laughingly inquired of those present:

"Doesn't it strike this company as a little unusual that a professional humorist should be funny?"

When the laughter that greeted this ally had subsided Mark Twain drawled out:

"Doesn't it strike this company as a little unusual that a lawyer should have his hands in his coat pockets?"

The Evening Times and Star

ST. JOHN, N. B., MARCH 21, 1914
The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

WHY THIS SILENCE?
The agricultural and industrial regeneration of Ireland, which has made such rapid progress in the last twenty years, with better land laws and a better system of technical education, will make even more rapid progress after Home Rule has been accomplished.

With an annual expenditure of more than \$200,000,000 the Borden government is making a record, and showing that whatever its shortcomings may be in other directions it is at least able to spend the people's money.

The question of the development of hydro electric power will be before the legislature next week. If it can be done without sacrificing public interest power development in this province generally would be of enormous benefit.

Representatives of the farmers were at Ottawa yesterday to protest against bounties on iron or a duty on iron and steel products.

While the situation in Ulster is very grave, the prompt measures taken by the government will make it clear that they are not to be intimidated by threats.

NEW BRUNSWICK'S NEED.
Dr. J. W. Robertson in his address in Fredericton last evening presented with great force a plea for vocational training in this province, to the end that all of the people might be trained to become intelligent workers.

The municipal council has chosen a new site for the hospital for advanced cases of tuberculosis. The question of a local site has never been as important as the construction of the hospital at the earliest possible date.

Financier—What's all the hubbub in the directors' room?
Scene—Some wise minority stockholder just found that the office cat is on the payroll for \$8,000 a year under the name of T. Felton.

TARIFF REFORM.
Mr. Austen Chamberlain, in a recent address at the annual conference of the Tariff Reform League, took pains to assure the members that domestic protection and Imperial preference were still the policy of the Unionist party.

Jim's Response.
Because of her own good looks, Mrs. Hatch felt she married beneath her when she "took up" with one-eyed Jim.

Minute Details
A young man who needed false teeth wrote to a dentist ordering a set as follows:
"My mouth is three inches across, five-eighths inches thick, and has some hummocky on the edge. Shaped like a horse-shoe, for a horse. If you want me to be more particular, I shall have to come then."

FIRES CAUSED BY GATS
Other Animals, Too, Have Been Responsible For Conflagrations
(London Tn-Blitz)
One of the biggest fires in history was caused by a bullock kicking over a lamp in a cow-house in Chicago about nine o'clock in the evening of Sunday, October 8, 1871. The fire burned all through that night and the greater part of the next day, devouring great blocks of houses, and growing by what it fed on. The total area burned was 2,124 acres, or nearly 81-8 square miles. The total number of buildings destroyed was 17,450, and 98,860 people were rendered homeless. Thousands, flying before the flames, sought refuge in Lake Michigan, and remained standing in the water for hours as the only means of preservation against the intense heat and the shower of sparks and cinders. Yet only 250 persons perished.

STRONG RESOLUTIONS ON VALLEY RAILWAY MATTER ARE PASSED

Gagetown Board of Trade Deals With Question of More Subsidy and Matter of Crossing River

At a meeting of the Gagetown Board of Trade on last Wednesday, the following resolution was passed:—Whereas the connection of the St. John Valley Railway by the route commonly known as the Maxwell survey from Gagetown to the city and port of St. John and for which legislative enactments have been passed by the provincial and dominion governments and contracts entered into between said governments and the construction company known as the St. John and Quebec Railway Company, which route provides for the crossing of the St. John river at the Milldam and the Kennebec river at or near Gondola Point, thence via Robbsey to St. John, and

Whereas by this route with its connections the distance between St. John and Montreal will be greatly shortened over every other route (save the C. P. R.) and Whereas, because of its easy grades and shorter distance, it is expected that the Valley Railway will be used by the Transcontinental and other lines that must necessarily find an ever open port with deep water terminals Therefore be it resolved that in the opinion of this Board of Trade no efforts should be spared to determine the best crossing of the St. John and Kennebec rivers in the immediate vicinity of the Maxwell survey.

Whereas it has been brought to the notice of this board of Trade that probably a request will be made to the Legislative Assembly of New Brunswick at the present session for an additional bond guarantee of \$10,000 per mile by the present construction company known as the St. John and Quebec Railway Company, and Whereas the present guarantee of bonds of \$20,000 per mile and the dominion subsidy of \$6,400 per mile was carefully considered by both provincial and dominion governments as being sufficient, and a contract on this basis having been entered into for the construction of said railway, and Whereas it appears to be that the combined sum of \$31,400 per mile should be sufficient for construction of said railway.

Therefore resolved that according to the statement officially made by Dr. Landry, the provincial secretary-treasurer, that already bonds to the amount of \$2,228,775 which will be the amount of the dominion subsidy granted by the dominion government of \$8,400 per mile would make a total of upwards of \$8,800,000, therefore it would seem unnecessary for a further guarantee to be made without the most serious consideration on the part of the government and the fullest publicity of the expenditure on the part of the company who at the time the contract was awarded were reported to be willing to spend \$1,000,000 or more of their own money in construction of the railway.

COAL TAKEN AT I. C. R. CROSSING AND SOLD IS INTIMATION IN COURT

Two boys were arrested last evening on suspicion of having stolen coal from an I. C. R. car at Gilbert's Lane, property of the Norton Griffiths Company. The boys were brought before Magistrate Ritchie in the juvenile court this morning. Policeman Rankine said he saw the boys going into a store with coal. He asked them where they got it, and they told him from one of the cars. One of the boys told him he had sold the coal for fifteen cents a bag. G. Earle Logan, for the Norton Griffiths Company, said his clients were not anxious to prosecute if the boys would tell the truth as they were convinced that the persons who had been buying the coal knew that it had been stolen. The boys were allowed to go. The parents of each were given a severe lecture for carelessness in regard to the education of their offspring.

SOON 400 MEN TO BE AT WORK

That is Plan in Construction of Sand Point Wharves

THE TIMBER SUPPLY

Million Feet Here Now and Two More Schooner Loads on the Way—Hope to Have All Ready For Warehouses By August

The arrival of a large quantity of hard pine in the harbor on Thursday night as mentioned in the Times yesterday removed the last barrier in the way of the work of the Maritime Dredging and Construction Company at Sand Point and allowed them to get a good start on the work of wharf construction, which they have promised to complete before the opening of the water season. The company is making every effort to carry the work through quickly and not pausing in case of opposition to achieve this result.

The timber shipments which arrived on Thursday in a single day of hard pine from Georgia, 12,000 feet in a barge in tow of the tugboat "Prophet." Two schooner loads of pine are also on their way here and Messrs. W. Doherty, managing director of the company, does not anticipate any further delay in securing supplies. The company ten days ago made a start on the work, which involves the completion of the wharves formerly under contract to Connolly and Chalmers at Sand Point, and men have been at work leveling off the old crib work and preparing for the new structure. "Crib building" will be commenced at once and kept going steadily. Preparations being completed, also, for commencing the work on the concrete superstructure on the portions of the wharves which are ready for it and Mr. Doherty expects to make a start on this work within two or three weeks and by that time he hopes to have 400 men employed on the job, working night and day.

In order to save time and to guarantee against delays from stormy weather, the company will work their concrete plant from the shore instead of from scows and a trestle is being built out from the land and on it a light railway will be laid to haul the materials. Their plant, which is now being made ready, includes a large concrete mixer and apparatus for washing gravel to free it from earth and other foreign substances. The latest machine in an expensive one, but gives better results than could be secured from unwashed gravel. The contract also includes the reclamation of a large area behind the wharves and between them and the new C. P. R. grain elevator which is being filled in with spoil from the dredging. One reclamation plant has already at work; another is being prepared for start work and a third construction progresses far enough to allow it to be set in place. Mr. Doherty is anxious to have the wharf construction and the reclamation work completed by August, if at all possible, in order to allow plenty of time for the erection of the wharves in connection with the wharves, and he is sanguine of success, although his company has only ten months in which to complete the work for which the former contractors were given a year and a half.

MR. MACAULAY WILL NOT BE A CANDIDATE

Definite Announcement as to The Mayoralty. Ex-Ald. Scully Also Decides Not to Run

The approach of the civic elections finds nine candidates already in the field in the contest for the three vacancies caused by the expiration of the terms of Commissioners Wigmore and Agar and the resignation of Commissioner Schofield. This number, to say nothing of the others who may run, is sufficient to make two elections necessary, the first election to weed out the weaker candidates and the second for the final fight among the six high men.

The two commissioners whose terms are nearing an end are candidates for re-election and, with one exception, the six other candidates who have announced their intention of running are all former members of the common council under the old system. John McColinick is the latest of the ex-aldermen to announce his candidacy, and his former colleagues include James V. Russell, Frank L. Potts, John B. Jones, James Sprout and J. Fred Belyea. In addition to these James J. Squires will be nominated by the labor party and William H. Turner, of the North End, is considering the matter.

Ex-Ald. Scully announced this morning that he would not be a candidate. Mention has been made of B. R. Macaulay as a possible candidate for the mayoralty and Mr. Macaulay has been urged by many of his friends to stand for election. In conversation with the Times this morning, however, he announced definitely that he would not be in the field.

ONLY A LITTLE ABOVE ZERO AND WIND HIGH

Last night the mercury was lower than it has been for nearly a month—since February 25, when it went nearly two degrees below the zero. Between midnight and sun-up this morning, the mercury was at eight and a half degrees above zero. For the greater part of the week, St. John had typical spring weather. On Wednesday the temperature was as high as forty-five, but Thursday it started to drop and the maximum on Thursday was thirty-seven above. The shrinkage continued and all day on Friday the temperature was below freezing, twenty-seven above being the highest. The figures last night make a total drop of some thirty-seven degrees in the three days. At nine o'clock this morning the mercury was at 14, but the fact that a thirty-two mile gale was blowing from the northwest, made it seem even colder.

We Continue Today the Spring Opening Display of Clothing and Furnishings

After months of planning we are now making our first exhibit of Spring Clothing and Furnishings for men and boys.

This is an event yearly looked for, a display well worth coming to see. It will verify our leadership in the clothing world. It will show as in the past twenty-five years we have demonstrated, that this is the headquarters for up-to-date, trust worthy clothing.

We expect you to come today, as you'd go to the opening or inauguration of any new, big, worthy institution. It is an opening that demands it. It is an opening that presages an increase of business in the outfitting of men and boys. It is so organized and gaited and stocked. No St. John store in any March has ever shown quite such a collection of correct new dress.

All are cordially invited.

Happenings of the Day in the Stores and in the Streets of the Big North End

Story of a Certified Check

Paper Worth \$500 Lost, Found, Torn up and Some Pieces Again Recovered—General and Social News

A certified check belonging to a North End merchant was lost several days ago, and after an advertisement had been inserted in The Times two or three pieces of it were found and returned to the owner. Percy J. Steele, who has a store on the corner of Main and Elm streets had a check for \$500, certified at the North End branch of the Bank of Nova Scotia, and sent it to another bank in connection with his business. When he reached the bank the boy who had been entrusted with the errand found that he had lost the check.

Mr. Steele advertised in The Times offering a reward to the finder of the check, which, since it had the bank's stamp on it, was equal to a \$500 bill. A few days ago a boy came to Mr. Steele and told him that he had found the check in the street. He did not know what to do with it at first, but when another boy called his attention to the certified stamp, he took it to mean that the check had been paid and tore it up, since he was advised by another companion that he would probably be arrested if he were found with the check in his possession.

On the following night it rained, and it was not until the next day that the boy who tore up the check saw that the loss was advertised, and knowing that it was valuable to the owner, he gathered what fragments he could find, but the only parts that were left legible after the rain were two pieces bearing part of the certificate stamp including the date. The two pieces were taken to the bank on which the check was drawn, and as all that day had been paid, it is expected that the two pieces will be redeemed. C. H. Lee, manager of the North End branch sent the pieces to the head office in Toronto yesterday, and it is expected that they will be sufficient to prove the fate of the voucher.

Work is progressing well towards getting the river boats into condition for the summer season. As far as is known the boats will run on the same routes as last year.

Captain Flewelling, of the Occome, is in the city superintending the work of fitting up the steamer to be ready for service as soon as the season opens. Besides some carpentry work and a few repairs to the machinery, the boat is to receive a new coat of paint.

Ever since the announcement was made that the site in Merritt street would be used for the St. John county hospital for the care of advanced cases of tuberculosis, there has been an agitation among some citizens of the North End to prevent, if possible, the placing of the hospital in this locality. When it was learned last night that the county council had decided to move the site from Merritt street to the Municipal Home property at East St. John, they were expressions of approval from those who have been agitating against the Merritt street site.

Mrs. Charles Linauer of Los Angeles (Cal.), is the guest of Mrs. J. K. Seaman, Douglas avenue.

Mrs. J. Fraser Gregory was hostess on Tuesday at a very delightful ladies' bridge in honor of her guest, Mrs. R. W. McMillan, of Fredericton. Mrs. Gregory received in a very handsome light silk with wide girde of hunter's green silk. Mrs. McMillan wore a very becoming gown of pink satin with white shadow lace and black tulle. Emblems of the 17th of March were everywhere.

The house met at 8:05 p. m. Mr. Baizer presented the report of the standing rules committee.

Mr. Baizer presented the petition in favor of a bill to incorporate the Albert Hall & Park Association.

Mr. Stewart (Gloucester) presented the petition of the town of Bathurst in favor of a bill relating to the town of Bathurst and a paper and pulp industry to be established in that town.

Mr. Dugal gave notice of the following inquiries: With regard to the Southwestern Railway Co., as to Mr. Monbrant's report on the Valley railway bridges as to the representations made by the sub-contractors on the Valley railway, and as to the American potato embargo, and as to Mr. Pelletier gave notice of the following inquiries:

As to the amount of money spent by the Farm Settlement Board; also as to the amount of money spent by the Anderson Grand Falls section of the Valley railway; also as to the Four Miles Brook bridge.

Mr. Swin gave notice of inquiry as to whether the government intended to give effect to several resolutions forwarded by the Northumberland Municipal Council.

The house went into committee with Mr. White (Carleton) in the chair, and agreed to the bill to amend the act incorporating the Albert Manufacturing Co., Ltd., with amendments.

in evidence. On the handsomely appointed tea table the centre decorations were a large bowl of shamrock and a gold harp. The place cards were unique little figures in bright green skirts with a dainty favor for each guest, and the dainty refreshments were green. The very handsome prizes, an Irish lace collar was won by Miss Murray, a goblet with cameo setting by Mrs. Dewelling, and a paper weight by Mrs. Dewelling.

An interesting ceremony took place at 8 o'clock on Tuesday in Trinity church when the infant son of Mr. and Mrs. J. Walter Holly, German street, was baptized, Rev. R. A. Armstrong, rector of the church, officiating. The godfathers and godmothers who assisted at the christening were: Mr. Leslie Lovitt, of Yarmouth; Mr. deBlaviere Carrite and Mrs. Carrite. The name bestowed upon the young gentleman was Leslie deBlaviere Holly. After the church ceremony the party drove to the residence of Mr. and Mrs. Holly, where a 6 o'clock tea was served.

Information Regarding Agricultural Department — Bills Introduced and More Inquiries Made—The Work of Two Man Opposition

They are fortunate in having the assistance of E. S. Carter, whose intimate knowledge of provincial affairs is at their disposal. During the sessions of the legislature for some years, Mr. Carter, as part of his work in connection with Liberal organization, has furnished many of the newspapers in the province with copies of the house proceedings and criticisms of departmental reports, giving information to thousands that it was impossible for them to obtain otherwise. The report of the auditor general this year gives even less information than usual. Large sums are set opposite the names of "Various Persons" with no information as to the service performed. This is not as it should be and it is much to be regretted that lack of knowledge of the English language prevent Messrs. Dugal and Pelletier from showing the same industry probing the accounts as in making inquiries.

Are You One of The Unfortunates

WITH BACKACHE, HEADACHE AND THAT TIRING FEELING.

If So Listen to the Story of George F. Stander, and Use Dodd's Kidney Pills.

Handsforth, Sask., March 20.—(Special)—If you are one of those unfortunates who suffer from sore back, headache and that tired, listless feeling that makes work a hardship and life not worth living, the story of Geo. F. Stander, a well-known young man of this place, will interest you.

"For nearly ten years," Mr. Stander says, "I suffered from sore back and headache. I had a bad taste in my mouth every morning, and I was always tired. I finally decided that my kidneys were the cause of my trouble, and decided to try Dodd's Kidney Pills. I got half-a-dozen boxes, and before I had finished taking them I was completely cured."

"I advise anyone suffering as I did to use Dodd's Kidney Pills."

Healthy kidneys strain all impurities, all the seeds of disease, out of the blood. Weak kidneys leave these impurities in the blood, and the result is nervousness, tired feeling and pains and aches that often develop into Diabetes and Bright's Disease. Dodd's Kidney Pills make weak kidneys strong and healthy.

Dr. Ira T. Gabbert: "I freely admit that D. D. D. reaches cases and permanently cures them, more effectively than any other remedy."

NOVA SCOTIA MILLIONS, TOO, IN THE FOX FARMS

Forty-six Fur Producing Companies Now Registered in That Province, Capitalized at \$7,000,000

Nova Scotia has now millions invested in fox ranching industries and there is apparently more to come. Abnormal profits for the investors in the early stages of the P. E. Island fox ranching business attracted attention everywhere, with the result that most of the new fur ranching propositions brought before the public have received good financial support. The great bulk of the fur companies incorporated are black or silver foxes, but some have also been registered among the registered concerns companies to breed Karakul Arabi sheep.

The first of these was the incorporation of the Fur Producers, Ltd., capital \$2,000,000. Shareholders named are W. H. Cover, M. C. Sheehan, E. B. Morrison, Yarmouth Silver Black Fox and Fur Co., Ltd., with capital of \$50,000 in \$100 shares, incorporated to take over and carry on the fox business carried on by G. H. Burritt and S. P. Goudey at Yarmouth. Shareholders named are G. H. Burritt, S. P. Goudey and B. F. Trask, of Yarmouth.

Brookline Fox Ranching Co., Ltd. capital \$40,000. Shareholders named are Percy T. Smith, Neil Morrison and N. R. McCally all of Amherst.

Dominion Fur Farms, Ltd. of Sydney, capital \$80,000; stockholders—John F. Joy and Philip E. Gough, of Sydney, and Dan J. McDonald of New Waterford, C. E.

Pearless Black Skunk Co., Ltd. capital of \$20,000—Gilbert H. Vernon, O. L. A. Devlin, E. Thompson, all of Truro.

Diamond Black Skunk Co., Ltd., capital \$20,000; stockholders—E. D. McMillen, Truro, Frank A. Little, Brookside, and T. G. McMullen, Truro—stockholders named are G. H. Burritt, S. P. Goudey and B. F. Trask, of Yarmouth.

The forty-six fur concerns now registered have an aggregate capitalization of \$7,000,000, the total being but \$80,000 short of that amount, and nearly all of them are in operation, so that the big profits enjoyed from fur farming the last few years are to continue. Nova Scotians are going to have a lot of money coming to them.

But the capitalization of these forty-six companies does not cover the whole interest and investment of Nova Scotia in the fur trade. The N.S. Game Act provides that:

"Any person, after having obtained from the chief game commissioner a permit to do so, may catch alive at any season of the year any number of minks or other suitable fur bearing animals any trap or snare or any other device for the purpose of preserving and breeding from such animals; and any person who is engaged in such a business shall be considered the owner of the animals so caught."

Any persons keeping foxes, minks or other fur bearing animals, whether captured in the province or elsewhere, in captivity, shall obtain a permit from the chief game commissioner, and annually report to him the number and value of animals and pelts exported or carried out of the province.

Under these clauses parties may obtain permits to capture and keep in captivity fur bearing animals, and the clauses apply as well to the companies incorporated as to the individuals.

These clauses are in force altogether under these clauses about 150 permits, of which forty-six would be for companies, and the remainder to individuals. There are about fifty permits for mink keeping and breeding, 20 for racoon, 75 for mink, 3 for muskrat and one for beaver. GAINS 22 POUNDS IN 23 DAYS

Remarkable Experience of F. Gagnon. Builds Up Weight Wonderfully

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work I was so weak. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days."

"Sargol has put 10 pounds on me in 14 days," states W. Q. Roberts. "It has made me sleep well, enjoy what I ate, and enabled me to work with interest and pleasure."

A Plump, Strong, Robust Body

"Before I took Sargol people used to call me 'skinny,' but now my name is changed. My whole body is stout. Have gained 16 pounds and am gaining yet. I look like a new man," declared another man who had just finished the Sargol treatment.

Would you, too, like to quickly put on 10 to 20 lbs. of good, solid, "staying" flesh, fat and muscular tissue between your skin and bones?

Don't say it can't be done. Try it. Let us send you free a 50c package of Sargol and prove what it can do for you.

More than half a million thin men and women have gladly made this test and that Sargol does succeed, does make this flesh fat even where all else has failed, is best proved by the tremendous business we have done. No drastic diet, flesh creams, massage, oils or emulsions, but a simple, harmless home treatment. AUTO MEN DINE

The "Unity" dinner of the New Brunswick Automobile Association, and the exhibitors at the auto show this week, held last night at Bond's restaurant, was even more enjoyable than that of last year. There was not a melancholy moment throughout and the speeches were neither too suggestive of "shop" nor tiring. A particularly fine menu was provided.

The following was the toast list: The King, proposed by the chairman, F. S. Jackson; The Press, proposed by the chairman, and responded to by H. V. McKinnon, of the Standard; and E. H. Nicks, of The Telegraph; The Auto Show of 1914, proposed by R. D. Paterson; and responded to by F. S. Jackson; The Ladies, proposed by J. A. Fugley and responded to by J. H. Thackeray; and E. M. Peet; Good Roads, proposed by H. Boyd and responded to by R. D. Paterson; The N. B. A. A., proposed by the chairman and responded to by T. Regan; The Ladies, proposed by J. A. Fugley, and responded to by J. A. Fugley.

Songs and merriment were in order after the toasts, all agreeing that the "Unity" dinner was, in every way, a success. Mr. S. Bokkild accompanied in the songs.

Teacher—Willie, if you don't behave yourself, I'll write a note to your father. Willie—You do and you'll make me jealous.

BIG CRACKS ON HAND AND FINGERS

Eczema for Three Years. Broke Out on Head in Scales, Itched and Burned Badly. Cuticura Soap and Ointment Cured.

Lynn Brook, N. S.—"I suffered with eczema for three years. It started on my hands first in sores between my fingers and all over the palms of my hands. Then it broke out on my head in scales and itched and burned so badly I could not sleep. It was so itchy and burning that I scratched and made sores and my hair came out awfully bad. I did not know what it was."

"I was treated for a long time and it did not do any good. I gave up my work for a month but as soon as I started doing my house-work again my hands got just as bad as ever. I used two bottles of Cuticura Soap and Ointment and that cured me." (Signed) Mrs. E. J. McKeeney, May 27, 1913.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczema and other distressing eruptions of skin and scalp, but no other emollient do so much for pimples, blackheads, red, rough skin, itching, scaly scalp, dandruff, dry, thin and falling hair, chapped hands and chapped nails, nor do it so economically. Sold by druggists and dealers everywhere. For a liberal free sample of each, with 25-cp. booklet, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

TIME FOR CITY TO TAKE ACTION

Future of Valley Railway, of Utmost Importance to St. John, is at Stake—Will Government Grant Aid Under the Present Circumstances?

Fredericton, March 20.—The Valley railway matter still has the centre of the stage, and everybody is asking what will be the outcome of it for the government, for Mr. Gould, and, last but not least, for the people of New Brunswick.

It is learned here now that a number of members of the legislature visited Ottawa recently to take soundings about the whole matter, having become alarmed of the situation that is developing. It is reported as unreasonable to ask for a further guarantee of bonds, and certainly there will be increasing objection and a growing demand for particulars as to expenditures up-to-date, as to the route below Gagetown and above Centerville, and as to the time and method of completing the St. John-Gagetown section.

It is being said that the legislature will not dare commit the province to further expenditure until all the cards are on the table and until it is known with certainty that the Grand Trunk Pacific is coming to St. John over the Valley line within a certain time.

Friends of Mr. Gould are saying that he has the government in a hole. It is intimated that he will have grounds for a suit against the government if the contract is cancelled, and that if a further guarantee of bonds is not forthcoming he will sue anybody, on the ground that the government misled him as to the cost of the railway, and particularly the cost of the necessary bridges.

It is known that other surveys have been made, including one down the west side of the St. John River below Gagetown, and that particulars of this survey will be demanded in order to show the comparative length and cost of the west side and east side routes.

Surprise is expressed here because St. John and other towns and cities—especially St. John—have not formally asked the government through a delegation, for reasonable information and specific guarantees as to the route and time of completion of the line from Fredericton to St. John.

A late report from Ottawa is to the effect that the dominion government will have nothing to do with the \$2,000,000 bridge across the St. John River.

On the other hand there is increasing suspicion about the proposed bridge across the St. John River. Delivery of the whole project to the C. P. Railway, proposed by the government, that turning over the Valley railway to the C. P. R. would bring about the downfall of the administration. Further developments will be awaited with keenest interest.

WILL CITY SECURE HYDRO-ELECTRIC POWER FROM MEDUCTIC DAM?

The plan to develop electric power at Meductic on the St. John River, is to come before the legislature again next Tuesday, and probably on that day the whole future of the project will be decided. The plan of the St. John River Hydro-Electric Co. would involve an estimated expenditure of \$8,650,000. The dam at Meductic would be twenty-five feet high, measuring from low water. That river at that point is from 700 to 800 feet wide.

The amount named, \$8,650,000, would include the transmission line from there to St. John, the length of which is estimated at eighty miles, together with transmission lines to Fredericton and Miramichi, and step-down stations. The initial development would consist of five 2,000 K. W. units, and a total capacity of 12,000 K. W. units, and the cost of the dam and to develop that amount of power would be approximately \$2,600,000. Other installations from time to time would raise the total expenditure to the larger amount named.

Prices of power have been quoted to many St. John manufacturers who are interested in having power delivered there at a reasonable cost. The facts here given as to the plans and expenditures are taken from the engineering report of Stone & Webster, Boston, who own and operate many electric plants and street railways throughout the United States.

The company's representatives say that the arrangement for facilitating the passage of logs and perfecting a highway that would permit the uninterrupted journey of the salmon up and down will meet any reasonable objection; but no doubt these matters will be carefully looked into, together with control rates. To dam the St. John River is a far-reaching project, and the public's rights will have to be most carefully safeguarded.

Press Dispatch Gives Rise to Inquiries in Parliament—Mr. Pardee Asks Government to Curb Canada's War Lord

Ottawa, March 20.—"It seems to me high time that an effective curb should be put upon the militia-made war lord who has been placed at the head of the Canadian militia by the present administration," declared F. P. Pardee in the House of Commons.

The chief Liberal whip was dealing with the public works estimates for 1914-15, and had pointed out that, despite the fact that times of stress had caused many Canadians serious embarrassment, Colonel the Hon. Sam Hughes had expended and promised more than \$1,000,000 in armories alone since the Borden government had taken office.

Mr. Pardee read a telegram to the Canadian government press signed "Wanderer," announcing that the Canadian minister of militia had sent a message to the men of Ulster to the effect that the Canadian government would offer no opposition to the despatch of a first contingent of militia to the front to participate in the threatened civil war in Ireland.

The reading of the cable was greeted by cries of "Oh!" from the members. "Some stop should be put to this sort of thing," was heard.

"The war lord whom for the time being we have placed at the head of the militia has become so supercilious that it would seem that he can no longer confine his attentions even to Canada. I ask the minister of public works, who is now leading the house, and his colleagues in the ministry, in all seriousness if they will not take the care of the problems that are before them, and do something to curb his reckless speech and action."

"There is plenty to keep him busy in Canada, if he proposes to administer his responsible position in a sane and economical way, and any reading of history leads me to say with pride that the wise and prudent statesmen of Britain are quite able to take care of the problems which from time to time confront them without gratuitous interference from supercilious, hysterical or ultra-nationalist meddlers who exercise a little brief authority in Canada." (Cheers.)

Mr. Pardee said he would consult with the minister and no doubt a statement would be forthcoming.

Mr. Pardee asked whether the government had bought the Carleton Place hotel property, near Bonaventure station, Montreal, for a post office. Hon. J. P. Pelletier said he understood the property was under appropriation.

Hon. Robert Rogers made a statement in regard to the new government building, stating that a departmental house had been built first, to cost \$5,000,000, the land to cost the same amount, and that all departments at present scattered throughout the city would be assembled therein.

OTTAWA TO HAVE A HOME FOR GIRLS

Other Important Matters in Presbyterian Church Work

Ottawa, March 21.—It was decided by the executive committee of the Presbyterian board of Social Service and Evangelism, who met in Toronto, to establish a reformatory for girls at Ottawa. The institution will be similar to the Toronto home and will cost about \$20,000. The committee also decided to establish evangelical social settlements in Vancouver, Edmonton, Winnipeg, and St. Paul, Minn. The settlements will be similar in character to the St. Christopher House, which is conducted by the board in Toronto, and will be built at a cost of a large sum.

Two college gospel teams consisting of four students each were appointed, one from the Manitoba and one from the Halifax college, for evangelistic work during the summer months in Manitoba and Saskatchewan and the maritime provinces respectively.

The report on the board's finances showed that \$55,000 had been received during the year, while the expenditure was \$56,000, leaving a deficit of \$1,000. The estimates for the ensuing year were finally left to a special committee, which will report later on.

Chicago, Ill., March 21.—The number of Chicago women qualified under the recent Illinois Equal Suffrage Act to cast their first vote at the aldermanic election in April, is about 800,000, according to the women suffrage leaders.

More than one hundred and fifty thousand women look advantage of their first opportunity last month to become registered voters. Suffrage leaders say that this number has now increased to at least three hundred thousand. More than four hundred thousand Chicago men are eligible voters.

County Council Shifts Site of Institution For Tubercular Patients From Merritt Street to East St. John—County Police-man Appointment -- The Sheriff's Salary

The county councillors yesterday decided to change the site of the proposed county hospital, for the care of advanced tubercular cases, from Merritt street to a site opposite the Municipal Home, and on the home property. New tenders will be called for the building. When the meeting was called for the consideration of the matter, Warden McLellan said he believed about \$7,000 could be saved by the change in site.

DENMARK DEALT WITH

The People's High Schools There—Courses of Study or Work—Social Qualities Developed—Uplift of Rural Life

The following is from Volume II. of the report of the Canadian Royal Commission on Industrial Training and Technical Education. It deals with the development of education in Denmark the designation "People's High Schools" is apt to be misleading. They represent a movement and institutions that have been called by eminent Danes who have intimate knowledge, by such names as "Peasants' High Schools," "High Schools of Yeomanry," (H. F. Rieders), "Popular High Schools" (Alfred Poulsen), "People's High Schools" (Jacob Appel).

the, strong and evidently enduring influence of singing historical, national and patriotic songs and hymns together.

The Uplift of Rural Life. The People's High Schools have become the centres of wide and far-reaching influence outside the immediate education in their own course. In close proximity to most of the largest high schools proper there are an agricultural school and a housekeeping school. The People's High School, at Askov, may be taken as representing the largest development in this respect. Close by it is a weaving school for girls; and a Sloyd (or Swedish manual training) school for teachers. Then there is an agricultural demonstration station just a stone's throw distant; in the vicinity an agricultural school; and at a distance of two or three miles a school for house-keeping occupations.

Do you eat the best corn in the whole world?

Kellogg's CORN FLAKES. We don't stop at selecting the best corn. We take only the hearts of it. These "Sweet hearts" are cooked under very high temperature, then rolled into flakes. Then comes the toasting which gives them their rich brown color.

Grape-Nuts

This excellent food, made from whole wheat and barley, supplies the strength-giving, blood-making properties which Nature stores abundantly in these grains, and which are often lacking in ordinary foods.

Social Qualities Developed.

The students dine together. In the dining rooms visited the appointments were of the simplest sort. In some of the table-cloths were used, in others a simple table-cloth only at the table of the principal, with oilcloth covers on benches without back. The good-fellowship which prevailed was in itself an evidence and means of further education.

It is a significant fact that St. John people use more Newbro's Herpicide than any equal number of people elsewhere.

Desiring always to appear at their best, the ladies of St. John have been quick to recognize the great excellence of Newbro's Herpicide, as they know that its intelligent use will add more to the beauty of their hair than anything else.

THE STAGE AND ITS PEOPLE; MANY WELL REMEMBERED HERE

SOTHERN TO RETIRE FROM STAGE AT END OF NEXT YEAR

Grace George in "The Truth" - Climax to Be Given Revival - Margaret Anglin as Rosalind in New York - Clara Morris' Illness

"I am abandoning my Shakespeare work with tonight's performance, and will abandon the stage entirely at the end of the season of 1914." E. H. Sothern is quoted in what is said to be a formal statement given out in Denver last Saturday. "I have been on the stage since 1870 and that is a long career. I am vigorous, but this life without any social pleasures whatever is wearing on the strongest man."

My wife's ill-health has forced her to leave the stage. After I appear for two years more I shall be ready to quit and lead a domestic life. Edward Lynch who was in St. John about two years ago with the Lynch Stock Company and his wife, Grace Lynch, were served with warrants recently in Woonsocket, R. I., at the instance of Doris Woodbridge leading woman, now playing in stock at the Jefferson Theatre, Portland, Me., charging them with slander and asking \$2,000 damages.

Miss Woodbridge was a member of the Lynch company and played the leading part in Alan J. Valentine when they opened the season at the Park Theatre, Woonsocket. At the end of the opening week Miss Woodbridge left the company. It is said that the alleged slander occurred during conversations between the manager and herself that led up to her resignation from the company.

Beginning on Easter Monday, Winthrop Ames will present Grace George in a revival of "The Truth" by Clyde Fitch for a spring season of six weeks at the Little Theatre, New York. "The Philanderer," by George Bernard Shaw, will close his twelve weeks' run of the Little today when the company will sail for London, for a revival of the comedy there. In the support of Grace George will be Zaida Serra, who will play Mrs. Creeping, the part she originated; Isabel Irving, who will offer Eve Linsford; Ferdinand Gotsdalk, in the part of Roland; Conway Tearle as Lindon and Sydney Booth as Wanda.

The long New York season of "Grumpy" during which time the production became known as one of the most successful successes of recent years, will come to an end on April 23, Cyril Maude

vision is of course limited, but I am so happy to see at all that I only complain when I can't see my notes—for now I live with an ancient gully in the bed of the bed and a seed catalogue at hand. Vesting aside, I am extra happy because my husband's two strokes of a stroke of paralysis is better, and my mother, who is 90, has fought through pneumonia. So thank you with all my heart for the interest the Sun shows for my welfare and—

Here's hoping that you yourself, sir, may have the courage to come some day when spring is here and be received by yours. CLARA MORRIS.

It is true that Miss Morris keeps an "ancient gully" at the foot of her bed. She has been studying that instrument assiduously and is now, so her nurse said, able to play very well. The instrument may be heard at midnight or three o'clock in the morning, in fact at any hour when the spirit moves her to play. Add Plays and Players.

Margaret Anglin. (New York Sun.) Margaret Anglin, who is determined to remain a comedienne, even if she is an ally of the ambitious American actors who have this season deflected themselves to the theatre, began a season of Shakespeare comedy last night at the Hudson Theatre. She acted in "As You Like It."

There was a friendly audience to greet her, and she was observed to receive a public invitation in every new phase of her artistic endeavors. There was an additional element of novelty in the occasion from the intimation that a new kind of stagecraft was to be revealed in connection with the comedy. It does not seem to be its name on scene in the fullest sense of that word, which is just now in trouble with the results of the Elizabethan dramatist that come to this city. One might readily be said to have introduced the new idea for motion pictures.

"BIG TIM'S" LIFE SUBJECT FOR STORY OF THE CAMERA

From Newsboy to Senator - Old Curiosity Shop Next of Dickens Tales in Picture - Movies People Want Broadway Houses

"Big Tim" Sullivan is the hero of biographical photo-drama about to be released by the Gotham Film Company. "Joe" Sullivan, who greatly resembles the late senator in personal appearance, posed in the leading role.

The picture begins with the landing of the politician's parents in America and portrays his orphan childhood, his struggles, his generosity and the principal incidents of his political career on the east side, New York. The subject is shown in the picture in four reels. Harry Apfelbaum, who was Mr. Sullivan's secretary, kept the horse until he got to Ocean Parkway. John Bunn and Maurice Costello, who were coming along in their own way, saw the condition of things, and started in pursuit. Lillian clung to Wallie with a vengeance which seemed to inspire him with confidence, but it was all to no purpose. The horse, evidently deciding to get out of the road and out of the way of the auto, started across lots. This would have had right if he had not made his way into a deep gully which was filled with snow. The horse went up to his neck, the sleigh was overturned and its occupants were buried in the drift. Costello, who had the advantage of the lead, avoided the accident, but fell in advance of Bunn. Aside from a temporary scare no serious damage was done.

Useful New Invention

Enables Anyone to Play Piano or Organ Without Lessons

A Detroit musician has invented a wonderful new system which enables any person or child to learn to play the piano or organ in one evening. Even though you know absolutely nothing about music or have never touched a piano or organ, you can now learn to play in an hour or two. People who do not know one note from another are able to play their favorite music with this method without any assistance whatever from anyone.

This new system which is called the Numerical Method, is sold in Canada by the Numerical Music Co., Toronto, Ontario, and as they are desirous of it, even making it known in every locality, they are making the following special free trial and half-price offer to our readers.

You are not asked to send any money until you have tried and are satisfied with the new method. The Numerical Company will send it to you on one week's free trial, and you will not have to pay them one cent unless you desire to keep it. There are no express charges to be paid, as everything will be sent by mail. Simply write a letter to the Numerical Music Co., 2159 Curry Hall, Windsor, Ontario, stating "Please send me the Numerical Method on a week's free trial." If you are satisfied after trying it, the Method and fifty different pieces of sheet music will cost you only \$5, although the regular price of these is \$10. You should not delay writing, as the Numerical Company will not continue this special half-price offer indefinitely. Later on, the Method and fifty pieces of music will be sold at the regular price.

EAT LESS MEAT IF BACK HURTS

Take a Class of Salts to Flush Kidneys if Bladder Bothers You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and rigidity in the kidney region; rheumatism, twinges, severe headache, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jast Salts from any good pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This fine salts is made from the acid of grape and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder distress.

Jast Salts cannot injure anyone, makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding kidney disease.

FRECKLES February and March Worst Months For This Troublesome Skin Blemish

There's a reason why nearly everybody has freckles in February and March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Uthine, double strength, from your druggist and apply a little of it at night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they will stay all Summer, and spoil an otherwise beautiful complexion. Your money back if Uthine fails.

Neave's Food FOR INFANTS

What a Mother who has raised two fine boys on it says. Toronto, 25 March, 1914. My two sturdy boys, aged 18 months and 14 months, are the result of Neave's Food. I have used it since they were born, and they are the healthiest and strongest of infants I have ever known.

My first boy, who is now 18 months old, was born on March 15, 1912. He was a very healthy child, and I was able to nurse him for a long time. When he was 12 months old, I began to use Neave's Food, and he has been eating it ever since. He is now a very healthy and active child, and I am very glad to say that he is the result of Neave's Food.

My second boy, who is now 14 months old, was born on April 10, 1913. He was also a very healthy child, and I was able to nurse him for a long time. When he was 10 months old, I began to use Neave's Food, and he has been eating it ever since. He is now a very healthy and active child, and I am very glad to say that he is the result of Neave's Food.

Neave's Food is a very healthy and nutritious food for infants. It is made from the best of ingredients, and is easy to digest. It is the best food for infants that I have ever known, and I am very glad to say that it is the result of Neave's Food.

BASEBALL.
St. John River Baseball League.
At a meeting of the representatives of Belyea's Point, Millidgeville, Pandem and Baywater, it was decided to form a St. John river baseball league, and the following officers were elected: Commissioner Rupert W. Wigmore, president; A. W. Corvey, vice-president; W. J. Coates, secretary. The teams will play for a trophy donated by the Beach Sporting Goods Company. Each team will be limited to fifteen men and a manager. The league will be governed by the American League rules.
As for the players who will compose the league, the official roster is not yet obtainable, but Belyea's Point will have "Mike" Harrigan, of St. Peter-St. John fame; Crosby, of the Pompano; and Marshall, of the local league, and "Shifty" Chase, of the Clippers; Murray, of the local league, and "Shifty" Chase, of the Clippers; St. John will have William Leighton, Lemie Sterling and W. Halliday and a bunch of stalling young players, and Baywater will have "Jack" Copeland, of Marathon-Halfax Social fame; Mahoney, a star of the St. Peter's; Sprad, of the Clippers, and Dunlap, a young pitcher who will bear watching. The team will be looked after by "Bert" MacNutt, one time star Clipper-St. John Marathon player, and "Mac" says he ought to win.
Credit should be given "Mac" as the league was his idea, and he worked hard in helping to organize it, and Baywater for backing him up.
The schedule for this league has not yet been drawn up. W. J. Coates, of the International Correspondence Schools, No. 8 Sydney street, is secretary of the league.

Klein Broke Up
New York, March 20.—William Klein, a National League umpire, who went around the world with the Giants and White Sox, was successfully operated on this week for an injury received in being struck in the chest by a foul ball as he was beginning the world tour. The injury did not trouble him much until his arrival home he underwent an examination which showed that he was suffering from a shattered shoulder blade, fractured breast plate and several fractured ribs. An operation was decided upon and after it was performed the attending surgeons announced that Klein would be about again in a few days.

Douglas McArthur, 84 King St.

champions—may have stimulated the present "boom." But, after all, the love of a fight is probably inborn amongst a large part of the population. "We're a man breed," declared Dooley's Father Doyle, "an' it only takes two la-ads more brutal than t'yer rest 'er to expose t' strength in t' best of us." Public interest in genuine fights, either with or without gloves, has probably never been so keen as it is now. This interest is due to the fact that the sound of a bell is now the signal for a fight, and pugilism is no longer a thing of the past. When did the pugilist days of the prize ring cease to flourish?

Causes of Decline
The pugilist days began to decline in the sixties, and the causes were ruffianism, and fights "on the cross" or "square" or "straggled" contests. After the King and Heenan meeting in 1868 the law frowned indignantly on prize fighting, and it virtually died, or rather slept soundly and peacefully—with occasional fits of interest—until the end of the nineteenth century. In the meantime prize fights had become "glove contests," but without the ruffianism which had formerly given pugilism its great effect on the atmosphere of the ring.

It was no uncommon practice in those bad old days for the backers of the losing man to come to the rescue of their fighting champion by breaking up the ring. One reads of a fight in 1844 where the men had a space of but two yards in the ring, despite the view of the ring-keepers, and when the referee (Tom Spring) was so hustled by the mob that he occasionally threw up his hands in despair. One of the principals was struck on the head with a bottle. Then there were the "English" fights, at railway stations which brought the sport into bad repute.

Before the fight between Jim Mace and Tom King, in 1882, Fenchurch street station was, practically, in a state of anarchy. The police were so busy with the crowd of the fancy going to board the special train were beaten and injured, and the managers were so alarmed by the forbidding aspect of the mob that they decided to face the mob with a rush for the train, and wisely went home. Even the "slap-up" Corbittian and ferret lover of fighting, who had not been so long in the ring, was expostions of blackguards, and so the ring languished through "the old days" between Mr. Tools and the Game Chicken there grew a dark re-estimation.

Fitsimmon
It was probably the case of Bob Fitzsimmons, a Cornish man, who had achieved pugilistic fame in Australia and America which gave the "old days" some of its most interesting episodes. Many will remember Fitzsimmons' defeat of "Champ" Jim Corbett, at Carson City, in March 1897. A wonderful fighting machine was Fitzsimmons, and he was a "pusher" in this country, but since his virtual retirement, bred his equal. There have been "hopes" indeed—Jack Knickerbocker, Eighty-one Tonner, Ted Pritchard, and later, Ian Hague, Gunner Mott, and Bombardier Wells. But one of all these heavyweights have cut up in the hour of trial, and a successor to Corbett is yet to be discovered.

It is an axiom of the ring by the way, that a "good big" is better than a "good little." But "good big" has never been comparatively rare. There was the Stalybridge Infanter, for example. A fifteen-stone man and six feet three in height he was, and Jim Mace (five feet nine and ten stone) beat a big man in Tom King, Heenan's conqueror. Today the country is being anxiously raked to find a big Englishman capable, so to speak, of countering with some degree of confidence in the presence of Carpenter and Jack Johnson.

But the national vanity has experienced many a bitter quarter-of-an-hour since Figg established boxing as a popular science in England. Did not Dan Mendoza, a Jew, "cut the comb" of the vain and conceited Richard Humphries in April 1781, though eventually, indeed, "Gentleman" Jackson—a herculean pugilist—beat him in a forty-minute fight, which he did by holding him off the ground by the hair with his right hand?

Then there was the first fight between Tom Cribb and Molyneux, a black, whose mightily chopping blows beat the massive Englishman to earth, almost as if he were a stone in his hand. While the parties wrangled Cribb recovered, and in the end stoutly sustained the boxing vestige of the Anglo-Saxon race. One has to confess that there have been times in the ring when fair play has been regarded as anything of a jewel. It is also true that the backers of Tom Sayers cut the ropes between him and Heenan on April 17, 1850. For English sportsmanship has had, and still has, its weaker moments.

Why Boxing Declined And Views on Present Revival
SOME OLD-TIME CONTESTS
Not Always Fairplay Prevalent—The Influence of "Lanky Bob"—King George Sees London Bouts
(Manchester Guardian.)
Is the present revival of boxing newspapers? It has been asked. Have the press suddenly taken it up again? Or has the coming of Carpenter made a difference?
One is compelled to answer equivocally, yes or no. It is true that many sports-writing journals are finding boxing contest "good copy," and news about them is eagerly swallowed by the public. But editorial interests, matters may be only evanescent, and before long the columns devoted to boxing may be cut down to mere paragraphs. Carpenter's meteoric career, and indeed the whole amazing phenomenon of the modern Gullie passion for boxing—shades of Belcher and Mace, who would have thought of France producing such a hero?

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

Not even the cold weather of the last few days can obliterate the fact from the minds of the good people of St. John that for one day this week, the city was a scene of joy and gladness.

On Friday last at the residence of Mrs. F. S. Bayne nearly sixty members of the Loyalist, DeMolles and Brunswick chapters of the Imperial Daughters of the Empire assembled to hear an instructive and interesting address on the work of the order by Miss Bolton of Toronto.

Mrs. James Straton wearing a lovely black chiffon and satin gown, entertained at dinner on Friday evening for Miss Bolton, at her residence in Mecklenburg street, when covers were laid for eight.

Miss Bolton was entertained very informally at tea on Saturday afternoon by Mrs. Busby, after addressing the members of the Women's Local Council in the High school assembly hall.

On St. Patrick's day Mrs. Hugh Mackay was hostess at an enjoyable dinner at the L. M. Club in which the honors of the occasion were shared by Mr. Malcolm McAvity, the entertainment being given to celebrate their joint birthday which, although not the actual date of the anniversary, was deemed enough to form the excuse for a pleasant gathering of their friends.

After dinner bridge was played, Miss Violet Whitaker and Mr. J. G. Harrison winning the prizes. The guests were Miss McMillan, Miss Frances Steaton, Miss Jeanette Bridges, Miss Dorothy Purdy, Miss Violet Whitaker, Miss Winifred Barker, Miss Frances Steaton, Miss Edith Schofield, Mr. Hugh Mackay, Mr. Malcolm McAvity, Mr. Heber Vroom, Mr. Cyrus Leitch, Mr. Mackay, Mr. Alexander McMillan, Mr. Allan Thomas, Mr. J. G. Harrison, Mr. Laurence Kelly, Mr. Don Skinner, Mr. F. Fraser.

"WHEN THE EARTH TREMBLES"

Earthquakes such as was experienced in California with such disastrous results keeps the people guessing whether they may occur again. It is no guess when you say two-thirds of the citizens believe the revenues for civic purposes are unjustly distributed, placing those who attempt to improve one city at a great disadvantage.

\$1,000 off of all incomes, No taxes on household furniture, 20 per cent. off of all improvements. This is the first step.

Answers to some questions asked me by phone and letters. "Question: If I owned a freehold lot with house, what would happen if land tax was adopted?" Answer:—There is so much vacant land that practically escape taxation that if it were properly assessed, your taxes would not be more than one-half the amount you pay now.

MORNING NEWS OVER THE WIRE

The jury in Winnipeg in the Hagel Westlake case yesterday found a verdict of guilty against the lawyers for Kral, Chenko and his companion, on the charge of aiding the murderer of H. M. Arnold to escape.

Abyrden rink, at Anahers, N. S., was destroyed by fire last night. A hockey match had just finished in the rink and it is supposed the fire started in one of the dressing rooms. The rink is insured for \$25,000.

Hon. W. P. Jones and Mrs. Jones, of Woodstock, were visitors in the city this week.

The Wednesday Evening Club met on Tuesday at the residence of the president, Mrs. Frank E. White, vice-president, and Miss Edna Austin, secretary-treasurer.

Mr. Manning Doherty, who has been in Florida for the past two months, has returned home. Mrs. Doherty and two children are still in the south.

Mr. and Mrs. W. I. Fenton are spending this week in Boston.

Mr. Arthur M. Boulton, Quebec, was a visitor in town last week-end, at the Royal.

The Brown Betty assembly room, was the scene of a most enjoyable affair Tuesday evening, when the Misses Katherine and Frances Murdoch, daughters of Mr. and Mrs. J. A. Murdoch, entertained more than 100 of their friends at a St. Patrick's dance.

Mr. and Mrs. Percy Thomson have returned home from New York, having spent the week-end at the automobile show in Boston.

Mr. Eber Turnbull, who was in Boston for a month, is now visiting relatives in Fredericton.

Mrs. Russell Sturdee is in Moncton, the guest of Mrs. Charles Robertson.

Mr. and Mrs. James F. Robertson sailed last Saturday from Boston on the steamer Canopic for England and the continent.

Mrs. Richard O'Brien left for Boston last evening where she will be the guest of her niece, Mrs. McCreary.

Mrs. H. D. Emerson and her daughter, Miss Ethel Emerson, are anticipating a trip to Europe. They expect to sail soon.

The motor show in the new armory has attracted a fashionable throng this week. Under the auspices of the ladies who conduct the Green Lantern, afternoon tea was served and the accommodation thus provided was much appreciated by those who attended the afternoon show.

Mrs. Royden Thomson returned from Western Canada last Tuesday. While there Mrs. Thomson received much special attention from old St. John residents and others.

DIAMOND QUEEN ELUDES PURSUER

Gives Slip to Detective in Budapest When Capture is Near—New York Merchants Lose

(New York Herald) Traced by detectives to Budapest, Miss Antonette Bonner, known as the "Queen of Diamonds" formerly of No. 89 West 116th street, and who is accused of the embezzlement of uncut diamonds of the value of \$75,000 belonging to Maiden Lane gem dealers, has vanished.

According to Leigh he had followed Miss Bonner from Paris to various continental cities and finally almost brought her to book in Budapest. She managed, by the aid of friends, to escape from the city, and not a trace of her whereabouts was discovered.

The "Queen of Diamonds" was not received with delight by Maiden Lane diamond dealers, who hoped to recover at least a part of the gems belonging to them which it is known she took with her when she left this city for Europe last October. On the day before she left for Europe she called \$7,000 to Paris.

About \$200,000 worth of diamonds were pawned by Miss Bonner and J. B. Kissinger, her business associate, in Maiden Lane, who she had secured through the operations of Miss Bonner and Kissinger in France.

As Tigo, the dog who belongs to the Spink household, was finally detached from the premises of the new building by Mr. Spink's vigorous efforts, the victim of the midnight began to express his mind with unbridled freedom.

IS TEN PER CENT. TOO MUCH? New York, March 5, 1914. Editor and Publisher: Through the somewhat radical statements made in one of your advertising promotion arguments, in my issue for March 1, have unwittingly stirred up a "storm" of criticism and dissent in some New England cities.

Of course, much depends upon the choice of channel through which to send whatever appropriation is made—2 per cent. in a medium of questionable merit and questionable circulation would be inviting bankruptcy, while 10 per cent. in mediums that reach the great buying public would bring highly profitable returns.

A Powerful Medium In these times when business is run on science and efficiency it would be well to give serious consideration to the market that is reached by The Daily Telegraph and Evening Times-Star.

The Telegraph and Times-Star. I have replied to the merchants through the News to the general effect that if the ten per cent. standard seemed to them ruinous, the two per cent. appropriation was not justifiable. For if a store is advertising as an expense, to be taxed upon the store's patrons, then not a cent should be spent for advertising.

22,271 Copies NET This without undue forcing—solely on the merit of the papers is our circulation gained—and this is the kind of circulation which should interest the local merchant who is bidding for the patronage of this city and province.

The Top Notch in Co-operation The Telegraph and Times-Star are not satisfied with merely inducing a merchant to use their columns. They believe the biggest work in the business directory today is CO-OPERATION, and to give their advertisers the highest possible co-operation a FREE CUT SERVICE is maintained in our advertising department.
