(Sir Oliver Lodge, famous English savant, has just stirred the whole world by declaring that not only do we keep on living after death, but that it is entirely within the cold province of science completely to prove THIS! In America a master brain is also at work in attempting to solve the strange import of "things not of this earth." He is Hamlin Garland, famous writer, author of "The Shadow World" and leader in a great national society for psychical research. Garland in his years of investigations of the occult, has met with many astounding and apparently inexplicable experiences—things involving deeply mysterious phenomena. And now he himself has selected and written the greatest of these for the readers of this paper.

In this article today he tells how the

A few years ago Prof. Dalbeare, pro-fessor of psychics at Tufts college and myself, had a most marvelous "sitting" with the woman-psychic who I had seen perform such wonders in Los Angeles. This seance was held in Prof. Dalbeare's This seance was held in Prof. Dalbeare's own library. No one but ourselves. Mrs. Dalbeare and the psychic were present. Conditions were absolutely of our own making except that the room was dark. The psychic, confined to her chair by the silk threads the ends of which were held by Dalbeare and myself—fell into a death-like trance and while in this condition and while absolutely motionless and silent a large tin cone, which stood and silent, a large tin cone, which stood upon the table, was knocked about. Books were thrown from the shelves be-

Prof. Dalbeare was profoundly puzzled as well as amused by the events. Pillows were patted and tossed around, books hurled through the air; my chair was tapped at a distance of six feet from the psychic and the cone moved with unerring precision to whatever point in the room we indicated!

The table was shaken as if by a strong man—And yet the silk threads remain nan—And yet the silk threads remain-d undisturbed and no slightest sound

This Home-made Cough Syrup Will Surprise You

Stops Even Whooping , Cough Quickly. A Family Supply at Small Cost.

Here is a home-made remedy that takes hold of a cough instantly, and will usually cure the most stubborn case in 24 hours. This recipe makes 16 ounces—enough for a whole family. You couldn't buy as much or as good ready-made cough syrup for \$2.50.

Mix two cups of granulated sugar with one cup of warm water, and stir two min-utes. Put 2½ ounces of Pinex (afty cents worth) in a 16-ounce bottle, and add the Sugar Syrup. This keeps per-fectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps end a cough.

A Credit to the Name

If you already know Red Rose Tea you will expect much of Red Rose Coffee

because of its name alone. Nor will it disappoint you; for it is worthy of its name.

Blended to combine strength and rich flavor, this fine coffee is crushed new-roasted into small grains and freed from chaff and dust. These uniform grains readily give the true coffee flavor to a brew which pours clear with-

SIR THOMAS

Stringency Past, Next Year More Prosperous

C. P. R. ANNUAL STATEMENT

Bounteous Crops Insure Great Business Activity - Details of Tremendous Undertakings of Great

Montreal, Oct. 1—At the annual meeting shareholders Candian Pacific Railway Company today the report of the directors was unanimously adopted.

David McNicoll, Chas. R. Hosmer, Hon. Robert Mackay and Hon. James Dunsmuir were re-elected directors.

A resolution was passed authorizing the issue of four per cent. debenture stock on account of branch lines, and the extensions of branch lines and of steamships mentioned in the annual re-

In moving the adoption of the report,

"With the active business conditions that prevailed throughout the year, your gross earnings reached the high water mark of nearly \$140,000,000, but since the turn of the year, there has been a decrease, due to the falling off in the movement of westbound traffic, as well as in the building and other trades throughout Canada. However, thus far in the year, your gross revenue is larger in the year, your gross revenue is larger than it was in 1911, and with the renewed confidence and courage that will develop everywhere, as the result of the bountiful crops, with which the country has been blessed, and the general improvement in the money market, that begins to make itself manifest, there is very reason to anticipate another satisfactory year.

In ten years the annual gross income has grown from \$43,000,000 to \$139,000,ooo, and if Canada is to meet our expectations in point of population and prosperity,—as beyond doubt it will,—there should be a proportionate increase during the next ten years, provided that we have the readdled equipment and we have the roadbed, equipment and facilities to handle the traffic as against facilities to handle the traffic as against all comers. This does not mean that the expenditures for these purposes during the next few years, need be anything approaching those of the past, because when the lines now being built, are completed, our construction programme may be substantially modified, and with the exception of important improvements at one or two noints in eastern ments at one or two points in eastern Canada, where congestion during the busy season is annoying as well as ex-pensive, and the completion of a second track on portions of the main line, we ahead of our requirements.

will, by the end of this season, be well ahead of our requirements.

Great Increase in Capital.

"This year the company's bond, debenture and share capital, including the recent issue of \$60,000,000, is \$283,000,000 more than it was in 1903. Of this amount \$123,000,000 was expended in the construction and acquisition of additional mileage and the purchase of ocean, lake and river steamers, and the additions to your car and locomotive equipment absorbed \$101,000,000. The balance of \$58,000,000 was used for the general improvement of your property, but this amount was supplemented by premiums, on stock issues, and appropriations from surplus earnigs to the amount of \$105,000,000, nearly all of which will have been expended by the end of the current year, so that you will have invested in your property in those ten or eleven years, this large sum of \$105,000,000. That will represent no capital liability and will consequently make no draft upon your revenue.

"After making due provision for interest on their cost and depreciation we may safely anticipate a revenue of \$2,000 from the trans-Atlantic and the trans-Pacific steamships of the railway," states the report at one point. "The formation of a steamship company to acquire, lease and provide means for the construction of steamships is under consideration."

w. T. White, minister of finance, in tariff matters, and will advise concerning fair return and that hereafter the profits fair return and that hereafter the profits shaughnessy, Right Hon. Mr. John Johnson, Coleman, Alta., writes: "Three years ago I was cured of blind, itching piles of 27 years' standing by using Dr. Chase's Ointment. I used to think that death would be the only relief I would ever get from the terrible misery of piles. Often I was laid up for three days at a time, and at other times worked when I should have been in Vancouver. There is but little building going on and there are thousands of men walking the streets looking for employment. Conditions will probably be worse before they are better.

"Dr. Chase's Ointment is worth sixty dollars a box instead of sixty cents. I am a different man since using it. I am farming all the time, and never miss aday. Words fail to express my gratitude for the cure this ointment made for me. I cannot tell half as much about it as it deserves. Anyone doubting this can write direct to me."

Millinery Accessories

Novelties in Great Profusion to Duplicate Every Trimming Effect of The New Season

Our showing of millinery accessories is exceptionaly interesting this season and comprises all the novelties that go to make up the ultra fashionable hat. Features are tall feather decorations and we have a great variety suitable for use on

both dress and tailored hats. The extremely dressy hats will require fancy ostrich which appears in eccentric shapes, twisted or curled in grotesque forms.

For the plainer hat or chapeau de trotteur, the correct thing will be lady Amherst pheas ant tails, vulture feathers, coque feathers in natural bronze or dyed in all the new colors, band wings, angle wings, mercury wings, marabou feathers, etc.

Sky scraper effects are the latest treatment for fancy mounts and all quill effects. Then there is an abundance of black ospreys, hackle bands and feather bands of all descriptions. A glance at our King street window display will afford an idea of how varied and beautiful are the hat embellishments offered our patrons.

THE CUTEST OF NEW HATS FOR KIDDIES

Mothers will be delighted with the offering of hats and bonnets for kiddies from 3 to 6 years which has been prepared especially for this week end. The very cutest effects will be shown in French and American styles and among the colorings will be cerise, saxe blue, white and navy, black and cerise, black and saxe, navy and white, etc. These hats and bonnets are reasonably priced and range from \$1.50 to \$10.00.

TRIMMED HATS FOR LADIES AND MISSES

There will also be the usual fine exhibit of trimmed hats for ladies and misses bringing some entirely new and very handsome creations.

MAY FORM A CLUB

Often Laid Up for Days at a Time—
A Wonderful Tribute to Dr. Chase's Ointment.

Few people were ever more enthusiastic in praising Dr. Chase's Ointment than the writer of this letter. When you read the description of his case you will not wonder why.

Mrs. E. E. Atherton Smith, who is vice-president for New Brunswick of the Association of Canadian Clubs, desires all St. Andrews ladies interested in the formation of a Women's Canadian Club to meet with her for this purpose in Memorial Hall on Friday afternoon.

A locomotive was running yesterday on the Valley Railway north of the C. P. R. station in this city. The locomotive is one secured from the I. C. R. by the Hibbard Construction Company for use in track laying and was being operated yesterday in that connection.

A good start has been made on the track laying and it is expected that the first sixteen and a half miles to Kelly's Creek will soon have the steel. At Kelly's Creek will soon have the steel. At Kelly's Creek it is likely that a temporary trestle will be erected so that the track laying can be proceeded with north of that point instead of waiting for the structural steel to arrive.

"RUBE" OLDRING, THE BACHELOR LEFT FIELDER OF THE ATHLETICS

"RUBE" OLDRING, THE BACHELOR LEFT FIELDER

New York, Sept. 28—Strange as it on his learning to the extent of becommany seem, Reuben N. Oldring is the only player on either the Giants or the Athletics who was born in New York city, and his parents picked Reuben for a name to conceal his metropolitan origin. Therefore, it can be seen he is really an honest-to-jimmy, on-the-level "Rube," and that it is not a nick-name. Oldring is one of the noisists men in baseball, going around with his muffer cut entirely out all the time and a seeking places where the acoustics are good. Several anti-noise societies have a sensational fielder. He was always a victous hitter, batting right-handed, and a seeking places where the acoustics are good. Several anti-noise societies have spoken to "Connie" Mack about his blond outfielder, but silent "Connie" cannot do anything toward suppressing the effervescent "Rube." Besides, most of the templers of the Athletics are so quiet that "Rube" raises the average of the feffervescent "Rube." Besides, most of the templers of the Athletics are so quiet that "Rube" raises the average of the connection of the special place where the acoustics are good start that is not a nick-name of the connection of the connection

That is the real test of an argurer in the national game. The loudest talker always lands the decision. "Rube" is a most convincing conversationalist in his set.

Reuben, as has been said, was born in New York in 1884, and received his education in the public schools and on the lots of the east side, excelling in baseball, swimming, and tossing pennies. Since that time, he has enlarged

Perhaps this is the reason he seldom smokes. He knows too much about the trade. The younger cigar maker soon discovered that he could get more money by playing baseball on Saturdays and Sundays with the semi-professional teams of the St. Johnsville neighborhood than rolling cigars all week. COMPLETION OF THE

That the plans of the Grand Trunk Pt fic Railway for making St. John their Atlantic terminal still lack any definite shape and are only in a very primitive stage of development, was the substance of the report of Mayor Frink to the common council yesterday on his

return from Montreal. Though no definite information regarding the company's plans for St. John could be expected before E. J. Chamberlin, president of the road, had been over the ground himself, said the mayor, a semi-official statement had been re-ceived from Mr. Wainwright to the efceived from Mr. Wainwright to the effect that the company intends to take no action so far as this city is concerned until the completion of the Valley Railway over which the G. T. P. will probably obtain running rights, thus avoiding the necessity of duplicating tracks.

The mayor reported furthermore that he had gained the impression that the company is unwilling to go ahead in the direction of St. John until the harbor extensions have reached a much more

With me it's a hunch more than the dope, and my hunch for the next world's series is the Athletics. I know what they've done before, and I know and I'll admit I'm the most rabid bug that ever bit at an umpire—I fool round the theatre. But baseball is where I live, and I've kept pretty close tab on

the situation.

I like the Athletics in this fight for a number of reasons. First, because hey can everlastingly smear that pill. Second, because they have a couple f guys out there who can keep the other fellows from smearing it. I mean

Third, because they have the fielders to back up this pitching and protect it

Look at what Mathewson or Marquard must tackle. First, there's Eddie Murphy, a 800 hitter; then Rube Oldring, another; if these two are nailed there are Collins, Baker, Mc-Innis and Strunk, still waiting.

If he gets by one, the next is still harder. What's the good in fanning Collins to get at Baker? Any one of Collins to get at Baker? Any one of the collins are keyed up to the crack-ing point, and the one that hits the ball oftenest and hardest gives the other guys a greater chance to blow.

Cathedral Is Losing an Eloquent Preacher and an Active Worker

(Continued from page 1)

In view of what the adjutant said, it was decided to make this question of greater care of the children, especially young girls, one of the subjects for discussion at the annual meeting of the cussion at the annual meeting of the association to be held in the last week in October.

In the members of the Cathedral congregation that Rev. E. J. Conway is to leave the city. He has been appointed to the charge of Chipman parish, Queens county, which includes Minto, Newcastle and Young's Cove, and he will leave next week to take up his new work.

Father Conway succeeds Father Hannigan, who, in turn, succeeds It will be learned with regret, especial

association to be held in the last week in October.

Last year the leading topic at the annual meeting of the Associated Charities was the need of a Child's Protection.

Act. Such an act has since been passed by the legislature. Last year also one of the subjects discussed at the annual meeting was the need of a prison farm. No action has been taken to provide such an institution, and the subject will therefore be discussed again at this year's annual meeting.

Still another subject, which will be introduced by the president, W. S. Fisher, will be the wider use of the school buildings for the benefit of boys and girls, and young men and women, who have left school. Mr. Fisher has studied this question in other cities, where there is such a wider use of school buildings, and is convinced that something more ought to be done in St. John to utilize the expensive plant provided for educational purposes.

In the Conway succeess Father Hanningan, who, in turn, succeeds Father Poirier at St. Martins; Father Conway, whose home is in Hampton, was ordained to the priest-hood six years ago. Four of the intervening years he has been stationed at the Cathedral. He is an eloquent and forceful preacher, very active in good works, and deeply interested especially in guiding the young men. In this connection his work as spiritual adviser of the Young Men's Society of St. Joseph has been very effective. Throughout the city he is held in high esteem and he will be followed with all good wishes to his new field of labor.

Investigation Will Prove That We Give the most for the Money in Men's Clothing

Each season hundreds of men find out that they can buy clothing to better advantage at Oak Hall than anywhere else in St. John.

Twenty-five years of this finding-out process have brought us the largest clothing business in the city, and each year our leadership becomes more pronounced. Now it will be perfectly clear to any man the matter the least thought, that such remarkable success could result only from remarkable inducements
